

# DISTRICT TOURNAMENT QUALIFYING PLAN ADOPTED

A district tournament qualification plan for the National Collegiate Wrestling Championships, leading to a shorter intercollegiate season, has been adopted by the NCAA Executive Committee.

The qualifications will begin in 1971, the shorter season in 1972.

The district plan is designed to reduce the number of contestants at the finals, which has grown to an overwhelming 394 in 1970. The Wrestling Rules and Tournament Committee is seeking a more manageable field through the plan and a more orderly finals.

The system calls for wrestlers to

enter the finals through seven district tournaments and the College Division Championships. Each NCAA district has been granted a number of qualifiers for the nationals, weighted upon the number of institutions which sponsor the sport in that district, with the exception of District 6, which has too few institutions to warrant a tournament.

Wrestlers from institutions in District 6 will qualify by state in the tournaments of adjoining districts. Wrestlers in Arkansas will qualify in District 3, those in Texas in District 5 and those in New Mexico in District 7.

The allotments of national qualifiers in each weight class per district are:

District 1	2
District 2	5
District 3	2
District 4	5
District 5	5
District 7	4
District 8	5
College Division	4

This will provide a maximum field of 320 individual participants for the finals.

Effective in 1972, the College Division and district tournaments will be held on the first weekend in

March, with the finals following on the second weekend. The actual dates that year will be March 3-4 and March 9-11.

The 1971 University Championships at Auburn University will be held March 25-27 as scheduled previously. The regionals will be contested March 12-13.

The request for a shorter season came through the Rules and Tournament Committee from the wrestling coaches, who felt the competitive season had been starting earlier than in the past and could end in early March rather than on the last weekend of the month.

## UD Basketball Championship Format Set

One experiment in the format of an NCAA Championship event was approved and the formats of two other events were changed by the NCAA Executive Committee at its April meeting.

The Thursday evening-Saturday afternoon format for the University Basketball Championship regionals and finals was approved on a permanent basis. It had been used in 1969 and 1970 on an experimental basis at the request of the University Basketball Tournament Committee.

At the request of the University Baseball Rules and Tournament Committee, the Executive Committee granted permission for regular scheduling of NCAA baseball competition on Sunday.

Scheduling will not be permitted prior to noon, and any team which does not wish to play on Sunday may require that its contests be scheduled around that day.

The other format change came in gymnastics, where a change in entry rules was adopted. In the future, competing teams will be required to have three all-around competitors and two specialists, whereas current rules call for two all-around performers and three specialists.

The change reflects increased emphasis in American gymnastics on international competition, where participation is on an all-around basis only.

In another development, the Executive Committee denied a request by the Ice Hockey Rules and Tournament Committee to require all officials working the NCAA finals to be members of the National Ice Hockey Officials Association. The Executive Committee decreed that the officials shall be chosen with regard to merit only.

## Council Endorses Baseball Season Restrictions

A recommendation to limit the intercollegiate baseball playing and practice season was adopted in principle by the NCAA Council at its spring meeting.

The proposal came to the policy-making body from a special Council-appointed Committee which studied the sport and its schedules and season.

It calls for a limit of 40 regular-season games by a team during the academic year, a specified fall season and a restriction on the start of spring practice.

Contrary to one report from the meeting site, the action taken by the

Council was merely to endorse the recommendation. For these restrictions to become binding upon the membership, a specific amendment to the By-laws must be drafted, then presented to and approved by the annual Convention.

If these steps are taken, and legislation is approved by the 1971 Convention, such legislation would not become effective until August 1, 1971. Thus the first academic year affected would be 1971-72.

The recommended restrictions on the sport include:

(a) A limit of 40 regular-season games in one academic year;

(b) A fall season of 30 days activity within a six-week period would be permitted;

(c) Following the conclusion of this fall season, no activity would be permitted prior to January 15 (or February 1).

In (c), the two dates are given because the Committee intended for the Council to choose whichever date it preferred. It will do so at its August meeting.

When totaling contests against the 40-game limit, all fall and spring intercollegiate games and other games against outside opponents would be counted for a single academic year.

## Hollywood To Host '72 Convention

Hollywood will be the site of the 1972 NCAA Convention, the Association's Executive Committee has determined.

The site of the NCAA's 66th annual Convention will not be among the movie stars of California, however, but among the palm trees of Florida.

NCAA headquarters will be in the Hollywood Beach Hotel. The dates will be January 10-12 for the Convention proper.

The American Football Coaches Association, United States Track Coaches Association and American Association of College Baseball Coaches conventions will be in the same city at the Diplomat Hotel.

The College Athletic Business Managers Association members will gather at the Marco Polo Hyatt House in Hollywood.

Top Matman

LARRY OWINGS, University of Washington sophomore wrestler, was chosen the outstanding performer at the 1970 National Collegiate Wrestling Championships. Owings defeated the legendary Dan Gable of Iowa State, the first loss for the Cyclone great in 181 high school and college matches. Further details of this match and the 40th Championship Meet may be found on page 6.

## NCAA COUNCIL FILLS FOUR VACANT POSTS

Four vacant posts on NCAA committees were filled by the Association's Council at its April meeting.

President Malcolm Moos of the University of Minnesota was appointed to a university president's post on the Theodore Roosevelt Award Jury. The body is composed of four presidents, four private citizens, two faculty athletic representatives and two directors of athletics.

Alan J. Chapman, Rice University, was appointed to the Academic Testing and Requirements Committee. Dr. Chapman is a member-at-large of the NCAA Council.

Andrew Laska, director of athletics at Assumption College, was appointed a member of the College Division Basketball Tournament Committee.

Edward M. Czekaj, director of athletics at Penn State, was appointed to the Lacrosse Rules and Tournament Committee.

## USCSC Competition in Jeopardy

A small, unheralded band of college students proudly carried this nation's colors in Finland last month at the winter World University Games. Nineteen young men and women won eleven medals against some of the world's finest skiers and skaters and as a result the USA finished second in the unofficial team standings. The Soviet Union, represented by more than seventy-five athletes, finished first.

Unfortunately the news media paid little attention to the accomplishments of Eric Poulsen, Rosi Fortna and others, and therein lies one of the basic problems confronting the United States Collegiate Sports Council (USCSC).

The USCSC is composed of the NCAA, NAIA, NJCAA and AAHPER. In September, 1967, the USCSC received the franchise as this country's representative in the International University Sports Federation (FISU), sponsor of the World University Games, and other international competition designed expressly for college students.

### Council Approved Participation

The NCAA Council, in approving the Association's involvement in the USCSC, agreed that participation in the FISU movement provided a natural extension of the intercollegiate athletic program.

A recent FISU publication included the following observation about college athletics.

*"University sport was born at the same time as the university undergraduate himself. From the earliest times, it has been students who have realized that sports stood for both physical and moral health, for contentment of mind, for youth and for pleasure. The need to match his own capabilities with those of his opponents has always been a part of man's life and it is not surprising to find that encounters between groups of students are as the origin of sports themselves."*

Intercollegiate athletics have been responsible to a large degree for this country's sports development. The United States excels in Olympic competition in those sports which are popular in the school-college community. The reverse is true in sports not promoted by the high schools and colleges. It is only natural for the United States to assume an important role in FISU competition.

With an optimistic attitude and a strong belief in the purposes of FISU, the USCSC commenced operation three years ago. Games committees were appointed and an executive director employed.

Unfortunately, the USCSC has been beset with financial and personnel problems. Consequently, its development has been hindered and the organization has not progressed as rapidly as desired.

Turin, Italy, will be the site of this summer's World University Games (August 26-September 6). Games committees have been developing plans for the selection of teams in the sports of basketball, track and field, gymnastics, fencing, water polo, swimming, volleyball and tennis. Outstanding coaches, such as Vern Wolfe, Archie Simonson, Chet Murphy and John Bach, to name a few, have devoted time and effort to secure quality performers.

It would be reasonable to assume that the USA will be well represented at this summer's WUG. The main question, however, is will the USA be represented at all?

To date, fund raising efforts have been unsuccessful. A combination of youth, athletics and international good will should sell, but the USCSC coffers are bare. The State Department has generously assisted in the past and strongly endorses the USCSC program, but it is imperative that other means of financing be established.

### Russia to Send 215 Competitors

A total of fifty-three countries have indicated that they will compete in Turin. The Soviet Union plans to enter 215 athletes, the maximum number. France, Germany, Brazil, Japan, Great Britain, Poland, Czechoslovakia, Hungary and Italy will be represented by more than 100 athletes.

Where does this leave the USA? The size of the United States squad and the number of sports in which this country will compete will be determined by finances rather than available talent. Efforts are underway to raise funds to send a representative squad to Italy, but it appears certain that the USA will not enter athletes in all sports.

There are sufficient reasons for the USCSC's lack of progress, but the burden of performance rests with the USCSC if it is to avoid what could be an embarrassing situation this year.

**It is imperative that the colleges and universities, which are the integral part of the program, be better educated about the USCSC and FISU. The public and the news media must be informed about the caliber of competition, considered to be second only to the Olympics. Sound financial planning is necessary to insure adequate USA representation in future FISU events. Improved organization and imaginative leadership are needed now!**

The 1972 winter World University Games are scheduled for Lake Placid, New York. Paris will host the summer WUG in 1973. Will the USCSC be able to meet the challenge? There is much to be done if the United States is to assume a leadership role in FISU, and hopefully the NCAA membership will respond affirmatively when asked to cooperate.

In order to clarify the Association's rules [Bylaw 4-1-(d) and 4-6-(b)-(2) and (3)] as they affect junior college transfers, the following interpretations are presented:

**Situation:** A prospective student-athlete was a sub-1.600 predictor at the time of his graduation from high school. He enrolled at a junior college for the first time prior to January 8, 1969, and proposes to transfer to an NCAA member institution after one year (two semesters or three quarters) or after one and one-half years (three semesters or five quarters) at the junior college. He is not a graduate of the junior college.

**Question:** Upon transfer to an NCAA member institution, what is the prospect's eligibility status—for practice, participation, financial assistance and NCAA-sponsored events?

**Answer:** The prospect could be eligible immediately to practice for and participate in intercollegiate athletics (regular season) and receive financial assistance (in which his athletic ability has been a factor in the award) if his accumulative grade point average for all transferable degree credit hours from the junior college was 1.600 or above. He would not be eligible for NCAA-sponsored events unless (1) he presented a minimum of 48 semester hours or a minimum of 72 quarter hours of transferable degree credit or (2) presented a minimum of 24 semester hours or a minimum of 36 quarter hours of transferable degree credit from the junior college with a "B" average.

He would not be eligible for NCAA-sponsored events unless (1) he presented a minimum of 48 semester hours or 72 quarter hours of transferable degree credit or (2) presented a minimum of 24 semester hours or a minimum of 36 quarter hours from the junior college with a "B" average.

**Situation:** A prospective student-athlete was a sub-1.600 predictor at the time of his graduation from high school. He plans to enroll at a junior college as a regular student for the first time subsequent to August 1, 1970, and plans to transfer to an NCAA member institution after one year (two semesters or three quarters) or after one and one-half years (three semesters or five quarters) at the junior college. He will not have been graduated from the junior college.

**Question:** Upon transfer to an NCAA member institution, what will be the prospect's eligibility status—for practice, participation, financial assistance and NCAA-sponsored events?

**Answer:** The prospect could be eligible immediately to practice for and participate in intercollegiate athletics and receive financial assistance (in which his athletic ability has been a factor in the award) if he presented a minimum of 48 semester hours or a minimum of 72 quarter hours of transferable degree credit and had been in residence at the junior college for a minimum of two academic years, excluding summer sessions. Also, under these conditions, he could be eligible for NCAA-sponsored events.

## NOTES and QUOTES

**Darrel Hedric**, assistant coach, has been promoted to the head basketball job at Miami of Ohio. He replaces **Taylor Locke**, who will take over as head coach at Clemson.

\* \* \*

**Thomas Lawson**, formerly freshman basketball coach, has been appointed head basketball coach at Middlebury College. Lawson also is head soccer coach.

**William Meredith**, assistant to the business manager at Penn State since 1967, has been appointed ticket manager. He also will continue his duties as accountant for the athletic department.

\* \* \*

**Capt. Robert J. Kenny**, USAF, has been appointed varsity tennis coach at St. Michael's College. Kenny is an assistant professor of aerospace studies at St. Michael's.

# CORNELL CAPTURES CROWN IN 1970 ICE HOCKEY FINALS

Lake Placid, N.Y. — Cornell University reigns as king of collegiate ice hockey for the second time in three years. The Big Red took the National Collegiate Ice Hockey Championship March 21 at the Olympic Arena by beating Clarkson 6-4.

Cornell had earned its way to the final game by scoring two goals in the final period of the semis to beat Wisconsin 2-1. Clarkson also had a tough time in the semi-final game before edging Michigan Tech 4-3.

Cornell was a last period team in both games, as it scored three times in the last stanza in the championship game. The Big Red had consistently outshot Clarkson, ending with Clarkson goalie Bruce Bullock making 40 saves, while Cornell's Brian Cropper had to make only 15.

Dan Lodboa was the big man for the champions, scoring the three-goal "hat trick" in that last period.

That earned Lodboa Most Valuable Player honors, and a spot on the All-Tournament team. Others named to the team were Bob Poffenroth of Wis-

consin, Rick Magnusson of Clarkson, Bruce Bullock of Clarkson, and John Hughes and Steve Giuliani of Cornell.

The third place game was won by Wisconsin, 6-5. Three goals in the final period gave the Badgers the win. Murray Heatley scored the final two goals, at 13:32 and 15:55, with Poffenroth assisting on both.

The Championship summary:

## Championship Corner...

### Trampoline: CHAMPIONSHIP MEET DROPPED

Another, perhaps the final, step was taken in the sport/event of trampoline when the NCAA Executive Committee voted at its spring meeting to drop trampoline as a National Collegiate Championship event.

The action follows several years of debates, surveys and votes on the trampoline. The event was nearly eliminated following 1968, when it was conducted as a scoring event at the Gymnastics Championships. Instead a separate Trampoline Championships was held in 1969.

In 1970, two Championships were conducted—gymnastics and trampoline—at the same site, Temple University. When only three full teams and 18 individual competitors participated, the National Trampoline Championships apparently were doomed.

### CD Golf: MIDWEST REGIONAL SHIFTED

The Midwest College Division Regional Golf Championship has been switched from Northern Iowa to Southwest Missouri State College. The Tournament will be played June 1. Aldo Sebben is the host director of athletics, and any inquiries concerning the Meet should be directed to Sebben.

# Gymnastics Title Taken By Michigan

Philadelphia, Pa.—Michigan needed a superb effort from its horizontal bar participants, and got it, to win the team title in the National Collegiate Gymnastics Championships at Temple University, April 2-4.

Ed Howard, last man up on the bar, needed at least a 9.30 to give Michigan a tie for the title. He scored 9.45, enough to take home the championship trophy.

Michigan compiled a team score of 164.15. Iowa State scored 164.05 and Temple 159.90.

**Yoshi Hayasaki, a junior from Washington, took the All-around title, and also won the horizontal bar competition. He finished second on the parallel bars and third on the still rings.**

His teammate, Hide Umeshita, won a third in the All-around and a fourth on the parallel bars.

Ron Rapper of Michigan was the only repeater from a year ago, taking the honors on the parallel bars with the highest score in any event, 18.975.

Rapper had built up a tenth of a point lead during the preliminaries, and scored 9.50 in the finals to withstand a 9.55 by Hayasaki.

The results:

## TEAM CHAMPIONSHIP

1. University of Michigan 164.15
2. Iowa State University 164.05
3. Temple University 159.90

## INDIVIDUAL EVENTS

**Floor Exercise**—1. Tom Proulx, Colorado State, 18.575; 2. Stormy Eaton, New Mexico, 18.30; 3. Ray Jauch, Indiana State, 18.075; 4. John Crosby, Southern Connecticut, 18.00; 5. Rick Simmons, Iowa State, 17.975; 6. Paul Tickenoff, NW Louisiana State, 17.85.

**Side Horse** 1. (Tie) Russ Hoffman, Iowa State, 18.525; 1. (Tie) John Kusso, Wisconsin, 18.525; 3. Jim Yearwood, Southern Connecticut, 18.325; 4. Ron Alden, Southern Illinois, 18.075; 5. Doug Peak, Iowa State, 17.025; 6. Darryl Miller, Brigham Young, 16.90.

**Still Rings** 1. Dave Seal, Indiana State, 18.70; 2. Charles Ropiequet, Southern Illinois, 18.60; 3. Yoshi Hayasaki, Washington, 18.525; 4. Scott Whittaker, Arizona, 17.825; 5. Steve Rochell, Stanford, 17.675; \*6. Pete DiFurio, Temple, 8.975.

**Long Horse**—1. Doug Boger, Arizona, 18.475; 2. Mason Buck, Iowa State, 18.275; 3. Marshall Avener, Penn State, 18.10; 4. John Crosby, Southern Connecticut, 18.05; 5. Hob Bosse, Indiana State, 18.025; 6. Paul Tickenoff, NW Louisiana State, 17.75.

**Parallel Bars**—1. Ron Rapper, Michigan, 18.975; 2. Yoshi Hayasaki, Washington, 18.925; 3. Dennie Mazur, Iowa State, 18.525; 4. Hide Umeshita, Washington, 18.50; 5. Larry Jordan, Western Michigan, 18.125; 6. Tom Lindner, Southern Illinois, 16.625.

**Horizontal Bar**—1. Yoshi Hayasaki, Washington, 18.675; 2. Rich Scorza, Iowa, 18.40; 3. John Aitken, New Mexico, 18.225; 4. Dave Gilchrist, Indiana State, 18.125; 5. George Greenfield, California, 18.05; \*6. Pete DiFurio, Temple, 8.975.

**All-Around**—1. Yoshi Hayasaki, Washington, 108.25; 2. Pete DiFurio, Temple, 105.70; 3. Hide Umeshita, Washington, 104.75; 4. George Greenfield, California, 103.70; 5. Paul Tickenoff, NW Louisiana State, 103.70; 6. Brent Simmons, Iowa State, 101.60.

\*DiFurio's score\* from preliminary rounds: He was injured in team finals and scratched from the individual event finals.

The team which will suffer most from the recent stadium fire at Washington State isn't really the Cougars. Washington State will have to move two football games to other sites, but Idaho will have to move five. Idaho's stadium had been condemned, so five games were switched to Washington State. Now the fire has ruined that plan. It has been determined that the fire that destroyed the pressbox and 10,000 seats had been set.

# NCSS Feeds Networks College Sports Film Clips

The recent air traffic controllers slowdown created headaches for NCSS's Ron Schwartz, although he didn't even want to leave the ground. He just wanted to receive film of the NCAA swimming championships at Salt Lake City.

The first film shipment, due in New York early on a Friday morning, got lost somewhere and didn't turn up until four days later. But fortunately, film of the Friday and Saturday sessions finally made it in time for Sunday editing and Monday distribution.

Airline performance is just one factor in the success of the NCAA television film service, which is one of Schwartz' assignments at NCSS.

First, an explanation is in order. Most television stations produce early and late evening news programs heavily laden with local stories. They also present national stories, along with sports and features, which come from the networks through a daily electronic news service, subscribed to by more than 300 stations in the U.S. and abroad. NCSS helps produce some of the daily sports fare.

**How? By making available to all three networks a steady flow of film clips featuring top college players and game action from the collegiate sports scene.**

In football, for instance, Schwartz used thousands of feet of film shot by the NCAA Official Film Service and produced three to four spots a week for use on the three daily electronic feeds. Including pre-season and bowl

previews, football totaled 74 spots, which ran two to three minutes each.

## Morning-After Service

In basketball, the networks—for the first season ever—were provided with film clips the next morning after top games all over the country.

In both sports, Schwartz occasionally provided footage for network news stories of greater depth. For instance, Haywood Hale Broun of CBS used NCSS footage in his features on Penn State tackle Mike Reid and Louisiana State's Pete Maravich.

Basketball dominated the winter schedule, but hockey, swimming, wrestling and fencing also were represented. Schwartz and NCAA Promotion Director Jon Foley produced and directed five film shorts for use by NBC during its telecasts of this season's national basketball championships.

Schwartz and Foley went to Iowa State for wrestling, Indiana for swimming, Boston College for hockey, New York U. for fencing and to Johns Hopkins Hospital for an interview with an NCAA Postgraduate Scholarship winner.

The networks also fed clips of the four quarterfinal games of the College Division Basketball Championship.

This spring, Schwartz has arranged filming in baseball, track and tennis, and will cover the championships in gymnastics, volleyball and track. A series of 1970 football previews is being produced for this summer.

While much of the footage used comes from available film, Schwartz welcomes story or feature suggestions from individual sports information directors, particularly if film of good quality can be supplied to NCSS.

If the idea is attractive enough, however, NCSS or a network itself might shoot footage specially for an electronic feed or news program.

# USA Athletes Win 11 Medals At World Games

The United States team of 19 athletes won 11 medals at the recent World University Winter Games in Finland.

Only Russia, with over 75 competitors, topped the U.S. medal total.

The U.S. dominated alpine skiing, winning 10 of the 18 available medals and earning five of the six gold medals.

**Eric Poulsen of the University of Denver's NCAA Championship team won two gold medals and one silver medal in alpine events.**

He was supported by Rosi Fortna, Champlain (N.H.) Junior College, with three gold medals; by Karen Korfanta, University of Utah, with two silver medals; and by Ann Black, University of Washington, with one silver and one bronze.

The 11th medal was won by Jenny Walsh, Santa Rosa Junior College, who took a silver in figure skating.

## Strong Nordic Showing

Jim Miller, Fort Lewis College, and George Krog, Denver, surprised experts with fifth and sixth place finishes, respectively, in Nordic skiing. Veteran Dartmouth coach Al Merrill, advisor to the American team, called it the highest finish on record by an American in Nordic combined in a major international skiing event.

Merrill and co-advisor Willy Schaeffer of Denver called the Finns splendid hosts to the collegiate competitors from around the globe. They rated the competition to be of top caliber.

The U.S. team was organized and sponsored by the United States Collegiate Sports Council, American franchise holder in FISU (International University Sports Federation), sponsor of the World University Games.

George Killian, executive director of the National Junior College Athletic Association and USCSC Treasurer, served as chief of mission, while Nicholas Rodis, USCSC president, accompanied the team.

Russ Hoffman performs on the side horse before the large crowd attending the National Collegiate Gymnastics Championships at Temple University. Hoffman put a 9.30 and a 9.225 together for an 18.525 total score and first place.

# NOTES and QUOTES

Larry Overcast, assistant basketball coach at Trinity University, has been named head coach at Fort Lewis College. Overcast is a graduate of West Texas State, and also has a master's degree from that institution. He coached at Clarendon Junior College before moving to Trinity, and was known for his strong defensive teams there.

## First Repeat Champion

# Kansas Takes UD Indoor Track Title

Detroit, Mich. — Kansas came through in the weights and relays to become the first repeat champion in the National Collegiate Indoor Track Championships held at Detroit's Cobo Hall, March 13-14.

The KU two-mile relay team, anchored by freshman Brian McElroy, upset Kansas State to take first place and assure the team championship to Kansas for the third time.

The win enabled Kansas to nip Villanova 27½ to 26.

The two-mile was run in the fastest time ever on an 11-lap track, 7:25.7, with McElroy wrapping it up with a 1:49.7. McElroy had placed sixth in the 880 the night before, with a time of 1:58.3.

The Jayhawks had some help from miler Howell Michael IV, of William and Mary, who nipped Marty Liquori of Villanova in the mile, for the meet's biggest upset. If Liquori had won, Villanova would have had enough points to win the Championship. It was the second time in a row Liquori had been beaten for the mile title. Jim Ryun turned the trick last year.

Herb Washington of Michigan State, a sophomore, electrified the crowd with a world record—equaling 5.9 in the 60-yard dash. Washington won the race by a yard, after also beating Mel Gray, outstanding Missouri sprinter, in the semifinals.

Tommy Hill of Arkansas State established a new NCAA record in the 60-yard high hurdles, with a time of 6.9.

Kansas scored 13 points in the weight events, with mighty Karl Salb breaking the NCAA indoor record in the shot put with a heave of 67-2½. Kansans Steve Wilhelm and Doug Knop were second and third, the second year in a row the three finished that way.

The meet, hosted by the University of Michigan and sponsored by the Detroit News, drew 382 athletes from 101 institutions. Cobo Hall was sold out on both nights, for a total attendance of 18,791.

The results:

# THE CONFERENCES

The Western Athletic Conference's spring meetings will be May 13-16 in Salt Lake City in conjunction with the Conference's spring sports championships.

The faculty representatives, directors of athletics, sports information directors, business managers and various coaches' groups all will hold separate meetings.

The Western Athletic Conference baseball playoff between its Northern and Southern Division champions will be played May 22-23 at the site of the Northern Division champion. The winner of the best-of-three series has quite a record to uphold. The WAC champion has won the College World Series three of the past five seasons.

Sports information directors in the metropolitan New York area have organized an association, which they call Metside, Irving Marsh of the ECAC reports. The group's major goal is to coordinate activities of mutual interest. The first slate of officers includes Roger Hackett, Fordham, president; Les Unger, Rutgers, vice-president; Bill Esposito, St. John's, secretary; and Kevin DeMarris, Columbia, treasurer.

The annual spring meeting and spring championship events of the Southern Conference were largely scheduled for late April and early May, while the NEWS was in production. For the record, here are the dates of each:

Spring Meeting	April 30-May 1	Virginia Beach, Va.
Baseball	May 8-9	Ft. Eustis, Va.
Tennis	May 1-2	Davidson, N.C.
Golf	April 29-30	Southern Pines, N.C.

The 38-member Middle Atlantic Conference has a busy spring schedule planned, which culminates in the group's annual Business Meetings June 9-11 at Atlantic City, N. J. The other events and the date and site of each:

College Division Golf Championships	May 4	Delaware Valley College
College Division Track Championships	May 8-9	Dickinson College
University Division Track Championships	May 8-9	Lafayette College
College Division Tennis Championships	May 8-9	Swarthmore College
University Division Golf Championships	May 11	American University
Baseball Coaches, Sports Information Directors Meeting	May 19	Valley Forge, Pa.

The annual meeting of the Big Sky Athletic Conference will be held May 18-19 at Moscow, Idaho, with the University of Idaho serving as host.

## KNIGHTS WIN NABA TOURNEY

The Reading (Pa.) Exeter Black Knights won the third annual National Amateur Basketball Association Tournament played in Reading in early April.

Eight district representatives had won their way to the finals of the NABA, an important constituent of the Basketball Federation of the United States of America. Eligibility was for players who did not participate in collegiate competition this season.

Reading defeated Nelson Distributors of Denver 107-91 for the Championship. Tacoma (Wash.) Plywood won third place, while the Presto Chargers of Dallas, Tex., won the

Consolation bracket (fifth place).

Ron Krick of Reading, former Cincinnati star, was chosen Most Valuable Player in the Tournament. Others on the All-star team, with college attended in parentheses:

First team—Bobby Smith, Dallas (Bishop College); Chuck Nagle, Fort Atkinson, Wisc., Hawks (Wisconsin); Chuck Williams, Denver (Colorado); Bob Bauers, Denver (Colorado).

Second team—Clint Names, Tacoma (Washington); Lynn Nance, Tacoma (Washington); Henry Payne, Three Rivers, Mass., Outlet (American International); Jim Krick, Reading; Bill Hull, Tulsa Athletes In Action (Oral Roberts).

## Four Classed Differently For Baseball

Four institutions have been changed in baseball classification for 1970 statistical purposes by the NCAA Baseball Statistical Classification Committee.

Moved from College Division to University Division on the basis of strength-of-schedule were Ball State, University of Nevada, Reno, and American University.

Moved from University Division to College Division was the University of Rochester.

A number of University Division institutions whose schedules listed a majority of College Division teams were to be warned by National Collegiate Sports Services, the NCAA's New York statistical bureau, that failure to schedule more University institutions might result in reclassification to College Division status.

Statistical classification in the sports of basketball and baseball—the two sports besides football in which national statistics are compiled by the NCAA—is the prerogative of a classification committee for each sport.

An institution's classification, for statistical purposes only, may differ from its self-declared competitive designation for participation in post-season NCAA championships, depending upon its ability to meet the criteria set by the classification committee for that sport.

In each case, strength of schedule is the major determinant used by the committee in its evaluations.

Consequently, an institution with a College Division competitive designation might be classified University Division for statistical purposes in either basketball or football—or both—because it had scheduled a majority of its games against University institutions.

Joe Avina, former coach at the College of San Mateo, has been appointed head basketball coach at the University of Portland. He succeeds Joe Etzel who recently was named director of athletics at Portland. Avina signed a three-year contract.

George Hanson has been appointed head basketball coach at the University of Minnesota. Hanson replaces Bill Fitch. Hanson has been an assistant at Minnesota.

Joe Pease has accepted a position at Fort Lewis College, Colorado, as director of athletics and head of the Department of Physical Education. Pease had been director of the Division of HPER at Emporia State.

Jerry Waugh, after a successful stay at Chico State College, has moved to San Francisco State. Waugh had a 30-19 record at Chico, and takes over the head basketball job from Paul Rundell, who has resigned the basketball job to devote full time to the athletic directorship.

Don Whalen, Director of Athletics and basketball coach at Fort Lewis College for the past 11 years has been named director of the new School of Education at Fort Lewis.

# NOTES and QUOTES

## DAN GABLE DEFEATED

# Iowa State Team Takes UD Wrestling Title

Ralph Miller, who took Iowa to the Big Ten title this season, has resigned and accepted the head basketball job at Oregon State. Miller has been coaching at Iowa for six years. He will succeed Paul Valenti, who has retired after six years as head coach and 18 as an assistant at Oregon State.

\* \* \*

John Novotny, who has been athletic counselor for the last three years at the University of Kansas, has been appointed to the dual position of assistant athletic director and athletic business manager at KU. He succeeds Monte Johnson, who recently resigned after ten years with the athletic department.

\* \* \*

Grant Standbrook, who has posted a 48-17 record as freshman hockey coach at Dartmouth for the last three years, has been promoted to the varsity job. He succeeds Ab Oakes, who resigned.

\* \* \*

Conrad Downing has become the sports information director at Wichita State College. Downing has been SID at Fort Hays State College and a journalism instructor. He succeeds Tom Vanderhoofven who has resigned to enter private business.

Evanston, Ill.—The name of the game is winning, but one of the most heart-warming moments in recent college sports history came after a loss at the National Collegiate Wrestling Championships.

Dan Gable of Iowa State, twice a National Collegiate Champion, and undefeated in 181 bouts through his entire high school and collegiate career, was beaten in the final match of the 142-pound weight class.

Yet when he stepped to the awards platform, he was tendered a standing ovation by the crowd of 7,785 at Northwestern's McGaw Hall.

Sports fans are known as a soft-hearted lot anyway, but there weren't many dry eyes in the hall when the applause ended, including Gable's.

The wrestler who beat him? Sophomore Larry Owings of the University of Washington.

It was no fluke. Owings had been beaten only once all year, by Mike Grant of Oklahoma, who won the title at 150 pounds. And he was pointing for Gable.

Owings normally wrestles at 150, and even went at 177 three times this season. Last year he went a class lower to avoid Gable. But this time he wanted a piece of the Cyclone, and entered at 142 pounds in order to meet Gable.

Wrestling coaches in attendance called it one of the finest matches ever seen in collegiate wrestling.

Owings finally won it 13-11, after coming from behind. With 6:57 gone, Gable had the advantage. Owings escaped, got a take down, and put Gable in a predicament for five points, enough to win. Gable came roaring back, but just couldn't overcome that lead in the remaining time.

Gable's comment after the match was "I made too many mistakes against a very fine wrestler."

Despite the Gable loss, the Iowa State team took the title for the second straight year, with Dave Martin at 158, Jason Smith at 167 and Chuck Jean at 177 all winning titles.

Iowa State scored 99 points, five less than last year, but this year there was one less weight class.

Michigan State and Oregon State had a battle for second place, with Michigan State winning out, 81-77. Greg Johnson of Michigan State took the 118-pound championship, while Oregon State's Jess Lewis repeated as heavyweight title winner.

Oklahoma State's twins, the Kellers, both won titles. Dwayne came back after winning in 1968 and sitting out last year to take the 126 crown, and Darrell won at 134.

### INDIVIDUAL RESULTS

118 pounds—1. Greg Johnson, Michigan State; 2. Ray Stapp, Oklahoma State; 3. Mike Cacherio, Oklahoma; 4. John Miller, Oregon; 5. Greg Schmidt, South Dakota State; 6. Jerry Hoddy, Michigan. Johnson decisioned Stapp in overtime.

# UD SWIMMING CROWN HELD BY INDIANA

# Trampoline Title Taken By Michigan

Salt Lake City, Utah — Indiana easily defended its National Collegiate Swimming Championship in the University of Utah's pool March 26-28, but UCLA's Mike Burton emerged as the star of the meet.

Burton, who had won the 1,650 freestyle two years ago, but sat out last year's competition, came back to take that title again and add two more, the 500 freestyle and the 200-yard butterfly.

One of the happiest of the champions had to be Juan Bello of Michigan, who finished second in the 200-yard freestyle to Don Schollander in 1968, and second to Mark Spitz last year. This time he captured first, beating Frank Heckl of Southern California, with Spitz finishing third.

Brian Job, the freshman flash from Stanford, broke two records by himself and teamed with three mates to break the 400-yard medley relay American, NCAA and Meet standards, with a clocking of 3:24.99.

He won the 100-yard breaststroke with an NCAA and Meet record time of 57.576, which was just barely enough to nip Indiana's Jim Counsilman. He lowered the American, NCAA and Meet standards in the 200-yard breaststroke with a time of 2:05.99.

### Records Tumble

Larry Barbieri of Indiana set American, NCAA and Meet records in the 100-yard backstroke with a time of 51.917. Gary Hall, an Indiana freshman, moved to NCAA and Meet records in the 400-yard individual medley at 4:07.315, and Mitch Ivey of Cal State Long Beach came through with a clocking of 1:52.776 in the 200-yard backstroke to establish new NCAA and Meet marks.

Mark Spitz, who won three races as a freshman a year ago, had prob-

lems this time, winning only the 100-yard butterfly. He finished second to Dave Edgar of Tennessee in the 50-yard freestyle, third in the 200 free. Edgar was also a winner in the 100 freestyle.

If it hadn't been for Indiana, the meet would have turned into a Pacific-8 exclusive. USC, Stanford and UCLA followed the winners.

With the exception of Burton and Bello, seniors got short shrift in the swimming events. Freshmen and sophomores seemed to have things going their way, and next year's meet at Iowa State should produce some great races. Seniors won only four of 13 races (Burton 3, Bello 1).

### INDIVIDUAL RESULTS

500-Yard Freestyle — 1. Mike Burton, UCLA, 4:37.291; 2. Ralph Hutton, Colorado State, 4:39.452; 3. Andy Strenk, USC, 4:40.503; 4. Steve Gentes, UCLA, 4:41.839; 5. James McConien, USC, 4:41.937; 6. Hans Fassnacht, Long Beach, 4:45.013.

### TEAM RESULTS

Indiana, 332; USC, 235; Stanford, 206; UCLA, 185; Cal. State Long Beach, 126; Michigan, 118; Southern Methodist, 96; Colorado State, 85; Tennessee, 75; Ohio State, 68; Washington, 67; Dartmouth, 57; U. of Texas, Arlington, 45; Michigan State, 43.

Philadelphia, Pa.—Michigan, paced by George Huntzicker, won the second annual National Collegiate Trampoline Championships contested at Temple University, April 2-3.

Huntzicker scored a 9.35 in the preliminary competition which counted toward team points, and Michigan scored 26.85 for the victory. Huntzicker came back to battle through the field and win the individual championship by beating New Mexico's Stormy Eaton in the finals.

Eaton also had posted a 9.35 in the preliminary round to help New Mexico State into second place. Only three full teams were in the competition. Southwestern Louisiana finished third.

A total of 18 competitors were in action in the individual preliminaries, with eight going on to the head-to-head competition. Other award winners were: 3rd, Ron Quimby, Indiana State; 4th, Tim Wright, Michigan; 5th, Chris Keane, Michigan; 6th, Gary Smith, Southwestern Louisiana.

# NOTES and QUOTES

Ken Schaack, sports information director at South Dakota State for the past four years, has become news editor at Southwest Minnesota State College. His replacement at SDS is Dave Martin, former sports editor of the Watertown Public Opinion.

# MARTIN LEADS UC IRVINE TO VICTORY

Rochester, Mich.—Mike Martin is turning the College Division Swimming Championships into a private affair.

In two years, the UC Irvine swimmer has taken home 10 first-place awards. Six of those have been for individual performances, four have been for swimming legs on winning relay teams.

Boosted by Martin's performances, UC Irvine has managed to win the team trophy each year. This year Irvine scored 230 points, 18 less than a year ago, but still substantially higher than second-place Springfield's 166.

Springfield's second-place finish was something of an upset, since the Chiefs were fifth a year ago when the event was held in their own pool. This year's meet was held in the Oakland University pool.

Martin swam to victories in the 200, 500 and 1,650-yard freestyle events, and swam on both freestyle relay teams. He set records in both the 200 and 1,650, swimming the shorter distance in 1:43.969 to break his own mark of 1:44.83 set last year. In the 1,650, he chopped over 12 seconds off

his mark of last year, swimming it in 16:25.227. Last year he was timed at 16:37.33.

Paul Gray of Cal State Fullerton took both diving titles. Last year he was eighth in the one-meter diving and second in the three-meter.

Other double winners were Brad McCoy of Ashland in the 200 and 400-yard individual medleys, Gary Haag of Amherst in the 100 and 200-yard butterfly and Bill Koller of Kenyon in the 100 and 200-yard breaststroke. The results:

# 22 More Soccer Teams Certified for 1970

Twenty-two additional amateur soccer teams have been certified for 1970 participation by college undergraduates with remaining eligibility by the NCAA Extra Events Committee.

An initial group of 62 certified teams was listed in the March NCAA NEWS.

A student-athlete will not jeopardize his eligibility for intercollegiate soccer competition by participating on one of the teams listed below, provided the competition does not occur during the institution's intercollegiate soccer season while he is a member of the college's intercollegiate soccer team.

The certification is effective until Aug. 31, 1970.

The approved teams:

### CALIFORNIA

Bolivian Club  
National City

### COLORADO

Aurora Internationals  
Denver  
Cleats Soccer Club  
Colorado Springs  
Denver Kickers Soccer Club  
Denver

### CONNECTICUT

## PROFILE—Rice's Alan J. Chapman

# Chapman's Research Aids U. S. Space Program

Dr. Alan J. Chapman, professor of mechanical and aerospace engineering and material sciences and chairman of the Department of Mechanical Engineering at Rice University, is currently serving in the third year of his first term as a Member-at-Large of the NCAA Council.

He will continue in that post until January of 1971.

He is a past president of the Southwest Conference and continues as Rice's SWC representative.

That Chapman is his institution's faculty athletic representative and a member of the university's Outdoor Sports Committee in addition to all his other tasks is no accident. He was one of the Southwest Conference's outstanding runners during his undergraduate years at Rice, taking third place in the SWC 880-yard run as a senior in 1945.

In addition, his father-in-law, Dr. Hubert E. Bray, served as Rice's faculty representative for many years.

After receiving his B.S. and M.E. degrees at Rice in 1945, Chapman became (in 1946) an instructor in mechanical engineering at that institution, also working as an undergraduate instructor in kinematics, heat transfer, thermodynamics and strength of materials.

DR. ALAN J. CHAPMAN

### Two Masters Degrees

In 1949, he received two more masters' degrees from the University of Colorado. He continued to teach at Rice, expanding into the field of gas dynamics.

In 1953, he received his Ph.D. from the University of Illinois (along with another masters degree), and one year later became the chairman of the Department of Mechanical En-

gineering at Rice.

He began doing extensive research which led to the publishing of several papers, reports and books. His first publication (Sept. 8, 1954) was titled "Stability Characteristics for Ramjet Assisted Projectiles".

He continued research into heat transfer and gas dynamics and, in 1958, became project director of NASA Grant NsG-6-3-59, "Ionization Phenomena in Hypersonic Windtunnels." In that same year, he also became associate director of Project SQUID, "Thrust Nozzles for Ionized Gases".

### Gemini, Apollo

In 1960, Chapman's book, **Heat Transfer**, was published by the Macmillan Company. He continued his work for NASA and in 1963, while working as a consultant in connection with heat transfer problems—mainly thermal radiation—he published two reports: **NASA Project Gemini Working Paper No. 5004** and **NASA Project Apollo Working Paper No. 1101**.

In 1965, the second edition of **Heat Transfer** was published, and another book, **Gas Dynamics**, was published by Holt, Reinhart and Winston.

Chapman is married to the former Marjorie Bray. They have two children: Alan Jr. and Katherine Lynn.
