Select committee decides issues

The Select Committee on Athletic Problems and Concerns in Higher Education, established and funded by the NCAA but operating as an independent commission, held its first meeting October 4 in Denver. The initial session was designed as an organizational meeting to determine the issues to be examined by the committee in pursuing its assignment.

The committee agreed that its eventual report to the NCAA Council, which also will be submitted to the membership and to other organizations in higher education, will include opening statements presenting the rationale for the sponsorship of athletics by colleges and universities and a review of "what's working and what is not working" in college athletics today, according to David P. Gardner, president of the University of Utah and chair of the committee.

Gardner emphasized that the select committee will not be in competition with other panels investigating various aspects of college athletics. Noting that several members of the committee also are serving on those other groups, he said the select committee has "an

infinite capacity for maintaining communication on an informal basis via our overlapping membership."

The committee also agreed in its Denver meeting to take the time necessary to deliberate and propose practical solutions to the problems in college athletics. "We will consider the efforts and suggestions of others as they relate to the overall charge and time line for our committee's work," Gardner said, "but the committee emphasizes that it is seeking a cohesive, coherent, comprehensive set of proposed solutions, rather than rushing to treat problems in a piecemeal fashion."

Among the identified factors in the three major topics to be discussed by the committee in its second meeting,

November 21 in Chicago, are the following:

- The athlete as a student: admissions and academic requirements, freshman eligibility, ways in which student-athletes are treated differently than nonathletes, various recruiting factors.

- Athletics governance: institutional control and responsibility, booster and alumni groups, role and structure of the NCAA, complexity of NCAA regulations, authority and composition of the NCAA Council, external forces affecting governance, enforcement procedures and penalties.

- Financing: patterns and trends in revenues and expenses, television issues, external financial influences,

Division I criteria on Council agenda

The NCAA Council and the Division I Steering Committee, meeting this week in Kansas City, will consider additional recommended criteria for Division I membership as they refine a proposed plan to restructure the NCAA Council and possibly the Executive Committee.

The Divisions I, II and III Steering Committees are meeting today and tomorrow. The Council's fall meeting begins tomorrow afternoon and ends Thursday. The meetings are being held at Kansas City's Alameda Plaza Hotel.

In the Council's view, additional membership criteria are needed because of the seemingly uncontrolled growth of Division I and the increasingly disparate program objectives of the division membership.

Eight years ago, when the three-division structure had been implemented, there were 237 active member institutions in Division I. As of this September 1, there were 277—representing a 16.9 percent overall increase and an average of five new Division I institutions per year.

In a memorandum to Division I chief executive officers meeting in Kansas City last month, the Council observed that: Division I increasingly seems to include institutions that do not conduct bona fide Division I men's and women's athletic programs. That situation has caused heightened concern on the part of those institutions that (1) sponsor relatively broad-based programs, (2) attempt to conduct all or nearly all of their sports (men and women) successfully on a legitimate Division I level and (3) annually must make financial commitments to their programs that far exceed those of the institutions that are in Division I primarily because they want their men's basketball teams eligible for the NCAA tournament.

The concern expressed herein has been demonstrated by recent voting patterns on some Division I issues at

NCAA Conventions and the continued pressure by groupings of less prominent Division I institutions to increase and control the bracket for the Division I Men's Basketball Championship.

The Division I Men's Basketball Championship provides more than 60 percent of the total NCAA revenue budget and, obviously, enables the Association to maintain numerous essential services for all of its members. For the most part, that revenue is the result of eligibility for and participation in the tournament by those institutions.

See Division I, page 12

Exceptions for women explained

NCAA member institutions that conduct their women's programs in accordance with the Association's rules and regulations should be aware of a relatively small number of exemptions for women's programs.

"There has been some confusion in this regard," said Stephen R. Morgan, director of legislative services and liaison to the NCAA Special Committee on Legislative Review.

"Apparently, some institutions believe there are large chunks of the Association's legislation that do not apply to women," he said. "Actually, the list is pretty small for those institutions that have chosen to conduct their women's programs according to NCAA legislation."

Institutions that operated their women's programs under the rules of another organization prior to August 1, 1981, may continue to do so until August 1, 1985.

In the News

Ray Albarn, head football coach at Rice University, gives his views on why a Division I football play-off is not feasible. 2

Football statistics and notes on all NCAA divisions. 3-6

Nearly \$170,000 in royalties was distributed to NCAA member institutions and allied conferences that participated in the joint claim for cable royalties related to nonnetwork telecasts in 1978. 11

Howard "Bud" Elwell, director of athletics at Gannon University, has been appointed by the NCAA officers to the Division II Steering Committee. 12

Alborn against play-offs for college football

By Ray Alborn

Guest Columnist, The Houston Chronicle

(Editor's Note: If college football had a play-off format similar to what the pros employ, Rice University's recent teams probably would not have qualified. Even if play-offs were introduced at the college level, Ray Alborn, the Owl coach, says he would want no part of them.)

Almost every football season, suggestions are made that we organize a system to determine the national college champion. The extra money would be super. But I don't like the idea of play-off games. One of my objections is the politics. Who's going to pick the teams? A selection board? A computer? The TV networks? Draw them out of a hat?

When coaches or reporters choose teams, there always will be problems. This is my first year on the United Press International coaches' board that picks the top college teams each week.

I'll do my best. But how am I supposed to know whether Pitt is better than Nebraska when I don't see either of them play? I'll have to rely on what I read in the papers and what I hear. Anyone who picks the teams for a play-off would face a bigger problem because there might be millions of dollars at stake.

Then you bring in politics. If two teams are 11-0 and one of them played a much tougher schedule, how do you explain to the other school why it was left out? Even worse, how do you explain to the school that played the tougher schedule why it was left out? What if seven or eight teams finish 9-2, and there's room for only three of them in the play-off bracket?

Picking the best teams is not as easy as many people think. North Carolina wasn't as highly regarded as some of the leading teams last December. But when the season ended, there was some thought that North Carolina might have been the best team in the country.

They say a play-off system would answer questions. But it also would fail to answer questions. What if the play-off teams were

chosen, and North Carolina were not among them?

A play-off system also would add enormous pressure for coaches. On any given Saturday, a team can play a bad game. If that happens to a team that went 11-0 during the season and the school is expecting a million dollars for winning the national championship, think of the poor coach. His people will say, "He can't win the big one." That one bad day could cost him his job.

Play-offs also would add pressure to the coach who isn't close to going 11-0. If making the play-offs is emphasized at his school, he will think, "I've got to be in the play-offs every year, even if I have to cheat to get there."

The amount of money at stake would be enormous. As I said, that part of it is attractive. Maybe they could set aside a bunch of cash and establish a coaches' fund. Dividing the rest of the money could be a problem. Conference teams share the money. Would it

Columnary Craft

be fair to allow an independent that did not play a conference schedule to qualify for all that revenue?

You also have to think of the students. We brought our freshmen in August 9 and the rest of our players August 13. Our first game was September 11. The season is over in 11 weeks. With the play-offs, you are talking about some players going on until the middle of January.

Right now, college players are getting [athletically related financial aid.] If we're going to extend their season so far into the school year, then we'll have to come up with a way to give them more money. As soon as that happens, we're going to perpetuate cheating.

If we started adding legal money, then we also would be faced with the decision of whether to stay in college football or go pro.

Another problem would be preparation for the play-offs. Every

school is in session during October. But our finals are December 10-11. The test dates are different at each school. One team that reaches the college finals might resume classes January 4, the other January 24.

If those two universities are supposed to meet January 15 for the championship, how do you regulate practice time? It's no problem in the pros. They can work on football all day. The college kids are supposed to be getting an education, and the players who went back to school January 4 would be at a major disadvantage.

That brings us back to added pressure. Maybe somebody at the university will decide, "The hell with going to class. Our kids should concentrate only on the football game. Winning the championship is much more important than anything else."

If all the other problems are worked out—which I don't think can happen—here's another one. Not every football player gets into the games on Saturday. He goes to class, works hard all week in practice but never has the satisfaction of going against another team.

If he's a freshman, he might have reported August 9. In another five weeks, the season begins. It ends in December, but he stays with it one more month for the play-offs. He has no chance to contribute in a game, but the regulars need to practice against someone.

Players are held over now if the team is going to a bowl game. But that is an entirely different situation, with all the players joining in the festivities.

If the kid's team plays in the January 15 championship game, he is off for only a couple of weeks the rest of January before the off-season program starts. That is followed by spring practice. School ends. He's free for six or eight weeks. Then it's time to come back and start the whole thing over again.

That's a tremendous burden on a kid. It's also a tremendous burden on a coach when that kid comes back wondering when he'll get a chance to play.

Bay says budget is ongoing battle

Rick Bay, director of athletics
University of Oregon
Eugene Register-Guard

"I've said many times the fiscal operation of an athletic department is often an exercise in crisis management in the sense that our budget is in a state of constant flux. It's an ongoing battle and there are no guarantees."

Arthur W. Nebel, University of Missouri, Columbia
1967 NCAA Council
NCAA: The Voice of College Sports

"All of us are aware of women's important role in (society). They now are becoming more interested in intercollegiate athletics. NCAA championships are limited to male students. Also, the Association's rules and regulations governing recruiting, financial aid and eligibility apply only to the male student."

"It recently was brought to the Council's attention that an increasing number of NCAA institutions are sponsoring intercollegiate athletic activities for women. Some of these

Opinions Out Loud

institutions have sought the advice of the Association as to the proper administrative procedures for an intercollegiate program for female students."

Fred Akers, football coach
University of Texas, Austin
College Football Preview

"I think we could probably reduce the Manual to a more understandable booklet, as far as recruiting. Recruiting rules have changed. I think that is the problem. The rules change and coaches know about it, but many times other people don't know about it. Your alumni are interested parties who may not want to violate rules intentionally. If an alumnus hasn't recruited in 10 years, things change. I would like to see the rules put in a more understandable form."

Rev. John J. LoSchiavo, president
University of San Francisco
Los Angeles Times

"We may be reaching a critical point of wrestling with the fundamental values which have created many of America's colleges and universities. After all, the first purposes of higher education were to develop moral and ethical qualities among our citizens through schools of divinity, philosophy and theology. By contrast today, popular perception of our universities seems to be as job-training centers and athletic prep schools for the professional leagues. If these perceptions are true, higher education has indeed lost its primary reason for being."

"More university presidents are going to be faced with fundamental questions about their institution's social purpose and influence. Universities cannot escape their responsibilities by rationalizing violations of rules established by them as members of the NCAA because such infractions are 'necessary' to win."

"Turning our heads and pretending that violation of rules is permissible under any circumstances jeopardizes our institutional integrity. If universities dismiss their principles in one area, how can their other purposes be respected? If we are not diligent in holding to principles, how can we expect young people to be anything but cynical about the noble purposes espoused in our catalogues? Universities are accountable to our nation for not only developing the mind and body of each student but his conscience as well."

Alan "Mickey" Holmes, executive director
Sugar Bowl
The 5th Down

"What I'd like to see, and the way I think it could be handled, is we agree we're going to sign teams the last Saturday after Thanksgiving, the last Saturday of the season, but have it so the preceding Monday you could openly go to the institutions and get down to the negotiations. I think you'd have no problems because the institutions could live with that, and I know the bowls could live with that."

William E. Simon, president
U.S. Olympic Committee
The Boston Globe

"Our purpose is to give as many athletes the right to compete as is possible. We're coming up in all the development sports in which we never had the money to spend before. In four short years, the National Sports Festival has gained a prominence I would not have believed even two years ago."

"The word 'amateur' should be defined. I don't want to see people who play for pay participate in the Olympics. I can see someone (in track and field, for example) paid for endorsements. But I'm not looking for open competition in the Olympics. We all know abuses exist. We all turn the other way. I'm for removing the hypocrisy. There is a law, and it would be enforced if courageous people came up to do it. We're discussing this right now."

Looking Back

Five years ago

NCAA Secretary-Treasurer Edgar A. Sherman announced that the Association would pay 100 percent of transportation expenses incurred by teams and individual medal winners in all NCAA championships in 1977-78. (October 15, 1977, NCAA News)

Ten years ago

The NCAA Council, meeting October 23-25, 1972, at Knoxville, Tennessee, approved withdrawal of the NCAA from the U.S. Olympic Committee and called for a Congressional investigation of that body, as proposed by the NCAA International Relations Committee. (October 23-25, 1972, Council minutes)

Twenty years ago

The NCAA officers reported October 1, 1962, that the U.S. Senate had enacted legislation making it a Federal offense to attempt to bribe the outcome of any sports contest. ("NCAA: The Voice of College Sports")

Thirty years ago

The NCAA Council voted October 15, 1952, to recommend to the 47th annual Convention that disciplinary action be taken against three member institutions for violations of NCAA rules, the first such penalty in history. ("NCAA: The Voice of College Sports")

Football Notes

Nine unbeaten teams left in Division I-A

The Nervous Nine

Six undefeated and untied teams were bounced from the perfect ranks in Division I-A last Saturday, leaving nine escapees. At this stage in 1981, there were 10 perfect-record teams (comparing only the 97 teams now in I-A). The Nervous Nine includes only two that also were perfect at this stage of last season—Pittsburgh and Southern Methodist.

Arizona State is the only perfect-record team with six victories. Alabama, Georgia, Arkansas, SMU, Washington and Fresno State have five each, and Pittsburgh and Notre Dame have four each. Not surprisingly, seven of the nine were big winners in 1981, although Alabama, Georgia and Arkansas lost in bowls, and both SMU and Arizona State were on probation and not eligible for bowls. Pittsburgh and Washington are the only bowl winners in the group.

Notre Dame and Fresno State are making big comebacks from losing seasons in 1981, each finishing 5-6. The only teams under new coaches this fall are the same two that also were perfect at this stage of 1981—Pittsburgh and SMU. Serafino "Foge" Fazio is in his first season as a head coach at any four-year college, moving up from his job as an assistant at Pitt. Bobby Collins, now at SMU, enjoyed great success at Southern Mississippi.

Approaching midseason, it would seem that five of the perfect-record teams at least have the toughest part of their schedule behind them, in won-lost terms. And that's somewhat surprising. Pittsburgh's schedule has been the toughest in the nation so far this season. Its four opponents are perfect—15-0-0—when not playing Pittsburgh. Alabama's opponents are .733, Georgia's .639 and Arkansas' .600 so far this season.

Alabama's future opponents are .571 so far—best among the nine perfect-record teams. Putting past and future together, Pittsburgh's opponents are .644 so far, No. 4 in the country and Alabama's are .628, tied for fifth. Here are the schedule figures, past, future and total, for all nine perfect-record teams:

	Past	Future	Total
Pittsburgh	1.000	.467	.644
Alabama	.733	.571	.628
Georgia	.639	.431	.511
Arkansas	.600	.417	.500
Arizona State	.524	.458	.489
Notre Dame	.412	.530	.490
Washington	.375	.550	.480
SMU	.344	.442	.405
Fresno State	.250	.353	.320

Remember, the toughest schedule program merely shows above what all I-A opponents did against other I-A teams when not playing the team in question. It's a won-lost measurement and nothing else.

And regardless of the figures, it is well known that the chances of going undefeated and untied in Division I-A are almost nil. Only one team did it last season, including the bowls—national champion Clemson.

There are three games involving teams in the Nervous Nine—Pittsburgh-Notre Dame November 6, Arizona State-Washington November 13 and Arkansas-SMU November 20. Those games alone will eliminate three (and six if each game ended in a tie).

106,113 Ranks Second

The turnout of 106,113 last Saturday at Michigan (for Michigan State) ranks second in regular-season play for the 35 seasons of official attendance record-keeping by the NCAA, just 142 spectators behind the 106,255 at Michigan for the 1979 Ohio State game. This has been exceeded in the 35 seasons only by one Rose Bowl game—106,869 for the 1973 game (Southern Cal 42, Ohio State 17).

Division I-A attendance remained ahead of last season's record pace, with an average of 43,980 per game so far, up 1.16 percent. Division I-AA attendance is 2.19 percent behind last year, but percentage of capacity is up slightly, so it may just be a matter of scheduling differences. Here is the chart:

	Games	Attendance	Game Capacity	Per-Percent
Division I-A season figures to date	269	11,830,683	43,980	81.1
Same 97 teams at this stage in 1981	263	11,434,546	43,477	80.6
Division I-AA season figures to date	228	2,711,307	11,892	57.3
Same 92 teams at this stage in 1981	234	2,844,949	12,158	57.2

Ernest Anderson of Oklahoma State is the top-ranked rusher in Division I-A with a per-game average of 209.2

Arkansas also plays Texas December 4, and Arizona State also faces Southern Cal October 30. Pittsburgh also faces Penn State November 26. Notre Dame also faces Penn State November 13 and Southern Cal November 27. Alabama and Georgia don't meet, but each faces a tough stretch run in the Southeastern Conference. Washington also faces Stanford October 30 and UCLA November 6. Fresno State meets San Jose State October 23. In other words, all nine have tough opponents left.

Penn State Schedule Toughest

Penn State, you may remember, ranked sixth in the preseason toughest-schedule rankings, based on 1981 won-lost records. Approaching mid-season, Penn State now ranks No. 1, based on 1982 results only. Its opponents now stand 31-11-1 (.733) when not playing Penn State. Florida State, first in preseason, now stands 12th at .588.

Others in the top 10 now are South Carolina .676, Oregon .667, Pittsburgh .644, Alabama and Florida each .628, Kentucky .611, Syracuse .607, Arizona .596, and Oregon State .595. Southern Cal is 11th at .590.

Based only on opponents played so far this season, Pittsburgh, as mentioned, has played the toughest, with its foes at 15-0-0 when not playing Pitt. Then come Oregon .889, West Virginia .821, Penn State .765, California .762, Alabama and Utah each .733, Florida .711 and Wake Forest and South Carolina each .692.

Looking only at future opponents, Mississippi State has the hardest remaining lineup at .729. Then come Syracuse .717, Penn State .712, Oregon State .680, North Carolina State .672, Temple, Auburn, Kentucky and South Carolina each .667 and Southern Cal .662.

The Fortunate Four

In Division I-AA, four undefeated-untied teams were knocked from the perfect ranks, leaving just four. At this stage a year ago, there were six perfect-record teams (comparing only the 92 teams now in I-AA). None of the current Fortunate Four was also perfect at this point in 1981.

UCLA's Tom Ramsey has completed nearly 65 percent of his passes and is this week's Division I-A leader in passing efficiency

Colgate, Eastern Kentucky, Miami of Ohio and Pennsylvania are the perfect four. Penn has four victories, the others five each. Penn is making a major turnaround after a 1-9 season in 1981. The other three were strong winners last year, topped by Eastern Kentucky, 12-2, including a second-place finish in the I-AA national play-offs.

For the most part, the four perfects in I-AA have the toughest part of their schedules to come:

	Past	Future	Total
Eastern Ky	.500	.500	.500
Colgate	.444	.542	.500
Miami, O.	.350	.552	.469
Penn	.308	.500	.436

Colgate vs. Penn November 6 is the only game left involving teams from the four perfects. Eastern Kentucky's hardest test may be Western Kentucky October 23. Miami faces Toledo October 30 and Central Michigan a week later.

A Record For Ties

Six tie games in 49 Division I-A games last Saturday is 12.2 percent, and that's a record high for the 25 years of the two-point conversion rule (this is the 25th season of the rule). There were also six ties on September 28, 1963, but in 58 games—10.3—and six ties on October 27, 1962, but in 63 games—9.5. There are fewer games these days because there are only 97 teams in Division I-A—fewest in the 25-year span. Only two other week-ends in the 25-year span produced as many as five ties.

So far this season, there have been nine ties in I-A compared to five at this stage a year ago for 137 I-A teams. Ties for the entire season have ranged from a low of seven in 1970 to a high of 25 in 1963 for the 25 years of the two-point rule (17 in 1981).

Quotes Of The Week

Arkansas coach Lou Holtz on timeouts: "The TV timeouts against TCU were getting ridiculous. They must have been showing old movies. Our quarterback would come to the sidelines, I'd tell him everything I knew, and there still would be 40 seconds left before the game resumed. I ran out of things to tell the quarterbacks. I must have seemed pretty stupid to them." (Rick Schaeffer, Arkansas SID)

Texas Tech equipment manager Don Lewis remembers well how he got welcomed to the business: "After two practices, Marshall Land (6-7 1/2 and 361 pounds) informed me his shoes were not big enough. Normally, that wouldn't have been a problem, but I had to search far and wide to find his size 17 1/2. He's really a growing boy." (Joe Hornaday, Texas Tech SID)

Before his freshman year, Gerald McNeil, Baylor's amazing little receiver, was listed as 5-10 and 165 pounds. As soon as he reported, that

was corrected to 5-7 and 137. Now he's a junior and still listed as 5-7 and 137. Asked why Baylor's well-known weight-lifting program hadn't added any weight to his mighty mite, coach Grant Teaff explained: "To tell you the truth, we don't let him go in there. We're afraid he might strain something if he picked up one of those things." (Bill Morgan, Southwest Conference SID)

Bowling Green State coach Denny Stolz talking about senior tailback Bryant "Cowboy" Jones, who had a 201-yard day against Central Michigan: "Cowboy loves anything creative. Sometimes he wanders a little too far off, but a lot of times he becomes the secondary receiver. It's awful hard for the defense to cover it, because sometimes I'm not sure Cowboy even knows where he's going." (Allan Chamberlin, Bowling Green State SID)

Kansas State safety Jim Bob Morris on how he was elected student body president at Coffeyville, Kansas, Community College in 1979: "It may have been my campaign slogan: 'Don't be a slob, vote for Jim Bob.'" (Bill Hancock, Big Eight Conference SID)

After Navy built a 27-0 lead over then-unbeaten Duke at Durham, Duke staged a three-touchdown, fourth-quarter rally, closing to 27-21. With less than a minute left, Navy defensive captain Travis Wallington stripped the ball from Duke quarterback Ben Bennett, and Navy recovered. Navy SID Tom Bates rushed up to first-year coach Gary Tranquill as the final gun sounded, and Tranquill quipped: "I knew we had them all the way." (Steve Risser, Navy assistant SID)

The Closet Bomber

After UCLA bombed Long Beach State with its passing game, a woman fan yelled to coach Terry Donahue as he was running happily off the field: "What did you do, Donahue, read a

certainly are, especially when you're down 21-0 to Michigan, and you strike back through the air for one of the great victories in school history. Not quite. "After the game," Donahue recounts, "One of our illustrious alumni told me, 'You better get working on the running game.'" (Gary Rausch, UCLA SID)

Overcoming Injury

Notre Dame's Larry Moriarty is a 6-2, 223-pound senior fullback from Santa Barbara, California, with an Atlas-like physique. No player on the team can match his 470-pound bench press or 690-pound squat lift. Until you hear his story, you would never guess he was a puny 16-year-old survivor of an injury and spinal meningitis who figured "that sports were totally out for me."

"I fell off a truck, cracking my skull and severing the nerves in my left ear (in which he is now deaf)," he explains. "Six months after that, germs got through the skull. That's how spinal meningitis developed."

"It was pretty bad," he told Bill Jaus of the Chicago Tribune. "My doctor decided he had only 20 minutes before I'd be gone. He diagnosed the meningitis because of his experience in the war. He lifted up my head. I was unconscious. There was a spinal tap. . . . His recuperation kept him out of school two years. 'I was so much smaller than anyone else that I got into body building at our local YMCA.'"

"I entered body-building contests," he says. "My body matured." All he needed to spark his return to football was an emotional trigger. His brother Kerry (a former Notre Dame back) provided it: "When he told me he knew there was no reason I couldn't play football, I knew he wasn't just trying to pump me up."

So Moriarty enrolled in junior college, with a one-year plan to earn a football scholarship, never dreaming he'd get an offer from Notre Dame.

Lafayette's Frank Novak is this week's top-ranked passer in Division I-AA

book this summer?" Donahue insists it's a popular misconception that he is conservative. He's really a bomber at heart. "Air Donahue" came about, he says, because he happens to have a gifted quarterback and as talented a group of receivers as you'll find in college these days.

"I have not been taking drugs or seeing a psychiatrist or doing anything else that would cause me to make a 180-degree turn," Donahue told Scott Ostler of the Los Angeles Times. Norm Anderson, UCLA receivers coach, says: "Coach Donahue really grew up with the running game. But I'll tell you what, he's a passing genius. He has really studied the passing game, really understands it, has made a science of it and done a great job of it." Adds Anderson with a chuckle, "We've loosened him up a little bit."

Now the UCLA fans are happy. Man, aren't those passes pretty? They

Maine's Lorenzo Bouier leads Division I-AA in rushing with a per-game average of 126.8

The adjustment wasn't easy, he says, because "I lacked the experience of even the freshmen. I hadn't done much blocking." Asked what he had learned from his experience, he replied:

"First, all things are in God's hands. Second, keep persevering. Third, have fun. The fun comes after the game. The fun of happy faces . . . coach (Gerry) Faust's face . . . my father's face . . ." (Roger Valdiserri, Notre Dame SID)

That's Odd . . .

A defensive end who returns punts? That's right. Fred Young, a 6-2, 213-pound defensive end at New Mexico State has started at his position for three seasons. Three games ago, he was tried as a punt returner and had one seven-yarder. Against Illinois State the next game, he broke his first return 57 yards for a touchdown. Now he's fifth in the nation in Division I-A, averaging 15.1 yards. (Kirk Hendrix, New Mexico State SID)

Balance nears reality among Division I teams

By David P. Seifert
The NCAA News Staff

Fans in the West may disagree, but as the 1982-83 collegiate ice hockey season begins, one of the sport's major developments is that parity is becoming more of a reality.

The Western Collegiate Hockey Association traditionally has dominated play in Division I. Teams from that conference have won the past four NCAA titles, and the WCHA probably still is the strongest conference.

But the Central Collegiate Hockey Association and the Eastern College Athletic Conference seem to be closing the gap rapidly, and the lack of a clear national favorite this season appears to support that belief.

"I think the leagues are more equal now than ever," said Jerry York, coach at Bowling Green State and chair of the NCAA Men's Ice Hockey Committee.

"The more outstanding teams seem to have come back to the pack while others have improved," echoed Bill Cleary Jr., coach at Harvard and editor of the NCAA Men's Ice Hockey Rules.

Defending champion North Dakota will find that the gap has narrowed. The Fighting Sioux have won two of the past three titles and finished second in 1979. This year, though, they are not even a unanimous choice to win the WCHA championship.

"We have some big holes to fill, particularly on defense," said North

Dakota coach John "Gino" Gasparini.

If North Dakota returns to the final four next March, it will have a home-ice advantage, since the finals are scheduled in Grand Forks March 24-26. No team has won on its home ice since Boston University in 1972, and there have been just four such winners ever. That 1972 Boston U. team also was the last team to repeat as champion.

In North Dakota's favor, though, is the rare luxury of three regular goalkeepers. Junior Jon Casey played the most time last year; however, senior Darren Jensen was named to the all-tournament team at the finals, and senior Pierre Lamoureux was fifth nationally in win-loss percentage (Casey was third).

Sophomore James Patrick, an all-tournament choice as a freshman, will be the key to that questionable defense, along with four freshmen.

Gasparini, who agrees that equality among the leagues is a reality, has a theory: "We've gone through years with tremendous players in the West, and now I think parity is happening because underclassmen are turning professional."

"We're no different; we're constantly rebuilding," he added.

North Dakota's need to rebuild, combined with excellent recruiting by Minnesota and Denver, should make for quite a race in the WCHA. Minnesota probably has the best group of returning players in the league, but Denver has been picked by several observers to win the title.

Then, there is Wisconsin. New coach Jeff Sauer has to replace legend Bob Johnson, and several top scorers were lost from last year's team. Nevertheless, the Badgers cannot be counted out. They have the nation's top two goalies (statistically) returning, along with several outstanding defensemen.

The Central Collegiate Hockey Association is the newest of the Division I groups, and it is getting stronger every year. This year, Michigan State appears to be the best of several national contenders.

The Spartans finished second to Bowling Green last year and then beat the Falcons in the league tournament to earn an NCAA berth. All-America goalkeeper Ron Scott is the best reason for Michigan State's optimism. High-scoring Newell Brown and Mark Hamway and defenseman Gary Haight are others.

Despite that impressive array of tal-

ent, the Spartans do not have a lock on the CCHA title. Bowling Green could repeat as league champ. The Falcons return seven of their top eight scorers, four of their five regular defensemen and goalie Mike David.

The return of center Brian Hill is the key factor. Hill was an all-America choice last year after finishing third nationally in scoring.

New Michigan Tech coach Jim Nahrgang knows how Sauer feels, since he also is stepping into a perennially strong program. This year should be no different for the Huskies.

If one player can make the difference in the success of a college hockey team, then Harvard or Providence should be the big winners in the East.

NCAA participant Harvard will have to rely on a freshman goalie, but the Crimson has few other worries thanks to two-time all-America defenseman Mark Fusco, who may be the best player in collegiate hockey.

Providence's strength is the offensive area as high-scoring Kurt Kleinendorst (28 goals last year) returns. Harvard will counter Kleinendorst's offense with Greg Olson and

Scott Fusco, Mark's younger brother. Providence has goalie Mario Proulx and defenseman Randy Velischek for defense.

As in the WCHA and CCHA, several other teams appear strong enough to keep Harvard or Providence from dominating play. Outstanding veteran goalkeepers return for Clarkson, St. Lawrence and Boston University.

New Hampshire, Yale and Boston College are other teams that rate mention as contenders. New Hampshire, like North Dakota, must replace an outstanding underclassman (Andy Brickley) who turned pro.

With all the uncertainty facing the upcoming season, things might have been even more complicated. Changes in the playing rules were minimal and should not have a profound impact on play.

Perhaps the most noticeable change for fans will be the restriction on the play of goalkeepers. Goalies now can freeze the puck only while in the crease. In addition, there will be added emphasis on cleaning up face-offs by more explicit instructions as to where the players' sticks must remain.

Short a kidney, long on heart is tale of BU's Kevin Mutch

By Jack Falla
Correspondent of The NCAA News

Kevin Mutch, his sole remaining kidney encased in a 5-9, 185-pound body, arrives in the corners of Boston University's hockey rink like the second coming of Mike Eruzione.

That the 20-year-old defenseman from Canton, Massachusetts — one of the youngsters expected to lead the Terriers back to the heights of the mid-1970 "Eruzione years" — is on the ice in the first place is a tribute to his exuberance and courage, the understanding of his doctors and the protective qualities of a flak jacket.

Early last October, Mutch was rushed to Boston Children's Hospital to undergo surgery for removal of a blocked kidney. That should have been the end of his hockey career. While the human body can function with one kidney, it cannot function without any, or at least not without the patient undergoing biweekly intimacies with a dialysis machine.

Before the operation, BU coach Jack Parker told the bewildered freshman that the university would guarantee his scholarship for four years, but that "we have serious doubts about you ever playing hockey again."

"Here I was wondering if I could cut the recovery period from eight to six weeks, and they were telling me I couldn't play at all," says Mutch.

"Most of us wouldn't even want to play after an operation like that," said BU sports information director Ed Carpenter, "but all Mutchy (also called "Too") wanted to do was put on the skates."

Mutch appealed the decision.

A successful operation was followed by a series of conferences among Mutch's family, his physician, Children's Hospital staff and special BU consultant Dr. Robert Leach (whose previous hockey-playing patients have included Bobby Orr and Phil Esposito). The doctors decided that the risk to Mutch would be acceptable, provided he would play and practice in a flak jacket similar to those worn by several professional football quarterbacks.

"We won't let him near the ice without the jacket," says Parker.

A delighted and fast-recuperating Mutch returned to action, careening in the face of urological prudence, with a dedication that won him a spot in the opening-night lineup. He played with a style that reminded Terrier fans of the now-legendary Eruzione.

"He looks like a bowling ball out there," said one fan of the rotund Mutch, who looks even rounder with the bulk of the flak jacket.

"The comparison with Eruzione is a good one," says Parker, "not only because of their body size (Eruzione is 5-10, 175) and playing styles, but

Kevin Mutch

because they both have that outgoing personality. And Kevin works like a dog."

Mutch, who claims, "I never think about the operation during a game," alternated between left wing and left defense, scoring at nearly a point-a-game pace with seven goals and 20 assists for 27 points in 28 games.

"This year, we'll use Kevin strictly as a defenseman," says Parker, "and as point man on the power play where he's a real catalyst. He's so aggressive, he makes things happen."

"He's always been aggressive," says Mutch's high school coach, Henry Lane of St. Sebastian's in Newton, Massachusetts. "He'll go after you. He'll stick his nose in anywhere." His kidney, too.

Harvard's two-time all-America Mark Fusco

Hockey Notes

Brothers key to success of contenders

Brothers may play a leading role for several college ice hockey teams this season, including a couple of national contenders.

At Harvard, two-time all-America defenseman Mark Fusco will team with younger brother Scott, a forward who was the Ivy League Rookie of the Year last season. In addition, high-scoring Greg Olson and defenseman brother Mitch are part of the Crimson squad.

In Divisions II-III, Potsdam State is relying on the Marcoux brothers—Pierre, Denis and Yves—to lead them into the ECAC play-offs again this year. The Marcoux brothers collected 54 goals and 129 points last year.

Michigan's Ted Speers is a story all by himself. A home-town boy from Ann Arbor, Speers was the Wolverines' most valuable player last year. In addition, he now is the all-time leading scorer in National Sports Festival his-

tory, with 14 points over the last two years.

He's not the only college player who has starred in the sports festival, though. Yale's all-America candidate Bob Brooke scored two goals for the gold-medal winning North team this year.

Ted Speers was Michigan's most valuable player in 1981

Interest in college ice hockey is growing in the West. Northern Arizona and U.S. International already have developed a fierce rivalry. Now Brigham Young has started a varsity program and will com-

See Hockey Notes, page 8

Divisions II-III preview

New-look West tries to challenge Lowell

For Division II and Division III NCAA ice hockey teams, the difference between East and West is more than geographic. The races in those sections of the country should be entirely different this year.

In the East, the question is whether anyone can catch Lowell. In the West, any one of several teams could emerge as the best, thanks partly to the participation of institutions like Augsburg and Bemidji State, which in the past have opted for participation in the National Association of Intercollegiate Athletics (NAIA) championship.

There is not much dispute about the prominence of Lowell in Eastern ice hockey. The Chiefs have won three of

the past four Division II championships, including two straight finals victories against Plattsburgh State.

Forwards Mike Carr and Ken Kaiser were named to the all-tournament team last year, and both return to lead Lowell's championship charge this year. The two combined for 68 goals and 157 points last year. Defenseman Rob Spath, named to the all-tournament team last year, also returns, but the Chiefs must replace goalie John McKenzie.

Lowell may need to start looking over its shoulder, though, particularly for Babson. Babson, the "new kid on the block" in Eastern ice hockey, had one of the youngest tournament teams

last year and should be Lowell's top competition.

Two-time runner-up Plattsburgh State faces a battle in the Western section of ECAC competition. All-tournament forward Chip Grabowski is one of only three seniors on the squad. Its toughest foes will come from different strengths: Oswego State will count on 46-goal scorer Dave Lair, while Rochester Tech is led by goalkeeper Dave Burkholder, perhaps the best in the East.

Division III institutions, most of which compete separately in the ECAC but must qualify for NCAA play along with Division II teams, expect Bentley and Assumption to be

dominant.

Forward Bob LoConte, selected as Division III's most outstanding player last year, will lead Assumption, along with record-setting goalie Ed McDonald (1.73). Bentley will rely on scorers Gary See and John Maguire and a goalie tandem of Barratt Davison and Ed DeMild.

There really is a whole new picture in the West with the addition of Augsburg and Bemidji State, the NAIA's top two finishers a year ago. And despite the added competition, Western coaches generally are pleased by the development.

"We've been striving for unity in the West," explained Gustavus Adolphus coach Don Roberts, a member of the NCAA Men's Ice Hockey Committee. "This should make play more meaningful and more competitive."

"We never have had a central organization in the West, and I think that has hurt our chances for publicity. Now, the Western coaches have met for the first time ever; we hope to form a loosely-knit league — the Western Intercollegiate Hockey Association," Roberts added.

More interesting play does seem likely. Augsburg was 28-1-1 last year and has won the NAIA national title 26

times, including 1982. All-America goalie Jim Finch (2.90) and 21 returning lettermen are among the reasons the Auggies are expected to be among the NCAA's best this year.

Bemidji State has a similar history, including a 25-5-1 record last year as runner-up and seven national titles. The Beavers have a pair of all-America centers, Joel Otto and Brian Hartman.

New faces are not the only Western powers. There is Roberts' own Gustavus Adolphus team, third in the NCAA championship last year. Gustavus Adolphus has some defensive questions, but all-America center Rick Hjelm returns up front.

Mankato State and St. Scholastica both qualified for NCAA play last season, and both could be there again this year. Mankato has the West's top returning scorer in Tom Kern, while St. Scholastica has two 50-point scorers returning in Jim Johnson and Guy LeBlanc. Mankato also has two outstanding goalkeepers returning.

The list does not stop, even after these traditional powers. Several newcomers should be watched, including Wisconsin-River Falls, Alaska-Anchorage, Wisconsin-Superior, St. Cloud State and Concordia (Minnesota) are other possible contenders.

Ken Kaiser (left, white mask) and Mike Carr (24), both selected to the all-tournament team at last year's Division II championship, return to lead defending champion Lowell as it tries for its third national title.

Top scorers return to Divisions II-III

ECAC East

Top Teams

The race in this group is to see if anyone can catch Lowell, the defending national champion. Babson looks like the strongest contender, along with Massachusetts-Boston. Other possible contenders include Merrimack, Salem State, Bowdoin and New England College.

Top Players

Forwards—Ken Kaiser, Lowell (32 goals-48 assists-80 points); Mike Carr, Lowell (36-41-77); Joe McCafferty, Massachusetts-Boston (42-35-77); Mark Moran, Massachusetts-Boston (32-35-67); Dave Gavin, St. Anselm (16-39-55); Brian Murphy, St. Anselm (24-30-52); Steve Murphy, St. Anselm (33-19-52); Paul Donato, Babson (26-24-50); Joe Bullens, Massachusetts-Boston (23-28-51); Jim Gunn, Babson (19-30-49); Fran Murray, Babson (19-28-47).

Defense—Rob Spath, Lowell (6-33-39); Jean Roy, Bowdoin (12-26-38); Brian McGuinness, Bowdoin (1-13-14).

Goalkeepers—Andy Animisov, Massachusetts-Boston (2.66); Phil Temullo, Lowell (2.87); Rick Cohen, Babson (3.55); Dan Mahoney, New Haven (3.92).

ECAC West

Top Teams

Plattsburgh State, Rochester Tech and Oswego State all should battle in this group, along with North Adams State. Other possible contenders include Union, Williams, Norwich, Potsdam State and Elmira. Hamilton and Middlebury also are hopeful of winning seasons.

Top Players

Forwards—Steve Palazzi, Norwich (34-37-71); Chris Johnstone, Rochester Tech (32-35-67); Dave Lair, Oswego State (46-37-83); Chip Grabowski, Plattsburgh State (27-31-58); Tod Fobare, Union (22-32-54); Denis Marcoux, Potsdam State (19-34-53); Pierre Marcoux, Potsdam State (24-28-52); Mike Marta, Hamilton (30-17-47); Kurt Kalweit, Elmira (21-17-38); Jim Moore, North Adams State (20-15-35).

Defense—Jack O'Donoghue, Norwich (5-15-20); Keith Wright, Plattsburgh State (5-13-18); Jim Larouche, Rochester Tech (11-28-39).

Goalkeepers—Dave Burkholder, Rochester Tech (3.50); Dan Finn, Williams (2.67); Chris Trincer, Norwich (3.54); Steve Knish, Plattsburgh State (3.78); Bart Brooks, Union (4.10); Frank Tobias, Oswego State (4.17); Andy Marhoffer, North Adams State (4.17).

Eastern Independents

Top Teams

Bentley and Assumption look like the strongest in this group, which consists mainly of institutions that compete at the Division III ECAC level.

Top Players

Forwards—Bob LoConte, Assumption (24-31-55); Gary See, Bentley (20-28-48); Jerry Rochon, Assumption (21-26-47); John Maguire, Bentley (17-27-44); Tom Connors, Assumption (14-27-41); Kevin Johnson, Plymouth State (18-16-34); Tony Camiolo, Suffolk (17-20-37); Barry Parker, Curry (14-17-31).

Defense—Chris Downs, Trinity (8-11-19); John Barry, Amherst (4-9-13);

John Andrews, Fitchburg State (7-14-21).

Goalkeepers—Ed McDonald, Assumption (2.73); Paul Turenne, New England College (3.92); Barratt Davison, Bentley (4.35); Ed DeMild, Bentley (3.58); Dave Nishan, Amherst (4.00); Chris Watrous, Trinity (4.07).

West

Top Teams

Newcomers Augsburg and Bemidji State, long-time NAIA powers, may be the best among NCAA teams this year in the West. Mankato State, Alaska-Anchorage and Gustavus Adolphus are challengers, along with St. Cloud State, St. Scholastica, Wisconsin-Superior, Concordia (Minnesota) and Wisconsin-River Falls.

Top Players

Forwards—Tom Kern, Mankato State (32-22-54); Rick Hjelm, Gustavus Adolphus (15-31-46); Jim Johnson, St. Scholastica (20-34-54); Joel Otto, Bemidji State (19-33-52); Dennis Sorenson, Alaska-Anchorage (16-35-51); Guy LeBlanc, St. Scholastica (18-32-50); Craig Ronheim, St. Olaf (18-25-43); Scott Swanson, Gustavus Adolphus (19-27-46); Brian Hartman, Bemidji State (18-24-42); Steve Naysman, Augsburg (16-19-35).

Defense—John Anderson, Mankato State (3-13-16); Mike Odenbach, Mankato State (4-14-18); Jim Tabor, Augsburg (1-20-21); Tom Molle, Alaska-Anchorage (9-23-32); Craig Johnson, Wisconsin-River Falls (13-29-42).

Goalkeepers—Jim Finch, Augsburg (2.90); Westy Graves, Mankato State (3.01); Rob Harrington, Mankato State (3.16); Stu Frye, Lake Forest (3.87).

(Continued from page 7)

pete with those two pioneers.

* * *

A black player from the South is not a common occurrence in college ice hockey, but Dartmouth is hoping goalkeeper Carey Gandy will be a quality exception. Gandy, from Huntsville, Alabama, is expected to be Dartmouth's regular goalie this year. He had a 4.88 goals-allowed average in 20 games last season.

* * *

The highest-scoring line in the ECAC, the "Arlington Connection," returns intact at Assumption. Center Bob LoConte (Division III's most outstanding player) and forwards Jerry Rochon and Tom Connors combined for 59 goals, 74 assists and 133 points last season.

* * *

Kirk McCaskill

Vermont center Kirk McCaskill is acknowledged as one of the nation's top players, thanks to 30 goals in 25 games last year. He is known for more than scoring goals, though, because of his prowess in baseball. McCaskill pitched for Salem, Oregon, in the Northwest League (Class A, rookie level) this summer. He currently is the only player in college ice hockey who is playing professionally in another sport.

* * *

Long-time Cornell coach Dick Bertrand is part of a new look at Ferris State. The "Ice Pack" has added sparkling gold uniforms and hopes Bertrand will lead them to success. He compiled a 229-104-9 record in 12

years at Cornell.

First-year coach Lou Reycroft is trying to return Cornell to college ice hockey's upper echelon. Last year was the first time Cornell failed to make the ECAC play-offs in 18 years. Reycroft must find replacements for all-America goalie Brian Hayward and high-scoring Roy Kerling to have that success.

* * *

While some legendary coaches have left college ice hockey this season, some long-time leaders still remain. Army coach Jack Riley is beginning his 33rd season, and his overall record stands at 453-303-18. The coach of the 1960 gold-medal winning U.S. Olympic team, Riley twice has earned NCAA coach-of-the-year honors. Army's 24 victories last season set a school record.

* * *

At the other end of the scale from Army, Alaska-Fairbanks has had a varsity ice hockey program for just three years and has a 5-46 record. Things may begin to turn around this year for coach Ric Schafer. He has 18 new players, including one recruit from Norway.

* * *

It may be too early to tell how much effect some of the outstanding freshmen may have, but several teams in the WCHA are relying on first-year players. Craig Raymond is expected to step in and solidify Denver's defense, while Marty Wakelyn will contend for the starting goalie position at Colorado College.

In the CCHA, Lake Superior State is counting on four key freshmen to provide enough depth for a finish in the league's top four, while Michigan is rebuilding its defense around three freshmen.

Harvard's chances for success may depend on freshman goalies Grant Blair and Dickie McEvoy. Defenseman Andy Otta is expected to help Clarkson right away.

Five freshmen will vie for the starting goalie spot at New Hampshire College, and first-year goalie George Soares may start for Plymouth State.

Other freshmen of potential influence include goalkeeper Frank Pietrangelo at Minnesota; forward Randy Maxwell, North Dakota; defenseman Chris Papper and Erik Knutzen, Williams; and forward Dan Collins, Connecticut College.

Nahrgang, Sauer to learn quickly if hockey legends can be replaced

By Neil Koepke

Correspondent of The NCAA News

College ice hockey said goodbye last spring to two of its most successful and famous coaches, as John MacInnes stepped down at Michigan Tech after 26 seasons, and Bob Johnson ended a 15-year stay at Wisconsin to join the pros.

Because of those changes, the spotlight now focuses on Jim Nahrgang in Houghton and Jeff Sauer in Madison.

Following a legendary coach can be a harrowing experience, especially in hockey-mad Houghton and Madison. But Nahrgang and Sauer know exactly what they're getting in to.

Nahrgang played for MacInnes at Tech and spent the last four years as a Huskie assistant coach. Sauer played for Johnson at Colorado College; after working as a graduate assistant at his alma mater, he moved with Johnson to Wisconsin as an assistant. Two years later, Sauer began an 11-year career as Colorado College's head coach.

The two coaches are aware of the inevitable comparisons to their predecessors, but neither looks at the situation as trying to replace a legend.

"I don't look at it in terms of the challenge of replacing Bob (Johnson). I see it as being in the outstanding college hockey position in the country," said the 39-year-old Sauer. "The thing that was of interest was that I always thought this was the Cadillac of coaching positions. It's the No. 1 program in terms of fan support, overall interest and media coverage. I've never had that challenge before."

"Bob and I are good friends, and I know how he started and what he has done over the years. He is one of the outstanding coaches in the world, and he'll be tough to follow. But I think I can do the job."

Nahrgang sees his task as not replacing MacInnes but perpetuating John's student-athlete philosophies and keeping Michigan Tech among college hockey's elite.

"I haven't thought about it in terms of replacing John, and a lot of people don't understand how I can not think about that. I am taking a good program that he built and that I have been involved with, and I am trying to keep it going," said the 30-year-old Nahrgang, a former Michigan Tech all-America defenseman. "My situation is a little different than Jeff's in some ways."

"This is not a big change for me. I've been here and know what we've been doing and what the atmosphere is like. We don't have the population and media that Jeff will be dealing with."

MacInnes closed his career as college hockey's winningest coach with a 555-295-39 record. He guided the Huskies to nine appearances in the NCAA championship, and three times Michigan Tech came away as national champion. MacInnes' teams also won seven Western College Hockey Association titles.

Johnson had a 332-164-22 record at Wisconsin and won three NCAA crowns. His teams made four other trips to the national tournament.

Sauer's record of 184-242-11 at

Colorado College is not impressive, but he never enjoyed the recruiting advantages—budget, national exposure, assistant coaches, winning tradition and fan support—that are present at Wisconsin.

Nahrgang and Sauer often are asked about the pressure of winning and how they will react during the tough times. But they say that much of the pressure is self-induced, and it doesn't come from trying to duplicate the former coach.

"I really haven't felt it yet, but I'm sure that I will if we go on a long losing streak. But it will come from myself because I am a competitive person and don't like to lose," Nahrgang said. "I don't feel any more pressure right now than when I was out recruiting."

Said Sauer, "It will be different at Wisconsin because of the fans and the focus the program gets from the media. I am sure there will be times when things are not going well that there will be pressure. But it will be because we are not happy with our play and not because of what has happened in the past. And I'll just have to adjust to it."

Although Sauer has been on his own for 11 years, he has stayed close to Johnson and has learned a lot by coaching against him. While there may be some differences in the Badgers' style, Sauer says his philosophy is similar to Johnson's.

"I really picked up a lot from his intensity. He lives and dies hockey," Sauer said. "He's so intense and wants to win badly, and he instilled that in me. It's fun to pick his brain about the game because he knows so much."

Nahrgang subscribes to most of MacInnes' theories, but the biggest thing he learned is the way MacInnes treated his players.

"John was fair and knew how to handle people and different situations," Nahrgang said. "He would demand that the kids work as close to their potential on the ice and in class as possible. We won't have a different look. We will be after the same type of talent; and once we're on the ice, we will go with the kids that work hard game after game. That has been a trademark of John's teams."

Recruiting is a vital aspect of any ice hockey program; and if Wisconsin and Michigan Tech are to compete for titles in the WCHA and Central Collegiate Hockey Association, respectively, and on a national level, attracting good talent must continue.

Jim Nahrgang

Jeff Sauer

Don Sylvestri of Clarkson ranks fifth among returning goalies.

Statistics compiled by Andrew Finnie, sports information director at the University of Maine, Orono.

Contenders plentiful in Division I conference races

Central Collegiate Hockey Association

Top Teams

Michigan State appears to be the strongest team in the league. Defending champion Bowling Green State and Michigan Tech should be the Spartans' toughest challengers, with Lake Superior State and Northern Michigan the other contenders.

Top Players

Forwards—Brian Hill, Bowling Green (34 goals-47 assists-81 points); Newell Brown, Michigan State (22-51-73); Mark Hamway, Michigan State (34-31-65); Dave Mogush, Northern Michigan (29-22-51); Bill Terry, Michigan Tech (26-24-50); Ted Speers, Michigan (23-16-39); Steve Mulholland, Lake Superior State (20-36-56); Eric Ponath, Northern Michigan (17-36-53); Mickey Candler, Lake Superior State (24-28-52); Steve Morris, Miami (Ohio) (21-29-50); Peter Wilson, Bowling Green (30-20-50).

Defense—Jim File, Ferris State (13-24-37); Gary Haight, Michigan State (9-33-42); Kevin Beaton, Miami (Ohio) (8-34-42); Joe Bowie, Notre Dame (7-24-31); Ken Calder, Western Michigan (7-22-29).

Goalkeepers—Ron Scott, Michigan State (2.85 average goals allowed); Jon Elliott, Michigan (3.50); Mike David, Bowling Green (3.52); Tom Allen, Michigan Tech (3.62); Lawrence Dyck, Lake Superior State (3.87).

Eastern College Athletic Conference

Top Teams

Any of several teams could emerge as the best in Eastern hockey, but Harvard, Providence and Clarkson have the most support going into the season. Others expected to be strong include Boston College, New Hampshire, St. Lawrence and Northeastern. Yale and Boston University could be surprises.

Top Players

Forwards—Kurt Kleinendorst, Providence (28-25-53); Kirk McCaskill, Vermont (30-19-49); Bob Brooke, Yale (12-30-42); Mark Crerar, Yale (23-22-45); Greg Olson, Harvard (15-24-39); Steve Smith, Colgate (16-38-54); Tom O'Regan, Boston University (18-34-52); Colin Patterson, Clarkson (21-31-52); Dan Forget, New Hampshire (13-34-47); Bruce McDonough, Clarkson (17-29-46); Scott Fusco, Harvard (16-20-36).

Jim File

Defense—Mark Fusco, Harvard (11-29-40); Bill Nichols, Yale (0-16-16); Randy Velischek, Providence (1-14-15); Jerry August, Boston University (3-13-16); Kevin Mutch, Boston University (7-20-27); Paul Castron, St. Lawrence (15-24-39); Steve Lyons, New Hampshire (16-29-45).

Goalkeepers—Don Sylvestri, Clarkson (2.93); Gray Weicker, St. Lawrence (3.17); Cleon Daskalakis, Boston University (3.22); Mario

Proulx, Providence (3.58); Mark Davidner, Northeastern (3.45); Paul Tortorella, Yale (3.46).

Western Collegiate Hockey Association

Top Teams

A wide-open race also is expected in the WCHA, with Denver the best bet to take the title from defending national champion North Dakota. Wisconsin and Minnesota are other possible contenders.

Top Players

Forwards—Gregg Moore, Minnesota-Duluth (31-34-65); Scott Bjugstad, Minnesota (29-14-43); David Tippet, North Dakota (13-28-41); Mike Krensing, Minnesota-Duluth (10-19-29); John Johannson, Wisconsin (15-34-49); Butsy Erickson, Minnesota (25-20-45); Bill Stewart, Denver (17-22-39); Gord Shervin, North Dakota (18-25-43).

Defense—Bruce Driver, Wisconsin (7-37-44); Doug Lidster, Colorado College (13-22-35); James Patrick, North Dakota (5-24-29); Jim Leavins, Denver (8-34-42); Chris Chelios, Wisconsin (6-43-49); Pat Ethier, Wisconsin (7-34-41); Tom Hirsch, Minnesota

(7-16-23); Kevin Dineen, Denver (12-22-34).

Goalkeepers—Jon Casey, North Dakota (2.77); Marc Behrend, Wisconsin (2.60); Terry Kleisinger, Wisconsin (2.65); Darren Jensen, North Dakota (2.96); Pat Tierney, Denver (4.49).

Independents

Top Teams

Army appears to be the best of the nonconference teams in Division I. Iona also should have a winning season.

Top Players

Forwards—Dan Cox, Army (15-38-53); Robbie Craig, Army (15-30-45); Gary Roessler, Canisius (16-27-43); Eugene Senk, St. John's (N.Y.) (16-28-44); Larry McGee, Iona (15-26-41); Bob Rosen, Canisius (16-25-41); Greg Stoike, Northern Arizona (14-22-36); Steve Festa, Fairfield (19-20-39); Marty Achtmichuk, U.S. International (13-23-36); Mark Manney, Air Force (27-36-53); John Yelle, Air Force (21-15-36).

Goalkeepers—Jim Stenson, Army (3.99); Cosmo Alberico, Iona (4.29); Bill Oakes, Fairfield (4.31); Jeff Snow, Army (4.49).

The NCAA News

NCAA Record

DIRECTORS OF ATHLETICS

JOHN WADAS, associate AD for operations at Arizona State, named at South Florida. Wadas served Arizona State for 11 years and held assistant and associate AD positions since 1974. **RUSS SLOAN** released at Fresno State. **RAYMOND "CHIP" SALVESTRINI** selected at Herbert H. Lehman. Salvestrini, a graduate of Yankton College who played three years in the NFL, is the first full-time athletic director at Lehman.

PRIMARY WOMEN ATHLETIC ADMINISTRATORS

CORANELL ROSSOW, director of intercollegiate athletics for women at Ball State the past two years, resigned to return to full-time teaching. **KIM CULLIGAN**, former head softball and assistant volleyball coach at Mankato State, chosen women's athletic director at Upper Iowa. Culligan also will serve as head basketball and softball coach and assistant volleyball coach.

ASSISTANT DIRECTOR OF ATHLETICS

LORRAINE WALZER appointed assistant AD for women's athletics at New York University. Walzer will continue as women's swimming coach.

John Wadas named director of athletics at South Florida

Terri Riffe appointed executive director of the Western Collegiate Athletic Association

COACHES

Baseball—**TOM HIGGINS**, former head coach at two Ohio high schools, selected at Cincinnati. Higgins replaces **PAT QUINN**, who left to become head coach at Ball State.

Baseball assistants—**RON VAN SADER** hired at Fairleigh Dickinson-Teaneck. **DAVE SNOW** named at Fullerton State. Snow, who previously coached at Fullerton State and helped head coach Augie Garrido build the team into a national power, has been head coach at Los Angeles Valley College the past five years.

Men's basketball assistants—**PAT McLAUGHLIN** hired at Adelphi. **TOM WILLIAMS**, head coach at Dunellon, Florida, High School the past two seasons, appointed at Mercer. **BEN HOWLAND**, an assistant last season at Gonzaga, named at California-Santa Barbara, replacing **REGGIE MORRIS**, who took the head coaching job at Compton Junior College. As a collegian, Howland played at Santa Barbara City College and Weber State. **RON GANULIN** chosen at St. Peter's. **MARK MOULTON**, a former assistant coach at Castleton State, appointed at St. Anselm.

Women's basketball—**SHERI PICKARD**, assistant women's basketball coach at Manhattan, chosen head coach at New York University. Pickard played college basketball at Elon and North Carolina State. **KIM CULLIGAN** named at Upper Iowa. Culligan also will be women's athletic director.

Women's basketball assistants—**KAREN SMITH** selected at Manhattan. **MARY HILE**, a two-time academic all-America at San Francisco, named graduate assistant at Long Beach State. Hile was a member of the 1978 Pan Am team, which she led in rebounding. **GINER REID** chosen at Idaho, after serving last year as assistant women's basketball coach at Oregon State. **JILL JEFFREY**, a 1980 graduate of Montclair State, appointed at Northeastern. Jeffrey, who recorded 18 assists in a game against Queens in Madison Square Garden, is the first full-time assistant coach in the women's athletic department.

Men's cross country—**MIKE BURDETTE** selected at Mercer, which will sponsor the sport for the first time in 26 years.

Football assistant—**ED O'NEIL**, a former Penn State all-America and professional player with the Detroit Lions, selected as a temporary assistant at Eastern Michigan. O'Neil will coach the inside linebackers through the remainder of the 1982 season.

Women's fencing—**G. STEVEN MORMANDO**, a gold medalist at the National Sports Festival this past summer, appointed acting head coach at New York University. Mormando was an NCAA finalist for Rutgers in 1979.

Men's ice hockey assistant—**ROBERT RICHARDSON** chosen at Clarkson.

Men's and women's rifle—**JAMES SUTTON** named at Mercer, which will sponsor the sport for the first time in 1982-83.

Richard Bowers becomes executive officer of the University of South Florida Athletic Association

Herbert H. Lehman College selects Raymond "Chip" Salvestrini as its first full-time athletic director

Men's soccer assistant—**EFRAIN BORGA** hired at New Jersey Tech.

Women's softball—**KIM CULLIGAN** named at Upper Iowa. Culligan also named women's athletic director, head basketball coach and assistant volleyball coach.

Men's swimming—**FRANK BURLISON** chosen head coach of the men's and women's teams at Idaho. Burlison, who coached the women's swimming team at Idaho in 1974-75, replaces **JOHN DeMEYER**, who resigned to move to Alaska.

Men's swimming assistant—**KAREN BURLISON** will serve as men's and women's assistant at Idaho.

Men's tennis—**KERRY BACON** appointed men's and women's coach at Mercer. Bacon replaces **BOBBY WILDER**, who resigned to devote more time to academic pursuits.

Men's track and field assistants—**SOLOMON CHEBOR** named at Fairleigh Dickinson-Teaneck. **RALPH LINDEMAN**, assistant track and field coach at Arizona State the past two years, selected men's and women's assistant coach at Arizona. Lindeman's duties will include coaching women sprinters and hurdlers, and he will tutor the men jumpers, hurdlers and decathletes.

Men's volleyball—**BOBBY POPE** selected to coach Mercer's first men's volleyball team.

Women's volleyball—**MEG UNDERWOOD** chosen at Upper Iowa. Underwood was an assistant coach at St. Cloud State prior to joining the Upper Iowa staff.

Women's volleyball assistant—**KIM CULLIGAN** chosen at Upper Iowa.

Wrestling—**PETE ENGELHARDT** named at Fairleigh Dickinson-Teaneck.

STAFF

Sports information directors—**DOUG HART** appointed at Mankato State, replacing **ROB SCHABERT**, who accepted the SID position at Tennessee Tech. Hart played basketball at Mankato State from 1963 to 1966. **RONNIE J. RITZ**, a 1982 graduate of Iowa and four-year assistant in the SID office, named at his alma mater. Ritz replaces **RON BERTOVICH**, who recently was named director of communications for the Atlantic 10 Conference. **ROD RUMPKE** selected at Wittenberg, replacing **ED WITTENBERG**, who resigned. **CINDY BULLIS** chosen women's sports information director at Niagara. Bullis will continue as head women's volleyball coach and assistant women's basketball coach.

Executive officer—**RICHARD T. BOWERS** selected executive officer of the University of South Florida Athletic Association. **Athletic trainer**—**LINDA MANLEY** selected at California, replacing **SHARON MENECONI**, who resigned to become trainer at Colby-Sawyer (New Hampshire) College. Manley has been employed at a physical therapy clinic in Chicago.

Assistant athletic trainer—**LINDA ECK** chosen at New York University. Eck has been women's athletic trainer and a physical education instructor at Bridgeport the past two years.

NOTABLES

PORTER MILLER, veteran track and field coach at Otterbein, named secretary-treasurer of the Division III Track Coaches Association.

DON MONTGOMERY, **SID BOYD**, **CLINT HEACOCK**, **RALPH SABOCK** and **WILLIAM GARNER** inducted into the Muskingum Hall of Fame. **WILLIAM DEMARAY**, E. P. WENZ and **RALPH WIRTZ** named to the North Dakota State Athletic Hall of Fame. **WILLIAM J. STEWART**, a college official for 30 years in the sports of ice hockey, baseball and football, honored as the 1982 George L. Shiebler Award winner by the Eastern College Athletic Conference.

WILBUR A. SCUDDER, **WILLIAM J. STINSON**, **WILLIAM F. SHOPMYER**, **BRAMAN E. ZEITLER** and **DOUGLAS D. DRAKE** chosen for induction into the Rochester Tech Sports Hall of Fame. Seven Bemidji State athletes, coaches and administrators have been named to the school's Athletic Hall of Fame. They are **CHET ANDERSON**, **ARLEEN BOYD**, **ED JOHNSON**, **PAT MAUCH**, **LOWELL NOMELAND**, **VIC WEBER** and **JOE YOUNG**.

CONFERENCES

TERRI D. RIFFE named executive director of the Western Collegiate Athletic Association. Riffe is a former assistant to the women's athletic director at Central Washington University, where she also coached volleyball.

NCAA POLLS

17. Arkansas State (2-2)	13
18. Tennessee State (3-0-1)	12
19. Tennessee-Chattanooga (3-1)	11
20. Bethune-Cookman (4-1)	9

Division II Football

The top 10 teams in NCAA Division II football through games of October 2, with season records in parentheses and points.

1. Southwest Texas State (4-0)	60
2. North Dakota State (5-0)	56
3. Jacksonville State (3-0)	50
4. Santa Clara (4-0)	50
5. North Carolina Central (4-0)	43
6. Texas A&I (3-1)	41
7. Southern Connecticut State (4-0)	35
8. Northern Michigan (4-1)	30
9. Northern Colorado (3-0-1)	28
10. Edinboro State (4-0)	16

Other teams receiving votes (listed in alphabetical order): Abilene Christian, Angelo State, California-Davis, Cal Poly-San Luis Obispo, Central Missouri State, Johnson C. Smith, Livingston, Northeast Missouri State and Sacramento State.

Division III Football

The top 15 teams in NCAA Division III football through games of October 3, with season records in parentheses and points.

1. Widener (4-0)	60
2. Baldwin-Wallace (4-0)	56
3. Albany State (3-0)	51
4. Wisconsin-Stout (5-0)	47
5. Augustana (Ill.) (3-0)	45
6. Montclair State (3-0-1)	37
7. West Georgia (3-0)	34
8. Mt. Union (4-0)	32
9. Bishop (4-0)	30
10. Wagner (3-0-1)	26
11. Wabash (4-0)	20
12. Franklin & Marshall (3-0)	12
13. Minnesota-Morris (2-0-1)	11
14. Adrian (4-0)	5
15. Central (Iowa) (4-1)	3
16. St. Lawrence (3-0)	3

Other teams receiving votes (listed in alphabetical order): Elmhurst, Hope, Kalamazoo, North Central, Plymouth State, San Diego, Wartburg and Worcester Polytechnic.

Division I Field Hockey

The top 20 teams in NCAA Division I field hockey through games of October 4, with season records in parentheses and points.

1. Connecticut (9-0)	140
2. Iowa (10-0)	133
3. Old Dominion (6-0)	126
4. Temple (4-0)	117
5. Penn State (7-1)	114
6. California (6-1)	103
7. Massachusetts (5-0)	99
8. Northwestern (6-2)	88
9. Delaware (4-3-1)	84
10. Rutgers (7-3)	80
11. North Carolina (5-4)	67
12. Ursinus (7-2)	62
13. San Jose State (4-2)	56
14. Virginia (5-1)	49
15. Princeton (3-1)	42
16. Southwest Missouri State (8-2)	33
17. Dartmouth (3-3)	26
18. Maryland (4-2)	26
19. Davis and Elkins (3-2)	15
20. Stanford (2-1)	7

Other teams receiving votes (listed in alphabetical order): Michigan, William and Mary.

Division III Women's Volleyball

The top 10 teams in NCAA Division III women's volleyball through games of October 4, with season records in parentheses and points.

1. California-San Diego (13-6)	60
2. Juniata (16-0)	54
3. Wisconsin-La Crosse (14-3)	45
4. La Verne (9-8)	42
5. Western Maryland (9-3)	36
6. Grove City (11-2)	31
7. Elmhurst (11-3)	17
8. North Carolina-Greensboro (16-6)	15
9. Colorado College (6-8)	13
10. Ithaca (3-3)	11

Other teams receiving votes (listed in alphabetical order): Maryville (Tennessee), Occidental and Smith.

Division II Women's Volleyball

The top 20 teams in NCAA Division II women's volleyball through games of October 5, with season records in parentheses and points.

1. California-Riverside (12-3)	140
2. Northridge State (11-4)	132
3. Florida Southern (10-0)	123
4. Sacramento State (8-3)	114
5. Angelo State (19-5)	110
6. Florida International (10-2)	98
7. Lewis (4-3)	90
7. Portland State (8-2)	90
9. Wayne State (Mich.) (10-4)	88
10. Chapman (7-2)	84
11. Edinboro State (11-3)	65
12. Northern Colorado (16-10)	61
13. C. W. Post (9-0)	60
14. Central Missouri State (13-1)	45
15. St. Joseph's (Indiana) (15-6)	31
16. Tampa (8-5)	30
17. Sam Houston State (15-8)	28
18. Army (18-6)	25
19. James Madison (12-6)	17
20. Central Florida (6-6)	13

Other teams receiving votes (listed in alphabetical order): Mansfield State, New Haven, Springfield, Southwest Texas State.

Division III Field Hockey

The top 20 teams in NCAA Division III field hockey through games of October 5, with season records in parentheses and points.

1. Trenton State (10-0)	100
2. Elizabethtown (7-0)	93
3. Bridgewater (Mass.) (65-1-2)	88
4. Ithaca (7-1)	86
5. Franklin & Marshall (5-1)	77
6. Frostburg State (4-1)	75
7. Salem State (8-1)	71
8. Cortland State (5-0)	61
9. Wisconsin-La Crosse (8-0)	57

Newsworthy

This man holds the NCAA Division I-A record for most touchdowns (seven) in a game. Was it: a. Glenn Davis; b. Tony Dorsett; c. Arnold "Showboat" Boykin; d. Lydell Mitchell?

Prep sports participation drops

Participation by boys and girls in high school sports declined during the 1981-82 school year, according to a survey by the National Federation of State High School Associations.

"To a great degree, what appears to be a decline in participation simply is an outgrowth of more accurate information," said Brice Durbin, executive director of the federation.

"However, we also realize that decreasing enrollment and financial factors have influenced nationwide educational cutbacks, which unfortunately often affect interscholastic athletic programs," Durbin said.

The survey showed that 3,409,081 boys participated in sports in 1981-82, a decrease of 94,043 from the previous year. The number of girls playing sports was 1,810,671, a decrease of 43,118 from 1980-81.

Football remained the most popular sport among boys, while basketball again was most popular among girls.

Fairleigh Dickinson receives gift

Fairleigh Dickinson University, Teaneck, has received a \$4.5 million gift from Fairleigh S. Dickinson Jr. for construction of a recreation athletic facility on the Teaneck campus.

Architectural plans are being studied, and a decision on the final structure and exact location is expected soon. The balance of the money needed will be supplied by the university.

"The facility will give impetus to the intercollegiate athletic programs at the university in the sports of men's and women's basketball, volleyball, fencing, wrestling, and track and field," said Stan Wright, director of athletics at Fairleigh Dickinson-Teaneck. "It will allow our student-athletes to compete in one of the finest athletic facilities in the East."

c. Boykin, Mississippi, 1951, vs. Mississippi State.

1978 cable royalties distributed

Nearly \$170,000 in royalties was distributed earlier this month to NCAA member institutions and allied conferences that participated in the joint claim filed by the Association for cable royalties related to nonnetwork telecasts during 1978.

The payments for 1978, which were delayed due to litigation challenging the allocation established by the Copyright Royalty Tribunal, were distributed to 85 participating institutions and conferences. A unit of \$177 was paid for each of 952 qualifying events.

Those events consisted of athletic contests during 1978 that were retransmitted by a cable system outside the local area of the originating telecast (distant-signal telecasts).

A total of \$168,447.76 was paid to the membership for the 1978 telecasts. An additional \$29,400 was retained by the Association to cover a portion of the legal fees incurred in recovering the cable royalties.

Efforts are continuing to recover royalties from subsequent years for member institutions and allied conferences. The allocation established by

the tribunal for 1979 telecasts also was challenged and now is being considered by the U.S. Court of Appeals in Washington, D.C.

Distribution of royalties for telecasts that occurred during 1980 now is being considered by the tribunal. The Association has filed a joint claim on behalf of the membership for 1981

telecasts, but consideration by the tribunal is not expected until sometime in 1983.

Information regarding 1982 telecasts will be requested from interested institutions and conferences during the early part of 1983 in order for the Association to file the usual claim next summer.

Courtesy of Wittenberg University

Division III announcers

John Madden and Pat Summerall usually announce National Football League games on Sundays, but they found themselves at one of four Division III football games telecast by CBS October 3 as a result of the NFL Players Association strike. They covered the Wittenberg vs. Baldwin-Wallace game in Springfield, Ohio.

Experience in counseling and advising student athletes with problems is desirable. Salary range: \$23,681-\$33,532, commensurate with qualifications and experience. Deadline date for the receipt of completed applications is November 16, 1982. To be considered for the

position, a standard application may be obtained from and MUST be returned by the above stated deadline date to: Eastern Michigan University, Personnel Office, 112 T. M. Welch Hall, Ypsilanti, Michigan 48197. (313)487-3430. Affirmative action/equal opportunity employer and educational institution.

Lacrosse

Women's Lacrosse Coach, part-time (1/31/83 to 5/27/83). Division III nationally ranked team. Bachelor's degree. Demonstrated successful coaching and/or competition, collegiate experience in lacrosse with female athletes. Salary: Competitive. Application deadline: October 22, 1982. Send credentials to: Dr. Elizabeth (Penny) Van Horn, Athletic Director/Women, Livingston Center, Denison University, Granville, Ohio 43025. Phone: 614/587-6236. Denison is an AAEO employer and is located approximately 35 miles east of Columbus and The Ohio State University.

Men's Lacrosse Coach. The University of Massachusetts, Boston, is seeking a part-time varsity men's lacrosse coach. Applicants should have a minimum of three years lacrosse coaching experience, preferably at the collegiate level. Interested parties should forward resume by October 25, 1982, to: Charlie Titus, Athletic Director, UMass/Boston, Harbor Campus, Boston, Massachusetts 02125. An affirmative action employer.

Track and Field

Assistant Track Coach, University of Rochester, NCAA Division III member. Seeking assistant track coach for men's and women's indoor and outdoor track and field. Individual will coach throwing events and vertical jumps. Seven-month part-time position. Apply by October 25, 1982, to Timothy Hale, Head Track Coach, University of Rochester, Rochester, New York 14627 (716)275-4319.

Open Dates

Women's Basketball. Need one team for Dec. 17-18, 1982, women's basketball tournament. University of Northern Colorado (Division II). Phone: Ten Caswell, 303/351-6342. **Women's Basketball.** Late cancellation, University of New Mexico needs games December 11, 12; January 13, 15; February 17, 19. Game guarantee possible. Contact Doug Hoeselton, 505/277-2543, immediately if interested.

Search Reopened Director of Athletics and Chairman of Physical Education Pomona College

Pomona College seeks a director of athletics and chairman of department of physical education to lead an integrated program for men and women. Pomona College, a highly selective college and founding member of the Claremont Colleges in Claremont, California, joins with Pitzer College to field teams in 11 men's and six women's sports. These teams compete in the Southern California Intercollegiate Athletic Conference at NCAA Division III level. The director/chairman will be responsible for a department which provides basic instruction in activity classes, organizes active intramural competition, maintains recreation facilities, offers selected academic courses, and supports a balanced intercollegiate athletic program. The director/chairman must supervise and evaluate department personnel, develop budgets, and administer all activities of the department. Plans are currently underway for the construction of major facilities for athletics and physical education, and the director/chairman will play a central role in helping complete these plans and bring them to fruition.

Qualifications: Minimum of a master's degree, demonstrated ability in administration, and a strong background in intercollegiate athletics and physical education.

Applications and letters of interest must be postmarked by November 1, 1982. Term-contract, negotiable; appropriate faculty status. Send a letter of application and resume and three current letters of reference to:

Robert T. Voelkel
Vice President and Dean of the College
Pomona College
Sumner 201
Claremont, California 91711

Pomona College is an equal opportunity/affirmative action employer

CALIFORNIA POLYTECHNIC STATE UNIVERSITY San Luis Obispo DIRECTOR OF ATHLETICS

Cal Poly, San Luis Obispo, is accepting applications for Director of Athletics. The Director is responsible for administration of a broad scale program of nine men's and eight women's teams. All but men's wrestling and women's volleyball, which compete as Division I independents, participate at Division II level. Cal Poly seeks candidates with strong knowledge and abilities in program management and supervision, including complete knowledge of NCAA regulations and procedures, athletic fund raising, booster group coordination, budget preparation and administration, Title IX and affirmative action compliance and strong advocacy of positive academic progress of student athletes.

Minimum of Master's degree; doctorate preferred plus three years experience as Director or Associate Director. Twelve month position available immediately. Salary: \$34,860 to \$42,120. Applications must be received by December 1. Address inquiries and applications to:

Howard West, Assoc. Executive Vice President
California Polytechnic State University
San Luis Obispo, CA 93407
805/546-2248

Affirmative Action/Equal Opportunity/Title IX Employer

Howard Elwell

Elwell joins steering committee

Howard "Bud" Elwell, director of athletics at Gannon University, has been appointed by the NCAA officers to fill a vacancy on the Division II Steering Committee.

The vacancy was created when Ade L. Sponberg, North Dakota State University, was appointed to the NCAA Council to replace Aldo A. Sebben of Southwest Missouri State University, which has moved to Division I. Sponberg had been serving as a non-Council member on the steering committee.

A 1955 graduate of Gannon, Elwell earned a master's degree at Ohio State University in 1961. He has been a member of the Gannon staff for 21 years and director of athletics since 1966. He also serves as golf coach and previously coached cross country and basketball.

He is a member of the Division II Men's Basketball Committee and the Men's Committee on Committees and has served on NCAA regional and district Division II advisory committees in basketball and golf.

Exceptions

Continued from page 1

For all other institutions that have switched their women's programs to operate under NCAA rules, the following is a list of exemptions that apply to women until August 1, 1985:

Constitution 3-9-(a)-(4) exempts women from the principles governing the eligibility of student-athletes who participate in high school all-star basketball contests. Bylaw 2-3 does the same thing for college all-star basketball contests.

Bylaws 1-2-(a)-(5) and 1-3 exempt women from the rules regulating the periods for off-campus contacts with and evaluation of prospective student-athletes in the sport of basketball. The regulations only apply to Divisions I and II programs.

Women's programs are exempt from most of Bylaw 3, which sets forth limitations on the length of practice and playing seasons. However, Sections 3-(a) and 5 of Bylaw 3, which limit the number of contests in basketball and soccer and establish the definition of and certification requirements for foreign tours, do apply.

The NCAA Council has determined that Bylaw 5-7, which establishes criteria for automatic qualifying conferences, applies only to Division I men's programs per Executive Regulation 1-6-(b)-(1).

The balance of Executive Regulation 1-6-(b), which further defines the criteria for automatic-qualifying conferences, does apply to women, except for 1-6-(b)-(2), 1-6-(b)-(5) and 1-6-(b)-(7). As noted in 1-6-(b)-(7), however, no fewer than six members of a conference must agree to participate in an NCAA women's championship for the conference to be considered for

Division I

Continued from page 1

tutions with undeniably the best teams.

Research clearly shows most of the "best teams" come from I-A and I-AA member institutions plus a relatively few additional institutions that do not sponsor football or do not sponsor it in Division I.

Further, a study of all NCAA championships for which Division I institutions are eligible shows that the institutions classified in Division I-A and Division I-AA (as opposed to those that do not have football or do not sponsor football in Division I) dominate those NCAA championships in all sports.

Table A (above right) discloses that during the five-year period from 1976-77 through 1980-81, the Divisions I-A and I-AA institutions occupied more than 83 percent of the top positions in team and individual NCAA championships (using the top 16 positions in the standings where available, or the top eight or top four where necessary). In the revenue championships, that percentage rose about 86 percent.

When the Divisions II and III institutions that place one sport in Division I are removed from Table A, the resulting percentages show Divisions I-A and I-AA institutions earning 89.2 percent of all the Division I top positions and 92.4 percent in the revenue championships.

Similarly, a study (Table B) was made of all participation (one athlete or more regardless of place finish in the event) in all individual (not team) championships for which Division I members were eligible from 1979-80 through 1981-82. This is an even more telling appraisal of Division I programming efforts by Division I members, and Table B shows more than 93 percent of Division I participants in these 11 championships were from Divisions I-A and I-AA institutions.

When those Divisions II and III institutions that place one sport in Division I, participate in the National Collegiate Championships for which

automatic qualification.

The NCAA Council has ruled that those provisions of Bylaw 11 (which establishes criteria for division membership) that relate to minimum sports sponsorship and scheduling percentages do not apply to women's programs. That exemption was explained when the membership adopted the governance plan at the January 1981 Convention.

Additionally, the NCAA Council affirmed in August an interpretation by the Association's officers that permits a woman student-athlete, under certain circumstances, to remain eligible to participate in intercollegiate competition when her institution switches conduct of its women's programs to NCAA rules.

Specifically, if the student-athlete was enrolled in the institution during the last regular term prior to the change and was eligible under the rules governing the program at the time of the change, she remains eligible under NCAA rules governing seasons of competition, transfers, amateurism, the five-year rule and the 2,000 requirement. However, she must do nothing to adversely affect her eligibility after the rules transition.

"The key to this interpretation is that the student-athlete must have been enrolled during the last full term at the institution," said Morgan.

The interpretation applies only until August 1, 1985, or until the completion of a woman student-athlete's fourth season of competition, whichever occurs first.

Other than those specific exceptions, all NCAA rules apply to women's programs when they are conducted under NCAA legislations.

TABLE A (Team and Individual Championships)			
Institutions	Revenue Championships	Nonrevenue Championships	Total
Divisions I-A and I-AA	329 (86.6%)	517 (81.3%)	846 (83.2%)
Other Division I	27 (7.1%)	75 (11.8%)	102 (10.1%)
Divisions II and III	24 (6.3%)	44 (6.9%)	68 (6.7%)

TABLE B (Individual Championships Only)			
Institutions	Revenue Championships	Nonrevenue Championships	Total
Divisions I-A and I-AA	2,852 (95.0%)	4,423 (92.1%)	7,275 (93.2%)
Other Division I	152 (5.0%)	380 (7.9%)	532 (6.8%)

TABLE C (Individual Championships Only)			
Institutions	Revenue Championships	Nonrevenue Championships	Total
Divisions I-A and I-AA	2,852 (85.8%)	4,423 (84.3%)	7,275 (84.9%)
Other Division I	152 (4.6%)	380 (7.2%)	532 (6.2%)
Divisions II and III	320 (9.6%)	445 (8.5%)	765 (8.9%)

all members are eligible or qualify through their division championships are included in the study (Table C), the Divisions II and III representatives total 8.9 percent, more than those from the "other" Division I group.

It is apparent, according to the Council, that many Division I members in the "other" category essentially have been attracted to Division I in the sport of basketball and have placed the remainder of their programs in Division I because that is required by NCAA legislation. For many of those institutions, this focus on the men's basketball program places many, if not all, of their other sports, for both men and women, in an unfair position since they are not competitive by Division I standards.

President James Frank observed that realignment of the NCAA membership divisions has been a major, continuing issue for the Association for more than six years, and the Council has concluded that the issue will not be resolved until like institutions with similarly committed athletic programs achieve a homogeneous legislative and competitive division.

He said the Council plan is based on the belief that membership in Division

I should require an appreciable and comparable level of commitment to a nationally major men's sport; i.e., football or basketball or both. Therefore, the Council proposes that all institutions meeting the Divisions I-A and I-AA membership criteria be organized as one division for purposes other than the football issues reserved for I-A and I-AA at the present time. Any other institutions wishing to be in that division could do so by meeting the following criteria as evidence of such a commitment:

1. Sponsor eight varsity sports for men in Division I. (Same as present requirement)

2. Schedule and play not more than four basketball games against institutions outside that division. (Similar to present requirement)

3. Average more than 3,500 in documented paid attendance per each home basketball game (single games only; doubleheaders excluded) in the immediate past four-year period (new); or

(Note: For purposes of this criterion, only single home games for which the certifying institution clearly is designated as the home team shall be counted, except that teams playing more than 50 percent of their home games as part of doubleheaders in college-campus arenas may count the

doubleheader attendance in full.)

4. Average more than 110,000 in documented paid attendance per season, including all games played, in the immediate past four-year period (new).

(Note: Attendance at doubleheaders shall be divided by two, and each of the four teams may include half of the final total documented paid attendance for the doubleheader, except that teams playing more than 50 percent of their home games as part of doubleheaders in college-campus arenas may count the doubleheader attendance in full.)

5. In those varsity sports utilized to meet the eight-sport requirement, award collectively financial aid amounting to at least 50 percent of the total permitted for those sports under NCAA Bylaw 6-5-(b)-(1) (new).

There would be a few instances, of course, in which an institution that does not meet the existing football criteria or the proposed basketball criteria may have outstanding Division I records in a number of other sports. In those cases, the institution could request a waiver of the criteria from the membership of the division, as set forth in Bylaw 10-1-(f).

Secretary-Treasurer John L. Toner noted that there would be some institutions in Division I that would meet the football criteria but not the basketball criteria [e.g., University of Miami (Florida), which does not sponsor basketball] and others that would (or could) meet the basketball criteria but not the football standards [e.g., do not sponsor football or conduct the sport in Division III]. There would be a required commitment to one or the other, or both, as well as a commitment to other sports in the Division I member's program.

The Council report concludes that the restructuring issues that have been disturbing to the Association for a number of years cannot be resolved until Division I embodies members with similar objectives and program commitments, particularly since all division members vote on legislation pertaining to recruiting, financial aid, eligibility, and playing and practice seasons, as they apply to both men's and women's programs.

Select

grants-in-aid, other cost factors.

NCAA President James Frank addressed the committee in Denver, emphasizing the committee's independent nature and the contribution the committee can make to college athletics and higher education. Citing the composition of the committee and its charge to develop practical solutions to the problems it identifies, the NCAA president said he believes the committee "has the potential to do something no other committee has done... and to make a meaningful contribution to intercollegiate athletics in America."

"I assure you that your recommendations will not gather dust on some shelf," he continued. "Ultimately, the problems in athletics must be solved by the institutions themselves, and the committee's recommendations will be considered at the national, conference and institutional levels."

Fourteen of the 16 committee members attended the first meeting: Chief Executive Officers Gardner, Edward H. Jennings, Ohio State University; Wesley W. Posvar, University of Pittsburgh; Howard R. Swearer, Brown University; Barbara S. Uehling, University of Missouri, Columbia; and Charles E. Young, University of California, Los Angeles; at-large representatives Willie D. Davis, Los Angeles; Jerome H. "Bud" Holland, New York City; and Charles Alan Wright, University of Texas, Austin; Faculty Athletic Representatives Rev. Edmund P. Joyce, University of Notre Dame; and Jack R. Wentworth, Indiana University; Director of Athletics Roy Kramer, Vanderbilt University; and coaches Lou Holtz, University of Arkansas, Fayetteville; and Dean E. Smith, University of North Carolina, Chapel Hill.

President Otis A. Singletary, University of Kentucky, and Robert S. Devaney, director of athletics, University of Nebraska, Lincoln, were unable to attend because of schedule conflicts.

Championship entry forms for cross country mailed

Certification of eligibility/entry forms for the 1982 men's and women's cross country championships in all three divisions have been mailed from the national office.

This represents a change in procedures from previous years when the host institutions of the district and regional meets mailed the forms.

The forms were mailed to the director of athletics or primary woman athletic administrator at each NCAA member institution that sponsors cross country. Coaches also receive a memorandum with the cross country administrative handbook explaining the new entry procedures.

Separate forms have been prepared for the men's and women's championships.

Each institution that expects to participate in the 1982 championships must duplicate the form and forward a copy to the appropriate regional or district site, a copy to the national site and one copy to the NCAA national office.

In addition, each institution should hand-carry one copy to the regional and national competition in case of a delay in the mail and for verification.

The same form will serve for both the regional or district meets and the national championship.

There is no limit to the number of entries an eligible member institution may make, although no more than seven contestants from each institution may participate.

The form must be signed by the

institution's faculty athletic representative or registrar, certifying the eligibility of team members or athletes in accordance with NCAA rules and regulations or, for women's championships, the rules and regulations of the NCAA or those of the organization under which the institution has certified that it will administer its athletic program.

All certification of eligibility/entry forms must be postmarked no later than November 1 for Divisions I and III and no later than October 15 for Division II.

Entries postmarked after the appropriate dates will not be accepted, except through a petition process. Petitions for late entries may be made until the beginning of declaration at the meet sites. If the petition is approved, a fine may be assessed.

The date for the 1982 Division I district meets is November 13 and the championship will be conducted November 22 at Indiana University.

In Division II, the regional meets will be held October 30, with the finals at St. Cloud State University November 13.

The regional dates for Division III are November 13 for most of the country and November 6 in the West. The championship meet will be November 20 at Fredonia State University College.

All of the district or regional and national meets are common-site championships for both men and women.
