Football, volleyball standouts are Today's Top Five finalists

Three prominent college football players, including the Outland Trophy winner and a top contender for the Heisman Trophy, and two outstanding women volleyball players have been selected as this year's fall nominees for the NCAA's Today's Top Five awards.

David Rimington of the University of Nebraska, Lincoln, the only two-time winner of the Outland Trophy, and John Elway of Stanford University, one of the favorites in the Heisman race, are among the nominees for the awards.

Football player Cormac J. Carney of the University of California, Los Angeles, and volleyball players Valerie Jean de Pourtales of Brigham Young University and Mary C. Holland of San Diego State University are the other nominees.

They will vie with five student-athletes already nominated from winter and spring sports for the awards, which will be presented January 10 at the NCAA honors luncheon during the Association's annual Convention in San Diego.

These five finalists were selected based on participation in sports conducted this fall.

Athletic ability and achievement are only two of the criteria used for determination of the finalists. Character, leadership, extracurricular activities and academic achievement also are considered. Student-athletes must be seniors during the current academic year to qualify.

Winter-spring nominees, as reported in the October 18 issue of The NCAA News, are Bruce R. Baumgartner, Indiana State University, Terre Haute (wrestling); Angela A. Turner, Louisiana Tech University (basketball); Valerie Walker, Cheyney State College (basketball); Charles F. "Karch" Kiraly, University of California, Los Angeles (volleyball), and Richard J. Giusto, University of Vir-

Mary C. Holland

John Elway

ginia (lacrosse).

Fall nominees are as follows:

Cormac Carney

Carney was UCLA's leading pass receiver for three consecutive years, after beginning his career at the Air Force Academy. He was selected to the all-Pacific-10 team as a junior and set school records in receptions and yards.

A psychology major with a 3.41 grade-point average, Carney has been active as a tutor and with the Boy's Club. He also is a charity and religious speaker and is a member of Psi Chi honorary.

Valerie de Pourtales

International competition and participation in the 1980 Olympic volleyball trials are among the accomplishments of de Pourtales. A four-year starter at Brigham Young, she twice was a U.S. Volleyball Association junior and open-division participant and captained teams that competed in Mexico and Canada.

Her off-court activities also are impressive, including participation in a Spanish vocal ensemble and the San Gabriel Valley Symphony Orchestra. A member of Phi Sigma Alpha political science honorary, and a BYU trustee scholar, de Pourtales coauthored a

2,000 legislation facing delegates

Editor's Note: This is the third article in a seven-part series on legislation to be considered at the 77th annual Convention. The topical grouping to be considered in this issue is academic requirements. In the remaining issues of The NCAA News leading up to the Convention, legislation in the following topical groups will be considered: championships, membership/classification, playing and practice seasons, recruiting, general, eligibility, and personnel limitations.

The most important of the 12 academic-requirement proposals facing Convention delegates will be five proposals sponsored by the NCAA Council aimed at strengthening academic standards in Division I. The original sources for the proposals include the American Council on Education, the College Football Association and the NCAA Recruiting Committee.

The five proposals — Nos. 48 through 52 — would amend the 2,000 rule set forth in Bylaw 5-1-(j).

Proposal 48

Proposal No. 48, originated by the ACE, would establish a specific core curriculum for which a student must have a minimum 2,000 grade-point average. Under this proposal, a student also would have to have a 700 combined score on the SAT verbal and math sections or a 15 composite score on the ACT.

The core curriculum in Proposal No. 48 states that a high school student must have a minimum grade-point average of 2.000 in at least 11 academic courses, including at least three in English, two in mathematics, two in social science and two in natural or physical science (including at least one laboratory class, if offered by the high school).

Proposal 49

Proposal No. 49 would require a 2,000 grade-point average in three years of English and two years of math, and an overall high school accumulative minimum grade-point average of 2.000. The required test scores are the same as in Proposal No. 48.

In addition to the core curriculum and test score requirements, No. 49, which was originated by members of the CFA, would provide an opportunity for a nonqualifier to receive institutional financial assistance or practice during the first year, subject to a loss of one season's eligibility.

Proposal 50

The most complex core curriculum proposal is No. 50, which would require a minimum 2,000 grade-point average for four years of English (including one year of composition), two years of math (including one year of algebra), three years of social science, two years of natural science (including one year of laboratory science) and four years of additional credit from courses attempted in English, math, social science, natural science, foreign language, computer science or speech. The proposal also requires an overall accumulative minimum grade-point average of 2.000.

Proposal 51

Proposal No. 51, originated by the ACE, would require the same core curriculum as No. 48 but does not require minimum ACT or SAT test scores.

Proposal 52

The simplest core curriculum alternative sponsored by the Council is No. 52, originated by the Recruiting Committee, which would require the high school student to complete successfully at least two years of credit in non-remedial mathematics courses and three years of credit in nonremedial English courses with an accumulative minimum grade-point average of 2.000 in those subjects.

Six member institutions, headed by Virginia Polytechnic Institute, have proposed restoring the preparatory school alternative for qualification under the 2,000 rule.

This proposal, No. 54, seeks to replace a portion of the rule deleted at the 1982 Convention. Specifically, a student could qualify under the 2,000 rule by presenting a 2,000 grade-point

Prep stars in basketball sign letters with colleges

By James A. Sheldon
The NCAA News Staff

Hotels will have more vacancies, the phone will ring less in the homes of the nation's top recruits, and basketball coaches' wives will see their husbands more often this winter.

At least that is how most of the country's men's college basketball coaches view the one-year experiment conducted by the Collegiate Commissioners Association that permitted high school seniors to sign National Letters of Intent November 10-17.

"Anything that saves time and money in our business is good," said Michigan head coach Bill Frieder. "I only signed one kid during the early period, but six or eight other players who we were recruiting signed with other schools. That means we won't have to spend additional time on them, and we can concentrate on our remaining prospects."

The old signing period, which traditionally began the second Wednesday in April, often led to a nerve-racking winter of phone calls, plane trips and motel rooms for coaches. For players, it usually meant spending a senior season under constant pressure.

"We had five early commitments last year," Frieder said, "and it caused some real problems. We had to baby-sit those kids all winter. Other schools were doing likewise, hoping to change the kid's mind. There was some negative recruiting going on, and that kind of situation also can lead to illegal inducements."

Colorado's Tom Apke echoed Frieder's thoughts.

"I'm all for it (the early signing period)," said Apke. "There are a number of advantages."

"First of all, the savings in dollars is obvious. Secondly, it can keep your

Positive sides of college athletics explored

By John F. Gaski

With the advent of another intercollegiate athletic season, the only prediction one can make with absolute certainty is that many sanctimonious complaints will appear in the press about the evils of big-time, big-money college sports. And, without question, there is much to complain about. Renegade athletic departments commit a range of unethical practices that fall into two general areas:

- Financial transgressions, such as illegal recruiting inducements (e.g., cars and cash) and payments to currently enrolled players.
- Academic irregularities, including transcript alteration for both recruits and enrollees, general abrogation of admission standards (even some of the best schools compromise their reputations in this manner) and failure to attempt to educate athletes, as testified to by dismal graduation rates.

Then there are the drug and crime problems, most recently the case of Quintin Dailey, which actually caused his school, the University of San Francisco, to eliminate its basketball program.

But for the sake of balance, and justice, let us take note of some of the more positive aspects associated with intercollegiate athletics.

First, to give expression to the obvious, college athletics provides benefits to its participants and spectators. For the participants, the platitudes about the virtues of team effort, sacrifice, hard work, achievement, etc., would apply to some degree. For those who receive athletic scholarships, there is the opportunity for a free education, although many elect not to take advantage of it. Evidently, the value of such activity (i.e., athletic participation) is greater than that associated with alternate pursuits because collegiate athletes voluntarily participate.

Regarding the benefits to the spectators, intercollegiate athletics deserves the same credit that all providers of desired goods and services are due. The value of the product called "college

sports entertainment" is reflected by the enormous amounts of money customers are willing to pay for it.

This money issue also identifies a major benefit to the institutions that sponsor college athletics. That is, spectator sporting events, particularly football and basketball games, are an important source of revenue. Funds raised from ticket sales, television rights, etc., are used to support nonrevenue-producing "minor" sports, intrinsically valuable in themselves, and, in rare cases, can even be used for nonathletic purposes. At the least, every dollar of athletic revenue taken in represents one less dollar that needs to be diverted from general or academic use.

At this point, it may be appropriate to address some of the more fatuous, even hypocritical, criticisms of college athletics. One concerns the alleged overcommercialization of college sports:

Columnary Craft

i.e., the fact that they have become a big business with greedy athletic departments crassly pursuing the aforementioned sums of money. In response to this, a rhetorical question is sufficient reply: Since when is university fund-raising unsavory? Because universities perform beneficial, even noble, functions with the money they raise, fund-raising activity is inherently legitimate, whether it is done by solicitation of donations or sale of tickets.

Also, many observers, while correctly identifying the problem of student-athletes who are, in reality, nonstudent athletes, propose that universities simply drop the pretense and hire professional teams of college-age athletes who would be paid for their services but not required to enroll in school. Really, some have seriously made this suggestion, which properly can be called ridiculous on the grounds that it merely aggravates the problems it purports to remedy. In other words, if college athletics suffers

from a problem of insufficient attention to the academic side, or excessive professionalization, for that matter, a remedy that moves even further in those directions is an absurd proposition on its face.

More reasonable, and more appropriate, would be stricter enforcement of academic standards as well as NCAA athletic regulations. It is surprising how many university presidents are willing to preside over the bastardization of their schools' academic reputations and the forfeiture of their basic principles in the interest of the development of athletic factories. For instance, one former president of a major university admitted to prior knowledge of more than 300 improperly admitted "student" athletes. Perhaps sanctions directed toward university presidents as well as coaches and players would be effective.

Problems certainly abound in intercollegiate athletics, but that does not mean the activity itself is improper or deficient. Closer supervision by university officials and stricter enforcement of NCAA regulations would largely eliminate the problems. The big-money aspect of college sports does invite corruption, but it is also a fair measure of the utility provided to the customers. For example, if a person spends \$25 attending a college football game (including cost of ticket, transportation and incidental expenses), the satisfaction he receives from the event must be worth at least that amount or he would not have paid the \$25 for it. Multiple by 50,000 or more customers in attendance, and this is no insignificant contribution to the quality of life. Nor is it an insignificant contribution to a university's financial resources.

It is important to distinguish between the essence and the implementation of college athletics and not make the error of allowing observation of unsatisfactory implementation to taint what is an essentially honorable undertaking. Too many critics have been doing just that.

John F. Gaski is an assistant professor of marketing at the University of Notre Dame.

Letters to the Editor

Athletic director discusses legislative proposals

To the Editor:

There is legislation proposed, as described in The NCAA News, aimed at reducing the number of teams allowed to compete in Division I. Presumably, there is a burgeoning number of institutions that do not conduct bona fide Division I programs, and the NCAA Council has been burdened with this disturbing issue for several years. They claim it will not be controlled until Division I embodies members with similar objectives and program commitments in the sports under consideration.

The nature of the NCAA's interpretation of "similar commitments" eludes me, as I was under the impression that the function of the NCAA was to "initiate, stimulate and improve intercollegiate athletic programs for student-athletes." (NCAA Manual, page 9, 1982-83). In 1977, they set the standards for growth and the conduct of their championships when they amended the rules for automatic qualification to the basketball tournament. In compliance with all of these NCAA regulations, about 40 schools altered their programs significantly and made a commitment to Division I, following the guidelines stipulated.

These "invaders" into the ranks of Division I (by NCAA's own statistics, 16 percent over eight years, hardly an alarming rate of growth) have gone through the trauma of changing ath-

letic philosophies, developing scholarship funding, working on a solid recruiting base to attract top-level players and committing themselves to the NCAA procedures for Division I. What is left for these schools but cynicism and distrust? What chance is there to grow in the sport except to follow impossible new rules and thus prostitute institutional integrity? Many of them have just entered Division I competition, and, therefore, have no history of NCAA championships or total attendance records at that level. How do these institutions, striving to meet regulations and commitments, fare this next year or two?

There are many injustices inherent in the new proposed legislation, especially concerning the student-athlete. Has the NCAA Council really considered the student-athlete at a Division I school whose status could be in jeopardy? For instance:

1. What about the student-athlete who has been recruited under Division I guidelines and has chosen an emerging program to be a part of building a tradition? He might lose his opportunity to be a star rather than be relegated to sitting the bench in a "traditional" big-time program.

2. Will the athlete be able to transfer to a Division I school with no loss of eligibility if his school is relegated to Division II? The Council must realize that players want to compete at the highest level possible and, believe it or

not, these schools do have players who can compete at the "higher" level of play. Why should they be compelled to play at the Division II level if they've been recruited in Division I?

3. Who will the targeted Division I teams be able to schedule? Players have been promised a schedule representative of Division I that the colleges will have difficulty honoring. We all know how tough it is to attract the "better" teams to a home-and-home arrangement. We all know Division I cannot play more than four schools outside Division I. Who are the chosen 40 or 50 going to schedule to maintain Division I scheduling requirements?

4. Isn't it possible that programs not able to qualify will eliminate scholarships and coaching staffs? Does the Council realize that between 500 and 700 student-athletes could be affected (50 schools with 15 scholarships)? In the future, these grants may not be available, and there will be considerably fewer students able to earn their education playing basketball.

5. Student enrollment is declining. The unemployment statistics are at an all-time high, and now, instead of providing for an education and jobs, this proposal could eliminate coaching positions. Few institutions will retain full-sized staffs. There will be many qualified head or assistant coaches who will be thrown into the job market. Our longevity rate is bad enough; this will reduce the number of jobs

available.

It appears that the "less prominent" institutions have created a problem by utilizing their right to vote and have angered the "legitimate Division I" teams. However, before the rules are changed, I would urge those seeking that change to reflect on the effect it will have on the current student-athletes.

Consider what it will do to their dreams, goals and hard work expended in an effort to create a positive image for themselves and their institutions. Of no less import is the impact such a move will have on the coaches in these schools, who probably will be looking for jobs when the colleges become aware that additional full-time coaches cannot be supported in Division II or III programs.

Ron Petro
Athletic Director
Marist College

To the Editor:

I read with interest your article concerning the developing program in sports administration at Georgia Tech. The addition of undergraduate programs in this area serves the needs of those students who express an early interest in the broad field of sports management. Many students, however, discover their vocational direction during their undergraduate years and find a need for graduate training in their chosen field.

Ohio University was the pioneer in this field of study, establishing the first

program in sports administration. For the past 16 years, our program has produced more than 350 graduates who now are employed in the administration of collegiate athletics, professional sports, sports-related corporations, and the management of arenas and auditoriums. We, and the other universities offering graduate programs, continue to attract creative, mature individuals dedicated to administrative careers in sport.

Charles R. Higgins
Coordinator
Sports Administration
Program
Ohio University

To the Editor:

In the October 25 issue of The NCAA News, Tom Osborne was quoted in the Comment section on the subject of redshirting.

I was appalled that he stated that if a student is not good enough to play as a sophomore, "he's going to be red-shirted."

Redshirting of any player who is capable of completing a degree in four years is gross exploitation. It takes a year out of a young man's life and diminishes his earning power.

The only valid moral reason for redshirting is that the student-athlete cannot complete a program in the normal time because of academic difficulty or severe illness.

Football Notes

1982-83 bowl picture has a familiar look

19 Bowl Repeaters

If you think this season's major bowl lineup has a familiar look, you're absolutely right. Nineteen of the 32 bowl teams also went bowling a year ago. Making the lineup in the four big traditionals—Rose, Orange, Sugar and Cotton—is a little tougher, though. Only three of those eight are repeaters—Georgia, Nebraska and Pittsburgh—and only Georgia for a third straight year.

Of the other 13 bowlers, five have gone bowling in the last five years. Longest away? That's easy. Kansas State had never been to a bowl (and its Independence Bowl foe, Wisconsin, has never won a bowl in four trips). Boston College is bowling for the first time in 40 years (losing to Alabama in the 1943 Orange Bowl after the 1942 season). Bowling Green State and Fresno State for the first time since 1961 (when they played each other) and Illinois for the first time in 19 years (when it won the 1964 Rose Bowl after the 1963 season). This is Air Force's first bowl since 1970, and the first since 1974 for both Auburn and Vanderbilt. (Major bowl definition: At least one major team, as classified that year.)

Alabama has become a bowl institution. This is Alabama's 24th consecutive bowl trip, all under coach Paul "Bear" Bryant—an incredible feat. And this is the 36th bowl game for Alabama—a record. Nebraska is next with its 14th straight bowl season—the last 10 under coach Tom Osborne (and the 19th bowl in the 21-season Bob Devaney-OSborne era).

Penn State's bowl streak now is 12 seasons—all under Joe Paterno. Ohio State's streak is now 11 seasons, Oklahoma's is eight (all under Barry Switzer, with just one bowl loss), Pittsburgh's is eight (three different coaches, but only one loss), Michigan's is eight (all under Bo Schembechler) and Texas and Arkansas each are bowling a sixth straight year.

From another angle, a look at the nation's winningest Division I-A coaches heading into the bowls shows that 17 of the top 20 are in the bowl field. And if you look at the 12 colleges that have made at least 20 bowl trips (Arkansas is the latest addition, now making its 20th), you will find nine in the 1982 field listed below—all but Southern California, Georgia Tech and Mississippi. Of the 23 colleges that have made at least 10 bowl trips, 13 are on hand (West Virginia and Southern Methodist, 10th each now):

| | All Bowls | Big Four |
|--------------------|-----------|----------|
| | W-L-T | W-L-T |
| Air Force | 0 2 1 | 0 1 1 |
| Alabama* | 18 14 3 | 17 11 1 |
| Arizona State | 6 4 1 | - - - |
| Arkansas* | 7 9 3 | 4 7 1 |
| Auburn | 6 7 1 | 1 2 0 |
| Boston College | 1 2 0 | 1 2 0 |

| West Virginia* | 6 3 0 | 0 1 0 |
| Wisconsin* | 0 4 0 | 0 3 0 |

* Repeater from 1981 bowl field

Oklahoma is working on a streak of four straight bowl victories while Penn State and Pittsburgh each have won three straight. Alabama was going for a record seven bowl victories in seven years when stopped by Texas last year. Three others have won six bowls in six years—Nebraska 1969 through 1974,

Northern Arizona's quarterback Scott Lundquist ranks among the leaders in passing efficiency in Division I-AA.

The leader in field goal rankings in Division I-AA is Tony Zendejas of Nevada-Reno. He also ranks third in scoring.

Georgia Tech 1951-1956 and Southern California 1974-1979.

Southeastern: Seven Bowlers

The Southeastern Conference boasts seven bowl teams this season. That ties the national record it set in 1974 (the year before the Big Ten and Pacific-10 first allowed non-Rose Bowl teams to go bowling). During the eight seasons since the Big Ten and Pac-10 lifted the ban, the SEC and Southwest now have had 30 bowl trips each, the Big Eight 29, Big Ten 26, Pacific-10 22 and Atlantic Coast 20. A total of 46 bowl teams came from the independents, with a high of 10 in 1980 (five this season), during 1975-1982.

On a percentage basis, the Big Eight leads for the eight-year span. It is battling 45.3 percent (eight members times eight years is 64, divide 29 bowl trips by 64). Next is the SWC at 41.7 percent, then the SEC 37.5, ACC 35.7, Big Ten 32.5 and Pac-10 31.4.

Walker: 5,259 Career Rushing

Georgia's Herschel Walker finished the season with 5,259 career rushing yards—No. 3 all-time—and needs only 824 next season to break Tony Dorsett's career record of 6,082. Oklahoma State's Ernest Anderson won the rushing championship, but had Walker chosen to sit out the first game instead of playing with a fractured thumb on his ball-carrying hand (he gained only 20 yards in limited action), his average would have been 173.2 per game to Anderson's 170.6. Most of the individual titles are wrapped up, but just four games could change the leaders in a few categories (for instance, Florida's Wayne Peace could win the passing title and Nebraska's Mike Rozier the scoring crown). The final I-A story will be next week.

Oklahoma State's Harry Roberts ranks fourth in kickoff returns in Division I-A with a 26.9-yard average.

John Holman, Northeast Louisiana quarterback, ranks seventh among Division I-AA leaders in total offense.

I-AA Career Leaders

Northeast Louisiana's John Holman and Louisiana Tech's Matt Dunigan played their final collegiate seasons in Division I-AA this fall, but their career figures will be listed in Division I-A because they played their first three seasons in I-A.

You will find Holman eighth on the all-time I-A list in career total offense yardage at 7,802, outranking all current I-A players except Stanford's John Elway. In career passing yardage, he is sixth, outranking all current I-A players except Elway and Dan Marino of Pittsburgh. Recruited out of Mobile, Alabama, by former coach John David Crow, Holman became a starter midway through 1979 and promptly led an upset of Memphis State.

Only 14 players in history have reached 7,000 in career total offense in I-A and just 15 have attained that figure in passing yardage. Dunigan makes both lists with 7,042 passing and 7,167 total offense, breaking Terry Bradshaw's school records in the process. A Dallas native, Dunigan is one of 25 seniors who have survived three seasons of losing records, controversy and turmoil to emerge this year as the Southland Conference champion at 9-2 heading into the I-AA play-offs. Dunigan's team beat Holman's team 17-10 in the Southland title game.

The top seniors on the career charts for five-year-old Division I-AA are a pair of receivers—Grambling's Trumaine Johnson and Howard's Tracy Singleton. A pair of juniors—Nevada-Reno kicker Tony Zendejas and Idaho quarterback Ken Hobart—already hold career marks with a season left.

Johnson was a game-breaking

leader for Eddie Robinson, whose 300th career victory was one of the big events of this or any other season. At 6-3 and 190, Johnson sprints like a gazelle. He set I-AA career records for yards per all-purpose play (12.8—4,377 yards on 342 plays), touchdown catches (32), yards per punt return (12.5), and his 19.3 yards per catch is second to the record 20.0 by Singleton, who also set career marks for catches at 159 and receiving yards at 3,187. Johnson's per-play averages in punt returns and receiving are higher than Anthony Carter's, but lower than the I-A all-purpose record-holder from Michigan in rushing and kickoff returns.

Zendejas, a cousin of the kicking brothers at Arizona and Arizona State, has kicked a record 47 field goals with record 82.5 percent accuracy with still a season to go. Hobart's 7,327 total offensive yards is second on the I-AA chart to the unbelievable 13,345—also the all-divisions all-time mark—by Neil Lomax, Portland State, 1977-1980. Hobart also set a I-AA mark with 155 consecutive passes without interception.

The career of Tennessee State receiver Mike Jones is on the NCAA all-divisions list because he played two years in I-AA and two in I-A. His 38 TD catches is third on the all-divisions list (and above the I-A and I-AA records) and his 3,388 yards ranks sixth. Drake senior Amero Ware, another two-and-two man, reached 3,217 in career rushing while teammate Gary Yagelski finished at 5,226 in total offense.

Garry Pearson of Massachusetts ended his career with 3,859 rushing and 5,277 all-purpose yards—each ranking third. Next were Maine's Lorenzo Bouier in rushing at 3,827 and Connecticut's Joe Markus in all-purpose at 4,791.

I-AA Season Records

A flock of season records were set in I-AA. The records included 14.7 yards per completion by passing champion Frank Novak of Lafayette, just 1.91 percent intercepted for Hobart, 26 field goals and 104 kick-points by Zendejas, 1,979 all-purpose yards by Northern Arizona's Pete Mandley, 10.8 points per game by Boston's Paul Lewis, 91.1 punt and kickoff-return yards per game by Tennessee State's Herman Hunter, 31.9 yards per kickoff return by Western Kentucky's Davlin Mullen and 22.6 yards per punt return by Lafayette's Ryan Priest (see the final I-AA rankings page for the other individual and team champions for 1982).

Division III Leaders

A pair of 4,000-yard rushers topped the career figures in Division III. Lawrence's Scott Reppert, a hometown boy (Appleton, Wisconsin) and an academic all-America (3.0 as a psychology major), won his third straight

rushing crown in III and finished with 4,211 yards in regular-season play. Wagner's Alonzo Patterson, a native of Utica, New York, was second in the season race and ended with 4,177. They rank 14-15 on the all-time Divisions II-III career list. Only 14 players in I-A history and two in I-AA have surpassed their figures, and most of those played several more games in their careers.

For five years, Reppert has worked with children almost daily in orthopedic and special-education programs. "This is my favorite place on earth," said Reppert, who has never lived anywhere else except for three months last winter when he studied in London.

"Here at Lawrence the guys are playing because they want to and because they feel it's a vital part of their liberal arts education," Reppert told Jill Lieber of Sports Illustrated. "It's competitive and serious football, yet we haven't lost sight of what's important."

You could say the same thing about Wabash, where quarterback Dave Broecker, a 4.0 student in economics, had his biggest year in leading the Little Giants to a 10-0 season. Broecker, the 1979 pass efficiency champion as a freshman, ended his career at 132.5.

John Ward of Cornell College (Iowa) reached sixth in career catches on the all-time II-III list at 211, along with 3,085 receiving yards and 30 TD catches. His passer, Mike Bennett, won the passing efficiency title at 158.1 and another teammate, Ron Corbett, was second in scoring to Rick Bell of St. John's (Minn.). Wheaton's Dave McCarrell won the total offense title at 278.1. Occidental's Dan Osborn won the punting title at 44.6, and Jim Gustafson of St. Thomas took the receiving crown (see the final III rankings page for other individual and team champions; Division II's final story will come next week).

Quotes Of The Week

Dion Kempthorne, who played linebacker and guard for Wisconsin's 1962 team, was on hand for the 20th reunion of the team that lost a dramatic 42-37 Rose Bowl to Southern California. "In those days we played both ways," he said. "That's why I look like I'm 92." Now a 40-year-old English professor, Kempthorne says football players "are closer than married couples because of a shared pain and love for a common activity." But he also links it with a quote from author Ernest Hemingway: "Hemingway says every man has a mistress and her name is nostalgia." (Jim Mott, Wisconsin SID)

Western Carolina kicker Dean Biasucci, when asked to respond to the label that all kicking specialists are flaky: "I'm not a flake—I'm Italian." (Steve White, Western Carolina SID)

I-A attendance record certain

Even if no spectators show up for the last four games Saturday (and more than 200,000 are expected), Division I-A attendance will set another all-time high. This Saturday's games will push the total well past 24.7 million, but the final audited figures from the colleges (as opposed to the press-box figures used in these weekly reports) likely will cut the final figure closer to 24.6 million. That would be more than 600,000 above the final audited figure for the same 97 teams in 1981.

In Division I-AA, that 71,500 turnout for Grambling-Southern sent the final press-box season average to 11,696—49 above the final audited 11,647 for the same 92 teams in 1981. The 1982 final audit, however, may show I-AA down slightly. Even so, I-A and I-AA combined likely will be about 30.3 million vs. 29.6 million for the same 189 teams a year ago. And college football will show a healthy increase in the final national report December 22 after all reports from Divisions II and III and nonmembers are in.

| | Games | Attendance | Per- | Percent |
|--|-------|------------|--------|---------------|
| | | | Game | Game Capacity |
| Division I-A season figures to date | 563 | 24,566,990 | 43,636 | 79.71 |
| Final 1981 audited figures, same 97 teams | 561 | 23,978,218 | 42,742 | 79.98 |
| Final 1982 Division I-AA press-box figures | 483 | 5,649,073 | 11,696 | 56.21 |
| Final 1981 audited figures, same 92 teams | 486 | 5,660,326 | 11,647 | 54.52 |

The NCAA News

Championship Highlights

Division I Men's Cross Country

Wisconsin dominated the race, scored 59 points and won the 1982 NCAA Division I Men's Cross Country Championships November 22 on a 10,000-meter course at Indiana University.

It was the first time in five years that a team other than Texas-El Paso has won the meet and the first time in 10 years that a team other than the Miners or Oregon had captured the team title.

Wisconsin was paced by Tim Hacker and Scott Jenkins, a sophomore-freshman combination that finished fourth and fifth.

John Easker, Joe Stintzi and Jim Brice were 12th, 18th and 20th, respectively, to complete the scoring for Wisconsin.

Providence was second with 138 points, followed by Arkansas (142), East Tennessee State (158) and Texas-El Paso (173), the premeet favorite.

Colorado's Mark Scrutton, the top returning individual runner from last year, won the individual championship. He covered the muddy course in the rain in 30:12.6.

"The turning point for us came 3,000 meters into the race when Hacker, Jenkins and Easker began running shoulder to shoulder and stayed that way until about the last 800 meters," said Wisconsin coach Don Climon.

"It really gave our team a sense of identity, and it was easy for the fans to identify with us," he said. "This is a team with a special chemistry. Six of the seven runners are from Wisconsin, and the other one is from a town only 150 miles from Madison."

Climon also can be happy in the fact that there is only one senior among the seven.

"We had eight runners who wanted to win this more than anything else and were willing to sacrifice to do it," Climon said. "Before the meet, I thought that there were five or six teams that might beat Texas-El Paso. But I knew

Colorado's Mark Scrutton wins Division I men's race

that whoever won was going to have to run very hard to beat us."

Division I Women's Cross Country

Virginia established an early lead and never relinquished it as the Cavaliers defended their team championship in the 1982 NCAA Division I Women's Cross Country Championships November 22 at Indiana University.

Lesley Welch took the lead for the Cavaliers after 500 meters and stayed in front the entire race to win the individual championship. She ran the 5,000-meter course in 16:39.7.

Stanford and Oregon, considered Virginia's biggest threats, finished second and third. Virginia won with 48 points, Stanford was second with 91 and Oregon had 155.

"The smartest thing we did in the meeting before the race was the deci-

sion not to outsmart ourselves," said Virginia track coordinator Dennis Craddock. "All year long, we have been going to the front early, running hard and letting everyone else catch us if they can."

With a mile to go, Virginia had all six runners in the top 20 and finished with four of the five scorers in that group. Cavalier finishers after Welch were Jill Haworth (fourth), Dana Slater (ninth), Marisa Schmitt (13th) and Martha White (21st).

Washington's Regina Joyce was second in the individual competition, and Stanford's Ceci Hopp was third.

As in regional competition, the Cavaliers had to win with only six runners because Lesley's twin sister, Lisa, was sidelined with an injury.

"It probably was the best race Lesley has ever run," Craddock said. "She was running hard for her sister, but she also was running hard for herself. She actually increased her lead throughout the race."

Men's Water Polo

California-Irvine completed its unbeaten season by defeating Stanford, 7-4, November 28 to win the 1982 NCAA Men's Water Polo Championship in Long Beach, California.

Played before 2,500 fans at the Belmont Plaza Pool in Long Beach, California-Irvine scored four goals in the second period to clinch its 30th consecutive victory this season and win its second NCAA championship (the first came in 1970).

The Anteaters controlled the game after the second period with their good ball-handling skills and excellent defense. Diggy Riley led California-Irvine with three goals and Jeff Campbell scored twice.

Stanford, 27-5, was trying for its fifth national title and third in a row. James Bergeson and John Tanner scored two goals each for The Cardinal.

Bergeson, along with Peter Camp-

bell and John O'Brien from California-Irvine, were selected as tri-winners of the most valuable player award. Others named to the all-tournament team were Michael Spicer of Southern California, John Vargas of California-Irvine, Peter Cutino of California, Robin Leamy of UCLA and Stanford's Tanner.

Division III Men's Soccer

Behind the scoring of Louis Borges and Mike Sweeney, North Carolina-Greensboro defeated Bethany (West Virginia), 2-1, November 28 to win the 1982 NCAA Division III Men's Soccer Championship in Greensboro, North Carolina.

Borges, a freshman from Framingham, Massachusetts, gave the Spartans a 1-0 half-time lead with a rebound goal off Bethany goalie Rod Hines. Sweeney scored his 23rd goal of the season at 56:20 on a penalty kick.

Bethany had 15 shots to 13 for North Carolina-Greensboro. However, Spartan goalie Tim Borer held off Bethany until the 78-minute mark when Paul McGuckin and Sandy Mick, forwards from Ontario, Canada, combined for Bethany's lone goal.

North Carolina-Greensboro, 19-3, compiled its best record ever and won its first national championship in any sport. Bethany, champion of the Presidents' Athletic Conference, finished the season 16-2-1.

"I am really pleased for the guys on this team," said North Carolina-Greensboro coach Mike Berticelli. "This is not something that happens overnight. It is the ultimate accomplishment that the players can receive."

The championship game, played in light rain before a crowd estimated at 2,500, was conducted at the Armfield Athletic Center on the campus of Guilford College in Greensboro.

Championship Summaries

Division I Men's Cross Country

Team Results

1. Wisconsin, 59; 2. Providence, 138; 3. Arkansas, 142; 4. East Tennessee State, 158; 5. Texas-El Paso, 173; 6. Michigan, 177; 7. Colorado, 219; 8. Clemson, 238; 9. UCLA, 250; 10. Oregon, 266; 11. Arizona, 272; 12. Bucknell, 286; 13. Tennessee, 302; 14. Virginia Tech, 321; 15. Oral Roberts, 325; 16. Miami (Ohio), 406; 17. Idaho State, 428; 18. Iona, 469; 19. Fairleigh Dickinson-Teaneck, 470; 20. Texas A&M, 586; 21. Northeastern, 615.

Mike Dugan (4) and Lewis Johnstone (6) of North Carolina-Greensboro in semifinal action

Cammy Chalmers (36) and Jeanne Beauprey of UCLA

Automatic qualifiers ready in Division I women's volleyball

Nearly half of the 32-team field for the Division I Women's Volleyball Championship was completed last week when the winners were determined in 13 of the 14 conferences that are granted automatic qualification.

The remaining teams and pairings will be announced early this week. First-round matches will be played at on-campus sites December 3-5. Four regional tournaments will be conducted to determine the championship participants. Both regional and championship competition will be single elimination, best three-of-five-game matches.

Despite the loss of two-time all-America Laurel Brassey, San Diego State won the Western Collegiate Athletic Association championship in what probably is the strongest volleyball league in Division I.

Although the Aztecs, who were ranked No. 2 in the final regular-season poll, received the automatic berth that goes with the WCAA title, they likely will see several familiar faces from their conference in the championship. In addition to San Diego State, the WCAA probably will be repre-

sented by five other teams.

Third-ranked Southern California, the defending national champion, and fourth-ranked Stanford should receive berths, along with Arizona State, UCLA and Arizona.

Several other California schools also should be selected. California, the

record and an 18-0 mark against teams invited to last year's championship, Hawaii was heavily favored to make the final four; however, the Rainbow Wahines were upset in regional play by Southern California.

Texas, the Southwest Conference champion, will be trying to add an

Championship Preview

Northern Pacific Athletic Conference champion, received an automatic berth by edging Pacific, which also should be invited to this year's tournament. Sixth ranked Cal Poly-San Luis Obispo, No. 15 California-Santa Barbara and No. 19 Pepperdine also will receive consideration for berths.

Although Hawaii is not in a conference that receives an automatic berth, the No. 1 seed in the championship may go to the Rainbow Wahines. Hawaii was 26-1 at press time and was ranked No. 1 in the final regular-season poll.

The Rainbow Wahines will attempt to atone for their disappointing finish last year. With a 36-1 regular-season

NCAA title to last year's AIAW championship. The Longhorns finished the regular season tied for 16th with San Jose State.

Other conference champions that received automatic qualification were: North Carolina, Atlantic Coast Conference; Rutgers, Atlantic Ten Conference; Pittsburgh, Big East Conference; Nebraska, Big Eight Conference; Purdue, Big Ten Conference; Illinois State, Gateway Collegiate Athletic Conference; Brigham Young, High Country Athletic Conference; Louisville, Metropolitan Collegiate Athletic Conference; Western Michigan, Mid-American Athletic Conference, and Tennessee, Southeastern Conference.

Men's Water Polo

Stanford.....2 1 1 0 -- 4
California-Irvine.....1 4 1 1 -- 7

First period: 1. California-Irvine—Trevor Dodson, 6:38; 2. Stanford—James Bergeson, 3:29; 3. Stanford—John Tanner, 0:35. Second period: 4. California-Irvine—Jeff Campbell, 6:42; 5. California-Irvine—Digby Riley, 5:20; 6. Stanford—Tanner, 2:20; 7. California-Irvine—John Vargas, 2:03; 8. California-Irvine—Riley, 1:00. Third period: 9. California-Irvine—Riley, 4:26; 10. Stanford—Bergeson, 3:55. Fourth period: 11. California-Irvine—Campbell, 6:37.

First-round games: California-Irvine 13, Brown 2; California 7, Southern California 6 (ot); Stanford 13, Loyola (Illinois) 10; UCLA 8, California-Santa Barbara 6.

Consolation semifinals: Southern California 11, Brown 8; California-Santa Barbara 12, Loyola (Illinois) 7.

Championship semifinals: California-Irvine 8, California 5; Stanford 11, UCLA 9.

Seventh place: Brown 7, Loyola (Illinois) 5.

Fifth place: Southern California 8, California-Santa Barbara 6.

Third place: UCLA 10, California 9.

Division III Men's Soccer

Bethany (West Virginia).....0 1 -- 1
North Carolina-Greensboro.....1 1 -- 2

First half: 1. North Carolina-Greensboro—Louis Borges (unassisted), 19:15. Second half: 2. North Carolina-Greensboro—Mike Sweeney (penalty kick), 56:20; 3. Bethany—Paul McGuckin (Sandy Mick), 78:42.

Shots: Bethany 15, North Carolina-Greensboro 13. Fouls: Bethany 15, North Carolina-Greensboro 23. Saves: Bethany 11, North Carolina-Greensboro 9. Corner Kicks: Bethany 4, North Carolina-Greensboro 6.

Division I Men's Soccer

Third-round results: Connecticut 1, Long Island 0 (penalty kicks 5-3); Duke 2, George Mason 0; Indiana 2, Philadelphia Textile 0; Southern Illinois-Edwardsville 1, San Francisco 0.

Semifinal pairings: Connecticut (15-2-7) vs. Duke (21-0-2); Indiana (17-3-1) vs. Southern Illinois-Edwardsville (15-3-1). Semifinal-round games are to be completed by December 5.

Division II Men's Soccer

Semifinal results: Southern Connecticut State 2, Missouri-St. Louis 1; Florida International 3, Oakland 2 (ot).

Championship pairing (to be played at on-campus site December 4): Southern Connecticut State (20-2) vs. Florida International (15-3-1).

Division I-AA Football

First-round results: Idaho 21, Montana 7; Eastern Illinois 16, Jackson State 13 (ot); South Carolina State 17, Furman 0; Colgate 21, Boston University 7.

Quarterfinal pairings: Idaho (9-3) at Eastern Kentucky (10-0); Eastern Illinois (11-0-1) at Tennessee State (9-0-1); South Carolina State (9-2) at Louisiana Tech (9-2); Colgate (8-3) at Delaware (9-1).

Division II Football

Quarterfinal results: Southwest Texas State 27, Fort Valley State 6; Jacksonville State 34, Northeast Missouri State 21; North Dakota State 21, Virginia Union 20; California-Davis 42, Northern Michigan 21.

Semifinal pairings: Southwest Texas State (12-0) vs. Jacksonville State (10-1); North Dakota State (12-0) vs. California-Davis (9-2).

Division III Football

Semifinal results: Augustana (Illinois) 14, St. Lawrence 0; West Georgia 27, Bishop 6.

Championship pairing (to be played December 4 at Phenix City, Alabama): Augustana (Illinois) (11-0) vs. West Georgia (11-0).

Division II Women's Volleyball

Regional pairings: *California-Riverside (27-5) vs. Northern Colorado (38-16); California-Davis (14-12) vs. Chapman (18-12).

*Florida Southern (47-7) vs. Angelo State (45-10); Florida International (28-6) vs. Portland State (24-6).

Sacramento State (26-7) vs. Lewis (26-16); Nebraska-Omaha (40-12) vs. *Ferris State (36-13).

North Dakota State (42-9) vs. *Edinboro State (30-8); C. W. Post (46-4) vs. Northridge State (26-8).

*Indicates host institution.

Virginia's Lesley Welch wins Division I women's race

Tom Southall of Colorado College

Lilley joins NCAA staff

Timothy J. Lilley, sports information director at West Virginia University, has joined the NCAA publishing department as a publications editor.

Lilley has worked in the sports information office at West Virginia since 1976, serving as a student assistant from November of that year until January 1979, when he became a full-time assistant. He was promoted to

sports information director last February.

Lilley earned seven awards from the College Sports Information Directors of America for his publications at West Virginia.

A native of Uniontown, Pennsylvania, Lilley earned a bachelor's degree in journalism at West Virginia in 1978.

ESPN to air Rose Bowl

The Entertainment and Sports Programming Network has reached a two-year agreement with Videospec International, Ltd., to present delayed telecasts of the Rose Bowl in 1983 and 1984.

The announcement was made by Allan B. "Scotty" Connal, ESPN executive vice-president, and William H. Nicholas, chairman of the Rose Bowl Football Committee. Videospec International holds rights to delayed broadcasts of the Rose Bowl in the United States.

ESPN plans three airings of the 1983 Rose Bowl—January 4 (10 p.m., EST; January 7 (8 p.m., EST) and January 9 (9 a.m., EST). Jim Simpson, Bud Wilkinson and Irv Brown will provide play-by-play and commentary.

"While the Rose Bowl long has been the nation's top-rated and most widely watched bowl game, we are exceptionally pleased that ESPN will expand our viewership to an even larger viewing audience," Nicholas said.

Southall conquers size, handicap

A 5-9, 145-pound athlete who wants to play college football needs plenty of courage and desire—particularly with a right arm that ends just below the elbow.

But, despite being born with only one hand, and with a playing weight that many high school football players exceed, Tom Southall has developed into a top-notch wide receiver and running back for Colorado College, as well as one of the best punt and kickoff returners in Division III.

Southall is not ranked in the final punt-return statistics for Division III because he did not return punts in 75 percent of the Tigers' games. However, his average return of 21.6 yards is among the best in the nation.

Southall, a sophomore, played most of the season at wide receiver, catching 16 passes for 240 yards. He rushed 13 times for 89 yards—an average of

6.8 yards per carry—and averaged 20.8 yards on 32 kickoff returns.

But the Southall story does not begin and end on the football field. He is on the Dean's list at a school with a strong academic reputation, and last spring, he qualified for the NCAA Division III Men's Outdoor Track Championships in three events—the 400-meter relay, 100-meter dash and long jump.

In high school, Southall received the Fred Steinmark Award as the high school scholar-athlete of the year in Colorado. He was a two-time high school all-America, is the third leading rusher in Colorado high school history and holds the Colorado high school single-game rushing record of 412 yards.

With such outstanding athletic ability, Southall could probably play on a football team in Division I, according

to his receiving coach Jerry Lear.

"I don't know if he could take the punishment because of his size," Lear said. "But sometimes you'd think the guy could play in any division, even at his size. I wouldn't shortchange him in any way."

Southall said larger schools did express some interest in him, but when it came time to make a decision, academics played a major role.

"My family always has emphasized the importance of studying," Southall said. "My brothers and sisters always stressed how important academic success was, and I want to prepare myself for life after college athletics. I thought Colorado College was the best place to do that. Besides, I was too small for the big schools."

"It's easy to be recognized when you're the only one-armed kid on campus," Southall said.

1941 'Plainfield Teachers' team was unbeatable — on paper

By Dick Kishpaugh

Mike Downey of the Detroit Free Press recently wrote a very humorous column on the unusual small-college names that find their way into scores across the nation each football season. His premise is that those names just might be figments of someone's imagination—that they really do not exist. He questions such names as Tarkio, Quachita, Miles, Harding and Juniata. Downey did not question Kalamazoo, since that is in his own backyard, and yes, there really is a Kalamazoo.

But his tongue-in-cheek questioning of those schools that really do exist did not mention Plainfield Teachers, whose fabulous Chinese halfback, John Chung, ran wild over the gridirons of New Jersey four decades ago.

Was there really a Plainfield Teachers in that memorable 1941 season? All of the major New York and Philadelphia newspapers, including the staid New York Times, carried glowing accounts of Chung's exploits for the first six weeks of the season. There was no doubt about the authenticity of Plainfield's prowess, as the New Jersey team clobbered Scott, Chesterton,

Winona, Randolph Tech, Ingersoll and St. Joseph. Chung accounted for 69 of Plainfield's 117 points.

The team was so successful that the school hired a publicity agent, Jerry Croyden, to promote Chung for all-America honors. With a 6-0 record, two games remained against Appalachian Tech and Harmony Teachers. But then someone at Time magazine found some flaws in the publicity releases, and the dream of a perfect season evaporated. Time's reporters investigated, found that Plainfield was indeed the product of a fertile imagination and insisted on printing the truth, even though the perpetrators of the gag pleaded to complete the season.

It was nothing more than a gag, a joke that developed in the offices of Newburger, Loeb & Company, a Wall Street investment firm. Curious as to how small-college scores were reported, members of the firm simply made the appropriate phone calls on Saturday nights to test the system. The scheme worked to perfection, as the news-hungry writers clamored for more details.

Chung, of course, was entirely ficti-

tious; Croyden was none other than Morris Newburger himself. When it became apparent that the exploits were phony, some observers thought that a crooked betting coup might be underway; Newburger convinced one and all that the scheme was just for fun. Most of the newspapers manfully admitted that they had been hoodwinked, and football fans enjoyed a good laugh as the exposé was printed.

"Croyden" sent out one final press release, canceling the final two games as a result of wholesale flunkings of midterm exams. That was unfortunate, since it had been preordained that Plainfield would win both games (over Appalachian, 20-2, and Harmony, 40-27) and join Minnesota (among others) on the elite list of unbeaten and untied eight-game winners.

Could it happen again today? With someone like Steve Boda checking every figure that pours into the NCAA offices, and with today's more sophisticated communications, it is highly unlikely that the joke would work again. But, maybe there really is another John Chung out there, just waiting in the twilight for a good publicity agent to cross his path.

1982-83 NCAA championship dates and sites

Fall

Cross Country, Men's: Division I champion—Wisconsin; Division II champion—Eastern Washington; Division III champion—North Central.

Cross Country, Women's: Division I champion—Virginia; Division II champion—Cal Poly San Luis Obispo; Division III champion—St. Thomas.

Field Hockey: Division I champion—Old Dominion; Division II champion—Lock Haven State; Division III champion—Ithaca.

Football: Division I-AA, 5th, Wichita Falls, Texas, December 18, 1982; Division II, 10th, McAllen, Texas, December 11, 1982; Division III, 10th, Phenix City, Alabama, December 4, 1982.

Soccer, Men's: Division I, 24th, Jacksonville University, Fort Lauderdale, Florida, December 11, 1982; Division II, 11th, site to be determined (campus site), December 4, 1982; Division III, 9th, site to be determined (campus site), November 27, 1982.

Soccer, Women's: Champion—North Carolina.

Volleyball, Women's: Division I, 2nd, University of the Pacific, Stockton, California, December 17-19, 1982; Division II, 2nd, California State University, Northridge, California, December 10-11, 1982; Division III, 2nd, University of California, San Diego, California, December 10-11, 1982.

Water Polo, Men's: 14th championship, California State University, Long Beach, California, November 27-28, 1982.

Winter

Basketball, Men's: Division I, 45th, University of New Mexico, Albuquerque, New Mexico, April 2 and 4, 1983; Division II, 27th, American International and Springfield Colleges, Springfield, Massachusetts, March 24 and 26, 1983; Division III, 9th, Calvin College, Grand Rapids, Michigan, March 18-19, 1983.

Basketball, Women's: Division I, 2nd, Old Dominion University, Norfolk Scope, Norfolk, Virginia, April 1 and 3, 1983; Division II, 2nd, American International and Springfield Colleges, Springfield, Massachusetts, March 24 and 26, 1983; Division III, 2nd, Clark University, Worcester, Massachusetts, March 18-19, 1983.

Fencing, Men's: 39th championship, site and dates to be determined.
Fencing, Women's: 2nd championship, Pennsylvania State University, University Park, Pennsylvania, March 17-19, 1983.

Gymnastics, Men's: Division I, 41st, Pennsylvania State University, University Park, Pennsylvania, April 7-9, 1983; Division II, 16th, University of California, Davis, California, March 24-26, 1983.

Gymnastics, Women's: Division I, 2nd, University of Utah, Salt Lake City, Utah, April 8-9, 1983; Division II, 2nd, University of California, Davis, California, March 24-26, 1983.

Ice Hockey, Men's: Division I, 36th, University of North Dakota, Grand Forks, North Dakota, March 24-26, 1983; Division II, 6th, site to be determined (campus site), March 17-19, 1983.

Rifle, Men's and Women's: 4th championship, Xavier University, Cincinnati, Ohio, March 18-19, 1983.

Skiing, Men's: 30th championship, Bridger Bowl, Montana State University, Bozeman, Montana, March 9-12, 1983.

Swimming and Diving, Men's: Division I, 60th, IU Natatorium, Indiana University-Purdue University, Indianapolis, Indiana, March 24-26, 1983; Division II, 20th, Belmont Plaza Pool, Long Beach, California (California State University, Chico, host), March 16-19, 1983; Division III, 9th, C. T. Branin Natatorium, Canton, Ohio (Case Western Reserve University, Denison University and Kenyon College hosts), March 17-19, 1983.

Swimming and Diving, Women's: Division I, 2nd, University of Nebraska, Lincoln, Nebraska, March 17-19, 1983; Division II, 2nd, Belmont Plaza Pool, Long Beach, California (California State University, Chico, host), March 16-19, 1983; Division III, 2nd, C. T. Branin Natatorium, Canton, Ohio (Case Western Reserve University, Denison University and Kenyon College hosts), March 10-12, 1983.

Indoor Track, Men's: 19th championship, University of Michigan, Silverdome, Pontiac, Michigan, March 11-12, 1983.

Indoor Track, Women's: 1st championship, University of Michigan, Silverdome, Pontiac, Michigan, March 11-12, 1983.

Wrestling: Division I, 53rd, The Myriad, Oklahoma City, Oklahoma (University of Oklahoma, Oklahoma State University hosts), March 10-12, 1983; Division II, 21st, North Dakota State University, Fargo, North Dakota, February 27-28, 1983; Division III, 10th, Wheaton College, Wheaton, Illinois, February 25-26, 1983.

Spring

Baseball: Division I, 37th, Creighton University, Rosenblatt Municipal Stadium, Omaha, Nebraska, June 4-13, 1983; Division II, 16th, University of California, Riverside, California, May 21-25, 1983; Division III, 8th, Marietta College, Marietta, Ohio, June 2-5, 1983.

Golf, Men's: Division I, 86th, California State University, Fresno, San Joaquin Country Club, Fresno, California, June 8-11, 1983; Division II, 21st, California State College (Pennsylvania), Speidel Golf Course, California, Pennsylvania, May 17-20, 1983; Division III, 9th, College of Wooster, Wooster, Ohio, May 17-20, 1983.

Golf, Women's: 2nd championship, University of Georgia, Athens, Georgia, May 25-28, 1983.

Lacrosse, Men's: Division I, 13th, Rutgers University, New Brunswick, New Jersey, May 28, 1983; Division III, 4th, site to be determined (campus site), May 22, 1983.

Lacrosse, Women's: 2nd championship, University of Pennsylvania, Philadelphia, Pennsylvania, May 21-22, 1983.

Softball, Women's: Division I, 2nd, Creighton University, Omaha, Nebraska, May 25-29, 1983; Division II, 2nd, Chapman College, Orange, California, May 20-22, 1983; Division III, 2nd, Eastern Connecticut State College, Willimantic, Connecticut, May 21-24, 1983.

Tennis, Men's: Division I, 99th, University of Georgia, Athens, Georgia, May 14-22, 1983; Division II, 21st, Southwest Texas State University, San Marcos, Texas, May 12-15, 1983; Division III, 8th, State University of New York, Albany, New York, May 11-14, 1983.

Tennis, Women's: Division I, 2nd, University of New Mexico, Albuquerque, New Mexico, May 14-22, 1983; Division II, 2nd, California State Polytechnic University, Pomona, California, May 9-14, 1983; Division III, 2nd, Claremont McKenna-Harvey Mudd-Scripps Colleges, Claremont, California, May 9-14, 1983.

Outdoor Track, Men's: Division I, 62nd, University of Houston, Houston, Texas, May 30-June 4, 1983; Division II, 21st, Southeast Missouri State University, Cape Girardeau, Missouri, May 23-28, 1983; Division III, 10th, site to be determined, May 23-28, 1983.

Outdoor Track, Women's: Division I, 2nd, University of Houston, Houston, Texas, May 30-June 4, 1983; Division II, 2nd, Southeast Missouri State University, Cape Girardeau, Missouri, May 23-28, 1983; Division III, 2nd, site to be determined, May 23-28, 1983.

Volleyball, Men's: 14th championship, Ohio State University, Columbus, Ohio, May 6-7, 1983.

CENTURY

Elsewhere in Education

Some aid programs to be dropped

In proposing cuts in its own budget, which are anticipated for fiscal 1984, the U.S. Department of Education intends to eliminate three campus-based, college-aid programs it finances and further tighten the Federally guaranteed student-loan program, according to Terrel H. Bell, department secretary.

Bell said his department is proposing a budget figure somewhere between the \$14.7 billion currently authorized for education programs and the \$10.3 billion the administration proposed for fiscal 1983, which was rejected by Congress.

Bell said that any proposed reductions would fall more heavily on aid to college and graduate students than on assistance to primary and secondary schools.

The secretary said he expects the administration to send legislation to Congress next year that would transform his department into a "foundation for education assistance," with considerably reduced authority over local schools.

President Reagan has discussed creating a successor foundation that would operate much like the National Science Foundation, with a director who reports directly to the president but who lacks the cabinet seat of the education secretary.

Several education department programs would be assigned to other agencies.

Total enrollments decline

Total enrollments at state-funded schools showed slight decreases this fall, according to a survey by the National Association of State Universities and Land-Grant Colleges. At the same time, freshman enrollments were down at most private colleges and universities, a survey of more than 1,000 institutions by the National Institute of Independent Colleges and Universities shows.

More than 20 state-funded institutions, representing a cross-section of similarly funded schools, showed an average net decrease of 0.3 percent.

Of the nation's independent institutions surveyed, 63 percent reported declines in freshman enrollment, 34 percent of which experienced losses of 10 percent or more.

The loss of 16,000 freshmen in one year translates into a \$250 million loss in tuition revenue over the next four years for independent schools, according to Julianne Still Thrift, executive director of the National Institute of Independent Colleges and Universities.

Number of pupils decreases

The total number of pupils in U.S. elementary and high schools has been declining steadily since the 1970s.

Only 10 states have had pupil increases since 1977, all in the Rocky Mountain-Pacific area.

Gains in the West, however, were minor when compared with pupil losses elsewhere. Seventeen states experienced enrollment drops of more than 10 percent over the past five years.

The slump becomes alarming when it is revealed that the pupil loss in Illinois since 1977 has been greater than the entire school enrollment of Nebraska today. The figures were compiled by Market Data Retrieval of Westport, Connecticut.

It is expected that the decline in elementary school enrollment will bottom out in 1985 and begin climbing again. High school enrollment is expected to increase again by 1990.

Grade standard established

All Los Angeles students must maintain a C average to participate in extracurricular activities under a policy approved by the board of education.

Starting next semester (February), students must maintain a C average in all classes and have no failing marks in any class to be able to participate in athletics and other activities.

Board member Rita Walters, who sponsored the measure, said the policy will end the "cruel" practice of implying that star athletes with D and F grades may succeed in life by getting "college scholarships and being picked up by the pros."

The new policy also will pertain to cheerleading, debating and student government.

Fund-transfer legislation sought

An Indiana legislator says he will introduce a bill in the 1983 legislative session to allow a school corporation to transfer up to \$100 per pupil from the cumulative building fund to buy computer equipment and to train teachers to use the computers.

Rep. Gordon Harper of Indianapolis said that schools should be able to use these funds to prepare Indiana youngsters for a high-technology future.

Schools that do not have cumulative building funds or those that do not have enough money in that account would be allowed to raise property taxes to generate the revenue, Rep. Harper said.

Clemson placed on probation

Clemson University has been placed on probation for a two-year period by the NCAA's Committee on Infractions as a result of violations in the conduct of the institution's intercollegiate football program.

The penalty includes sanctions that will prohibit the university's football team from participating in any postseason football bowl game following the 1982 and 1983 seasons or from appearing on any live football telecast during the 1983 and 1984 seasons.

In addition, the Committee on Infractions limited the university to 20 initial grants-in-aid for new football recruits (rather than the normal limit of 30) during each of the 1983-84 and 1984-85 academic years.

As a result of his involvement in the case, one assistant football coach was placed on probation by the university for a three-year period, and he will be

prohibited from participating in the university's summer football camps and from receiving salary increases during that period.

The university also placed a second assistant football coach on probation for two years and will prohibit him from participating in off-campus recruiting activities, the university's summer football camp and from receiving a salary increase for one year. Also, the university will prohibit four representatives of its athletic interests from participating in recruiting activities on behalf of the institution for at least a two-year period.

"Due to the large number and serious nature of the violations in this case," said Charles Alan Wright, chair, NCAA Committee on Infractions, "the committee believed that institutional sanctions related to appearances on television and postsea-

son football bowl games were appropriate. In addition, because the violations indicated a pattern of improper recruiting activities, the committee determined that a two-year limitation on financial aid to new recruits should be imposed to offset any recruiting advantage that was gained improperly by the university.

"Based on the involvement of two of the university's present assistant football coaches and four outside athletic representatives in this case, the university took meaningful disciplinary and corrective action against those individuals.

"Accordingly," Wright said, "the committee believes that the actions taken in this case against the university, its coaches and representatives are fully justified and that the overall penalty supports the interest of all NCAA members in maintaining compliance with NCAA legislation."

Football writers name all-America; Walker joins elite for third time

In association with NCAA Productions, ABC-TV will present the 1982 Football Writers Association of America all-America football team December 5 at 5 p.m., EST.

The 39th annual FWAA team will be featured in the 30-minute network presentation, which will be hosted by ABC's Bill Flemming. The 25-player team is headed by Georgia running back Herschel Walker, who earned a spot on the team for the third consecutive year.

In addition to Walker, other repeaters from last year's team are wide receiver Anthony Carter of Michigan, center Dave Rimington of Nebraska, offensive lineman David Drechsler of North Carolina, defensive lineman Billy Ray Smith of Arkansas and defensive back Terry Kinard of Clemson.

Rimington is the first player to win back-to-back Outland awards, the award given to the nation's top interior lineman.

Several other FWAA honorees challenged Rimington in the Outland voting. Along with Drechsler, defensive linemen Rick Bryan of Oklahoma, Mike Charles of Syracuse and William Fuller of North Carolina, as well as offensive linemen Steve Korte of Arkansas, Dan Mosebar of Southern California and Jimbo Covert of Pittsburgh, were candidates for the award.

Research center for sports injury expands studies

The National Center for Catastrophic Sports Injury Research has expanded its football catastrophic injury and fatality study to include all male and female sports.

This organization is led by Frederick O. Mueller and Carl S. Blyth, professors at the University of North Carolina, Chapel Hill, and members of the NCAA Committee on Competitive Safeguards and Medical Aspects of Sports.

"Football catastrophic and fatality studies have made a contribution to the reduction of serious injuries and fatalities in football, and we believe this type of research should be applied to all sports," Mueller said.

The purpose of the proposed research is to collect and evaluate data and to initiate changes (rules, coaching techniques, equipment, etc.) based on reliable information.

Information concerning sports catastrophic injuries and fatalities should be sent to Mueller at the following address: National Center for Catastrophic Sports Injury Research, 204 Fetzer Gymnasium, University of North Carolina, Chapel Hill, North Carolina 27514.

Herschel Walker

The football writers selected quarterback John Elway, Stanford's record-breaking passer, and running backs Eric Dickerson of Southern Methodist and Mike Rozier of Nebraska to join Walker in the offensive backfield.

Other players selected to this year's team include tight end Gordon Hudson, Brigham Young; defensive lineman Mike Pitts, Alabama; linebacker Wilber Marshall, Florida; linebacker Vernon Maxwell, Arizona State; linebacker Darryl Talley, West Virginia; defensive back Dave Duerson, Notre Dame; defensive back Mark Robinson, Penn State; place kicker Chuck Nelson, Washington; punter Jim Arnold, Vanderbilt, and kick returner

Billy Ray Smith

Willie Gault, Tennessee.

The Football Writers Association of America has selected an all-America team since 1944. The process for selection begins with the nominations of players at each offensive and defensive position, as well as punting, place kicking and return specialists, by an eight-member committee.

After the eight committee members, who are selected before each season begins by the president of the Football Writers Association of America, have nominated several athletes at each position, the more than 700 members of the association cast votes for players by positions. Any ties are broken by the president of the writers association.

Select committee meeting scheduled in San Diego

The Select Committee on Athletic Problems and Concerns in Higher Education has scheduled its next meeting January 8-9 at the Town and Country Hotel in San Diego, in conjunction with the 77th annual NCAA Convention.

It will be the third of an intended six meetings by the committee, which was established and is funded by the NCAA but operates as an independent commission.

The committee's second meeting, held November 21 in Chicago, was a five-hour discussion session in which members of the committee expressed their individual views regarding some of the topics facing the committee, according to David P. Gardner, president of the University of Utah and chair of the committee.

Academic requirements for student-athletes and the NCAA governance structure were among the primary discussion items, and various academic issues will head the agenda for the

committee's January meeting.

All 16 members of the committee attended the Chicago meeting: Chief Executive Officers Gardner, Edward H. Jennings, Ohio State University; Wesley S. Posvar, University of Pittsburgh; Otis A. Singletary, University of Kentucky; Howard R. Swearer, Brown University; Barbara S. Uchling, University of Missouri, Columbia, and Charles E. Young, University of California, Los Angeles; at-large representatives Willie D. Davis, Los Angeles; Jerome H. "Brud" Holland, New York City, and Charles Alan Wright, University of Texas, Austin; Faculty Athletic Representatives Rev. Edmund P. Joyce, University of Notre Dame, and Jack Wentworth, Indiana University; Directors of Athletics Robert S. Devaney, University of Nebraska, Lincoln, and Roy Kramer, Vanderbilt University, and coaches Lou Holtz, University of Arkansas, Fayetteville, and Dean E. Smith, University of North Carolina, Chapel Hill.

The NCAA News

NCAA Record

DIRECTORS OF ATHLETICS

JIM HARGESHEIMER named at Chicago, replacing **BOB LARSEN**. Hargesheimer had been serving as head baseball coach and assistant basketball coach. **FORREST PERKINS**, athletic director and head football coach at Wisconsin-Whitewater, will resign as AD no later than September 1, 1983. Perkins will retain his duties as football coach and stadium director. **PAT FOSTER** appointed at Lamar, effective June 1, 1983. Foster, the head basketball coach at Lamar the past two years, will replace **J. B. HIGGINS**, who is resigning after 20 years. Foster will remain head basketball coach. **STEVE BILSKY**, assistant athletic director at Pennsylvania, appointed at George Washington, effective January 3, 1983.

J.B. Higgins is resigning as athletic director at Lamar

Pat Foster will take over as athletic director at Lamar June 1, 1983

Bob Toledo has resigned as football coach at Pacific

ASSOCIATE DIRECTORS OF ATHLETICS

RAY WHITEMAN, assistant athletic director at Toledo, chosen associate AD for operations at Dartmouth, effective January 3, 1983. **ALDEN H. (WHITEY) BURNHAM**, currently assistant AD at Dartmouth, promoted to associate AD for alumni and development.

ASSISTANT DIRECTOR OF ATHLETICS

CARRIE HAAG, director of national championships for the AIAW from 1980 to 1982, selected at Dartmouth. Haag will be involved in scheduling, management of home events and supervision of recruiting activities for men's and women's sports.

COACHES

Baseball assistant—**BEN HINES** resigned at Arizona State to become minor league batting instructor for the California Angels.

Women's basketball—**BO RUGGIERO**

appointed at Bridgewater (Massachusetts). Ruggiero coached on the high school level in Massachusetts from 1967 to 1978 and was an assistant at Boston College in 1978-79. **LEON BARMORE** named co-head coach at Louisiana Tech. Since Barmore's first year in 1977-78, Louisiana Tech has compiled a 163-18 record. Barmore will work with present head coach **SONJA HOGG**.

WENDY ANDERSON, former assistant coach for field hockey, basketball and lacrosse at Yale, chosen at Haverford, replacing **JULIE SORIERO**, who left to become women's athletic coordinator at Philadelphia Textile.

Men's fencing—**MICHEL ANTOINE SEBASTIANI** appointed men's and women's fencing coach at Princeton, replacing **STANLEY SIEJA**, who died October 17.

Football—**BOB TOLEDO**, Pacific's coach the past four seasons, resigned. Oregon has extended the contract of **RICH BROOKS** for two additional years through the 1986 season.

KEN HENDERSON resigned at Washington (Missouri). Henderson will retain his duties as head track coach until June 30, 1983. **STEWART YAKER** retired at Brooklyn. **STAN SHERIFF** resigned at Northern Iowa. **DON WADE** released at Tennessee Tech after compiling a 15-year record of 81-78-3. Prior to coming to Tennessee Tech in 1968, Wade was an assistant coach at Clemson for 15 years. **MIKE WORKING** was released after three years as head coach at Appalachian State. **MIKE EWING**, a former assistant at Chicago and Northwestern, named at Chicago, replacing **BOB LARSEN**.

Men's golf—**WILLIAM "PUGGY" BLACKMON**, director of development for the American Junior Golf Association, named at Georgia Tech, effective January 1. Blackmon will be the first full-time men's golf coach in Georgia Tech history. **JOE BOYLE**, Penn State's golf coach for the past 26 years, will retire December 31. Boyle will be replaced by **MARY KENNEDY**, coach of Penn State's women's golf team.

Men's and women's rifle—**ANTHONY VALES** named at DePaul.

Men's soccer—**SCOTT FERRIS** will resign at Western Michigan December 31. Ferris' teams compiled a 33-40-12 record during his five years as head coach.

Men's swimming and diving assistants—**PAUL MILES** selected assistant coach for men and women at Northeastern. **MARK RANDALL**, swimming coach at Hamilton from 1942 to 1944 and at Colgate from 1945 to 1965, appointed at Hamilton. Randall will work with the Hamilton divers.

Men's tennis—**BID GOSWAMI** chosen at Columbia.

Women's track and field—**TOM DIEHL**, coach of the Susquehanna women's basketball team, selected to head the Crusaders' women's track program. Diehl replaces **DAVE LAUER**, who resigned to coach and teach at Selinsgrove Area High School in Pennsylvania. **JAMES E. THOMA**, an assistant women's track coach at Ohio State from 1978 to 1982, selected at Otterbein.

DEATHS

RAY MORRISON, 97, former football coach at Southern Methodist, Vanderbilt, Temple and Austin College (Texas), died November 19. Morrison led Southern Methodist to Southwest

Conference titles in 1923, 1926 and 1931. **WARRENSCHMAKEL**, 61, director of athletics at Illinois State from 1974 to 1979, died November 17 in Lincoln, Nebraska. **RALPH ALLAN**, 69, former teacher, coach and athletic director at Millikin, died November 15 in Nekeos, Wisconsin.

CORRECTIONS

Due to incorrect information received by the NCAA national office, the November 8 issue of The NCAA News listed Fran Hirschy as the new baseball coach at Long Island. Hirschy was hired as assistant baseball coach at Long Island.

Due to a typographical error, the Official Notice of the 77th annual Convention erroneously identifies Wilford S. Bailey, Auburn University, as being affiliated with the Southern Conference. Bailey has been nominated to serve as the South-eastern Conference's representative on the NCAA Council. The error appears in Appendix C, page 86 of the Official Notice.

The Market

Readers of The NCAA News are invited to use The Market to locate candidates for positions open at their institutions, to advertise open dates in their playing schedules or for other appropriate purposes.

Rates are 35 cents per word for general classified advertising (agate type) and \$17.60 per column inch for display classified advertising. Orders and copy are due five days prior to the date of publication for general classified space and seven days prior to the date of publication for display classified advertising. Orders and copy will be accepted by telephone.

For more information or to place an ad, call 913/384-3220 or write NCAA Publishing, P.O. Box 1906, Mission, Kansas 66201.

Positions Available

Assistant A.D./Coach

Assistant Director of Physical Education and Athletics: Head Football Coach; Additional Head Coaching Position—preferably Baseball. Responsibilities—Organize, manage and coach two sport programs; teach physical education courses; administrative duties as assigned. Qualifications—Masters degree in Physical Education preferred but not required; demonstrated successful coaching and teaching experiences. Applications—accepted through January 15, 1983; mail applications, resume, and recommendations to: Jeffrey Vennell, Director of Physical Education and Athletics, Kenyon College, Gambier, Ohio 43022. An equal opportunity employer.

Ticket Manager

Athletic Ticket Manager. The University of Pittsburgh is accepting applications for a ticket sales manager in the department of intercollegiate athletics. This position requires strong management, sound business principles, sensitivity to public relations and understanding of the marketing component of

ticket sales. Responsibilities include managing the disbursement of tickets for a 56,000-seat football stadium and a 7,300-seat basketball arena, aiding in the planning and implementation of a ticket marketing plan; establishment of sound business accounting procedures; operation of a computerized ticket system, and overall supervision of office personnel. Qualifications include a bachelor's degree with managerial experience in financial areas and personnel. Experience in computerized ticket sales system is desirable. Resumes should be sent to Mr. John Blanton, Assistant Athletic Director for Business and Management, University of Pittsburgh, P.O. Box 7436, Pittsburgh, PA 15213. Application close date November 30, 1982. The University of Pittsburgh is an equal opportunity/affirmative action employer.

Sports Information

Sports Information Director, West Virginia University. Responsibilities include managing the news and information service for the department of intercollegiate athletics; writing media releases, handling all aspects of publications, and supervising office employees. Bachelor's degree in journalism with excellent oral and written communication skills. Three years' experience in sports information, with strong organizational and management skills. Forward resume and salary requirements by 12/20/82 to: Carol Bertalan, Personnel Officer, West Virginia University, Morgantown, West Virginia 26506. West Virginia University is an equal opportunity/affirmative action employer.

Assistant Sports Information Director. Assist in all activities related to the sports information office, including writing and editing of brochures and game programs, writing news releases, assisting in game management and working with student assistants. Degree in journalism, communications or a related field preferred. Should have prior experience in college sports information. Resumes and recommendations will be accepted through December 10, 1982. Mail to: Ralph N. Floyd, Director of Athletics, Indiana University, Bloomington, Indiana 47405. Indiana University is an affirmative action/equal opportunity employer.

Executive Director

Executive Director, nonprofit organization for the sport of fencing with office in Colorado Springs, Colorado. Administration of national organization, national tournaments and national training program. Business experience desired. Communications skills and sports background required. Some travel. Apply with resume to: M. Mamouk, USFA, 1127 15th Street, N.W., Washington, D.C. 20005.

Football

Head Football Coach. Appalachian State University invites nominations and applications for the position of head football coach. This position reports directly to the athletic director and will be responsible for the management of the I-AA football program, coaching staff and accompanying responsibilities. Applications will be accepted until December 10, 1982. Send applications to: Jim Garner, Athletic Director, Appalachian State University, Owens Field House, Boone, North Carolina 28608. Appalachian State is an affirmative action/equal opportunity employer.

Head Football Coach. University of Northern Iowa. Department of Intercollegiate Athletics invites applications for the position of head football coach. This position reports directly to the athletic director and will be responsible for the management of the I-AA football program, coaching staff and accompanying responsibilities. Qualifications are demonstrated ability and accompanying credentials verifying the following: (1) head coaching ability; (2) organizing and directing a coaching staff; (3) recruiting; (4) public relations. Twelve-month appointment. Salary open. Applications will be accepted until December 13, 1982. Send applications to: Stan Sheriff, Athletic Director, University of Northern Iowa, Cedar Falls, Iowa 50614. The University of Northern Iowa is an affirmative action/equal opportunity employer.

Football Coach, Carthage College. Position available August 15, 1983. Qualifications include: serious commitment to teach and coach in a small liberal arts college; strong commitment to recruit quality student-athletes, and successful coaching and teaching

experience at the high school and/or college level. A master's degree in physical education or health education preferred. Salary: commensurate with experience and qualifications. Application deadline: December 17, 1982. Send letter of application, together with names of three references to: Dr. Erno J. Dahl, President, Carthage College, Kenosha, Wisconsin 53141. Carthage College is an equal opportunity/affirmative action employer.

Head Football Coach. Reports to director of athletics. Qualifications: Successful coaching experience required, preferably at the college level; bachelor's degree required, master's degree preferred; demonstrated organizational and public relations skills required; ability to plan, supervise and adhere to the football budget and all rules and regulations of the university, the Ohio Valley Conference and the NCAA required; successful teaching experience required, preferably at the college level, or equivalent experience; significant college recruiting experience preferred; ability to relate well to faculty and staff in an academic setting required. This is a 12-month, non-tenure-track administrative position with a faculty rank of instructor. Salary is commensurate with experience. Applications including resume and names of references should be submitted to: Dr. Leo McGee, Chair, Search Committee, Tennessee Tech University, Box 5073, Cookeville, Tennessee 38501 no later than December 15, 1982, or until the position is filled. Telephone 615/528-3396. Affirmative action/equal opportunity employer.

Head Football Coach. Washington University in St. Louis invites applications for the position of head football coach. Responsibilities: (1) the organization, administration and supervision of the total intercollegiate football program; (2) provide leadership in the recruitment of student athletes; (3) supervision of the football staff and program personnel; (4) teach selected activity courses in the physical education program; (5) serve in other capacities as assigned by the director. Qualifications: (1) minimum of four years as head coach or assistant coach at the high school or college level; (2) demonstrated teaching and coaching ability; (3) proven leadership and successful fulfillment of football coaching responsibilities, i.e., recruiting experience, administrative and organizational ability and demonstrated public relations ability; (4) earned master's degree in physical education preferred. This is a full-time, nonfaculty appointment renewable annually on a 10-month basis. Application deadline December 30, 1982. Send letter of application, resume, credentials and at least three letters of reference to: John Schaeel, Director, Department of Sports and Recreation, Washington University, Box 1067, St. Louis, Missouri 63130. Washington University is a private university, competes at the Division III level of the NCAA and is an equal opportunity/affirmative action employer.

Assistant Football Coach. Purdue University seeks an assistant football coach, preferably with five years of major college coaching and recruiting experience. Application dead-

line is December 15, 1982. Send applications to: Leon Burnett, Head Football Coach, Mackey Arena, Purdue University, West Lafayette, Indiana 47907. Affirmative action/equal opportunity employer.

Volleyball

Head Coach for Women's Intercollegiate Volleyball. Qualifications: (1) bachelor's degree required as a minimum; (2) experience in coaching women's volleyball at college level; (3) experience in conducting clinics and camps for coaches and players; (4) desire and ability to produce and maintain nationally competitive program through coaching and effective recruitment; (5) familiar with NCAA structure and regulations. Salary commensurate with qualifications and experience. Term of appointment 11 months, non-tenured. Appointment effective January 1, 1983. Application deadline December 15, 1982. Send applications, resume and letters of reference to: Mary Ellen Cloninger, Assistant Athletic

Director, University of Wyoming, University Station, Box 3414, Laramie, Wyoming 82071. An equal opportunity/affirmative action employer.

Name this former Cal Poly-Pomona quarterback who led NCAA Division II passers in 1973 and has since gone on to a successful professional football career.

USA volleyball tryouts planned

Tryouts for this year's USA Women's Volleyball team will be held December 27-29 at the Olympic Training Center in Colorado Springs, Colorado.

Arie Selinger, coach of the team, said women who are interested must register in advance by contacting the U.S. Volleyball Association at 1750 East Boulder Street, Colorado Springs, Colorado 80909.

Registration information must include the athlete's name, address and telephone number; the name and telephone number of the athlete's college, club or school coach; the athlete's travel plans to and from Colorado Springs; the athlete's height and weight, and a brief summary of the athlete's volleyball experience in the past two seasons.

Athletes are responsible for their own transportation to and from Colorado Springs. Athletes who arrive by air will be met at the airport by the Olympic Training Center bus. Room and board will be provided.

Canadians warned of violation

Because of an increasing number of Canadian track and field athletes competing in the United States, Tom MacWilliam, technical director of the Canadian Track and Field Association, says that some athletes may be in violation of International Amateur Athletic Federation rules and regulations.

Rule 12 of the IAAF rules and regulations states that no athlete or club may take part in an athletic meeting in a foreign country without the written approval of the athlete's governing body.

MacWilliam emphasizes that when an athlete receives a scholarship from an institution in another country, the president of the institution granting the scholarship first shall submit detailed information regarding the nature and extent of the financial aid to the country in which the institution is located.

a:

Jim Zorn.

TELEVISION RATINGS

Following are the television ratings for network broadcasts for games of October 9 through November 6 of the 1982 NCAA football television series. The first five weeks of ratings appeared in the October 18 issue of The NCAA News. The rating indicates a percentage of the total number of television homes in the nation that were tuned in to the game. The share indicates a percentage of the total number of sets that were tuned in to the game.

| Date | Game (Network) | Rating | Share |
|---------|--|--------|-------|
| Oct. 9 | Regionals (CBS, five) | 10.7 | 28 |
| Oct. 9 | Regionals (ABC, four) | 14.1 | 36 |

2.000

Continued from page 1

average for at least one year of attendance at and graduation from a preparatory school, subsequent to graduation from high school.

In the first of three satisfactory-progress proposals, the Council-sponsored Proposal No. 56 (originated by the ACE) would require that hours earned by student-athletes at Divisions I and II member institutions count as degree credit toward the student-athlete's specific baccalaureate degree.

Proposal No. 57, sponsored by the Big Ten Conference, would establish qualitative academic progress requirements for eligibility. The proposal calls for a 1.850 minimum grade-point average for the first season of competition after the freshman year and 2.000 for the second and third years.

The Missouri Intercollegiate Athletic Association has sponsored Proposal No. 58, which would permit an allied conference to grant a waiver of the satisfactory-progress rule for a student-athlete who withdraws from or does not attend the institution for a term for reasons beyond the student's

control.

In other academic requirement proposals, the Pacific-10 Conference has sponsored No. 47, which would require an entering freshman to have graduated from high school with an accumulative grade-point average of 2.500 or higher to be eligible for varsity competition as a freshman in Divisions I and II.

Proposal No. 55, also sponsored by the Pacific-10 Conference, no longer would require a high school to refuse to provide a prospect's grade-point average on a 4.000 scale before a member institution can use the NCAA Guide to International Academic Standards for Athletic Eligibility.

Proposal No. 53, sponsored by the Atlantic Coast Conference, is a resolution regarding the 1.600 legislation. The ACC has proposed that the Academic Testing and Requirements Committee update the predictive tables and make necessary revisions to place the 1.600 legislation before the 78th annual Convention in January 1984, to become effective for students entering college in the fall of 1985.

'Distinguished American Award' goes to Grambling's Robinson

Eddie Robinson of Grambling State University, one of the more successful coaches in American college football and the prime mover in a program that has sent nearly 200 players to the professional ranks, has been selected to receive the "Distinguished American Award" by the Walter Camp Football Foundation in New Haven, Connecticut.

At Grambling, Robinson has a winning record achieved by only a handful of coaches—and that is more than 300 career victories. His record (as of November 13) was 305 wins, 98 losses and 13 ties.

"Coach Robinson's tremendous overall won-lost record is an accomplishment that definitely commends recognition," said Samuel A. Burrell Jr., Walter Camp president who announced selection of Robinson for the award. "We also believe his ability to mold young men into mature individuals, who are standout performers on the football field as well as outstanding persons prepared to deal with everyday life, is equally worthy of acclaim."

Burrell said, "Robinson has left his imprint on thousands of young men who have played for him since he first

Eddie Robinson

became involved in athletics at Grambling more than 40 years ago."

Robinson, who also serves as athletic director of Grambling State, will receive his award at the 16th annual Walter Camp All-America Awards Dinner February 12, 1983, at the Yale Commons. He will be honored along

with members of the 1982 Walter Camp All-America Football Team and former Los Angeles Ram defensive lineman Merlin Olsen, the Foundation's 1982 "Man of the Year."

A native of Jackson, Louisiana, Robinson, 63, attended Leland College in Baker, Louisiana, and received a master's degree from the University of Iowa. Aside from his current duties as head football coach and supervisor of all intercollegiate sports at Grambling, he also formerly held the positions of physical education director, baseball coach, basketball coach and playground director.

President of the National Association of Intercollegiate Athletics (NAIA) in 1967 and the American Football Coaches Association in 1975, Robinson is also a member of the NAIA, Pop Warner and Sugar Bowl Halls of Fame.

Robinson joins an impressive group that includes such past recipients as Harold "Red" Grange, 1981; former U.S. Secretary of State Alexander M. Haig Jr., 1980; George S. Halas, 1980; David A. "Sonny" Werblin, 1979; Donald Miller, 1978, and James Crowley, 1978.

Prep

Continued from page 1

assistant coaches at home working with the team and on other projects. Thirdly, the players and coaches like the idea of the kid being able to have a normal senior year in high school without all the pressure of recruiting."

One of Apke's recruits, Brian Cunningham, a 6-7 forward from Denver, Colorado, was like most of the young prospects who signed earlier in the month. He had taken recruiting trips early, decided where he wanted to go to school and did not want recruiting pressures to interfere with his senior season.

"I was happy with the coaches and the school," Cunningham said. "I decided to sign early. It will take a load off my mind thinking about what school to attend."

Fred Jacoby, commissioner of the Southwest Athletic Conference and immediate past president of the CCA, said the CCA would take a hard look at the experiment during its meetings next summer. According to Jacoby, coaches and administrators proposed the concept of an early signing date when NCAA recruiting regulations were changed at the 1982 Convention.

Football

Continued from page 1

published Congressional Report entitled "Voluntarism in America."

Other activities have included extensive work with the Presidential Task Force on Private Sector Initiatives, student government, church collegiate youth and the BYU Management Society. She is majoring in economics and has a 3.55 grade-point average.

John Elway

An all-America quarterback, Elway also is a three-time all-West Coast and all-Pacific-10 performer. He was the first sophomore ever selected as Pacific-10 player of the year and holds several NCAA passing records. His athletic abilities extend to baseball, and he currently is playing professionally. While a member of the Stanford team, Elway batted .361 and was a unanimous selection to the all-NCAA Central Region tournament team.

Volunteer work occupies part of Elway's time, including assistance with the Palo Alto Community Association of the Retarded. He also has par-

ticipated in the NCAA-ABC Football Promotion Tour and the Fiesta Bowl-NCAA Drug Education Program. Elway, a 3.00 student in economics, is a church and youth-group speaker.

Mary C. Holland

Holland is a three-time all-Western Athletic Conference performer in volleyball and a four-year starter at San Diego State. Her team placed third last year in the first NCAA championship, and she was selected to the all-Southwest Regional team. The school leader in kills, blocks and service aces, Holland was a member of the U.S. national team that played in the 1981 World University Games.

Serving as a volunteer therapist for handicapped students and as a volunteer swimming instructor for the Special Olympics are among Holland's other achievements. She is majoring in premedicine and has a 3.75 grade-point average.

David Rimington

Football awards for Rimington peaked with his recent selection as the first two-time winner of the Outland

base their judgments on the prospect's play as a high school junior and during summer camps.

"It is a little more difficult to try to project how a player will develop the earlier you recruit him in his career," said Apke. "However, I don't see that as a big problem. The pros do it with a college sophomore who they figure is a good bet to take as a 'hardship' case."

Frieder foresaw two other potential problems with the early signings.

"What if the head coach leaves the school after he recruits the kid, or the school goes on probation? Under those circumstances, I think the kid should be released from his commitment if he wants to."

Whether the signing experiment will become permanent will be determined by the CCA next summer. Whatever the final decision, it is clear that several schools took full advantage of the change this fall.

While the total number of signings was not available, schools such as Georgia, Indiana, Rutgers and Louisiana State each signed four prospects. Others, including Wyoming and Colorado, signed three. The traditional spring signing period will run from April 13 to May 15, 1983.

Trophy, symbolic of the nation's best lineman. He also is a two-time all-America at center and was the player of the year in the Big Eight Conference last year. He captained the Nebraska team this season.

A National Football Foundation and Hall of Fame Scholar-Athlete, Rimington has a 3.18 grade-point average, majoring in business administration. He has participated in the NCAA-ABC Football Promotion Tour and the Fiesta Bowl-NCAA Drug Education Program and is a two-time academic all-America. His other activities have included youth-group and civic speaking and charity fund-raising.
