## Convention agenda to focus on academics, membership

Proposals to strengthen academic standards and membership criteria in Division I highlight the agenda for the 77th annual NCAA Convention January 10-12 at the Town and Country Hotel in San Diego.

More than 1,200 delegates are expected to attend the Association's annual meeting. The all-time record of 1,315 delegates was established last year at Houston, one more than had been recorded a year earlier in Miami Beach.

The first general session of the 1983 Convention will be at 3 p.m. January 10. Earlier that day, however, the

Convention will open officially when separate division round tables are held from 8 a.m. to noon. The honors luncheon begins at 12:30 p.m.

NCAA President James Frank will preside over his second Convention business session. Secretary-Treasurer John L. Toner, University of Connecticut, will oversee the general round table.

The most significant academic proposals are five Council-sponsored proposals that would strengthen academic standards in Division I. The five proposals—Nos. 48 through 52—would amend the 2,000 rule set forth in Bylaw 5-1-(j).

Proposal Nos. 48 and 51, originated by the American Council on Education, would establish a specific core curriculum for which a student must have a minimum 2,000 grade-point average. No. 48 also requires a student to have a 700 combined score on the SAT verbal and math sections or a 15 composite score on the ACT.

The most complex core curriculum proposal is No. 50. This proposal also requires an overall accumulative minimum grade-point average of 2,000.

Proposal No. 49, originated by members of the College Football Association, would require a 2,000 grade-point average in three years of English and two years of math and an overall high school accumulative minimum grade-point average of 2,000. It also would require the same test scores as No. 48.

The simplest core curriculum alternative sponsored by the Council is No. 52, originated by the Recruiting Committee.

The Council also is sponsoring another of the significant proposals

facing Convention delegates—Proposal No. 71, which would establish new criteria and refine existing criteria for membership in Division I.

The proposal includes a minimum financial aid requirement for all members, a requirement that football or basketball must be among the minimum of eight sports sponsored for men in that division, a minimum-attendance requirement in Division I-AA football and a minimum-attendance requirement in basketball for those institutions that do not sponsor football or do not meet the Division I football requirements.

Another important proposal in the  
*See Convention, page 12*

## Exception TV efforts fail in Congress

Efforts to make possible more exception telecasts of college football games (without damage to other institutions) by limiting cable television retransmissions were given a setback in the closing days of the last Congress, when a breakup of a compromise among television broadcasters, syndicated program owners and cable television interests prevented passage of a package of amendments to legislation governing cable retransmissions.

As passed earlier by the House of Representatives, the package bill (H.R. 5949) included a provision limiting cable system carriage of college football exception telecasts.

*See Exception, page 12*

## Election procedure will change if Proposal No. 20 is adopted

The procedure by which the Convention will elect the Association's officers and members of the NCAA Council for 1983—assuming that Proposal No. 20 is adopted Tuesday morning—is all new this year.

In voting to sponsor Proposal No. 20, which restructures and expands the Council, the Council authorized the following process:

- The Nominating Committee was directed to prepare two slates of officers and nominees for Council vacancies, one for the expanded Council and

one if Proposal No. 20 is not adopted and the size of the Council remains unchanged. The Council also said the two slates were to be published in the Official Notice of the Convention, as well as the Convention Program, and were to be announced to the membership in the November 22, 1982, issue of The NCAA News.

- Included in the Council restructuring proposal is the creation of three new offices, a vice-president for each of the three divisions. Those positions essentially are the same as the current chairs of the three division steering committees, but they would be considered Association officers for the first time.

- If Proposal No. 20 is adopted, special division round tables have been scheduled for 1:30 p.m. Tuesday. In those sessions, the membership of each division would elect its own Council members and its division vice-president. Members of the Nominating Committee from each division formally will present the committee's slate for that division, and nominations from the floor will be accepted. Each nomination from the floor will have to be for a specific position and must meet all of the representation requirements met by the individual the floor nomination seeks to replace.

- During the final portion of the Convention business session, the chair of the Nominating Committee (Charles H. Samson, Texas A&M University) will present to the full Convention the candidates for the Association's two top offices, president and secretary-treasurer, and will report the

three divisions' selections of their division vice-presidents. The Convention then will elect the president and secretary-treasurer and ratify the vice-presidential selections.

- If Proposal No. 20 is not adopted, the special round tables will not be held. Samson then will present the Nominating Committee's alternate slate, including the president and secretary-treasurer nominees, in the final portion of the Convention business session, the same procedure used in past years.

The Nominating Committee's slates were announced in the November 22 News. They appear in the Official Notice of the 1983 NCAA Convention as Appendix C on pages 86-89 and in the Convention Program as Appendix A on pages 81-83.

## Court upholds Hillsdale on Title IX

A Federal appeals court ruled December 16 that Hillsdale College, an institution whose students receive Federal grants and loans but which otherwise receives no Federal financial assistance, is not required to execute an Assurance of Compliance with Title IX. The Sixth Circuit U.S. Court of Appeals reversed an order entered by the HEW Civil Rights Reviewing Authority terminating Federal aid received by students attending the college.

Hillsdale students participated in four Federal aid programs—the National Direct Student Loan Program, the Basic Educational Opportunity Grant Program, the Supplemental Educational Grant Program and the

## Football viewership up 12 percent

Best available information indicates that more than 631 million people watched college football in 1982 via the two national network television packages, an increase of 12.2 percent over the 1981 national television audience. Adding the estimated audience for the supplementary series, the TV viewership of the three NCAA-administered packages was an estimated 673 million.

Wiles Hallock, Pacific-10 conference executive director and chair of the NCAA Football Television Committee, expressed satisfaction at the preliminary television audience findings. He noted that the NCAA statistics department had reported earlier that in-person stadium attendance at the nation's 649 football-playing institutions had increased 1.8 percent over 1981.

"This reflects a dual prosperity for college football, which the 1981-82 Football Television Committee believed could be obtained through a careful balancing of NCAA football television appearances, a better competitive balance among NCAA member institutions playing football and a steady growing interest in the college game," Hallock said.

The NCAA's current football tele-

vision plan provided for 28 national network exposures in 1982 (14 via ABC and 14 via CBS), an increase of 21.7 percent over the 23 exposures during the exclusive ABC packaging of 1981.

In 1981, some 562,350,000 viewers tuned in to college football on ABC television. This is based on an average of 9,780,000 homes per exposure

(12.0 Nielsen rating) times an average of 2.5 viewers per home. In 1982, with the greater number of exposures, that total swelled to 631,050,000 viewers, based on ABC's and CBS' 10.9 and 10.5 ratings. CBS reached an average of 8,728,500 homes per exposure and ABC an average of 9,301,500 homes.

A CBS report disclosed a nine per-

## Association shows deficit for first time in 29 years

According to a report to be published in the Association's Annual Reports, the NCAA operated at a deficit for the first time in 29 years, with expenses surpassing revenue by \$205,989.

Although total revenue of \$28,810,338 was 103.3 percent of the amount budgeted for the year, expenses rose 104.9 percent of the budgeted amount to create the deficit.

Much of the increase in expenses, according to the report, is attributable to a sharp rise in legal fees the Association paid in fiscal 1981-82. Legal fees and expenses increased

from \$773,996 in 1980-81 to a record \$2,334,316 in 1981-82, an increase of 202 percent and 167 percent of the amount budgeted.

The previous one-year high for legal costs was \$950,212 spent in 1979-80.

Two lawsuits accounted for a substantial portion of these costs—the AIAW's antitrust suit against the NCAA and the suit that challenged the NCAA's football television contract brought against the Association by the Universities of Oklahoma and Georgia.

The other major source of increased

# College football's TV future lies in court

By Barry Boesch  
The Dallas Morning News

This month, college football is finishing its most lucrative television year in history, drawing about \$70 million from ABC, CBS and cable network WTBS.

The addition of CBS and WTBS this year to ABC's long-standing monopoly more than doubled the amount of money paid to NCAA schools and increased the opportunities for lesser schools to get on television.

Despite the overwhelming prosperity, there is trouble in paradise. A Federal suit against the NCAA by the Universities of Oklahoma and Georgia threatens to end the NCAA's 30-year history of negotiating television contracts and turn the authority over to individual schools.

Sometime before the 1983 season begins, the 10th U.S. Circuit Court of Appeals in Denver is expected to decide whether to uphold a ruling by U.S. District Judge Juan Burciaga. Burciaga's decision threw out the NCAA TV package because it was ruled a violation of Federal antitrust laws.

If Burciaga's ruling is upheld, the tightly organized and orderly arrangement between television and college football would be thrown into chaos. What would take its place is anybody's guess.

"The scenarios are mind-boggling, endless," said Donn Bernstein, ABC's college football coordinator. "It's going to be a jungle. It's going to be a zoo. It could be a colossal calamity, is

what it could be, not will be, but could be."

With no NCAA package, some observers say college football could move from Saturday to other nights in search of television exposure, and there might be as many games televised as there are television networks and local stations.

Others have said that only a handful of the biggest, most popular schools

tain we could do that well on our own. But I don't think anyone else knows, either."

The suit grew out of a dispute between the NCAA and the 61-member College Football Association, an organization of the major football-playing conferences and independents (except the Big 10 and Pac-10). The CFA schools wanted Division I-A restructured to include only the major

alties of an unstructured market would be network coverage.

"Virtually every college would try to make a local television arrangement," Hansen said. "Because of that great competition in every market, even the best national games, the Oklahoma-Nebraskas and the USC-Notre Dames, would face such strong local competition that they wouldn't achieve sufficient ratings to maintain interest by the networks."

"After a year or two, the networks would not be interested. We'd be left with nothing but regional programs."

Said ABC's Bernstein: "In theory, it looks good. You would get the pick of the litter and not be harnessed as to what you could do. In practice, when Ohio State and Michigan and USC-UCLA and Nebraska-Penn State are all on at the same time on the three networks, that doesn't look too good. Are the sponsors going to pay?"

Hansen said he believes only a handful of schools could make more money than they do from the NCAA package. Schools like Nebraska, Oklahoma and Arkansas have strong, winning programs, Hansen said, but they are in areas with relatively few television homes.

"If you don't have enough television homes in your own area to generate money, are you going to go into other areas?" he said. "If you do, you won't make nearly as much money."

Jacoby said a wide-open marketplace would be a buyer's market, with a large number of schools and conferences competing for a relatively small number of television stations.

"If everyone is out on their own, they're going to be bidding against each other," he said. "Instead of driving the price up, the total effect would be to drive the price down."

Hansen says a wide-open market would lead to a rich-get-richer-and-the-poor-disappear scenario.

"I believe you would have many institutions no longer able to play football on a major level," Hansen said. "Many of these programs have been built and developed to the level where television income is a vital part of their income. The loss of that television money could mean the loss of that program."

Said Jacoby: "Look at schools like Rice and TCU. It would appear to be injurious to make them less competitive than they are. Can they be competitive? Look what Vanderbilt has done in the SEC this year. They've taken a program that has been down, and they have got it turned around this year. It can be done. But it can't be done if those schools receive no exposure and no money."

OU's Walker doesn't buy the rich-get-richer argument.

"TV money is just one item that keeps us afloat," he says. "It's not the most prolific item. The single most important item is season-ticket purchasers. The next is donors who have a love and bond for the University of Oklahoma. Third and fourth are radio and television. Television is important, but not the most important. I don't think it will kill intercollegiate athletics. I don't think it will create 20 giants."

## Columnary Craft

could strike lucrative television deals and that the smaller programs would die.

Still others aren't sure college football can make more money on its own than it has under the NCAA plan.

An example: Southwest Conference schools got twice the exposure and more than three times as much money from the new package in 1982. SWC schools appeared on television 20 times this season, compared to only nine appearances on ABC in 1981. The appearances earned the SWC a record \$6.16 million, compared to \$1.99 million in 1981.

Only Rice failed to get a television appearance, but it received \$479,067 from the television package through revenue sharing.

"The NCAA has been paid the dollars it has because it has been one, unified plan," SWC commissioner Fred Jacoby said. "I think the conference did very well this year. I'm not so cer-

football-playing schools.

"Reorganization created all the furor," Oklahoma athletic director Wade Walker said. "Schools with similar scope and similar programs could not control their destiny. It came about because 776 institutions cannot have the same problems and concerns as the Notre Dames, Michigans, Nebraskas, Alabamas, USCs, UCLAs, OUs and Texas."

OU and Georgia filed suit against the NCAA, claiming the NCAA didn't have the right to restrict each school's property rights in a television package.

"Our whole premise is that we'd like the opportunity to choose whatever is available, instead of having the NCAA choose," Walker said. "Can the Big Eight or OU put together a better package than the NCAA? I can't evaluate that, but I'd sure like to have the opportunity."

NCAA assistant executive director Tom Hansen says one of the first casu-

# Some stations not sold on carrying local TV football package

By Barry Boesch  
The Dallas Morning News

More schools may get on television, but they probably won't make as much money as they do under the NCAA television package, a survey of Dallas area stations indicates.

All local stations contacted said they would be interested in carrying college football. They also said that the likelihood that college games would be on several stations simultaneously would detract from the price each station would pay for a game.

"They could well price themselves out of the marketplace," KDFW Channel 4 general manager John McKay said. "There are a lot of football games and a lot of television stations. If they all carry a game, it dilutes the importance of any one game, even a Texas-OU."

McKay said he would be most interested in a Southwest Conference "game of the week" package rather than a schedule featuring one team like Texas or Texas A&M.

Although Channel 4 would be interested, McKay said it would not buy a local package at the expense of CBS Sports programming or the station's own profitability.

"There will be a breaking point where I say I don't want to

compete for this," McKay said. "In the end, I don't believe one game on a Saturday afternoon is going to alter the destiny of this station."

KXAS Channel 5 general manager Frank O'Neil said he would be most interested in an SWC package but would consider signing deals with individual teams, including locals TCU, SMU, North Texas State University and the University of Texas, Arlington.

"Being an NBC affiliate (without network college football), the possibility of any college football is exciting to us," O'Neil said. "I'd much rather run a football game than Donna Fargo or Emergency."

"O'Neil said schools like NTSU and UTA might not draw large audiences but could be successful television attractions if alumni sponsors paid the bill.

KTVT Channel 11 general manager Jack Berning said the number of games on other stations would not discourage his station from entering the college arena.

"There are a lot of schools in this area that could be shown that would have great appeal," Berning said.

Dallas-Fort Worth's two subscription TV stations also would

be interested in college football.

"We would try to buy the best game we could find, leaning toward the schools best known in Dallas," VEU general manager Karl Miller said. VEU might have a game every week or go for a more limited schedule to ensure quality games, Miller said.

Glen Gurguolo, program director of ON-TV, said his station would buy as many live games as it reasonably could afford, emphasizing Dallas-Fort Worth area teams.

WFAA Channel 8 GM Dave Lane showed little enthusiasm for a local college football package. "Quite honestly, I would want to sit on the sidelines for a period of time and see who the survivors would be," Lane said. "We're not in the business of going out and originating a bunch of college football games."

Lane is skeptical that any one television package would be very valuable with a large number of stations carrying college football.

As enthusiastic as he is, Channel 5's O'Neil said he doubts schools could make as much money from local stations as they do from the network packages.

"It strikes me that it would cost most schools in our area a lot of money," he said. "The biggest hangup is the prices that would be involved. The kind of money on a local deal is really limited."

# Even new NCAA sanctions might not be tough enough

By D. L. Moore  
USA Today

They've tried taking teams off television and barring them from postseason play. That didn't work.

They've tried taking away teams' athletic scholarships. That didn't work, either.

The NCAA's investigations go on and on, and almost every time the investigators look for something, they find it. The penalties for cheating have become stiffer, but college athletics remains a dirty business.

Now the NCAA appears ready to try something new. At the NCAA's annual Convention January 10-12 in San Diego, member schools will vote on a proposal that may make coaches more accountable when rules violations are uncovered.

The proposal would require every coach's contract to include the stipulation that the coach can be suspended without pay or fired if he is involved in

"deliberate and serious violations of NCAA regulations."

Of course, it wouldn't look good for any school to vote against such a proposal. But there is always a group that thinks a contract should be between just the immediate parties—outsiders butt out.

Such rationalization in this case would be hypocritical, if not pernicious. College athletics needs more help than this measure will provide, but this is another get-tough step in the right direction.

The proposal, submitted by the College Football Association and sponsored by six Division I-A football schools—Georgia, Nebraska, North Carolina, Penn State, Rutgers and Tulane—is likely to pass, says Steve Morgan, NCAA director of legislative services.

Many coaches support it, with some reservations.

"If they can hang one on me, I'll

take the consequences," says Washington football coach Don James. "But I think it's important to make it clear that I don't want to be hung for something done without my knowledge by an alumnus or a member of my staff." Fair enough.

Says Arizona State basketball coach Bob Weinbauer: "I think on the surface, it's a very good thought. Anything we can do to clean up the game is important. But there has to be a detailed look at what is a minor violation and what is a serious violation." Indeed, some definition of "serious violation" will be needed.

But while this is a worthwhile step in trying to right some big wrongs, the measure falls short of the mark.

Quite often, coaches have violated NCAA rules at one school and, just as that school is getting slapped with probation, waltz off to another school, escaping penalty as the old school suffers.

Under the proposal, the coach's new school could decide to suspend or fire the coach based on violations that occurred at the coach's old school. But the new school could also decide not to act, figuring the violations were in the past, the coach has mended his ways.

In other words, skipping away to greener pastures might still be commonplace.

"I can see the concerns and the potential shortcomings," said Morgan. "But this is a compromise. It's as far as we dare go right now."

"If we find out that people are laughing in the face of the rules after two or three years, maybe we'll be thinking about getting a tougher rule."

Tougher might just be necessary. Nothing has worked so far.

# Ex-Olympic performers promoting women's sports

By Will Grimsley

The U.S. Olympic Committee's "Petticoat Paul Reveres"—they'll love that appellation—are finding it tough to awaken the country to the growing importance of women's sports.

"I called one big-city newspaper set up an interview," said vivacious Peg Nugent, the trail boss of the cross-country drive, "and I got a quick brushoff. 'We only write about macho stuff on this paper,' the editor said."

"A columnist on another major paper, one of the country's most prestigious, told me: 'I've done my quota on women athletes for this month. I'll be happy to do something in three or four weeks.'"

Nugent serves as travel agent, house-mother, secretary and comptroller for one of the most interesting enterprises in sports—a two-year, 60-city tour by three former Olympic athletes to promote the women's image in the Olympic movement.

Their purpose—through every possible medium, radio, TV, newspapers and even public clinics—is to encourage young women athletes to get interested in various sports, particularly those on the Olympic program, and to soup up community support.

"The inclination has been to give most of the emphasis to the guys and forget the gals," Nugent said. "We want to show everybody that women's sports are just as attractive and as important as the men's. It isn't easy."

The project is underwritten by Coca-Cola at hundreds of thousands of dollars and carries the blessing of the U.S. Olympic Committee.

Peg works as an account executive for one of the bottling company's public relations firms in Atlanta, the home base.

She has surrounded herself with three attractive and persuasive ex-Olympians, who packed their bags and told their husbands, "We'll see you after the 1984 games in Los Angeles."

They are Wyomia Tyus, who earned three gold medals and one silver in track and field in the 1964 and 1968 games in Tokyo and Mexico City, the first athlete, male or female, to retain a sprint title; Jennifer Chandler, who won the three-meter springboard diving gold in 1976 in Montreal, compiling the best score in Olympic history, and Nancy Thies Marshall, a member of the fourth-place gymnastics team in Munich in 1972—highest finish ever

for an American team in Olympic gymnastics.

They preach a single gospel: It isn't a sin for a lady to develop muscles. The current trend is toward the fresh, outdoor woman. There should be more local training facilities and coaches.

Trouble is, it's hard to find a forum. "When we got to Dallas," Chandler said, "we had TV interviews all set and at the last minute they had to be cancelled because reporters had to rush out and run down a rumor—never verified—that one of the most famous of the Dallas Cowboys football team was involved in the cocaine scandal."

"And then came the major league baseball play-offs and the football strike," Marshall added, "Almost everybody has been too busy to pay

much attention to us. But we're not discouraged. We've got two years and we're going to hit every one of the 60 cities and as many radio stations and newspapers as we can."

Nugent told of a recent women's golf tournament she watched on TV that she said exemplified the attitude of much of macho America.

"This player was on the green with a tough putt that affected the outcome," she related. "When she bent over to putt the ball, the camera zeroed in on her posterior. Nobody saw what happened to the ball."

"Laura Baugh and Jan Stephenson aren't the best women golfers," said Marshall. "But when you pick up the paper whose pictures do you see? Not Kathy Whitworth or Joanne Carner but Laura and Jan."

Wyomia said that when she was growing up, muscles on a woman were considered ugly, and women were encouraged to engage in feminine pastimes and shun the more energetic sports such as basketball and field hockey.

"Those days are gone," she added. "The athletic look is the 'in' look."

All three of the women athletes said they would prefer to be a great athlete than the most dazzling TV model.

"Athletics," said petite Nancy Thies Marshall, "gives me an opportunity to reach down inside myself and pull out all the potential that's in there. That is more satisfying than just smiling into a camera."

Grimsley is a special correspondent of the Associated Press.

## TANK MCNAMARA

## Looking Back

### Five years ago

The 72nd annual Convention, January 11-13, 1978, at the Peachtree Plaza Hotel in Atlanta, approved realignment of Division I football by creating Divisions I-A and I-AA. NCAA President J. Neils Thompson, University of Texas, Austin, presided.

### Ten years ago

The 67th annual Convention, January 11-13, 1973, at the Palmer House in Chicago, abolished the 1,600 legislation. The delegates also rejected a proposal to reorganize the Association for legislative purposes but called for a special Convention to reconsider the matter. NCAA President Earl M. Ramer, University of Tennessee, Knoxville, presided.

### Twenty years ago

The 57th annual Convention, January 7-9, 1963, at the Statler-Hilton Hotel in Los Angeles, was informed that three major conferences had adopted an inter-conference letter of intent and five others had endorsed it in principle. The delegates also voted to support the federation movement fully. NCAA President Robert F. Ray, University of Iowa, presided.

### Thirty years ago

The 47th annual Convention, January 8-10, 1953, at the Mayflower Hotel in Washington, D.C., voted 172 to 13 to have the Association continue a limited live-television program for 1953, with the program to be submitted to the membership in a mail referendum. NCAA President A. B. Moore, University of Alabama, presided.

### Forty years ago

No NCAA Convention was held in 1943 because of World War II. The 37th annual Convention was the last to be held in December—December 29-30, 1942, at the Hotel Astor in New York City. Delegates there advocated the use of college and university athletic facilities by the armed services to maintain active sports programs and urged member institutions to continue their own programs. NCAA President Phillip O. Badger, New York University, presided.

### Fifty years ago

The 28th annual Convention, December 30, 1933, at the Stevens Hotel in Chicago, appointed a special committee to study recruiting and subsidization of student-athletes, with particular regard to conference regulations. Maj. John L. Griffith, Big Ten Conference, served as NCAA president.

### Sixty years ago

The 18th annual Convention, December 28, 1923, at the Georgian Terrace Hotel in Atlanta, appointed an ice hockey rules committee, instituted the office of district vice-president and combined the offices of secretary and treasurer. The NCAA president was Gen. Palmer E. Pierce, U.S. Military Academy.

### Seventy years ago

The eighth annual Convention, December 30, 1913, at the Hotel Astor in New York City, appointed a rules committee for swimming and water sports and appointed another to determine methods of athletic regulation and control in other countries. Palmer Pierce of the U.S. Military Academy—then a captain—was NCAA president.

## 'It seems like just yesterday'

Paul "Bear" Bryant, director of athletics  
University of Alabama

Associated Press

"Outside of football, my life has just slipped by. It seems like just yesterday that I was coaching at Kentucky, instead of 30 years ago."

"I got a little abuse and a lot of advice in the mail. They said, 'Do this, and do that.' I wrote back and said, 'Sorry, but I'm not bright enough to take your advice.' If I had stayed and didn't have a good year next year, the abuse would have really started for sure. I think I can be helpful (to his successor Ray Perkins) on that. I can tell 'em what idiots they are."

Art Keller, director of athletics  
Carthage College

Carthage College Sports News

"The game of football is not just learning to win. It's a matter of losers learning how to come back, and that a per-

## Opinions Out Loud

son can learn to try lots of things in order to come back on the winning track to life again.

"I hope I've tried to instill in each player that what one tries on the field is not so important in the long run, but what cause they have in life is what will really be important to them."

Bo Schembechler, football coach  
University of Michigan

Associated Press

"There are simply too many good football teams in the country to try to narrow it down for a tournament. Quite honestly, I like the polls. The polls create a lot of controversy, but they also create a lot of interest in college football."

"The only guys who are pushing for a championship play-off are guys who are either not interested in academics or who are not in a position to win a conference championship."

Tommy Malone, basketball coach  
Houston Yates High School

Houston Chronicle

"There simply are too many negative factors with the new signing dates. No. 1, a boy who signs in November can't make any visits. That's important. I think, for a boy to take his five allowed visits. You need to know certain things about certain schools, and the only way you can find those things out is to visit the school personally."

"And another thing, if you get a kid with a funky attitude, something like this could really ruin him. If he's already signed with a college before the season starts, all kinds of things could start messing up his head."

"Now, he's only half yours. The other half already belongs to his college coach. Why should he be concerned

about doing what you tell him? He already has his college deal locked up. If he doesn't like what you're doing, there's nothing at all to prevent him from just walking away from the team and concentrating on getting ready for college."

Ray Muston, associate dean of academic affairs  
University of Iowa

Des Moines Register

"I wouldn't deny that the success of the university in athletic programs broadens public exposure, but students still are more interested in whether the (academic) programs are there."

Christopher Fordham, chancellor  
University of North Carolina, Chapel Hill

Washington Post

"Even under the best of circumstances, excessively intense competition to win may be dispiriting and, in the long run, unhealthy. This very real problem should be given extended and regular consideration by all the various constituents of the modern university."

"The issue of commercialization in part relates to illegal and improper payments to athletes as inducements to attend and remain at certain institutions. This practice, of course, is an intolerable breach of professionalism and institutional integrity and is not excusable on any discernible basis. Coaches, athletic directors, faculties and institutional presidents should make it clear to all that such conduct will not be tolerated, and that swift dissociation from the program will be the inevitable consequence when breaches can be demonstrated."

Joseph V. Paterno, football coach  
Pennsylvania State University

Associated Press

"I really believe if the NCAA loses its (court) fight for control of football television and there's no way a group like the College Football Association can put a package together and give the NCAA the same percentage it gets now, the NCAA will be very active in promoting a play-off to get the revenue to finance its other championships."

"I'm the last guy in the world who would affect the position of the bowls, but I've always felt we could do something to make the bowls more significant. A four-team play-off might add more excitement to the bowl season, but the bowls don't feel that way. Right now, we could have two games next Saturday and the title game the following Saturday."

Ray Meyer, basketball coach  
DePaul University

Chicago Sun-Times

"In the last eight or nine years, agents used to write coaches a letter and ask to talk to a player at a proper time. Now the coach is completely disregarded. The agents go directly to the player. They don't want to get into a bidding war. They want the inside track. We're not trying to do away with agents; there is a place for them. But we have to retain some rules."

## Basketball notes

## Missed connections leave shooter cold

Colorado point guard Jay Humphries' shooting touch went cold for awhile because of the recent inclement weather experienced in that state. Humphries was scheduled to fly home to Los Angeles for the Christmas holidays, but blizzard conditions forced cancellation of his flight. He accepted a ride from the airport to a nearby friend's house, but the truck in which he was riding stalled in the snow a mile from its destination. Humphries decided to walk the remaining distance, though he was not equipped with the appropriate clothing. "I didn't bring any gloves," he was quoted in a story written for USA Today, "because who needs gloves when you think you're spending Christmas in sunny California?" A mild case of frostbite afflicted his fingers, which he discovered when he tried to practice with the team in Boulder two days later. "I think I made about two shots out of 20. I have trouble when I shoot off my fingertips, or when I try to make a pass," lamented Cool Hand Jay. He is expected to recover the feeling in his fingertips, and his shooting touch, within a week or two.

## Speaking of Cool

On December 20, Alaska-Anchorage handed Northeast Missouri State a 74-72 defeat in what may have been the first intercollegiate basketball game ever played north of the Arctic Circle. A standing-room-only crowd of 1,000 packed the Kotzebue, Alaska, high school gym to witness the event, which was sponsored by the local Lions Club, Chamber of Commerce and several other community groups. The community raised \$10,000 to fly the teams 600 miles from Anchorage. Kotzebue, population 2,000, is located on the coast of the Bering Sea approximately 35 miles north of the Arctic Circle. Because there are no roads by which the village can be reached, everyone who attended either walked, flew or traveled by dog sled. The game ball and an account of the event will be enshrined in the Basketball Hall of Fame in Springfield, Massachusetts. (Tim McDiffett, Alaska-Anchorage SID)

## What is it this Time?

Texas senior center Joy Williams needed only 31 points entering the 1983 season to reach the 1,000 career scoring mark. Confident that she would score her 1,000th point during a three-game home stand in December, Texas coaches planned to stop the game and award Williams the game ball in front of the home fans when she reached the mark. In a game against California, the last before Texas was scheduled to play on the road, Williams needed to score six points. However, she picked up three quick fouls and a couple of traveling violations early in the game. Unaware of the plan to honor her achievement, she was shocked when an official's whistle blew and play halted after she scored on a breakaway for her sixth and seventh points. "I didn't know why the game was stopped," she explained afterward. "I thought, 'Did they call me for traveling again?' I'm just glad it wasn't to disallow the basket." (Chris Plonsky, Texas women's SID)

## Cosmopolitan Cougars

Brigham Young head coach Frank Arnold can boast of having a multilingual basketball team. Three members of the BYU squad served two-year Mormon missions in foreign countries and became fluent in the languages spoken there. As a result, Devin Durrant (Spain), Kevin Nielsen (France) and Gary Furniss (Tahiti) join Finland native Timo Saarelainen to form a group with expertise in five languages—Spanish, French, Maori, Finnish and, of course, English. (Ralph Zobell, Brigham Young associate SID)

## Hey, Can Anybody Here Speak?

American basketball coaches might

soon need to become fluent in foreign languages if the trend toward foreign athletes enrolling at U.S. colleges and universities continues. At least eight nations are represented on men's and women's teams at the Division I level. Others lending an international flavor to college basketball this season besides Brigham Young's Saarelainen include Auburn's Pascale Van Roy (Belgium), Evansville's Emir Turam (Turkey), Houston's Akeem Abdul Olajuwon (Nigeria), Kentucky's Sally Loughton (England), Maryland's Jasmina Perazic (Yugoslavia), Northeast Louisiana's Eun Jung Lee (South Korea) and Toledo's Mitzi Hallinan (Australia).

## Mistaken Identity

Monmouth (N.J.) senior reserve forward Don Geczi must be wondering just who he really is. A New Jersey newspaper, previewing the Monmouth home opener against C. W. Post, ran a photograph with a caption identifying the subject in the photo as Geczi. The photo was actually of a New Jersey Athletes in Action team member taken at an exhibition game played with Monmouth earlier in the season. To atone for the error, a three-column photo was printed in the paper accompanying a follow-up story two days after the C. W. Post game. The caption read: "Don Geczi: Doesn't mind coming off the bench as long as he gets his minutes." Unfortunately, Geczi again was not in the picture. This time it was teammate Rocco Santaguida. Compounding the error was a story on page one of the sports section which began, "Monmouth College hasn't lost a game with Geczi singing the national anthem." Teammate Mason McBride crooned the national anthem before home games, not Geczi. (Ray Lena, Monmouth SID)

## Put Some Heart into It

American University first-year head coach Ed Tapscott, in cooperation with the Washington Cardiovascular Institute, has been wearing a heart activity monitor during games to collect data on the effect of stress on the heart. Tapscott's pulse rate, normally 68 beats per minute, shot up to 170 beats per minute at one point during American's recent 62-61 victory over Georgetown. Doctors at the institute point out that Tapscott is in superb shape for a 29-year-old man, and that cardiovascular activity such as Tapscott demonstrated over a prolonged period of time could be harmful to an older coach, or one in poorer physical condition. Tapscott was asked to wear the monitor by assistant coach Fran Dunphy, who plans to use the data in research he is conducting to earn his doctorate in counseling. (Terry Cornwell, American SID)

## Like Father, Like Son

Nebraska-Omaha recently broke Creighton's 15-game domination of the series between the two teams when the Mavericks defeated the Bluejays,

Georgia's Janet Harris is averaging 21.3 points and 13.1 rebounds in Division I women's basketball

56-45, before a live television audience on Creighton's home court. The last time Nebraska-Omaha beat cross-town rival Creighton was in 1957, when Dean Thompson Sr. took part in a 60-54 overtime victory. Twenty-five years later, Dean Thompson Jr., a 6-1 junior guard, scored 17 points to help his team to the upset victory. Those 17 points left him just 21 points shy of his father's career scoring total of 883, 22nd on the Maverick career scoring list.

## The Over-The-Hill Gang

Greg Hopkins, a 26-year-old point guard from Long Beach, California, recently moved up to the varsity team at La Verne, a Division III school. Hopkins joins two other La Verne players—28-year-old army veteran Ed Flournoy and 26-year-old Dave Weber, a one-time daily newspaper sports editor—on the 12-man Leopard roster to form their own version of the "Over-the-Hill Gang." Hopkins also is one of three players from La Verne's 8-1 football team currently on the basketball squad. As a quarterback he finished the season sixth in Division III passing efficiency and fourth in total offense. (Dave Weber, La Verne SID)

## A Special Individual

Coach Tom Pugliese of Southern Illinois-Edwardsville is very impressed with David Hamilton, a 6-3 freshman guard from Lexington, Kentucky. Hamilton plays sparingly; he is slowly learning to work within Pugliese's system, as is the case with many freshmen entering the world of college basketball. Unlike most freshmen, however, he relies entirely on his eyes and other senses to learn to play with new teammates and coaches. Hamilton was born deaf.

"If you didn't know he was deaf, you wouldn't recognize it until he turned his back and then you would wonder why he was ignoring you,"

Sophomore Peg Harte of Michigan is scoring at a 22.9 clip in Division I women's basketball

Pugliese told Rob Rains of United Press International. "He's special. He's really a pure kind of individual."

Hamilton was named to the Kentucky high school all-state team as a senior while playing at the Kentucky School for the Deaf and averaged 21 points, 11 rebounds and five assists during the season. "We found him through another school that was recruiting him," Pugliese recounted. "We spoke to people about him and we went down and saw him play. You could tell he was very talented. Our biggest concern was whether he could communicate with the hearing world. He came for a visit with his parents and really liked it, so he decided to come here. We were fortunate to get him. His ability is untapped."

"I've had a few problems with communication," Hamilton said through an interpreter using sign language. "When the coach yells, I don't know what to do. I have to use my eyes and body to communicate. But I'm learning. It's been hard to grow up. I'd been going to deaf schools and had been around deaf people for so many years, it was frustrating at first. But everybody takes care of me and tries to make sure I'm included in things and not left out."

Hamilton is taking a full load of courses in English, reading and algebra, but says he has not yet decided on a major. He is assisted by two interpreters from a Kentucky state agency. He also has learned to read lips very well. "I can tell what people are doing when I can see them," he explained. "The only problem I have is when people try to talk with me. I get embarrassed, and then they feel embarrassed. People try to yell at me, and they think I'm ignoring them. Then I meet them and they find out I'm deaf. I don't want people to notice only that

I'm deaf. I expected to have communication problems when I came here, but I'm going to prove I can do it."

Pugliese has learned sign language and will spend part of next summer at a camp for deaf basketball players. He is certain Hamilton's communication problems will be overcome. "By the time he's a late sophomore or junior I expect he will be able to make his ability shown. He will know our system. He's fluid and he's got all the moves. I also think my inability as a coach to get through to him will improve in time."

"He knows what he wants and he doesn't have any sympathy for himself and doesn't want it from anybody else. He's definitely a success story—no matter what happens."

## Quotes of the Week

Diane Jones, starting guard on Memphis State's women's team and fiancée of all-America forward Keith Lee, on their leisure time one-on-one games: "The most he's ever beat me by is four points. But then, he doesn't try to block my shots. He just puts pressure on me. When I'm beating him, he's not so happy. When he catches up, though, he starts laughing and teasing me." (Joe Mitch, Metro Conference SID)

Southwestern Louisiana first-year head coach Jim Izard, talking about his backcourt contingent that includes newcomers Carla West and Deborah Burrage: "They make a lot of things happen. The only problem is that sometimes the things that happen are bad, and they tend to happen to us." (Dan McDonald, Southwestern Louisiana SID)

Philadelphia Textile coach Julie Soriero employs complicated names for her offensive plays designed to run the full court. After instructing her team in the fundamentals of a new offense during a timeout in a recent game, one squad member asked what the play would be called. "Lollipop," replied Soriero, "because if we run this play right, it'll be like taking candy from a baby." (Joe Panikowski, Philadelphia Textile student assistant SID)

San Francisco State's December 28 contest with Chaminade received heightened media attention because of Chaminade's December 24 upset of top-ranked Virginia. When San Francisco State assistant coach Kevin Wilson heard before the game that a photographer from Sports Illustrated was to be present, he said, "Make sure he gets our team's good side. Tell him to sit behind us." (Matt Fischer, San Francisco State SID)

Texas-Arlington head coach Bob "Snake" LeGrand, after his team defeated Oral Roberts, 96-71: "Beating Oral Roberts was like beating God. I mean, you really feel sorry for doing something like that." (Jim Patterson, Texas Arlington SID)

George Washington, which has three freshmen and one sophomore among its starting five, has been defeating some giant-killers lately. Coach Gerry Gimelstob's team defeated Howard, 63-53, after Howard had knocked off defending NIT champion Bradley and nipped American, 70-69, in overtime after American beat then-fifth-ranked Georgetown. This showing prompted Ken Denlinger of the Washington Post to say, "If George Washington is hardly the 'Beast of the East', it just might be the 'Yeast of the East'—rising." (Doug Gould, George Washington SID)

Jacksonville coach Bob Wenzel, surveying the size 18 shoes of Eric Lewis, Tom Terrell's size 19s and Terry Pike's size 15 shoes: "If we ever get athlete's foot around here, it will be an epidemic." (John Iamarino, Jacksonville SID)

Pittsburgh's Clyde Vaughan is tied for 17th this week in Division I men's scoring with 22.2 average

Melvin McLaughlin of Central Michigan has scored 196 points for 21.8 average

Sidney Green of Nevada-Las Vegas is averaging 22.0 points and 11.2 rebounds

## Convention puts spotlight on award winners

Arnold Palmer heads the list of 11 current and former collegiate student-athletes who will be honored at the 18th annual NCAA honors luncheon to be held January 10. CBS Sports anchor Brent Musburger will serve as master of ceremonies.

The awards will include recognition of Palmer as the 1983 Theodore Roosevelt Award recipient, the presentation of five former student-athletes as Silver Anniversary award winners and the honoring of five current collegiate performers who were selected as Today's Top Five award winners. The latter two groups form the College Athletics Top Ten for 1983.

### The Theodore Roosevelt Award

Palmer, the 1960s "Athlete of the Decade" and the man generally credited for the growth in popularity of professional golf during that time, is the 17th winner of the NCAA's Theodore Roosevelt Award.

Palmer, 53, has won more than 80 titles on the professional golf circuit and is one of the sport's most popular

players. He was tournament medalist in the 1949 and 1950 National Collegiate Golf Championships and was the top player on the golf team at Wake Forest University for four years.

In addition to his success in professional golf, Palmer has become a highly successful businessman.

The Association's highest honor, the Theodore Roosevelt Award is presented annually to a prominent American "for whom competitive athletics in college and attention to physical well-being thereafter have been important factors in a distinguished career of national significance and achievement."

The award is named for the 26th president of the United States, who played a key role in organizing what later became the NCAA.

### Silver Anniversary awards

Five former intercollegiate athletes have been selected by the NCAA as recipients of the Silver Anniversary awards, which are to honor former student-athletes who have led distinguished lives after outstanding athletic

Brent Musburger

careers in college 25 years ago.

Recipients of the Silver Anniversary awards are Michael H. Armacost, Carleton College baseball, basketball,

football, swimming, tennis and track athlete; Richard J. Censits, University of Pennsylvania basketball player; Ronald M. Delany, Villanova University track and field athlete; Aubrey C. Lewis, University of Notre Dame football and track athlete, and Jack R. Lousma, University of Michigan football player.

### Mike Armacost

Currently U.S. Ambassador to the Philippines, Armacost was a six-sport letterman at Carleton and is the sixth leading scorer in school basketball history with 1,045 points. He was graduated magna cum laude from Carleton with a degree in government and international relations and was a member of Phi Beta Kappa.

Armacost began a career with the U.S. State Department in 1969. A long association with the department's policy planning staff led to his appointment as deputy assistant secretary of defense in 1978.

Armacost was appointed ambassador to the Philippines in December 1981 by President Ronald Reagan.

Congress confirmed that nomination in February 1982.

### Richard Censits

An all-Ivy League selection and three-time all-Big Five basketball player, Censits ranks 12th in career scoring at Pennsylvania with 1,181 points and fourth in career rebounding with 867.

Since leaving Pennsylvania, Censits has worked for several major corporations in financial management positions. He joined the Campbell Soup company in 1975 as vice-president and chief financial officer.

Censits is vice-chair of the Penn Athletic Advisory Board and is a member of the Alumni Committee on Athletics. He has taught as an associate professor at Pennsylvania State University, Franklin and Marshall College, and Pierce Junior College. He also is a member of the Big Five Basketball Hall of Fame.

### Ron Delany

## 'Teddys' represent broad spectrum of achievement

Arnold Palmer, 1983 honoree

Theodore Roosevelt long will be remembered not for one specific event in United States history or for one unique character trait, but rather for the many different facets of his personality and for the many different ways he left his mark on the American consciousness.

And it is that fierce competitive spirit that lives in the Theodore Roosevelt Award, the highest honor the NCAA may confer on an individual. The first "Teddy" went to another former president, Dwight D. Eisenhower, in 1967.

Since then, another president has been honored, along with one of America's greatest Olympic athletes. Leaders in the fields of medicine, the performing arts, justice, government, higher education, journalism, business and professional sports have been "Teddy" winners.

The award is presented annually to a distinguished citizen of national reputation and outstanding accomplishment who, having earned a varsity athletic award in college, has by a continuing interest and concern for physical fitness and competitive sport and by personal example exemplified most clearly and forcefully the ideals and purposes to which college athletic programs and amateur sports competition are dedicated.

In chronological order, the list of "Teddy" honorees includes:

1967—Dwight D. Eisenhower, general of the army, president of the United States; United States Military Academy, 1915.

1968—Leverett Saltonstall, United States senator, governor of Massachusetts; Harvard University, 1914.

1969—Byron R. White, United

States Supreme Court justice; University of Colorado, 1938.

1970—Frederick L. Hovde, President, Purdue University; University of Minnesota, 1929.

1971—Christopher C. Kraft Jr., National Aeronautics and Space Administration; Virginia Polytechnic Institute, 1944.

1972—Jerome H. Holland, United States ambassador to Sweden; Cornell University, 1939.

1973—Omar N. Bradley, general of the army; United States Military Academy, 1915.

1974—Jesse Owens, Jesse Owens Inc., public relations; Ohio State University, 1937.

1975—Gerald R. Ford, House minority leader, president of the

United States; University of Michigan, 1935.

1976—Thomas J. Hamilton, rear admiral, United States Navy; United States Naval Academy, 1927.

1977—Tom Bradley, mayor of Los Angeles; University of California, Los Angeles, 1941.

1978—Gerald B. Zornow, Eastman Kodak Company; University of Rochester, 1937.

1979—Otis Chandler, Los Angeles Times; Stanford University, 1950.

1980—Denton A. Cooley, Texas Heart Institute; University of Texas, 1941.

1981—Arthur G. Linkletter, entertainer; San Diego State University, 1934.

1982—William H. Cosby Jr., entertainer; Temple University, 1964.

# 125 CEOs are expected

A record number of presidents and chancellors of NCAA member institutions had indicated plans to attend the 1983 NCAA Convention as of December 29.

A total of 125 CEOs had appointed themselves as voting, alternate or visiting delegates as of that date, the highest number since chief executives began attending the annual Convention in increasing numbers in the mid-1970s.

That total includes 97 Division I CEOs (30 from Division I-A, 36 I-AA and 31 from other Division I members), 21 from Division II institutions and seven representing Division III colleges and universities.

The registration list of presidents and chancellors as of December 29:

## Division I

I-A: Harold Abel, Central Michigan University; William Atchley, Clemson University; Edward J. Bloustein, Rutgers University, New Brunswick; Edward J. Boling, University of Tennessee, Knoxville; Thomas G. Carpenter, Memphis State University; Jewell Plummer Cobb, California State University, Fullerton; Thomas B. Day, San Diego State University; Edward T. Foote II, University of Miami (Florida); Porter L. Fortune, University of Mississippi; Leonard E. Goodall, University of Nevada, Las Vegas; Peter J. Liacouras, Temple University; Robert MacVicar, Oregon State University; Robert Q. Marston, University of Florida; Martin A. Massengale, University of Nebraska, Lincoln; Haskell Mon-

roe, University of Texas, El Paso.

Joseph M. Pettit, Georgia Institute of Technology; Wesley W. Posvar, University of Pittsburgh; Bruce R. Poulton, North Carolina State University; John Ryan, Indiana University; James R. Scales, Wake Forest University; L. Donald Shields, Southern Methodist University; Otis A. Singletary, University of Kentucky; John B. Slaughter, University of Maryland, College Park; Donald C. Swain, University of Louisville; Gerald W. Thomas, New Mexico State University; Joab L. Thomas, University of Alabama; Barbara S. Uehling, University of Missouri, Columbia; Frank E. Vandiver, Texas A&M University; Charles E. Young, University of California, Los Angeles; James H. Zumberge, University of Southern California.

I-AA: Ronald E. Beller, East Tennessee State University; Rodney H. Brady, Weber State College; Oswald P. Bronson, Bethune-Cookman College; Neil S. Bucklew, University of Montana; Ronald E. Carrier, James Madison University; John J. Coffelt, Youngstown State University; Jack V. Doland, McNeese State University; David W. Ellis, Lafayette College; Edward B. Fort, North Carolina A&T State University; Eugene M. Hughes, Northern Arizona University; Alfred F. Hurley, North Texas State University; Joseph B. Johnson, Grambling State University; John J. Kamerick, Northern Iowa University; John H. Keiser, Boise State University; C. Robert Kemble, Lamar University; Richard C. Landini, Indiana State University, Terre Haute.

Peter Likins, Lehigh University; Duane Meyer, Southwest Missouri State University; Wilbur C. Miller, Drake University; Luna I. Mishoe, Delaware State University; M. Maceo Nance Jr., South Carolina State College; Morris Norfleet, Morehead State University; Frederick W. Obeir, University of Tennessee, Chatta-

nooga; Paul J. Olscamp, Bowling Green State University; Joseph J. Orze, Northwestern State University (Louisiana); John A. Peoples, Jackson State University; Robert O. Riggs, Austin Peay State University; Arliss L. Roaden, Tennessee Technological University; Albert Somi, Southern Illinois University, Carbondale; Leonard H. O. Spearman, Texas Southern University; Jesse N. Stone, Southern University, Baton Rouge; John E. Thomas, Appalachian State University; William J. Tietz, Montana State University; Walter Washington, Alcorn State University; Donald W. Zacharias, Western Kentucky University.

Other I: Daniel G. Aldrich, University of California, Irvine; Lansing G. Baker, Utica College; Richard Berendzen, American University; Lattie F. Coor, University of Vermont; Rev. Bernard J. Coughlin, Gonzaga University; Rev. Charles L. Currie, Xavier University; Edward R. D'Alessio, Seton Hall University; Rev. James M. Denske, Canisius College; Rev. John M. Driscoll, Villanova University; Pope K. Duncan, Stetson University; Rev. Thomas R. Fitzgerald, St. Louis University; Jesse C. Fletcher, Hardin-Simmons University; E. K. Fretwell, University of North Carolina, Charlotte; Rev. Edward Glynn, St. Peter's College; Wallace B. Graves, University of Evansville; W. H. Hinton, Houston Baptist University; Author E. Hughes, University of San Diego.

George W. Johnson, George Mason University; Rev. Robert A. Mitchell, University of Detroit; Rev. Michael E. Morrison, Creighton University; Dennis J. Murray, Marist College; Miguel A. Nevarez, Pan American University; Rev. Thomas Oddo, University of Portland; Jerome M. Pollack, Fairleigh Dickinson University; Teaneck; Donald H. Riddle, University of Illinois, Chicago; Oral Roberts, Oral Roberts University; Charles L. Sewall, Robert Morris College; James M. Shuart, Hofstra University; Hoke L. Smith, Towson State University; Jerald C. Walker, Oklahoma City University; Edward E. Weidner, University of Wisconsin, Green Bay.

## Division II

Dennis D. Bell, East Stroudsburg State College; Sherwood O. Berg, South Dakota State University; Elliott T. Bowers, Sam Houston State University; Curtis E. Bryan, Virginia State University; George A. Christenberry, Augusta College; James W. Cleary, California State University, Northridge; Foster F. Diebold, Edinboro State College; Billy J. Franklin, Texas A&I University; Donald R. Gerth, California State University, Dominguez Hills; Asa N. Green, Livingston University; David L. Outcalt, University of Alaska, Anchorage.

Margaret R. Preska, Mankato State University; Herb F. Reinhard, Slippery Rock State College; James M. Rosser, California State University, Los Angeles; Natale A. Sicuro, Southern Oregon State College; Charles E. Smith, University of Tennessee, Martin; G. T. Smith, Chapman College; Lloyd D. Vincent, Angelo State University; Del Weber, University of Nebraska, Omaha; Lyle C. Wilcox, University of Southern Colorado; Kent Wyatt, Delta State University.

## Division III

Richard G. Gilman, Occidental College; Paul Hardin, Drew University; Douglas R. Moore, University of Redlands; A. Walter Olson, California State College, Stanislaus; Lewis S. Salter, Wabash College; David E. Sweet, Rhode Island College; Kenneth J. Weller, Central College (Iowa).

Alan J. Chapman

## Chapman to mark 11th Convention

The 1983 NCAA Convention in San Diego marks the 11th NCAA Convention at which Alan J. Chapman of Rice University has served as parliamentarian.

Chapman began serving as NCAA parliamentarian at the Association's second special Convention in August 1975. He has continued in that capacity at all eight annual Conventions since 1975 and at the third and fourth special Conventions.

Prior to Chapman's service, two law professors and former NCAA presidents shared the parliamentary duties at NCAA Conventions from 1963 through 1974. Marcus L. Plant, University of Michigan, served at nine Conventions during that time; and Harry M. Cross, University of Washington, was parliamentarian five times.

Chapman, a member of the National Association of Parliamentarians, is professor of engineering and former dean of the school of engineering at Rice, where he served as faculty athletic representative from 1964 through 1978.

He was president of the NCAA in 1973 and 1974 after serving on the NCAA Council for five years. He currently chairs the NCAA Constitution and Bylaws Committee and in September completed seven years as chair of the Long Range Planning Committee. He also serves on the Special Committee on Legislative Review.

## Eligible vote total is 851

If every eligible voting member were in attendance at the 1983 NCAA Convention, there would be a total possible vote of 851 on any issue affecting the entire membership.

That total includes 781 active member institutions and 70 voting allied conferences.

Of those, 277 institutions and 35 voting conferences are in Division I, for a possible vote of 312 in that division. There are 204 voting institutions and 14 voting conferences in Division II (218) and 300 voting institutions and 21 voting conferences in Division III (321).

The Division I total also breaks down as follows: Division I-A: 96 active and eight allied (104); Division I-AA: 93 active and nine allied (102); other Division I: 88 active and 18 allied (106).

Another voting factor is that all-male institutions and conferences are not permitted to vote on issues related exclusively to women's athletics, and vice-versa. There are 12 all-men institutions (two I-AA, one other Division I, one Division II and eight Division III) and 25 all-women institutions (six Division II and 19 Division III). Among the conferences, there are 27 all-male leagues (four I-A, three I-AA, seven other I, five II and eight III) and 11 all-female leagues (seven in the "other Division I" category and four in Division III).

Thus, the highest possible vote (if all were in attendance) on an issue relating solely to women's athletics would be 812; the highest on a proposal dealing only with men's athletics would be 816.

Generally, more than 70 percent of all possible voters are registered for an NCAA Convention. In fact, the percentages at the past two annual Conventions were 78.8 percent in 1981 and 79.2 percent last year.

More than 90 percent of all Division I voting members are in attendance each year; the record in that division is 94 percent. In Division II, more than 70 percent of the possible voters attend each year, with a record high of 75 percent. Division III usually has more than half of its voting members at the Convention, and the percentages in that division the past two years were 63 percent and 63.5 percent.

## Past Conventions provide some interesting sidelights

Proofreaders often face long hours of boring work. But those who read for content as well as mistakes find themselves learning something almost every page.

A look back at the list of past NCAA officers and Convention sites produces some interesting sidelights into the 77-year history of the Association.

For example, through its first five decades, the NCAA's annual Convention was held west of the Mississippi only twice (1939 in Los Angeles and 1949 in San Francisco).

While New York has played host to the Convention 34 times, the Association has not returned to the Big Apple for its annual gathering since 1968.

The list of former officers also contains some enlightening footnotes on the development of the NCAA. Only one conference as an entity, the Big Ten, has had an official elected to an

NCAA office. Maj. John L. Griffith served as president of the Association from 1933 through 1937 and as secretary-treasurer from 1940 through 1944. Kenneth L. Wilson, also of the Big Ten, followed Griffith as secretary-treasurer, serving in that post from 1945 to 1951.

Hugh C. Willett of Southern California was the last president to serve more than two years (1950-1952), and Palmer E. Pierce of the U.S. Military Academy served 21 years in that post, 1906-1913 and 1917-1929, the longest presidential service in NCAA history.

However, Frank W. Nicolson of Wesleyan University holds the NCAA record for longest term of office, serving as secretary-treasurer from 1909 through 1939.

The complete list of Convention sites and past officers appears below.

## CONVENTION SITES

1979-1980	William J. Flynn	Boston College
1981-1982	James Frank	Lincoln University (Missouri)

## SECRETARY-TREASURER

1906-1908	Louis Bevier Jr.	Rutgers University, New Brunswick
1908	W. A. Lambeth	University of Virginia
1909-1939	Frank W. Nicolson	Wesleyan University
1940-1944	Maj. John L. Griffith	Big Ten Conference
1945-1951	Kenneth L. Wilson	Big Ten Conference
1952-1954	Earl S. Fullbrook	University of Nebraska, Lincoln
1955-1956	Ralph W. Aigler	University of Michigan
1957-1958	Edwin D. Mowson Jr.	Southern Methodist University
1959-1960	Percy L. Sadler	Lehigh University
1961-1962	Rev. Wilfred H. Crowley	University of Santa Clara
1963-1964	Everett D. Barnes	Colgate University
1965-1966	Francis E. Smiley	Colorado School of Mines
1967-1968	Ernest B. McCoy	Pennsylvania State University
1969-1970	William J. Flynn	Boston College
1971-1972	Samuel E. Barnes	Howard University/D.C. Teachers College
1973-1974	Richard P. Koenig	Valparaiso University
1975-1976	Stanley J. Marshall	South Dakota State University
1977-1978	Edgar A. Sherman	Muskingum College
1979-1980	James Frank	Lincoln University (Missouri)
1981-1982	John L. Toner	University of Connecticut

# Convention voting is a colorful procedure

Each active member institution and each qualified allied conference has one vote at any NCAA Convention, and that vote generally is cast by means of a plastic voting paddle.

The paddle—lettered with the name of the voting institution or conference—is given to the member's voting delegate, as designated by the member's chief executive officer, when that delegate registers for the Convention. During the Convention, any of the member's delegates who were designated as the voter or alternates by the CEO actually may raise the paddle.

To facilitate voting by divisions—a unique feature among associations—paddles are different colors. Division I-A members receive blue paddles; I-AA, green, and all other Division I members, white. Division II members carry orange paddles, while Division III paddles are yellow.

Providing even more variety is a system of stripes and circles on the paddles to indicate members with limited voting privileges—those enabled to vote only on constitutional issues and those all-men or all-women institutions and conferences that are not permitted to vote on issues dealing only with women's or men's issues, respectively.

On constitutional issues, executive regulations, resolutions, recommended policies, special rules of order and the enforcement procedure, all delegates vote as a body. On divided and common bylaws, they vote by division. The only circumstance in which an institution or conference is eligible to vote in a division that is different than indicated by its paddle color is on football-only issues, in which case it votes with the division in which its football program is classified.

All amendments to the constitution require approval by a two-thirds majority of the delegates present and voting. The special rules of order, adopted a year ago, also require a two-thirds vote. Otherwise, all legislative issues before the Convention are determined by a simple majority of the appropriate voting body.

In the case of divided bylaws (all bylaw articles except Nos. 9, 10, 12 and 13), the involved divisions vote separately, and each division can adopt or reject a proposal regardless of the action of other divisions. In common bylaws (Nos. 9, 10, 12 and 13), each division votes separately and an amendment must be approved by all three divisions.

While voting by paddle is by far the most common method employed at NCAA Conventions, three other types are permitted under the special rules of order—voice, roll call and secret ballot. The presiding officer determines whether to attempt a voice or paddle vote, generally calling for the latter.

Voting by roll call or secret ballot can occur only when it is ordered by a majority of the eligible voters present and voting; i.e., those eligible to vote on the amendment in question. A motion for a roll call or secret ballot is not debatable.

Paddles also are used in the division round tables, where the only final voting that can be conducted is on Bylaw 10-1-(f) waivers of division membership criteria and, if Proposal No. 20 is adopted, in electing the division's Council members. Other round-table voting is on a straw-vote basis and is not binding, although it can be helpful to legislative sponsors in determining whether to withdraw certain proposals that do not gain support in the straw voting.

Judith L. Hirsch

Charles H. Samson

F.A. Geiger

Patricia A. Thompson

Edward L. Hanson

Rev. Joseph Eagan

## Six committees have key roles

Representatives from member institutions will be active on six Convention committees, appointed to oversee several areas of business that relate to

annual Convention.

The Credentials Committee, chaired by Judith L. Hirsch of California State University, Hayward, has the authority to examine the credentials of delegates to the Convention. It can determine the authority of any delegate to vote or represent a member, although that determination is subject to appeal to the Convention.

Rev. Joseph Eagan of the University of San Francisco is chairing the Memorial Resolutions Committee, which has compiled the names of individuals associated with intercollegiate athletics who died during 1982. A report memorializing these individuals will be delivered during the opening session.

The Voting Committee is responsible for counting votes when called on by the president. It is composed of at least one member from each district, with the chair appointed on an at-large basis. This year's chair is Edward L. Hanson of Montana State University.

Two 12-member bodies, the Men's Committee on Committees and the Women's Committee on Committees, have been appointed to nominate candidates for the Association's men's and women's sports committees.

F. A. Geiger of Stanford University is the chair of the men's group, while Patricia A. Thompson of Elmira College is chairing the women's committee. Each district and division is represented on these committees with members serving three-year terms. There is no provision for immediate reappointment. The chair is selected from those in the final year of their terms and serves for one year only.

Each of these committees has at least one meeting prior to the business session and may have an additional meeting prior to the Convention.

The Nominating Committee determines nominees for the Association's officers and Council positions. It consists of 16 members, including at least four women, and is appointed prior to the Convention.

Each of the districts and divisions is guaranteed representation, and four of the members are district vice-presidents who sit on the Council. One of those district vice-presidents is selected as chair; this year it is Charles H. Samson of Texas A&M University. Members serve one-year terms and are limited to three terms in any five-year period.

## Amendment deadline set

Amendments to the proposed legislation circularized to the membership in the Official Notice of the 1983 NCAA Convention must be submitted not later than 1 p.m. Monday (January 10).

NCAA Constitution 7-3 and Bylaw 11-3 specify that submission deadline. In addition, voting members may request a review of an interpretation and may submit a resolution by that same deadline, as set forth in Constitution 6-2 and 6-4, respectively.

All amendments, resolutions and interpretation-review requests must be submitted in writing at the NCAA Convention work suite on the top floor of the West Highrise building at the Town and Country Hotel.

A resolution cannot be inconsistent with any provisions of the NCAA constitution or bylaws.

An amendment to one of the pro-

posals in the Official Notice of the Convention is in order if it does not increase the modification proposed by the circularized amendment. In other words, an acceptable amendment to an amendment must fall between the current rule or circumstance and the change proposed in the previously circularized amendment.

As a hypothetical example, Division I-AA football institutions currently can award 75 football grants and Proposal No. 44 proposes a reduction to 65. Any amendment to No. 44 would have to fall between 65 and 75; it could not propose a number lower than 65 or one higher than 75, because that would increase the proposed modification.

The six-sponsor requirement does not apply to amendments to amendments, resolutions or requests for review of interpretations. A single sponsor is sufficient.

## Convention

Continued from page 6

mile run, Delany won four NCAA titles as a member of the Villanova track team.

During his amateur career he won the 1956 Olympic gold medal in the 1,500-meter run and won 34 consecutive indoor mile races.

Since 1977, he has been assistant chief executive for the British and Irish Steam Packet Company. He has served as chairman of the Irish National Sports Council and is a past president of the Irish National Tourism Council.

### Aubrey Lewis

As a football player, Lewis started and lettered three years at halfback for Notre Dame. On the track he was an NCAA champion in the 440-yard intermediate hurdles and set several Notre Dame records. He was a member of the U.S. team that toured Europe in 1957.

Lewis is vice-president for security and administrative services for the F.W. Woolworth Company. Actively involved in many civic organizations, he is a past commissioner of the New Jersey Sports and Exposition Authority.

Lewis developed a plan utilized by the U.S. armed forces to combat racial unrest and improve living conditions for military men and their families abroad.

### Jack Lousma

Since lettering at quarterback and halfback at Michigan, Jack Lousma has logged more than 24 million miles in space as one of the original 19 astronauts selected by the National Aeronautics and Space Administration.

Lousma piloted Skylab 3 in 1973, completing 858 revolutions of the earth and traveling 24.4 million miles in earth orbit. He also spent 11 hours and two minutes outside the Skylab space station in two separate spacewalks.

Lousma served as commander for

the third orbital test flight of the space shuttle Columbia.

### Today's Top Five awards

Two NCAA postgraduate scholarship winners, two all-America football players and the United States Intercollegiate Lacrosse Association's McLoughlin Trophy winner make up the list of winners of the NCAA Today's Top Five awards.

The student-athletes selected include Indiana State University, Terre Haute, wrestler Bruce R. Baumgartner; Stanford University quarterback John Elway; University of Virginia lacrosse player Richard J. Giusto; University of California, Los Angeles, volleyball player, Charles F. "Karch" Kiraly, and University of Nebraska, Lincoln, football player David Rimington.

The Today's Top Five awards are presented to student-athletes who have achieved athletic success, shown leadership qualities and displayed academic prowess.

### Bruce Baumgartner

Baumgartner was undefeated during his senior year, leading to his NCAA championship.

An industrial arts education major with a 3.77 grade-point average, Baumgartner has been awarded an NCAA postgraduate scholarship and has been named to several honorary societies.

Baumgartner has participated extensively in international competition.

### John Elway

An all-America quarterback, Elway also is a three-time all-West Coast and all-Pacific-10 performer. He was the first sophomore ever selected as Pacific-10 player of the year and holds several NCAA passing records. His athletic abilities extend to baseball, and he has played professionally.

Volunteer work occupies part of Elway's time, including assistance with the Palo Alto Community Association of the Retarded. He also has par-

ticipated in the NCAA-ABC Football Promotion Tour and the Fiesta Bowl-NCAA Drug Education Program. Elway, a 3.00 student in economics, is a church and youth-group sponsor.

### Richard Giusto

An all-America selection, Giusto was the No. 1 midfield goal scorer in collegiate lacrosse last season with 30 goals and five assists. He also set a Virginia career record with 69 goals and 17 assists.

Giusto has earned numerous academic honors in Charlottesville, including the male scholar-athlete of the year. He also was named to the Raven Society, the university's outstanding award presented to 30 individuals from the graduating class, faculty and alumni. He is an economics major with a 3.51 grade-point average.

### Karch Kiraly

Kiraly has helped UCLA to three national volleyball championships and twice won most-outstanding-player honors. The Bruins compiled a record of 124-5 during his career.

Another NCAA postgraduate scholarship winner, Kiraly is enrolled in a premedical curriculum majoring in biochemistry; his grade-point average is 3.40.

### David Rimington

Football awards for Rimington peaked with his recent selection as the first two-time winner of the Outland Trophy, symbolic of the nation's best lineman. He also won the 1982 Lombardi Trophy, is a two-time all-America at center and was the player of the year in the Big Eight Conference last year.

A National Football Foundation and Hall of Fame Scholar-Athlete, Rimington has a 3.18 grade-point average, majoring in business administration. He has participated in the NCAA-ABC Football Promotion Tour and the Fiesta Bowl-NCAA Drug Education Program and is a two-time academic all-America.

## Women's soccer on right track

Following a successful first year of NCAA championship competition, the NCAA Women's Soccer Committee has recommended only limited changes for 1983.

The committee will recommend to the Executive Committee that the championship semifinals and finals again be held at the University of Central Florida, Orlando, Florida. First-round play in 1983 will be completed by November 6, second-round action by November 13 and the final four will meet November 19-20 in Orlando. The committee did not recommend any changes in selection criteria or championship format.

In other business, the committee reviewed sponsorship figures that indicated a significant growth in the sport. Between September 1981 and September 1982, the number of varsity programs in the nation increased from 77 to 102. The committee expects continued growth this year.

A committee survey of ball brands and models has been mailed to women's coaches at NCAA member institutions to assist the committee in determining an official championship ball. The questionnaire should be returned by February 1 to Ken Banda, women's soccer coach, University of Massachusetts, Amherst, Massachusetts 01003.

The committee also stressed three other points:

- Beginning in 1983, Executive Regulation 1-5-(j) will be applied, meaning games against club teams no longer will be considered for championship selection purposes. A one-year waiver of this regulation had been granted for the 1982 season only.

- The new goalkeeper-four-step rule adopted by the Federation Internationale de Football Association will be used in the 1983 championship.

- The three-referee system also will be used in the 1983 championship.

## Proposal would pair conference champions

Eight Division I women's basketball conference champions will be paired in four opening-round games in the 1983 NCAA Division I Women's

Basketball Championship if a recommendation before the Executive Committee is passed.

The NCAA Division I Women's

Norm Sloan

Guy Lewis

## Sloan, Lewis reach 500-victory plateau

Norm Sloan became the second Division I men's basketball coach to surpass the 500-victory plateau this season when his Florida squad defeated Jacksonville, 56-47, last week in Jacksonville, Florida.

Houston's Guy Lewis picked up his 500th victory when the Cougars defeated Arizona in their season opener. Lewis, who has Houston off to a 7-2 start this year, has a 506-245 record in 27 years, all at Houston. Sloan's career record stands at 500-306 in 31 years at Presbyterian, The Citadel, North Carolina State and Florida.

Those victory totals make Lewis and Sloan the 14th and 16th winningest Division I coaches of all time,

respectively. They rank fifth and sixth, respectively, among active Division I coaches behind Ray Meyer, DePaul; Marv Harshman, Washington; Fred Hobby, Grambling State, and Ralph Miller, Oregon State.

Sloan's 500th was a key triumph for Florida, now 6-4 on the year after a 5-22 rebuilding season in 1981-82. The decision against Jacksonville came in the championship game of the Gator Bowl tournament.

"This is a players' game," Sloan said, reflecting on his milestone victory. "I've told my team that again and again. If you stay in it long enough, you lose a lot and you win a lot. I've been in it a long time."

Basketball Committee recommended the concept, which is similar to a plan the men's committee plans to use this year. The winner of the four contests will advance to the first round of the 32-team bracket.

The eight conference champions would be paired as follows under the plan: Ivy League vs. Cosmopolitan Conference, Mid-Eastern Athletic Conference vs. East Coast Conference, Southwestern Athletic Conference vs. Ohio Valley Conference and Southland Conference vs. Mountain West Athletic Conference. The games would be played March 15 or 16 at neutral sites in close proximity to the locations of the schools involved.

Teams playing in the opening-round contests would be guaranteed transportation costs but would not receive a per diem, if the recommendation is adopted.

According to Nora Lynn Finch, committee chair, the opening-round

recommendation could spur conference growth and promote women's intercollegiate basketball. The proposal would allow institutions an additional year to modify existing schedules to meet Division I competition standards and also would allow those conferences that had automatic qualification in 1982 an opportunity for a berth in the 1983 tournament.

The committee will recommend that the Mid-American Athletic Conference be granted automatic qualification for the 1983 championship. Another recommendation would deny automatic entry into the championship to any team that has used an ineligible player and that competes in a conference granted automatic qualification. Further, the committee could recommend the loss of the automatic-qualification privilege for the conference involved during the season in which the violation occurred or in a future championship.

## Certifications

The following 1983 gymnastics meet has been certified in accordance with NCAA Bylaw 2-4:

USGF Elite National Qualifying Meet, January 13-15, Colorado Springs, Colorado.

The following 1983 indoor track and field meets have been certified in accordance with NCAA Bylaw 2-4:

East Coast Invitational, January 14-15, Richmond, Virginia.

Goodwill Indoor Games, January 15, Rosemont, Illinois.

Sunkist Invitational, January 21, Los Angeles, California.

Albuquerque Jaycee Invitational, January 22, Albuquerque, New Mexico.

Wanamaker Millrose Games, January 28, New York, New York.

Mason-Dixon Games, January 28-29, Louisville, Kentucky.

Dallas Times Herald Invitational, February 5, Dallas, Texas.

Southern Indoor TFA Invitational, February 11-12, Montgomery, Alabama.

Michelob Invitational, February 18, San Diego, California.

Knights of Columbus Indoor Track Meet, February 19, Richfield, Ohio.

## Tougher academic standards pushed

The heads of the 20 Pacific-10 and Big Ten Conferences universities have appealed to their colleagues in Division I of the NCAA to support tougher academic standards for student-athletes.

President William Gerberding of the University of Washington said the two conferences "are determined to raise the level of expected scholarly achievement of students who compete in intercollegiate athletics, so that athletes are students first and actually making progress toward a degree."

The Pac-10-Big Ten Conferences letter, released in Seattle by Gerberding, said the chief executive officers of the schools involved believe strengthened academic rules will protect young people from being exploited for their athletic prowess, will assure that they are better prepared academically and will heighten their chances of being graduated.

Gerberding and John W. Ryan of Indiana University are the heads of the Pac-10-Big Ten chief executive officers organization.

Two key proposals will face a vote by Division I schools at the January 10-12 NCAA Convention in San Diego.

One would require that incoming freshmen show a minimum C average in a core curriculum of 11 high school academic courses and produce a combined 700 score on SAT or a 15 composite score on ACT college entrance tests before being eligible for NCAA athletic participation. The current requirement merely calls for a C average in all high school courses.

A second proposal would require that the existing "satisfactory progress requirements" be in a pattern that demonstrates progress toward a

degree, not just a random collection of courses.

Gerberding said he was "not optimistic" the proposals would pass at the NCAA Convention, where some 300 schools and conferences will vote on them. He said similar proposals have failed in the past.

Some schools argue that if students are admissible to college, they should be able to participate in any college activity, including athletics, without further requirements, Gerberding said.

Many schools with open-admission policies requiring only a high school diploma or high school equivalent certificate argue that established freshman-eligibility requirements that go beyond those general standards would

discriminate against athletes, Gerberding said.

Another argument is that stricter standards would have a "disproportionate discriminatory effect on minority youth," he said.

"We recognize the problems associated with these arguments, but we think the problem is so severe it is time to take some leadership, to try to induce high schools to become more serious about educating young people," he said.

If the NCAA defeats the proposals, he said schools that support stricter standards "might consider associating within the NCAA with those members who agree to live by these kinds of academic standards."

# NCAA Record

## DIRECTORS OF ATHLETICS

JOEL G. DAUNIC has resigned, effective February 1, after 9½ years at Manhattanville. He will take an administrative post with a private high school in Florida. . . . PAUL SOLBERG has been named acting AD at Luther. He has been an assistant AD for 14 years at Luther and also is head wrestling and baseball coach. . . . ORLANDO BROWN appointed at New Mexico Highlands, where he has been a coach and administrator since 1975.

## COACHES

**Football**—MIKE GOTTFRIED appointed at Kansas. He has a five-year record (three years at Murray State and two at Cincinnati) of 34-21-1. . . . A. L. WILLIAMS named at Louisiana Tech. He had an eight-year record of 39-45 at Northwestern State (Louisiana). . . . DENNIS ECKHOFF hired at New Mexico Highlands, where he has been defensive coordinator the last three years. . . . LOU SABAN named at Central Florida. This is Saban's seventh head coaching job in the collegiate ranks. . . . Former Miami (Ohio) coach TOM REED selected at North Carolina State. He was 34-19-2 in his five seasons at the Miami (Ohio) helm. . . . HERB GRENKE, defensive line coach at Northern Michigan, has taken over the head post at the school. . . . ROBERT GIESEY, an assistant the last three years at Ball State, named at Grand Valley State. . . . BILLY BREWER hired at Mississippi. He had spent the past three seasons as head coach at Louisiana Tech.

**Football assistants**—BOB TRICHKA, after a 19-year career on the staff at Central Connecticut State, has resigned to take a position in the school's department of physical education. . . . TOM GOODE, assistant head coach and offensive line coach at Mississippi, named at Alabama, where he will coach the offensive line. . . . JIM COCHRAN, offensive backfield coach at Northern Colorado, has resigned to take a junior college coaching job. . . . BILL

RADEMACHER (quarterbacks), CHARLIE BAGGETT (receivers) and NORM PARKER (linebackers) named to the staff at Michigan State. Rademacher last year was head coach at Northern Michigan, Baggett was on the staff at Minnesota and Parker was East Carolina's defensive coordinator.

**Men's fencing assistant**—HARRY JAMES, a 1982 Drew graduate, will assist with both the men's and women's programs at his alma mater.

**Women's fencing**—LESLIE J. WILLIAMS named at Drew. She coached at Kean last year.

**Men's tennis**—CHUCK KINYON, appointed at Dartmouth, where he has coached squash since 1980. He will head both programs at Dartmouth.

**Women's volleyball**—CATHY LIES has resigned at Los Angeles State, following a three-year stint.

## STAFF

**Sports information director**—FRED BATTENFIELD, formerly an assistant at Texas A&M, named at Texas-San Antonio.

## NOTABLES

BROOKS JOHNSON, head track and field coach at Stanford, named 1982 coach of the year by Runner's World magazine. . . . Eight 1982

collegians who competed in NCAA-sponsored sports have been named amateur athletes of the year by their respective Olympic national governing bodies: AUGIE SCHMIDT (baseball, New Orleans), JANA ANGELAKIS (women's fencing, Penn State), PETER VIDMAR (men's gymnastics, UCLA), TED SPEERS (men's ice hockey, Michigan), MARK ARYA (men's soccer, California), STEVE LUNDQUIST (men's swimming, Southern Methodist), JOHN J. ROSS (men's tennis, Southern Methodist) and GRETCHEN RUSH (women's tennis, Trinity, Texas). In addition, two coaches at NCAA member institutions, who are still active competitively, were selected: CHAR MORETT (women's field hockey co-winner, assistant coach at Old Dominion) and LEE KEMP (wrestling, assistant coach at Wisconsin).

Tom Reed has moved from Miami (Ohio) to North Carolina State

UCLA's Peter Vidmar has been named men's gymnast of the year by the U.S. Gymnastics Federation

## Positions Available

### Athletic Director

**Director of Intercollegiate Athletics.** Oklahoma State University is accepting applications for the position of director of intercollegiate athletics. The director supervises the organization and administration of the intercollegiate athletic program, which includes eight men's and seven women's sports. The director reports directly to the university president and works with the various vice-presidents on administrative matters which fall within their areas of responsibility. Applicants should have at least three years' senior-level administrative experience (preferably in intercollegiate athletics) with demonstrated competence in organizational skills and administrative ability, including fiscal and personnel management, promotional and public relations skills. Salary is commensurate with professional training and experience. Appointment will be made as soon as possible. In order to receive full consideration, applicants should submit a letter of application with a current resume of experience by January 12, 1983, to Professor R. E. Chapel, chairman, Search and Screening Committee for Director of Intercollegiate Athletics, Room 110, Engineering North, Oklahoma State University, Stillwater, Oklahoma 74078. An equal opportunity/affirmative action employer.

ment will be made as soon as possible. In order to receive full consideration, applicants should submit a letter of application with a current resume of experience by January 12, 1983, to Professor R. E. Chapel, chairman, Search and Screening Committee for Director of Intercollegiate Athletics, Room 110, Engineering North, Oklahoma State University, Stillwater, Oklahoma 74078. An equal opportunity/affirmative action employer.

### Fund-Raising

**Executive Assistant, Green Wave Club.** Salary negotiable, commensurate with experience. Job responsibilities: Solicit gifts and contributions, supervise operation of the Westvold Club in Louisiana Superdome, coordinate efforts of the annual fund drive, coordinate Green Wave Club chapters and booster clubs in Louisiana, assume other responsibilities as may be requested by the executive secretary and head of the department of athletics. Send applications and resumes to: Roy Danforth, Monk Simons Athletic Complex, Tulane University, New Orleans, Louisiana 70018. Application deadline January 31, 1983.

## Assistant Football Coach and Assistant Physical Education Instructor

University of Nebraska, Omaha, a Division II program.

Basic duties and responsibilities: (1) Teach in the school of HPER; (2) assistant football coach, with emphasis on defense; (3) assist in recruiting as assigned by the head coach; (4) assist in fund-raising as assigned by the athletic director; (5) assist in other duties as assigned by the director of HPER and the athletic director.

Master's degree in physical education preferred; college coaching experience preferred, with special expertise in coaching linebackers.

Applications accepted through January 14, 1983. Address inquiries to:

Sandy Buda  
Head Football Coach  
University of Nebraska  
Omaha, Nebraska 68182

UNO is an equal opportunity employer.

## Ticket Manager

**Athletic Ticket Manager.** California State University Fresno Athletic Corp. will be accepting applications for Ticket Sales Manager through 1/31/83. Position requires maintaining all ticket office financial records, operation of computerized ticket system, overall supervising of office personnel and assisting with planning and implementation of ticket marketing. Bachelor's degree required. Business administration degree preferred with two years of experience in administration, accounting, or related experience which involved the control and distribution, receipts, deposits and reporting of revenues. Must be experienced in dealing sensitively with various publics. Salary range \$1,600-\$1,924 p/month. Contact: Marti Quadro, CSUF Foundation, CA State University, Fresno, CA 93740 (209) 294-2421. EOE/AA.

## Baseball

**Baseball Coach and Intramural Recreation Specialist.** Immediate opening. Qualifications include B.S. degree, coaching experience, intramural recreation experience or interest, enthusiasm, initiative. Ten-month contract, \$9,917 to \$14,250 plus \$2,700 coaching. Contact: Dr. R. McDuffie, Director, University Sports, Seattle University, Seattle, Washington 98122. Telephone: 206/626-5305.

## Basketball

**Assistant Basketball Coach,** University of Colorado—Boulder. Applications now being accepted for openings which may develop on

the basketball coaching staff of UCB. Basketball coaching (college preferred) and recruiting experience required. Playing experience at college level desirable. Salary dependent upon experience. Deadline for applications: open (this ad solicits applications for future vacancies). Send written applications to: Associate Athletic Director, University of Colorado, Boulder, CO 80309. An Affirmative Action/Equal Opportunity employer.

**Head Basketball Coach, Women.** Qualifications: 1) Bachelor's required, master's preferred; 2) 5 years coaching required; 3 years at college level preferred; preference given to experienced head coaches of women's programs; 3) demonstrated ability in planning and directing a successful basketball program—proven successful experience. Responsibilities: 1) Organize and administer a highly competitive Division I women's basketball program; 2) recruit high quality student athletes; 3) provide leadership for program promotion, development and public relations; 4) comply with department, university, conference and NCAA regulations. Rank/Salary: Full-time faculty position, non-tenure track, 12 months. Salary commensurate with experience and qualifications. Application: Send letter of application by February 21, 1983, to: Marcia Sanchez, Associate Athletic Director, Bohler Gym 107, Washington State University, Pullman, WA 99164-1610. EOE/AA.

## Football

**Assistant Football Coach,** University of Colorado—Boulder. Applications now being accepted for openings which may develop on the football coaching staff of UCB. Football coaching (college preferred) and recruiting experience required. Playing experience at college level desirable. Salary dependent upon experience. Deadline for applications: open (this ad solicits applications for future

vacancies). Send written applications to: Associate Athletic Director, University of Colorado, Boulder, CO 80309. An Affirmative Action/Equal Opportunity employer.

**Assistant Football Coaches.** Western Illinois University has openings for four assistant football coaching positions. Duties include recruitment, game preparation and player evaluation. Persons must have had coaching

experience at the high school or collegiate level. Salary commensurate with background and experience. Applications will be accepted until January 15, 1983. Send applications to: Bruce Craddock, Head Football Coach, Western Illinois University, 104 Western Hall, Macomb, Illinois 61455. Western Illinois is an affirmative action/equal opportunity employer.

## Assistant Director of Athletics-Development

Requires BA and two years of fund-raising experience for athletics, educational institutions or tax-exempt organizations or equivalent. Develop and manage fund-raising and promotional programs for Eastern Washington University athletics.

Salary negotiable. Credentials evaluation begins February 7, 1983. Submit letter of application, resume and three letters of recommendation to:

Ron Raver  
Athletic Director  
Eastern Washington University  
Cheney, Washington 99004

Affirmative action/equal opportunity employer

## DIRECTOR OF ATHLETICS WICHITA STATE UNIVERSITY

**Responsibilities:** Responsible for the overall management of the Wichita State University Intercollegiate Athletic Association. Wichita State University has 15 intercollegiate sports teams (men and women) affiliated with the Missouri Valley Conference (men), the Gateway Collegiate Athletic Conference (women) and the National Collegiate Athletic Association (Division I).

**Qualifications:** Bachelor's degree with advanced degree desired; demonstrated skills in business and personnel administration; strong interpersonal skills; commitment to and knowledge of National Collegiate Athletic Association rules and regulations; demonstrated ability to create sound marketing and fund-raising strategies; experience in athletics or related business is desired.

**Application Procedures:** Interested candidates should submit a letter of application for the position along with a resume. Send material to:

Dr. Martin Perline  
Chairman/Search Committee  
Department of Economics  
Wichita State University Wichita,  
KS 67208

The closing date for applications is January 26, 1983. Wichita State University is an equal opportunity/affirmative action employer.

## HEAD WOMEN'S BASKETBALL COACH TOWSON STATE UNIVERSITY

The department of Intercollegiate Athletics invites applications for the position of Head Women's Basketball Coach. The individual will report directly to the Director of Athletics and will be responsible for the development, implementation and management of a Division I Women's Basketball program.

Towson State University is a member of the NCAA, ECC, ECAC, and EIAIW. Qualifications include Bachelor's degree and a proven record of successful coaching experience. Salary range between \$22,000-\$25,000.

Send letter of application, resume, transcript and two letters of professional references by February 1, 1983.

Apply to:

Terry Wanless  
Associate Athletic Director  
Towson State University  
Towson, MD 21204

Towson State is an equal opportunity/affirmative action employer.

A complete job description will be forwarded upon receipt of your application.

# Convention

*Continued from page 1*

area of academics is No. 56, sponsored by the Council and originated by the ACE. This satisfactory-progress proposal would require that hours earned by student-athletes at Divisions I and II member institutions count as degree credit toward the student-athlete's specific baccalaureate degree.

Another topic that is certain to create interest among Convention delegates is governance. The main issues in this area are the plans to restructure the NCAA Council and NCAA Executive Committee and a resolution regarding application of the full NCAA enforcement program to women's programs at member institutions.

Proposal No. 20, sponsored by the Council, seeks to expand the Council from 22 to 46 members, which will include the Association's president and secretary-treasurer as ex officio members. Proposal No. 22, also sponsored by the Council, would expand the Executive Committee from 12 to 14 members, including the president and secretary-treasurer.

Proposal No. 24, sponsored by seven Division I institutions, one Division II institution and two Division III institutions, seeks to apply the full enforcement program to women's athletic programs at member institutions beginning August 1, 1983.

In the area of recruiting, Proposal No. 91 has created considerable interest. This proposal, sponsored by the Council and the Recruiting Committee and recommended by the coaches subcommittee of the Recruiting Committee, would prohibit anyone except institutional staff members from participating in in-person, off-campus recruiting activities.

Another significant recruiting proposal is No. 90, dealing with tryouts. This proposal would allow limited tryouts in all sports except football. The proposal contains seven conditions, including that the tryout could include tests to evaluate the prospective student-athlete's strength, speed, agility and noncontact sports skills.

The most significant financial aid proposals are Nos. 35 and 36, which would change the current financial limitations imposed on student-athletes who receive Pell Grants.

Proposal No. 35, sponsored by the Council, would exempt Pell Grant

awards from the limitations on the total amount of financial aid that a student-athlete is eligible to receive under NCAA legislation. The Council also has alternative Proposal No. 36, which would exempt \$900 of Pell Grant awards from the total limit on the financial aid that a student-athlete is eligible to receive.

Among the 12 championships proposals, three basketball resolutions are certain to draw the most interest. Proposal No. 68, sponsored by eight Division I institutions, would eliminate the four opening-round games in the Division I Men's Basketball Championship. Under this proposal, which would be in effect for the 1983 championship, there would be a 52-team tournament, including 20 first-round games with 12 byes.

Proposal No. 69, sponsored by California State University, Long Beach, recommends that the 1984 Division I Men's Basketball Championship be played with all eligible Division I teams in a 64-sectional format.

The other basketball proposal, No. 67, would prohibit governing sports committees in men's basketball from recommending the conferences that should receive automatic-qualification privileges.

Proposal No. 80 is the top proposal in the general grouping. Sponsored by the Council, this proposal cites several examples of conduct by a student-athlete or an institutional staff member that may be considered unethical. The proposal lists conduct that would result in ineligibility for the student-athlete and action against the staff member under the "show-cause" provision of the NCAA penalty structure.

In the area of personnel limitations, Proposal Nos. 129 and 125 will be followed closely.

Sponsored by six members of the CFA, Proposal No. 129 would require member institutions to include in coaches' contracts a provision that the coach's employment could be suspended or terminated if the coach is involved in violations of NCAA regulations.

Proposal No. 125, sponsored by the Council and the Recruiting Committee, would add one assistant coach in football and one in basketball and would eliminate part-time assistant coaches in those sports.

# Exception

*Continued from page 1*

In a related development, Congress adopted a funding bill amendment requiring a delay in the imposition of increased cable royalty fees that had been ordered by the Copyright Royalty Tribunal.

The increased fees would have applied to new television broadcast signals that cable systems now may retransmit because of elimination of former Federal Communications Commission limits on the number of broadcast stations from distant cities that a cable system could carry.

The intent of H.R. 5949 was to revise the cable retransmission law to reflect major changes since its enactment. These developments include the rapid growth of cable systems; technological changes such as satellite networking, and the elimination of most FCC restrictions, notably the limits on retransmission of distant signals and the prohibition against carriage of distant stations' broadcasts of syndicated programming that duplicated programs on local stations.

The bill would have reintroduced limits on the duplication of syndicated programming, given local broadcasters guarantees that they would be carried by cable systems in their area and continued cable systems' statutory

license to retransmit copyrighted broadcast programs without the need to obtain consent from individual copyright holders.

The NCAA supported the bill because, according to assistant executive director Thomas C. Hansen, a provision included at the NCAA's request, through the efforts of Rep. Robert W. Kastenmeier, D-Wisconsin, chairman of the House Judiciary Subcommittee on Courts, Civil Liberties and the Administration of Justice, would have given a college "legal control of cable retransmissions of its exception football telecasts so that, where necessary, it could limit retransmissions of a telecast to the area of permissible release under the NCAA television plan."

It was anticipated that the limitation would have enhanced the ability of colleges and universities to present exception telecasts, which in many cases currently cannot be authorized because of potential cable retransmissions beyond the area of permissible release.

The bill foundered in the Senate due to the efforts of dissatisfied interest groups. Other factors included the insistence by a substantial segment of the cable industry following the CRT's royalty fee adjustment decision that the bill include a new provision delaying or reversing that decision and the expiration of time in the last Congress to resolve these issues.

Among those opposing the bill was a group of professional sports interests, which wanted inclusion of broad limitations on all cable retransmission of telecasts of their events.

The legislation's fate in the new Congress is uncertain. Some program owners assert that they will ask Congress to enact a simple measure requiring cable systems to obtain specific consent for every retransmission of copyrighted programming. Other parties believe a compromise still is possible.

Congress moved quickly to postpone from January 1 to March 15 the effective date of the increased statutory royalty fees that the CRT found cable systems should pay for additional distant broadcast signals. Since the FCC's action eliminating its signal carriage limitations became effective, many systems already have added new signals. It has been estimated that the

Tribunal's ruling could result in the addition to the royalty pool of as much as \$20 million annually.

Ted Turner, president of WTBS Superstation and Cable News Network, has been a leading opponent of the fee increase. He argues that cable systems, some with as many as two million homes, will drop distant-signal stations like WTBS rather than pay the higher costs.

The NCAA has been a strong supporter of higher royalty fees. "The Tribunal should require cable systems to pay marketplace rates for distant-signal programming," explained Judith J. Semo of Squire, Sanders and Dempsey, the Association's Washington, D.C., legal counsel.

"The NCAA supports a limit on uncontrolled cable retransmissions of college sports events," Semo explained. "The NCAA also supports the notion that copyright owners—the Association and its members—should receive adequate compensation for the use of their programs by cable systems." NCAA involvement in copyright matters is expected to remain relatively unchanged by the recent developments. The Association has collected data on its members' non-network telecasts since 1978.

# Association

*Continued from page 1*

expenses was the distribution of receipts from the Division I men's basketball tournament. Payments to competing teams increased by \$3.2 million and allowances to host institutions were \$57,068 more than the previous year.

The Division I Men's Basketball Championship also was the source of the major increase in the Association's revenue, accounting for \$5.2 million of the \$5.4 million increase. Television receipts for the tournament increased \$4.4 million.

Division I championships other than basketball accounted for an increase of \$444,413, while investments and the NCAA's television and films efforts declined compared to 1980-81.

Paid attendance at the men's basketball tournament increased from 321,260 to a record of 427,151, primarily as a result of the finals being held at the Louisiana Superdome, where 122,100 tickets were sold for the two-day event.

The report also noted the introduction of 29 NCAA championships for women in 1981-82. Paid attendance for the 29 championships totaled 133,415, with the Division I Women's Basketball Championship leading the way with 56,320.

The Division I basketball tournament also had the largest gross receipts (\$360,556), but the Division I Women's Gymnastics Championships was the only women's meet to pay all expenses and have a distribution of net receipts as well.

Gross receipts for all women's events amounted to \$878,328.

According to the report, the Association's arrangement with Fugazy International Travel, Inc., to provide travel services to teams and individuals participating in NCAA championships and committee meetings created considerable savings for the NCAA.

The savings amounted to more than \$300,000 in actual transportation costs for NCAA men's championships compared to like expenditures in 1980-81. With the inflationary-increase adjustment made, the travel service created savings in excess of \$850,000 for men's and women's championships.

## Registration times

Delegates to the 1983 annual Convention are reminded that registration opens at 10:30 a.m. Sunday, January 9, in the Atlas Foyer. Registration will continue through 6 p.m. that day.

Other registration times are 7 a.m. to 6 p.m. Monday, January 10; 8 a.m. to 6 p.m. Tuesday, January 11, and 8 a.m. to 6 p.m. Wednesday, January 12. All registration is scheduled for the Atlas Foyer.

The fee for the 1983 annual Convention is \$30, which includes admission to the honors luncheon, the delegates reception and all general Convention sessions, as well as the Convention Program and all related materials. The \$30 fee applies to all delegates, whether voting, alternate or visitor.

# Court

*Continued from page 1*

tary Educational Opportunity Grant Program and the Guaranteed Student Loan Program. The government argued that when students attending an educational institution receive Federal grants and loans, the entire institution constitutes an education program that is receiving Federal assistance and is subject to Title IX. The college contended first that receipt by its students of Federal financial assistance does not make it, the institution, in any respect subject to Title IX, and second that because Title IX is program specific, at most the college can be required to assure compliance only as to programs actually receiving Federal aid.

In a 2-1 decision, the Sixth Circuit

held that Hillsdale is a recipient of Federal aid within the meaning of Title IX, but that the regulations are in excess of statutory authority and are invalid to the extent that they purport to subject the entire college to the strictures of Title IX. The court ruled that the program involved is not the college as an institution, but is only the Federal student grant and loan program.

The Sixth Circuit declined to follow the August 12 decision of the U.S. Court of Appeals for the Third Circuit in the Grove City College case. The Third Circuit held that when students enrolled at a college receive Federal grants and loans, the entire college is a program receiving Federal assistance and the college properly may be

required to execute a Title IX Assurance of Compliance. Grove City College has petitioned for Supreme Court review of the Third Circuit ruling.

NCAA counsel William D. Kramer, of the firm of Squire, Sanders & Dempsey, Washington, D.C., commented: "The issue posed by the Hillsdale and Grove City College cases is directly related to the question of whether college athletic programs that receive no direct Federal aid are subject to Title IX. It has been argued that receipt by student-athletes of Federal grants and loans constitutes Federal aid to the intercollegiate athletic program in which they participate, subjecting that program to Title IX."

"The 'institutional' view of 'program' adopted by the Third Circuit would go even further, because it would subject all of the programs offered by a college (including its athletic programs) to Title IX jurisdiction whenever any of its students receive Federal grants or loans—regardless of whether the students participate in specific activities. In contrast, the 'program specific' view of the Sixth Circuit (which is consistent with the Supreme Court's recent decision in the North Haven Board of Education case) would require a case-by-case determination of whether direct Federal assistance is received by an institution's intercollegiate sports program, and Federal student aid received by athletes would not provide a basis for Title IX jurisdiction," Kramer said.
