TV game selections clarified

A controversy has developed between the NCAA and Turner Broadcasting System, Inc., regarding ABC-TV's and CBS-TV's rights for final selection to telecast games under provisions of the 1982-1985 NCAA Football Television Plan.

Selected directors of athletics and conference commissioners have received materials from the NCAA Football Television Committee, designed to clarify the disagreement between the Association and Turner Broadcasting.

At question are interpretations of Articles 16 and 23 of the 1982-1985 NCAA Football Television Plan, which, in part, outline the selection process for the carrying networks (CBS-TV and ABC-TV) and the supplementary series carrier (Turner Broadcasting).

The administrative subcommittee of the NCAA Football Television Committee last month ruled that any game selected by both a network and Turner must appear on the network if the institution elects to be televised. If an institution declines the network opportunity, it would be prohibited from appearing on any other live telecast.

Turner is permitted to announce and promote games in advance but only with a stipulation that the games are tentative and subject to network control.

On the other hand, any game originally scheduled at night and then selected by Turner would not have to be moved to accommodate a network. In that case, an institution would have an option of moving the contest to accommodate network television or remaining on the supplementary series.

"The television committee has spent a considerable amount of time discussing this subject, reviewing it on at least three separate telephone conference calls," said committee chair Hugh D. Hindman, director of athletics at Ohio State University. "The supplementary series, in the view of the committee, is meeting the philosophical goal of permitting more institutions to appear on television than otherwise would appear on the See TV, page 12

Select committee report is due in October

The final, written report of the Select Committee on Athletic Problems and Concerns in Higher Education should be available for printing and distribution to the membership in October, according to John P. Schaefer, chair and executive director of the committee.

Schaefer will report the committee's primary recommendations to the Division I chief executive officers

meeting September 20 in Kansas City and to the Division I Steering Committee October 11 in Dallas. The eventual written report will appear in The NCAA News and will be mailed as a printed booklet to all NCAA members and other interested organizations.

The committee, which was established in April 1982 to examine in detail the serious problems affecting

Committee suggests no criteria changes

The Special Committee on Division I Criteria will recommend to the NCAA Council that there be greater legislative autonomy within Division I but will not recommend any legislation to alter either the Division I membership criteria or the requirements for automatic qualification in the Division I Men's Basketball Championship.

Meeting September 13 in Chicago, the committee agreed to propose no changes in the existing Division I membership criteria for consideration by the 1984 NCAA Convention. It also decided not to propose legislation for that Convention that would stiffen the requirements for a conference to receive automatic qualification for the Division I men's tournament.

It will recommend to the Council in the latter's October 10-12 meeting that legislation be considered by the 1984 Convention to permit Division I-A members and all other Division I members to vote separately on any issue in the "divided" bylaws—those in which divisions already can act separately. The only exception would be Bylaw 5-6, in which championships are established. A common vote of all Division I members still would be required to establish or eliminate any Division I championship other than in football.

Members of the committee emphasized that its intent is to provide an opportunity for greater legislative autonomy both for Division I-A and for the remainder of the division. Either would be permitted to adopt a particular legislative proposal without the other, or both could agree on the same stance. A rescission procedure comparable to that existing in Divisions I-A and I-AA on football issues also will be proposed to the Council.

In an earlier meeting, the committee had considered proposing more stringent requirements for automatic qualification in the Division I Men's Basketball Championship. It changed its position in that regard after studying updated statistical data regarding the basketball programs within Division I and after learning

college athletics, held its eighth and final meeting September 11 in Chicago. In that meeting, the committee broke into subunits to review and finalize its recommendations in four primary areas—academics, enforcement and recruiting, governance, and finance.

Committee members agreed to organize and write those portions of See Select, page 12

that the Division I Men's Basketball Committee will consider in its November 30-December 2 meeting the possibility of expanding the bracket for the men's tournament to 64 teams.

Instead of recommending legislation for the January 1984 Convention, the Special Committee on Division I Criteria will ask the NCAA Council to forward to the men's basketball committee several recommendations, including these:

- That the bracket for the Division I men's tournament be expanded

CEOs meeting in Kansas City

Approximately 50 chief executive officers of NCAA member institutions are in Kansas City today and tomorrow (September 19-20) for the fourth annual NCAA-sponsored meetings of selected CEOs representing allied voting conferences and independent institutions.

The agenda items, speakers and a listing of those chief executives planning to attend the meeting appeared in the September 5 and 12 issues of The NCAA News.

The September 26 issue of the News will report on the discussions in the meetings.

to 64 teams effective in 1985, with not more than half of the field made up of automatic-qualifying conferences and with all 29 of the current automatic-qualifying conferences to be included in the 1985 bracket, assuming they continue to meet existing criteria.

- That the Division I Men's Basketball Committee consider the adoption of new criteria for automatic qualification in the future, with the understanding that they would become effective at least three years after adoption, thus assuring no retroactive application. The committee also will suggest several criteria that it believes to be reasonable, including attendance requirements with appropriate exceptions based on overall conference attendance and possibly performance in the national championship.

In another action, the special committee developed a draft statement of philosophy for Division I comparable to those adopted in recent years by Divisions II and III. The statement will be submitted to the Division I Steering Committee for consideration in its October meeting.

The committee is chaired by NCAA See Committee, page 12

Project will examine drug use among student-athletes

By this time next year, college administrators may have a better indication of whether there is a drug-use problem in college athletics, following a \$25,000 study being conducted at Michigan State University.

The project, made possible by funds authorized by the NCAA Research Committee, is the first such nationwide study. It will examine drug use ranging from aspirin to steroids to cocaine and will involve 1,500 student-athletes at 10 to 15

institutions.

"We are attempting to determine if there is a drug problem," said Dr. Douglas McKeag, a team physician and associate professor at Michigan State. "Currently, very little is known about drug use in college athletics."

Investigators hope to examine four areas in the study: the scope of drug use, kinds of drugs involved, reasons for use of drugs and effects of the drugs on athletes.

Athletes in five women's sports

and five men's sports will be included. Participation will be voluntary; names of athletes, teams and institutions will not be released.

The study is the latest effort by the NCAA Drug Education Committee to determine the level and effects of drug use by college student-athletes. The committee's efforts began four years ago with a pilot study of drug use in the Big Ten Conference. The results helped the committee develop a series of recommendations for insti-

tutions. (The recommendations were published in the June 16, 1982, issue of The NCAA News; see the August 25, 1982, issue for a report on the study.)

"The majority of the committee wanted to expand the data-gathering efforts to a nationwide study," said committee chair Carl S. Blyth of the University of North Carolina, Chapel Hill. "The Michigan State study came along at a good time for us, and we hope that the investment will

be worthwhile."

That investment of \$25,000 could lead to a series of educational programs for NCAA member institutions, Blyth said. The Michigan State research team already has discussed creation of such programs with the National Institute for Drug Abuse. The NIDA has indicated an interest in the Michigan State study and may be willing to provide funds for special educational programs for See Project, page 12

SWC alumni push for end to recruiting abuses

By Ivy McLemore
The Houston Post

A state district judge who has been active in football recruiting for more than 20 years has drafted and mailed copies of a two-page letter to the presidents of all nine Southwest Athletic Conference schools asking for increased accountability at the administrative level in the area of illegal recruiting.

Wyatt H. Heard, a state district judge since 1969, has enlisted the support of 24 prominent SWC alumni to help him convey his primary message to university presidents: "If cheating occurs, the coach is fired."

Heard said his role as presiding judge in a recent court battle involving allegations of recruiting violations made against Southern Methodist University in the Mustangs' recruitment of Angleton linebacker David Stanley had no bearing on his decision to draft the letter.

Heard wrote the original draft of his letter August 12, less than two weeks after a new NCAA rule that prohibits alumni from contacting prospective recruits off campus went into effect.

A graduate of Baylor University and a former agent for the

FBI, Heard has helped the Bears' football staff in recruiting since 1959. He said he has curtailed his recruiting activity in recent years and is pleased with the NCAA's new rule.

"This (the letter) is something I've thought about for several years," Heard said. "I've seen some players bought and others not. I see it (illegal recruiting) as a problem. We're doing a terrible disservice to the youth of this country."

In his letter, Heard explains his concern over a double

Columnary Craft

standard that has crept into college football over the years: "Do not cheat on recruiting but fill the stadium and do not run a deficit program."

The letter continues, "There seems to be a cynical acceptance of illegal recruiting. . . . In an age where drugs, alcohol, stealing and cheating run rampant among our youth, how can we expect them not to cut corners in school and take deals

under the table when they see adults engage heavily in illegal recruiting of athletes?"

"Illegal recruiting is a cancer in college athletics, slowly eating away and destroying not only athletics, but attacking the very nature of our society. We believe our approach has been: If cheating exists, the NCAA will investigate and punish the wrongdoers. This is like burning down the barn to kill the rats."

Among those who have pledged support for Heard's letter include former state senator Jack Ogg; former University of Texas, Austin, running back Chris Gilbert; Houston restaurateur Sonny Look; oilman Louis Pearce, and former Texas Secretary of State Steve Oaks.

"Hopefully, this letter will be constructive," Heard said. "I'm not saying that getting increased accountability in the administration will be easy, but I think you have to build up a resistance."

"I don't think athletics departments should occupy a different position than any other department in the university. If this problem were rampant on debate teams or in scientific studies instead of athletics, administrations would have done something about it."

Higher standards a benefit to all

Editorial

The Washington Post

"With the opening of the school year, youngsters entering Virginia's high schools will face higher requirements for graduation. The most interesting—and most hotly debated—of all the changes is the decision last month to offer an advanced-studies diploma for students on their way to college. Its opponents argue that this distinction among diplomas is discriminatory, that it stigmatizes the diplomas not designated advanced, and that it is, in the familiar term of the past decade, elitist.

"It's certainly elitist. Any grading system or academic distinction is elitist. Good colleges and their admissions procedures are elitist.

"The purpose of the special diploma is to focus the attention of students, and perhaps their parents as well, on the additional courses that good colleges require. The special diploma is a useful way to impress on young students that, for college entrance, they are going to have to do more than meet the state's minimum requirement.

"Even students who graduate with the standard diploma are not shut out of college. The two-year colleges provide an accessible route for the late starter.

"The American educational system has done a better job than any other in the world of balancing the two responsibilities of its schools: to provide the widest possible opportunities for each individual child, while advancing the most able at the speeds of which they are capable. It isn't accomplished simply by setting minimum standards for everybody.

"Virginia's advanced diploma will increase, not decrease, the number of children going to college, for it will provide them with an early and accurate sense of college requirements."

Wynn F. Updyke, associate dean
Indiana University School of Health, Physical Education and Recreation

Associated Press

"If at one time you've been in shape, you know what it feels like; and you want to get it back. That's why it's important for these kids (43 percent of 6-17-year-old youths surveyed in the United States who failed minimum fitness standards) to have that experience. If you've never been in shape, you don't miss it.

"It has nothing to do with ability. All you have to do is try. Fitness has nothing to do with skill.

"It's fairly clear that long-term health, particularly coronary disease, is related to fitness levels. The second reason is vitality, zest for living, the feelings of self-confidence and the pride that comes with being fit. You feel good about yourself."

Alan Cockrell, quarterback

University of Tennessee, Knoxville

Department of Sports Information

"I think it's natural to be a leader. I think most quarterbacks are born with it, because I know I didn't take any classes in how to lead. But I also think that the disciplined household where I grew up and the kind of high school coach I had both had a lot to do with the way I am.

"I was pleased that I could set all the records last year; everybody likes to achieve their personal goals. But I wasn't satisfied, because I felt I could have done better; and I know I can do better this year and next. The moment you feel satisfied with your accomplishments, that's when you'll tend not to concentrate and not get any better."

Chris Weller, women's basketball coach

University of Maryland, College Park

The Washington Post

"Just speaking from my perspective here at Maryland, I think parity is relatively close in certain areas in our situation here and among the top 20 Division I schools.

Opinions Out Loud

In terms of facilities and equipment, we're very close to the men here.

"There's also another major change. The fact there is the potential for a scholarship and the opportunity to play at so many different places. . . . Ten years ago, a lot of schools didn't even have college teams, let alone teams with scholarships for women. It never dawned on kids there was something beyond high school sports.

"My own mother said to me, 'You can't make a living out of basketball.' But I'm a stubborn sort, I guess."

Dale Brown, men's basketball coach

Louisiana State University

The Sporting News

"We cannot put our heads in the sand any longer when dealing with the athlete. We have got to stop legislating against human dignity. No longer is a scholarship enough. It's not fair to the athletes to contribute so much and receive so little.

"Two years ago, I was given a new Cadillac after we went to the Final Four. Last year, I was given a \$13,000 raise. . . . Some of that money should be going to the athletes.

"I'd like to see \$100 a month in spending money, two round trips home for each athlete and one trip a year for the athlete's parents to come to school. Don't tell me we can't afford it. We can afford it because of football and basketball, the athletes we have in those sports."

Lou Holtz, football coach

University of Arkansas, Fayetteville

USA Today

"We definitely need to go to a play-off system. We need to pick the top four teams by computer after the bowl games. That way, every bowl game will become very important. You talk about generating enthusiasm and making money, the play-offs would do it."

Jim Harkema, football coach

Eastern Michigan University

EMU press release

"The big difference between Divisions I and II is that the level of intensive hitting—the tempo—is greater. We're doing all of the same things here that we did at Grand Valley State but with better athletes here. There are just more good-looking athletes at this level."

Letters to the Editor

A potentially important case

To the Editor:

The account of the McHugh vs. Kenyon College trial in your edition of August 17 is mercifully brief, yet contains a misrepresentation which obscures the bizarre nature of the trial and its possible significance. You conclude "McHugh contended that he taught physical education courses in addition to his coaching duties. He argued that his faculty contract and his coaching and classroom duties qualified him for tenure."

Actually, McHugh made no such contentions, because he could not. Under cross examination, he admitted that he had never taught any courses at Kenyon for which academic credit was given; in point of fact, he never had any "classroom duties." Indeed, Kenyon is perhaps more jealousy committed to the liberal arts than any other college in the country and does not offer any formal courses either in physical education or education, more generally; it does not give any academic credit for work done either at Kenyon or elsewhere in those fields. Thus, none of the members of its physical education department holds academic appointment.

What makes the case bizarre is that McHugh's central piece of evidence was a document which the college sent him, along with his original contract, which defined its policy about tenure.

Granted, the document stipulated that a tenure decision had to be reached at the end of the seven-year probationary period, and McHugh's contention was that once he had been offered a contract after that period, willy-nilly he "had" tenure.

But the first and crucial stipulation of that policy was that it applied only to persons engaged full-time in offering courses "for which academic credit was given." McHugh steadily testified that he had never offered any such courses, and it was repeatedly demonstrated that he had never held any academic rank at the college. Thus, it would seem that the college had an open-and-shut case, since the plaintiff's own critical piece of evidence makes it perfectly clear that rules of tenure did not and could not apply to McHugh.

It was bizarre enough that he would press the case to begin with and doubly bizarre that the jury would find for him. (Witnessing the case in its entirety, one was led to the belief that the college was overconfident; and that the vituperative, almost xenophobic nature of the plaintiff's arguments—at one point, the college president was forced to testify about his own religious commitments—and the presiding judge's naivete about matters athletic and academic had more to do with the jury's decision than anything inherent in the case itself. It was a sad and nasty business.)

What makes the case potentially important is, I hope, evident in the above. Essentially, McHugh was arguing that he had "earned" tenure solely as a coach and as an assistant coach, at that. He admitted that no one at any level in college athletics held tenure by virtue of coaching alone. Hence, if this decision stands, it will be precedent-setting.

Professor of English
Kenyon College

Coach equates defeat with death

To the Editor:

Edwin Pope (Miami Herald sports editor) needs to spend more time covering intramural sports. I see nothing wrong with equating defeat with death.

If our game is to be a preparation for life, then it must be more than relaxing play. Caesar put it well when he said: "Cowards die many times before their deaths; the valiant never taste of death but once."

Courage is one of the things our game teaches. The way to drain the life out of sport is to take it lightly. I hope my players also learn that neither winning nor losing is as important as what they learn about themselves.

Darrell Mudra
Head Football Coach
University of Northern Iowa

Football notes

Perles gives Spartans' attack new life

First-year fortune

Of the 12 first-year head coaches in Division I-A, Michigan State's George Perles has made the most impressive start, beating Colorado and stunning Notre Dame. And you cannot say he did not issue a clear warning.

"We're coming out of the chute hard and fast, and we're going to ruffle some people's feathers that ought to be ruffled," Perles said before the season. "We're not going to hide our time," he told Alan Steinberg of Inside Sports. "My goal is to win the (Big Ten) conference, win the Rose Bowl, be national champ. Being respectable with a winning season? No. I don't have anybody on the staff thinking about being respectable . . . I'm here to bring big-time football back to Michigan State."

Well, it is early, but so far, you have to admit Perles has delivered.

He is not the only first-year coach off to a winning start. (By first-year, we mean no previous head-coaching experience at a four-year college.) Alabama's Ray Perkins, following the Bear Bryant legend, also is 2-0. Tulane's Wally English is 2-1 after his team upset Florida State. Southern California's Ted Tollner is 1-0-1. In all, the 12 first-year coaches in I-A are 12-15-1, while the 10 in I-AA are 10-14-0.

Here is the list:

Division I-A	W-L-T
Ray Perkins, Alabama	2-0-0
Sam Wyche, Indiana	1-1-0
Dick Scieszniak, Kent State	0-2-0
Tim Rose, Miami (Ohio)	0-2-0
George Perles, Michigan State	2-0-0
Joe Lee Dunn, New Mexico	1-2-0
Fred Zechman, New Mexico State	1-2-0
Bob Cope, Pacific	1-2-0
Ted Tollner, Southern Cal	1-0-1
Bruce Arians, Temple	1-1-0
Wally English, Tulane	2-1-0
Chris Pella, Utah State	0-2-0
Division I-AA	W-L-T
Mack Brown, Appalachian State	2-1-0
Larry Little, Bethune-Cookman	1-1-0
Lyle Setencich, Boise State	1-2-0
Tom Jackson, Connecticut	0-2-0
Maxie Baughan, Cornell	0-1-0
Joe Taylor, Howard	1-2-0
Jim Koetter, Idaho State	2-0-0
John McCann, McNeese State	3-0-0
Dave Arnold, Montana State	0-3-0
Gary Darnell, Tennessee Tech	0-2-0

Of the 12 first-year coaches in I-A eight moved up from a I-A assistantship—four at the same college (Rose, Dunn, Pella and Tollner). Four came from the professional ranks—an unusually high number—and Perkins gave up a head-coaching job. Perles had a head-coaching job in the USFL, but resigned before any games were played to return to his alma mater. Perkins and Pella also came back to their alma maters, as did Little and Koetter in I-AA. Wyche, English and Baughan in I-AA all were pro assistants. Perles was the architect of the championship Pittsburgh Steelers defense.

Of the 10 first-year coaches in I-AA, six moved up from assistantships at the same college (Setencich, Jackson, Taylor, Koetter, McCann and Arnold), two were I-A assistants (Brown at Louisiana State and Darnell at Kansas State), one (Baughan) was, as mentioned, a pro assistant and one (Little) was a high school head coach in 1982.

One long reunion

Perles' return to Michigan State has been like one long family reunion. At every alumni gathering, he is greeted hungrily, as nothing short of a savior expected to restore the football program to the status it enjoyed during the Duffy Daugherty-Biggie Munn era. Perles enjoyed a big recruiting year, and season ticket sales and alumni contributions have boomed.

And speaking of family, Perles has two of his sons on the football squad—John is a linebacker, and Pat recently transferred from Kent State.

His team is off to a slow start, but Duke's Ben Bennett has scrambled to third place in the total-offense category

In the recruiting rivalry with Michigan, Perles feels he should have the edge because he grew up in Detroit, played and coached there, and returns to the blue-collar neighborhood of his youth for wakes and weddings and St. Patrick's Day, a Lithuanian using the excuse he is honoring his Irish wife.

"What Rain?"

Has there been a difference in practices at Alabama between Perkins and the late Bear Bryant? Said guard Mike McQueen: "When it rained at practice the other day, the players were kidding that coach Bryant wouldn't have stood for that. He'd have said, 'Rain? What rain?,' and it would have stopped."

The 41-year-old Perkins considers it an honor to follow the winningest college football coach of all time, but he does not feel pressure from outside sources because "I've got higher expectations of myself and put more pressure on myself than anybody else." He and his wife, Carolyn, spent the first 10 years of their married life in Tuscaloosa and consider it home. They remember his freshman season, when he was put in the hospital for brain surgery. Bryant got Carolyn a hotel room, got himself a room next door and stayed the entire nine days.

Their current residence is the 20th place they have called home. "Hopefully," says Carolyn, "this is the last one . . . if we win."

At Southern Cal, just as at Alabama, winning is taken for granted. The only questions about Tollner have been whether, as a pass-minded coach, he will tinker with the Trojan tailback tradition.

"What will change will be the attitude toward throwing on non-passing downs," he said. He has assured alumni he wants to maintain USC's potent running game. Tollner's team tied Florida in its first game.

As a group, the 12 in I-A were 6-5-1 in the season openers. Wyche's Indiana team beat Duke, Dunn's New Mexico team beat Utah, and Arians watched his Temple team defeat Syracuse. Each lost the second game. English, by contrast, was an opening-day loser, then nudged Mississippi before stunning Florida State.

In-and-out

The other first-game winner was Cope at Pacific, and it was an unusual day. Pacific planned to fly into Eugene the morning of the game with Oregon, but because of fog, the plane landed at Redmond, Oregon. Then, reports SID Rick Mello, the team taped outside the plane, flew back to Eugene, hurried to a hotel for pancakes, arrived at the stadium 60 minutes before the kickoff and went on the beat Oregon, 21-15.

Nebraska's Mike Rozier is third in rushing, fourth in scoring and sixth in all-purpose running

A 20-decal game

Zechman, an assistant at Ohio State the previous four seasons, has started handing out helmet decals for various accomplishments during a game. He was amazed when he ended up giving 20 decals—that's right, 20—to Fred Young, a senior outside linebacker, for his play against Louisiana Tech, reports SID Pete Kynion.

Young was credited with 15 tackles, six quarterback sacks, three fumble recoveries, two hits that caused fumbles and two deflected passes. On offense, Young returned two punts 17 yards (he led the Missouri Valley Conference in punt returns in 1982) and one kickoff for 23 yards. "Normally, four or five decals is an outstanding game," Zechman said. "It was just an incredible performance by an outstanding player. We are probably going to have to give Fred another helmet—he's almost out of space."

New-job coaches

Seventeen more head-coaching changes—10 of them in I-A—brought in men with previous head-coaching experience at the four-year level. This group includes a number of big winners in terms of percentage. In I-A, the new-job coach with the most victories and the highest percentage is Jim Wacker (104-33-1 for .757), moving from Southwest Texas State to Texas Christian. In I-AA, the total-victories leader is Darrell Mudra (157-65-3), moving from Eastern Illinois to Northern Iowa (coaching career records are entering the 1983 season).

Army's Jim Young (69-32-1) is back in coaching after a year as Purdue associate athletics director and a winning career there. Joe Morrison (62-44-5) moved from New Mexico to South Carolina, Billy Brewer (57-39-3) from Louisiana Tech to Mississippi, Mike Gottfried (34-21-1) from Cincinnati to Kansas, Tom Reed (34-19-2) from Miami (Ohio) to North Carolina State, Steve

Frank Novak of Lafayette is among the leaders in Division I-AA in passing efficiency and total offense

Sloan (55-55-3) from Mississippi to Duke, Jim Criner (59-21-1) from Boise State to Iowa State and Jim Harkema (68-29-1) from Grand Valley State to Eastern Michigan.

Watson Brown, offensive coordinator at Vanderbilt the last two seasons (after a 14-8 record in two seasons at Austin Peay State), took over at Cincinnati and opened with a 14-3 upset over Penn State September 10. "I don't need to get on that plane home," he quipped. "I'm off the ground right now."

So far, the 10 new-job coaches in I-A stand 6-16-2, the seven in I-AA 7-11-0. Here is the list:

Division I-A	W-L-T
Jim Young, Army	0-2-0
Watson Brown, Cincinnati	1-1-0
Steve Sloan, Duke	0-3-0
Jim Harkema, Eastern Michigan	1-1-0
Jim Criner, Iowa State	0-2-0
Mike Gottfried, Kansas	1-1-1
Billy Brewer, Mississippi	0-3-0
Tom Reed, N.C. State	1-1-0
Joe Morrison, South Carolina	2-1-0
Jim Wacker, Texas Christian	0-1-1
Division I-AA	W-L-T
Tom Moore, Citadel	1-1-0
Al Molde, Eastern Illinois	2-1-0
Buddy Sasser, East Tennessee State	1-1-0
A. L. Williams, Louisiana Tech	0-2-0
Darrell Mudra, Northern Iowa	1-2-0
Sam Goodwin, NW Louisiana	1-2-0
Bruce Craddock, Western Illinois	1-2-0

Gottfried had to wait until game No. 3 for his first victory at Kansas, 57-6 over Wichita State, with kicker Bruce Kallmeyer setting an all-time I-A record with 21 kick-points (five field goals, six points-after) and quarterback Frank Seurer throwing three touchdown passes. He has little time to enjoy it. Southern Cal is next on the schedule. "You really don't take time to enjoy a win until after the season is over," he says.

Seurer's father, Frank "Pops" Seurer Sr., was murdered shortly before the season in the Lawrence, Kansas, restaurant he owned. Gottfried was of particular help to his quarterback after the tragedy because his own father died when he was 12. "He has memories, something that nobody can take away from him,"

the coach said. "That's something he can draw from." (Kansas SID Doug Vance)

39 changes vs. 28

Adding it all up, there have been 39 head-coaching changes involving the 189 teams in Divisions I-A and I-AA, compared to 28 a year ago. Among the 105 teams in I-A, there have been 22 changes, one more than a year ago. That's a 21 percent turnover rate, compared to 17 percent prior to that going back to 1947. In I-AA, however, the total is 17 compared to just seven for the same 84 teams a year ago. That is a 20.2 percent turnover rate.

Big kicking day

Kallmeyer's 21 kick-points was not the only kicking record last Saturday. Texas A&M's Alan Smith tied the I-A record for field goals in one game with six. His kicks of 44, 45, 42, 33, 59 and 57 yards tied the mark shared by four others. In case you are wondering, though, the 112 field goals in 56 I-A games (2.0 per game) was not a one-day record. In fact, it was not even second, or even close to the 124 in 51 games (2.43 per game) on November 6 last season.

A week earlier, South Carolina's Chris Norman set a single-game I-A punting record with a 58.3 yard average for six punts, reports SID Sid Wilson. His punts were 53, 80, 51, 59, 59 and 48 yards. "Chris was worth the price of admission," said coach Joe Morrison. "That 80-yarder was a beauty. It reminded me of the old days watching Don Chandler (a former pro teammate of Morrison's)."

Quotes of the week

Missouri coach Warren Powers (a Nebraska graduate and former Nebraska assistant coach), on his way to Madison for a game with Wisconsin: "I hope we are not flying over Nebraska air space." (Bill Callahan, Missouri SID)

Arkansas coach Lou Holtz, on switching from the veer to the I-formation: "Right now, our 'I' needs glasses." (Rick Schaeffer, Arkansas SID)

Morehead State coach Steve Loney, asked how he would replace Division I-AA punting champion John Christopher: "I don't know, I guess advertise in the school newspaper." (Craig Bohnert, Morehead State SID)

Idaho quarterback Ken Hobart, after throwing four interceptions in the first half against Southern Colorado, finished with a Division I-AA record of 527 yards passing, including six touchdown passes. Asked after the game to rate his performance, Hobart replied: "I'd give myself a C—it was just average." (Dave Kellogg, Idaho SID)

Texas Lutheran coach Vernon Fewell on his team's new no-frills black-and-white uniforms: "I think there is something intimidating about coming out in basic black. Hey, we're not trying to look like Barnum and Bailey. These are our work clothes." (David Boggan, Texas Lutheran SID)

Northeast Louisiana coach Pat Collins saw his team take a 26-0 half-time lead over Southwestern Louisiana last season only to lose, 40-26. This time his team took a 31-0 half-time lead. Collins said, "We certainly reminded them at half time, and my heart was in my throat the second half, wondering if we'd have a relapse." Final score: 31-6. (Bob Anderson, Northeast Louisiana SID)

The name game

Livingston nose guard Leonard "Stonewall" Jackson made his name-sake proud by throwing Arkansas Tech tailback U. S. Grant for a loss. Rebel yells and chuckles came from the crowd when the P.A. announced: "U. S. Grant finally stopped by Stonewall Jackson." (Dee Outlaw, Livingston SID)

Early attendance down

Per-game attendance is down in both Division I-A and Division I-AA—3.07 percent in I-A and 2.77 percent in I-AA—but it may be due simply to schedule differences between this season and last. It is too early to say.

Division I-A is up in total attendance because of more games, but the per-game average now is 41,460, compared to 42,775 for the same 105 teams at this stage a year ago. Percent of capacity also is down. In I-AA, the current average is 11,364, compared to 11,688 for the same 84 teams a year ago; but percent of capacity is up. Here is the chart:

	Games	Attendance	Per-game	Capacity
Division I-A season figures to date	137	5,680,029	41,460	78.6
Same 105 teams at this stage in 1982	126	5,389,588	42,775	80.1
Division I-AA season figures to date	92	1,045,468	11,364	55.6
Same 84 teams at this stage in 1982	94	1,098,627	11,688	52.7

Elsewhere in Education

Program seeks to erase illiteracy

President Reagan has unveiled a plan to eradicate illiteracy among 23 million adults in the United States, using volunteers and students as tutors, according to United Press International.

The plan calls for \$300 million in the 1984 budget for a project using college work-study students to tutor adults, a national awareness program using television advertising from the National Advertising Council to recruit volunteers and a national literacy project to identify programs that fight adult illiteracy.

The administration says the number of adults who are functionally illiterate grows by about 2.3 million each year.

More degrees in labor force

College graduates in the labor force increased by 1.4 million in 1983 to about 25 percent of the workers between the ages of 25 and 64, the Federal government reports.

A decade ago, the percentage of college graduates in the work force was 16 percent.

At the same time, a steady flow of young dropouts continues to move into the labor force, the Bureau of Labor Statistics said. In every year since 1975, almost one of five workers between the ages of 18 and 24 had not finished high school.

Enrollments down, but spending up

Spending for education is expected to reach \$230 billion in the current academic year, up from \$215 billion, while student enrollment is down one percent, according to Education Secretary Terrel H. Bell.

Total enrollment in the nation's schools and colleges is expected to approach 56.7 million this fall, 400,000 less than the 57.1 million students enrolled in the fall of 1982.

Of the \$230 billion to be spent on education, an estimated nine percent will come from the Federal government, 39 percent from state governments, 24 percent from local governments and 28 percent from other sources, including tuition and fees, endowment earnings, and private gifts and grants.

Teacher colleges getting tougher

Admissions standards and curricula at most teacher colleges have been upgraded, a Federal survey says after questioning 423 of the 1,206 colleges and universities that offer teacher training.

Nearly 75 percent have improved admissions standards during the past five years, and 85 percent of the schools said they had made curricula more rigorous.

The survey follows a report by the Carnegie Foundation that said the caliber of teacher candidates, as measured by standardized test scores, persistently has declined during the past decade.

"These low test scores effectively illustrate that the teaching profession, on the whole, is not attracting the better minds in American society," the Carnegie study said.

Harvard freshman educated at home

A teen-ager who was educated entirely by his parents at home on a backwoods ranch is among 2,200 freshmen entering Harvard this fall.

Grant Colfax, 18, was educated by his father, David Colfax, a Ph.D. in sociology and a former professor, on the family farm near Boonville, California, according to United Press International. Young Colfax's mother is a former high school English teacher.

Colfax scored in the top five percent of high school seniors on college entrance exams and also won admission to Yale, but he chose Harvard for its premedical program.

Use of computers is spreading

Computer use is likely to spread in classrooms this year, but wealthy school districts are four times likelier than poor ones to have them, a Federally financed study says.

Coauthor of the study Ronald E. Anderson, director of the University of Minnesota's Center for Social Research, said 58 percent of the nation's school districts used classroom computers last year. If the growth continues, 85 percent will be using them this school year.

On the college level, computer courses keep expanding, but they have not yet been able to meet demand, according to a Wall Street Journal report.

Computer-class capacity grows about 10 percent annually at the University of Wisconsin, Madison, but not enough to accommodate about 1,000 students a semester who are turned away.

At Georgia Institute of Technology, computer enrollment has expanded about 14 percent, but the school still had to impose its first quotas on computer-science majors. Lehigh University tells professors to spread out assignment deadlines so the computer is not swamped on any given day.

Math, science standards stricter

More than a dozen states have adopted or reenforced science and math requirements since 1980.

Math and science are the key to a sizable percentage of the new labor market, Robert Bauers, an Ohio education official, told The Wall Street Journal. Ohio is considering a relaxation in teacher-certification rules so that more specialists from industry will begin teaching science or math.

In New Jersey, a task force on technology-trained manpower has urged "far more homework" in math and science for high school students.

Registration of player agents one of several recommendations

Registration of individuals to serve as agents for student-athletes who desire to pursue careers in professional sports was one of the recommendations of the NCAA Special Committee on Player Agents in its September 11-12 meeting in Chicago, Illinois.

The special committee, which was appointed by the Administrative Committee to formulate guidelines for member institutions in dealing with player agents and to consider other means of approaching the "agents problem," made several recommendations to the NCAA Council that would provide informational and educational outlets for student-athletes who are approached by agents.

Two recommendations were developed to establish authority for a member institution to provide counseling and advice to its student-athletes concerning potential professional athletic careers.

One method would require the Council to issue an interpretation similar to Case No. 66, which details an institution's authority to provide legal counsel to a student-athlete regarding the athlete's eligibility to participate in intercollegiate athletics.

The second method would require an amendment to Constitution 3-1-(h)-(4). This would add the provision of counseling about a future professional career to the list of items that are considered "incidental to a student's participation in intercollegiate athletics."

Both methods would permit student-athletes to receive counseling about prospective professional athletic employment at no cost.

Other recommendations of the Special Committee on Player Agents:

- The development of a three-person panel to provide free counsel-

ing to student-athletes, if one of the first two recommendations is approved. The panel would be composed of full-time employees of the institution who work outside the athletics department.

- The development of legislation that would permit student-athletes at member institutions to borrow against their earning power as a professional to purchase insurance coverage against a disabling injury. If approved, a student-athlete would not be permitted to purchase this type of insurance until he or she has completed two years of eligibility.

- The establishment of a program whereby individuals interested in serving as player agents would be registered by the Association. The form would require agents to list their educational background and other related experience, current and former clients, financial terms and associated fees and several references. By signing the form, the agent would agree to notify the director of athletics or a designated representative in the athletics department before contacting an enrolled student-athlete with eligibility remaining, and the agent would verify that he or she has reviewed the appropriate NCAA rules and regulations.

- The development and distribution of a videotape on the player-agent problem for showing to student-athletes, coaches and administrators.

"I am comfortable with the recommendations that have been forwarded to the Council," said Richard H. Perry, director of athletics at the University of Southern California and chair of the special committee. "They are all very positive and should help minimize the problem."

"Everybody on the committee has such an extensive background in this

area and brought so much expertise to the table, we were almost mandated to develop these types of recommendations from the start. I also believe we are fortunate and owe a real debt of gratitude to the representatives of the National Federation of State High School Associations, the National Football League Players Association and the National Basketball Association Players Association for their attendance and contribution. They were cooperative in terms of working toward the mutual solution of these problems."

Attending the meeting on behalf of the NFSHSA was Assistant Executive Director Warren Brown. The committee held extensive discussions with Dick Berthelsen, general counsel to the NFL Players Association, and with Larry Fleischer (general counsel) and Charles Granham (executive vice-president) of the NBA players organization.

Serving on the committee with Perry are C. Arnold Ferrin Jr., director of athletics, University of Utah; Carl C. James, commissioner, Big Eight Conference, and a member of the NCAA Professional Sports Liaison Committee; Charles McClendon, executive director, American Football Coaches Association; Fred A. Schaus, director of athletics, West Virginia University; Bo Schembechler, head football coach, University of Michigan, and president of the American Football Coaches Association; Richard D. Schultz, director of athletics, University of Virginia; Eddie Sutton, head men's basketball coach, University of Arkansas, Fayetteville, and John R. Thompson Jr., head men's basketball coach, Georgetown University.

McClendon replaced Vincent J. Dooley, director of athletics and head football coach, University of Georgia, who was unable to serve.

Seeding, bracketing changes seen as boost to women's sports status

In an effort to build regional interest and decrease transportation costs, women's sports committees have begun to make changes in seeding and bracketing policies for NCAA championships.

In the first two years of NCAA women's championships, women's sports committees had authority to seed portions of their championship brackets on a national basis to alleviate imbalances in strength throughout the country, particularly in the sports of field hockey, volleyball, soccer, softball and lacrosse.

Because of transportation costs and lack of regional representation, along with the growth of women's sports, the Executive Committee, in its Convention meeting last January, approved four principles for women's sports committees to follow (principles already generally followed by men's sports committees):

- Committees should emphasize seeding within regions, rather than on a national basis.

- Women's sports committees can seed no more than the number of teams in the championship finals or a maximum of four teams, whichever is fewer, and no more than one-half of the seeded teams can be moved outside their region.

- Other teams will be moved outside their regions only to balance the bracket in terms of numbers.

- Any championship that generates sufficient revenue to pay transportation expenses can seek an exception to these principles.

By emphasizing regional play, it is hoped that women's sports will generate additional interest and exposure by building on natural regional

rivalries. These principles will help to achieve a more equitable balance regarding regional representation in the national championships.

One sport in which these changes have been implemented for the 1983-84 season is volleyball. The Division I Women's Volleyball Committee will seed teams within regions this year, with no national seeding as in the past. The Divisions II and III Women's Volleyball Committees have realigned their regions in an effort to more effectively balance and strengthen their respective fields. The Division II Women's Volleyball Committee will seed only two teams this year.

"I think the sport of volleyball is a growing sport, and, on a long-term basis, these changes in seeding and bracketing should produce greater visibility for the sport and help the NCAA championships," said Linda G. Herman, assistant director of athletics at Illinois State University and a member of the Division I Women's Volleyball Committee.

"These changes should help build regional interest," Herman said. "If one of the top teams in the Mideast region is one of the top four teams in the nation, it helps create more interest in volleyball in the Mideast. We can play a highly ranked team without having to go to the West Coast."

"In addition, if there were four true regional champions, recruiting would continue to balance out. The strength of women's volleyball across the country would be better balanced. We already are seeing that with the formation of women's conferences outside the state of California."

In women's softball, regions in Divisions I and II have been realigned, and the Divisions II and III Women's Basketball Committees will seed teams only on a regional basis this year.

Other women's sports committees will use the coming season to evaluate the changes that need to be made in their particular sports.

USA Cable lists schedule

The USA Cable Network, which has cablecast five college football games so far this season, has announced 14 remaining games it will carry on a tape-delayed basis.

Air times and dates are undetermined for most of the remaining games. Here is a rundown on the USA schedule (dates given are actual playing dates):

September: 24—Pittsburgh at Maryland.

October: 1—Florida at Louisiana State; **8**—UCLA at Stanford; **15**—Penn State at Syracuse, Arizona State at Southern California; **22**—West Virginia at Penn State, Southern California at Notre Dame.

November: 5—Alabama at Louisiana State, Stanford at Southern California; **12**—Maryland at Clemson, Auburn at Georgia; **19**—California at Stanford, UCLA at Southern California.

20 championships planned at common sites

Common sites for NCAA men's and women's championships again will be prevalent on the National Collegiate Championships calendar in 1983-84. Twenty NCAA championships will be contested at common sites this season, covering competition in all three divisions and six different sports. In addition, regional diving contests for Division I will take place at common sites.

The list of common-site championships events includes cross country in all three divisions, indoor track, basketball in Division II, gymnastics in Division II, swimming and diving in Division II, and outdoor track in all three divisions.

The complete list of 1983-84 NCAA championships dates and sites:

National Collegiate—Men's and Women's
Rifle: Murray State University, Murrey, Kentucky, March 16-17, 1984.

Skiing: Attitash Ski Area, Bartlett, New Hampshire (University of New Hampshire host), March 7-10, 1984.

National Collegiate—Men's
Fencing: Princeton University, Princeton, New Jersey, March 20-21, 1984.

Indoor Track (common site): Carrier Dome, Syracuse, New York (Syracuse University), March 9-10, 1984.

Volleyball: University of California, Los Angeles, California, May 4-5, 1984.

Water Polo: California State University, Long Beach, California, November 26-27, 1983.

Division I—Men's
Baseball—Rosenblatt Municipal Stadium, Omaha, Nebraska (Creighton University host), June 1-10, 1984.

Basketball: Preliminary rounds—University of Dayton, Dayton, Ohio, and University of Pennsylvania, Philadelphia, Pennsylvania, March 13, 1984; First and second rounds—East at Charlotte Coliseum, Charlotte, North Carolina (Davidson College and University of North Carolina, Charlotte, hosts), March 15 and 17, 1984, and Brendan Byrne Arena, East Rutherford, New Jersey (Rutgers University, New Brunswick, host), March 16 and 18, 1984;

Midwest at Birmingham-Jefferson Civic Center, Birmingham, Alabama (University of Alabama, Birmingham, host), March 15 and 17, 1984, and Mecca, Milwaukee, Wisconsin (Marquette University host), March 16 and 18, 1984; Midwest at Mid-South Coliseum, Memphis, Tennessee (Memphis State University host), March 15 and 17, 1984, and University of Nebraska, Lincoln, Nebraska, March 16 and 18, 1984; West at University of Utah, Salt Lake City, Utah, March 15 and 17, 1984, and Washington State University, Pullman, Washington, March 16 and 18, 1984; Regionals—East at the Omni, Atlanta, Georgia (Georgia Institute of Technology host), March 22 and 23, 1984; Midwest at University of Kentucky, Lexington, Kentucky, March 22 and 24, 1984; Midwest at Checkerdome, St. Louis, Missouri (Metropolitan Collegiate Athletic Conference host), March 23 and 25, 1984; West at University of California, Los Angeles, California, March 23 and 25, 1984; Finals—The Kingdome, Seattle, Washington (University of Washington host), March 31 and April 2, 1984.

Cross country: Regionals (all November 12, 1983)—Districts 1 and 2 at Lehigh University, Bethlehem, Pennsylvania; District 3 at Clemson University, Clemson, South Carolina; District 4 at Michigan State University, East Lansing, Michigan; District 5 at Iowa State University, Ames, Iowa; District 6 at University of Texas, Austin, Texas; District 7 at Weber State College, Ogden, Utah; District 8 at University of Oregon, Eugene, Oregon. Finals—Lehigh University, Bethlehem, Pennsylvania, November 21, 1983.

Football (I-AA): First and second rounds—on-campus sites, November 26 and December 3, 1983; Semifinals—on-campus sites, December 10, 1983. Finals—The Citadel, Charleston, South Carolina, December 17, 1983.

Golf: Bear Creek Golf World, Houston, Texas (University of Houston host), May 23-26, 1984.

Gymnastics: University of California, Los Angeles, California, April 12-14, 1984.

Ice hockey: First rounds—on-campus sites, March 16-17 or March 17-18, 1984; Finals—Lake Placid, New York (Clarkson College of Technology and St. Lawrence University hosts), March 22-24, 1984.

Lacrosse: First rounds—on-campus sites, May 16, 1984; Semifinals—on-campus sites, May 20, 1984; Finals—University of Delaware, Newark, Delaware, May 26, 1984.

Soccer: First rounds—on-campus sites,

November 16, 1983; Second rounds—on-campus sites, November 20, 1983; Third rounds—on-campus sites, November 27, 1983; Semifinals—on-campus sites, December 4, 1983; Finals—Lockhart Stadium, Fort Lauderdale, Florida (Jacksonville University host), December 10, 1983.

Swimming and diving: Regionals (common sites)—Districts 1 and 2 at U.S. Naval Academy, Annapolis, Maryland, March 9-10, 1984; District 3 at University of Florida, Gainesville, Florida, March 9-10, 1984; District 4 at University of Wisconsin, Madison, Wisconsin, March 9-10, 1984; Districts 5 and 6 at University of Arkansas, Fayetteville, Arkansas, March 9-10, 1984; Districts 7 and 8 at Arizona State University, Tempe, Arizona, March 9-10, 1984; Finals—Cleveland State University, Cleveland, Ohio, March 21-24, 1984.

Tennis: University of Georgia, Athens, Georgia, May 12-20, 1984.

Outdoor track (common site): University of Oregon, Eugene, Oregon, May 28-June 2, 1984.

Wrestling: Regionals—East at George Mason University, Fairfax, Virginia, February 24-25, 1984; West at Indiana State University, Terre Haute, Indiana, February 24-25, 1984; Finals—Brendan Byrne Arena, East Rutherford, New Jersey (Princeton University host), March 8-10, 1984.

Division II—Men's
Baseball: University of California, Riverside, California, May 26-30, 1984.

Basketball: Regionals—on-campus sites, March 8-10, 1984; Quarterfinals—on-campus sites, March 16 or 17, 1984; Finals (common sites)—Springfield Civic Center, Springfield, Massachusetts (American International College and Springfield College hosts), March 23-24, 1984.

Cross country (common sites): Regionals (all October 29, 1983)—East at Holy Cross College, Worcester, Massachusetts; South at West Georgia College, Carrollton, Georgia; Central at South Dakota State University, Brookings, South Dakota; Great Lakes at University of Wisconsin, Parkside, Kenosha, Wisconsin; West at California State University, Sacramento, California; Finals—University of Wisconsin, Parkside, Kenosha, Wisconsin, November 12, 1983.

Football: First rounds—on-campus sites, November 26, 1983; Semifinals—on-campus sites, December 3, 1983; Finals—Palm Bowl,

McAllen, Texas, December 10, 1983.

Golf: Site to be determined, May 15-18, 1984.

Gymnastics (common site): Springfield College, Springfield, Massachusetts, March 29-31, 1984.

Ice hockey: First rounds—on-campus sites,

March 9-10 or March 10-11, 1984; Finals—on-campus site, March 15-17, 1984.

Soccer: First rounds—on-campus sites, November 13, 1983; Second rounds—on-campus sites, November 20, 1983; Semifinals—on-campus sites, November 27, 1983; Finals—on-campus site, December 3 or 4, 1983.

Swimming and diving (common site): Hofstra University, Hempstead, New York, March 7-10, 1984.

Tennis: Site to be determined, May 7-13, 1984.

Outdoor track (common site): Southeast Missouri State University, Cape Girardeau, Missouri, May 21-26, 1984.

Wrestling: Regionals—East at Springfield College, Springfield, Massachusetts, February 18-19, 1984; Midwest at Ferris State University, Big Rapids, Michigan, February 17-18, 1984; South at Pembroke State University, Pembroke, North Carolina, February 10-11, 1984; Midwest at Southern Illinois University, Edwardsville, Illinois, February 11, 1984; West at California State University, Chico, California, February 11, 1984; Finals—Morgan State University, Baltimore, Maryland, February 24-25, 1984.

Division III—Men's
Baseball: Marietta College, Marietta, Ohio, May 31-June 3, 1984.

Basketball: Regionals—on-campus sites, March 2-3, 1984; Quarterfinals—on-campus sites, March 10, 1984; Finals—Calvin College, Grand Rapids, Michigan, March 16-17, 1984.

Cross country (common sites): Regionals (all November 12, 1983)—New England at Franklin Park, Boston, Massachusetts (South-eastern Massachusetts University host); New York at Cortland State University College, Cortland, New York; Midwest at Lebanon Valley College, Annville, Pennsylvania; Great Lakes at Albion College, Albion, Michigan; Midwest at Augustana College, Rock Island, Illinois; Southeast/South at Christopher Newport College, Newport News, Virginia; Central at Luther College, Decorah, Iowa; West at Mills College, Oakland, California; Finals—Christopher Newport College, Newport News, Virginia, November 19, 1983.

Football: First rounds—on-campus sites, November 19, 1983; Semifinals—on-campus sites, November 26, 1983; Finals—Kings Island, Ohio (Ohio Athletic Conference host), December 3, 1983.

Golf: State University of New York, Oswego, New York, May 15-18, 1984.

Lacrosse: First rounds—on-campus sites, May 9, 1984; Semifinals—on-campus sites, May 13, 1984; Finals—on-campus site, May 19, 1984.

Soccer: First and second rounds—on-campus sites, November 11-13, 1983; Third rounds—on-campus sites, November 20, 1983; Semifinals—on-campus sites, November 27, 1983; Finals—on-campus site, December 3 or 4, 1983.

Swimming and diving: Emory University, Atlanta, Georgia, March 15-17, 1984.

Tennis: Emory University, Atlanta, Georgia, May 7-12, 1984.

Outdoor track (common site): site to be determined, May 21-26, 1984.

Wrestling: Regionals (all February 10-11, 1984)—East at Trenton State College, Trenton, New Jersey; Midwest at University of Minnesota, Morris, Minnesota; South at University of the South, Seawee, Tennessee; West at California Institute of Technology, Pasadena, California; Finals—State University of New York, Binghamton, New York, February 24-25, 1984.

National Collegiate—Women's
Fencing: Princeton University, Princeton, New Jersey, March 22-24, 1984.

Golf: Innisbrook Resort and Golf Club, Tarpon Springs, Florida (University of Georgia host), May 23-26, 1984.

Lacrosse: Boston University, Boston, Massachusetts, May 19-20, 1984.

Soccer: University of Central Florida, Orlando, Florida, November 19-20, 1983.

Division I—Women's

Basketball: First rounds—on-campus sites, March 15-18, 1984; Regionals—East at Old Dominion University, Norfolk, Virginia, March 22 and 24, 1984; Midwest at University of Tennessee, Knoxville, Tennessee, March 23 and 25, 1984; Midwest at Louisiana Tech University, Ruston, Louisiana, March 23 and 25, 1984; West at University of Southern California, Los Angeles, California, March 22 and 24, 1984; Finals—University of California, See 20 championships, page 11

TV in the News

ESPN sets sights on '88 Olympics

Top executives of the Entertainment and Sports Programming Network will enter a third round of talks with South Korean Olympic officials later this month in the cable network's effort to land rights to the 1988 Summer Olympics in Seoul.

According to Advertising Age magazine, ESPN's proposal will be for over-the-air television rights, cable distribution, pay cable, delayed broadcast and syndication rights. Reportedly, the ESPN proposal would provide the Seoul organizers with a minimum fee against a percentage of revenues gained through the sale and distribution of games programming.

The South Koreans are said to be interested in a comprehensive rights package. After studying television contracts negotiated for the 1984 games in Los Angeles, the South Koreans reportedly think a straight sale of broadcast television rights to a single major network would prevent the committee from obtaining full market value for the televising and promotion of the event.

ABC-TV, which to date has not exercised an option to buy 49 percent of ESPN from Getty Oil, has been kept abreast of the talks but has not participated.

DePaul cage coverage expanded

DePaul's claim of being the "most widely watched" college basketball team in America may be hard to dispute.

Last season, 27 Blue Demon men's games were seen in at least 48 states. This season, all 28 regular-season games will be carried live, seven on network television and the rest under agreements with Chicago-based superstation WGN-TV and MetroSports, a national syndicator.

NBC-TV (four appearances) and CBS-TV (three) will provide network coverage for DePaul, while MetroSports will syndicate games to the Entertainment and Sports Programming Network and independent stations.

"Our new contracts with CBS and NBC will generate at least 13 telecasts over the next two years," said Edward J. Manetta, director of athletics at DePaul. "At least 10 of the games will be shown nationally, and the networks can pick up additional games at their request."

Texas system to cover 42 games

A regional pay-cable sports network based in Texas has announced a 42-game schedule of delayed college football cablecasts for this fall.

Home Sports Entertainment/Houston, which is available over five systems (200,000 homes) in the Houston area and which also has a working agreement with HSE/Dallas, will carry selected Southwest Athletic Conference and University of Oklahoma games, along with at least one Texas Southern University contest.

The network will cablecast one SWC game Saturday nights, a double-header Sundays and Oklahoma football Mondays. The games will be carried again during the week.

HSE/Houston began operation January 4. It also carries all home games of the Houston Rockets of the National Basketball League and the Houston Astros of Major League Baseball.

Kickoff Classic ratings are good

If overnight ratings in the six major markets are indication, the inaugural Kickoff Classic was a success.

According to the A. C. Nielsen Co., the August 29 game between the University of Nebraska, Lincoln, and Pennsylvania State University averaged a 7.0 rating and a 12 share. National ratings, which were not immediately available, could be even higher because of anticipated higher interest in nonmetered markets.

The game, which was syndicated by Katz Sports, had a significant impact on network ratings. Those ratings were down 17 percent from the same night a year ago. The game was carried by 142 network affiliates.

Interpretations

EDITOR'S NOTE: Publication of an interpretation in this column constitutes official notice to the membership. Questions concerning these or other O.I.s should be directed to Stephen R. Morgan, director of legislative services, at the Association's national office (P.O. Box 1906, Mission, Kansas 66201; 913/384-3220).

Off-campus entertainment

(Revises Case No. 227)

Situation: A prospective student-athlete's entertainment during the official visit shall take place on campus; however, if on-campus entertainment is not available, it may be necessary to entertain the prospect off campus. (533)

Question: May an institution entertain a prospective student-athlete outside the city limits of the community in which the institution is located?

Answer: Yes, provided such entertainment takes place only in the area within a 30-mile radius of the institution's main campus; further, such entertainment must be at a scale comparable to that of normal student life and not excessive in nature [B 1-8-(j)-(2) and (3)]

Off-campus recruiting contacts

Situation: The provisions of Bylaw 1-2-(b) stipulate in part that an in-person, off-campus recruiting contact by a representative of an institution's athletic interests is prohibited. (605)

Question: Would this regulation preclude all such contacts by a representative with a prospective student-athlete?

Answer: This legislation would not be applicable to: (1) off-campus recruiting contacts made by an institution's representative in conjunction with the institution's regular admissions program for all prospective students, including nonathletes, and (2) the contacts made with a prospective student-athlete by an established family friend or neighbor, it being understood that such contacts are not made for recruiting purposes and are not initiated by an institution's coaching staff member. [B 1-2-(b)]

Two conferences lose berths in I-AA football championship

Automatic qualification privileges have been withdrawn from the Southwestern Athletic Conference and Mid-Eastern Athletic Conference for the 1983 NCAA Division I-AA Football Championship. All eligible teams in both conferences, however, will be considered for at-large selections.

These changes were recommended by the NCAA Division I-AA Football Committee and subsequently approved by the Administrative Committee.

The Division I-AA Football Committee's recommendation to withdraw automatic qualification from the Southwestern Athletic Conference was made after it learned that Grambling State University and Southern University, Baton Rouge, will play November 26—the date of the first round of the Division I-AA play-offs. In addition, Alabama State, another member of the Southwestern Athletic Conference, has a game scheduled November 24.

Part of the automatic-qualification criteria for the Division I-AA championship states that a conference must "make its championship team available to compete in the NCAA tournament. . . . The scheduling conflicts prevent Grambling State,

Southern and Alabama State from meeting that criterion if they should win the conference championship.

Last year, the Division I-AA Football Committee allowed the Southwestern Athletic Conference to retain its automatic qualification even though Grambling State and Southern-Baton Rouge played on the first Saturday of the play-offs. It was understood, however, that if either team won the conference championship, automatic qualification would be withdrawn and the remaining teams would be considered for at-large berths.

The conference's appeal to retain its automatic qualification last year was based on the fact that Grambling State and Southern-Baton Rouge had a long-term contract for the game at the Superdome in New Orleans, Louisiana, and that the game date could not be changed. The conference assured the Division I-AA Football Committee that the scheduling conflict would not occur again.

Another factor in the committee's decision last year was the expansion of the field to 12 teams, which resulted in the championship starting a week earlier than 1981.

The Mid-Eastern Athletic Conference's automatic qualification was withdrawn because the conference did not meet the criteria set forth in Executive Regulation 1-6-(b)-(2), which requires at least six teams to be competing for the conference championship. The Mid-Eastern Athletic Conference recently declared Florida A&M University ineligible for the conference championship, leaving only five teams eligible for the championship.

Automatic berths in the 1983 Division I-AA championship will be awarded to the champions of the Big Sky Conference, Ohio Valley Conference, Southern Conference, Southland Conference and Yankee Conference. The top two independent teams, as determined by the committee, will receive berths. The remaining five teams will be selected at large by the committee.

Eight teams will play first-round games November 26 at on-campus sites. The top four teams, as seeded by the committee, will receive byes. Quarterfinals will be December 3 at on-campus sites, and semifinals are scheduled on campuses for December 10. The 1983 championship will be December 17 at Johnson Hagood Stadium in Charleston, South Carolina.

Football rules clarifications made

The NCAA Football Rules Committee has issued two bulletins to clarify rules and eliminate errors in 1983 NCAA Football Rules and Interpretations.

David M. Nelson, secretary-rules editor of the committee, cited four major interpretations of which officials should be aware.

In Rules 7-1-3-a-3 on page FR-62 of the rules book, the phrase "including contacting an opponent after the ball is ready for play" should be added after "false start." The rule should correctly read: "No player of the offensive team shall make a false start, including contacting an opponent after the ball is ready for play, or be in or beyond the neutral zone after the snapper adjusts the ball and before the snap (Exception: Does not apply to substitutes and replaced players A.R. 26). A false start includes . . ."

This editorial change is necessary to prevent false starts by offensive

players, including contacting opponents before the snapper adjusts the ball. The present rule and editorial change continues to permit offensive players to be in or beyond the neutral zone before the snapper adjusts the ball. This prevents false starts and contact with an opponent before and after the snapper adjusts the ball. Adjusting the ball by the snapper is defined as his first touching of the ball after the ready-for-play indication.

In Rule 9-1-3 on page FR-77, a change implemented for the 1983 season eliminates any exception for running into or roughing the kicker when a defensive player is forced into a kicker or holder by an opponent. Officials should be aware of the following definitions to enforce the rule properly:

●Incidental contact with the kicker or holder is not a foul. Incidental contact is any contact that in no way endangers the kicker or holder.

●Roughing is a personal foul that endangers the kicker or holder.

●Running into the kicker or holder is a personal foul when a defensive player fails to avoid the holder and kicker but does not rough either of them.

The third interpretation is in Rule 2-18-1 on page FR-33. The rule should be rewritten as follows: "Encroaching occurs when an offensive player is in or beyond the neutral zone after the snapper makes his last adjustment of the ball before the snap."

Another interpretation change from last season is in Rule 9-1-4 on page FR-78. The penalty against Team A requiring a loss of down has been deleted for 1983. Play situations penalizing Team A excessively, including loss of possession, dictated this change.

An example of the new interpretation is as follows: Team A punts from its 10-yard line with 12 players participating. Ruling: Team B ball, first and 10 at Team A's five-yard line.

This play situation will be eliminated with the deletion of loss of down for Team A with an illegal participation penalty.

St. Lawrence will join 'super' ice hockey league

St. Lawrence University has decided to join the new "super" ice hockey league being formed in the East.

In the September 5 issue, The NCAA News reported that St. Lawrence would be a member of the league, but the institution later denied that it had reached that decision.

Members of the St. Lawrence administration had been trying to keep the current Eastern College Athletic Conference men's ice hockey structure

intact, but now the institution has committed to the new group.

"We are really excited about the opportunity to join the 'super league,' and we look forward to the start of league competition next year," said St. Lawrence coach Mike McShane.

Eight Eastern institutions with traditionally strong ice hockey programs will compete in the league, beginning with the 1984-85 season. In addition, institutions from the Ivy group will withdraw then from the current ECAC format to begin league play.

NCAA rifle champs excel

Collegiate shooters who helped their squads to the top two spots in the 1983 NCAA Men's and Women's Rifle Championships also helped the United States squad win several medals in the recent Pan American Games.

David Johnson of West Virginia, winner of the NCAA individual smallbore three-position event, helped the U.S. squads win gold medals in both air rifle and smallbore three-position competitions at the Pan

Am Games. Johnson, a sophomore at West Virginia, also took a silver medal in individual air rifle.

Tony Leone of NCAA runner-up Tennessee Tech joined Johnson as a Pan Am medal winner. Leone took the silver in the smallbore three-position event at the Pan Am games. Leone finished second to Johnson in the same event at the NCAA championships, held last March at Xavier University in Cincinnati.

Communications staff changes made at NCAA

Alfred B. White and Jennifer A. Boyer have joined the communications department at the NCAA national office.

White, assistant sports information director at Texas Tech University the past three years, will be assistant director of communications, and Boyer rejoins the NCAA staff as productions coordinator.

White is a 1979 graduate of Texas Tech, where he earned a bachelor's degree in broadcast media operations. His responsibilities at Texas Tech included publicity for the football, basketball and baseball programs.

Boyer, a 1977 graduate of the University of Kansas, previously served as productions coordinator at the NCAA from 1979 to 1982. She has been a free-lance producer this past year. Boyer has a bachelor's degree in speech from Kansas.

Football players attempt to overcome odds

Paul Blanchard and Todd Bizzell have faced many tough assignments on the football field, but their biggest battle is far removed from the field.

Both athletes are battling Hodgkin's disease, a form of cancer that affects the lymph glands, which manufacture lymphocytes, a type of white blood cell that battles infection.

Blanchard, the punter for the University of Minnesota, Twin Cities, learned last spring that he had the disease. He underwent surgery and then began radiation treatment, which still is continuing. Although the treatments have caused Blanchard to lose weight and stamina, he opened the season as the Gophers' No. 1 punter.

Next spring, Blanchard, the son of former New York Yankees player Johnny Blanchard, plans to be the catcher for the Gophers' baseball team.

That same competitive drive is apparent in Bizzell, who currently is not enrolled at Southeast Missouri State University and is undergoing treatment. In 1975, Bizzell's condition was diagnosed and for two years, he underwent extensive treatment. After the ninth grade, he was taken off treatments, and his remission stabilized.

By his senior year, Bizzell had earned all-state honors. He sub-

Paul Blanchard

sequently received an athletic grant-in-aid to Southeast Missouri State, where his future seemed even brighter.

However, during spring drills, Bizzell's symptoms returned. Major abdominal surgery was performed, which included removal of his spleen. Since early June, Bizzell has undergone extensive chemotherapy and radiation.

"When this came back on me again, it hit my parents pretty hard,"

Todd Bizzell

Bizzell said. "It's been a little overwhelming. I have a lot more friends than I ever realized. Sometimes, I wish I could pay them back when this is all over."

Bizzell is concluding his first month of a scheduled one-year treatment program at St. Jude's Children's Research Hospital in Memphis, Tennessee, where he first underwent treatment for the disease.

"I'm optimistic about my situa-

tion," Bizzell said. "They are using four new drugs they didn't even have the first time I had Hodgkin's. And they are using radiation this time. There was no radiation the first time."

Bizzell has spent much of his time in recent years helping St. Jude's raise money by appearing on telethons and radiothons with entertainer Danny Thomas, the hospital's founder. In 1981, Bizzell prepared a letter, which was distributed nationwide, that told of his story and helped raise \$2.1 million for the hospital. Bizzell will be recognized for his work with St. Jude's in a ceremony in Washington, D.C. Thomas will present Bizzell with the Jerry Nicholson Award, an annual award named after the man who led a major blood drive during the 1960s while knowing his death from leukemia was imminent. President Reagan is scheduled to appear at the ceremony.

"I never had any idea there was an award," Bizzell said. "I did this work for the hospital because I wanted to and because St. Jude's saved my life. There are a lot of people there who are worse off than me, whose chances of survival aren't very good. You just hope they can find some answers, some cures. . . ."

In Blanchard's case, if his past is any indication of his determination and spirit, he will be equal to the battle ahead. As a high school sopho-

more, Blanchard had a traumatic kidney disease that shut down his system. Now, the radiation treatment has caused a minor case of shingles, which doctors are monitoring closely to prevent a life-threatening situation.

"It's just one thing after another," Blanchard said. "I can't seem to win. You have moments when you say, 'why me.' But you look around, and there are people worse off."

"I think it would be tougher not being an athlete. When you come back, you know you kicked it. It gives you a big boost of confidence. You want to defeat it. I'm used to competing, and that keeps me going."

"They say a year and a half and then it's critical for another year. If you get past that, you're usually OK."

Last spring, the future was uncertain for him and his family. When he was told he had Hodgkin's disease, the only word Blanchard remembers hearing was cancer.

"But they told me that the prognosis was 80 to 90 percent curable," Blanchard said. "That let me down easier."

"The radiation treatments cause you to lose your appetite, and I don't have my chest hair. I have no hair on the back of my head either. I just shave from the chin up. I was 165 pounds the other day, and that's down 18 pounds from last year."

Amendment deadline November 1

The deadline for submission of proposed amendments for the 1984 NCAA annual Convention is Tuesday, November 1.

Unless sponsored by the NCAA Council or a division steering committee, any legislation must be proposed by six active member institutions. Instructions and forms to be used in submitting amendments

were mailed last week.

The procedures for proposing NCAA legislation are set forth in Constitution 7-1 and Bylaw 13-1, pages 45 and 147-148 of the 1983-84 NCAA Manual.

In addition to the six-sponsor requirement, proposed amendments must be received in the national

office by November 1. Any submission received after that date must have been sent by certified or registered mail postmarked not later than October 25.

All properly submitted proposals will be included in the Official Notice of the 78th NCAA Convention, which will be mailed from the national office no later than November 22.

Questions regarding specific amendments or the legislative procedure in general should be directed to Stephen R. Morgan, director of legislative services, at the national office.

Qualifying standards set in swimming championships

Qualifying standards for participation in the 1984 NCAA Men's and Women's Swimming and Diving Championships have been established by the NCAA Men's and Women's Swimming Committees.

Division qualifying standards are:

McDermott announces retirement

Jim McDermott, commissioner of the Metro Atlantic Athletic Conference, has announced he will retire June 30, 1984.

The conference is organizing a committee to find a successor to McDermott, 73, who has been commissioner since the league was formed in 1981. He formerly was head basketball coach at Iona College and later became director of athletics.

The conference is composed of the U.S. Military Academy, Fairfield University, Fordham University, Iona College, Manhattan College, St. Peter's College, Holy Cross College and La Salle College.

Livingston named athletics director at Duquesne

Eileen Livingston, a member of the Duquesne University athletics staff since 1973, has been named director of athletics at the institution.

She is believed to be the third woman named as athletics director at an NCAA Division I institution. Duquesne is a member of the Atlantic 10 Conference.

Livingston, who has served as assistant athletics director since 1980, will be in charge of all intercollegiate, club and intramural programs, with the exception of men's basketball. Coach Jim Satalin will continue to administer that program.

Championships Corner

1. Regional realignments for Divisions I and III women's softball have been approved as follows:

Division I—Northeast: Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Washington, D.C. South: Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Minnesota, Ohio, Virginia, West Virginia, Wisconsin, University of Iowa. Midwest: Illinois, Indiana, Michigan. Midwest: Iowa, Kansas, Missouri, Nebraska, North Dakota, South Dakota, Oklahoma. Central: Colorado, Idaho, New Mexico, Montana, Texas, Utah, Wyoming. Northwest: Alaska, Nevada, Northern California, Oregon, Washington. West: Arizona, Hawaii, Southern California.

Division III—New England: Maine, Massachusetts, New Hampshire, Rhode Island, Vermont. East: New York. Midwest: Michigan, Ohio, Pennsylvania. South: Alabama, Delaware, Florida, Georgia, Kentucky, Maryland, Mississippi, New Jersey, North Carolina, South Carolina, Tennessee, Virginia, Washington, D.C., West Virginia. Central: Illinois, Indiana, Wisconsin. West: Alaska, Arizona, Arkansas, California, Colorado, Hawaii, Idaho, Iowa, Kansas, Louisiana, Minnesota, Missouri, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wyoming.

2. The Men's and Women's Track and Field Committees are accepting proposed budgets from institutions interested in hosting the 1985 Division II Men's and Women's Cross Country Championships, set for November 19. The committees also are accepting proposed budgets from institutions interested in hosting the 1986 Division II championships, scheduled for November 18. Institutions wishing to submit a proposed budget for either 1985 or 1986 should contact Dennis L. Poppe, assistant director of championships, at the national office.

3. The NCAA Women's Swimming Committee requests that institutions interested in serving as host for the 1985 NCAA Division III Women's Swimming and Diving Championships contact Patricia W. Wall, assistant director of championships, at the national office regarding the submission of proposed budgets. The committee will recommend the 1985 site in early October.

Calendar

September 19-20	Chief executive officers meeting, Kansas City, Missouri
September 20-21	All-Star High School Games Committee, Kansas City, Missouri
September 26-28	Special Committee on Officiating Improvement, Kansas City, Missouri
October 10-12	NCAA Council, Dallas, Texas
October 26-27	Drug Education Committee, Los Angeles, California
October 31-November 3	Division I Women's Basketball Committee, Los Angeles, California
November 7-10	Baseball Committee, Kansas City, Missouri
November 11-12	Division III Field Hockey Championship, on-campus site
November 12	Division II Men's and Women's Cross Country Championships, Kenosha, Wisconsin
November 12	Division II Field Hockey Championship, on-campus site
November 18-20	Division I Field Hockey Championship, Philadelphia, Pennsylvania

November 19-20	Women's Soccer Championship, Orlando, Florida

The NCAA News

NCAA Record

FACULTY ATHLETIC REPRESENTATIVE
HARVEY WINTERS has replaced RICHARD HOLUB at Fairleigh Dickinson-Teaneck. Holub is on the faculty at Connecticut.

COACHES

Baseball—WALT WOODS named at Monmouth (New Jersey). Woods had been head coach at Middletown, New Jersey, South High School for three years. . . . MICHAEL J. DAVIS has been appointed at Hamilton. He previously coached baseball and football at Rome, New York, Catholic High School.

Baseball assistants BRIAN BALDEA, a faculty member, named at Illinois State. He has American Legion coaching experience. . . . Former Virginia Tech assistant CHIP BAKER hired at Georgia Tech to work with catchers and outfielders and to serve as hitting coach. . . . RICH HENRY, PAT McALARNEY and MARK COLLINS named at Wagner. Henry and McAlarney are Wagner graduates. Collins is an assistant football coach at the school and formerly was head baseball coach at Albany State (New York).

Men's basketball MIKE McILWAIN has resigned after one season at Pace. He led the Setters to an 8-20 record. . . . Florida A&M head coach JAMES "JOSH" GILES has resigned to become an assistant at New Orleans. He had a four-year record of 41-71.

Men's basketball assistants DANIEL DAVIS hired at Los Angeles State. He had been an assistant at Pasadena, California, City College. . . . BOB MAHELA selected at Wagner, where he played last year. . . . RICHARD MAHONE, a former head coach at Spencer High School in Columbus, Georgia, hired at Columbus. . . . Former Wisconsin-Oshkosh student assistant TERRY GIBBONS chosen at Western State (Colorado). . . . DENNIS WALSH, a former player at Providence, named a part-time coach at St. Bonaventure.

Women's basketball MARY L. FLEIG hired at Franklin and Marshall, where she also will be an assistant trainer. She was an assistant coach at East Stroudsburg last year. . . . MICHAEL THEULEN appointed at Springfield. . . . ROBERT TAYLOR named at Lake Superior State, where he was an assistant men's coach last year. He will continue to coach men's and women's tennis. . . . PATTY DALEY hired at Davidson to head the women's basketball and field hockey programs. She held a similar post at Hollins last year. . . . CATHY KUNZ named at Glassboro State, where she also will coach women's softball.

Women's basketball assistants—DIANE CASELLA, the all-time assists leader at St. Peters, hired at her alma mater. . . . ELISA

ZINBERG named at Wagner. She is a 1983 graduate of Franklin and Marshall. . . . JILL JEFFREY, formerly an assistant at Northeastern, hired at Notre Dame. . . . SHARON DANIEL named a graduate assistant at Tennessee-Martin.

Men's cross country—CHRIS BROWN named head men's and women's coach at Alfred. Brown has coached track and cross country on the high school level in Ohio. . . . ED RIGGS, a part-time assistant in the past, has been named head coach at Gettysburg to replace BOB LEHR, who is taking a year's leave of absence.

Men's cross country assistant—JOE GUTY named at Gettysburg. He is a former letterman and a 1981 graduate of Gettysburg.

Women's cross country ROBERTA J. ANTHERS appointed head cross country coach and associate indoor and outdoor track and field coach at Rutgers. A former distance runner at Villanova, she has coached at Haverford and Bryn Mawr.

Field hockey—CAROL "LYNN" CENTONZE appointed head field hockey and women's lacrosse coach at Montclair State. She is a May graduate of West Chester, where she lettered in both sports. . . . PATTY DALEY named at Davidson (see women's basketball).

Field hockey assistant—SALLY SITES chosen at Gettysburg. She had a seven-year record of 64-23-5 at Littlestown, Pennsylvania, High School, including a 1982 state championship.

Football assistants MARK MURRAY and AL PATURZO hired at Wagner. Murray (offensive line) coached at Albany State (New York) last year, while Paturzo (defensive ends) coached at a Staten Island, New York, high school. . . . Four assistants have been named at Ursinus: GREG BAMBERGER (offensive line), JIM MCCARTHY (secondary), STEVE DAVIS (defensive backs) and RICH McDERMOTT (defensive line). . . . Former Connecticut aide DICK REILLY has been named offensive backfield coach at Wesleyan.

Women's gymnastics—RICK SUDDARY has been named to replace LYNN SPADINE at Cortland State. Suddary was a member of Cortland State's 1979 NCAA Division III championship team and has coached on the club level. Spadine resigned to take a similar position at Slippery Rock.

Women's lacrosse—CAROL "LYNN" CENTONZE named at Montclair State (see women's field hockey).

Men's soccer assistants—DON SMITH hired at Gettysburg, where he has been a high school coach. . . . GREG GIFFORD named at Ursinus.

Women's softball—GARY GEVIK has returned to Morningside after a year's leave. He had a three-record of 43-40 before last season. . . . CATHY KUNZ hired at Glassboro State (see women's basketball).

Men's swimming—PHIL CIRAOLO, a local swim club coach, hired at Niagara. SHERRY WAMSLEY, formerly a women's assistant at Southern Methodist, named to head the men's and women's programs at Hope. She replaces PETE LINDSAY, who resigned to become women's coach at Michigan.

Men's swimming assistants—ANNE K. SULLIVAN appointed at Ohio, where she will assist with both programs. She coached last year on the YMCA level in New York and coached a junior national team. . . . THOMAS QUINN named men's and women's diving coach at Cortland State. He coached last year at Chaminade High School in Mineola, New York.

Men's tennis—THOMAS YAMAGUCHI appointed to head both programs at Los Angeles State. He returns to his alma mater after compiling a two-year dual-match record of 31-25 as head coach at Dominguez Hills State. . . . Clemson assistant ED DICKSON named at Purdue. He will direct both the men's and women's programs.

Men's track and field—KEN MICHELSEN selected at Hamilton. He was head coach at Union (New York) from 1972 to 1978. . . . FRANK GAGLIANO hired at Georgetown.

Men's track and field assistant—SCOTT LOREK named men's and women's assistant at Idaho. He was a graduate assistant at Illinois last year.

Women's track and field—MARY S. CARTER appointed at Southern Colorado, where she also will coach women's volleyball. She was a graduate assistant at Iowa last year.

Women's track and field assistant—NANCY GAVOOR named at Ohio State, where she is the first full-time appointee in the post. She was an assistant at New Mexico last year.

Women's volleyball—KATHY CURLEY named at Ursinus. . . . MARY S. CARTER hired at Southern Colorado (see women's track and field). . . . JOAN SITTERLY, a successful high school coach in upstate New York, hired at Cortland State.

Women's volleyball assistants—DAN KENNELL, a local YWCA coach, named at Gettysburg. . . . MARGUERITE HERTZ chosen at Fairleigh Dickinson-Teaneck. . . . CINDY ALVEAR, a four-year starter at Indiana (1980-1983), named at Wyoming.

Wrestling assistant—Former four-time New England heavyweight champion MIKE WHELEN named at Wesleyan.

STAFF

Athletic moderator—The REV. MICHAEL SHEA named at Niagara. He has been an athletics administrator at several parochial high schools.

Fund-raising—BUCK McCLLENEGHAN has resigned as executive director of Fullerton State's Titan Athletic Foundation to become director of development for alumni giving at Wyoming.

Sports information directors—JIM BREDESON named at Beloit. He has a background as a sports writer and is a research librarian at the school. . . . RAY KIST named SID for men's basketball at Niagara, where he has been head trainer and intramurals director for five years. . . . BILL ESPOSITO has been named a special assistant to the vice-president for communications and media at St. John's (New York). The new SID is former assistant KATHA QUINN. . . . BARRY VANDERKELEN named SID and director of athletics development at California-Riverside. He has worked on the SID staff at Toledo and in the development office at Vermont. . . . TUCKER DAVIS has resigned at Tennessee-Martin to enter private business.

Athletic trainer—ROBERT WILMES, for eight years the trainer at Grand Rapids, Michigan, Community College, named at Lake Superior State.

Assistant athletic trainers—GERRY SCHWILLE, who has worked on the staffs of the Washington Redskins and Washington Redskins, hired at George Mason. . . . SHARON WEST, previously a graduate assistant at East Carolina, hired at Hamilton. . . . MARY L. FLEIG named at Franklin and Marshall, where she also will be head women's basketball coach.

CONFERENCES

DUANE LINDBERG named assistant public relations director for the Pacific-10. He has spent the past 2½ years as assistant SID at Southern California. . . . MEDE NIX, Howard Payne SID, named news director for the Lone Star Conference.

NOTABLES

KEN FOREMAN, head track coach at Seattle Pacific for 25 years (1950-1956 and 1960-1977), named race director for the 1984 United States Olympic women's marathon trials, next May in Olympia, Washington. . . . Southern Methodist men's tennis coach DENNIS RALSTON has been named Wilson collegiate coach of the year. The Mustangs finished second in the 1983 NCAA Division I Men's Tennis Championships.

DEATH

JOE McMULLEN, 59, director of athletics at Towson State since 1979, died September 9 of leukemia. McMullen had been involved in collegiate athletics since 1946, mostly as a football coach. He was head coach at Stetson, Washington and Jefferson, Akron, and San

Joe State and was an assistant at Brown and Penn State. He also was AD at Marshall for eight years.

Joe McMullen, AD at Towson State, died September 9 of leukemia

Dennis Ralston, SMU, has been named Wilson tennis coach of the year

CORRECTION

Due to a reporter's error, Curt Dailey was listed as the new SID at Bridgewater (Virginia) in the August 31 issue of The NCAA News. The new appointee is Curt Dudley.

COMMITTEE CHANGES

Division III Women's Volleyball—SHEILA WALLACE, Ohio Northern University, appointed to replace Carol Wilson, who resigned her position at MacMurray College. . . . BERNETTE K. CRIPE, Whittier College, appointed to replace Wilson as chair of the committee.

POLLS

Division I Women's Volleyball

The top 20 teams in NCAA Division I women's volleyball through games of September 11, with season records in parentheses and points.

1. Hawaii (2-0)	160

Briefly in the News

University of Notre Dame defensive tackle Tim Marshall has figured out a way to get the inside track on becoming the top lineman of the season. Marshall, 6-4 and 257 pounds from Chicago, sat out last season with a foot injury, but he still was mentioned on several preseason all-America teams this year. "I figure if I sit out another season, I'll get the Outland Trophy," he said. . . . It's a safe assumption that head coach Lyle Eidsness will not tolerate having his linemen sitting down on the job for Augustana College (South Dakota). As a matter of fact, he will not even let them get down in a normal stance, at least on defense. Eidsness uses a "radar" defense in which there are no down linemen. The idea is to allow a better "reading" of the offense and to enhance pursuit.

An Associated Press writer believes that if beauty is only skin deep, as they say, then the University of Connecticut "should have some lovely football players." About two dozen players have had their right hips tattooed with pictures ranging from a husky dog—the school's mascot—to a tweety bird. "It's a conversation piece," said tackle Dave Gracon, who sports a raccoon. He failed, however, to mention under what conditions the otherwise concealed raccoon might serve as the ice-breaker. . . . Florida State University football coach Bobby Bowden will go to any lengths to get his team's attention. Bowden added taped screams to the Seminoles' workouts before going into "Death Valley" at Baton Rouge against Louisiana State University because "we want our boys to see what it's like to play football when you can't hear," Bowden said. The Seminoles later turned down the volume with a 40-35 victory.

Head coach Bill Russo has to deal with a situation at Lafayette College that most football coaches will never have to contend with, although they would no doubt love the challenge. The question is: Who's going to get the ball? The Leopards are equipped with a pair of 1,000-yard rushers this season. Nick Kowgios rushed for 1,018 yards last year. Rodger Shepko ran for a school record with 1,280 yards two years ago, but he missed last season with a broken ankle. . . . Davidson College linebacker Bob Coxie is making a name for himself in the laboratory. Coxie spent the summer at Emory University on a clinical fellowship for cancer research. He applied for the Emory fellowship last spring and was the lone recipient in cancer research. Coxie is a premedicine major with a 3.600 grade-point average.

Frank Arnold, who resigned as Brigham Young University's basketball coach at the end of the past season, has been named assistant to the dean of the university's college of physical education. He will work with the development office to raise funds for the college's special projects. . . . The Boise State University Pavilion has been selected for the 1983 facility of merit recognition by Athletic Purchasing and Facilities magazine. The pavilion will be featured in an issue of the magazine later this year. . . . The first Dave Hart National Athletic Administrators Conference is scheduled for May 20-23, 1984, at the Marriott Airport Hotel in St. Louis. Included on the program are Donald B. Canham, director of athletics at the University of Michigan, and G. Jean Cerra, associate director of athletics at the University of Missouri, Columbia.

20 championships

Continued from page 7

Los Angeles, California, March 30 and April 1, 1984.

Cross country (common sites except District 1): Regionals (all November 12, 1983)—District 1 at University of Vermont, Burlington, Vermont; District 2 at Lehigh University, Bethlehem, Pennsylvania; District 3 at Clemson University, Clemson, South Carolina; District 4 at Michigan State University, East Lansing, Michigan; District 5 at Iowa State University, Ames, Iowa; District 6 at University of Texas, Austin, Texas; District 7 at Weber State College, Ogden, Utah; District 8 at University of Oregon, Eugene, Oregon; Finals—Lehigh University, Bethlehem, Pennsylvania, November 21, 1983.

Field hockey: First rounds—on-campus sites, November 12-13, 1983; Finals—University of Pennsylvania, Philadelphia, Pennsylvania, November 18-20, 1983.

Gymnastics: Regionals (all March 24, 1984)—Northeast at Pennsylvania State University, University Park, Pennsylvania; Southeast at University of Florida, Gainesville, Florida; Central at University of Missouri, Columbia, Missouri; Midwest at University of Utah, Salt Lake City, Utah; West at California State University, Fullerton, California; Finals—University of California, Los Angeles, California, April 6-7, 1984.

Softball: First rounds—on-campus sites, May 17-18, 1984; Finals—Seymour Smith Softball Complex, Omaha, Nebraska (Creighton University host), May 23-27, 1984.

Swimming and diving: Regionals (common sites) (all March 9-10, 1984)—Districts 1 and 2 at U.S. Naval Academy, Annapolis, Maryland; District 3 at University of Florida, Gainesville, Florida; District 4 at University of Wisconsin, Madison, Wisconsin; Districts 5 and 6 at University of Arkansas, Fayetteville, Arkansas; Districts 7 and 8, Arizona State University, Tempe, Arizona; Finals—IU/PUI Natatorium, Indianapolis, Indiana (Indiana University host), March 15-17, 1984.

Tennis: University of California, Los Angeles, California, May 12-20, 1984.

Outdoor track (common site): University of Oregon, Eugene, Oregon, May 28-June 2, 1984.

Volleyball: First rounds—on-campus sites, December 2-4, 1983; Regionals—on-campus sites, December 8-11, 1983; Finals—University of Kentucky, Lexington, Kentucky, December 17-19, 1983.

Division II—Women's

Basketball: First rounds—on-campus sites, March 6, 1984; Regionals—on-campus sites, March 10, 1984; Quarterfinals—on-campus sites, March 16 or 17, 1984; Finals (common site)—Springfield Civic Center, Springfield, Massachusetts (American International College and Springfield College hosts), March 22 and 24, 1984.

Cross country (common sites): Regionals (all October 29, 1983)—East at Holy Cross College, Worcester, Massachusetts; South at West Georgia College, Carrollton, Georgia; Central at South Dakota State University, Brookings, South Dakota; Great Lakes at University of Wisconsin, Parkside, Kenosha, Wisconsin; West at California State University, Sacramento, California; Finals—University of Wisconsin, Parkside, Kenosha, Wisconsin, November 12, 1983.

Field hockey: First rounds—on-campus sites, November 4-5, 1983; Finals—on-campus site, November 12, 1983.

Gymnastics: Regionals (all March 17, 1984)—Northeast at Keene State College, Keene, New Hampshire; Southeast at Radford University, Radford, Virginia; Midwest at Jacksonville State University, Jacksonville, Alabama; Central at U.S. Air Force Academy, U.S. Air Force Academy, Colorado; West at Seattle Pacific University, Seattle, Washington; Finals (common site)—Springfield College, Springfield, Massachusetts, March 29-31, 1984.

Softball: First rounds—on-campus sites, May 11-12, 1984; Finals—on-campus sites, May 18-20, 1984.

Swimming and diving (common site): Hofstra University, Hempstead, New York, March 7-10, 1984.

Tennis: University of Tennessee, Chattanooga, Tennessee, May 7-12, 1984.

Outdoor track (common site): Southeast Missouri State University, Cape Girardeau, Missouri.

Volleyball: Regionals—on-campus sites, December 2-3, 1983; Finals—Florida Southern College, Lakeland, Florida, December 9-10, 1983.

Division III—Women's

Basketball: Regionals—on-campus sites, March 2-3, 1984; Quarterfinals—on-campus sites, March 9 or 10, 1984; Finals—University of Scranton, Scranton, Pennsylvania, March 16-17, 1984.

Cross country (common sites): Regionals

(all November 12, 1984)—New England at Southeastern Massachusetts University, North Dartmouth, Massachusetts; New York at Cortland State University College, Cortland, New York; Midwest at Lebanon Valley College, Annville, Pennsylvania; Great Lakes at Albion College, Albion, Michigan; Central at Luther College, Decorah, Iowa; Midwest at Augustana College, Rock Island, Illinois; Southeast/South at Christopher Newport College, Newport News, Virginia; West at Mills College, Oakland, California; Finals—Christopher Newport College, Newport News, Virginia, November 19, 1983.

Field hockey: First rounds—on-campus sites, November 4-5, 1983; Finals—on-campus site, November 11-12, 1983.

Softball: First rounds—on-campus sites, May 11-12, 1984; Finals—St. Norbert College, DePere, Wisconsin, May 19-22, 1984.

Swimming and diving: Emory University, Atlanta, Georgia, March 8-10, 1984.

Tennis: Kalamazoo College, Kalamazoo, Michigan, May 7-12, 1984.

Volleyball: First rounds—on-campus sites, November 18-19, 1983; Regionals—on-campus sites, December 2-3, 1983; Finals—University of La Verne, La Verne, California, December 9-10, 1983.

Kansas cancels game with Soviets

The University of Kansas September 15 became the seventh and last institution to cancel an exhibition basketball game with the Soviet Union. Kansas officials did so at the request of the Amateur Basketball Association of the USA.

Bill Wall, executive director of the ABA/USA, said public opinion influenced by the downing of the Korean Air Lines flight by the Soviet Union played a part in the cancellation of the seven preseason games.

NCAA staff compensation procedures are reviewed

The NCAA Executive Committee, which is responsible for implementation of the Association's staff evaluation and compensation policies, voted in its August meeting to present to the membership, via The NCAA News, an up-to-date report on its work in these areas.

Secretary-Treasurer John R. Davis said the committee traditionally has used the Consumer Price Index for All Urban Consumers (CPI-U) in the Kansas City area as a basis for cost-of-living adjustments. For the new fiscal year that began September 1, the staff cost-of-living adjustments approved by the Executive Committee actually averaged 4.6 percent, compared to Kansas City's CPI-U of 5.6 percent. Merit increases for the new fiscal year averaged 3.6 percent for a total 8.2 percent average for the 1983-84 fiscal year.

Compensation for commissioners of conferences and directors of athletics in Division I-A is used as a guideline for determining salaries of NCAA department heads—the five assistant executive directors and the controller. Salaries for their chief aides generally are measured against

associate and assistant commissioners and associate and assistant directors of athletics within Division I-A. Depending on the skills and market-place factors involved, other staff positions are measured against salaries of sports information directors, business-publications editors and similar guidelines.

The Staff Evaluation Committee, a subcommittee of the Executive Committee, annually reviews staff operations, employee benefits and salary recommendations as presented by the executive director. At its August 14 meeting, the subcommittee also considered information on salary increase patterns in higher education generally, as well as in the field of intercollegiate athletics.

The recommendations of the Staff Evaluation Committee then are presented to the full Executive Committee, which considers them in executive session and makes the final decisions in all instances.

The current NCAA staff consists of 58 administrative employees and 35 secretarial and other nonadministrative personnel.

Experiments changes reported

The NCAA Men's Basketball Rules Committee has notified the national office of three changes concerning allied conferences granted experimentation rights listed in the September 12 issue of The NCAA News.

According to the committee, the Sun Belt and Southwestern Athletic Conferences have been added to the

list of leagues that will experiment with a coaching box this season.

The committee inadvertently listed the Southland Conference as conducting an experiment with a 45-second shot clock, turned off the final four minutes of a game. The Southland had not requested experimentation rights and will not use a shot clock this season.

The NCAA News

The Market

Readers of The NCAA News are invited to use The Market to locate candidates for positions open at their institutions, to advertise open dates in their playing schedules or for other appropriate purposes.

Rates are 35 cents per word for general classified advertising (agate type) and \$17.60 per column inch for display classified advertising. Orders and copy are due by noon five days prior to the date of publication for general classified space and by noon seven days prior to the date of publication for display classified advertising. Orders and copy will be accepted by telephone.

For more information or to place an ad, call 913/384-3220 or write NCAA Publishing, P.O. Box 1906, Mission, Kansas 66201.

Positions Available

Sports Information

Sports Information Director. The University of South Florida is accepting applications for Sports Information Director. Requirements: Bachelor's degree with major course work in communications, journalism and/or public relations, or a bachelor's degree and any equivalent combination of experience and training, and four years' experience in journalism or public relations work, two of which shall have been in a supervisory capacity. Salary commensurate with professional experience and qualifications. Deadline October 6, 1983. Send resume and three letters of reference to: John Wadas, Athletic Director, University of South Florida, Tampa, FL 33620. An equal opportunity/affirmative action employer.

Athletic Trainer

Head Trainer, Physical Education, Red Cross.

certified in CPR and first aid. ATC certified. Applicants should send credentials by October 10, 1983, to: Dr. Kevin White, Director of Athletics, Loras College, Dubuque, Iowa 52001.

Basketball

Head Men's Basketball Coach. The academic year position as head coach of the men's basketball program. Duties will be allocated as follows: 50 percent release time for coaching, 50 percent for teaching and other duties as assigned. Responsibility for administering the men's basketball program within the guidelines of the NCAA and the North Central Intercollegiate Athletic Conference. The coach will report directly to the director of athletics. Minimum qualifications are a master's degree required and head coaching experience in basketball at the college or university level preferred. Salary is negotiable with a minimum of \$25,000 for the academic year. Please submit a resume and three letters of recommendation to: Robert L. Heiny, Chair, Search and Screen Committee for Head Coach of Men's Basketball, President's Office, University of Northern Colorado, Greeley, CO 80639. Application deadline October 1, 1983. Starting date October 15, 1983.

Physical Education Instructor and Men's Varsity Basketball Coach, Clarkson College. Monticure track, temporary appointment.

Appointment runs through May 16, 1984. Responsibilities include teaching in the Physical Education Program and coaching, recruiting and scouting. Qualifications: Bachelor's Degree required (Master's Degree preferred), college playing experience or equivalent college coaching experience. Salary negotiable, consistent with qualifications. Application deadline October 1, 1983. Please forward resumes, recommendations and inquiries to: John Hantz, Chairman, Physical Education, Recreation and Intercollegiate Athletics, Clarkson College, Potsdam, NY 13676. Clarkson College is an equal opportunity/affirmative action employer.

Track & Field

Track Graduate Assistants. Two positions available. Will assist men and women track athletes. (1) Assist jump events. (2) Assist middle distance and distance events. Available immediately. Stipend \$2,700 for academic year. Covers room, board and fees; out-of-state fee waived. Qualifications: bachelor's degree, 2.52 GPA (4.00 is A). Application procedure: Contact Las Stevens, Track Coach, Central Missouri State University, Warrensburg, MO 64093, 813/429-4254.

Wrestling

Head Coach of Wrestling. This is a part time position, for the wrestling season of 1983-84 (November 1 through March 1). Person filling this position will be replacing a permanent faculty member on leave for the academic

year 1983-84. Starting date November 1, 1983. EXPERIENCE: participation in collegiate wrestling or high school or college coaching experience in wrestling. RESPONSIBILITIES: coach the varsity men's wrestling team and assist with the administration of the program. SALARY: \$5,000. Address application to: Robert R. Peck, Chairman, Department of Physical Education, Athletics and Recreation, Williams College, Williamstown, MA 02167. Include names, addresses and telephone numbers of three references.

Open Dates

Men's Basketball, Division III. Oberlin College has open dates December 28 and 29 and would like to compete in tournament if possible, or at least fill one of the two openings. Please contact Pat Penn, head basketball coach, 216/775-8500.

Football, Division I-AA. University of Massachusetts/Amherst has open dates September 15, 1984, September 24, 1988, and September 23, 1989. Call Al Rufe, 413/545-2342.

Women's Tennis, Division I. University of New Orleans needs two teams to participate in a six team, round robin tournament April 14-16, 1984. Other dates are open for dual matches. Contact Bernie Cox 504/286-6620.

Football, Division II. Portland State University, Portland, Oregon, has open dates September 1, 1984; October 20, 1984; October 27, 1984, and November 3, 1984. Institution would be interested in Division I-A, I-AA or II opponents. Contact Roy Love, Director of Athletics, 503/229-4400.

Assistant Athletic Director Head Baseball Coach

Responsibilities: Coach and administer men's baseball program. Recruit highly skilled baseball players to Kent State University. Work within the policy guidelines and regulations of Kent State University, the Mid-American Conference and the NCAA. Responsible for facilities management and scheduling. Will assist in game management and any other duties as outlined by the director of athletics.

Qualifications: Minimum of bachelor's degree with master's degree preferred. Ability to manage a broad-based athletic department in regard to facilities and scheduling, and a Division I baseball program.

Appointment: Twelve-month position.

Salary: Commensurate with background and experience.

Application Deadline: Accepting applications until position is filled. Please forward letter of application, professional resume and three letters of reference to: Mr. Paul V. Amodio, Director of Athletics, Kent State University, Kent, OH 44242.

Kent State University is an equal opportunity/affirmative action employer.

Commissioner

West Coast Athletic Conference

Organizational information: The West Coast Athletic Conference is an organization of eight member universities located in California, Oregon and Washington. The Conference is in Division I of the National Collegiate Athletic Association. Members are: Gonzaga University, Loyola Marymount University, Pepperdine University, University of Portland, St. Mary's College, University of San Diego, University of San Francisco, and University of Santa Clara.

General description: The Commissioner is the full-time chief executive officer of the West Coast Athletic Conference and is employed by the Executive Committee.

Relationship and authority: The Commissioner reports to the Executive Committee consisting of University Representatives and Directors of Athletics at the member institutions. The Commissioner supervises the staff and is responsible for the conduct of the office as outlined in the Constitution, and the detailed job description.

Duties and responsibilities: Serves as Secretary of the Conference; is ex officio, nonvoting member of all Conference committees; interprets and enforces Conference and NCAA rules and regulations; handles all meeting arrangements and keeps minutes; conducts public relations program; maintains liaison with national athletic associations; coordinates all Conference meets and tournaments; prepares Conference playing schedule; prepares and maintains annual budget; and gives advice and guidance for general administration of the Conference.

Qualifications: Candidate shall have at least an undergraduate college degree, graduate degree preferred; have experience in and knowledge of NCAA rules; possess administrative experience in college athletics; should have proven promotional, public relations and managerial skills; and have demonstrated leadership ability.

Salary: Commensurate with experience and ability. Starting date to be determined with candidate.

Application: Candidates should submit a letter of application with resume and supporting materials, along with a minimum of three written references to:

Thomas F. Burke, President, WCAC
University of San Diego
Alcala Park
San Diego, California 92110

Application deadline: September 30, 1983.

The West Coast Athletic Conference is an affirmative action/equal opportunity employer.

Newsworthy

q:

Who was the last freshman in NCAA Division I-A football to rush for 1,000 yards or more in a season: a. Kerwin Bell, Kansas; b. Joe McIntosh, North Carolina State; c. Marcus Dupree, Oklahoma; d. Herschel Walker, Georgia?

Buckeyes realign athletics program

Larry R. Thompson, special assistant to the president of Ohio State University, has taken over temporarily supervision of the student athletics programs at the institution.

President Edward H. Jennings said temporary reassignment of athletics is needed because of increased work in many areas of student services. The athletics department had reported to the vice-provost for student services in the office of academic affairs.

Jennings also announced that Russell Spillman, associate provost, would be responsible for the academic matters associated with athletics to ensure that these academic matters are properly retained within the office of academic affairs.

Athletics association appeal denied

The Georgia Supreme Court has cleared the way for a trial of former Georgia Institute of Technology football coach Pepper Rodgers' lawsuit against the institution's athletic association over \$331,000 in perquisites that Rodgers claims he lost when he was fired in 1979.

The Georgia court refused to hear the athletic association's appeal of a decision by the Georgia Court of Appeals that overturned a ruling dismissing Rodgers' suit. The supreme court's decision sent the case back to superior court for trial.

In overturning the superior court ruling, the court of appeals said in March that Rodgers was entitled to compensation for the perquisites he lost when he was fired two years before his contract expired.

Women's conference to begin play

Eight institutions in Kentucky and Tennessee have organized an athletics conference for women, which will begin competition in eight sports this fall.

The Women's Intercollegiate Athletic Conference has been granted allied membership in the NCAA and is composed of the following institutions: Asbury College, Berea College, Fisk University, Maryville College (Tennessee), Southwestern College (Tennessee), Transylvania University and the University of the South.

Kitty R. Baird, associate director of athletics at Centre, will serve as chair of the conference board of directors.

Wilson to get reported \$100,000

Former University of Illinois quarterback Dave Wilson reportedly will receive more than \$100,000 in a settlement of a 3 1/2-year legal battle with the Big Ten Conference over his eligibility, according to the Associated Press.

Wilson, who came to Illinois from Fullerton Junior College in California, was declared academically ineligible when he transferred in 1980. He then sued the university and the conference. He played the 1980 season under an injunction provided by the Illinois Supreme Court.

Western football league expands

California Lutheran College, which has a 157-44-5 record in football the past 21 years, has been accepted as a member of the Western Football Conference, effective with the 1985 season.

The addition of Cal Lutheran, located in Thousand Oaks, California, increases the league's membership to five. Current members are California Polytechnic State University, San Luis Obispo; California State University, Northridge; Portland State University, and the University of Santa Clara.

Cal Lutheran won the 1971 NAIA Division II national championship and finished second in 1975 and 1977.

Women to play for championship

The Eastern College Athletic Conference South division will hold its first women's championship when the conference sponsors a postseason basketball tournament March 2-4.

Five of the conference's six members will participate in the tourney. Only the U.S. Naval Academy, which has a Division II women's basketball program, will not take part in the tournament.

George Mason University, East Carolina University, James Madison University, University of Richmond, and the College of William and Mary will participate. William and Mary also sponsors women's basketball on the Division II level; the other four schools are classified in Division I.

NAIA delays basketball actions

The executive committee of the National Association of Intercollegiate Athletics has deferred a decision on a 45-second shot clock and a three-point field goal in men's basketball.

During its recent summer meetings, the NAIA executive committee voted to conduct a survey of coaches and review the findings at a meeting next March.

college student-athletes.

The Drug Education Committee also is working on production of audio-visual materials, as reported in the April 20 issue of The NCAA News. The Fiesta Bowl has worked with the NCAA on drug-education efforts and is seeking funding for the production of a videotape that institutions could purchase at cost.

If successful, this tape (which would be general in nature) would be the first in a series on drug-education topics that would be made available. The committee plans to work on the script in October and hopes to have the tape produced by next summer.

TV

network series."

The materials mailed by the television committee detail the history of the interpretation. Turner Broadcasting earlier had sent mailgrams to selected college athletics administrators, which, according to Hindman, attempted "to discredit actions that have been taken by the committee."

"There has been no question, in the committee's opinion, about the basic issue that has been raised by TBS," Hindman said. "The networks have had, and continue to have, priority in the selection of games."

Robert Wussler, executive vice-president of Turner Broadcasting, supports Hindman's assessment in a September 6 letter to NCAA Execu-

William Anderson of Michigan State's Office of Medical Education Research and Development in the College of Human Medicine contacted the NCAA about a year ago to discuss the drug-use study. He was referred to the Drug Education Committee, which recommended it for funding to the Research Committee. It was among six proposals totaling \$56,500 approved for funding by the NCAA Executive Committee in August (see accompanying story for complete list).

"At this point the NCAA is interested in learning if there is a drug problem in varsity athletics," Anderson said. "If there is, the NCAA

Executive Director Walter Byers. "We are very aware of the fact that our network's rights of scheduling will always come after both ABC and CBS have exercised their rights of option," he wrote.

Turner is in the second year of its two-year, \$17.6 million agreement with the NCAA to carry the supplementary series. As early as May 1982, the Football Television Committee clarified that Turner did not have the right to move a game to insulate that contest from network selection. Any game moved to a new time or date at the insistence of Turner that subsequently is selected at its original time and date by a network must be made available to the network, if the institution wants to appear on television.

Cougars making tracks

Brigham Young quarterback Steve Young leads Division I-A in total offense with 437 yards per game for the Cougars.

Six research projects approved

The Michigan State University study of drug use among college student-athletes was the largest project approved for NCAA funding by the Research Committee.

The study, entitled "Study of the Substance Use and Abuse Habits of College Athletes," was granted \$24,599 by the NCAA Executive Committee. William A. Anderson and Douglas B. McKeag, M.D., are the principal researchers.

Six projects were approved for funding. Four others were recommended by the Research Committee, but funds were not granted. Projects approved were:

- \$9,500 to the National Center for Catastrophic Sport Injury Research. Frederick O. Mueller and Carl S. Blyth of the University of North Carolina, Chapel Hill, conduct this annual research.

- \$5,000 annual grant to the National Operating Committee on

Standards for Athletic Equipment (NOCSAE).

- \$4,940 to Deloras Maas of Wayne State University (Michigan) for a study of the "Relationship Between Helmets and Cerebral Concussion in Football."

- \$4,000 for a pilot study of "A Marketing Model for Nonrevenue Sports in Intercollegiate Athletics" by Allen R. Bohl of Ohio State University.

- \$8,500 for a study entitled "The Iowa Wrestling Study: The Establishment of a National Data Center for Anthropometric and Densimetric Results of Wrestlers and the Validation of a Prediction Equation for a Minimal Wrestling Weight," by Charles M. Tipton of the University of Iowa.

Research applications are considered annually by the Research Committee. Applications involving sports-medicine aspects first must be

wants to institute relevant drug-education programs for athletes, trainers and coaches."

Anderson and McKeag will begin the study this month. Anderson said that substances to be looked at include over-the-counter prescriptions and illegal drugs. Specific substances involved include aspirin, vitamins, caffeine, tobacco, marijuana, painkillers, anabolic steroids, cocaine, amphetamines and heroin.

Men's sports currently scheduled to be studied are baseball, basketball, football, track and field, and tennis. Women's sports will be softball, basketball, field hockey, track and field, and tennis.

Select

the final report, working from a detailed draft report that was reviewed in the meeting. They will submit their drafts to Schaefer by the last week of this month, and he will consolidate those drafts into a single report to be mailed to all members of the committee for their approval.

The committee—which includes seven college presidents and chancellors, three distinguished citizens not involved in the campus administration of college athletics, two faculty athletic representatives, two directors of athletics, a football coach, and a basketball coach, in addition to Schaefer—is funded by the NCAA but operates as an independent commission.

Holmes to join tennis circuit, leave Utah early

Defending NCAA Division I men's tennis singles champion Greg Holmes of Utah will pass up his final two years of eligibility and turn professional.

Holmes was the first tennis all-America from Utah and the Western Athletic Conference. He qualified for the singles draw as a freshman in 1982 and then won the singles title last year.

Holmes won a gold medal at the Pan American Games this summer and also advanced to the fourth round of the U.S. Open Tennis Championships, upsetting No. 6 seed Guillermo Vilas along the way.

"I struggled with the decision for a long time," said Holmes last week. "It wasn't any one match or one tournament that made up my mind. I've been playing pretty well lately. I'd just like to give it a try. I think now is the best time."

recommended to the Research Committee by the Committee on Competitive Safeguards and Medical Aspects of Sports.

Information concerning applications for NCAA research grants can be obtained from Eric D. Zemper, research coordinator, at the NCAA national office.
