## Select committee reports principal positions

Many of the principal positions and recommendations agreed upon by the Select Committee on Athletic Problems and Concerns in Higher Education were reported to the NCAA-sponsored meeting of institutional chief executive officers September 19-20 in Kansas City.

A summary of the material reported at that meeting was mailed September 23 to the chief executive officer of each NCAA member institution at the direction of John P. Schaefer, executive director and acting chair of the select committee.

In his letter to the CEOs, Schaefer said the select committee was appointed by the NCAA Council to

develop new and revised policies to deal with the most pressing problems in college athletics. He noted the full report would be available in printed form about the third week in October, and he urged all CEOs to peruse it in detail once they receive the complete report.

"The committee was made up entirely of Division I institutional representatives (and most of those representing Division I-A institutions) because most of the problems seemed to exist at that level of athletic activity," he wrote.

"There has been some criticism that the select committee should not have dealt with certain issues because

it was not representative of all of the NCAA membership or of all segments of Division I," he said. "The committee essentially limited itself to Division I problems as they had been identified by the major institutions of Division I; when it moved into other areas, such as athletics governance, it was because the Division I-A members of the committee believed that the capacity of member institutions to deal with their problems on the national level was directly affected by the legislative forum available to them through the NCAA."

The committee will review the final draft of its complete report

early next month. Following is the material mailed September 23 to chief executive officers.

### Summary of Conclusions and Recommendations

[Note: The following represents principal positions and recommendations by the Select Committee on Athletic Problems and Concerns in Higher Education as of September 11, 1983, and as presented to the NCAA-sponsored meeting of institutional chief executive officers September 19-20 in Kansas City, Missouri. The committee has yet to review the full text of its final report, which will be available in October.]

### Academic Issues

1. The committee supports the actions taken by the 1983 NCAA Convention to strengthen academic standards for Division I student-athletes, with the understanding that the NCAA will conduct appropriate research regarding the impact of those standards and, based on that research, will propose any modifications that may be justified.

2. Academic standards for Division I student-athletes should be more demanding than they are now, consistent with the fact that other students who receive performance scholarships are expected to exceed the academic performance of the student body in general.

3. Every prospective Division I student-athlete should demonstrate the academic potential to be a legitimate college student, and the assessment of that potential should be based on national standards adopted by the Division I NCAA membership. In that regard, the committee supports the use of standardized test scores as a guide to determine athletic eligibility. It takes no position on specific test scores, but believes they are an effective indicator and predictor of college success and are, in short, the best instrument available to measure the student's potential to succeed.

4. Precollege education in the United States must be strengthened so that all students receive the educational experiences necessary for success at the collegiate level; therefore, the committee favors strengthened high school curricula that provide students with the basic skills necessary to promote academic success.

5. Institutions of higher learning must reaffirm the primacy of the academic support systems needed by the educationally disadvantaged student-athlete to make academic success a probability, rather than a possibility. These need to be accomplished by means that promote the access of minorities to higher education instead of adding additional hurdles to their matriculation.

### Satisfactory Progress Toward a Degree

1. The members of the committee strongly favor a satisfactory-progress requirement that is both strong and practical and that respects institutional autonomy. Institutions should have a specific satisfactory-progress rule for their student-athletes to meet, and that requirement should mandate that those certified to participate in intercollegiate athletics make sufficient progress to graduate within a five-year period. To that end, those athletes certified to participate should be taking the requisite number of courses in a required curriculum and should have grades acceptable for graduation.

2. A successively greater minimum accumulative grade-point average should be required for eligibility in each year.

3. Each institution should be required to publish its requirements

See Select, page 8

## Principles established for CEO involvement

The Special NCAA Committee on Governance Review has agreed on seven principles that it will use in reviewing various options for assuring greater involvement by institutional chief executive officers in the NCAA and in the consideration of national athletics issues.

The special committee, chaired by Secretary-Treasurer John R. Davis of Oregon State University, is considering suggestions regarding CEO involvement from several sources, including the Select Committee on Athletic Problems and Concerns in Higher Education, the American Council on Education's Committee on Division I Intercollegiate Athletics, individual college presidents and others.

The NCAA committee will submit its recommendations to the NCAA Council at the Council's October 10-12 meeting.

NCAA President John L. Toner, on behalf of Davis, reported the special committee's adopted set of principles to Division I chief executive officers attending the NCAA-sponsored CEO meeting September 19-20:

1. The chief executive's ultimate responsibility for institutional control of athletics should be affirmed and enhanced by building on the CEO's current responsibilities in key NCAA decision-making circumstances. For

example, the CEO approves NCAA football television plans, appoints the institution's Convention delegates and certifies the institution's compliance with national regulations.

2. The new, partially federated NCAA structure and procedures should be cornerstones of the contemplated CEO structure. Athletic conference organizations and membership divisions also should be reflected in the contemplated CEO structure.

3. The fundamental, democratic principle that each institution is entitled to vote on each issue affecting it must be maintained.

4. Member institutions should continue to control directly, through Convention action, all activities of the NCAA.

5. The knowledge and experience of the professional practitioners in intercollegiate athletics—the faculty athletic representatives, athletics administrators and coaches—must not be ignored in the development of athletics policies and regulations if such requirements are to be effective.

6. Means should be developed to assist CEOs in maintaining institutional control of athletics, at three levels: First, by recognizing the chief executive who effectively maintains institutional control in the current structure; second, by supporting the

See Principles, page 8

### CEOs discuss issues

President C. Peter McGrath of the University of Minnesota, Twin Cities, and Charles E. Young, chancellor of the University of California, Los Angeles, were among 48 institutional chief executive officers discussing current issues in intercollegiate athletics during the fourth annual NCAA-sponsored meetings of CEOs September 19-20 in Kansas City, Missouri. The separate meetings of Divisions I, II and III chief executives will be reviewed by the NCAA Council in its October 10-12 meeting. A summary of the meetings will be mailed to all participants October 7.

## New coalition sets 'women's agenda'

A continuing women's political organization has been created as a result of a meeting in Washington, D.C., August 3-6, at which a group of 37 women discussed "Collegiate Athletics in the 80's: Strategies for a Women's Agenda."

A recently released summary of the meeting reports that during a session August 5, chaired by Margot Polivy, legal counsel for the Association for Intercollegiate Athletics for Women (AIAW), priority areas were defined as: (1) to improve the status of women in athletics; (2) to increase the political influence of women; (3) to develop a powerful and public voice for women in athletics, and (4) to strengthen the role, power and influence of women in athletics on campus.

In the same August 5 session, the following tactics were outlined:

• Accurate data must be obtained to argue for legislative changes, program expansion, pay equity, con-

tinued enforcement of Title IX, etc.

• Women administrators need to establish a strong position with their own CEOs on campus via direct personal contact or indirect contact through "influential" others.

• Steady pressure must be developed and maintained on all fronts.

• Use of alleged sexual preference as "blackmail" is . . . being used to control and undermine professional women; use of such tactics was termed "abhorrent and destructive."

The conferees listed their overall concerns as follows:

• A need for networking and communication to overcome feelings of isolation and avoidance.

• Strong personal feelings of "burnout," stress, paranoia and anger, which made it extremely difficult to maintain diplomatic versus "hard" approaches to problem-solving.

• An evident loss of women's values in the adoption of the male model in athletics compared to the model

women would design if unfettered by the current athletics governance system.

• Concerns about student-athletes included the lack of understanding and appreciation of the role of women in creating today's opportunities, the fear of association with the feminist movement and the struggle for equality because of the possibility of being labeled "lesbian."

• A perceived "slowing down" or "ebbing" of real commitment to the development of women's athletics programs due to lack of concern over maintaining previous levels of competition and loss of numbers of competitive opportunities.

• Accommodation of separate department structures.

• Continuation of differing rules where appropriate.

The meeting agreed that a steering committee should be organized, and the group formed a "Basis for a Task Force" that can begin immediately

to work in three major areas:

1. Development of NCAA legislation.

2. Nominations for NCAA committees and elected offices.

3. Development of a legislative lobbying network that could also serve as a telephone network in case immediate communication is needed on a Title IX or other pertinent issue.

The August 3-6 conference was sponsored by the American Council on Education (through its Office of Women in Higher Education) and by the American Association of Colleges (through its Project on the Status and Education of Women).

A number of continuing task forces were designated. Among them were the Task Force on Title IX/National Legislation, with Christine Grant, University of Iowa, as principal coordinator; Task Force on NCAA Legislation/Accountability, Donna Lopiano, University of Texas, Austin, See New, page 8

### In the News

A humorous look at football polls by Bob Lipper of the Richmond Times-Dispatch . . . . . 2

Football notes and statistics in Divisions I-A, I-AA, II and III 3-6

# Polls spark conversation in college football

By Bob Lipper

Richmond Times-Dispatch

I've always liked polls. Barber polls, flat polls, tad polls, polls from Warsaw, North polls, South polls, polls apart, fishing polls, greased polls—but mostly football polls. Give me a good ol' Top 20 to pore over and dissect and ponder, and I'm as happy as a marketing analyst with Standard & Poors laid out before him.

These days, I'm in heaven. The college football season is in high gear and I've got enough polls spread across my desk to paper a wall. I've got AP, UPI, Playboy, Sports Illustrated, you name it. And this doesn't count the polls I scanned at the drug

store while leafing through the summer selection of football mags. You know, the ones that intersperse an occasional conference rundown amid the tout-service ads.

From now on, insurance salesmen and auto mechanics will be able to pick up their newspaper on Tuesday or Wednesday, flip to the sports section, mutter to themselves, turn to the person nearest them and say, "Ballyhoo Tech is No. 1? They don't play a schedule worth a hoot."

And other neat stuff like that.

Polls not only spark meaningful conversation, they also provide college football with a thread that ties a season's beginnings to its raucous conclusion, when the mythical

national champion is crowned immediately after the New Year's Day bowls. That's when the final AP and UPI tabulations are made. In case you forgot, Penn State got the nod in both polls last season.

In recent years, some folks have

## Columnary Craft

called for a play-off—an NCAA football tournament, if you will—to replace the polls as the means to determine a national champion. Nobody exactly knows how this system would work, but the general idea would be to take the top eight or 16 teams, maybe match them up within the framework of the post-season bowls, let 'em have at each other and, when the dust settles, you wind up with a be-all-and-end-all No. 1. No speculation, no final vote,

no muss, no fuss, no wrap-it-up polls.

Don't do it, gang. The format works for basketball—the weekly polls fueling interest until the NCAA play-offs begin—but basketball is a tournament sport. Football isn't. College football careens toward the bowls, meshing finally with the Christmas-holidays atmosphere to wrap up the season in a nice, shiny package. Lots of tinsel and drama, from Miami to Pasadena. And the final polls. The curtain-closer.

The wire services have been in the poll business a long time. The Associated Press poll of sports writers began in 1936, with Minnesota being picked No. 1 in the final ballot.

The United Press started its coaches poll in 1950, with Oklahoma finishing on top, the same as in AP. Since then, the season-ending polls have differed seven times, the latest being in 1978, when the AP named Alabama

and UPI countered with Southern Cal.

OK, the setup is flawed and imperfect. Ultimately, it depends on the disparate views of writers from Cedar Rapids and coaches from New England to form a consensus and give us a national champion or, in some instances, a shared national championship. It's a little wacky, but then, that's what makes the college game. If you want crisp efficiency and no guesswork, play Intellivision or watch the NFL. If you want the uncertainty of polls and the Stanford band covering kickoffs, college football is your meat.

So now the season is under way and the weekly listings will start to build to their January wrap-up. Lots of jockeying for position, lots of debates, loads of fun.

It's the only way to go.

That's my poll position.

## Questions/Answers

**Q.** Why does the NCAA put restrictions on football and not on basketball? For example, why must an institution play basketball in Division I in order to play football in Division I-AA when Division I basketball teams do not have to play football at all?

**A.** In establishing the three divisions in 1973, the member institutions of the NCAA determined that all of an institution's sports should be in the same division, with limited exceptions. A member of Division I could place its football program in Division II or III, but the remainder of its men's sports would have to be in Division I. A Division II member could place one men's sport, other than football or basketball, in Division I and could classify its football program in Division III; a Division III member is permitted to put one men's sport in Division I. No institution is required to sponsor any particular sport to be in a given division; therefore, a member of Division I-AA football does not have to sponsor basketball at all so long as it meets the criteria for Division I membership.

**Q.** How are the consensus all-America football teams chosen?

**A.** All-America teams chosen by Associated Press, United Press International, Football Writers Association of America and American Football Coaches Association are used to compile the consensus all-America team. Players do not have to make all four teams; however, the player at each position (11 offensive, 11 defensive, punter, place kicker) who is named to the majority of the four teams is selected the consensus choice.

# College players not professionals

Bo Schembechler, football coach  
University of Michigan

Pittsburgh Press

"We're not professionals. There are 105,000 people who come out here to watch games. The people who play the games, I don't care what you say, they're all student-athletes. They give a good, honest effort.

"When you come on a college campus, you see bands, tailgating . . . that's all part of the show. I heard (ex-

## Opinions Out Loud

Miami Dolphin) Jim Mandich say his greatest experience was in college football with Michigan—and he played in, what, four Super Bowls? If that kind of experience is worthwhile, what are we criticizing it for?

"Let's get those people who aren't living within the rules and doing it the way it's supposed to be done to clean it up. The players get board, books, tuition and fees. They've had it this way for over 50 years. The opportunity to get a degree from this great university and to play college football—that's all it is. It's not pro ball. I'm not preparing them for pro ball. My God, if I'm doing that, I failed with over 90 percent of the guys I coached . . . because they didn't make it."

Robert Rotella, director of sports psychology  
University of Virginia

The Washington Post

"Athletes are allowed to get away with a lot of things they wouldn't get away with outside of sports. And when they encounter problems, they now have the means to look for short-term cures (drugs and alcohol) that carry long-term, negative consequences. Abuse of alcohol and marijuana has been going on for a long time. But there's definitely an increase in hard-drug usage.

"This generation has different problems than the one coaching it. We're seeing more identity problems, more burnout at earlier ages. The entire identity is tied up with 'me the athlete.' Maybe we've bought too much of the American Dream.

"I'd be guessing to say where some of this behavior comes from. But now, with tell-it-like-it-is reporting, the truth may erode the image as a hero. The athletes who come to us, we try to tell them they aren't either wonderful or terrible, and that they have to have an understanding of both mind and body to come to grips with the existing pressures."

Kathryn Pierce, director of girls' athletics  
Maine (Illinois) South High School

Chicago Tribune

"Years ago, Title IX was a burning issue in high schools. The past couple of years, it's become a quiet time. In most cases, there's an understanding now that the girls' programs are here to stay, and there's sharing. The athletes understand each other, they cheer for each other and have a common goal—to represent the school as well as they can."

Tom Shupe, associate director of athletics  
West Virginia University

The Washington Post

"We would suffer as much as most (without a football television plan). We couldn't put together our own (and

make money on it). One regional appearance to us is a reasonable shot in the arm that can help us through a season; not totally, of course, but it would help. It's critical that we be included in any plan that comes about. That wouldn't be the case for a Penn State, Pitt or Notre Dame. Their streets are paved with gold any way you put it."

Doug Single, director of athletics  
Northwestern University

Chicago Tribune

"Big Ten teams are at a tremendous disadvantage from a relocation aspect when they go to the Rose Bowl. The Pac-10 looks at the Rose Bowl as a home game. . . .

"Back in the early '70s, teams like Stanford, UCLA and USC had some versatile offenses and a lot of pro influence. The Big Ten still was more conservative, which might not translate into wins and losses as much as it would in attracting skilled athletes.

"But the Big Ten is getting some more progressive coaches now and is doing a fine job and getting better skilled athletes than in the past."

Richard M. Dull, director of athletics  
University of Maryland, College Park

The Washington Post

"My feeling and the feeling of the chancellor is that a 2,000 is just not good enough. We have to have some assurance that a youngster can do the work at this level and can get a degree from this institution. If his skills are so deficient that we don't think he can succeed here, he will not get in.

"I believe there are an awful lot of hypocrites out there who pay lip service to academics. But I do believe people are starting to get more serious about admitting better students."

## Letter to the Editor

To the Editor:

Is the column [Columnary Craft] on women's recruiting in the August 3 issue a step forward or three steps backward? I think sexist is the correct description.

In the future, I hope you have more straight news and do not resort to this unnecessary article.

Sue E. Shrader

## Football notes

## After record '82 season, passing climbs

Maybe it was thought passing yardage in college football could not go much higher after that record-smashing 1982 season. Well, it still is climbing (although the climb is not as steep as last year), and there are signs everywhere that passing is becoming more and more a major factor in winning.

In a Big Ten showdown with Rose Bowl overtones, Iowa quarterback Chuck Long passed for 276 yards, including a game-winning 73-yard bomb, to beat Ohio State, 20-14. In the top upset of the day, Kansas quarterback Frank Seurer was 26 for 38 for 385 yards, and the Jayhawks shocked Southern California, 26-20. Earlier, Cincinnati's Troy Bodine used the same ball-control passing game in an upset over Penn State.

A week earlier, rushing tradition bit the dust at Norman, Oklahoma. Maury White of the Des Moines Register said it best: "Ohio State and Oklahoma played a football game here Saturday, only the second meeting of these perennial rushing powers since the world was formed, and many in a sellout throng came equipped with ear plugs to soften the sound of bodies crashing on power sweeps, heaven forbid on off-tackle smashes."

Well, Vaughn Broadnax of Ohio State did not blast a hole in the end-zone wall. Instead, teammate Mike Tomczak threw for two quick touchdowns, and Oklahoma's Danny Bradley threw 21—count 'em—21 times for one TD (matching OU's total for all of 1982). Instead of a ground-shaker, it was more like the Red Baron vs. Eddie Rickenbacker. The game produced 404 air yards vs. 355 rushing yards. (Ohio State won, 24-14.)

In the only previous Oklahoma-Ohio State game in 1977, the game produced only 73 yards passing vs. 423 rushing (and Oklahoma won, 29-28). Oklahoma threw five passes, Ohio State six.

Remember those amazing passing and total offense yardage figures achieved by Brigham Young's Jim McMahon in 1980—the ones it was thought could never be broken? Well, do not be surprised if BYU's Steve Young breaks them this season.

**Efficiency up the most**

Passing yardage is up only a tiny bit so far this season compared to the gains in efficiency. Passing yards per game is 360.6 (both teams combined, all games involving at least one Division I-A team) compared to 357.7 a year ago, en route to the record 364.8. Since yardage normally increases as the season goes on, the record probably will fall. It is not certain, though—after all, that is an increase of less than one percent in yardage.

Passing yards per attempt, however, is 6.68, compared to 6.54 a year ago en route to a final 6.61. The all-time high is 6.67 in 1977, so that record may fall. Also, pass completion percentage is 53.2 percent compared to 52.1 last year en route to a record 52.2 percent.

Maybe this explains why passing emphasis actually is down a tiny bit—37.9 percent of all rushing-passing plays have been passes so far compared to 38.0 a year ago, both at this point and at the end. In other words, if you complete a higher percentage, you do not have to throw as often. Passing attempts now are 54.0 compared to 54.7 in 1982 en route to a final 55.2—a record.

Last season, it will be remembered, passing yards exceeded rushing for the first time in college football history (364.8 to 338.5). Now the gap is even wider—360.6 passing and 323.8 rushing (vs. 357.7 and 326.3 a year ago).

However, rushing yards per carry actually is up a smidgen to 3.66, vs. 3.65 last year en route to a final 3.75.

Eastern Kentucky's Terence Thompson ranks 10th in Division I-AA rushing

Western Michigan's Shawn Faulkner is third in Division I-A rushing with 138.0 average

Bruce Kallmeyer of Kansas leads the nation in field goals (3.50 per game) and scoring

Colgate's Rich Erenberg ranks fifth in Division I-AA rushing with 119 yards per game

As a result, total-offense or rushing-passing yards per play is on its way to another record. It is now 4.80 compared to 4.75 en route to a record 4.84 in 1982. The same is true of total offense yards, now 684.4 vs. 684.0 en route to 703.3.

**FGs increase scoring**

You cannot fault the defensive people, though, because touchdown passes actually are down—1.93 per game now vs. 2.14 a year ago en route to a record 2.16. Scoring is headed for another record because the field-goal boom continues.

Scoring is 42.9 compared to 42.3 en route to a record 43.8, because field goals per game are 2.14 compared to 2.05 en route to a record 2.04. Why? Because field-goal accuracy is 63.8 percent vs. 63.6 a year ago en route to a record 63.9 percent.

**I-AA down except for FGs**

In Division I-AA, passing yards per game is down to 317.9 now vs. 328.6 last year en route to a record 332.0. Passing efficiency also is down, along with total offense. Scoring, however, is up, with 40.6 so far compared to 40.0 a year ago en route to a final 41.0. Again, the reason is field goals—1.72 per game now vs. 1.58 last year en route to a record 1.59. Accuracy again is the key, with 62.6 percent now vs. 60.3 last year on the way to a record season mark of 60 percent.

**Nebraska: 8.24, 56.5 and 617.7**

After four games, Nebraska's 8.24 yards per total offense (rushing-passing) play, 617.7 total offense yards per game and 56.5 points per game all are ahead of the all-time I-AA season records. Army averaged 7.92 yards per play in 1945 and 56.0 points in 1944 against war-time opponents, and Oklahoma's famous Wishbone Wonders had 566.5 total offense in 1971 for the records over a full season.

**Pair of 100s**

Those long-time Big Eight rivals, Oklahoma's Barry Switzer and Nebraska's Tom Osborne, each recorded career victory No. 100 on the same day last Saturday. Each is in his 11th season. Switzer now stands 100-18-3 for an .839 winning percentage (counting ties as half won, half lost). That puts him fourth on the all-time list for coaches with at least 10 seasons at Division I-A colleges (Knut Rockne of Notre Dame leads at .881). Osborne now is 100-24-2 for .802 for 12th on the same list, while Penn State's Joe Paterno in his 18th season is 163-37-1 for .813, ninth on the list. Interestingly, Switzer leads Osborne 8-3 in their personal series (they met twice in the 1978 season, the second time in the Orange Bowl). Excluding games with each other, Osborne has the edge (and he has won the last two meetings with Switzer).

**Pair of .800s**

Former Nebraska coach Bob Devaney ranks 11th on the all-time list at .806. Now the athletics director, Devaney picked Osborne as his successor. And Nebraska SID Don Bryant points out that of the 12 above-.800 coaches in history, Devaney and Osborne are the only pair who have served back-to-back at the same college (there was a nine-year gap between Bud Wilkinson, eighth at .826, and Switzer at Oklahoma).

The Devaney-Osborne era, in its 22nd season, has produced 201 victories, 44 losses and four ties through last Saturday for an .815 percentage (Devaney was 101-20-2 at Nebraska and before that, he coached at Wyoming). Over the same span, only Alabama has a better record at 204-39-3 for .835. (These figures include bowls, in which Nebraska was 12-7 and Alabama 11-9-1.) Alabama's coach for the first 21 years of the span was, of course, Paul "Bear" Bryant, winningest coach of all time.

**Quotes of the week**

Frank "Pops" Seurer Sr. wanted nothing more than to see his son go home to California and beat Southern Cal with his arm. But Pops was stabbed to death in August. The scar on his son was one Frank Jr. swore would push him to greater heights this season, and it seemed too good to be true that his career-high 385 yards had led Kansas to victory in the coliseum. "I felt his presence today," Seurer told Tom Shatel of the Kansas City Star. "It sounded like he was whispering to me out there, 'Well, what kind of read should we go for this time?' I felt like it carried me, because I knew he wanted to win this game more than anybody." (Doug Vance, Kansas SID)

Vanderbilt coach George MacIntyre, looking to the next game, against Alabama, following a last-second, 29-26 victory over Iowa State: "We got one miracle last week. Maybe the Lord will part the Tide for us this week." (As it turned out, Vandy jumped to a 17-0 lead, then the Tide rolled, 44-24.) Vanderbilt defensive

end Glenn Watson changed his uniform number this fall from 92 to 36. When asked about the switch, Watson replied: "I look a lot faster when I wear 36." (Tony Neely, Vanderbilt assistant SID)

Fullerton State started 3-0 by besting Boise State, 13-10, Long Beach State, 25-19, and Utah State, 25-24. Kicker Greg Steinke won the opener with a 51-yard field goal with 0:09 left and made the difference in the third game with a 54-yarder and a winning 45-yarder with 0:14 left. Says coach Gene Murphy: "I call him 'Helium Head' because nothing seems to bother him. His confidence borders on cockiness, but he delivers." (Mel Franks, Fullerton State SID)

"The end zone looked so far away I thought the goal posts were in Philadelphia," said Slippery Rock tailback Charles Sanders, recalling how he felt with his team down 21-27 on its own one-yard line with 6:02 to play against Millersville. As it turned out, Slippery Rock drove 99 yards to win, 28-27, on a last-minute touchdown. (John Carpenter, Slippery Rock SID)

Arkansas coach Lou Holtz on the play of his special teams: "I quizzed our players about penalties. I asked them if there was a penalty for letting a punt bounce rather than fielding it. They said 'no'. I said, yes, there is—loss of scholarship." (Rick Schaeffer, Arkansas SID)

Tag Rome, Northeast Louisiana flanker, on whether he would feel any different about a national cable television game (WTBS) against Arkansas State (last Thursday) and an ABC regional game in 1980: "No, not really. All of those cameras look the same." (Rome helped Northeast win, 45-7.) (Bob Anderson, Northeast Louisiana SID)

New coach Jim Criner of Iowa State when asked about the difference between Boise State's schedule and Iowa State's current lineup: "Every week, you have someone who wants to hit you in the mouth with a baseball bat." (After an 0-2 start, Criner's team did some hitting of its own last Saturday, rallying from a 7-17 deficit to beat Colorado State,

21-17.) (Tim Allen, Big Eight Conference SID)

**Donations, please**

Before the season, Troy State quarterback Carey Christensen promised his offensive linemen that any who graded over 70 in a game would get "all the steak he could eat," at Christensen's expense. Then disaster struck—all five starters graded over 70 as Troy State churned up 451 yards in total offense in beating Nicholls State, 33-25. Christensen is accepting donations. (Tom Ensey, Troy State SID)

**Buried luck**

While a player at Syracuse, Gary Fallon, Washington & Lee coach, started every season by burying a quarter in one of the end zones at old Archbold Stadium. The annual ceremony supposedly was for good luck, and Fallon's plan was to go back and find the buried treasure at the end of the season. Trouble was, he could find only one quarter in four years. "I've been tempted to go back and see if I could find that 75 cents," says Fallon. "But I imagine it would be rather difficult since it is buried under the cement they put down when they built the Carrier Dome. Not such good luck, was it?" (Jeff Hanna, Washington & Lee SID)

**All-purpose smarts**

Ball State's Rick Chitwood, with a 3.850 grade-point average (4.000 is perfect) as a premed major, says: "I think the dumb jock football player routine is being phased out. It isn't true as it used to be. In fact, I get teased a lot more for being smart." Chitwood has earned five straight 4.000 quarters and six all-A quarters in the past seven. In his last 28 classes, he has earned 27 A's and one B.

The 6-2, 250-pound senior center also has started at tackle and guard and once played all five interior offensive line positions in a single game. "The hardest thing about that game was knowing where to stand in the huddle," he recalls.

Apparently, he has Mid-American Conference coaches confused, too. Last fall, Chitwood started six games at tackle and five at center but was voted to the all-league second team as a guard by MAC coaches. (John Ginter, Ball State assistant SID)

**That's odd**

This is the eighth consecutive season that Mississippi State has had a player named Kenny Jackson starting in the defensive secondary. From 1976 through 1979, the first Kenny Jackson held the job. Now, the second one (no relation and he'd rather be called Kenneth, thank you) is in his fourth season as a starting cornerback. (Bo Carter, Mississippi State SID)

## Attendance closes gap, but still down

Per-game attendance closed much of the gap last Saturday but remains down slightly this season compared to a year ago. In Division I-A, the gap now is 978 per game or 2.27 percent; in I-AA, it is only 12 per game or 0.10 percent. In both divisions, percent of capacity also is barely down:

	Games	Attendance	Per-game	Percent Capacity
Division I-A season figures to date	176	7,394,244	42,013	79.2
Same 105 teams at this stage in 1982	181	7,781,322	42,991	80.5
Division I-AA season figures to date	124	1,431,274	11,543	56.1
Same 84 teams at this stage in 1982	136	1,571,491	11,555	56.3

# NCAA Record

## DIRECTORS OF ATHLETICS

MARY HOSKING appointed at William Smith. She will continue to coach women's tennis and serve as chair of the physical education department.

## ASSOCIATE DIRECTORS OF ATHLETICS

NELLIE KING promoted at Duquesne, where he has been sports information director since 1975. He will continue to oversee that office. . . PAT GENOVESE named at William Smith. Genovese will continue to coach field hockey and women's lacrosse.

## ASSISTANT DIRECTORS OF ATHLETICS

JEFF TENNANT, formerly director of sports communications/marketing and promotions at Wake Forest, named to a similar post at Fresno State. . . ELAYNE DONAHUE appointed at Minnesota, where she will oversee the academic counseling program for men and women. She previously has been on faculties at Colorado Women's College and Wisconsin-LaCrosse, and she was an administrative assistant for the College Football Association.

## PRIMARY WOMAN ADMINISTRATOR

CHERYL ANN MARRA named women's AD at Denison. She has coached women's soccer and track at the school since 1979. She will drop her duties with the track program.

## COACHES

**Baseball**—Former Kent State head coach BOB MORGAN hired at Indiana. Morgan had a 79-39 record in two years at Kent State. . . KEVIN COONEY hired to head the fall program at his alma mater, Montclair State. He was a starting pitcher at Montclair State in the early 1970s.

**Men's basketball**—CHARLES MACHOCK, an assistant at Ohio State, chosen at Central Florida. Prior to his seven-year stint at Ohio State, Machock coached at Akron, West Virginia and Ball State.

**Men's basketball assistants**—KEVIN STACOM, a former all-America at Providence and a player in the National Basketball Association, named at Northeastern. . . JIM THRASH, a member of the Fresno State staff since 1977, has resigned to enter private business. . . Bucknell has hired MIKE CONNELLY, formerly coach at Ashbrook High School in Gastonia, North Carolina. . . JIM WELSH selected at Delaware Valley. He had been head coach at Leetonia, Ohio, High School. . . BILL MUSE, who had been on the South Alabama staff the past four seasons, hired at Georgia State. . . GARY WILKINS named at Rochester. He had been head coach at Victor, New York, Central High School. . . ED MANNING, an assistant at North Carolina

A&T in 1977-78, hired at Kansas. Manning played professionally for new Kansas head coach Larry Brown.

**Women's basketball**—Local high school coach and administrator ED DIGREGORIO hired at Youngstown State. . . WINTHROP "WINDY" MCGRIFF, who has been head coach for the past two seasons at District of Columbia, named at Cheyney. . . PATRICIA JO ELLIOTT has been named to replace JEAN CONWAY at William Smith. She will continue to assist with the field hockey program. . . DEBBIE CHIVALETT named at Delaware Valley. She also will coach women's volleyball.

**Women's basketball assistants**—JOLINE MATSUNAMI appointed at Washington. She has been on the Eastern Washington staff the past two seasons. . . MICKIE DEMOSS, former head coach at Florida, named at Auburn. She had a 45-68 record at Florida (1980-1983).

**Women's cross country**—JEANNE CRANEY hired at Delaware Valley, where she was a four-year letter winner (1980-1983) in cross country and track.

**Field hockey**—JOANNE GIGUERE promoted at Fitchburg State, where she was an assistant last year.

**Field hockey assistants**—JANINE ROBI-CHAUD named at Fitchburg State.

**Football assistants**—BOB TURNER named running back coach at Fresno State. He had been on the Indiana State staff. . . JIM KRAMER (linebackers) and FRANK MASSINO (defense) added to the staff at Delaware Valley. Kramer comes from the high school coaching ranks, while Massino is a former Temple aide. . . BRIAN MORAN, a 1983 graduate of Cortland State, where he was a four-year starter, named receivers coach at Rochester. . . AL ZAPPALA and JOSEPH CARVEN appointed at Fitchburg State. Zappala also will coach the men's track team. . . JAMES BROOKS, who joined the Albany State (Georgia) staff last year after a long stint at Alcorn State, named assistant head coach. In other changes at Albany State, HANEY CATCHINGS (offensive coordinator), ORRICK DIXON (defensive line) and JOSEPH S. BURSON (offensive line) were named to the staff. . . DICK YULE named at MIT.

**Men's golf**—RANDY LEIN, associate head coach, promoted at Southern California. He replaces RON RHOADS, who resigned to devote more time to his job as a club pro.

**Men's gymnastics assistant**—RON GALLMORE, a four-time NCAA Division I men's champion in the vault and floor exercise, hired

at his alma mater, Iowa State.

**Men's ice hockey assistant**—Former Boston College goalie BILLY SWITAJ named at Rensselaer.

**Men's soccer**—MALCOLM MacPHERSON hired at Fitchburg State.

**Men's soccer assistants**—DODD GRANDE named at MIT. . . ALAN COOPER appointed at Fitchburg State.

**Men's swimming assistants**—ANN YEL-MOKAS and KEITH MILLER named to the MIT staff. Miller will coach the divers.

**Women's swimming**—JANE BROWN has resigned at Princeton. She was a member of the NCAA Women's Swimming Committee.

**Women's swimming assistant**—E. KIP FIERRO, formerly an outstanding swimmer in the New York high school ranks and a 1982 graduate of South Florida, hired at Manhattanville.

**Men's tennis**—WILLIAM MARTINO named at Fitchburg State, replacing LOUIS LORENZEN, who will head the women's program. . . JAMES P. TAYLOR named interim coach at MIT.

**Women's tennis**—Local club pro BOB PERKINS hired at Rochester. . . SUE URANICH appointed at Augustana (Illinois). She was the top singles player at Illinois State in 1981 and 1982.

**Men's track and field**—JIM EICHHORN, a 29-year-old undergraduate who lettered in track last year at Delaware Valley, named head coach at the school. . . AL ZAPPALA named at Fitchburg State, where he also will be an assistant football coach.

**Men's track and field assistants**—Three staff positions have been filled at San Diego State: GARY STATHIS, a graduate assistant last year; KENT PAGEL, formerly on the Long Beach State staff, and ROB WEBSTER, previously a graduate assistant at Washington.

**Women's track and field**—LOU ANN ISENBERG, formerly an assistant at Penn State, named head women's track and cross country coach at Bucknell. . . JACQUELINE BLACKETT appointed to head the women's indoor and outdoor programs at Rochester. She had been head coach at Rochester Tech.

**Women's track and field assistant**—PATRICK MOYNIHAN selected at Iowa State. He has spent the past two years coaching in Saudi Arabia and previously was on the Iowa staff.

Winthrop McGriff has been named women's basketball coach at Cheyney

Kate Asbury is the new assistant SID at Stephen F. Austin State

**Women's volleyball**—KARYNA. ALTMAN has moved from Harvard to a similar post at MIT. . . BRENDA OTT, former Tennessee letter winner, hired at Maryville (Tennessee).

**Women's volleyball assistants**—ZENTA BATARAGS chosen at Manhattanville. She was a two-time all-conference selection at Barnard (1979-1980). . . BARRY FOX, a United States Volleyball Association coach for 10 years, hired at Delaware Valley. . . DONNA CAMBER appointed to a new position at Fitchburg State.

## STAFF

**Academic counselors**—DAVID D. RADE-MACHER named the first full-time academic advisor at Illinois State, where he has been an advisor for more than 13 years. . . SHEILA HOBEN, former women's tennis coach at George Washington, has been named academic coordinator at the school.

**Business administrator**—DANGEBHART, a part-time employee last year, named to a full-time post at Indiana-Purdue-Fort Wayne.

**Equipment manager**—BRAD MISHLER hired at Indiana-Purdue-Fort Wayne, where he also will serve as head athletic trainer.

**Facility manager**—C. C. FULLOVE named at Indiana-Purdue-Fort Wayne, where he will continue to assist with the men's basketball program.

**Men's coordinator**—DUKES KNUTSON named men's athletics coordinator at Minnesota-Duluth, where he had been SID for two years.

**Sports information directors**—BRUCE HERMAN has resigned at San Diego State to

accept a public relations post with a local horse racing track. Assistant sports information director JOHN ROSENTHAL has been named interim SID. . . BOB NYGAARD named at Minnesota-Duluth.

**Assistant sports information director**—KATE ASBURY, formerly an assistant at Mississippi, hired at Stephen F. Austin State.

**Assistant athletic trainer**—KAREN KAROSY named at St. Peter's. She has worked at Seton Hall, Virginia, and Washington and Lee.

## CORRECTIONS

Because of a reporter's error, Miami University (Ohio) was listed as the 1981 Mid-American Conference champion in the field hockey season preview that appeared in the September 12 issue of The NCAA News. Ohio University and Miami were MAC co-champions in 1981 with identical 8-1 league records.

Because of a reporter's error, the University of Nevada, Las Vegas, was omitted from a list of members of the Pacific Coast Athletic Association in the August 31 issue of The NCAA News.

In the Executive Committee story published in the August 31 issue of The NCAA News, Mississippi College was listed as the host institution for the 1983 Division II Men's and Women's Cross Country Championships. Mississippi College will host the 1984 Division II championships instead. The event will be held November 10.

Due to a reporter's error, Arliss L. Roaden, president of Tennessee Technological University, was omitted from a listing of the members of the Special Committee on Division I Criteria in the September 19 issue of The NCAA News.

# The Market

Readers of The NCAA News are invited to use The Market to locate candidates for positions open at their institutions, to advertise open dates in their playing schedules or for other appropriate purposes.

Rates are 35 cents per word for general classified advertising (agate type) and \$17.60 per column inch for display classified advertising. Orders and copy are due by noon five days prior to the date of publication for general classified space and by noon seven days prior to the date of publication for display classified advertising. Orders and copy will be accepted by telephone.

For more information or to place an ad, call 913/384-3220 or write NCAA Publishing, P.O. Box 1906, Mission, Kansas 66201.

## Positions Available

### Fund Raising

**Assistant Athletic Fund-Raiser.** Aid the Assistant Athletic Director for Development in conducting fund-raising for athletic scholarships at the University of Idaho. Bachelor's degree required. Previous sales or fund-raising experience preferred. \$18,000. Send application letter, resume, and three professionally

related references to: Jim Anderson, Personnel Committee Chairman, Vandal Boosters, Inc., Kibbie Activity Center, Moscow, Idaho 83843, by October 15, 1983.

### Ticket Manager

**Ticket Manager.** The University of Tulsa is seeking a full-time ticket manager. Duties will include the administration of all athletic tickets and the supervision of a staff of three and event management. Qualifications include previous experience in ticket management. Bachelor's degree preferable. Twelve-month position with salary negotiable. Send resume and letter of application to: Personnel Office, University of Tulsa, 600 S. College Ave., Tulsa,

OK 74104. An equal opportunity/affirmative action employer.

## Athletic Trainer

**Head Trainer, Physical Education.** Red Cross-certified in CPR and first aid. ATC certified. Applicants should send credentials by October 10, 1983, to: Dr. Kevin White, Director of Athletics, Loras College, Dubuque, Iowa 52001.

## Swimming

**Assistant Swimming Coach, United States Military Academy.** Job requirements: If selected, the applicant must attend basic officer candidate school and upon completion, he will be assigned to the United States Military Academy as assistant coach of swimming with the rank of second lieutenant. Position is a three-year assignment and would include responsibilities of on-deck coaching, program planning, coordinating recruiting efforts, preparation of budget and counseling cadets. The job will encompass both the men's and women's programs. Job benefits include medical and dental care and allow-

ances for meals and housing. Promotion to first lieutenant possible within the three-year period. Send resume to: Jack Ryan, Office of the Director of Intercollegiate Athletics, United States Military Academy, West Point, NY 10996. Applications close on 1 December, 1983.

**Assistant Coach.** Part-time swimming coach to assist in both the men's and women's programs. Duties will include coaching responsibilities, recruiting, meet organization and other related responsibilities. Contact Al Van Wie, Chairperson, Department of Physical Education and Athletics, The College of Wooster, Wooster, OH 44691.

## Open Dates

**Women's Tennis, Division I.** University of New Orleans needs two teams to participate in a six-team, round-robin tournament April 14-16, 1984. Other dates are open for dual matches. Contact Bernie Cox 504/286-6620. **Football, Division II.** Portland State University, Portland, Oregon, has open dates September 1, 1984; October 20, 1984; October 27, 1984, and November 3, 1984. Institution would be interested in Division I-A, I-AA or II opponents.

Contact Roy Love, Director of Athletics, 503/229-4400.

**Football, Division I-AA.** University of Massa-

chusetts/Amherst has open dates September 15, 1984, September 24, 1988, and September 23, 1989. Call Al Rufe, 413/545-2342.

## Fellowship of Christian Athletes Regional Director

Northeast United States. Experience in athletics, administration, communication and development of financial support. Must acknowledge Jesus Christ as Savior and Lord and be active in the local church of Jesus Christ.

Send resume to Vice President-Field Staff Operations, FCA, 8701 Leeds Road, Kansas City, MO 64129.

## Metro Atlantic Athletic Conference Commissioner

**Background:** Members of the Conference are Army, Fairfield, Holy Cross, La Salle, Fordham, Manhattan, St. Peter's and Iona.

**Duties:** The Commissioner shall serve as Chief Administrative Officer of the conference. Will study athletic problems of the conference, offer advice and assistance in their solution, and encourage and promote friendly relations which should exist among member institutions, students and alumni. Should be prepared to promote the conference and seek out and develop live and cable television contracts and exposure for conference members. Will maintain appropriate relations with news media. Staff and operate the conference office and, in general, administer and direct the conference under procedures set forth in conference bylaws.

**Availability:** Successful applicant will serve in conjunction with incumbent commissioner who is to retire in June, 1984.

**Application:** Please furnish resume, three letters of recommendation, and in your letter of application state how you would approach the challenge of cultivating television coverage for conference games. Apply to:

Carl F. Ullrich  
Director of Intercollegiate Athletics  
United States Military Academy  
West Point, New York 10996

Closing date for applications is October 15, 1983  
The MAAC is an equal opportunity employer

## ACADEMIC COORDINATOR FOR STUDENT-ATHLETES

Temple University has an opening in its Intercollegiate Athletic Dept. for an Academic Coordinator. The qualified candidate will possess a Master's Degree in an appropriate field, as well as several years' experience working with university-level students. Responsibilities include integrating student-athletes into the academic and social life of the institution, encouraging student-athletes to strive for academic excellence and social discipline, and serving as liaison with appropriate University programs, services and activities. Monitors the academic progress of student-athletes and coordinates relations between student-athletes and university academic programs and services. Please send letter of application and resume to Tom Kupniewski, Personnel Services, before October 30, 1983, in order to receive consideration.

### TEMPLE UNIVERSITY

Room 203, USB  
1801 N. Broad Street  
Philadelphia, PA 19122

Equal Opportunity Employer

## Assistant Athletic Director Head Baseball Coach

**Responsibilities:** Coach and administer men's baseball program. Recruit highly skilled baseball players to Kent State University. Work within the policy guidelines and regulations of Kent State University, the Mid-American Conference and the NCAA. Responsible for facilities management and scheduling. Will assist in game management and any other duties as outlined by the director of athletics.

**Qualifications:** Minimum of bachelor's degree with master's degree preferred. Ability to manage a broad-based athletic department in regard to facilities and scheduling, and a Division I baseball program.

**Appointment:** Twelve-month position.

**Salary:** Commensurate with background and experience.

**Application Deadline:** Accepting applications until position is filled. Please forward letter of application, professional resume and three letters of reference to: Mr. Paul V. Amodio, Director of Athletics, Kent State University, Kent, OH 44242.

Kent State University is an equal opportunity/affirmative action employer.

# Select

*Continued from page 1*

for satisfactory progress toward a degree, and a procedure should be developed to require each Division I institution's appropriate academic officer to certify that those student-athletes who have been certified to participate in intercollegiate athletics are making progress under those requirements to graduate.

## Graduation

1. Institutions should implement internal auditing procedures to develop information on the graduation rates of their student-athletes and an explanation of how the rates were determined. This information should be kept on file in the appropriate offices for review by the NCAA and other appropriate agencies.

2. Consideration should be given to requiring institutions to publicize their graduation rates after a common, national method for determining such rates is determined.

3. An incentive program should be developed to provide a bonus for graduating a student-athlete within four years and a penalty for failing to graduate a student-athlete within five years. The committee is not proposing a specific model for such a program.

## The Junior College Transfer Student

1. Eligibility requirements for transfer students from junior colleges should be brought into line with those in force for a freshman admit to the four-year institution. This should apply to participants in all sports.

2. A transfer student from a junior college who was not eligible to compete at the four-year institution upon graduation from high school must graduate from the junior college and have 48 credit hours of course work that is acceptable toward a specific baccalaureate degree program at the certifying four-year institution. In other words, the transfer must have met the same progress requirement that would be required of a freshman admit who had been at the certifying institution for two years. A transfer student admitted to the four-year institution without meeting those requirements would be ineligible to participate in athletics until the requirements were met at the certifying institution.

## Freshman Eligibility

1. The committee's position in regard to the eligibility of freshmen for participation in Division I football and basketball has vacillated during the past year. Its recommendation in its final meeting, which was not a unanimous position, is that freshmen should be ineligible to compete in varsity football and basketball in Division I. The freshman year is critical and many student-athletes begin their academic career in a disadvantaged position from which they never emerge.

2. The committee proposes the following:

a. No freshmen would be eligible for varsity competition in Division I football and basketball. They would then have three years of eligibility for varsity competition, which they could realize any time during the four-year period following the freshman year.

b. A freshman who met the provisions of NCAA Bylaw 5-1-(j) [Proposal No. 48] would be eligible for practice, athletically related financial aid and limited freshman-team or junior varsity competition during the first year.

c. A freshman who had an accumulative 2,000 grade-point average in high school but who did not meet the provisions of Bylaw 5-1-(j) would be eligible to receive athletically related financial aid in the first year but would not be eligible for practice or any form of intercollegiate competition.

d. Any freshman receiving athletically related financial aid per b. and c. would be counted against the

institution's permissible maximum number of grants in the sport involved.

e. The Division I-A football grant limits should be revised from 30 initial grants per year and a limit of 95 grants in effect at any one time to 26 initial awards and an overall limit of 104 grants in effect at any one time. In basketball, the limit should be changed from an overall limit of 15, with no annual initial limit, to a limit of four initial grants per year and not more than 16 in effect at any one time. The committee does not believe these adjustments would make any practical change in the number of awards now being utilized in football and basketball, but they will serve as an incentive to the institution to recruit prospects who are capable of successful college academic work and to retain such students once they are on campus.

## Financial Issues

1. The committee believes there is nothing wrong with an objective of achieving financial returns from a major athletic program.

2. The bonding together of institutions in order to generate maximum revenues is desirable.

3. The distribution of income in athletics should mutually benefit the institutions involved and the participants in those institutions. For example, the committee does not believe institutions should be permitted to go their own way in football television; instead, there should be some organized, unified approach to maximizing the revenues and benefits involved.

4. The committee recommends that the NCAA membership adopt legislation to place the financial aid limitation (i.e., the amount a student-athlete may receive) in the bylaws, where each division could act separately on that issue.

5. The committee supports legislation that would exempt up to \$900 of the Pell Grant from the NCAA limitation on the amount of financial aid a student-athlete may receive.

6. Institutions should be encouraged to award financial aid to student-athletes who have completed their eligibility in order for them to graduate. It is the committee's belief that most institutions currently are doing this.

7. Each institution should be urged to control all financial aspects of its program, including grants-in-aid and coaching numbers. It should be encouraged to utilize all sources of aid available.

8. The institution should control the salary and all other sources of income received by its coaches (e.g., television shows, endorsements, speaking engagements). It also should monitor carefully the revenues from donors and booster groups and assure that such revenues are successfully audited and controlled.

## Enforcement and recruiting

1. The NCAA has instituted a number of excellent programs designed to distribute information regarding its rules and regulations to prospective student-athletes, their parents and high schools. Those efforts are applauded by the committee, which recommends that they be expanded significantly.

2. The rules and regulations of the Association generally are satisfactory. Their presentation in the NCAA Manual, however, should be revised and recodified.

3. The Association's enforcement process is effective but needs to be accelerated and made more timely. The committee recognizes that the enforcement process is handicapped by the lack of subpoena power.

4. The committee recommends that the NCAA develop a comprehensive audit and certification program in intercollegiate athletics in order to bring sunshine to athletics programs that too often operate behind a curtain. Such a program would require the institution to share data with its opponents, its conference and the NCAA in regard to the academic records of its student-athletes, including academic standing upon admission, satisfactory progress and graduation rates—all, of course, within the confines of the Buckley amendment. It also would involve a periodic self-analysis and possibly an accreditation program.

5. The committee believes the process of recruiting should be made more humane. It supports a "quiet period" surrounding the date upon which the prospective student-athlete signs the National Letter of Intent, and it suggests that contacts with students for recruitment purposes be further limited.

6. The provisions of Bylaw 1-2-(b) [Proposal No. 91 adopted by the 1983 NCAA Convention] should be extended to prohibit noninstitutional personnel from being involved in the recruiting of prospective student-athletes on the institution's campus, as well as off campus.

7. The committee believes the activities of player agents represent a serious problem to major athletics programs and a threat to the structure of amateur athletics. It has no specific recommendation in this regard but urges the NCAA to address this issue via its special committee made up of individuals familiar with the subject.

## Governance

1. The committee believes that institutions with the common objectives reflected in major athletic programs should have more control over their own policies and practices. While the committee is not proposing legislation in this regard, it recommends the following:

a. That institutions with major programs be provided greater autonomy in the NCAA's legislative process.

b. That the NCAA work toward subdivisions of Division I in basketball comparable (but not comprised of the same members) to that in Divisions I-A and I-AA football, allowing for more autonomy in each of those two sports.

2. The committee supports the establishment of a council or board of presidents that would have authority to (1) review Association activities and advise the NCAA Council, (2) commission studies of matters of concern in intercollegiate athletics, and (3) propose legislation directly to the NCAA Convention. The committee does not believe such a presidents' board should have the power to veto or replace legislation enacted by an NCAA Convention. The structure of such a group should assure representation for all divisions of the NCAA comparable to that in the Association's current structure.

3. A summer legislative session for Division I-A should be established. The meeting, probably in June, would enable Division I-A members to meet and discuss athletic issues of the times and act separately on any item of football legislation relating exclusively to Division I-A. Such legislative actions would not become effective until after the succeeding January Convention, at which the Association's rescission procedures could be effected.

[Note: This is a summary of principal points; the committee's full report will be available approximately the third week in October 1983.]

# New

*Continued from page 1*

as principal coordinator, and Task Force on Personal and Educational Issues, Susan Lubking, West Chester University, as principal coordinator.

Polivy told The NCAA News that there was no intention of creating an organization as such at the summer meeting but said the group believes that some form of communications network is needed among women involved in athletics issues. Polivy, with her legal partner, Katrina Renouf, who attended the meeting, has handled the AIAW legal suit against the NCAA and recently appealed the Federal trial court's decision in favor of the NCAA to the District of Columbia Circuit Court of Appeals.

Lopiano said the intention is "to continue discussions that were held at the summer meeting and to get women involved from different levels across the country."

"I don't think there is anything in terms of a priority agenda," Lopiano said. "Some of the things they would hope for are a continuation of the discussions and that the Kansas City meeting (Council of Collegiate Women Athletic Administrators, October 10-11) would serve as a similar forum for a lot of discussion on various NCAA championship rules, lower participation rates, lower participation opportunities and the development of NCAA legislation to get to some of their concerns."

"A problem," Lopiano said, "is the lack of real data in women's athletics. We are concerned about the ambiguity of the role of the primary woman administrator and the diminishing numbers of women in administration—there is obviously no data to confirm this, but there is a feeling that they have decreased or have deteriorated in terms of responsibility."

Before adjournment, the meeting's Task Force on Personal and Educational Issues recommended and the group of conferees adopted and issued the following statement on "Professional Responsibility":

"As professionals committed to equal educational opportunity, we are disturbed by a developing form of discrimination against female students and personnel. In order to achieve support or coerce desired behavior from professionals, sexual harassment, stereotypes and innuendoes are increasingly being used as tactics of control. The institutional and programmatic choices of students

and prospective students are being similarly influenced. Such tactics are abhorrent to fundamental principles of professional responsibility and should not be tolerated."

Gwendolyn Norrell, Michigan State University faculty athletic representative and NCAA Division I vice-president, was contacted regarding the meeting and commented as follows:

"Sincere efforts to advance and enhance women's intercollegiate athletics are welcomed by all of us, I'm sure, men and women. I hope that is the intent of this group; however, I must confess some misgivings as to the tenor and direction of the proceedings and the fact that few, if any, of the women attendees have had experience with NCAA committee work and that there appeared to be a deliberate design to set up a 'network' of women who would cut across conference lines and attempt to influence matters from the perspective of women's 'national interests' without regard to the policies of the conference of which the conferees are members. In other words, I view it as an effort to ignore the established conference procedures in developing policies that affect women's athletics."

Attending the August 3-6 meeting were the following:

Jane Betts, Massachusetts Institute of Technology; June Davis, University of Nebraska, Lincoln; Margaret Dunkle, The Equality Center; Linda Estes, University of New Mexico; Kristine Freck, Western Illinois University; Lynn George, George Washington University; Marjorie Greenberg, Barnard College; Christine Grant, University of Iowa; Eleanor Kay Hess, Swarthmore College; Virginia Hunt, Montana State University.

Karol Kahrs, University of Illinois, Champaign; Donna Lopiano, University of Texas, Austin; Susan Lubking, West Chester University of Pennsylvania; M. Catherine Mathison, University of Minnesota, Twin Cities; Janice McConnell, California University of Pennsylvania; Patricia Miller, Harvard University; Leotus Morrison, James Madison University; Kathleen O'Connor, College Planning; Louise O'Neal, Dartmouth College; Barbara Palmer, Florida State University; Margot Polivy, attorney; Margaret Preska, Mankato State University; Katrina Renouf, attorney; Elma Roane, Memphis State University.

Jeanne Rowlands, Northeastern University; Mary Rubright, Eastern Washington University; Bernice Sandler, American Association of Colleges; Carolyn Schlie, University of Pennsylvania; Donna Shavlik, American Council on Education; Jenepher Shillingford, Bryn Mawr College; Janice Shelton, East Tennessee State University; Muriel Sloan, University of Maryland, College Park; Sharon Taylor, Lock Haven University; Patty Viverito, Gateway Collegiate Athletic Conference; Charlotte West, Southern Illinois University, Carbondale; Chris Walters, University of Massachusetts, Amherst; Jackie Bloom, coordinator.

# Principles

*Continued from page 1*

CEO who is adversely affected by local pressures in attempting to maintain institutional control, and third, by providing effective presidential influence on the chief executive who chooses not to involve himself or herself in meaningful supervision of the intercollegiate athletics program.

7. Current NCAA rules and procedures provide necessary controls on institutional ambitions and outside pressures. Any alterations in the present structure should be designed to strengthen that control and the accompanying inspection procedures, particularly at a time of increased reward for success in athletics.

In his comments to the CEO meeting, Toner noted the "need for greater and more effective involvement of chief executive officers in intercollegiate athletics, taking into consideration several principles designed to assure that such involvement can be both meaningful and democratic."

"The NCAA has a history of more than 77 years of responding effectively to the needs and concerns of its member institutions," he said, citing several examples. "I suggest that this Association will respond with equal

effectiveness to the need for greater and more meaningful presidential involvement in college athletics policy formulation. I believe it will do so in a manner that accommodates the needs of the greatest possible number of member institutions, and in an enduring structure that will maintain each member institution's right to vote directly on national policies and programs in college athletics."

Toner urged the chief executives attending the meeting to submit any ideas regarding CEO involvement to the Special Committee on Governance Review or the NCAA national office.

In addition to Davis, the special committee members are Wilford S. Bailey, interim president, Auburn University; William H. Baughn, faculty athletic representative, University of Colorado; Asa N. Green, president, Livingston University; Arliss L. Roaden, president, Tennessee Technological University, and Kenneth J. Weller, president, Central College (Iowa).
