# Autonomy issue tops governance legislation

Two proposals supported by the Presidents' Commission, including one to increase voting autonomy within Division I, head the list of 14 governance proposals to be considered by the 1985 NCAA Convention.

Proposal No. 30, sponsored by the NCAA Council and supported by the Presidents' Commission, would permit the Division I-A membership and the combined membership of Divisions I-AA and I-AAA to vote separately on any issue in those bylaws that may be amended by a division acting separately, with the following exceptions:

- Bylaws 5-6 and 5-7, which deal with institutional and conference eligibility for NCAA championships.
- Bylaw 6-5-(e), which pertains to the annual number of financial aid awards in Division I men's and women's basketball.
- Bylaw 7-1-(b), which sets forth the number of permissible coaches in Division I basketball, and the remainder of Bylaw 7 legislation as it pertains to basketball.
- Bylaws 11-1-(a) through (e) and 11-4, which deal with Division 1 criteria that are not based on football requirements

• The definition of "commonly accepted educational expenses" if that definition is moved to the bylaws.

This proposal also would establish a Division I majority rescission procedure and clarify that legislation applicable only to a single division or subdivision can be submitted only by members of that division or subdivi-

The other governance proposal supported by the Presidents' Commission (and sponsored by it) is No. 32, which would amend Constitution 3-2-(b) to require all expenditures and income from the athletics program to be controlled by the institution and included in its regular accounting, budgeting and auditing procedures.

Three members of the Ohio Valley Conference and three other Division I institutions, all six located in Tennessee, have submitted Proposal No. 33, which would amend Bylaw 5-6-(g) to require an annual internal audit.

This proposal, to go into effect August 1, 1986, would require the chief executive officer of a Division I institution to certify that the institution's internal auditors have reviewed the institution's academic and financial aid records and certify that they meet all appropriate NCAA regula-

A Division I institution would not be eligible for NCAA championships unless the CEO submitted this report by September 15 of each year.

Two somewhat controversial proposals in the governance section are Nos. 34 and 36, which would change See Autonomy, page 13

# As freshmen, athletes win academic test

A study conducted at 57 Division I institutions shows that freshman athletes perform as well in the classroom as freshman nonathletes with comparable academic backgrounds.

The study, conducted over 18 months, concluded that participation in varsity athletics had no measurable effect on freshman athletes' grades.

Data on 2,000 grant-in-aid studentathletes and an equal number of nonathletes was gathered at public and private institutions for the study by the American College Testing Program, the College Board and the Educational Testing Service.

"The athletes completed more (credit) hours, had the same grades and returned in their sophomore year in greater numbers than the nonath-

# will be back to help California defend its title November 24-25 in Long Beach, California. See Davis, Bailey head list of NCAA nominations

John R. Davis, faculty athletics representative at Oregon State University; Wilford S. Bailey, faculty athletics representative and former interim president at Auburn University, and Arliss L. Roaden, president of Tennessee Technological University, have been recommended by the NCAA Nominating Committee to serve as NCAA president, secretary-treasurer and Division I vice-president, respectively, for 1985 and 1986.

They head the Nominating Committee's slate of candidates for NCAA offices and vacancies on the NCAA Council, which is being announced this week in The NCAA News and in the Official Notice of the 1985 NCAA Convention, to be mailed to all members Wednesday (November 21).

Davis served four years on the Council before being elected secretary-treasurer, the position he has held the past two years. Bailey is completing his second year on the Council as the Southeastern Conference representative. Roaden, completing a two-year term on the Council as the Division I-AA Central region reelection to a full term on the Coun-

University of Connecticut director of athletics, as president, and Bailey would replace Davis as secretarytreasurer. Roaden was nominated to replace Gwendolyn Norrell, Michigan State University, whose term on the Council ends upon adjournment of the 1985 Convention.

Several of the Nominating Committee's recommendations call for reelection of Council members to serve four-year terms after having served two years or less since the Council was restructured in 1983.

The elections of the new president and secretary-treasurer will take place during the business session of the January 14-16, 1985, Convention in Nashville, Tennessee. Election of the Division I vice-president will occur in that division's round table January 14, and that election will be ratified by the full Convention. All of the officers serve two-year terms.

Each division will fill its own vacancies on the Council during the division round tables.

The committee's nominations for Council positions:

Division I-A conferences: Elect Gilbert S. Banker, faculty athletics representative, Purdue University (Big Ten Conference). Elect Vernon M. Smith, director of athletics, University of Toledo (Mid-American Athletic Conference). Elect Joan Cronan, director of women's athletics, University of Tennessee, Knoxville (Southeastern Conference). Elect Albert M. Witte, faculty athletics representative, University of Arkansas, Fayetteville (Southwest Athletic Conference).

The committee notes that if Bailey is not elected secretary-treasurer, he would complete his term on the Council and Cronan could not be elected. Instead, in order to comply with the six-woman Division I Council requirement, Susie Pembroke-Jones, director of women's athletics, Northern Illinois University, then would be nominated in place of Smith as the Mid-American Athletic Conference representa-

Division I-AA Central region: Reelect Arliss L. Roaden, president, Tennessee Technological University.

Division I-AA South region: Elect John E. Thomas, chancellor, Appalachian State University.

Division I-AAA: Reelect Kathleen A Wear assistant director of athletics, La Salle University.

Division II

Region II-1: Reelect Howard El-

burgh from 1976 to 1979. Butler has a

mathematical chance, because he now

has 343. But Zendejas would have to

be blanked against Arizona while

Butler scored 22 against Georgia

Tech—unlikely but not impossible.

Zendeias held the career field goal

record when the season started and

A field-goal record may be set in

Division I-AA—it will be close. The

current average is 1.60 per game vs.

the record 1.59 in 1982. Accuracy,

however, is well behind the record in

I-AA, with 58.4 percent currently vs.

now has 77 to Butler's 74.

the record 60.3 in 1983.

Division I-A offensive figures are running a tiny bit behind 1983 and it does not seem likely they will catch up in the last 32 games. Passing yardage is 361.8 per game (both teams combined) and total offense is 695.7, compared to the records of 365.5 and 704.5 set a year ago. Yards per attempt (6.77) and completion percentage (52.7) also are barely behind 1983's record figures of 6.79 and 53.6 percent. The same is true of yards per rush (3.73 vs. 3.80) and yards per total offensive play (4.87 vs. 4.92 - the record). Passing emphasis declined

NCAA Director of Statistics

After another round of upsets, the bowl picture was monumentally unclear at this writing and the race for No. 1 was up in the air - the mountain air of Provo, Utah, home of the only Division I-A perfect-record team: Brigham Young.

But you can be absolutely sure of two things: (1) The nation's Division I-A kickers will set an all-time record for field goals made per game; and (2) the all-time record-holder in Division I-A scoring will be a kicker—either Arizona State's Luis Zendejas or Georgia's Kevin Butler.

have already happened. That's right, if the country's I-A kickers miss every one of their attempts the rest of the season over 32 games, they still would have a per-game average of 2.17, and

## Football notes

the record is 2.11 set in 1983. Right now, they are averaging 2.29 per game and have been 68.1 percent accurate, well above the 65.7 percent

# Third choice was the charm for Washington

By Bud Withers

Eugene Register-Guard

The turnstiles click with the monotony of a metronome. People still come by boat to Husky Stadium, where the football team is as genteel with opponents as a horde of rioting inmates.

And today, it is Don James who walks across Lake Washington to work, much as Jim Owens once did.

Yes, the Washington Huskies are the most canny and consistent football program in the Pacific-10 Conference, and, yes, everything seems serene there on the campus by the Montlake Cut.

That is the surface look.

The intrigue lies below. What if, for example, Mike White had been hired as football coach at the University of Washington nine years ago? What if an obscure coach named Dick Puddington hadn't been so determined back in 1970? What if Don James hadn't offered a suggestion when the Huskies went searching for an athletics director in 1976?

Sometimes, it is a fine line between the promised land and the poorhouse. Ever wish you'd walked out the door just a minute earlier and missed that phone call? Ever genuflect because you were there to answer it?

Let us set the scene. Seattle, 1975. Down there by the railroad station, the Kingdome is becoming reality. The Scahawks are coming. Up at the University of Washington, the athletics officials are scared, haunted by visions of cities where pro sports ran college interest right out of town. And the Huskies are coming off successive losing seasons in 1973 and 1974.

Today, Mike Lude, the Washington athletics director, rolls his eyes when he recalls the apprehension.

"In 1975, we sold 40,621 season tickets," said Lude. "The next year, we lost 7,000 of them. We lost more the next year."

It was Joe Kearney, not Lude, who was athletics director when the Huskies had to go looking for a football coach to replace Jim Owens after the 1974 season. Kearney, now commissioner of the Western Athletic Conference, wanted Dan Devine, the head coach of the Green Bay Packers, who wanted out of Green Bay. But Devine turned Kearney down and opted a year later for Notre Dame.

Kearney had a second choice: Mike White of California. Kearney was so sure White would accept that he confided the choice to the Seattle Times. The newspaper's presses were rolling with the news of Owens' replacement a la Thomas Dewey and the Chicago Tribune, when, lo and behold, Mike White declined ....

The third choice was James. The Huskies were stuck with a little-known coach from Kent State, a little-known school.

Lude had nothing to do with hiring him. But he had done that

# Columnary Craft

once before, at Kent State in 1970. Lude was named athletics director there in November of that year.

"I was staying in a hotel; I hadn't even gotten a place to live yet," said Lude. "The football coach, Dick Puddington, came to me with a letter of resignation. Before he gave it to me, I knew what it was. I said, 'I don't want that."

But Puddington was persistent. He came back the next week. This time Lude accepted. Then he went out and hired James, who was defensive coordinator at Colorado when Lude was head coach at Colorado State in the late 1960s.

There is one more piece to the puzzle. The missing link is the person who sits in the athletics director's chair at Washington -

A year after the Huskies hired James, they were scurrying about for Joe Kearney's replacement. James asked if he could make a recommendation. It was Lude.

More than merely a favor to the man who hired him at Kent State, James was helping to ensure his future as a football coach. He knew Mike Lude was a football man, a guy who would look after football's interests,

Now it is 1984. Since the program blossomed in 1977, Washington has won more games than any other Pac-10 school and has been to more bowl games than either Southern California or UCLA. Season-ticket sales are at 50,000 and the Huskies and Seahawks are coexisting nicely. And Sports Illustrated, listing the top three college coaches a couple of months ago, came up with "1, Don James. 2, Don James." That is a disservice to a lot of other good coaches, but you get the point.

Lude, meanwhile, is known as a football coach's athletics director, just like James figured.

At Oregon, while the track programs annually lose a great deal of money, they are supported because of their rich tradition and national reputation. Because they give Oregon something to hang its hat on.

Lude has none of that, only football.

"If I cared about all things equally," he said, "I'm afraid I wouldn't be putting my energies into the right area. If I've got a chain of stores and football is the best store I've got, I've got to take that one and make the cash registers jingle."

James has made it a productive arrangement.

"He has an absolutely canny ability of knowing the essentials from the nonessentials," said Lude. "The difference between him and some coaches is Don James doesn't worry about changing all the uniforms; he's much more concerned about what goes into them.

"He's not going to waste his time worrying about what aircraft we're flying on the charter, or where people are seated. Up until a year ago, he had the same furniture in his office that had been there with coach Owens a long time ago."

So there you have it. I wonder where Dick Puddington is

## Best change is involvement

D. J. DiJulia, commissioner Metro Atlantic Athletic Conference

MAAC News

"The best change in intercollegiate athletics over the past five years has been the increased involvement of the chief executive officers at many, many institutions. They, more than anyone else, are in a position to enforce institutional policy and set the tone for athletics programs.

"While the problems seem to be frustrating and suffocating at times, the increased involvement of the educational leaders of our campuses will bring about needed reforms, and I'm sure the much-needed recommitment to play within the rules and conduct intercollegiate athletics with high integrity.

"Those of us within intercollegiate athletics must admit (whether we like it or not) that the high visibility and role-

wasted basically to benefit one player."

## Bud Childers, women's basketball coach **Murray State University**

News release

(Concerning the 30-second vs. the 45-second shot clock): "You're pressed in the back court, that cats up six to 10 seconds, and you regroup and enter into your half-court offense after another four or five seconds; in most cases, you have not only battled a tough press but the clock as well. It's the clock that can beat you, too.

'When you have only 30 seconds to shoot and you spend a major portion of that time just getting your team into the offense..., let's look at the 45-second shot clock for the future. I think it will add greatly to the overall quality of all of our performances in women's basketball."

### John C. Weistart, professor of law **Duke University**

The New York Times

"A troublesome undercurrent in intercollegiate sports is what I call the Great American Non-Sequitur. ... We demand that the athlete embrace the ideal of a four-year university education only if his talents arc in the areas of basketball or football. For those with abilities in baseball, hockey, tennis or golf, there are opportunities for development outside the university setting. ... Statistics from baseball, for example, suggest that roughly half of the high-quality school players choose to enroll in college."

### Johnny Majors, head football coach University of Tennessee, Knoxville

The Associated Press

"It used to be very difficult to make a youngster understand why you were redshirting him. Redshirt was almost a dirty word. But now, I think more of them understand and actually come in expecting it. That has a lot to do with honesty in recruiting and with getting players mature and unselfish enough to do what is best for the

"In the long run, it's best for most of them, too."

# Questions/Answers

Q. Are there any limits on the number of coaches an institution may employ in the sports of football and men's basketball?

A. Yes, Division I-A institutions may have a maximum of one head coach and nine assistant coaches in football; Division I-AA institutions are allowed one head coach, eight assistant coaches and two part-time coaches. Division I basketball programs are allowed one head coach, two assistant coaches and one part-time assistant coach. There are no limits in either sport in Divisions II and III. In addition, an institution may have an uncompensated volunteer coach and any undergraduate student-athletes who have exhausted their eligibility or who are injured to the point that they are unable to practice or compete ever again in intercollegiate athletics.

# Field goal

Continued from page 1

slightly a second straight year. So far, 37.4 percent of all plays have been passes, vs. 37.6 last year and the record 38.0 in 1982. Even scoring, previously up due to the field-goal explosion, is coming down off the record 1983 figure of 44.2 points per game to a current 44.0.

### I-AA offense setting records

Division I-AA, in contrast, is setting offensive records right and left. Passing yards now average almost as much as I-A - 361.78 per game to 361.79 - far above the I-AA record of 334.5 set last season. Scoring, too, is close to I-A, with a current 43.6 points per game, far above the record 42.1 of 1983. Total offensive yards (666.8), completion percentage (50.1), touchdown passes (2.43) and yards per offensive play (4.71) are all above the I-AA records of 645.1, 49.4, 2.17 and 4.60, respectively.

### Lavette close to 4,000 rushing

Georgia Tech senior Robert Lavette needs only 43 yards against Georgia to become the 20th player in Division I-A history to gain 4,000 yards in career rushing. Central Michigan's Curtis Adams has ended his career at 4,162, becoming the 19th player to reach 4,000.

Lavette also leads all seniors in career all-purpose running at 5,272 yards, with Florida State's Greg Allen next at 4,996 and Navy's Napoleon McCallum third at 4,842, even though he missed the last nine games with an injury. In career scoring among nonkickers, it is Allen with 278 points and Lavette 270.

### Flutie, Cunningham 1-2

Boston College's Doug Flutie, with two games left, remains on target for 11,000 yards total offense and 10,000 passing. He already holds the all-time marks in both categories, set in recent weeks, and now has 10,537 total offense and 9,831 passing.

Nevada-Las Vegas senior Randall Cunningham also has two games left in which to add to his No. 2 figure among current I-A players - 7,667 total offense.

### Triple crown for Byars?

Ohio State junior Keith Byars will win a triple crown in statisticsrushing, scoring and all-purpose running — unless Texas Christian junior Kenneth Davis, now third, gains 186 yards rushing in his final game at Texas A&M Saturday. That is what Davis needs to win the rushing title. Byars ended at 150.5 yards per game in rushing and his scoring (13.1) and all-purpose (207.6) figures are out of

## Quotes of the week

Minnesota-Duluth senior defensive end Steve Ahlers on what it's like to be playing college football at the ripe old age of 29: "I was paging through one of our programs the other day, and I saw some of our freshmen were born in 1966. I was already playing Pop Warner football then. That's when it (his age) really hit home." (Bob Nygaard, Minnesota-Duluth SID)

Ken Wable, veteran coach who has won 112 games in 23 seasons at Mount Union: "A person can't coach a long time unless he wins all his games or learns to forget those that are better forgotten." (Alan Aldinger, Mount Union SID)

Western Carolina coach Bob Waters got his 100th career victory in the final game of the regular season November 10, moving the former San Francisco 49ers quarterback to ninth place among active Division I-AA coaches. When asked about his chances of catching Grambling State's Eddie Robinson, the I-AA leader at 319 (just four away from the all-time, all-division leader, the late Paul "Bear" Bryant of Alabama), Waters replied: "At this rate. I will have to coach only 35 more years to catch Eddie, and I don't think they'll let me coach when I'm 80." (Steve White, Western Caro-

Texas Christian's Kenneth Davis ranks high in three categories Division 1-A

lina SID)

Arizona State kicker Luis Zendejas went into last Saturday night's game with Colorado State with 355 career points, needing just two to break the all-time Division I-A scoring record of 356 by Pittsburgh's Tony Dorsett in 1973-76. "Some of the guys are saying I should kick the points leftfooted," the right-footed soccer-styler told Walter Berry of the Associated Press. "But you know what I really want to do? I want to score on a twopoint conversion. Or, we fake the field goal and the holder throws a pass to me. Wouldn't that be great? I'd break the record and score my first touchdown all on the same play!" (As it turned out, Zendejas broke the record with a first-half point-after and now has 364 career points with one game left.) (Gary Rausch, Arizona State SID)

"I'd love to pay athletes," Tennessee athletics advisor David Boles told Thomas O'Toole of the Knoxville News-Sentinel. "But I would interlock that payment with education. When they miss a class, it will cost them. Maybe people don't like the sound of that, but the athletes are here for an education. All this says is if you hit the books, the money will be waiting for you."

Boles' comments came shortly after Tennessee coach John Majors endorsed paying athletes \$50 a month above their grants-in-aid, to curtail cheating. Some may think Boles' plan reeks of professionalism. "That doesn't bother my mind anymore," said Boles, "I look at it differently. How is a kid supposed to make it up here when he has no money in his pockets?... What if you don't have 50 cents to buy a coke? I don't care what school I've been in, we've had kids who literally didn't have any money." (Haywood Harris, Tennessee SID)

Grambling State coach Eddie Robinson on 6-11, 314-pound defensive tackle James Polk: "I had to drop two scholarships just to have enough money to feed him." (Henry Hawkins, Grambling State SID)

At the start of the football season, enrollment was down at Mississippi Valley State and there was talk in the state legislature of closing down the college and consolidating it with Alcorn State or Jackson State. But now, the school might be saved. These are exciting times," says Joe Boyer, president of Mississippi Valley and a veteran of 20 years in the world of higher learning. "I've written reports, served on committees, steered policies, wrote theses, investigated, analyzed, documented, and now ... ' Now he gets CBS and NBC and the Los Angeles Times and USA Today on his campus, wrote Rick Reilly of the Los Angeles Times. And for what? To meet Archie "Gunslinger" Cooley ("It's 'Gunslinger' because I'm a straight shooter," he says), coach of the highest-scoring team in football. "People want to see winners, man, it doesn't matter what color they are,"

Pat Brennan, Franklin quarterback, is the total-offensive leader in Division II

Cooley says. "They hear about what we're doin' and they say, 'Man, I want to see this." Boyer is happy—his school may survive after all. "I take it any way I can get it," he says. "Without Valley, many of our students might not go to college at all." (Charles Prophet, Mississippi Valley State

Washington's Don James coaches from a tower, as Paul "Bear" Bryant used to, and split end Mark Pattison told Jim Armstrong of the Denver Post: "I'll never forget when I was a freshman and a sophomore, I was so intimidated by that tower. It's like God looking down over your shoulder." Like God? "Well, not really like God," said Pattison. "No, more like... well, like Lee Iacocca."

"When people say, 'The Trojans are back,' you get the impression that we've been losing for years," said Southern California linebacker Duane Bickett. "We really haven't been gone that long."

Washington State runner Rueben Mayes is from North Battleford, Saskatchewan, Canada, about 300 miles north of the Canadian border. Says coach Jim Walden: "I can't wait until all those other coaches start rushing up to North Battleford to try to get the next crop of recruits. You won't see most of them until the spring thaw. It won't take long to lose most of them in the snow banks of North Battleford...We felt we had a diamond in the rough three years ago. He had so much raw talent, we knew he'd be worth the gamble."

Oregon had 14 players from southern California on its traveling squad when it won 20-18 at UCLA—a crucial blow to UCLA's Rose Bowl hopes. One of them, strong safety Doug Judge of Carson, had this to say about playing before the home folks: "Winning at home is the greatest feeling in the world. It means we can wear Oregon clothes in the malls." (Jim Muldoon, Pacific-10 SID)

The Murray State staff presents weekly offensive and defensive awards called "Kahuna" ( an acronym for "Knock And Hit Until No One Answers") to the player on each squad who makes the hardest hit during that week's game. Against Youngstown State, sophomore flanker Chuck Cummings received the award for a particularly solid downfield block. Later, after Cummings caught his first touchdown pass of the year, he exhibited what has become his trademark: a standing backflip in the end zone. However, probably due to the cold weather, his flip this time was somewhat short of a Bart Conner or Mary Lou Retton, and Cummings nearly landed on his head. Commented coach Frank Beamer: "Part of the reason Chuck got the Kahuna award was because he almost Kahunaed himself on his flip." (Craig Bohnert, Murray State SID)

### Historic seasons

Hope College gained its first perfect

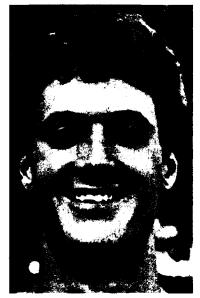

Sean Payton of Eastern Illinois ranks second in total offense in Division II

season ever by beating Olivet 55-0 to finish 9-0. The championship of the Michigan Intercollegiate Athletic Association is the seventh in 15 seasons under coach Ray Smith - more than any other coach in MIAA annals. (Tom Renner, Hope SID)

Talk about great turnarounds. Beloit was 2-7 a year ago and picked for the cellar this season in the Midwest Conference, but instead rolled to an 8-1 record (losing only to Ripon)the most wins by a Beloit squad since 1952. (Jim Bredeson, Beloit statistician)

Minnesota-Duluth wrapped up its 15th consecutive winning season with a victory over Bemidji State, 19-0. The shutout was second of the season for the Bulldogs, and during all of the last 26 seasons—all under veteran coach Jim Malosky-they have registered at least one shutout. Can any team top that? (Bob Nygaard, Minnesota-Duluth SID)

Wheaton (Illinois) senior Keith Bishop is the total-offensive leader in Division III

### Family affair

Kansas State's Calvin Switzer, a 250-pound offensive guard, is the fifth Switzer to become an outstanding athlete at K-State. His father Veryl was an all-America back and pro for the Green Bay Packers, older brother Veryl Jr. was a Big Eight champion in the long jump, cousin Phil was a starter in the Kansas State secondary in 1982, and Phil's brother Marvin was a starter at defensive back in 1975 and 1976. Calvin was a starter in 44 of 45 games over his career, including Kansas State's only bowl game, after the 1982 season. When he and Phil were teammates at the Independence Bowl. Winning the final game, 38-6, over Colorado last Saturday, was good, Switzer said: "You always remember the last game of the season. There were ups and downs, but my family made it easier. It's easier growing up with athletes." (Mike Scott, Kansas State SID)

## I-A, I-AA attendance on way up

Both Division I-A and Division I-AA attendance now seem certain to top 1983, both in per-game average and in total attendance, despite last weekend's bad weather and slim crowds in other places.

Division I-A now is averaging 42,346 per game but is almost 280,000 behind last year in total attendance. The totals lag soon will be corrected, however, because there are 31 home games left for I-A teams (in a 32nd game, a I-A team is playing at a I-AA site - Boston College at Holy Cross December 1) vs. just 18 more at this stage a year ago. If those 31 games simply draw each team's season average a reasonable expectation because many are traditional games for big-attendance home teams they will add a little more than 1.5 million spectators to the total. That would bring the season total to more than 25.8 million for 605 games. A little more than 25.5 million is needed to break last season's final audited figure of 42,162 per game for 602 games. Thus, even if the final audit brings the total down by 300,000, the per-game figure still would be above 1983. The final audit has never reduced the total by more than

In Division I-AA, the final-audit margin is a little closer, but the division still should be up by a small margin. Only three I-AA home games remain, but one of these is the traditional Grambling State vs. Southern-Baton Rouge game in the Louisiana Superdome in New Orleans, which annually draws about 75,000. That, plus home games for Holy Cross and Alabama State, would bring the I-AA total to a shade under 5.1 million, or about 110,000 more than needed to break last season's final audited figure of 10,767 per game. The final audit usually cuts the I-AA figure about 50,000.

Once again, the big-attendance conferences in Division I-A are leading the way. The Big Ten Conference, with no home games left, finished at 68,020 per game, and will certainly set an all-time national high, even after the final audit (the current record was set by the Big Ten last year at 67,471). The Atlantic Coast Conference is averaging 43,964, well above its record figure of 42,608 set last season, and this should hold up through the last three games. Southern independents are averaging 41,671 compared to their record 38,383 set last year, and that seems certain to hold up with two home games left at Miami (Florida) and Florida State. The Western Athletic Conference is at 31,142 vs. its record of 30,296 set in 1982, and a record seems likely since Brigham Young has one more game and Hawaii two. The Big Eight Conference is up at 49,819 and will surpass 50,300, but this will not be a record. The Pacific-10 Conference likely will be up, surpassing 47,600 after the last two games, but just below the record. The Southeastern Conference will top 64,000 but will miss its record set in 1983. The Southwest Athletic Conference (41,027) is up over last year with six games left but under the record. The Pacific Coast Athletic Association (15,748) is up, while the Eastern independents (41,870) and the Mid-American Conference (17,001) are down.

	Games	Attendance	Average	Capacity
Division I-A season figures to date	574	24,306,369	42,346	80.5
Same 105 teams at this stage in 1983	584	24,585,995	42,099	79.8
Division I-AA season figures to date	460	4,999,952	10,869	54.7
Same 87 teams at this stage in 1983	458	4,939,186	10,784	52.8

# Championships Highlights

# Cal Poly-SLO, Southeast Missouri win in cross country

Southeast Missouri State received good performances from its first four runners to win its first team title in the NCAA Division II Men's Cross Country Championships November 17 at Mississippi College.

Mike Vanatta led the way for the Indians with his individual championship in 29:55.0 on the 10,000-meter course. Vanatta also is a three-time steeplechase champion.

The Indians placed their next three runners in the top 11 to beat Edinboro, 87-129.

The other scorers for Southeast Missouri were Arthur Waddle, second; Joseph Leuchtmann, fifth; Joseph Lackner, 11th, and Norman Kellar, 68th.

Edinboro, which matched its 1981 finish, was led by Luil Graham, seventh among the individual finishers and fourth in the team competition.

California-Riverside was third in the meet.

### Team results

1. SE Missouri St., 87; 2. Edinboro, 129; 3. Cal-Riverside, 136; 4. South Dakota St., 139; 5. Cal Poly-SLO, 154; 6. Keene St., 174; 7. Indiana (Pa.), 178; 8. Lowell, 216; 9. North Dakota St., 224; 10. Cal-Davis, 244; 11. Millersville, 261; 12. Troy State, 268; 13. Cal Poly-Pomona, 288; 14. St. Cloud State, 296; 15. Texas A & I, 301; 16. NW Missouri St., 373; 17. Ferris State, 490.

Individual results

1. Michael Vanatta, SE Missouri St., 29:55.0; 2. Agapius Amo, East Texas, 30:05.7; 3. Arthur Waddle, SE Missouri St., 30:17.4; 4. Dave Henderson, Portland State, 30:27.3; 5. Rodney DcHaven, South Dakota St. 30:31.9; 6. Rob Juergens, Ashland, 30:34.9; 7. Luil Graham, Edinboro, 30:38.7; 8. Kurt Stenzel, Angelo State, 30:39.5; 9. Joseph Leuchtmann, SE Missouri St., 30:43.0; 10. Steve Perez, Cal Poly-Pomona, 30:45.2.

11. Tom Anderson, Keene State, 30:46.9; 12. David Dunham, Lowell, 30:48.9; 13. Thomas Doran, Indiana (Pa.), 30:51.2; 14. Todd Stevens, South Dakota St., 30:51.6; 15. Steve Spence, Shippensburg, 30:52.0; 16. John Spilman, Cal St. Northridge, 30:52.3; 17. William Berkebile, Shippensburg, 30:52.7; 18. Joseph Lackner, SE Missouri, 30:53.1; 19. Kevin Jones, Cal PolySLO, 30:54.7; 20. Rodney Ellsworth, Keene State, 31:00.2.

21. William King, Millersville, 31:01.2; 22. Phil Vannette, Cal-Riverside, 31:02.7; 23. John Zimmerman, North Dakota St., 31:04.5; 24. John Barrett, Cal-Davis, 31:10.7; 25. Briant Nierstedt, Southern Conn., 31:12.1; 26. David Quintal Lowell, 31:12.6; 27. Mark Young, St. Cloud State, 31:13.9; 28. Julio Valdes, Troy State, 31:18.6; 29. Brent Griffiths, Cal Poly-SLO, 31:19.5; 30. Brent Friesth, Augustana (S.D.), 31:20.1.

31. Ray Cook, Cal-Riverside, 31:20.9; 32. Mike Hulme, Edinboro, 31:21.6; 33. Mark Castro, Cal-Riverside, 31:23.3; 34. Christian Palmer, Troy State, 31:23.6; 35. John Perleberg, St. Cloud State, 31:27.8; 36. William Maloney, Edinboro, 31:28.4; 37. Jeffrey Weitenbeck, Troy State, 31:29.1; 38. Steve Stahl, Edinboro, 31:31.9; 39. Alan Severude, Augustana (S.D.), 31:32.5; 40. Mike Miner, Cal Poly-SLO, 31:34.6.

41. Felix Horta, Texas A & 1, 31:35.1; 42. Brian Kraft, North Dakota St., 31:35.9; 43 Robert Beyer, South Dakota St., 31:36.4; 44 Tim Watson, Cal-Riverside, 31:37.2:45. ## Division II Women

Cal Poly-San Luis Obispo placed all seven of its runners in the top 20 and its first five in the top 10 to win its third consecutive NCAA Division II Women's Cross Country Championship November 17 at Mississippi College.

Gladees Prieur was the top finisher for the Mustangs, finishing third in both individual and team scoring, to help SLO to a 32-107 victory over second-place South Dakota State.

The other scorers for the Mustangs were Robyn Root, fourth; Jennifer Dunn, seventh; Lori Lopez, eighth, and Jill Ellington, 10th.

Southeast Missouri State, third in the meet, captured the individual title, with Christine Ridenour covering the 5,000-meter course in a time of 16:53.2. Ridenour's victory gave the Indians the individual championships in both the men's and women's meet.

South Dakota State's top finisher was Kristin Asp, eighth individually and sixth in team competition.

### Team results

1. Cal Poly-SLO, 32; 2. South Dakota St., 107; 3. SE Missiouri St., 112; 4. Cal-Riverside, 116; 5. Indiana (Pa.), 119; 6. Holy Cross, 157; 7. North Dakota St., 168; 8. Cal-Davis, 178; 9. Ashland, 203; 10. Springfield, 227; 11. Troy State, 272.

# Old Dominion wins field hockey title

Old Dominion, outscoring its playoff opponents by a combined margin of 17-2, capped a perfect 23-0 season by winning the Division I Field Hockey Championship with a 5-1 victory over Iowa November 18 at Springfield College.

The Lady Monarchs have won the past three Division I titles, and they defeated Virginia (10-0) and Connecticut (2-1) on their way to the 1984 finals. Old Dominion now owns a 10-1 record in Division I field hockey tournament games.

Old Dominion broke open a tight contest after intermission, scoring four times in the second half. Goals by Cheryl Van Kuren and Eveline Veraart were sandwiched between scoring strikes from Christy Morgan, giving Old Dominion an insurmountable lead.

Old Dominion goalie Shelly Behrens stopped seven lowa shots, while Hawkeye goalies Karen Napolitano and Joan Behrends combined to turn back 14 Old Dominion attempts.

Each of the finalists placed four players on the all-tournament squad. Old Dominion's Morgan and Veraart were joined by teammates Diane Bracalente and Willemien Aardenburg.

Iowa's Mary Koboldt, Debbie Brickley, Marcia Pankratz and Kim Hermann were named to the team, D'Amadio of Connecticut and Monica Mills of Temple.

A crowd of 1,400 attended the finals at Springfield's Benedum Field.

Bracalente), 35.51; OD—Cheryl Van Kuren (unassisted), 43:20; OD—Eveline Veraart (Willemien Aardenburg), 46:58; OD—Christy Morgan (Jackie Grady), 52:12.

# North Carolina captures third NCAA women's soccer crown

April Heinrichs and Joan Dunlap scored second-half goals to lead North Carolina to its third consecutive NCAA Women's Soccer Championship with a 2-0 victory against Connecticut on the Tar Heels' home field November 18.

Heinrichs, who scored two goals in the 1983 championship victory over George Mason, connected from six yards out with an assist by Amy Machin. Minutes later, Dunlap tallied against Connectict goalie Laura Skaza, with assists from Marcia McDermott and Betsy Johnson. Dunlap recorded one goal and one assist in last year's title game.

The Tar Heels' fourth national crown--including the 1981 Association for Intercollegiate Athletics for Women title-completed an unbeaten season. North Carolina finished 24-0-1. Its only blemish was a 1-1 tie with George Mason. The Tar Heels have not lost in 44 games -

since a 3-1 setback by Connecticut in the 1983 season opener.

"We were too ambitious with our shooting in the first half," said North Carolina coach Anson Dorrance. "Connecticut was well-organized in the back. The girls were well-trained and accustomed to playing close games. They made a good decision to play back."

The Tar Heels controlled the ball throughout the game, outshooting the Huskies 27-8 and recording 11 shots on goal to four by Connecticut. Both Connecticut goalkeeper Skaza and North Carolina's Beth Huber had nine saves.

In the third-place game, Massachusetts defeated California, 4-1. In semifinal games November 17, North Carolina beat California in overtime. 2-1, and Connecticut stopped Massachusetts, 2-1, also in overtime.

Heinrichs was named the tournament's outstanding player while Machin was voted top offensive player and Shelley McElroy, Connecticut, the top defensive player.

The Tar Heels have not allowed a goal in three NCAA championshipgame appearances. North Carolina beat Central Florida, 2-0, to win the inaugural title in 1982 and then stopped George Mason last year, 4-0. With three victories in the 1984 tournament, the Tar Heels boosted their championship record to 9-0.

Individually, Heinrichs entered the 1984 tournament holding the NCAA record for most goals in one tournament, four in 1983, and was tied for most points in one tournament (eight) with teammate Machin.

Named to all-tournament team were: Goalie-Mary Harvey, California: Offense-Tucka Heally, California; Jolie DePauw, Massachusetts; Donna MacDougal, Connecticut: Defense-Denyse Garcia, California; Susan Bird, Massachusetts, Stacy Enos, North Carolina: Midfielders-Emily Pickering, North Carolina; Betsy Johnson, North Carolina; Kristen Bowsher, Massachusetts; Carolyn Micheel. Massachusetts.

North Carolina ......0 2-2 Second half: NC-April Heinrichs (Amy Machin), 77:05; Joan Dunlap (Marcia McDermott, Betsy Johnson), 80:23.

Shots: Connecticut 8, North Carolina 27 Shots on goal: Connecticut 4, North Carolina 11. Saves: Connecticut (Laura Skaza) 9, North Carolina (Beth Huber) 9. Corner kicks: Connec ticut 2, North Carolina 3. Fouls: Connecticut 15, North Carolina 17 Attendance: 3 500

# Championships Corner

1. The U.S. Military Academy has been selected to host the 1985 NCAA Men's and Women's Rifle Championships March 8-9. Tennessee Technological University originally was awarded the bid to host the championships; however, the institution withdrew after determining that sufficient site preparation could not be made in time for the championships.

2. The NCAA Division III subcommittee of the Women's Tennis Committee is soliciting bids to host the 1985 championships May 6-11. Anyone interested should contact Cynthia L. Smith at the NCAA national office.

# St. Thomas wins both crowns in Division III cross country

St. Thomas became the second Division III institution to win both the men's and women's championships in the same sport in the same year at the NCAA Division III Men's and Women's Cross Country Championships November 17 at Ohio Wesleyan University.

The St. Thomas men's team beat North Central, 76-89, to win its first team title in the sport, and the women's team beat Wisconsin-La-Crosse, 50-64, to win its second team

Kenyon accomplished the feat last year in swimming.

Peter Wareham led the Tommies with his third-place individual finish that was second in team scoring. The other scorers for St. Thomas were Thomas Faust, eighth; Nicholae Manciu, 15th; Paul Thurmes, 20th, and John Bielinski, 31st.

Brandeis failed in its bid to defend the team championship, finishing third. Mark Beeman, who finished 23rd last year, won the individual title, running the 8,000-meter course in a time of 24:44.71.

North Central's top finisher was Bob Dunphey, who was fifth individually and fourth in team scoring.

Sarah Hintz set the pace for the St. Thomas women's team, finishing fifth individually and second in team scoring. The other scorers for the women were Cindy Hennessey, fifth; Laura nderieden, eighth; Mori Sweeney, 15th, and Jennifer Schultz, 20th.

Wisconsin-LaCrosse, the defending champion, was led by Sharon Stubler, 15th individually and seventh in team scoring. Also scoring for the Indians were Doreen Ludlow, ninth; Deb Iverson, 13th; Patty Reynolds, 16th, and Lisa Kutchera, 17th.

Macalester's Julis Kirtland captured the individual championship with a time of 17:23.55 for 5,000

# Championships Previews

# Eastern Kentucky seeks third crown

Eastern Kentucky coach Roy Kidd probably is not too popular with the mothers of his team's members this time of year. For six consecutive years, Kidd has led the Colonels to the NCAA Division I-AA football play-offs, putting Thanksgiving dinner plans on hold.

Eastern Kentucky won the 1979 and 1982 championships and finished second in 1980 and 1981 before falling in last year's first round. The Colonels return with a ball-control offense that has averaged more than 200 yards rushing a game.

Eastern Kentucky, ranked 10th in the latest poll, automatically qualified

Indiana State's Jeff Miller

for the play-offs by rallying for 14 fourth-quarter points in a 48-38 victory over Morehead State to win its fourth consecutive Ohio Valley Conference title.

Other automatic qualifiers include Big Sky champion Montana State; Southland Conference winner Louisiana Tech and Alcorn State, champion of the Southwestern Athletic Conference, Automatic berths also were awarded to champions of the Southern and Yankee Conferences and the top two independent teams, as evaluated by the Division I-AA Football Committee. The rest of the 12-team field was selected at large.

The seventh annual championship

begins November 24 with eight firstround games. The top four teams, as seeded by the committee, received byes. Quarterfinals get under way December 1, followed by semifinals December 8. The championship will be contested December 15 at Johnson Hagood Stadium in Charleston, South Carolina.

Montana State's first trip to the play-offs was made possible, in part, by quarterback Kelly Bradley, who passed for 26 touchdowns. The sixthranked Bobcats have averaged 440 yards in total offense and 32 points while limiting opponents to less than 100 rushing yards a game.

Second-ranked Alcorn State also has a prolific offense and strong defense. The Braves ranked third in scoring and second in rushing and total defense through eight games.

No. 11 Louisiana Tech ended its regular season with a defense that ranked No. 1 against the pass and fifth in scoring defense.

A three-way battle between No. 4 New Hampshire, No. 5 Boston U. and No. 6 Rhode Island decided the Yankee Conference automatic quali-

The Southern Conference berth also boiled down to three teams last year's runner-up Western Carolina, Citadel and Tennessee-Chatta-

Top ranked Tennessee State was not selected for the championship because 14 players on the squad were ruled ineligible. Mississippi Valley State, led by the passing combination of Willie Totten and Jerry Rice will play Louisiana Tech in the first round and could have a rematch with Alcorn State in the second round.

Pairings for the Division I-AA Football Championship:

Mississippi Valley State (9-1) at Louisiana Tech (7-4); winner will play Alcorn State (9-0).

Middle Tennessee State (9-2) at Eastern Kentucky (8-3); winner will play Indiana State (9-2).

Boston U. (9-2) at Richmond (7-3); winner will play Rhode Island (9-2). Arkansas State (7-3-1) at Tennessee-Chattanooga (6-4); winner will

play Montana State (9-2).

# efending champion ranked No. 1

Revenge could play a role in the 12th annual NCAA Division II Football Championship.

(11111)

Nebraska-Omaha's only blemish this season was a 41-23 setback at North Dakota State. However, the Mavericks may get another chance in the play-offs. For the second consecutive year, Nebraska-Omaha and No. 1-ranked North Dakota State tied for the North Central Conference title. North Dakota State's only loss this year was to league foe Mankato State.

First-round games in the eightteam play-off begin November 24, followed by semifinals December 1. The winners will meet December 8 in the Palm Bowl at McAllen, Texas. One team was selected from each of four regions. The rest of the field was selected without geographical consi-

The players that led North Dakota State to last year's championship --quarterback Jeff Bentrim and running back James Molstre - again are making the Bisons' option offense excel.

in handing North Dakota State its only loss last year, and he has rewritten his school's passing records. As of November 3, Naran ranked second in passing efficiency and had passed for 1,908 yards and 20 touchdowns.

Central Ohio, tied for third with Troy State in the latest poll, also has a score to settle with North Dakota State. The Marauders were blitzed, 41-21, by the Bison in last year's Palm Bowl

Central Ohio survived a tough schedule and the loss of most of last year's offensive line to make its return trip. The Marauders feature a well-balanced team. Through nine games, quarterback James Woody has 1,430 passing yards and 16 touchdowns. Linebacker Herm Thomas leads a stubborn defense, and specialists John Gutton and Garland Watts ranked sixth in punt returns and kickoff returns, respectively, through games of November 3.

Pairings for the 1984 NCAA Division II Football Championship:

California-Davis (9-1) at North Dakota State (9-1). November 24.

Northwest Missouri State (10-1) at Nebraska Omaha (10-1), November 24,

Central Ohio (9-1) at Troy State (9-1), No-

Towson State (8-3) at Norfolk State (10-1),

November 24.

Semifinals are December 1 at on-campus sites. Championship final is December 8 at the Palm Bowl in McAllen, Texas.

### offense (39.7 points), rushing offense (340.1 yards) and total offense (453.6 yards). Bentrim led the division in Stanford favored to regain water polo title scoring with a 9.3 per-game average,

Last year was the first time since 1973 that Stanford did not appear in the NCAA Men's Water Polo Championship. The Cardinal will appear in this year's championship and might go all the way to the top.

Stanford (23-4) was the nation's top-ranked team entering the final kend of regular-season play and has had success against its closest challengers. Coach Dante Dettamanti has a young team, but it matured as the season progressed. Stanford is 15-I since late September.

If Stanford wins the November 24-25 tournament at Long Beach, California, it will be its fifth water polo title, including back-to-back championships in 1980 and 1981. The Cardinal finished second in 1982.

A sixth title will not be easy, though, with defending champion California (21-4-1) and 1984 runner-up Southern California (27-6-1) among the nation's best teams. UCLA (13-12-1) is in contention as a fourth Pacific-10 Conference team.

Western talent does not end with the Pacific-10. Pepperdine (32-5-1) has been among the top five throughout the season. UC Irvine (16-11-1), California-Santa Barbara (15-10) and Fresno State (15-15-1) also are Western contenders.

Although a California team is expected to win the tournament for the 16th consecutive year, Eastern teams might achieve some success. Brown (31-5-1) and Navy (23-2) battled for Brown winning in overtime - and probably have their best teams ever. Loyola (Illinois) (16-12-1) again is the best team in the Midwest and returns the top scorer from the 1983 championship, Dan O'Connell.

Bucknell (17-6), Richmond (23-6) and Slippery Rock (15-8) are other Eastern contenders but are not expected to earn tournament spots against Western competitors.

Stanford defeated California, 8-6, in the 1980 final game. It could be a replay of Bay rivals in 1984.

Following are the pairings for the 1984 NCAA Men's Water Polo Championship:

Stanford (23-4) vs. Navy (23-2), California (21-4-1) vs. Loyola (Illinois) (16-12-1), Southern California (27-6-1) vs. Brown (31-5-1), Pepperdine (32-5-1) vs. UCLA (13-12-1).

Semifinal pairings: Stanford-Navy winner vs. California-Loyola winner, and Southern Cal-Brown winner vs. Pepperdine-UCLA winner.

# Legislative Assistance 1984 Column No. 29

### Contact and evaluation subsequent to signing National Letter of Intent

Under the provisions of Bylaw 1-2-(a)-(1)-(ii), subsequent to the occasion of the National Letter of Intent signing, there shall be no limit on in-person, offcampus contacts with the prospect, the prospect's relatives or legal guardian by the institution with which the prospect has signed. This being the case, the institution with which the prospect has signed is not required to follow the contact and evaluation calendar as set forth in Bylaws 1-2-(a)-(4), (5), (6) and Bylaw 1-3 for that prospect. However, because the athlete is still considered a prospective student-athlete until enrolled at the institution, all contact in person with the prospect or the prospect's relatives or legal guardian shall be made by those institutional staff members who are allowed to recruit and scout off-campus, and in-person, off-campus contact by representatives of an institution's athletics interests is prohibited.

Please note that Bylaw 1-2-(a)-(1)-(ii) does not permit contacts with or evaluation of the prospect in situations (e.g., high school games, awards banquets) where it would not be permissible to contact or evaluate other prospective student-athletes because the event occurs outside the permissible recruiting periods set forth by Bylaws 1-2-(a) and 1-3

Player-agent registration

Pursuant to the player-agent registration program initiated by the NCAA Special Committee on Player Agents, a list of registered player agents is being distributed to directors of athletics at all active member institutions and to all conference chief executive officers. By signing a registration form, a player agent agrees not to jeopardize the remaining eligibility of a student-athlete under the NCAA legislation and also to notify the directors of athletics before contacting enrolled student-athletes.

Under the provisions of Constitution 3-1-(h)-(4), counseling panels may be established to assist in providing student-athletes with reliable information concerning professional athletics career opportunities and also to assist student-athletes in the selection of competent representation. Student-athletes are being urged to cooperate only with player agents who have registered as part of the NCAA program.

Educational and professional background information has been provided to the national office by the registered player agents and is available from the national office. Institutions wishing to obtain such information or to establish counseling panels should contact John H. Leavens, director of legislative services, at the NCAA national office.

### Printed recruiting aids—Case No. 182

As indicated in revised Case No. 182 (published October 29, 1984, in the Interpretations column of The NCAA News), the gift of any tangible recruiting aid other than those specified in Case No. 182 would be considered an improper inducement prohibited under the provisions of Bylaw 1-1-(b)-(1) and could affect the prospective student-athlete's eligibility under the provisions of Bylaws 5-1-(i) and 5-6-(e). A "tangible" recruiting aid would be any item having a value in and of itself. For example, the provision of other printed materials (such as calendars, books, pictures or posters), or material items bearing the institution's insignia (such as mugs, pencil holders or key chains), to prospects, or to high school or junior college coaches would be prohibited. This legislation also would preclude the provision of subscriptions to newspapers, magazines or other publications to prospects or high school or junior college

It is permissible for an institution to write to a prospective student-athlete and to send holiday greetings that are of a normal size and style. Greeting cards that are oversized, that play the institution's fight song when opened or that unfold into posters are examples of the type that would be prohibited. Further, the Administrative Committee has asked the Recruiting Committee to consider whether the mailing of news clippings to prospects should be restricted

A number of institutions have inquired regarding the distribution of recruiting aids that had been produced or ordered prior to the publication of the clarifying interpretation. In this regard, Case No. 182 prohibits the distribution of prohibited items to the prospect and his or her family and the high school in any manner (e.g., through the coach, principal, guidance counselor or other party). It is suggested that posters that were intended for prospects may be provided to members of the institution's booster club, sold at contests or used as promotional items at games. It should be stressed that the Council took the action to clarify Case No. 182 in response to numerous member institutions expressing their concern regarding the rapidly escalating See Legislative, page 11

# College football audience on TV shows no gains

As the college football season approaches its conclusion, the proliferation in college telecasts apparently has not enlarged the television viewing audience for the college game.

Some television industry observers had predicted that although A. C. Nielsen ratings of particular national and regional programs would be down from previous years, the total television audience would be substantially larger because of the great many national, regional and local telecasts. In the top 30 television markets, during a 12-hour period on Saturdays, it has been common for as many as six to eight games to be released via over-the-air or cable transmission

Preliminary figures compiled by NCAA researchers, for example, indicate that for the first 10-week telecasting period, ABC and CBS combined have been reaching an average weekly audience of 11.7 million homes compared to an average of 15.9 million homes in 1983. In comparing the major Saturday night cable offerings, there has been a slight increase in 1984 viewership. Through the first 10 weeks in 1983, a weekly average of 1.2 million subscribers watched Turner Broadcasting System, Inc. (TBS), while for the comparable period in 1984, ESPN's Saturday night programming has averaged 1.4 million viewers.

While the viewing of the major packages is not particularly encouraging, the undetermined factor is the viewing support for the various conference regional packages and the ESPN early afternoon offerings. The NCAA has taken steps to acquire this information for those time periods for which data may be available, and a season-end analysis of the 1984 season will be published in the News.

# Iceman's younger brother keeps his cool playing in the shadow of NBA standout

By Steven M. Carr The NCAA News Staff

Derrick Gervin is moving out of the shadow of his brother a National Basketball Association starinto his own spotlight.

The younger Gervin, a junior forward at Texas-San Antonio, has been measured against George winner of four NBA scoring titles—since first picking up a basketball. Now they play in the same city. George is with the San Antonio Spurs.

"They compare me to him, but you have to expect that because of the name he's made in basketball," said Derrick, 21. "I'm just trying to establish something for myself. I can't live off George. I have to do what I can."

Last season, Gervin's 23.2 points a game made him the nation's 14th leading scorer and the Roadrunners a winner (20-8) in just their fourth year of competition.

"He has made a real effort to be his own player, his own person, and develop his own game," said Don Eddy, Texas-San Antonio head coach. "During his freshman and sophomore years, he made more improvements than any player I've ever coached."

Derrick learned his fundamentals from George, who is 11 years older. He added the defensive side of the game at Texas-San Antonio.

"Ever since I can remember, when George was in college (Eastern Michigan), we would go to the games and watch him," Derrick said. "I didn't really understand the game, but it was fun to watch. As I got older, he showed me parts of the game offen-

"In high school, I didn't play too much defense. When I got down here with coach Eddy, it was mandatory to

"I've always been a gambler, the kind of player who likes to deal," Derrick said. "Here, there's a more organized type of game. They want you to play honest and use switching defenses, and I think I've come a long

A freewheeler in high school, Derrick adjusted his game because of defense. Eddy helped him adjust his

"He has the great brother as a player and a lot of innate qualities," Eddy said. "It wasn't clear to him how to apply those qualities into productiveness. There aren't many people who have Derrick's kind of problem. A big sister-big brother problem is common, but a little brother-big brother situation is magnified tremendously when that brother is a sports figure.

One of the things he has learned to do, and we have worked with him, is to understand he is different. You have the same name, but you are a different human being. You have some of the same attributes, but you are different. One thing we are trying to promote is that he is a complete player, and he's made great strides in that regard."

Gervin built his 23-point average on only 16 field-goal attempts a game, Eddy said, adding additional points at the free-throw line.

"That's productiveness," the coach said. "One thing he had to learn as a freshman is that productiveness isn't a result of putting the ball up every time. Productiveness is a result of making the team play to its maximum effectiveness so the opposition has to honor everybody. When the opportunity does come up, you have a high chance of being effective because you don't have four people around you.

He went from 13 points a game as a freshman to 23 as a sophomore and probably played eight minutes more a game and shot less. But he still has a long way to go."

Derrick added to some of the selfimposed pressure of being George's brother this season by assuming leader-

Texas-San Antonio's Derrick Gervin

ship responsibilities.

"My first two years, I laid back. Now, there's added pressure on me, but it makes me do things better than I did in the past because I have to set an example," Gervin said. "I know I have to go out and play, and I can't worry about what other people expect. I have to play up to my capabilities, and that's pressure I put on my-

"Derrick is Derrick and what it comes down to is I'm my own man. George and I have our separate jobs to do.'

Regardless of their respective roles, there remains a tremendous amount of brotherly support.

"He (George) comes to my games whenever he's in town," Derrick said.

"He's always been a hard worker, but he says no matter how much talent you have, it's not enough. You have to play the game and do what you're asked by the coaches and give 100 percent. You have to do your best."

Comparisons aside, Derrick is aware of at least one difference between himself and George:

"I need to work on my attitude my temper---every now and then," he said. "It's something I have to learn to deal with. My brother's cool at all times (his nickname is 'Iceman'). I don't think I have a bad temper, but every now and then I get excited. It's something I have to learn to handle."

With everything else he is learning to handle, his temper should be easy

## Promotion tapes available

NCAA Productions will make its promotional messages available to institutions interested in using the public-service announcements during their basketball or other athletics

These 30- and 60-second messages will be offered as a package on 3/4inch videotape and will be free as part of the NCAA special-efforts program. Topics for the 1985 promotional series will include women's athletics and championships, drug education, higher education, 1985 College World Series, and NCAA special services.

These NCAA messages are designed to emphasize the positive effects and influences of intercollegiate athletics and encourage viewers to get involved in healthy activities such as sports and higher education.

Processing and delivery of the promotional seriex will depend on the number of requests received. Institutions interested in ordering the NCAA promotional series should contact Cathy K. Bennett at the national office before January 1, 1985.

# TV in the News

## Mizlou gets three-year NIT pact

Mizlou Television Network will broadcast the National Invitation Tournament for the next three years.

Mizlou, which previously held television rights to the NIT from 1977 to 1979, will produce and nationally syndicate the championship final with accompanying coverage by a national cable system, according to network president William Schwing.

The semifinals will be carried only by the national cable system and early-round games will be carried by local stations on a regional basis.

The 48-year-old NIT is the nation's oldest postseason basketball tournament.

## MEAC games to be telecast live

The Mid-Eastern Athletic Conference (MEAC) will have its basketball games televised by the Satellite Programming Network (SPN). All games will be carried live, according to Bob Drakeford, president of the All College Sports Group

Previously, it was incorrectly reported that MEAC games would be broadcast on a delayed basis by ESPN.

The MEAC coverage will be the first for the 14-year-old conference, and the games will be televised on 400 cable systems.

## Southern Conference has TV pact

Sports Communications, Inc., will produce 17 Southern Conference basketball games to a regional audience beginning January 12.

The schedule includes 10 regular-season games and all seven Southern Conference postseason tournament contests; all nine conference members will be involved in the telecasts.

Dan Shoemaker, Sports Communications president, said seven stations in five states have agreed to take all or part of the package.

Negotiations are under way with USA Network to carry the tournament championship game.

## CBS offers Musberger a package

CBS reportedly has offered Brent Musberger the top play-by-play spot on college basketball if he renews his contract with the network.

Musberger will decide before the expiration of his current contract on December 31 whether to stay with CBS or accept offers from ABC and NBC, according to USA Today. Musberger has met with ABC officials.

USA Today reported that ABC's offer includes a slot on Monday Night Football, host of the 1985 World Series and a major host role for the 1988 Winter Olympics

## Big East, ESPN reach agreement

ESPN will televise live 17 regular-season Big East Conference games in 1984-85 and 18 in 1985-86, as well as the 1985 championship game. The semifinals of the 1985 conference tournament will be tape-delayed.

# Legislative

Continued from page 10

costs required to be competitive in the recruitment process through the provision of printed recruiting aids, which were determined to be improper inducements.

## Complimentary tickets—Constitution 3-1-(g)-(3)

As set forth in Constitution 3-1-(g)-(3), four complimentary tickets per contest may be awarded to a student-athlete in sports in which the student-athlete is a participant, except as may be provided in Constitution 3-1-(h)-(6) and the bylaws. Complimentary tickets may not be provided directly to the student-athlete; rather, they shall be distributed only to persons designated by the student-athlete and who have identified themselves and signed a receipt therefor. A student-athlete may not receive any payment, directly or indirectly, from any source for the complimentary tickets and may not exchange them for any item of value. This legislation also precludes any individual (e.g., the student-athletes' parents, other relatives or friends) from receiving payment from any source for the complimentary tickets or exchanging them for any item of value

# Harvard vs. Yale is one for the book

By Dean Golembeski

Evening shadows slowly enveloped Thomas G. Bergin as he sat slouched in a worn chair and chuckled at the thought that some peers perceive him to be a bit foolish.

"There is kind of an irresponsible fun writing about a sport. You don't have the same feeling that you've got to be worthy of an intellectual audience," says the retired Yale University professor of romance languages who has written a book on the Harvard-Yale football rivalry.

Petrarch and Dante have been the subject of many of the nearly two dozen scholarly books Bergin has written since 1948, and now Walter Camp, Frank Hinkey and John Yovicsin come to life in his latest work, entitled "The Game."

The book fully details the classic rivalry from the schools' first game in 1875 to the 100th game played last year. The two teams met for the 101st time last Saturday.

"My intimates, they understand because they've known me for years and they know I've been insane in the matter of football," he said. "But my general friends, my academic acquaintances, think I must be slightly insane. Why would I waste two years of my life writing about Yale football? They don't understand it. But professionally, you see, I don't need it. I'm retired...so why not have fun?"

Bergin said the book was inspired by "hero worship." Born and raised in New Haven, Connecticut, and Yaleeducated, he said his devotion to college football, and particularly that played at Yale, came naturally.

"I learned very early to worship the demigods who would go forth to battle. I would have loved to play, if I had been bigger, stronger and braver. I no longer worship them; I'm too old for that. But I can still admire them," said Bergin, whose 80th birthday came on the same day as this year's Harvard-Yale game.

"In a way, it's an elitist book, a snobbish book, if you will. It's Yale and Harvard. But actually for at least 50 years, Yale and Harvard taught football to the country, so it's not limited to Yale and Harvard," Bergin said of the book's potential appeal.

The book was published by Yale

University Press and released this

"Up until about 1910, the Yale-Harvard football game was a national institution. So, 1 thought a lot of people would be interested; and whether or not they are, it is a unique rivalry. It is a very natural and exalted kind of rivalry."

Although it took two years to write the book, Bergin had prepared for the effort since witnessing his first Yale-Harvard football game in 1920. He was a high school senior at the time and got an "end-zone view" of the game while working as an usher.

He continued to follow Yalc football even while holding teaching jobs for 18 years at colleges in Cleveland and New York state.

Of all the Harvard-Yale games, Bergin's favorite was the 1923 game at Soldiers Field at Harvard. The Elis beat Harvard, 13-0, in a driving rainstorm to complete an 8-0 record. He also recalled the 1921 game when underdog Harvard won, 10-3, to give Yale its only loss of the season.

This article was written for the Associated Press.

tial call of a block-charge foul, also

was clarified. A player is considered

The definition of establishing def-

within three feet of the circle).

In addition to those changes listed in the November 12 issue of The NCAA News, the National Association for Girls and Women in Sport (NAGWS) has cited other clarifications and interpretations in 1984-85 women's basketball rules.

Under rules for 1984-85, all fouls charged to bench personnel also will result in the assessment of a technical foul to the head coach. The penalty will be a free throw plus the ball for a throw-in. Included under the term "bench personnel" are substitutes, managers, trainers and assistant coaches. In all cases, the foul should be charged because of uncomplimentary remarks addressed to an official.

Clarifications relative to Rule 13 (free throw) also were made. In addi-

# Meet certification emphasized by NCAA committee

The NCAA Extra Events Committee reminds directors of athletics at member institutions that participation in noncollegiate competition in gymnastics and track and field must occur in meets certified by the committee.

Restrictions that apply to outside domestic competition during the calendar year are included in Bylaw 2-4. The regulation applies to all men's programs and to those institutions that have adopted NCAA rules for their women's programs.

It is the responsibility of coaches to be aware of this legislation and to check in advance with meet management to ensure that an event has received NCAA certification. Student-athletes could lose their eligibility by participating in noncertified outside competition.

New certifications appear periodically in The NCAA News. These meets must be sanctioned by the NCAA Extra Events Committee, not merely by a national governing body in the sport.

Meets that do not involve a large number of competitors and are local in nature may not require committee certification, if they are classified as "nonincome." Nonincome status may be declared based on several factors, including the purpose of the event, the entry fee or admission charge and the overall financial operation.

Coaches should check with the NCAA legislative services department to determine whether the competition has been classified as nonincome, prior to allowing a student-athlete to participate.

to be in the guarding position if she meets the following criteria:

1. She has too feet on the floor, and
2. She initially is established a defensive position on the player with the ball.

It also was noted that a defensive player may jump straight up and still be in a legal defensive position so long as the defensive player initially establishes a legal defensive position.

Regarding the establishment of a

defensive position against a player without the ball, time and distance are the two key factors with which the defending player must comply. A player may not move into the path of an opponent without the ball unless the offensive player has been given sufficient time and distance in which to stop and change direction. The allowable distance never shall exceed two steps, regardless of how fast the player without the ball is moving.

The legal position for defending a player with or without the ball is identical; two feet on the floor facing the opponent. The guard defending the player without the ball may shift or move in order to stay in the path of the player who does not have the ball. She may not, however, cause contact with outstretched arms, elbows or legs.

Finally, a correction was made in the note that appears on page 54 of the 1984-85 NAGWS basketball rules book. The sentence should read "Note: For repeated violations of i and j, a technical foul shall be assessed for delay of game."

# Details of championships completed for indoor track

The number of events, size of fields and qualifying standards for the Divisions II and III Men's and Women's Indoor Track Championships have been approved by the NCAA Administrative Committee. The Division II common-site meet will be held March 16-17 at North Dakota State University, and the Division III men's and women's event will be held March 8-9 at Bates College.

Acting for the NCAA Executive Committee, the Administrative Committee approved 13 events, including a six-team relay, and 134 total participants for the Division II men's meet and 11 events, including a six-team relay, and 114 participants for the Division II women's championships.

The number of events for the Division III men's and women's meets are the same; but the number of participants are 184 men and 160 women, including 10-team relays for both the men's and women's meets.

The number of participants by event for Division II men is 11 for the 55-meter dash and hurdles, 10 per event for the 400 meters through the 5,000 meters, and eight per event for all field events. Division II women are limited to 10 in each running event

through the 1,500 meters and eight per event for the 3,000 and all field events

The number of participants per event for both Division III men and women is 12.

Because of the limits on the number of participants, the appropriate sports subcommittees will make final adjustments for each event prior to the championships. This means that athletes who met the qualifying standard might not make the final selection. The subcommittees will limit the field for each event to the best performances of those who have met the standard.

Qualifying marks must be made during the season in indoor competition and no later than the Sunday prior to the meet. Fully automatic times or manual times may be used in all running events in Division III and in all running events in Division III, with four exceptions. Manual times may not be used to qualify in Division II for the 60 yards, 55 meters, 60-yard hurdles and 55-meter hurdles.

Qualifying standards in oval events may not be met on banked tracks of more than 220 yards or 200 meters.

## New film on officiating is available

"Third Team on the Court," a 28minute program featuring the basic mechanics and proper techniques for two- and three-man basketball officiating crews, is available through the NCAA Library of Films.

The program is produced by the NCAA in cooperation with the Collegiate Commissioners Association. Three of the nation's outstanding NCAA men's collegiate basketball officials worked with a CCA advisory committee at Springfield College to produce the program.

J. Dallas Shirley, assistant to the commissioner of the Southern Conference, served as consultant for the program and was assisted on the committee by Dotson Lewis, Southwest Athletic Conference; John Overby, Missouri Valley and Big Eight Conferences, and Norvall Neve, Atlantic Coast Conference. Edward S. Steitz, director of athletics at Springfield College and secretary-rules editor of the NCAA Men's Basketball Rules Committee, also helped in the production of the program. The Springfield College men's basketball team and coaching staff staged the "game action" for the program.

'This program is an important tool for every basketball official interested in the proper techniques of officiating," Shirley said. "It is an outstanding teaching program for the beginning official as well as for the seasoned veteran wanting to brush up on the proper mechanics of two- and three-man officiating. We encourage all conferences and officiating agencies to obtain this program."

Three formats are available -VHS video cassette, ¾-inch video cassette and 16mm film. All formats rent for \$50 on a weekly basis. The VHS format sells for \$75, 3/4-inch for \$125 and the 16mm film for \$195. Orders may be placed through the NCAA Library of Films, P.O. Box 1906, Mission, Kansas 66201. Only prepaid orders by check or money order will be accepted.

## New mask approved in ice hockey

A clear, plastic face mask has been approved for use in collegiate men's ice hockey.

The Hockey Equipment Certification Council, at a recent meeting in Kansas City, approved a clear, fullface shield manufactured by the Itech Company. The Itech mask meets the HEC-ASTM F 513-81 Eye and Face Protector Equipment for Hockey Players Standard that will be mandatory in 1986-87 as well as the existing F 513-77 standard. Itech's mask is the only clear shield that has been tested and approved by HECC.

The mask is optically correct and made of plastic polycarbonate, which is shatter-resistant. It permits improved vision and is expected to re-

Robin Burns, president of Itech, began work on the clear shield two years ago. Among the obstacles he faced was "fogging," since players must breathe with the mask on. A special solution has been developed to prevent such fogging.

Nearly 40 collegiate teams already have ordered the clear shield to replace the former wire cages. Questions about its use should be directed to William J. Cleary Jr., ice hockey coach at Harvard University and editor of 1985 NCAA Men's Ice Hockey Rules and Interpretations.

## Committee Vacancies

In the future, this column will include both committee vacancies and committee appointments. New members of NCAA committees now will be listed in this column rather than in the NCAA Record section. Following is the latest committee appointment:

Men's Tennis Committee: George Acker, Kalamazoo College, appointed to replace Hayden Schilling, College of Wooster. This appointment is effective

# Justus joins NCAA staff

Janet Justus, a staff attorney for the Topeka Legal Aid Society, has joined the NCAA enforcement department as an enforcement representative.

Justus, a graduate of the University of Kansas, was president of the Kansas Legal Services Staff Association in

After receiving her undergraduate degree with honors, Justus received a law degree from Kansas. She served on the executive committee of the Women in Law Association for two years. During her junior year, Justus studied at the University of Reading in

Justus played on the varsity tennis

## Lape explains basketball rules

A 90-minute cassette tape covering 1984-85 basketball rules changes and interpretations has been produced for basketball officials.

The tape, narrated by Edward S. Steitz, secretary-rules editor of the NCAA Men's Basketball Rules Committee and director of athletics at Springfield College, also covers the differences between NCAA and high school rules, "realistic officiating," charging/blocking, screening, correctable and scorekeeping errors, dribbling, and continuous motion.

Copies of the tape are available for \$10 and will be sent first class. To obtain the tape, contact Steitz at Springfield College, Springfield, Massachusetts 01109 (413/788-3333).

### team at Kansas and was captain of an intramural championship basketball

ESPN plans to televise 130 regularning November 29.

Notre Dame will make the most

The ESPN schedule is as follows: November: 29 - Northwestern at Notre Dame: 30 -- Auburn at Alabama-Birmingham.

December: 4-Indiana at Notre Florida.

January: 2 Indiana at Michigan and North Carolina State at Maryland; 3-UCLA at Oregon State; 5—Georgia Tech at Wake Forest, Duke at Virginia, Illinois at Iowa, DePaul at Alabama-Birmingham, Purdue at Minnesota; 7 — Villanova at St. John's (New York); 8 — Boston College at Syracuse and Clemson at Georgia Tech; 9 — Maryland at North Carolina and Wisconsin at Ohio

Sponsored by nine NCAA member institutions, Proposal No. 34 would

Autonomy

the Association's traditional proce-

dures for electing NCAA committees,

Continued from page 1

the Council and officers.

require all Association elections to be conducted by secret ballot or mail ballot. Sports committee elections would be held by mail ballot after the annual Convention, and other elections (e.g., officers and Council) would be held by secret ballot at the annual Convention.

Proposal No. 36, sponsored by 12 member institutions, would require the Men's and Women's Committees on Committees and the Nominating Committee to nominate at least two candidates for each vacant position on the sports committees and the Council, as well as for vacancies among NCAA officers. It also would required the committees on committtees to circulate requests for nominees to the membership and to mail copies of their proposed nominees to the membership not later than November 22 each year.

Six of the remaining nine governance proposals are sponsored by the Council, including Proposal No. 29, which was recommended by the Special Committee on Convention Oper-

No. 29 would permit final voting on legislation pertaining only to a single division in a separate division legislative session at an annual Convention or special meeting of the Association (e.g., a division round table).

Proposal Nos. 37 and 40, both sponsored by the Council, deal with committees. No. 37, to take effect immediately, would reduce the terms of individuals serving on NCAA standing committees from three years to two years, although the Administrative Committee has asked the Council to review its sponsorship of that proposal prior to the Convention.

Proposal No. 40 would make high school or junior college representatives on NCAA sports committees with playing-rules responsibilities non-voting members of those com-

Another Council proposal, No. 38, would affect all NCAA conference (formerly allied) members by not allowing them the opportunity to vote on NCAA legislation. This proposal was approved by 61 percent of the voters at the 1984 Convention but fell 33 votes short of the required two-thirds majority.

Proposal No. 42, another Council proposal and the last governance item to be considered by the Convention, would require the director of financial aid at a Division III institution, or at an institution that classifies a sport in Division III, to sign a statement concerning compliance with NCAA Division III legislation as a part of the institution's annual certification of compliance. This proposal was recommended by the Division III Steering Committee.

The final Council proposal, No. 39, would specify that only an active member's chief executive officer, or the CEO's designated representative, is entitled to submit a resolution on behalf of the institution. In addition, resolutions would have to be sponsored by at least six active member institutions, rather than only one insti-

Proposal No. 31, sponsored by all nine members of the Southern Conference, would establish a Division I-AA annual legislative meeting, similar to the Division I-A midyear legislative

The Gateway Collegiate Athletic Conference is sponsoring Proposal No. 35, which would require one member of the NCAA Council to be a representative of a conference offering programs for women only. The membership of the Council would conform to this requirement as attrition permits.

The remaining governance proposal, No. 41, is sponsored by the Southland Conference and would increase the membership of the Division I-AA Football Committee from four to six.

Editor's Note: This is the second in a series of articles covering legislation to be considered at the 79th annual Convention. In the remaining issues of the News leading up to the Convention, legislation in the following topical groups will be considered: membership and classification, financial aid, personnel limitations, general, amateurism, championships, playing and practice seasons, eligibility, and recruiting.

## As freshmen

Continued from page 1

letes," said Robert T. Cameron of the College Board. The results were the same when analyzed by race, sex and

"In general, it seems clear," the study said, "that if athletic participation has a negative effect on freshman academic performance, its impact is not reflected in lower freshman gradepoint averages or reduced levels of persistence.

The institutions were divided into two groups according to whether they required the ACT exam or the SAT for admission. The study did not compare the types of courses taken by the athletes and nonathletes.

At the 32 institutions in one group, freshman athletes had a GPA of 2.480, while the nonathletes had a 2.530 average. At the other 25 schools, the athletes had an average GPA of 2.350 compared to 2.320 for nonathletes.

Michael T. Kane of the American College Testing Program said that in both groups of colleges, athletes in the bottom third of the GPA chart had a higher grade average than the nonathletes.

Athletes whose GPAs had been predicted at below 2.000 upon entering college surpassed expectations and fared better than nonathletes in that category. For athletes with predicted GPAs above 2.000, their performance virtually was the same as nonathletes, the study showed

On measures of persistence, such as good standing at the end of the freshman year, the athletes consistently had higher success rates than the matched group of nonathletes. Part of the explanation for these results may be the academic support program that many Division I institutions now have for their student-

J. Douglas Connor of the American Association of Collegiate Registrars and Admissions Officers said the next step may be to improve upon eligibility standards proposed for the fall of 1986 by the NCAA (Proposal No. 48). "We can build a better mousetrap in terms of rules for eligibility," he

Additional analyses will be conducted on data from an earlier NCAA study that indicated the test-score portion of the proposal could be unfair to black high school students entering

A committee will be appointed as directed by the NCAA Council and the Presidents' Commission, for further study of the use of an index score that would combine test scores and grade-point average in a core curricu-

rience at the Division 1 collegiate level and Junior level in Canada. Experience in recruiting collegiate level players in both USA and Canada. Experience in weight training techniques. Pay range \$12,000 to \$14,000. Applicants are directed to send resumes to: John Zarias, Employment Service, Minnesota Department of Economics Security, Government Services Center, Dubth, Minnesota 55802. Application deadline December 15.

### Soccer

College Soccer Coach. Part-time coach for Women's Fall Season Soccer program at MIT. Women's Fall Season Soccer program at MT. Should have college-level playing experience and some coaching. Responsibilities include management of daily practice (approximately 430-630 p.m.) and approximately 11 games, working closely with Athletic Administration. This is first year of intercollegiate program after several years as a club team. Equitable partitime salary. Please send resume to Professor Royce N. Flippin Jr., Director of Athletics, Massachusetts Institute of Technology, M.I.T. Branch P.O. Box D, Cambridge, MA 02139.

## Softball

Women's Softball Coach. Villanova University is accepting applications for a part-time head softball coach. Submit resume to. MaryAnn Steenrod, Coordinator of Women's Athletics, Villanova, Pennsylvania 19085, 215/645-4112. Deadline December 18, 1094. 15, 1984.

### Swimming

Head Swirn Coach, Position available for inter

collegiate and USS Men's and Women's Swimming and Diving Programs. Master's degree required with at least one degree in a related field and three-to-five years' coaching experience, head coaching duties preferred. Plational prominence desirable. Salary \$29,400 to \$33,684. Appointment to begin spring 1985. Send letter of application, resume, and three letters of recommendation to: Bob Bottger, Coordinator of Athletics, c/o Personnel Office, Indian River Community College, 3209 Virginia Avenue, Ft. Pierce, Florida 33454 9003 before December 20. Equal Opportunity Employer.

### **Tennis**

Graduate Assistant/Assistant Coach. South east Missouri State University accepting appli-cations for Assistant Tennis Coach for men or women to start January 14, 1985. Contact Kathy King, Tennis Coach, Southeast Missour

### **CALIFORNIA STATE** COLLEGE, **STANISLAUS**

### **Basketball Coach**

A full-time, non-tenure coaching, teaching position. Master's Degree required. Preference will be given to candidates having coaching experience at the college level. Salary \$27,000-\$33,000. Applicants should send a letter of application vita, current credentials or place-ment file and a list of names and addresses of three professional references to Dr. James Hanny, Athletic Director, California State College, Stanislaus, 801 W. Monte Vista Ave., Turlock, CA 95380. Clos-ing Date: January 15, 1985. An Equal Opportunity/Affirmative Ac-

## **HEAD FOOTBALL COACH Ball State University**

Retained by the Association

Ball State University is seeking applications and nominations for the position of Head Football Coach. The head coach is responsible for the total conduct of the football program. Qualifications: Bachelor's degree minimum, master's degree preferred; coaching experience at the college level, preferably Division I-A.

Ball State University is a state-assisted institution with 18,500 students located in Muncie, Indiana. BSU competes in the I-A Mid-American Conference with nine other Midwestern state universities. Interested candidates should contact Mr. Don Purvis, Director of Athletics/Men, Athletics Department, University Gym, Ball State University, Muncie, Indiana 47306.

Ball State University is an EOE/AAE

## MARIST COLLEGE **Director of Athletics**

Marist College is seeking candidates for the position of Director of Athletics. The Director reports to the Dean of Student Affairs and is responsible for the administration and coordination of a comprehensive Division I athletic program as well as intramurals and club sports. The Director is also responsible for the management of the James J. McCann Recreation Center.

Requirements: An advanced degree is preferred; a bachelor's degree is required along with a thorough knowledge of intercollegate athletics; demonstrated experience and achievement in sports administration, staff, budget, facilities management and public relations in a Division I program required. Preference will be given to those individuals who have held the Athletic Director's position at institutions of higher education.

The successful candidate must have a strong commitment to the student-athlete and maintain the highest standards and values in all intercollegiate and intramural programs for men and women.

Starting Date: Spring semester, 1985.

Submit letter of application, resume, salary history and requirements by December 1, 1984, to:

> Marc Adin Director of Personnel Marist College Poughkeepsie, NY 12601 An EO/AA Émployer

## Head Women's Volleyball Coach

12-month Appointment, Effective January 1985

Qualfications: Advanced Degree Preferred; Bachelor's Degree Required. Demonstrated volleyball coaching expertise (preferrably at the intercollegiate level); ability to maintain nationally competitive NCAA Division I intercollegiate women's volleyball program; competence in recruiting, fund-raising, public relations and teaching. Experience in conducting clinics and sports camps is desirable.

Responsibilities: Responsible for all aspects of managing and coaching the UOP Women's Volleyball Team; hiring and supervision of assistant coaches; recruiting, conditioning and training team members; fund-raising, budget preparation, scheduling and travel arrangements, with approval of the Director of Athletics; compliance with NCAA, PCAA Conference, University of the Pacific and Department rules and regulations; developing and maintaining positive internal and external public relations; organizing and directing coaching clinics and summer sport camps (optional); and responsibility for teaching in the academic and/or service program.

Salary: Commensurate with experience and qualifications.

Application Deadline: December 14, 1984.

Application Procedure: Send letter of application, current resume, and three letters of recommendation to:

> Dr. Carl R. Miller, Chair/Director of Athletics Department of Physical Education, Recreation and Intercollegiate Athletics University of the Pacific Stockton, California 95211

University of the Pacific is an Equal Opportunity Employer.

series to begin on November 7, 1987, and continue on corresponding dates. Contact: Mike Hanna, Director of Athletics, Hobart College, Bristoi Cymnasium, Geneva, New York 14456, 315/789-5500.

228,027.22

Men's Baskethall, Division For II. Fourgames— at University of Alaska, Fairbanks, on December 10-11, 1985; at University of Alaska, Anchorage, on December 13-14, 1985. Travel guaranteed. Call Ed Lawrence at 907/474-7205.

## ASSOCIATE ATHLETIC DIRECTOR SYRACUSE UNIVERSITY

Responsible for scheduling and staging a variety of men's and women's intercollegiate events, staging home football and men's basketball games, directing and monitoring procedures related to eligibility and financial aid, and other duties as assigned by the Athletic Director. Full-time position. Bachelor's degree and administrative or management experience in intercollegiate athletics required. Salary commensurate with experience and qualifications.

Deadline for application is December 10, 1984. Expected starting date no later than January 15, 1985. Send letter of application, resume and three letters of reference to:

Jake Crouthamel Director of Athletics Syracuse University Manley Fieldhouse Syracuse, New York 13210

Syracuse University is an Equal Opportunity/Affirmative Action Employer.

## **Physical Education** and Athletics **Case Western Reserve University**

Nominations and applications are invited for the position of Chairman, Department of Physical Education and Athletics. CWRU is a comprehensive, research-oriented private university with an enrollment of 3,000 undergraduate and 5,000 graduate

and professional students. The chairman is responsible for a one-year physical education requirement for undergraduates, elective courses and minor programs in physical education, the supervision of the intramural sports program, supervision of the intercollegiate athletic program, supervision of the recreational programs including the

management of the various indoor and outdoor athletic facilities. The University is a member of the North Coast Athletic Conference which was established in 1984 and offers champion-

ship intercollegiate competition for women and men. Candidates should have substantial experience in teaching, coaching, and administration. A doctorate in physical education is preferred. Salary is commensurate with qualifications and

Starting date is July 1, 1985. Forward curriculum vitae and names of three references to

P.B. Kilpatrick Secretary of the University Case Western Reserve University

Cleveland Ohio 44106 Deadline for applications and nominations is December 1, 1984.

An equal opportunity, affirmative action employer.

# Division III needs a system of hiring that is equitable

By Gregg C. Popovich

Have tenure-track appointments in Division III become obsolete? Each appears to be a rare phenomenon; many institutions argue that the appointment of coaches on a contract basis provides protection to the schools. "Protection" in this context usually refers to protection from "burn out," a term applicable in individual cases but hardly a fair or accurate generalization for an entire department.

The objective should be the establishment of a hiring system that will satisfy the Division III athletics philosophy, allow the school flexibility in employment procedures and offer fairness to the coach. I feel the policy of maintaining a contract staff is tacitly unfair and contradicts and renders the Division III athletics philosophy these schools ascribe to as meaningless. This NCAA Division III philosophy states the following:

"Colleges and universities in Division III place highest priority on the overall quality of the educational experience. In so doing, they seek to strengthen the integration of objectives and programs in athletics with academic and developmental objectives, and to assure the integration of athletes with other students. To that end, the college places special importance on the impact of athletics on the participants rather than spectators, and greater emphasis on the internal constituency (students, alumni and special friends) than on the general public and its entertainment needs."

Does a contract appointment serve this philosophy? When the emphasis is placed upon the educational experience, the integration of athletics, academics and developmental objectives, and the effect on participants, students, and alumni, a contract seems inappropriate.

What do these Division III contracts measure? How are coaches evaluated? The won-lost record is, many times, not the primary evaluation point but only considered along with several others, such as:

- 1. Are players graduating on time and receiving the same academic opportunities other students receive?
- 2. Does the coaching emphasis and overall operating procedure reflect the values of the institution?
- 3. Is this coach a good teacher?
- 4. Do players feel the coach is interested and committed to

teaching more than just basketball (i.e., values, standards, potential appreciation, humility, sacrifice, camaraderie, self-confidence, self-discipline, teamwork)?

5. Are colleagues and faculty respectful of the coach and his

6. Is the coach involved in school governance and activities when possible? Is he willing to take on added responsibility?

It is apparent that the Division III coach must be a skilled person, not only in administering the basketball program, but also in never losing sight of the philosophical and developmental lessons of sport and becoming a vibrant part of the college family. The tenured faculty member is asked to do no more than this, yet receives a secure future.

This practice (contract hiring) inherently imposes "secondclass citizenship" upon an entire department. In a Division III setting where most coaches become (and are expected to

"This compromise position for nontenured coaches would include a severance-pay clause much like those in business...the college has the option to discontinue a contract rather painlessly"

become) intimately involved in the activities of the school, this contract position many times is not regarded with the same respect, and the contracted person cannot always feel comfortable in expressing opinions that sometimes may not be agreeable to other faculty members—members who may very well be involved in rating the contracted person. If these people are to be hired as full members of the faculty with all privileges, then they must be able to operate in an atmosphere of educational freedom, not bound by the prejudices that can quickly arise if a philosophical stance does not meet with a group's approval.

Although I feel that only the tenured position satisfies NCAA philosophy, I propose the following for administrators who shy away from the tenured position—it benefits the coach and the institution. This compromise position for nontenured coaches would include a severance-pay clause much like those in business. This severance clause affords a coach financial

security and an opportunity to conduct business on equal ground with tenured faculty, while the college has the option to discontinue a contract rather painlessly. In a sense, this notion could be considered the coach's insurance policy since tenured security is not available. It works as follows:

- I. Hire on a two-year contract with no guarantees.
- 2. If evaluation goes well, a second two-year contract is offered with no guarantees.
- 3. After a second evaluation, a five-year contract is offered with severance clause. For every year from now on, two months' severance pay accrues for every year of service up to a limit of 18 to 24 months, if coach is released (certain circumstances would force employees to forfeit severance pay).

This format provides the following:

- 1. An equitable system that more closely fits the Division III philosophy.
- 2. Schools still are protected if they desire someone's dismissal; the process of letting someone go is much easier and less expensive than with tenured members.
- 3. This system is much cheaper in the long run than paying higher salaries on a yearly basis.
- 4. Before a coach is released, institutions will take more time in evaluating that person and decide upon what criteria a coach is being evaluated.
- 5. If released, a coach will have a chance for a new start. This becomes very important as age increases.
- 6. The coach's position on campus may be more highly regarded, and opinions could be expressed more freely with no fear of reprisal (during future contract meetings, for instance). I realize that even without tenure, a coach can accomplish this, but the environment in which one operates should be philosophically sound and fair.

It is contradictory that many Division III institutions are adopting a philosophy of hiring that makes them look like Division 1 institutions. This is a great opportunity to stand behind the NCAA philosophy and make a statement about the educational process. A contract including a severance clause is fair and prudent in satisfying institutional and employee goals.

Popovich is head men's basketball coach at Pomona-Pitzer Colleges.

## Congress boosts Pell Grant funding

Before adjourning, Congress gave a healthy boost to Federal financial aid to college students, increasing Pell Grant funding by 19 percent.

Funding for Pell Grants was increased by \$525 million to \$3.3 billion for the 1985-86 school year. The increase could result in an additional 200,000 grants. The maximum amount for individual grants was raised to \$2,100 from last year's \$1,900. Currently, about 2.6 million college students receive Pell Grants.

Peggy Smith, director of legislative analysis for the American Council on Education, said, "Since we've had several years of flat or reduced funding, these increases give needy students a fighting chance to not have to worry whether they will be able to go to school or not."

Most other college student aid programs received slight increases.

Although Smith said the increases don't make up for several previous years of high interest rates, increased tuition and reductions in student aid, she said prospective students should not be discouraged from applying to schools, even expensive ones.

The appropriation for the Guaranteed Student Loan is \$3 billion. Funding for the work-study program will be \$592.5 million, the Supplemental Education Opportunity Grant will get \$412.5 million and the National Direct Student Loan program will get \$190 million.

Frank Balz, associate executive director of the National Institute for Independent Colleges, said that from 1980 to 1984, Federal assistance to students in inflation-adjusted dollars declined 24 percent.

But, he said the increases appropriated by Congress signal that next year, when the financial aid authorizations come up for a 20-year renewal. Congress will look favorably to providing additional funding.

## Higher education's rating is 'fair'

Commenting on a report commissioned by the National Institute of Education that gives higher education in the United States only a fair bill of health, Education Secretary Terrel H. Bell said, "No one should conclude we are poorly served" by the nation's colleges and universities. He said colleges had not fallen as far behind in providing quality education as elementary and secondary schools.

He did say that he had expected the report, submitted by a panel of seven scholars, to render an even harsher verdict on the quality of the nation's nearly 3,300 colleges and universities.

The report, "Involvement in Learning: Realizing the Potential of American Higher Education," makes 27 recommendations to improve undergraduate education, including a proposal that all students take at least two years of liberal arts courses even if they are forced to spend more than four years getting a bachelor's degree in business, nursing or other fields.

Kenneth Mortimer, professor at Pennsylvania State University and chair of the panel of scholars, said that colleges have "the opportunity and indeed the obligation to concentrate on qualitative rather than quantitative growth."

In part, the report criticizes colleges for relying on part-time professors who occupy 41 percent of all teaching posts, up from 23 percent in 1966. It warns that students' average test scores on the Graduate Record Examination have dropped in most fields since 1964.

A common theme among several reports, according to The Wall Street Journal, is that while many students pile up course credits and earn degrees, they don't learn much of value.

Some education specialists say the problem of quality of higher education is largely due to the quadrupling of the number of college students since 1950. That increase, they say, created rapid and poorly controlled growth at many universities, resulting in lack of consensus about what should be taught.

# Two institutions are reprimanded

Austin Peay State University and Middle Tennessee State University have been publicly reprimanded and censured by the NCAA Committee on Infractions for violations of NCAA rules found primarily as a result of audits conducted by the State University and Community College System of Tennessee.

A six-month probationary period also was imposed upon Middle Tennessee State University beginning October 29, 1984, along with a requirement that the NCAA review the university's policies regarding satisfactory progress; enrollment in minimum, full-time academic loads, and repeated academic courses.

The NCAA penalties will not affect the eligibility of either institution to participate in postseason competition or appear on television.

Frank J. Remington, committee chair, noted that although neither case involved extensive violations, "the audits conducted by the State University and Community College System for collegiate institutions in Tennessee have assisted these NCAA institutions in improving monitoring systems to avoid future NCAA violations," Remington added that "the Committee on Infractions was satisfied that neither university intentionally violated NCAA rules but concluded that the audits did identify deficiencies that should be corrected. The committee appreciates the efforts of the State University and Community College System to assist in this regard."

The following is a summary of each case, including the penalty imposed upon each institution and a summary of violations found in each case.

Penalty to be imposed upon Austin Peay State University 1. Austin Peay State University shall be

publicly reprimanded and censured and admonished to avoid a recurrence of similar violations in the future.

### Summary of violations of NCAA legislation for Austin Peny State University

1. NCAA Constitution 3-3-(a)-(1) [academic standards] During the 1981-82 academic year, two freshman football student-athletes were permitted practice and competitive opportunities although the young men did not meet an adjusted admission requirement that was revised following the application and prior to their enrollment in the university.

2. NCAA Constitution 3-3-(a)-(3) and 3-3-(b) [academic standards] - During past academic years, several student-athletes represented the university in intercollegiate competition while enrolled in less than a full-time program of academic studies as a result of course withdrawals that occurred during the period of the applicable states.

3. NCAA Constitution 3-4-(2)-(2)-(iv) [financial aid] During the 1980-81 academic year, a student-athlete received Pell grant funds that when combined with his institutional aid reached a total that exceeded the permissible limit for such aid under NCAA legislation.

### Penalty to be imposed upon Middle Tennessee State University

1. Middle Tennessee State University shall be publicly reprimanded and consured and placed on probation for a period of six months, effective October 29, 1984, it being understood that should any portion of the penalty in this case be set aside for any reason other than appropriate action of the Association, the penalty shall be reconsidered by the NCAA.

2. Prior to the conclusion of the probationary period in this case, the NCAA shall conduct an in-person review of Middle Tennessee State University's athletics policies and procedures with a view toward determining whether the university has taken meaningful corrective actions to ensure compliance with NCAA academic requirements regarding satisfactory progress; enrollment in a minimum, full-time academic load, and repeated academic courses.

### Summary of violations of NCAA legislation for Middle Tennessee State University 1. NCAA Bylaws 3-1-(a)-(1) and 3-4-(b)

1. NCAA Bylaws 3-1-(a)-(1) and 3-4-(b) [out-of-season practice] During the 1981-82 and 1982-83 academic years, members of the men's basketball coaching staff conducted out-of-season practice sessions. A then-graduate assistant basketball coach distributed practice equipment, coordinated ball-handling drills and supervised conditioning activities involving basketball team members in the university's gymnasium, further, on at least one occasion following the 1982-83 academic year, a then-assistant basketball coach instructed team members on the proper mechanics of specific basketball or on the proper mechanics of specific basketball coach instructed team members on the proper mechanics of specific basketball coach participated in informal pickup games with team members.

2. NCAA Constitution 3-1-(g)-(5) [extra benefits] (a) During the first semester of the 1982-83 academic year, the then head basketball coach lent two student-athletes a television at no cost to the young men, and (b) through the arrangements of a representative of the university's athletics interests, student-athletes utilized the weight-training facilities at a local athletics club during the second semester of the 1982-83 academic year at no cost to the young men.
