Sawyer to emcee honors luncheon

CBS News correspondent Diane Sawyer, who currently serves as coeditor of the news magazine "60 Minutes," will serve as master of ceremonies for the 20th NCAA honors luncheon January 14 at the Opryland Hotel in Nashville, Tennessee.

Held annually in conjunction with the Association's Convention, the honors luncheon recognizes current and former intercollegiate athletes for their accomplishments on the field, in the classroom and in the professional world.

A native of Glasgow, Kentucky, and a 1967 graduate of Wellesley College, Sawyer also studied law at the University of Louisville before deciding on a career in television journalism.

After a three-year assignment as a reporter for WLKY-TV in Louisville, Sawyer joined the White House staff of President Richard Nixon in 1970. Serving in various capacities, including the position of staff assistant to the president, she worked with the Nixon administration through July 1975 and served on the Nixon-Ford transition team.

From July 1975 to April 1978, Sawyer served as a full-time assistant to the former president in the writing of his memoirs. She joined the Washington bureau of CBS News in August 1978 and was named a correspondent in 1980.

After a year as CBS News state department correspondent, Sawyer joined Charles Kuralt as coanchor of the CBS Morning News. In October 1982, Sawyer also became coanchor of the CBS Early Morning News, a position she held until being named coeditor of 60 Minutes last August.

Sawyer has covered the nominating conventions of both major parties; the presidential campaigns of John Anderson, Jerry Brown and George Bush, and the

Diane Sawyer

Three Mile Island nuclear accident.

Her reports also have been seen on Walter Cronkite's Universe, the network's science magazine, and the American Parade. Subjects of Sawyer's morning news interviews have included former President Nixon, Prince Charles and the late Indira Ghandi of India.

Commission names firm for research

The American Institutes for Research, an independent, nonprofit organization established in 1946, has been selected to conduct two major studies of institutional chief executive officers for the NCAA Presidents' Commission.

President John W. Ryan, Indiana University, Bloomington, chair of the Commission, announced the selection November 26. Four research organizations—none affiliated with any NCAA member institution and none with any previous involvement in NCAA activities—were invited to submit proposals to conduct the research, and AIR was selected from the three that responded.

The studies—authorized by the Presidents' Commission in its October 3-4 meeting—are designed as an initiative to assure a concerted effort by college and university presidents and chancellors to deal with the priority problems in intercollegiate athletics.

The chief executive officer of each NCAA member institution will receive in December two questionnaires, one dealing with the "integrity crisis" in college athletics and the other addressing economic issues in athletics. The Commission will study the results

of the surveys next spring and will develop proposals for consideration at a special NCAA Convention, which probably will be held during the third week in June 1985.

The American Institutes for Research will develop the survey instruments and conduct the studies in confidence. It will tabulate and analyze the results and submit a final report to the Presidents' Commission.

The timetable for the project calls for the survey instrument to be mailed to all CEOs during the week of December 10, with a deadline of January 21 for receipt of the questionnaires by AIR.

The American Institutes for Research conducts research, development and evaluation.

See Commission, page 3

16 proposals would alter financial aid

A proposal by the NCAA Council to move the definition of commonly accepted educational expenses from the constitution to the bylaws is one of 16 financial aid legislative proposals on the agenda at the 1985 Convention.

The proposal—which fell only six votes short of the required two-thirds majority at last year's Convention—would allow each division to act separately on the definition of commonly accepted educational expenses, which are limited to the value of tuition and fees, room and board, and required course-related books.

Supported a year ago by the Select Committee on Athletic Problems and Concerns in Higher Education and this year by the Special Committee on Financial Assistance for Student-Athletes, Proposal No. 45 also would allow each division to determine the limitations on the total amount of financial aid in combination with funds from other sources that a student can receive.

See 16 proposals, page 3

Five selected as finalists for Today's Top Five awards

Field hockey and football players dominate the list of fall finalists for the Today's Top Five awards, which will be presented January 14 at the 20th NCAA honors luncheon at the Opryland Hotel in Nashville in conjunction with the 1985 Convention.

Field hockey player Sally Jo Placa, a standout at midfield for Drew University, is joined by the most prolific passer in major-college football history, Doug Flutie, of Boston College. Joining Flutie and Placa are Au-

burn University defensive standout Gregg Carr; offensive guard Dan Lynch of Washington State University, and University of Nebraska, Lincoln, center Mark Traynowicz.

These five join winter-spring finalists Tracy Caulkins (University of Florida), Devin Durrant (Brigham Young University), Carla Eades (Central Missouri State University), Patti Sue Plummer (Stanford University), Steve Smith (Colgate University) and Sue Walsh (University of North Carolina,

Chapel Hill). The Top Five winners will be announced later this month.

Criteria used in selection for the Today's Top Five awards include athletic ability and achievement, academic excellence, and character/leadership activities. Student-athletes must be seniors during the current academic year to qualify. The awards are part of the NCAA honors program, which includes Silver Anniversary awards, the Award of Valor and the Theodore Roosevelt Award.

Following are biographical sketches of the fall finalists:

Gregg Carr

A four-year starter for Auburn, Carr has maintained a 3.320 (4.000 scale) grade-point average while earning a degree in civil engineering. With a career average of more than 12 tackles per game, Carr has led the Tigers in tackles the past three seasons. His single-game high was a 17-tackle performance.

Flutie's last-gasp touchdown pass erased Heisman doubts

By James M. Van Valkenburg
NCAA Director of Statistics

After four wild and magical seasons during which he became the most prolific passer in Division I-A football history, Boston College's unpredictable little Doug Flutie did the most predictable thing he has ever done. He dropped by the Downtown Athletic Club in New York last Saturday night and picked up the 50th Heisman Trophy.

Flutie was considered a sure thing to become the first quarterback to win the Heisman in 13 years—since Auburn's Pat Sullivan in 1971. After all, his controlled madness had accounted for 11,317 yards in total

offense—smashing the old record by a margin of nearly 1,600 yards, and he had passed for 10,579 yards—surpassing the old record by nearly 1,000 yards.

If any doubt remained, Flutie cer-

Football notes

tainly erased it with his 472-yard passing performance against Miami (Florida) November 23, climaxed by that incredible, last-play 48-yard touchdown pass to roommate Gerard Phelan to win it, 47-45. Only 5-9½ and 174 pounds but possessing big hands and an arm like a cannon, Flutie launched the ball 64 yards into

a gusting wind and rain from his own 37 to one yard deep in the end zone.

How good is Flutie? Consider that Boston College was 0-11 six seasons ago. Consider that since he took over at quarterback during his freshman year, the team is 30-11-1 heading into the Cotton Bowl. Consider that the added money in television appearances, bowl games, increased alumni donations and ticket sales during his career will exceed \$8 million. Not bad for a lad who got the last available BC scholarship in 1981.

Tight races with Bosco

Although he won the Heisman by a huge margin, Flutie's races for the season statistics championships in

passing efficiency and total offense against junior Robbie Bosco of No. 1-ranked Brigham Young literally went down to the wire, with each man winning one.

Flutie barely nudged Bosco, 152.9 rating points to 151.8, in passing efficiency with a strong game against Holy Cross last Saturday. Bosco had finished the season. In total offense, it was even closer, Bosco winning with 327.7 yards per game to 327.5, with Flutie coming up two yards short—just 72 inches—of what he needed.

The 6-3 Bosco certainly measured up to his predecessors in the dynasty LaVell Edwards has built at BYU. He led the team to a 12-0 season, extend-

ing its winning streak to 23 games. Asked whether he could compare himself to Steve Young, Jim McMahon, Marc Wilson and Gifford Nielsen, he replied: "I think we're all pretty different. I don't know of many similarities. Well, I know of one. We're all great guys." By the way, McMahon held the old career total-offense mark in I-A at 9,723 yards.

A matter of intangibles

Statistics are only a measurement. As impressive as Flutie's were, he did it more with intangibles, things you cannot measure or clock. He has a big heart and is unfailingly optimistic on everything so his teammates become

Service academies headed back toward top

By George White
Houston Chronicle

Today's topic concerns the military strength of our nation. Doesn't it concern you that our soldiers can take a road trip to Grenada and beat the stuffings out of the Cubans, but the Army football team can't beat Rutgers?

The answer, I guess, would be that we hire an Army, Navy and Air Force to win wars, not football games. And yet, it was only 21 years ago that Navy was good enough to play in the Cotton Bowl and just 13 years ago that Air Force rated a berth in the Sugar Bowl. In a six-year period, three of the Heisman Trophy winners were from the military academies—Pete Dawkins of Army in 1958, Joe Bellino of Navy in 1960 and Roger Staubach of Navy in 1963.

That was an era when the Navy was strong enough to back down the Soviets in Cuba, or back down Notre Dame in South Bend. Today, we have a Navy that frets because it doesn't have enough gasoline to hold routine sea maneuvers, and a Navy football team that would be hard-pressed to beat a team of Eagle Scouts.

Brig. Gen. Peter Dawkins (retired) was in town this week to publicize the 1984 Heisman ceremonies—the Crum and Forster 50th year presenta-

tion film was shown December 1. Dawkins' 1958 Army team was powerful enough to rank No. 2 in the nation at season's end. If anyone can explain why the Army regularly gets ambushed at these children's games, I guess the general can.

Tact prevented me from suggesting a most apparent explanation. Even with our incredible defense spending,

North Carolina early in the season.

"Young people are once again becoming intrigued by the academies," Dawkins said. "I think the country-wide surge of patriotism has paid enormous dividends for us. Athletes—good athletes—have a deep interest now in what the academies can offer."

Tony Dorsett was one such superb

Columnary Craft

we don't have enough dollars for football.

You've seen the Pentagon reports—a screwdriver costs \$1,427.87. Can you imagine what it would cost the Army to simply buy a football? Worse, what would taxpayers have to divvy up for an all-America halfback? At some schools, he might cost \$50,000 a year. At West Point, the purchasing department might decide the going rate is a couple million.

That, though, is most tacky. Dawkins says absurd, that the day is fast coming when Army and Navy will again be football dreadnoughts. He correctly observed that just this year Navy had a Heisman candidate in halfback Napoleon McCallum, who unfortunately broke his ankle against

athlete who seriously considered West Point, said Dawkins. "He wanted to go to a military academy more than anything in the world, but the entrance exams were just too stringent for him. He wanted desperately to go to West Point."

Athletics at the academies slid drastically in the mid-1960s—a result, Dawkins believes, of the Vietnam backlash.

"That was a very tough period. There was a kind of general resistance to authority, there was a very specific negativism among many young people toward the war—and it was not a very popular war," said Dawkins.

"And then there was a certain 'hang-over' after the war was over. It lasted a long, long time, and we're just now

coming out of it. It's become acceptable again to love this country."

The difficulty comes in getting young oxen to love the country enough to do military duty after their college days end.

"That's the liability," he said. "A high school kid who really is serious about wanting to play professional football probably is not going to go to an academy. They do have that military obligation when they graduate, and that puts them off cycle."

"So it becomes very difficult to recruit the really big kids—kids with pro-size builds of 285 to 300 pounds. What we have to settle for is the 215-, 220-pounders who are still growing, young kids who can add 30 or 40 pounds before their junior years."

Staubach, of course, was one military man who did his service obligation and still had time for a pro career. Dawkins did not. He and Princeton's Dick Kazmaier are the only two Heisman winners who never signed a pro contract.

"I do think about it at times," confesses Dawkins, "the fact that I would

love to have seen how I could have fared at the next plateau.

"But I had been selected a Rhodes scholar. That is a three-year program. My service obligation was for a minimum of three years. I had to make a decision, realizing that it would be impossible to lay out of the sport for six years and still have the skill to be a professional halfback."

"I decided the Rhodes scholar invitation was the momentous kind of thing that only comes along once in a lifetime. Later in life, I would have felt worse about not taking the Rhodes scholarship than I would have felt about passing up pro football."

Academy football, he said, was the essence of the sport, anyway. "It was an outstanding experience. The athletes there are so physically oriented, without question they are the best-conditioned athletes in America. The advantage of playing my football at Army far surpasses anything I might have given up in life."

Above all, the academy taught him eloquence. I only wish they would let the general buy the screwdrivers.

Looking Back

Five years ago

The Special Committee on NCAA Governance, Organization and Services met for the first time December 11-12, 1979, in Kansas City, Missouri, to begin its study of the governance structure of the Association, including the accommodation of women's interests and the development of programs and services for women's intercollegiate athletics within the NCAA. (November 30, 1979, NCAA News)

Twenty years ago

The first College Division regional football championship games were played December 4, 1964, at Sacramento, California; Abilene, Texas; Murfreesboro, Tennessee, and Orlando, Florida. The winners were Montana State, Northern Iowa, Middle Tennessee State and East Carolina. (National Collegiate Championships records book)

Thirty years ago

Thirteen agencies and institutions that sponsored invitational athletics events joined the NCAA December 2, 1954, in a "cooperative boycott" program whereby an institution that was ruled ineligible for NCAA championships also would be ineligible for participation in the invitational events. ("NCAA: The Voice of College Sports")

Seventy-five years ago

The membership of the Association—then called the Intercollegiate Athletic Association of the United States—totaled 69 institutions December 28, 1909, as the membership gathered in New York City for the fourth annual Convention. ("NCAA: The Voice of College Sports")

Coaches want increase in grants

Hayden Fry, football coach
University of Iowa

The Associated Press

"The players are bigger and stronger, and when there is a collision, something has to give. The scholarships have to be upped. The players have surpassed their protective equipment. Nowadays, you not only have to be a good coach, you have to be the luckiest guy in the world."

Earle Bruce, football coach
Ohio State University

The Associated Press

"Nobody listens to the coaches. I'd like to have 10 more scholarships, but it won't happen. You no longer have five tackles at one position. You have two or three, and if one gets injured, that's when it really hurts."

Jimmy Johnson, head football coach
University of Miami (Florida)

The 5th Down

"I'm not in favor of that (the new ruling that when a kickoff goes beyond the end zone, it will be brought back to the 30-yard line). For one thing, I like to see kickoffs

Woody Hayes, former head football coach
Ohio State University

The Columbus Citizen-Journal

"Things are happening that are not good—oversupply. Too darned much. The best pro team (Miami) is playing to 20,000 empty seats a game. That means people are getting tired of football, and that's a shame."

"All you read about in the papers now is about the \$1.3 billion suits the taxpayers will pay for. You read about players having chemical problems. They don't say 'drugs' anymore."

"It all adds up to one darned thing—too much money, money, money."

"Pro ball, I get so darned tired of hearing people say we've got to have pro ball. Television has it everywhere. Indianapolis has pro ball now. Sure, they sneaked it out of Baltimore at midnight."

"Why does it go to Indianapolis? Because they don't have good college ball."

"Sure, they'll have it there—then, they'll move it out of town. They'll take it west. Maybe to Hawaii or the Philippines. And if they take it to the Philippines, I've got just the name for them. They can call them the Manila Folders."

Jim Dickey, head football coach
Kansas State University

The 5th Down

"We really just want to see (through a drug-testing program) if we can help anybody who's being influenced by other people to take part in any drug use. We're using it as a preventive measure to help people who are being talked into it. So, it's no real measurement of anything. We just want to see where they are."

"I just feel like when a kid gets an injury or sprains an ankle or something, you work with him to help him cure it. We hope this will be treated the same way. It's an injury to the body. We hope we can help cure it."

Johnny Majors, head football coach
University of Tennessee, Knoxville

The Associated Press

"I think they (varsity football players) should be given at least \$50 a month. It wouldn't cut out cheating altogether, but it may help minimize it. It ought to be spending money for the kids."

"We'll probably see some restructuring of our whole approach to college athletes, just like we saw for amateur athletes before the (1984) Olympics."

"Nowadays, the kids don't get anything. It's not fair, because some of them come from homes where the parents can't afford to send them money."

"We could sell tickets back when I was a player. Now, a kid can't even pick up any tickets. They have to be picked up by the person he leaves them for."

"I was what you'd call enterprising (Majors said he bought eight tickets for the 1956 Tennessee-Georgia game and sold them for \$100 each). If that was illegal, nobody ever said anything about it."

Opinions Out Loud

returned. I would have been in favor of moving the kickoff back, to like the 35-yard line, so you'd see a lot more kickoffs returned.

"The only thing you're doing with the new rule is penalizing a kicker who kicks it out of the back of the end zone. You haven't added anything to the game. I'd like to see them move it back to the 35 to get more returns, rather than penalizing the team that has a good kicker. I just don't understand why you penalize ability."

Ray Meyer, former men's basketball coach
DePaul University

The Associated Press

"It takes a lot of work to get a program among the top 10 in the nation. But, it takes twice as much work to stay there."

16 proposals

Continued from page 1
dent-athlete may receive.

Two proposals regarding the exemption of Pell Grants from the limitation on the amount of financial aid that a student-athlete may receive will be considered by Convention delegates.

Proposal No. 46, sponsored by the Division I-A midyear legislative meeting, would exempt the full amount of a Pell Grant for which a student-athlete qualifies from the limitation on the amount of financial aid that a student-athlete may receive under NCAA legislation. No. 47, sponsored by the Council, would exempt up to \$1,400, rather than the full amount. Currently, up to \$900 is exempted.

The Council also is sponsoring Proposal No. 54, which would take effect August 1, 1985, and permit a student-athlete who qualifies for a need-based governmental grant (other than the Pell Grant) to receive such a grant in an amount up to \$1,400 in excess of the full athletics grant.

The grants must be ones for which neither the institution nor any representative of its athletics interests has any discretion in determining the recipient or the amount of the award.

Supported by the Special Council Subcommittee on Equivalency Awards, the Council is sponsoring Proposal No. 58, which would implement a unit system as the method of making equivalency calculations in Division I.

The unit system would replace the current system that calculates the value of each of the commonly accepted educational expenses—tuition and fees, room, board, and required course-related books.

The proposal would count any aid received by a student-athlete in a category as a unit in that category, limit the student to only one unit in a category and limit the number of units in each category in a sport to the maximum award limit in Bylaw 6-5 for that sport.

Proposals 51, 52 and 53 are related and deal with the five-year rule.

Proposal No. 51, sponsored by the Council and the Division I-A midyear legislative meeting, would permit an undergraduate student-athlete to receive financial aid beyond the period of eligibility set forth in Bylaw 4-1, which states that a student-athlete in Division I must complete his or her eligibility within five calendar years.

An alternative proposal from the Division I-A meeting is No. 52, which would permit a maximum of five years of financial aid to an undergraduate student-athlete in a six-year period.

No. 53, sponsored by the Council, specifies that a member institution is required to provide notice of renewal or nonrenewal of financial aid only to those student-athletes who have remaining eligibility to compete in intercollegiate athletics.

The Council also is sponsoring Proposal Nos. 55 and 57. No. 55 would permit a student-athlete to receive an established financial aid award on the basis of the recipient's past performance, including athletics, subject to the following restrictions:

- The award must be paid through the recipient's institution for educational expenses.

- The recipient's choice of institutions cannot be restricted by the donor.

- The donor and awarding organization or individual must not be representatives of the athletics interests or an athletics booster group of a member institution.

- The award must be countable in the Bylaw 6 financial aid limitations.

The Western Athletic Conference and 96 members of the Eastern College Athletic Conference are sponsoring a similar amendment, No. 56, but they would specify that the award must not exceed \$1,000, could be awarded for only one academic year and only on one occasion, and would not be countable aid.

Proposal No. 57 would include in the definition of financial aid for Bylaw 6 purposes financial assistance that is awarded from the outside sources under specific conditions described in the amendment.

Sponsored by the Division I-A midyear legislative meeting, Proposal No. 50 would permit an incoming student-athlete to receive financial aid during the summertime prior to the student's freshman year.

Proposal No. 48, sponsored by the Big Eight Conference, would increase the maximum grant-in-aid allowance by adding \$50 per month for incidental expenses. This legislation would take effect August 1, 1985.

Proposal No. 49, sponsored by the Council and supported by the Special Committee on Financial Assistance for Student-Athletes, would permit a student-athlete to receive legitimate summer employment earnings without total-dollar restrictions, even if the student is attending summer school as a recipient of institutional financial assistance.

The final two financial aid proposals, Nos. 59 and 60, deal with maximum awards in Division I and Division I-AA.

No. 59, sponsored by the Western Athletic Conference, would eliminate the overall limitation of 70 awards in the Division I men's equivalency sports. The legislation would take effect August 1, 1985.

Proposal No. 60, sponsored by the Southland Conference, would increase the permissible number of grants-in-aid (based on equivalencies) in Division I-AA football from 70 to 75.

Editor's Note: This is the fourth in a series of articles covering legislation to be considered at the 79th annual Convention.

Five

Continued from page 1
tackle performance against Florida in 1982.

An all-America and all-conference performer, Carr is one of 12 finalists for the prestigious Lombardi Award. Auburn's defensive captain this season, Carr also has been named academic all-conference three times.

A National Football Foundation and Hall of Fame Scholar-Athlete, he was tabbed the outstanding student in the Auburn School of Engineering for 1983. A member of the Chi Epsilon civil engineering honorary and the Omicron Delta Kappa leadership honorary, Carr also holds membership in Spades, an honorary consisting of the top 10 students on the Auburn campus.

He is listed in Who's Who Among Students in American Universities and Colleges and has served as a spokesman for ABC Television's institutional messages on the student-athlete.

Doug Flutie

While winning the hearts of college football fans everywhere with his incredible talents, Doug Flutie also has maintained a 2.900 grade-point average in speech communication.

Through 10 games, Flutie leads Division I-A in passing efficiency and total offense, and he already has captured all-time NCAA records in both passing and total offense. He also holds nine school passing records.

He is the 1984 winner of the Heisman Trophy as the nation's top college football player. Flutie also has earned all-East and all-America recognition, and he was named 1983 New England player of the year by United Press International. He earned MVP honors at the 1983 Liberty Bowl and was selected outstanding offensive player at the 1982 Tangerine Bowl.

Like Carr, Flutie also is a National Football Foundation and Hall of Fame Scholar-Athlete, and he participated in the NCAA-ABC Football Promotion Tour.

He serves as Massachusetts spokes-

Commission

Continued from page 1
ment and evaluation studies in the behavioral and social sciences for clients in government and in the private sector. Among its clients have been numerous agencies of the Federal government, including the Department of Education; various state and local governments, and many private firms and organizations, including the American Petroleum Institute, the Association of American Medical Colleges, The Ford Foundation, IBM, and the National Institute of Independent Colleges and Universities.

AIR has offices in Washington, D.C.; Bedford and Cambridge, Massachusetts, and Palo Alto, California. The Palo Alto facility will conduct the NCAA study.

person for Students Against Drunk Driving, and he performs volunteer work with a variety of charities in Boston and throughout New England. Flutie has directed a town youth recreation/instruction program in Waltham, Massachusetts, for two years, and his volunteer work has earned commendation from the governor of Massachusetts.

Dan Lynch

While starting on the offensive line for three years and serving as a Washington State team captain twice, Lynch has maintained a 3.040 grade-point average in business finance.

Twice all-conference, Lynch has earned all-America honors from both the Associated Press and The Sporting News. During Lynch's three years as a starter, Washington State has led the Pacific-10 Conference in rushing twice.

Off the field, Lynch has earned all-conference and all-America academic honors twice, and he has been named Washington State's outstanding senior for 1984.

Active in the Alpha Tau Omega fraternity, he serves as pledge trainer, public relations officer, scholarship chairman and chairman for the group's fund-raising marathon.

Sally Jo Placa

An all-America midfielder at

Drew, Placa has maintained a 3.100 grade-point average while earning a chemistry/biochemistry degree. She is No. 2 on the all-time Drew scoring list and started all but one game in four seasons.

Placa holds three school records and was named first team all-America in 1983 and 1984. She has served as a tri-captain twice during her career and earned co-MVP honors at Drew in 1982.

Off the field, Placa has been active as a tutor in the chemistry department, and she earned the school's Analytic Chemistry Award in 1984. She also has been on the staffs of the student newspaper and yearbook and the University Residential Life Committee.

Mark Traynowicz

A top candidate for the 1984 Outland Trophy, Traynowicz has maintained a 3.360 grade-point average in civil engineering. A consensus all-America, three-year letterman and two-time all-conference lineman, he served as a team cocaptain this season and was a semifinalist for the 1984 Lombardi Award.

Traynowicz also has been selected academic all-conference twice and has maintained a spot on the dean's list at Nebraska. He is active as a youth-group volunteer and in the school's Newman Center.

Committee Vacancies

Member institutions are invited to submit nominations for interim vacancies on NCAA committees. Nominations to fill the following vacancies must be received by Fannie B. Vaughan, administrative assistant, in the NCAA national office not later than December 14, 1984.

Field Hockey Committee: Replacement needed for Jo K. Kafer, Virginia Polytechnic Institute, inasmuch as the institution no longer sponsors field hockey. The replacement must be from Division I. A replacement also is needed for Ethel M. Moser, Mansfield University of Pennsylvania, who resigned from the committee. Moser's replacement must be from Division II.

The following changes have been made on NCAA committees:

Council—Change address of Patricia A. Thompson to Interim Director of Athletics, Elmira College, Administration Building, Elmira, New York 14901.

Women's Track and Field—Change Elizabeth Remigino, University of Connecticut, to Elizabeth Remigino-Knapp.

Women's Committee on Committees—Jeannine McHaney, Texas Tech University, appointed to replace Kay Don, no longer at a District 6 institution.

U.S. Volleyball Association Delegate Assembly—Bob Yoder, University of Southern California, appointed to replace Marv Dunphy, who has been appointed to coach the men's Olympic volleyball team and no longer will be employed by Pepperdine University.

Amateur Basketball Association Governing Council—Tom Apke, University of Colorado, appointed to replace David R. Gavitt, Big East Conference, inasmuch as Gavitt was elected vice-president for men and as an officer of ABAUSA will not serve as a member of the governing council.

News publication dates to change

This is the last Monday publication of the year. Beginning with the December 12 issue, The NCAA News will be published every Wednesday through the June 19 issue.

The schedule then reverts to an every-other-week format during the summer months. Summer issues will be published July 3, July 17, July 31, August 14 and August

28. The first issue of the 1985-86 academic year will be September 9.

Men's and women's basketball statistics begin again in the December 12 issue and will be published weekly through the March 13 issue, except for December 26 and January 2 breaks for the Christmas holidays.

Carnesecca squares off against basketball's coaching box

By Dick Joyce

Institution of a 28-foot coaching box in college basketball has not caused much of a stir so far, but then again, the season is young.

Lou Carnesecca, coach of third-ranked St. John's (New York), is known to be one of the leading wanderers in the nation, not as a referee-baiter, but to exhort his Redmen.

"Who suggested this, some hockey guy?" Carnesecca said. "They'll need a rope to hold me back."

The new rule, the most significant of this season's rule changes, was written to bring about "bench decorum," according to Edward S. Steitz, secretary-rules editor of the NCAA Men's Basketball Rules Committee.

"The spirit and intent of the rule is to stop coaches from getting up and bothering officials and going all over the ballpark," said Steitz, who also is athletics director at Springfield Col-

lege in Massachusetts.

"There was a case last year in the play-offs when an assistant coach went bananas. We want to keep coaches from causing allegations and raising hell. Who needs it?"

Steitz warned that the rule, in effect when the ball is in play, will be enforced, and anyone who violates the rule will be hit with a two-shot technical foul.

The rule reads: "A coach, squad member or team attendant may only leave the confines of the coaching-box area if it is for the sole and distinct purpose of seeking information from the scorer or timer during a timeout or intermission or to request a timeout for a correctable error...."

"The box doesn't make sense," said CBS-TV analyst Billy Packer. "If the coach gets out of order, hit him with a technical. There's no need for the box. Part of the attraction for the

fans in watching St. John's and Villanova is seeing Carnesecca and (Rollie) Massimino running around."

Packer predicted that the box will be gone by January.

But Steitz maintained, "I will resist with all my fervor any move to have the box thrown out. I don't think it's unbelievable or radical."

The college season was barely a month old last year when the rules committee rescinded its mandatory two-shot foul for a common foul when the bonus rule was in effect. The rule was expected to reduce fouling; instead, it prompted coaches to order their players to foul the other team's poor foul shooters, touching off several brawls.

"That became a farcical situation," Steitz said, "but I don't think the box is radical. If the coaches don't abide by the rules, I would vote that they remain seated for the whole game."

Steitz said the box was unanimously endorsed by the Collegiate Commissioners Association for Divisions I, II and III and was passed by two-thirds majority of the rules committee.

The Southeastern Conference experimented with the box the past two seasons, and the Sun Belt Conference was among the leagues that had it last season.

"We had almost no problems at all," said John Guthrie, associate commissioner of the SEC. "Our coaches made a commitment to stay within the confines, and there were only 10 technicals for bench decorum. The box lessens the temptation to rip (the officials) and run."

"We had only two coaching-box technicals last season," said Doug Elgin, a spokesman for the Sun Belt. "We were pleased with it. It eliminated the possibility of ugly conflicts. There

was one game where you could say a technical determined the outcome of a game."

Doug Elgin

Flutie

Continued from page 1

believers. As a result, he takes chances. He became known as the King of the Broken Play.

In truth, though, Flutie is a disciplined pocket passer who scrambles instinctively, so it is a controlled madness. Says Phelan, a senior: "I don't think I'll ever have more confidence in my passer getting the ball to me than I do now with Doug. It's fun. You look back at the line and suddenly the ball appears from under a lineman's shoulder. It is quite an experience."

Flutie is at his best against strong teams. For instance, his 1,445 yards total offense in four games vs. Penn State is a 1-A record for career yardage against an opponent.

Kosar, McClure can do it

He is only a sophomore, but Miami's (Florida) Bernie Kosar, fourth in the Heisman voting, already has 5,971 yards passing and 5,585 total offense (because of sacks). Two more seasons like those would put him above Flutie's records. Meanwhile, Bowling Green junior Brian McClure already has 7,606 passing yards and needs 2,974 next year to surpass Flutie. In total offense, though, his 7,189 seems out of range (4,129 needed).

Nevada-Las Vegas' Randall Cunningham would get a lot more attention in a non-Flutie year. This talented senior reached No. 7 on the all-time list in both total offense (8,224 yards) and passing (8,020). Next among seniors in passing yards are California's Gale Gilbert (6,566) and Vanderbilt's Kurt Page (6,233—one yard above Iowa junior Chuck Long).

Triple crown for Byars

Keith Byars, a tailback with the size of a tight end (6-2 and 235) kept Ohio State's new \$2.6 million scoreboard humming all season and led the Buckeyes to the Rose Bowl as he became the 11th player in Division I-A modern history (1937 on) to win a triple crown in rushing (150.5 yards per game), scoring (13.1 points per game) and all-purpose running (207.6 yards per game—eighth highest in history).

Byron "Whizzer" White, now a U.S. Supreme Court justice, was the first triple-crown winner, playing at Colorado in 1937—first year of official NCAA statistics. In just eight games, he scored 122 points (15.3 average—still the fifth highest in history), rushed for 1,121 yards (140.1) and ran up 1,970 all-purpose yards, a 246.3 average that is still the all-time collegiate (all-division) record—oldest one in the book.

After White came San Francisco's Ollie Matson in 1951, Arizona's Art Luppino in 1954, Pacific's Dick Bass in 1958, New Mexico State's Pervis Atkins in 1959, New Mexico State's Jim Pilot in 1961, Cornell's Ed Marinaro in 1971, Pittsburgh's Tony Dorsett in 1976, Texas' Earl Campbell in 1977 and Southern California's Marcus Allen in 1981.

As mentioned, Byars is the size of a tight end, and that is exactly where he played in high school in Dayton, Ohio, until they got around to timing him one day in practice and he did something like 4.6 in 40. "Whoops—better give him the ball more often and make him a back," decided Mike Haley, his high school coach. The son of a preacher, Byars is a gifted athlete who also played power forward on a basketball team that won two straight state championships and was a member of a state-championship 440 relay team. He did not lead his team to a state title in baseball but hit .520 and .480 his last two seasons as a center fielder.

"I like just about every sport," Byars says, "but I think I like basketball best, baseball second and football third. Asked if he was very sore on Sundays, Byars grinned and weighed every word. "On a scale of one to 10, I'm about an eight on Sunday," he replied slowly. "It starts to wear off by

Tuesday."

His biggest game, no doubt, came against Illinois, when he led Ohio State back from a 0-24 deficit to a 45-38 victory with 274 yards rushing (breaking the school-record 246 by Archie Griffin, a two-time Heisman Trophy winner) and five touchdowns, including the game-winner with 36 seconds left. That helped him become the Heisman runner-up.

A late-season injury slowed Byars somewhat, and his winning 150.5 figure in rushing was the lowest by a champion since 1972. Washington State's Rueben Mayes, whose 357-yard game set a 1-A record, was second at 148.8 and Texas Christian's Kenneth Davis third at 146.5. Davis averaged a country-leading 7.6 yards per rush, Mayes 6.3 and Byars 5.3. All three are juniors. Interestingly, the top three scorers and the top four all-purpose runners also are juniors. Notre Dame's Allen Pinkett was second in scoring at 9.8 and Iowa's Ronnie Harmon second in all-purpose despite an injury.

On the career charts, the select circle of 4,000-yard career rushers in I-A was expanded to 20 with the addition of Central Michigan's Curtis Adams (4,162) and Georgia Tech's Robert Lavette (4,066). An injury kept Florida State's Greg Allen (3,769) below 4,000. Lavette led all seniors in all-purpose running at 5,082. Next in rushing were North Carolina State's Joe McIntosh at 3,642, Southern Mississippi's Sam DeJarnette 3,123, North Carolina's Ethan Horton 3,074 and Notre Dame's Allen Pinkett 3,031. All are seniors except Pinkett, a junior. Scoring leaders among non-kickers were Allen 278, Lavette 276, Adams and Byars 264 each.

101 catches for Williams

Illinois junior David Williams, the receiving champion, had one of the most impressive seasons in history by a 1-A receiver. His 101 catches are second in history to the collegiate-record 134 by Tulsa's Howard Twilley in 1965. And his 26-catch margin over second-place Charles Lockett of Long Beach State was one of the widest winning margins ever.

David is a younger brother of former Illinois great Oliver Williams, and was only 5-7 as a high school junior and playing baseball when Oliver talked him into trying out for football ("you know how big brothers are").

Even after a big Rose Bowl season, Williams and quarterback Jack Trudeau, a Californian like David, worked out last summer in Illinois Memorial Stadium. "That was the first summer I stayed the whole time in Champaign, and it really paid off," Williams said. Every pattern was practiced, and they always finished with goal-line lobs that David would grab while straddling the boundaries.

"When you spend that much time together, you learn to think alike and get to know each other's moves," said Trudeau. "Sometimes I can tell where Dave's going just by looking in his eyes. Getting open is a knack for some people. Sometimes, it seems he's doing things without rhyme or reason, and then, there he is—open."

The punt-return championship went to Florida sophomore Rick Nattiel with a 15.7-yard average. Boston College senior Tony Thurman won the interception title with 12 in 11 games, or 1.09 per game. And Kenneth Anderson of Texas Tech won the kickoff-return title with a 28.9-yard average.

On the career charts, Vanderbilt running back Keith Edwards ended up fourth on the all-time list in total catches at 200. Louisiana State's Eric Martin led all senior receivers in career yardage at 2,625 followed by Stanford's Emile Harry 2,284 and Rutgers' Andrew Baker 2,268.

Boston College's Tony Thurman tied for fourth all-time in interceptions with 25.

Doug Flutie

Zendejas, Lee set records

Arizona State's Luis Zendejas, from America's first family of place kicking, this season became the all-time leading career scorer in Division I-A football. Meanwhile, UCLA's John Lee kicked an all-time collegiate season record of 29 field goals (2.64 per game).

Luis finished with 368 points, breaking the 356 set by Pittsburgh's Tony Dorsett from 1973 through 1976. He held the I-A career field-goal record when the season started and ended up with 78 (in 105 attempts, or 74.3 percent). But good as he is, Luis may not be the best in his family when it is all over: Brother Max at Arizona has 55 with a season to go. Cousin Tony holds the I-AA season and career records and kicked 70 in just three seasons at Nevada-Reno (in 86 attempts, or 81.4 percent). Tony's brother Martin, only a freshman at Nevada-Reno this season, won the I-AA title with 22, so he may surpass all the others before he is finished. Then again, Luis and Max have a pair of younger brothers coming up.

"I sometimes feel like it's just one of me taking on all of those other guys when I keep hearing about the Zendejases," Lee said. "I don't have any brothers or cousins to help me out. Not too many Koreans play football. I did hear of one at Alabama and another at Hawaii, but I don't know them. Maybe we should get together."

UCLA rode Lee's right-footed, soccer-style kicking to an 8-3 season and Fiesta Bowl bid. He missed only four times. Already with a season to go, he is UCLA's all-time career scoring leader. Lee was born in Seoul and his family moved to California about 10 years ago, a few years after the Zendejas families moved to California from Mexico.

The season punting title went to Vanderbilt senior Ricky Anderson, whose 48.2 average was fourth highest in I-A history, missing third by a tiny margin (48.155 to 48.157 by Zack Jordan, Colorado, 1950). Anderson is one of a handful of men who handle both the punting and place-kicking jobs. It is not easy because the foot action is different. Anderson was 16-for-19 in field goals this fall. "Ricky is the best combination kicker in the nation," says Vanderbilt coach George MacIntyre fondly.

Georgia senior Kevin Butler chased Luis Zendejas all season and nearly caught him in field goals, reaching 77 along with 353 career points—fourth on the all-time list, one point behind Army's legendary Glenn Davis (1943 through 1946).

The 1984 senior class produced six of the top seven field-goal kickers in

Keith Byars

I-A history as Tennessee's Fuad Reveiz (71), Oklahoma State's Larry Roach (68), West Virginia's Paul Woodside (65) and Maryland's Jesse Atkinson (60) finished 3-4-5-tie 6 on the list behind Zendejas and Butler. It also produced two of the top four all-time punters, as Anderson finished second with a 45.65-yard average and Nevada-Las Vegas quarterback Randall Cunningham fourth at 45.57 (using a minimum of 100 career punts).

BYU, Nebraska win two each

Brigham Young and Nebraska each won two team statistics championships. The Doug Flutie-Robbie Bosco duel continued in the team figures, as BYU edged Boston College 486.5 yards per game to 483.4 for the total-offense title, but Boston College edged BYU 36.7 to 36.0 for the scoring crown. Brigham Young won the passing title by a comfortable margin at 346.2 yards per game. Army's wishbone attack won the rushing championship at 345.3, well ahead of Air Force, another wishbone service academy.

BYU won its seventh passing title in the last nine years and its fourth total-offense crown in the last six years. Army is the first rushing champion from the East since Harvard in 1966 and Boston College is the first scoring champion from the East since Syracuse in 1959.

Nebraska's total-defense title (203.3 rushing-passing yards allowed per game) is its first since 1967 and its scoring-defense crown (9.5) is its first ever and first by a Big Eight Conference team since Oklahoma in 1967. Texas Tech took the pass-defense title (114.8). Once-beaten Washington led in allowing just 5.0 yards per attempt and in making 27 interceptions.

David Williams

Washington also led in turnover margin, with 51 take-aways vs. 23 give-aways, a margin of 28 or 2.55 per game. Ohio State won in net punting at 44.

Quotes of the week

Brigham Young coach Edwards thinks his team being voted No. 1 in the polls for the first time ever is proof of what college athletics is all about—the chance to excel. But even Edwards was surprised at the reaction of BYU fans in Provo, Utah. "It's an amazing thing that's happening here," he told Roy Johnson, *The New York Times*. "I found myself getting stopped in public places that I've been going to for most of my life. Little kids come up to me and say, 'Hi, Uncle LaVell,' and I don't even know them." (*Dave Schultness, BYU SID*)

Furman went 8-3 this season but failed to win the Southern Conference championship for the first time in five years. Says senior offensive tackle Bernard Durham, looking back on a 36-9-2 career: "That doesn't make this team any less special to me. I've probably grown stronger in relationships to other players than any year. To me, that's pretty important. When I leave, I'm gonna forget a lot of plays, but I'm not gonna forget any close friends." (*Monte Dutton, Furman SID*)

Five of South Dakota's nine North Central Conference games were decided by three points or less, with the Coyotes coming out on top in four of those. "If you were to characterize our team by a movie it would be 'The Year of Living Dangerously,'" said coach Dave Triplett. "Maybe that's why that last game (a 24-6 win over Augustana, South Dakota) seemed so boring." (*Mike Mahon, South Dakota SID*)

You hear a lot about Miami (Ohio) being the Cradle of Coaches, but have you noticed that five successful programs this season are headed by Arkansas graduates of the 1960s (Barry Switzer at Oklahoma, Fred Akers at Texas, Jimmy Johnson at Miami (Florida), Pat Jones at Oklahoma State and Ken Hatfield at Arkansas)? "We kept every one of them as graduate assistants because we thought so highly of them," Arkansas athletics director Frank Broyles told Mal Florence, *Los Angeles Times*. "Arkansas is unique, with a small population base. Those coaches learned to push and drive themselves, how you cultivate fans, how to recruit in somebody else's backyard, how to sell your program the hard way. It's good training for prospective coaches."

Football notes

Mississippi Valley's Rice tops all-time receiving marks

Jerry Rice came to Mississippi Valley State four years ago as a rail-thin kid from Starkville, Mississippi, barely six feet tall. "And I was terribly slow, something like about a 4.9 or a 5.0 in the 40-yard dash," he says. "I didn't even know how to run." That was before he began working with weights and before he began getting coaching in the art of running and catching passes.

Now, Rice is 6-3 and 200 with 4.45 speed for 40 yards. And he leaves Mississippi Valley with nine all-time NCAA collegiate, or all-divisions records. That means he is the No. 1 receiver statistically in the 48 seasons the NCAA has been keeping official records—No. 1 for all divisions of NCAA college football.

He holds collegiate career records for catches (301), receiving yards (4,693), touchdown catches (50) and points by a receiver (302). His four season collegiate records are for touchdown catches (27), TD catches per game (2.7), points by a receiver (162) and points per game by a receiver (16.2). His ninth record is 24 catches in one game.

Rice also set Division I-AA season records in the above nine categories, of course, plus season receiving yards (1,682, breaking his 1,450 in 1983) and season catches (103, breaking his 102 in 1983).

As the key receiver in the wild, no-huddle offense devised by Archie "Gunslinger" Cooley, Rice could, and did, do almost anything—run over people, outrun people, even throw touchdown passes. That's right—he was 6-for-7 as a passer, with five TDs.

The offense looked crazy, but there always was a reason, and that reason

usually was to get Rice open. On one play, four receivers line up single file wide to the left, with Rice wide right. This often results in single coverage on Rice.

Rice overshadowed a talented field of I-AA receivers that included five of the top eight in the history of the seven-year-old division. The other four were Princeton's Derek Graham (176 career catches), William and Mary's Jeff Sanders (175), Western Carolina's Eric Rasheed (172) and Lehigh's Rennie Benn (164), ranking 3 (tie)-5-6-8 on the list.

Totten's toteboard

Rice's batterymate, junior quarterback Willie Totten, is 6-2 and 190 from Carrollton, Mississippi, where he was a nonthrowing quarterback in high school. His early years were spent in Crawford, Mississippi, and he wanted to play at Mississippi State but was not offered a scholarship. An uncle persuaded him to attend Mississippi Valley.

Now, Totten holds 11 all-time NCAA collegiate season records in passing and total offense—pass attempts (518), attempts per game (51.8), completions (324), completions per game (32.4), passing yards per game (455.7), touchdown passes (56), TD passes per game (5.6), percentage of passes for TDs (10.8), total offense (rushing-passing) yards per game (457.2), touchdowns-responsible-for (61) and TDRs per game (6.1).

This means he had the most prolific season by any passer ever, breaking collegiate marks held by Brigham Young's Jim McMahon and Portland State's Neil Lomax in 1980.

And that is just the beginning. Space will not permit a listing of numerous other records for single

Jerry Rice

game, one half, for 400- and 500-yard games, etc. Nor can we list all the collegiate career records he can break in 1985. But here are some of the big ones: With 9,013 career passing yards, Totten needs 4,208 to break the collegiate mark of 13,220 by Lomax; and with 9,265 total offense yards, he needs 4,081 to break Lomax's 13,345. With 100 touchdown passes and 113 touchdowns-responsible-for, he can break Lomax's all-time highs of 106 and 120, respectively, with ease.

Totten also broke a flock of Division I-AA season records in addition to those above. For instance, 8.80 yards per attempt, 4,557 passing yards and 4,572 total offense, the latter two just missing the collegiate marks of 4,571 and 4,627 by McMahon, who played 12 games in 1980 to Totten's 10 this season. Totten won a second straight championship in passing efficiency at 163.6, just missing his I-AA record of 167.5 in 1983.

Cooley called the formations from the sidelines with hand signals, and Totten called the plays at the line via audibles. "It was strange at first," Totten said of the no-huddle. "We were running into each other. But, in time, we got it down pat. Now, it comes naturally."

Totten overshadowed a talented I-AA field. In career passing yards, Colgate's Steve Calabria (8,555), Rhode Island's Tom Ehrhardt (6,783), Illinois State's John Coppens (6,238) and Montana's Marty Mornhinweg (6,978) rank 4-6-9-11, respectively, on the career list. All are seniors except Ehrhardt, a junior who leads this group into touchdown passes (57) and career efficiency (122.6; Totten's 154.8 is above the I-AA career mark). In career total offense, Calabria (8,532), Ehrhardt (6,333) and Mornhinweg (6,175) rank 5-6-8, respectively.

Lake leads rushers

Delaware State's Gene Lake won the rushing championship with a I-AA record average of 172.2 yards per game, established another record at 7.24 yards per rush, tied another with 20 rushing touchdowns, took the all-purpose running title at 175.9 yards per game and finished second to Rice in scoring with 12.0 per game.

Lake is only a junior and has 3,123 career yards rushing, fourth among this season's players. Boston's Paul Lewis leads all seniors with 3,995, finishing third on the list. Next are Scotty Caldwell of Texas-Arlington at 3,267 and Jerry Butler of Southeastern Louisiana at 3,232; and after Lake comes Vince Hall of Middle Tennessee at 3,075.

Lewis set a I-AA career scoring record with 308 points and Rice tied for second at 302.

Other I-AA leaders

Another member of the famous Zendejas kicking family, Nevada-Reno freshman Martin Zendejas, won the field-goal title (22 in 11 games); Western Carolina's Steve Kornegay took the punting crown (43.4), and Mississippi Valley's Willie Ware won the title in punt-return average at

Willie Totten

19.7 while setting the I-AA record for season punt-return touchdowns with three.

Eastern Washington sophomore Craig Richardson won the kickoff-return championship with a 34.7-yard average, setting a I-AA season record, and Holy Cross senior Bill McGovern won in interceptions with 11 in 11 games, equaling the I-AA record.

On the career charts, Middle Tennessee's Kelly Potter finished second with 52 field goals, with Montana State's Mark Carter tied for fifth at 45; Appalachian State's Mark Royals (42.3), Idaho State's Jeff Kaiser (42.1) and Montana State's Dirk Nelson (41.6) rank 4-6-7, respectively, in punting; Eastern Kentucky's Tony James led in kickoff-return average at 27.2, just missing the record 27.3; Tennessee State's Herman Hunter set records for kickoff-return yardage (2,258) and combined punt- and kickoff-return yardage (3,232) and finished third in all-purpose running (5,410), and Alcorn State's Issiac Holt and McGovern now share the I-AA career interception record at 24. Holt's 319 interception yards is a record. Illinois State's Mike Prior had 23, also above the old mark.

I-AA team leaders

Mississippi Valley State's run-and-gun, no-huddle offense produced seven all-time NCAA collegiate (remember, all divisions) records for 48 years of NCAA official records—for passing yards per game (496.8), total offense yards per game (640.1), points per game (60.9), pass attempts per game (55.8), completions per game (35.1), touchdown passes per game (6.4) and rushing-passing TDs per game (8.4).

Valley thus became the first 60-point scoring team in modern football history (since 1937), breaking the 56.0 by Army's famous 1944 team with Glenn Davis and Doc Blanchard (Mr. Outside and Mr. Inside, respectively). And its passing game averaged more than 50 yards above the 434.9 by Portland State in 1980, with its total offense topping the 624.1 by Hanover in 1948.

Despite averaging 86.6 rushing-passing plays per game with its hurry-hurry offense, Valley did not break the record for total offensive plays per game—92.4 by Notre Dame in 1970 with Joe Theismann at quarterback (the team that ended Texas' 30-game winning streak in the Cotton Bowl, 24-11).

That was because the Valley defense was not strong enough to get the ball back quickly enough. This was true in the I-AA play-offs, also, when Louisiana Tech, the national leader in pass defense at 105.5 yards allowed per game, gained over 700 yards and beat Valley, 66-19. Totten passed for almost 500 yards but was intercepted six times. Grambling set a I-AA record by allowing just 44.5 rushing yards per game. The other leaders were Tennessee State in total defense (187.0), Northwestern State (Louisiana) in scoring defense (9.0), Western

Gene Lake

Carolina in net punting (42.8) and Arkansas State in turnover margin (1.73).

I-A national trends

The nation's I-A kickers set an all-time record for accuracy, which produced another record high for successful field goals per game. Otherwise, the country's I-A teams came down just a tiny bit from their record offensive figures of 1983.

Field goals made per game averaged 2.30 (both teams combined, all 626 games involving at least one I-A team), breaking the 2.11 of a year ago. Accuracy reached 68.2 percent, breaking the 65.7 set last season. All but a handful of I-A kickers are soccer-stylers.

Passing yardage was 362.2 per game and total offense (rushing-passing) 698.4 compared to the all-time highs of 365.5 and 704.5 set last year. Yards per attempt (6.77) and completion percentage (52.7) also were barely behind the records of 6.79 and 53.6 percent set in 1983. The same was true of yards per rush (3.76 vs. 3.80) and yards per total offensive play (4.89 vs. 4.92—the record). Passing emphasis declined slightly a second straight year, as 37.4 of total offensive plays were passes vs. 37.6 percent in 1983 and the record 38.0 in 1982.

Even scoring was down a little, from the record 44.2 last year to 44.1, despite the field goal explosion. The only increase other than field goals came in touchdown passes per game—2.12 vs. 2.11 last year (the record is 2.16).

I-AA national trends

Division I-AA, in contrast, set offensive records right and left. Passing yards hit 361.9 per game—close to the I-A figure and far above the record of 334.5 last season. Scoring also was close to the I-A figure with 43.6, well above the record 42.1 set in 1983. Total offensive yards (666.9), completion percentage (50.0), touchdown passes per game (2.43) and yards per total offensive play (4.72) all were far above the I-AA records of 645.1, 49.4, 2.17 and 4.60, respectively, for the seven-year-old division.

Toughest schedules

Back in September, the NCAA toughest-schedule program rated Penn State's schedule the toughest based entirely on 1983 results. Now, at the end of the regular season Penn State again is No. 1 at .613, as its I-A foes were 58-36-3 vs. other I-A teams when not playing Penn State. Next are Georgia, by a silly millimeter over Florida, .60194 to .60185; Utah State .601; Baylor .599; Boston College .598; Stanford .592; Syracuse .5858; Texas, .5857, and Navy 10th at .584.

The 10 toughest schedules in I-AA? North Texas State leads at .609, followed by Virginia Military .587, Holy Cross .5743, Florida A&M, .5741, Grambling State .572, Connecticut .565, Davidson .563, Boston U. .558, William and Mary .554, and Northwestern State (Louisiana) 10th at .551. The September lead based on 1983 was South Carolina State which finished 19th at .517.

Charles Sanders, Slippery Rock, the leading rusher in Division II

Jeff Bentrim, North Dakota State, tops Division II in scoring

Pat Brennan, Franklin, the total-offense leader in Division II

Gary Errico, Lowell, the top rusher in Division III with 1,404 yards

Tim McNamera, Trinity (Connecticut), the leading receiver in Division III

Keith Bishop, Wheaton (Illinois) the total-offense leader in Division III

I-A, I-AA attendance will be up

As predicted, both Division I-A and Division I-AA will be up in both per-game and total attendance this season in the final report, barring an unprecedented reduction in the final audit. Even if the audit reduces I-A by 300,000 and I-AA by 100,000, the per-game averages will surpass 1983. The largest final audit reductions of press-box figures in past years have been about 110,000 in I-A and 50,000 in I-AA. But as mentioned last week, in-stadium attendance may not really be up because successful, top-20 attendance institutions have reported a definite "no-show" problem this year for the first time in history. The figures below generally reflect tickets sold.

The next question is whether the big increase in television exposure has reduced attendance for colleges below Division I. That answer will determine whether national attendance is up in 1984. Returns are coming in. The final report will be in The NCAA News of December 19. Here are the final comparisons, using press-box figures:

	Games	Attendance	Per Game	Percent Capacity
I-A season press-box final figures	605	25,812,713	42,666	80.5
I-A final 1983 audit, same 105 teams	602	25,381,761	42,162	79.5
I-AA season press-box final figures	463	5,090,204	10,994	55.0
I-AA final 1983 audit, same 87 teams	460	4,952,850	10,767	52.4

Division III team leaders_____

Kouwe's goal gives Wheaton Division III title

Dave Kouwe scored on a penalty kick in the third overtime period to give host Wheaton (Illinois) a 2-1 victory over Brandeis in the NCAA Division III Men's Soccer Championship game December 1.

Kouwe, who scored the game's first goal at 10:30 on assists from Dave Wolf and Andrew Taylor, took the shot after Brandeis goalkeeper Jim Leahy was whistled for a penalty. Leahy went out of the goal to stop a long through-pass, but Wheaton's Taylor slipped by and was heading toward an open goal mouth when grabbed by Leahy.

Kouwe took advantage of a scouting report on Brandeis and put the winning shot into the right side of the goal while Leahy went left.

"I knew we would just play over-times until someone won and I didn't think it would be on a penalty kick," said Wheaton coach Joe Bean. "But

we practiced just in case.

"We scouted Brandeis and were told Leahy goes to his left on penalty kicks. I was praying Dave (Kouwe) would do just what we asked him to do — hit it to the keeper's right," Bean said.

Kouwe's tendency all season on penalty shots had been to go to the left.

"The problem was that all year David has hit them to the opposite side. Fortunately, he didn't this time. That's the only time this season he put a penalty kick to the right."

The championship was the first for Wheaton, which was making its ninth tournament appearance dating to 1974, the first year of the national-championship event. Brandeis, in its eighth NCAA tournament, won the title in 1976 and finished third once.

Wheaton finished the season with a

21-1-2 record while Brandeis finished 18-4.

Kouwe's opening goal before a crowd of 2,500 was the result of an indirect kick at the top of the penalty box. Jeff Steinberg tied the score at the 30-minute mark on assists from Peter Cherecwich and Greg Allen after picking up a loose ball in front of the goal.

Taylor was named the game's top offensive player while Brandeis' Jim McCulley earned outstanding defensive player honors.

Brandeis 1 0 0-0-0 - 1
Wheaton 1 0 0-0-1 - 2

First half: Wheaton-Dave Kouwe (Dave Wolf, Andrew Taylor), 10:30; Brandeis-Jeff Steinberg (Peter Cherecwich, Greg Allen), 30:00; Third Overtime-Kouwe (penalty kick), 1:15:30.

Shots: Brandeis 8, Wheaton 15. Saves: Brandeis (Jim Leahy) 6, Wheaton (Chris Hagemann) 5. Corner kicks: Brandeis 4, Wheaton 9. Fouls: Brandeis 28, Wheaton 34.

Dave Kouwe

Andrew Taylor

Championships Summaries

Division I-AA Football

Quarterfinal results: Middle Tennessee State 42, Indiana State 41 (3 o.t.); Rhode Island 23, Richmond 17; Montana State 31, Arkansas State 14; Louisiana Tech 44, Alcorn State 21.

Semifinal pairings: Louisiana Tech (9-4) at Middle Tennessee (11-2), December 8; Rhode Island (10-2) at Montana State (10-2), December 8.

Division II Football

Semifinal results: North Dakota State 25, Nebraska-Omaha 14; Troy State 45, Towson State 3.

Championship pairing: Troy State (11-1) vs. North Dakota State (11-1), December 8, Palm Bowl, McAllen, Texas.

Division III Football

Championship pairing: Augustana (Illinois) (11-0) vs. Central (Iowa) (11-0), December 8, Amos Alonzo Stagg Bowl, Kings Island, Ohio.

Division I Men's Soccer

Third-round results: Indiana 4, St. Louis 2; Hartwick 1, FDU-Teaneck 0; Clemson 1, Virginia 0; UCLA 2, Harvard 0.

Semifinal pairings: Pairings, dates and sites are yet to be determined.

Division II Men's Soccer

Semifinal results: Florida International 3, New Haven 2 (o.t., penalty kicks); Seattle Pacific 2, Missouri-St. Louis 1 (o.t., penalty kicks).

Championship pairing: Florida International (13-4-3) vs. Seattle Pacific (18-5-1), site and date to be determined.

Division I Women's Volleyball

First-round results: Fresno State defeated California-Santa Barbara, 4-15, 15-13, 15-11, 15-6; San Jose State defeated Purdue, 5-15, 15-8, 15-9, 15-13; Texas defeated Lamar, 15-4, 15-10, 15-8; Tennessee defeated Eastern Kentucky, 15-2, 15-6, 15-9; San Diego State defeated Brigham Young, 15-13, 15-9, 15-11; Southern California defeated Pepperdine, 15-6, 14-16, 15-8, 13-15, 15-8; Nebraska defeated Pittsburgh, 15-6, 15-10, 18-16; Penn State defeated Northwestern, 7-15, 15-9, 15-4, 9-15, 15-3; Western Michigan defeated Illinois State, 15-13, 9-15, 15-8, 17-15; Colorado State defeated Arizona, 15-13, 15-11, 14-15, 15-11; Oregon defeated Hawaii, 15-9, 16-14, 14-16, 3-15, 15-9; Duke defeated South Carolina, 15-13, 15-8, 10-15, 15-9.

Regional pairings: (at San Diego State): Stanford (17-4) vs. Colorado State (26-7); San Diego State (32-13) vs. Southern California (26-6); (at Western Michigan) Nebraska (25-3) vs. Western Michigan (26-7); Penn State (30-5) vs. Pacific (28-7); (at Cal Poly-San Luis Obispo) Cal Poly-San Luis Obispo (33-7) vs. Fresno State (25-12); San Jose State (24-9) vs. Oregon (27-11); (at Texas) Texas (31-6) vs. Tennessee (25-10); Duke (31-8) vs. UCLA (29-6).

Division II Women's Volleyball

Regional results: Portland State defeated

James Madison, 15-2, 15-2, 15-9; New Haven defeated Northeastern, 14-16, 15-13, 15-6, 15-7; Portland State defeated New Haven, 15-6, 15-6, 15-3.

Sam Houston State defeated Florida Southern, 15-12, 15-13, 15-9; Ferris State defeated Tampa, 15-9, 11-15, 15-13, 8-15, 15-5; Sam Houston State defeated Ferris State, 15-12, 6-15, 15-3, 15-6.

Cal State Sacramento defeated Northern Colorado, 15-6, 15-9, 6-15, 15-3; Cal Poly-Pomona defeated California-Riverside, 15-9, 14-6, 15-13, 15-6; Cal State Sacramento defeated Cal Poly-Pomona, 15-13, 4-15, 15-11, 15-10.

North Dakota State defeated Nebraska-Omaha, 15-11, 15-12, 15-7; Cal State Northridge defeated Central Missouri State, 15-4, 15-3, 11-15, 15-8; Cal State Northridge defeated North Dakota State, 4-15, 15-5, 15-3, 15-8.

Semifinal pairings: (at Portland State): Portland State (31-3) vs. Sam Houston State (46-6); Cal State Sacramento (31-3) vs. Cal State Northridge (38-8).

Division III Women's Volleyball

Second-round results: MIT defeated Juniata 15-8, 15-8, 5-15, 12-15, 15-11; Calvin defeated North Carolina-Greensboro, 15-6, 17-15, 14-16, 15-8; UC San Diego defeated Gustavus Adolphus, 15-6, 15-7, 15-3; La Verne defeated Ithaca, 15-3, 15-4, 17-15.

Semifinal pairings: (at Elmhurst): MIT (35-4) vs. Calvin (30-7); UC San Diego (21-12) vs. La Verne (22-10).

January 19-23	Football Rules Committee, Point Clear, Alabama

1984-85 NCAA championships dates and sites

Fall

Cross Country, Men's: Division I champion — University of Arkansas, Fayetteville, Arkansas; Division II champion — Southeast Missouri State University, Cape Girardeau, Missouri; Division III champion — College of St. Thomas, St. Paul, Minnesota.

Cross Country, Women's: Division I champion — University of Wisconsin, Madison, Wisconsin; Division II champion — California Polytechnic State University, San Luis Obispo, California; Division III champion — College of St. Thomas, St. Paul, Minnesota.

Field Hockey: Division I champion — Old Dominion University, Norfolk, Virginia; Division III champion — Bloomsburg University of Pennsylvania, Bloomsburg, Pennsylvania.

Football: Division I-AA, 7th, The Citadel, Charleston, South Carolina, December 15, 1984; Division II, 12th, Palm Bowl, McAllen, Texas, December 8, 1984; Division III, 12th, Kings Island, Ohio, December 8, 1984.

Soccer, Men's: Division I, 26th, The Kingdome, Seattle, Washington, December 16, 1984; Division II, 13th, campus site to be determined, December 8 or 9, 1984; Division III champion — Wheaton College, Wheaton, Illinois.

Soccer, Women's: Champion — University of North Carolina, Chapel Hill, North Carolina.

Volleyball, Women's: Division I, 4th, University of California, Los Angeles, Los Angeles, California, December 14 and 16, 1984; Division II, 4th, Portland State University, Portland, Oregon, December 7-8, 1984; Division III, 4th, Elmhurst College, Elmhurst, Illinois, December 7-8, 1984.

Water Polo, Men's: Champion — University of California, Berkeley, California.

Winter

Basketball, Men's: Division I, 47th, University of Kentucky, Rupp Arena, Lexington, Kentucky, March 30 and April 1, 1985; Division II, 29th, American International and Springfield Colleges, Springfield Civic Center, Springfield, Massachusetts, March 22-23, 1985; Division III, 11th, Calvin College, Grand Rapids, Michigan, March 15-16, 1985.

Basketball, Women's: Division I, 4th, University of Texas, Austin, Texas, March 29 and 31, 1985; Division II, 4th, American International and Springfield Colleges, Springfield Civic Center, Springfield, Massachusetts, March 21 and 23, 1985; Division III, 4th, campus site to be determined, March 15-16, 1985.

Fencing, Men's: 41st championship, University of Notre Dame, Notre Dame, Indiana, March 19-20, 1985.

Fencing, Women's: 4th championship, University of Notre Dame, Notre Dame, Indiana, March 21, 1985.

Gymnastics, Men's: 43rd championship, University of Nebraska, Lincoln, Nebraska, April 12-13, 1985.

Gymnastics, Women's: Division I, 4th, University of Utah, Salt Lake City, Utah, April 12-13, 1985; Division II, 4th, Springfield College, Springfield, Massachusetts, March 29-30, 1985.

Ice Hockey, Men's: Division I, 38th, Joe Louis Arena, Detroit, Michigan (Michigan State University host), March 28-30, 1985; Division III, 2nd, campus site to be determined, March 21-23, 1985.

Rifle, Men's and Women's: 6th championship, U.S. Military Academy, West Point, New York, March 8-9, 1985.

Skiing, Men's and Women's: 32nd championship, Montana State University, Bridger Bowl and Cross Cut Ranch, Bozeman, Montana, March 6-9, 1985.

Swimming and Diving, Men's: Division I, 62nd, University of Texas, Austin, Texas, March 28-30, 1985; Division II, 22nd, Justus Aquatics Center, Orlando, Florida (Rollins College host), March 13-16, 1985; Division III, 4th, Emory University, Atlanta, Georgia, March 21-23, 1985.

Swimming and Diving, Women's: Division I, 4th, University of Alabama, University, Alabama, March 21-23, 1985; Division II, 4th, Justus Aquatics Center, Orlando, Florida (Rollins College host), March 13-16, 1985; Division III, 4th, Emory University, Atlanta, Georgia, March 14-16, 1985.

Indoor Track, Men's: Division I, 21st, Syracuse University, Carrier Dome, Syracuse, New York, March 8-9, 1985; Division II, 1st, North Dakota State University, Fargo, North Dakota, March 16-17, 1985; Division III, 1st, Bates College, Lewiston, Maine, March 8-9, 1985.

Indoor Track, Women's: Division I, 3rd, Syracuse University, Carrier Dome, Syracuse, New York, March 8-9, 1985; Division II, 1st, North Dakota State University, Fargo, North Dakota, March 16-17, 1985; Division III, 1st, Bates College, Lewiston, Maine, March 8-9, 1985.

Wrestling: Division I, 55th, University of Oklahoma and Oklahoma State University, The Myriad, Oklahoma City, Oklahoma, March 14-16, 1985; Division II, 23rd, Wright State University, Dayton, Ohio, March 3-4, 1985; Division III, 12th, Augustana College, Rock Island, Illinois, March 1-2, 1985.

Spring

Baseball: Division I, 39th, Rosenblatt Municipal Stadium, Omaha, Nebraska (Creighton University host), May 31-June 9, 1985; Division II, 18th, Patterson Stadium, Montgomery, Alabama (Troy State University host), May 25-29, 1985; Division III, 10th, Marietta College, Marietta, Ohio, May 30-June 2, 1985.

Golf, Men's: Division I, 88th, Grenelefe Golf and Tennis Resort, Grenelefe, Florida (University of Florida host), May 22-25, 1985; Division II, 23rd, Waterwood Country Club, Huntsville, Texas (Sam Houston State University host), May 14-17, 1985; Division III, 11th, University of Rochester, Rochester, New York, May 14-17, 1985.

Golf, Women's: 4th championship, New Seabury, Cape Cod, Massachusetts (Amherst College host), May 22-25, 1985.

Lacrosse, Men's: Division I, 15th, Brown University, Providence, Rhode Island, May 25, 1985; Division III, 6th, campus site to be determined, May 18, 1985.

Lacrosse, Women's: 4th championship, University of Pennsylvania, Philadelphia, Pennsylvania, May 18-19, 1985.

Softball, Women's: Division I, 4th, Seymour Smith Softball Complex, Omaha, Nebraska (Creighton University host), May 22-26, 1985; Division II, 4th, California State University, Northridge, Northridge, California, May 17-19, 1985; Division III, 4th, Eastern Connecticut State University, Willimantic, Connecticut, May 18-21, 1985.

Tennis, Men's: Division I, 101st, University of Georgia, Athens, Georgia, May 18-26, 1985; Division II, 23rd, California State University, Northridge, Northridge, California, May 13-19, 1985; Division III, 10th, Washington and Lee University, Lexington, Virginia, May 13-19, 1985.

Tennis, Women's: Division I, 4th, Oklahoma City Tennis Center, Oklahoma City, Oklahoma (Oklahoma State University host), May 16-24, 1985; Division II, 4th, California State University, Bakersfield, Bakersfield, California, May 6-11, 1985; Division III, 4th site to be determined, May 6-11, 1985.

Outdoor Track, Men's: Division I, 65th, University of Texas, Austin, Texas, May 27-June 1, 1985; Division II, 23rd, California State University, Los Angeles, Los Angeles, California, May 20-25, 1985; Division III, 12th, Denison University, Granville, Ohio, May 20-25, 1985.

Outdoor Track, Women's: Division I, 4th, University of Texas, Austin, Texas, May 27-June 1, 1985; Division II, 4th, California State University, Los Angeles, Los Angeles, California, May 20-25, 1985; Division III, 4th, Denison University, Granville, Ohio, May 20-25, 1985.

Volleyball, Men's: 16th championship, University of California, Los Angeles, Los Angeles, California, May 3-4, 1985.

Opryland Hotel is rich in Southern tradition

Although Nashville offers the visitor many things to do, delegates to the 1985 NCAA Convention will have to travel no farther than "Opryland USA" to fill their spare time during the 79th annual Convention January 14-16.

In addition to the Opryland Hotel, site of this year's Convention, Opryland USA encompasses Opryland, a musical theme park; the Grand Ole Opry (see story below), a live country music radio show; the Nashville Network, a national cable television network, and radio station WSM.

Opryland USA is located on 406 acres of wooded, rolling hills nine miles from downtown Nashville and seven miles from Nashville Metropolitan Airport. Delegates arriving by plane should exit the airport north on Briley Parkway, which along with the Cumberland River is a boundary of Opryland USA.

The Opryland Hotel, which opened in 1977 and underwent a \$50 million expansion project in 1983, is Tennessee's largest convention hotel. The 1,068-room facility, with its blend of colonial Williamsburg and Southern plantation architectural styles, is a favorite stop for many of the country music industry's top performers.

Not only is the Opryland Hotel the largest in Tennessee, but the 225,000 square feet of public space is the most of any convention hotel in the country. The Presidential Ballroom, which will house the honors luncheon and the business session, has 30,000 square feet of space, including a permanent 40-by-60-foot stage. The opening general session on Monday morning, January 14, will be held in the 20,000-square-foot Tennessee Ballroom.

One of the highlights of the 1983 expansion is a European-style conservatory, a two-acre garden with approximately 8,000 plants. The conservatory is covered with a one-acre skylight that connects two six-story wings of guest rooms.

The structure was designed by a team of architectural experts who visited conservatories in England, Scotland, Italy and Canada. Because the roof is 110 feet above the garden's floor, towering palm and banana trees are among the 212 species of plants.

Included in the conservatory is the 72-foot Crystal Gazebo, which is made of steel tubes and outlined with bubble lights. The structure is topped by a gold-leaf eagle, and its eight columns descend into a vine-graced umbrella base.

In addition to the 36 meeting rooms and conservatory, the Opryland Hotel has four restaurants, a swimming pool, tennis courts and four entertainment areas. Following are summaries of the hotel's eating and entertainment spots:

Restaurants

Rhett's—Named after Rhett Butler of Scarlett O'Hara fame, this six-room restaurant has a variety of Southern dishes with names reminiscent of Civil War days. Rhett's was part of the hotel's \$50 million expansion in 1983.

The 88 items on the menu are introduced with an opening letter from Butler to O'Hara, his obstinate Southern belle. Menu planners at Rhett's took the most famous dishes from the Southern states to provide a regional Southern menu. Miss Ellie's Chicken 'N Dumplings was the dish selected from Tennessee, the Lone Star Steak from Texas and Hot Brown Butler from Kentucky.

Items on the a la carte menu range from \$4 to \$8 for lunch and \$8 to \$15 for dinner. Hours are 11 a.m. to 5 p.m. for lunch and 5 p.m. to 11 p.m. for dinner. Dinner is served until midnight on Fridays and Saturdays.

Rachel's Kitchen—Lunch and dinner are served here, with the top items being sandwiches, salads and hamburgers. An extensive salad bar also

is offered. Lunch is served from 11 a.m. to 5 p.m. and dinner from 5 p.m. to 10 p.m.

Galleria Sunday Brunch—This weekly happening occurs from 9:30 a.m. to 2:30 p.m. each Sunday in the skylighted Galleria (see photo on this page).

An assortment of fresh fruits in season, a giant salad bar and domestic and imported cheeses introduce the buffet, followed by a wide range of vegetable dishes, breakfast foods, and pastries and breads. Baron of beef always is available, as are other hot entrees such as fish, pork, veal and chicken. About 20 desserts conclude the buffet.

Cost of the brunch is \$10.25 for adults and \$4.75 for children.

The Old Hickory—Named after the seventh president of the United States, Andrew Jackson, this is the hotel's most distinguished restaurant. Upon entering, women receive a single, long-stemmed rose, demonstrating the restaurant's emphasis on Southern hospitality.

Appetizers include escargot au chablis, smoked salmon, Alaskan king scallops, Blue Point oysters a la Rockefeller, snow crab fingers maison and Gulf shrimp cocktail.

The seafood menu includes rainbow trout with almonds, filet of red snapper, lobster tail and swordfish steak. Entrees feature Long Island duckling, lamb chops, rack of lamb, New York cut sirloin steak, veal scallopini, veal oscar, prime rib, filet of beef, capon breast and duo of tournedos. Entrees range from \$13 to \$25, and each dish is served with a vegetable of the day and potato or rice.

For dessert, guests can choose from banana foster, Swiss chocolate mousse, chocolate jubilee and chocolate or strawberry cheesecake.

The Old Hickory is open from 6 p.m. to 10:30 p.m. Sunday through Thursday and 6 p.m. to 11:30 p.m. Friday and Saturday. Reservations and jackets (for men) are requested.

Entertainment

Stagedoor Lounge—One of Nashville's most exciting entertainment locations, the Stagedoor Lounge books a variety of individual performers and performing groups; shows nightly from 8:30 p.m. to 1 a.m. (closed Sunday). This also is the home of The Waking Crew, a weekday morning (7:45 to 9) radio show on WSM. Hotel guests can enjoy a continental breakfast as they are entertained by the show's six-piece band and a variety of regular and guest singers.

The Pickin' Parlor—Accented by rustic wood floors, stained-glass decor and an antique mirror bar, this is

a colorful setting for drinks and country music. Entertainment nightly except Sunday.

Jack Daniel's Saloon—This saloon is located in the conservatory. It is a

classic bar featuring authentic memorabilia from the Jack Daniel's distillery in Lynchburg, Tennessee. Belt-driven fans circulate around the bar, and oscillating fans are installed above the doors. Entertainment nightly.

Staircase Lounge—Overlooking the hotel's skylighted Galleria, this lounge offers cocktails and quiet music Monday through Saturday from 4 p.m. to midnight. Entertainment nightly.

A brunch buffet is available every Sunday from 9:30 a.m. to 2:30 p.m. in the skylighted Galleria at the Opryland Hotel in Nashville, site of the 1985 Convention. The Galleria brunch is one of four dining areas at the Opryland.

Grand Ole Opry in 59th year of operation

For those delegates who are country music fans, the first NCAA Convention in Nashville should be a memorable one.

Now in its 59th year, the Grand Ole Opry has renamed Nashville "Music City USA." Since its founding in 1925, the Grand Ole Opry has never missed a Saturday night performance.

The Grand Ole Opry has had a number of homes over the years, outgrowing in succession the original WSM studios, a tabernacle, a theater, War Memorial Auditorium and the famous Ryman Auditorium in downtown Nashville.

The current location at Opryland USA, which seats 4,400 people, was dedicated March 16, 1974, and is the largest broadcast studio in the world. Stereo broadcasts over WSM are heard regularly throughout the United States.

Currently, more than 200 singers, musicians, dancers and comedians are listed on the Grand Ole Opry

roster. In addition to seeing established country music performers, guests to the Grand Ole Opry probably will see some of the future stars of the industry.

Every year, the entertainment staff auditions more than 8,000 performers, and 350 are selected to perform at the Grand Ole Opry. Many of the current country music singers and musicians got their start in this manner.

In January, only three performances are held each week—one on Friday nights and two on Saturday nights. The Friday show is held from 7:30 p.m. to 11 p.m., and the Saturday shows are 6:30 p.m. to 9 p.m. and 9:30 p.m. to midnight.

Tickets are difficult, but not impossible, to obtain. About one-third of the seats for each performance are held open. The key to obtaining tickets is to know the sales system.

Reserved and general admission tickets are sold for each performance. Reserved seats, which cost \$9 each,

are available only through the mail and must be ordered well in advance. About two-thirds of the 4,400 seats are sold in this fashion.

The remaining one-third of the seats are general admission. These tickets go on sale every Tuesday prior to the upcoming weekend's shows and are sold on a first-come, first-served basis at the Grand Ole Opry ticket office. General admission tickets sometimes are available up to showtime and sell for \$8 each.

Another method, albeit risky, of obtaining tickets is to purchase unclaimed or cancelled tickets. These become available 30 minutes prior to each show.

Inquiries about Grand Ole Opry tickets should be addressed to Grand Ole Opry Ticket Information, Room 4840, 2802 Opryland Drive, Nashville, Tennessee 37214. The telephone number is 615/889-3060.

Opryland USA offers five tours of

various musical and historical attractions, including the homes of country music stars Johnny Cash, Minnie Pearl, Webb Pierce, Hank Williams, Tex Ritter, Hank Snow, Waylon Jennings, Ronnie Millsap and Kitty Wells.

Following are the tours that are conducted and the price of each tour: (All tours are conducted in an air-conditioned bus with a trained Opry guide to tell the story of Music City.)

Grand Ole Opry Tour (\$10), Country-Western Tour (\$10), Music Row Special Tour (\$10), Hermitage Tour (\$12) and Historical Tour (\$13).

Tours leave daily at scheduled times from Opryland or the Ryman auditorium and last approximately three to four hours with a refreshment break midway through the tour.

For further information, contact Grand Ole Opry Tours, 2810 Opryland Drive, Nashville, Tennessee 37214. The telephone number is 615/889-9490.

Flutie leads FWAA, AFCA all-America lists

Boston College quarterback Doug Flutie, the first 10,000-yard passer in Division I-A history, and 14 other players were named to both the 1984 Football Writers Association of America and the American Football Coaches Association all-America teams.

Rod Brown

The Southeastern Conference placed five players on the American Football Coaches Association all-America team to lead all conferences. The Pacific-10 Conference, with five representatives, led all conferences on the Football Writers Association of America all-America team.

Texas led all teams with two players—defensive lineman Tony DeGrate and defensive back Jerry Gray—on both teams.

Pittsburgh offensive lineman Bill Fralic and Gray were named to both teams for the second consecutive year. Virginia Tech defensive tackle Bruce Smith was named to the football coaches' team for the second year in a row.

Other players named to both teams were running backs Keith Byars, Ohio State, and Kenneth Davis, Texas Christian; wide receiver David Williams, Illinois; offensive linemen Lomas Brown, Florida, and Mark Traynowicz, Nebraska; place kicker Kevin Butler, Georgia; defensive linemen Tony Casillas, Oklahoma; Ron Holmes, Washington, and Virginia Tech's Smith; linebacker Jack Del Rio, Southern California, and punter

Kenneth Davis

Ricky Anderson, Vanderbilt.

The AFCA all-America team is selected by its membership. The FWAA all-America team is selected, with opinions from the membership, by an eight-member committee of writers appointed by the FWAA presi-

dent. This is the 41st FWAA all-America team.

The American Football Coaches Association of America team:

Offense

Wide receivers—Eddie Brown, Miami (Florida); David Williams, Illinois; Tight end—Jay Novacek, Wyoming; Linemen—Bill Fralic, Pittsburgh; Lomas Brown, Florida; Lance Smith, Louisiana State; Del Wilkes, South Carolina; Mark Traynowicz, Nebraska; Quarterback—Doug Flutie, Boston College; Running backs—Keith Byars, Ohio State; Kenneth Davis, Texas Christian; Kicker—Kevin Butler, Georgia.

Defense

Linemen—Bruce Smith, Virginia Tech; Tony Casillas, Oklahoma; Tony DeGrate, Texas; Jack Del Rio, Southern California; Ron Holmes, Washington; Linebackers—Gregg Carr, Auburn; Larry Station, Iowa; Defensive backs—Jerry Gray, Texas; Rod Brown, Oklahoma State; Jeff Sanchez, Georgia; Tony Thurman, Boston College; Punter—Ricky Anderson, Vanderbilt.

The Football Writers Association of America all-Americans:

Offense

Wide receivers—Jerry Rice, Mississippi Valley; David Williams, Illinois; Linemen—Lomas Brown, Florida; Bill Fralic, Pittsburgh; Jim Lachey, Ohio State; Carlton Walker, Utah; Mark Traynowicz, Nebraska; Quarterback—Doug Flutie, Boston College; Running backs—Keith Byars, Ohio State; Kenneth Davis, Texas Christian; Rueben Mayes, Washington State; Kicker—Kevin Butler, Georgia.

Defense

Linemen—Tony Casillas, Oklahoma; Tony

DeGrate, Texas; Ron Holmes, Washington; Bruce Smith, Virginia Tech; Linebackers—Duane Bickett, Southern California; Jack Del Rio, Southern California; James Seawright, South Carolina; Defensive backs—Bret Clark, Nebraska; David Fulcher, Arizona State; Jerry Gray, Texas; Richard Johnson, Wisconsin; Punter—Ricky Anderson, Vanderbilt.

Rueben Mayes

Legislative Assistance

1984 Column No. 31

Permissible transportation expenses

The NCAA Administrative Committee recently affirmed that a member institution that enters a team or individual in an NCAA championship event or a special event (e.g., postseason football game or holiday basketball tournament) during one of the vacation periods listed on the institution's official calendar or after the institution's regular academic year may provide the following transportation expenses for a student-athlete to attend the event: (a) from the student-athlete's home or the campus directly to the site of the event or the event practice site, and (b) from the event site to the campus following the event.

If a student-athlete arranges his or her own transportation from the event site, an institution may provide to the student-athlete the cash equivalent of the transportation costs described in (b), provided that the amount does not exceed the actual costs of the transportation the institution planned to provide if the student had not made his or her own arrangements and the student leaves the event site within 48 hours after the conclusion of the event. In this regard, the NCAA Council determined at its October meeting that an institution is permitted to provide the student-athlete with the costs set forth in the preceding sentence and to allow the student to make his or her own travel arrangements without accounting to the institution for the difference between the actual costs (if equal to or less than the institution had planned to spend) of that travel and the amount the institution had planned to spend.

In addition, the institution may pay the transportation costs for a student-athlete from home to the campus following an event conducted during a vacation period during the institution's regular academic year, provided the student previously has paid the transportation costs of one round trip (or its equivalent) from the campus to the student's home during that vacation period.

Further, the institution may pay the transportation costs for the student directly from a site other than the student's home or the institution's campus to the event or the event practice site, provided the student receives only the actual costs of the transportation and that amount does not exceed the greater of the costs of transportation from the student-athlete's home or the institution's campus to the event or the event practice site; finally, the student who receives such costs shall travel directly to the event or event practice site and shall not arrive more than 48 hours prior to the time the institution's team is scheduled to assemble at that site. These interpretations will be reviewed by the NCAA Council in January.

Regular-season transportation

In a situation in which a member institution participates in a regular-season contest away from its campus immediately prior to or during one of the vacation periods listed on the institution's official calendar or after the institution's regular academic year, and the student-athletes will be released to their homes after the contest, the institution may not provide to the student-athletes the cash equivalent of the costs of transportation to return to the campus to be used by the students to meet their transportation expenses to their homes. The institution may release a student-athlete at the site of the contest or transport the student to its campus after the contest, but the student shall pay his or her own transportation expenses to travel home from either site. The NCAA Council will review this interpretation in January.

Provision of passports for foreign tours

At its recent meeting, the Administrative Committee determined that under the provisions of Constitution 3-1-(h)-(1), it is permissible for an institution to purchase passports for its student-athletes in connection with a foreign tour, provided the institution retains the passports after the tour is concluded so as to avoid an extra benefit under the provisions of Constitution 3-1-(g)-(5). Student-athletes who wish to retain their passports may purchase them from the institution. The NCAA Council will review this interpretation in January.

Bowl game and championship tickets to prospective student-athletes

The Administrative Committee recently determined that a member institution participating in a postseason football game or NCAA championship either on its campus or within 30 miles of the institution's main campus may not provide prospective student-athletes on their official expense-paid visits with tickets to

See Legislative, page 16

Waiting period proposed in regaining hockey eligibility

The NCAA Eligibility Committee has adopted a recommendation supported by the NCAA Men's Ice Hockey Committee and the American Hockey Coaches Association that a student-athlete who has professionalized himself under NCAA Constitution 3-1-(d) by participating on a major junior A ice hockey team should not be restored to eligibility for intercollegiate ice hockey competition until at least an established minimum period of time has passed.

Ice hockey teams in the United States and Canada classified by the Canadian Amateur Hockey Association as major junior A teams were classified as professional teams by the NCAA Council in June 1980. Since that time, any participation by an individual on a major junior A hockey team has been considered prima facie evidence that he has participated on a team known to him, or which reasonably should have been known to him, to be a professional team under NCAA legislation and has rendered the participant ineligible for intercollegiate athletics in the sport of ice hockey subject to an appeal to the Eligibility Committee for restoration of eligibility pursuant to the provisions of Constitution 4-2-(a)-O.I. 11.

The Men's Ice Hockey Committee

and the coaches association asked that the NCAA Eligibility Committee determine that, at a minimum, the eligibility of an individual who participated in major junior A ice hockey should not be restored until he has been in residence at the certifying institution for one academic year and that the individual should be charged with the loss of a season of collegiate competition for each year in which the individual participated on a major junior A hockey team.

Collegiate ice hockey coaches have expressed concern that many institutions actively recruit known major junior A players with the belief that the student's eligibility can be restored following a short period of ineligibility. Although there seldom is clear documentation that the involved student knew that participation on a major junior A team would jeopardize his collegiate eligibility, information has been reported to indicate that some prospective student-athletes have been advised to report to a major junior A camp and play several exhibition games and then, upon enrollment in a member institution, claim ignorance of NCAA legislation.

It should be noted that the Eligibility Committee's action sets forth the minimum consequence for major jun-

ior A participation. As in the past, in those instances in which the committee concludes that the involved individual demonstrated a clear intent to professionalize himself, the committee will not restore eligibility and the individual will remain permanently ineligible in the sport in question.

Constitution 3-1-(b)-(1) permits a student-athlete, prior to enrollment in a collegiate institution, to try out at his or her own expense with a professional athletics team in a sport or receive not more than one expense-paid visit from any one professional organization in a sport, provided such a visit does not exceed 48 hours and any payment or compensation in connection with the visit is not in excess of actual and necessary expenses. This legislation does not permit participation against outside competition on the major junior A team during the tryout.

The committee's action will be applicable to those students who enroll in an NCAA member institution subsequent to the publication of this article. Therefore, member institutions should review their recruiting activities in order to identify any prospect who has professionalized himself by participating on a major junior A team.

USA Network sets basketball schedule

The USA Network will televise 34 regular-season college basketball games, three conference championship series and the National Invitation Tournament semifinals and finals.

Coverage begins Tuesday, December 11, and will end with the NIT final game Friday, March 29, from Madison Square Garden. USA reached agreement with Mizlou Television Network to cablecast the NIT.

In addition, the network will broadcast the Southern Conference, Pacific Coast Athletic Association and Southwest Athletic Conference championships.

Here is the 1984-85 schedule:

December: 11—Memphis State at Mississippi; 27—ECAC Holiday Festival, Old Dominion vs. St. John's (New York) and Rutgers vs. North Carolina State; 29—ECAC finals and third-place game.

January: 2—Syracuse at Villanova; 3—Mississippi State at Alabama; 8—St. Peter's vs. Manhattan; Georgetown vs. Seton Hall; 9—Connecticut at Providence; 10—Florida at Van-

derbilt; 16—Providence at Georgetown, Missouri at Oklahoma; 17—Louisiana State at Mississippi; 19—Arkansas at Houston; 20—Holy Cross vs. La Salle, Villanova vs. Seton Hall; 23—Syracuse at St. John's (New York), Memphis State at Florida State; 24—Mississippi at Auburn; 29—DePaul vs. Princeton; 30—St. John's (New York) at Providence, Virginia Tech at Louisville; 31—Louisiana State at Kentucky.

February: 6—Pittsburgh at Providence, Southern Methodist at Arkansas; 7—Kentucky at Vanderbilt;

9—Georgetown at Boston College; 13—Connecticut at Pittsburgh; 14—Louisiana State at Tennessee; 20—Boston College at St. John's (New York), Florida State at Louisville; 21—Georgia at Auburn; 28—Tennessee at Kentucky.

March: 3—Southern Conference championship; 9—Pacific Coast Athletic Association championship; 10—Southwest Conference championship; 27—National Invitation Tournament semifinals double-header; 29—National Invitation Tournament final game.

Certifications

The following 1984 gymnastics meets have been certified in accordance with NCAA Bylaw 2-4:

Farmingdale Invitational, December 8-9, 1984, Farmingdale, New York. Japanese University Sports Board vs. the following NCAA member institutions: University of Pittsburgh, November 30; Pennsylvania State University, December 2; University of Wisconsin, Oshkosh, December 3; Iowa State University, December 5; University of Iowa, December 6; University of Minnesota, Twin Cities, December 8; University of Nebraska, Lincoln, December 9; University of Nebraska, Lincoln, December 11, and Brigham Young University, December 13.

Runners who broke the tape will end up tying the knot

By Wallace I. Renfro
The NCAA News Staff

Mike Vanatta and Chris Ridenour have turned cross country running into an affair of the heart for themselves and national championships for Southeast Missouri State University.

The two won individual titles November 17 at the NCAA Division II Men's and Women's Cross Country Championships. It is the first time in NCAA history that runners from the same institution have won both races.

What made the double victory even sweeter for Vanatta and Ridenour is that they will be married January 4, 1985, in Cape Girardeau, Missouri, where they met three years ago.

After the Division II meet, the two traveled to Pennsylvania State University two days later to compete in the Division I meet.

"We left Clinton, Mississippi (the site of the Division II meet), after the race on Saturday; arrived in Cape Girardeau about 1 a.m.; got four hours sleep, and drove to St. Louis on Sunday to catch a plane for Pennsylvania. We arrived about 5 p.m. Sunday; and at 11 the next morning, Chris was running again," Vanatta said.

Ridenour finished 44th among 133 runners at the Division I meet.

"She ran her race first, and I thought she ran really well," Vanatta recalled. "I thought if I can do just half as well, I will be happy. I couldn't decide how I felt. I didn't know whether I was tired or not."

"I always hit a wall at about the four-mile mark," Vanatta said. "Fortunately, there were some hills, and I just love hills. I was raised in Colorado

Mike Vanatta, Chris Ridenour

Springs, so hills have always been fun for me."

The more hills he ran at Penn State, the easier it was for him to stay with the leaders. When the race was over, he was 10th in a field of 183 runners.

In 48 hours, Vanatta and Ridenour had traveled more than 1,100 miles; run two 10,000- and 5,000-meter races, respectively; won two national championships, and finished in the top third in their second races against the best collegiate cross country competition in the country.

After January 4, both will be heading for Division I again, at Kansas State University. Vanatta will work on a civil engineering degree and serve as a graduate assistant for cross country and track coach Steve Miller. Ridenour will continue her work on a secondary education degree in earth sciences and after a year will compete

for Miller and the Wildcats.

"After I graduate, I really want to coach high school track," Ridenour said. "Mike and I know the next couple of years will be difficult; but we figured that if we were going to struggle, we might as well struggle together. We have set some goals."

"When the year started, I set a goal to finish first or second at the Division II meet," Ridenour said. "I started out well, and I really felt I could do it."

For those who follow Division II women's cross country, the goal may have seemed a little optimistic. Ridenour had finished 13th in the meet in 1982 and had improved only to 11th in 1983.

"I know no one else expected it," Ridenour admitted.

For a while late in the year, it looked like it would not happen. Despite a good start, she was not running well. She was slowed by a virus and became so discouraged that she talked about quitting.

"Mike really helped me. I thought it was time to stop. I had been running since I was nine, and I thought maybe my body had just had it," she said.

In the regional competition, she finished second and showed little promise for what was to come.

"I was really apprehensive the day of the race. I knew there were some big guns at the meet from Cal Poly (Cal Poly-San Luis Obispo, the eventual team champion) and South Dakota State," she said. "It was after I got into the race that I decided I still could win the thing."

"Mike kept me going and helped me run through the problems I was having," Ridenour noted. "He is never discouraged. No one knows what he

can do; he certainly doesn't. He isn't a very strong runner, just a little guy. But no one can beat Mike in the head."

The 1984 cross country campaign may have been all locked up for Vanatta before the year started. Despite little to show for three previous cross country seasons, Vanatta emerged from the 1984 outdoor track season as the three-time 3,000-meter steeplechase champion and a runner of great determination.

I always kept getting hurt in cross country, however," Vanatta said, "probably because I wasn't getting enough base work. But this year, I prepared well, and I set some goals."

It always has been a natural step for steeplechasers to do well in cross country competition. Vanatta, however, had not been able to make the transition. His best finish had been 28th in 1982; he had missed the 1983 season completely, and he was disappointed.

However, the ease with which he had won the 1984 steeplechase, after a close call in 1982, seemed to prove that he was ready to challenge himself in the fall of 1984.

He finished almost 10 seconds ahead of the field to win his third consecutive 3,000-meter event last spring. But the year before had been a different story.

Vanatta had surprised everyone in 1981 when, as a freshman, he was fourth in the steeplechase—one of the most demanding events in outdoor track. As a sophomore, he handily won and was expected to win again in 1983.

Edinboro University of Pennsylvania's Greg Beardsley, the Division II

cross country champion the previous fall, pressed Vanatta throughout the race and had pulled a stride ahead as they approached the final water-jump barrier.

"He caught me off guard," Vanatta remembered. "He went into the barrier hard, and I knew he had me beat."

Beardsley fell in the water. Vanatta barely escaped becoming entangled in the arms and legs but went on to win the race. Beardsley was third.

"I really believe we would have battled to the wire, and I wish we could have done that. It would have answered a lot of questions that have been asked since," he said.

It may have been that 1982 race that set the stage for Vanatta's cross country championship this fall. Simply put, it was a goal he had not attained and wanted to.

"I strongly believe in God, and he has given me a lot of faith in myself," Vanatta said. "So I have a lot of confidence. I also believe in setting goals. Chris and I both set goals."

Vanatta has some new goals. He will compete in the World Cross Country Championship trials February 16 in Waco, Texas, and he will continue to train and run unattached in steeplechase competition in preparation for the 1988 Olympic trials.

He was ninth in the semifinals of the 1984 trials.

"I think he was disappointed with his finish," Ridenour said. "He wanted to make the finals, and I think he will in 1988."

As for Olympic trials steeplechase competitors of 1988, they should keep in mind what happened the last time Mike Vanatta was disappointed with his performance.

The NCAA News

NCAA Record

DIRECTORS OF ATHLETICS

ROLLA L. ANDERSON announced his retirement from Kalamazoo, effective September 30, 1985. Kalamazoo AD for 31 years, he was the 1962 Michigan football coach of the year and was inducted into the Western Michigan Athletic Hall of Fame in 1982. The athletics center at Kalamazoo bears his name. Anderson will continue to serve in athletics fund-raising efforts and as director of the United States Tennis Association junior boys 16-18 national tennis tournament conducted at the institution. **KEN SAWIN** named interim AD at West Texas State, succeeding **LEON TREKELL**, who held the interim post since August 9. Sawin had been assistant athletics director and ticket manager the past nine months.

ASSISTANT DIRECTOR OF ATHLETICS

DAVIS BABB selected at Virginia Military, where he will be responsible for the business operations of the athletics department and ticket manager. Babb was the tennis coach at Furman the past two years after graduating from Appalachian State, where he earned all-Southern Conference honors as singles and doubles champion.

COACHES

Women's basketball **JOE HOGAN** announced his resignation at Siena, effective at the end of the 1984-85 season. Head coach for four years, Hogan guided the Lady Indians' transition to Division I. He compiled a 99-43 record, including four 20-victory seasons and the 1982 Association for Intercollegiate Athletics for Women Division II state championship. He will continue to teach history at Watervliet High School.

Football—**CHUCK STOBART** released at Utah after three seasons. **THEOPHILUS**

Rolla L. Anderson will retire as Kalamazoo AD on September 30

H.D. 'Fritz' Cappell, Furman ticket manager, retired after 25 years

LEMON, acting head coach, and **WILLIE WILLIAMSON**, suspended as head coach earlier in the season, released at Kentucky State. **BOB THALMAN** released at Virginia Military, where he had been head coach since 1971. **DON DAVIS** resigned at West Texas after three years. **JOE AVEZZANO** released at Oregon State. He had been head coach for five years. **WALLY ENGLISH** released at Tulane after two years as head coach.

Football assistants—**BILL TROUT** resigned as defensive coordinator at Miami (Florida). **HENRY ROSS**, defensive backfield coach, and part-time assistants **JAMES ALCORN**, **GLENN HILL** and **DAVE MOORE** released at Kentucky State. Ross will retain his position as physical education instructor.

STAFF

Athletics ticket manager—**H.D. 'FRITZ' CAPPELL** retired at Furman after 25 years. Cappell missed just one game since he started

selling football tickets in 1959.

Sports information assistant—**STEVE KAHN** selected at Stony Brook. He had been a student assistant since 1982 and served as sports editor for the campus newspaper.

NOTABLES

CHUCK ZODY, Miami (Ohio) cross country coach, named president of the NCAA Cross Country Coaches Association. Zody assumed the one-year position November 18 after serving on the executive council the past eight years and as first vice-president last year. A four-time Mid-American Conference coach of the year, Zody's cross country team won its third consecutive conference crown this season.

DEATHS

DR. HARRY MCPHEE, a former U.S. Olympic and Princeton team physician, died November 25. He was 89. McPhee, recognized as an authority in the prevention and treatment of athletic injuries, joined the Princeton health and physical education faculty in 1928 and was head physician for the football team for 31 years before his 1964 retirement. While at Princeton, he served also as the U.S. team doctor at four Olympic and three Pan American Games. McPhee developed neck and face guards and other safety equipment for football players.

RICKY BELL, a standout running back at Southern California and six-year National Football League veteran, died November 28. He was 29. Bell had suffered from dermatomyositis, an inflammation of the skin, and polymyositis, an inflammation of the muscles, since 1982. Both diseases are incurable. Bell earned all-America honors his junior and senior seasons at Southern California, leading the nation in rushing as a junior with 1,875 yards. As a senior, he finished second to Tony Dorsett in the Heisman Trophy voting. During his career with the Trojans, he amassed 3,689 yards on 710 carries and scored 28 touchdowns. He is survived by his wife, Natalia; a 3-year-old daughter, Noell, and his mother, Ruth.

CORRECTIONS

Because of incorrect information provided to The NCAA News, it was stated in the November 12 issue of the News that Long Beach State University had dropped its fencing program. Long Beach State will be competing on the varsity level this season.

In the Division II Women's Cross Country Championships results published in the November 19 issue of The NCAA News, California-Riverside was listed as finishing fourth. Cal State Northridge was the fourth-place team.

POLL

Division I Women's Volleyball

The top 20 NCAA Division I women's volleyball teams through games of November 24, with records in parentheses and points.

1. Stanford (17-4)	160
2. UCLA (29-6)	152
3. Cal Poly-SLO (33-7)	144
4. Pacific (28-7)	136
5. Southern California (28-6)	128
6. Hawaii (33-10)	120
7. Nebraska (25-3)	112
8. Texas (30-6)	99
9. San Jose State (23-9)	94
10. San Diego State (31-13)	91
11. Illinois State (36-5)	82
12. Colorado State (25-7)	72
13. Penn State (29-5)	64

Briefly in the News

Duke University and the **University of Notre Dame** will share the College Football Association's Academic Achievement Award this year for graduating the highest percentage of their football players. Both are repeat winners. The **University of Virginia** and the **University of Wyoming** were given special recognition. Duke had 22 of its 23 freshman recruits of 1978 graduate, and 27 of 28 recruits on grants-in-aid at Notre Dame earned degrees. The new Athletic Hall of Fame at the **University of California, Los Angeles**, was opened to the public last month. The two-story structure contains an NCAA room, where all 50 Bruin NCAA championships trophies are displayed. The building also will be used for board of regents meetings and activities of various campus groups.

At the **University of Georgia**, 67 percent of the women athletes who attended summer school achieved a grade-point average of 3.000 or higher. The National Strength and Conditioning Association will hold its convention in Dallas June 28-30. Convention participants can obtain one hour of college credit from **Creighton University**. For information, contact Karen Keller Brown at 402/472-3000. **Catholic University** will name its new \$7.7 million athletics complex (The NCAA News, May 9) after Raymond A. DuFour, a Washington, D.C., insurance executive and an alumnus. A 1928 graduate and member of the football team, DuFour already has been cited by the university for distinguished and meritorious service. **George Mason University** participated in the Marine Corps Reserve "Toys for Tots" campaign at its basketball game with Northern Illinois December 4 by admitting free the first 500 fans with a toy for the campaign.

University of the Pacific is an Equal Opportunity Employer.

HEAD FOOTBALL COACH

University of Northern Colorado

Applications and nominations are invited for the position of Head Football Coach at the University of Northern Colorado. The position is a full-time, 11 month, non-tenure appointment. The University of Northern Colorado football program is a Division II program, competing in the North Central Conference. This position became available due to the retirement of the current coach.

Responsibilities: The Head Football Coach reports to the Director of Athletics and is responsible for all aspects of the football program. Other assignments will be teaching and/or other assignments agreed upon. The position is an 11-month position with the academic year being 75% football and 25% in another area as agreed upon, and the 10th and 11th months 100% football.

Qualifications: A master's degree required, with a minimum five years' coaching experience, with preference given to experience as college head coach or coordinator. Must have demonstrated ability to recruit quality student-athletes; to handle the administrative responsibilities of a football program; to represent a university in a positive manner on and off the field, along with understanding the role of athletics, specifically football, in a Division II institution. Must have ability to supervise coaching staff, demonstrated concern for football players as students and ability to effectively manage the football budget.

Salary and Benefits: Anticipated minimum salary \$32,000-35,000. Benefits include health, life and dental insurance and the Colorado Public Employees Retirement Association.

Starting Date: As soon after December 21, 1984, as possible.

Send application, resume and three letters of recommendation to:

Bob Oliver, Athletic Director
University of Northern Colorado
Greeley, CO 80639

All materials MUST BE RECEIVED by December 21, 1984

The University of Northern Colorado is fully committed to Affirmative Action and Equal Opportunity

Chairperson, Search Committee
for Director of Intercollegiate Athletics
301 Hovey Hall
Illinois State University
Normal, Illinois 61761

An Equal Opportunity/Affirmative Action University.

Elsewhere in Education

English termed key to success

A new study indicates that the emphasis on science and mathematics as instrumental for success in college and a career in high technology could be distractions to the true key to success—good grades in high school English.

They may be the best predictor of success in college, according to Harold L. Pace, registrar at Louisiana Tech University, who conducted the research for his doctoral dissertation in educational administration at Texas A&M University.

"You've got to be able to deal in logic in math, and the English language is a good teacher of logic. Being able to communicate and read is essential to every subject—history, math, science and English," Pace said.

Pace also found that while colleges are spending thousands of dollars on remedial programs for students who did not get an adequate education in high school, those programs may not improve students' academic performance in regular college work.

"We found that grades in high school English and the number of English courses completed in high school were highly correlated with all success variables in college," Pace said.

Corporate education gifts increase

Corporations gave a record \$1.29 billion to education in 1983, although corporate pretax net income was at its second-lowest level since 1978, according to the Council for Financial Aid to Education.

The figure represents a 3.2 percent increase over the previous year's contributions.

"The business community continues to demonstrate a remarkable commitment to education despite adverse circumstances," John R. Haire, president of the council, said.

"Over the past four years, corporations have increased their gifts to education 46.6 percent, even though profits dropped 19.6 percent during that period," Haire said.

Roskens named ACE board chair

Ronald W. Roskens, president of the University of Nebraska system, has assumed the chair of the American Council on Education, succeeding the Rev. Timothy S. Healy, president of Georgetown University.

Roskens has been the chief executive officer of the three-campus University of Nebraska system since 1977.

In a recent article written for Higher Education & National Affairs, Roskens wrote, "Elevating higher education to its appropriate status on the national scene must be the foundation of our efforts in the period immediately ahead... We must convince those who regard our colleges and universities with benign neglect that a system of higher education, whose hallmark is excellence, deserves to be deeply imbedded in the national conscience."

Legislative

Continued from page 12

the bowl game or championship, inasmuch as this would constitute excessive entertainment under the provisions of Bylaw 1-8-(j)-(3) and could provide a small number of member institutions a significant recruiting advantage over other institutions. Further, institutional funds for entertaining prospective student-athletes under Bylaw 1-8-(j)-(2)-(i) may not be utilized to purchase these tickets.

In addition, the provisions of Bylaw 1-1-(b) would prohibit the institution from making special arrangements to have tickets for these events available for purchase by any prospective student-athlete. The NCAA Council will review this interpretation in January.

This material was provided by the NCAA legislative services department as an aid to member institutions. If an institution has a question that it would like to have answered in this column, the question should be directed to Stephen R. Morgan, assistant executive director, at the NCAA national office.

NCAA wins tax decision

The Kansas Supreme Court ruled November 30 that the NCAA national office in Mission, Kansas, is exempt from local and county property taxes because of the educational purposes of the Association.

The majority opinion in the 6-1 ruling found that "property utilized as headquarters of the NCAA is held to be exclusively for educational purposes within the meaning of (the applicable law) and article 11, section 1 of the Kansas Constitution and, hence, exempt from ad valorem taxes."

The ruling by the Kansas Supreme Court affirmed a decision by Shawnee District Court Judge Fred S. Jackson, who had overturned a decision by the state board of tax appeals that held that the NCAA's property should be

taxed.

Johnson County appealed that decision to the state's top court.

The victory by the Association means that property of Kansas college and university athletics corporations also is tax exempt. The Associated Press reported that it was expected that appraisers in the counties in which colleges and universities were situated likely would have sought to put athletics property on the tax rolls had the ruling gone against the NCAA.

C.W. Crumpecker Jr., an attorney representing the Association, told the court, "The reason the NCAA exists is to carry out its fundamental policy of keeping sports as part of education. And all 780 members of the NCAA attest to that responsibility."

Executive Committee to conduct pre-Convention meeting in Atlanta

Reports from six sports committees and the Special Championships Standards Committee and consideration of several financial matters highlight the December 11-12 agenda of the NCAA Executive Committee at the Airport Marriott Hotel in Atlanta, Georgia.

This is the first December meeting for the Executive Committee, which normally meets at the annual Convention in January. Because of increased involvement in other capacities by Executive Committee members at the Convention, the meeting was moved back to December.

Among the sports committee reports is a recommendation from the Division II Men's and Women's Basketball Committees that the Division II Men's and Women's Basketball Championships be conducted separately, beginning with the 1987 championships. The events have been conducted at a common site—Springfield, Massachusetts—since 1982.

The Women's Lacrosse Committee is recommending that a Division III women's lacrosse championship be composed of eight teams if it is approved at the 1985 Convention. The committee also recommends retaining the 12-team field for the current championship but reducing it to eight also by 1986. The Middle Atlantic States Collegiate Athletic Conference is sponsoring this amendment at the

Convention.

Other sports committees with recommendations are the Division I Women's Basketball Committee, which is proposing that, after the 1986 championship, television rights fees be excluded when calculating the host institution's percentage; the Women's Gymnastics Committee, and the Women's Softball Committee.

The Special Championships Standards Committee, which meets December 10 in Atlanta, will consider the definition of a participant, which is used to determine the 1:16 participation ratio for individual championships.

Currently, figures used to calculate the 1:16 participation ratios are determined from the number of student-athletes who practiced with and received coaching on a particular sport's team. Alternatives to be considered by the standards committee include the following:

- Number of student-athletes competing in one regular-season contest.
- Number of student-athletes using one year of eligibility.
- Number of student-athletes identified on the institution's eligibility list at the beginning of practice.
- Number of student-athletes who were members of the team in that sport at the conclusion of regular, in-season competition.

• Number of student-athletes identified on the squad on the first day of competition.

• Average of the number of student-athletes who practiced with and received coaching on the team in each sport and the number of student-athletes who were members of the team in that sport at the end of the season.

The standards committee also will review all proposed legislation concerning championships and discuss the possibility of expanding the size and duties of its committee. All recommendations from the Special Championships Standards Committee must be approved by the Executive Committee.

In financial matters, the Executive Committee will study the audited 1983-84 fiscal report, the analysis of 1983-84 men's and women's championships, and the costs of upcoming studies of chief executive officers for the NCAA Presidents' Commission. The Executive Committee also will consider raising the minimum per diem for championships participants from \$25 to \$30.

The Executive Committee also will receive a report from the Special NCAA Marketing Subcommittee outlining arrangements with Valvoline and other corporate sponsors. Development of a philosophy statement will be considered.

Convention registration set at \$40

The registration fee for the 1985 NCAA Convention in Nashville has been increased to \$40 per delegate, whether voting, alternate or visitor.

The \$40 fee includes admission to the delegates reception Sunday, January 13, from 6:30 p.m. to 8 p.m.; the honors luncheon Monday, January 14, from noon to 2:15 p.m.; all general Convention sessions January 14-16, and the Convention program and all related materials.

Registration begins Sunday, January 13, at 9 a.m. in the Presidential Lobby at the Opryland Hotel and will continue until 6 p.m. that day. Other registration times are January 14, 7 a.m. to noon and 2:30 p.m. to 6 p.m.; January 15, 8 a.m. to 6 p.m., and January 16, 8 a.m. to noon.

Kearney is moderator for seminar in January

Joseph L. Kearney, commissioner of the Western Athletic Conference, will be the moderator for the NCAA Professional Development Seminar January 11-12 at the Opryland Hotel in Nashville.

The seminar, cosponsored by Host Communications Inc. and Valvoline Oil Company, is entitled, "Administering a Cost-Efficient Athletics Department." Current issues in athletics will be addressed by a panel of 13 speakers and discussion leaders.

Topics include the following: computerizing the athletics department, simplifying scoring procedures and the compiling of statistics, registering athletics logos and mascots, securing corporate sponsors for the athletics department, interpreting tax regulations pertaining to grants-in-aid and development programs and utilizing time-management techniques to improve productivity.

Kearney is a member of the NCAA Football Television Committee and serves as chair of the Association's Public Relations and Promotion Committee. He also is a member of the boards of the National Association of

Joseph L. Kearney

Collegiate Directors of Athletics and the College Football Association.

For more information concerning the seminar, interested persons can complete the registration form below or contact Cheryl L. Levick at the NCAA national office.
