Official Publication of the National Collegiate Athletic Association

Official Notice of Convention to be mailed May 6

The Official Notice and Program of the 5th special NCAA Convention will be mailed May 6 to the chief executive officer, faculty athletics representative, director of athletics and primary woman athletics administrator at each active member institution, as well as to officers of conference and affiliated members.

In addition, chief executive officers will receive forms used to

appoint delegates to the special Convention, which will be held June 20-21 at the Hyatt Regency Hotel in New Orleans, Louisiana.

The Official Notice and Program will include the 12 legislative proposals offered by the NCAA Presidents Commission and Council. The Presidents Commission submitted eight proposals (cosponsored by the Council), and the Council is sponsor-

ing four proposals.

All members are urged to review the opening section of the Official Notice and Program, which sets forth in detail the procedure for appointing delegates and other pertinent policies regarding Convention operations and voting.

John W. Ryan, president of Indiana University, Bloomington, and chair of the Presidents Commission,

which called the special Convention, urges all chief executive officers to appoint themselves as voting delegates. The Presidents Commission called the special Convention to address issues of integrity and economics in intercollegiate athletics.

Also included in the Official Notice and Program is a schedule of meetings being held June 19-21 in conjunction with the special Conven-

tion. Following are procedures (contained in the Official Notice and Program) to be followed by chief executive officers in completing the delegate-appointment form:

- When no appointment form is received from the chief executive, no other institutional representative is permitted to complete the form at the

Academics review is continuing

At its initial meeting last week in Chicago, the Special NCAA Academic Standards Committee began its study of possible alternatives to new academic standards due to take effect in 1986.

The special committee, chaired by Wilford S. Bailey, faculty athletics representative at Auburn University and secretary-treasurer of the NCAA, was created as a result of the passage of Proposal No. 25, which empowered the Presidents Commission and Council to consider possible modifications of Bylaw 5-1(j) and report any proposed changes to the NCAA membership by October 15, 1985.

"We continued analyses of additional data and evaluation of various alternatives, including the index approach (formula combining the core-curriculum grade-point average and an SAT or ACT test score)," Bailey said. "We had a good first meeting and studied additional data and have set a target date of early August to report to the Presidents Commission and Council."

Bailey said that the special committee did not want to report on its discussion until any final modifications had been approved. The next meeting is scheduled for June 7 in Washington, D.C.

Sports committee chairs get guidelines on rules revisions

The NCAA Council-appointed Special Committee to Review NCAA Playing Rules has submitted a list of six guidelines to the chairs of sports committees with rules-making responsibilities, according to special committee chair Fred Jacoby.

Appointed in March by the NCAA Administrative Committee, acting for the Council, the special committee is charged with assisting the various sports committees that develop and establish playing rules in making any necessary modifications so that equit-

1986 Convention committees named

Nominating Committee

Division I: Appointed Nelson E. Townsend, Delaware State College (Region 1), and Edward J. Manetta Jr., DePaul University (Region 3). Reappointed Charles S. Harris, University of Pennsylvania (1); Joan Cronan, University of Tennessee, Knoxville (2); Cecil W. Ingram, Florida State University (2); June B. Davis, University of Nebraska, Lincoln (3); Fred Jacoby, Southwest Athletic Conference (4), and Doland (4).

Division II: Appointed Sandra T. Shuler, North Carolina Central University (Region 2). Reappointed Edward P. Markey, St. Michael's College (1); James R. Spalding, Belknap College (3), and Robert J. Hiebert, California State University, Northridge (4).

Division III: Appointed Milton F. Reece, Greensboro College (Region 3). Reappointed Charles Luce, Connecticut College (1); Patricia A. Rog-

ers, State University of New York, Albany (2), and Russell J. Poel, North Central College (4).

The Nominating Committee nominates candidates for NCAA offices and for vacancies on the Council. Members serve one year terms and are limited to three terms in any five-year period.

Men's Committee on Committees

Four new members were appointed to the Men's Committee on Committees: James W. Lessig, Mid-American Athletic Conference (Division I, District 4); Roy Kramer, Vanderbilt University (Division I, at large); Noel W. Olson, North Central Conference (Division II, District 5, appointed to serve full term after serving part of one year), and Allen F. Ackerman, Elmhurst College (Division III, at large).

Members whose terms continue are Robert E. Hartwell, Babson College (Division III, District 1); Elwell

See 1986 Convention, page 15

Members of the Nominating Committee and the Men's and Women's Committees on Committees for the 1986 Convention were appointed by the NCAA Council at its April 15-17 meeting in Kansas City.

Selected to chair the committees were Jack V. Doland, McNeese State University, reappointed as Nominating Committee chair; Howard "Bud" Elwell, Gannon University, Men's Committee on Committees, and Mary Roby, University of Arizona, Women's Committee on Committees.

Following are the appointments made by the Council:

able application of the rules can be made by member institutions at all levels as dictated by 1985 NCAA Convention Proposal No. 119.

"I'm not sure the original framers of Proposal No. 119 realized the full implications of the legislation," Jacoby said. "I'm not saying it was a bad decision; in fact, I think it was a good one. But it does mean some changes have to be made in the rules as they have been developed over the years."

Historically, the Association's playing rules have not been mandatory for regular-season competition by member institutions. Football and men's basketball rules only became mandatory in 1983.

Proposal No. 119, which amended Bylaw 3-5, expanded the mandate to all sports for which the Association develops and maintains playing rules. The effective date for No. 119 is August 1, 1985.

"The concern of the Administrative Committee after passage of No. 119 was that there might not be sufficient flexibility in all of the rules to assure conformity at all levels of the Associa-

See Sports, page 16

Executive Committee agenda set

The Executive Committee will consider the current status and amount of money spent in underwriting NCAA championships in cross country, indoor track and outdoor track at its May 6-7 meeting at the Hyatt Regency Hotel in Kansas City, Missouri.

On the agenda are proposals to expand championship tournament fields for Divisions I and III men's soccer, the National Collegiate Women's Soccer Championship and the Division I Women's Basketball Championship. There also are proposals for head-to-head competition as a championship selection criterion for men's soccer and for continuing to conduct the Division II Men's and Women's Basketball Championships finals at a common site.

The 12-member Executive Committee will consider whether it is inconsistent for the Association to sponsor separate championships for cross country, indoor track and field, and outdoor track and field when separate championships are not offered in other sports; e.g., swimming and diving, fall and spring baseball, fall and spring golf.

The NCAA spent \$1,654,176 subsidizing cross country, indoor and outdoor track championships in 1983-84. The figure represents 33.8 percent of the Association's total underwriting of NCAA championships for only 20 percent of the championship opportunities. The latter figure is misleading when considering that most competitors in outdoor track and field compete in either indoor track and field or

See Executive, page 15

133,000 seek Final Four seats

More than 38,000 orders were received for tickets to the 1986 Division I Men's Basketball Final Four, requesting almost 134,000 tickets for the event next March at Reunion Arena in Dallas.

A drawing, to be held soon, will determine those applications that will be processed; the drawing will be reported by The NCAA News.

About 42 percent of the orders came from Texas, but requests for Final Four tickets certainly had an international flavor. All 50 states were represented, along with the District of Columbia, Puerto Rico, several Canadian provinces and England.

"The demographics of the applications reveal the universal appeal of the Final Four," said Louis

J. Spry, the Association's controller, who coordinated the statistical information with United Missouri Bank of Kansas City, Missouri, which served as a clearinghouse for the processing of orders.

A computer printout of ticket orders filled 265 pages and revealed that Texans placed 41.9 percent of all orders (16,074). Oklahoma was second (1,927), followed by Tennessee (1,733), Illinois (1,660), Kentucky (1,179) and Indiana (1,092).

The city of Dallas was responsible for the placement of 6,509 orders. Houston was second (737), followed by Plano (691), Arlington (629) and Richardson (561).

Orders also came from North Pole, Alaska; San Juan, Puerto Rico; Schofield Barracks, Hawaii; Bloomer, Wisconsin; Telephone, Texas; Mossyrock, Washington, and, believe it or not, Ripley, West Virginia.

London and Middlesex, England, were represented, as were Rocky Mountain House, Alberta, and Moose Jaw, Saskatchewan, Canada.

In all, 38,394 requests for 133,822 tickets were received; the average request was for 3.5 tickets. The precise breakdown includes: Requests for one ticket, 888; requests for two tickets, 8,233; requests for three tickets, 624; and requests for four tickets, 28,649.

The 'fiefdom' of collegiate sports is under attack

By Hal Bock

Two hundred or so years ago, Benjamin Franklin was leaving a session of the Constitutional Congress when a citizen inquired what kind of government the Founding Fathers were putting together for this new nation. "A republic, sir," Franklin replied, adding somewhat sardonically, "if you can keep it."

For years, collegiate sports has operated as a free-enterprise fiefdom, its campus rulers answerable to no one as long as they produced victories and revenue.

More and more, though, it has become obvious that they could not keep that system nearly as well as America maintained its republic. Cheating and corruption keep creeping in through the cracks. And so, the academicians are preparing to discard laissez-faire government and reclaim the territory.

It's about time.

Eamon Kelly, president of Tulane University, signalled the beginning of this modern revolution when he responded to a basketball point-shaving scandal and related NCAA misdemeanors at his school by recommending that Tulane simply eliminate the sport.

"It is the only way I know," Kelly explained, "to demonstrate unambiguously this academic community's intolerance of the violations and actions we have uncovered."

To its credit, the university's board of administrators unanimously endorsed that action.

Once the point-shaving scheme surfaced at Tulane, it was quickly followed by reports of payoffs for student-athletes.

One had led to the other. If somebody shows up toting a shoebox full of cash to lure a player to a school, it follows that no matter how high the player's dedication to moral stand-

ards were before, they may be dented just slightly.

If the keepers of the system cheat, logic dictates that the participants might be inclined to do the same.

Kelly's move, then, was predictable in the face of the revelations at his school and the tough stance the

especially by coaches, alumni and other boosters."

To combat this, the presidents recommended to the NCAA Council severe penalties for schools caught cheating. These include complete suspension from competition for as many as two years. The Council

mission and the Council decided to go a step further and sharpen the teeth of the penalties.

The dedication of the presidents to standards and education is not always completely altruistic, however.

New York University, with a rich basketball heritage, dropped the sport some years ago during an economic belt-tightening. After years of seeking its restoration, the athletics department was granted its wish — at the Division III, nonscholarship, low-pressure level.

The return was not without its price, though. The presidential green light included a requirement that the program annually raise \$125,000 from boosters, program advertising and other sources for the university's coffers.

There is, you see, no free lunch.

Bock is an Associated Press sportswriter.

Columnary Craft

NCAA Presidents Commission took a couple of weeks ago.

John W. Ryan, president of Indiana University, Bloomington, and head of the Commission, said, "College presidents and chancellors are greatly concerned by the integrity crisis, by the apparent lack of sufficient institution control of athletics programs and by the effect of these problems on higher education.

"They believe there are serious violations of the rules occurring,

endorsed those recommendations and will pass them on to the full body for a vote at a special Convention in June.

That meeting will be held in New Orleans, home of Tulane University. How appropriate.

It's not as though the NCAA hasn't had penalties for cheaters before this. It's just that, obviously, being barred from bowl games or kept off television was not sufficient incentive to stay clean. So, the Presidents Com-

Some college sports are professional

The Indianapolis Star
An editorial

Indiana University, Bloomington, basketball coach Bob Knight made many mistakes last season, but it appears he was right about one thing. College sports are rife with cheaters.

At the beginning of the season, Knight repeatedly said many schools in the Big Ten Conference and other parts of the NCAA weren't abiding

by the NCAA recruiting rules. He intimated that the cheaters were offering under-the-table payoffs and other fringe benefits to promising ball-players to attend their schools. He even threatened to name names several times.

One wonders if one of the names Knight would have named might have been Tulane University. Tulane recently decided to retire its basket-

ball program after several of its players were indicted for taking bribes to shave points. The players also admitted they'd been taking illegal payments from coaches.

There will be a special NCAA Convention in June to consider some possible recruiting reforms and new ways of enforcing existing rules.

The NCAA, however, might consider going further than debating a few Band-Aid reforms. It might want to think about a new way of looking at major-college athletics.

Few deny that the two big college sports — basketball and football — are now big business. They require big budgets and they return big money. With most major universities, basketball and football teams:

- Subsidize the school's other athletics programs.
- Help persuade state legislatures to fund the schools.
- Enhance the school's image in the eyes of prospective students.
- Provide the school with a great deal of free publicity — perhaps more than the school could get from any other source.

Thus, it's no wonder the nation's colleges and universities devote so much time and money to building their football and basketball programs. And it's not surprising that many schools cheat.

It's important to realize that Tulane's scandal is not an isolated incident. In the past half-decade, more than a dozen schools have been placed on probation by the NCAA for violating recruiting rules. For every one who was caught and punished, perhaps 20 went undetected.

It's not likely that a few minor reforms are going to discourage cheaters from cheating; the temptation to break the rules is too great. But that doesn't mean something else couldn't be done.

In June, the NCAA could acknowledge that major college basketball and football are what everyone already knows they are: professional sports. By doing so, the NCAA could set up limits on the amounts players could be paid to play while attending school at the university. And they could enforce those limits in an effective way.

Schools breaking the limits could be punished by having other NCAA schools refuse to play them. Without opponents, no football or basketball program could survive — a prospect that should serve to frighten even the most overzealous athletics directors and alumni associations.

Letters to the Editor

Dropping a sport is not the answer

To the Editor:

Solutions to problems are usually within our immediate domain, but sometimes we look for answers to our concerns elsewhere. Reminds me of a most successful coach, who, during the basketball scandals of the '40s, maintained that the basic cause of the point shavings was that the major schools were playing their games in off-campus facilities. He even emphasized that point by further stating that "No one could touch my boys with a 12-foot pole." Those of us from that era will recall that his entire first unit eventually was proven to be involved in point shavings. This happened despite their having one of the largest on-campus facilities in the nation at that time. Probably someone used a 13-foot pole on "my boys." We again hear some naive coaches making similar statements.

Solutions to the problems in athletics can be forthcoming from the directors of athletics, provided they have the support of their chief executive officer. Presidents and/or chancellors always have been responsible for the proper conduct of athletics and currently have that responsibility and will have it in the future. I am most delighted that they will have this special meeting in June to begin resolving problems in athletics.

Psychiatrists and psychologists tell us that before any hope or treatment can be prescribed for an alcoholic, the alcoholic must admit he is an alcoholic, and then you go from there. Presidents have finally admitted they have problems in athletics, and that is the first step in achieving a cure.

I would like to have our presidents and/or chancellors deliberate upon this checklist, as I believe straightforward answers to these questions may be the beginning of proper solutions:

A. Who has the ultimate responsibility for the professional atmosphere on our campuses, which is manifested in terms of:

1. Professional prices for admissions tacked on to mandatory booster memberships;
2. coaches salaries, which exceed even those of the chief executives;
3. building of basketball facilities, which in many cases have seating far in excess of the number of students attending the institution;
4. philosophy of using the criteria of conference championships, NCAA bids, regionals championships, final four, etc., to judge coaches' competence?

B. Who makes the ultimate decision on the utilization of the profits in athletics? Are the other facets of the university becoming so dependent upon athletics surpluses that the academic community is turning its head away from athletics abuses?

There is no problem in athletics that cannot be resolved by our presidents and/or chancellors if they are willing to answer the basic question of why we have intercollegiate athletics on our campuses in all honesty and then proceed from there.

The one questionable solution that I am confident will not solve anything is the dropping of the sport for the sole purpose of alleviating the problem of "point shaving." This procedure would be comparable to a banking institution discontinuing its IRA program because the person in charge of that segment of the banking industry was caught embezzling from the IRA program. Throwing the baby out with the bath water solves nothing. Athletics per se are inherently good for everyone — the participants, spectators, alumni, patrons of the university or college.

Al Negratti
Director of Athletics
St. Norbert College

Shot clock will affect recruiting

To the Editor:

C. M. Newton's comment in "Opinions Out Loud" (The NCAA News, April 10) stating that "I don't think you can say (the 45-second clock) is going to help or hurt anybody" couldn't be farther from the truth.

It is a fact that the clock helps the more talented team and hurts the less talented one. As Ralph Miller predicts, "You will see the upsets disappear."

All this rule does is put more pressure on the recruiting process. Everyone is going to need the super players to compete and, as we know, some will do anything to get them. If we are as concerned about recruiting excesses as we say

See Letters, page 3

Looking Back

Five years ago

"For years, much of sport has been frustrated by the indifference college presidents have shown their athletics departments, by their willingness to bask in the glory of their teams without establishing and enforcing firm guidelines and policies. They may be unable to stay out of touch much longer. . . . In slightly more than a year, nearly every part of the ugliness of collegiate sport has been bared; brutality and big business, tampering, out-of-control alumni, contract-breaking, and all manner of under-the-table payments. When the latest sins reach inside the university to his doorstep, how much longer can the president fail to get involved?" (Column by Ken Denlinger, Washington Post, reprinted in May 15, 1980, NCAA News)

Ten years ago

Winners of NCAA championships conducted in May 1975 were Cortland State University College, Division II men's lacrosse (held at Long Island University/C. W. Post campus); Southern University of New Orleans, Division III men's indoor track (at Baldwin-Wallace College); California State University, Northridge, Division II men's outdoor track (at California State University, Sacramento), and the University of Maryland, College Park, Division I men's lacrosse (at Johns Hopkins University). (National Collegiate Championships records book)

Twenty years ago

The NCAA announced that the site of the 1966 National Collegiate Basketball Championship would be moved from Chicago Stadium to the University of Maryland, College Park, because "differences in the basic administrative requirements of the NCAA and Chicago's ticket-sellers' union cannot be reconciled," according to Bernie A. Shively, chair of the NCAA Basketball Tournament Committee. (April-May 1965 NCAA News)

Thirty years ago

A 1955 survey of all NCAA member institutions in District 5 reflected these as the "most severe problems confronting intercollegiate athletics" at that time: (1) recruiting, (2) expanding television and (3) increasing costs in relation to income. Others cited the need for a national letter-of-intent and for greater restrictions on the eligibility of transfer students. (1955-1956 NCAA Yearbook)

ACC rebuffed in efforts to stop publication of point spreads

The eight newspapers in the Atlantic Coast Conference region publishing betting lines for college games have unanimously declined a request by the conference's athletics directors to discontinue the practice.

The league's eight athletics direc-

tors made the request in late April, saying "Information on intercollegiate athletic contests which assists the bettor or bookie has no place in the sports sections of our newspapers."

The request was made after a

points-shaving investigation at Tulane University involving basketball players, the Associated Press reported.

The athletics directors said publishing point spreads was "wide-spread" in "many of the newspapers

in our geographic region." However, a survey by the Charlotte Observer found eight daily newspapers in North Carolina, South Carolina, Virginia, Georgia and Washington, D.C., were publishing either "Today's Line" or "The Latest

Line," two of the most popular of such syndicated services.

Observer editor Rich Oppel said in a column that the newspaper intended to continue the practice, and he did not think publishing the information had any impact on the extent of gambling in college sports. He said he did not think the information was used by serious gamblers and added that it is valuable information for readers trying to determine which games they want to watch on television.

ACC Commissioner Robert C. James said he was disappointed but not surprised at the newspapers' decisions not to comply. He did not agree with Oppel and other newspaper editors that the betting lines had no impact on gambling.

"That's their opinion, not ours," James said. "I did not like the editorial."

But some editors at newspapers that do not publish betting lines were critical of the practice.

"We don't do it simply because betting is illegal," said Terry Oberle, sports editor of the Winston-Salem Journal. "People are interested in lines. They are also interested in where they can find their next snort. We don't print a list of where to find cocaine dealers."

George Solomon, assistant managing editor in charge of sports for The Washington Post, said he was not aware of the ACC request but did not think it would result in a policy change at that newspaper.

"Our feeling in publishing 'The Latest Line' is publishing news," Solomon said. "We feel we're not publishing illegal information; we're publishing news. It has become socially acceptable to distribute the point spread on a national basis. The (TV) networks do it to a certain extent..."

The Daily News in Jacksonville was the only North Carolina newspaper in addition to the Charlotte papers that publishes such information.

"For the most part, people look at those as some kind of guide for who is favored to win. It has more sporting than gambling interest. It's not for the serious gambler," editor Elliott Potter said.

Odds are against having enough good teachers

Mortimer J. Adler, author
The Paideia Proposal

"There are and always will be a relatively small number of highly gifted, strongly motivated teachers who manage, in spite of all adverse conditions, to perform creditably, even magnificently. But that number is far from enough to achieve the desired quality of teaching for all. At present, many factors work against having enough good teachers to staff our schools.

"The surroundings in which many teachers work, especially in our large urban schools, would turn any other work place into a shambles. The productivity would drop below the lowest level for survival in business. It is not surprising that the level of achievement in many of our public schools falls below the comparable minimum.

"Bad working conditions are not the only reason why we do not have enough able teachers, or why good ones are prevented from performing as they should. Recruiting for the profession is hampered by the average rate of pay, which is often less than that in other less taxing lines of work. Not only do we pay our teachers too little for work they are expected to do, we also fail in this country to give them the respect that the worth of their service to the community deserves. Teachers in the United States do not enjoy the social status that the importance of their position merits.

"Add to all this the many administrative, public relations and quasi-menial duties that teachers are asked to perform, duties that take mind and energy away from teaching, and it is easy to understand why our educational system is not able to attract many of the ablest young into the teaching profession, or to turn those who do join the ranks into adequate teachers."

Abe Lemons, head men's basketball coach
Oklahoma City University

The Chronicle of Higher Education

"Most small schools are on a collision course because of the expenses involved in competing. It's like living beyond your means. It gets to a point (where) you have no way to do it.

"Recruiting in Division I is a travesty. Recruiting in the NCAA is atrocious because of the cheating going on. It is contributing to the delinquency of minors."

Earl Bruce, head football coach
Ohio State University

National Federation of State High School Associations News

"High school coaches generally do a good job with the fundamentals and technical aspects of the game. The kids usually are pretty good in their skills—running, blocking, tackling.

"But, I think high school coaches have a real obligation to make sure their athletes get all of the intangible benefits that they should from playing football. At that level, the kids should learn discipline, understand that hard work is necessary for success, develop confidence, be aware of the family concept. ... High school coaches need to emphasize education and make sure the kids do their best in the classroom as well as on the football field.

"The kids need to learn to keep their heads screwed on straight and things in perspective. The coaches should talk about some of these things more."

Letters

Continued from page 2

we are, then why put additional pressure on schools to recruit the top athlete in order to be competitive?

We are becoming more and more like the pro game to satisfy television. If we want television to dictate the rules then let Billy Packer, Al McGuire and Brent Musburger become the rules committee. I just hope that five to seven years from now we aren't wondering how we can restore to college basketball the uniqueness and popularity it once enjoyed.

We need to respect the coaches who don't have a lot of talent on their teams but still want to be competitive, and I don't think this rule does that. Those coaches are respecting the wishes of the coaches' decision for the up-tempo, run-and-gun basketball, and I don't think that respect goes the other way.

Jim Hargseheimer
Athletics Director
University of Chicago

You can't bribe a cheat with \$50

To the Editor:

Offering a youngster under scholarship who already is playing ball for "Dear Ole Siwash" an additional \$50 to \$100 a month is ridiculous in the light of the millions paid to Doug Flutie, millions more negotiated by Turner Broadcasting System for Big Ten Conference and Pacific-10 Conference games.

Besides, when you see the SAT scores of the Tulane prime player and realize he was unable to pass beginning golf after struggling through first-year volleyball and introduction to swimming, in conjunction with a few other taxing courses, makes such an offer laughable.

There should be two guidelines available to college athletes — one for the student-athlete and one for the professional athlete. The former could receive a flat fee of \$25,000 to attend college each year and participate in athletics. The latter would receive just \$15,000 to play ball.

Should a professional athlete be picked up by a pro team, the college would be reimbursed for the money spent on him during his time at the institution. The school would submit such a bill to the team seeking his services, and he could not play for that pro team until such a sum is paid. The college did provide a farm on which a fellow developed his athletic skills to the point where they were marketable.

The student-athlete would keep the \$10,000 per year he gets extra, because he is attending classes and passing same. In addition, he is spending two-to-four hours a day practicing and building his body along with his mind.

There always will be cheats. Trying to bribe a cheat with \$50 to \$100 is the equivalent of trying to swim up Niagara Falls.

Hugh S. Jennings
Covina, California

Ray Meyer, former men's basketball coach
DePaul University

The Indianapolis Star

"Something's got to be done, because a coach who helped put a school on probation could go somewhere else and be scot-free. If the school gets two years, let the coach get two years."

Dean Smith, head men's basketball coach
University of North Carolina, Chapel Hill

The Kansas City Times

"It's over (the day of the dynasty). There are so many good players out there, 6-7 and down. Washburn will have a player as good as ours, or Kansas 6-7

Opinions Out Loud

or down—or Emporia State may. The difference is rebounding. Everybody has good 5-11 players.

"In our conference (Atlantic Coast Conference), everyone has finished last within the past seven years, except us. And there are pro prospects on that last-place team. You can be sure the last-place team is going to play a three-point game with your first-place team. So, no, there aren't going to be any dynasties."

Pete Axthelm, columnist
Newsweek

"Once a tall teenager has been promised a fake curriculum or a no-show summer job, he may find it tempting to go on to shoe boxes full of cash, offers of coke, even suggestions that he shave a few points.

"Tulane's was the second gambling scandal in only four years. There will be more unless the honest coaches keep proving that cheating doesn't really have much to do with championships."

Philip H. Jordan Jr., president
Kenyon College

USA Today

"Universities that take sports too seriously often get into trouble. The North Coast Athletic Conference, consisting of seven colleges in Ohio and Pennsylvania, has spearheaded a new approach to governing college athletics.

"The presidents have established a council to set policies and work closely with athletics directors to prevent cheating. We believe that active presidential involvement is a major step to resolving the conflict between college academics and athletics."

Mike Willson, men's gymnastics coach
Ohio State University

The Associated Press

"Winning the national title certainly didn't hurt recruiting, for I've had people we're looking at calling me after we won the NCAA championship and say they were ready to sign. That's one very positive sign. It also appears we'll have walk-ons trying out next year for the first time, and this may not have happened if we had not been so successful this year.

"A successful defense of the championship isn't likely. The freshmen would have to come in and adjust to college amazingly well — something that's very atypical of freshmen."

Sports agent speaks at Tulane

It's hard to put your foot down with those who won't toe the line

There's a dirty side to the business of big-time sports, and it may be impossible ever to make it squeaky clean, said Mark McCormack, sports agent, business executive and best-selling author.

McCormack spoke recently at Tulane University, which has abolished its men's basketball program in the wake of an investigation over point shaving and NCAA violations. The Associated Press covered McCormack's speech.

One of those accused of point shaving is star center John "Hot Rod" Williams, an almost-certain first-round draft pick by the National Basketball Association before being accused of taking bribes to shave points in two games.

"For anybody to risk losing a career in the NBA for the small amount of money he apparently did it for is hard for me to understand," McCormack said.

Williams also, allegedly, got \$10,000 to sign with Tulane, plus irregular cash payoffs after he got there — NCAA violations, if true, though not anything covered by criminal statutes.

"I'm sure there are a lot of 'John Williamses' out there," McCormack said.

"Getting people into schools to play sports, to raise money for other sports and for other capital improvements on the campus is certainly big

business.

"There's a lot of it going on, and I'm not sure if it will ever be stopped. It's sort of hard to stop an enthusiastic alumnus giving cash to some kid to go to his school. That's pretty hard to stop or even know about."

McCormack heads International Management Group, a diversified company with offices in 15 countries. As an agent of 25 years, his clients include Arnold Palmer, Herschel Walker, Martina Navratilova, Sebastian Coe, John Havlicek and 1985 Masters champion Bernhard Langer. His book, "What They Don't Teach You at Harvard Business School," is a best-seller.

He said he's also concerned with trying to stop unethical behavior in his own profession. It's a violation of NCAA rules, for instance, for a

Turner, SEC sign football TV pact

Turner Broadcasting System, Inc., and the Southeastern Conference have announced a two-year agreement under which 12 to 14 SEC football games a year will be televised in 1985 and 1986.

The SEC games, which will air Saturdays in the early afternoon, will appear on cable "superstation" WTBS and on a national network of broadcast television stations syndicated by TBS. The new agreement follows TBS' 1984 contract with the SEC under which 12 conference

player to sign with an agent before completing his eligibility. But some agents encourage signings, including early ones, with payments of cash, drugs and money, he acknowledged.

"More than half of pro aspirants sign with agents before they complete eligibility," he said.

"We have not paid cash to athletes and not fixed them up with girls or drugs or cars, which is what some of these (agents) have done. But there's no way to legislate that.

"The tennis community is asking me how we can stop young kids from being proselytized and solicited by commercial companies when they're 13 and 14 years old. And the answer is, you really can't.

"You can't control it. There's no way to stop it, as far as I can see."

games were televised last fall.

"We're delighted to continue our outstanding relationship with the Southeastern Conference," said TBS' Ted Turner.

SEC Commissioner H. Boyd McWhorter said he was pleased with the two-year extension of the television contract.

SEC football joins a TBS sports 1985-86 college football telecast lineup that includes a Saturday prime-time series of Big Ten, Pacific-10 and Atlantic Coast Conference games.

Division I men may be the best ever as a group

By James M. Van Valkenburg
NCAA Director of Statistics

The top players of 1985 in Division I men's college basketball are indeed an impressive group. In fact, a good case can be made that it is the best group in the game's history. That is strong language, but let us take a close look.

To begin with, the 1985 season produced two three-time consensus all-America players—the first time that has happened in 39 years. Georgetown's 7-foot Patrick Ewing and Oklahoma's Wayman Tisdale are the first such pair since Oklahoma State's Bob Kurland, the first famous 7-footer, and DePaul's George Mikan in 1946.

Virginia's Ralph Sampson was the only other three-time consensus choice in the past 10 years. Tisdale, of course, can become the first four-time consensus choice in history if he postpones pro basketball and decides to play his senior season at Oklahoma next year (with few exceptions, freshmen were not eligible in Division I until 1973; they were seniors in 1976, so this is only the 10th season of four-year careers).

Memphis State's Keith Lee made the consensus team for the second time. He also was a consensus choice in 1983 and on the consensus second team in 1984. The consensus team also includes Wichita State's Xavier McDaniel, the first Division I player in history to win both the scoring and rebounding championships, and a pair of gifted playmakers and shot-makers—Chris Mullin of St. John's (New York) and Johnny Dawkins of Duke.

Ewing, Tisdale, Lee and Mullin were unanimous choices, while McDaniel and Dawkins tied for the other spot, each making two first teams of the four used in the consensus all-America (Associated Press, United Press International, U.S. Basketball Writers Association and National Association of Basketball Coaches). Tisdale and Dawkins are juniors; the other four are seniors. Here is the all-time list of three-time consensus all-Americans, starting with Purdue's John Wooden, the legendary UCLA coach. Just 18 have done it:

Player & team	Seasons consensus AA
John Wooden, Purdue	1930 1931 1932
Ed Krause, Notre Dame	1932 1933 1934
Hank Luisetti, Stanford	1936 1937 1938
Paul Nowak, Notre Dame	1936 1937 1938
John Moir, Notre Dame	1936 1937 1938
George Mikan, DePaul	1944 1945 1946
Bob Kurland, Oklahoma State	1944 1945 1946
Ralph Beard, Kentucky	1947 1948 1949
Tom Gola, La Salle	1953 1954 1955
Oscar Robertson, Cincinnati	1958 1959 1960
Jerry Lucas, Ohio	1960 1961 1962
Lew Alcindor, UCLA	1967 1968 1969
Pete Maravich, Louisiana State	1968 1969 1970
Bill Walton, UCLA	1972 1973 1974
David Thompson, N.C. State	1973 1974 1975
Ralph Sampson, Virginia	1981 1982 1983
Patrick Ewing, Georgetown	1983 1984 1985
Wayman Tisdale, Oklahoma	1983 1984 1985

The statistical evidence

There is statistical evidence aplenty to support the view that the 1985 group is the best ever. The five individual statistical championships were swept by seniors, and two set records. McDaniel, the double champion, averaged 14.8 rebounds—highest figure in five years—and his 14.1 average over the last three seasons is highest by any Division I rebounder since 1976, when there were far more missed field-goal attempts available (more about that later). Field-goal accuracy champion Keith Walker of Utica shot 71.3 percent—second highest figure in history (to the 74.6 by Oregon State's Steve Johnson in 1981). Free-throw accuracy champion Craig Collins of Penn State shot an all-time-high 95.9 percent, breaking the 95.0 by UCLA's Rod Foster in 1982. And Hofstra's Rob Weingard averaged 9.5 assists, a record in that two-year-old category.

On the career charts, the 1985 group stands out even more (we would call it the class of '85, but we want to include juniors like Tisdale who may return in 1986).

For instance, 1985 produced three of the top 10 all-time scorers in terms of total points. Alfredrick "The Great" Hughes of Loyola (Illinois) finished No. 5 with 2,914 points, McNeese State's Joe Dumars No. 9 with 2,705 and Tisdale No. 10 with 2,661 (so he needs 1,007 to break the record 3,667 by Maravich, who had a 44.2-point average over his three-season career).

In addition, Mullin reached 2,440 for 28th, George Mason's Carlos Yates 2,420 for 30th and Lee 2,408 for 31st, giving the 1985 group six player among the 31 in history with 2,400 points—close to one-fifth. No other year has more than three of the 31.

Field-goal shooting? Only 30 players in Division I history have shot at least 60 percent over a career, using a minimum of 400 field goals made. Five of those were 1985 seniors—Alabama's Bobby Lee Hurt shot 63.1 (12th on the all-time list), season champion Walker 63.0 (13th), Ewing

man rules in force in a few corners of Division I. None of the 13 had 2,000 entering his last season, however.

Since 1976, six players have had 2,000 their first three years; i.e., entering their senior season—Tisdale, Freeman Williams (Portland State '78) 2,280, Harry "Machine Gun" Kelly (Texas Southern '83) 2,231, Adrian Dantley (Notre Dame '76) 2,223, Mark Aguirre (DePaul '81) 2,182 and Hughes, 2,046 through 1984. (The other 105 since 1976 needed four seasons.)

Tisdale is almost 400 above Williams, but he has benefited from more games (as has Ewing), having played 104 already—virtually a career for most four-year players. On a per-game basis, Williams averaged 28.9 and Kelly 27.5 vs. Tisdale's 25.6 (Aguirre at 24.5 and Dantley at 23.2 turned pro after their junior seasons.).

Of course, Maravich, history's only point-a-minute career scorer, is in a

niel, although only 6-8, belongs among the top rebounders in the game's history. He has proven himself over a three-year span. His 14.8 this season was the best average in five years; he was third a year ago at 13.1, and he won the 1983 championship at 14.4. Putting that together, his three-year average of 14.1 tops any three-year mark by any player who started his career within the past 10 seasons.

Comparisons beyond the last decade are unfair to current players, because declining scoring and higher shooting percentages have drastically cut the number of missed field goals per game in Division I. In 1948, first year of official NCAA figures, there were 98.1 missed field goals in the average major-college game. In 1960, the figure was 79.7. In 1973, first year of nationwide freshman eligibility in Division I, it was 76.9, and in 1976, 70.6.

Over the first six years of the 1980s, the average Division I game produced only 59.5 missed field goals (in 1985, 59.4). That is a little more than half the number of rebounds available back in 1948. No wonder all the top rebound figures go back at least a dozen years, with most of them in the 1950s and 1960s.

McDaniel did not play much his freshman year at Wichita State, grabbing only 103 rebounds, so he is not the leader for his entire career in either total rebounds or in per-game. Virginia's 7-4 Sampson is the 10-year leader in total rebounds at 1,511, but McDaniel's 11.6 average tops Sampson's 11.4 even with McDaniel's sparse freshman year.

Thirteen players who ended their careers within the past 10 seasons have grabbed at least 1,300 career rebounds. Here is that list:

Player, college, last year	Games	Rebounds
Ralph Sampson, Virginia '83	132	1,511
Pete Padgett, Nevada-Reno '76	104	1,464
Michael Brooks, La Salle '80	114	1,372
Xavier McDaniel, Wich. St. '85	117	1,359
John Irving, Hofstra '77	103	1,348
Sam Clancy, Pittsburgh '81	116	1,342
Keith Lee, Memphis State '85	128	1,336
Larry Smith, Alcorn State '80	111	1,334
Michael Cage, San Diego St. '84	112	1,317
Bob Stephens, Drexel '79	99	1,316

Player, college, last year	Games	Rebounds
Patrick Ewing, Georgetown '85	143	1,316
Wayne Rollins, Clemson '77	96	1,311
Bob Warner, Maine '76	96	1,304

Scton Hall's Glenn Mosley, who averaged 15.2 in 83 games over four seasons ending with 1977, playing only half a season in 1975, has the highest average in this span. Padgett's 14.1 average is next. Oddly, he averaged 12.8 his last three seasons but 15.3 his first three (1973-74-75). Except for Mosley and Padgett, McDaniel's three-year 14.1 tops any three-year (or four-year, for that matter) average by any Division I player since freshmen became eligible in 1973. And remember, missed field goals were 30 percent more numerous in the Mosley-Padgett period than in McDaniel's three big years.

(For the purists among you, we are ignoring missed free throws as possible rebounds because the number of two-shot attempts—no rebound then—is not available. Missed free throws have ranged from a high of 23.7 in 1953 to 16.1 in 1972 and have stayed around 13 since 1973 under the current rule; so this further proves the point.)

Champions work hard

McDaniel—"Mr. X"—is living proof that to those who work hard enough, rewards will come. The same is true of the other statistical champions. In the classroom, he has gone from a level of "marginal learning skills" to an "above average student," according to one university official. He always has been a demon on the court, with zeal, quickness and tenacity overcoming his 6-8 height under the boards. And he still wears the same red and blue high school letter jacket he brought from Columbia, South Carolina: "My mother always told me, 'Don't you ever get the big head.'"

Utica's Keith Walker has worked hard and improved greatly since his first year. The Philadelphia native blossomed a year ago with a 66 field-goal percentage and won coach Larry Costello's praise for his anticipation

See Division I, page 5

Basketball notes and statistics

62.0 (18th), Ed Pinckney of Villanova's national champions 60.4 (27th) and Oregon State's A.C. Green 60.4 (30th). Only the class of '84 can match that. It also had five.

How about 2,000 points and 1,000 rebounds? Only 47 players in Division I history have reached those figures over a career. Five played this season

Lee (2,408 and 1,336), Ewing (2,184 and 1,316), McDaniel (2,152 and 1,359), Tisdale (2,661 and 1,048) and Oral Roberts' 6-11 Mark Acres (2,038 and 1,051).

Only the class of '79 can top that, with six: Larry Bird of Indiana State, Calvin Natt of Northeast Louisiana, Phil Sellers of Rutgers, Reggie King of Alabama, Bill Cartwright of San Francisco and Greg Kelsor of national champion Michigan State, which beat Bird's team in a title game that drew the highest television rating in basketball history, college or pro (Villanova-Georgetown is second; highest pro game is 13th).

If that is not convincing enough, five more career 2,000-pointers are in the 1985 group, bringing the total to 14—a figure topped only by the 1980 (16) and 1981 (18) groups. It is still an outstanding feat, with 165 in history, 111 of whom finished their careers within the last 10 seasons—the era of four-year careers.

The other 2,000-pointers (besides Hughes, Dumars, Tisdale, Mullin, Yates, Lee, Ewing, McDaniel and Acres) are South Florida's Charlie Bradley 2,273, Tulsa's Steve Harris 2,268, Canisius' Ray Hall 2,226, Iowa State's Barry Stevens 2,190 and Toledo's Ken Epperson 2,016. (Hughes actually was above 2,000 entering the season.)

The career leaders in per-game average are Tisdale at 25.6, Hughes 24.3, Dumars 23.3, Yates 22.2, South Alabama's Terry Catledge 21.7 (a senior who played three seasons), Texas-San Antonio's Derrick Gervin 21.1 and Indiana State's John Williams 21.0. Tisdale, Gervin and Williams are juniors, the others seniors.

Ewing, Tisdale feats

Ewing and Tisdale are special people on the historical charts. As mentioned, only 47 players in Division I have surpassed 2,000 points and 1,000 rebounds over a career. Consider this: Only two of these also shot above 60 percent over a career. They are Ewing, who shot 62, and Lew Alcindor (now Kareem Abdul-Jabbar) of UCLA, with 63.9 shooting to go with his 2,325 points and 1,367 rebounds in three seasons, 1967-68-69.

As for Tisdale, well, no player has ever had anything close to 2,661 points entering his senior season. In the pre-1976 era of three-season careers, 13 of the 54 players with at least 2,000 points actually had four-season careers under special circumstances, including wartime service and fresh-

man rules in force in a few corners of Division I. None of the 13 had 2,000 entering his last season, however.

Since 1976, only three (Tisdale would make four, should he turn pro) 2,000-point scorers had three-season careers. They are Dantley, Aguirre and Larry Bird, an Indiana dropout who played three years at Indiana State. If he plays in 1986, Tisdale would certainly become the fourth 3,000-point scorer in history, passing Kelly (3,066) and Williams (3,249) and threatening Maravich's 3,667.

Ewing was helped by the fact that he played 143 games over his career a record. He averaged 15.3 points and 9.2 rebounds but attempted only 9.7 field goals per game over his career. Alcindor averaged 26.4 points and 15.5 rebounds, shooting 16.8 times per game from the field over 88 games.

McDaniel belongs

Continued from page 4

that created many fast break opportunities as he improved to 71.3 this season—second highest ever—to lead the Pioneers to a 15-12 season. And keep in mind, Walker is only 6-5.

Talk about improvement, free-throw record-holder Craig Collins, 6-5, of Penn State, shot only 63.2 at the line, 41.6 from the field and averaged just 4.4 points over his first two seasons. In 1984, the Swarthmore, Pennsylvania, native blossomed with an 86.4 free-throw mark and 12.5 scoring before his all-time-high 95.9 and 14.9 this year. Hofstra's Rob Weingard, only 5-10, has always been a winner despite his size. He went from 7.4 assists per game last year to a record 9.5 this year. Says Stan Kellner, commentator for the Long Island Sports Network and a former coach: "He has a Division I head in a Division III body." He is a native of Dix Hills, New York.

By the way, Collins ended up at

goal accuracy at 58.1 percent.

Looking at all five categories, the leader among front-court players is Kansas' 6-11 Danny Manning, second in field goals at 56.6, eighth in rebounds at 7.6, 14th in scoring at 14.6, plus 76.0 percent in free throws and 108 assists. Pittsburgh's 6-10 Charles Smith, Lamar's James Gulley, Northwestern State's (Louisiana) George Jones and Lehigh's Daren Queenan (second in both scoring and rebounding) each topped Manning in two categories, but all trailed him in assists and free throw shooting.

In the backcourt, the 6-3 Hawkins edged Manning in field-goal accuracy, as mentioned, in free throwing with 77.1 percent and in scoring, 14.63 to 14.59, while trailing by a wide margin in rebounds and assists. Notre Dame's 6-0 David Rivers, with 127 assists, 79.8 at the line and 15.8 scoring, did the same but trailed badly in rebounds and field-goal accuracy. Michigan's 6-3 Gary Grant, a 55 shooter, had 140

Southwestern Athletic Conference second at 74.1. The Atlantic Coast Conference again led in field-goal accuracy, edging the Big Eight, 50.5 to 50.4 percent. In free-throw accuracy, it was the Midwestern City Conference, 71.7 to 71.3 over the Metro Atlantic Conference.

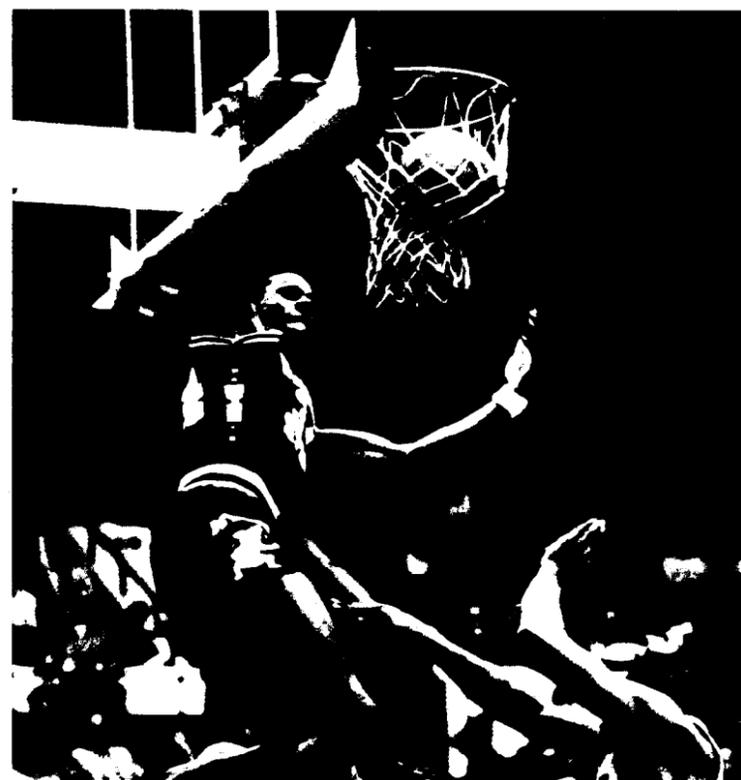

Defensively, the Pacific-10 Conference led in scoring defense at 63.1 points allowed per game, with the West Coast Athletic Conference second at 64.3. In field-goal percentage defense, the Sun Belt Conference led at 45.3 percent allowed to 45.7 by the Atlantic 10 Conference.

(Women's national Division I trends will be in The NCAA News next week, after more final forms are submitted.)

Women's individual champions

Northwestern senior Anucha Browne, one of 10 players selected to the 11th annual Kodak all-America team, won the Division I women's scoring championship at 30.5—second highest figure in four seasons of official NCAA rankings. The rebound title went to Bethune-Cookman junior Rosina Pearson, with a record 18.5. Houston sophomore Monica Lamb won in field-goal accuracy at 66.3 and North Carolina State senior Linda Page won in free-throw shooting at 88 percent. Assists rankings were compiled for the first time and the title went to Loyola (Illinois) senior Faith Mimnaugh at 11.7 per game.

Browne, a former prep player of the year in Brooklyn, New York, was raised in a family of scholars. Alma and Alfred Browne (a retired bacteriologist) shielded her from recruiters and made the decision about where she would go to college. Now her parents could not be more proud. She had her biggest game against St. John's (New York) with 45 points (national season high later equalled by Southern California's Cheryl Miller) before family and friends. When she took the national scoring lead, things got rough—she lost her contact lenses in four straight games in jarring action ("It just made me meaner").

Xavier McDaniel

Lamb is a 6-5 Houston native with experience in the World University Games. Page is a Philadelphia native who once scored 100 points in a high school game and has a brother who once played for the Harlem Globetrotters. Mimnaugh was born prematurely, along with her twin sister: "They named me 'Faith' and my sister 'Joy' in their happiness over our successful passage through that time." She is only 5-2 and is nicknamed "Little Magic." She finished with 1,000 career assists, a total surpassed in women's history only by Ramona Von Boeckman with 1,005 in 1975 through 1978 at Delta State.

Miller, Harris, Dixon lead all-America

Miller and Georgia senior Janet Harris became three-time all-America players this year—only the 11th and 12th players to do that since 1975. Two of the 12 went on to become four-time all-Americans—Lynette

Woodard (Kansas '81) and Ann Meyers (UCLA '78)—and Miller, only a junior, can join them in 1986. Medina Dixon, who led Old Dominion to the national championship, became a two-time choice. Others on the Kodak team were Browne, Harris' teammate Teresa Edwards, Long Beach State's Kirsten Cummings, Louisiana Tech's Pam Gant, Northeast Louisiana's Eun Jung Lee, Tennessee's Shelia Collins and Texas' Kamie Ethridge. On the five-man Naismith team were Miller, Harris, Dixon, Gant and Texas' Andrea Lloyd.

The Women's Basketball Coaches Association, with input into the Kodak team, also chose Miller as the Division I Champion player of the year, Central Missouri's Rosie Jones for that honor in Division II and Scranton's Deanna Kyle in Division III. Miller also won the Naismith

See Division I, page 6

Basketball notes and statistics

86.6 in career free-throw percentage, not enough to make the all-time list but No. 1 among 1985 seniors. Next are Vanderbilt's Phil Cox at 86.2, Harvard's Joe Carrabino 86.2 and three at 85.1—Texas Tech's Bubba Jennings, Utah State's Vince Washington and Western Illinois' J.D. Dykstra.

Multicategory leaders

Ten players this season shot at least 50 percent from the field, averaged at least 10 rebounds and scored at least 19.5 points per game (actually, all reached at least 53 percent and 21.0)—two more than a year ago. McDaniel's 55.9, 14.8 and 27.2 leads the list. Navy's David Robinson is the only one to shoot above 60 percent—64.4 to go with 11.6 and 23.6. The others are Catledge, Tisdale, Miami's (Ohio) Ron Harper, Kentucky's Kenny Walker, Creighton's Benoit Benjamin, Long Island's Carey Scurry, Montana's Larry Krystkowiak and Alabama State's Joe Williams (see rankings page for their figures).

Eleven players, including Krystkowiak, shot at least 80 percent in free throws, 50 percent in field goals and averaged at least 19.5 points. (Krystkowiak actually is the only four-category standout, with 58.5 percent, 84.0 percent, 10.2 rebounds and 21.1 scoring.) The others are Mullin, Gervin, Jennings, Carrabino and Harris, all mentioned previously, plus Michigan State's Sam Vincent, Baptist's (South Carolina) Ben Hinson, California-Irvine's Johnny Rogers, Butler's Chad Tucker, and La Salle's Steve Black (see rankings page for their figures).

Consensus second team

On the consensus all-America second team were Walker, Jon Koncak of Southern Methodist, Len Bias of Maryland, Mark Price of Georgia Tech and Dwayne Washington of Syracuse. Others who received at least one second-team vote were Harris, Vincent, Louisiana Tech's Karl Malone and Michigan's Roy Tarpley. Koncak, Harris and Vincent are seniors, Washington is a sophomore and all others are juniors.

Single-game highs

Tisdale registered the national season single-game high in scoring with 55 against Southwestern (Texas) December 10. Gervin was next with 51 against Baylor, while Stevens and Hughes each had 47 in one game. Catledge's 26 rebounds vs. North Carolina Charlotte January 20 was the season high. Three players had 23 each. Nebraska's Brian Carr had 18 assists vs. Evansville January 3 for the season high in that category.

Freshmen leaders

Northern Illinois' Kenny Battle led all freshmen in season scoring average at 20.1, North Carolina A&T's Claude Williams led in rebounding at 8.5 and Bradley's Hersey Hawkins in field-

assists and was 81.7 percent at the line.

Georgetown leads teams

Georgetown won four national team statistics championships, one more than last year. The Hoyas again led in won-lost percentage (.921 on 35-3), scoring margin (17.1) and field-goal percentage defense (40.4 percent allowed).

Its new championship came in rebound margin at 9.1 per game. Georgetown's field-goal defense stood at 39.8, by the way—close to its record 39.5 of 1984—until Villanova shot an amazing 78.6 in the NCAA championship game.

Oklahoma won the scoring championship at 89.9, Fresno State led in scoring defense at 53.0, Navy took the field-goal accuracy crown at 54.8 percent and Harvard repeated in free throwing at 81.1, missing its all-time national high of 82.2 set a year ago.

Villanova: eighth best in 205,000 games

It was a game for the ages. That 66-64 championship victory by Villanova over Georgetown will be talked about as long as the game is played. Villanova's 78.6 shooting is tied for eighth all time. That means only seven teams shot better in 38 seasons of official NCAA record keeping, covering about 205,000 Division I games (and none of those seven games had anything like championship importance; most were in early season).

Villanova held six tournament opponents to 50 points per game, yet put them on the free-throw line only 8.8 times per game (foes attempted 53, made 42)—great defense without fouling.

National men's trends

The final national trends in Division I basketball simply confirmed earlier reports in The NCAA News that scoring was headed for a slight increase. The final figure was 138.3 points per game (both teams combined), up 2.0 over the final 1984 figure of 136.3 but still below the 1983 level of 138.7, which reversed a seven-year downward trend.

You can credit the increase, if you want to, to the fact that more conferences used the experimental 45-second clock (now in the rules for 1986), but it is hard to prove conclusively. The 20 conferences (174 teams) using the clock (three also had the three-point shot, which made little difference) averaged 138.7, those with no clock 137.6—still above 1984. So an increase was coming regardless, but the clock helped a tiny bit.

National field-goal accuracy, which has leveled off in the 1980s, dipped slightly to 47.9 percent vs. the record 48.1 in 1984. Free-throw accuracy, which has changed very little for 20 years, was 68.9—same as in 1984. The Big Eight Conference led the country in scoring at 75.3 with the

Division I

Continued from page 5
 player of the year award (and is favored to win the Wade Trophy).

Career leaders

Harris led an outstanding group of seniors on the career charts. She is one of nine players who finished with more than 2,000 points and 1,000 rebounds—2,641 (fifth on the list) and 1,398 (fourth). Next is Deborah Temple of Mississippi (formerly Delta State) with 2,573 (sixth) and 1,251. Then come Richmond's Karen Elsner (2,367 and 1,244), Southern Mississippi's Portland McCaskill (2,130 and 1,067), North Carolina-Wilmington's Gwen Austin (2,046 and 1,290), Minnesota's Laura Coenen (2,044 and 1,029), Memphis State's Regina Street (2,043 and 1,281), Penn State's Kahadecjah Herbert (2,025 and 1,103) and Colorado's Lisa VanGoor (2,067 and 1,154).

Seven more seniors reached 2,000 career points, making 16 in all. They are Portland's Lorena Legarde (2,568—seventh), Browne (2,435—eighth), Cincinnati's Cheryl Cook (2,367), Page (2,307), Pittsburgh's Jennifer Bruce (2,295), Missouri's Joni Davis (2,126) and Arkansas' Bettye Fiscus (2,073). In per-game average, the leaders are Browne 22.1 (fifth), Temple 21.6 (eighth), Elsner 21.5 (ninth), Cook 20.8, Bruce 20.5, Harris and Legarde each 20.2 and Coenen and Brown's Donna Yaffe each 20.0.

In career rebounds, it is West Virginia's Olivia Bradley (1,484—second), Old Dominion's Tracy Claxton (a Kansas transfer) with 1,434—third and Harris, as mentioned. Legarde led in field-goal percentage at 60.4 (second) and Page in free throwing at 85.3 (third).

Multicategory leaders

Miller (27.1 and 16.1—fourth in each) and rebound champion Pearson (21.3 and 18.4) are among just four players this season who scored above 20 points and averaged at least 15 rebounds. The others were Appal-

achian State's Valorie Whiteside, the top freshman statistically (27.1 and 15.5) and Drake junior Wanda Ford (24.2 and 17.8). Of the four, only Miller shot above 50 percent from the field (53.7).

Miller also was among nine who shot at least 50 percent, grabbed at least 11 rebounds and scored above 20. Two of these were above 60 percent—Southeastern Louisiana's Rene

Daniels at 64.0 and Prairie View's Patricia Walker at 60.8. The other six were Coenen, Austin, Delta State's Delinda Samuel, U.S. International's Toya DeCree, North Carolina's Dawn Royster and Holy Cross', Janet Hourihan, the only one in the group who also shot above 80 percent in free throws (see rankings page for other figures).

Six players shot above 50 percent

and above 80 percent and scored above 20, led by Chris Starr of Nevada-Reno, with 58.2, 83.4 and 23.7, plus 9.2 rebounding. The others are Giant, Hourihan (the top four-category player), Oregon State's Juli Coleman, Oklahoma State's Jackie Glosson and Clemson's Janet Knight.

Single-game highs

As mentioned, Browne and Miller shared the 1985 single-game scoring

high at 45. Browne also had a 44-point game, as did South Alabama's Orphie Moore, Pearson's 37 vs. Florida Memorial was the rebound high, followed by Maureen Formico's 33 for Pepperdine vs. Loyola (California) and Ford's 30 vs. Eastern Illinois. Assists champion Minnaugh shared that high at 19 vs. Butler, with Brenda Phillips of Mississippi College.

Season final

Men's Division II individual leaders

SCORING table with columns: CL, G, FG, FT, PTS, AVG. Lists top scorers from Ernest Lee Clark (Ga.) to Mark Vest, Wright St.

FIELD-GOAL PERCENTAGE table with columns: CL, G, FG, FGA, PCT. Lists top shooters from Todd Linder, Tampa to Chuck Knostman, Northern Colo.

FREE-THROW PERCENTAGE table with columns: CL, G, FT, FTA, PCT. Lists top free-throw shooters from Tom McDonald, South Dakota St. to Jeff Buckson, Southern Conn.

REBOUNDING table with columns: CL, G, NO, AVG. Lists top rebounders from Charles Oakley, Virginia Union to Ronald Barnett, Cheyney.

REBOUNDING table with columns: CL, G, NO, AVG. Lists top rebounders from Terrance Rayford, Clark (Ga.) to Tommy White, Tuskegee Inst.

Team leaders

SCORING OFFENSE table with columns: G, W-L, PTS, AVG. Lists top scoring teams from Alabama A&M to Seattle Pacific.

SCORING MARGIN table with columns: OFF, DEF, MAR. Lists teams with the best scoring margins from Virginia Union to Columbus.

FIELD-GOAL PERCENTAGE table with columns: FG, FGA, PCT. Lists top shooting teams from Virginia Union to Bridgeport.

FREE-THROW PERCENTAGE table with columns: FT, FTA, PCT. Lists top free-throw teams from Mankato St. to Merrimack.

SCORING DEFENSE table with columns: G, W-L, PTS, AVG. Lists top defensive teams from Cal Poly SLO to Northeast Missouri.

WON-LOST PERCENTAGE table with columns: W-L, PCT. Lists teams with the best win-loss records from Jacksonville St. to Philadelphia Textile.

FIELD-GOAL PERCENTAGE DEFENSE table with columns: FG, FGA, PCT. Lists top defensive shooting teams from Central Missouri to Philadelphia Textile.

REBOUND MARGIN table with columns: OFF, DEF, MAR. Lists teams with the best rebound margins from Virginia Union to California (Pa.).

Men's Division III individual leaders

SCORING table with columns: CL, G, FG, FT, PTS, AVG. Lists top scorers from Adam St. John, Maine Maritime to Ed Moyer, King's (Pa.).

FIELD-GOAL PERCENTAGE table with columns: CL, G, FG, FGA, PCT. Lists top shooters from Reinout Brugman, Muhlenberg to Dave Stellwagen, Concordia (Ill.).

FREE-THROW PERCENTAGE table with columns: CL, G, FT, FTA, PCT. Lists top free-throw shooters from Bob Possehl, Coe to Dave Stellwagen, Concordia (Ill.).

REBOUNDING table with columns: CL, G, NO, AVG. Lists top rebounders from Albert Wells, Rust to Ed Moyer, King's (Pa.).

REBOUNDING table with columns: CL, G, NO, AVG. Lists top rebounders from Tony Petosa, Staten Island to Tom Cronin, North Adams St.

Team leaders

SCORING OFFENSE table with columns: G, W-L, PTS, AVG. Lists top scoring teams from St. Josephs (Me.) to Roger Williams.

SCORING MARGIN table with columns: OFF, DEF, MAR. Lists teams with the best scoring margins from Hope to Aurora.

FIELD-GOAL PERCENTAGE table with columns: FG, FGA, PCT. Lists top shooting teams from Me. Farmington to Buffalo St.

FREE-THROW PERCENTAGE table with columns: FT, FTA, PCT. Lists top free-throw teams from Wis. Stevens Point to Buffalo St.

SCORING DEFENSE table with columns: G, W-L, PTS, AVG. Lists top defensive teams from Wis. Stevens Point to Trenton St.

WON-LOST PERCENTAGE table with columns: W-L, PCT. Lists teams with the best win-loss records from Colby to Trenton St.

FIELD-GOAL PERCENTAGE DEFENSE table with columns: FG, FGA, PCT. Lists top defensive shooting teams from Colby to Trenton St.

REBOUND MARGIN table with columns: OFF, DEF, MAR. Lists teams with the best rebound margins from Colby to Washington (Mo.).

Trenton State seeks to defend softball crown

Trenton State women's softball coach June Walker hopes her team can repeat its 1983 performance at this year's Division III Women's Softball Championship May 18-21 in Willimantic, Connecticut.

Trenton State, ranked No. 1 in the latest NCAA poll, won the 1983 championship, which also was played in Willimantic; however, the host Warriors of Eastern Connecticut State should battle Trenton for the 1985 title.

Play begins in the 16-team Division III championship May 10-11 with regionals at on-campus sites. Winners of five conferences receive automatic qualification to the tournament, and the remaining teams will be chosen at large. Six teams will advance to the finals series at Eastern Connecticut State.

Despite a 33-6 record and the No. 1 ranking, Walker is a little uneasy about her team's performance down the stretch.

"The last two to three weeks, we have been inconsistent," Walker said. "We have been to the finals five straight years (AAIAW included), but I just don't have a feeling this year as to what our chances are. With six seniors on this year's squad, we better win it this year, or it might be two to three years before we return."

Trenton State and Montclair State both are undefeated in Jersey Athletic Conference play (prior to May 1 game). Both teams should be selected for the 16-team field, however.

Trenton State's hopes rest with outfielder Carol Maioran, catcher Carla Mancuso and pitcher Gina LaMandre. Maioran is batting .500 this season, and Mancuso is hitting at a .410 clip and leads the team with 26 runs batted in. LaMandre is 20-2

with an 0.32 earned-run average.

Montclair State, 26-6, features Debbie Emery, the team's best pitcher and second-leading hitter. Emery is 7-2 as a pitcher and has compiled a .394 batting average while playing shortstop and as the designated hitter. Third baseman Annamarie Smith (.402) and pitcher Lisa Megaro (7-1) are other top Montclair players.

Thanks to an excellent recruiting year, Eastern Connecticut State has climbed to the No. 2 spot in the latest poll with a team that starts as many as four freshmen.

"We had a very young team coming into this season and didn't know what to expect," said coach Clyde Washburne. "We are doing well now, but the question is how the team will hold up in the NCAA tournament."

Eastern Connecticut, 24-6, features good hitting, speed and defense. Top hitters this season have been outfielder Patti Ferraro (.357), catcher Lynn Rocheleau (.352) and first baseman Cindy Walz (.375). Junior Julie Bacher (12-3, 0.69) is the veteran on a young pitching staff.

Defending champion Buena Vista, 23-17, has lost a number of games to rain recently and may not win the automatic berth that goes to the Iowa Intercollegiate Athletic Conference champion. In addition, the Beavers were saddened last week with the death of pitcher Nita Skou, who was killed in a one-car automobile accident. With a No. 4 ranking, Buena Vista should be selected for tournament play; however, Luther or William Penn may receive the IAC berth.

In the other automatic-qualifying conferences, Salem State (17-6) is the front-runner in the Massachusetts State College Athletic Conference, St. Thomas (13-9) and Augsburg (13-

Gina LaMandre

11) are in a close battle in the Minnesota Intercollegiate Athletic Conference, and Cortland State (14-3) is the favorite for the State University of New York Athletic Conference berth.

A number of other teams are hoping for at-large berths, including Wisconsin-Whitewater (15-1), Ithaca (14-8), Aurora (15-1), Allegheny (13-4), California-San Diego (18-16), Ohio Northern (12-2), Wisconsin-Oshkosh (15-5) and Salisbury State (14-5).

Matadors set sights on third Division II title

With two consecutive titles in hand, Kathy Slaten on the pitching rubber and the 1985 championship on its home field, Cal State Northridge is the favorite in the Division II Women's Softball Championship May 17-19 in Northridge, California.

The 12-team championship begins May 10-11 with four regionals of three teams each. Champions of six conferences will receive automatic qualification, and the remaining six May 17-19 finals will be a four-team, double-elimination tournament.

Behind Slaten's 31 victories, Northridge was 49-15 and one game ahead of Cal Poly-San Luis Obispo (as of April 26) in the California Collegiate Athletic Association, one of the six automatic-qualifying conferences. Slaten, who was 39-7 last year, has three no-hitters this season and an 0.27 earned-run average. She is complemented by freshman Delanee Anderson (13-3).

Coach Gary Torgeson has two excellent hitters in shortstop Linda Lowande (.294) and center fielder Barbara Jordan (.290).

Pressing the Matadors in the NCAA is Cal Poly-SLO, 31-15 and ranked sixth in the latest NCAA Division II poll. Freshman Randic Hill, 21-8 with a 1.01 earned-run average, has handled the bulk of the pitching. Outfielders Jill Hancock (.364) and Lisa Johnson (.323) are the leading hitters.

Two Texas teams — one a former NCAA champion — could make life tough for Northridge on its home turf. Stephen F. Austin State, the nation's top-ranked team, and Sam Houston State, 1982 champion, have compiled outstanding records and are threats for the national title.

Stephen F. Austin, 43-3, was in

Debbie Tidy

the final four two years ago and lost in regional play last year, but coach Dianne Baker's squad appears ready for a return trip to the final four.

All-America pitcher Pam Clay has compiled a 20-1 record with 208 strikeouts, 17 shutouts and an 0.15 earned-run average. Julie Doxtad, Clay's pitching cohort, is 16-2 with an 0.43 ERA. Center fielder Stella Castro (.403) and catcher Pennie Lewis (.342) are the Ladyjacks' top hitters.

Coach Brenda Marshall, in her second year at Sam Houston State, has led the Bearcats to a 34-8 record with a 19-woman squad that includes 15 freshmen and sophomores. Joanne Graham (16-3, 0.20) and Kim Uherka (18-5, 0.82) have handled all of the pitching duties. All-America shortstop Sandy Mader (.386) has led the offensive output.

"We are a lot more balanced this year," Marshall said. "Last year, we had to depend on one or two people when we had 10 freshmen. I am excited about our chances this year."

Since pitching makes the difference at the national level, Sacred Heart may have the best chance of any team to dethrone Cal State Northridge. Led by sophomore star Debbie Tidy, Sacred Heart is 31-3 and the probable automatic qualifier from the New England Collegiate Conference.

Tidy, 18-1, has not allowed an earned run in 125 innings this year. She has four no-hitters and 15 shutouts among her 18 victories. Gail Holznagel (13-2, 0.80) has accounted for the Pioneers' remaining victories. Coach Pete DiOrio also has one of the nation's best offensive weapons in shortstop Elizabeth Luckie (.429, 29 runs batted in).

"I think this year's team is better balanced with even stronger pitching," DiOrio said. "We have matured a lot from a hitting standpoint. Playing as many Division I teams as we did will definitely help

See Matadors, page 13

Wheatley's pitch delivers Broncos' message

Pick a day, any day, and chances are, if Cal Poly Pomona's softball team is playing, Rhonda Wheatley is pitching.

Softball pitchers see a lot of time in the circle anyway, but Wheatley has given the word "stamina" new meaning, breaking the NCAA single-season victory record in the process. The 5-8 sophomore righthander started 41 of the Broncos' first 51 games, completing 28, to post a 36-9 record and a 0.15 earned-run average. Since the NCAA began keeping softball statistics three years ago, Kathy Van Wyk's 35-1 record at Cal State Fullerton in 1982 was the previous record.

Wheatley, who was 25-6 with a 0.33 ERA in 1984, includes among her successes four no-hitters and a perfect game against Nevada-Reno. She also was the winning pitcher in a twin-bill sweep of defending national champion UCLA, in which all-America hurler Debbie Doom suffered her first loss of the season. Doom's teammate, Tracey Compton, also fell victim to Wheatley and the Broncos.

Women's softball is the Broncos' only Division I sport. The remaining 13 sports teams compete in Division II.

Adjusting to a more rigorous schedule than in high school, where she pitched 18 games each season, proved more of a mental than a physical battle for Wheatley.

"I had to think a little more about what pitches to throw," she said. "I had to really relax a lot more and stay real loose. I'm surprised I haven't hurt my arm yet."

Preseason weight training and icing her arm after the games have prevented any injuries, and senior catcher Donna McElrea has helped Wheatley determine pitch selection.

"She's really helped me. She mixes pitches well so I don't have to think about it. I use her to help guide me through," Wheatley said.

Although her record might not indicate it, Wheatley had some control problems early in the season. Overall, however, she has struck out 259 batters in 316 1/3 innings and allowed seven earned runs.

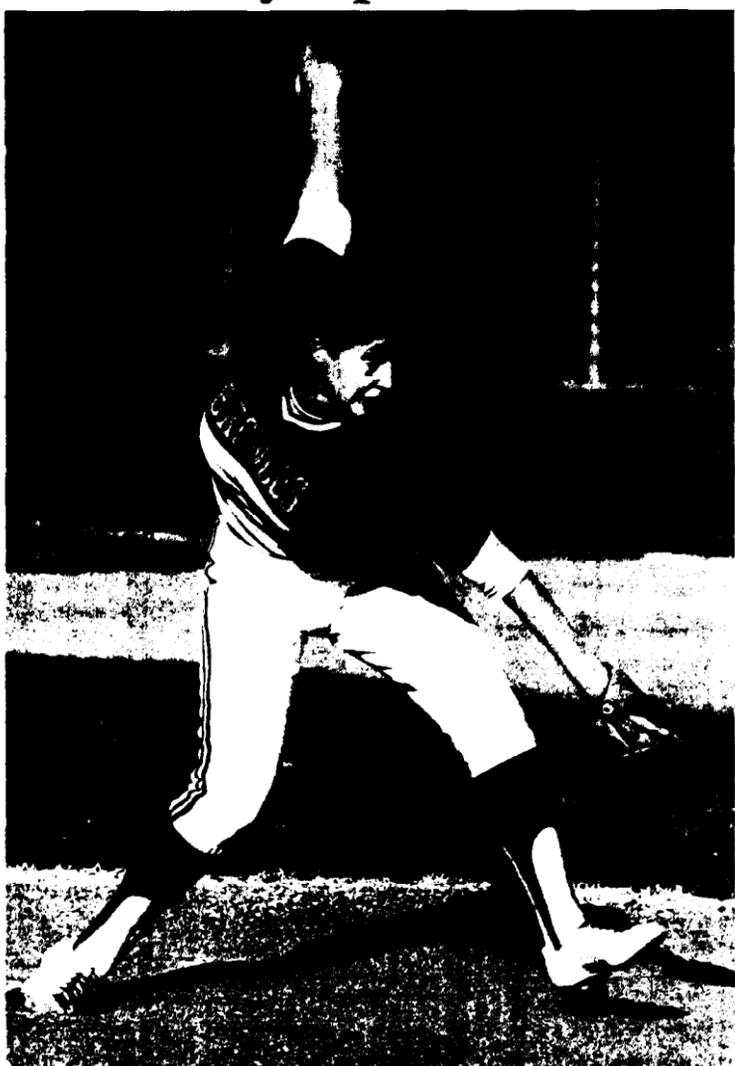

"At the beginning of the season, I was throwing a lot of balls. I think it was the added pressure I put on myself, because I was thinking about all the games I've got to pitch," she said. "But we've got a pretty good all-around combination of pitchers" that includes junior Susan Claypool and freshman Cindy Eyanson.

"I think I maintain my strength throughout the game," she said. "It seems the longer the game goes on, the better I get. I get in my groove."

Wheatley didn't plan to be a pitcher.

"My brother taught me how to pitch. He was the coach of my team in Bobby Sox and we didn't have a pitcher, so he stuck me in there," Wheatley said. "We just worked and worked. He's very competitive and he wanted me to be the best. I was out there every day, and that's probably what kept me going."

Wheatley hopes the trip will end at the national tournament where, no doubt, she will be in her usual spot, throwing to her usual spots.

Rhonda Wheatley

Familiar roadblocks cleared from path to Division II tennis crown

The perennial powers will be absent when the Division II men's tennis teams square off at the NCAA championships May 13-19 at Cal State Northridge.

Southern Illinois-Edwardsville, winner of the past seven NCAA championships, and Southwest Texas State, runner-up three of the past four years, will not be among the eight teams vying for the 23rd title.

Southern Illinois-Edwardsville deferred the sport for 1985 to allow time to rebuild after veteran coach Kent DeMars left to direct the South Carolina program. Southwest Texas State shifted its program to Division I.

Consequently, "the road to Northridge" was left wide open.

Cal Poly-San Luis Obispo, No. 1-ranked in the latest Intercollegiate Tennis Coaches Association (ITCA) poll, is considered the frontrunner and should receive the West region invitation when selections are announced May 6. Brian Bass (11-8) and Dave Reynoldson (12-11) lead the 24-3 Mustangs.

Last year's fourth place finisher, Chapman, is another strong Western contender. Ranked third in the ITCA poll, the Panthers are 18-12 and are paced by junior Troy Turnbill (21-11) as the No. 1 singles player.

Cal State Hayward (16-4), Califor-

nia-Davis (13-7), Cal State Northridge (15-16) and Cal State Bakersfield (12-12) also have a chance at one of the four at-large berths.

In the East, No. 5 Hampton (30-7) appears to be the leader. The Pirates won the championship in 1976, placed second in 1978 and third in 1984. Hampton standouts include Yaya Doumbia (18-4) and Greg Williams (17-5), the No. 1 and No. 2 singles players, respectively. They team up to play No. 1 doubles and currently sport a 9-2 record. Doumbia also was the national singles runner-up in 1984.

Mercyhurst, led by Jens Caap in singles and Caap and Joel Balogun in doubles, is the East's No. 2 team.

No. 2-ranked Rollins (22-9) and No. 4-ranked Stephen F. Austin State (12-9) appear to be the leaders from the South. Brian Talgo (13-11) and Talgo and Pat Emmet (10-3) head the Rollins roster, while Tom Goles (16-5) is the standout for the Lumberjacks. Goles and Chris Langford (13-8) are Stephen F. Austin State's No. 1 doubles team (13-7) have emerged as frontrunners. In the Midwest, sixth-ranked Tennessee-Martin (18-4) and eighth-ranked Ferris State features Dan Merritt (12-12) and Martin Bromfield (16-6) at singles and the two team up in doubles, where they played to a 14-8 record and an eighth-place ranking in the

ITCA poll.

Scott Appledorn (18-2) of Ferris State is the current No. 1-rated player and he teams with Greg Stickle to form the No. 2-ranked doubles team in the nation (6-3). Appledorn was the 1983 NCAA singles runner-up.

For the individual competition May 16-19, the tennis subcommittee is allowed to invite a maximum of 34 players in singles and doubles in addition to the 56 players already at the championships for the team competition. Other nationally recognized singles players include Khalid Outaleb of Florida Tech (24-0), a Moroccan Davis Cup team member and two-time all-America; Jeff Singletary, Florida International, 10-9; Bruce Kurtz, Florida Atlantic 12-4; Brice Bishop, North Alabama 29-9; Dean Rudrud, North Dakota 17-2; Rolf Wiedenmeyer, Cal State Hayward, 20-6; Bill Johnson of Cal State Northridge, 20-10, and Aleco Prevolos, California-Davis 17-7.

In doubles, last year's national runner-up Wiedenmeyer and Brian Mehmedbasich of Cal State Hayward 19-5 are back. Other standouts are Bruce Kurtz and Brett Kurtz of Florida Atlantic (14-2), Singletary and Marcus Pettifer of Florida International (9-4), and Prevolos and Steve Clark of California-Davis (17-7).

Scott Appledorn

Championships Corner

Tennis selections

1. Selections for the 1985 Division I Women's Tennis Championships will be held May 9-10, instead of May 8-9.

Qualification

2. The Big Ten Conference has been granted automatic qualification to the 1985 Division I Women's Field Hockey Championship. In Division III, three conferences have been approved for automatic qualification: Massachusetts State College Athletic Conference, Middle Atlantic States Collegiate Athletic Conference and Pennsylvania State Athletic Conference.

For conferences to be considered for automatic field hockey qualification, effective in 1986, they must conduct at least single round-robin in-season competition in addition to a postseason tournament, or double round-robin in-season competition if there is no postseason tournament.

3. In women's volleyball, the California Collegiate Athletic Association and North Central Intercollegiate Athletic Conference have been granted automatic qualification to the 1985 Division II championship.

Realignment

4. In women's field hockey, the state of Connecticut has been moved into the Midwest region (from the New England region) and the state of New Jersey is now a part of the mid-Atlantic region (formerly in the Mideast region).

Future championships

5. Dates and sites have been determined for the following future NCAA championships:

1985 Division II Women's Volleyball Championship (December 13-14) — Portland State University, Portland, Oregon.

1986 Division I Women's Swimming Championships (March 20-22) — University of Arkansas, Fayetteville, Arkansas.

Six teams drive toward Division II golf crown

There are at least six teams capable of winning the NCAA Division II Men's Golf Championships team title in the 23rd annual championships May 14-17 on the Waterwood National golf course in Huntsville, Texas.

With so many talented teams in contention, a repeat of last year's championships — in which Troy State led from the start to outdistance Florida Southern by 18 strokes — appears unlikely.

Central Connecticut State, led by defending individual champion Greg Cate, is one of the top contenders. Other top teams include Columbus, Florida Southern, Stephen F. Austin State, Cal State Dominguez Hills and Cal State Northridge.

Three players for Central Connecticut State won individual honors in fall tournaments, and they have continued to play well this spring.

At the Hartford Invitational, the Blue Devils, led by medalist Don Muccino, placed five golfers among the top six en route to the team title.

The Blue Devils proved their Hartford showing was no fluke by finishing second in the prestigious Yale Invitational and placing two golfers — including Cate, who tied for medalist honors — in the top six.

Columbus, ranked No. 1 in the latest Florida Golfweek coaches poll, has had some impressive finishes. The Cougars, paced by Hugh Royer's 72.5 average, have a cumulative team-stroke average of 295.8, a total that ensures a high championships finish.

Florida Southern, the last team to win back-to-back team titles, should be a top contender, judging from the Moccasins' spring success. Lee Janzen, who tied for fourth in last year's championships, has led Florida Southern to several tournament finishes over Division I teams, notably second- and fourth-place finishes in the Stetson Intercollegiate and Americana Invitational, respectively.

Cal State Dominguez Hills and Cal State Northridge's fight for West Coast bragging rights should continue

Opposition must avoid Hornets' sting

The Kalamazoo Hornets appear to be the favorites to capture the 1985 Division III Men's Tennis Championships team title when the tournament gets under way May 13 at Washington and Lee.

NCAA champions in 1976 and 1978, the Hornets have been the Intercollegiate Tennis Coaches Association (ITCA) poll's No. 1 selection all season. Led by the ITCA No. 1-ranked doubles team of Tim Corwin and Alex Palladino (11-6), Kalamazoo currently is 10-5.

The tourney's eight teams will be selected by the Division III subcommittee on an at-large basis, with selections to be released May 6. Swarthmore, St. Thomas (Minnesota), Redlands, Claremont-Mudd-Scripps, Gustavus Adolphus, Carleton, Washington and Lee, UC San Diego, and California-Santa Cruz all are considered play-off contenders.

Swarthmore, No. 2 in the ITCA poll, is 13-10 and hasn't lost a Division III dual match all year. Jeff Krieger (11-7) and Shep Davidson (10-10) — the top two ITCA-rated singles play-

ers and No. 3-ranked doubles team — lead the Little Quakers. National champions in 1977 and 1981, Swarthmore finished third in 1984.

From a strong Midwest region comes St. Thomas (Minnesota), No. 3 in the ITCA poll. The Tommies feature Michael Ach at the No. 1 singles position, and Ach and Randy Crowell in the top doubles slot.

At No. 4, 1984 national champion Redlands (19-10) would like to defend its title, which the Bulldogs also won in 1979 and 1983. With defending individual champion Scott Moore (18-7) and ITCA No. 3-ranked singles player John Bunch (19-9), the Bulldogs have a good chance to repeat.

Ranked No. 5, Claremont-Mudd-Scripps (18-7) features Mark Nys (14-7) and Alex Cloth (9-11) in singles and Nys and Frank Hinman as the fourth-ranked doubles team (13-3). The Stags also are no strangers to championships play. They finished first in 1981 and second in 1976, 1977, 1980 and 1983.

Two other contenders are from the

Midwest region — Gustavus Adolphus (15-8) and Carleton. Mayank Capoor (12-11) in singles and Brad Sorenson and Mark Kruger (8-7) in doubles pace the Gusties. The doubles team of Dave Treichel and John Flygaer leads Carleton.

Washington and Lee (13-8), UC San Diego (7-14), and California-Santa Cruz (7-12) are other possibilities. The No. 9-ranked singles player, Mark Roberts (15-10), is a California-Santa Cruz veteran.

Beginning May 16, 64 singles players and 32 doubles teams will compete in single-elimination play. Other probable qualifiers in singles include Bob Savitt, Wooster, 18-2; Tim Spengler, Washington (Missouri), 19-9; Steve Gittleston, Emory, 12-10; Deke Lundquist, Principia, 22-4; Toby Clark, Principia, 23-2, and Mike Morkin, Augustana (Illinois), 12-4.

Doubles standouts include Ruben Mendoza-Tim Streck, Cal State San Bernardino; John Rende-Cloth, Claremont-Mudd-Scripps, 14-4; Lundquist-Clark, Principia, 16-3, and Tim Rives-Craig Hammond, Williams.

Greg Cate

in the championships. At the Anteatr Invitational, Cal State Northridge got a big boost by shooting a 625 to finish in a third-place tie and ahead of Dominguez Hills, which was ranked fifth, three spots higher than Cal State Northridge in the latest coaches poll.

Troy State, Jacksonville State, Indiana (Pennsylvania) and championships host Sam Houston State also should be in contention for the team title.

Warriors don't expect to run away with title

There was a time when it seemed that all Cal State Stanislaus had to do was show up at the NCAA Division III Men's Golf Championships to claim the team title.

The Warriors of coach Jim Hanny have won seven of 10 titles, including six in a row from 1976 to 1981. And although the defending champion Warriors again are in contention for the team title, Hanny does not expect his squad to run away from the field as in past championships.

"The top teams are getting closer together," Hanny said. "A few years ago, there were only two or three top contenders. We're not as strong as we were in some years, but I think we're capable of winning. We have the same type of team that we had last year."

If the Warriors turn in a similar performance at the May 14-17 championships on the Monroe golf course in Pittsford, New York, as last year's squad, Hanny should have title No. 8

sewed up. Cal State Stanislaus turned a six-stroke deficit into a six-stroke advantage in the final round to win the title. Although Hanny lost three all-Americas from that team, two-time all-America Doug Dunakey, along with Doug Potter and Chuck Burley, who carry 78-stroke averages, give the Warriors a solid shot at the title.

Ramapo, which broke Cal State Stanislaus' six-year reign with a one-stroke victory in 1982, could spoil the Warriors' title aspirations.

Ramapo's title chances significantly improved with the addition of transfer Ed Weber. Weber, an exceptional putter, and veteran Carl Campanelli, a three-time New Jersey state public-links medalist, have had good spring seasons.

Other teams in contention include Nebraska Wesleyan, 1984 runner-up Methodist, Wittenberg, Worcester State, Greensboro and championships host Rochester.

Temple, Maryland switch roles in battle for championship

Temple's Lady Owls, winners of the 1984 National Collegiate Women's Lacrosse Championship, took care of an undefeated Maryland team in the title game a year ago. This time around, Temple is undefeated through 14 games, the early favorite to repeat as champion and a likely opponent for another powerful Terrapin team before the play-offs end.

The addition of a Division III tournament has reduced the National Collegiate Championship field to four teams. Semifinal games will be played May 11 or 12, and the winners will meet for the title May 19 at the University of Pennsylvania.

Should Temple return to the final game, nobody will be more surprised than Lady Owls head coach Tina Sloan Green. Although her team finished last year 16-2 and as champions, player losses because of graduation

left serious doubts in her mind for 1985.

"Surprisingly, this team jelled quickly and with excellent results," she said. "I am really pleased with the way our defense has come around. Good, hard defensive play has been a major factor in this team's success throughout the regular season."

Offensively, the Lady Owls lost more than 120 goals when Marie Schmucker and Carol Schultz completed their collegiate careers. However, Green apparently discovered new talent, because three Temple players have scored more than 30 goals each this season.

"We have had excellent help and contributions from some of our freshmen, Gail Cummings and Kim Landon, in particular, have played quite well for us," Green said.

As her team prepared for road

contests against Massachusetts and New Hampshire, Green said there still was room for the Lady Owls to improve their play before the postseason tournament.

"I feel like we need tough competition at this point in the season. As a coach, you have to try to keep them (the players) sharp. I am hoping we don't get too relaxed before the play-offs start," she said.

"We constantly work on our defense, and I feel like we need to work on our shot selection, too. Obviously, the players feel some pressure because of their record, but maybe that is good in a way."

Maryland's only loss through April 25 was the season opener to Temple.

A relatively young group of players greeted Maryland coach Sue Tyler when practice started, but she has been pleased by the team's progress.

"These players have worked very

hard and learned fast, and I was surprised at how quickly things seemed to come together for us," Tyler said. "One key was the return of seniors Kay Ruffino and Karen Trudel.

"They are connecting very nicely," Tyler said. "Each has scored over 30 goals... If they're both on, they're dynamite for us." Although the midfield is young, junior Tracy Stumpf has been a steadying influence. And Tyler has stabilized the goalkeeping situation... almost.

"At one time, we had five goalies competing for time, and all of them were very good players. We finally settled on two—Mary Bernard and Kim Chorosiewski—and they have been splitting time in goal. Their styles are different, and that has seemed to cause problems for some of our opponents."

Tyler said there still is some work to

do. "We have to balance our attack a little more," she said. "If Ruffino and Trudel are the only two girls scoring, we could be in trouble.

"We have to spread our offense out a little more, get more people involved. On defense," Tyler continued, "we have to work on the timing of our double-teams. Our one-on-one defense is very good, but we still have to improve on helping out with the double-team when it is needed the most.

"It should be a good tournament," Tyler said. "I know we are sure looking forward to it, no matter what happens."

Several teams have the potential to be among the four teams selected for the play-off field. Delaware has been a regular in NCAA postseason action, as have Penn State and Massachusetts. Harvard and Pennsylvania are possibilities from the Ivy League, and Lehigh is a contender.

Hobart's Larry Grimaldi

Patty O'Malley photo

Sho'men find Hobart's tracks easy to follow

"I think a lot of people have expected Hobart men's lacrosse teams to decline a little through the years," said Washington College (Maryland) coach Terry Corcoran. "I don't think they're going to come down, so we've gone up."

The Sho'men have reached the top of the rankings, where they hope to finish the season and take the 1985 Division III Men's Lacrosse Championship. First-round games will be played on campus May 8, with the semifinals and finals set for May 12 and 18, also on the campuses of teams that advance in the tournament.

An early season, overtime victory over Hobart propelled Washington (Maryland) into the top spot in the weekly coaches poll, where it has remained all season.

"The town (Chestertown, Maryland) is excited," Corcoran continued. "There is an electricity that is turning this place upside down. When we beat Hobart, people were coming up to me and saying, 'I never thought I'd live to see it.' As we get close to play-offs, I still think Hobart is the team to beat."

Eight teams will make the play-offs, and selection of the field will be difficult. Ohio Wesleyan has been in the top five all season, among a list of contenders that includes Cortland State, Salisbury State, Roanoke and Rochester Institute.

St. Lawrence, Denison, Franklin and Marshall, Ithaca and Swarthmore also have legitimate chances of making the field. However, most observ-

ers believe that Hobart and Washington will return to the finals in a rematch of the 1984 championship game, won by the Statesmen, 12-5.

"Our performance so far this season has been up and down," said Hobart coach Dave Urick, who has been in the winner's circle five years in a row. "We had a couple of tough losses at the start [to Division I champion Johns Hopkins and Washington (Maryland)], then we won five in a row. We then layed off for a little while and came back to play a good ball game against Cornell, but we lost in overtime."

Familiar names dot the Hobart roster, and attackmen Tom Grimaldi and Marc Van Arsdale are ready for their final trip to the play-offs. "Tom and Marc have been around for four years, and it's easy to take them for granted," Urick said. "But they hustle, and they complement each other very well."

Urick also mentioned the play of midfielder Bill Bergan and goalkeeper Chuck Warren, a hero in the 1984 title game, as critical to the success of the Statesmen in the postseason.

"Also, I think we have to learn how to get in a tight ball game and pull it out," Urick said. "There were parallels between our losses to Washington and Cornell. In both games, there were key times when we did not shoot well and when we did not clear well. We have been in four close games, and we've lost three of them. If we lose a close one in the play-offs, our season is over."

In the Washington camp, Rick Sowell's performance under pressure has made a big difference. In overtime victories over Hobart and Washington and Lee, Sowell scored five goals, including both game-winning tallies.

"Rick has been playing superb lacrosse all year long," said Corcoran. Other top players for the Sho'men include midfielder John Nostrant, attacker Walker Taylor and defenseman Steve Beville.

"This is undoubtedly our best attack unit in my three years here," Corcoran explained. "Walker, along with Bruce Yancey and Paul Miller, have played super. In fact, I think this is the best team we have had in my three years here."

"They practice hard, they play hard; they're winners. We had practice yesterday, and it was raining pretty hard in the afternoon. Almost everyone on the team was out there in the rain 40 minutes before we were supposed to start practice, just shooting around."

"The team is excited, the school is excited, and the town is excited," Corcoran said. "Everyone is looking forward to the play-offs. We're hungry."

Eight teams vie for Division III women's title

Trenton State could lay claim to the first NCAA Division III women's lacrosse championship May 19 at the University of Pennsylvania. The Division III title game will be part of a double-header that includes the National Collegiate Women's Lacrosse Championship game.

The format for the new championship includes an eight-team field, with one team selected from each of the following regions: New England, Northeast, Pennsylvania, South and West. Other teams will be at-large selections.

The Lady Lions are no strangers to postseason play-off action. Trenton State advanced to the first National Collegiate Women's Lacrosse Championship game in 1982. Many of the players coached by Melissa Magee are play-off veterans because of participation in NCAA field hockey tournaments.

In fact, many teams with play-off aspirations in lacrosse can be found in the field hockey championship records. Ursinus, Wheaton (Massachusetts), Denison, Lynchburg and

Drew are examples.

"The championship is a big boost for our program and all the others," said Magee, who led Trenton State to a 7-1 record through mid-April. "We certainly are excited about the prospects of making the play-offs, and I know the other Division III teams are, too."

Magee described the Trenton State defense as a "tight man-to-man," while the offense plays for the high-percentage shot.

"On defense, when our players concentrate and help, we play well. Mental errors have hurt us at times on this side of the ball," she said. "Offensively, when we have taken the high-percentage shots, they have gone in. When we force our shots, we are not as successful."

"It seems like we have learned from the mistakes we made, and that has been encouraging."

Senior Tina Goldhirsch anchors the Trenton State attack. "She serves as a calming influence on the field, and that has helped us keep our poise

See Eight, page 13

Colleen Hewlett leads Drew

Filling-the-field policy gets men's full backing

The NCAA Men's Swimming Committee will recommend to the Executive Committee that it adopt a filling-the-field policy for championships, beginning with the 1986 season. The Executive Committee meets May 6-7 in Kansas City, Missouri.

The concept of "filling the field," which allows a swimmer who qualifies in one individual event to participate in other individual events if the field is not otherwise filled, was tried on an experimental basis in the 1984-85 season in both men's and women's swimming. However, only the men approved the concept when it came to a vote at the annual NCAA Men's and Women's Swimming Committees meeting April 23-25 in Kansas City.

The men's committee will recommend to move the Division I championships dates from the last full week in March to the first Thursday through Saturday in April, effective in 1986.

Several joint men's and women's diving recommendations will be made to the Executive Committee, including:

- Holding a qualifying diving meet at the championships sites on the day preceding the men's and women's Divisions II and III championships to determine the approved number of competitors per event.

- Conducting diving championships competition for all men's and women's divisions under a new format, which would require that divers perform 11 dives in preliminaries, with places nine through 16 determined by the competition; the top eight divers then would perform six dives in round 1 and the remaining five dives in the evening in round 2.

- Staging the 1986 Division I zone meets at: Zone A, Penn State; Zone B, Clemson; Zone C, Ohio State; Zone D, Southern Illinois-Carbondale, and Zone E, New Mexico. The committee also determined qualifier allocations for each zone.

- Adding 10-meter tower diving to the Division I men's and women's swimming championships formats. This recommendation will be proposed to the Executive Committee pending the results of a Division I survey.

In other joint decisions, the committee will recommend that the five key officials at all division championships be allowed to fly to championships site when necessary; that the Division I championships continue to use the services of Sportscast Productions, an up-to-the-minute results reporting service, and that no time trials or exhibitions by outside groups be allowed at the championships.

The committee also determined new qualifying standards for both men's and women's swimming.

The women's committee is proposing two championships sites—the Justus Aquatic Center in Orlando, Florida, for the 1986 Division II championships (hosted by Rollins College) and the Indiana University Natatorium in Indianapolis for the 1987 Division I championships. Arkansas already has been approved as host for the Division I championships in 1986.

Both the men's and women's committees approved new championships orders of events.

Committee Notices

Member institutions are invited to submit nominations for interim vacancies on NCAA committees. Nominations to fill the following vacancy must be received by Fannie B. Vaughan, administrative assistant, in the NCAA national office no later than May 20, 1985.

Women's Gymnastics: Replacement for Greg Marsden, University of Utah, resigned. Replacement should be from Division I.

Compulsories sought by gymnastics committee

Recommendations to reinstate compulsory competition for all-around gymnasts move the championships to the third weekend in April and realign the committee structure highlighted the actions taken by the NCAA Men's Gymnastics Committee, which met April 22-25 in Newport Beach, California.

The committee will recommend to the Executive Committee the reinstatement of compulsory competition during the all-around portion of individual competition at the National Collegiate Men's Gymnastics Championships. "It was the sense of the committee that a large number of coaches favor the use of compulsories in the regular season and the championships," said Wayne Young, men's gymnastics coach at Brigham Young University and chair of the committee.

The committee voted to recommend to the Executive Committee that the dates of the championships be the third weekend in April, beginning in 1987. In years when Easter falls on the third weekend, the championships would be held on the fourth weekend of the month.

In a move to select committee

Technical corroboration recommended by committee for women's gym championships

Votes to recommend the use of technical corroborators and to return to a four-judge crew for individual-event championships competition highlighted actions taken by the NCAA Women's Gymnastics Committee April 22-25 in Newport Beach, California.

The committee voted to seek Executive Committee approval of a plan that would involve the use of three scientific technical corroborators at the Division I championships. "The corroborators would record the difficulty moves of routines to ensure the events are awarded appropriate points," said Greg Marsden, gymnastics coach at the University of Utah and committee chair.

The group also will seek Executive Committee approval to waive the Division II championships qualification criteria that were approved in May 1984. The change would have based qualification for the 1986 championships on the average score from five regular-season meets.

"The use of five meets had been approved for implementation begin-

Matadors

Continued from page 10
us in NCAA competition."

Other conferences with automatic qualification and possible winners are Missouri Intercollegiate Athletic Association (Southeast Missouri State, 25-9; Northwest Missouri State, 22-17); North Central Intercollegiate Athletic Conference (Nebraska-Omaha, 31-16; Augustana of South Dakota, 20-15); Northeast-Eight Athletic Conference (American International College, 31-11-2), and Pennsylvania State Athletic Con-

Eight

Continued from page 12
at times," Magee said.

Bridget Roun is the defensive stand-out for the Lady Lions, and senior Lori Jordan has continued her stellar play in the nets. "Lori is a steady, consistent performer, but she also

members on a regional basis, the committee voted to request the NCAA Council to sponsor legislation at the 1986 Convention that would permit, within the limitations of current division representation requirements, the selection of one committee member from each of the four men's gymnastics regions. The other two committee positions would be for at-large representatives.

The committee will conduct a telephone conference in June to recommend a site for the 1987 championships. Any institution interested in being the host must submit a proposed budget to the NCAA national office by June 1.

Other action taken by the committee, subject to Executive Committee approval, included:

- Continuing the committee's regular-season ranking system for 1985-86. Six telephone conferences would be held, beginning December 17 and concluding March 25, for the purposes of ranking teams throughout the country on the basis of average scores. The polls were conducted for the first time in 1985.

- Recommending that one cham-

time student of a participating institution will be assigned to the respective division competition. In addition, meets used for qualification purposes may be judged by an employee or full-time student of a participating institution if the coaches agree in writing to the host institution at least 10 days prior to the meet."

• Adopted a policy that prohibits score inquiries during championships individual-event competition.

The committee also discussed, but took no action on, regional alignments, qualification format in general, cut-off date for qualifying scores and cut-off dates for allowing alternates into regional or national championships.

• Voted to return to the use of four judges per event in individual competition during the Divisions I and II championships.

• Voted to develop a coaches' and judges' code of ethics for inclusion in the championships handbook.

• Approved the following policy relative to criteria for selecting judges:

"No present coach or parent of a gymnast, relative of a participating coach in the Division I or Division II regional or national championships competition, or employee or full-

ference (Bloomsburg, 26-3).

Akron, last year's runner-up, is ranked fifth in the latest poll and could be a challenger. Shortstop Kay Piper (.419) and third baseman Tracie Alcorn (.463) have led the offensive charge.

Other teams with play-off hopes are Long Island-C.W. Post (25-5), Southern Illinois-Edwardsville (27-8), Cal State Hayward (34-16), Portland State (17-10), Mississippi University for Women (18-13) and Florida Southern (20-8).

has the ability to come up with the spectacular play when we need it."

Ursinus, considered one of the favorites, has been spectacular in recent postseason play-off action for Division III programs sponsored by the U.S. Women's Lacrosse Association (USWLA). The Bears won the last two USWLA Division III titles and could advance to the first NCAA Division III championship game.

Other teams under consideration include Wheaton (Massachusetts) (9-2); Drew (12-0); Ithaca (8-3); Cortland State (7-2); St. Lawrence (8-3); Gettysburg (8-2); Franklin and Marshall (8-8); Denison (9-2); Lynchburg (13-4), and Sweet Briar (10-2).

at-large position in each individual event be guaranteed for a student-athlete from a Division II or Division III institution, unless a Division II or III gymnast already has qualified for the championships. This recommendation was denied by the Executive Committee a year ago.

In other administrative actions, the committee:

- Voted to utilize the International Gymnastics Federation (FIG) Competition I during regular-season competition, Competition II in the team portion of the national championships and Competition III for the individual finals.

- Altered the team and individual selection criteria for the national championships. For 1986, selection will be based on average score for the team championships. However, teams with averages within .50 points of a qualifying team may challenge the selection. If a challenge is lodged, the review of that challenge will be based on head-to-head competition, late-season performance and the strength of schedule of the teams.

For all-around selection to the championships, an average of six regular-season scores will be used

five of the scores must be optional performances (at least three away) and one a compulsory score.

- Approved the following statement concerning protests during competition: "A protest or complaint regarding incorrect meet procedure or a judge's evaluation of difficulty or combination should be submitted in writing to the head judge (or games committee, if applicable) within 15 minutes of the incident by the team coach. It can only concern his own team or individual gymnast(s)." A printed form is being developed for use in the regular season and championships.

- Voted to require that, beginning in 1987, institutions wishing to serve as hosts to National Collegiate Championships competition be required to guarantee 75 percent of the projected revenues listed on the proposed budget submitted.

- Voted to distribute a questionnaire to all NCAA men's gymnastics coaches to gain advice on the possibilities of: (a) initiating all-around finals competition, to be included with the team finals, at the championships, and (b) a common-site men's and women's gymnastics championships.

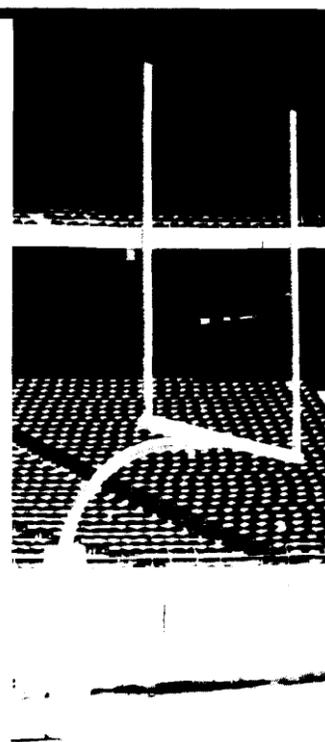

- Approved an addition to the National Collegiate Championships handbook recommending that letters used for identification of the gymnasts' uniforms be at least two inches in height.

- Voted to change the seeding procedures for team and individual finals competition at the national championships. The top three teams will be seeded in Olympic order, based on their preliminary scores; teams previously had been seeded on the basis of a blind draw held before the start of the finals competition.

In individual events, seeding will be determined by a blind draw involving the top and bottom halves of the finalists' standing, based on scores (i.e., the top four qualifiers would be seeded one through four by blind draw, and the bottom four qualifiers would be seeded five through eight by blind draw).

Slingshot "87"

and the
ADDED
MEASURE
PADDING

From the inventor of the first single standard goal post comes slingshot "87" complete with one piece uprights that meet the NCAA requirements of 1987 with additional safety features. 3 models: Pro-College "20" and High School "20".

National introduces "added measure" padding "78" and "84" designed for safety at a price to suit your budget. Added measure padding increases the scope of safety at a decreased cost.

Summary of NCAA Council actions

Following is a listing of all actions taken by the NCAA Council in its April 15-17, 1985, meeting in Kansas City, Missouri.

Interpretations

All new or revised interpretations approved by the Council will appear in *The NCAA News*, which constitutes official circularization per Constitution 6-2. Several appeared in the April 24 issue.

In addition to those, the Council agreed that in the future, specific information regarding the year in which an institution must comply with new membership criteria will accompany the effective date of any legislative proposal to change those criteria.

Concluded that existing policies and practices regarding the granting of relief from the application of NCAA eligibility legislation

should be continued, and there should be no discretionary authority to grant such relief except as specified in legislation adopted by the membership.

Agreed to consider in its August meeting a policy requiring that any proposal to the Council (including proposed legislation) that would result in increased costs to member institutions must include an estimate of those costs when such a proposal is submitted.

Directed the staff to develop an interpretation for consideration in August to clarify the timing of eligibility changes between terms.

Noted that the Division I Steering Committee will ask the Postseason Football Committee and the Division I Men's and Women's Basketball Committees to recommend how the new legislation regarding complimentary admissions should be handled for bowl games and NCAA championships where a member institution is not in charge of the facility.

Approved a Division II Steering Committee recommendation that a Division II member

institution be permitted to count a conference game or games played in Alaska or Hawaii toward meeting that division's scheduling criteria.

Membership

The Council and division steering committees took the following actions regarding membership applications and requests:

Granted a request by Georgia Southern College for an exception to the three-year membership requirement to permit the institution to reclassify its women's swimming program from Division II to Division I.

Approved the use of non-NCAA sports per Bylaw 11-4-(b)-(7) at the University of Richmond (women's synchronized swimming) and the University of San Diego (women's crew) and continuation of the use of men's crew at the University of Santa Clara.

Directed the staff to determine if the minimum requirement of four contests in crew is sufficiently stringent.

Established minimums of six contests and 12 participants per contest and a maximum of eight grants-in-aid as requirements for approval of woman's synchronized swimming per Bylaw 11-4-(b)-(7).

Denied a request by Northern Michigan University for a waiver of the sponsorship of a spring sport per Constitution 4-2-(g)-(2).

Granted a request by Seattle Pacific University for a waiver of the Division II scheduling requirement per Bylaw 11-2-(f).

Denied a request by Bemidji State University for a geographical waiver per Bylaw 11-2-(g), pending receipt of additional information.

Approved the continuation of Bylaw 11-2-(g) geographical waivers for Davis and Elkins College, Pembroke State University, Pfeiffer College, Regis College (Colorado), Southern Utah State College, and Western State College (Colorado).

Approved continuation of the Claremont McKenna-Harvey Mudd-Scripps Colleges consortium membership per Consortium 3-(m).

Approved continuation of the Constitution 4-2-(g)-(2) spring sport waiver for Maine Maritime Academy.

Approved continuation of Bylaw 11-3-(f) geographical waivers for the University of California, San Diego, California State College, Stanislaus, and Incarnate Word College.

Approved a revision of the certification of compliance form and noted that it would be mailed to the membership in April instead of May.

Appointments

The Council appointed the Nominating Committee and the Men's and Women's Committees on Committees as reported elsewhere in this issue of *The NCAA News*.

Appointed Willie Shaw, Lane College, to replace William D. McHenry, Washington and Lee University, as a member of the Committee on Competitive Safeguards and Medical Aspects of Sports; appointed James C. Puffer, M.D., University of California, Los Angeles, to replace McHenry as chair of that committee; appointed Susan True, National Federation of State High School Associations, to replace Richard D. Schindler, NFSHSA, on that committee. All appointments are effective September 1, 1985.

Appointed Donald M. Russell, Wesleyan University, to replace Robert F. Riedel, Geneseo State University College, on the Long Range Planning Committee, effective September 1, 1985.

Special Convention

Heard a presentation by John W. Ryan, chair of the NCAA Presidents Commission, and voted unanimously to cosponsor all eight of the Commission's legislative proposals for the special Convention June 20-21 in New Orleans, as reported in the April 24 issue of *The NCAA News*; also voted to sponsor four additional proposals as reported in that issue of the *News*.

Agreed not to sponsor legislation at the special Convention to move the financial aid limitation from the constitution to the bylaws, to reinstate the overall limit of 70 on the permissible value of grants in the Division I men's equivalency sports, and to eliminate eligibility for varsity competition for freshmen in the sports of football and basketball in Division I, noting that the freshman-eligibility proposal would not be in order for the special Convention because it does not deal with the specified issues of integrity and economics.

In a related consideration, the Council approved a Division I Steering Committee submission of a summary position statement and a recommended program to enhance institutional integrity and compliance with intercollegiate athletics policies and rules as reported in detail in the April 24 issue of *The NCAA News*.

Legislation

The Council voted to resubmit for the 1986 Convention the following proposals that were defeated, referred or not considered at the 1985 Convention:

Proposal No. 51, to permit an undergraduate student-athlete to receive financial aid beyond the period of eligibility set forth in Bylaw 4-1 and beyond the six years specified in Constitution 3-4-(b).

Proposal No. 66, to permit a Division II member to petition to be classified in Division

III in a sport if there is a Division III championship in that sport but no Division II championship.

Proposal No. 126, or a modification thereof, to eliminate or adjust the one-time exception to the transfer residence requirement under specified conditions.

Proposal No. 136, to permit a student who transfers to a Division III institution from a non-member four-year institution after competing at the previous institution to be eligible immediately if the student receives a written release from the director of athletics at the previous institution.

Proposal No. 137, to limit the application of the tryout rule to those individuals who have begun classes for the ninth grade or have attained their 15th birthday, to clarify the exceptions to the tryout rule, to provide a definition of "open" competition involving prospects that can be approved by the NCAA Council, and to incorporate the requirements of current Bylaws 1-6 and 1-10 and Case No. 419 into a new Bylaw 1-7.

Proposal No. 140, to prohibit the issuance of institutional or conference financial aid agreements prior to the initial signing date stipulated for the sport in the National Letter of Intent program, and to apply the legislation to all sports rather than only to football and basketball.

In other actions regarding 1985 Convention proposals, the Council:

Agreed not to resubmit Proposal No. 38, to delete the conference voting privilege.

Deferred action until August on resubmitting Proposal No. 45, to move from the constitution to the bylaws the definition of commonly accepted educational expenses and the limitations on the total amount of financial aid in combination with funds from other sources that a student-athlete may receive.

Agreed not to resubmit Proposal No. 47, to permit a student-athlete to receive a full grant under NCAA legislation plus \$1,400 of a Pell Grant, until the issue of placing the grant limitation in the bylaws is resolved.

Agreed similarly not to resubmit Proposal No. 54, permitting receipt of \$1,400 from other governmental grants in addition to the full NCAA grant.

Agreed not to resubmit Proposal No. 57, which would have included in the definition of financial aid for Bylaw 6 purposes assistance awarded from outside sources under certain conditions.

Took no action on resubmission of Proposal No. 71, to reduce the number of full-time assistant coaches in Division I-AA football programs.

Deferred action until August on resubmitting Proposal No. 89, to permit member institutions to pay drug-rehabilitation expenses for student-athletes, and referred the issue to the Special Committee for National Drug-Testing Policy.

Agreed not to resubmit Proposal No. 115, to prohibit member institutions from conducting practice in football and basketball at sites other than the site(s) regularly utilized by the institution.

Agreed not to resubmit Proposal No. 122, to replace the Division I five-calendar-year limitation on eligibility with a five-year residence limitation.

Agreed not to resubmit Proposal No. 123, to eliminate the exceptions to the five-year rule for time spent in the armed services, on official church missions or with recognized foreign aid services of the U.S. government.

Took no action on resubmitting Proposal No. 78, to delete the existing restrictions on the permissible dates for extending and considering invitations to participate in certified postseason football games.

Agreed not to resubmit Proposal No. 58, to establish a unit system for making equivalency calculations in Division I sports.

Deferred action until August on resubmitting Proposal No. 104, to establish playing-season limitations in all sports in Division III.

Noted that Proposal No. 132, to permit student-athletes granted additional seasons of competition in Division I per Bylaw 5-1-(d)-(6) to utilize those seasons at Division II institutions, has become moot.

Referred to the Eligibility Committee Proposal No. 135, to permit an exception to the normal transfer residence requirement for a transferring nonrecruited student-athlete who participated in a limited preseason tryout.

Agreed not to resubmit Proposal No. 37, to reduce the terms of individuals serving on the standing committees of the Association from three years to two years.

Noted that Proposal No. 75, the 1985 drug-testing proposal, is in the hands of the Special Committee for National Drug-Testing Policy.

Noted that Proposal No. 84, a resolution reaffirming the membership's commitment to the Association's existing principles of amateurism, now is being treated in the broader context of the summary position statement and recommended program approved by the Council in this meeting (reported in the April 24 issue of *The NCAA News*).

The Council voted to sponsor the following legislation at the 1986 Convention:

An amendment to Bylaw 1-8-(f) to specify that an institution's intercollegiate team must compete in a campus athletics event in order for the institution to provide complimentary admissions to a prospect visiting the institution's campus at his or her own expense.

An amendment to Bylaw 11-4-(b)-(2) to establish a minimum number (four) of participants in each contest in women's fencing in

order to count the sport toward the Division I or II sports sponsorship criteria.

An amendment to Bylaw 12-3-(u) to increase the size of the Professional Sports Liaison Committee from six to eight by adding representatives of the American Football Coaches Association and the National Association of Basketball Coaches.

An amendment to Constitution 5-2-(a)-(3) to exclude the division vice-presidents from consideration in the numerical representation requirements for the Executive Committee.

An amendment to Bylaw 1-4-(b) to affirm that a Division I-A head football coach cannot be present at an off-campus site for the signing of a National Letter of Intent or the acceptance of an athletics grant-in-aid to be provided upon enrollment.

An amendment to Bylaw 4-1-(b) to authorize the Council to grant additional extensions of the five-year period of eligibility for student-athletes at Division III institutions only.

An amendment to several portions of Bylaw 12-4 to eliminate representatives of high school or junior college interests from NCAA sports committees.

An amendment to Executive Regulation 1-1 to affirm that teams in a sport in a division that has a national championship in that sport shall not be counted toward meeting the minimum sports sponsorship percentage necessary to continue or to establish a National Collegiate Championship in that sport.

Committee Reports

Postseason Football: The council approved the existing radio policy for bowl games and agreed that it should be considered a recommendation only.

The Council approved certification of the same 18 bowl games as were conducted in 1984-85, as listed in the April 17 issue of *The NCAA News*.

The Council reminded the committee that it expects recommendations regarding the criteria for certifying new bowl games, noting that four new games had submitted applications to the committee. It also expressed concern regarding the committee's intentions in the area of levying fines on bowl managements for violating the provisions of Bylaw 2 or the committee's own policies. The Council voted to ask the Administrative Committee to authorize an additional meeting of the Postseason Football Committee, with the committee to report to the Council in August in those two areas.

The Council approved the committee's recommendation that the minimum payout requirement for 1986-87 bowl games be increased from the current \$400,000 per team to \$500,000 per team.

Academic Requirements: Approved a request that the committee be permitted to send a representative to the first meeting of the Special Academic Standards Committee.

Division I Steering: The Council approved the committee's recommendation that approval be granted to the Special Committee on Academic Research to begin its research for this year.

The Division I-AA Council members had voted unanimously not to conduct a Division I-AA summer legislative meeting if the special Convention adopts a proposal to make such meetings optional on an annual basis. The Division I-A Council members will make a decision regarding a Division I-A summer legislative meeting for 1985 prior to the special Convention in June.

The committee also voted to ask the Academic Requirements Committee to review the provisions of Bylaw 5-1-(j)-(6)-(iii) and Case No. 321 and submit a recommendation as to possible changes in that case as it relates to counting remedial courses toward the satisfactory-progress requirements.

Division II Steering: The committee voted not to sponsor legislation to exempt the National Catholic Basketball Tournament from the limitations on numbers of contests.

It also will report to the Executive Committee concerns expressed by the Division II Women's Basketball Committee regarding the separation of the Division II Men's and Women's Basketball Championships.

Division III Steering: The committee will review legislation in August to include a reference to athletically related financial aid in the provisions of Bylaw 5-1-(m)-(14)-(vi).

The committee has prepared a proposal to submit to the May meeting of the Executive Committee regarding funding for Division III championships.

Competitive Safeguards and Medical Aspects of Sports: The Council approved two additions to the NCAA Sports Medicine Handbook, one a new Policy No. 17 regarding guidelines for participation by pregnant student-athletes and the other an addition to Policy No. 2 on field conditions.

National Drug-Testing Policy: The Council appointed George Raveling, University of Iowa, to the special committee replacing John R. Thompson Jr., Georgetown University, declined.

Women's Interests: The Council agreed to sponsor legislation at the 1986 Convention to base representation on the Men's and Women's Committees on Committees on geographical regions, rather than NCAA districts.

The Committee also asked that the Council consider legislation in August to assure that the sports of baseball and women's softball have the same limitation on the number of contests in a season.

Legislative Assistance

1985 Column No. 18

Recruiting—advertisements for summer camps

Under the provisions of Case No. 186 (page 309, 1985-86 NCAA Manual), member institutions or conferences may not buy or arrange to have space in game programs or other printed materials (e.g., periodicals designed to analyze recruiting activities) for any purpose whatsoever. This prohibition would extend to advertisements regarding member institutions' summer camps or clinics. The regulation was prompted in part by the concern of member institutions that the advertisements were not an appropriate means of recruiting and that institutions were being pressured by competitive recruiting considerations to purchase advertisements in a number of sports publications.

Indoor track championships

At its April meeting, the NCAA Council approved the following interpretations concerning NCAA Bylaw 10-6-(c) for those Division II member institutions that wish to declare their intention to participate in Division III men's or women's indoor track championships:

1. No student-athlete who receives financial assistance contrary to Division III financial aid regulations set forth in Bylaw 11-3-(a) would be eligible to compete in the Division III track championships. For example, a student-athlete who is the recipient of an athletics grant-in-aid in any sport at the Division II institution would not be eligible for the Division III championships.

2. In accordance with subparagraph (2), such a Division II member institution must schedule and play more than 50 percent of its contests against members of Division III. If the majority of institutions participating in a particular indoor track competition are Division III members, the Division II institution may count that contest as a Division III competition.

Council interpretations

At its April meeting, the NCAA Council developed several interpretations, including those that appear in the Interpretations Column on page 15 of this issue. Please note the following:

GED scores

1. The Council revised Case No. 337 (pages 353-354, 1985-86 NCAA Manual) to confirm its existing interpretation that a prospective student-athlete must satisfy the conditions of Case No. 337 prior to initial enrollment as a full-time, regularly matriculated student in a collegiate institution.

Junior college student—non-high school graduate

2. The Council revised Case No. 34 (pages 352-353, 1985-86 NCAA Manual) to confirm its existing interpretation that a prospective student-athlete who is not a high school graduate at the time of regular enrollment in a junior college is considered to be a junior college transfer who was a 2,000 nonqualifier upon enrollment in an NCAA member institution.

Good-will tour expenses

3. The Council approved Situation No. 627 to permit an institution to pay the actual and necessary expenses for a student-athlete to participate in a preseason "good-will" tour to promote its intercollegiate athletics program. The tour may not involve more than two student-athletes in the same sport with eligibility remaining and is confined to the state in which the institution is situated or, if outside the state, a distance not to exceed 100 miles from the institution's main campus.

Complimentary tickets

4. The Council approved Situation No. 632 to provide assistance in implementing the amendments to Constitution 3-1-(g)-(3) concerning complimentary tickets, which become effective August 1, 1985.

Basketball practice

5. The Council approved Situation No. 633 to confirm that under the provisions of Bylaw 3-1-(a)-(1), only team-conditioning or physical-fitness activities supervised by coaching staff members may be conducted prior to October 15. This would preclude members of the institution's coaching staff from being involved with one or more team members in any location in setting up offensive or defensive alignments, chalk talks, discussions of game strategy, reviewing game films or videotapes, or activities utilizing a basketball.

As set forth in Bylaw 3-1-(d), it is permissible to designate a single date for the taking of squad pictures and to have medical examinations at any time following the beginning of classes in the fall term.

Finally, effective August 1, 1985, Bylaw 3-1-(a)-(1) becomes applicable to women's basketball in all three divisions.

This material was provided by the NCAA legislative services department as an aid to member institutions. If an institution has a question that it would like to have answered in this column, the question should be directed to Stephen R. Morgan, assistant executive director, at the NCAA national office.

Interpretations

GED scores

(Revises Case No. 337)

Situation: A prospective student-athlete does not graduate from high school but subsequently completes the General Educational Development (GED) test and obtains a state high school equivalency diploma. (226)

Question: By what means may the prospect establish eligibility for practice, participation and athletically related financial aid under the provisions of Bylaw 5-6-(b) [2,000 rule]?

Answer: Prior to initial enrollment as a full-time, regularly matriculated student in a collegiate institution, the prospective student-athlete must present a state high school equivalency diploma and a minimum average score of 45 on the five-part GED test in order to be considered a 2,000 qualifier. Only scores from a GED test taken by the student-athlete after one calendar year has elapsed from the date the student's high school class (i.e., the last class of which the student was a member while enrolled in high school) normally graduates shall be utilized. [B 5-6-(b)]

Junior college student—non-high school graduate

(Revises Case No. 334)

Situation: A prospective student-athlete does not graduate from high school before enrolling as a regular student in a junior college. The prospect transfers junior college work back to the high school and graduates from the high school. (233)

Question: Is it permissible for the prospect to establish eligibility under Bylaw 5-6-(b) [2,000 rule] solely on the basis of the high school record?

Answer: No. Inasmuch as the prospective student-athlete was not a high school graduate at the time of regular enrollment in a junior college, the prospect is considered to be a junior college transfer who was a 2,000 nonqualifier upon enrollment in an NCAA member institution. To be eligible at a Division I member institution, the prospect shall satisfy the junior college transfer provisions applicable to individuals who do not graduate from high school with a minimum 2,000 grade-point average. [B 5-1-(j)-(9) and B 5-6-(b)]

Good-will tour expenses

Situation: An institution conducts a preseason "good-will" tour to promote its intercollegiate athletics program. The tour consists of meetings with local groups, organizations or media representatives in one or more communities. (627)

Question: Is it permissible for the institution to pay the actual and necessary expenses for a student-athlete to participate in the tour?

Answer: Yes, provided that the tour does not involve more than two student-athletes in the same sport with eligibility remaining and is confined to the state in which the institution is located or, if outside the state, a distance not to exceed 100 miles from the institution's main campus. [C 3-1-(h)-(1)]

Complimentary tickets

Situation: Effective August 1, 1985, Constitution 3-1-(g)-(1) restricts the use of each student-athlete's complimentary admissions to family members, relatives and fellow students designated by the student-athlete and provides that admission to the event shall be through use of a pass list rather than the distribution of tickets. (632)

Question: What individuals may be designated to receive a student-athlete's complimentary admissions and how is admission to the event to be handled?

Answer: In addition to the student-athlete's own family members, relatives or fellow students, it is permissible for a student-athlete to designate that complimentary admissions are to be utilized by specific family members or relatives of a teammate. Once an individual properly has been admitted to the event facility through identification by the person supervising the use of the pass list at the admission gate, the individual may be provided with a ticket stub or other designation of a specific reserved seat, directed to a specific reserved section or seating area, or treated as a general admission ticket holder. [C 3-1-(g)-(3)]

Basketball practice

Situation: In basketball, on-court practice by a member institution's intercollegiate basketball team held at the direction of, or supervised by, any member or members of the institution's coaching staff shall not take place prior to October 15. (633)

Question: What activities supervised by the institution's coaching staff are permissible for the team prior to October 15?

Answer: Team conditioning or physical-fitness activities supervised by coaching staff members may be conducted prior to October 15; however, members of the institution's coaching staff may not be involved prior to October 15 with one or more team members at any location in setting up offensive or defensive alignments, chalk talks, discussions of game strategy, reviewing game films or videotapes, or activities utilizing a basketball. [B 3-1-(a)-(1)]

Classification petitions have deadline of June 1

Institutions desiring to change classification must have their petitions in to the NCAA national office by June 1. The petitions also will be accepted with a postmark no later than May 25.

The NCAA Classification Committee will meet July 11 in Kansas City to consider all petitions for changes in division membership or multisport classifications as dictated by the provisions of Bylaws 10-3 and 10-4.

The committee will determine if those requesting a change meet the applicable membership criteria, as set forth in Bylaw 11, of the division to which the transfer is planned.

Also, the committee must consider whether the institution has operated in conformity with all other bylaw

requirements of the division for a two-year period prior to June 1.

If all requirements are met, the member will be transferred to the new division effective September 1, 1985, or the beginning of practice in any sport for that fall term or the first day of classes for that fall term, whichever occurs first.

Institutions choosing to change division membership or multisport classification must remain in the new division for three years. The committee also will consider applications for new membership.

Any institution planning a change in membership classification or multisport classification in a men's or women's sport may obtain a copy of the official petition form by contacting Shirley Whitacre, membership coordinator, at the national office.

1986 Convention

Continued from page 1

(Division II, District 2); Kenneth A. Free, Mid-Eastern Athletic Conference (Division I, District 3); Michael Johnson, University of Houston (Division I, District 6); C. Arnold Ferrin Jr., University of Utah (Division I, District 7); Norman B. Jones, Utah State University (Division I, District 8); John L. Spring, Oswego State University College (Division III, at large), and Dennis J. Keihn, California State University, Los Angeles (Division II, at large).

Committee members serve three-year terms and are responsible for nominations to the men's sports committees.

Women's Committee on Committees

Four new members were appointed: Margie McDonald, High Country Athletic Conference (Division I, District 7); Kay Don, California State University, Long Beach (Division I, District 8); Rosemary Fri, University of Northern Colorado (Division II, District 5), and Mary Lou Thimas, Bridgewater State College (Division III, District 1).

Continuing members are P. LaVerne Sweet, Hampton University (Division II, District 2); Marjorie T. Berkley, Hollins College (Division

III, District 3); Karen Womack, Miami University of Ohio (Division I, District 4); Jeannine McHaney, Texas Tech University (Division I, District 6); Betty Kelly Austin, Alabama A&M University (Division II, at large); Eve Atkinson, Temple University (Division I, at large); Elizabeth Mullarkey, University of Wisconsin, LaCrosse (Division III, at large), and Roby (Division I, at large).

Members of the Women's Committee on Committees serve three-year terms and are responsible for nominations to fill vacancies on the women's sports committees.

Official

Continued from page 1

time of Convention registration. In such cases, the institution's representatives will be registered as visitors until written authorization is received from the chief executive officer.

- Once the form has been signed and submitted by the chief executive officer, no one may be added as a voting or alternate delegate without a letter or telegram from the chief executive.

- Once the voting and alternate delegates have been appointed properly, they may transfer voting rights among themselves as the institution desires. No badges will be changed among voters and their alternates at the Convention.

- Conferences without voting privileges, affiliated members and corresponding members may appoint one delegate each. That delegate may speak on the Convention floor but will not have voting privileges.

- NCAA members and nonmembers are permitted to register as many visiting delegates as they wish. Visitors are considered observers and may neither address the Convention nor vote.

In a mailing this week, the chief executive officer, faculty athletics representative, director of athletics and primary woman athletics administrator of each active member institution and the chief executive of each conference and affiliated member received a form for making reservations at the

Hyatt Regency Hotel. Member institutions are urged to handle their own hotel reservations to assure that duplicate reservations are not made.

Registration fee for the special Convention is \$20, one-half of the amount at annual NCAA Conventions. The fee is \$20 whether the attendee is a voting or alternate delegate or visitor.

The \$20 fee includes admission to the general round table discussion session Thursday, June 20, from 2 p.m. to 5 p.m.; the delegates reception Thursday, June 20, from 6:30 p.m. to 8 p.m., and the general business session Friday, June 21, from 8 a.m. to noon and 1:30 p.m. to 4 p.m.

A listing of all meetings to be held in conjunction with the 5th special NCAA Convention appears below.

Executive

Continued from page 1

cross country, and sometimes all three.

Among the 14 sports committee reports are requests to expand the Division I men's soccer championship field from 23 to 24 teams. Division III men's from 24 to 28 teams and the National Collegiate Women's Soccer Championship bracket from 14 to 16 teams. The Women's Soccer Committee also is requesting the elimination of the third-place game at the national championship because of poor attendance and a lack of enthusiasm.

The Division II Women's Basketball Committee is asking the Executive Committee to reconsider a request made at the December 1984 meeting regarding separating the men's and women's championships, beginning in 1987.

The women's committee is basing its request to reconsider on the fact that in each of the four years the championships have been conducted jointly, total paid attendance and gross receipts have increased; preliminary inquiries indicate that institutions are reluctant to host the women's championship unless their team is involved; all Division II women's coaches at a recent Women's Basketball Coaches Association meeting voted in favor of the common-site championships, and common-site games are not a departure from what is done at a number of Division II institutions during the regular season.

The Men's Soccer Committee is requesting the inclusion of head-to-head competition as a championship selection criterion on a par with won-lost record, strength of schedule, and eligibility and availability of student-athletes for NCAA postseason competition.

The committee's request is based on the belief that the addition of head-to-head competition will improve and clarify the selection process. Unless extenuating circumstances are involved (i.e., significant injuries), the committee believes a head-to-head result is an obvious gauge in comparing two teams.

Convention schedule

Wednesday, June 19		
8 a.m.-5 p.m.	Metropolitan Collegiate Athletic Conference	O'Hare
9 a.m.-5 p.m.	NCAA Press Room	Burgundy A & B

Sports

Continued from page 1

tion's membership," Jacoby said.

"For example, there probably are members with soccer facilities that do not meet the minimum specifications set forth in the men's soccer rules. Or there may be conferences that traditionally have conducted a championship program in swimming that does not include all of the events prescribed in the swimming rules for men and women."

There also may be situations in various rules where there is no apparent penalty for a violation of the rules. According to Jacoby, this would have resulted in a situation where the NCAA enforcement procedure appeared to be the only machinery available for penalizing a rules violation.

"The special committee's most immediate concern was that there was not sufficient time for sports committees to react and make the necessary changes before the August 1 effective date," Jacoby said. "Therefore, we asked the NCAA Council to sponsor legislation at the Association's June special Convention to delay the effective date for one year."

The Council agreed to sponsor the legislation but kept the effective date in place for football and men's basketball, which had been in effect prior to the adoption of No. 119, and women's basketball rules, which are being developed for the first time this year.

At its first meeting April 15 in Kansas City, the special committee reviewed all of the rules in general and identified specific problems that appear to be common in each set of rules.

In developing broad guidelines for the sports committees, the special committee made the following observations:

1. Rules governing the actual on-court or on-field play of a contest should be unalterable as established by the sports committees; further, "mutual consent" alterations should not be considered an appropriate option in these rules, inasmuch as that would invalidate the intent of Bylaw 3-5.

2. Those rules dealing with the administration of a contest should be separated from the playing rules and

published in a format different from the rules (but in the same book). Also, some of the administrative rules could be altered by mutual consent.

3. Because the requirement to follow NCAA playing rules in regular-season competition is new, facility specifications should make some allowances for existing courts, fields and areas of play.

4. Penalty procedures should be put in place for specific violations to minimize instances in which the NCAA enforcement procedures may have to be utilized.

The special committee has asked each sports committee to review its rules and make a report to the special committee within two weeks after the sports committee's next meeting.

The guidelines for rules modifications issued by the special committee are:

1. All existing rules established by NCAA sports committees with rules-making responsibilities are subject to review by the Special NCAA Committee to Review Playing Rules and final approval of the NCAA Executive Committee.

2. Player safety should be the primary consideration of the sports committees in the establishment or modification of playing rules.

3. Committees shall identify the playing rules (e.g., number of competitors in the contest at any one time, duties of officials, scoring) and administrative rules (e.g., facility specifications, number of officials, types of timing equipment) governing their sports. (a) Playing rules may not be altered under any circumstances by competing institutions, except for experimentation purposes approved by the sports committees. (b) Administrative rules shall be divided into two categories: i.e., those that competing institutions may alter by mutual consent or by exceptions from the sports committee for experimentation purposes, and those that cannot be altered and for which violation would be subject to the Association's enforcement procedure.

4. Committees shall add appropriate language to rules regarding facility specifications that would embrace the following philosophy: (a) Current and traditionally used facilities should not be required to meet the present specifications in the various rules. (b) Any new rules or changes to current rules regarding facility specifications shall include sufficient flexibility to allow for current and traditionally used facilities. (c) New and renovated facilities shall meet specifications established in the various playing rules that are current at the time of construction.

5. Any rules change that would result in economic impact for either the member institution or the Association shall be accompanied by an analysis and cost estimate.

6. Committees shall insure that penalty procedures to be used by the contest officials or management are included for violations of the playing rules.

It's not all fun and games. Today's teams mean business.

Winning is far more complex today than it used to be. Success equates with survival... and survival is serious business. From collegiate teams in need of fatter alumni dollars to professional organizations whose existence depends on profits, success is financially imperative. Anything that boosts performance... that gives you an edge on your opponents... is vital.

Sportsystems provides that edge. Eleven independent software systems... including CASI sports instruction, player evaluation, scouting, ticketing and financial management... give you the tools for better manage-

ment and better play. And because all Sportsystems run on personal computers, costs are much lower than those of our competitors.

When it's your business to win, call Sportsystems toll-free at 1-800-447-CASI. We'll show you how to improve productivity on and off the field. The fun and games come later... when you celebrate a perfect season.

Oklahoma rejects Big Eight TV pact

The Oklahoma board of regents has voted 6-0 not to participate in a Big Eight Conference television package this fall. The other seven Big Eight schools had approved a two-year pact bid by Raycom. Unanimous approval is needed for the package.

The regents vote was based on the belief that the Raycom offer was not enough to offset the harm that would be done by overexposure on TV. Katz paid \$125,000 per Big Eight game in 1984. Raycom bid \$75,000 a game for 1985 and \$90,000 per game for 1986.

Missouri Valley to drop football

The presidents of the Missouri Valley Conference voted April 30 to drop football as a conference sport, effective after the 1985 season.

Football programs will continue at the respective league schools but without conference affiliation.

Missouri Valley football was a mixture of Division I — the University of Tulsa and Wichita State University — and Division II teams — Drake University, Indiana State University, Terre Haute; Southern Illinois University, and West Texas State University.

Tulsa had been considering dropping its league affiliation to become independent, according to the Associated Press.

The presidents also agreed to a minimum of a three-year commitment for member schools to remain in the conference.

The NCAA News

NCAA Record

CHIEF EXECUTIVE OFFICERS

HARRY AUSPRICH, dean of the college of fine and professional arts at Kent State, named president of Bloomsburg, effective July 15. **M. DANIEL HENRY**, vice-president for administration at Dayton, appointed president of St. Leo, effective July 1. **JAMES D. MCCOMAS**, president of Mississippi State, selected president of Toledo, effective in July. **VIRGINIA B. SMITH**, president of Vassar, resigned, effective in June 1986.

DIRECTORS OF ATHLETICS

HOWARD B. MACADAM resigned at Buffalo State, effective August 31. **EUGENE D. SMITH** named at Eastern Michigan on an interim basis. **CARL R. MEYER** appointed at Cincinnati, succeeding **DAVE CUREY**, who served on an interim basis in addition to being head football coach. Meyer previously served as associate director of athletics at Arizona.

ASSISTANT DIRECTORS OF ATHLETICS

WILLIAM "LEF" MOON selected at Kansas State. Moon previously served as an assistant football coach and administrative assistant at Mississippi State. **BILL HARDEKOPF** appointed at Southern California, where he will oversee marketing and promotions. **MIKE PRUSINSKI** selected at Kansas, succeeding **BARB ZEFF**, who resigned. Prusinski has worked as a part-time assistant in Kansas' sports information department since January 1984.

COACHES

Baseball — **JEFF SPARAGANA** named at Albright, where he also will serve as an assistant football coach and physical education instructor.

Men's basketball — **J.D. BARNETT** appointed at Tulsa. Barnett, the winningest coach in Virginia Commonwealth history, compiled a 132-48 record in six seasons. **ANDY WALKER** selected at Niagara, succeeding **PEFTE LONERGAN**, who resigned. Walker, an assistant under Lonergan, is the eighth former Niagara player to be named the team's head coach. **DALE BROWN** received a five-year contract at Louisiana State. Brown has been at Louisiana State for 13 seasons. **LARRY LITTLE** resigned at Hawaii (see notables). **JAY HOLLOCK** resigned at Gonzaga after compiling a 60-50 record in four seasons (see assistants).

Men's basketball assistant — **JAY HILLOCK** named at Loyola Marymount.

Women's basketball — **BILLIE MOORE** received a three-year contract extension at UCLA. Moore, the sixth winningest active women's coach, has a 169-79 record after eight years. **CAROL MASTACOURIS-GEORGE** resigned at Lowell, effective immediately.

Men's and women's cross country — **FRED BINGGOLI** selected at Virginia, where he also will serve as an assistant for the men's and women's track and field teams. Binggoli led

Gene Smith appointed interim athletics director at Eastern Michigan

Dale Brown, LSU men's basketball coach, signed new five-year contract

J.D. Barnett selected as head men's basketball coach at Tulsa

Southeast Missouri State's men's and women's teams to first- and third-place finishes, respectively, at this year's NCAA Division II Men's and Women's Cross Country Championships.

Football — **GREG GIGANTINO** resigned at Iona. **BILL NOXON** resigned at Western State (Colorado), where he compiled an 84-43-2 record in 14 seasons.

Football assistants — **GREG MCINTOSH** named at Purdue, where he will serve as linebacker coach. **JIMMY STOWE** appointed at North Carolina State, where he will serve as tight-end coach. **JOHN MATSKO** selected at Navy. **BILL DRAKE** named at Tennessee Tech. Drake has served as an assistant at Nevada-Las Vegas, Washington, Nevada-Reno, Southern Methodist, North Texas State and Indiana (Pennsylvania). **STEVE SPENCER** resigned at Southwest Missouri State to become football and track coach and athletics director at Springfield (Missouri) Catholic High School. **JAMES E. TRESSLER** named at Ashland, where he will serve as offensive line coach. **LEW CURRY**, **TIM HERMANN**, **ROCKY HAGER** and **KEVIN DONNALLY** appointed at North Dakota State.

Women's soccer — **THOMAS GRIFFITH** appointed at Princeton, succeeding **ROBERT MALEKOFF**. Griffith has served as Dartmouth's men's coach for the past 11 years. **RONOLD EBER** selected at Willamette.

Men's and women's track and field — **VINCE O'BOYLE** named at UC Irvine. O'Boyle, an assistant since 1982, has been head men's and women's cross country coach since 1982.

Water polo — **MIKE SCHOFIELD** appointed at Navy.

CONFERENCES

RICHARD MARTIN, Missouri Valley Conference commissioner since 1981, resigned, effective June 30, to enter business. **GURNFY CHAMBERS**, faculty athletics representative at Western Carolina, elected president of the Southern Conference.

NOTABLES

STEVE COMBS resigned as executive director of USA Wrestling, the national governing body for amateur wrestling. During Combs' 11-year tenure, the organization grew from a membership of 9,000 registered athletes to more than 90,000 and achieved recognition as the sport's national governing body and international representative. **GEORGE BLANEY**, Holy Cross men's basketball coach, selected to the National Association of Basketball Coaches board of directors. **LARRY LITTLE** named executive director of the Hula Bowl. Little previously served as men's basketball coach at

Hawaii for nine years. **FRED SAMARA**, Princeton's head field coach, appointed an assistant for the World University Games U.S. track and field team.

DEATHS

ERNE SMITH, a member of Southern California's victorious 1932-1933 Rose Bowl teams, died April 25. He was 75. Smith was a place kicker and tackle for the Trojans and played professionally from 1933 to 1936 for the Green Bay Packers. **JOSEPH M. STAMPS**, head basketball coach at Chicago from 1957 to 1975, died April 20. He was 65. Stamps had a 205-116 record at Chicago. **MARION "ODIE" SPFARS**, a star of the 1947-48 Western Kentucky basketball team that finished third in the National Invitation Tournament, died March 28. He was 61.

CORRECTION

Gretchen Haden has joined the staff at Illinois State as coordinator of promotions and advertising. The April 24 Record incorrectly stated that Haden was named sports information director.

12. Franklin and Marshall (9-4) 37
13. Swarthmore (10-3) 26
14. Gettysburg (9-3) 24
15. Alfred (7-1) 19

Going the extra mile a must to get somewhere in football

Modern college football recruiters have taken all the fun out of life for Ted Goudge.

There once was time when geography played a key role in determining how successful a college football program might be.

A large Nordic population, for example, helped make the University of Minnesota a national football power in the 1930s and 1940s.

In a report to the 81st annual convention of the Association of American Geographers, however, Goudge said those days are gone forever.

"Distance doesn't mean anything anymore," Goudge said. "College football is big business now, and the NCAA Division I-A schools have the money to go anywhere to bring in the talent they need."

Goudge, a professor at Southwest Texas State University, is a former collegiate football player himself. He played linebacker for three years at Northwest Missouri State University after transferring from the U.S. Military Academy.

He decided to study the relationship between the location of colleges to their long-term football success as a follow-up to a study by John F. Rooney Jr. of Oklahoma State University.

In his book "The Recruiting Game," Rooney pinpoints by county the most fertile high school football areas in the country. States such as Pennsylvania, Ohio, Texas and Michigan turn out a high number of big-time college football players, the Rooney study showed.

Goudge found, however, that home-grown talent doesn't ensure success at the college level.

"On the one hand, there are football programs that have been successful year in and year out that possess good relative locations, such as Alabama, Michigan, Notre Dame, Ohio State, Penn State, Pittsburgh and Texas," Goudge wrote in his report. "On the other hand, there are sufficient numbers of successful programs with relatively poor locations: Arkansas, Arizona State, Brigham Young, Miami (Florida), Nebraska and Washington."

Goudge's study included the years from 1952 to 1983.

"Things began to change after 1952," Goudge said. "That was the year they legalized grants-in-aid, and the NCAA took control of television contracts for college football."

Duffy Daugherty, who coached

Michigan State University to national prominence in the mid-1960s, helped change the recruiting game forever by building great teams with black players from the South who still were unwelcome at colleges near their hometowns.

"Duffy's pipeline dried up when Southern schools opened their doors to black players," Goudge said. "After that, recruiting changed for good. Now, they all recruit the four corners looking for players."

Goudge admits there may be no surprises in his study. He notes, however, that it might be worthwhile to investigate the importance of tradition to success in the early days and success now. He feels that relationship might be strong.

Red Raiders' Jennings voted best small basketball player

Bubba Jennings of Texas Tech University will receive the 17th annual Frances Pomeroy Naismith-Basketball Hall of Fame Award as the nation's outstanding senior basketball player under six feet. Jennings is 5-10. Jennings, who is on the dean's list, will receive the award July 1. The selection committee also picked its first Little Man All-America team. Joining Jennings are Phil Cox of Vanderbilt University, Steve Reid of Purdue University, Mike Moses of St. John's (New York) and Michael Adams of Boston College. The Eastern College Athletic Conference Division I men's ice hockey tournament will return to Boston Garden in 1986, ending speculation that the tournament would have to be moved. It will be the silver anniversary of the tournament.

The athletics department at Louisiana State University will conduct a three-day student athletics trainer workshop June 23-26. The workshop will instruct high school trainers in the basics of first aid. For information, write Kathy Osborne, LSU Athletics Department, Assembly Center, Baton Rouge,

Briefly in the News

Louisiana 70983; telephone 504/388-5050. West Chester University of Pennsylvania's baseball team will return to Division I after three years in Division II. The status of the women's field hockey team, which also was undergoing review, will remain in Division I. Varsity wrestling, which was in Division I for three years, will move to Division II. All other sports will continue in Division II.

Philadelphia College of Textiles and Science will sponsor women's teams in cross country and indoor and outdoor track and field next year. Joe Ryan, head men's coach in both sports, also will coach the women. The additions will give the school eight varsity sports for women. The University of Dayton has discontinued women's field hockey. Officials said there are only 28 high schools in Ohio that have field hockey teams and the number of potential area recruits has dropped sharply.

Charley Scott, athletics director at Mississippi State University, has announced plans to fund a 3,500-seat covered grandstand on the site of Dudy Noble Field. The project, estimated at \$3.2 million for the grandstand, dressing rooms, restrooms, offices, fencing and lighting changes, will have four funding categories that will allow contributors opportunities to purchase preferred seating. Also, a \$25 contribution will result in a deed to one square foot of turf from the field. The turf also can be purchased in multiples of \$25.

University of Georgia placekicker Kevin Butler has been honored by the Atlanta Area Council of Boy Scouts of America with a Peach of an Athlete Award. The award is given annually to amateur athletes who serve as role-models for youngsters.

August 14-16	Council, Boston, Massachusetts

Members to be notified of dues increase

Although dues notices will not be mailed to the NCAA membership until July and payment is not due until September 1, institutions are reminded for their budgeting purposes that the notices will include an increase.

The increase came as a result of the membership approving legislation at the 1985 Convention and represents the second increase in dues in as many years.

The 1982 Convention adopted a

two-stage dues increase based upon the costs of those services that are beneficial to all members, regardless of division. The items in the basic services include certain publications, the annual Convention, developing and publishing playing rules, developing football and baseball statistics, and publishing The NCAA News.

In July of 1984, the Special NCAA Program Evaluation Subcommittee was asked to review the costs of the basic services, and it determined that

the second stage of dues increases planned for September 1, 1984, would not cover the net cost of the services.

As a result, the Council agreed to sponsor legislation to increase the dues again in 1985 by 28.6 percent to meet the costs of the basic services.

Under the provisions of the Convention-approved proposal, dues for active members in Division I were increased from \$1,400 to \$1,800; in Divisions II and III from \$700 to

\$900; for conference members in Division I from \$700 to \$900; in Divisions II and III conferences from \$350 to \$450; for affiliated members from \$175 to \$225, and for corresponding members from \$175 to \$225.

Although no other dues increases have been legislatively mandated, the Special NCAA Program Evaluation Subcommittee will review the cost of the basic services biannually and recommend appropriate adjustments in the dues structure.

The NCAA News

The Market

Readers of The NCAA News are invited to use The Market to locate candidates for positions open at their institutions, to advertise open dates in their playing schedules or for other appropriate purposes.

Rates are 45 cents per word for general classified advertising (agate type) and \$22.60 per column inch for display classified advertising. Orders and copy are due by noon five days prior to the date of publication for general classified space and by noon seven days prior to the date of publication for display classified advertising. Orders and copy will be accepted by telephone.

For more information or to place an ad, call 913/384-3220 or write NCAA Publishing, P.O. Box 1906, Mission, Kansas 66201.

Director of Personnel
Lewis University
Route 53
Romeoville, IL 60411

Lewis is an equal opportunity educator and employer.

Oregon studies feasibility of dome for football, basketball

The University of Oregon is conducting three studies to determine the feasibility of erecting a dome over Autzen Stadium and using the facility for both basketball and football.

Athletics director Bill Byrne believes the three-phase project could be completed for about \$15 million.

Byrne emphasized that Oregon officials are only studying the possibility of building the dome. No decision has been made, he said, "but I do believe we won't continue to be a viable member of the Pac-10 if we don't do it."

The first phase involves enclosing the football stadium and providing suitable lighting and air-conditioning at a cost of \$7.5 million.

The dome could help boost football attendance, which averaged 25,809 per game last season despite the Ducks' winning record, Byrne said. He said that eliminating the weather factor would boost attendance by 6,000 to 8,000 per game on rainy days. The stadium can hold more than 42,000 people.

The second phase would involve modernizing Oregon's cramped athletics department offices and relocating them at Autzen, on the rim of the stadium beneath the Stadium Club. The project also would include improving the weight-room, dressing-room and training-room facilities. Total cost of the second phase is estimated at \$3 million to \$5 million.

The third phase would provide a new home for Oregon basketball. The Ducks cannot play in aging McArthur Court forever. The basketball court was built in 1926 and has been through a series of renovations to expand its seating capacity to 10,000.

Byrne believes an "intimate" arena modeled after the Carrier Dome at Syracuse University could seat some 17,000 people.

For basketball, the football stadium would be divided in half with a drapery system and the ceiling would be lowered on the basketball half of the facility.

Byrne believes the new basketball facility, with an estimated cost of \$3 million, could mean as much as \$500,000 per year to the athletics department.

'Bubble' for Illini

The soil on which Red Grange galloped to gridiron history will be covered with the newest artificial turf, and the field on which the late Bob Zuppke coached the University of Illinois, Champaign, to football fame will be topped with a plastic bubble.

About one year and \$7 million from now, Memorial Stadium will be transformed from a stately but aging arena into one of the more modern college football facilities in the nation.

"It certainly completes our football product, giving us a modern practice area and a great facility for playing the game," said athletics director Neale R. Stoner. "Illinois has been behind in that regard."

The work started the week of April 15, as crews began tearing out the running track around the football field and removing the 10-year-old artificial turf that had "lived a good life," said Stoner.

The first step is to replace the old grass, which relied on surface runoff for drainage, with the latest in artificial turf. The new material will be installed over a porous asphalt rain will go through both surfaces and be carried away by an underground system.

The visitors' locker room on the west side of the stadium will be remod-

Results of the four-team Men's National Collegiate Volleyball Championship.

eled. The Illini will use it next year, and visiting teams will dress in an athletics building near the stadium.

The shuffle will allow a much more thorough renovation of the Illinois dressing room and facilities in the east side of Zuppke Field. The project calls for new dressing, training, equipment and weight rooms, plus new coaches' offices.

But the most striking part of the entire project will be the inflatable plastic bubble that will cover the entire football field — though not the seating area.

It will be 250 feet across and 400 feet long and will reach to a height of

70 feet held up by air pressure created by two pumps. Air locks will allow people and vehicles to come and go without loss of pressure.

Special lighting will be added since the plastic bubble transmits only 19 percent of the natural sunlight.

The warm air that holds the bubble up is intended to melt most snow that falls on the outside of the structure. Reinforced with cables, it also is designed to withstand 90 mile-per-hour winds.

It is expected to take about seven days to erect the bubble and three to remove it.

Officiating plan

The Atlantic Coast Conference is investigating the feasibility of hiring full-time basketball officials to work league games. Fred Barakat, supervisor of basketball officials for the conference, is conducting the study.

"We're studying the National Basketball Association and looking into the caliber of official you get there versus the part-timer," Barakat told Referee magazine.

"You have to look at the financial aspect, which includes travel, per diem, hospital care, pensions and insurance. There's a lot more beyond just paying a game fee or a salary," Barakat said.

In 1984-85, the ACC had a staff of 33 varsity officials. Barakat would not speculate on what that number would be with a full-time staff.

He said salaries for full-time officials probably would be \$30,000 to \$35,000 (lower scale) to a higher scale for those officials with more experience.

"Right now, I'm not even close" to reaching final results on the study.

"I've put it aside. But, if I'm pressed to have some results, I'll have them," Barakat said.

Documents sought

Newspapers in Athens and Atlanta, Georgia, have filed formal requests to inspect documents relating to the NCAA's investigation into the University of Georgia's men's basketball program.

The Atlanta Journal, the Atlanta Constitution, the Athens Banner-Herald and the Athens Daily News submitted written requests after school officials denied verbal requests for the documents, which were submitted

to the NCAA's Committee on Infractions.

"We will release the documents after the cone of silence (imposed by the NCAA) has been lifted," said Barry Wood, assistant to university President Fred C. Davison. "Only after the entire NCAA process is complete would we release documents."

Earlier this year, a court order, sought jointly by the Atlanta and Athens newspapers, had forced the school to release documents pertaining to NCAA investigations of Georgia's football and women's basketball programs. The men's basketball documents were excluded because the investigation was continuing.

"I have been advised by attorneys that the documents are not subject to any exception from disclosure under the open-records act," said Journal-Constitution managing editor Edward Sears.

Player protection

Memphis State University has hired a retired FBI agent to shield the school's athletes from gamblers and drug dealers, according to the Associated Press.

"We want to put the underworld — gamblers and narcotics dealers — on notice to stay away from Memphis State," said Charles Holmes, director of community relations for the school.

He said the hiring of Ben F. Hale, a 23-year veteran of the FBI, was largely a result of a basketball point-shaving investigation at Tulane University.

Hale is a 1959 graduate of the University of Arkansas, Fayetteville, and retired from the FBI last Septem-

ber. During one of his assignments, he coordinated an investigation into organized crime and gambling in New Jersey.

Holmes said Hale would "advise the faculty, the athletics staff and the athletes on what to look for and how to stay away from these types of people."

Football wanted

Students at the University of California, Santa Barbara, have passed a referendum to fund an intercollegiate football team, it was announced April 26.

The school has competed at the club level in football for the past two years. Football had been dropped as an intercollegiate sport by the school after the 1970 season. The Gauchos fielded an NCAA Division I team at that time.

More than two-thirds of the students who voted were in favor of the referendum. A two-thirds vote was needed. The percentage was 67.9 percent yes and 32.1 percent no.

Two previous votes were taken. A total of 61.8 percent was in favor of the referendum last year, meaning that less than five percent more support was needed.

The referendum calls for \$1.50 to be paid by each student per quarter for intercollegiate football. That is expected to raise \$65,000 per year.

It is expected that the school will field a club team next year, and officials hope for an NCAA Division III team in 1986.

School is sued

Timothy W. Childs has filed a \$1 million lawsuit claiming Louisiana State University reneged on a job promised him if he would help in recruiting a woman basketball player from Houston.

LSU has denied all of the allegations in Childs' suit, asking that the action be dismissed, the Associated Press reported.

The suit does not name the basketball player Childs was supposed to have helped to recruit. Childs' lawyer, Jack Dampf, said the recruit signed at the University of Houston.

The suit, filed in federal court in Baton Rouge, says Childs was living in Houston in March 1983, when he was contacted by somebody in LSU's athletics department on behalf of Tim Ficara, then coordinating television and radio coverage of LSU athletics. The suit says Childs was offered a job coordinating local cable television coverage over LSU's Tivision.

Ficara is no longer at LSU.

The suit said Childs met with Ficara, thought he had the job, but then ran into stalls and eventually was unable to get in touch with Ficara. Meanwhile, the suit says, the potential recruit signed April 19, 1983, with another school.

Childs says, in his suit, that he met with athletics director Robert Brodhead and was told that while the job was still available, there were some problems with a contract.

Grants overpaid

A preliminary state audit says 10 Memphis State University athletes may have drawn \$60,000 more than they should have over the past four years in Federal grants managed by the school.

Thomas G. Carpenter, president of Memphis State, blamed the excess aid on "sloppy management" the Associated Press reported.

"We have not discovered any intentional violations anywhere," Carpenter said.

The Federal aid, through Pell Grants, is awarded to college students on a basis of financial need.

The grant limit is \$1,800 a year, and NCAA rules allow student-athletes to receive a combined total of scholarships and Pell Grants not to exceed the value of room, board, tuition, fees and books, plus \$900.

Carpenter said he was restricted by Federal privacy laws from releasing the names of students receiving grants.

Waiver sought

Tulane University has asked the Metropolitan Collegiate Athletic Conference to waive its requirement that members have basketball teams.

Tulane dropped its basketball program in the wake of allegations of point shaving and NCAA violations.

Metro Conference officials meet in Atlanta later this month to consider the school's request to remain a member, anyway. The request will be tendered by Charles Knapp, senior vice-president for operations for Tulane University.

Craig Thompson, director of communications for the Metro Conference, said the meeting in Atlanta is a fact-finding mission.

"We want to separate fact from fiction. As of now, Tulane University is still a member in good standing," he said.

Corporation Promotes Certified Athletic Trainers

ATHLETIC TRAINING SERVICES, INC.

714 E. Wisconsin Street • Mt. Pleasant, Michigan 48858 • (517) 772-5888

"PROMOTION OF THE CERTIFIED ATHLETIC TRAINER"

ATHLETIC TRAINING SERVICES, INC. is a professional consulting and recruiting corporation for certified athletic trainers in high schools, colleges, universities, professional athletics, sports medicine clinics, industry, and hospitals. The corporation is headed by Kenneth W. Kopke, A.T.C., Director of Sports Medicine, and Ronald A. Sendre, A.T.C., Curriculum Director of Sports Medicine at Central Michigan University.

A.T.S., Inc. has developed the ATHLETIC TRAINER NATIONAL REGISTRY to assist employers in their search for certified athletic trainers. The registry offers employers the opportunity of advertising their job openings directly to a nationwide network of job seekers. Depending upon an employer's time considerations, financial pressures, or other concerns, the employer has the option to advertise his job opening in the JOB OPPORTUNITY BULLETIN. The bulletin is circulated every other month to all certified

athletic trainers who are members of the National Registry. The employer's second option is to use A.T.S.'s COMPUTER DATA-BASE RECRUITMENT SERVICE.

As a professional consulting firm, A.T.S. offers the complete analysis, needs assessment, and final implementation of programs, establishing hospital-based sports medicine clinics or in-house rehabilitation centers for universities, colleges and corporations.

So, if you are an employer with a job opening for a certified athletic trainer, or you are a certified athletic trainer looking for a job, let the Athletic Trainer National Registry assist you.

For further information about the Athletic Trainer National Registry or to advertise your job opening in the Job Opportunity Bulletin, please complete and return the coupon below.
