National Collegiate Athletic Association

Commission announces its nominating committee

Eight members of the NCAA Presidents Commission will serve as the Presidential Nominating Committee to recommend a slate of candidates to fill vacancies on the Commission occurring in January 1986.

The nominating committee also will oversee the nomination and election of new Commission officers for 1986 and 1987.

Commission Chair John W. Ryan

appointed the eight-member committee, which includes Commission members whose terms do not expire in 1986. Each of the eight NCAA geographical districts is represented, as are all three NCAA membership divisions.

Richard C. Gilman, president of Occidental College, was named to chair the committee.

Representing Division I on the

committee are Eugene M. Hughes, president, Northern Arizona University; William E. Lavery, president, Virginia Polytechnic Institute; Very Rev. J. Donald Monan, president, Boston College, and Walter Washington, president, Alcorn State University.

Division II representatives are Patsy Sampson, president, Stephens College, and Del D. Weber, chancellor,

University of Nebraska, Omaha. The Division III representatives are Gilman and James J. Whalen, president, Ithaca College.

For the second—and final—year, Commission members whose terms expire in January 1986 are eligible for reelection to serve full, four-year terms. NCAA legislation permits such reelection when an individual has served half a term or less, and this

year's term expirations all are for Commission members originally appointed to two-year terms to establish proper rotation of membership on the Commission.

Chief executive officers are invited to submit nominations to the nominating committee, even if the incumbent Commission member is eligible for a full term. As prescribed in the NCAA constitution, any candidate receiving the endorsement (i.e., nomination) of at least 10 chief executive officers of member institutions will be included on the ballot for the appropriate position.

The nominating committee will meet October 1 to determine its slate, which will be submitted to the chief executive officers of all active member institutions in a mail ballot. Results of the election will be announced at the 1986 NCAA Convention in January.

All nominations should be sent to Presidential Nominating Committee, NCAA, P. O. Box 1906, Mission, Kansas 66201, for receipt not later than Friday, September 27.

Terms expiring in January 1986 are as follows:

Division I

Lattie F. Coor, president, University of Vermont. Division I-AAA at large. Incumbent is willing to accept reelection.

Edward B. Fort, chancellor, North Carolina A&T State University. Must be Division I-AA South football region. Incumbent is willing to accept reelection.

I. M. Heyman, chancellor, University of California, Berkeley. The Pacific-10 Conference designates the appointee to this position.

Richard L. Van Horn, chancellor, University of Houston. The Southwest Athletic Conference already has designated Van Horn, who recently was appointed to this position, to continue.

John B. Slaughter, chancellor, University of Maryland, College Park. The Atlantic Coast Conference designates the appointee to this position.

Walter B. Waetjen, president, Cleveland State University. Division I-AAA at large. Incumbent is willing to accept reelection.

Those eventually elected, reelected or appointed must include at least one from Region I of Division I, per NCAA Constitution 5-5.

Division II

Thomas A. Bond, president, Clarion University of Pennsylvania. *See Commission, page 11*

Sports previews

Steve Coupland will be tending the net for Fresno State when the men's water polo season begins this fall. For a preview of the water polo and women's volleyball seasons, see pages 4-6.

Drug-test proposals to be completed in October

Discussion of varying penalties for drug usage, clarification of the student-athlete form and emphasis that the proposed drug-testing program will not be retroactive were among the topics covered by the NCAA Special Committee on National Drug-Testing Policy August 20-21 in Chicago.

The special committee will submit its final recommendations for the testing of student-athletes for banned drugs at NCAA championships to

tion October 14-16. If the Council votes to sponsor legislation, a proposal to implement a drug-testing program in 1986-87 will be before delegates to the 1986 Convention in New Orleans.

In addition to the plan to test student-athletes on a random basis at as many NCAA championships as possible, the special committee is recommending that the program not be retroactive.

The special committee is recommending that if a student-athlete tests positively for a banned drug, he or she automatically would be ineligible for the championship and for the ensuing 90 days from that date. A student-athlete who tested positively

for drugs a second time would be ineligible for NCAA championships competition for one year.

Along those same lines, the special committee has recommended the possibility of varying penalties depending upon the drug used. Student-athletes would be tested for all drugs, including the street drugs that were omitted from Proposal No. 75 at the 1985 Convention.

All student-athletes at NCAA member institutions will be asked to sign a form indicating that they are not currently using any of the drugs listed on the NCAA list of banned drugs.

The special committee is anticipating the costs of the drug-testing pro-

gram to be \$600,000.

John L. Toner, former president of the NCAA and director of athletics at the University of Connecticut, is the chair of the special committee. Other committee members are William D. Bradford, M.D., Duke University; Daniel F. Hanley, M.D., Dartmouth College; Roy Kramer, Vanderbilt University; Jackie Sherrill, Texas A&M University, and George Raveling, University of Iowa.

If the Council votes to sponsor the drug-testing legislation, complete details of the program, including a question-and-answer series, will be published in late-October issues of The NCAA News.

and John Taylor, National Institute of Education.

The Council and Division I Steering Committee purposely took no action on the recommendations in their August meetings. The special committee asked that its report receive widespread consideration throughout the higher education community prior to final actions by the NCAA Presidents Commission October 1-2 and the Council and Division I Steering Committee October 14-16.

Special committee issues academic report

A shortened version of the report by the NCAA Special Academic Standards Committee appears on page 12 of this issue of The NCAA News.

The full report was presented to the NCAA Council during its August 14-16 meeting in Boston. The report recommends two primary revisions in NCAA Bylaw 5-1(j), which pertains to academic eligibility of freshman student-athletes entering Division I member institutions in the fall of 1986.

Wilford S. Bailey, Auburn University, chairs the special committee. Other members are Edward B. Fort, North Carolina A&T State University; Joseph B. Johnson, Grambling State University; Gwendolyn Norrell, Michigan State University; John W. Ryan, Indiana University, Bloomington; Otis A. Singletary, University of Kentucky,

Coaches who want players paid should turn pro

By Fritz Brennecke

The Golden (Colorado) Transcript

Any connection between amateurism and big-time college football that once might have existed will be completely severed if a majority of Western Athletic Conference coaches have their way.

A poll recently conducted by the Denver Post disclosed that six of the nine head coaches in the WAC favored paying their players a salary in addition to the financial aid they are already getting: board, room, tuition, fees and books. Two were opposed and one was undecided.

A player from each WAC school was also included in the survey. They were even more emphatic in expressing their opinions that they should be paid cash plus the benefits mentioned above in their "full ride" athletics grants, misnamed "athletics scholarships." Any connection between the qualifications upon which the award is based and academic excellence is purely coincidental.

WAC coaches are not alone in their support of paying cash to college football players. Joe Paterno, Penn State's erudite coach, and Tom Osborne of Nebraska publicly have advocated such a step. A number of coaches in the College Football Association, an organization of some 60 big-time football universities, have,

off the record, let it be known they want it.

Arguments cited by the coaches in trying to justify paying players a cash stipend, which Paterno says should be at least \$200 a month, are: (1) They put in so much time on football, they don't have time for part-time work;

disgrace to higher education in this nation.

Of the reasons enumerated for paying football-basketball players, the least defensible is No. 6. Anybody familiar with the history of American college football should be cognizant of the fact that as soon as a maximum

Columnary Craft

(2) they shouldn't have to use money they might earn by summer jobs for clothes, toilet articles, gas for their cars, etc.; (3) they should be provided spending money for dates, shows, movies and other such necessities; (4) they are responsible for lucrative television contracts, bowl-game bids, huge gate receipts and are entitled to a share of those profits; (5) their school benefits from their exploits on the field, which stimulates giving by donors to fund-raising programs; (6) paying the players a cash salary will halt the under-the-table cash hand-outs, new cars at a fraction of their actual cost, luxury apartments and other illegal financial aid.

In my judgment, none of the foregoing reasons can be defended from the standpoint of either higher education or amateur athletics. Big-time college football has become so professionalized, commercialized and scandal-ridden as to approach being a

in financial aid is agreed upon, it immediately becomes the minimum.

If Paterno, or any other coach, insists that giving players a "full ride" plus as much as \$200 a month in cash is going to end existing abuses, including double admissions standards; altering transcripts; bogus correspondence courses; illegal aid such as cars, clothes, stereos, etc., he's just not taking a realistic view of the facts.

But regardless of where the responsibility for professionalism in college athletics should be placed, it is a sad commentary on intercollegiate sports that this philosophy of play—only if you're paid for participating—seems to be the one most commonly adopted by the young men, and women, too, on the campuses of so many of our nation's so-called citadels of higher learning.

Few college athletes will go out for a physically demanding sport such as football or basketball without finan-

cial remuneration. There are a few who'll sign up for tennis, golf, skiing, even some in swimming and sports of a recreational nature without being promised they'll be compensated for their services. But they are becoming scarce at NCAA Division I schools, where football and basketball players are being paid a minimum of \$10,000 a year when all benefits are added up.

Frankly, the idea of going out for a sport just for fun and for sport's sake is today about as extinct as the dodo bird on the campuses of some of our nation's most prestigious institutions of higher learning.

It's time the presidents of our colleges called these coaches who want to pay their players a cash salary into their offices and said to each one, "Look, buster. This institution was founded and exists, according to the enabling act which created it, to offer academic education in the arts and sciences, not to provide a facility for operation of a professional athletics organization. If you want to coach a pro team, resign and look for a job in the various pro leagues in Canada or the U.S. If you want to run an amateur, college program, then cut out paying your players."

Looking Back

Five years ago

The first NCAA-sponsored meeting of selected chief executive officers was held September 29-30, 1980, in Kansas City. A total of 27 CEOs representing Division I institutions attended, 24 of them selected by their conferences. Financial aid, recruiting, Title IX and NCAA governance were the primary topics. (October 15, 1980, NCAA News)

Ten years ago

Students who earn intercollegiate athletics letters at NCAA member institutions graduate at the same or a higher rate than nonathletes, according to a survey conducted by the American College Testing Program. (September 15, 1975, NCAA News)

Twenty years ago

The NCAA agreed September 1, 1965, to cooperate with the U.S. Senate Commerce Committee in its call for binding and continuing arbitration in the track and field dispute. NCAA President Everett D. Barnes, Colgate University, proposed that a new national commission be organized to administer track and field in the United States. ("NCAA: The Voice of College Sports")

Thirty years ago

Among the new head coaches as the 1955 college football season began were Bob Blackman, Dartmouth; Paul Dietzel, LSU; Lou Saban, Northwestern; Cliff Speegle, Oklahoma A&M (now State); Tommy Prothro, Oregon State, and Sammy Baugh, Hardin-Simmons. (1955 NCAA Football Guide)

Letters to the Editor

Provide opportunities, not money

To the Editor:

I am writing in response to Doug Tucker's recent article on paying college athletes (The NCAA News, August 14).

Paying college athletes will lead to the elimination of all nonrevenue sports, severely cripple advances made in women's sports and allow for competition only among large state-supported institutions.

Few colleges make a profit in I-A or I-AA football, and those that do utilize the funds to sponsor sports that cannot pay their own way.

Furthermore, the value of a college grant-in-aid must not be measured solely by the dollars saved from receiving room, board, books, tuition and fees for four years but in conjunction with increased opportunities for the future generation of revenues in one's career by virtue of earning a meaningful degree.

America cannot afford to serve the gifted few in revenue-producing sports at the expense of the majority in nonrevenue sports.

The values inherent in sports participation are the same in revenue and nonrevenue sports.

Let's continue to provide opportunities—not money.

Dick Quinn
Assistant Athletics Director
Iona College

Free education is payment enough

To the Editor:

I am writing in response to Keith Byars' comments in the August 14 issue of The NCAA News. In the Opinions Out Loud section, Byars said he believed Division I football players like himself deserved from \$250 to \$300 a month. He claimed the education he received was not enough reward for the money he brought into the university.

Byars also claimed the money he made from his summer job does not last long enough.

Well, I am a Division III football and baseball player, so I cannot get a job during the school year just like Byars cannot. But I seem to be able to budget the money I make in the summer for the entire school year. I pay for my entire education: tuition, room and board, and all the other expenses students encounter.

Byars wants \$2,700 a year extra to spend. What will he spend it on? The school takes care of nearly all his expenses.

Perhaps Byars should be a little more thankful that his talent and skill have enabled him to receive a valuable education for free rather than asking for money he has no need for.

It sure beats selling toilet paper

Patricia Viverito, commissioner

Gateway Collegiate Athletic Conference

Mid-Illinois Newspapers

"There were a few women athletics directors out there who didn't think I had any business in the sports field, and one or two who actually told me so. But it made sense to me. I always told them, 'Look, I know I couldn't coach in the league; that's your job, not mine. I'm an administrator and a promoter—two things that are vital in sports.'"

"I'm basically a frustrated jock. I went to Catholic schools that didn't even have gyms, let alone any type of athletics programs. Because I never had a chance to participate in sports, I somehow always felt short-changed.

"During that period (from 1974 to 1977 when she worked in marketing for Proctor and Gamble), I did some soul-searching and decided there had to be more to life than selling toilet paper."

Napoleon McCallum, varsity football player

U.S. Naval Academy

Associated Press

"Most people I talked with told me to get out (of the academy and a future obligation to go into the navy) and

John L. Toner, director of athletics

University of Connecticut

Associated Press

"During this year, between 50 and 60 Division I institutions have instituted some sort of drug testing, and conferences have adopted drug-testing policies.

"It is becoming a need and must be part of the education. In the education part of it, the need for testing also brings with it a need for continued education that will emphasize the side effects and ill effects of drug uses.

"We're now of the firm belief that the illegal drugs not only endanger the athletes but the integrity of the sports they are playing."

Scott Milliorn, senior business major

Southern Methodist University

The New York Times

"Sure, the final ruling (NCAA penalties against Southern Methodist) mattered to most of the students. But kids here are veterans at this."

Alan K. Campbell, former director of the Office of

Personnel Management in the Carter Administration

The New York Times

"We should, of course, be grateful for those able, dedicated teachers who remain in our public schools despite often unpleasant working conditions, poor pay and declining respect for their profession. But we should also heed the warning signs.

"The 'captive audience' for teachers—women, minorities and others who in the past had few other options for a professional career—is gone. In absolute terms, the purchasing power of the average teacher's pay has declined 15 percent since 1973.

"Plainly, the free market has failed to assert itself in the teaching profession. Not only are able individuals not entering teaching, but the best and brightest who have chosen the teaching profession are among the first to abandon it."

Edward Bozik, director of athletics

University of Pittsburgh

The Pittsburgh Press

"I don't think it (stricter NCAA rules and enforcement) is a one-shot deal.

"I believe that the establishment of the presidential commission a couple of years ago and this rather convincing demonstration (NCAA special Convention) on the part of the presidents show that when they choose to act in concert, they can make things happen.

"I think there was a feeling among some presidents for a long time that they would attend a Convention and not really feel they could make an impact. Now, they have the ability not only to propose legislation but the ability to

Colleges tighten up on recruiting by boosters, survey shows

By the Associated Press

Colleges and universities nationwide are reining in alumni and other boosters who might violate recruiting rules in trying to lure high school stars to their favorite campus, an Associated Press survey has found.

While no schools were found to be following the University of Georgia's lead of asking athletics boosters to sign statements pledging they will not violate recruiting rules, many say they are taking serious steps to educate their followers about how to deal with young prospects.

"We're in a great morality kick and that's good," University of Michigan football coach Bo Schembechler said.

Handing out probation to schools, Schembechler said, has not been enough to stop cheating.

"You've got to fire the people who do it," including school presidents, Schembechler added.

Under NCAA rules, alumni, boosters and other "representatives of the university's athletics interests" are limited to writing or telephoning prospects or meeting with them on the college campus.

At Michigan, Schembechler said he and athletics director Donald B. Canham keep a tight hold on booster clubs.

"I've controlled my alumni since

Bo Schembechler

the day I walked in here (16 years ago)," Schembechler said. "These guys who say they don't know what their alumni are doing are unbelievable. They know."

Other schools say they don't worry about their booster clubs because they've been "clean" in the past.

"We don't really have the kind of boosters that get involved in what we're talking about (rules violations),"

said James I. Tarman, athletics director at Pennsylvania State University.

"We haven't felt we've needed to (have extra recruiting policies) here because we've been in a situation where we've been clean," said Kit Klingelhofer, Indiana University, Bloomington, sports information director. "All our coaches know the rules, and the varsity club does the same thing with alumni groups."

Some schools take pains to involve booster clubs in the recruiting process, while others want alumni and boosters to stay away.

"We don't involve the boosters in our recruiting," University of Nebraska, Lincoln, recruiting coordinator Steve Peterson said. "That's the best way to keep them out of it. If we have any boosters call and ask about a recruit, we tell them not to help. If we want their help, we'll call them and we haven't done that."

The University of Southern California wants the help of the boosters at the same time it wants to control them.

"We're trying to formulate a plan on how to approach alumni and make sure they are informed as to what the NCAA rules entail," said Dick Laguens, athletics recruiting coordinator at Southern Cal, "and at the same time have them involved in the re-

cruiting process. We want them involved; we want them to be supportive, yet we want them to be informed of what they can do for us within the guidelines of the NCAA rules."

The University of Illinois, after being placed on NCAA probation in 1984 because of numerous recruiting violations, disassociated itself from seven people considered representatives of its athletics interests.

They were told that, for two years, they could not help with recruiting in any way, could not contribute to Illinois athletics programs, could not belong to booster clubs and could not employ any of the school's athletes.

Another school with booster club problems in the past has been Memphis State University. News accounts have reported allegations that Memphis State athletes have gotten improper favors from boosters and the school's president recently disbanded one group, saying he had too little

control over its members.

New guidelines at Memphis State say boosters must account to the university for money they collect and spend. The groups will be banned from giving money or gifts to university personnel without first getting permission from school officials, and boosters must refrain from trying to help the school in recruiting.

"We are taking these steps for the well-being of the sports involved and the booster memberships," athletics director Charles Cavagnaro said.

Most schools felt their boosters sincerely want to help the school while staying within the rules.

"We've found that our people want to help us any way they can within the framework of the NCAA," University of Arizona Sports Information Director Butch Henry said. "I think the vast, vast majority of all the people we run into want to do only what's right to help us."

Does the word 'Collegiate' belong in NCAA any more?

By Fred Russell
Nashville Banner

It is difficult to understand the action taken by the NCAA Special Academic Standards Committee in recommending a softening of college entrance requirements for athletes.

This panel would weaken the regulation adopted at the 1983 NCAA Convention, to take effect in 1986.

Among the modifications suggested is to lower the minimum score on the standardized tests taken by students before entering college. The current ACT minimum score of 15 would be lowered to 13. Mind you, the maximum ACT score possible is 35.

This group also would reduce the 700 minimum on SAT tests. Remember, the maximum score there is 1,600.

If these recommendations weren't enough to make a joke of the term "student-athlete" in many instances, listen to this further bit of enlighten-

ment from the panel: "The modifications call for an eligibility index to eliminate the requirements of achieving a fixed minimum test score."

As to this latter action, the most cogent comment I've heard comes from Vanderbilt Director of Athletics Roy Kramer. "Test scores are necessary because they represent the only nonmanipulated area."

The average scores for Vanderbilt's 30 enrolling freshman football players who arrived on campus last month were 24 in the ACT and 1,060 in the SAT.

What astounds me is how some college educators lose sight of the fundamental precept that their level of athletics competition is supposed to be collegiate.

The way things are going, some thought might be given to eliminating the word "Collegiate" from the name National Collegiate Athletic Association.

Opinions

Continued from page 2

have people stand up and be counted.

"Their power to determine the order of the agenda and those issues that will be decided by roll-call vote is very significant. I think the Presidents Commission realizes it has been empowered with significant authority, and they are well-staffed by the NCAA to take ideas and translate them into legislation.

"I foresee substantial presidential involvement in January (annual NCAA Convention) on the matter of academic standards and initial eligibility.... To me, it is fundamentally important to intercollegiate athletics that we do something about increasing the standard of entrance requirements across the board."

Dave Roberts, head football coach
Western Kentucky University

The College Football 1985 Press Kit

"One of the greatest things in college football is seeing that young man you've worked with walk down the aisle four years down the road and get a degree. That's really worth something. And, one of the worst feelings in the game is seeing another young man finish four years without a degree and with no plans to complete it.

"Each coach has had both experiences. Almost all of your athletes come to the campus wanting a degree. But, for a man that age, four years seems like a long way away and too often they lose a lot of ground in the first two years or so. That's the young man who needs direction and help through those first two years to help him prepare for that degree."

Bo Schembechler, head football coach
University of Michigan

Associated Press

"Drug testing is no issue. That's just part of simple conditioning testing.

"You're doing him (student-athlete) a favor. I'm even contemplating a third chance (offenders at Michigan frequently are given a second chance, although there are times when the player might be dismissed from the team). I don't know how I'm going to do it, but I'd like to save that son of a gun.

"(The schools that don't test) just don't want to know. If that's so, it's not fair to their teams."

Richard Lapchick, director
Center for the Study of Sport in Society at Northeastern University

The Arizona Republic

"We felt that sports figures are clearly role models in society. So we thought about getting professional athletes to go into the schools and talk about the system of college athletics as it relates to education and give the message of what the odds are of a kid making it to the pros.

"The players (involved with the center's program that offers a chance to return to college to earn their degrees) might have been reluctant to identify themselves as academic failures. The phenomenon is that they all blamed themselves. They thought they had inadequacies, and that's why they were put into 'activity' courses and why they didn't get their degrees.

"By talking among themselves, they found they had a common pattern. It didn't matter what school they went to. They were ineligible every spring, eligible every fall. They realized how they had been used by their institutions. They fused a desire to go into the schools and talk to the kids."

Steve Willis, former football player
Kansas State University

The Kansas City Times

"I know a lot of players took classes that took no mental aptitude at all. But that's anything any student could take. I called them eligibility classes. They were available to everyone. Sometimes, athletes had a little higher enrollment. But the way I found out easy classes were from my academic friends, not my teammates."

Mack Brown, director of athletics
Tulane University

The (Memphis) Commercial Appeal

"I really hate what happened to our basketball program. I hate it for the young men involved. I hate it for Ned Fowler (Tulane's former basketball coach), for our student body and our basketball fans.

"But I think it has made Tulane alumni aware that they need to pull together and head in the same direction. Don't fight. Don't argue."

Richard Hessler, professor of sociology
University of Missouri, Columbia

The Kansas City Times

"What bothers me is the university will exploit the athlete. The course they are taking is not what they need for their major—Volleyball I, the Coaching of Football. These kinds of classes are easy and do nothing for your major. But you have a certain amount of classes for your major, so if you are a PE major, you will have to take chemistry. They will have to take a few hard classes.

"So when it comes time to take those classes, they have used up their eligibility (four years). They don't get the counseling free of charge any more. What happens to them? They don't make it."

Robert J. Murphy, M.D.
Ohio State University

Columbus Citizen-Journal

"We get complaints (about drug testing), feelings about an individual's rights, players saying we have no right to dictate what they do away from athletics or school.

"But we have rules in practically every other endeavor. Being an athlete is a privilege, not a right. Football players must wear helmets. They must be in shape. They must pass other tests. Drug testing is merely another safeguard."

David H. Stewart, chair, department of English
Texas A&M University

Houston Chronicle

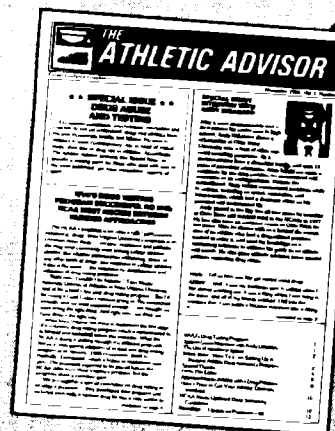

"Serious reform in education in America might well begin with redefinitions of the role and mission of different schools; but today, most schools have a vested interest in being all things to all people. Keep the head count up, the cash register ringing and the state appropriations committee or board of benefactors bamboozled.

"Most college administrators survive by holding to these rules. No doubt some would like to break free, but the tide seems invincible. They tend to resist any effort to restore or achieve a distinctive identity because most of them readily submit to the homogenizing pressure of discipline organizations, or accrediting agencies, and of Federal regulations in exchange for Federal subsidies. Education, especially clearly defined education in terms of institutional mission, rarely commands their attention."

1984 finalists looking for a return engagement

By Lacy Lee Baker
The NCAA News Staff

It's been a long off-season for the Stanford women's volleyball team... the memories of the Cardinal's first NCAA Division I championship game still are too clear. After leading UCLA 11-2 in the fifth game of the 1984 final, the Cardinal couldn't stop a late Bruin surge that resulted in UCLA's first NCAA women's title in the sport, 15-12, 7-15, 15-10, 9-15, 15-13.

UCLA's victory was by no means a fluke, however. A glance at the Bruins' NCAA tournament history reveals that they were national runners-up in 1981 and 1983 and West regional runner-up in 1982. Stanford, the only team in the nation to advance to the final four in each of the past three seasons, finished fourth in 1982 and third in 1983.

Both teams hope to repeat as final-four contenders in 1985.

UCLA returns five starters from its national championship squad. Liz Masakayan, a 5-8 senior outside hitter, is the team leader. A Broderick Award winner and first-team all-America, Masakayan recently participated in the World University Games, along with Bruin setter Michelle Boyette.

"With Michelle and Liz at the World University Games, it will take us a little while to get it together," UCLA coach Andy Banachowski said. "Once they come back, I hope we can pick up where we were last year. We have a lot of talent and a little more depth."

Providing some of the depth will be three highly touted freshmen—setter Ann Boyer, middle blocker Sharyl Bilas and hitter Jenny Crocker. Boyer, along with UCLA veterans Lisa Ettesvold, a junior, and sophomore Wendy Fletcher, was a member of the 1985 junior national team.

While Stanford loses three starters in Bobbie Broer, Deidra Dvorak and Susan Compton, the nucleus of the team remains—senior middle blocker Kim Oden, perhaps the finest collegiate volleyball player in the country. A three-time all-America and last season's Volleyball Monthly Player of the Year, Oden will continue to lead the Cardinal's offense. "We are taking things a little slower this season in order to incorporate our five freshmen," said Cardinal co-coach Don Shaw. "We're changing our offense from a 6-2 to a 5-1 around setter Wendy Rush."

Stanford's schedule is one of the toughest in the country. The Cardinal

Cal Poly-SLO's Kelly Strand (making shot) leads a strong veteran team

will meet 13 1984 NCAA tournament participants in the regular season, including Pac-West Conference foes UCLA, Southern Cal and Arizona. The Pac-West was formed in 1985 when the Western Collegiate Athletic Association disbanded.

Other preseason frontrunners are included in the following regional breakdowns:

Mideast

Winners of six conferences from the Mideast will receive automatic berths to the NCAA championship. Nebraska, perhaps the strongest team in the region, should represent the Big Eight again and has the capacity to upset some of the traditional powers from the West and Northwest. The Huskers, 29-4 in 1984, return all-Big Eight selections Karen Dahlgren, a 6-0 middle blocker, and Annie Adamczak, a 5-10 outside hitter. Tisha Delaney, a junior college all-America and United States Volleyball Association (USVBA) rookie all-America, should be a key player at setter for Nebraska.

"We lost three starters from last

year's team but we return six," said Nebraska coach Terry Pettit. "To be competitive, a team must have blocking, transition and depth, and I think we have those this year."

Pettit expects strong competition from Big Eight schools Iowa State, Kansas State and Oklahoma, which he thinks will field their best teams ever.

Western Michigan has represented the Mid-American Conference the last three years and is a favorite for the honor in 1985. Laurie Maierhofer, the MAC Rookie of the Year and first-team all-conference selection, returns, as does MAC co-MVP Heather Sawyer. Five starters are back from a 26-8 1984 team.

The Big Ten Conference race should be a tight one, mainly between Purdue and Northwestern. Coach Jerry Angle's Northwestern Wildcats will be looking for their third straight league title, led by all-conference setter Jackie Nunez. Purdue, second in the league last year, competed in the NCAA tournament through an at-large bid, making its total of NCAA postseason

appearances reach four. Senior middle blocker Marianne Smith, MVP of the Big Ten, will play a major leadership role.

Big East 1984 champion Pittsburgh returns four starters from a 30-8 team, while also claiming a banner recruiting year. Denise Navoney leads 1984 Atlantic 10 Conference winner Penn State. She recently competed for the East at the 1985 National Sports Festival. Maria Josjo, a middle hitter, is another outstanding returnee and played in the World University Games.

The Gateway Collegiate Athletic Conference race could be a tossup. Illinois State, last year's representative, is in a rebuilding phase after losing four starters.

"We had a very good recruiting year but the problem is that there are not enough of them. We don't have a lot of bench strength. We're going to have to depend on a very few players all the time," said Illinois State coach Sandy Lynn.

South

The Atlantic Coast Conference

(ACC) is one of four conferences from the South region that receive automatic NCAA tournament qualification. Duke, last year's representative, returns 10 of 12 team members, including all six starters. Middle blocker Linda Kraft, an all-ACC selection in 1983 and 1984 and a 1985 National Sports Festival participant, heads the strong lineup. The addition of freshman Kertsin Karlsson, a 5-10 hitter who played on the Swedish national team, makes Duke a legitimate top-20 contender.

In the Metro Conference, last year's champion South Carolina returns three starters from a 28-8 team. The Lady Gamecocks will receive competition from an up-and-coming Memphis State team.

A real battle might break out in the Southeastern Conference, as Louisiana State, Florida, Tennessee and Georgia feature talent and experience. Last year's champion Tennessee might have the advantage because of seven returning veterans and a blue-chip recruiting year. Hitter Stephanie Scheper, setter Laurie Caraher and middle blocker Donna Monaco are back after National Sports Festival experience. In the Southwest Conference, last year's front-runners Texas (first) and Texas A&M (second) will be strong again. The Longhorns compiled a 32-7 record in 1984, winning the SWC for the third straight year. They return four starters, including setter Eva Murray, an all-SWC selection and member of the 1985 Junior National Team. Texas A&M features second team all-America Sherri Brinkman at the middle blocking position.

Lamar, two-time Southland Conference champion, is favored for the title again this year. Lamar will have to qualify for NCAA postseason competition through an at-large bid because the Southland lost its automatic qualifying spot in the tournament. Coach Katrinka Jo Crawford thinks it could be her best team ever.

West

Only seven schools ever have finished in the top four of the NCAA tournament, and four have been West region representatives—UCLA, Southern Cal, Stanford and San Diego State. UCLA, Stanford and Southern Cal, all members of a new five-member conference called the Pac-West, are preseason favorites for tournament action again this year. The conference winner will not receive automatic qualification for the tour-

See 1984 finalists, page 5

Portland State seeks unprecedented third play-off berth

Portland State, which waltzed to the 1984 Division II Women's Volleyball Championship title, will be gunning for an unprecedented third straight appearance in the championship final in 1985.

Bolstered by three returning all-Americans, the Vikings appear to be the preseason favorite. After a 1983 runner-up finish, coach Jeff Mozzochi's team posted a 33-4 record en route to its first NCAA title.

"We've got a solid group of returning players. Any time you've got three all-Americans, you should be fairly strong," said Mozzochi. "But we also have a large group of new players and their ability to learn will determine just how good we will be."

Three-time all-America Lynda Johnson, a 5-8 senior hitter/setter, leads Portland State. Other top returnees include Lisa Couch, a 5-11 senior middle blocker, and Theresa Huitinga, a 5-10 senior setter/hitter.

The Vikings' schedule is probably

the toughest in the country for a Division II school, consisting of 95 percent Division I teams. "We're in a conference that is Division I (Mountain West Athletic Conference) and the nonconference people we play are usually Division I because of our location. We also want to challenge ourselves," Mozzochi said.

Cal State Northridge, the 1982 champion, could be Portland State's nemesis. The Matadors are well-stocked in talent, and their location in the volleyball hotbed of Southern California gives them plenty of worthy opponents.

"We have nine of 11 players returning, including four of six starters," said Cal State Northridge coach Walt Ker. "It's definitely one of the deepest teams we've ever had."

"I think we're going to be good in size, a little bit bigger than in the past. And we have several women who are good in the defensive area."

The Matadors will be led by two-

time all-Americans Shelli Mosby, a 5-5 senior setter, and Heather Hafner, a 5-10 senior hitter.

As a member of the California Collegiate Athletic Association, Cal State Northridge will be challenged locally by California-Riverside and Cal Poly Pomona.

"Every year those teams are tough and in a way it gives us an advantage because we get to play against them during the season. But, it's bad when we get to tournament time because it's extremely difficult to make it to the final four," Ker said.

Other preseason favorites, by region, include:

Northeast

New Haven, a participant in the 1983 and 1984 NCAA championships, returns four starters from a 36-5 team. Coach Deborah Chin says her team should be strong offensively, as it has been in the past. Middle blockers Shirley Bacon and Wanda Bacon

should provide leadership in the seasoning of five new freshman recruits.

Army and Eastern College Athletic Conference standouts Northeastern and Massachusetts could be contenders. In addition, Northeast-8 teams Bentley and Springfield are improving and could challenge some of the region favorites.

Atlantic

James Madison, last year's Colonial Athletic Association (formerly the ECAC South) champion, returns five starters. Conference all-tournament selections hitter Bonnie Brosgol and setter Sandy Heinbach lead the team that coach Deb Tyson describes as fundamentally sound.

Slippery Rock went 33-6 last year, finishing first in the Pennsylvania State Athletic Conference. The Rockets return four starters, including all-conference selections Sue Fatcher, hitter; June Leahy, setter, and Simone Monico, hitter.

Other preseason region favorites are St. Augustine's and East Stroudsburg.

South

Though last year's Sunshine State Conference cowinner Florida Southern is in a rebuilding year, the Lady Mocs still are considered contenders for a South region berth. Coach Lois Webb's blue-chip recruits include three junior college all-Americans—Michelle Odermatt, Louise McAlpin and Jeanette Rutland—and Miami's top high school player, Sally Nowalk.

Tampa, which shared the conference championship, inherits nine returning letter winners from last year's 32-4 team. First-team all-conference hitter Susanna Wolmesjo leads the Spartans.

Two-time Gulf South Conference winner North Alabama should claim that honor again with the help of all-conference hitters Renita Allen and

See Portland State, page 5

Tritons may not be as strong, but may be strong enough

To listen to UC San Diego coach Doug Dannevik talk, one might surmise the Tritons' reign over Division III women's volleyball finally is coming to an end.

After all, Dannevik reports, "We lost four starters. We have seven returning players but only three have seen any action."

Although opposing Division III coaches do not doubt Dannevik's sincerity, they are well aware of his history. In the four years of the NCAA Division III championship, UC San Diego finished first in 1981 and 1984 and second in 1982 and 1983.

La Verne coach Jim Paschal, who admits with a grimace that he has to play the Tritons sometimes as many as five times a year, says UC San Diego always looks good. "Somehow Dannevik always replaces the people he loses with better players. That team is always well-coached and well-disciplined."

In 1984, the Tritons lived up to that reputation with a decisive 3-0 (15-7, 15-12, 15-9) victory over MIT in the championship game.

The Tritons will be pushed on the national level by 1983 national champion Elmhurst, from the Midwest region. The Blue Jays, who lost only one starter from last year's Chicago Metro Conference championship squad, have middle blocker Susan Birdsey back after an injury caused her absence in 1984. Illinois Benedictine, also from the Midwest, and Wisconsin-Stevens Point of the Central region return teams capable of being challengers for the title in 1985.

A breakdown of the top teams in

each region follows:

South

The winner of the Dixie Intercollegiate Athletic Conference will receive automatic qualification for the championship tournament. Last year's champion, North Carolina-Greensboro, lost four starters from its 34-4 team of 1984. The Spartans probably will have to battle St. Andrews, the conference's second-place team in 1984, and Greensboro for the honors in 1985.

Western Maryland, a 34-6 team in 1984 and third-place finisher in the Middle Atlantic States Collegiate Athletic Conference, could be the strongest in the region. It will be a rebuilding year in the setter position for the Green Terrors, but all-conference hitters Karen Miles and Nicky Pesik should contribute experience. Western Maryland has a good chance to reach the NCAA tournament through the conference's automatic berth but will have to fight off last year's champion, Juniata.

Glassboro State, the 1984 champion of the New Jersey Athletic Conference, has a shot at an at-large bid to the tournament.

West

UC San Diego again is favored as the leader in the region although Southern California Intercollegiate Athletic Conference standouts La Verne, national champion in 1982, and Occidental, national third-place finisher in 1981, look like contenders.

The Tritons, 23-12 in 1984, return setters Christy Wads and Carol Lipson, both members of the 1984 NCAA

all-tournament team. La Verne, the conference's 1984 tournament representative, features all-Americans Shauna Hinrichs at hitter and Michele Galagar at setter. Besides the Leopards' first-place finish in 1982, they took third-place honors in 1983 and 1984.

Occidental will be young but "scrappy," says coach Lesley Alward. Setter Cheryl Burditt and hitter Anne Henderson lead the list of returnees.

Midwest

Last year's Midwest representatives Calvin, Elmhurst, Illinois Benedictine, Ohio Northern and Alma—appear to be preseason favorites for success in 1985. Elmhurst, 1984 winner of the Chicago Metro Women's Conference, probably is the region's top contender and a good bet to repeat conference honors in 1985.

Calvin, the Michigan Intercollegiate Athletic Association second-place finisher in 1984, posted a 31-9 overall record in 1984 and finished fourth nationally. The Knights return all but one starter, including conference MVP Leah Calsbeek, a 6-0 hitter. They should challenge three-time conference champion Alma for the league's automatic qualifying position.

In the Ohio Athletic Conference, another league that receives automatic qualification, Ohio Northern probably will retain league superiority. Although young, the Lady Bears are talented. Baldwin-Wallace and Muskingum could be challengers. Illinois Benedictine, an at-large competitor in last year's tournament, looks to repeat that honor in 1985.

Other strong teams in the region include Wooster, Millikin and John Carroll, a member of the Presidents Athletic Conference, which recently was awarded a qualifying spot in the tourney.

Central

The battle for the Minnesota Intercollegiate Athletic Conference championship should be close. Last year's champion Gustavus Adolphus will be challenged by St. Catherine and Augsburg.

"If our setting position finalizes out, we should be very competitive," said Gustavus Adolphus coach Gretchen Kochler. The Gusties lost all-conference setter Sarah Johnson to graduation but will get stability from senior all-America hitter Amy LeClaire.

St. Catherine, a three-time tournament qualifier, lost several starters but new talent should carry the team back to the play-offs. Augsburg, second-place finisher in the conference, compiled its best record ever at 31-14 last season. Two-time all-conference hitter Anne Richter leads the Auggies.

Wisconsin-Stevens Point, a tournament qualifier in 1984, has everyone back.

Other teams that look good in the preseason are Coe, Nebraska Wesleyan, St. Scholastica and Wisconsin-LaCrosse.

East

The Presidents Athletic Conference has several members in the East region that could excel in 1985. Carnegie-Mellon, a 16-6 team last year, returns

three Pennwood West Conference selections in middle blocker Monica Zalevsky, setter Marianne Smith and hitter Chris Coleman.

Grove City, which competed in the tournament last year, lost only one player from a 36-6 team, while Thiel returns eight letter winners from a 25-10 team.

Juniata, the Middle Atlantic States Collegiate Athletic Conference winner last year, returns team leaders Mariella Gacka, setter/hitter, and Carolyn Stambaugh, middle blocker, to an otherwise young team. "We are rebuilding in many ways; but by the end of the year, we should be very strong," said coach Larry Bock.

MIT, the 1984 second-place team in the nation, lost four starters. Coach Karyn Altman will rely on veterans Jennifer Smith at setter and Rachel Chin at hitter.

Worcester State, Mount Holyoke and Eastern Connecticut State also will be strong in the East.

Northeast

The State University of New York Athletic Conference has been awarded a tournament berth for the first time. Last year's winner Albany (New York) returns everyone, including all-state selections Patty Munhall and Rhonda Rogers, both middle blockers.

Cortland State and Geneseo State could challenge Albany for the top spot. Ithaca, an at-large qualifier last season, returns almost its entire team, as does another tournament qualifier, Nazareth (New York).

Hunter, Brooklyn and Rochester should field their best teams ever.

Portland State

Continued from page 4
Fran Orlando.

South Central

The Continental Divide Conference, one of three conferences to receive automatic qualification for the NCAA tournament, will feature excellent competition in 1985. Air Force and Northern Colorado appear to be the front-runners.

Last year's champion Air Force will be led by all-America setter/hitter Barb Martin and all-conference middle blocker Lisa Garraway. Northern Colorado, 40-10 last season, returns four starters, including all-conference hitter Mary Vetter and middle blocker Heidi Shelton.

Sam Houston State, the 1984 fourth-place finisher, returns four starters from a 47-8 team. First-team all-Gulf Star Conference hitters Bon-

nie Beard and Katherine Charles should provide leadership. The Ladykats' schedule is composed of about 70 percent Division I teams, and the school will transfer into Division I next year. Other promising teams are Northwest Missouri State and Central Missouri State in the Missouri Intercollegiate Athletic Association and Angelo State of the Lone Star Conference.

Great Lakes

Great Lakes Intercollegiate Athletic Conference champion Ferris State has participated in the NCAA tournament for the past three years and is the preseason favorite to represent the Great Lakes region again in 1985. Coach Jill Hirschinger must replace second-team all-America setter Sharon Sanders, but the return of sophomore Patty Theis in the middle

and Kris Johnson and Milli Holley in the hitting positions should help the Bulldogs achieve a record comparable to last year's 48-3 finish.

Indiana/Purdue-Fort Wayne probably will repeat as champion of the Great Lakes Valley Conference.

North Central

The battle for the North Central Intercollegiate Athletic Conference's berth to the NCAA championship will be fierce. The three traditional powerhouses—Nebraska-Omaha, North Dakota State and St. Cloud State—will be strong again but may be challenged by Mankato State.

Nebraska-Omaha returns all six starters from a 47-15 and conference championship team. All-conference hitters Kathy Knudsen and Renee Rezac return for their senior years. North Dakota State lost two all-

regional selections, but coach Donna Palivec says she has a good nucleus returning in Beth Mattson, Gretchen Hammond and Zandra Bina.

St. Cloud State returns its most experienced lineup ever, with four all-conference selections—setters Julie Blossley and Nancy Thompson and hitters Kim Thiesfeld and Becky Stream.

Elsewhere in the region, Minnesota-Duluth is favored to repeat as champion of the Northern Sun Conference.

Southwest

Although Cal State Northridge is favored to win the California Collegiate Athletic Association, Cal Poly-Pomona or California-Riverside could pull an upset.

California-Riverside has size, experience and cohesiveness. All-America honorable mention setter/hitter

Annie Kniss tops a list of veterans who return from a 19-11 team.

Cal Poly-Pomona, tied for second in the league with California-Riverside in 1984, returns the bulk of the team, including all-Americans middle blocker Clara Piersma and setter Terri Dantuma.

Northwest

Portland State, 1984 NCAA national champion, should claim region honors again in 1985. However, Cal State Sacramento's returnees from last year's national third-place team and newcomer Kim Beal should combine to make the Hornets a contender again. Coach Debby Colberg led her team to the national championship in 1981.

Sue Fatcher, Slippery Rock

1984 finalists

Continued from page 4

nament since six schools are required to be members of the conferences nominated for automatic qualification. However, the Pac-West winner should have no trouble receiving an at-large berth.

Southern Cal, a 30-7 1984 team, lost in the West region finals to Stanford last year. Coach Chuck Erbe calls his 1985 team one of his most talented ever, featuring returning senior Tracy Clark, a three-time all-America hitter; Kim Ruddins, a former U.S. Olympic Team setter, and Leslie Devereaux, a middler blocker. Outside hitter Yvonne Lewis, at 5-11, is expected to do great things for the Trojans this fall.

The High Country Athletic Conference (HCAC) winner receives the only automatic qualification in the West region, and Colorado State is once again favored. The Lady Rams were 27-9 last season. HCAC player of the year and second-team all-America Sherri Danielson returns for her senior year at the outside hitter spot. Brigham Young probably will provide the fiercest competition for conference superiority.

Northwest

With the addition of Hawaii, San Diego State, Cal State Fullerton and Long Beach State, the Pacific Coast Athletic Association (PCAA) challenges the Pac-West as the premier volleyball conference in the nation. Cal Poly San Luis Obispo, last year's conference champion, looks powerful with five starters returning. However, Hawaii, national champion in 1982 and 1983; San Diego State, two-time third-place national finisher, and Pacific, 1984 third-place finisher, are all traditional volleyball powers looking for that automatic berth to the championship.

Cal Poly San Luis Obispo's returnees include four all-PCAA choices: setter Dede Bodnar, hitters Ellen Bugalski and Kelly Strand, and middle blocker Carol Tschasar. The Mustangs' only weakness appears to be bench strength.

The departure of nine-year veteran coach Terry Liskeyvych to the U.S. women's national team and five seniors to graduation would seem to leave Pacific's volleyball hopes for 1985 rather dim. However, first-year coach John Dunning feels chances are good for another trip to the final

four. Talent is plentiful, and with the experience and leadership qualities of all-America hitter Julie Maginot and all-NCAA regional selection hitter Therese Boyle, the Tigers' young squad could jell into a national contender.

San Diego State coach Rudy Suwara says an excellent recruiting year and the return of four veterans puts the Aztecs back in the hunt for NCAA gold in 1985. Suwara is relying on middle blockers Renee Pankopf and Angelica Jackson and transfer setter Liane Sato to run the usually powerful hitting attack. Although young, the Aztecs could improve their 32-14 record of last season.

Except for four players, freshmen and sophomores compose Hawaii's 12-member squad. Although the Rainbow Wahines appear to be low in firepower, competition never rules out any team coached by Dave Shoji.

San Jose State is the preseason favorite for the Northern Pacific Athletic Association's (NorPac) automatic qualification spot. The Spartans return seven of nine roster members from their national fourth-place team of 1984. In addition, all-America hitter Lisa Ice, who redshirted last season due to a knee injury, is back.

Kim Oden, (16), Stanford

The NCAA News

Water Polo Preview

Water polo powers try to keep each other at bay

By Lacy Lee Baker
The NCAA News Staff

Within a 30-mile radius of the California bay area lies the success formula for college water polo...or at least it seems that way.

Whether it's the coaches, the players or even the water, no one really knows. But the fact remains that bay-area schools California (6) and Stanford (4) have combined for 10 of the last 12 NCAA titles in the sport.

In the 1984 championship game, coach Pete Cutino's California Golden Bears edged Stanford in another classic matchup between the two longtime rivals. With only 32 seconds left in the contest, California's Bill Schoening scored to break an 8-8 tie. Although the Cardinal then had an opportunity to score, the Bears stole the ball to clinch their sixth title.

California, its 1985 lineup depleted by a number of graduations, must mature quickly to repeat as champion.

"We really lost the heart of our team," Cutino said about nonreturning all-Americans Alan Gresham, Shaun Cleary, John Gifford and Bruce Perry. "But, we had an outstanding recruiting year. We are looking for our young people to make the transition."

Schoening and John Felix, an NCAA tournament second-team selection, are the two most experienced players returning. In addition, second-team all-America Matt Biondi, who holds the American records in the 100- and 200-yard freestyles, and Colin Thompson, a member of the U.S. national team, are back from last year's 26-4-1 squad.

The newcomers include 1984 red-shirt Jeff Brush at goalie, high school all-America Kirk Everist, Southern California CIF sprint champion Joel Thomas and Cameron Thompson from Newport, California.

"We hope to be well-balanced. However, when you have players who have sat in the wings previously, you are just a little apprehensive," Cutino said.

If Cutino's anxious about his own team's chances for a repeat success in 1985, whom does he favor for the title? Why, his nearby neighbor, Stanford, of course.

"Stanford is the team to beat. They have almost everyone returning from last year's second-place team," Cutino said.

Cardinal coach Dante Dettamanti, whose 233-63-6 record includes three

titles during his eight-year reign, has assembled a veteran unit that includes all-Americans David Imbernino (field), Craig Klass (hole) and Jaime Velez (field). As the NCAA runner-up for the second time in three years, the Cardinal finished the 1984 season with a 25-5 record and could be ready to return to the winner's circle.

"To win the NAAs, you have to be consistent throughout the year and maintain a steady performance level," said Dettamanti. "We've got to avoid the mistakes we made as freshmen and sophomores. I think our experience will help there. We have to do the little things that will make the difference in those one-goal games. It's going to be tough, but I think this team has the potential to win the NCAA."

Stanford returns its top eight scorers from a team that averaged nearly 10 goals a game en route to winning the Pacific-10 Conference title.

"This team has been together for two years now," said Dettamanti, "and they are really starting to know each other better and play better together. Everybody on the team is becoming a scoring threat. Before, we had to rely on one or two guys to score; but now everybody can score, even our good defensive players."

The biggest concern for Dettamanti is replacing all-America goalie Steve Moyer. Sophomore Obi Greenman, with 33 saves in the 1984 season, and freshman Todd Kemp are battling for the position.

Other California contenders

Other names from the past also are emerging as legitimate contenders for this year's title. UCLA, UC Irvine and California-Santa Barbara, all past national champions, could upset the bay-area dominance.

UCLA, which won three titles in the first four years of the tournament (1969-71-72), is making a bid to regain its past lofty ranking. Despite a 13-13-1 record last year, the Bruins finished fifth nationally.

They'll be led by returnees second-team all-America Gary Roberts and Jeff Chase and newcomers Mark Maratzki and Alexis Rousseau.

UC Irvine, 1970 and 1982 national champion, is back in the running with the return of national standout two-meter man Jeff Campbell, who red-shirted last season. All-America Campbell was the leading scorer at the 1985 National Sports Festival.

The Anteaters were 16-12-1 last

season and did not qualify for the NCAA tournament for only the second time in the 16-year history of the event. Other standouts for UC Irvine are J. R. Salvatore, who scored 50 goals in 1984, and all-Pacific Coast Athletic Association (PCAA) selections Mike Doting and goalie Mark Maizel.

California-Santa Barbara should have its best team in years. Coach Pete Snyder, who led the Gauchos to the 1979 championship title, directs a well-seasoned 1985 squad. The top nine scorers from last year's 13-13 team return, including Canadian Olympic team member John Anderson and all-PCAA choice John Obrien.

Long Beach State, which returns 10 lettermen and five redshirts from last year, and Pepperdine, the 1984 PCAA champion and fourth-place finisher, also appear strong. Long Beach coach Ken Lindgren doubles as the U.S. national team coach.

Other standouts

Although no team outside of California ever has placed in the top four of the NCAA championship, water polo in other parts of the country continues to improve. Navy, Air Force, Loyola (Illinois), Brown and Bucknell appear to be the front-runners for championship berths.

Navy, three-time Mid-Atlantic Conference champion, went to the NCAA tournament for the first time in 1984. Returning from a 23-5 team are David Kaye, Lawrence Kough, Jim Meehan and Tom Temple.

Air Force was 10-12 last season but returns almost the entire lineup. The Falcons narrowly missed qualifying for the NCAA championships, losing to Loyola (Illinois), 6-4, in the Midwest play-off. Tim Harris, Mark Crosby and Cy Whinnery are top returnees.

Loyola (Illinois) was 17-14-1 in 1984 and placed seventh in the nation. Second-team all-America Dan O'Connell leads the Ramblers.

Bucknell appears to be fielding its strongest team since the 1980 Eastern championship squad. Seven lettermen return from last year's 18-6 team, including National Sports Festival participants Jeff Hilk and Paul Duffy.

Brown hopes to retain its No. 1 standing in the East. Second-team all-America goalie Lars Enstrom and all-East selections Rich Russey and Ken Rivers headline the Bruins' lineup.

Cal's Matt Biondi

Milcunz photo

Standards set in swimming

Qualifying standards for participation in the 1986 NCAA Divisions I, II and III Men's and Women's Swimming and Diving Championships have been established by the Men's and Women's Swimming Committees and approved by the Executive Committee.

Following are the 1985 division qualifying standards in yards and meters:

Men's

Event	Division I			Division II			Division III		
	Yards	Short Course Meters	Long Course Meters	Yards	Short Course Meters	Long Course Meters	Yards	Short Course Meters	Long Course Meters
50 Free	20.44	22.68	23.38	21.37	23.72	24.41	21.60	23.97	24.67
100 Free	44.64	49.55	50.94	46.78	51.92	53.32	47.53	52.75	54.15

Florida's schedule toughest, followed by Rutgers'

By James M. Van Valkenburg
NCAA Director of Statistics

Florida is playing the toughest schedule in the nation this fall, according to the NCAA's Division I-A preseason toughest-schedule computer program. Next, in order, are Rutgers, Washington, Boston College, Florida State, Tennessee, UCLA, Pittsburgh and Washington State.

If this does not conform with your own toughest-schedule top 10, you are undoubtedly in a strong majority. Toughest schedule always will be a matter of opinion, colored by regional bias and tradition and tinged by bowls, polls, intersectional history and television coverage.

The computer program strips all that away and answers only one simple question: What did your 1985 I-A opponents do in 1984 (bowls included) against other I-A teams when they were not playing you? It is nothing but a simple statistical measurement that says nothing about the opposition faced by the teams on each schedule, except that games involving non-I-A teams are deleted as if they never happened.

A vital element

The first element—deleting games against the team in question—is a vital one in the toughest-schedule program. Without it, a winning team is at a disadvantage and a losing team's schedule strength is exaggerated. Opponents of a 10-1 team would start 1-10 before you even added the other games (assuming it played the same schedule as last season) and opponents of a 1-10 team would enjoy a 10-1 start.

Why that last element—deleting all games with non-I-A teams? Because I-A teams annually win 70 percent or more of such games. In 1984, teams in the one-million-attendance conferences (Big Ten Conference, Southeastern Conference, Big Eight Conference, Pacific-10 Conference, Southwest Athletic Conference, Atlantic Coast Conference and Western Athletic Conference) played 24 such opponents and won 22 times for 91.7 percent (Furman edging North Carolina State and Idaho beating Oregon State for the only losses).

All I-A teams won 61, lost 21 against I-AA teams in 1984 for 74.4 percent (in 1983 it was 77 percent) and were 5-0 vs. teams below I-AA.

Florida's lineup

Florida's opponents (all in I-A) this fall won 72, lost 36, tied four for a .661 percentage (ties computed as half won, half lost) against other I-A teams last season when not playing Florida. This means its opponents had a cumulative 73-42-5 record vs. I-A teams in 1984, but this included a 1-6-1 record against Florida, a 9-1-1 team. This 1-6-1 is deleted by the computer, leaving 72-36-4.

This also means Florida is playing eight teams in 1985 it also played in 1984—Miami (Florida), Louisiana State, Mississippi State, Tennessee, Auburn, Georgia, Kentucky and Florida State. Its other three opponents—Rutgers, Virginia Tech and Southwestern Louisiana—had a combined 22-11 record in 1984. They replace three 1984 foes who were a combined 11-22 (Tulane, Syracuse and Cincinnati).

This explains how Florida moves up from its final third-place finish in the 1984 regular-season, toughest-schedule rankings (Penn State won at .613, with Georgia next, nudging Florida, .60194 to .60185).

Second-place Rutgers plays nine I-A opponents—Florida, Army, Penn State, Boston College, Temple, Pittsburgh, Tennessee, West Virginia and Syracuse. These nine were 53-31-4 for .625 vs. I-A foes when not playing Rutgers last year. Rutgers' other two opponents, 5-5 Colgate and 8-4 Richmond, a I-AA play-off team, are not included in the formula, as mentioned (Colgate was 0-2 vs. I-A teams, Richmond 0-3). Some might argue that

John Settle, Appalachian State, is the top Division I-AA rusher with 193 yards on 25 carries

Indiana State quarterback Jeff Miller is among the leaders in passing efficiency in Division I-AA

Auburn's Bo Jackson leads Division I-A rushing with 290 yards on 23 carries, a 12.6-yard average

Melvin Marshall, Bowling Green State defensive back, is tied for first place in interceptions in I-A

Rutgers should be penalized statistically in some small way simply for playing I-AA teams. But even if you did that, the Rutgers schedule still would rank high.

Based on last year only

The ranking, remember, is based on last season's results and nothing else. But are not nearly all preseason rankings based almost solely on last year? It is inevitable that some early-season, toughest-schedule rankings may look much different than the preseason in some instances. More about that later.

First, let us look at some more preseason leaders. The second 10 includes, in order, Clemson, Michigan, Oregon State, Notre Dame, Maryland, Illinois, Stanford, Temple, Kentucky and Baylor. Of the 1985 lineup of 105 teams in I-A, 54 face

Four face eight bowlers

As the table shows, four teams will face eight bowl teams—Florida, Illinois, Notre Dame and Michigan. Baylor, Rice and Minnesota face seven bowlers and Mississippi and Clemson six each. Minnesota is the only team with a schedule not on the over-.500 list.

No team in this group, however, is facing four bowl winners. Only three teams are doing that. Brigham Young's bowl foes were 4-0 in bowls, Washington's were 4-1 and Boston College's also 4-1.

Pacific-10 leads

Among the 54 teams with over-.500 schedules, the Pacific-10 placed all 10 of its members, the Eastern independents eight teams (of nine), the SEC eight (of 10), the ACC seven (of eight) and the SWC five (of

change things, although a year ago the top four turned out to be pretty accurate. The preseason top 10 was, in order, Penn State, Auburn, Florida, Georgia, Florida State, Pittsburgh, Georgia Tech, Miami (Florida), Boston College and Temple. The final top 10 included, in order, Penn State, Georgia, Florida, Utah State, Baylor, Boston College, Stanford, Syracuse, Texas and Navy.

As you can see, Penn State led in both and Florida and Georgia made the top four in both, while Boston College went from ninth to sixth. Pittsburgh's schedule dropped to 12th, Auburn's to 20th, Florida State's to 21st, Miami's to 25th, Georgia Tech's to 40th and Temple's to 45th.

Conversely, Utah State's schedule was 51st in preseason, Baylor's 29th, Stanford's 28th, Navy's 25th, Texas' 19th and Syracuse's 17th. Most of the changes really are not that dramatic when you notice how close together the percentages are.

Tennessee Tech leads I-AA

Among Division I-AA teams playing at least eight I-AA and/or I-A opponents, Tennessee Tech's schedule leads the division. Its I-AA or I-A foes won 59, lost 41, tied zero in 1984 against I-AA or I-A opposition (not including, of course, their nine wins over Tech, an 0-11 team last season) for a .590 percentage. South Carolina State is second at .585, Nevada-Reno third at .584. Florida A&M's .638 percentage is highest, but it is playing only seven foes at the I-AA level or above, vs. 11 for Tennessee Tech.

Tennessee Tech's schedule outside the Ohio Valley Conference is exceptionally rugged—11-0 Tennessee State, 11-2 Nevada-Las Vegas (a I-A team; its forfeit losses not included), 8-3 Western Carolina and 8-3 Georgia Southern for a combined 38-8.

In all, there are 36 I-AA teams with schedules above .500 (deleting opponents below I-AA, of course)—a 50 percent jump over last season. Here are the rankings, for those with at least eight I-A and/or I-AA foes and those with less than eight:

Division I-AA:	W-L-T	Pct.*
1. Tennessee Tech (3).....	59 41 0	.590
2. S.C. State (1).....	38 27 0	.585

52. San Diego St. (2).....	62 61 0	.504

*Under nine I-A opponents:

1. Army (3).....	35 29 2	.545
2. Wake Forest (3).....	40 35 5	.531

*Ties computed as half won, half lost.

±Only two exact ties in percentage.

#Army plays seven I-A teams, Wake Forest eight, all above at least nine.

nine). Similarly, in combined schedule won-lost-tied percentage, the Pac-10 is an impressive 117 games above the .500 level (620-503-9 for .552), Eastern independents combine for .550, SEC .546, ACC .528 and SWC .505. These five are the only conferences and independent groups above .500 and account for 38 of the 54 teams on the list.

Why do these five lead the list? That is easy. The same five led the country in won-lost against outside I-A opponents in 1984 and conferences and independent groups play against each other. That made it a mathematical certainty they would hold sway in 1985.

The SEC had a 36-15-3 record for .694 against I-A outsiders, including 2-2-1 in bowls last season; the Pac-10 was .667 on 24-12 including 3-0 in bowls; Eastern independents .593 on 25-17-1 including 3-0 in bowls; the SWC .556 on 14-11-2 despite 1-4 in bowls, and the ACC .517 on 15-14, thanks to 2-0 bowls. All other were under .500.

Nonconference only?

Brigham Young's defending national champions certainly have one of the toughest nonconference schedules, with 10-2 Boston College, 9-3 UCLA, 11-1 Washington and 6-5 Temple, for a combined 36-11 or .766. After all, conference teams are locked in to playing other conference members. Why not a computer program that would focus solely on non-conference games? Not a bad idea, but some conference teams play so few games outside the league. Big Ten teams, for instance, played just two each last season, except for Iowa's game in Hawaii. Would a ranking based on two games mean very much? Remember, too, most nonconference games are scheduled many years in advance, so that some of it is merely the luck of the draw.

Preseason vs. regular season

For the rest of this fall, only this season's results will be used in toughest-schedule rankings. That can

#Under eight I-A or I-AA opponents:

1. Florida A&M (1).....	37 21 0	.638
2. SF Louisiana (2).....	36 26 1	.579
3. Nicholls St. (0).....	31 23 2	.571
4. Davidson (0).....	27 21 0	.563
5. N.C. A&T (1).....	21 18 0	.538
6. West. Illinois (2).....	29 27 0	.518

*Ties computed as half won, half lost.

±Only two exact ties in percentage.

#Florida A&M, SE Louisiana, Nicholls State and Western Illinois play seven I-A or I-AA opponents each, Davidson and North Carolina A&T six each; all above at least eight.

As the table shows, North Texas State leads in playing four bowl and/or play-off teams this fall—Oklahoma State and Texas Christian in I-A and Louisiana Tech and Arkansas State, both fellow Southland Conference members in I-AA. A year ago, North Texas led all I-AA teams on the toughest-schedule, regular-season chart at .609.

Yankee leads

The Yankee Conference, with four of its six members on the over-.500 list, leads in schedules with a combined .527 by its I-A and I-AA foes against other I-A and I-AA teams in 1984. The Gulf Star Conference's four I-AA members (other two in II) show a partial .527, and Eastern independents stand .506.

All other I-AA conferences and independent groups show combine schedules under .500 because of the division's .256 percentage against I-A last season.

Quotes of the week

Asked to evaluate his new recruits, Vanderbilt coach George MacIntyre laughed and replied: "It's impossible. The only thing I know for sure is that the linemen are ugly and the receivers are pretty." (Tony Neely, Vanderbilt assistant SID)

At the Ohio Valley Conference media day, Murray State coach Frank Beamer was bemoaning his fate: "On Sunday, we learned one of our starting offensive guards was not coming back for personal reasons. On Monday, our all-America offensive tackle, Colby Schreckengost, found out he needed back surgery. On Tuesday, our offensive coordinator, Mark Thomas, tells us he's leaving for Duke. I was afraid to get out of bed Wednesday, but it turned out to be a pretty good day." Next on the agenda was Tennessee Tech coach Gary Darnell, who led off this way: "Frank, we just got a message for you—your wife has left you." (Craig Bohner, Murray State SID)

Mississippi State freshman guard Harold Riels, from Brookhaven, Mississippi, had a hair-raising experience on a construction job: "The crane operator knew I was new, so just before quitting time, he lowered the bucket in a sudden free fall. My whole life had flashed before my eyes when he finally put on the brakes about 25 feet from the ground." (Bo Carter, Mississippi State SID)

Houston coach Bill Yeoman: "I sometimes get impatient...I remember once yelling at one of my sons that he was acting like a two-year-old. The thing was, he was two

Championships Corner

Future championships

1. Dates and sites have been determined for the following future NCAA championships:

1985 Division II Football Championship (December 14)—Palm Bowl, McAllen, Texas.

1986 Division I Men's Ice Hockey Championship (March 27-29)—Providence Civic Center, Providence, Rhode Island (Providence College and Brown University cohosts).

1986 Division I Men's Lacrosse Championship semifinals and finals (May 24, 26)—Rutgers University, New Brunswick, New Jersey. Site originally set at the U.S. Military Academy, which withdrew as host because of changes in its academic calendar.

1986 Men's and Women's Skiing Championships (March 5-8)—Stowe, Vermont, with the University of Vermont as the host institution. The alpine events will be held at Stowe Mountain and the Nordic events at Trapp Lodge.

1986 Men's and Women's Indoor Track Championships (March 14-15)—Myriad Convention Center, Oklahoma City, Oklahoma, with the University of Oklahoma as host institution.

1987 Division I Men's and Women's Outdoor Track Championships (June 3-6)—Louisiana State University, Baton Rouge, Louisiana.

1987 Division I Wrestling Championships—University of Maryland, College Park, Maryland.

1988 Division I Wrestling Championships—Iowa State University, Ames, Iowa.

1989 Division I Wrestling Championships—Myriad Convention Center, Oklahoma City, Oklahoma (University of Oklahoma and Oklahoma State University cohosts).

1986 Division II Wrestling Championships (February 28-March 1)—Southern Illinois University, Edwardsville, Illinois.

1986 Division III Wrestling Championships (February 28-March 1)—Trenton State College, Trenton, New Jersey.

Regional dates

2. Dates and sites have been determined for the following NCAA regional competition:

1986 Division I Wrestling Championships West regional (February 28-March 1)—Southwest Missouri State University, Springfield, Missouri.

1986 Division II Wrestling Championships (February 22 or 23)—East—Edinboro University of Pennsylvania, Edinboro, Pennsylvania; Midwest—Wright State University, Dayton, Ohio; Central—Missouri State University, Warrensburg, Missouri; South—Liberty University, Lynchburg, Virginia; West—California State University, Chico, California.

1986 Division III Wrestling Championships (February 22 or 23)—North-east—Ithaca College, Ithaca, New York; Southeast—Trenton State College, Trenton, New Jersey.

3. The Division III East region has been subdivided into two regions, with the Northeast region including Connecticut, Maine, Massachusetts, New Hampshire, New York, Rhode Island and Vermont, and the Southeast including all of the other states currently in the East region.

Automatic qualification

4. Automatic qualification for future NCAA championships has been approved for the following conferences:

Division I Men's Ice Hockey Championship—Eastern College Athletic Conference, Central Collegiate Hockey Association, Hockey East and Western Collegiate Hockey Association.

James R. Spalding

David Yates

New committee chairs

New NCAA committee chairs assumed office September 1. Beginning with the top row, from left to right: I. J. Caccia, Idaho State University, Division I-AA Football Committee; Stanley J. Clark, California State University, Hayward, Men's Tennis Committee; Jim Dutcher, University of Minnesota, Twin Cities, Men's Basketball Rules Committee; Harlan D. Knosher, Knox College, Division III Men's Basketball Committee; John D. Marshall Jr., Fayetteville State University, Division II Football Committee; Bill McClure, Louisiana State University, Men's and Women's Track and Field Committee; Dr. Robert J. Murphy, Ohio State University, Drug Education Committee; Dr. James C. Puffer, University of California, Los Angeles, Committee on Competitive Safeguards and Medical Aspects of Sports; Jack Ryan, U.S. Military Academy, Men's Swimming Committee; Richard D. Schultz, University of Virginia, Division I Men's Basketball Committee; Vernon M. Smith, University of Toledo, High School All-Star Games Committee; James R. Spalding, Bellarmine College, Division II Men's Basketball Committee, and David Yates, University of Oklahoma, Men's Golf Committee.

Texas editors defend using point spreads

Several Texas newspaper executives have indicated they plan to continue publishing point spreads on Southwest Athletic Conference football and basketball games despite an appeal by SWC Commissioner Fred Jacoby to stop the practice.

"If people are going to gamble, they will do it whether we run odds or not," said Dave Smith, executive sports editor of The Dallas Morning News.

Dave Campbell, sports editor of the Waco Tribune-Herald, which regularly publishes a syndicated line, echoed that thought.

"People who bet would get their

information somewhere," Campbell said. "If papers got together and banned the line from publication, it would not have one ripple of effect."

The publishing of odds, point spreads "and other gambling information," Jacoby wrote, "further enhances the opportunity for exploitation by gambling interests."

The Morning News said its reporters contacted several newspaper editors, and they said that they would continue to publish the data and expressed doubt that their policy would have any effect.

Rick Hinton of The Houston Post said the line is for the fans, not the

bettors. "They (fans) want to know who's favored and by how much. The sophisticated gambler is going to get his information from other sources," Hinton said.

The Morning News' Smith said the numbers carried by the News "are not true gambling odds. If you call a bookie, he will quote a different spread or odds. Those things change almost hourly."

Arnold Rosenfeld, editor of the Austin American-Statesman, said Jacoby's concern is misplaced.

"I'm not convinced this (publishing point spreads) is a problem," Rosenfeld said.

Legislative Assistance

1985 Column No. 31

Affidavits concerning financial aid to Division III student-athletes

At its recent meeting, the NCAA Council approved a recommendation by the Division III Steering Committee to allow Division III member institutions to administer an alternative affidavit concerning financial aid to student-athletes under the requirements of Proposal No. 9 (adopted by the fifth special NCAA Convention, June 21, 1985).

The specific language of the alternative affidavit now has been approved by the Administrative Committee and will be mailed to Division III chief executive officers September 9. This being the case, Division III member institutions will have the option of asking student-athletes to complete either the financial aid affidavit form that was mailed to the chief executive officers August 1, 1985, or the new alternative form.

The Division III Steering Committee's primary concern in recommending the alternative form was to protect the confidentiality of the specific amount of institutionally administered financial aid each student-athlete receives. Some institutions indicated that they did not believe the specific amount should be available for review by the head coach. The alternative form permits the student to indicate whether his or her institutional financial aid exceeds the student's need. The final four questions of the student-athlete's affidavit remain the same.

Principles of institutional control and responsibility—special Convention Proposal No. 7

Special Convention Proposal No. 7 requires an annual audit of all expenditures for an institution's intercollegiate athletics program by an individual from outside the institution selected by the institution's chief executive officer or his or her designee. Recently, the NCAA Administrative Committee concluded (and the Council affirmed) that in order for an external audit of a booster group's expenditures on behalf of an institution's intercollegiate athletics program (per special Convention Proposal No. 7) to be effective, it will be necessary for the auditor to review all expenditures of the booster group so the auditor can determine which expenditures had been made for the institution's athletics program. However, the auditor's report to the institution's chief executive officer can be limited to those expenditures that were made in behalf of the athletics program.

Extra benefit—professional services

The provisions of Constitution 3-1(h)-(4) identify benefits incidental to a student's participation in intercollegiate athletics that may be financed by the institution. In addition, the provisions of Constitution 3-1(g)-(5) and Case No. 60 (page 273, 1985-86 NCAA Manual) prohibit a student-athlete from receiving professional services (for which a fee normally would be charged) at less than normal or at no expense unless such services are available to the student body in general.

This being the case, it would not be permissible for an outside professional individual or organization to provide instructional or training programs to a member institution's student-athletes, on either a voluntary or a compensatory basis, unless such programs are available to a similar extent and accessible to the student body in general. For example, it would not be permissible for the institution's athletics department to pay the costs for a motivational/self improvement firm or individual to conduct seminars for the institution's student-athletes unless the seminars were also provided to the student body in general in similar format and duration. However, it would be permissible for institutional staff members to conduct such seminars.

This material was provided by the NCAA legislative services department as an aid to member institutions. If an institution has a question that it would like to have answered in this column, the question should be directed to Stephen R. Morgan, assistant executive director, at the NCAA national office.

Committee Notices

Member institutions are invited to submit nominations for interim vacancies on NCAA committees. Nominations to fill the following vacancies must be received by Fannie B. Vaughan, administrative assistant, in the NCAA national office no later than September 23, 1985.

Council: Replacement for Mary Alice Hill, no longer at San Diego State University, effective upon adjournment of the 1986 Convention. Replacement must be a woman from Division I.

Men's Ice Hockey: Replacement for Thomas J. Birmingham, no longer at St. Anselm College. Replacement must be from Division II or III East (Districts 1 and 2) ice hockey region.

Replacement for James W. Ellingwood, North Adams State, deceased. Replacement must be from Division II or III East (Districts 1 and 2) ice hockey region.

One of the two appointees must be an administrator.

Weinhauer, Arizona State agree on cash settlement

Former Arizona State University basketball coach Bob Weinbauer has accepted a settlement that will pay him \$300,000 over the next five years as compensation for his being released by the university in July.

The agreement, signed by Weinbauer and university President J. Russell Nelson and approved by the state board of regents, provides a \$220,744 annuity that will pay Weinbauer \$300,000 in equal monthly payments over a five-year period. Weinbauer also will be paid \$13,631 immediately and keep \$12,000 he received in June.

The agreement also added \$30,400 for his attorney's fees.

Weinhauer, 45, was released July 9 after posting a three-year overall record of 44-45. He filed a \$400,000 claim against the university, contending he had an agreement to coach the Sun Devils for five years when he was hired from the University of Pennsylvania in 1982.

University attorneys said any long-term agreement was invalid because state law limits contracts of university employees to one year.

Nelson said all of the money toward the settlement will be paid during the current fiscal year and that it will come from athletics department revenues and not taxpayers' funds, in compliance with state law.

Certification deadline is December 1 for high school all-star contests

Organizations that wish to certify their summertime high school all-star football or basketball games must return application forms by December 1.

The NCAA High School All-Star Games Committee will consider all applications received by that date. Those received after December 1 may not be considered for another year.

The committee, which consists of both college and high school representatives, acts in place of those state high school athletics associations that have declined to accept jurisdiction for certifying high school all-star games. The committee's charge is included in NCAA Constitution 3-9(a).

Individuals who participate in all-star football games should note a change in Criterion No. 9 relating to practice. If a participant competes in a high school all-star football game within two weeks of his last high school game, he must have had at least four days of organized practice prior to the day of the game. In the past, nine days of organized practice were required regardless of the timing of the game.

Following are all criteria that apply to high school all-star football and basketball games:

1. Participation in the game shall be restricted to individuals who have completed their high school eligibility in the sport and have not yet enrolled in and attended classes during a regular term at a collegiate institution.

2. Players participating in the game shall live within the state in which the game is played; or, if the game is interstate in nature, then the participating players shall live within the states involved. The selection of a participant shall not be contingent upon a cash contribution to the organization sponsoring the game or the purchase of game program space or advertising.

3. The game shall be sponsored and administered solely by an organization established and operating in the community or state in which the game is played.

4. The game shall have an established charitable or educational purpose; the financial records of the game shall reflect an accomplishment of that purpose, and all net receipts from the game shall be utilized for such purpose. Net receipts shall be gross receipts less expenses directly connected with the administration and conduct of the event.

Gross receipts shall include all revenues derived from the game including sale of tickets (less taxes), concessions, programs, radio rights, television rights, movie rights and any other income derived from the operation of the game, including amounts donated by individuals or organizations for general or specific purposes. No complimentary tickets shall be allowed. Not more than 60 percent of the game's gross receipts can be consumed by expenses directly connected with the administration and conduct of the event.

Expenses directly connected with the administration and conduct of the event shall include promotion and publicity, tickets, general game and team expenses, administrative expenses, and any other expenses necessary for the conduct of the game, including amounts paid by individuals or organizations for specific purposes (e.g., transportation, banquet, awards, staff).

5. Following the game, the sponsoring organization shall provide to the NCAA by the required deadline: (a) a complete financial record of the game; (b) confirmation of a physician's presence at the game, availability during all practice sessions and medical examinations of all participants prior to the competition, and (c) proof of payment (cancelled check or certified statement from charitable or educational organization) of all net proceeds (including any delayed amounts) to the charitable or educational organization.

6. Expenses of participants shall be limited to actual transportation, board and room costs. Payment shall be made directly by the sponsoring agency to the vendor, except that in those instances where it is more convenient to use cash to reimburse the participant for his transportation costs, this may be done, provided a receipt is secured.

7. If awards are made to the players participating in the game, they shall be in keeping with the requirements established by the high school athletics association of the state in which the game is played. In no instance may the total cost of the award exceed \$15, nor may a merchandise award be presented. It shall not be permissible to provide awards or prizes to participants in recognition of their outstanding game performance. Only one award to each participant is permissible; therefore, presentation of additional gifts or mementos is prohibited.

8. The sponsoring organization shall provide for adequate medical care and expense for each participant in the event of accident or injury from the time the player leaves home for practice and/or participation in the game until the player returns home; this protection shall be in the form of travel accident and medical

insurance, which at least shall cover a claim of \$10,000 for death and dismemberment and \$25,000 for medical treatment resulting from an accident incurred by the participant in traveling to or from the game, or practicing for or playing in the game.

9. Each participant in a football game conducted more than two weeks after the participant's last high school contest shall have had at least nine days of organized practice prior to the day of the game, of which the first three days shall be limited to noncontact conditioning drills in which no football gear or protective equipment other than headgear and shoes shall be worn. Each participant in a football game conducted within two weeks of the participant's last high school football game shall have had at least four days of organized practice prior to the day of the game, of which none need be noncontact conditioning drills.

Each participant in a basketball game shall have had at least three days of organized practice prior to the day of the game if played during the school year and at least five days of organized practice prior to the day of the game if played following graduation.

Each participant shall have been pronounced physically fit to participate as a result of a current medical examination made and certified in writing by the family physician; further, the

physician at the game site shall certify that no player was permitted to take part in workouts or game competition unless so certified by a qualified medical doctor.

10. A qualified medical doctor must be present during the playing of the game and available during all practice sessions. In addition, the management must provide for each scheduled practice, as well as for the game, (a) the presence of a person qualified and delegated to render emergency care to a stricken athlete, such as a competent athletics trainer, and (b) planned access to a medical facility, including a plan for communication and transportation between the athletics site and a medical facility for prompt medical services. All parties should have a thorough understanding of these procedures.

The presence of a qualified medical doctor during the game and the doctor's availability during practice sessions shall be certified in writing by the game management at the time it submits its final report to the High School All-Star Games Committee.

11. Head and assistant coaches of the teams shall be selected from the states represented by participants in the game.

12. Payment of expenses shall be limited to players and coaches actually participating in the game.

Salary increases approved for national office personnel

The NCAA Executive Committee has approved salary increases for the national office staff averaging 7.4 percent for the 1985-86 fiscal year, according to Wilford S. Bailey, NCAA secretary-treasurer. The average is a full percentage point under the average increases granted a year ago.

The Executive Committee is responsible for implementation of the Association's staff evaluation and compensation policies. The Staff Evaluation Subcommittee of the Executive Committee annually reviews staff operations, employee benefits and staff salaries. At its August 11 meeting, the subcommittee also considered information on salary increase patterns in higher education generally, as well as in intercollegiate athletics.

Recommendations of the Staff Evaluation Subcommittee were presented to the full Executive Committee, which considered them in executive session and made the final decision.

Bailey reported that the committee,

in accordance with established policy, used the Consumer Price Index for All Urban Consumers (CPI-U) of the Kansas City area as a basis for cost-of-living adjustments. For the new fiscal year that began September 1, the staff cost-of-living adjustments approved by the Executive Committee averaged 2.4 percent, compared to Kansas City's CPI-U of 3.0 percent.

Merit increases for the new fiscal year averaged 5.0 percent. There were no changes in staff benefits.

Compensation for commissioners of conferences and directors of athletics in Division I is used as a guideline for determining salaries of NCAA department heads—the six assistant executive directors and the controller. Salaries for their chief aides generally are measured against those for associate and assistant commissioners and associate and assistant directors of athletics in Division I. Other administrative staff positions are measured against applicable marketplace factors.

Commission

Continued from page 1

cumbent willing to accept reelection.

William T. O'Hara, president, Bryant College. Incumbent willing to accept reelection.

In addition, the Commission is in the process of selecting an immediate replacement for Raymond Burse, president of Kentucky State University, who now serves on the NCAA Council and has resigned from the Commission. The replacement will be eligible for election to a full term.

Those eventually elected or re-elected must include at least one from Region I of Division II, per NCAA

Constitution 5-5.

Division III

Rev. William J. Byron, president, Catholic University. Incumbent willing to accept reelection.

In addition, the Commission is in the process of selecting an immediate replacement for Virginia Lester, who resigned as president of Mary Baldwin College. The replacement will be eligible for election to a full term.

Those eventually elected or re-elected must include at least one from Region I of Division III, per NCAA Constitution 5-5.

Benefit games scheduled

Four predominantly black colleges have announced the scheduling of the first Atlanta Football Classic for African Famine Relief.

Grambling State University, Albany (Georgia) State College, Morris Brown College and Alabama State University said the games will be held November 9 at Atlanta-Fulton County Stadium.

The National Baptist Convention, a predominantly black organization, is supporting the event, and that backing is crucial.

"The trouble we've had in the past with these kinds of football games is attendance," said Atlanta Mayor Andrew Young. "But with the support of the National Baptist Convention and preachers convincing their congregations that this is a worthy cause, we should have no trouble putting 56,000 people in the stadium." The stadium

will hold 59,709 for football.

The games will be regular-season conference games played at the neutral site. In the first contest, Alabama State and Grambling State will meet in a Southwestern Athletic Conference game. The two Georgia schools, Albany State and Morris Brown, will then compete in a Southern Intercollegiate Athletic Conference game.

League approved

A new athletics conference for women—the New England Women's 6 Conference (New 6)—will begin play this season with six schools vying for titles in basketball, cross country and tennis.

The schools are Babson College, Brandeis University, Massachusetts Institute of Technology, Smith College, Wellesley College and Wheaton College (Massachusetts).

Changes in eligibility requirements proposed

Special committee's report on academic criteria

When the new academic requirements for freshman eligibility were adopted in 1983, concerns were expressed about both the core curriculum and the standardized test-score components. The principal concern about the core-curriculum requirements was whether there might be significant numbers of students unable to qualify in 1986 because their schools did not offer the required courses. Fortunately, the efforts under way throughout the nation to enhance the quality of public education have caused these concerns to subside. Furthermore, data now available show that the core-curriculum courses are being offered by most high schools throughout the country. There seems to be wide agreement about the importance and value of the core curriculum.

The standardized test component of the requirement evoked deeper concerns, and these have continued. When the regulation was adopted, there were not adequate data on which to project the likely impact of the new requirements on freshman participation—specifically the participation of black students. In response to concerns about this matter and about the validity of the requirements for assessing academic risk of entering student-athletes, the NCAA conducted a major research project in 1983-84 to study the effects of applying the new requirements to student-athletes who had entered college in 1977 or in 1982.

Selection of 1977 as the entry date for the first cohort permitted a study of the relationships between the new academic requirements and retention and progress to graduation through six years. Data on the second cohort (1982) made it possible to compare the high school academic records of the two groups, in particular the core-curriculum experiences and test scores.

The results of this study indicated that the new requirements are of value in helping predict academic success; they also increased awareness about certain areas of concern related to the academic requirements for freshman eligibility scheduled to take effect in 1986. These concerns centered on: (a) the arbitrary test-score provision; (b) the disproportionate impact on black students, and thus on the historically black colleges and universities; and (c) the implications of the fact that quite a high percentage of students who had graduated would have been ineligible for participation as freshmen under the requirements.

In response to these concerns, the Division I institutions adopted a resolution at the 1985 Convention mandating further study by the NCAA Council and the NCAA Presidents Commission, with particular reference to the possibility of a modification that would employ a formula combining the core-curriculum grade-point average and an SAT or ACT test score. A special committee was appointed to conduct that study.

The committee addressed the following questions and concerns:

1. Comparable SAT and ACT scores for use in application of the regulation.
2. The arbitrary cutoff scores on the SAT and the ACT.
3. The disproportionate impact of the regulation on black student-athletes, especially males.

Comparable SAT, ACT scores

While the SAT and ACT sample different content areas and, therefore, cannot be considered equivalent tests in terms of what they reveal about a student's specific academic preparation, SAT total scores and ACT composite scores tend to order students similarly.

Since the frequency distribution of scores for all student-athletes in the NCAA study showed that an ACT score of less than 15 corresponded to SAT 700 in that group, data on frequency distributions of the test scores for the national high school population were obtained (from ETS and ACT) for comparison with those of student-athletes. The data in Table 1 show that approximately 16 percent

TABLE 1

Percent of Students Scoring Below 700 on SAT or Below 13 on ACT (National Profile)*

Population	Percent Scoring Below	
	SAT 700	ACT 13
Total	16.1	16
Black Males	44.5	49
White Males	8.9	9
Black Females	53.9	52
White Females	13.2	12

*The data on SAT are from tests given in 1984-85; those on ACT are from tests given in 1983-84. Data provided by ETS and ACT.

of the total national population scored below 700 on SAT or below 13 on ACT.

For comparison, the percent of student-athletes in the 1982 cohort of the NCAA study showing below 700 on SAT or below 13 on ACT is shown in Table 2.

It seems clear from the record of the discussion at the 1983 NCAA Convention that the purpose of the

Population	Percent Scoring Below	
	SAT 700	ACT 13
Total	17.0	22.6
Black Males	51.0	60.1
White Males	7.3	11.8
Black Females	46.0	53.8
White Females	7.8	8.3

test score in the eligibility requirement is to assist in identifying students who are at academic risk and to serve to validate, on a national basis, the high school grades. The primary consideration, therefore, in setting the comparable scores for the two tests should be the academic achievements of the students rendered eligible under each version (SAT and ACT) of the rule. However, differences in percentages of students qualifying at the cut-scores in the two tests cannot be disregarded in establishing the equivalence of the test scores because of the concerns about the impact of the regulation, especially on black student-athletes.

Changing the minimum ACT score requirements from 15 to 14 apparently would not be inconsistent with psychometric studies (including the NCAA project) on concordance scores, and would reduce only slightly the difference in eligibility rates of the students taking the two tests. Changing the ACT score requirements from 15 to 13 would place the cutoff score for each test at approximately the same percentile and for each of the four subpopulations under consideration (black and white, male and female).

Arbitrary cutoff score on SAT, ACT

Most institutions that employ test scores in the admissions process use them in conjunction with other criteria, generally providing opportunity for a higher test score to compensate for a lower grade-point average, or

the converse. For this reason, considerable interest has been expressed in modifying the provisions of the eligibility regulation to provide this flexibility.

After careful study of different formulas that might be employed, it was concluded that those used in the ACE/AACRAO study on freshman eligibility were the most desirable. These eligibility index formulas would operate as follows:

a. The student's grade-point average for the courses in the core curriculum is multiplied by a factor of 400 (SAT) or 10.5 (ACT).

b. The result is added to the student's test score on the SAT or ACT.

c. The cutoff for certification for freshman eligibility is 1,500 index points for a student taking the SAT. The minimum index points for eligibility for a student taking ACT would be based on the ACT score established for comparable score for SAT 700 for purposes of this legislation (i.e., for ACT 15, the minimum index points would be 36; for ACT 14, the number would be 35, etc.).

The data in Table 3 show that use of the eligibility index increases the percentage of student-athletes in all groups who would qualify in both the 1977 and the 1982 cohorts. The increases were greater for the 1982 cohort than for the 1977 cohort, and they were greater for black males than for any other group.

These data show further the percent of the qualifiers in the 1977 cohort who had graduated or were continuing in school was not appreciably lower with the use of the eligibility index than with Bylaw 5-1-(j). Of interest in this consideration is the fact that the NCAA study showed that the graduation rate for Blacks in all institutions of Division I was similar to that for Blacks in historically black institutions (31 vs. 33 percent).

Impact of the regulation on black males

That concern voiced about the impact of this regulation on black student-athletes was justified if seen from the distribution of test scores for black males and females in the national population for 1983-84 (ACT) and 1984-85 (SAT). The percent of black students scoring below 700 SAT or below 15 ACT in those tests was as follows:

	Percent scoring below	
	SAT 700	ACT 15
Black males	44.5	63
Black females	53.9	67

The data in Table 1 show that nationally the percent of black students scoring below 700 SAT or 13 ACT is more than four times as great as the percent of white students of the same sex making these scores. Among student-athletes, the differences are even greater. It is not surprising, therefore, that the cutoff scores on the tests specified in the regulation would have disqualified a very high percent of the black student-athletes who entered college in 1977 or 1982.

The data in Table 3 show that the use of an index formula reduces somewhat the disproportionate impact of the regulation on black student-athletes, especially males, as does the incremental change in the ACT score employed in the application of the requirement.

In addition to the effects of the regulation on the percent of student-athletes qualifying for eligibility, consideration also should be given to the percent of those who graduated who would have been disqualified by the regulation. The data in Table 4 show that the impact, as measured by this criterion, was far greater on black

TABLE 3

Percent of Student-Athletes Qualified Under B 5-1-(j) and Under Eligibility Index (for SAT and ACT Groups) and Percent of Those Qualifying Who Had Graduated or Were Continuing, 1977 Cohort, NCAA Study

Population and Standard	Percent Qualified	B 5-1-(j)*		Eligibility Index*	
		Percent Qualifiers Grad. or Cont.	Percent Qualified	Percent Qualifiers Grad. or Cont.	Percent Qualified
Black Males					
SAT 700	27	53	38	51	
ACT 15	12	59	21	59	
ACT 14	14	62	23	57	
ACT 13	15	62	24	58	
White Males

ACT 13	52	69	55	67	

*See footnotes for Table 4.

student-athletes than on white and that the use of the eligibility index would help reduce that disproportionate impact.

Conclusions and recommendations

It was generally recognized that the arbitrary cutoff scores on the test were a disadvantage but many believed that the specified scores were low enough, relative to most general admissions requirements, to justify their use. An additional question about the test-score requirements emerged from further analysis of the NCAA research-project data: the comparability of the SAT and ACT scores with respect to their ability to help identify prospective student-athletes at academic risk and to the differential eligibility rates among the groups of student-athletes.

The data on frequency distributions of test scores of the national populations showed that approximately equal percentages of students had scores below SAT 700 and below ACT 13. The committee concluded that this is a more equitable approach for establishing equivalence of test scores for the purpose of implementing this legislation.

The disadvantage of the arbitrary cutoff scores for the standardized tests can be overcome and the disproportionate impact on black students (especially males) can be alleviated by use of an index formula that permits a higher grade-point average on the core curriculum to compensate for a slightly lower test score, or the con-

verse. It is important to remember that the grade-point average that would be used in calculating the eligibility index is the GPA for the 11 courses in the core curriculum and not the overall GPA.

Data from the NCAA study show that use of ACT 13 as the equivalent test score for SAT 700 in the formula for the eligibility index would help slightly in reducing the disproportionate impact of the regulation on black males without affecting appreciably the percent of student-athletes capable of graduating. Furthermore, the percent of black student-athletes in the 1977 cohort who had graduated and who would have been disqualified under the provisions of Bylaw 5-1-(j) was reduced appreciably by use of the eligibility index.

For these reasons, the committee recommends that the NCAA Presidents Commission and the NCAA Council consider proposing a modification in Bylaw 5-1-(j) to employ an eligibility index for meeting the minimum academic requirements for freshman eligibility under the regulation and that ACT 13 be used as the equivalent score for SAT 700 in the eligibility index formula.

Furthermore, we can be confident that the continuing efforts to improve public education will make it desirable for the Association to evaluate at regular intervals the minimum academic requirements for freshman eligibility and to change these appropriately as the academic research being conducted by the NCAA will provide objective data on which to base future changes in these requirements.

TABLE 4

Percent of Student-Athletes Who Graduated or Were Continuing Who Were Nonqualifiers Under B 5-1-(j)* and Under Eligibility Index Calculated at Different Cutoff Scores for ACT,** 1977 Cohort, NCAA Study

Population and Standard	Percent	Population and Standard	Percent
Black Males		Black Females	
B 5-1-(j)	68	B 5-1-(j)	69

EI@ ACT 14	32	EI@ ACT 14	30
EI@ ACT 13	31	EI@ ACT 13	30

*Requirements for B 5-1-(j) as presently specified (all SAT 700 and ACT 15 combined).

**Eligibility Index calculated as follows: SAT 700—Core curriculum GPA \times 10.5 + SAT score, with cutoff for qualification being 1500; ACT—Core curriculum GPA \times 10.5 + ACT score, with cutoff for qualification being 36 for ACT 15, 35 for ACT 14 and 34 for ACT 13. SAT 700 and ACT at designated scores combined for comparison with B 5-1-(j).

The NCAA News

NCAA Record

CHIEF EXECUTIVE OFFICERS

STEVEN ALTMAN, provost and academic vice-president at Florida International, named president of Texas A&I... WILLIAM H. BAUGHN, interim president at Colorado, appointed chancellor of the university's Boulder campus. He is a member of the NCAA Council... WILLIAM H. CUNNINGHAM, dean of the college of business administration at Texas, selected as president... THE REV. CHARLES L. CURRIE, president of Xavier (Ohio), resigned effective no later than June 30, 1986... RAYMOND P. SHAFER, former governor of Pennsylvania, named acting president at Allegheny... ALBERT J. SIMONE, acting president of Hawaii, named president.

DIRECTOR OF ATHLETICS

LARRY KEATING appointed at Seton Hall, succeeding RICHARD J. REGAN, who was named executive director of the university's athletics fund after 13 years as D. Keating, athletics director at Adelphi since 1979, also had served as an assistant basketball coach, head golf coach and sports information director at Hofstra.

ASSOCIATE DIRECTORS OF ATHLETICS

DONNA OLSON named at Minnesota. She had been assistant athletics director, head field hockey and women's softball coach at Montclair State from 1973 to 1985... SUE DILLEY, assistant athletics director and head women's basketball coach at Seton Hall the past 12 years, named associate AD.

ASSISTANT DIRECTORS OF ATHLETICS

KEN DABBS named at Texas, where he has served as an assistant football coach, recruiting coordinator and special assistant to the athletics director during his 12-year tenure... FRANK A. WOLCOTT, a faculty member at Springfield since 1955, selected to replace MARY ELLEN OLCESE, who resigned to become women's swimming and diving coach at Eastern Michigan. Wolcott was head men's gymnastics coach at Springfield for 26 years, retiring in 1981. He led Springfield to the 1977 NCAA Division II Gymnastics Championships title... SARAH PATTERSON appointed at Alabama, succeeding ANN MARIE LAWLER, who was named to a similar post at Florida. Patterson is the Crimson Tide's women's gymnastics coach... LARRY BALDWIN and ROBERT STEITZ selected at Florida International. Baldwin had been the director of marketing for the Colonial Athletic Association for the past 16 months, while Steitz had been an assistant AD at Fordham since 1982.

COACHES

Baseball—JIM BURIAN, manager and coach for the Wisconsin-Milwaukee baseball club the past four years, named head coach. The Panthers move to varsity status for the 1986-87 season in Division III.

Baseball assistants—TOM PRATT named at Arizona State, where he will be the head junior varsity coach. MIKE McCAIN selected as Pratt's assistant. Pratt had been coaching on the prep level. McCain played at Arizona State from 1978 to 1981 before joining the Minnesota Twins organization... ED MOLUSH, JEFF PEARSALL and RALPH DELL'ARCI-PRETE selected at Villanova. Molush played three years in the Philadelphia Phillies organization and has been coaching on the prep level the past seven years. Pearsall also coached on the prep level, while Dell'Arciprete has been an assistant at St. Joseph's (Pennsylvania) since 1984... STEVE DIMARCO selected at Herbert Lehman.

Men's basketball—JOHN KONOWITZ named at New Paltz State. He had been head coach on the junior college level... BOB BARLETT selected at Slippery Rock.

Men's basketball assistants—ELLIOTT BEARD named at Oberlin, his alma mater. He averaged 19.9 points per game and ended his college career last season with 1,017 points... BOB MacKINNON Jr., an assistant at Mercyhurst the past three years, selected at George Washington... CORY RUSSELL, resigned after two years at California-Santa Barbara to enter private business... BRUCE VICTOR chosen at Cal Poly-Pomona. He had been head men's coach at Southwestern (California) Junior College last year... JIM BARON named at Notre Dame... JOE ROSADO selected at Valparaiso... JEFF NELSON selected at Salem State. He had been coaching on the prep level... FRAN DUNPHY selected at La Salle, his alma mater. He had been an assistant at American the past five years after serving as an assistant at La Salle during the 1979-80 season... RICK KESTNER named at Northwest Missouri State. He had been an assistant last season at Southern Illinois-Edwardsville... Former prep coaches JOHN SOMOGYI and MIKE TIERNEY selected at Upsala... DICK LEE named acting assistant at Alaska-Fairbanks after coaching on the prep level.

Women's basketball—DAWN SHILLING chosen at Glassboro State, where she also will serve as head women's softball coach. She had been coaching both sports on the prep level, compiling a 109-22 five-year basketball record and a 63-13 record in three years as softball coach... LESLIE MILKE named full-time head women's basketball coach at Cal State Northridge after serving on a part-time basis the past two seasons... CATHY GOTTSALL appointed at Lawrence, where she also will serve as the head women's volleyball coach. She succeeds BOB KASTNER as basketball

Jim McClellan named athletics-academic advisor at Morehead State

North Central selected Beverly Thornburg as women's tennis coach

coach and FRAN KASTEN as volleyball coach. Kastner and Kasten resigned. Gottshall had coached both sports at Wisconsin-Sheboygan... DONNA MARGINE named at Cortland State, succeeding PATSMOUSE. Margine had been an assistant the past four years... WILLIAM HARTWELL Jr. named interim women's basketball coach at Lincoln (Pennsylvania), his alma mater. He temporarily assumes the duties of BARBARA J. CRITTENDEN, who has been appointed a visiting scientist for the Pennsylvania legislature... FRANCINE ST. CLAIR named at Chicago State, her alma mater, where she also will serve as head women's softball coach. She succeeds JANSCHERKO-WITZ, who resigned. St. Clair coached the Chicago State women's basketball team from 1975 to 1977... ROBERT ALLEN MURPHY named at Molloy, succeeding RON BARONE, who resigned to enter private business. Murphy has coached the past five years on the prep level, compiling an 80-37 record... JIM VAN ALLEN selected at New Paltz State. He had been coaching on the prep level.

Women's basketball assistants—SHERRI MATTSON named at Minnesota after five years as head coach at Macalester... JOHN SIOREK selected at Spring Garden... LORI WYDRYCK chosen at Detroit, her alma mater... LEANNA BORDNER selected at Michigan State, her alma mater. She has been an assistant at Central Missouri State since 1980 after serving as an assistant at Indiana... KAREN TURNER named at Georgia Tech after a successful career on the prep level that included the 1983-84 Virginia state AAA championship... MICHAEL LUNSFORD selected at Indiana State after four seasons coaching on the prep level... BILLY HOLMES chosen at New Orleans after two years on the prep level... JERRY LUMPKINS appointed at Vanderbilt after serving as an assistant last season at Alabama... CINDY BATTISTONE named at Brigham Young, her alma mater, where she was a two-time all-conference selection for the Cougars... ARDEN KRAGALOTT named at North Dakota State, succeeding SUE COLLINS. Kragalott had been head women's basketball coach at Ohio Wesleyan.

Men's cross country—JOHN STEVENSON named at Oakland. He was the Pioneers' coach in 1983. Stevenson succeeds TERRY DIBBLE.

Men's and women's cross country and track and field—JOHN KUSKOSKI selected at St. Francis (Pennsylvania) after coaching on the prep level the past two seasons... DAVE NIELSEN named at Idaho State, where he had been women's track coach last season... DON STRAMETZ selected at Cal State Northridge. He has been the women's cross country and track and field coach for the past five years and the men's cross country coach the past two seasons.

Men's and women's cross country and track and field assistant—STEPHEN CZARNECKI named at Salem State. He coached on the prep level from 1981 to 1984, winning seven league championships and two New England Catholic titles.

Women's cross country and track and field—GARY WILSON named at Minnesota. He had been head women's cross country and track and field coach at Wisconsin-La Crosse, winning three straight NCAA women's track championships and the 1983 Division III women's cross country crown... ANNE PHILLIPS selected at Pomona-Pitzer. She had been coaching on the prep level while serving as a volunteer assistant at Whitworth College and Gonzaga... MARK REYTHAL chosen at Brandeis after six years as an assistant at Boston U. He is a 1974 graduate of the University of Leningrad in the Soviet Union... BRENDA CALHOUN, a former Arizona State all-America, named at Memphis State.

Women's cross country—DALE KOEPNICK named at North Central, his alma mater.

Field hockey—BETTY BOWNE named at Fairfield.

Field hockey and women's lacrosse—SUSAN FINNIE named at Longwood. She had coached field hockey, swimming and softball at Widener, where she also was coordinator of women's athletics for 12 years. She succeeds BETTE HARRIS, who resigned as field hockey coach to concentrate on her teaching assignment... DEBBIE TWEED selected at Shipensburg. She has been an assistant at Temple and at Drexel and was a member of the U.S. national field hockey and lacrosse teams... CARLA HESLER, an assistant field hockey and women's lacrosse coach at Boston College last year, named at Colgate. She succeeds CAROL RAPPOLI, who was named head women's field hockey and lacrosse coach at Tufts. Hesler also has served as an assistant at Northeastern and Old Dominion.

Field hockey and women's lacrosse assistant—SUE COURSEN named at East Stroudsburg.

Football—DAVID CORLEY named interim head coach at Livingstone... THOMAS RAEKE selected at Framingham State. He was an assistant for the Rams in 1983.

Football assistants—MIKE CAMPBELL, offensive line coach at Southern Connecticut State the past five seasons, named offensive coordinator... FRED KEMP, head football coach at Stony Brook from 1974 to 1983, selected at Ramapo as defensive backfield coach and special teams coordinator... DOUG LINCOLN chosen at Upper Iowa to coach running backs... WADE RITTER named at Lock Haven, where he will coach outside linebackers... AL VEDDER selected as head junior varsity coach at Colgate, his alma mater. He retired from coaching on the prep level after 28 years... CLARENCE WILLIAMS, a former defensive end for the Green Bay Packers and the Dallas Cowboys of the National Football League, named at St. Norbert, where he will coach the defensive line... DAVE CALDIERO and JIM STEIGERWALD selected at Stony Brook... JIM FINNERTY chosen at Illinois Benedictine... RICKY CRUZE, CARL FRANKS and MIKE GRASS named at Virginia Military. Cruze and Franks will assist with the tight ends and receivers, while Grass will be a linebacker coach... GARY FOTI, RON AIKEN and CHRIS METZ selected at Rensselaer Polytechnic. Foti was a star running back at Alfred, Aiken had coached at Tarkio and Metz had coached on the high school level.

Men's golf—GARY ROBISON named at Akron, succeeding JIM HACKETT, who resigned after 12 years. Robison had been head professional at the Firestone Country Club.

Men's ice hockey—TOM APPRILLE selected at Bentley after serving as varsity hockey coach on the prep level since 1966. He replaces MARK CANAVAN, who resigned to enter private business... JACK PARKER signed a long-term contract at Boston U. where he has compiled a 252-115-13 record during the past 12 years. He will continue as assistant athletics director. Parker began his association with the Terrier hockey team as a player in 1966.

Men's ice hockey assistants—JOE BATISTA, who had been director of amateur hockey development for the Pittsburgh Penguins of the National Hockey League, selected at Kent State... DON LUCIA named at Alaska-Anchorage. He had been an assistant at Alaska-Fairbanks the past four years... BLAISE MACDONALD, an all-America defenseman at Rochester Institute and a member of the 1982-83 Division III championship team, chosen at Dartmouth. He succeeds SCOTT BOREK, who accepted a similar position at Providence... ROBERT PALISI named at St. Anselm. He had coached on the prep level the past four years.

Men's lacrosse—LAWRENCE HALL named at Alfred, where he also will serve as an assistant football coach.

Men's skiing—MARK FORD named at Wyoming, succeeding TIM AMEEL, who coached the men's team last season when Wyoming won the combined men's and women's national championship. Ameel resigned to pursue his education. Ford coached the Wyoming women's team during the 1978-79 season and has been the men's alpine ski coach at Dartmouth the past four seasons.

Men's soccer—PAUL WARDLAW selected at Illinois Benedictine, where he also will serve as head men's tennis coach... JOHN BARRETT Jr. selected at New Paltz State. He had been athletics director at Western Connecticut State... BOB TENHOLTER appointed at Southeast Missouri State, his alma mater. He succeeds BRUCE WISMANN, who resigned... ED KELLY, an assistant at Fairleigh Dickinson the past five years, named at Seton Hall, succeeding NICK MENZA, who retired after 27 years.

Men's soccer assistants—CHARLES HUNCHLEY, who had been an assistant at Wisconsin-Milwaukee the past five years, named at Hartford. He also has coached at Eastern Connecticut State and on the prep level, where he compiled a 33-2 record in three seasons... JIM HARRISON selected at Monmouth (New Jersey). He was an assistant last season at Rutgers after serving as a head coach on the prep level and as an assistant at Lehigh... RICK MORRISON chosen at Lawrence, where he is also the women's track coach... PAUL TOOMEY, a two-time all-America at Pittsburgh and a member of the Pittsburgh Spirit of the Major Indoor Soccer League last season, named at Maine.

Women's soccer—LARRY HANKS named at Long Beach State. He had coached on the

prep level and has been the president of the Coast Soccer League in California the past three years.

Women's softball—DEANNA D'ABBACCIO resigned at Eastern Illinois to become a full-time basketball assistant. She had compiled a 127-72-2 record in five years as head women's softball coach and was 45-8 in 1982 when the Panthers finished third in the nation. JANET MARQUIS named to replace D'Abbraccio. Marquis was a graduate assistant last season... LORETTA COUGHLIN selected at Longwood, where she also will serve as an assistant basketball coach... DAWN SHILLING named at Glassboro State, where she also will serve as head women's basketball coach. She had coached both sports on the prep level (see women's basketball)... MELINDA FISCHER named at Illinois State, where she resigned her position as head women's basketball coach. She replaces MARGIE WRIGHT, who resigned to accept the head coaching job at Fresno State... TOM CICERO named at St. Francis (Pennsylvania)... STAN KEARNEY chosen at North Carolina A&T, where he will remain as an assistant football coach.

Women's softball assistant—MARY BARR named at Salem State, her alma mater.

Men's and women's swimming and diving—BILL PALMER named at Monmouth (New Jersey), succeeding JOE SLOWINSKI, who resigned. He had been director of the Central Jersey Aquatic Club.

Men's and women's swimming and diving assistants—BRUCE MARSHALL named at California-Irvine... DON ASAY and SUE MILLSTEIN selected at Monmouth (New Jersey).

Men's swimming and diving—TIM SHAW selected at Long Beach State. He won silver medals in the 1976 Olympics in Montreal in the men's 400-meter freestyle and in 1984 in Los Angeles as a member of the United States men's water polo team... CHRIS CURRY GENTZ selected as diving coach at Minnesota, her alma mater, succeeding CRAIG LIN-

Cathy Gottshall named women's volleyball and basketball coach at Lawrence

Tim Abney appointed women's tennis coach at North Carolina A&T

COLN, who resigned after four years. Gentz won the 1981 AIAW three-meter diving championship, the only individual women's national championship ever won by a Minnesota athlete.

Women's swimming and diving—DIANE MATTHEWS named diving coach at New Orleans.

Women's tennis—BEVERLY THORNBURG named at North Central, where she started the school's first basketball, volleyball and softball teams and served as coach for each... TIM ABNEY selected at North Carolina A&T, where he will continue to serve as an assistant basketball coach... BARBARA MAITLAND chosen at Salem State. She has coached at Endicott College the past five years and has been a member of the U.S. Pro Tennis Association for 10 years... GERRY PERRY named at Southwest Missouri State, succeeding VIKI McHUGH, who resigned. Perry had coached at Drury and San Francisco.

Men's track and field—DAVE NIELSEN named at Idaho State, succeeding JERRY QUILLER, who was named head coach at Colorado. He had been women's track coach at Idaho State last season after serving as an assistant at Wisconsin... KEVIN MCGILL selected at Columbia, where he had been an assistant the past three years. He succeeds PETE SHUDER, who was named head coach at Boston U... MONTE STRATTON chosen at Texas-Arlington, replacing HAROLD PERKINS, who resigned to enter private business. Stratton was an assistant at Southern Methodist from 1979 until 1984 after coaching on the prep level for 10 years.

Men's track and field assistants—JAMES GROGAN, head women's track and field and cross country coach at Wagner the past four years, named at Columbia, where he also will serve as men's cross country coach... DAVID JOHNSTON and KEN LEHMAN selected at Arizona State. Johnston, who coached at Southern Methodist, will handle field events, while Lehman, who coached at Houston, will coach distance runners... SANDY BURKE chosen at Syracuse. She was a four-time all-America at Northeastern... WAYNE NORTON named at Northern Arizona after serving as an assistant at Indiana... GREG HULL selected at Long Beach State after three years as an assistant at Northern Arizona.

Women's track and field assistants—GARY ELDER selected at Penn State.

Women's volleyball—ORBY Z. MOSS Jr., athletics director at North Carolina A&T, named women's volleyball coach... CAROL SELL selected at Muhlenberg. She had been coaching on the prep level, where her teams

won three conference championships in four seasons... BONNIE GEHLING chosen at Union (New York), where she also will serve as head women's basketball coach, succeeding LYNNE BARTA. Gehling had been head women's basketball coach at Wisconsin-Stevens Point... JUDY SACKFIELD, an assistant at Clemson the past two seasons, selected at Georgia Tech... SUE KOVACS selected at Chicago State, succeeding LISA RAYMOND, who resigned to concentrate on her faculty assignments.

Women's volleyball assistants—MARIA PEREZ chosen at Eastern Michigan. She had been an assistant at Northern Illinois from 1981 to 1983... KENT MILLER, an assistant at Oregon State the past five years, selected at Alaska-Anchorage... ULIANA KOHUTIAK named at Villanova.

Wrestling assistant—TOM JUSTICE named at Lock Haven, succeeding MIKE MCCREADY, who was named head wrestling coach at Upper Iowa. Justice has been coaching on the prep level after serving as an assistant at Southern Illinois from 1968 to 1972.

STAFF

Academic-athletics advisor—JIM MCCLELLAN named at Morehead State. He will continue serving as head women's volleyball coach.

Athletics trainers—ANGIE GREER, an intern trainer the past two years, promoted at Drew... KEX SHARP, former student trainer at Ball State, named head trainer, succeeding DON VOGELGESANG, who resigned after 12 years... BRIAN TOY appointed at Lake Superior State, succeeding ROBERT WILLIAMS, who resigned. Toy had been a graduate assistant trainer at Marshall.

Assistant athletics trainers—KATE HOUT named at New Orleans, succeeding JONI HALVORSEN, who resigned. She had been head athletics trainer for the U.S. Volleyball Association development camps... LARRY L. SCHEIDERER resigned at Ohio to pursue a doctoral degree. He has been on the staff since

1978... KEVIN REGAN named at Maryland-Baltimore County. He has worked for five years in the training room at Navy... ROBIN D. RIVERS and JAMES T. CRAWLEY selected at Washington and Lee... KAREN SWANSON named at Minnesota, replacing DUSTY RIPPLEMEYER.

Director of governmental and alumni relations—LEONZA LOFTIN named at Fayetteville State.

Athletics equipment specialists—RONALD PRICE and MATTHEW ROBISON chosen at Maryland-Baltimore County.

Athletics facilities supervisor—SANDY THOMPSON named at Bentley, where she will continue to serve as women's volleyball coach.

Assistant director for intercollegiate programs-event management—TODD CROSSET selected at Dartmouth. He had been assistant coordinator of athletics facilities at Brandeis.

Coordinator of academic support services—BOB COOLEN named at Bentley, where he will continue to serve as women's softball coach.

Promotion and public relations director—PAM HOLT selected at Minnesota. She had been assistant athletics director at East Carolina.

Sports information directors—GREG BADOVINAC named interim SID at Cal State Northridge, replacing RON YUKELSON, who resigned. Badovinac had been the assistant SID the past three years... JEFF DAVIS selected at Oberlin... TY BUCKNER chosen at North Carolina-Greensboro, his alma mater... JIM OGLE Jr. resigned at Fairleigh Dickinson-Iteancek to enter private business... PATRICK GILLESPIE named at Gannon after serving as an assistant SID at North Carolina-Charlotte last year.

Assistant sports information directors—STEVE BLAKE, SID at Salisbury State since July 1984, named at Virginia... STEPHEN LEVY selected at Maryland-Baltimore County... PAUL HEIGREN chosen at Eastern Michigan, succeeding GREG IRWIN, who resigned... RICHARD WANNINGER named at Arizona State, his alma mater. He had been a publishing assistant for the Pacific Coast Athletic Association.

CONFERENCES

LARRY DOUGHERTY named sports information director for the East Coast Conference... HENRY COPELAND named president of the North Coast Athletic Conference and NCAC executive director DENNIS COL-

The Market

Readers of The NCAA News are invited to use The Market to locate candidates for positions open at their institutions, to advertise open dates in their playing schedules or for other appropriate purposes.

Rates are 45 cents per word for general classified advertising (agate type) and \$22.60 per column inch for display classified advertising. Orders and copy are due by noon five days prior to the date of publication for general classified space and by noon seven days prior to the date of publication for display classified advertising. Orders and copy will be accepted by telephone.

For more information or to place an ad, call 913/384-3220 or write NCAA Publishing, P.O. Box 1906, Mission, Kansas 66201.

Positions Available

Athletics Director

Athletic Director, The Denver Athletic Club. Downtown athletic, social & business member equity private club serving 3,800 members with the finest facilities. Qualifications: Master's Degree in athletic administration, recreation or related field. Only previous Directors of Athletics, Assistant Directors of Athletics, Directors of Campus Recreation or Chairmen of Departments with at least five years' experience need apply. The ability to understand and articulate the current theoretical and practical aspects of exercise and conditioning with demonstrated excellence in managing, planning, initiating and upgrad-

ing the state of the art in a multifaceted program. Salary commensurate with experience. 12-month position. Position now open—starting ASAP. Send resume to Stanley Orr, G/M, DAC, P.O. Box 988, Denver, CO 80201. Telephone: 303-534-1211.

Academic Coordinator

Athletic Academic Coordinator, Search Reopened. Professional position available for individual who will provide support and direction to student-athletes in attaining appropriate educational goals. UNIVERSITY OF IDAHO

Assistant Director of Athletics for Development

The University of Idaho Department of Intercollegiate Athletics is seeking applications for the position of Assistant Director of Athletics for Development.

Successful candidate must have a Bachelor's degree in a related area and experience in intercollegiate athletics, fund raising, or promotional work.

The responsibilities and duties of this position include: 1. Serving as Executive Secretary of Vandal Boosters, Inc. 2. Organization and implementation of fund raising and promotional strategies for Vandal Boosters and the Athletic Department. 3. Organization and implementation of annual fund raising and promotional campaigns. 4. Organizing and implementing of plans to build the Vandal Booster Endowment Fund. 5. Organization, motivation, and maintenance of an extensive volunteer structure for fund raising. 6. Maintenance of accurate and appropriate contributor records and suitable communications with contributors and volunteers. 7. Management of Development Office staff. 8. Other responsibilities as assigned by the Director of Athletics.

The Assistant Director of Athletics for Development reports directly to the Director of Athletics. Salary open.

Applications will be accepted until September 30, 1985, or until a suitable candidate is identified. Applicants should send a current resume with three references to:

Bill Belknap, Director of Athletics, University of Idaho, Kibbie-ASCI Activity Center, Moscow, Idaho 83843. AA/EOE.

Commissioner SOUTHERN CONFERENCE

The Southern Conference invites applications and nominations for the position of Commissioner. The Southern Conference, founded in 1921, is in Division I of the NCAA and presently consists of nine institutions: Appalachian State University, The Citadel, Davidson College, East Tennessee State University, Furman University, Marshall University, University of Tennessee at Chattanooga, Virginia Military Institute, and Western Carolina University.

Minimum requirements for the position are a bachelor's degree; strong administrative, interpersonal, communication and promotional skills; demonstrated competency in the management of fiscal affairs; a thorough knowledge of NCAA rules and regulations governing intercollegiate athletics; a familiarity with both men's and women's intercollegiate sports programs; and an understanding and appreciation of university education.

Salary for the position will be commensurate with qualifications and experience. The position will become available on June 1, 1986.

Deadline for receipt of applications is October 1, 1985, or until a suitable candidate is found. Send a letter of application, curriculum vita, three letters of recommendation, and references to:

Gurney Chambers, President
Southern Conference
Killian Building
Western Carolina University
Cullowhee, North Carolina 28723

The Southern Conference is an Equal Opportunity/Affirmative Action Employer.

SANTA CLARA UNIVERSITY DIVISION OF STUDENT SERVICES Director of Intercollegiate Athletics

Santa Clara University, a private Jesuit University, serving approximately 7,000 students, invites applications and nominations for the position of Director of Intercollegiate Athletics.

The Intercollegiate Athletic Department of Santa Clara University consists of eleven Division I men's sports, seven Division I women's sports, and two Division II men's sports. Santa Clara University is a member of the National Collegiate Athletic Association, the West Coast Athletic Conference, and the Western Football Conference.

Basic Function and Description: The Director of Intercollegiate Athletics reports to the Vice President for Student Services. The Director of Intercollegiate Athletics will be responsible for overseeing the administration and development of all intercollegiate athletic programs, managing the departmental budgets, coordinating use of athletic facilities, supervising athletic personnel, conducting fundraising efforts, and representing the University to internal and external constituencies.

Minimum Qualifications: The University is seeking a highly qualified individual with a Master's degree or its equivalent in an appropriate field; a commitment to Jesuit and Catholic education and to academic progress and achievement for student athletes in that setting; demonstrated ability in collegiate sports program management, human and financial resource management, interpersonal relations and communication, fundraising and promotions, personnel supervision, policy formulation and implementation, and communication with media; and an ability to represent the University and athletic program effectively and articulately.

Salary: Salary negotiable, commensurate with experience and credentials.

Correspondence: Potential candidates are requested to submit a letter of application, resume, and the names of three references by 30 September 1985 to:

Rev. Robert M. Senkewicz, SJ
Vice President for Student Services
Santa Clara University
Santa Clara, CA 95053

Santa Clara University strongly encourages the applications of women and minorities for this position, and is an equal opportunity/affirmative action employer.

EXECUTIVE DIRECTOR INTERCOLLEGIATE ATHLETICS A Tradition Of Excellence An Opportunity For Growth

Eastern Michigan University has continued to build a rich tradition of excellence for more than 100 years. Eastern's commitment to a strong Intercollegiate Athletics Program serves to enhance the University's image as a provider of quality student athletic programs. Qualified applicants are encouraged to consider bringing their experience to Eastern Michigan University where they will find a unique community with opportunities as rich as its tradition.

The Executive Director of Intercollegiate Athletics develops goals and objectives for optimizing intercollegiate athletic programs and will be directly responsible for coordinating athletic scheduling and home game activities, implementing an effective athletic fund raising program and developing and directing a successful sports promotion program.

Record

Continued from page 13

LINS named to the position full-time. JIM DESMOND selected as supervisor of basketball officials for the Mid-American Conference, replacing BOB WORTMAN, who resigned to take a similar post with the Big Ten Conference.

NOTABLES

LOU PAVLOVICH Sr., publisher of Collegiate Baseball, was elected president of the National Collegiate Baseball Writers Association at its annual meeting in July. He succeeds DAVE WOHLHUETER of Cornell. Other officers elected were TOM PRICE, South Carolina, first vice-president; STEVE WELLER, Southern Illinois-Edwardsville, second vice-president, and AL CHASE, Honolulu Star-Bulletin, third vice-president. MARK BRAND, Arizona State, was reelected secretary-treasurer. District directors include DREW FINNEY, Maine, Northeast; TONY WELLS, Rochester, East; RICK COVINGTON, Appalachian State, Atlantic; BO CARTER, Mississippi State, South; MIKE CLARK, Kankakee, Illinois, Midwest; ROB MATWICK, Wichita State, Midwest; JIM MCKONE, Pan American, Central; RALPH ZOBELL, Brigham Young, West; BOB BRADLEY, Clemson, at large; BILL ESPOSITO, St. John's (New York), at large.

DEATHS

HERB JONES, a forward on the Montana basketball team, was killed in a traffic accident September 2. He was 20. An all-state player and member of the National Honor Society in high school, Jones scored 2.2 points and grabbed 2.4 rebounds a game as a freshman reserve at Montana. CORNELIUS "SWIDE" RIGHTER, a former football coach at Pacific and charter member of the University of the Pacific Football Hall of Fame, died August 30. He was 88. A 1921 Stanford graduate, Righter became head football coach at College of the Pacific in San Jose and moved with the school to Stockton, where it was later renamed the University of the Pacific. Coaching the Tigers from 1921 to 1932, he compiled a 54-34-4 record, third highest winning percentage in the school's history.

CORRECTION

The NCAA News incorrectly listed Donn Alan Bennice as athletics director and head women's basketball coach at Lincoln (Pennsylvania) in the August 14 issue. Bennice is the AD, but will coach the men's basketball team.

The increase in payments to institutions participating in the 1986 Division I Men's Basketball Championship was reported erroneously as 40.5 percent in the August 28 issue of the News. The correct increase for participants in all rounds of the tournament will be an estimated 11.1 percent.

Guelker gets 300th soccer victory

Bob Guelker, men's soccer coach at Southern Illinois University, Edwardsville, last week became only the third coach in collegiate soccer history to win 300 games as his Cougars downed the University of Missouri, Rolla.

Guelker's victory gave him a record of 300-69-26 since he began the soccer program at St. Louis University in 1958. His St. Louis team won five

NCAA championships in a seven-year period from 1959 to 1965.

After recording 95 victories at St. Louis, Guelker moved to Southern Illinois-Edwardsville in 1967 and has won two additional NCAA championships since that time—the 1972 Division II title and the 1979 Division I championship.

Guelker's St. Louis and Southern Illinois-Edwardsville teams had competed in 24 consecutive NCAA championships until 1983, when his Cougars were not selected for the tournament.

Steve Negoesco of the University of San Francisco and Bill Shellenberger of Lynchburg College are the other 300-game winners. Negoesco, who has three NCAA championships to his credit, entered the 1985 season with a 368-51-39 mark in 24 years of coaching. Shellenberger, who passed the 300-victory mark in 1982, started this season with a 331-141-38 record.

Bob Guelker

CFA reelects Singletary

Otis A. Singletary, president of the University of Kentucky, has been reelected chair of the board of directors of the College Football Association.

Robert M. Swaczy, faculty athletics representative at Texas Tech University, has been reelected secretary-treasurer of the board.

Team Player.

He wears our colors.
But he's on your team.

Because when you install vending machines for Coca-Cola, you get the number-one soft drink company in the world working for you—to help boost your program's budget.

After all, people reach for the great taste of Coca-Cola, diet Coke, Sprite and our other fine products 411 million times a day. So why not put some of that profit power to work for your program?

For more information on getting vending machines installed in your school, call your local Coca-Cola Bottling Company.

Coke is it!
For sales and profits.

years old." (Jay Goldberg, Houston SID)

Says Texas Tech coach Jerry Moore about freshman Tyrone Thurman, a receiver and kick returner who stands only 5-2 3/4 (is he the nation's smallest Division I-A scholarship player?): "Don't tell anyone how small he is—someone will report us to the Humane Society." Thurman weighed in at 128 pounds. Continues Moore: "When we recruited Tyrone last year, he was supposed to be 5-6 and 145—at least that's what Spike Dykes told us (his high school coach and now Tech defensive coordinator). At some point, we lost some of him." (Joe Hornaday, Texas Tech SID)

Well, okay, if Thurman is the country's smallest scholarship player, who is the biggest? Ed Seaman, North Carolina State SID, reports Joe Milinichik, a three-year starter at offensive tackle, is 6-5 and 302 pounds. But Terry Boers of the Chicago Sun-Times reports Illinois' Arael Doolittle is 6-6 and 305, and Minnesota's Norris Wilson is 6-5 and 303, topping the Big Ten. Any more nominees?
