

# New programs designed to enhance compliance

The NCAA is taking steps to achieve greater compliance with NCAA legislation and to assist member institutions in a renewed commitment to integrity in the conduct of their intercollegiate athletics programs.

NCAA President John R. Davis announced the enhanced compliance programs this month in reports to the Presidents Commission and the NCAA Council.

"During their August meetings, the NCAA Executive Committee and Council authorized the employment

of additional personnel and approved additional programs to carry out the mandate of the special Convention in June," Davis said.

Those programs include a compliance service to assist chief executive officers in maintaining compliance with the rules and an increased enforcement effort to administer more promptly the authorized, more severe penalties for major and repeat violators.

As a major part of those programs, the Association's enforcement department has been restructured, re-

named (the compliance and enforcement department) and expanded. As reported in the September 16, 1985, issue of The NCAA News, Stephen R. Morgan, formerly assistant executive director for legislative services, now is assistant executive director for compliance and enforcement.

John H. Leavens, a member of the NCAA staff for the past three years, has been named director of compliance. He has been serving as a director of legislative services. Three new positions for compliance representatives will be filled.

The compliance personnel will assist member institutions and their chief executive officers in the following ways:

- Implementation of the materials and procedures to be used by an institution in conducting the self-study and evaluation of its athletics programs as mandated by the special Convention (Proposal No. 1).
- Development of guidelines for institutions concerning the annual financial audit required by special Convention action (Proposal No. 7).
- Assistance to member institu-

tions that have been penalized under the enforcement procedures in correcting the problems that resulted in rules violations. "This service will be available upon request by the institution and is designed to support a good-faith effort by the institution to restore its program to compliance with NCAA rules," Davis said.

• Assistance to members in attacking specific problems in advance of any known rules violations. This program will be limited to specific concerns rather than program-wide as-

National Collegiate Athletic Association

### Block-grant funding is approved

The NCAA Executive Committee has approved a block-grant funding plan to give the three NCAA divisions more control over their championships formats and funding, effective in 1986-87.

Championships committees will be established in all three divisions, and Divisions II and III will receive block-grant funds of \$1.1 million each to underwrite their championships. Division I will be allowed to retain revenues from its own championships that will guarantee transportation and authorized per-diem expenses in all Division I and National Collegiate Championships.

Under the block-grant program, the \$1.1 million for Divisions II and III will be allocated from the Association's reserve fund as budgeted for 1985-86 for each year's championships, with each division championships committee determining the distribution of allocated funds and revenues generated by its events. Since the championships committees will be working one year in advance, any surplus or deficit will be carried forward to the next fiscal-year allocations.

The committees will be in place in January when appointed by the Executive Committee. Composition of the Divisions II and III committees will include two members from the Executive Committee and two from the steering committee from each division, plus one at-large member each appointed by the Executive Committee. The Division I committee will be composed of the division's eight members of the Executive Committee, excluding the president and secretary-

### Ice hockey preview

*Providence College will be relying on Artie Yeomelakis to provide scoring as the Friars attempt to repeat the Division I Ice Hockey Championship they won last season. For a preview of the season, see pages 8-10.*

### Commission suggests changes in Proposal 48

The NCAA Presidents Commission will propose a change in the Association's legislation governing the initial eligibility for Division I student-athletes before that legislation becomes effective August 1, 1986.

The rule in question is NCAA Bylaw 5-1-(j), popularly called "Proposal 48" after the number it carried when it was adopted by the Division I NCAA membership in January 1983. If it is not amended at the Association's January 1986 Convention, it will require an entering student-athlete in Division I institutions to have achieved a 2,000 grade-point average (on a 4,000 scale) in an 11-course core curriculum in high school and to have scored a 700 on the SAT test or a 15 on the ACT test in order to be eligible for intercollegiate athletics practice or competition during the first year in college.

The Presidents Commission voted October 2 in Denver to sponsor an amendment to that rule at the January 1986 Convention. The amendment would establish a limited eligibility index that would permit a student-athlete to use a higher score on the ACT or SAT test to compensate for a

core-curriculum grade-point average under 2,000 or to use a higher core grade-point average to compensate for a test score under 700 on the SAT or 15 on the ACT.

The proposal will specify, however, that the core grade-point could not fall below 1,800, regardless of how high the test score is, and the SAT score could not be lower than 660, regardless of how high the grade-point is.

For example, a student with a 1,800 grade-point in the core would meet the rule if he or she had at least a 740 on the SAT, and a student with a 660 on the SAT would meet the rule with a 2,200 grade-point average in the core. Comparable ACT scores are to be verified with appropriate authorities but probably will range from 13 (comparable to 660) to 16 (comparable to 740).

The proposal also will specify that the standards be reviewed after three years, when considerably more data regarding the rule's impact will be available.

"The Commission's action protects the academic potential of entering freshman athletes," according to John W. Ryan, president of Indiana University and chair of the Commission.

"The Commission members considered very carefully a great deal of information and advice, including the report of the Special NCAA Academic Standards Committee. The Commission came to the conclusion that the special committee's recommendations [an unlimited eligibility index as reported in the September 9, 1985, issue of The NCAA News] embraced

See Commission, page 12

### Legislation tops agenda for Council

The agenda for the October 14-16 meeting of the NCAA Council is dominated by consideration of possible legislation for the 1986 NCAA Convention--including such major issues as academic standards, enforcement matters and drug testing.

The Council will meet at the Hyatt Regency Hotel in New Orleans, with full Council sessions October 14 and 16 and the three division steering committees meeting October 15.

Also conducting meetings in conjunction with the Council will be the Nominating Committee October 13, the Special Council Subcommittee on Eligibility Appeals October 15 and the Special Committee on Copyright Royalty Tribunal Proceedings October 16-17.

The Council and the steering committees will review all legislation submitted for the January 1986 Convention as of the date of the meeting, including that proposed by the Presidents Commission as reported elsewhere in this issue. The meeting is the Council's final opportunity to determine legislation that it wishes to sponsor at the Convention.

Included will be the Commission's proposal to modify Bylaw 5-1-(j) prior to its August 1986 effective date by

providing for a limited eligibility-index approach, the final recommendations of the Special Committee on National Drug-Testing Policy and a review of the Association's enforcement effort in light of the actions of the June special Convention.

Other items on the agenda for the meeting:

- Review of Administrative Com-

mittee actions, new and revised interpretations, membership and classification matters, and planning for the January Convention.

• Appointments to all Council-appointed committees for vacancies occurring September 1, 1986. The Council will consider all individuals recommended by NCAA members in

See Legislation, page 11

### Maryland's John Slaughter named chair of Commission

John B. Slaughter, former director of the National Science Foundation and chancellor of the University of Maryland, College Park, since 1982, has been elected by the NCAA Presidents Commission to replace John W. Ryan, Indiana University, as Commission chair, effective in January 1986.

Slaughter was elected by the Commission in its October 1-2 meeting in Denver after nominating procedures were conducted by mail prior to that meeting.

Ryan was elected as the Commission's first chair in the spring of 1984 after the Commission was established at the annual NCAA Convention in

January 1984. Commission officers are limited to two-year terms in their respective offices, and Ryan will continue as a member of the Commission until January 1988.

Slaughter, also a charter member of the Commission, is vice-chair of its Division I subcommittee and chaired its nominating committee in 1984. He is the Atlantic Coast Conference representative on the Commission.

"We are fortunate in having John Slaughter available and willing to accept this leadership role at a time when the Commission's work must continue in important directions," Ryan said.

See Maryland's, page 12

# Parseghian rebuts claim of widespread cheating

By Tom Harrison

The Greenville (South Carolina) News  
Charley Pell says everybody cheats.  
Ara Parseghian says that's "bull."

Pell, who was fired last year by the University of Florida, told the Greenville Touchdown Club recently that cheating in the college ranks is rampant.

Pell spent three years at Clemson before taking over at Florida. After he was fired, the Gators' football program was hit with some of the harshest penalties in NCAA history. Pell claims cheating is the norm in major college programs.

"We know everybody does it," Pell said an NCAA official told him, "but it's such a big problem we can't do anything about it."

Parseghian, now an analyst for CBS Sports, reacted vehemently.

"First of all, I don't concur with Charley Pell," said Parseghian, who was in town to do the Georgia-Clemson game. "I don't believe that everybody cheats, because I know people that didn't. I know I didn't, and I'll stand firm on that."

"Bo Schembechler doesn't cheat ... and I know a lot of other coaches

out there who don't.

"I think it's doggone unfair for a coach who has been caught to come forward. I like Charley Pell, but I think he ought to stand up and say, 'I got caught.'"

"But it's a little bit of a cop-out to say: 'Everybody does it.' Everybody doesn't break into drugstores. Everybody doesn't steal out of a clothing store. You know, if you happen to get caught, there are penalties.

"Yes, there is cheating—just like

## Columnary Craft

there is cheating in the medical profession, in the legal profession. Every profession has certain people who are willing to compromise the rules, and coaching is no exception because of the tremendously competitive aspects of it.

"But by golly, I'm telling you right now, there are guys out there who do not cheat. I'll take you around the programs that I know don't (cheat). So this business that you have to cheat is bull."

## Gambling reaches epidemic scale

By Elissa McCrary  
Associated Press Writer

The security director of the National Football League says that compulsive gambling is the second most serious problem facing professional athletes, behind drug abuse.

And the director, Warren R. Welch, said NFL officials are placing signs in locker rooms and inserts in play books to supplement training-camp talks aimed at discouraging the league's 1,200 players from gambling.

"We're trying to focus their attention on their vulnerability and make them aware of what could happen to them if they get involved in gambling activities," he said. "We think it's a giant problem—one of the two main distractions to the game, with the other being drugs.

"It's hard to get a handle on just how many of the players have a problem with gambling, because it is a hidden illness. But we in the league take a very firm, vocal stand against gambling and any legalization of

sports betting," Welch said.

Arnold Wexler, president of the Council on Compulsive Gambling, called compulsive gambling a "major epidemic in New Jersey" and said it is the third worst problem in the state behind toxic waste and drunken driving.

"There is more legal gambling in New Jersey than in any other place in America and that compounds the problem," said Wexler, who added that the state has "thousands upon thousands" of compulsive gamblers.

In a 1980 statewide survey, 33 percent of the respondents said they had gambled recently, Wexler said. That figure rose to 44 percent two years later and increased to 59 percent in 1984.

Dr. Robert L. Custer, a psychiatrist with the Veterans Administration in Washington, D.C., and founder of the first center designed to treat gamblers, said the suicide rate for compulsive gamblers is 200 times higher than the national average.

"Recent statistics show that most compulsive gamblers begin their gambling activity at the age of 14. That fact is frightening in itself when you

realize that these people are going to endure a lifetime of the hazards connected with such behavior," Custer said.

## Simpler rules, stricter penalties

By Bob Collins  
Indianapolis Star

Why not do something about the morass of idiotic NCAA rules? Make the rules clear; the penalty severe. The way it stands now, a coach can get in trouble for thinking about spitting on the sidewalk in front of a prospect.

And give the players a break. Room, board and tuition hardly is fair compensation for laboring in a program that brings in millions.

On the other side, give the alumni a seat in the stands and tell them to stay there—even (make that, especially) if there is no game. One zealot who wants his team to win more games than the school of his buddies at the club can get you in a heap of trouble.

Bobby Knight handled the alumni problem in his diplomatic manner when he first arrived at Indiana. He told them to go away and stay away.

# Administration professes concern for minorities but cuts aid

The New York Times

An editorial

"Are schools lowering the academic standards to ease the way for minority students?"

"William Bradford Reynolds, the Reagan administration's civil-rights chief, thinks so and regards that as an offensive form of discrimination.

"He's certainly right, if that's what schools are doing. But what's even more offensive is the administration's perverse policy.

"Even as it professes concern for the academic performance of minority students, it has continually sought to cut Federal aid for programs to help them."

Gene I. Maeroff, reporter

The New York Times

"Mr. Reagan has been far less favorably disposed toward the higher-education initiatives stemming from the Great Society.

"His attempts to reduce aid for college students account for

## Opinions Out Loud

most of the cutbacks he has proposed in the education budget.

"He has been largely unsuccessful in getting such reductions approved, though, because student aid has come to be regarded not only as a right of students, but also as important to the survival of many colleges."

Paul Good, clinical psychologist

San Francisco

Intercollegiate Athletic Administration

"What are the reasons that strong and healthy young athletes turn to chemical abuse?"

"Do they get into drugs just like other kids? Or, are there special problems that influence these youth?"

"Athletics always has been one of the most constructive opportunities for kids to learn about themselves. Playing competitive sport gives youth the chance to meet many of the emotional hurdles they will encounter in real life. But participating in organized athletics does not ensure automatically that a kid will have enough strength to resist alcohol and drugs. In fact, stress from athletics 'careers' may increase high school athletes' susceptibility to chemical abuse.

"Sources of stress include professional athletes whose drug involvement provides negative role modeling; teammates who

apply peer pressure to use drugs; coaches who demand sacrifice and discipline, and parents, friends and the school community, whose self-esteem may depend on the athlete's successful performance.

"In addition to these public pressures, young athletes have all the growing pains that other kids do, and more. While athletics generally is a terrific experience for youngsters, it sometimes can complicate the inner anxieties of normal development."

Charles S. MacKenzie, president

Grove City College

Testimony before Senate subcommittee

"I am sure you must be aware that this is watershed legislation (the proposed Civil Rights Restoration Act).

"It will affect the whole nation and will accelerate America's slide toward total government control.

"If you pass the bill as it stands, you will make it possible for every private organization and individual to be brought under Federal control—today, concerning civil rights, and tomorrow, concerning every aspect of our lives.

"This legislation also will increase the bureaucratization of the nation as government controllers extend the web of Federal jurisdiction over all areas of American life."

Stephen Figler, author and columnist

High School Sports

"I think of college as an investment. What you invest are time, effort and, in some cases, thousands of dollars. What you get back are four years of experience that will help shape every decision you make for the rest of your life.

"Too often, high school athletes make the wrong choice of college, either falling for flashy packages presented by high-pressure recruiters or gratefully accepting the first offer to come along.

"Since it is your responsibility to be a good investor, you must take an active part in selecting a college compatible with your academic, athletic and social needs."

Dan Clopton, teacher and referee

Springfield, Missouri

Referee

"I feel the most unfair rule is in basketball, allowing the team that committed a foul the best rebounding position in case the free throw is missed.

"Why should the opposition get these choice rebounding positions? You know the poorest free-throw shooter is going to be fouled last in a close game; and about half the time, he'll miss. This is the whole purpose of fouling him.

"Put more of a premium on the foul; and if the shooter wants to intentionally miss the throw so a teammate can put the rebound back up for an easy two points, maybe it would reduce fouling, especially late in the game."

Carl T. Rowan, columnist

News America

"I understand that some athletes don't want to be singled out (for drug testing). But an athlete is singled out when he gets an owner to agree to pay him \$500,000 a year—or even more than \$1 million a year—to do his thing in public and draw into a stadium thousands of moms and pops and their children.

"That lawyer or stockbroker who is snorting cocaine means nothing to the children of America. But it can be devastating to have children read that the year their baseball team won the pennant, the star players were on drugs; or that a great NFL running back led the league the year he was on cocaine. Why

Paul Richards, director of public communications

Brigham Young University

CFA Sidelines

"If we had developed the perfect artificial heart, or discovered a cure for cancer, or managed a diplomatic coup that settled all the ills of the world, there might have been an impact comparable to winning the national football title.

"But nothing in the realm of reality could match it. It gave us immediate recognition nationwide. We were no longer that obscure school somewhere near Salt Lake City. We were No. 1." wouldn't a youngster begin to believe that taking drugs is an easy way to success and fame?"

Kit Saunders, associate director of athletics

University of Wisconsin

Athletic Administration

"Athletics administrators do many things very well. We raise funds, we promote exciting programs, we relate to many publics, we motivate and we balance athletics achievement and academic success in our programs.

"One of the things we have historically not done very well is the evaluation of our coaches. In most institutions today, the athletics administrator is held accountable for every phase of the program and personnel functions have become an important factor in this accountability.

"Decisions about retention and the awarding of merit increases are subject to the rules of due process. They must be defensible in terms which are similar to the personnel procedure of other departments within our universities."

## Looking Back

### Five years ago

Thirty-eight coaches and administrators were named in October 1980 to serve on NCAA Divisions II and III women's sports committees, the first women's committees in the Association. The Divisions II and III Women's Basketball Committees convened October 26-28, 1980, the first meeting of an NCAA women's committee. ("NCAA: The Voice of College Sports")

### Ten years ago

The NCAA Council, meeting October 6-8, 1975, in St. Louis, Missouri, agreed to sponsor at the 1976 Convention a proposal to establish a Division I Football Championship, as recommended by a 17-member special committee chaired by Ernest C. Casale, Temple University. (October 15, 1975, NCAA News)

### Twenty years ago

The NCAA and ABC signed a new football television agreement October 8, 1965, in New York City, calling for ABC to pay \$15.6 million in rights fees to telecast college football in 1966 and 1967. NBC had held the contract for 1964 and 1965. (September-October 1965 NCAA News)

### Thirty years ago

The chief executive officers of 391 of the 398 NCAA member institutions had signed forms as of October 25, 1955, indicating compliance with NCAA rules and regulations. ("NCAA: The Voice of College Sports")

# Academic program designed to help athletes shows results

By The Associated Press

A program designed to improve the academic performance of North Carolina State athletes is beginning to show results; but more work needs to be done, according to the director of the school's academic advancement program for student-athletes.

"Some improvements still are necessary. We still need to do some things to shore up some areas," said Joe Brown, the former head of the physical education department at Winston-Salem State. "We have made some significant progress in the last two years."

The school's academic record was under scrutiny again recently when it was announced that four athletes, including basketball standout Charles Shackleford, were asked to sit out the fall semester until their grades improved.

Academic problems at North Carolina State gained national attention earlier this year when freshman basketball player Chris Washburn, charged in connection with the theft of another student's belongings, was found to have SAT scores far below the minimum for gaining entrance to a college or university.

"After two years, we're still addressing the same concerns," Brown said. "It will take some time to change an attitude, but that attitude change will become apparent in the next two to three years."

Brown said the program started in 1983 and said Chancellor Bruce Poulton deserves credit for its beginning.

"We were fortunate in that our new chancellor came in and

sensed a need to pay attention to the athletics department in terms of attendance and graduate rate," he said. "He asked the folks at the provost's office to come up with a proposal."

What officials devised is a program that organized all academic services of the university for concentrated use by all student-athletes.

Brown and his staff keep an eye on athletes and their progress in the classroom. The staff supervises a tutorial program and also assists the athlete in organizing course schedules for graduation.

"We have caused the students to see that they have another kind of future—one in the academic fields in which they are being prepared, as opposed to athletics," Brown said. "Many of them realize now that athletics may not be their entire future."

Not only has Brown had to fight attitudes that sometimes placed greater emphasis on athletics, but he also had to alter a policy that gave students an easy way out of maintaining high academic standards.

Under former guidelines, student-athletes were allowed to continue participating in varsity athletics if they passed half their course load. For example, if a student was scheduled for 12 hours of classes and made passing grades in six hours of classes, they still were allowed to play.

"As you can tell, we weren't getting them very far academically," Brown said.

With the NCAA's influence, students now have to pass 24 hours worth of classes every calendar year and must see their

grade-point average rise as they progress through the year.

A freshman with fewer than 28 hours in one year doesn't need a minimum grade-point average. As a sophomore, the requirement increases to 1.250 for anyone completing 28 to 59 hours of classes. For 60 to 91 hours, the average is 1.550 and from 92 to 123 hours 1.750. After 124 hours, a student-athlete needs a 1.950 average, but still must achieve a 2.000 to receive a degree.

Brown said the students recently held back from athletics are anxious to get into competition, but he adds that priorities have to be set.

"They want to play. I understand that. But in the long run, they'll mature to realize that what is happening to them is to their advantage," Brown said. "We want to shore up some academic skills."

"We are not saying these students have completely depleted banks academically," Brown continued. "They can perform. The second session of summer school proved they can perform. But we want them to perform at a higher level."

While improving the student-athletes already on campus, Brown said he also notes a change in the incoming freshmen, something that could raise a graduation rate among athletes that was lower than the average for the entire school.

"By virtue of our recruiting effort, we are bringing in much better student-athletes," he said. "I'm hoping that by 1988 and 1989, our graduation rate will be competitive with any institution in the Atlantic Coast Conference and any in the country."

## Stoner's pay-for-play proposal draws opposition in Illinois

University officials have denounced a call for paying needy student-athletes at major colleges, saying it would be too costly and would make school teams semiprofessional.

University of Illinois, Champaign, athletics director Neale Stoner suggested the payments, saying scholarships awarded to student-athletes at Division I-A schools are inadequate and make it impossible for some recipients to live like other students.

"If you walk across the campus, you'll find some of them don't even have 15 cents in their pockets," Stoner said.

"I really don't believe in pay for play," said Doug Single, athletics

director at Northwestern University.

Single said the plan would not "cut down on the abuses of alumni" at some schools where student-athletes reportedly have been paid "large sums of money under the table to attend their institutions."

A better solution would be to revise NCAA regulations to allow student-athletes to receive the same types of financial aid available to nonathletes, he said.

NCAA rules currently allow student-athletes to receive only half the maximum \$1,800 Federal Pell Grants and forbid their working during the school year, Single said.

Opposition also came from Dean Stuck, special assistant in charge of intercollegiate athletics at Southern Illinois University, Carbondale.

"Once you start that (payments), where do you stop it?" Stuck said.

"I would say one thing," he added. "The athletes are discriminated against, because an athlete on scholarship cannot work during the school year and make any extra money. Their scholarship is just room, board and tuition."

The students can't borrow money

or take odd jobs. "So I think we are discriminating against them," Stuck said. "I would rather see us include something like two trips a year home as a part of the package of the scholarship...."

Stoner's suggestion drew some support on his home campus.

"Mr. Stoner has identified a serious problem in which NCAA regulations may, in fact, discriminate against a student-athlete's ability to receive scholarship aid equal in some cases to that available to other students who don't participate in athletics," said Illinois Chancellor Thomas E. Everhart.

"As to the solution he proposes -- the paying of student-athletes -- I'm not sure I'm in agreement," Everhart said. "But I do find it somewhat incongruous that a student who may excel in the classroom and therefore be entitled to a high level of merit-based scholarships would be prohibited from receiving that support merely by virtue of the fact that he or she is an athlete."

Robert Frederick, athletics director at Illinois State University, said the proposal would be "nearly a financial

Neale R. Stoner

Doug Single

impossibility."

"I'm opposed to it in our case from an economic standpoint, but more importantly from a philosophical standpoint," Frederick said. "I consider myself an educator first. I wouldn't want to become a semi-

professional sports organization."

Stoner made the suggestion in a speech to the Illinois Associated Press Editors Association in Chicago September 28.

This article was written for the Associated Press.

## Discount fares to be available

The NCAA travel service at Fugazy International Travel has announced special discount fares available from several airlines for delegates traveling to the 1986 NCAA Convention in New Orleans.

The discounts also will be available to those attending the conventions of the American Football Coaches Association and the American Baseball Coaches Association and the NCAA Professional Development Seminar.

Special discounts of up to 40 percent off normal economy fares, with no restrictions, have been secured. Additional discounts of up to 70 percent are available with restrictions.

Reservations for these special rates to New Orleans in January can be made by calling the NCAA travel service. The special fares are available only through Fugazy. The 24-hour, toll-free number is 1-800-243-1800. For those living in Alaska, Connecticut, Hawaii or Puerto Rico, the collect number to call is 203/562-6222.

Arrangements can be made with the travel service to have tickets billed directly to the individual or to the member institution.

## Player reinstated

A Federal judge October 3 extended his temporary order that prevents the NCAA and Cornell University from forcing Cornell football player Tom McHale to sit out the 1985 season.

The order does not require Cornell to play McHale, but it prevents the school from dropping him from the roster and the NCAA from imposing sanctions or penalties because of Cornell's compliance.

U.S. District Judge Neal McCurn extended it until October 15. The action means McHale was to be available for the October 5 nonconference contest against Lafayette and an October 12 date against Ivy League foe Harvard.

## Team up your team with Finnair and play Europe to win.

Compete internationally in Finland, Sweden, Eastern Europe, and elsewhere... that's the perfect prize for your team... in soccer, hockey, basketball, swimming, wrestling, and more!

Finnair will show you how easy and affordable it can be. Because Finnair is the Sportour airline to Europe.

We schedule games, arrange accommodations, and plan guided excursions to important cultural and historic attractions. And that's not all, we help you plan fund-raising strategies.

The excitement of your European experience begins the moment you step on board Finnair—the national airline of Finland.

Tours usually include two meals daily, all transfers, portage, admission fees, tips and local taxes.

With Finnair Sportours, you come out a winner!

# Big Ten's record against outside foes improves

By James M. Van Valkenburg  
NCAA Director of Statistics

The Big Ten Conference is enjoying its best record against outside opponents in 25 years and challenging the Southeastern Conference for supremacy in the national nonconference rankings.

The Big Ten boasts a 21-6 record against outside Division I-A opposition for a .778 winning percentage, best since 1960 and third best since 1940. Believe it or not, that still is not No. 1, because the Southeastern stands 19-4-3 for .788 against outside I-A foes (each conference has won three vs. I-AA teams, which are deleted).

However, the Big Ten has finished its nonconference schedule except for the bowls, while the SEC, which annually plays more than 50 outside games against I-A opposition, is now only about half finished with its non-conference schedule.

History suggests the SEC will be hard put to maintain its lead over the Big Ten's .778. Every year, the SEC is the conference to beat in this unofficial competition. It was on top in 1984, 1983 and 1980, and was edged out by the Pacific-10 Conference in 1982 and by the Southwest Athletic Conference in 1981. But the SEC's best percentage in that five-year span was .694 last season.

## Southwest now third

The Southwest Athletic Conference now ranks third at 14-7, the Big Eight Conference fourth at 14-10 and Eastern independents fifth at 13-10-1 (remember, games against I-AA opponents are not included; I-A teams now stand 34-13-1 for .719 over I-AA foes).

All other conferences and independent groups are under .500, and most conferences have played most of their nonconference games. The Pac-10 and Western Athletic Conference both stand 10-12-1, the Atlantic Coast Conference 6-9, Southern independents 8-20-1, Pacific Coast Athletic Association 3-10-1, other I-A independents 3-9, Mid-American Conference 3-10 and I-AA Missouri Valley Conference members 2-7.

## Five years of bowls

Some will argue with some justification that nonconference records mean little except that the better teams in one conference will beat the second-division teams in another, because the top teams seldom meet until the bowls. Well, let us look at the bowls over the past five seasons. In that span, the WAC stands 7-1, the Pac-10 8-5, Eastern independents 11-7, ACC 6-4, SEC 14-13-1, Big Eight 8-9, Big Ten 9-12, Southern independents 5-8-1, SWC 7-13, other independents (all Notre Dame) 1-2 and Southland Conference 0-1 before it moved to I-AA, with the MAC and PCAA both 2-2, all against each other in the California Bowl.

Now some will argue that the WAC did not play the champions from other conferences. Let us face it, there is no perfect system.

## Big Ten once ruled

Outstanding nonconference records once were the rule in the Big Ten, which had just one losing record from 1940 through 1964. The pinnacle was reached in 1960, when the record was 19-2-2 for .870 (the book shows 26-2-2, but seven of those were over Indiana, a conference member on probation; its games did not count in the standings). The lone regular-season loss was by Indiana to Oregon State, but the record was smirched a bit when Minnesota's national champions (the final vote was before the bowls in those days) lost to Washington in the Rose Bowl, 17-7.

Next comes the 1956 season, when the Big Ten was 19-5 for .792, counting Iowa's 35-19 Rose Bowl victory over Oregon State but not counting its regular-season win over Hawaii, then a nonmajor. That Iowa team was coached by Forest Evashevski, a leg-

Rickey Foggie, Minnesota, is among the Division I-A leaders in scoring

Bethune-Cookman's Sebastian Brown ranks among the Division I-AA receiving leaders

Paul Palmer, Temple, ranks third among Division I-AA rushing leaders

John Busby, Northeast Missouri State, is one of the leaders in Division II receiving

endary figure in Iowa who was the blocking back for another legend, Tom Harmon of Michigan, 1940 Heisman Trophy winner. The Big Ten's dominance then ended suddenly in 1965, and it went nine straight years without an outside winning record. Why? Partly because it was not red-shirting players and was losing to opponents who did and thus had an edge in maturity and experience.

Since 1974, the Big Ten has had an up-and-down nonconference record, with the best year being 15-11 in 1981, the year Iowa ended the nation's longest streak of nonwinning seasons at 19 and went to the Rose Bowl under miracle-worker Hayden Fry.

This season, Fry is not alone. Bill Mallory's Indiana team is 4-0 after losing 16 straight; Illinois, resurging

15-1 for the Pac-10, with the ACC next at 21-16. In 1981, the SWC led at 19-10-1 over the SEC's 31-21-1, with the Big Eight third at 21-15. In 1982, a bowl sweep lifted the Pac-10 on top at 24-10-1, as the SEC went 2-5 in bowls and fell to 34-18-1. In 1983, the SEC was far in front at 36-16-3 to the Big Eight's 21-14-1. Last season, the SEC again led by a good margin at 36-15-3, although the Pac-10 had a good year at 24-12.

The SEC's five-year record shows 170 victories, 89 losses and eight ties for .652.

## I-AA leaders

The Division I-AA picture always is muddled because the conferences play such a wide variety of schedules. Some play a lot of I-A opponents; some play almost none and have a lot

of foes below the I-AA level. State team defeated Prairie View, 27-7, October 5 in the Cotton Bowl before 36,652 spectators. Robinson, now in his 43rd season as head coach (not 44th, as had been published elsewhere), has won 324, lost 106 and tied 15 for a winning percentage of .745. His victory total surpasses Paul "Bear" Bryant, who was 323-85-17 for .780—16th highest ever among coaches with at least 10 head-coaching seasons in Division I-A (Notre Dame's Knute Rockne heads the percentage list at .881 on 105-12-5 for 13 seasons through 1930—see September 23 notes for details on top coaches in history, Robinson's background and quotes).

Three more victories will move Robinson past George "Pappa Bear" Halas, the long-time owner-coach of the Chicago Bears, whose 326 is the most above the high school level (where the 400-victory figure has been reached). Robinson is 66 and will have three more seasons before retiring. He seems sure to reach 350 victories at his current pace. Robinson is one of 13 coaches in college history (all divisions, all associations) who have won at least 200. The highest winning percentage among the 200-game winners is .844 by Florida A&M's Jake Gaither. Bryant and Robinson lead the 300-gamers in percentage (Glenn "Pop" Warner, 313 wins, .729 winning percentage; Amos Alonzo Stagg, 314, .605).

"I know how people loved Warner and Stagg and the Bear," Robinson told Mike McKenzie of The Kansas City Star. "I just want them to love me, too, for whatever I've done. This record belongs to many coaches and hundreds of players. But you know how we do it in America—somebody's got to be the hero."

America has no stronger advocate than Robinson, although he can remember packing sandwiches and apples for team members to eat in churchyards on the way home when they could not get served in cafes on trips across the South: "Some people want to cry about the way it was. You can't unring a bell. Some people build roads, some ride on them. This job is not just about football. ... A youngster has to know there are rights and obligations to being an American and understand the system and know what you are all about."

A national-high 211 of his players have played pro football, but Robinson is just as proud of many who did not but were successful in various other fields. One was recently promoted to vice-president of a large

New Orleans bank.

## Quotes of the week

Pacific coach Bob Cope in praising senior linebacker Nick Holt for his outstanding play this season: "I've heard you tell a trapper by his furs, and everytime he goes out, he brings back some pelts." (Jeff Minahan, Pacific SID)

The same day Hurricane Gloria ravaged the area with winds up to 125 miles an hour, a student saw Wagner assistant coach Bob Mackisey en route to the gym and asked, "Are you really going to work today?" Replied Mackisey, "Football knows no hurricane." (It paid off; Wagner beat Stony Brook the next day to go 4-0.) (Renata Jacyniec, Wagner assistant SID)

Murray State coach Frank Beamer suspended five players the night before the Tennessee Tech game. During the game, the new mascot, a thoroughbred horse named Racer I, became skittish and failed to run after several scores, prompting one fan to comment: "Coach Beamer must have caught him out late last night, too." (Craig Bohnert, Murray State SID)

Kent State tailback Derrick Nix was off to a slow start in his first two games, but in a 28-3 victory over Eastern Michigan, he outgained former high school teammate and close friend Gary Patton (Lorain, Ohio), 133 yards to 89 in all-purpose running (Patton was third nationally in this category entering the game). After the game, Nix said, "Now I can go back to Lorain and enjoy some peace." (Tom Bochenek, Kent State SID)

Told that he had rushed for 305 yards against Knox (including touchdowns of 65 and 13 yards), Chicago tailback Bruce Montella replied: "Oh, they must have added the numbers wrong." (They did not, and Montella then led the nation's Division III rushers at 223 yards per game.) (Frank Luby, Chicago assistant SID)

After opening the season with three road games, William Penn finally played at home against Simpson. Coach Paul Vosburgh commented: "Our players are going to get up at 7:30 and see a little school bus instead of a Greyhound. They won't know what to do with it—probably they'll caddy it down the field." (Neal Tucker, William Penn, SID)

Asked if anything good happened in his team's 29-12 loss to Stephen F. Austin, Delta State coach Red Parker replied: "We saved the equipment." (Jody Corroero, Delta State SID)

## Football notes

recently under Mike White, upset Ohio State's defending champions October 5; Lou Holtz has done wonders at Minnesota; Leon Burnett at Purdue and George Perles at Michigan State are going for back-to-back winning records and bowl trips; Dave McClain is going for a fifth straight winning year at Wisconsin; Dennis Green has taken care of all those nasty streaks at Northwestern; last but far from least, Bo Schembechler and Michigan are back with a vengeance at 4-0. In fact, the worst Big Ten record is 2-2; there are three 4-0 teams and three 3-1 teams (and don't forget Earle Bruce, 3-1 even without Keith Byars).

## Passing a factor

How did it happen? You have to credit the coaches listed above, and part of the reason is their appreciation of the forward pass, once an unfavorable weapon in the Big Ten. Not now. In fact, the Big Ten, led by a procession of California prep and junior college quarterback standouts, has been a leader in the national passing surge in the 1980s. The average Big Ten team is gaining 229.58 yards per game in the air, second in the nation by inches to the WAC's leading 229.64. Third is the Pac-10, averaging 213 yards per team per game, then the PCAA at 204.9.

These four conferences are roughly one-third of the Division I-A membership. As a group they are averaging 219.3, the other two-thirds of the nation 174, for a national I-A average of 188.7 yards per game, per team (377.4 both teams combined).

To put it another way, these four are averaging 26 percent more in passing than the rest of the country. But the Big Ten is the only one with a winning nonconference record.

## A five-year history

The SEC is the only conference at or above .500 in nonconference play each year of the 1980s. The Pac-10 and ACC each had four winning records; the Big Eight, SWC and WAC three each, and the Big Ten two. The SEC led in 1980 with 33-19 to 21-

of foes below the I-AA level.

Considering I-AA games only, the Southland leads with a 11-2 record, Southern independents stand 11-6, the Southern Conference 6-4, Eastern independents 8-6, Yankee Conference 7-5-1, Gateway Conference 4-3 and Ohio Valley Conference 5-5.

However, the SLC is 3-7 against I-A opponents, the OVC is 2-5-1 and the Southern 2-6, while the others played from one to three I-A opponents.

When the nonmembers are added to the formula, the picture changes again. Including all nonconference games regardless of classification, Southern independents are 16-9, Gateway 11-6, Eastern independents 11-7, Yankee 10-6-1, Southland 16-11, Big Sky Conference 13-10, OVC 12-10-2 and Southwest Athletic Conference 7-6.

## Best streak in 47 years

Marshall has a streak of eight straight games without a loss, going back through the last two games of 1984, and including one tie, reports SID Mac Yates. That is the best unbeaten streak at Marshall since it won 14 straight in 1937-1938, which included a 9-0-1 season in 1937 and four straight victories starting 1938. The coach of that team was the legendary Cam Henderson (the same man who won 611 games in basketball; he was 68-46-5 in football). Last season, Marshall was 6-5 for its first winning season in 20 years. The coach is Stan Parrish, who had a 24-game unbeaten streak at Wabash, where he was 42-3-1 in five seasons.

In Division I-A, Indiana's 4-0 start is its best since its Rose Bowl team of 1967. Under John Pont, Indiana won its first eight that year; finished 9-1 and in a triple tie for the Big Ten championship, and was the conference representative in the Rose Bowl, losing to Southern California and O. J. Simpson, 14-3 on January 1, 1968.

## Robinson reaches 324

Eddie Robinson set an all-time record for collegiate career coaching victories at 324 when his Grambling

## Attendance picture unchanged

The attendance picture is virtually unchanged this week. Division I-A lost a little more ground October 5 and lags 2.73 percent in per-game terms behind the 1984 pace at 42,714 per game, a drop of 1,201. Division I-AA also lost ground but still shows a per-game increase of 697 per game of 6.35 percent, at 11,665. The chart:

	Games	Attendance	Average Pct.	Cap.
Division I-A season figures to date ..	245	10,464,974	42,714	80.4

## Despite rough edges, college hockey hits ice in great shape

By Bruce L. Howard  
The NCAA News Staff

Have college ice hockey games become rougher during the past 10 years? Every coach seems to have a different answer to that question; however, most agree that the state of college hockey has never been in better shape.

As has been the case with baseball during the past decade, the professional leagues now are looking to college campuses for prospective players as the skill level continues to improve.

Regular-season play continues to become more competitive since the formation of the four conferences, and attendance continues to soar. A crowd of 16,282 turned out in Detroit earlier this year to watch two Eastern teams—Rensselaer and Providence—battle for the national title.

Still, the debate regarding rough play continues. Some coaches attribute the mandatory use of face masks as the reason. Others, while admitting that the game might be getting more physical, argue that it is just part of a contact sport like ice hockey.

The face mask was made mandatory in college hockey in 1981 in hopes of eliminating eye and face

injuries. A new mask will be required beginning with the 1986-87 season as efforts continue to make the game as safe as possible. However, there is some sentiment that while the face mask has decreased the number of eye and face injuries, it also may have been a contributing factor to other injuries and the increased roughness of the game.

"The game has become rougher, but it was beginning to get that way before the use of face masks," said William J. Cleary Jr., coach at Harvard and secretary-rules editor of the NCAA Men's Ice Hockey Committee. "The kids are getting bigger, and the pros are looking more and more at college players. I think those factors have contributed as much as the face mask.

"The kids tend to think that once they get the face mask on, nothing is going to hurt them. We may have more shoulder and neck injuries than in the past, but we definitely have eliminated eye and face injuries." Cleary, coach for the past 14 years at Harvard, says the game of college hockey has grown tremendously the past 10 to 15 years.

"Athletes are more proficient, and the evidence of that is the fact that the

pros are now looking to the colleges for players," Cleary said. "Ten to 15 years ago, the pros mainly got players from the junior ranks in Canada. Hockey in the United States has improved tremendously. U.S. high school players are even being drafted—that's the real change from 10 or 15 years ago."

Len Ceglarski, who has won 509 college hockey games and led his Boston College team to the final four last year, thinks the biggest change that has occurred in the game the past decade is the style of play.

"A number of teams, both in high school and college, are playing the 'dump and run' game," Ceglarski said. "If you have big kids and good skaters, it is the best way to win. The face mask also has been a contributing factor to the increase in rough play.

"Skating definitely has improved because kids are coming in bigger and stronger. I'd still like to see an improvement in puck and stick handling. Hockey, of course, is a contact sport; but I think we need to do something to cut down on rough play."

A byproduct of the improvement of hockey players in the United States is that more and more universities are able to compete on the national level.

Bill Cleary

Len Ceglarski

Gone are the days when a few top schools dominated the sport.

The past two Division I champions are evidence of the proliferation of talent. Bowling Green State, which had made only one previous trip to the final four, won the 1984 championship; and Rensselaer, which appeared in the NCAA championship

in 1985 for the first time in 20 years, won the 1985 title.

"The level of the game has certainly improved each season," said Jerry York, coach at Bowling Green. "The establishment of the four conferences has certainly been good from a coaching standpoint. Each year, there are

See *Despite*, page 10

## Parity may be best defense against Western domination

For the past 25 years, Western teams have dominated Division I ice hockey at the national level; however, Bowling Green State and Rensselaer, the past two NCAA champions, have served notice that all four major conferences have teams capable of winning the coveted national title.

Although the Western Collegiate Hockey Association (WCHA) will have four strong contenders again this year, the race for the national championship should be wide open.

Since 1960, teams from the WCHA have won 17 of the 26 Division I titles, with the remaining nine championships evenly distributed among the Eastern College Athletic Conference (ECAC), Hockey East and the Central Collegiate Hockey Association (CCHA).

From 1973 to 1983, WCHA teams won 10 of the 11 NCAA championships—Wisconsin (4), Minnesota (3), North Dakota (2) and Michigan Tech (1). With the CCHA's (Bowling Green) victory in 1984 and the ECAC's (Rensselaer) championship last year, fans in the Hockey East league are hopeful that 1986 is their year.

Following is a look at the top Division I teams and individuals for the 1985-86 Division I collegiate ice hockey season. Previews are listed for each of the four conferences and Eastern and Western independents:

### Eastern College Athletic Conference

It was indeed a dream season for Rensselaer last year. The Engineers compiled a 35-2-1 record, including a 30-game winning streak, and won their first NCAA championship since the Ned Harkness-coached team in 1954.

Although Mike Addesa's squad would love to be in the spotlight on the eve of Easter in 1986, the Engineers will be hard-pressed to duplicate last year, thanks to the loss of six seniors and three other underclassmen who opted for the professional ranks.

Rensselaer, which defeated Providence for the 1985 championship, set school and ECAC records for most victories in a season (35), most consecutive victories (30), most consecutive games without a loss (33) and

most goals scored in a season (245).

Players who will be missed the most are goalie Daren Puppa; forward Adam Oates, who set school and career marks for assists and points, and defenseman Ken Hammond.

Addesa will count on forwards John Carter (43 goals-29 assists-72 points), Mark Jooris (23-37-60) and Bob DiPronio (13-26-39) as the Engineers' No. 1 offensive line. However, depth will be a problem early in the season.

Defensively, senior Mike Dark (7-26-33) is the key returning player.

If Rensselaer is not able to recover from its personnel losses, Harvard (21-9-2) could claim the ECAC crown. Coach Bill Cleary's team should be as strong as the 1983 squad that finished second to Wisconsin.

Most of that strength will come from senior forward Scott Fusco, who turned down professional offers to remain at Harvard and complete his degree. Fusco (34-47-81), the No. 2 scorer in the country last year, was runner-up in balloting for the Hobey Baker Award and is a strong contender again this year.

Fusco, the ECAC player of the year, will be helped on the front line by sophomore Lane MacDonald (21-31-52), another player who decided to postpone his professional career.

"The kids that we recruit really want an education," Cleary said. "The most important thing for them is to get a degree."

Another player who fits into that category is incoming freshman Chris Biotti, who Cleary says will make immediate contributions to the Crimson.

In all, 20 of 23 lettermen return for Harvard, including defenseman Tim Smith (31-22-53), defenseman Mark Benning (4-37-41) and goalie Grant Blair (2.89 goals-against average). Blair is the nation's No. 3 returning goalie.

An NCAA title definitely is within Harvard's reach in 1986, but the Crimson must receive improved scoring from its second, third and fourth lines to make Rensselaer's dream of 1985 come true in 1986.

Cornell (18-10-2), Clarkson (21-10-3) and Yale (20-11-1) are the best of

Cornell's Duanne Moeser

John Crispin photo

the rest in the ECAC.

Cornell, NCAA champion in 1967 and 1970, has not qualified for the play-offs since 1981, but the Big Red hopes to change that pattern this season.

Coach Lou Reycroft, entering his fourth season at Cornell, should have an excellent No. 1 offensive line with veterans Duane Moeser (28-19-47), Joe Nieuwendyk (21-24-45) and Peter Natyshak (21-23-44). The Big Red, trichampions of the Ivy League with Harvard and Yale last year, returns seven additional lettermen on offense.

On defense, sophomore goalie Doug Dadswell (3.45) continues a

fine tradition of goalkeepers at the Ithaca, New York, school. He will be supported by defensemen Mike Schafer (2-14-16) and Chris Norton (4-19-23).

"We definitely will be a league championship contender," Reycroft said. "This team gained a lot of confidence in 1984-85, which was reflected in our performance. The task this year is to stay hungry and continue to improve."

Cap Raeder enters his first year as coach at Clarkson and has the chore of replacing nine key performers from last year's 21-10-3 team. The Golden Knights qualified for the ECAC play-

offs for the 23rd time in the past 24 years last year.

Raeder, a standout goalie for New Hampshire in the early 1970s, will rely on senior goalie Jamie Falle (2.91) to offset the loss of four key defensive performers. Falle, fifth in the nation last year in goals-against average, has established himself as one of the nation's best the past three years with career marks of 3.04 (goals-against average) and .887 (save percentage).

Other key players for Clarkson are left wing Charlie Meitner (18-23-41), center Luciano Borsato (15-17-32) and left wing Al Hill (15-14-29).

After a 5-4-1 start last year, Yale won 15 of its remaining 21 games to post its first 20-victory season; and with 10 of its top 12 players back, coach Tim Taylor's squad is hopeful of making its first NCAA postseason appearance since 1952.

"One of our biggest strengths will be our returning experience and depth, as we'll be battle-seasoned in all positions," Taylor said. "Our two defensive goals are to get our goals-against average down and to improve our penalty-killing efficiency. We're returning five senior defensemen, so that should be feasible."

All-Ivy players Randy Wood (25-28-53) and Bob Kudelski (21-23-44), sophomore Tom Walsh (19-22-41), and senior Bob Logan (19-12-31) are the key offensive players. Captain Scott Webster (2-6-8) spearheads the Yale defense.

Other top team: St. Lawrence (17-13-2).

Other top individuals: Gerard Waslen, senior, forward, Colgate (20-10-30); Cliff Albrecht, senior, forward, Princeton (6-22-28); Tom Draper, junior, goalie, Vermont (4.11); Bob Nabb, senior, forward, Army (20-20-40); Paul DeGironimo, junior, goalie, Army (4.04).

### Hockey East

Two of last year's final four came from the Hockey East—Boston College and Providence—and both are serious contenders again this year, although Providence must overcome the loss of several key players and a coaching change.

However, the conference's best team in 1985-86 could be Boston University, which won three national titles during the 1970s. Coach Jack Parker's team returns 22 of 24 lettermen from last

See *Parity*, page 10

# Division III powers hope to strike back at Empire State

The state of New York produced both NCAA ice hockey champions last year—Rensselaer in Division I and Rochester Institute of Technology in Division III. And, while Rensselaer lost nine key players and will have a difficult chore in repeating, the Tigers of RIT appear to have all the ingredients to win their third title in four years.

Five teams from the East and three teams from the West will be selected to participate in the 1986 Division III Men's Ice Hockey Championship, and RIT is one of six strong contenders for the five Eastern spots.

Bemidji State, the NCAA Division II champion in 1984 and Division III runner-up last year, is one of five strong candidates for the three Western spots. Following is a look at the best Division III teams in the country this year. (Note: Division II teams that elect to compete in the Division III event may be included in this preview.)

## East

RIT (26-6-1) has become a small-college powerhouse in ice hockey, and second-year coach Bruce Delventhal appears to have the talent necessary to keep that tradition intact.

The Tigers lost two starters on the front line and one defenseman, but leading goal scorer Larry Shomphe (32 goals-24 assists-56 points) returns to lead the offense. Shomphe will team with Ritchie Herbert (16-27-43), Jeff Mercier (18-22-40) and Pete Schroeder (36 points).

Although it may take a few games for the offense to produce, the Tigers should be able to keep opponents' pucks out of the net behind a veteran defense led by John Hawkins (12-25-37) and Maurice Montambault (25 points). Chet Hallice (2.29 goals-against average), most valuable player in the NCAA tournament, will work with Rob Rohlfis in goal.

Union (New York) (21-9-1) and Plattsburgh State (26-11), which each

lost NCAA semifinal contests by one goal last year, should be right on the heels of RIT this season.

Plattsburgh State appears to have the deeper of the two squads with nine of last year's top 10 scorers back. Coach Steve Hoar should have another explosive team offensively, and the Cardinals have improved their defense, which was last year's weak spot.

Sophomore Joey Ferras (28-62-90) and junior Dave Piromalli (32-52-84) are the strengths of the front line, along with junior Rick Stahl (3-20-23). Senior Dan Bedard (4-34) will lead the revitalized Plattsburgh defense.

Union, a final-four participant the past two years, must replace its top two scorers—Gill Egan and Jamie Knight. But, coach Charlie Morrison has had a history of rebuilding teams and programs.

Senior cocaptains Curt Cole (12-31-43) and Tom Hodgins (15-18-33) will direct the Dutchmen's offense. The backbone of the team, however, is goalie Wayne McDougall (2.51), who had an 11-game unbeaten streak last year and owns 35 career victories. John MacKenzie (6-13-19) is the top defender.

Salem State (24-9) made its first postseason appearance since 1979 last year, set a school record for victories and won its 12th consecutive Massachusetts State College Athletic Conference title.

Fifteen lettermen return for the Vikings, including forwards Bobby Williams (19-17-36), Don Sharpy (14-20-34) and Andy Martone (13-18-31). Goalie Ross Mottau (2.91) spearheads the team's defensive attack.

Steve Stirling, who led Providence to the Division I final four last year, returns to coach Babson (22-9), and the new Beavers' coach will have an explosive offense led by sophomore Tom Sasso (18-36-54), who was drafted by the National Hockey League but chose to remain in school.

RIT's Chet Hallice

Other top offensive performers for Babson are senior Steve Thomas (18-31-49), senior Steve Villa (14-32-46) and senior Jim Gavin (14-16-30).

Oswego State (23-10) must rebuild after losing nine of its top 12 forwards and 14 total players, but ECAC Division II player of the year Mike Snell (51-33-84) returns to help coach Don Unger with the renovation project. Other key players are senior forward Kevin Ahern (14-24-38) and senior forward Brett Stewart (9-21-30).

**Other top teams:** Amherst (15-8-1), Assumption (15-6), Bowdoin (13-12-1), Elmira (18-9), Potsdam State (14-14) and Trinity (Connecticut) (16-8).

**Other top individuals:** Tom Scholfield, junior, defense, Assumption (10-42-52); John McGough, junior, forward, Bowdoin (26-29-

55); Jon Leonard, junior, defense, Bowdoin (2-11-13); Mike Holmes, junior, forward, Elmira (21-19-40); Luc Boileau, sophomore, forward, Potsdam State (16-22-38); Art Fitzgerald, junior, goalie, Trinity (Connecticut) (2.98); Bill Gutenberg, sophomore, forward, American International (21-21-42); Fred Whouley, sophomore, forward, Curry (42-17-59); Bob McMahon, senior, forward, Fitchburg State (31-29-60); Marc MacDonald, senior, forward, Framingham State (20-26-46); Terry Reilly, sophomore, forward, Geneseo State (28-23-51); Chip Decato, senior, forward, New Hampshire College (29-24-53); John Wood, junior, forward, New Hampshire College (27-24-51); Al Sargentelli, junior, forward, New Jersey Tech (43 points); Hubie McDonough, senior, forward, St. Anselm (41-30-71); John Brans, senior, forward, Wesleyan (21-21-42).

## West

Bemidji State (27-6-2) should continue its tradition of defense-oriented teams. Veteran coach Bob Peters (436-134-13 career record) has led Bemidji to three consecutive NCAA championship games, winning one of the three.

Heading the cast for the Beavers are senior all-America Mike Alexander (31-32-63) and senior Tim Les-carbeau (27-12-39).

Mankato State (19-12-4), winner of the 1980 Division II title, returns five of its top eight scorers, including Jon Hill (10-28-38) and Troy Jutting (17-20-37).

Coach Don Brose (273-139-18 career record), who started Mankato State's program in 1969, will rely on goalie Ken Hilgert (3.47) and defender Tim Muller (3-14-17) to keep opponents' pucks out of the nets.

St. Thomas (25-7) qualified for postseason play for the second straight season last year but drew RIT in first-round play; however, the Tommies have their sights on the final four this

season.

Coach Terry Abram returns a prolific scoring attack in senior Tom Diedrich (28-27-55), sophomore Tom Palkowski (24-24-48) and senior Curt McLeod (21-19-40). All-conference goalie Mike Tubbs (3.0) leads the St. Thomas defense.

Battling Bemidji State and Mankato State in the Northern Collegiate Hockey Association will be St. Cloud State (14-13-2), which features a young but experienced squad.

All-conference selection Jeff Tolle (6-25-31) heads the St. Cloud State contingent, while last year's freshman star, Todd Holt (15-25-40), keys the offense. Other top performers back for coach John Perpich are junior forward Mike Brodzinski (20-14-34) and sophomore goalie Bill Korfhage (3.80).

Gustavus Adolphus coach Don Roberts (364-154-4 career record) faces a rebuilding year, and his 13th Minnesota Intercollegiate Athletic Conference title is in jeopardy.

Heading the list of returnees are senior goalie John McCally (4.0), junior forward Pat Swetala (15-11-26), junior forward Thor Bolstad (8-14-22) and sophomore forward Tim Ahcan (9-8-17).

**Other top teams:** Augsburg (14-12), Bethel (15-10), Lake Forest (17-9), St. Mary's (Minnesota) (16-10), St. Scholastica (14-15-1) and Wisconsin-River Falls (15-12).

**Other top individuals:** Jon Abrahamson, senior, forward, Bethel (19-20-39); Doug Voss, junior, goalie, Bethel (3.56); Gary Willett, junior, goalie, Lake Forest (2.78); Doug Loahr, junior, forward, St. Mary's (Minnesota) (41-29-70); John Brandt, junior, forward, St. Mary's (Minnesota) (18-39-57); Scott Curwin, senior, forward, St. Scholastica (27-24-51); Scott Simpson, senior, forward, Wisconsin-River Falls (11-20-31).

## RPI engineers hockey tradition that crosses divisional lines

Until last March, any mention of Rensselaer Polytechnic Institute probably came in a conversation about engineering. Most of the engineering last March, however, was done on ice rinks as RPI proved to be the best college hockey team by winning the NCAA championship in Detroit, Michigan.

What's a Division III institution with 3,800 students doing winning the NCAA Division I Men's Ice Hockey Championship? That is precisely the question a number of people were asking earlier this year, but the college hockey world has known since the early 1950s that the Troy, New York, school was known for more than its engineering program.

Ned Harkness, who excelled later in the professional ranks, started the RPI hockey program in 1950 and won the NCAA title in 1954. At that time, there was only one division in

collegiate ice hockey. But when a Division II championship was created in 1978, there was no question which way the Engineers would go.

It was about that time that Mike Addesa was hired from Holy Cross to direct the program, and the plan was to make the RPI hockey program as strong as the engineering school.

Counting last year's remarkable 35-2-1 season, Rensselaer's record during the past three years is 85-19-1, and 18 of the 19 losses have been by one goal.

"We are very proud of the accomplishments the past three years, both on and off the ice," Addesa said. "I don't think any Division I team can come close to our record the past three years."

And it has not been easy. Consider that for a student-athlete to enroll at RPI, he must have scored at least 1,330 (620 verbal, 710 math) on the

Scholastic Aptitude Test. Consider also that the annual tuition at Rensselaer is \$15,000, so walk-ons are virtually nonexistent.

"In terms of academics, RPI is mentioned in the same breath as Cal Tech and MIT," Addesa said. "RPI was one of the first really strong academic institutions in the United States. Of course, one of the hardships is that in recruiting we have to look for the exceptional student as well as the exceptional hockey player."

Troy is situated near Albany in the Adirondack mountains; and because it is close to the northwest corner of Massachusetts and the southwest corner of Vermont, the city has a New England type of atmosphere. Addesa does most of his recruiting in Massachusetts and the Canadian provinces of Quebec and Ontario.

And, while the NCAA title has created a lot of interest in the hockey

program, Addesa is particularly excited about the mix of academics and athletics that his players have received.

"In the six years that I have been here, we have had 38 potential graduates, and only two have not graduated," Addesa said. "Our kids are enrolled in a wide variety of subjects, including engineering."

"In a time when I read comments from coaches that you cannot make a total commitment to academics and play a Division I sport, we are living proof that that can be done. You can make that dual commitment; the two go hand in hand. If you plan properly, you can do well in both areas."

Addesa has sent players to the pro ranks and also has molded leaders for the professional world. Rene Fradet, who graduated two years ago with a mechanical engineering degree, now works in the area of robotics at the Jet Propulsion Laboratory in Pasadena,

California. The laboratory produces materials for the National Aeronautics and Space Administration. While in school, Fradet received national recognition for developing a computer program that taught goalies how to defend on angles.

After last year's national success on the ice, seven players signed professional contracts, including four underclassmen. One of those players, Daren Puppa, will continue his degree in electrical engineering during the off-season.

Addesa faces a rebuilding year of sorts, which is never an easy job. But he has the added "burden" of being the defending national champion because opponents always seem to play more inspired.

"We have a lot of kids coming back who have learned how to win," Addesa said. "If the newcomers develop, we can be there again."

Chris Terreri, Providence

## Parity

Continued from page 8

year's 24-14-4 squad that placed second behind Boston College in Hockey East regular-season competition.

Junior center John Cullen (27-32-59) heads the Boston U. offense. Cullen, who has tallied 115 points in his first two years, was the team's most valuable player last year. Assisting Cullen on the front line will be Clark Donatelli (17-18-35) and Ed Lowney (18-21-39).

The key to the Terreri's success could be goalie Terry Taillefer (3.00), who missed part of last season with bursitis. His status for 1985-86 is still questionable. If Taillefer cannot play, Bob Deraney (3.66) and Peter Fish (4.81) will handle goalie duties.

Chris Matchett and Tom Ryan will be moved from forward positions to defense and should strengthen that area.

Boston College (28-15-2) hopes to return to the final four and has its top four scorers to aid in that effort. Forwards Scott Harlow (34-38-72), Doug Brown (37-31-68), Bob Sweeney (32-32-64) and Ken Hodge (20-44-64) form the heart of coach Len Ceglarski's team.

"We lost only six players from last year's team," Ceglarski said. "We have experienced seniors, good experience in goal and some outstanding freshmen, so I think we have a chance to be as good as last year."

That experience in goal is two-year starter Scott Gordon (3.61), who ranked 17th in the nation in goals-against average.

Providence (23-17-5) was the surprise of the East last year, winning the Hockey East postseason tournament to qualify for NCAA postseason competition and then upsetting Michigan State to advance to the final four. The Friars will not surprise anyone this year, especially with their goaltender.

Chris Terreri returns for his senior season at Providence after having a once-in-a-lifetime season last year. His final goals-against average was 3.12, good for eighth in the country; however, his play during postseason competition was nothing less than phenomenal.

During the Hockey East championships, Providence defeated Boston U. and Boston College as Terreri stopped 98 shots and won the tournament's most valuable player award. Against Michigan State, Terreri had 50 saves as Providence defeated the Spartans, 3-2, in the second game to win the total-goals series, 6-5.

And then there was the NCAA championship. In Providence's 4-3, triple-overtime semifinal victory over Boston College, Terreri stopped a record-setting 62 shots on goal. And, in the 2-1 loss to Rensselaer, the 5-9 goalie made another 40 saves, becoming the first player to record more than 100 saves during an NCAA

tournament.

"When the year started, I was apprehensive about what was going to happen," Terreri said. "I hadn't played that much (11 games as freshman, 10 as sophomore), but the team began to play well and that built my confidence."

"We had our ups and downs last year. Although we never overpowered anyone, we always seemed to come together when it counted. I'm sure teams will be gunning for us and me this year, but I've never really been affected by pressure. I think I have an edge now with the year of experience I got last year."

It is good for Providence's sake that Terreri, the Hockey East player of the year, is back since Hockey East scoring leader Tim Army and all-America defenseman Peter Taglianetti have departed. Artie Yeomelakis (14-36-50) is the top returning offensive player and will be assisted up front by Rene Boudreault, Tim Sullivan and Gord Cruickshank.

**Other top individuals:** Jon Morris, sophomore, forward, Lowell (29-31-60); John Shumski, senior, forward, Lowell (22-31-53); Paul Ames, junior, defense, Lowell (2-8-10); Ron Hellen, senior, forward, Maine (18-21-39); Dave Wensley, sophomore, forward, Maine (17-17-34); James Richmond, junior, forward, New Hampshire (21-29-50); Rod Isbister, senior, forward, Northeastern (22-32-54); Bruce Racine, sophomore, goalie, Northeastern (3.83).

### Central Collegiate Hockey Association

Michigan State (38-6) dominated this league last year, but coach Ron Mason's Spartans will have a tough time matching the offensive production of last year's team. Michigan State scored more goals (262) last season than its opponents' total points (goals plus assists).

However, the Spartans will be without their top five scorers from last year, including Craig Simpson, eighth nationally in scoring.

Mason's plan, though, may be to keep other teams from scoring with the country's best one-two punch in the nets. Goalies Bob Essensa (1.64) and Norm Foster (2.63) ranked first and third, respectively, in goals-against average last year. Essensa was named to the all-CCHA first team, and Foster was the most valuable player in the CCHA play-offs.

"Last season was a replacement year," Mason said. "I didn't feel that we were rebuilding, just replacing. But this year is now a rebuilding year. We are going to have to depend upon a lot of youthful players; and when that happens, it is very difficult to predict where you are going to be."

"We want to be in the top four in the league and get home ice. To say that we are going to try to win the league championship is rather difficult because we'll be too young and a little like Bowling Green was last year."

Junior Don McSweeney (2-23-25) heads the Spartans' defense and senior

Mike Donnelly (26-21-47) is the top returning scorer.

Bowling Green (21-21), the 1984 champion, has rebuilt its squad and is the preseason CCHA favorite. Coach Jerry York had 10 freshmen who lettered last year, and that experience should yield dividends this season.

Forward Jamie Wansbrough (37-33-70) could break school and conference records for goals this year and will spearhead the Falcons' offense. Conference rookie of the year Paul Ysebaert (23-32-55) and junior Iain Duncan (9-21-30) are other key offensive players. Goalie Gary Kruzich (3.97) leads the Bowling Green defense.

"We were coming off a national championship last year and I just wanted to survive," York said. "We had a lot of freshmen and we did survive—finishing fourth in our league."

"This year, we just want to move up in our league. We've improved in all areas and still have only one senior in the lineup. We're looking at a two-year program and hoping to progress throughout that period of time."

If either Michigan State or Bowling Green falters, look for Lake Superior State (27-16-1) to challenge for league honors. The Lakers qualified for the play-offs for the first time last year and return eight of their top 10 scorers.

Scott Johnson (21-23-44), Nick Palumbo (14-31-45), Keith Martin (23-20-43) and Jim Roque (20-21-41) are the key offensive performers for coach Frank Anzalone. Goalie Randy Exelby heads the defensive returnees.

Western Michigan (22-16-2) finished third in the CCHA last year, its highest ranking since becoming a Division I team. Coach Bill Wilkinson has 16 lettermen back to continue the Broncos' climb to the top.

Key performers for Western Michigan are Dan Dorion (21-46-67), Troy Thrun (25-22-47), Rob Bryden (18-19-37), Stuart Burnie (21-16-37) and Chris MacDonald (8-26-34). Finding a replacement for Glenn Healy in the nets will be the team's No. 1 priority.

**Other top teams:** Illinois-Chicago (17-23) and Michigan (13-26-1).

**Other top individuals:** Mike Rucinski, junior, forward, Illinois-Chicago (29-32-61); Scott Knutson, senior, forward, Illinois-Chicago (20-22-42); Todd Channell, senior, forward, Miami (Ohio) (15-32-47); Bill Easdale, senior, forward, Miami (Ohio) (20-27-47); Peter Lowden, junior, forward, Ferris State (23-32-55); Brad Jones, junior, forward, Michigan (21-27-48); Jeff Norton, sophomore, defense, Michigan (8-16-24).

### Western Collegiate Hockey Association

Wisconsin, Minnesota, Minnesota-Duluth and North Dakota—take your pick. The WCHA appears to be dogfight among these four powerhouses, and trying to forecast the eventual winner is mere guesswork.

## Despite

Continued from page 8

more schools that have the resources to win the national championship. That is healthy and good for the sport.

"Although rough play is a concern in any sport, I think the game is healthy. I think college coaches are educated in how the game should be played. I am not overly concerned about what a lot of people view as a problem—that being rough play."

In addition to the continued attention on the face mask and the new rule that goalkeepers must wear the same face masks as other players, there are other rules changes for the 1985-86 season that will affect the game. Following is a list of the key changes:

- A rectangular goal crease of four feet by eight feet must be marked on the ice surface.

- A minor penalty will be assessed if anyone except the playing captain talks or confers with a referee.

- A bench minor penalty, a penalty shot/optional minor penalty and a misconduct penalty will be assessed if an extra player from the bench or the penalty box tries to prevent a break-away.

- In situations where the opposing team scores a goal while a team is short-handed by one or more minor or bench minor penalties, the first of such penalties automatically shall terminate.

- A maximum of five players per team per stoppage of play may be assessed disqualification penalties.

- A bench minor penalty will be assessed against any coach, manager, trainer or other nonplaying person connected with a team who uses profane language to an official.

- The face-off spot for a team icing the puck has been changed from the neutral zone near the defending blue line of the team committing the foul to the neutral zone near the defending blue line of the team icing the puck.

Wisconsin, Minnesota and North Dakota have won 11 total NCAA championships, and Duluth advanced to the final four last season, so all have championship-level experience.

Minnesota (31-13-3) returns 17 of 23 lettermen and could be considered the early season favorite; however, new coach Doug Woog figures the early games will be learning experiences.

"Don't expect us to come out of the blocks in 1985-86 like some kind of Olympic sprinter," Woog said. "Our first aim this season will be to carry on with the longstanding hockey traditions of the University of Minnesota, but from a different angle with new thoughts and new people."

Making Woog's first season a little easier will be all-America Pat Micheletti (47-42-89), who has accumulated 182 points in his three-year career. Other key offensive players are junior Wally Chapman (21-11-32) and junior Corey Millen (24-35-59). Goalie John Blue (3.39), a native of San Jose, California, spearheads the Gophers' defense.

Seven of last year's top 10 scorers return for Wisconsin (25-17-0), which has won four NCAA titles since 1973. Second-team all-Americans Tony Granato (33-34-67) and Tim Thomas, who scored 13 goals and had 50 assists as a defenseman, are coach Jeff Sauer's top individuals.

Scott Mellanby (14-24-38) was one of the WCHA's top freshman players a year ago and will assist Granato on the front line. Captain Marty Wiitala (10-16-26) will work with Thomas on the defensive line.

North Dakota (24-16-2), known for its defense, should be strong in that department again, led by Glen Klotz (7-35-42) and goalie Scott Brower (3.28). However, coach Gino Gasparini must find replacements up front.

Forwards Chris Jensen (25-27-52) and Brian Williams (20-27-47) are the top returning scorers.

Minnesota-Duluth (36-9-3) lost Hobey Baker winner Bill Watson and top goalie Rick Kosti to the professional ranks, but coach Mike Sertich

See Parity, page 11

## Returning statistical leaders

Despite the fact that more and more underclassmen are drafted by the National Hockey League each year, the 1985-86 season should be exciting if statistical leaders are any indication of the game's success.

Fifteen of last year's top 25 scorers and 15 of the top 24 goalies return to their respective college campuses this season. Harvard's Scott Fusco, the nation's No. 2 scorer last year behind Steve Moria of Alaska-Fairbanks, is the top returning scorer. Notre Dame, a Western independent, leads the way offensively with three of the country's top scorers back.

Although Michigan State lost some key offensive players, the Spartans should be tough in the net behind Bob Essensa and Norm Foster, ranked first and third, respectively, last year. Following is a look at the key statistical performers returning this season.

Top returning scorers—Division I						
84-85 Rank	Player, Team	Games	Goals	Assists	Pts.	PPG
2.	Scott Fusco, Harvard	32	34	7	81	2.53
5.	Pat Micheletti, Minnesota	44	48	48	96	2.18
6.	Brad Corbett, Alaska-Fairbanks	34	31	41	72	2.11
7.	Brent Chapman, Notre Dame	17	21	14	35	2.06
8.	John Carter, Rensselaer	37	43	29	72	1.94
1.	Tim Reilly, Notre Dame	18	14	19	33	1.83
12.	Mark Jooris, Rensselaer	34	23	37	60	1.76
14.	Dan Dorion, Western Michigan	39	21	46	67	1.72
17.	Corey Millen, Minnesota	38	28	36	64	1.68
19.	Jamie Wansbrough, Bowling Green	42	37	33	70	1.67
20.	Randy Wood, Yale	32	25	28	53	1.66
20.	Tim Smith, Harvard	32	31	22	53	1.66
23.	Lane MacDonald, Harvard	32	21	31	52	1.63
23.	Bob Thebeau, Notre Dame	14	8	15	23	1.63
25.	Scott Harlow, Boston College	44	34	38	72	1.63

Top returning goalkeepers—Division I							
84-85 Rank	Player, College	Games	Min.	GA	Saves	Save Pct.	GA Avg.
1.	Bob Essensa, Michigan State	18	1,061	29	338	.921	1.64

## Block-grant

*Continued from page 1*  
treasurer.

The following timetable for implementation of the plan has been established:

October 1985—Steering committees will discuss further details of block-grant funding at the scheduled Council meeting.

## Legislation

*Continued from page 1*

response to the call for nominations that appeared in the July 17, 1985, issue of The NCAA News.

- All actions of the Presidents Commission in its October 1-2 meeting.

- Reports from the Community and Junior College Relations, Governmental Affairs and High School All-Star Games Committees; the Special Committee on Deregulation and Rules Simplification, and the Special Council Subcommittee on Eligibility Appeals.

- A status report on the Association's compliance programs, including development of materials for the self-study requirement; the external-audit requirement; the affidavit program, and the antigambling program. The expanded program of compliance services to be offered by the national office (outlined elsewhere in this issue) will be reviewed.

In their separate sessions, the steering committees will review all matters on the Council agenda that directly affect their respective divisions.

In addition, the Division I committee will review aspects of the enforcement program, the new academic-reporting requirement and Division I conference reactions to the proposed conference-compliance program. It also will receive a report from the Special Committee on Academic Research and will consider the need to schedule Division I-A and/or I-AA

January 1986—Appointments to the championships committees.

February 1986—Championships committees determine transportation and per-diem policies for 1986-87; announcements will be made to the membership by the end of March.

August 1986—Executive Committee confirms block grants for the

1987-88 championships.

November 1986 to June 1987—Payments made to institutions per policies recommended by championships committees and established by the Executive Committee.

December 1986 - Championships committees determine transportation/per-diem policies for 1987-88; announcement will be made to membership by the end of March.

By December 1987, the committees will have complete information on 1986-87 spending. Any surplus or deficit on 1986-87 championships will be absorbed into the respective divisions' reserves.

Basic Association policies will remain in force for all divisions in order to maintain fundamental NCAA competitive and management philosophies that transcend division lines.

The following guidelines, policies and executive regulations would be maintained for all divisions unless specific approval to deviate from them is obtained:

- Executive Regulation 1-1 regarding the percentages of sponsoring institutions necessary to establish or maintain a championship. (This regulation can be amended only by Convention action.)

- Executive Regulation 1-2 regarding the administration of championships, including the 1:8 and 1:16 participation ratio guidelines for team and individual-team championships, respectively.

- Commercial-sponsorship policies regarding permissible involvement by corporations with championships and related functions.

- Awards policies regarding the number of trophies and individual awards presented for a championship relative to the size of the field.

- Use of the NCAA travel service for championships and committee travel.

The responsibilities of the championships committees include reviewing all sports committee recommendations and determining the

competition format, the degree of transportation and per-diem funding, the location of championships, official travel party sizes, and distribution of net receipts to participating institutions or other expenditures of net receipts.

The administration of host institutions' budgets would continue to be the responsibility of the appropriate sports committee and staff liaison. Certain games expenses from the Divisions II and III championships would be accounted for separately from their block grants and would be guaranteed by the Association, as currently is the practice.

For the 1985-86 championships, transportation expenses will be guaranteed for men's and women's team championships in all divisions (with the exception of the Division III Women's Lacrosse Championship and the Division III Football Championship) and for Division I men's and women's individual/team championships.

## Parity

*Continued from page 10*

has plenty of key performers back.

All-America Norm Maciver (14-47-61) is one the nation's best defensive performers. Offensively, senior Matt Christensen (30-47-77), WCHA freshman of the year Brett Hull (32-28-60) and senior captain Mark Odonokon (13-33-46) are outstanding performers. Hull is the son of former National Hockey League great Bobby Hull.

**Other top teams:** Denver (19-17-3) and Northern Michigan (19-21).

**Other top individuals:** Dallas Gaume, senior, forward, Denver (15-48-63); Gary Emmons, junior, forward, Northern Michigan (25-28-53); Dave Randall, senior, forward, Northern Michigan (12-22-34); Rob Doyle, junior, defense, Colorado College (11-44-55); Marty Wakelyn, senior, goalie, Colorado College (4-40); Dave Reiersen, senior, defense, Michigan Tech (5-27-32).

### Eastern independents

**Top teams:** Merrimack (17-13-3), Connecticut (14-10) and Canisius (15-12-2).

**Top individuals:** Kevin Sykes, sophomore, forward, Canisius (28-26-54); Joe Federico, sophomore, defense, Canisius (4-27-31); Mark Kosinski, senior, forward, Connecticut (13-25-38); Brian Daccord, junior, goalie, Merrimack (3-09); Jim Vesey, sophomore, forward, Merrimack (19-11-30); Joey Iantorno, senior, defense, Merrimack (3-14-17).

### Western independents

**Top teams:** Alaska-Fairbanks (21-12-1), Dayton (13-4-1), Alaska-Anchorage (17-21) and Notre Dame (11-16-1).

**Top individuals:** Brad Corbett, senior, forward, Alaska-Fairbanks (31-41-72); Kevin Quinn, senior, forward, Dayton (15-13-28); Brent Chapman, senior, forward, Notre Dame (36-27-63); Tim Reilly, senior, forward, Notre Dame (22-39-61); Chris LeVasseur, sophomore, forward, Alaska-Anchorage (17-30-47).

# Commission

Continued from page 1

the right principles but did not protect enough the objective of 'Proposal 48': namely, to assure the chances for academic success for students in intercollegiate athletics," he said.

"Therefore, the Commission's proposal is for a much more restricted eligibility index. The Commission's intent is to advance the academic interests of student-athletes, while assuring the integrity of the standards adopted in 1983.

"The Commission emphasizes that it views its recommendation as an adjustment or refinement of the rule," Ryan said. "It enables a Division I institution to determine the initial eligibility of student-athletes with a degree of flexibility available to institutions in the admission of students to all other programs."

In a related proposal, the Commission will sponsor legislation to specify that a student who does not qualify under Bylaw 5-1-(j), and therefore cannot practice or participate in athletics as a freshman, can receive athletically related financial aid from the institution and retain four years of eligibility.

Legislation currently permits a non-qualifier to receive such aid but to forfeit one year of eligibility.

## Other actions

In other Commission action in its fall meeting in Denver, it went on record as favoring continuation of freshman eligibility for college athletics, noting that there is no national evidence to support all freshmen being declared ineligible.

A recent survey of the chief executive officers of all NCAA Division I institutions resulted in more than 75 percent disagreeing with the sugges-

tion that freshmen should be ineligible, whether in all sports or in certain sports (September 23, 1985, issue of the News).

## Division I-A

The Division I-A members of the Commission met separately in Denver October 1 and agreed to inform all Division I-A chief executive officers that it is the intention of the Division I-A Commission group to serve as a planning or steering committee for Division I-A interests, as agreed by those attending a meeting of Division I-A CEOs in New Orleans in June.

The 12 Commission members from I-A will have their own chair (currently Otis A. Singletary, University of Kentucky) and will conduct at least three meetings a year, each in conjunction with a meeting of the Commission.

All Division I-A CEOs will be invited to submit topics for consideration by the group, and meetings of all Division I-A chief executives will be scheduled at NCAA Conventions as appropriate.

All of these plans will be transmitted to Division I-A chief executives in a document currently being prepared. Accompanying it will be a summary of the legislative authority currently available to Division I-A in the NCAA structure. That information will be reported in The NCAA News when it is mailed to Division I-A CEOs.

## Legislation

The Commission agreed to cosponsor with the NCAA Council three legislative proposals for action at the January 1986 Convention:

- An amendment to move from the constitution to the bylaws the Association's limitations on the

amount of financial aid a student-athlete may receive, retaining a higher maximum limitation in the constitution but permitting each division in the future to adopt its own lesser limitation.

- A proposal to affirm that student-athletes are responsible for their involvement in violations of NCAA regulations and should be restored to eligibility by the Eligibility Committee only when circumstances clearly warrant and only with an explanation by the Eligibility Committee of the basis for restoration. That proposal is in response to a resolution in that regard adopted at the special Convention in June.

- An amendment to permit an institution's intercollegiate basketball team to participate in any one year in not more than one of the opportunities for competition (including a foreign tour) that do not count toward the maximum number of contests in that sport. That legislation also is in response to a special Convention resolution.

## Enforcement

The Commission agreed with the Committee on Infractions that legislative proposals should not be formulated or adopted at this time to effect the various elements of a resolution regarding enforcement procedures that was presented at the special Convention by the University of Texas, Austin, and other institutions. The resolution was referred by the Convention to the Commission and the Council.

Instead, the Commission agreed that the Committee on Infractions should be authorized over the next

year to study the current enforcement procedures and to implement, on an experimental basis, policy changes that appear desirable to process infractions cases under the new, more stringent NCAA penalty structure.

If such changes prove desirable and necessary during that year, legislation to implement them as permanent procedures would be proposed at the 1987 Convention.

The Commission voted to cosponsor with the Council a resolution providing such authority to the Committee on Infractions, if such a resolution is necessary.

## 1986 topics

The Commission placed a number of topics on the agendas for its 1986 meetings, with most being assigned to the April 1986 agenda. It also authorized the Commission's elected officers to serve as a "committee of reference" to review all topics suggested from any source for Commission consideration.

Among the items assigned to 1986 agendas were these:

- Possible reporting and/or control of coaches' outside compensation.

## Maryland's

Continued from page 1

"He is acknowledged by his peers for excellent academic leadership, as well as devotion to athletics programs of the highest integrity. The Commission already has benefited from his experience and keen judgment," he said.

A native of Kansas, Slaughter attended Washburn University in that state and earned his bachelor's degree in electrical engineering at Kansas State University. He completed a master's in engineering at the University of California, Los Angeles, and a Ph.D. in engineering at the University of California, San Diego.

Prior to being named director of the National Science Foundation, he was academic vice-president and provost at Washington State University; assistant director of astronomical,

atmospheric, earth and ocean sciences at the National Science Foundation; director of the applied physics laboratory and professor of electrical engineering at the University of Washington, and physical science administrator and head of the information systems technology department with the Naval Electronics Laboratory Center in San Diego.

The terms of the Commission's other three officers—Otis A. Singletary, University of Kentucky, Division I chair; Barbara J. Seelye, Keene State College, Division II chair, and Kenneth J. Weller, Central College (Iowa), Division III chair—also end upon adjournment of the NCAA Convention in January. Their successors in those positions will be nominated and elected by mail in the next few weeks by the members of their respective divisions on the Commission.

- Financial aid issues, including increasing the amount of a permissible grant-in-aid, reductions in the numbers of permissible grants in certain sports, aid based on need and other factors.

- The role of governing boards in athletics matters.

- Peer-review visitations and/or accreditation as an extension of the new institutional self-study requirement.

- Concerns regarding declining opportunities for women in athletics administration and coaching.

- Improved means of communication between the Commission and all other chief executive officers.

- All items in the earlier survey of CEOs that received majority support but have not yet been acted upon by the Commission.

Thirty-six of the 44 Commission members were in attendance at the Denver meeting. The Commission next meets January 12, 1986, in conjunction with the 80th annual NCAA Convention in New Orleans. Its April 1986 meeting will be held April 2-3 at a site to be determined.

## Legislative Assistance

1985 Column No. 35

### Institutional promotional items

The use of a student-athlete's name or picture by a member institution for promotional activities incidental to the student-athlete's participation in intercollegiate athletics competition must comply with the provisions of NCAA Constitution 3-1-(e) and Case No. 43 (page 268, 1985-86 NCAA Manual). In this regard, no commercial company or service may be associated (other than through the reproduction of the sponsoring company's regular trademark or logo on the item) with the sale or distribution of the institutional publication (e.g., picture, poster or calendar).

Accordingly, there shall be no indication in the makeup or wording of the institutional promotional item that the institution's squad members, individually or collectively, or the institution itself endorse the product or service of the sponsoring company. For example, if the sponsoring company is a manufacturer of athletics equipment or apparel, it would not be permissible for the manufacturer's product to be pictured in the institutional promotional item.

### Eligibility for practice and competition

Under the provisions of Constitution 3-3-(a)-(3) and 3-3-(b) and Bylaw 5-1-(c), a student shall not be eligible to participate in organized practice sessions or to represent an institution in intercollegiate athletics competition unless the student-athlete is enrolled in at least a minimum full-time program of studies as determined by the regulations of the certifying institution, which, in any event, shall not be less than 12 semester hours or 12 quarter hours, or its equivalent as determined by the NCAA Eligibility Committee.

Accordingly, a student-athlete who enrolls as a full-time student at the beginning of a semester or quarter but who drops below a full-time program of studies at any point during that term is no longer eligible to practice or compete after that point until he or she resumes a full-time academic program.

The requirement that a student-athlete be enrolled in a minimum full-time program of studies for practice and intercollegiate competition may be waived for a student-athlete who has athletics eligibility remaining, if the student-athlete is enrolled in the final semester or quarter of the baccalaureate program and the institution certifies that the student-athlete is carrying for credit the courses necessary to complete the degree requirements as determined by the faculty of the institution. As noted in Bylaw 5-1-(c)-(2), this waiver provision shall be administered by the conference members of the Association or, in the case of an independent member institution, by the NCAA Eligibility Committee.

### Basketball evaluation calendar

Under the provisions of Bylaw 1-3, the involvement of institutional staff members or representatives of athletics interests of Divisions I and II member institutions in all off-campus scouting activities designed to evaluate the academic standing and playing ability of prospective student-athletes in basketball shall be restricted to the permissible periods for off-campus, in-person recruiting contacts in that sport and the additional periods intended for scouting only (i.e., the period between June 15 and August 1 and the period between the prospective student-athlete's initial and final high school or junior college contests).

A prospective student-athlete's initial high school or junior college contest shall be the first such contest that appears on the high school's or junior college's official regular-season basketball schedule as approved by the appropriate state high school or junior college authority. Accordingly, a coach or athletics representative could not evaluate a prospective student-athlete during preseason practice, a scrimmage or an exhibition game.

Nenah E. Fry

## Nenah Fry named to Commission

Nenah E. Fry, president of Sweet Briar College, has been named to a Division III position on the NCAA Presidents Commission.

Fry replaces Virginia Lester, who resigned as president of Mary Baldwin College to enroll in law school. Fry will attend her first Commission meeting in January and will be eligible to serve a full four-year term on the Commission.

She became president of the Sweet Briar, Virginia, college in October 1983 after serving as dean of the college and professor of history at Wells College in Aurora, New York. She also has been a member of the faculties at Wilson College (Pennsylvania), Lawrence College (Wisconsin) and the University of Delaware.

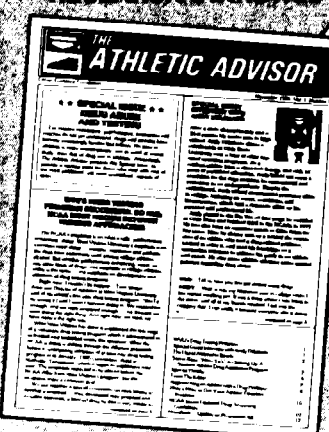

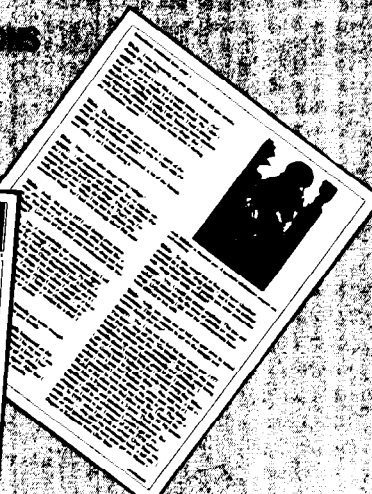

Fry received her bachelor's degree from Lawrence College and her master's and doctorate in history from Yale University. Her field of specialization is the French Third Republic.

Lester was a charter member of the Presidents Commission and served as vice-chair of the Division III subcommittee. She has been replaced as vice-chair by Paul Hardin, Drew University.

# Football injuries down, but knee and ankle problems remain

Data from the third year of the NCAA's injury-surveillance system indicate that injuries were down in 1984-85 in football, women's gymnastics and men's lacrosse, and that the knee and ankle continue to be the most frequently injured parts of the body.

The injury-surveillance system was developed in 1982 to provide current and reliable data on injury trends in intercollegiate athletics. In 1982, information was collected only in football; in 1983, the program was expanded to include women's volleyball, wrestling, women's gymnastics, baseball, and men's and women's lacrosse.

The goal of the NCAA Committee on Competitive Safeguards and Medical Aspects of Sports through the injury-surveillance system is to reduce injury rates through suggested changes in rules, protective equipment or coaching techniques.

Using a 10 percent sample of the NCAA membership in all three divisions in each of the seven sports, reports from athletics trainers were compiled. The weekly forms indicated the numbers of practices and contests,

types of playing surface, number of participants, and the number of injuries that kept players from participating for one day or more.

The injury rate in football dropped from 7.33 for each 1,000 athletes exposed to 7.22. During the first three years of the program, the injury rate is 7.23 based on 8,759 reported injuries and 1,211,110 athletes exposed.

Injury rates in football games were 9.21 percent higher than in practices (38.6 injuries per 1,000 athletes exposed during games). As is the case in most of the sports, the most commonly injured part of the body for football players was the knee, although the most common injury was ankle sprains.

Although the linebacker position had the most reported injuries, the offensive tailback position had the highest injury rate for any one-player position.

Information compiled in 1984 continued to indicate that football injuries occur more frequently on artificial-surface fields than on grass fields. The injury rate for artificial surfaces was 10.51, compared to 6.49 on grass. The

knee injury rate was 1.48 percent higher on artificial surfaces than on grass.

Although data indicate that the injury rate in wrestling, women's gymnastics and men's lacrosse is higher than in football, women's volleyball is the only sport besides football for which information was collected from a full sample and can be considered reasonably representative.

Following are the most frequently injured parts of the body in the six other sports: women's volleyball (ankles, knees), wrestling (knees, ankles), women's gymnastics (ankles, knees), baseball (knees, hamstring muscles), men's lacrosse (upper legs, knees) and

## Goal is to boost volleyball status

The Eastern Intercollegiate Volleyball Association (EIVA) currently is compiling a national directory of men's collegiate volleyball club teams as a means to eventually increase men's volleyball interest in NCAA competition.

"We want to establish where the club teams are playing nationally," said Bob Sweeney, EIVA president and volleyball coach at East Stroudsburg University of Pennsylvania. "From that information, we hope to learn the local process these schools have to go through to obtain NCAA varsity status. After that, the next step would be to elevate as many as possible to the varsity level."

A survey/descriptive research project will be conducted to identify the problems club teams face in moving to the varsity level.

"We feel this project will show people that there is an awful lot of men's volleyball being played. After all, volleyball really is an inexpensive sport," Sweeney said. "We have club teams playing in the Eastern league for \$1,000 a year. You can play a very competitive men's volleyball schedule for a small budget."

"In addition, we're hoping to show high schools that there are places for their players to continue the sport. Currently, volleyball is not presented to boys in the same light as it is to high school girls."

For more information, contact Bob Sweeney, EIVA President, Volleyball Office, East Stroudsburg University, East Stroudsburg, Pennsylvania 18301; 717/424-3307 (school), 717/424-1754 (home).

### Injury and surgical rate for seven sports

Sport	Total Injury Rate	Surgery Injury Rate
Wrestling	10.36	0.68
Men's Lacrosse	7.96	0.57
Women's Gymnastics	7.94	0.79
Football	7.22	0.46
Women's Volleyball	5.47	0.26
Baseball	4.06	0.18
Women's Lacrosse	3.73	0.26

Rates are per 1,000 athletes exposed

### Total knee-injury rates (Per 1,000 athlete exposures) by game vs. practice and type of surface

Natural Surface				
	1982	1983	1984	3-Year Avg.
Game	6.37	6.70	6.70	6.59
Practice	0.73	0.78	0.90	0.80
Artificial Surface				
Game	10.62	8.69	10.03	9.78
Practice	1.01	1.01	0.93	0.98

women's lacrosse (hamstring muscles, head concussions).

Now that the system has been in effect for three years, the competitive safeguards committee believes that some conclusions can be made, although it believes that it may take two or three more years for specific patterns to be discovered.

The committee believes that all brands of football helmets now are equivalent in their ability to protect the head from concussions. Although the high rate of concussions in women's lacrosse will be a topic of discussion, the committee believes it needs a more representative sample of partic-

ipants.

In football, it was discovered that the first quarter of games had the lowest rate of injuries and the third quarter had the highest rate. The committee believes that coaches could reduce the number of third-quarter injuries by ensuring that players have an opportunity to warm up and stretch effectively after half time.

Another concern of the committee is the high rate of injuries requiring surgery in women's gymnastics; however, improvement in collection of data in the sports other than football and women's volleyball may shed a different light on that subject.

## Ursula Walsh selected as NCAA research director

Ursula R. Walsh, coordinator of academic counseling for the athletics department at the University of Nebraska, Lincoln, for the past 13 years, has been named NCAA research director.

She will direct general and sports-medicine research activities of the Association, including the athletics injury-surveillance system and academic research. Walsh also will direct the Association's drug-education program and any drug-testing policy that might be established by the NCAA after the 1986 Convention.

Walsh has been at Nebraska since 1972 and currently is an assistant professor in the computer science department and an adjunct professor in the department of educational psychology. She also serves as an instructor in the school of accountancy and as an assistant professor in the college of dentistry at Nebraska.

She received her B.A. at Rosary College in Illinois and an M.A. from the College of St. Thomas (Minnesota). She was awarded a master's in education from the University of Min-

Ursula R. Walsh

nesota, Twin Cities, and earned a Ph.D. in measurement and statistics at the University of Nebraska.

Walsh has wide experience as a consultant to business and education groups.

## Two interpretations approved concerning televised football

The NCAA Administrative Committee has approved two interpretations recommended by the Football Television Committee concerning assessments against member institutions.

It has been determined that any institution that does not have permanent lighting at its stadium may deduct the cost of temporary lighting before it calculates the four percent assessment due the Association. Institutions that have permanent lighting may not deduct lighting expenses.

A second interpretation states that "if television rights to a game are sold by an institution or conference to a regional syndicator and the rights subsequently are granted to a carrier with transmission capabilities that permit the game to qualify for an assessment as a national presentation, only those revenues the institution or conference receives for the national distribution are assessable."

The interpretation further states that: "The institution shall have the responsibility of separating the original and subsequent rights fees. If an institution cannot separate revenues,

it must pay a four-percent assessment on total revenue received."

However, if an institution sells its rights fees to a national distributor and those rights eventually are syndicated on a regional basis by the carrier, then the total revenues are assessable "since those rights fees originally were sold to attract national distribution."

John D. Swofford, chair of the Football Television Committee, reported that the Association has received \$1,070,592.62 in assessments from 1984 football telecasts. Some members have not yet paid their assessments for that year.

A second mailing will be made to those members, according to Louis J. Spry, Association controller, and an explanation of the Administrative Committee's final interpretation by the television committee will be included with a request for payment of any assessments due.

The question concerning lighting costs was raised by the Big Eight Conference. Syracuse University had asked for an interpretation concerning television-rights assessments.

## New

Continued from page 1

sistance. An institution's chief executive, or the CEO's representative, could ask for assistance in determining how to deal with a specific problem or problems such as control of booster groups and alumni, exercise of institutional control over outside funds, certification of eligibility, monitoring of academic requirements,

monitoring of recruiting, and educating coaches regarding rules compliance.

- Campus visitation at the request of a member institution to assist in analyzing the structure and administration of its athletics programs and its compliance with NCAA legislation. This program will include the development of a support group of qualified professionals in higher education to provide assistance to the institution, with those professionals likely to include current and former athletics administrators and faculty athletics representatives.

- Active efforts with officials of member conferences to assist their institutions in rules compliance. This program is intended to support the mandatory conference compliance program that is being considered as proposed legislation by the Council and Division I Steering Committee for Division I conferences that wish to be eligible for automatic qualification to NCAA championships. The compliance staff also will attempt to provide this service to all member conferences that have full-time administrators.

All of these compliance programs will be supplemented by an annual series of rules clinics for member institutions, which will be conducted by the legislative services department.

NCAA Executive Director Walter Byers cited as a primary reason for the new NCAA compliance services the desire of chief executive officers to assure integrity in their institutions' athletics programs.

"The chief executive officers, through the NCAA Presidents Commission and by action on the Convention floor, have made it perfectly clear that they want their intercollegiate athletics programs operated with integrity and without corruption, particularly as it affects the young people who participate in those programs," he said.

"The leaders of higher education have indicated that they want severe penalties imposed upon major violators, particularly repeat violators. At the same time, it is essential that the NCAA provide support services to the management of member institutions to facilitate the chief executive officers' efforts at the campus level to achieve and maintain compliance."

"The NCAA Executive Committee and the Council are in firm support of the compliance program as a helpful and effective tool in elevating the compliance level in intercollegiate athletics," Byers said.

President Davis also reported to the Presidents Commission and the Council that Morgan, as head of the compliance and enforcement depart-

ment, will be "a visible advocate in behalf of compliance with NCAA regulations and the necessity of maintaining institutional control of athletics programs."

Additional information regarding the availability of the compliance services will be announced in The NCAA News as procedures are developed.

## Committee Notices

### COMMITTEE CHANGES

**Women's Gymnastics:** Sarah Patterson, University of Alabama, appointed to replace Jean Johnson, University of Illinois, Chicago, resigned from the committee.

**Men's Lacrosse:** David R. Gavitt, Big East Conference, appointed to replace John Hantz, retired from Clarkson University.

**Men's Soccer:** James A. Byers, University of Evansville, appointed to replace Laurence C. Keating Jr., formerly at Adelphi University, now at Seton Hall University. The committee already has a representative from the Middle Atlantic region.

**Women's Soccer:** Susan A. Carberry, California State University, Dominguez Hills, appointed to replace Peter Reynaud, formerly at Sonoma State University (Division II), now at the University of California, Berkeley (Division I).

**Women's Swimming:** Joan P. Hopkins, University of Northern Michigan, appointed to replace Mary Ellen Olcese, resigned from Springfield College (Division II) to accept a position at Eastern Michigan University (Division I).

**Women's Committee on Committees:** Sheila Brewer, Macalester College, appointed to replace Janet Winton, resigned from Case Western Reserve University.

**Voting:** Harold Godwin, University of Idaho, appointed as the District 7 representative replacing Dan Fitzgerald, Gonzaga University, declined.

**Special NCAA Self-Study Advisory Committee:** Francis W. Bonner, Furman University; Rocco J. Carzo, Tufts University; Christine H.B. Grant, University of Iowa; John J. Crouthamel, Syracuse University; Thomas J. Frericks, University of Dayton, chair; Douglas S. Hobbs, University of California, Los Angeles; James Sefton, California State University, Northridge.

John H. Leavens

# NCAA Record

## DIRECTORS OF ATHLETICS

**FRANK McLAUGHLIN**, Harvard basketball coach for the past eight years, named at Fordham, his alma mater. McLaughlin, who compiled a 99-110 record at Harvard, spent a year at Holy Cross, a year at Fordham and six years at Notre Dame as an assistant coach before moving to Harvard. **GAVIN WHITE JR.**, Temple AD since 1982, announced his resignation, effective at the end of the year. White has served as an athletics administrator, faculty member and coach at Temple, his alma mater, since 1956. Before being named AD, White served 19 years as men's associate AD. A former Temple football star, White was inducted into the university's sports hall of fame in 1980. **RICH GLAS**, Willamette AD and men's basketball coach, resigned, effectively immediately, to accept an associate basketball coaching position at Hawaii-Manoa. Glas had served as AD since 1982 and men's basketball coach since 1979, compiling a 66-64 record.

## ASSOCIATE DIRECTORS OF ATHLETICS

**LOUISE O'NEAL** appointed senior associate AD at Dartmouth, where she has served as associate AD in charge of intercollegiate programs since 1982. Before being named assistant AD at Dartmouth in 1979, O'Neal served as assistant AD and women's basketball coach at Yale for three years after serving 14 years as women's basketball coach at Southern Connecticut, where she compiled a 144-37 record. **RAY WHITEMAN**, Dartmouth associate AD for the past three years, selected at Citadel. Whiteman previously has served as Cincinnati ticket manager, Butler sports information and promotions director, and Toledo assistant AD. He will assist in the overall management and marketing of Citadel's 10 intercollegiate sports programs, with an emphasis on budget management. **STEPHEN DiTOLLA**, Colorado athletics department accountant and director of promotions and marketing for the past 5½ years, named associate AD in charge of business affairs at Cal State Fullerton, effective October 1. DiTolla served as assistant ticket manager for the Denver Nuggets of the National Basketball Association before assuming his post at Colorado. **GAIL F. MALONEY** appointed associate AD for men and women at Buffalo State. Maloney had served as Buffalo State's associate AD for women for the past seven years.

## ASSISTANT DIRECTORS OF ATHLETICS

**EMILY HARSH**, **BOB STEITZ** and **LARRY BALDWIN** selected at Florida International. Since 1969, Harsh has served as the only women's AD in Vanderbilt history. She has served as the Southeastern Conference women's basketball commissioner, women's athletics council treasurer, a member of the site

Mary Ellen Olcese named women's swimming diving coach at Eastern Michigan

Louise O'Neal appointed senior associate athletics director at Dartmouth

and selection committee for basketball, and as a member of the transaction committee. Steitz, Fordham assistant AD since 1982, was a member of the basketball competition staff for the 1984 summer Olympics, responsible for coordinating practice sites and managing all phases of the U.S. team's off-court schedule. Steitz also served at the 1984 men's Olympic basketball trials, was a team assistant for the 1983 National Invitational Tournament all-star basketball team and was a member of the

Regina, where he also will serve as men's basketball coach. Dukeshire founded and became commissioner of the Commonwealth Coast Conference, an eight-member league that includes Salve Regina, in 1984. Dukeshire succeeds Christopher Kiernan, the school's vice-president and acting academic dean. **BOBBY DWYER** selected at William and Mary (see men's basketball).

## COACHES

**Baseball** **MIKE SIMPSON**, former Cali-

Emory selected John Curim as men's and women's track and field and cross country coach

Robert Steitz named assistant director of athletics at Florida International

Amateur Basketball Association of the United States of America support staff during the 1983 National Sports Festival. Baldwin previously served as an assistant AD at DePaul before being appointed Eastern College Athletic Conference South director of marketing. Harsh and Steitz will be involved with the day-to-day operations of Florida International's athletics programs while Baldwin will be responsible for the athletics program's promotions and marketing. **RICHARD BIHR** named at Buffalo State, where he will continue to serve as men's basketball coach. **RICHARD "DUKE" DUKESHIRE** chosen at Salve

toria-Santa Barbara coach and scout for the New York Yankees, appointed at San Francisco State.

**Baseball assistant** **RICH COLEMAN**, former Bergan (Illinois) High School baseball coach, selected as a graduate assistant at South Alabama.

**Men's basketball** **BILL FENLON** named at Sewanee (University of the South), where he has served as an assistant for the past two years. Fenlon succeeds **BOBBY DWYER**, who resigned after compiling a 26-24 record in two years. **PETER P. ROBY** appointed at Harvard, where he has served as an assistant for the past three seasons. Roby succeeds **FRANK McLAUGHLIN** (see directors of athletics).

**Men's basketball assistants** **JERRY ZYKAN**, Missouri-St. Louis assistant for the past five years, selected at St. Louis, succeeding **GREGG FINGERHUT**, who resigned to pursue private business opportunities. **GREG GRAHAM**, Western New Mexico coach for the past year, named at San Jose State. Graham previously served as an assistant at New Mexico and Oregon. He succeeds **GEORGE LIBBON**, who accepted a similar position at Portland. **BOB BATTISTI**, **DAN KOSMOSKI** and **MIKE DORRIGAN** appointed part-time, graduate assistant and volunteer coaches, respectively, at Minnesota. **JAMES YEAKEL**, Wabash Valley College coach, selected at Western Illinois. Yeakel guided Wabash Valley to its fifth consecutive Section 4 junior college championship last season, compiling a 24-11 record. **GEORGE "SKIP" PROSSER**, a high school coach in Wheeling, West Virginia, since 1972, named at Xavier (Ohio). Prosser was coach at Linsly High School for two years and later led Central Catholic High School to a state championship. Prosser's Central Catholic teams posted a 104-48 record from 1979 through last season, when the school lost in the state finals. **MIKE JEFFERS**, Middle Tennessee assistant for the past year, resigned to become Brewton-Parker Junior College athletics director and head basketball coach. **REVIN FELLOWS** appointed at Aurora, his alma mater. **DAN JONES**, Hopewell Valley (New Jersey) Regional High School junior varsity coach for the past two years, selected as graduate assistant at Alfred.

**KEVIN FRANKLIN**, a former member of the public relations department of the Washington Bullets of the National Basketball Association, and **MARVIN SAFFORD**, a former all-Pacific 10 guard at Southern California in the early 1970s and most recently a high school coach in the San Francisco area, named at San Francisco State. **USAICHI ISHIMURA**, current head basketball coach of Kanazawa (Japan) University, appointed volunteer assistant at Canisius. Ishimura, also a professor of sports psychology at Kanazawa, was granted a one-year sabbatical to serve as volunteer coach and conduct research.

**Women's basketball** **LESTER FOSTER** selected at Aurora, where he has served as an assistant men's coach for the past five years. **CINDY GUTHALS**, former girls basketball coach at Los Angeles Lutheran High School, appointed at Metropolitan State. **MIKE PETERSEN**, former Oregon assistant, chosen at Gonzaga.

**Women's basketball assistants** **NORM DUTOT**, Bismarck (North Dakota) Century High School coach for the past eight seasons, selected

at North Dakota. Dutot, the 1981 North Dakota high school girls basketball coach of the year, guided Bismarck Century to six state tournament appearances and compiled a 204-90 record. **DAVE LIPP**, Northwest Christian College men's coach for the past five seasons, named at Oregon, succeeding **MIKE PETERSEN** (see women's basketball). Lipp guided Northwest Christian to the last three National Bible College Athletic Association basketball championship titles and compiled a 100-37 record.

**Men's and women's cross country** **BOB SHOUDT**, Villanova women's track and cross country coach since 1981, appointed at Ursinus, where he served as men's cross country coach from 1976 to 1981 and won 54 of 60 dual meets. Shoudt won six Big East Conference coach of the year titles while at Villanova. Shoudt succeeds **DAVE SYMONDS**, who resigned.

**Football assistants** **DAVID McLAUGHLIN** and **PATRICK BATTISTINI** selected as graduate assistants at Grand Valley State.

**Men's gymnastics** **KEITH MILES AVERY** named at East Stroudsburg, where he served as an assistant in 1983 and 1984, on an interim basis. Avery replaces **BRUNO KLAUS**, East Stroudsburg coach since 1969 who is taking a sabbatical leave but will return as coach next season. Avery served the past year as an assistant at Temple, where as a competitor he finished a runner-up in the all-around competition in the Eastern Intercollegiate Gymnastics League in 1981 and qualified for the NCAA Division I championships.

**Women's gymnastics assistant** **DONNIE WATKINS** appointed at Missouri on an interim basis, replacing Mike Foster. Watkins is a former assistant at Southern Illinois.

**Men's and women's rifle** **FRED CORTE**, a former National Rifle Association certified pistol, rifle, shotgun, hunter safety, home firearms responsibility and police firearms instructor, selected at St. Francis (Pennsylvania).

**Women's soccer** **SID GOODRICH**, North Tawanda (New York) High School boys' soccer team coach, named at Buffalo State, his alma mater, where he earned all-America soccer honors. **SUE RYAN**, a member of Cortland State's 1980 national championship soccer team, appointed at Stony Brook.

**Women's softball** **TERESA WILSON**, Missouri assistant last season, selected at Oregon. Wilson, a 1984 Missouri graduate, holds all of her alma mater's pitching records and was named all-Big Eight Conference in 1980 and 1982 and to the all-regional team in 1981 and 1983. In her senior year, Wilson was chosen as player of the year before being named to several all-America teams en route to leading Missouri to the Big Eight Conference championship.

**Men's and women's swimming and diving** **KEVIN M. BEICHLER**, former coach for various age-group teams at local YMCAs for the past two years, named at St. Francis (Pennsylvania).

**Women's swimming and diving** **MARY ELLEN OLCESE**, Springfield women's coach since 1981, appointed at Eastern Michigan, succeeding **BARB JOHNSON**, who resigned. Olcese earned all-America honors as a butterfly, backstroke and individual medley performer at Pennsylvania before graduating in 1973. She was named Pennsylvania's most valuable swimmer and team captain in 1972 and 1973. Olcese, a former member of the NCAA Women's Swimming Committee, began her coaching career at Northeastern in 1978 before being appointed at Springfield. **JOHN HAYMAN**, former Southern Illinois assistant and most recently swimming and diving coach at the high school level, selected at Gannon. Hayman was a four-year letter winner and set seven records before graduating from West Chester in 1981. **WENDY RAWE**, a recent graduate of Wittenberg, named at Buffalo State.

**Men's and women's track and field and cross country** **JOHN CURTIN**, former Simpson coach, appointed at Emory. In seven years at Simpson, Curtin produced four NCAA Division III national champions and 23 all-Americans. **MICHAEL ALBRIGHT** selected at Metropolitan State.

**Men's and women's track and field assistant** **SCOTT BENNETT**, former Wisconsin assistant men's cross country and track and field coach, named as field events coach at Kansas State.

**Women's volleyball** **KAREN RUDER**, who led Cortland State to two state championships, appointed at Dubuque. **SUE WILKERSON**, who compiled a 212-48 record in 11 years as Fort Wayne (Indiana) High School coach, selected at Franklin and Marshall. **JAY HOROWITZ** named at Buffalo State.

**Wrestling** **DANNY KIDA** appointed at San Jose State, where he was a member of the 1973 and 1974 teams that won the Pacific Coast Athletic Association team titles and placed in the top 25 in team standings each year at the NCAA Division I Wrestling Championships. Kida, who compiled a 60-7-3 record, captured two individual conference titles and placed fifth in the 1973 and fourth in the 1974 NCAA championships as an 118-pounder, and was the first San Jose State wrestler to earn all-America honors. **ARVID CULLENBERG**, a two-time Northern New England champion at Maine before graduating in 1983, selected at Plymouth State. Cullenberg, who served last year as Winnisquam (New Hampshire) Re-

gional High School coach, compiled a 55-17-1 record at Maine.

**Wrestling assistant** **GARY SORACE**, Twinsburg (Ohio) Chamberlain High School coach for the past five years, named at John Carroll. Sorace holds Cleveland State records for dual meet victories in a season (16) and career (48).

## STAFF

**Sports information directors** **CHRIS DENARI** appointed at Indiana Central as the school's first full-time SID. **JIM BOWERS**, former Central Missouri State assistant, selected at Millikin. **ROGER CRIMMINS**, Dubuque SID since 1982, selected at Worcester Polytechnic. **ANDY GLANTZMAN**, Detroit graduate assistant and full-time assistant since 1978, named at Oakland. **KEVIN KEYS**, Liberty SID for eight years, appointed at West Virginia. **JOHN W. MOLLOY JR.**, Quinnipiac SID for nearly two years, selected at Brandeis. **HOWARD A. MEYERS** selected at Buffalo State, where he served as the school's first SID from 1964 to 1978. **TIM CLINE**, former sports editor of the Observer-News-Enterprise in Newton, North Carolina, named at Salisbury State.

**Assistant sports information directors** **BOB NOSS**, former graduate assistant in Southern Illinois' women's sports information department, appointed at Central Missouri. **STEVE BLAKE**, Salisbury State assistant for the past year, selected at Virginia. **LORIN PULLMAN**, Princeton assistant for the past year, named at California-Santa Barbara. **TAMMY BROZ** appointed at Stephen F. Austin State, where she graduated last December. **SHAWN M. AHEARN**, Clarion student assistant for four years, selected as graduate assistant at Southern Illinois-Edwardsville.

**Athletics trainers** **JONI M. GRAY**, former Old Dominion graduate assistant trainer, named at Rutgers-Newark. **SANDRA HOLANDER** appointed women's trainer at Buffalo State.

## DEATHS

**MALCOLM PITT**, former Richmond football, baseball and basketball coach and athletics director, died September 16. He was 89. Pitt, who is a member of the Helms Athletic Hall of Fame, quarterbacked Richmond's football team in 1916 and later returned to the school to serve in various capacities in the athletics department. He was Richmond's baseball coach for 37 years, and his team compiled a 426-257 record while winning two Southern Conference titles and sharing two others. Pitt's 1935 Richmond basketball team posted a 20-0 record. He became the athletics director in 1946 and retired in 1972. **ART STEPHENSON**, who established the current Rhode Island basketball records for game, season and career rebounds, died September 6. He was 39.

## CORRECTION

The listing of NCAA championships dates and sites that appeared on page three of the September 23 issue of The NCAA News incorrectly listed the dates for the Division II wrestling regionals. The correct dates for the regionals are February 22 and 23.

## POLLS

### Division III Men's Cross Country

The top 15 NCAA Division III men's cross country teams as selected by the NCAA Division III Cross Country Coaches Association, with points:

1. St. Thomas (Minnesota), 140; 2. Wisconsin, 122; 3. North Central, 115; 4. RIT, 93; 5. Wheaton (Illinois), 83; 6. Wisconsin-Stevens Point, 63; 7. Luther, 47; 8. Bates, 31; 9. Glassboro State, 22; 10. MIT, 14; 11. Brandeis, 9; 12. Southeastern Massachusetts, 7; 13. St. Lawrence, 6; 14. St. John's (New York), 3; 15. Emory, 2.

### Division I-AA Football

The top 20 NCAA Division I-AA football teams through games of September 28, with records in parentheses and points:

1. Richmond (4-0) ..... 79
2. Grambling State (3-0) ..... 75
3. Marshall (5-0) ..... 73
4. Middle Tennessee State (4-0) ..... 66
5. William and Mary (3-1) ..... 65
6. Idaho (3-1) ..... 57
7. Murray State (3-0-1) ..... 53
8. Illinois State (3-0-1) ..... 51
9. Mississippi Valley (4-0) ..... 51
10. Furman (3-1) ..... 45
11. Nevada-Reno (3-1) ..... 39
12. Louisiana Tech (3-1) ..... 31
13. Western Carolina (3-1) ..... 31
14. Northern Iowa (3-1) ..... 30
15. Lamar (3-1) ..... 19
16. Harvard (2-0) ..... 14
17. Delaware State (4-1) ..... 13
18. Southwest Missouri State (3-1-1) ..... 11
19. Eastern Kentucky (2-1) ..... 9
20. North Texas State (2-2) ..... 8

### Division II Football

The top 20 NCAA Division II football teams through games of September 28, with records in parentheses and points:

1. South Dakota (4-0) ..... 80
2. Towson State (4-0) ..... 76
3. Fort Valley State (3-0) ..... 71
4. Central (Ohio) (3-0) ..... 67
5. Norfolk State (3-1) ..... 64
6. Cal State Hayward (3-0) ..... 49
7. California-Davis (1-1) ..... 48

See Record, page 15

## Fiesta Bowl signs agreement with Sunkist for sponsorship

The Fiesta Bowl, seeking parity in payouts to participating teams in its annual New Year's Day football game, has signed a five-year, multimillion-dollar agreement for corporate sponsorship with Sunkist Growers. The game now will be called the Sunkist Fiesta Bowl. Payouts for the 1986 game will increase to \$1.1 million per team, a boost of about 25 percent over last January. Officials of the Senior Bowl, the college all-star football game in Mobile, Alabama, are seeking corporate sponsors for the first time in the bowl's 37-year history, the Associated Press reports. The bowl's general manager, Eric Tillman, said costs have risen faster than revenues from ticket sales and broadcast rights. The 1986 game is scheduled January 18. The University of North Carolina, Chapel Hill, basketball team probably won't be playing its season opener in a new arena this season, and the facility might not be ready until next year. The 21,426-seat arena, which would be the largest in the Atlantic Coast Conference, is part of a complex that includes a natatorium.

## Briefly in the News

The scheduled opening may be held next year because of construction delays. Former Ohio State University head football coach Woody Hayes is hospitalized in Columbus after suffering a mild heart attack. He was hospitalized September 29 and was expected to remain there for at least a week.

The Missouri Valley Conference has decided to go to a single site for its postseason basketball tournament and has selected the University of Tulsa as the host for the March 3-5, 1986, tournament. Metropolitan State College varsity men's and women's swimming teams and coach John Bockstahler are offering lessons to youngsters four to 15 on Saturdays from September 28 to November 16. A small fee is charged for the eight weekly lessons, which are taught by certified safety instructors. Greg Lockard, men's and women's swimming and diving coach at Montclair State College, has been named president-elect of the College Swimming Coaches Association of America. He will serve a two-year term, beginning in the fall of 1987. The Mid-Eastern Athletic Conference is producing a half-hour weekly television program, highlighting the conference's athletics activities but also focusing on college sports in general, particularly at black institutions. Commissioner Kenneth A. Free and news director Larry Barber are regulars on the show. The studio crew is composed of student volunteers from North Carolina A&T State University.

Athletics directors at six New England colleges have announced the formation of the Little East Conference, which will begin competition in men's and women's basketball during the 1986-87 season. Charter members are Eastern Connecticut State University; the University of Massachusetts, Boston; Plymouth State College; Rhode Island College; Southeastern Massachusetts University, and the University of Southern Maine. The conference also will consider championships in other sports.

# Record

**Softball Tournament.** Opening for 8 team tournaments at University of Hawaii Manoa, March 27-30, 1986. Contact: Cindy Mazda, 808/948-7347.

**Football.** Northern Iowa University is looking for a home game September 20, 1986. Will pay attractive guarantee. Contact: John "Jerry" Jermier, 319/273-3097.

## DIRECTOR, MULTIPURPOSE FACILITIES FLORIDA INTERNATIONAL UNIVERSITY

Opening for Director of Teaching Gym/Sunblazer Arena. Required bachelor's degree in Recreation, Business, or Public Administration or a related field, and at least five years' management experience of a large university multipurpose facility or related public event facility. Preferred: Experience in managing events for Departments of Education, Athletics, Recreational and Student Activities; knowledge of administering Auxiliary Services and Concession Operations.

Send resume and names/addresses of three references, by October 24, 1985, to: Dr. Gema Hernandez, Division of Student Affairs, Florida International University, Miami, Florida 33199.

F.I.U. is a member of the State University System. An Equal Opportunity/Affirmative Action Employer.

## SANTA CLARA UNIVERSITY DIVISION OF STUDENT SERVICES Director of Intercollegiate Athletics

Santa Clara University, a private Jesuit University, serving approximately 7,000 students, invites applications and nominations for the position of Director of Intercollegiate Athletics.

The Intercollegiate Athletic Department of Santa Clara University consists of eleven Division I men's sports, seven Division I women's sports, and two Division II men's sports. Santa Clara University is a member of the National Collegiate Athletic Association, the West Coast Athletic Conference, and the Western Football Conference.

**Basic Function and Description:** The Director of Intercollegiate Athletics reports to the Vice President for Student Services. The Director of Intercollegiate Athletics will be responsible for overseeing the administration and development of all intercollegiate athletic programs, managing the departmental budgets, coordinating use of athletic facilities, supervising athletic personnel, conducting fundraising efforts, and representing the University to internal and external constituencies.

**Minimum Qualifications:** The University is seeking a highly qualified individual with a Master's degree or its equivalent in an appropriate field; a commitment to Jesuit and Catholic education and to academic progress and achievement for student athletes in that setting; demonstrated ability in collegiate sports program management, human and financial resource management, interpersonal relations and communication, fundraising and promotions, personnel supervision, policy formulation and implementation, and communication with media; and an ability to represent the University and athletic program effectively and articulately.

**Salary:** Salary negotiable, commensurate with experience and credentials.

**Correspondence:** Potential candidates are requested to submit a letter of application, resume, and the names of three references by 15 October 1985 to:

Rev. Robert M. Senkewicz, SJ  
Vice President for Student Services  
Santa Clara University  
Santa Clara, CA 95053

Santa Clara University strongly encourages the applications of women and minorities for this position, and is an equal opportunity/affirmative action employer.

## UNIVERSITY OF MIAMI

### Department of Intercollegiate Athletics Business Manager

**Basic Functions:** Provide the Director and coaches with budget policy and procedures to follow and the proper business practices to follow consistent with University and NCAA policies and procedures.

**Specific Responsibilities:** Supervises and coordinates the planning and preparation of annual budgets. Performs budget review and control by reporting budget status and corrective actions to be taken to the Director of Athletics and individual coaches.

Establishes and maintains internal control over cash receipts and disbursements.

Establishes departmental procedures for and maintains budget control over all salary action, papers, requisitions and journal entries for all departmental accounts. Prepares monthly budget status, forecasts, cost studies and other financial reports.

Develop and negotiate business arrangements for procurement of goods and services, travel and the conduct of athletic and/or fund raising events. Determines that such matters are properly carried out.

Reviews and approves legal documents and establishes contract specifications prior to final approval by the Division of Business and Finance and/or General Counsel.

**Position Specifications:** Undergraduate degree required in accounting or general business administration. MBA helpful. At least three years' accounting, auditing or business experience required. Demonstrated competence in administration and budgetary control.

**Contact:** Send resume including salary history to:

Mike Wilson  
Associate Athletic Director  
University of Miami  
P.O. Box 248167  
Coral Gables, FL 33124

# Ohio State's Bay proposes nonvarsity status for eight sports

The Ohio State University athletics department has proposed the elimination of eight varsity sports, which would save \$400,000 yearly to reinforce 23 other programs, according to the university's student newspaper, the Lantern.

Director of Athletics Richard M. Bay said, "My mission is to operate the varsity collegiate program at Ohio State, and I have some sports where there is very little competition across the country. Should we be spending this much money on sports that aren't that widespread?"

The sports in question are men's soccer, men's volleyball, men's and women's fencing, pistol, rifle, and synchronized swimming.

Bay said the reason for dropping the sports is not necessarily because of finances. To him, it is more of a philosophical question. "We've always taken great pride in having such a comprehensive program (Ohio State sponsors 31 varsity sports), but can we philosophically afford to keep these sports?"

Bay said that raising money from the alumni never has been necessary because of the revenue generated by football-ticket sales. He also said he hesitates to ask alumni for money because the athletics department always has been relatively free of outside influences.

## Players' action

Four suspended Texas Christian University football players have retained a lawyer in an attempt to gain reinstatement to the team.

The four, Gary Spann, Gerald Taylor, Marvin Foster and Darron Turner, were among six players suspended by TCU coach Jim Wacker after some players admitted receiving payments from TCU boosters. The other players suspended by Wacker were star running back Kenneth Davis and defensive back Egypt Allen.

Spencer W. Kopf, a Dallas lawyer, said he is representing four of the players and will send a copy of a letter seeking their reinstatement to TCU officials and the NCAA.

Kopf said he will request action within a week after TCU officials receive the letter.

"They (the players) were not granted any type of hearing or means to defend themselves," Kopf said. "They were merely told someone had this information and that they were no longer on the squad."

"They have been tried, convicted and sentenced in one fell swoop with no means to defend themselves," the lawyer added.

If a hearing is not granted, Kopf said, he is prepared "to pursue every avenue available."

## Equipment loss

Heidelberg College athletics officials bought the stock at area sporting goods stores October 4, trying to outfit the school football team after a fire destroyed much of its equipment.

"I'd say we lost about 40 percent of our equipment," athletics director John D. Hill said of the morning fire that destroyed the school's historic fine arts building, where the Student Princes' football gear was stored.

Heidelberg, 3-0 so far this season, was scheduled to meet unbeaten Mount Union October 6 in an Ohio Athletic Conference contest.

Hill said some 60 sets of shoulder

pads and helmets were salvaged from the blaze.

In order to come up with enough equipment to play, Hill said he sent the salvaged equipment to a reconditioning company, where it must be certified safe before it can be reused.

The college also was borrowing

the past recruiting season.

To use the seven scholarships, SMU must sign the players before the new year and the student-athletes must enroll for the spring semester, which begins in January.

The NCAA put SMU on probation in August for recruiting violations.

## Newsworthy

equipment from Bowling Green State University and Findlay College and had bought much of the stock at sporting goods stores in Tiffin, Upper Sandusky and Toledo.

## Redshirt class

Southern Methodist University, seeking ways to stay strong during its probation, will try to put seven players on scholarship by January 1 and may redshirt its entire freshman class from

But the NCAA and the Southwest Athletic Conference told school officials they can award the scholarships because the Mustangs are seven short of the NCAA limit of 95 football scholarships, the Dallas Times Herald reported October 4.

Under NCAA sanctions, the Mustangs lost all their grants-in-aid in 1986 and can award only 15 of a possible 30 scholarships in 1987.

The team signed 17 players to letters

of intent in February for a total of 94 players on scholarship, one short of the NCAA limit. But six other scholarships have become available.

## Measles outbreak

The University of Northern Colorado canceled a baseball scrimmage in Laramie, Wyoming, October 5 because of a measles outbreak on the University of Wyoming campus, a UNC spokesman said October 3.

Bert Borgmann, sports information director at UNC, announced the cancellation.

Colorado health officials had warned UNC and Colorado State to avoid contact with the University of Wyoming because of the measles outbreak.

The health officials warned all schools not requiring proof of immunity to measles to limit athletics activ-

ities "which include students from the University of Wyoming until the University of Wyoming is declared measles-free by the Wyoming Department of Health."

## Cars registered

Southern Methodist University athletes now must register their cars with the school's athletics department as part of a policy initiated during the NCAA's 29-month investigation of the SMU football program.

SMU athletics director Robert L. Hitch said the policy was created last spring, the Dallas Times Herald reported October 4.

Letters were sent to athletics' parents outlining the school's drug-testing and car-registration policies. Parents were asked to give the athletics department information about the purchase and financing of cars by September 1, Hitch said.

## Announcing: National is the Official Car Rental Company for NCAA Championships.

We feature GM cars like this Buick Regal.

National was recently designated the "official car rental company" for NCAA Championships. And we're out to perform well on your scorecard. Just look at the outstanding travel value we provide you:

**Special Low NCAA Rates.** Simply show your NCAA affiliated school I.D. at the time of rental to take advantage of these low unlimited-mileage daily rates:

Car Type	Daily Rate*
Economy	\$27.00
Compact	28.50
Mid-size	30.00
Full-size 2-dr	31.00
Full-size 4-dr	31.50

### Cars in Top-Condition.

According to the United States Auto Club's car condition studies of the major car rental companies, National's cars are "the best in overall condition." Choose from our wide range of car sizes and models. You'll enjoy the same kind of reliability with whatever style you select to fit your plans.

### 24-Hour Peace of Mind.

Thanks to our strict car maintenance program, you'll probably never need this service. But it's nice to know that National, backed by the Amoco Motor Club, provides 24-hour emergency road service. Assistance can be just a toll-free call away. Anytime of night or day.

### Convenient Service Where You Need Us.

National Car Rental is conveniently available with fast, friendly service at over 3000 locations in 116 countries and territories around the world. You'll find us in 1000 locations in the U.S. alone. And it won't be hard to find us. Our rental counters are right in the major airport terminals where you need us—to get you off and running without delay.

# National Car Rental®

The NCAA deserves National attention.®

For details and reservations, call toll-free 800-CAR-RENT<sup>SM</sup> or your travel consultant.

\*Rates shown are non-discountable, available at participating locations and subject to change without notice. Specific cars are subject to availability. You pay for gas used and return the car to the renting location. Normal rental qualifications apply.
