Nine roll-call votes are set for 1988 Convention

The executive committee of the NCAA Presidents Commission has designated nine proposals for roll-call votes at the 1988 NCAA Convention in January in Nashville.

Meeting by telephone November 3, the four Commission officers—who constitute the executive committee—reviewed all legislation submitted for the Convention and identified the amendments that they believe warrant on-the-record votes. The Commission is authorized under the provisions of Constitution 5-4-(d) to direct that certain issues be voted upon by roll call.

They also specified five proposals (including one of the roll-call issues) to be placed early in the agenda for the general business session January 13 to facilitate attendance by presidents and chancellors. Agenda placement is another authority granted to the Commission by the membership.

Only one of the roll-call votes will occur in the general business session. The others will be handled a day earlier (January 12) in the various division business sessions. Of those, Division I-A will vote on two issues; Division I-AA on one; all of Division I, two; Division II, two, and Division III, two.

Roll calls

Roll-call voting will occur on the following proposals:

General

In the general business session, Divisions I and II will vote by roll call on an NCAA Council proposal to add minimum grade-point-average requirements to the satisfactory-progress legislation (specifically, a 1.600 after the first season of competition, a 1.800 after the second season, and a 2.000 after the third and subsequent seasons).

In past discussions, the Presidents Commission has not supported such legislation. The Commission officers believed that the Divisions I and II

members should place their votes on record regarding that issue.

Division I-A

A proposal submitted by member institutions to reinstate the five initial grants-in-aid in Division I-A football that were eliminated at the Convention in January 1987, thus increasing the initial limitation from 25 to 30.

An NCAA Council resolution

designed to affirm that the Division I-A membership does not favor the concept of a Division I-A national football play-off.

Division I-AA

A proposal to reinstate the five initial grants-in-aid in Division I-AA football that were eliminated at the special Convention in June 1987, increasing the limit from 25 to 30. This legislation, submitted by Divi-

sion I-A institutions, is being offered for vote by Division I-AA as well so that those institutions are not disadvantaged by a lack of opportunity to act on the issue.

Division I

The full Division I membership will vote by roll call on two alternative proposals to increase the Pell Grant exemption in the financial aid limitation:

• One submitted by member institutions would increase the exemption from the current \$900 to the full amount of the Pell award for which a student-athlete qualifies.

• One submitted by the Council would increase the \$900 exemption to \$1,400.

Division II

A proposal by member institutions

Back to grass

Robert Probst and his Duke teammates will contend for the Division I Men's Soccer Championship, which will be decided on natural grass for the first time in several years. The 1987 tournament is previewed on page 7.

Delegates will consider 163 Convention proposals

The number of legislative proposals to be acted upon at the 82nd annual NCAA Convention in January officially is 163, the number reported unofficially in last week's issue of *The NCAA News*.

A record number of those amendments will be handled by the separate division and subdivision business sessions the day before the general business session begins. Fifty-two of the 163 submissions will be assigned to the various divisions and subdivisions for separate actions.

Last year, 45 proposals were delegated to the divisions. The year before that—the first year that the divisions were enabled to take final voting actions in their own business sessions—there were 27 specific-division proposals.

In addition, there will be 38 amendments in the consent package—nine in a package of amendments to the constitution and 29 in a bylaws package. Those are treated as the first actions in the general business session, and each consent package is acted upon by a single vote unless members remove one or more for separate action.

That is the second highest consent-package count in the 11 years the device has been used, trailing only the 43 in last year's consent

packages.

With the division-specific legislation and the consent packages removed, there will be a total of 73 amendments to be voted upon in the general business session, scheduled all day January 13 and until noon January 14. That compares to 64 a year ago and 70 the year before that.

Whether the general business session can be wrapped up in one day, as has been the case each of the past two years, is doubtful. Numerous

Championships in Divisions II and III cross country, Division III football, and Division I men's soccer are previewed. Pages 6-9.

Triple threat

Baseball players at Mansfield University of Pennsylvania must do three things well: field, hit and babysit. Page 17.

Nominations sought to fill sports-committee vacancies

Nominations for NCAA sports committee vacancies, which will be filled at the 1988 NCAA annual Convention in Nashville, must be forwarded to each member's Men's or Women's Committee on Committees district representative no later than December 9. The nominations are for vacancies that will occur September 1, 1988.

In addition, a copy of the nominations for men's committees should be sent to the chair of the Men's Committee on Committees, Roy Kramer, Director of Athletics, Vanderbilt University, Nashville, Tennessee 37212 (at-large representative, Division I, District 3). Copies of nominations for women's committees should be sent to the chair of the Women's Committee on Committees, Rosemary Fri, Associate Director of Athletics, University of Northern Colorado, Butler-Hancock Hall, Greeley, Colorado 80639 (representing Division II, District 5).

In order that a complete summary of nominations can be prepared, a copy of each nomination letter

should be sent to Fannie B. Vaughan, Executive Assistant, NCAA, P.O. Box 1906, Mission, Kansas 66201.

When submitting nominations, the nominee's name, title, institution, division, district and conference should be provided, along with a brief paragraph describing the candidate's qualifications. Nomination letters should be provided for each nominee and should indicate whether the nominee would serve if elected. Unless an unexpired term on a committee is involved, the positions to be filled by the Convention are three-year terms. Committee members who are eligible for reelection normally are reelected.

Particular attention should be given to eligibility requirements set forth in Bylaws 12-1, 12-5 and 12-6 of the NCAA Manual.

The Men's and Women's Committees on Committees are responsible for soliciting nominations from the membership of individuals who are interested in serving. They then make their recommendations to the annual Convention. Nominees for

committee service should have:

• A vital interest in, and current knowledge of, the sport or area involved.

• The reputation and character to indicate clearly that committee membership will be used to serve the sport and not the self-interest of the member or the member's institution, conference or area.

• The respect of others engaged in that sport.

• The time and ability to perform the duties involved.

Men's committee

Other members of the Men's Committee on Committees and their divisions and districts are: Lawrence P. Boyd, Director of Athletics, Framingham State College, Framingham, Massachusetts 01701 (III-1); Gene A. Carpenter, Director of Athletics, Millersville University of Pennsylvania, Millersville, Pennsylvania 17551 (II-2);

Dave Hart, Commissioner, Southern Conference, Ten Woodfin Street, Suite 206, Asheville, North Carolina

28801 (I-3); James W. Lessig, Commissioner, Mid-American Athletic Conference, Four Seagate, Suite 501, Toledo, Ohio 43604 (I-4); Noel W. Olson, Commissioner, North Central Intercollegiate Athletic Conference, Ramkota Inn, 2400 North Louise Avenue, Sioux Falls, South Dakota 57107; Don Landry, Commissioner, Southland Conference, P.O. Box 863579, Plano, Texas 75086 (I-6); Ronald D. Stephenson, Commissioner, Big Sky Conference, P.O. Box 1736, Boise, Idaho 83701 (I-7); Charles Whitcomb, Professor of Recreation/Leisure Studies, San Jose State University, San Jose, California 94305 (I-8); Allen F. Ackerman, Director of Athletics, Elmhurst College, Elmhurst, Illinois 60126 (at large, III-4); William D. McHenry, Director of Athletics, Washington and Lee University (AL-III-3); John M. Williams, Director of Athletics, Mississippi College, Clinton, Mississippi 39058 (AL-II-3).

Women's committee

Other members of the Women's

Committee on Committees and their divisions and districts are: Judith A. Sullivan, Associate Director of Athletics, Southeastern Massachusetts University, North Dartmouth, Massachusetts 02747 (III-1); Susan B. Lubking, Associate Director of Athletics, West Chester University, West Chester, Pennsylvania 19383 (II-2); Joyce Sorrell, Coordinator of Women's Athletics, Troy State University, Troy, Alabama 36082 (II-3); Marnie W. Swift, Associate Director of Athletics, University of Toledo, Toledo, Ohio 43606 (I-4); Martha E. Hawthorne, Assistant Director of Athletics, Rice University, Houston, Texas 77251 (I-6); Margie H. McDonald, Executive Director, High Country Athletic Conference, 2317 Sherman Hill Road, Laramie, Wyoming 82070 (I-7); Kay Don, Associate Director of Athletics, California State University, Long Beach, California 90840; Elizabeth Murphey, Director of Women's Athletics, University of Georgia, Athens, Georgia 30613 (at large, I-3); Mary Frances Heishman, Associate Pro-

Legislative Assistance

1987 Column No. 39

NCAA Bylaw 5-1-(j)-(6)-(iv)

Divisions I and II member institutions are reminded that each student-athlete must designate a program of studies leading toward a specific baccalaureate degree at the certifying institution by the beginning of the third year of enrollment (fifth semester or seventh quarter). This provision is applicable to the eligibility of a continuing student, as well as a transfer student from a four-year or two-year collegiate institution, who is entering his or her third year of collegiate enrollment even if the student has not yet completed an academic year in residence or utilized a season of eligibility in a sport at the certifying institution.

Further, in accordance with NCAA Case No. 326 and revised Case No. 327 (pages 397-398, 1987-88 NCAA Manual), from the point at which the student-athlete designates a program of studies leading toward a specific baccalaureate degree, all credits used to meet the satisfactory-progress requirements must be degree credit toward the student's designated degree program. Finally, designation of the specific baccalaureate degree program may be accomplished by: (1) formal enrollment by the student-athlete in a specific baccalaureate degree program, or (2) approval by an appropriate academic official (who cannot be an academic adviser/counselor employed by the athletics department) of the program leading to the specific baccalaureate degree that the student-athlete is pursuing. The institution's records for all degree-program designations and satisfactory-progress evaluations for student-athletes shall be retained for inspection upon request by an authorized representative of the NCAA.

NCAA Bylaw 1-6—participation against outside team

The NCAA Council recently reviewed Case No. 206 (page 360, 1987-88 NCAA Manual) and affirmed that an institution's varsity intercollegiate team is prohibited from participating in a contest against a high school or preparatory school team. However, the application of Case No. 206 would not preclude a member institution's varsity intercollegiate team from participating in a contest against an established outside team that includes prospective student-athletes, it being understood that the outside team is continuing and ongoing and was not established for the specific purpose of competing against a collegiate team.

Further, the Council has affirmed an NCAA Legislation and Interpretations Committee decision that Case No. 206 would not preclude the participation of an institution's intercollegiate varsity team in contests against junior colleges, inasmuch as the provisions of Case No. 206 relate specifically to athletics competition with high school or college preparatory school teams.

This material was provided by the NCAA legislative services department as an aid to member institutions. If an institution has a question it would like to have answered in this column, the question should be directed to William B. Hunt, assistant executive director, at the NCAA national office.

Questions/Answers

Readers are invited to submit questions to this column. Please direct any inquiries to *The NCAA News* at the NCAA national office.

Q Why are NCAA Football Statistics based on per-game averages rather than per-attempt averages?

A Per-game averages are a more fair way of ranking players in terms of their total contribution to the game in rushing and total offense. A player could have a high per-attempt average but a small amount of yardage. The NCAA statistics department does not ignore per-attempt figures as the leaders are featured in *The NCAA News* after setting reasonable minimums for attempts, and per-attempt records are recorded. For categories for punt and kickoff returns, the NCAA statistics staff does rank individuals per attempt.

Insurance-plan growth continues

The number of member institutions participating in the NCAA-sponsored insurance programs continues to grow, with a particular increase in the lifetime catastrophic-injury plan.

Almost 47 percent of member institutions are covered under the catastrophic-injury program, underwritten by State Mutual Life Assurance Company of America and administered by American Sports Underwriters, Inc. It marks a 12 percent jump from the level of participation for 1986-87. Growth has been steady in the three years that the Association has sponsored the programs, and 94 percent of institutions covered last year renewed for 1987-88.

"Enthusiasm continues to be high among the membership for these programs, and participation is excellent," said Thomas F. Wilson, executive vice-president of American Sports Underwriters' College Division. "The growth indicates that

the membership is pleased with the quality of the contract and the claims service. We continue to seek ways to improve the programs, and we are already making plans for next year with the goal of having everyone covered."

No claims were made under the catastrophic-injury plan in the last year, although two student-athletes continue to receive benefits from accidents in 1985-86.

The plan provides lifetime benefits, with no monetary limit, to students suffering catastrophic injuries while participating in intercollegiate sports or traveling to or from practice or competition.

Also available are a basic athletics-injury plan, providing medical expenses for two years to a maximum \$25,000 for injured student participants, and a staff accident program covering athletics staff members regardless of whether they are on official business.

Subsidies approved by the NCAA

Nine

Continued from page 1

tions to reinstate the five football grants-in-aid (based on equivalencies) that were eliminated in the June 1987 special Convention.

A proposal submitted by the Central Intercollegiate Athletic Association to delay the application of the Bylaw 5-1-(j) test-score requirements in Division II until August 1, 1989, with new eligibility indices to be implemented through August 1, 1991.

Division III

An NCAA Council proposal to eliminate the consideration of athletics ability in the formulation of a Division III financial aid package for a student-athlete.

An NCAA Council proposal to preclude any athletics department staff member from serving as a member of a Division III institution's financial aid committee.

Special grouping

The five items for the general business session that were identified as being of particular interest to chief executive officers will be placed in a special grouping of legislation to be voted upon immediately after the consent packages are disposed of, early in the general business session beginning at 8 a.m. January 13.

Three of the five special-grouping proposals deal with attempts to tighten the satisfactory-progress rule for Divisions I and II, while the other two address NCAA Convention procedures and are intended to respond to concerns raised by CEOs at the June special Convention:

The five:

- The roll-call proposal to add grade-point averages to the satisfactory-progress legislation.

- A Southwest Athletic Conference proposal to require Divisions I and II institutions to certify eligibility under the satisfactory-progress rule during the fall term of each academic year, with no subsequent opportunity to regain eligibility during that academic year.

- An NCAA Council proposal requiring the same annual fall certification as the Southwest Conference amendment, but providing an opportunity for a student who is ineligible in the fall to become eligible at the beginning of another regular term.

- A Council proposal to stipulate that reconsideration of a vote taken in a division or subdivision business session may not occur in the general business session except during a designated "window of reconsideration."

Executive Committee have kept institutional premiums low for the catastrophic-injury plan, and another subsidy for the plans has been approved for next year.

"The growth of the programs indicates their approval by the membership," said Richard D. Hunter, NCAA director of operations. "The plans are working as they were conceived, and we continue to be pleased with the quality of the contract and the increased participation levels."

Institutions interested in further details on any of the NCAA-sponsored plans should write or call American Sports Underwriters' College Division staff at its headquarters in the Kansas City area. The address is American Sports Underwriters, Inc., College Division, 9300 Metcalf, Suite 230, Overland Park, Kansas 66212. The toll-free telephone number is 1-800/621-2116; in Kansas, the number is 913/383-3133.

tion" at the beginning of that general session.

- A Council proposal to specify that when a proposal has been designated for a roll-call vote, any interim or subsequent vote to amend, postpone, reconsider, refer

or table the proposal also must be conducted by roll-call vote.

The Presidents Commission will meet from 8 a.m. to noon January 10 in Nashville and will review at that time any legislative proposals that it may wish to support or oppose.

Laboratory directors meet

Directors of laboratories involved in NCAA drug testing are addressing issues of education and detection.

Laboratory administrators, meeting October 27 at the Association offices, discussed providing data on substance abuse to member institutions in hopes of preventing the possibility of future drug problems. General findings from testing for championships could allow the NCAA drug-testing program to be used as an education tool and a deterrent to drug use as well as a method for detecting use among current student-athletes.

Meeting at the NCAA West building were Robert Dugal and Robert Masse, National Institute of Scientific Research-Health, Pointe-Clare, Quebec; Don Catlin and Caroline Hatton, Paul Ziffren Olympic Analytical Laboratory, University of California, Los Angeles, and Carleton Nordschow and John Baenziger, Sports Medicine Drug Identification Laboratory, Indiana University Medical Center, Indianapolis.

The directors reviewed the first year of the Association's testing program and discussed plans for 1987-88. Updated lists of classes of banned drugs, revised protocol and forms for the program, and the Council's legislation on testing for steroids also were studied, as was the Executive Committee's recommendation to allow screening for nicotine use. A standardized reporting style for results from each laboratory was reviewed.

Getting particular attention was the appeals process for a positive finding at championships and certified postseason football games. Revised protocol calls for the NCAA assistant executive director for ad-

ministration or a designee to advise the director of athletics of the appeal procedure, in the course of informing an institution of a positive finding.

A positive finding may be appealed to the committee responsible for drug testing. Such an appeal may be conducted on the same date that the laboratory results of the testing of the "B" specimen of the involved student-athlete, who may participate in the appeal, are known. Notification by the institution of its intent to appeal must be given to the NCAA within 12 hours of the initial notification.

The laboratory directors also reviewed two developments from the Executive Committee's August meeting. The Executive Committee had approved a reciprocal agreement with the U.S. Olympic Committee and the Canadian drug-testing program for disseminating aggregate drug-testing data, and had agreed that specimens from the Division I track and field championships will be analyzed at the Quebec facility. Specimens from track and field athletes contending for a world record are required to be analyzed outside those athletes' home countries.

Brochure mailed

Member institutions soon will receive the 1987-88 edition of the NCAA drug-testing program brochure.

Administrators and coaches are urged to read the manual carefully, noting both the changes in testing protocol and the updated reference list of classes of banned drugs.

The revised edition of the Association's drug-testing program videotape also will be mailed to member institutions upon its completion.

In a "No-Win" Situation?

THE UNITED STATES SPORTS ACADEMY

Jacoby and Shriver follow their fathers' footsteps

Bob Jacoby and Darcy Shriver, whose fathers were instrumental in the development of the Mid-American Conference, are employed by an MAC member as academic advisers.

Jacoby is the son of former MAC Commissioner Fred Jacoby, currently commissioner of the Southwest Athletic Conference. Bob assists Shriver, who is academic coordinator for the athletics department at Miami University (Ohio). She is the daughter of former Miami President Phillip R. Shriver.

The elder Shriver served as the school's CEO from 1965 until 1981. He was a member of the MAC Council of Presidents during his tenure and was elected chair of the group for three consecutive two-year terms during the 1970s. Now in his fifth year as Southwest Conference commissioner, the elder Jacoby was MAC commissioner from 1971 until 1982.

How Come your Never Hear About These? Department: When Albert Harris, a defensive end on the University of Arkansas, Fayetteville, football team, is not hitting quarterbacks, running backs and offensive linemen, he's hitting engineering books or piano keys. The chemical engineering major has played the tuba since the seventh grade and taught himself to play piano.

"I'd say thermodynamics is my toughest class," he recently told Arkansas sports information writer Shea Hamilton. "I don't take many easy classes."

He does, however, take time out from football and engineering to tickle the ivories now and then. "Music is something I've always enjoyed. Playing the piano was something I had always wanted to try. We have a piano in the dorm, but I don't have much free time to play it."

At Pennsylvania State University, football player Matt Johnson recently became the 10th Nittany Lion player honored as a National Football Foundation and Hall of Fame scholar athlete.

Johnson already has an undergraduate degree in speech communications. Currently enrolled in Penn State's MBA program, he has a cumulative grade-point average of 3.260 (4.000 is perfect). His selection as a scholar athlete marks the second time since 1970 that Penn State has placed players on that team for four consecutive years.

Trivia Time: How many NCAA member institutions west of the Continental Divide currently sponsor field hockey as

a varsity sport? Answer later.

Speaking of field hockey, Ithaca College head coach Doris Kostrinsky recently notched her 200th career victory when her team upset perennial Division III power Trenton State, 2-1, in overtime.

More notable that the milestone, however, is Kostrinsky's contribution to the women's athletics program at Ithaca as a

Briefly in the News

multisport coach. From 1969 through 1975, her women's basketball teams were 43-16 (.729). From 1970 through 1986, her women's softball teams fashioned a 202-128-3 record.

Add her field hockey experience, which spans almost two decades, and Kostrinsky has coached Ithaca women's sports teams to just under 450 victories.

Andras "Andy" Toro, secretary of the U.S. Olympic Committee, has authored a book on Olympic-style canoe racing. According to reviewer Ron Emes, executive director of the British Canoe Union, Toro's book, "Canoeing: An Olympic Sport," is a vast compendium of technical data, scientific principles and streetwise wisdom, concentrated into some 400 pages of print and totally dedicated to racing canoeing.

The 416-page softcover volume is available for \$20 from Toro, 7234 Plank Street, El Cerrito, California 94530.

Jon W. Alquist, editor of the University of Arizona Alumni Association publication Wildcat SportsWeek, has written to point out that two schools were left off the list, published in this space October 5, of institutions that accomplished the "hat trick" in 1986-87 of playing in NCAA basketball and baseball tournaments, as well as a certified postseason football bowl game.

Not mentioned in that column were Arizona and North Carolina State University. Alquist pointed out that the Wildcats won the Aloha Bowl and appeared in the Division I basketball and baseball play-offs. The Wolf Pack also appeared in those tournaments, along with the Peach Bowl.

"Perhaps you should come up with a similar compilation for women's sports," Alquist wrote. "Maybe volleyball, basketball and softball?" Any other combinations sound

better?

Much is made in the sports arena about winning streaks. Although obscure when compared to high-profile sports like basketball and football, intercollegiate shooting enjoys its share of long-lived successes. Just look at the program at the University of Tennessee, Martin.

The Pacers recently notched their 51st consecutive win in Gulf South Conference action. Team members also recently were honored with medallions for winning the 1987 ROTC National Rifle Association team titles in smallbore and air rifle competition.

Shooter Rob Harbison turned heads at the 1987 NCAA championships when he bested a field that included Olympic gold medalist Pat Spurgin of Murray State University to win the individual air rifle title. His winning score of 392 (400 is perfect) in that match tied the championships record in the event.

University of California, Berkeley, aquatics fans Rick Cronk, Don Fisher, Warren Hellman and Ned Spieker have challenged other boosters of the school's swimming and water polo programs to put their money where their cheers are.

An October 10 brunch, hosted by the Bear Splash Club, kicked off the \$2 million Big Splash Challenge. The four boosters have agreed to pool their resources (no pun intended) and contribute \$1 million to a permanent endowment fund as a dollar-for-dollar match to contributions from other Cal aquatics supporters. The goal is to raise the \$2 million by the spring of 1989. A \$100,000 donation already has been received from Cal professor emeritus of rhetoric Garff Wilson.

Trivia Answer: Only five member institutions west of the Continental Divide sponsor varsity field hockey teams. They are Division I members University of California, Berkeley; University of the Pacific; San Jose State University, and Stanford University, and Division II member California State University, Chico.

Odds 'n Ends: Andy Yaffa had been a cheerleader at the University of Richmond, but watching his brother, Sam, pile up yardage as a fullback on the football team apparently got to him. Andy walked on to the Spider squad this fall, and the senior now handles snaps on the punt team.

Delegates

Continued from page 1

amendments to the amendment are expected in regard to a proposal to establish specific four-month recruiting limitations in all sports. In addition, the NCAA Council has adopted a policy specifying that breaks will be taken in the general business session, both midmorning and midafternoon.

An unofficial count of the proposals to be acted upon by the separate divisions and subdivisions—which will be verified this week as the legislation is edited and placed in order for printing of the Official Notice of the Convention—shows 3½ amendments being voted upon by Division I-A, 3½ by Division I-AA, 18 by all of Division I, 15 by Division II and 12 by Division III.

In the Official Notice, the 163 proposals will be presented in the following groupings, which also will represent the order in which they will be addressed in the general business session:

Constitution consent package, nine proposals; bylaws consent package, 29; special grouping identified by the Presidents Commission (see story on page 1 of this issue), five; academics, 14; financial aid, seven; amateurism, seven; championships and special events, eight; general (including some governance proposals), nine; membership and classification, nine; enforcement, five; recruiting, 26; eligibility, 11; playing seasons, 16, and personnel, eight.

In the November 16 issue, The NCAA News will begin a series of articles describing all 163 legislative proposals.

The Official Notice of the Convention, containing all of the proposed legislation, will be mailed from the national office November 25.

Qualifying standards established in indoor track and field

Qualifying standards have been established for 1988 indoor track and field championships.

The Division I championships will be held at the Myriad in Oklahoma City; the Division III meet at Smith College in Northampton, Massachusetts, and the Division II championships at a site to be determined. All three meets will be conducted March 11-12.

Altitude adjustments for sites at elevations of 3,000 feet or higher have been added for the coming seasons and will be applied to running events of 1,500 meters or longer. Those adjustments will appear in the 1988 NCAA Track and Field/Cross Country Rules and in the indoor track champion-

ships handbook.

Division I coaches should be aware of several changes in the qualifying procedures. The 400- and 800-meter runs are scheduled for 1988 in place of the 500 and 1,000 meters, and the 200-meter dash will be run for the first time indoors.

Qualifying standards no longer will be accepted for imperial distances in Division I, except in the mile and the relay events.

A qualifying index has been established for different track sizes in the 200- and 400-meter dashes in Division I. Standards are listed for those events run on tracks of under 200 meters, 200 meters and over 200 meters.

Men's standards

Event	Division I		Division II		Division III	
	FAT	MT	FAT	MT	FAT	MT
55 Meters	6.23	**	6.38	**	6.50	6.2

After years as No. 1, ABC copes with also-ran status

Scripps Howard News Service

Don't mind the people at ABC. Forgive their nostalgic sighs and faraway glances, reminders of another era as surely gone as malt shops and drive-in movies.

College football on television as a generation knew it—the blockbuster, once-a-week spectacle—has vanished forever, a victim of its own success. Some at ABC feel like victims, too.

"The golden age is over, and it's been a humbling experience for ABC," said Donn Bernstein, the network's director of college sports.

"ABC was college football. Chris Schenkel and then Keith Jackson were the voices of college football. It gave us an identity, a reputation as the source for the game. Now, we're on the outside looking in."

Some at ABC muse that they did their job so well, they ran themselves out of business. Once the only game in town, ABC now plays a diminished role in this time of deregulated college television.

The network continues in the college football business, but its \$12.5 million package with the Big Ten and Pacific-10 Conferences is limited. With only 20 teams from which to choose, the network is experiencing plummeting ratings and the future prospect of abandoning football.

"In this age, we cannot continue to lose money," Bernstein said. "Ratings are way down for us now. We hope and expect them to come back. But if not, when our contract expires four years from now, I could see us getting out of college football. That would be tragic, but I could

see that happening."

Three years after the Supreme Court revoked the NCAA's 31-year TV monopoly, ABC has come to grips with being the No. 3 college football network. CBS and ESPN, which control College Football Association rights, show more games and offer more national appeal.

"It's certainly not something we're happy about," Bernstein said. "It hurt. It was a real trauma to us. But we have learned to live with it. We've learned to come to grips with a new era in which we're not the only show in town."

When ABC took over college football TV in 1966, it was a fledgling No. 3 network looking for a way to create credibility and build a profit base. Only the Olympic Games was more instrumental in

ABC's reaching parity with older rivals CBS and NBC.

Its monopoly of college football, which the NCAA stringently controlled in terms of exposure and profit sharing, was so successful that some big-time schools wanted a larger piece of the pie.

The first crack in the arrangement came in 1980, when the NCAA awarded joint rights to ABC and CBS, doubling the number of games broadcast each Saturday.

"That was quite an adjustment," Bernstein said. "For all those years, we had been the only kid on the block. Then, all of a sudden, we had to share our toys with a younger brother. But it helped prepare us for the next step."

That next step—total freedom—left schools with the option of cut-

ting their own deals or aligning in a group. ABC reached a three-year agreement with the CFA for 1984-86, but lost out to CBS and ESPN for a four-year contract that began this season.

As fuzzy as the picture has become the past four years, college football TV faces adjustments in the next four years that could drastically alter the product. ABC executives know their network's future as a participant, much less a leader, is uncertain.

"We've lost prestige, identity, effectiveness," Bernstein said. "Now we're just another guy out there fighting. We've lost the charisma of being No. 1. But we have the reputation that no one else can touch, and that's something we're surviving on."

Recruiting change supported

By Thomas O'Toole
The Atlanta Journal and Constitution

Because of a new NCAA rule, it is difficult for college coaches to gauge how they stand in the recruiting game.

The rule prohibits coaches from leaving campus to recruit high school players or scout high school games until November 1. According to some members of the University of Georgia's football staff, worthy high school prospects might go unnoticed because the evaluation time has been drastically reduced.

"There's a possibility of costing a kid and also the possibility of making mistakes on some kids," said running backs coach Ray Goff. "It's really been different."

"We've had to do all our evaluation on film. That's a good indicator, but not always the best. There's a lot of things you don't see on film, like leadership qualities and desire. When you watch practice, you can see what kind of practice player a kid is."

"The blue-chip athletes will never be affected," said linebacker coach Dale Strahm. "It's that good player who improves over the course of the year who will be hurt. Many of us make a living off that kind of kid. But now, we're all going to rush out, make a dash and give our sales pitch to the blue chip and the others

Ray Goff

will suffer."

To compensate, Georgia has spent much more time evaluating films and videotapes of games this season. Recruiting coordinator Bob Pittard estimates he sent out 50 to 60 blank tapes to high schools requesting games be copied and returned.

On his desk last week sat a dozen newly arrived cassettes waiting to be evaluated by the coaches.

"A guy at UCLA told me they sent out 50 tapes and only got four back," said Pittard. "We're having good success with ours. But it's still better being at the games."

Georgia coaches expect some modification of the rule at the January NCAA Convention.

Many high schools are winding up their seasons. By the time the college coaches get to the schools, there are few games and practices remaining.

"The overall philosophy of what was passed is probably good," said head coach Vince Dooley, referring to cost-cutting measures. "But now, we need to work out something that would allow coaches to go out in the month of October when there are games. I think we need a slight adjustment."

In higher education, clock ticking backward for Blacks

Black enrollment in U.S. graduate schools has declined in this decade after peaking in the 1970s, particularly in engineering and other lucrative fields, according to a study that says changes in education and in the black community are needed to reverse the trend.

"The current status of black Americans in higher education is clear evidence that the clock is ticking backward," said Gail Thomas, a Texas A&M University sociology professor and author of the study.

"Blacks are at a dangerous point in terms of becoming disempowered

as a result of what I see as a disturbing trend in higher education, because higher education still remains the major avenue for upward mobility for black Americans," Thomas said.

The percentage of black graduate students dropped from 5.1 in 1976 to 4.2 in 1982, according to the study, published in the Harvard Educational Review.

"Black students remained highly underrepresented in graduate and professional schools relative to their availability in the baccalaureate

Gen. Custer didn't have to face a Quarterback Club after massacre

Mack Brown, head football coach
Tulane University

The Associated Press

Remarking that his team's 73-14 defeat by Florida State University left him almost envious of Gen. George Custer, "We both got massacred, but he wasn't around to go to the Quarterback Club afterward."

Bob Valesente, head football coach
University of Kansas

The Kansas City Times

"The only thing I know is that this program is in desperate need of continuity and long-range planning. We've got a very good redshirt plan going, and we're making some very good strides in several areas. I can't be worried about my job right now (Kansas is 1-7 for the season). There are too many more important things going on right now.

"Why would I need something like that (a public vote of confidence from his athletics director)? A pat on the back? I've never had one of those in my life. I don't need someone coming up to me and telling me I'm doing a good job.

"If you enjoy what you're doing, then that's the only thing that matters. And I enjoy what I'm doing."

Paul Homung, member, College Football Hall of Fame
Louisville, Kentucky

The Associated Press

"The college (football) game is much more exciting (than the professional game). A fan doesn't know what to expect next. It's a better game to be around.

"There's too much sameness about pro football. It's pass-oriented, and they all play the same defense. It could be that the colleges have the better rules."

Barry McKeever, student-athlete
Stanford University

The Kansas City Star

"I think the NCAA has done a great deal for college athletics over the years, and they are a body that is necessary.

"But I think they have completely forgotten about the individual athlete. The drug testing is something they did in reaction to Len Bias' death and the Gary McLain incident, where he said he used drugs in the basketball tournament a couple of years ago. It doesn't do a thing to help the athletes.

"They have not tried to use education, especially with steroids. They haven't done anything to address the pressures athletes are under. Instead of pure punishment, which is all the drug-testing program is, they should be trying to educate and help people.

"A lot of these guys don't have any idea what steroids do to their bodies. Some are exposed to them in high school, and they think they are necessary if they are going to make it.

"And the NCAA's (drug-testing) program doesn't answer that. It doesn't make an attempt to stop the problem. What about the players who don't make it to bowl games? Some are out there using steroids, and what's being done to help them?"

Mack Brown

Allen's goal is to get American youth in good condition

George Allen is coaching again, has been for several years. Oh, not football—our youth. And with the same George Allen enthusiasm he showed many years ago on the sidelines.

A one-time head coach of the Los Angeles Rams and Washington Redskins, Allen has been chair of the President's Council on Physical Fitness and Sports since 1981.

It's a volunteer position. As Allen said, "There's no remuneration. In fact, it costs you money because expense money doesn't always cover all the expenses."

Allen has a goal—to get the youth of America in good physical

condition. One thing he thinks will help is an idea he came up with a couple of years ago—an exchange testing program with the Soviet Union for youngsters ages seven through 17.

"I thought if we could exchange youth-testing programs with the Soviet Union, it would wake our people up to the fact that our youth weren't in shape," Allen said in an interview with the Associated Press at his El Segundo, California, office. "You can talk about it, but this will draw more attention than anything else. The purpose was to compare, not compete."

"Sometimes, you can do more

through kids than you can through politics or the Olympics," he said.

Last summer at nearby Whittier College, a group of American children ages eight through 11—79 boys and 59 girls—took the Soviet Youth Fitness Test and generally didn't fare well in five of six categories, the exception being the distance run.

The other categories were target throw, a test of hand-eye coordination in which the Americans did particularly poorly; distance jump; shuttle run; pull-ups, and sit-ups.

In addition, 54 percent of all age groups, boys and girls combined, couldn't swim 25 meters, with no

time limit.

"It (the test results) tell you that our kids are absolutely not in shape," Allen said. "Some Soviet kids are taking our test right now. I think they'll do better than our kids."

While he believes there's a long way to go, Allen said he's seen improvement in the youth of America.

"Things are getting better because we've made everybody aware," he said. "I'm very proud of the progress, but more is needed."

"We need to put physical education back in the schools five days a week, from kindergarten through 12th grade, an hour a day—more

importantly, under competent instruction.

"Until we do that, our kids won't be in shape. It's a crime what's taking place in this country. We have money for everyone in the world, and we can't help our own kids and they're our most precious commodity. They're our future."

Does he miss coaching?

"A little bit," he said. "But I'm so gosh darn busy. I do some television work, some radio work, some newspaper work. And this (his work with the President's Council on Physical Fitness and Sports). I have a very full life."

Coaches disagree on effects of NCAA officiating clinics

Not all Division I men's basketball coaches are in agreement that the NCAA officials program will benefit the game.

The program, which is designed to improve understanding of the rules and to attain a consistently high standard of officiating, is in its second year. It is coordinated by Henry O. Nichols, who otherwise is dean of students at Villanova University.

Nichols and Edward S. Steitz, athletics director at Springfield College and secretary-rules editor of the NCAA Men's Basketball Rules Committee, traveled to eight sites in October to conduct clinics for coaches and referees.

Any Division I head coach who does not attend one of the clinics is subject to Association sanctions. The referees who miss attending one of the sessions will lose assignments and possibly a chance to work in the Division I Men's Basketball Championship.

The coaches, as mentioned, do not agree about the outcome.

Mike Krzyzewski

Some say it's going to help the game.

Duke University head men's basketball coach Mike Krzyzewski told John Feinstein of The Washington Post: "It's a good thing. Now, we've all heard the same things, coaches and referees all over the country. I know if a guy does something different during a game than what Ed and Hank said today, I'll remind him quickly."

John Thompson, head men's basketball coach at Georgetown University, disagrees.

"I don't like it at all," he told

John Thompson

Feinstein.

"A good referee doesn't need that (bench-decorum rule) to get me to be quiet. It's the bad ones (officials) this protects. It promotes incompetence."

Gary Williams, head coach at Ohio State University, agrees with Thompson.

"John's right about it protecting bad officials. You can legislate all you want, but you can't legislate good officiating. If a guy is good, he'll handle you without any problem. If he isn't, he won't, no matter what the rules are."

P. J. Carlesimo, head coach at Seton Hall University, says, "This is a good idea in terms of consistency around the country. I didn't hear anything in here I didn't know, but maybe some guys did. If so, then it was worth it."

The clinics each lasted about four hours. Steitz began by going through new rules. Nichols took the coaches and officials through two tapes on "points of emphasis" for the season.

The main reason for the clinics is to try to get everyone in the country officiating the same way. For years, different leagues have had different reputations, Feinstein observed: ACC, finesse; Big Ten, brutal. The NCAA would like everyone to call games the same way all the time.

"Do you remember the Ted Mack Amateur Hour?" Nichols asked Feinstein.

In higher

Continued from page 4
pool," Thomas said in the study. "Equally critical is the fact that, despite major affirmative-action efforts in the 1970s, black student enrollment in graduate education is declining and has not progressed in professional schools."

Thomas cited numerous reasons for the disproportionate enrollments, including low-quality elementary and secondary schools in predominantly black areas; failure of guidance counselors and parents to encourage Blacks to pursue advanced degrees, and the traditionally poor performance by Blacks on standardized tests, including the Scholastic Aptitude Test (SAT).

"Test bias and the lack of early and adequate exposure to standardized tests have been identified as factors that negatively affect the SAT performance of Blacks. Despite the reality of these factors, Blacks must improve their performance on traditional standardized achievement tests."

Reversing the trend depends on a commitment by black parents and community leaders to promote higher education and improved affirmative-action programs by colleges and state and Federal governments, Thomas said.

The study, based on the latest information from the Department of Education's Office of Civil Rights, found that while Blacks constituted 3.3 percent of all recipients of undergraduate engineering degrees in 1980-81, only 1.6 percent of master's degrees in engineering were awarded to Blacks and Blacks earned less than one percent of engineering doctorates.

Black enrollment in biological and physical sciences and mathematics also was highly disproportionate, Thomas said; and in all three fields, black colleges awarded

"The guy who won was always the accordion player who came out and played 'Lady of Spain.' Why did he win? Because he would take that accordion and spread it further and further until he could play every single note."

"If he let it go too far, it would fall apart because he was stretching. If he pushed it back too far, it wouldn't sound as good because he would be leaving out some notes. The key is to let the accordion out just far enough so that you can play all the notes."

"That is what refereeing a basketball game is all about. You have to let the players go far enough to play all the notes in the game. If you go too far, the game falls apart. If you restrict them too much, the game doesn't have all its notes."

"And remember," Nichols said, "always try to be consistent."

the overwhelming majority of advanced degrees received by blacks.

In the biological sciences, 5.2 percent of those awarded bachelor's degrees in 1980-81 were black. But only 2.9 percent of master's degree recipients were black and only 1.7

"Reversing the trend depends on a commitment by black parents and community leaders to promote higher education and improved affirmative-action programs . . ."

percent of doctorate degrees were awarded to Blacks, the study said.

Blacks received nearly four percent of the bachelor's degrees awarded for physical sciences in 1980-81, but only two percent of the master's degrees and one percent of doctorate-level degrees, the study said.

In mathematics, Blacks accounted for 5.3 percent of the bachelor's degrees awarded in 1980-81, but only 2.6 percent of the master's degrees in mathematics went to Blacks and 1.2 percent of the doctorate mathematics degrees.

Correction

In the Comment section of the November 2 issue of The NCAA News, the affiliation of head coach Darrell Mudra was incorrect. Mudra is at the University of Northern Iowa.

Opinions

Continued from page 4

higher degree of accomplishment.

"Most Americans have an unrealistic desire to push their children through college, whether or not they have an aptitude for white-collar work."

Pete Newell, former collegiate basketball coach Universities of San Francisco and California, Berkeley

The Kansas City Star

"Any time you have a lot of money involved in anything, you are going to have avarice and cheating. To me, the game is dictated far too much by the dollar these days."

"It turns the coach into a businessman instead of a coach. He's an entrepreneur instead of a teacher."

Gib Twyman, columnist

The Kansas City Star

"The University of Kansas (football team) is 1-7... Kansas State University is 0-8. With these numbers, it would be predictable to hear wolves howling at the doors of coaches Bob Valesente of KU and Stan Parrish of Kansas State."

"Predictable."

"But wrong."

"The last thing that KU or Kansas State should do is fire its coach."

"Granted, it gets old, these losses thundering across the plains. Yes, it's no fun being the butt of national media jokes. But KU and Kansas State should keep Valesente and Parrish for several good reasons."

"The first one that comes to mind is sanity."

"We keep talking about the need for returning proper perspective to college athletics. Administrators hic themselves to expensive hotels and make lamentations over sports' pervasive win-at-all costs mentality."

"Then, whenever one's own team suffers a drought, one runs out and fires a few coaches. That idealism stuff is for the other guy. We've got alums on our necks. We've got a business to run."

"And then, the next coach who comes in gets the message: The only thing that truly matters around here is the quantity of W's that appears in the standings."

"I'd prefer to think Valesente and Parrish will get the time they deserve to prove whether they are good

coaches. For their sakes. For their schools' sake. And for any of us who are just plain tired of college athletics' doing the same dumb things to disgrace itself."

Dan Smith, head basketball coach Brockport State University College Athletic Administration

"What is needed (as an alternative to tenure for coaches) is a compromise approach."

"Coaches need more security, yet athletics administrators need to have job-related or financial motivation devices available to them. Longer-term contracts with performance incentives may be the answer. These performance incentives would not necessarily need to be based on won-lost record."

"As an added benefit, this would allow the athletics director to place a monetary value on the goals he or she has for the specific team."

"Contingency contracts like these have proved successful in behavior modification. They also have intuitive attractiveness for the athletics domain because they let the coach know exactly what is expected in advance. He or she could then set his or her team and staff goals to match these predetermined criteria."

Dan Jenkins, columnist Dallas Times Herald

"After a lifetime in stadiums on both Saturdays and Sundays, I am even more unshaken in my belief that college football is more fun and infinitely more important than what the pros call football, which is who drops the fewest passes every week."

"College football is played with more emotion, intensity, passion, effort and quite often with more brains and skill."

"Reminder: A college team can't lose seven games and still go to the Orange, Sugar, Cotton or Rose Bowl to play for a national championship—it can't lose more than one but an NFL team can loll around and lose seven games and still get to the Super Bowl, which soon will be played in February."

"This doesn't make sense to me, and never will, but it obviously doesn't bother all the guys in the Schlitz caps who've been brainwashed into believing pro football is the ultimate game."

Division II cross country races have familiar look

The 1987 championships may have the look of 1986 when Division II's top cross country teams gather November 21.

Both team champions of a year ago have spent most of the fall atop the rankings by the Division II Cross Country Coaches Association.

Among the women, Cal Poly San Luis Obispo will be seeking its sixth consecutive title, a dominance unprecedented in any division in the sport. The Mustangs have defending individual champion Gladees Prieur back for her senior season.

On the men's side, Edinboro could make it two in a row but will be challenged by 1985 champion South Dakota State and strong-finishing Southeast Missouri State.

Men's championships

Edinboro placed three runners in

Mike Platt

the top 10 last year and two more in the second 10 to wrest the team championship from South Dakota State. Coach Doug Watts loses dependable Luke Graham for 1987 but welcomes back other key members of his title squad.

Mike Platt, who finished fifth as

Championships Previews

a sophomore last year, is the Fighting Scots' leading performer. He is joined by veteran Gennaro Manocchio, who has finished in the top 25 for two seasons.

"I'm a pessimistic coach, but I am pretty optimistic about our chances to repeat," Watts said. "We're running about where we should be at

Gladees Prieur

this point in the season."

Southeast Missouri State, team champion in 1984, is also peaking in time to make a run at the crown. The Indians had three runners break a course record held by a Division II national champion on the way to the title in the Missouri Intercollegiate Athletic Association.

Seniors Art Waddle and Jay Townsend and junior Brian Radle are complemented by four promising freshmen.

"I'm confident that we can run our best at this meet," said Southeast Missouri State coach Bill Gautier. "Whether that's good enough, we'll find out November 21. We expect Art Waddle to be among the top individual finishers. This is his last collegiate race, and he's determined to be among the best. As a team, we started this season dreaming about a national championship, and we're excited to be in a situation in which it might come true."

South Dakota State, in bidding for a return to its 1985 glory, is led by three-time all-America Rod DeHaven, third individually last year. The Jackrabbits have two other returning all-Americans in Randy Reichel and Paul Morgan.

Cal State Los Angeles, a newcomer to the national field, stacks up as the best from the West. The Golden Eagles are paced by seniors Tony Young and Rob Arsenault.

Keene State likely will move up from its ninth-place finish of 1986. The Owls lose all-America Rodney Ellsworth but still boast an experienced team featuring seniors Chris Moulton and Roger Clark and juniors Scott Hatch and Rodney Viens.

Championships Profile

Event: Division II men's and women's cross country.

Field: In the men's championships, 17 seven-man teams and 13 additional individuals will qualify to fill the 132-runner field. In the women's events, 11 seven-woman teams and 15 individuals will qualify, filling a 92-runner field.

Automatic qualification: Although a certain number of teams and individuals from each region are guaranteed selection, there is no automatic qualification for conference champions.

Defending champion: Edinboro (men) and Cal Poly San Luis Obispo (women) won the 1986 team championships. Samson Obwocha, East Texas State, and Gladees Prieur, Cal Poly San Luis Obispo, were the individual titlists.

Schedule: The championships will be hosted by Southern Indiana November 21. The women's race will start at 10 a.m., the men's race at 11 a.m.

The NCAA News coverage: Results from the championships will appear in the November 23 issue of The NCAA News.

Contenders: Men's contenders include Edinboro, South Dakota State, Southeast Missouri State and Cal State Los Angeles. Women's contenders include Cal Poly San Luis Obispo, Cal State Northridge, Air Force and Cal State Los Angeles.

Championships notes: Neither the men's nor the women's championships have ever been held in the state of Indiana before... Although there have been 29 men's championships held (since 1958), no team has won more than three titles... Twenty teams have won at least one men's championship... After finishing second in the first championships, Cal Poly San Luis Obispo teams have won the other five women's team titles contested to date... A year ago, St. O runner Gladees Prieur overtook Seattle Pacific's Bente Moe in the final 150 meters to win the individual title by six seconds.

Cal Poly San Luis Obispo hopes to match its women's team and regain the championship it last won in 1979. Senior Michael Miner (25th in 1986) and junior Christopher Craig lead the Mustangs.

Mankato State should remain near the top of the field in 1987. Distance star Alemayelu Tulu has departed, but the Mavericks have found a splendid replacement in Shawn Bernier, who placed 11th as a freshman.

On an individual basis, Mount

St. Mary's (Maryland) junior Sam Cheruiyot will be a favorite to succeed two-time champion Samson Obwocha.

Women's championships

Cal Poly San Luis Obispo finished second at the first Division II women's championships. The Mustangs have not finished that low since and could make it six straight team titles in 1987.

Coach Lance Harter loses top-20 finishers in Lesley White and Carol

See *Division II*, page 8

Wisconsin harriers threaten to dominate Division III ranks

The University of Wisconsin system undoubtedly will have an impact at the Division III Men's and Women's Cross Country Championships.

Wisconsin-LaCrosse goes to the meet at the top of the coaches' rankings of men's teams, with Wisconsin-Stevens Point and Wisconsin-Oshkosh also among the leading contenders.

In the women's poll, Wisconsin-Oshkosh leads 1986 runner-up Ithaca, with Wisconsin-LaCrosse and Wisconsin-Stevens Point in the top 10 as well.

Men's championships

With defending champion St. Thomas (Minnesota) suffering graduation losses, Wisconsin-LaCrosse

will be favored to deliver its state's first Division III cross country title.

Back from 1986's second-place squad are individual runner-up James Batchelor and Mike Junig, who finished second in this fall's Wisconsin State University Confer-

Championships Previews

ence meet. Tim Tschumperlin joined Junig and Batchelor in the top 10 in that meet.

North Central has the division's best tradition in the sport, boasting six national championships. Coach

Al Carius will have the Cardinals in the thick of the fight again in 1987. Seniors Brad Todden and Jay Jackson have alternated this fall as North Central's top runner.

"This is always a hard meet to pick because most of us don't see each other until the nationals," Carius said. "You'd have to call LaCrosse the front-runner, but it would be hard to say who else will be up there. I think there's a lot of balance across the nation."

"We have a nice team, and I think we can be in there somewhere. We looked at this as a rebuilding season, but this team has developed well."

Wisconsin-Stevens Point has the top individual in the competitive Wisconsin State University Conference, and he is supported by a number of proven runners.

Tom Moris defeated the rest of the field at the conference meet, with Pointer teammates Mike Butscher, Mike Nelson and Tim Olson also in the top 20.

Wisconsin-Oshkosh loses proven veterans Bill Niederberger and Jamie Pollard but has on hand juniors Pete Bagnat and Steve Sharp and promising freshman Scott Steuernagel.

Massachusetts-Boston brings a senior-dominated team to Michigan. Chuck Martin is the Beacons' top performer.

Loras is another squad sparked by seniors. Christopher O'Donnell and Pat Tierney have experience in the big meets.

"We've run well but haven't really reached our potential," said O'Donnell, the DuHawk captain. "If we can put it together for the nationals, we could be in the top three or four teams."

Luther, champion in 1985, could contend again. Senior Brian Hawes, a veteran of that title team, leads the Norse.

Jim Batchelor

Tiffany Fox

St. Lawrence, St. Joseph's (Maine) and Calvin could be among the other top contenders.

Women's championships

Strong showings by the men's and women's teams from Wisconsin-Oshkosh would be cause for celebrations at home as well as on campus. Titan women's coach Debbie Vercauteren is married to her counterpart with the men's team, John Zupanc. Both were named WSUC coaches of the year this fall.

Wisconsin-Oshkosh claims an outstanding sophomore in Tiffany Fox, who was a top-20 finisher in her first collegiate season. Teammate Cheryl Niederberger was close behind. Sophomores Marina Colby and Terri Myer and freshman Nancy Klatt also helped as the Titans won a second straight WSUC championship.

"We're confident going in, but we also know that there are some other teams capable of winning," Vercauteren said. "You can't count out Ithaca, and St. Thomas knows how

to peak at the right time."

Hoping to thwart the dream of a sweep by the Badger State, Ithaca brings to the championship a deep squad that could improve on its runner-up finish of 1986.

Key to the Bombers' run at the title last fall was the performance of freshman Jannette Bonroski, who in the span of one year jumped from a fifth-place finish at her state high school meet to a top-10 performance at the national championships.

Joining Bonroski on coach Bill Ware's roster are a pair of proven seniors, Cathy Livingston and two-time all-America Colleen Skelly.

"The great thing about our seniors is that they are undefeated in Division III in their college careers," said Jim Nichols, Ithaca's head track and field coach, who assists with the cross country squad. "They're a great group, and they give the rest of our team confidence."

"I think we can be competitive at the championships, and that's a

See *Wisconsin*, page 8

Championships Profile

Event: Division III men's and women's cross country.

Field: In the men's championships, 21 seven-man teams and 37 individuals will compose the 184-runner field. The field of 136 in the women's championships will include 14 seven-woman teams and 38 individual qualifiers.

Automatic qualification: Although a certain number of teams and individuals from each region are guaranteed selection, there is no automatic qualification for conference champions.

Defending champion: For the second consecutive year, the men's and women's teams from St. Thomas (Minnesota) captured their respective team crowns in 1986. Arnie Schraeder, Wisconsin-Stevens Point, won the men's individual crown, and Lisa Koelgen, St. Thomas (Minnesota), took the individual women's title.

Schedule: Hope College will host the 1987 championships November 21. The women's race will begin at 11 a.m., the men's event at noon.

The NCAA News coverage: Results from the championships will appear in the November 23 issue of the News.

Contenders: Men's contenders include Wisconsin-LaCrosse, North Central, Wisconsin-Stevens Point and Wisconsin-Oshkosh. Women's contenders include Wisconsin-Oshkosh, Ithaca, St. Thomas (Minnesota), Wisconsin-LaCrosse and Rochester.

Championships notes: Other schools have had their men's and women's teams win NCAA titles in the same sport in the same year, but St. Thomas (Minnesota) holds the distinction of winning championships that way in consecutive seasons... This marks the first visit by either championships event to Michigan... North Central is the only school besides St. Thomas (Minnesota) to have won more than one men's team title. The St. Thomas women are the only team to have more than one women's NCAA title.

Consistent Augustana (Illinois) seeks fifth straight

The last time Augustana (Illinois) lost a regular-season football game, the Vikings' 1987 seniors were freshmen in high school, the then-hapless Chicago Bears were in last place in their division and Jimmy Carter was President of the United States.

About the only thing that has changed in Augustana's football program over the last seven years is the date. Since that 20-14 loss October 18, 1980, to North Central, the Vikings have:

- Won seven consecutive College Conference of Illinois and Wisconsin titles.

sin titles.

- Appeared in the last six NCAA Division III play-offs.

Championship Preview

- Compiled an unbeaten streak of 58 games after a 14-0 loss to West Georgia in the 1982 Amos Alonzo Stagg Bowl.

- Won the last four NCAA Division III Football Championships.

If Augustana marches to a fifth consecutive Division III championship, the Vikings will tie the NCAA record of 63 games without a loss set by Washington from 1907 to 1917.

But do not expect coach Bob Reade, who has an 89-8-1 record since coming to Augustana in 1979, to get overly excited about tying a record that started 80 years ago.

"I'll let the newspapers worry about the streak," Reade said. "We're only interested in what we can accomplish as a team in 1987. Our first goal every year is to win the conference title, and we did that last week (with a 28-7 victory over North Central). Our next goal is to complete the season undefeated and gain a spot in the NCAA Division III play-offs. I don't even think about the streak."

Although the championship field will not be determined until November 15, the Vikings are a safe bet for a berth. MacMurray (November 7) was the only hurdle in Augustana's bid for an undefeated season, and the last time the Vikings lost in November was in 1981. A look at statistics through games of October 24 reveals why Augustana is the early favorite to win the 15th annual championship.

Reade's coaching trademarks—a smothering defense and a vaunted running attack out of the wing-T offense—again are stamped on this year's team.

The Vikings ranked first in rushing defense with a 28.7-yards-per-game average and scoring defense

See *Consistent*, page 9

Dennis Fralkes, Augustana (Illinois)

Championship Profile

Event: Division III football.

Field: Four teams from each of four geographical regions will be selected for the 16-team field.

Automatic qualification: None.

Defending champion: With a 31-3 victory over Salisbury State, Augustana (Illinois) won the 1986 title and extended its unbeaten streak to 50 games.

Schedule: First-round games will be played November 21 at on-campus sites. Quarterfinals are set for November 28, also at on-campus sites. Semifinal games will be held at on-campus sites December 5, and the finalists will meet in Phenix City, Alabama, December 12.

The NCAA News coverage: Scores and pairings from preliminary rounds will appear in the November 23, November 30 and December 7 issues of the News. Results of the championship game will be published in the December 14 issue.

Contenders: Augustana (Illinois), Washington and Jefferson, Gustavus Adolphus, and Rochester.

Play-off notes: Augustana (Illinois) has appeared in every Division III championship game since 1982, and the Vikings have lost only one of those title contests (to West Georgia, 14-0, in 1982)... Although they have dominated the division for the past five years, Augustana (Illinois) teams hold only one single-game tournament record and one full-tournament mark... Only the Vikings and Ithaca have won more than 10 play-off games in championship history (16 and 13, respectively)... Only four of the 14 finals played in this tournament have ended in shutouts.

Duke hopes to prove soccer mastery on natural grass, too

The 1987 NCAA Division I Men's Soccer Championship could mark the return of the game to its natural habitat—a grass playing field.

Not since 1983, when the finals were played at neutral-site Ft. Lauderdale, Florida, has the championship game been played on a grass surface. The past three championships saw action on artificial surfaces, some of which provided less than satisfactory playing conditions.

This year, the entire tournament will be played at on-campus sites, meaning that chances are good that the finals of the tournament will be played on natural grass. Among the top teams expected to compete in

the tournament, only Southern Methodist regularly plays on an artificial-turf field.

Coaches see the return to the

Championship Preview

natural environment as a big plus. John Rennie, coach of defending champion Duke, described the ultimate environment as a grass soccer field at a neutral site with an excited crowd. But, he added, "It's better to play on grass at an on-campus site

than to play at a neutral site on artificial turf.

Postseason veterans for the 13-3-1 Blue Devils include the team's top offensive player, senior Tom Stone; senior goalkeeper Mark Dodd, who allowed only two goals in the last 11 games, and sophomore midfielder Joey Valenti.

Indiana head coach Jerry Yeagley also holds a negative view of artificial playing surfaces. "I feel artificial turf really takes away from the game," he commented. "I'd like to think we could find a permanent home for the championship. Until there is a suitable place, this year's format is the better alternative."

The Hoosiers (17-2) have done far better this year than Yeagley ever imagined. "I never expected to be this far with this team because it's such a young team," he said. "They've really come together. They work hard for each other and really enjoy playing together." Yeagley coached the Hoosiers to titles in 1982 and 1983 and to a second-place finish in 1984.

Outstanding players include freshman Ken Snow, who stands a chance of breaking Indiana's single-season scoring record. Also the leading scorer in the nation, Snow has 27 goals and four assists in regular-season action.

Virginia (16-1-2) is the first At-

lantic Coast Conference team to hold conference opponents scoreless through regular-season action. Coach Bruce Arena said, "We have played consistently all year and hope to carry that into the play-offs." Arena has compiled 138 of Virginia's 299 wins.

John Harkes—one of two sophomores named first-team all-America in 1986—had an outstanding season, notching 15 goals and four assists and averaging 2.14 points per game. He is a top candidate for the Hermann Award, given to the collegiate national player of the year.

Fourth-year standout goalkeeper

Mark Dodd, Duke

Championship Profile

Event: Division I men's soccer.

Field: Two teams from each of eight geographical regions will be selected, and eight at-large picks will round out the 24-team bracket.

Automatic qualification: Atlantic Coast Conference, Big East Conference, Colonial Athletic Association, Eastern College Athletic Conference, Metropolitan Collegiate Athletic Conference, Pacific Coast Athletic Association.

Defending champion: Duke defeated Akron, 1-0, and became the school's first team in any sport to claim an NCAA championship.

Schedule: First-round games will be completed by November 15, second-round games by November 22. Third-round games will be played by November 29. The semifinalists will meet on the campus of one of the competing schools for the semifinals and championship December 5-6.

The NCAA News coverage: Scores and pairings from preliminary rounds will be published in the November 16, November 23 and November 30 issues of the News. Results from the semifinals and championships will appear in the December 7 issue.

Contenders: Indiana, Virginia, South Carolina and Duke.

Play-off notes: In the seven championship games played during the 1980s, there have been a total of 20 overtime periods involved... Since the tournament began in 1959, 105 institutions have been represented with teams in the play-offs... Although the school has not been represented in the tournament since 1969, Michigan State owns the best play-off winning percentage at .727 (16-6)... St. Louis and San Francisco are the only teams to have appeared in more than 20 tournaments, and each owns an all-time play-off winning percentage better than .650.

Division II

Continued from page 6

Gleason, but has a solid foundation in Prieur, whose 16:43 clocking last fall set a Division II championships record. And the Mustangs' depth is such that they repeated as California Collegiate Athletic Association champions, over such powers as Cal State Northridge and Cal State Los

Wisconsin

Continued from page 6

credit to what Bill Ware has done in a short time here. Anything can happen at a given meet. If we're healthy, if we run well on that particular day and if we're a little lucky, we can contend."

Defending champion St. Thomas (Minnesota) returns top-five finishers in Jennifer Hintz and Shari Sullivan. However, missing will be individual titlist Lisa Koelfgen, who captured the crown in her only collegiate season of cross country.

Wisconsin-LaCrosse is led by Sarah Gilles and by Cindy Gallenz, who hopes to bounce back from the injuries that have plagued her this season.

Rochester has a returning all-America in Carolyn Misch, but she has been overshadowed this fall by senior Josefa Benzoni, who set a

Angeles, when Prieur was under the weather.

"This may be the best team we've ever had," said Harter. "With Glaudes out, we only had 18 seconds between our first and fifth finishers at the conference. We have depth, and I think we have quality of depth."

course record at every meet in which the Yellow Jackets competed. Jennifer Shaver, a transfer from Allegheny, will further aid the Rochester cause.

St. Olaf could be a dark horse. The Oles, tied for fifth last season, are an experienced squad led by seniors Elizabeth Lee and Karen Settler.

Notre Dame (California) would

Teena Colbrook, national champion in the 800 and 1,500 meters at last spring's outdoor meet, is running well in her first season of cross country. Junior Paula Stehly returns to the sport after a redshirt season, and senior Kris Katterhagen, sixth last fall, is peaking just in time for the championships.

seem destined to drop out of the top echelon with the graduation loss of Linda Van Housen and Caitlin Sullivan. But coach Mike Ipsen has a talented young team paced by junior Lorena Ferreira, who has placed in Division III's top 35 in both of her collegiate seasons.

Wisconsin-Stevens Point, Carleton and Tufts are others that could place among the top teams.

Cal State Northridge is becoming uncomfortably familiar with a bridesmaid's role, having finished second to Cal Poly San Luis Obispo last year in the conference, the regionals and the national championships.

The Matadors' Darcy Arreola ranks as one of the best individuals in the field after earning all-America honors as a freshman in 1986. With Prieur sidelined, she won the title in the mud and rain at the CCAA meet.

Tina Cheyney and Teresa Pry are also key performers for Cal State Northridge.

The service academies are likely to make an impact at this year's meet, with Air Force and Army ranked among the nation's top teams.

Air Force boasted one of the top freshman runners of 1986 as new-

comer Jill Wood placed seventh. An outstanding junior class of Heidi Casperson, Chris Schwartz and Mary Bodnar will help make the Falcons a contender both this season and next.

Close on Wood's heels last fall was Army's Teresa Sobiesk. The holder of every West Point women's cross country mark, she leads a Cadet squad that finished first at the Metro Atlantic Athletic Conference's annual meet.

Seattle Pacific has one of the field's top individuals in Bente Moe, who earned the individual crown as a freshman in 1985 and finished a close second to Prieur last year.

Junior Elisa Banzoni, 17th a year ago, paces Indiana (Pennsylvania), which along with Springfield and Southeast Missouri State could be among the top finishers.

Championships Summaries

Division III field hockey

Regional semifinals: Bloomsburg 5, Ohio Wesleyan 1; Slippery Rock 4, Calvin 0; Southern Me. 3, Salem St. 1; Elizabethtown 2, St. Lawrence 1; William Smith 3, East Stroudsburg 1 (3 ot); Cortland St. 1, Ithaca 0; Frostburg St. 1, Gettysburg 0 (3 ot, penalty strokes); Salisbury St. 2, Trenton St. 1 (ot).

Regional finals: Bloomsburg 7, Slippery Rock 2; Southern Me. 2, Elizabethtown 1; William Smith 2, Cortland St. 1; Salisbury St. 3, Frostburg St. 1.

Semifinals (November 13 at William Smith): Bloomsburg (22-1) vs. Southern Me. (11-3-4); William Smith (18-3) vs. Salisbury St. (11-3-1). Final November 14 at William Smith.

National Collegiate women's soccer

First round: William & Mary 1, Virginia 0; UC Santa Barb. 1, Colorado Col. 0; Central Fla. 3, Barry 0; Connecticut 1, Rutgers 0.

Second round (at on-campus sites, to be completed before November 15): William & Mary (10-6-3) vs. North Caro. (19-0-1); UC Santa Barb. (17-3-1) vs. California (15-0); Central Fla. (11-4) vs. North Caro. St. (17-3-1); Connecticut (15-4-3) vs. Massachusetts (18-1).

Semifinals November 21 at an on-campus site. Final November 22 at an on-campus site.

Division III men's soccer

First round: Bethany (W. Va.) 2, Mary Washington 0; N.C.-Greensboro 4, N.C. Wesleyan 3; Rochester Inst. 3, Binghamton 1; Ithaca 1, Fredonia St. 0; Salem St. 3, Fitchburg St. 2 (2 ot); Clark (Mass.) 2, Plymouth St. 1 (2 ot, penalty kicks); Kean 1, Scranton 0 (2 ot, penalty kicks); Elizabethtown 4, Glassboro St. 1; Cal St. San B'dino 1, La Verne 0; UC San Diego 5, St. Thomas (Minn.) 0; Ohio Wesleyan 2, Calvin 1; Washington (Mo.) 3, DePauw 1.

Second round: N.C.-Greensboro 2, Bethany (W. Va.) 1; Rochester Inst. 2, Ithaca 0 (2 ot); Salem St. vs. Clark (Mass.), to be played November 14 (winner advances to semifinals); Elizabethtown 1, Kean 0 (2 ot, penalty kicks); Cal St. San B'dino 1, UC San Diego 0 (2 ot, penalty kicks); Ohio Wesleyan vs. Washington (Mo.), to be played November 14 (winner advances to semifinals).

Third round (at an on-campus site, to be completed by November 15): N.C.-Greensboro (14-7-1) vs. Rochester Inst. (14-3-1); Elizabethtown (19-2) vs. Cal St. San B'dino (14-2-3).

Semifinals November 20 or 21 at an on-campus site. Final November 21 or 22 at an on-campus site.

Division III women's soccer

First round: St. Thomas (Minn.) 2, St. Mary's (Minn.) 1; William Smith 2, Hartwick 1 (penalty kicks); Scranton 2, Ithaca 0; Plymouth St. 2, Curry 1.

Second round: St. Thomas (Minn.) 1, UC San Diego 0; William Smith 2, Cortland St. 0; Rochester 6, Scranton 0; Plymouth St. 2, Methodist 0.

Semifinals (November 14 at an on-campus site): St. Thomas (Minn.) (12-3-1) vs. William Smith (16-1-1); Rochester (14-1) vs. Plymouth St. (15-3). Final November 15 at an on-campus site.

Duke

Continued from page 7

Bob Willen allowed only four goals in his 16 appearances this season, giving him a 0.27 goals-against average. He compiled 10 individual shutouts and combined with teammate Mark Wayland for two others.

South Carolina coach Mark Berson sees the championship's on-campus site as having two sides. "Having a natural grass surface for the championship will be a tremendous plus," Berson said. "Having it on a soccer field instead of a con-

verted football field will be another advantage. The drawback will be that the host team will have a tremendous advantage, but I think the pluses outweigh this."

Leading the 13-1-2 team is senior forward Doug Allison, a top Hermann Award candidate and the school's all-time career scorer. Allison has 13 goals and 10 assists this year, bringing his career total to 59 goals and 31 assists.

Goalkeeper Charles Arndt has yielded only six goals for a 0.37 goals-against average and was solely responsible for six of the team's 11 shutouts.

Southern Methodist (12-3-1) is one of few teams accustomed to playing on artificial turf. In the three years since the artificial surface was installed on the Mustangs' home field, the team has gone 28-1 at home.

Leading scorers under coach Schellas Hyndman are Larry McPhail, who has nine goals and three assists, and Gerry Graham and Mike Agnew, each with seven

goals and nine assists.

A big concern for Harvard this season has been injuries. The 10-0-2 team has yet to play a game in 1987 with its best squad. Mark Pepper, one of the team's top players and an all-conference selection last year, has played in only two games due to a torn thigh muscle. Coach Michael Getman hopes to have Pepper back in time for the tournament.

However, Getman is pleased with his team's performance. "I'm very pleased with the way we've pulled together and played well despite the injuries," he said. "Our team has shown a lot of character coming from behind to win games against some tough opponents."

Senior midfielder Nick Hotchkin—one of the most respected players in the Ivy League—has established himself as a solid all-America candidate this season. Other standouts include team-leading scorer David Kramer, who has eight goals and two assists, and junior goalkeeper Stephen Hall, who has four shutouts in 10 games.

Consistent

Continued from page 7

with a 6.4-points-per-game average. The Vikings have finished atop the division the last two seasons in scoring defense. Through October 31, Augustana had a string of 74 consecutive quarters without allowing a rushing touchdown.

Augustana's defensive prowess is augmented by the Vikings' ball-control offense, which features a group of running backs operating from Reade's beloved wing-T offense.

"I don't even think I'd know how to change offenses," Reade said. "I've run the wing-T offense all of my coaching career. My staff is accustomed to the offense, and they do a good job of teaching it."

The Vikings' running-back class is led by wingback Dennis Fraikes, who had gained 590 yards and averaged 11.5 yards per carry in the four games preceding the November 7 MacMurray game. Reade has five other backs who have rushed for more than 100 yards through eight games.

Augustana's offense is averaging more than 340 yards a game rushing to lead the division and is ranked second in scoring offense with a 43.1-points-per-game average.

If the need to pass arises, quarterback Greg Wallace and wide receiver Eric Welgat usually get the call. Wallace is averaging one touchdown pass per game, and Welgat has caught six of them.

With so much talent and depth, Augustana appears to be well on its way to some noteworthy records. But Reade can be expected to downplay his glossy accomplishments. After last year's championship, there were no wild celebrations or rallies.

"Why should there be anything special?" Reade asked Bloomington Herald-Telephone sportswriter Bob Hammel after last year's championship.

"We've won 90 percent of our games over the last eight years. The premed department has been 94 percent successful in getting kids into medical school. Let's have a celebration for them."

ECAC sets date for bowl

The Eastern College Athletic Conference announced November 3 that the inaugural ECAC Division III Football Championship Bowl will be played November 28 between winners of the conference's North and South championship games November 21.

All three games will be held at campus sites to be determined by the ECAC Division III Football Selection Committee. The committee will announce its choices for the fifth annual North and South championship games no later than November 16.

Leading contenders for the North region championship game include Rochester, Plymouth State, Curry, Ithaca, Worcester State, Coast Guard, Canisius, Cortland State, Nichols, Westfield State, Alfred, Lowell and Massachusetts Maritime.

Top teams in the South region include Fordham, Hofstra, Kean, Wagner, Wilkes, William Paterson, Widener, Franklin and Marshall, Georgetown, Glassboro State, Mercyhurst, Moravian, Muhlenberg, and Kings Point.

With 78 teams, the ECAC Division III is the largest conference in the country. Teams that have a .500 percentage or better and have declared their interest in participating will be considered. Some of the leading teams also will be considered for NCAA Division III Football Championship berths.

Hall to consider nine nominees

Five college basketball coaches, including Indiana University's Bobby Knight, are among nine nominees for election into the Basketball Hall of Fame.

The nominees, whose playing or coaching careers span the 1930s to the present, were nominated November 3 and will face a committee vote, said Joe O'Brien, the hall's executive director.

Other coaches nominated are Jack Hartman, formerly of Kansas State University; Ralph Miller, Oregon State University; Wil Robinson, formerly of Illinois State University, and the late Phil Woolpert of the University of San Francisco.

Players nominated are former New York Knicks player Earl Monroe, former Minneapolis Lakers and Boston Celtics player Clyde Lovellette, former Notre Dame star John Moir, and former Baltimore Bullets player Wes Unseld.

The results of the Honors Committee vote on the nominees will be announced in early February, O'Brien told the Associated Press. Eighteen of 24 committee votes are needed to qualify for Hall of Fame induction May 3.

There are 161 players and coaches and four teams enshrined in the hall of fame.

Introducing members of the All-American

You're right, you can't
That's how

GTE

NCAA Record

CHIEF EXECUTIVE OFFICERS

Muskingum President Arthur J. De Jong named president at Whitworth, effective February 1, 1988... Harold M. Myers appointed interim president at Drexel, replacing William S. Gaither, who resigned. Myers is a former senior vice-president at the school.

FACULTY ATHLETICS REPRESENTATIVES

Jack O'Malley selected at Scranton, where he is professor of psychology.

DIRECTORS OF ATHLETICS

Gerald K. O'Dell appointed at Northern Illinois. The former Minnesota football assistant and recruiting coordinator has served the past 3½ years as promotions and marketing director at Minnesota. He also has been a football assistant at Oklahoma, Mississippi State and Iowa State... Frank Lignelli named interim AD at Clarion, where he previously served as AD from 1966 to 1986. He steps into the post previously held by Dick Besnier... Roger B. Sanders resigned after 4½ years in the post at Bloomsburg, effective January 1, 1988. He plans to expand his teaching responsibilities and concentrate on his duties as head wrestling coach at the school.

COACHES

Baseball assistant—Cam Bonifay selected at Georgia Tech, where he played baseball and football in the early 1970s. He has served the past six years as a scout with the Cincinnati Reds.

Men's basketball—James R. Conlee appointed at Fitchburg State, succeeding Tom Kelly, who resigned to enter private business. Conlee previously coached at Fitchburg (Massachusetts) High School.

Men's basketball assistants—George Tarkanian named at Pomona-Pitzer. The former San Diego player is enrolled in doctoral studies at the Claremont Graduate School... Former Siena head coach John Griffin selected for a part-time position at St. Joseph's (Pennsylvania). He has been in private business during the past year while serving as a part-time scout for the Los Angeles Clippers... Jack Walko appointed at Buffalo. He is a former coach at Sweet Home High School in western New York, where his teams compiled a 203-78 record... Paul Biancardi named at Suffolk. He also is manager of a corporate fitness club in Boston and is a former assistant basketball coach at Salem State.

Football assistant—Mike Pardee appointed at MIT.

Men's ice hockey—Mike Addesa awarded a contract extension through the 1990-91 season at Rensselaer, where his teams have compiled a 161-90-6 record through eight years. Addesa's 1985 team won the Division I championship... Bob Badone named at Westfield State. He previously was head ice hockey coach for 10 years at Chicopee (Massachusetts) Comprehensive High School, where his teams compiled a 131-51-16 record.

Men's ice hockey assistant—Mike Lazazzera, track and field coach at Agawam High School in Massachusetts, selected at Westfield State.

Men's and women's tennis—Pat Swafford resigned as men's and women's coach at Idaho to work at a private tennis club in Eugene, Oregon. Through two seasons, Swafford's women's teams compiled a 31-17 record and the men's teams were 34-31... Jeff Hamilton appointed men's coach at MIT, where he also will coach men's squash. He previously was tennis and squash coach at Dartmouth.

STAFF

Facility director—Doug Bureman appointed director of the new Myrl Shoemaker Center at Cincinnati. He previously served from 1982 to 1986 as business manager of the Cincinnati Reds before working the past year as a self-employed consultant.

Sports information directors—Sam Sciallo named at Robert Morris... Coastal Carolina's Glenn Mishoe resigned to join a computer firm in Annapolis, Maryland. He has been SID at the school since 1985.

Trainer assistants—Amy Sponaugle and Tom Waltman appointed graduate assistant trainers at Frostburg State... Karen Hughes named assistant trainer at Buffalo.

NOTABLES

Mike White of Illinois named East coach and Terry Donahue of UCLA named West coach for the 1988 Hula Bowl in Honolulu, Hawaii. Assisting White will be Mike Gottfried of Pittsburgh

Gerald K. O'Dell named athletics director at Northern Illinois

Jeff Hamilton appointed men's tennis coach at MIT

and Joe Morrison of South Carolina, and West assistants will be Bob Wagner of Hawaii and Pat Jones of Oklahoma State... Mark Feldman appointed senior marketing manager for Home Team Sports, based in Washington, D.C. He previously was director of corporate communications for the Mutual Broadcasting System.

DEATHS

Kurt Engelbert, a basketball forward at St. Joseph's (Pennsylvania) in the early 1950s who was named Catholic all-America, died of cancer October 15 in Collingswood, Pennsylvania. He was 51... John Mastrangelo, right guard on Notre Dame's 1946 national-championship football team, died of cancer October 2 in Vandergriff, Pennsylvania. He was 61. Mastrangelo also played professionally for the Pittsburgh Steelers and New York Giants... Erik Exum, a sophomore football player at Hope, died September 24 at age 19 after suffering an acute asthma attack in a school dormitory.

POLLS

Division I Men's Cross Country

The top 20 NCAA Division I men's cross country teams as selected by the Division I Cross Country Coaches Association through November 3, with points:

1. Arkansas, 339; 2. Dartmouth, 312; 3. Wisconsin, 311; 4. Penn State, 288; 5. Virginia Tech, 248; 6. Iowa State, 237; 7. Illinois, 227; 8. Arizona, 202; 9. Nebraska, 184; 10. UC Irvine, 158; 11. Clemson, 152; 12. Oregon, 140; 13. Weber State, 102; 14. Tennessee, 91; 15. Wyoming, 86; 16. Texas, 75; 17. Florida, 67; 18. San Diego State, 50; 19. Indiana, 40; 20. Brown, 37.

Division II Men's Cross Country

The top 20 NCAA Division II men's cross country teams as listed by the Division II Cross Country Coaches Association through November 2:

1. Southeast Missouri State, 2. Edinboro, 3. South Dakota State, 4. Cal State Los Angeles, 5. Keene State, 6. Mankato State, 7. Southern Connecticut State, 8. Cal Poly San Luis Obispo, 9. North Dakota State, 10. Troy State, 11. Northeast Missouri State, 12. Cal State Sacramento, 13. UC Davis, 14. UC Riverside, 15. St. Cloud State, 16. Indiana (Pennsylvania), 17. Ferris State, 18. Cal State Northridge, 19. Southern Indiana, 20. East Stroudsburg.

Division III Men's Cross Country

The top 15 NCAA Division III men's cross country teams as selected by the Division III Cross Country Coaches Association through

- November 2, with points:
1. Wisconsin-LaCrosse, 120; 2. North Central, 112; 3. Wisconsin-Stevens Point, 96; 4. Wisconsin-Oshkosh, 92; 5. Rochester, 89; 6. Luther, 74; 7. Massachusetts-Boston, 59; 8. Loras, 51; 9. Rochester Inst., 45; 10. St. Thomas (Minnesota), 37; 11. (tie) Glassboro State and Brandeis, 36; 13. St. Joseph's (Maine), 27; 14. St. Lawrence, 26; 15. Cortland State, 17.

Division III Women's Cross Country

The top 15 NCAA Division III women's cross country teams as selected by the Division III Cross Country Coaches Association through November 2, with points:

1. Wisconsin-Oshkosh, 103; 2. Ithaca, 96; 3. St. Thomas (Minnesota), 89; 4. Wisconsin-LaCrosse, 88; 5. St. Olaf, 73; 6. Rochester, 65; 7. Wisconsin-Stevens Point, 51; 8. Notre Dame (California), 48; 9. Carleton, 46; 10. Tufts, 43; 11. Cortland State, 31; 12. Washington (Missouri), 25; 13. Hope, 24; 14. Gettysburg, 21; 15. Claremont-Mudd-Scripps, 18.

Division I Field Hockey

The top 20 NCAA Division I field hockey teams through November 2, with records in parentheses and points:

1. North Caro. (16-1) 120
2. Maryland (13-4-1) 114
3. Providence (18-0-3) 108
4. Old Dominion (12-4-2) 102
5. West Chester (16-2-1) 96
6. Iowa (14-3-2) 86
7. Virginia (13-4) 86
8. Northwestern (12-4-3) 80
9. Temple (10-4-1) 71
10. Massachusetts (9-5-3) 66
11. Penn St. (13-3-2) 60
12. Delaware (12-3-3) 53
13. Connecticut (9-2-3) 50
14. San Jose St. (8-3-1) 38
15. Lock Haven (10-3-2) 36
16. Northeastern (11-5-1) 32
17. New Hampshire (8-5-1) 26
18. Pennsylvania (7-7) 13
19. California (7-2-3) 10
20. Hofstra (15-3-0) 9

Division I-AA Football

The top 20 NCAA Division I-AA football teams through November 1, with records in parentheses and points:

1. Holy Cross (8-0) 80
2. Appalachian St. (6-2) 76
3. James Madison (7-1) 71
4. North Tex. St. (6-2) 69
5. Jackson St. (6-1-1) 64
6. New Hampshire (6-1) 59
7. Northern Iowa (5-3) 54
8. Northeast La. (6-2) 53
9. Delaware St. (6-1) 47
10. Idaho (7-2) 45
11. Eastern Ky. (6-2) 38

12. Ga. Southern (6-3) 36
13. Weber St. (6-2) 34
14. Western Ky. (5-3) 27
15. Arkansas St. (5-2-1) 24
16. Western Ill. (7-2) 19
17. Richmond (6-3) 16
18. Marshall (6-3) 10
19. Northern Ariz. (6-2) 9
20. Harvard (6-1) 4
20. Howard (6-1) 4

Division II Football

The top 20 NCAA Division II football teams through November 1, with records in parentheses and points:

1. Northern Mich. (9-0) 80
2. Texas A&I (7-1) 75
3. West Chester (8-1) 73
4. Portland St. (7-1-1) 68
5. Eastern N. Mex. (9-0) 64
6. Troy St. (7-1-1) 60
7. Indiana (Pa.) (7-1) 53
7. Central Fla. (6-2) 53
9. Mankato St. (7-2) 48
10. New Haven (7-1) 42
11. Winston-Salem (7-1) 40
12. Butler (6-1-1) 36
13. Tuskegee (7-1) 29
14. South Dak. (7-2) 26
15. Valdosta St. (6-1) 23
16. Clarion (6-2) 21
17. Cal St. Northridge (6-2) 17
18. Angelo St. (6-2) 15
19. Santa Clara (6-2) 8
20. North Ala. (6-1-1) 6

Division III Football

The top 20 NCAA Division III football teams through November 1, with records in parentheses and points:

1. Augustana (Ill.) (8-0) 80
2. Wash. & Jeff. (8-0) 75
3. Gust Adolphus (9-0) 73
4. Rochester (8-0) 68
5. Ithaca (6-1) 62
6. Allegheny (7-0-1) 59
7. Central (Iowa) (7-1) 58
8. Hofstra (7-1) 55
9. Wabash (7-1) 51
10. Wilkes (7-1) 43
11. Hiram (6-1) 39
12. Ferrum (7-1-1) 31
12. Wagner (7-1) 31
14. Menlo (5-2) 29
15. Rose-Hulman (9-0) 25
16. Wis.-Whitewater (6-2-1) 20
17. Susquehanna (7-1) 18
18. Fordham (7-1) 16
19. Monmouth (Ill.) (8-0) 12
20. Luther (7-1) 3

Division I Women's Volleyball

The top 20 NCAA Division I women's volleyball teams through November 2, with records in parentheses and points:

1. Hawaii (24-0) 160
2. Pacific (19-3) 152
3. Stanford (19-3) 144
4. Brigham Young (24-3) 136
5. Colorado St. (20-3) 128
6. Nebraska (23-1) 119
7. UCLA (20-7) 111
8. Illinois (21-3) 103
9. Kentucky (20-1) 99
10. Texas (14-7) 86
11. UC Santa Barb. (19-11) 79
12. Southern Cal (13-8) 71
13. San Jose St. (15-7) 62
14. Texas-Arlington (22-4) 51
15. Cal Poly SLO (16-8) 49
16. Oregon (13-7) 41

17. Long Beach St. (21-8) 33
18. Western Mich. (17-5) 28
19. Pepperdine (13-7) 16
20. California (14-10) 4

Division II Women's Volleyball

The top 20 NCAA Division II women's volleyball teams through November 3, with records in parentheses and points:

1. Cal St. Northridge (22-5) 160
2. Central Mo. St. (31-2) 152
3. Nebraska-Omaha (24-5) 144
4. North Dak. St. (38-5) 135
5. East Tex. St. (22-2) 129
6. Portland St. (19-10) 120
7. Ferris St. (26-4) 112
8. Cal St. Sacramento (24-9) 104
9. Wayne St. (Mich.) (20-5) 96
10. UC Riverside (9-12) 84
10. Tampa (27-2) 84
12. Northern Colo. (32-2) 71
13. Minn.-Duluth (34-14) 65
14. IU/PUI-Ft. Wayne (20-4) 56

Divisions I-AA, II and III scholar-athletes named

Eleven outstanding college seniors from Divisions I-AA, II and III have been named National Football Foundation and Hall of Fame Scholar-Athletes, Chairman Vincent dePaul Draddy announced November 3. They will be honored at the Foundation's 30th Annual Hall of Fame Awards Dinner in New York City December 8.

These standouts qualify for \$1,500 graduate fellowships if they pursue an advanced degree. They will be honored in special on-campus ceremonies at their own institutions later this school year.

Winners include: Daniel Cotter, Monmouth College (Illinois); Brian Crites, Hanover College; Roy Eugene Ellison, Savannah State College; Matt Lang, St. Norbert College; Robert Monroe, Knox College; Bryan Roessler, Carnegie Mellon University; Mike Sherman, DePauw University; John Stepp, Furman University; Kent Wellington II, Kenyon College; Patrick Wempe, Bethany College (Kansas), and Daniel Curtis Young, Virginia Military Institute.

Cotter, a 6-4, 245-pound center, has a 3.710 grade-point average in accounting. He is a native of Chicago and has started every game since he was a freshman.

Crites, 6-2 and 225, is majoring in chemistry and boasts a 3.930 grade-point average. He plans a career in medicine. He is a native of Camby, Indiana.

Ellison, 6-0 and 240, is a native of Lakeland, Florida. His grade-point average is 3.140, and he majors in computer science and computer technology. He is cocaptain of the football team.

Lang, 6-0 and 210, majors in chemistry and has a 3.930 grade-point average. He is a native of Beloit, Wisconsin, and he plans a career in medicine.

Monroe is 6-1, 194, and holds 15 individual records. He has contributed to 11 team records. A native of Hortonville, Wisconsin, Monroe is majoring in economics and has compiled a 3.680 grade-point average.

Roessler, a 6-0, 200-pounder from Pittsburgh, has a 3.680 grade-point average in chemical engineering. He also is cocaptain of the football team.

Sherman, a 6-2, 190-pound defensive halfback, majors in eco-

nomics and has a 3.780 grade-point average. He is a native of Indianapolis and captain of the DePauw team.

Stepp, a 6-0, 190-pound safety and end, is a two-time captain at Furman, majoring in pre-engineering with a 3.310 grade-point average. He is a native of Kingsport, Tennessee.

Wellington is a 6-0, 185-pound economics and English major from Wooster, Ohio. He has a 3.510 grade-point average and plays cornerback. He plans a career in law.

Wempe, a 6-4 tight end from Little River, Kansas, has a 3.570 grade-point average in premedicine. He also is president of the senior class and was homecoming king.

Young, 6-1 and 250, is a defensive tackle and four-year starter. He is vice-president of VMI's honors court. He has a 3.650 grade-point average in economics.

Announcing:

National is the Official Car Rental Company for NCAA Championships.

We feature GM cars like this Buick Century.

National is proud to be the "official car rental company" for NCAA Championships. And we're out to perform well on your scorecard. Just look at the outstanding travel value we provide you:

Special Low NCAA Rates. Simply show your NCAA affiliated school I.D. at the time of rental to take advantage of these low unlimited mileage daily rates:

Car Type	Daily Rate*
Economy	\$31.00
Compact	32.00
Mid-size	33.00
Full-size 2-dr	34.00
Full-size 4-dr	35.00

Cars in Top-Condition. According to the United States Auto Club's recent car condition audit of the major car rental companies, National's cars are "the best in overall condition." Choose from our wide range of car sizes and models. You'll enjoy the same kind of reliability with whatever vehicle you select to fit your plans.

24-Hour Peace of Mind. Thanks to our strict car maintenance program, you'll probably never need this service. But it's nice to know that National, backed by the Amoco Motor Club, provides free 24-hour emergency road service. Assistance can be just a toll-free call away. Anytime of night or day.

Convenient Service Where You Need Us. National Car Rental is conveniently available with fast, friendly service at over 3000 locations in 113 countries and territories around the world. You'll find us in over 1000 locations in the U.S. alone. And it won't be hard to find us. Our rental counters are right in the major airport terminals where you need us - to get you off and running without delay.

National Car Rental®

The NCAA deserves National attention®

For details and reservations, call toll-free 800-CAR-RENT™ or your travel consultant.

*Rates shown are non-discountable, available at participating locations and subject to change without notice. Specific cars are subject to availability. You pay for gas used and return the car to the renting location. Normal rental qualifications apply. A surcharge may apply in certain metro areas. Rates slightly higher for drivers under 25.

'Big four' to meet

The first Big Four Classic, a college basketball doubleheader involving Indiana, Notre Dame, Louisville and Kentucky, has been sold out, officials announced November 4.

Athletics directors from the four schools competing in Indianapolis' Hoosier Dome December 5 said a crowd of up to 40,000 is expected. Notre Dame will play Louisville at 2 p.m. local time, with defending national champion Indiana against Kentucky in the second game.

Both games will be nationally televised by ABC.

"For four years, we've been working on this doubleheader," said Indiana athletics director Ralph Floyd, "and it's probably the premier doubleheader that's ever been put together on a weekend in college basketball."

The classic, designed to showcase cross-state rivalries, will feature Indiana and Notre Dame playing each of the two Kentucky teams twice in the four-year series, the Associated Press reported.

Each team also will play regular-season games in 1987-88 with the two teams not played in the doubleheader.

Syracuse, UTEP battle for 'most-improved' crown

By James M. Van Valkenburg
NCAA Director of Statistics

Going into the home stretch, 9-0 Syracuse leads the Division I-A race for the national most-improved-team title, with 7-2 UTEP close behind. Bowl results may be needed to determine the winner.

Syracuse would finish the regular season up six full games over last year's 5-6 mark by winning its last two regular-season games against 5-5 Boston College and 5-4 West Virginia. UTEP, now involved in a three-way race for the Western Athletic Conference championship with Wyoming and Brigham Young, could finish 9-2 by winning its last two against those two teams. That would leave the Miners up 5½ games over last year's 4-8 finish (five more victories and six fewer defeats is 11, divide by two). UTEP is assured of its first winning season in 17 years.

A bigger dream

Syracuse, of course, has a bigger dream than the most-improved title. The Orangemen have a chance at a perfect season and a national championship, which is exactly what the 1959 Syracuse team accomplished.

Quarterback Don McPherson is having a great season for Syracuse. He ranks No. 3 nationally in passing efficiency. He led a stunning 48-21 romp over Penn State—a game in which Syracuse ran up a 41-0 lead.

Coach Dick MacPherson, unpopular in a losing 1986 season, suddenly is in great demand and lauded as a genius just a year later. Says the veteran coach: "Brent Musburger and those people, they don't like me any better than anybody else. But they do like me if our team's coming on. Now, I'm going to be a 'heckuva guy' and 'just running a great program up there.' Look, I understand what it's all about. And I know that they know I know. No hard feelings."

He has turned the program around. After a 9-20-1 start, he has won 30 of the last 46 games at Syracuse for a 39-36-1 record.

The 1959 champions, in the one-plateau or "iron-man" era, had a great defense and were led by the late Ernie Davis in his sophomore season. He had a season average of seven yards per carry and scored twice in a 23-14 Cotton Bowl victory over Texas, once on an 87-yard pass play. He later won the 1961 Heisman Trophy.

Nothing fancy

UTEP coach Bob Stull, a Kansas State graduate and native of Davenport, Iowa, started the Miners back last year in his first year on the job. Four victories was the most at UTEP since a 4-7 finish in 1974 (and the Miners were 15-121 between 1974 and last year).

Now, UTEP is drawing big crowds in Sun Bowl Stadium and contending for the WAC title with a 5-1 record vs. BYU's 4-1 and Wyoming's 5-0. Tailback John Harvey leads a balanced offense. "We're not doing anything fancy," Stull says. "We're just trying to do a good job recruiting and a good job teaching and building confidence." UTEP's last winner was the 6-4 team of 1970 under Bobby Dodds.

Notre Dame among others

Should Syracuse and UTEP stumble, two teams could show a five-game improvement by sweeping their remaining regular-season games. They are 7-1 Notre Dame and 6-2 South Carolina. However, Notre Dame closes with an impressive lineup indeed—Alabama, Penn State and Miami (Florida). South Carolina's remaining schedule is almost as tough, with 6-3 Wake

Utah quarterbacks Scott Mitchell and Chris Mendonca rank 15th and 16th, respectively, in Division I-A passing efficiency

Forest, once-beaten Clemson and Miami (Florida).

Three teams can finish up 4½ games by sweeping their remaining games—5-5-1 Utah, 4-4-1 Northern Illinois and 3-5-1 Memphis State. Six more can finish up four games in the regular season. They are 7-2 Wyoming, 5-4 Virginia, 5-4 Texas Christian, 5-5 East Carolina, 3-6 Vanderbilt and 5-5 Cal State Fullerton.

Indiana on list

Two more teams could finish up

42,470 per game for the season in Division I-A, up 366 per game over this point last season for the same 104 teams, with 79.5 percent capacity both years. In I-AA, the average of 11,437 is up 522 per game over the same point in 1986, with percentage of capacity 57.5 now vs. 54.8 then.

Santos 10,661

San Diego State's Todd Santos reached 10,661 yards in career passing November 7 with 248 yards vs. Brigham Young, breaking the I-A

Emory and Henry's Gary Collier (left) has broken the Division III record for career touchdown passes with 73. Teammate Paul Overbay, who holds most of the school's receiving records, has caught 20 of Collier's scoring tosses.

per game rushing and 402.94 passing (both teams combined) for a total-offense average of 756.88 rushing-passing yards per game, breaking the record of 747 set October 24. The passing figure breaks the 399.7 set October 29, 1983. Scoring averaged 49.02, barely missing the record of 49.12 set November 23, 1968, and the second-high 49.10 of November 2, 1968.

Season total offense now has reached 716.1—well above the record 710.5 for 1985. Passing now is 368.2, only third highest, so the strong rushing trend noted previously is responsible for the record total offense. Rushing now is 347.9—highest since 1980. Scoring now has reached 46.1 per game well above the record of 45.4 set last year. Division I-AA figures are still running well behind last year's record levels.

Brown vs. Rodgers

Notre Dame's Tim Brown is racking up some impressive all-purpose figures this season, and it is time to compare him category-by-category with Nebraska's Johnny Rodgers, the 1972 Heisman Trophy winner.

First, let us make the point that all-purpose comparisons often are rendered invalid by a mismatch in play emphasis. The point is that rushing and punt-return plays always have much lower per-play averages than receptions and kickoff returns. Thus, if player A has a much higher percentage of rushes and punt returns than player B, it is impossible for player A to have a higher all-plays average.

Brown and Rodgers are fairly close in this respect, however. Rodgers had a slightly higher ratio of rushes and punt returns and thus should have a lower per-play average, which he does. First let us compare their senior seasons:

Per play:	Brown	Rodgers
Rushing	4.7	4.6
Receiving	22.0	17.1
Punt Returns	12.9	15.8
K.O. Returns	20.6	23.0
All Plays	14.6	12.6
Per game:		
All plays	12.1	14.5
All yards	176.9	182.8
Points	5.5	9.3

As the chart shows, Brown is averaging 14.6 yards per all-purpose play this fall vs. 12.6 for Rodgers in his Heisman season of 1972. However, keep in mind that 53.6 percent of Brown's plays have been rushes and punt returns vs. 60.6 percent for Rodgers in 1972. And Rodgers has a slight edge in yards per game plus a big edge in points per game. Obviously, both are in the game-breaker category. Here is a comparison of their last two seasons combined:

Per play:	Brown	Rodgers
Rushing	4.4	5.6

Receiving	20.9	16.8
Punt Returns	14.7	16.2
K.O. Returns	25.0	27.1
All plays	14.7	13.7
Per game		
All plays	12.0	12.7
All yards	176.4	173.7
Points	5.2	8.7

Obviously, the two are very close except in scoring. Rodgers got the ball a little more often both years and his rushing/punt-return ratio for two years combined is 56.8 percent vs. 49.6 percent for Brown; thus Rodgers' per-play average should be a little lower, which it is. Rodgers had a record per-play average of 15.0 as a junior in 1971 and Brown barely missed it last year at 14.8 (using minimums of 1,500 yards and 125 plays). Rodgers played for a stronger team as a junior—Nebraska was undefeated and national champion in 1971 while Notre Dame was 5-6 last year. Both played for big winners in their senior seasons.

Quotes of the week

Trenton State set a record for most points by a losing team in a regulation game in its 53-51 loss to Pace, as time expired before Trenton could get its field-goal team on the field for a shot at a winning field goal. An unidentified spectator then offered this advice to media people in the press box: "Give the defensive player-of-the-game award to the clock operator—he's the only one who could stop them from scoring." (John Balkam, Pace SID)

Iowa coach Hayden Fry after his team defeated Indiana: "Today was the first time the guys have done the hokey-pokey in the dressing room all season. I knew they were really happy." Headline the next day in the Des Moines Register: "Iowa Does Hoosier Hokey-Pokey." (Scott Sailor, Iowa assistant SID)

Can you top these?

Franklin and Marshall's Dale Amos had a Division III record 309 yards receiving on 12 catches against Western Maryland October 24, breaking the former record by six yards. (Peter Bidstrup, Franklin and Marshall SID)

Emory and Henry's Gary Collier now has 73 career touchdown passes, breaking the Division III record of 71. Twenty of those TD catches were by Paul Overbay, who holds most of the school receiving records. (Patsi Barnes Trollinger, Emory and Henry SID)

Ferris State's Dave DenBraber set a Division II record with his 24th game of more than 200 yards passing. With 8,140 career passing yards, he is closing in on the division career mark of 8,521 by Jim Lindsey, Abilene Christian '70. (Ted Halm, Ferris State SID)

Football notes

3½ games by winning their remaining games. They are 7-2 Indiana, which faces Michigan State in a Rose Bowl showdown November 14, and 2-5-1 California, closing with Arizona State, Stanford and Washington State.

Four teams could finish up 3½ by taking their remaining games plus a bowl game—8-2 Eastern Michigan, which has clinched a tie for the Mid-American Conference crown, 8-1 Florida State, 7-2 Oklahoma State and Wake Forest.

I-AA leaders

Weber State, 7-2 under Mike Price, and Youngstown State, 6-3 under second-year coach Jim Tressel, lead the most-improved race in Division I-AA. Each can finish the regular season up six full games by winning their remaining games. Close behind is 4-5 Tennessee Tech, up 5½ games from last year's 0-10 in Jim Ragland's second year on the job. Weber State finishes with 4-5 Nevada-Reno and 2-6-1 Idaho State. Youngstown State's last two are against 2-6 Morehead State and 3-6 Akron. Tennessee Tech ends up with 5-4 Tennessee-Chattanooga and 4-5 Middle Tennessee State.

Obviously, play-off results may be needed to determine a winner. If those in the top three stumble, the most-improved champion may come out of the Ivy League, where 6-2 Yale, 5-3 Princeton and 6-2 Harvard all can finish with a five-game improvement by sweeping their remaining games. That will not happen, though, because Yale ends the season with Princeton and Harvard.

Both Princeton and 3-6 Virginia Military can reach four games by taking their remaining games, while 6-3 Alabama State, 6-3 Northeastern and 7-2 James Madison all can reach 3½ games with a sweep.

Attendance still up

Attendance now is averaging

career record of 10,623 set by Kevin Sweeney of Fresno State last year. With two games left, Santos likely will become the first 11,000-yard passer in I-A history. However, the I-A record for total offense of 11,317 rushing-passing yards, set by 1984 Heisman Trophy winner Doug Flutie of Boston College, obviously is safe, since he leads Santos by 1,478 yards.

White and Thomas over 4,000

Michigan State's Lorenzo White reached 4,129 career rushing yards, most among current I-A players, with 144 November 7 vs. Purdue. Close behind is Oklahoma State's Thurman Thomas, who enjoyed a 173-yard day against Oklahoma's outstanding defense to reach an even 4,100 for his career. Michigan's Jamie Morris is next at 3,678.

Schmidt 370 points

Florida State's Derek Schmidt reached 370 career points against Auburn, breaking the I-A career record of 368 by Arizona State's Luis Zendejas from 1981 through 1984. Both were given many extra-point chances by high-scoring teams, but both also rank high in field goals. Zendejas had 78 career field goals. Schmidt now has 67.

Three interception TDs

Never in a half-century of NCAA football record-keeping had a player in any division scored three interception touchdowns in a single game (a jillion players had two)—until November 7, when Houston's Johnny Jackson had three for 181 yards (one short of the record of 182) in that rather amazing 60-40 victory over Texas. Rodney Thornton had another, giving Houston an NCAA record of four interception TDs.

A record offensive day

November 7 was an all-time record offensive Saturday in Division I-A history. The 51 games involving I-A teams produced 353.94 yards

Administrative Committee minutes

1. Acting for the Council, the Administrative Committee:

a. Noted that the Council's action in its October meeting in appointing, at the recommendation of the Division III Steering Committee, a woman director of athletics to fill a current vacancy on the Committee on Competitive Safeguards and Medical Aspects of Sports was not in accordance with the provisions of Bylaw 12-3-(d)-(1), which requires that at least one male director of athletics serve on the committee; rescinded that appointment and appointed Roy F. Kramer, Vanderbilt University, to fill the vacancy.

b. Appointed Thurston E. Banks, Tennessee Technological University, to the Council replacing G. E. "Sonny" Moran Jr. as the Division I-AA Central region representative, noting that Mr. Moran no longer is at a Division I-AA member institution.

c. Appointed Joseph Crowley, University of Nevada, Reno, to the Council Subcommittee on Eligibility Appeals, replacing Mr. Moran.

d. Appointed Mr. Banks to the Council Subcommittee to Stimulate the Membership's Compliance and Enforcement Efforts, also replacing Mr. Moran.

e. Agreed not to replace Mr. Moran on the Special Council Subcommittee to Review Playing Seasons, noting that the work of that subcommittee is nearing completion and Division I-AA already is represented on the subcommittee.

f. Appointed Linda K. Estes, University of New Mexico, to the Men's and Women's Skiing Committee replacing Mary Ellen Cloninger, no longer at an institution that sponsors intercollegiate skiing; appointed Terry Aldrich, Middlebury College, to replace Ms. Cloninger as secretary-rules editor of that committee.

g. Noted that an earlier appointment by the Women's Committee on Committees to the Men's and Women's Track and Field Committee would result in two women from the same conference serving on that committee, contrary to Bylaw 12-1-(g); appointed Sherry Calvert, Whittier College, to fill that position.

h. Took final action in accordance with the November 1 deadline for submission of legislation for the 1988 Convention on a number of Council-sponsored proposals, making editorial changes in some and giving final approval to others, as authorized by the Council in its October meeting. Only those on which some other substantive action occurred are specifically reflected in these minutes.

(1) Noted that an amendment to Constitution 4-3-(b)-(2) would confirm that a

Conference No. 19
October 29, 1987

member conference must sponsor at least four men's sports to vote on men's-only issues and at least four women's sports to vote on women's-only issues; therefore, a conference sponsoring only football as a men's sport would not have the voting privilege on football issues.

(2) Noted that an amendment to Constitution 5-8 would result in Division II members' being eligible only for the National Collegiate Championship in a circumstance in which there is a National Collegiate Championship and a Division III championship; directed the staff to determine if that was the intent of the Executive Committee in proposing the legislation. [Note: That intent subsequently was confirmed.]

(3) Adjusted the legislation proposing four-month recruiting limitations in all sports to reflect the Division II Steering Committee's desire that the specific permissible dates in all sports be the same for Divisions I and II, as well as that committee's earlier recommendation that an exception provision be limited to those states in which the high school playing season in a given sport is not the traditional season for that sport. A more liberal "wild card" exception was rejected. It also was noted that the Council will receive a memorandum setting forth the sources of information on which

the proposed dates were based.

(4) Approved inclusion in an amendment to Bylaw 1-6 of confirmation that an institution's coach is permitted to be a participant, in addition to permissible involvement as an instructor or coach, in a local sports club.

(5) Approved the final language of a resolution that would place the Division I-A membership on record as not favoring a Division I-A national football play-off.

(6) Agreed that the Council, rather than the Academic Requirements Committee, should have the authority to grant appropriate additional exceptions to Bylaw 5-1-(j) and should establish a process for that purpose.

(7) Noted that members of the NCAA Executive Committee had expressed no objection to an amendment to Bylaw 5-2 to permit the NCAA to test a member institution's football players for use of anabolic steroids during the period between January 1 and the end of the institution's academic year; reworded that proposal to emphasize that the institution's participation in such a program is voluntary.

(8) Specified that the effective date of an amendment to increase the Pell Grant exemption in Division I to \$1,400 would be August 1, 1988.

(9) Noted that the National Association of Basketball Coaches reportedly had decided not to pursue an amendment to Bylaw 7-1 to limit a Division I institution to four basketball coaches, with three designated to recruit and scout off campus.

(10) Noted for the record that a proposed amendment to Bylaw 10-1-(f), as recommended by the Committee on Review and Planning, would not change the effect of the provisions as they relate to institutions that fail to meet a division's scheduling criterion but would specify that an institution that failed to meet the division's sports sponsorship criteria would have only one additional year in which to comply with the criteria, before being reclassified as a corresponding member.

(11) Voted to approve all of the legislative proposals as presented or revised during this telephone conference.

2. Acting for the Executive Committee, the Administrative Committee:

a. Authorized the development of a videotape describing the Association's rules and regulations regarding the involvement of player agents with student-athletes as recommended by the Professional Sports Liaison Committee and referred by the NCAA Council in its October meeting; urged that the videotape be completed as expeditiously as possible.

b. Appointed the following as a subcommittee to review prior to the December Executive Committee meeting an appeal by the University of Alabama, Tuscaloosa, that will be acted upon in that meeting: Merrily Dean Baker, Francis W. Bonner and Edward E. Bozick (chair).

3. The Administrative Committee cancelled its scheduled telephone conferences for November 5 and 19, instead scheduling a conference for 2:30 p.m. Central time November 12. It also agreed to determine when it meets December 6 if it will be necessary to conduct the scheduled conference December 31.

4. Report of actions taken by the executive director per Constitution 5-1-(g) and 5-2-(d).

a. Acting for the Council:

(1) Granted waivers per Constitution 3-9-(c)-(2)-(iii) as follows:

(a) To permit a student-athlete from a member institution to participate in rifle competition as a member of the U.S. national team.

(b) To permit a student-athlete from a member institution to participate in gymnastics competition as a member of the U.S. gymnastics team.

(c) To permit student-athletes from two member institutions to participate in competition sponsored by USA Wrestling.

(2) Granted waivers of the tryout rule per Bylaw 1-6-(c)-(1) as follows:

(a) University of Denver, TAC developmental clinic.

(b) Michigan State University, developmental track clinic.

(c) University of Tennessee, Knoxville, TAC developmental clinic.

(d) University of Texas, Austin, developmental tennis clinic.

(e) University of Wisconsin, Milwaukee, three developmental track meets.

(3) Granted a waiver of the tryout rule per Bylaw 1-6-(c)-(2) to permit the use of facilities at the U.S. Air Force Academy for open swimming competition.

(4) Granted waivers of the tryout rule per Bylaw 1-6-(c)-(5) as follows:

(a) University of California, Los Angeles, various high school volleyball contests.

(b) Hofstra University, various high school football and volleyball contests.

(c) Johns Hopkins University, charity benefit contest in lacrosse.

(d) Louisiana State University, various high school athletics activities.

(e) Ohio Wesleyan University, high school field hockey tournament.

(f) Wright State University, high school wrestling tournament.

b. Acting for the Executive Committee:

(1) Granted waivers for championships eligibility per Executive Regulation 1-5-(e) to the following institutions, which failed to submit institutional information forms by the specified deadline and, in cases involving previous waiver requests, the appropriate fines were paid: Fordham University, Lincoln University (Pennsylvania), Mississippi State University.

(2) Approved a recommendation by the Division I Women's Volleyball Committee that the Southwest Athletic Conference be granted automatic qualification for the 1987 Division I Women's Volleyball Championship.

(3) Approved for one year only a recommendation by the Division III men's and women's track subcommittee that the formula for the number of individuals permitted to qualify from each region for the NCAA Division III Women's Cross Country Championships be adjusted to allow one additional berth from any region with 28 or fewer sponsoring institutions, rather than 30 or more as approved earlier, noting that this action is consistent with an earlier action regarding qualifying teams for that championship.

Legislation and Interpretations Committee minutes

Acting for the Council, the Legislation and Interpretations Committee:

1. Reviewed two previous Council-approved interpretations (reference: Item No. 7 of the minutes of the committee's June 4, 1987, conference and Item No. 9 of the minutes of the committee's September 3, 1987, conference) establishing criteria regarding institutional questionnaires issued to prospective student-athletes; agreed that a member institution is permitted to continue to distribute previously published institutional questionnaires (that do not meet all the criteria established by the committee) through the 1987-88 academic year, provided the questionnaires do not serve as institutional recruiting promotions; affirmed that any institutional questionnaire developed subsequent to the committee's September 3, 1987, interpretation (or utilized subsequent to the 1987-88 academic year) must conform to the criteria established by the committee; directed the legislative services staff to review and approve any institutional questionnaire to be utilized by a member institution in the 1987-88 academic year that does not meet the criteria established by the committee.

2. Reviewed a previous Council-approved interpretation (reference: Item No. 1-e of the minutes of the committee's August 20, 1987, conference), which referred to the NCAA legislative services department conference-contact program the issue of whether indoor and outdoor track should be treated as separate sports for purposes of the Association's awards legislation; concluded from the information received that the sports of indoor and outdoor track should be treated as separate sports for purposes of the awards legislation; agreed that a member institution would be permitted to provide separate awards to student-athletes in each sport, but would be precluded from combining the value of annual participation awards for the sports of indoor and outdoor track to provide more expensive awards (i.e., costing more than the normal limit for any individual) for those student-athletes who participate in both sports.

3. Considered a previous Council-approved interpretation, which specified that the transfer exception under Bylaw 5-1-(m)-(14) would not be available to student-athletes in the sport of ice hockey beginning August 1, 1986, regardless of the timing of the student-athlete's decision to initiate the transfer process; confirmed that the waiver opportunity in Bylaw 5-1-(m)-(14) would not be available to a student-athlete in the sport of ice hockey because of a misunder-

standing that the institution to which the student-athlete transferred conducted a Division III ice hockey program (rather than a Division I program).

4. Reviewed Bylaw 3-3-(r) indicating that in the sport of golf a member institution shall be considered to have utilized a date of competition if one or more student-athletes participate on behalf of the institution on a particular date; concluded that in determining whether a member institution has utilized a date of competition for its varsity team, a varsity event shall be defined as one in which at least 50 percent of the individuals representing an institution in a tournament participate primarily on the varsity level.

5. Reviewed the provisions of Bylaw 5-3-(d) permitting exceptions to Bylaw 5-1 for member institutions that have suffered extraordinary personnel losses from one or more of their intercollegiate teams due to accident or illness of a disastrous nature for a situation in which members of a women's soccer team, after participating in the first three contests of the 1987 season, were involved in a traffic accident while being transported on a team bus, resulting in the institution's canceling the remainder of its 1987 schedule in the sport; agreed that the provisions of Bylaw 5-3-(d) should be interpreted to permit a student-athlete to receive an additional year of competition for reasons of "hardship" per Bylaw 5-1-(d)-(2), subject to confirmation by the member institution that the scope of the injuries to team members was sufficient to warrant the decision to cancel the remainder of the season; confirmed that in order to receive a waiver per Bylaw 5-1-(d)-(2), the institution would not be able to resume its schedule with outside competition during the spring soccer season.

6. Considered the application of Constitution 3-1-(e) and Constitution 3-1-(a)-(3) to a situation in which a student-athlete wishes to author, publish and market an institutional booklet on tennis techniques; concluded that the provisions of Constitution 3-1-(e) would prohibit a student-athlete from being personally identified in the marketing of a booklet related to sport-skill demonstration, analysis or instruction; agreed that a student-athlete may author such a booklet,

provided the student-athlete's name does not appear in the booklet (e.g., a pseudonym is utilized) and the student-athlete is not involved in the promotion or sale of the booklet.

7. Considered the application of a previous Council-approved interpretation (reference: Item No. 1 of the minutes of the committee's July 23, 1987, conference) defining "collegiate competition" for purposes of Case No. 287, noting the manner in which this interpretation relates to the sports of track and field, wrestling, and swimming; reaffirmed that any competition, which would include any athletics event that is open only to collegiate competitors or involves individuals or teams from collegiate institutions participating in competition to score points for the represented institutions, constitutes "collegiate competition" in all sports; agreed that collegiate athletics competition involving high school and "open" competitors (e.g., Kansas Relays, Penn Relays) would be subject to the same provisions, and that this issue should be reviewed further in the NCAA News.

8. Considered a previous Council-approved interpretation (reference: Item No. 3 of the minutes of the committee's May 7, 1987, conference) confirming that a member institution is permitted to provide athletics equipment to bona fide youth organizations (e.g., the YMCA, a boy scout troop, a summer recreation league) that may consist of prospective student-athletes, provided the issuance of equipment is in accordance with the institution's regular policy regarding the discarding of equipment; agreed that the application of this interpretation and the provisions of Bylaw 1-10 (precollege expense) would preclude a member institution's athletics department or coaching staff member from sponsoring a "mite" team (ages six to eight) in an area youth soccer league in which sponsorship consists of a financial donation and the name of the collegiate institution or coaching staff member appearing on the team's jerseys.

9. Considered the application of the waiver provisions of Bylaw 5-1-(m)-(11) to a situation in which a student-athlete attends one day of spring practice at a member institution and returns to the original certifying institution; confirmed that Bylaw 5-1-(m)-(11) is not available to a student-athlete who participates in a practice session at a collegiate institution prior to returning to the original certifying institution.

10. Reviewed the application of Bylaw 10-6-(b), which indicates that to be eligible for a National Collegiate Championship con-

ducted for more than one division in certain sports, an individual normally is required only to meet the institutional and individual eligibility requirements of its division that govern the sport in question. In those sports in which two-thirds or more of the institutions sponsoring the sport are members of the same division, however, an institution that desires to participate in such a championship is required to meet the institutional and individual eligibility requirements of that division in the sport and those of its division (or the more stringent rule if both divisions have a rule concerning the same issue); agreed that the application of Bylaw 10-6-(b) would not require Division I institutions participating in a National Collegiate Championship in certain individual sports to apply a 26-week playing season limitation similar to Division II institutions, inasmuch as Bylaw 10-6-(b) was not intended to require the division with two-thirds sponsorship of the championship to apply the minority standard; noted also that this regulation requires only that an institution meet the institutional and individual eligibility (as distinguished from playing season) requirements of its division or, if both divisions have an eligibility rule concerning the same issue, the more stringent rule.

11. Reviewed the application of the provisions of Bylaw 2-3 (special-events criteria) and Constitution 2-2-(a) to a situation in which certified all-star basketball game has been receiving a significant financial contribution from the National Basketball Association, and the professional organization now wishes to purchase large blocks of tickets to the contest and be involved with extensive advertising of the all-star game; agreed that Constitution 2-2-(a) would not appear to relate to the certification of the all-star basketball game as a result of this involvement by the professional organization.

12. Considered the application of Bylaw 5-1-(k)-(1)-(ii) [4-2-4] and Bylaw 5-1-(m)-(11) [4-4-4] to a situation in which a student-athlete transfers from a four-year collegiate institution, attends a junior college and competes in the sport of wrestling, enrolls in another four-year institution that does not sponsor the sport of wrestling, and then transfers back to the original four-year institution (4-2-4-4); agreed that inasmuch as the student-athlete enrolled in the junior college and participated in wrestling at that institution and attended another four-year institution before transferring back to the original four-year institution, the waiver provisions of Bylaws 5-1-(k)-(1)-(ii) and 5-1-

(m)-(11) should not be applicable to the student-athlete's situation.

13. Reviewed and confirmed the application of a previous Council-approved interpretation (September 1978) noting that the provisions of Constitution 3-1-(e) would not permit a commercial film producer to use film of an institution's football game as background footage for a commercial movie; confirmed that the provisions of Constitution 3-1-(e) permit the film producer to utilize previous footage of an institution's intercollegiate game if all individuals appearing in the footage have exhausted their seasons of eligibility.

14. Reviewed a previous Council-approved interpretation (reference: Item No. 3 of the minutes of the committee's August 6, 1987, conference) involving the application of Bylaw 1-1-(b)-(3) [printed recruiting aids], Bylaw 1-10 [precollege expense] and Constitution 3-2-(d) [institutional control] to a situation in which a publication presenting an annual review of an institution's previous season in a sport seeks sponsorship from local businesses (some of which involve representatives of the institution) in order to place the publication in the libraries of high schools within the state; concluded that Constitution 3-2-(d) and (e) [institutional responsibility] would require that the institution advise the publication and the institution's athletics representatives that the provisions of Bylaws 1-1-(b)-(3) and 1-10 prohibit this type of promotional activity; agreed that inasmuch as Bylaw 1-1-(b)-(3) was adopted in January 1986, and the publication previously received correspondence from the national office regarding its permissibility prior to the adoption of the new legislation, the publication is permitted to continue to fulfill existing commitments involving the 1987-88 intercollegiate season.

15. (Division I) Considered a previous Council-approved interpretation of Bylaw 5-1-(j) regarding SAI and ACT scores utilized by students entering Division I institutions during the 1987-88 academic year, noting that the highest scores achieved on verbal and math sections of the SAI and individual subsets of the ACT from different national testing dates may be combined in determining whether the student has met the minimum-test-score requirements; agreed that inasmuch as the Council has previously issued an interpretation restricting the application of combined test scores to only those students entering Division I institutions beginning with the 1987-88 academic year, the committee does not have the authority to alter an existing Council interpretation.

See Legislation, page 17

Team works on fielding, hitting and babysitting

Baseball players at Mansfield University of Pennsylvania must do three things well: field, hit and babysit.

For the fifth year, the Mansfield baseball team is operating Kids' Nite Out, a program that allows community youth to use the facilities of the school's Decker gymnasium.

"We scheduled 11 nights this year," said Roger Maisner, director of athletics at the university and founder of Kids' Nite Out. "From the start, we had great community support."

The kids' nights—usually held on Saturdays from 6 to 11 p.m.—never have drawn fewer than 100 youngsters; sometimes more than 250 attend. Participating youths range in age from 6 to 17.

There's a good reason why the program is popular in Mansfield, Pennsylvania, a town of approximately 4,000 residents in rural Tioga County. There is no YMCA or similar facility in the entire county.

"Saturdays are the pits around here," said Deborah Calkins of Mansfield, whose son, 7-year-old Michael, and daughter Michelle, 11, take part in the Kids' Nite Out program. "What the baseball team does really fills a tremendous need."

The benefits are not one-sided. The \$5 fee for a child to attend helps the baseball squad finance its annual late-winter trip to Florida.

It costs \$15,000 to send the 30-man team to spring training for two

weeks. Most of the money comes from Kids' Nite Out.

"Instead of running all over town selling hats and washing cars and things like that, we're able to do something positive for the area and raise our funds at the same time," says Maisner.

Activities offered during Kids' Nite Out include basketball, swimming, trampolines, volleyball, wiffle ball, badminton, table tennis and jump-rope.

There are T-shirt-giveaway nights and disc jockey nights with dance contests. On October 31, Kids' Nite Out featured a Halloween costume party.

December kids' nights are usually the most popular because parents drop off their children and do holi-

day shopping.

"A large part of the appeal of Kids' Nite Out is that it's really parents' night out, too," said Maisner. "It lets mom and dad go to the movies or shopping or just take a break from being parents for a few hours."

The chief rule is that children and adolescents, once in the gym, cannot leave until they are picked up by their parents or other authorized family members.

Lifeguards are on duty at the pool, and a nurse is available. Women students at the university—some of them elementary- and secondary-education majors—help the baseball players supervise the activities.

"The supervision is really excel-

lent," noted Calkins, who operates a day-care home for children in town. "The ballplayers are wonderful with the kids."

Maisner says the program never has favored adolescents over younger children or vice versa. A fairly even mix of teens and grade-schoolers attend each event.

The acceptance of Kids' Nite Out by townspeople may lead to a new fund-raiser for the university's baseball team.

"So many parents have asked us when we are going to have an adults' night out that we've decided to do it later this year," says Maisner. "We're going to try it."

"It will certainly be more expensive for the adults because now they'll have to hire a babysitter."

Roger Maisner

Legislation

Continued from page 16

16. (Division I) Reviewed the application of Bylaw 5-1-(j)-(8)-(ii) [junior college transfer provision] to a situation in which a qualifier from a junior college was unable to complete a quarter of enrollment at a junior college due to mononucleosis; agreed that the NCAA Academic Requirements Committee has the authority to administer the medical absence exception established in Case No. 328 for a junior college student in determining the number of terms of academic attendance for which the student must be accountable, provided the student satisfies the criteria specified in the case; directed the legislative services staff to review and develop a definition of "academic term" for purposes of O.I. 501 and Bylaws 5-1-(j)-(8), (9) and (10).

17. (Division II) Considered Bylaws 5-1-(j)-(8) and (9) [junior college transfer provisions], noting indicating that effective August 1, 1988, Division II institutions are required to apply the same junior college transfer provisions as currently apply to Division I institutions; affirmed that for those student-athletes who graduate from high school prior to the 1987-88 academic year and subsequently enroll at a junior college, the provisions of Bylaw 5-1-(j)-(10) would apply upon transfer from the junior college to a Division II institution; further, if a student-athlete graduates from high school during or subsequent to the 1987-88 academic year and subsequently enrolls at a junior college, the provisions of Bylaw 5-1-(j)-(8) and (9) would apply upon transfer from the junior college to a Division II institution; recognized that this interpretation may be unnecessary in light of proposed legislation to delete this requirement.

18. (Division III) Considered a previous Council-approved interpretation (reference: Item No. 3 of the minutes of the committee's March 19, 1987, conference) confirming that the waiver provisions of Bylaw 5-1-(m)-(8) would not be available to student-athletes at a Division I institution that has elected to reclassify to Division III, and noted the application of Case No. 417, indicating that Division III membership criteria require for the most part that financial assistance awarded to a student-athlete shall not exceed financial need; agreed that it is permissible for three returning scholarship student-athletes who elected to forgo their remaining eligibility by continuing to receive athletically related financial aid (exceeding need) when their institution reclassified to Division III to discontinue receipt of their athletics scholarships in order to be eligible to participate at the Division III level, provided the institution adjusts the student-athletes' financial aid in order to keep each student-athlete within the financial need limitations.

OUR
FARES MAY
BE THE
TOUGHEST
THING
TO BEAT
ALL SEASON.

When it comes to NCAA travel, there's no competition for American Airlines low discount fares. Our special discounts are good for team travel to games, athletic meetings, conventions and recruiting trips.

Just call one of our more than 100 Meeting Specialists, and we'll take care of everything from pre-reserved seating to car rental arrangements. Plus, we'll deliver your tickets directly to you or your team's Travel Agent.

So call the Official Airline for NCAA Championships, American Airlines, at (800) 433-1790, STAR #S9043. And we'll show you how competitive we can be.

Division III Women's Volleyball—Two expirations. Eligible for reelection: Lawrence R. Bock, Juniata College (III-2-East). Not eligible for reelection: Sheila K. Wallace, Ohio Northern University, chair (III-4-Midwest). Wallace must be replaced as chair

Cuba is strong in baseball, not progress

Cuba has some great baseball fans and friendly people, but the island nation shows little evidence of progress since Fidel Castro's Communist revolution in 1959, University of Kansas baseball coach Dave Bingham said after a recent visit.

"You see it all and come away saying, 'It could use a paint job,'" said Bingham, who was in Cuba for three weeks as an assistant coach with the U.S. Intercontinental Cup team.

"Time has stopped as of 1959," he told the Associated Press. "There was affluence there prior to '59. It was a real resort area. There were beautiful homes, people with land. Now, there's none of that. The government has taken over everything. The homes have been let go."

Bingham said the trip to the Communist-run country gave him a glimpse of "a lifestyle in which there's a lack of motivation to excel.

"Does it matter if you do it today or manana?" he said. "If a bus driver is on time or not, no big deal. He still comes back to work tomorrow. The quality of what you do is irrelevant."

One place the Cubans did excel was between the white lines, where the host team won the 10-team baseball tournament. The United States placed second.

The Cuban people were very friendly to the American visitors, Bingham said.

"We were treated great. They went out of their way to make us feel at home.

"They have some of the greatest baseball fans in the world," he said. "One night, we rode the bus home, and the driver knew all the major-league teams. He was one of the most knowledgeable baseball fans I've met."

Coaching the U.S. team with Bingham were Mark Marquess of

Stanford University, Skip Bertman of Louisiana State University and Ron Polk of Mississippi State University. The four also will coach the 1988 U.S. Olympic team, which Bingham said will be selected from among players who were on the Pan American team and the team just back from Cuba.

ACC on TV often

Atlantic Coast Conference men's basketball teams will appear in 56 regular-season telecasts, and 45 of the games will be league contests, according to an announcement from the ACC office.

Raycom/Jefferson Pilot, the ACC's syndicator, will carry 33 regular-season games. R/J also will televise every game in the league's postseason tournament.

ESPN and NBC each will carry nine regular-season games, CBS three, and ABC two. ESPN also will pick up the tournament telecasts.

The Market

Continued from page 18

evaluates and grades students' performances. As Head Coach for Women's Volleyball, plans and directs training, recruits players, directs conditioning of players to achieve maximum performance, assesses player's skills and assigns positions, and evaluates own and opposition team capabilities to determine game strategy. DIRECTOR, INTERCOLLEGIATE ATHLETICS FLORIDA A&M UNIVERSITY

Florida A&M University is seeking qualified applicants for the position of Director, Intercollegiate Athletics. The appointment carries the responsibility for formulating policy and directing the University Athletic Program.

Requirements: Master's degree in Physical Education or Business and 4 years' experience in the management of an athletic program; or Bachelor's degree and 6 years' experience in a university or college athletic program (prefer training and experience which reflects high potential as a successful manager of an auxiliary enterprise that has budgetary planning tied directly to revenue generated from the enterprise). Consideration will be given to individual with background/experience which enables planning for intercollegiate activities and competition with diverse group of institutions in NCAA Division I athletics; previous affiliation as athletic director or top-level manager in an institution with a successful Division I program in basketball and Division I-AA or I-AAA in football; demonstrated ability to coordinate and implement season-ticket programs, radio and/or television networks and agreements, organized booster support, and ticket-marketing programs; demonstrated commitment to integrity in athletics; a record of success in academic support programs for student athletics; a background which suggests awareness of the proper relationship of the intercollegiate athletic program to the university and its academic program; and demonstrated ability to plan and coordinate large athletic events.

Salary: Negotiable.
Letter of application, resume and the names of three references should be postmarked no later than November 20, 1987, and forwarded to: Ms. Dorothy L. Harp, Director, University Personnel Relations, Florida A&M University, Tallahassee, Florida 32307.

An Equal Opportunity/Affirmative Action Employer

ATHLETIC DIRECTOR

Central Connecticut State University, the oldest public institution of higher education in Connecticut, invites applications and nominations for the position of Director of Intercollegiate Athletics. The University has a total enrollment of approximately 13,000 undergraduate and graduate students. It seeks an individual who is committed to sound academic principles, full compliance with NCAA regulations and energetic administration. The University sponsors 10 men's and 8 women's teams at the Division I level which compete in the ECAC and, in women's basketball, the Seaboard Conference. Men's basketball (I-AAA) and football (II) are independents.

The Director is responsible for administration of all facets of the athletics program, including budget management, fund raising, promotions, athletic staff, intramurals and recreation, facility management, scheduling and public relations. The Director reports to the President through the Special Assistant to the President. No coaching or teaching is expected.

Requirements for the position are a baccalaureate degree, a minimum of five years of experience in athletic administration and/or collegiate head coaching, a strong record of commitment to educational values, impressive interpersonal and managerial skills, the ability to work effectively with diverse groups and individuals, a commitment to fund raising and promotion, a record of effective budget management and a firm commitment to the institutional goals of the University. An advanced degree is preferred.

Starting date in 1988 negotiable.

Salary and benefits very competitive.

Send letter of application with resume and names, addresses and telephone numbers of three references to Special Assistant to the President, Office of the President, CENTRAL CONNECTICUT STATE UNIVERSITY, New Britain, CT 06050, by November 30, 1987.

CCSU is an AA/EO employer. Women, minorities, handicapped, and veterans are encouraged to apply.

HEAD COACH OF WOMEN'S CREW

Description: Coach women's varsity crew team; supervise the women's novice crew coach; organize practice sessions; coordinate travel arrangements; assist in the care of equipment; coordinate recruiting activities for women's crew; assist in fund-raising activities; guide the personal development of the Wesleyan student that participates in athletics.

Qualifications: Bachelor's Degree. Rowing and coaching experience at the college level preferred.

Appointment: January 15 to May 15, 1988.

Compensation: \$12,000.

Application Procedure: To apply send a letter of introduction, a resume and three current letters of recommendation to:

John S. Biddiscombe
Associate Chairman
Department of Physical Education
Wesleyan University
Middletown, CT 06457

Applications will be accepted until the position is filled.

Wesleyan University offers equal employment opportunities to all employees and applicants for employment without regard to race, religion, sex, sexual orientation, national origin, age or handicap.

ATHLETIC DIRECTOR SAMFORD UNIVERSITY Birmingham, Alabama

Samford University seeks a person to fill the position of Athletic Director. The Athletic Director has full responsibility for the intercollegiate and intramural athletic programs reporting to the President. Among the Director's general duties are: advancing an athletic program complying with University, NCAA and conference regulations; selecting members of the athletic administrative and coaching staffs; continuing the advancement of Samford University men and women athletic teams in NCAA and conference competition; and preparing and administering the annual department budget.

The successful candidate will have demonstrated ability to develop a long-term vision for the athletic program, implement an athletic fund-raising effort, plan an effective marketing and promotion program on campus and in the community.

The Director must have high regard for the values of a Baptist-supported academic community and athletic success of student-athletes.

Salary for the position will be commensurate with experience and qualifications.

Samford University is the largest privately supported, fully accredited, co-educational university in Alabama. The University supports fourteen men and women sports in NCAA Division I, football in NCAA Division III.

Samford serves approximately 4,000 students on its beautiful Georgian campus in metropolitan Birmingham (Population MSA, 922,000). It includes the Cumberland School of Law, the Orlean Bullard Beason School of Education, the Ida V. Moffett School of Nursing, the Howard College of Arts & Sciences, the School of Pharmacy, School of Music, and School of Business.

For full consideration applications, resumes and the names of five references should be received by December 1, 1987.

Applications should be addressed to the Search Committee Chair:

Dr. Julian D. Prince, Dean
Orlean Bullard Beason School of Education
Samford University
Birmingham, Alabama 35229

Samford University is an equal opportunity employer
