## Panel to hear requests for Bylaw 5-1-(j) waivers

An NCAA Council subcommittee is ready to consider member institutions' requests for academically justified waivers of the initial-eligibility requirements of Bylaw 5-1-(j).

The Council Subcommittee on Bylaw 5-1-(j) Exceptions will consider the first waiver applications during a telephone conference March 8. Meanwhile, member institutions may submit waiver requests in accordance with principles and procedures recently established by the committee, using application forms now available from the national office.

Divisions I and II voted at the January Convention to authorize the Council to grant exceptions to Bylaw 5-1-(j) in cases where a member institution provides "objective evidence" that a student's overall academic record warrants such an exception.

Known as Proposal No. 45, the legislation was proposed to deal with situations such as a case that occurred during 1987, when a student-athlete with a high grade-point average and qualifying test scores was ruled ineligible due to taking the SAT or ACT test on an inappropriate date. It has been described as

an attempt to create more "flexibility" in dealing with student-athletes' needs on an individual basis.

### Human element

"We have a human element coming into play, and I think that's what the membership voted for at the Convention," said Ursula R. Walsh, NCAA director of research, who serves with Daniel T. Dutcher, legislative assistant, as staff liaisons to the new subcommittee.

"This is a rather historic step for the NCAA," she said. "We hope this will rectify those situations where Bylaw 5-1-(j) was applied but was never meant to be applied."

"We will receive the applications and evaluate them, especially identifying obvious candidates for waivers," Walsh said of the staff's role in the process. "We hope the subcommittee will be able to act quickly on those deemed obvious and then spend most of its time on applications that require additional analysis."

### Must meet criteria

In considering applications, the subcommittee will consider whether a student-athlete had prior knowledge of or received notice of the provisions of Bylaw 5-1-(j). It also will consider any extenuating cir-

cumstances that prevented the student-athlete from meeting the bylaw's requirements.

However, the student-athlete must meet certain "threshold criteria" to receive waiver consideration from the subcommittee.

Those who have met all standardized-test requirements (on a national administered ACT or SAT test, an acceptable "residual" or nonnational test, or an acceptable equivalent state examination) but have not met core-course requirements must present at least a 2.500 GPA (on a 4.000 scale) in a

See Panel, page 2

## NCAA members to get questionnaire on status of minorities

A survey to assess the involvement of minorities in intercollegiate athletics will be mailed to NCAA member institutions by the end of February.

The survey is being prepared by the Special NCAA Council Subcommittee to Review Minority Opportunities in Intercollegiate Athletics, and that group plans to use information from the survey to offer suggestions for change and improvement, where appropriate, according to Raymond M. Burse, president of Kentucky State University and subcommittee chair.

Burse said when the subcommittee was asked to assess the status of minorities in intercollegiate athletics, "it became apparent that we needed to gather data on the issue before finalizing any recommendations."

"What member institutions soon will be receiving is a fairly comprehensive survey intended to provide that kind of data. We anticipate about a 30-day turnaround, followed by compilation and preparation of results and review by the subcommittee prior to our reporting to the NCAA Council."

Raymond M. Burse

The subcommittee report is due before the Council no later than August. The subcommittee is expected to complete its work by January 1989.

The subcommittee has had a full agenda since its appointment was announced last September.

The group has met three times, and it has met with members of the Big Ten Conference Advisory Commission and with representatives of the recently organized Black Coaches Association.

Additional meetings are planned with representatives of the Collegiate Commissioners Association, the University Commissioners Association, the National Association of Collegiate Directors of Athletics, the American Football Coaches Association and the National Association of Basketball Coaches.

Additionally, the subcommittee has discussed several programs to increase the potential for minority involvement in athletics administration.

"We have held three meetings to date," Burse said, "and I believe it is safe to say that every member of the subcommittee has been working very hard...diligently...as we attempt to cover every aspect of our charge in a relatively short period of time."

Burse said the survey to be mailed to member institutions should provide information on the current

status of minorities in positions as coaches, administrators and student-athletes at NCAA member institutions. "However, Burse said, "it should be noted that the survey results will be made available only to subcommittee members and only

*"...it should be noted that the survey results will be made available only...in lump-sum totals. We will not break down the results on an institutional basis."*

in lump-sum totals. We will not break down the results on an institutional basis.

"Also, we hope that people who complete the survey forms will give us their ideas and suggestions, in addition to providing the raw data we are requesting," Burse said.

Suggestions regarding the sub-

committee's work also may be forwarded to Thomas W. Jernstedt, NCAA assistant executive director, or Alfred B. White, associate director of communications, who serve as staff liaisons to the subcommittee.

### Other meetings

Burse noted that the meetings with conferences and coaching organizations will provide additional opportunities for input from the membership. "We met with Big Ten officials to discuss the affirmative-action plan they have had in place for a number of years."

"The meeting with the Black Coaches Association also was very beneficial, and we believe that getting together with members of the two commissioners organizations (CCA and UCA), NACDA, the AFCA and the NABC also is important. The subcommittee has developed a number of preliminary ideas, but we want to hear from as many different constituencies as possible before finalizing our work."

### Initiatives

Burse mentioned four concepts that subcommittee members have

See NCAA, page 3

## Basketball play-off was launched in a meeting on a Chicago rooftop

(The first of a 10-part series commemorating the 50th anniversary of the NCAA Final Four)

Early one breezy March morning, a group of sleepy-eyed basketball coaches met in a small room on the roof of Chicago's Morrison Hotel. The year was 1938.

It was the last day of the annual convention of the National Association of Basketball Coaches. Most of the coaches had trains to catch. Few of them had paid much attention to the last item on the agenda: "Report from the committee studying a championship tournament." Chairman: Harold Olsen.

"I can remember that convention," recalled Howard Hobson, a Hall of Fame coach at the University of Oregon and Yale University during his long career. "But I cannot recall the discussion on the subject. I just remember that most of the coaches thought it was a pretty good idea."

Olsen's report recommended that

the coaches conduct an eight-team tournament, with a selection committee picking representatives from different geographical regions. Eastern and Western championships would be played, with those winners

meeting for the national title.

A year later, the first NCAA basketball championship tournament was staged, with Hobson's Oregon team defeating Olsen's Ohio State University club, 46-33, at Pat-ten Gymnasium on the Northwest-

ern University campus in Evanston, Illinois. About 5,500 people attended the game, and the tournament ended up losing \$2,531.

Olsen would have a hard time recognizing his tournament today. With the 50th title game coming April 4 in Kansas City, Missouri, the NCAA Division I Men's Basketball Championship has become one of the biggest and most successful sporting events in the world.

More than 64,000 fans bought tickets for last year's Final Four at the Superdome in New Orleans. And this year, the NCAA received requests for more than 90,000 seats in the lottery for the few seats available at the 16,000-seat Kemper Arena.

Television ratings from last year show that more than 17 million homes watched Indiana University, Bloomington, nip Syracuse University in the championship game. In the next three years, CBS is so

See Basketball, page 3

## Testimony to continue in drug-testing trial

Five dates have been set by Santa Clara County, California, Superior Court Judge Conrad Rushing to hear additional testimony in a suit brought by two Stanford University student-athletes against the NCAA's post-season drug-testing program.

After hearing testimony from three of the Association's 10 scheduled witnesses February 8 and 10, Rushing scheduled additional testimony for February 17, 19, 22, 24 and 26. "All of those dates are tentative," said John J. Kitchin of Swanson, Midgely, Gangwere, Clarke and Kitchin, the NCAA's Kansas City, Missouri, legal counsel. "Since the judge also is involved in other litigation, testimony in this case must be scheduled accordingly. The dates that have been set are subject to change."

Rushing last December

granted an NCAA request for a full trial in the case, which seeks an injunction against the Association's drug-testing of Stanford student-athletes, two of whom claimed that their rights of privacy were violated by drug-testing procedures.

The Association's request followed a November 19 ruling by Rushing that involuntary testing by the NCAA violates the U.S. Constitution and the California constitution. Rushing ordered the NCAA to cease testing of Stanford student-athletes in all sports except football and men's basketball and to return in December with revised testing procedures for those two sports.

At the time, Stanford President Donald Kennedy stated that the decision "vindicates Stanford's belief that student-athletes

See Testimony, page 3

# Panel

Continued from page 1

minimum of 10 of the 11 core courses required by Bylaw 5-1-(j). In addition, the 10 core courses must include at least three years in English, two years in mathematics, one year in social science and one year in natural or physical science. Student-athletes who attended secondary schools in foreign countries must present work that is at least equivalent to a 2.500 GPA.

Student-athletes falling short on standardized-test requirements must present at least a 3.000 GPA in the 11 required core courses and show also that they successfully have completed at least two additional core courses. Those who attended secondary schools in a foreign country must demonstrate that they achieved the equivalent of a 3.000 GPA.

## 'Acceptable' tests

The subcommittee's guidelines make a nonnational ACT or SAT

test or an equivalent state examination acceptable under the following conditions:

- Test administrators must submit written proof that they do not work in a member institution's athletics department and do not represent any member institution's athletics interests. They also must submit proof that they have administered the test in accordance with all criteria established by the appropriate national or state testing agency.

- The test must be scored by the appropriate national or state testing agency.

- The equivalent state examination must be conducted by a recognized state testing agency accepted by the NCAA Academic Requirements Committee as conducting an examination similar to the ACT or SAT.

- For state examinations, the sub-

committee must receive sufficient documentation to determine how an individual's state test score would convert to a score on the ACT or SAT.

Also, the subcommittee under no circumstances will accept test scores or other academic records obtained after a student-athlete has been initially enrolled in a collegiate institution. However, the subcommittee may require that an ACT or SAT examination be administered to a student-athlete before making a final determination in a case.

## Other requirements

Other principles set forth by the subcommittee state that:

- Student-athletes must have been regularly admitted by the Division I or II member institution submitting the waiver request.

- All GPAs shall be based on a 4.000 scale.

- For Division I student-athletes, the subcommittee may not consider secondary school courses taken after the student-athlete's eighth semester.

- The subcommittee may refer cases involving recruited student-athletes (as defined by O.I. 100) to the enforcement staff when circumstances indicate culpable conduct by a member institution regarding the dissemination of initial-eligibility information.

Waiver applications that fail to meet the guidelines described above will not be considered by the subcommittee.

## Procedures

The entire five-member subcommittee will participate in all deliberations over waiver applications. Only subcommittee members and national office staff members will be involved in the deliberations.

After the subcommittee renders

its decisions, staff members will notify applicants of the outcome and will provide written confirmation to all appropriate parties. A student-athlete remains a nonqualifier and may not practice or participate in athletics pending issuance of a waiver by the subcommittee.

The legislation authorizing the waivers also requires the Council to monitor actions of the subcommittee and annually to provide a report to the membership summarizing the actions in aggregate form.

Completed waiver application forms and questions about procedures and guidelines should be submitted to the legislative services staff at the national office. Applications must be submitted by a member institution on behalf of the student-athlete, but the student-athlete as well as an appropriate institutional administrator must sign the application.

## Scoring in platform diving delayed until 1989 event

Platform diving, which has been added to the list of events for the Division I Men's and Women's Swimming and Diving Championships, will not be scored until the 1989 championships, in compliance with a determination by the NCAA Administrative Committee.

The committee decided February 11 to delay scoring the event until 1989 primarily because of a concern that institutions were notified of the addition of platform diving after many teams already had begun their seasons; and because of the late-

ness of the decision, it is believed that coaches may not have had enough time to recruit for that event.

Also, the addition of platform diving may have caused a hardship on some institutions that had not budgeted for the event going into the 1987-88 academic year, the committee stated.

NCAA conferences and head men's and women's swimming and diving coaches have been notified of the change in policy in a memorandum by John E. Ryan, chair, NCAA Men's and Women's Swimming Committee.

## Research on Bylaw 5-1-(j) effects continues

The Research Committee continues to measure the impact of Bylaw 5-1-(j) at member institutions.

The committee, meeting February 11-12 in Key West, Florida, approved research instruments designed to examine the third year of the NCAA's study of Division I student-athletes' academic performance. The latest survey is part of a 10-year study of the impact of Bylaw 5-1-(j).

New survey forms, which request information on the classroom performance of student-athletes entering member institutions during the

fall of 1986, will be mailed in April. The committee expects its findings to provide the first comprehensive information on the effect of academic standards introduced by the revision of Bylaw 5-1-(j).

The Research Committee also stated its wish to further encourage sound research proposals from faculty at member institutions, in order that reliable information and new insights may continue to be provided to the full membership. The committee revised its guidelines for the submission of proposals, clarifying funding procedures with the inten-

tion of promoting such proposals from qualified researchers. Those revision must be approved by the NCAA Council.

"The committee wanted to emphasize that we welcome smaller projects, those with budgets of \$5,000 or less, as well as the major projects running \$25,000," said committee chair John W. Stoepler, dean of the law school, University of Toledo. "We also wanted to recognize the fact that the project funding could include some institutional indirect costs."

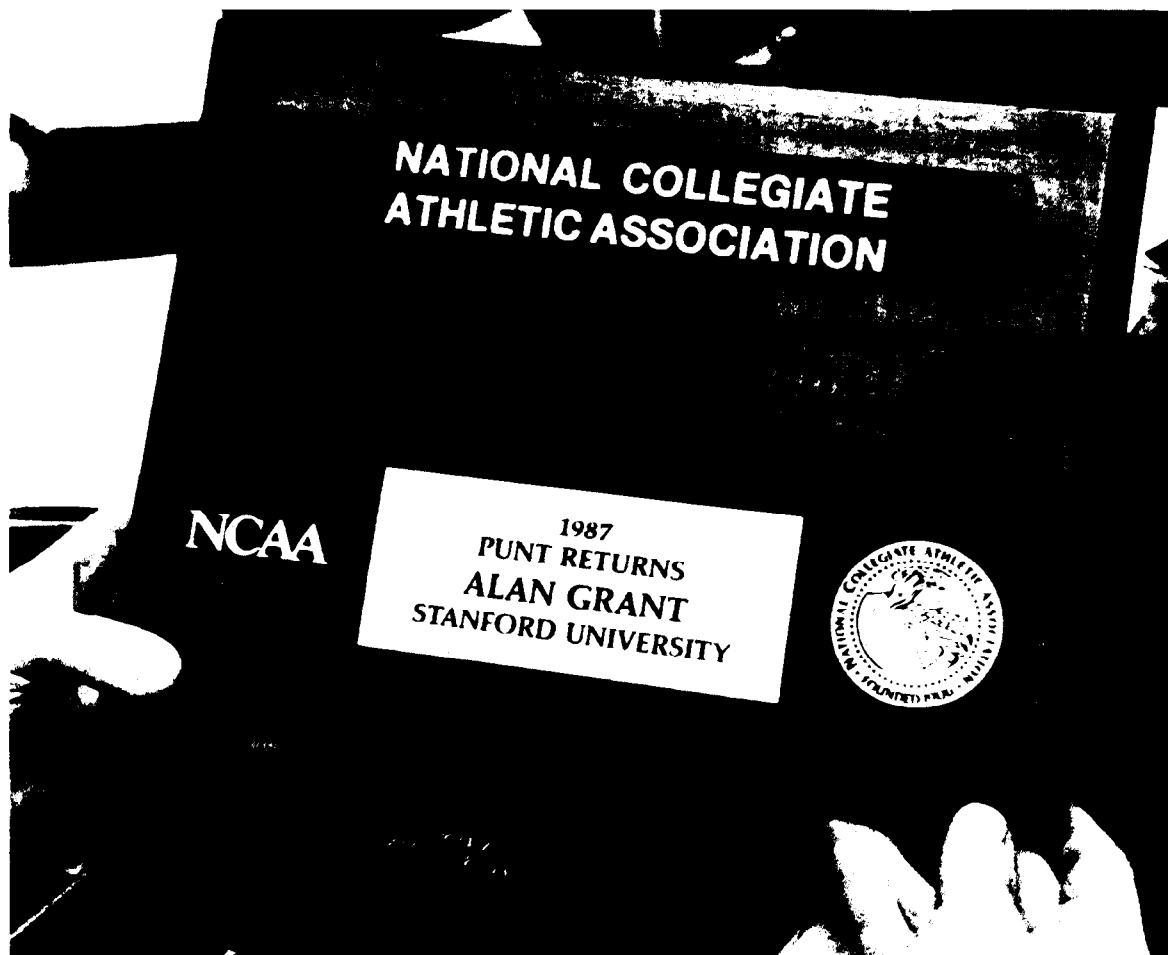

## Legislative Assistance

1988 Column No. 7

### NCAA Bylaw 2-3—college all-star basketball and football contests

Member institutions are reminded that under the provisions of Bylaw 2-3, no member institution shall permit its student-athletes (i.e., those who were members of its intercollegiate team in the sport in question) to compete or its facilities to be utilized for any college all-star basketball or football contest unless the contest is approved by the NCAA Special Events Committee and certified by the NCAA Council. Further, Bylaw 2-3-(a) limits participation in a certified all-star game to enrolled or graduated student-athletes who have exhausted their seasons of eligibility in the sport in question but who were eligible to participate on their institutions' intercollegiate teams in that sport during that season. Finally, Bylaw 2-3-(d) stipulates that the management of a certified all-star game shall obtain permission from an institution's director of athletics before inviting a student-athlete from that institution to compete in the all-star game. NCAA-certified all-star basketball games for the current academic year include the following:

1. Aloha Classic	April 6-10, 1988
Osaka and Tokyo, Japan	
2. Coaches' All-American Game	April 1988
San Diego, California	
3. Louisiana Association of Basketball Coaches All-Star Game	April 16, 1988
Monroe, Louisiana	
4. McDonald's Classic	Late April 1988
Elizabeth City, North Carolina	
5. NABC All-America Game	March 31, 1988
Kansas City, Missouri	
6. New England Hall of Fame	April 2, 1988
Fairfield, Connecticut	
7. New Jersey College Coaches Basketball Senior All-Star Game	Early April 1988
Teaneck, New Jersey	
8. Portsmouth Invitational	April 6-9, 1988
Portsmouth, Virginia	
9. Southern Shootout	April 10, 1988
Memphis, Tennessee	
10. Super Shootout	April 16, 1988
Cedar Rapids, Iowa	
11. Ta-Wa-Si Athletic Association	April 9, 1988
Grand Rapids, Michigan	

One of the plaques to be awarded NCAA statistical champions

## Statistical champions to get awards

For the first time in 50 years of compiling statistics, the NCAA will present awards to team and individual winners in each statistics category in all divisions of football, men's and women's basketball, softball, and baseball.

By the end of the academic year, 276 awards, not including duplicates for ties, will be distributed.

"We are always pleased to recognize excellence among student-athletes," said John T. Waters, NCAA director of promotion. "And we are especially happy to provide these first-ever awards to our statistical

champions."

Waters said 55 institutions will receive at least one of the plaques for football, and a total of 85 awards will be presented for the four divisions.

Holy Cross College in Division I-AA earned seven statistical titles, followed by the University of Oklahoma in Division I-A with six and Texas A&I University with four in Division II.

The walnut plaques were mailed to either the director of athletics or the sports information director at the various schools.

Waters said, "Since this was the first group, we wanted to go through the production steps very carefully," adding that he hoped future mailings of awards would be made sooner. "We looked at a lot of prototypes and were still making refinements as late as November."

The 9-inch-by-12-inch plaque features raised brass lettering of the NCAA seal and logo; laser-engraved division designations, and a personalized, chemically-etched brass plate for each individual and team category.

# Basketball

Continued from page 1

certain of the interest in the tournament that it will pay the NCAA \$163 million for the rights to telecast a handful of games.

The Final Four weekend has become a yearly basketball festival. Only the World Series and Super Bowl generate as much interest among America's sports fans as the 64-team tournament field.

"You know how I judge how big it has become?" asked North Carolina State University head men's basketball coach James T. Valvano, whose team won the championship in 1983. "It's the tournament bracket, the one they print in the paper. You never used to see that. Now, every paper in the country runs that thing. You go into homes, and it's taped up to the kitchen door. It's all sports fans think about."

That was not the case in the tournament's very humble beginnings. From the moment Dr. James Naismith created the sport at Springfield College in 1891, basketball has been popular on college campuses. The first intercollegiate game was played between the University of Iowa and the University of Chicago five years later, and as early as 1901, a national champion was being selected by the Helms Athletic Foun-

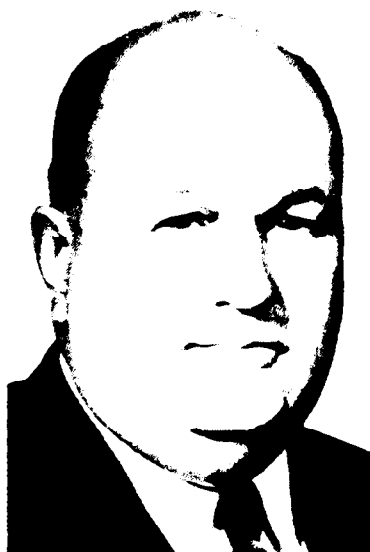

Howard Hobson

dation.

In 1938, New York promoter Ned Irish started the National Invitation Tournament at Madison Square Garden, and a small-college tournament that would eventually become the NAIA championship was started in Kansas City.

Olsen and other coaches of the day did not favor the NIT. They believed the college game should be kept on college campuses, for the benefit of the colleges. In his report

Harold Olsen

suggesting a national championship, Olsen wrote that it would "be conducted by the coaches association and the NCAA with no commercial promoters attached."

The NCAA Executive Committee approved the idea just five months before the tournament was scheduled to start, and many coaches felt that was not enough time to get the tournament off the ground. Some of the more powerful schools were not interested in playing, and other

coaches felt the tournament would take away too much time from their players' classes.

But Olsen was a powerful force in college basketball, as were two of his committee members: Phog Allen, the coach at the University of Kansas, and John Bunn, Stanford University head coach. Bunn had played for Allen, who had learned the game from Dr. Naismith. This illustrious background enabled them to persuade other coaches that the tournament would work.

There were doubters when the poorly organized first tournament lost money and forced the coaches to ask the NCAA for a loan to cover the deficit. But Allen promised the coaches a profit if the tournament was moved to Kansas City the next year, and the NCAA became more actively involved in running the tournament.

"I remember Dr. Allen always thought the tournament would generate a lot of interest and revenue," said Dick Harp, who would play for Kansas in the 1940 title game, then become an assistant coach in the 1952 and 1953 games and a head coach in the 1957 game. Now, he's an assistant coach at the University of North Carolina, Chapel Hill.

"He felt people all around the

country would be interested and that it would feed itself."

Allen's belief was proven when the 1940 championship game was moved to Kansas City's Municipal Auditorium. More than 10,000 fans saw Indiana defeat Allen's Kansas team, 60-43. A \$9,523 profit was realized.

Every tournament since has been a moneymaker for the NCAA. It developed a following that would grow into millions of fans.

Automatic tournament qualifying spots for conference champions were introduced in 1951, and the four regionals and Final Four format was begun in 1952. National television arrived in 1954 but would not become an annual event until 1963. Teams other than the conference champions were added to the field in 1975.

It has all combined to create an event that for the better part of one month each year captures the complete attention of the American sporting public.

"I think the growth of the tournament mirrors that of the game," said Henry Iba, whose Oklahoma A&M teams won the title in 1945 and 1946. "Basketball has exploded over the last 30 to 40 years. So has the NCAA championship."

## Association tightens rule to control basketball fans

Fans who throw debris onto a basketball court will draw a two-shot, intentional technical foul for their team, under a new NCAA rules interpretation.

"When (the individuals throwing debris) are identified as team followers, they will get an intentional technical foul," said Edward S. Steitz, secretary-rules editor of the NCAA Men's Basketball Rules Committee. The penalty also will apply in women's basketball.

The interpretation is intended to produce consistency in the assessment of penalties and to pose a greater deterrent to such actions, which recently have increased in frequency.

In the past, such incidents generally were classified as delay of the game, resulting in a technical foul that carried a one-shot penalty and gave possession of the ball to the offending team's opponent.

However, some officials have judged the action to be an inten-

tional technical foul, which is assessed to the head coach. The penalty grants two shots from the free-throw line and possession of the ball to the opposing team.

The throwing of debris onto the court delays the game, may disrupt the momentum of the game, allows a team to make adjustments during the delay that it ordinarily would not be able to make and creates the potential for injury.

"Something that started as fun became more varied," Steitz said.

"It is dangerous and delays the game," said Marcy Weston, secretary-rules editor of the NCAA Women's Basketball Rules Committee. "The incidents in women's basketball are isolated right now, but we do not need to wait until we have a problem to institute a penalty."

The key element in assessing the foul is the identification of the individuals throwing the debris.

"We are asking the officials to use good judgment," Steitz said.

## NCAA

Continued from page 1

discussed during their initial meetings—each of which is designed to enhance minority involvement in athletics administration and NCAA affairs.

"One concept we are exploring is the possible drafting of legislation for the (NCAA) Convention that, if enacted, would permit minorities to serve on committees in the Association regardless of their administrative position on campus," he explained. "Only CEOs, athletics directors, primary woman administrators and faculty athletics representatives may serve on some NCAA committees under current regulations. We are looking at steps that might permit a higher level of minority involvement on those committees."

The subcommittee also is planning to propose the establishment of a vita bank in the Association's national office that would serve as a clearinghouse for employment information related to minority hiring. "We believe a vita bank like this would serve both qualified minority candidates looking for athletics po-

sitions and member institutions that seek to actively pursue minority candidates for administrative and coaching positions that become available," Burse explained.

### Fellowships and internships

Programs to provide graduate fellowships and administrative internships also are being discussed.

"We hope to take the first steps toward implementation of a graduate-fellowship program for minority individuals who are interested in earning graduate degrees in sports management," he noted. "Involvement in these graduate programs is becoming more important for all individuals who are interested in pursuing a career in athletics, and a fellowship program certainly could enhance minority opportunities in this area."

Burse said that the national office also may be the setting for a minority internship program that would be the model for similar programs at member institutions.

"An internship program would open avenues for minority involvement in athletics. It could provide

the exposure necessary to enhance the positions of minority candidates in the fields of athletics administration and coaching. We hope to begin such a program in the national office."

Serving with Burse on the subcommittee are Patricia D. Cage Bibbs, director of women's athletics, Grambling State University; Thomas J. Frericks, vice-president for athletics programs and facilities at the University of Dayton and NCAA secretary-treasurer; Sandra T. Shuler, associate director of athletics, North Carolina Central University; B. J. Skelton, faculty athletics representative and dean of admissions and registration, Clemson University; Judith M. Sweet, director of athletics at the University of California, San Diego; Charles Whitcomb, faculty athletics representative and professor of recreation/leisure studies at San Jose State University, and Albert M. Witte, faculty athletics representative and professor of law at the University of Arkansas, Fayetteville, and NCAA Division I vice-president.

## Three-point shot a boon to game, Steitz claims

The three-point shot is a popular success and, in all likelihood, the distance will remain at 19 feet, 9 inches, according to Edward S. Steitz, secretary-rules editor of the NCAA Men's Basketball Rules Committee.

"The three-point field goal has surpassed our fondest expectations," Steitz told the New York Metropolitan Basketball Writers Association February 16.

"It has done what it was purported to do. It has made the game of college basketball even greater."

Steitz called the three-point shot "one of the four most significant rules changes in recent history." The other changes were the reinstatement of the dunk shot, elimination of the jump ball on dual possessions and the introduction of a 45-second clock.

## Testimony

Continued from page 1

should be treated like other students."

"All of the evidence taken together demonstrates that except for the sports of football and men's basketball, there is no evidence of any kind of drug involvement (by student-athletes)," Rushing wrote in a 36-page decision. Additionally, Rushing limited the Association to testing for cocaine and anabolic steroids.

Shortly after the initial ruling, Rushing dropped the finding that the NCAA program violated the U.S. Constitution precluding the Association from appealing his decisions to a Federal court. At that time, amphetamines also were added to the list of drugs that student-athletes could be screened for.

In the full trial that began February 8, the Association will call 10 witnesses for testimony, including Dr. Daniel F. Hanley of Dartmouth University, who has been actively involved in the formulation of the NCAA testing program.

United Press International reported that during his February 8 testimony, Hanley said the original purpose for drafting the postseason testing program was to discourage student-athletes from taking drugs that could be harmful to them. He defended the NCAA list of more than 3,000 banned substances, saying that even such common cold medicines as pseudoephedrine can be used to enhance performance.

"I have personally seen the use of drugs in college football," Han-

ley told the court.

The evidence and testimony presented during earlier hearings will be considered in the current trial, but both sides are hoping that new evidence they present will convince Rushing to change his earlier decision in their favor.

"Stanford University would like to see the court come out with a ruling that would not allow drug testing in any sports," Stanford counsel Debra Zumwalt told the wire service.

"I think the implications (of this trial) will be wider than just Stanford," said attorney Robert Van Nest, counsel for Stanford student-athletes Barry McKeever and Jennifer Hill, the plaintiffs in the case. "I think other schools and other athletes are watching this trial."

Kitchin told The NCAA News

that Rushing indicated his preference for hearing testimony from NCAA witnesses first. "It is our understanding that (after conclusion of NCAA presentations) the plaintiffs and Stanford are going to call three witnesses."

Kitchin also said that no timetable has been set by Rushing for the issuance of a ruling following completion of the testimony. He said one of three rulings is possible.

"He could strike the (NCAA) program entirely, leave it in place without alteration or issue a ruling similar to the preliminary ruling he made last November," Kitchin explained. "However, any ruling that is issued will apply only to the drug-testing program as it relates to Stanford University and Stanford student-athletes."

# Comment

## An earlier argument against pay for play

*Editor's note: Most of the current issues in intercollegiate athletics, including the pay-for-play controversy, have long histories, as is evident from an article by the late Bill Stern, a longtime sports announcer.*

*Dale Brown, head men's basketball coach at Louisiana State University, provided The NCAA News with a copy of the April 1940 issue of Sport magazine, from which the following article is excerpted.*

By Bill Stern  
Sport magazine

As long as college athletics is classified as amateur sport, the boys who give their all for alma mater should not be paid.

There's no such thing as a 50 percent amateur.

As soon as you open the gates a crack to give amateur athletes a little salve of compensation, somebody in the school next door goes you one better.

It's a vicious circle that starts

up right away. The answer is to keep sport in the college completely amateur.

The dictionary defines professionalism as "the cultivation of athletic sports for pecuniary considerations," which is a fancy phrase that means "playing for money."

When a college hands out cash to certain of its talented undergraduates in recognition of their valuable contributions to the football squad, that college is dealing in professionalism.

No player who is given money by his school in exchange for his athletic efforts can be called an amateur college athlete. As soon as he stows that first check in the bank, he becomes a professional athlete who happens to be going to college.

If colleges and universities want to continue athletics scholarships of board, room and tuition, but no money, that's all right.

By taking care of a youngster's  
*See An earlier, page 5*

## A school of athletics might be more realistic

By Whitley Austin  
Harris News Service

Professional sport has become an honorable career. The better practitioners are paid in six figures; the truly superior—those with astute agents—in seven figures. Although their careers may be relatively short, the total of a pro athlete's incomes often exceeds the lifetime wages of the average college professor, newspaper editor or even a politician.

If athletics provides such rewards, and, in the meantime, is so important to the welfare of the college in terms of alumni and legislative support, why not provide a college curriculum tailored for athletes?

It would not be all basket weaving and soap-opera appreciation. Certainly, it would include courses on percentages and statistics key items in an athlete's professional career—a form of mathematics not to be sneezed at. Another course would be the language of contracts, sprinkled with Latin and Old French, the legal jargon on which so many dollars depend; this would be far from a pipe course.

There would be classes in personal hygiene, the reduction of sprains,

the assuaging of bruises, protection of the spine and other essential portions of the anatomy—a highly scientific curriculum per se.

Also add the history of the game, the ethics of sports, the philosophy of winning and losing, the science of probabilities; and, of course, all those technical courses ranging from Football 100 to Dunking 300, plus laboratory hours of batting, sacking and so forth. So much for undergraduate curricula.

After the baccalaureate, the graduate department of the University School of Athletics could offer master's degrees in coaching, in officiating and in front-office management—not forgetting the arts of recruiting and public relations.

Some prime hunks and potent jocks might not be able to survive even the freshman year in the school of athletics. But it would be in their obvious interest to do so. They would be motivated as never before. In hard cases, their motivation might be strengthened by generous alumni.

Would this really work? Could the universities have their athletes and their scholars, too? It's worth a try.

## Prospects ask about education, not just chance to be on TV

**Bobby Cremins, head men's basketball coach  
Georgia Institute of Technology  
Chicago Tribune**

"I've been in a lot of black homes on recruiting trips. The most encouraging thing I find now is that the kids are concerned about getting a good education, not just playing on TV so pro scouts can see them.

"We still have to avoid the borderline players with poor academic backgrounds, no matter what kind of prospects they are. What I'm trying to do here is graduate all my players, stay within the NCAA rules and still get back in the Final Four.

"Can it be done? I'm never going to stop hoping."

**Kay Yow, head women's basketball coach  
North Carolina State University  
USA Today**

"A lot of people were concerned about that (her ability to handle her coaching duties in addition to recovering from cancer), but my faith sustains me.

"My identity is not dependent on whether I win or lose. My life is helping make young people the best basketball players they can be and to help them grow as people.

"That joy is still there whether we win or lose."

**Jackie Sherrill, head football coach  
Texas A&M University  
Dallas Times Herald**

"There's less adjustment to make when they (football recruits) stay closer to home; everything is easier for them.

"You always read stories about kids who left and wished they had stayed.

"The best teams are the teams with local talent. That's not a feeling, that's fact. Just go back and look at the best teams ever at Penn State, Notre Dame, Michigan, Ohio State, Southern Cal. They all were built with talent from their area.

"In Texas, we don't have to recruit nationally. There's enough talent in Texas to serve everyone."

**Bill Frieder, head men's basketball coach  
University of Michigan  
Chicago Tribune**

"It's my own doing (playing a national television game against a nonconference opponent in the middle of the Big Ten Conference schedule). If there's anybody to blame, it's Bill Frieder. There's so much pressure. The money it brings to the school, and, believe it or not, the media pressure is enormous.

"You don't know if it's good or bad, but it is good for college basketball, and I'm not going to go against what's good for college basketball."

Bobby Cremins

Kay Yow

**Dave Scott, recruiting coordinator  
University of Miami (Florida)  
Dallas Times Herald**

"(Television) is one of the big reasons people are doing well recruiting nationally.

"Now, when we do make contact with kids through the mail or over the phone, they have grown up watching us play. They know what we do, and they already have an opinion about us."

**Kevin Brown, corporate communications director  
Nike Shoe Company  
The Atlanta Constitution**

"If the shoe companies didn't give the coaches the money (for shoe-endorsement contracts), the schools

## Opinions

would have to pay the coaches more because of their market value.

"Schools know this and feel it's better that the coaches get the money from shoe companies rather than the taxpayers."

**Herb Kenny, head men's basketball coach  
Wesleyan University  
The Associated Press**

"The kids who have played for me (in the past 20 years) and how successful they are have been the greatest gifts one can get as rewards from a position like this.

"I've got the leading heart surgeon in North America who is in line if anything happens that way; I've got a couple of general practitioners if I need anything; I've got a dentist in West Hartford; I've got umpteen lawyers, so I'm well-fortified with the kids who played

## Beer ads in sports are hypocritical

By Frank Dolson  
The Philadelphia Inquirer

America's foam-covered sports industry is no laughing matter. Our fun and games are being used to promote the drinking of alcoholic beverages.

Joe Schmoe scores a touchdown in a Monday night pro game and, on the radio, the play-by-play announcer bellows, "Joe Schmoe, for all you do, this Bud's for you."

Ever try to keep track of the beer commercials on television sports events on a Saturday or Sunday afternoon?

First, CBS carried a dilly of a Georgia Tech-North Carolina basketball game, during which we were advised to "head for the mountains of Busch."

Meanwhile, over on ESPN, "Budweiser's Countdown to Calgary" was in high gear and, on NBC, Miller, "proud sponsor of the U.S. Olympic Training Center," was also proudly sponsoring the Arizona-Illinois basketball game.

Ostensibly, our sports teams and leagues are leading the fight against

drugs. But while they're at it, they're raking in big bucks by permitting breweries to advertise in their stadiums and on their radio and TV broadcasts.

Some pro teams can't help it; they're owned by breweries. By and large, though, the name of this game is hypocrisy. A couple of years back at the winter meetings, the commissioner of baseball delivered a strong antidrug message in a room decorated with beer posters.

Now, even the Olympic movement has become immersed in foam.

You've got to hand it to the people who produce the alcoholic beverages that have become, through massive advertising campaigns, such a big part of the sports scene. They know how to sell their products, how to glorify them in the name of sport.

Some of the sports governing bodies—among them basketball, gymnastics and volleyball—gave it enough thought to say, "Thanks, but no thanks."

The track people gave it a lot of thought, too. Before making a decision at their recent convention in Hawaii, they asked the athletes. A

few objected; the majority, as you might expect, were in favor of it.

Ollan Cassell, executive director of The Athletics Congress, seemed vaguely troubled by it all, even though track and field, under his leadership, was the first amateur sport to take a beer sponsor in the 1970s.

"It wasn't an easy thing to do," he said, "but at that time, we were trying to market the sport and Miller Beer became a sponsor."

That's over with now. Miller has switched to stock-car racing.

"I would be very careful before I recommended another beer sponsor," Cassell said. "If we're fighting drugs, where does it start? Are beer and alcohol part of the problem? We're dealing with the youth of the nation."

Beer companies, Cassell said, "get a little pushy at times. They want to get their signs on everything."

Frankly, there's something about walking into a track stadium or an Olympic training site decorated with beer posters that doesn't seem quite right.

# Night play seen as one remedy for failing tennis programs

By Wilson Campbell  
Director of Tennis  
Northeast Louisiana University

Collegiate tennis is an ailing patient; and without some quick surgery, the game as we know it may die.

Two Louisiana universities dropped tennis programs in 1986; some Texas universities did the same in 1987, and Florida has dropped numerous junior college tennis programs in the past six years.

Who would have ever thought that a university such as Houston would have dropped tennis, citing budget as the main reason?

Many tennis programs have suffered severe budget cuts, with more on the horizon. The direction is only too clear on where college tennis is headed.

Football and basketball programs, with all their problems—graduation rates, illegal recruiting and other scandals—continue to survive and, in many cases, expand.

Why?  
They are large revenue-producing spectator sports.

To think that college tennis can survive because of scandal-free programs, high team grade-point averages and successful graduation rates is unrealistic.

Ways to make collegiate tennis revenue-producing and more attractive to spectators have been

**"Why are coaches procrastinating when additional tennis teams join the obituary column each year?"**

addressed and tabled many, many times.

Now, with no progress made, college tennis is facing extinction.

Why are coaches procrastinating when additional tennis teams join the obituary column each year. Are coaches waiting for a cure, a windfall, an increase in athletics budgets?

The following opinions are from

college coaches who see change as the only chance of survival. They point out some positive changes that can occur to make tennis a revenue-producing sport.

Jerry Simmons has been coaching for 17 years and is the head coach at Louisiana State University. Benny Purcell has been coaching for 31 years and is the head coach at Murray State University. Greg Patton has been coaching for 12 years and is the head coach at the University of California, Irvine. Dennis Emery has been coaching for 11 years and is the head coach at the University of Kentucky.

**Question:** How can collegiate tennis become a revenue-producing sport?

**Simmons:** Well, I approach it from three angles. Create an image, get your sports information involved and play night matches. I designed a team poster with the players in tuxedos beside a Bentley with our slogan, "On the road to success," underneath.

This created an image that people could identify with—vogue. Publicity means sports information, monthly newsletters, free clinics, etc. Matches have to be publicized a week in advance. Give the public a story like the match decides the conference title or the interstate rivalry between the teams or a national ranking is on the line. Present it so that people want to come out and support your team.

Then, the key to it all is to play night matches. This is the only way to become revenue-producing. Start the matches at 6:30 p.m.; get the crowd involved with cheering, booing or whatever it takes to get them into the match. Unless we sell to the public through image, product and availability, college tennis will die. Even with all of this, I believe that in five years, only 100 Division I schools will be playing college tennis.

**Purcell:** At major football schools, tennis programs are not under threat; but at universities our size, we are in trouble.

I can see in a few years tennis becoming a nonscholarship sport; then, our budgets cut even further. Right now, my program is only able to survive because eight boosters

donate money each year.

To survive and become revenue-producing, we have to change our format and play night matches. The present format of six singles and three doubles will never attract spectators; it takes four hours to finish a match. We have to change to a four-singles, one-doubles-match format, all going on at the same time, and the match is decided in two hours.

This format change will never occur unless the Intercollegiate Tennis Coaches Association mandates it. Night matches are a must. Who can come out to watch a tennis match at 2 p.m.? Unless we change the format and play night matches,

Dennis Emery

tennis programs in universities our size will not be around in five or 10 years.

**Patton:** I believe that college tennis will always survive even if it remains a nonrevenue-producing sport.

Collegiate tennis exemplifies the intent of college athletics, students excelling in both their sport and academics. It is well-known that college tennis programs, including successful ones, have students who maintain high grade-point averages and graduate.

The tennis program at UC Irvine, like many around the country, brings in something more than money. For the university, academic recognition. Athletics directors who cut tennis programs to save money actually are losing more than they are trying to save.

If "revenue producing" becomes a critical factor for our survival, then we have several options open to us. Revenue can be raised by running tennis tournaments for the community, putting on clinics for high school tennis coaches, conducting tennis camps, etc.

We could also play night matches and charge admission like other sports. This last option would also involve a format change, and this is a controversial issue right now. Personally, I am not in favor of this last option.

**Emery:** At Kentucky, we are a revenue-producing sport. This next year, we hope to bring in \$25 thousand by selling season tickets to our matches, which we will play indoors at night. Sure, college tennis will survive, but only at the major universities. In most other colleges, it probably will not be around in another five to seven years.

From the opinions given, it was agreed that college tennis can become revenue-producing by playing night matches. A 6:30 p.m. start will allow many more spectators the opportunity to watch and support their local collegiate tennis team. The match format still is an area of great controversy that needs to be resolved.

If there was ever any doubt that college tennis was a critically sick patient, one only needs to look at the 1987 special NCAA Convention in Dallas. The nonrevenue-producing sports were downgraded with reduced seasons and reduced match schedules to save money. As the competition for dollars continues, nonrevenue sports such as tennis may cease to exist.

Collegiate tennis, though terminally sick, is not dead. It is the time to face reality and move collegiate tennis out of the dark ages and into the 20th century. How can collegiate tennis survive when matches are usually played on weekdays, start at 1 p.m. or 2 p.m. and may last anywhere from four to six hours?

## Achievement test results misleading, official says

The public is getting an overly rosy picture of U.S. schools from standardized achievement tests that allow most districts to claim their pupils are above average, a top Education Department official has said.

Chester E. Finn Jr., the assistant secretary for educational research and improvement, said most test makers and test experts who attended a closed meeting at the Education Department agreed that the tests have exhibited a "Lake Wobegon effect," the Associated Press reported.

Finn was referring to humorist Garrison Keillor's mythical hometown "where all the children are above average."

By definition, half the children in the United States are above the national average and half below it.

But John Jacob Cannell, a crusading West Virginia doctor, recently canvassed every state and did not find a single one that reported its elementary pupils were below average on any of the six major commercial tests.

The report published by Cannell's Daniels, West Virginia, group, Friends for Education Inc., was the springboard for the discussion that took place among 40 test makers, educators and Federal officials. Secretary of Education William J. Bennett didn't attend.

"There was a near consensus that

Dr. Cannell has identified an authentic problem in American education," Finn said, adding that the tests "give a lot of people a misleading impression of the actual condition of education in their kids' schools."

## Prints to be sold

As part of the celebration in honor of the 50th anniversary of the NCAA Division I Men's Basketball Championship, the NCAA has commissioned noted sports artist John Boyd Martin to create a series of five watercolor paintings depicting highlights from each of the Final Four's five decades.

The Score Board, Inc., is marketing a limited edition (950 prints of each) of the paintings to the general public. The originals will become part of a permanent exhibition at the Naismith Memorial Basketball Hall of Fame in Springfield, Massachusetts.

The prepublication price for the set of five lithographs, to be signed and numbered by Martin, is \$500. If available, individual prints will be sold at \$150. Orders will be filled on a first-come, first-served basis.

For more information or to order the series, contact The Score Board, Inc., at 100 Dobbs Lane, Suite 206, Cherry Hill, New Jersey 08034. Telephone orders will be taken at 1-800-356-2193 or 1-609-354-9000.

## An earlier

Continued from page 4

board, room and tuition, that gives some poor kid a chance to go to college, which he might otherwise never receive.

In other words, he can use his athletic ability to open the doors of higher education, but not to hold up his athletics office for a higher salary.

A college athlete, whether he's a football, baseball, basketball or chess player, is supposed to play the game because he loves it. That our college athletes happen to be better equipped physically than other students is a big break in their favor.

But, if their main ambition is to become professional athletes, then these athletes should sign up with the professionals and get it over with. Why contaminate and confuse the collegiate amateur scene?

People who favor paying our college athletes advance the argument that since a star football player helps his college make thousands of dollars by filling huge stadiums every Saturday afternoon, the player should reap some of the profits.

My answer to that is this: If a football player attends college to draw huge football crowds, he has his signals mixed. Getting a higher education should be the primary reason for any youngster's going to college.

Athletics achievements, however sensational, should be secondary and should serve as a means to an end, namely a legitimate college diploma.

Let's keep the record straight. When a college athlete plays for pay, he's a professional no matter what uniform he wears.

## Opinions

Continued from page 4

for me to take care of the old man here.

"I like Wesleyan very much. I love the atmosphere that we work under. I think it's the right way for colleges to go about athletics."

**Furman Bisher, sports editor**

*The Atlanta Constitution*

"How do you like the dedication of the big dogs of the NCAA? They pledge their troth to loftier academics, then vote it out the window in Nashville, while Division II stuck by its guns. All talk and no action, that's Division I.

"A probable cause of the above: It's a pathetic trait of college athletics, but it seems they measure success by how many times they appear on national TV. It's a standard statistic in their (sports) guides, like W's and L's. What Division I seems to be saying is literacy doesn't win, illiteracy does."

**Sam Jankovich, athletics director**

*University of Miami (Florida)*

*Sports, Inc.*

"I believe in academic integrity, but the bottom line for college athletics is 'You gotta win.'"

"That's where I disagree with college presidents. The one thing that will probably chase me out of this business is the hypocrisy of higher education."

**Jack Fligg, recruiting coordinator**

*University of Alabama, Tuscaloosa*

*Dallas Times Herald*

"In recruiting, the world keeps getting smaller.

"People used to stay in their own areas. In the last three or four years, since the television regulations (of college football games) were lifted, a kid in El Paso,

Texas, can watch a team in Georgia all the time.

"The same goes for Penn State or Boston College or Michigan. Then, when one of those schools calls, there is a certain familiarity. The kid's much more receptive."

**Lou Henson, head men's basketball coach**

*University of Illinois, Champaign*

*Chicago Tribune*

"From a coaching standpoint, I would prefer not to do it (play a nonconference opponent on national television during the conference schedule). But there are other things you look at.

"But I don't want to play more than one; and you're better off if you don't play any, and you certainly don't want to play more than one."

**Roy Kramer, athletics director**

*Vanderbilt University*

*Chicago Tribune*

"We have become increasingly aware of and concerned about student-athletes, particularly in football, who have merely modified their use of steroids, using them during the off-season.

"We have a number of reports from coaches and trainers that the practice is continuing and even increasing."

**Cameron Sowell, school board member**

*Lancaster, Texas*

*Dallas Times Herald*

"In our area, it's (Texas' no-pass, no-play rule) no longer an issue. The students have accepted it and have excelled because of it.

"It has been a positive, not a negative. It took awhile to adjust to it, but it has worked out very well."

# Conferences may consider additional revenue sharing

Conferences may find themselves considering whether to extend their revenue-sharing agreements to sports other than football and basketball, now that the NCAA is paying per diem and transportation costs from the Association's general

operating fund for institutions that participate in Division I championships and National Collegiate Championships.

"If the NCAA had used the general operating fund to pay per diem and transportation expenses

for 1986-87 championships, an additional \$1.6 million would have been distributed to the membership," according to NCAA Controller Louis J. Spry.

"As a result of this policy change, conferences will find that their member institutions participating in a majority of the Division I championships or National Collegiate Championships will come away with more money than in the past. In some cases, these additional receipts may be sufficiently large to prompt conferences to consider developing revenue-sharing plans for sports other than football or basketball," Spry said.

Last August, the NCAA Executive Committee approved a proposal to pay per diem and transportation expenses for all Division I championships and National Collegiate Championships, except the Division

I Men's Basketball Championship.

As a result, championships receipts previously used to pay such expenses will now become available for distribution to competing schools.

NCAA policy calls for 40 percent of any receipts remaining after expenses are deducted to be paid to the Association; the remaining 60 percent is divided among competing institutions.

Previously, receipts were distributed only after per diem and transportation expenses had been deducted from the gross net receipts of the championship.

At least seven championships that recorded deficits during 1986-87 instead would have distributed receipts to competing institutions if per diem and transportation expenses had been paid from the

general operating fund last year.

The championships were National Collegiate Men's Water Polo, Division I Men's Soccer, Division I Women's Softball, Division I Men's Swimming and Diving, Division I Men's Tennis, Division I Men's Outdoor Track and Field, and Division I Women's Volleyball.

Several other championships that were able to distribute receipts last year would have been able to distribute even larger sums had the new per diem and transportation expenses policy been in effect.

"Recent conversations with some conference commissioners would indicate that the implications of this change may not be widely understood," Spry said. "We are attempting to call this to the attention of Division I conferences for whatever consideration they may want to give to it."

## College World Series has record net receipts

Last year's College World Series, boosted by a record attendance of 130,659 fans, yielded record net receipts for the NCAA and College World Series Inc. of Omaha, Nebraska.

The organizations evenly split net receipts totaling \$327,867.35, which topped the previous record of \$256,701 set in 1985 and represented a 54.5 percent increase in income over the 1986 figure of \$212,229.56.

Contributing to the record take were increased ticket prices ranging from 50 cents to \$1 per ticket. Ticket sales totaled \$524,165, up from \$421,105.90 in 1986.

College World Series Inc. used its \$163,933.68 share of the net receipts largely for grants to various baseball- and softball-related programs in the Omaha area, according to the Omaha World-Herald.

Among the projects supported by the College World Series Inc. board is the "Let's Go to Bat for Rosenblatt" campaign.

Including \$10,000 pledged in December, the board has earmarked \$110,000 for the campaign to improve Rosenblatt Stadium, site of the College World Series.

The improvements include an increase in seating capacity from 15,300 to 17,518 for the 1988 event.

College World Series Inc. officials hope the increased seating will help offset a projected drop in attendance in 1988 that could result from a change in the tournament's format.

Under the new format, the eight participating teams will be divided into two divisions. Survivors of double-elimination play in the divisions will advance to a single championship game June 11.

Attendance could drop because the new format decreases the number of tournament sessions from nine or 10 to eight or nine, depending on whether the maximum number of games is needed to determine division champions.

"Last year, we had 13,000 per session," Jack Diesing, president of College World Series Inc., told the World-Herald. "If we averaged that, it would be 104,000 people for eight sessions. With nine sessions, the outlook is for from 115,000 to 120,000 people."

Those figures would be improved if the extra seats can be sold, Diesing said.

## Coach has surgery

Sandy Buda, the head football coach at the University of Nebraska, Omaha, has undergone successful bypass surgery, a school official said February 15.

Buda had the nonemergency procedure at St. Joseph Hospital in Omaha, sports information director Gary Anderson said in a news release.

Buda will remain in the hospital for about 10 days and is expected to return to work in time for the beginning of spring football practice March 28, Anderson said.

Buda underwent similar surgery in 1984, but Anderson said the same arteries were not involved in the latest operation.

# Men's Soccer Committee adopts several rules changes

At its February 4-6 meeting, the NCAA Men's Soccer Committee voted to adopt several rules changes and approved rulings, pending approval of the NCAA Executive Committee. The soccer committee met in Newport Beach, California.

One of the major changes is a move to allow either a dual or three-man, diagonal system of control for referees. Previously, the diagonal system was mandatory.

Other changes are as follows:

- Team benches shall be placed on the same side of the field at least 10 feet (whenever possible) from the touch lines.

- A substitute must remain at the scorer's table, be recognized by the referee and enter the field of play only when the player he is replacing departs, unless the departing player is injured and cannot leave the field unassisted.

- A new approved ruling will follow Rule 3-4-b stating that the referee shall terminate the game in the event the coach is ejected and an official institutional representative is unavailable to replace the coach for the balance of the game.

- An approved ruling will follow Rule 6-16 permitting an ejected player to play in a rescheduled game if the game was rescheduled prior to the ejection and is the next game to be played.

- Rule 1-13, which states that the team captain must wear a special armband that distinguishes him from other players on his team, will become an administrative rule.

Reports of the division subcommittees follow:

## Division I

It was voted to recommend to the Executive Committee that the best two teams from each of the eight regions, as well as automatic qualifiers, be selected for the championship, with the rest of the bracket

## Fan files charge against coach

Brown University men's basketball coach Mike Cingiser faces arraignment in California February 23 on charges of disorderly conduct and assaulting a fan who heckled his team in December, authorities said.

The charges were filed two weeks ago after the fan, Bill Harvey of Santa Ana, California, filed a written complaint with campus police at California State University, Fullerton, the police said February 16.

Both charges are misdemeanors and carry maximum penalties of 90 days in jail and a \$1,000 fine.

The incident occurred December 30 during Brown's 106-60 loss to Fullerton State, when Harvey, a fan who has been ejected from games for his antics, began heckling the Bruin players and Cingiser walked over to talk to him, a witness said.

"According to witness statements, one of three things happened," said Fullerton Police Capt. Dan Byrnes. "He pushed the fan. He hit the fan with his elbow. Or he hit him with his fist. It depends on which vantage point the various witnesses had."

The referees offered to assess 28 technical fouls against Brown, two apiece on two coaches and 12 players who left the bench to engage in the scuffle. But Fullerton declined, and Cingiser was ultimately charged with one technical. Harvey was ejected from the arena, the Associated Press reported.

filled through at-large selections.

The top eight teams will be ranked and placed in the bracket and will receive byes in the first round. The remaining 16 teams will be paired for first-round competition based on geographical proximity to the top eight teams and to each other.

Conferences recommended to receive automatic qualification are the Atlantic Coast Conference, the Atlantic 10 Conference, the Big East Conference, the Colonial Athletic Association, the ECAC Metro Athletic Conference and the Pacific Coast Athletic Association.

Also, it will be recommended that the semifinals and final be held December 10 and 11 at on-campus sites.

The full committee reviewed a proposal recommending a "permanent" site for the Division I championship. However, no action was taken pending additional informa-

tion to be received from the sponsoring agency.

## Division II

The top two teams from both the Northeast and Central regions and the top-ranked team from both the South and West regions will be selected for the 1988 championship, in addition to automatic qualifiers not selected in the above process. The remaining teams will be selected at-large.

The top team in each region will receive a first-round bye, and all other teams will be paired geographically within their regions. If any of the four regions has only two teams, then one of the remaining regions having four teams will pair the at-large team in closest proximity.

Conferences recommended to receive automatic-qualification privileges for 1988 are the California

Collegiate Athletic Association, the New England Collegiate Conference, the Northern California Athletic Conference, the Pennsylvania State Athletic Conference and the Sunshine State Conference.

## Division III

The subcommittee will recommend that the championship bracket be revised so that third-round pairings will rotate on an annual basis. In 1988, the Great Lakes region will face the New England region in the upper bracket, with the New York region receiving a bye. In the lower bracket, the South and Midwest/Far West regions will face each other, while the Pennsylvania/New Jersey region receives the bye.

In 1989, New England and New York will be paired in the upper bracket, with the bye going to the South region. The lower bracket will pair the Great Lakes and Penn-

sylvania/New Jersey regions, with the Midwest/Far West region receiving the bye.

The upper bracket for 1990 will pair the Pennsylvania/New Jersey region against the South, while the lower bracket will pair the New York region with the Midwest/Far West region. The New England and Great Lakes regions will receive byes in the upper and lower brackets, respectively.

Also, it will be recommended that the following conferences receive automatic bids: the Dixie Intercollegiate Athletic Conference, the Massachusetts State College Athletic Association, the North Coast Athletic Conference, the Southern California Intercollegiate Athletic Conference and the State University of New York Athletic Conference. Two additional conferences are under consideration pending receipt of further information.

## Questions/Answers

Readers are invited to submit questions to this column. Please direct any inquiries to *The NCAA News* at the NCAA national office.

**Q** What steps have been taken by the Association to promote consistency in officiating on a national level?

**A** Within the past two years, the NCAA approved officiating improvement programs in the sports of soccer, lacrosse, wrestling, and ice hockey in addition to the two-year pilot programs in men's and women's basketball. The programs vary somewhat; however, most consist of rules clinics, printed instructional information and instructional videotapes. The certification of officials who may be selected to officiate in NCAA championships is determined by the respective governing sports committees. The NCAA is interested in developing a "national consistency" in officiating and certification of officials. If the noted programs are effective, they may be enhanced and similar programs initiated in other sports.

## Program gets \$4.5 million

Businessman Ron Tyler has announced a \$4.5 million contribution to Wichita State University to set up an endowment for the Shocker baseball program.

Tyler, a former Shocker baseball player and cofounder of Residence Inns, said he was earmarking the money for baseball scholarships and renovation of WSU's Eck Stadium.

The stadium was completed in April 1985 at a cost of about \$700,000. It is named for Wichita businessman Rusty Eck, who provided most of the money in a private drive to finance the stadium's construction.

After using the field three seasons, WSU recently began replacing the stadium's artificial turf.

Tyler, who earned letters in baseball in 1965 and 1966, said the payments of his gift would be deferred over a number of years but declined to discuss the timetable.

The Shockers, one of college baseball's most successful teams, have participated in the NCAA College World Series and were national runner-up to Miami (Florida) in 1982 when the team finished 73-14.

Tyler and Jack DeBoer, a local developer and investor, in 1975 founded the Residence Inns, a na-

tional chain of all-suite hotels. Last July they sold the chain to Marriott Corp.

## Report suggests higher division for most sports

A faculty committee at California State University, Northridge, has recommended that the school's intercollegiate sports programs, except football, be reclassified from NCAA Division II to Division I.

The report was submitted to school President James W. Cleary for further action.

The recommendation was one of five alternatives considered, including a downgrading of programs or remaining in Division II.

Cal State Northridge teams are among the most successful in NCAA Division II men's and women's championships competition. Matador men's teams have won 18 NCAA titles, and women's teams have won nine championships.

In NCAA individual championships titles, Matador men account for 91 and the women for 37.

The report on athletics, entitled "Intercollegiate Athletics Programs: At the Crossroads," was compiled by Edmund Peckham, vice-president for student affairs and dean of students; Judith M. Brame, associate athletics director; Lennin Glass, dean of the school of communications and professional studies; Robert J. Hiebert, director of athletics, and Sam Winningham, chair of the department of kinesiology and physical education.

Copies of the report can be obtained by telephoning 818/885-3243.

## Study casts doubt on classes aimed at SAT

The admissions director at Harvard University says a new study suggests that special classes to improve Scholastic Aptitude Test scores might not be effective.

The official, William Fitzsimmons, said the study of Harvard freshmen found that those who were not coached scored slightly higher on both the verbal and mathematics sections of the tests, the Associated Press reported.

Spokesmen for two of the coaching companies mentioned in the study, Stanley Kaplan Educational Centers and Princeton Review, took issue with Fitzsimmons.

Fitzsimmons presented some information from the study at the annual New England regional meeting of the College Board.

Each year, about a million students take the SATs, which are

administered by the College Board.

"The coaching industry is playing on parental anxiety," Fitzsimmons said. "Spending time on coaching takes time away from working on getting good high school grades, on extracurricular activities or community service, all of which are important when admissions officers are choosing a class."

John Katzman, founder of Princeton Review, told *The Boston Globe* the study used a "bizarre sampling" of students.

Susan Kaplan, spokeswoman for the Kaplan Centers, said, "Students I know are achievement-oriented and do not sacrifice working for the school paper, playing in the band or other such activities in order to make time for coaching."

The study was based on a ques-

tionnaire given to the more than 1,500 Harvard freshmen when they registered for classes last fall.

It showed that 69 percent of the 1,409 who answered were not coached, while 14 percent said they had been coached.

The study found that students who were not coached scored an average of 649 on the verbal and 685 on math. Students who were coached had averages of 611 on the verbal and 660 on math. The tests are scored on a scale of 200 to 800.

The survey did not determine whether the coaching helped students with lower scores improve their test results enough to get into Harvard.

An earlier study in New York by John Zuman, a researcher, found that coaching did increase most SAT scores.

# Association places Illinois on probation for one year

## I. Introduction.

In 1984, the University of Illinois, Champaign, appeared before the NCAA Committee on Infractions in an infractions case that involved serious violations of NCAA recruiting rules occurring in the institution's football program. As a consequence of that case, the university was placed on probation for a two-year period, and sanctions were imposed that prohibited television appearances and postseason bowl competition for one year.

During the university's presentation to the Committee on Infractions in that case, it was announced that a rigorous compliance program had been instituted to provide a thorough education concerning NCAA recruiting regulations to football and other university Athletic Association staff members, and that a comprehensive monitoring and audit system had been established for recruiting, the awarding of financial aid and other activities of the Athletic Association staff. These measures were implemented and continued as regular management procedures during the period of probation that was imposed by the NCAA. The Committee on Infractions welcomed these initiatives to ensure firm control over the conduct of the university's football program, particularly in the area of recruiting, and the committee took these measures into account in 1984 as tangible evidence of the university's commitment to operate a football program free of violations.

The University of Illinois again is in the position of appearing before the committee as a result of violations in its football program. However, a dramatic difference exists in the circumstances of this case compared to those of the prior case. Because of the university's ongoing compliance programs and its current commitment to integrity, the institution was able to: (a) address its problems quickly; (b) determine with preciseness the extent to which alleged violations occurred; (c) self-report additional violations discovered as a result of the university's monitoring procedures, and (d) establish, and take action regarding, individual responsibility for the failure of the football coaching staff to meet the standards expected of it.

With the exception of violations concerning the recruitment of one highly recruited prospective student-athlete in 1985, the violations in this case are minor in nature and do not reflect a pattern of conscious wrongdoing to achieve a competitive advantage. All of the violations in this report were admitted promptly by the university and, as illustrated by the matters that were self-reported by the university, the university's audit and monitoring programs appear to be effective. If these were the only violations in the case, there would be no need for further action by the NCAA.

Among the violations, however, are those involving the recruitment of a highly sought-after prospective student-athlete in February 1985 while the university was on NCAA probation, and which occurred at a time when the university's internal compliance program sharply focused the football staff's attention on the need to avoid recruiting violations. Nevertheless, an assistant coach gave approximately \$100 cash to a prospect on the weekend prior to the date for signing National Letters of Intent in 1985 in order for the young man to stay in a hotel away from his home town while avoiding rival recruiters. The infractions involving this young man take on added seriousness because

they were committed by a coaching staff member who was charged with special responsibilities for coordinating the football program's recruiting efforts. Further, signals of overzealous recruiting efforts, such as an extended stay by the coach in the prospect's home town, should have been detected. Because of these violations, the committee believes it appropriate to impose a period of further monitoring and review by the NCAA to ensure the effectiveness of the university's compliance program.

Therefore, the committee has imposed a one-year period of probation and will require the university to submit audits of its athletics program at the conclusion of the 1987-88 and 1988-89 academic years. As indicated in Part III of this report, the committee initially prohibited postseason competition for one year. However, the commit-

tee suspended this sanction because the university moved decisively and in a public manner to make clear that the improper conduct of coaching staff members in this case was intolerable. The former head football coach who was responsible for the overall conduct of the program now is separated from the university, and the committee notes that the key assistant coaches involved in the violations are no longer on the staff. Also, the prospective student-athlete who was involved in the \$100 cash transaction did not enroll at the university.

The committee's findings are set forth in Part II of this report, and the committee's penalties are contained in Part III.

## II. Violations of NCAA requirements or questionable practices in light of NCAA requirements, as determined by committee

### A. On or about February 8, 1985, the

weekend prior to the first day of the National Letter of Intent signing period, a former assistant football coach who also was the recruiting coordinator provided an outstanding prospective student-athlete at least \$100 cash in order for the young man to travel from his home to another city; further, the young man used this cash to pay a portion of two nights of lodging expenses at a hotel for himself and a friend. [NCAA Bylaw 1-1-(b)-(1)]

### B. In the process of recruiting an outstanding prospective student-athlete, a former assistant coach who also was the recruiting coordinator committed additional violations, including: (1) between December 2, 1984, and February 13, 1985, he contacted the prospect in person at locations away from the young man's high school on more than three occasions; (2) on one occasion, he transported the prospect from the young man's high school to the prospect's home, and (3) during the prospect's official paid visit to the university, he arranged for the young man to participate in a pick-up basketball game with enrolled football student-athletes. [NCAA Bylaws 1-2-(a)-(1), 1-6-(a) and 1-9-(j)]

### C. A former assistant coach who also was the recruiting coordinator did not deport himself in accordance with the high standards of ethical conduct expected of institutional staff members in that his involvement in the violations set forth in Part II-A of this report indicates his intentional involvement in the provision of an improper inducement to a prospective student-athlete. [NCAA Constitution 3-6-(a)-(1)-(iii)]

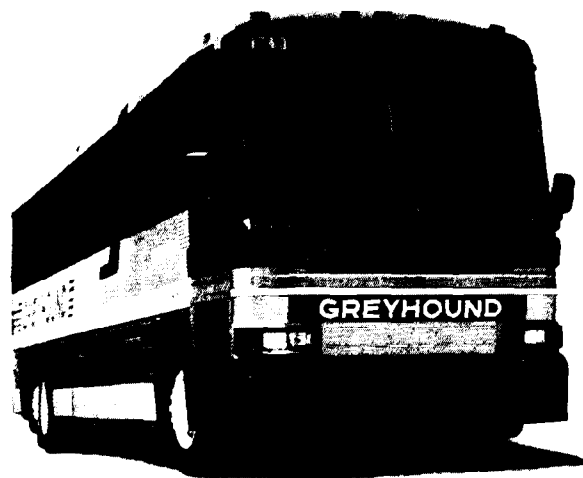

### D. Members of the institution's football staff have committed other limited or isolated violations related to: (1) the provision of meals to relatives of some prospects during official paid visits to the university's campus; (2) in-person contact with a prospect during a noncontact period, and (3) contact between representatives of the institution's athletics interests and a prospect (and his father) at an Athletic Association-sponsored social event. [NCAA Bylaws 1-2-(a)-(4), 1-2-(b), 1-9-(j) and 1-9-(1)-(5)]

## III. Committee on Infractions Penalties.

### A. The institution shall be publicly reprimanded and placed on probation until July 1, 1989, it being understood

See Association, page 10

# Behind every great team is a great coach.

When it comes to moving college teams from place to place, Greyhound® provides a special kind of coaching. The kind of coaching that's reliable, timely and trusted.

It's that kind of coaching that has made Greyhound the official motorcoach carrier for the NCAA Championships.

Greyhound has over 70 years' experience and a fleet of modern coaches that are unbeaten by any other bus company. Our team of drivers has the most experience in the business. And each of our coaches is fully equipped for charter travel with climate-controlled environments

and wide reclining seats to assure our passengers' comfort. Plus, there's a nationwide network of Greyhound service facilities working 24 hours a day.

So if you've got a group that needs coaching, call Greyhound Travel Services at 1-800-872-6222 or 1-800-USA-NCAA. And team up with the travel professionals.

**Official Motorcoach Carrier for NCAA Championships**

# Arthroscopic surgery used in treating some shoulder injuries

By Robert Byrd

Arthroscopic surgery, which has come into widespread use for knee injuries, now looks promising for repairing shoulders, said Dr. Frank Jobe, the Los Angeles surgeon who has treated some of America's most famous athletes.

Surgery by arthroscope—a miniature diagnostic and surgery tool—came into widespread use in the 1970s. The technique leaves much smaller wounds than conventional open surgery, allowing faster healing and rehabilitation.

The technique has been used most often for knee or elbow injuries. A few surgeons are now beginning to try the arthroscope as a means of operating on the shoulder.

"It certainly looks promising," Jobe said at the annual meeting of the American Academy of Orthopaedic Surgeons. But, he added, "We don't have the statistics yet that

tell me it's a better procedure than the open one (conventional surgery)."

Jobe, team doctor for the Los Angeles Dodgers and perhaps America's most famous orthopedic surgeon, has operated on several top athletes, including baseball stars Pedro Guerrero and George Brett and basketball legend Wilt Chamberlain. In a pioneering operation now known as "the Tommy John operation," Jobe transplanted a tendon from one of the pitcher's arms to repair a ligament in his pitching elbow, saving his career.

Some of Jobe's patients, then, have somewhat different shoulders than the average person.

"The causes of shoulder instability in a young, overhand-throwing athlete are different from the problems associated with an older person,"

Jobe said. Shoulder instability—repeated dislocation—is now understood to be a leading cause of more serious problems, such as the rotator-cuff damage that baseball pitchers fear, he said.

If arthroscopic surgery works on shoulders, Jobe said, it could mean less destructive surgery, as it did for knee-injury patients.

"One advantage would be being able to get in there without taking the muscles down (being forced to damage obstructing muscular tissue during surgery)," Jobe said.

"That's what we're always trying to do in open surgery. The ultimate of that... would be to do it arthroscopically."

But Jobe said he will wait for reports from other surgeons before deciding whether to perform arthroscopic shoulder surgery himself.

"I want to see some results after

two years, particularly on throwers," or baseball pitchers, he said.

"Pitchers almost have to have perfect shoulders," Jobe continued. "We're looking for being able to return (after surgery) to the same level of pitching as you did before."

And, he said, he would be hesitant to begin experimenting on a star pitcher whose livelihood depends on his shoulder.

"I think you have to do 200, 300 before you feel comfortable," he said. "I don't want to get an athlete who has to be reoperated on because I didn't do it right."

Dr. Richard Caspari, a Richmond, Virginia, surgeon and researcher, said he has treated nearly 100 shoulder arthroscopy patients, with promising results. He said his patients include "some athletes and throwers," but none yet at the big-league level of many of Jobe's pa-

tients.

Caspari and other surgeons who have tried arthroscopic shoulder operations differ on how hard it is.

"For me, it's easier to repair with the arthroscope," he said. "The shoulder has a lot of structures around it. I'm more comfortable with it (the arthroscope)."

But Dr. Richard J. Hawkins, a London, Ontario, surgeon, described his first shoulder arthroscopies as "a pain in the butt. It can be very difficult to stabilize (surgically correct) a shoulder with the arthroscope."

Still, Hawkins described the field as "new and exciting" and said that learning it should be "a lot of fun. Many orthopedic surgeons are becoming very excited about it."

Byrd writes for the Associated Press.

## Association

Continued from page 9

that should any portion of any of the penalties be set aside in this case for any reason other than by appropriate action of the Committee on Infractions or NCAA Council, the penalties shall be reconsidered by the Committee on Infractions.

B. The university shall conduct annual audits of its football program at the conclusion of the 1987-88 and 1988-89 academic years, and the results of these audits shall be submitted to the committee for review prior to June 30, 1988, and June 30, 1989.

C. The university's intercollegiate football team shall conclude its 1988 season with its last regularly scheduled, in-season contest and shall not be eligible to participate in any postseason competition following that season.

[Note: In light of the exceptional and diligent efforts of the institution to develop information in this case and to take decisive action concerning its head football coach for violations that occurred during his tenure, the committee hereby suspends the one-year postseason sanction in this case.]

[Additional Note: The committee also wishes to note that based upon the nature of the violation set forth in Part II-A of this report and the initial determination of the Committee on Infractions that a postseason sanction was appropriate (reference: Part III-C), this is notification that if the university accepts this report, or if the report is sustained upon appeal to the NCAA Council subcommittee of Division I members, this infractions case shall be considered a "major" case, and the five-year period applicable to NCAA legislation concerning repeat, major violations (reference: Section 7-(d) of the NCAA enforcement procedure) will begin on the effective date of the probationary period in this case, which shall be the date the university notifies the executive director that it will not appeal to the Council subcommittee or the date of Council subcommittee action on an appeal.]

[Final Note: Should the University of Illinois, Champaign, appeal either the findings of violations or any portion of the committee's proposed penalties to the NCAA Council subcommittee of Division I members, the Committee on Infractions will submit an expanded infractions report to the Council subcommittee that will include additional information in accordance with Section 6 of the Official Procedure Governing the NCAA Enforcement Program. A copy of the committee's report will be provided to the school prior to the institution's appearance before the Council subcommittee.]

Also, the Committee on Infractions wishes to advise the university that when the penalties and corrective actions, as determined by the committee or Council subcommittee, become effective, the university shall take every precaution to ensure that their terms are observed. Further, the committee intends to monitor the penalties during their effective periods, and any action contrary to any part of any of the penalties shall be considered grounds for extending the university's probationary period, as well as to consider imposing more severe sanctions in the case.]

NCAA COMMITTEE ON INFRACTIONS

# Our NCAA<sup>®</sup> discount doesn't discriminate against sex, color or species.

Everyone gets the same low rates. And the same high quality service. After all, as the official car rental company for NCAA<sup>®</sup> Championships, we didn't think it would be fair to play favorites. As far as we're concerned, there's no difference between a Devil and a Wildcat. Except perhaps, the method they use to dial 1-800-CAR-RENT.

We feature GM cars like this Pontiac Grand Am

**National Car Rental**

National is the official car rental company for NCAA Championships.

# NCAA Record

## CHIEF EXECUTIVE OFFICERS

**Frank D. Brown** named president at Columbus, where he was vice-president for business and finance and associate professor of management... **Roland W. Schmitt** appointed president at Rensselaer. He previously was senior vice-president for science and technology at General Electric and chairman of the National Science Board... **Lewis S. Salter** given new title of chancellor at Wabash, where he has been president. He is a member of the NCAA Presidents Commission.

## DIRECTORS OF ATHLETICS

**Bernard "Beanie" Cooper** resigned at Indiana State, where he has been in the post since 1981. He will be reassigned to the school's business affairs office, effective July 1. Cooper chairs the NCAA Division I-AA Football Committee... **A. Don Drennan** named at Abilene Christian, where he has been a member of the faculty or staff since 1960 and is a former faculty athletics representative. He previously was associate professor of accounting at the school... **John R. Chuckran** announced his retirement after seven years in the post at Rhode Island, effective August 31. He plans to remain at the school until December 31 to work on a policy manual.

## ASSISTANT DIRECTOR OF ATHLETICS

**Rod Walters** promoted from head trainer at Appalachian State, where he has served since 1985.

## COACHES

**Baseball**—**John Winkin** given a new three-year contract at Maine, where he has been head coach for 13 years. His Black Bear teams have compiled a 374-185-2 record and appeared in the College World Series six times... **James P. Nietopski** appointed interim head coach at Rochester Institute of Technology, replacing **Bill DiCicco**, who resigned to accept a teaching position at Geneseo State. Nietopski played at Virginia and Ithaca before serving last year as an assistant to his father at Cardinal Mooney High School in Rochester, New York.

**Baseball assistants**—**Jim Delzell**, **Dick Little** and **Tom Moritz** selected at Occidental. Delzell, a teacher in the Glendale (California) Unified School District, will coach the outfield; Little, a teacher at Irvine Junior High School in Los Angeles and a former minor-league player and manager, will handle pitching, and Moritz, a former player at Southern California and with the Chicago White Sox, will serve as hitting coach.

**Men's basketball**—**Donnie Marsh**, a former Division III all-America at Franklin and Marshall, appointed at Elizabeth town. He also was an assistant basketball and head baseball coach at Franklin and Marshall before serving the past 1½ years as president of Players in Action, a consulting firm for professional athletes... **Tom McCorry** promoted from assistant to interim head coach at James Madison, replacing **John Thurston**, who resigned after receiving notification that his contract would not be renewed after this season.

Also, **Bill Detrick** announced that he will not return to the Central Connecticut State basketball post he relinquished for medical reasons in December. In addition, he reconfirmed his intention to step down as interim athletics director and announced that he will retire as professor of physical education and health fitness studies, effective September 1. Detrick served for 29 seasons as basketball coach at the school, compiling a 465-266 record.

**Men's basketball assistant**—**St. Louis' Ed Stewart** named head coach at Missouri Baptist. He has been on the St. Louis staff for six seasons.

**Women's basketball**—**Peter Gavett** given a three year contract extension at Maine, where he is in his fifth season as head coach. Gavett recently won his 100th game at the school.

**Field hockey**—**Tracey Olsen** selected for the new program at Methodist. She previously served on the coaching staff at Wesley.

**Football**—**Dick Sheridan** given a contract extension through the 1993 season at North Carolina State... **Jim Miceli** appointed the first full-time coach at Ramapo, replacing part-time coach **Dave Wilson**. Miceli previously coached for two years at Old Tappan High School in New Jersey and also is a former assistant at Pittsburgh... **Bob Smith** stepped down after four seasons at Southeast Missouri State to return to the staff at Illinois.

**James Nietopski** appointed interim baseball coach at RIT

**Kathy Ludwig** named women's soccer coach at Arkansas

**Liz Abel** promoted to publications director at Utah

Smith's teams compiled a 17-26-1 record during his tenure, including a 6-4-1 mark last season, when he was named coach of the year in the Missouri Intercollegiate Athletic Association. He earlier served for six seasons as an assistant at Illinois.

**Football assistants**—**Gary Crowton** named offensive coordinator at New Hampshire. He served last season as quarterbacks and receivers coach at Western Illinois and is a former offensive coordinator at Snow... **Foge Fazio** resigned as defensive coordinator at Notre Dame to become special teams and tight ends coach for the Atlanta Falcons. Fazio served as head coach at Pittsburgh before joining the Notre Dame staff two years ago... **John Hussey** named defensive coordinator at Otterbein, his alma mater. He served last season as a graduate assistant coach at Ohio State and was linebackers coach at Otterbein from 1982 to 1983.

**Women's soccer**—**Kathy Ludwig** appointed at Arkansas, succeeding **Curtis Sergeant**, who stepped down after two seasons to complete a university degree. Ludwig is a former all-America at Colorado College who served as an assistant at Princeton in 1986. Sergeant's teams compiled a 13-17 record after the Arkansas program was founded two years ago... **Kalekeni Banda** selected at Amherst, where he also will coach women's track. He previously coached both sports at Massachusetts, where his soccer teams compiled a 120-25-2 record through seven seasons and his 1987 team was runner-up to NCAA champion North Carolina.

**Women's softball**—**Mary Harding** selected at Clarion, where she is a graduate student... **Bobby Wills** appointed at Christopher Newport. He is regarded as one of the top fast-pitch softball players in the nation and has played for the Fox Hill amateur team since 1973. Wills also served last season as an assistant coach at Keoughan High School in Hampton, Virginia.

**Men's tennis**—**Paul Assaiante** named at Williams, where he also will coach men's squash. Assaiante is a former head coach at Army who has served the past three years as director of racquet sports at a Rye, New York, club.

**Men's and women's track and field**—**Kalekeni Banda** appointed women's coach at Amherst, where he also will coach women's soccer. He previously coached both sports at Massachusetts... **Kevin Gibbons** named men's and women's coach at Canisius, his alma mater. He previously coached cross country and track at Sacred Heart Academy in Buffalo, New York.

**Women's volleyball**—**Anna Marassa** named at DePaul, where she served as captain during all four years as a player and was an assistant during the 1986 season. She worked more recently as a teachers' assistant in special education in the Palos Heights (Illinois) school district... **Dennis McGinnis** resigned at Villanova after accepting a promotion with the National Park Service in Philadelphia. His teams compiled a 112-110 record through five seasons after McGinnis was promoted from assistant in 1983.

## STAFF

**Publications director**—**Liz Abel** promoted from assistant sports information director to associate SID and publications director at Utah.

**Strength and conditioning coach**—**Fred Domowitz** selected at New Hampshire. A former assistant editor of Powerlifting USA magazine, Domowitz served the past two years as a graduate assistant strength coach at Delta State.

**Trainer**—Appalachian State's **Rod Walters** promoted to assistant athletics director at the school.

## ASSOCIATIONS

**Jack Powers** named executive director of the Metropolitan Intercollegiate Bas-

ketball Association... **Robert Dale Morgan** appointed executive director of the Peach Bowl, which is affiliated with the Atlanta Chamber of Commerce. Morgan has been assistant executive director of the bowl since mid-1986... **C. A. "Andy" Rogers** elected 31st president of the USF&G Sugar Bowl. He is chairman of the Kalman and Rogers public relations firm in New Orleans. Rogers succeeds **Jerry E. Romig**... **William F. Snyder** reelected to a second term as president of the Freedom Bowl. He also is president of the Anaheim (California) Area Visitor and Convention Bureau.

## NOTABLES

**Mary Bernhardt** of Northern Iowa named the first Reebok Volleyball Student-Athlete of the Year. Reebok donated \$1,000 to establish an athletics scholarship at Northern Iowa in the name of Bernhardt, who has been a starting setter at the school the past four years while maintaining nearly a straight-A average... **Cynthia Stanley** and **Greg Harris** hired by SportsVision, a Chicago-based cable sports network, to serve as affiliate marketing managers. Stanley previously worked for the National Association of Broadcasters and Harris was affiliated with The Weather Channel... **Bob Johnson**, executive director of the Amateur Hockey Association of the United States, recently received a Lester Patrick Award from the National Hockey League and New York Rangers for "outstanding service to hockey in the United States."

## DEATHS

**Adolph M. "Ade" Olson**, a multisport athlete at Wisconsin-Eau Claire in the early 1920s who returned to the school to coach football after World War II, died February 8, just one day after his 83rd birthday. He served as head football coach at the school for 10 years and led the Blugolds to two conference championships, in addition to serving as chair of the physical education department from 1947 to 1969... **Sylvester J. Blum**, a standout football guard at Colgate in the early 1930s who later was assistant football coach and then head track coach at Bucknell, died February 3 in Lewisburg, Pennsylvania. He was 81. After being named an honorable-mention all-America football player in 1933, Blum served on the football staff at Bucknell from 1937 to 1942 and again in 1946. He coached the track team from 1947 to 1965 before retiring as an associate professor of physical education in 1969.

## POLLS

### Division II Men's Basketball

The top 20 NCAA Division II men's basketball teams through February 8, with records in parentheses and points:

1. Fla. Southern (21-1).....158
2. Southeast Mo. St. (20-1).....151
3. Gannon (18-2).....142
4. N.C. Central (20-1).....136
5. New Haven (18-2).....130
6. Virginia Union (18-3).....120
7. Ferris St. (18-3).....114
8. St. Cloud St. (18-3).....101
9. Alabama A&M (18-2).....91
10. Augustana (S.D.) (17-3).....90
11. Ky. Wesleyan (18-4).....85
12. California (Pa.) (17-4).....68
13. Tampa (18-3).....66
14. Lowell (17-5).....47
15. Clark (Ga.) (19-3).....41½
16. Alas.-Anchorage (17-7).....40
17. Cal St. Sacramento (20-5).....23
18. Norfolk St. (16-4).....18
19. Lewis (16-5).....17½
20. Troy St. (16-4).....17

### Division II Women's Basketball

The top 20 NCAA Division II women's basketball teams through February 7, with records in parentheses and points:

1. West Tex. St. (20-0).....158
2. Hampton (22-0).....154
3. Cal Poly Pomona (18-3).....143
4. Delta St. (18-2).....137
5. North Dak. St. (18-2).....125
6. Northern Ky. (19-1).....117
7. New Haven (17-1).....115

8. Mt. St. Mary's (Md.) (18-0).....106
9. Pitt-Johnstown (16-2).....97
10. Southeast Mo. St. (19-1).....87
11. Bentley (19-1).....78
12. Jacksonville St. (15-3).....66
13. Lake Superior St. (18-3).....65
14. Abilene Christian (21-3).....47
15. South Dak. St. (17-2).....46
16. Gannon (17-2).....45
17. Dist. Columbia (18-2).....40
18. Oakland (20-2).....27
19. Alas.-Anchorage (14-3).....12
19. Valdosta St. (15-4).....12

### Division III Men's Basketball

The top 20 NCAA Division III men's basketball teams through February 8, with records:

1. Potsdam St. ....19-2
2. Ohio Wesleyan ....17-4
3. Scranton ....19-2
4. Rust ....18-3
5. Bridgewater (Va.) ....18-2
6. Jersey City St. ....18-3
7. Hartwick ....18-2
8. Ill. Wesleyan ....15-5
9. Southeastern Mass. ....15-3
10. Trenton St. ....19-2
11. DePauw ....15-5
12. Claremont-M-S ....17-3
13. Wittenberg ....16-5
14. North Park ....16-5
15. Allegheny ....17-4
16. Wis.-Whitewater ....15-4
17. Neb. Wesleyan ....15-4
18. Frank & Marsh ....17-4
19. Millikin ....16-4
20. Amherst ....13-3
20. Washington (Mo.) ....14-5
20. Rochester ....15-3

### Division III Women's Basketball

The top 20 NCAA Division III women's basketball teams through February 7, with records:

1. St. John Fisher ....19-0
2. Emmanuel ....14-0
3. Concordia-M'head ....18-2
4. Rust ....14-3
5. Cal St. Stanislaus ....18-4
6. Elizabethtown ....16-2
7. Centre ....15-3
8. Wis.-River Falls ....17-2
9. Ohio Northern ....14-3
10. Washington (Mo.) ....13-3
11. St. Norbert ....14-2
12. Salem St. ....17-2
13. Wis.-LaCrosse ....16-4
14. Buffalo St. ....15-2
15. Southern Me. ....20-1
16. Frank & Marsh ....17-2
17. St. Thomas (Minn.) ....16-3
18. Nazareth (N.Y.) ....15-2
19. North Park ....15-4
20. Trenton St. ....16-3

### Division I Men's Golf

The Jones Sporting Goods top 20 NCAA Division I men's golf teams as selected by the Golf Coaches Association of America through February 10, with points:

1. Arizona, 178; 2. Oklahoma State, 172; 3. Arizona State, 161; 4. Wake Forest, 154; 5. Clemson, 141; 6. Arkansas, 126; 7. Georgia Tech, 115; 8. Georgia, 103; 9. UCLA, 96; 10. Oklahoma, 94; 11. Ohio State, 92; 12. Texas, 81; 13. Louisiana State, 76; 14. Southern California, 72; 15. Texas A&M, 57; 16. Florida State, 46; 17. UTEP, 38; 18. (tie) Houston Baptist and South Carolina, 36; 20. UC Santa Barbara, 13.

### Division II Men's Golf

The Jones Sporting Goods top 20 NCAA Division II men's golf teams as selected by the Golf Coaches Association of America through February 10:

1. (tie) Columbus and Tampa, 3. Cal State Northridge, 4. Troy State, 5. Abilene Christian, 6. Florida Southern, 7. UC Davis, 8. Bryant, 9. Cal State Sacramento, 10. Rollins, 11. Northeast Missouri State, 12. Southern Illinois-Edwardsville, 13. Eastern New Mexico, 14. Slippery Rock, 15. Liberty, 16. Indianapolis, 17. Cal State Dominguez Hills, 18. North Alabama, 19. Gannon, 20. North Dakota State.

### Division III Men's Golf

The Jones Sporting Goods top 20 NCAA Division III men's golf teams as selected by the Golf Coaches Association of America through February 10:

1. Cal State Stanislaus, 2. Methodist, 3. UC San Diego, 4. Cal State San Bernardino, 5. Gustavus Adolphus, 6. Salem State, 7. (tie) Rochester and Skidmore, 9. Wittenburg, 10. Ohio Wesleyan, 11. Central (Iowa), 12. Westfield State, 13. Greensboro, 14. Milliken, 15. Lynchburg, 16. Trenton State, 17. Redlands,

18. Denison, 19. Claremont-Mudd-Scripps,
20. Allegheny.

## Men's Gymnastics

The top 20 NCAA men's gymnastics teams, ranked by the average of the teams' two top scores through February 8, as provided by the National Association of Collegiate Gymnastics Coaches (Men):

1. Illinois .....284.60
2. Ohio St. ....280.55
3. UCLA .....280.17
4. Houston Baptist .....279.55
5. Minnesota .....277.02
6. Nebraska .....276.05
7. Iowa .....275.30
8. Penn St. ....274.27
9. Northern Ill. ....273.42
10. Arizona St. ....272.97
11. Navy .....270.50
12. Southern Conn. St. ....269.75
13. Michigan St. ....269.57
13. Wisconsin .....269.57
15. Cal St. Fullerton .....269.40
16. Ill.-Chicago .....268.70
17. Brigham Young .....268.35
18. Western Mich. ....268.02
19. Temple .....263.12
20. Michigan .....262.62

## Division I Men's Ice Hockey

The top 15 NCAA Division I men's ice hockey teams through February 8, with records in parentheses and points:

1. Maine (25-4-2).....60
2. Minnesota (25-7).....56
3. Lake Superior St. (22-4-6).....51
4. Wisconsin (22-11).....47
5. St. Lawrence (18-6).....44
6. Michigan St. (20-9-3).....41
7. Northeastern (13-9-4).....34
8. Harvard (14-5).....31
9. Bowling Green (19-10-2).....27
10. Denver (18-13-2).....23
10. Michigan (20-14).....23
12. Cornell (14-5).....14
13. Boston U. (11-12-3).....8
13. Michigan Tech (17-16-1).....8
15. Colgate (15-7-2).....5
15. Western Mich. (16-12-3).....5

## Division III Men's Ice Hockey

The top 10 NCAA Division III men's ice hockey teams through February 8, with records in parentheses and points:

1. Wis.-River Falls (21-3).....60
2. Norwich (15-5).....56
3. Elmira (17-4).....52
4. Wis.-Stevens Point (15-7-2).....48
5. Oswego St. (16-4).....42
6. Mankato St. (17-8-2).....41
7. Bowdoin (14-5).....36
8. Bemidji St. (19-5-2).....33
9. Babson (16-6).....28
10. Salem St. (17-11).....22

## Men's Volleyball

The Tachikara top 20 NCAA men's volleyball teams as selected by the American Volleyball Coaches Association through February 9, with records in parentheses and points:

1. Penn St. (5-0).....199
2. Southern Cal (12-1).....186
3. UCLA (14-1).....179
4. UC Santa Barb. (12-3).....173
5. Pepperdine (3-2).....156
6. Hawaii (11-3).....152
7. Long Beach St. (7-4).....142
8. San Diego St. (5-6).....123
9. Ball St. (7-5).....120
10. George Mason (6-3).....112
11. Cal St. Northridge (3-8).....92
12. Stanford (3-7).....84
13. Rutgers-Newark (9-1).....78
14. IU/PU-Ft. Wayne (6-5).....73
15. Ohio St. (8-3).....70
16. UC San Diego (4-8).....48
17. Loyola (Calif.) (6-5).....39
18. Navy (4-6).....30
19. East Stroudsburg (4-1).....24
20. UC Irvine (1-4).....14

## 'Kickoff' teams set

Nebraska, which played in the first Kickoff Classic five years ago, and Texas A&M, winner of three straight Southwest Athletic Conference championships, will meet in the sixth annual Kickoff Classic.

The game, which annually opens the college football season at Giants Stadium in East Rutherford, New Jersey, is expected to be played Saturday night, August 27.

# Committee Notices

Member institutions are invited to submit nominations to fill interim vacancies on NCAA committees. Nominations to fill the following vacancies must be received by Fannie B. Vaughan, executive assistant, in the NCAA office no later than March 8, 1988.

**Women's Soccer Committee:** Replacement for Susan A. Carberry, California State University, Dominguez Hills, resigned from the committee effective July 1, 1988. Appointee must be a Division II representative, preferably from the West women's soccer region.

**Division III Women's Volleyball Committee:** Replacement for Tere K. Dail, University of North Carolina, Greensboro, resigned. Appointee must be a Division III representative of women's volleyball.

# Kansas' Manning will leave his mark on the game

By Richard M. Campbell  
NCAA Assistant Statistics Coordinator

Danny Manning, 6-10 Kansas senior, will be joining special company by season's end. Already over the 2,500-point, 1,000-rebound plateau, the multitasking Manning will have the best combination of career statistics of any senior in 1988. Only last year's top senior, Navy's David Robinson, can match Manning's overall career statistics.

However, several other current seniors will have a shot at finishing among the leaders on the all-time scoring list.

What sets Manning apart is his ability in other areas. He is a certain top-15 finisher in career scoring, and he will be the only 2,500-plus scorer besides Robinson to approach a 60 percent career field-goal percentage.

He also was only the eighth player in the last decade to have more than 2,000 points entering his senior year.

Manning had 2,503 points and 1,030 rebounds and was shooting 59.9 percent for his career through games of February 8.

Hersey Hawkins of Bradley leads Manning in total career points with 2,518, obviously aided by his best-in-the-nation 35.3 scoring average in 1988. Another senior with a good chance to join the 2,000-point, 1,000-rebound club are Lehigh's 6-7 Daren Queenan, 2,419 points and 903 rebounds, while Missouri's Derrick Chievous, 2,273 and 878, has an outside shot.

Even when you compare Manning's field-goal percentage with the other 51 players in the 2,000-points-and-1,000-rebounds club, he is special. In that group, only three others shot above 60 percent. They were UCLA's Lew Alcindor (now Kareem Abdul-Jabbar), who shot 63.9 percent while scoring 2,325 points and grabbing 1,367 rebounds in three seasons (1966-1967 through 1968-1969); Georgetown's 7-0 Patrick Ewing, 62 percent with 2,184 points and 1,316 rebounds in four seasons, and 7-1 Robinson, 61.3 percent with 2,669 points and 1,314 rebounds in four seasons.

Manning and Hawkins each should move inside the top 15 career scorers, and Hawkins could crack the top 10 with a flurry of points in his final few games. Of course, each would have a better chance should their respective teams have long runs in the NCAA tournament.

With his present 35.3 season scoring average, Hawkins also could finish with the highest average in Division I since Portland State's Freeman Williams won the scoring title with a 35.9 average in 1978.

Manning, Hawkins, Queenan and Chievous already have topped 2,000 career points as mentioned, along with Xavier's (Ohio) Byron Larkin, Florida's Vernon Maxwell, Marshall's Skip Henderson, Iowa State's Jeff Grayer, Wyoming's Fennis Dembo, Drexel's Michael Anderson, Michigan's Gary Grant and Butler's Chad Tucker.

Rider's Ron Simpson is close to joining the 2,000-point club, and next in line is Tennessee State's Anthony Mason. The top juniors are Murray State's Jeff Martin, Dartmouth's Jim Barton, South Alabama's Jeff Hodge and Brigham Young's Michael Smith.

## Per-game leaders

On a per-game basis for seniors with at least two seasons, the top rebounder is Central Michigan's Dan Majerle at 8.6, followed by Lamar's James Gulley at 8.5, Lehigh's Queenan's 8.4 and North Carolina A&T's Claude Williams at 8.3.

**Rodney Blake, St. Joseph's (Pennsylvania), is the Division I coleader in blocked shots**

**Grambling's LeChandra LeDay leads Division I women in scoring with a 29.2 average**

**Virginia Union's Terry Davis ranks among Division II leaders in rebounding at 11.8**

**Junior Leslie Hathaway, Stony Brook, is among Division III rebounding leaders**

In per-game scoring, the leader is Hawkins' 22.5. Next come Queenan at 22.4; Larkin, 22; Majerle, 21.8, and Henderson, 20.1. Manning is close at 19.3.

Vanderbilt's Will Perdue's 61.4 percent field-goal accuracy leads all seniors over a career. He is followed by Illinois State's Tony Holifield at 60.9 and Manning at 59.9.

## Martin leads juniors

Murray State's Martin, as mentioned, is in a tight race for total points among juniors, with more than 1,400 through February 8. Next in scoring are Dartmouth's Barton and South Alabama's Hodge, both over 1,300, while Brigham Young's Smith is over 1,200.

Underclassmen have dominated

Cleveland State, 18 (does not include a loss at Public Hall in 1987 or a victory there this season); Eastern Kentucky and Lafayette, 16, and Eastern Michigan, Evansville and Georgia, 15. Georgia's streak does not include a loss at Atlanta this year.

Arkansas-Little Rock would have a 15-game string if two wins at Pine Bluff were included.

## Rutgers has women's streak

Rutgers is far ahead with the longest current women's Division I home-court streak at 42, with only regular-season games remaining against St. Joseph's (Pennsylvania), Rhode Island and Massachusetts. It is the longest women's streak since Texas' 43-gamer was snapped

## Final Four Quiz:

What are the most appearances by a coach in the tournament before finally making it to the Final Four? Who did it? (Hint: It happened within the past five years.) Answer later.

the 1988 season rebounding statistics, with only one senior among the top nine players, and junior Jerome Lane of Pittsburgh is the top career rebounder. Behind Lane in total rebounds are Louisville's Pervis Ellison, Stetson's Randy Anderson and Lafayette's Otis Ellis.

## Per-game leaders

On a per-game basis for juniors with at least two seasons (including the current one), Barton leads with a 19.5 scoring average. Next are Martin, 19.2; Hodge, 17.1, and Virginia Tech's Wally Lancaster, 17.1.

Lane is the top junior in rebounding average with 10.2 per game. He is followed by Anderson, 9.1; Ellis, 8.5; Ellison, 8.2; Long Island-Brooklyn's Freddie Burton, 8.2, and Bucknell's Mike Butts, 7.2.

## Home-court streaks

With the demise of Kansas' 55-game home-court winning streak in a loss to Kansas State, North Carolina A&T takes over as the men's current Division I home-court streak leader with 33 straight victories through games of February 16.

Marshall's 23-game home streak is second, followed closely by Xavier's (Ohio) 22 games. Missouri and Southern-Baton Rouge have 20-game home-court streaks to round out the top five.

North Carolina A&T's streak does not include three victories last year at Greensboro Coliseum during the Mid-Eastern Athletic Conference tournament. Greensboro Coliseum is in the home city of the Aggies but is not their home court. Also, Southern's streak does not include losses this year at New Orleans or at Lafayette, Louisiana.

Rounding the top 11 teams are

last year by Tennessee.

Louisiana Tech, currently 20-2 and ranked fifth in most polls, has a 27-game home streak to Virginia's 25. Auburn and New Mexico State are tied for fifth at 24 games.

## Can you top these?

Hampton, one of the top Division II women's programs, set an NCAA record for most games of 100 points in a single season (16) when it humbled Shaw, 106-62, February 11. Long Beach State, a Division I school, held the old record of 15 games, set in 1987. (Jerry Zoumpis, Hampton SID) [(Note: The men's record is 22 games, held jointly by Norfolk State (1970) and Stillman (1968).]

Is there another team in the country that can claim five starters scoring in double figures? Mount Union, after 17 games, had regulars Jim Dippel (11.8) and Andy Boothe (14.1) at forwards, center Dave Katusin (11.6), and guards Ernie Moore (11.8) and Ken Rector (15.9). However, the bench had just 125 points. (Tom Bochenek, Mount Union SID)

Kathy Oliver, sophomore point guard from Humboldt State, recently hit seven of 10 three-point shots against Cal State Chico. Can anyone top this mark in any division for women? (Alisak Koreneff, Humboldt State assistant SID)

North Park's men beat Carroll (Wisconsin) February 3, 91-77, to post their 62nd straight home-court victory, breaking the Division III record. The old record of 61 was held by DePauw from 1983 through 1987. (Dennis Prikket, North Park SID)

## Sixth-man problems

Northern Michigan's 6-5 guard Carl Strong has an unusual problem that is best solved by coming off the bench instead of starting for Wildcats head coach Dean Ellis.

Strong, who is Northern's top scorer, was scheduled to make his second start of the season against Grand Valley State February 3. But he came down with a case of urticaria, commonly known as hives. The extreme itching caused Strong to miss the game. In his one other start, Strong also developed hives, which nearly required hospitalization. So Ellis says no more starts for his sixth man, nicknamed "The Igniter" for his instant offense off the bench. (Gil Heard, Northern Michigan SID)

## Shooting the lights out

During Missouri-Rolla's 60-57 loss at Southwest Baptist, a power failure blacked out the gym for the entire half time, causing the second half to start a few minutes late. Said Missouri-Rolla coach Dale Martin, whose team had scored only 17 first-half points while shooting only 33 percent: "The way we're shooting, they certainly can't blame this mess on us." (Gene Green, Missouri-Rolla SID)

## Sloan makes it

Florida's Norm Sloan finally reached the 600-win plateau (one of only three active Division I coaches to be in the exclusive club) with the Gators' 69-52 win over Mississippi State February 13. He joins Ralph Miller of Oregon State and Dean Smith of North Carolina as the only active 600-game winners.

## Scholar-athletes

For the second straight year, DePauw has three academic all-America nominees. The men's team averaged 3.170 (a perfect grade-point average is 4.000) during the first semester, making the 12th semester in the last 13 that the team averaged above 3.000. (Bill Wagner, DePauw SID)

Correction, please, it was the women's team at Marymount (Virginia) that had the 3.200 combined grade-point average (The NCAA News, January 20). (Webb Hatch, Marymount SID)

Two players on the Illinois State women's team, Susan Wellman and Ellen McGrew, earned perfect 4.000 grade-point averages last semester, and nine players in all were over 3.000, giving the team a combined 3.150. Wellman leads the team in scoring and rebounding and is among the national leaders in field-goal accuracy. McGrew, all-Gateway Conference in 1987, is redshirting this season after having

reconstructive knee surgery last fall. (Christie Price, Illinois State women's SID)

## Quotes of the week

Emory University head coach Lloyd Winston on his team's difficulties prior to an 81-61 loss to Brandeis: "Friday's game was real physical and it took a lot out of us. We then had to get up at 5:30 a.m. to catch a 7 a.m. flight to Boston. We arrived at our hotel at nine and found out the rooms would not be ready until noon. By then, we were zombies and we played like that that night. We outshot them, out-rebounded them and caused more turnovers, but we couldn't put it in the basket. We were exhausted." (Joe Shaute, Emory SID)

After Stony Brook turned the ball over 70 times in two contests, including 40 in a loss to Buffalo State, Stony Brook SID Pat Murray remarked to a radio-station reporter: "Sara Lee was here scouting us today. She's trying to find out our secret for turnovers." (Pat Murray, Stony Brook SID)

In Albany's (New York) double-overtime victory over Union (New York), junior Stephen Sauers in-bounded the ball under the Union basket by bouncing the ball off the back of a Union player, picked up the loose ball and laid it in for two points to cut the opponents' lead to four points.

He then hit a three-pointer from 25 feet out to tie the game with eight seconds left in the first overtime. Albany went on to win, 75-73. Said Albany head coach Barry Cavanaugh (interim coach for Richard "Doc" Sauers, who is on sabbatical and the father of Stephen):

"Doc probably taught Stephen that play when he was in second grade. Steve has worked very hard the last two weeks and he's shooting well. He had the confidence to take that shot (the 25-footer), and he was confident enough to make it." (Lori C. Zalowitz, Albany SID)

Bethany (West Virginia) head coach Lisa Campanell on her team's misfortune with injuries: "We've spent more time in X-ray and training rooms than on the gym floor. When I want a team meeting, I schedule it in the training room. I know we've been dealt a bad hand when our student trainer injured her knee, requiring surgery, and she comes to tape our wounds on crutches." (Lisa Campanell, Bethany head coach)

**Quiz Answer:** Ten appearances by Lou Carnesecca of St. John's (New York). He made his first tournament appearance in 1967 and made it to the Final Four in his 11th appearance in 1985.

# State legislation relating to athletics

This report summarizes legislation currently pending in state legislatures that, if passed, could affect the intercollegiate athletics programs and student-athletes at NCAA member institutions. Set forth below is a list of 80 bills from 27 states that have been introduced or carried over into this session, organized alphabetically by state. Bills introduced since the last report (see the October 26, 1987, issue of The NCAA News) are marked with an asterisk.

This report is based on data provided by the Information for Public Affairs on-line state legislation system as of February 8, 1988. The listed bills were selected for inclusion in this report from a larger pool of bills concerning sports, so they do not necessarily represent all bills that would be of interest to individual member institutions. Bills pending in the District of Columbia Council and the legislatures in the U.S. territories are not available on-line and are not included. In addition, the legislatures in six states—Arkansas, Montana, Nevada, North Dakota, Oregon and Texas—reportedly are not scheduled to meet this year.

The NCAA has not verified the accuracy or completeness of the information and is providing this summary as a service to members. For further information regarding the bills, members should contact the state legislature concerned.

As an overview, the table below summarizes the number of bills included in this report by subject.

Athlete agents .....	32
Ticket scalping .....	10
Steroids .....	7
Drug testing .....	3
Athletics scholarships .....	6
Violation of athletics association rules ....	4
Required intra-state competition .....	3
Compensation of student-athletes .....	2
Giving money to student-athletes .....	1
Sports gambling .....	2
Miscellaneous .....	10

## \*Arizona S. 1011 (Author: DeLong)

Pertains to the registration of athlete agents.

Status: 1/27/88 From Senate Committee on Commerce and Labor. Do pass with amendment.

## \*Arizona S. 1287 (Author: Hill)

Provides an exemption from state sales taxes for sales of tickets to intercollegiate athletics contests and related events if the events are operated by a Federally tax-exempt nonprofit organization and none of the money is used in violation of the exemption.

Status: 2/2/88 Introduced.

## California A. 1451 (Author: Peace)

Applies a provision relating to participation in intercollegiate athletics programs to private institutions of higher education. Provides that students who receive financial aid on the basis of that participation be provided extended financial aid as necessary to complete their undergraduate education. Makes related changes.

Status: 3/17/87 To Assembly Committee on Education.

## California S. 26 (Author: Montoya)

Modifies existing ticket-scalping provisions by deleting requirements that ticket be obtained for resale and sold for a higher price to constitute a misdemeanor.

Status: 5/14/87 From Senate Committee on Governmental Organizations with author's amendments. Read second time and amended. Referred to committee.

## California S. 853 (Author: Montoya)

Requires that each athletics scholarship awarded by postsecondary educational institutions in the state be for a duration of not less than five academic years following the student's initial enrollment or until the student receives a baccalaureate degree; specifies provisions for revocation of scholarships; makes other changes.

Status: 6/30/87 To Assembly Committee on Education.

## California S. 1055 (Author: Montoya)

Includes within the definition of "employee," for purposes of workers' compensation coverage, any person who is enrolled as a student at any public or private four-year college or university and who competes in athletics in connection with the receipt of an athletics scholarship.

Status: 2/1/88 In Senate. Returned to Secretary of Senate pursuant to Joint Rule 56.

## California S. 1400 (Author: Kopp)

Requires that tickets to certain events display the price of admission on the face of the ticket and prohibits the resale of such tickets in excess of \$1 above the price charged by the original seller. Repeals provision regarding the resale at any price in excess of that provided or endorsed upon the ticket.

Status: 1/5/88 Returned to Secretary of Senate pursuant to Joint Rule 62(a).

## Delaware H. 142 (Author: Campanelli)

Limits markup on the resale of tickets to the greater of \$3 or 20 percent of the original price.

Status: 6/30/87 To Senate Committee on Judiciary.

## \*Florida H. 127 (Author: Martin)

Provides for the regulation and licensing of athlete agents by the State Athletic Commission.

Status: 1/6/88 Prefiled.

## \*Florida S. 73 (Author: Kirkpatrick)

Creates the Athlete Agent Regulatory Commission under

the Department of Professional Regulation. Authorizes the commission to adopt rules and standards of conduct for agents of professional and amateur athletes and lists their responsibilities.

Status: 12/11/87 Prefiled.

## \*Georgia H. 1373 (Authors: Alford, et al.)

Provides for the regulation of athlete agents.

Status: 1/25/88 Introduced. To House Committee on State Planning and Community Affairs.

## \*Georgia S. 417 (Authors: Broun/Kidd)

Provides that the Commissioner of Public Safety may, and upon the request of the Governor shall, authorize and direct the Uniform Division to provide certain transportation, escort, and security services in connection with certain athletics events in the state.

Status: 1/27/88 To House. To House Committee on Public Safety.

## \*Georgia S. 423 (Author: Kidd)

Provides for the regulation and registration of athlete agents. Also provides for the effect of personal-service contracts between athletes and owners or prospective owners of professional sports teams.

Status: 1/29/88 Passed Senate.

## Illinois H. 670 (Author: Breslin)

Makes it a Class A misdemeanor for a coach, trainer, manager or other person associated with amateur sports to distribute human anabolic steroids.

Status: 5/12/87 Amended on House floor.

## Illinois H. 1100 (Author: Ropp)

Requires certain schools and universities in Illinois to play each other in basketball.

Status: 3/30/87 To House Committee on Higher Education.

## Illinois S. 784 (Authors: Hall, et al.)

Makes an appropriation to the Board of Higher Education for a study of nonfaculty recruitment practices.

Status: 6/28/87 To Senate for concurrence. Senate refused to concur in House amendment.

## \*Indiana H. 1015 (Author: Alderman)

Establishes the State Athlete Agent Licensing Board and prescribes its power and duties. Prohibits a sports agent from inducing a student-athlete to enter into a professional sports contract before that student-athlete's college eligibility expires or entering into a contract or agreement under which the sports agent gives something of value to an employee of a university or college in exchange for the referral of a student-athlete by that employee.

Status: 1/29/88 To Senate. To Senate Committee on Public Policy.

## \*Indiana H. 1397 (Author: Stephan)

Requires certain student-athletes to repay the state university they attend the scholarship money awarded to them.

Status: 1/8/88 Introduced. To House Committee on Education.

## \*Indiana S. 71 (Author: Borst)

Establishes the State Athlete Agent Licensing Board and prescribes the powers and duties of that board. Prohibits the giving and receiving of money or any other thing of value in connection with college student-athletes.

Status: 1/4/88 Introduced. To Senate Committee on Public Policy.

## \*Indiana S. 415 (Authors: Wyss/Smith)

Makes distribution or use of anabolic steroids to enhance athletic performance, without a medical necessity, a Class D felony.

Status: 1/29/88 To House. To House Committee on Courts and Criminal Code.

## Iowa H. 52 (Author: Harbor)

Provides for the suspension of certain employees at higher-education institutions under the control of the state Board of Regents when a violation of recruiting rules occurs.

Status: 1/20/87 Introduced. To House Committee on Education.

## \*Iowa H. 2107 (Authors: Harbor, et al.)

Relates to the regulation of athlete agents and student-athletes; provides penalties.

Status: 1/26/88 Introduced. To House Committee on State Government.

## Iowa S. 9 (Author: Mann)

Relates to the compensation of collegiate athletes.

Status: 1/13/87 To Senate Committee on Education.

## Kentucky B.R. 26/H. 174 (Author: Office of Rep. Lefevers)

Requires the governing board of each state university to develop regulations concerning athletics grants-in-aid, which include specified penalties for an athlete convicted of illegal possession or use of a controlled substance.

Status: 12/17/86 Prefiled for 1988. To Interim Joint Committee on Education.

## \*Maryland H. 88 (Author: McCaffrey)

Establishes a system of regulation of sports agents by the Department of Licensing and Regulations and requires sports agents to conform to certain licensing requirements.

Status: 1/13/88 Introduced. To House Committee on Economic Matters.

## \*Maryland H. 112 (Author: Alexander)

Establishes the Maryland Athlete Agents Regulatory Commission to regulate the business of athlete agents and

specifies the powers of the Commission. Establishes procedures for the issuance and renewal of licenses, requires agents to purchase a surety bond or its equivalent, and specifies the form and content of an agent contract. Establishes prohibitions and penalties.

Status: 1/13/88 Introduced. To House Committee on Economic Matters.

## Massachusetts H. 216 (Author: Office of Public Safety)

Further regulates the resale of tickets to theatrical exhibitions, public shows, or public amusements or exhibitions.

Status: 1/6/88 Introduced. To Joint Committee on Government Regulations.

## \*Massachusetts H. 795 (Author: Ruane)

Bans the use of steroids by athletes.

Status: 1/22/88 Introduced. To Joint Committee on Judiciary.

## Michigan H. 4571 (Author: Palamara)

Prohibits the giving and receiving of certain money or other items of value in connection with certain student-athletes.

Status: 6/11/87 To Senate. To Senate Committee on Regulatory Affairs.

## Michigan H. 4634 (Author: Palamara)

Prohibits athlete agents from inducing student-athletes to enter into agreements with professional sports groups before the students' college eligibility expires.

Status: 6/11/87 To Senate. To Senate Committee on Regulatory Affairs.

## Michigan H. 4635 (Author: Bullard)

Requires athlete agents to register with the state.

Status: 6/11/87 To Senate. To Senate Committee on Regulatory Affairs.

## Minnesota H. 520/S. 350 (Authors: Krueger, et al./Pehler, et al.)

Appropriate money to the State University Board for women's intercollegiate athletics programs.

Status: 4/6/87 From House Committee on Higher Education. Do pass as amended. To House Committee on Appropriations.

## \*Mississippi H. 180 (Author: Reeves)

Sets the maximum cost of a ticket to the public for football games played by state-supported institutions of higher learning and junior colleges or community colleges in the state.

Status: 1/13/88 Introduced. To House Committee on Appropriations.

## \*Mississippi H. 384 (Author: Alford)

Requires that the University of Mississippi, Mississippi State University and the University of Southern Mississippi play football against each other every year.

Status: 1/21/88 Introduced. To House Committee on Universities and Colleges.

## \*Mississippi S. 2067 (Author: Bean)

Requires that athlete agents register with the secretary of state and regulates agent conduct. Provides penalties for prohibited activities.

Status: 1/14/88 Introduced. To Senate Committee on Judiciary.

## Nebraska L. 757 (Author: Chambers)

Adopts the Sports Wagering Act.

Status: 5/29/87 Carried over for consideration during 1988 session.

## \*Nebraska L. 1049 (Author: McFarland)

Adopts the Athlete Agents Registration Act. Provides penalties and severability.

Status: 1/12/88 To Legislative Committee on Judiciary.

## \*Nebraska L. 1085 (Author: Chambers)

Relates to gambling. Adopts the Sports Pool Operators Act.

Status: 1/13/88 To Legislative Committee on General Affairs.

## \*Nebraska L. 1226 (Author: Chambers)

Provides that football players at the University of Nebraska, Lincoln, be treated as university employees.

Status: 1/22/88 To Legislative Committee on Government, Military and Veterans Affairs.

## \*New Hampshire H. 1032 (Author: Jones)

Relates to athlete agents.

Status: 1/6/88 Introduced. To House Committee on Education.

## \*New Jersey A. 916 (Author: Kern)

Requires a license in order to resell tickets and imposes a maximum premium on the original sale of admission tickets to places of entertainment.

Status: 1/12/88 Introduced. To Assembly Committee on Law and Public Safety and Corrections.

## \*New Jersey A. 1383 (Author: Randall)

Provides authority for the seizure and forfeiture of tickets in the possession of a person operating a "scalping" business without a ticket-agent license.

Status: 1/25/88 From Assembly Committee on Law, Public Safety and Corrections.

## \*New Jersey A. 1698 (Author: Martin)

Provides a temporary period for certain persons to be registered as athletics trainers without examination.

Status: 1/13/88 To Assembly Committee on Higher Education.

See State legislation, page 16

# State legislation

Continued from page 15

Education and Regulated Professions.

**\*New Jersey A. 1734/S. 521 (Authors: Martin/Bubba)**

Requires drug testing of students prior to participation in interscholastic athletics.

Status: 1/12/88 Introduced. To Assembly Committee on Higher Education and Regulated Professions. To Senate Committee on Education.

**\*New Jersey S. 533 (Author: Bubba)**

Prohibits the use of anabolic steroids by college athletes. Status: 1/25/88 To Senate Committee on Institutions, Health and Welfare.

**\*New Jersey S. 728 (Author: Codey)**

Extends the existing prohibition against ticket scalping to include admission tickets to out-of-state places of entertainment.

Status: 1/12/88 Introduced. To Senate Committee on Law, Public Safety and Defense.

**\*New Jersey S. 1127 (Author: Cardinale)**

Provides authority for seizure and forfeiture of tickets in possession of a person operating scalping business without a ticket-agent license.

Status: 1/12/88 Introduced. To Senate Committee on Law, Public Safety and Defense.

**New York A. 950 (Author: Dearie)**

Defines ticket speculators and makes ticket speculation a punishable crime.

Status: 1/13/87 Introduced. To Assembly Committee on Tourism, Sports and Arts.

**New York A. 1033 (Author: Sullivan)**

Provides that tickets to all live entertainment events that exceed 3,000 people must be sold on a serve-seating basis, where each ticket corresponds to a numbered seat.

Status: 1/13/87 Introduced. To Assembly Committee on Tourism, Sports and Arts.

**New York A. 4278 (Author: Nadler)**

Requires annual registration of athletics agencies with the Industrial Commissioner and prescribes authorized and unauthorized activities of such agencies. Regulates penalties for violations.

Status: 5/19/87 From Assembly Committee on Labor. To Assembly Committee on Codes.

**New York A. 5765/S. 6310 (Authors: Brodsky, et al./McHugh)**

Requires persons who seek to recruit or solicit professional athletes to enter into agency contracts or professional sport services contracts to be licensed.

Status: 3/12/87 Introduced. To Assembly Committee on Commerce, Industry and Economic Development.

**North Carolina H. 1235 (Author: Redwine)**

Requires all Division I-A football teams in the state to play one another.

Status: 5/21/87 To House Committee on Higher Educa-

tion.

**Ohio H. 520 (Authors: Schuck, et al.)**

Prohibits the prescribing, dispensing or sale of anabolic steroids to persons under age 18 for the purpose of improving athletic performance.

Status: 6/9/87 To House Committee on Health and Retirement.

**Ohio H. 589/S. 263 (Authors: Stozich, et al./Watts)**

Requires the licensing of professional athlete agents by the Director of Commerce.

Status: 9/24/87 To House Committee on Ethics and Standards.

**Ohio S. 272 (Author: Long)**

Prohibits athlete agents from engaging in certain activities with regard to student-athletes, including the giving and receiving of money or other things of value. Imposes penalties for violating these prohibitions and requires certain athletics agents to register with the Board of Regents.

Status: 9/30/87 To Senate Committee on Finance.

**\*Oklahoma H. 1653 (Author: Russell)**

Provides that a person who violates a rule of a national collegiate athletics association is liable for damages in an action brought by a regional collegiate athletic association.

Status: 1/27/88 To House Committee on Higher Education.

**Oklahoma S. 313 (Author: Lamb)**

Provides that people selling tickets to public events in excess of \$1 above the price charged by the original seller shall be guilty of a misdemeanor.

Status: 4/6/87 To House Committee on Judiciary.

**\*Pennsylvania H. 1879 (Authors: Colafella, et al.)**

Prohibits certain activities by athlete agents.

Status: 10/26/87 Introduced. To House Committee on Education.

**\*Pennsylvania H. 1880 (Authors: Colafella, et al.)**

Provides for the licensure and regulation of athletic agents; prescribes the powers and duties of the Department of State with respect thereto and provides penalties and remedies.

Status: 10/26/87 Introduced. To House Committee on Education.

**\*Pennsylvania S. 1163 (Authors: Greenleaf, et al.)**

Prohibits the use of anabolic steroids in school athletics.

Status: 11/9/87 Introduced. To Senate Committee on Education.

**Rhode Island H. 6041 (Authors: Donnelly, et al.)**

Exempts nonprofit organized sporting leagues and associations from sales and use taxes.

Relates to athlete agents and athlete agents licensing.

Status: 1/14/88 Introduced. To Senate Committee on Economic Development and Labor.

## Beer, cigarette tax sought to aid athletics

An initiative that would boost taxes on beer and cigarettes to raise an estimated \$9 million to \$10 million a year for intercollegiate athletics in Oregon has been filed with the secretary of state's office.

The measure would add a one-cent tax on each pack of cigarettes and each can of beer sold in the state. Backers have until July 8 to get the 63,578 signatures needed to qualify the measure for the November 8 ballot.

State Rep. Dave Dix, D-Eugene, one of the backers of the measure,

said, if passed, the measure would raise enough money to erase current deficits in athletics programs at the University of Oregon, Oregon State University and Portland State University, the Eugene Register-Guard reported.

Unlike an earlier version of the initiative that required 60 to 70 percent of the money raised to go to Oregon and Oregon State, the current measure would leave distribution of the funds to the state board of higher education.

Officials at Portland State Uni-

versity had objected to the earlier distribution proposal, Dix said. In addition, the new version requires 60 percent of the proceeds to be used for sports other than football and basketball, which currently are self-supporting.

Dix said the additional money should be enough to boost the relative rank of Oregon and Oregon State athletics budgets to about the middle level of the Pacific-10 Conference, up from their current rankings of ninth and 10th, respectively.

"If our universities are to stay in the Pac-10 Conference, they must receive adequate financing in order to compete at that level," Dix said, adding that Oregon State and Oregon could probably count on getting \$3 million each.

## Restrictive clause dropped by IOC

The International Olympic Committee has struck a blow for sexual equality in sports, erasing from its constitution a clause that could have restricted women from participating in the Games.

The panel's 93rd Session voted to delete from the Olympic Charter Rule 28, which made participation by women athletes conditional on approval by international sports federations and the IOC itself.

"The session voted to delete Rule 28 because it was felt to be discriminatory to women and no longer applies to the present world," Michele Verdier, the IOC spokeswoman, said.

## Executive Regulations

*Editor's Note: The Executive Committee has adopted executive regulations consistent with the provisions of Constitution 6-3. Executive regulations may be amended at any annual or special Convention by a majority vote of the delegates present and voting in accordance with the procedures set forth in Bylaws 13-1, 13-2 and 13-3. Publication in this column of executive regulations adopted or revised by the Executive Committee constitutes official notice to the membership. Bold type indicates new wording; italicized type indicates wording removed.*

**Executive Regulation 1-3(j) was revised as follows:**

(j) When an ineligible student-athlete participates in an NCAA championship and the student-athlete or the institution knew or had reason to know of the ineligibility, *or a penalty has been imposed or action taken as set forth in Section 7-(b)-(11) or Section 10 of the NCAA enforcement program, the NCAA executive director may withhold an amount to be determined by the Executive Committee (not to exceed 90 percent of the institution's share of net receipts from such competition in excess of the regular expense reimbursement), shall be withheld by the NCAA executive director or, if said funds have been distributed, the institution shall may be required to return 90 percent of its share such an amount.* [Note: In appropriate cases, in accordance with Section 7-(b)-(11) or Section 10 of the NCAA enforcement program, an institution may not be permitted to receive or may be required to reimburse the Association an amount equal to 90 percent of its share of the net receipts from an NCAA championship.]

Eligibility appeals

Eligibility Appeals Concerning Recruiting Violations [Includes all actions taken after December 23, 1987]					
Institution	NCAA Rule(s) Violated	Facts	Recruiting Advantage	Result	
California State Polytechnic Univ., Pomona	B 1-6-(a)	Assistant track coach ran with PSA in order to evaluate skills; PSA unaware of violation.	None	Eligibility restored.	Univ. of Alabama, Huntsville B 5-1-(e), 5-5-(b) S-A participated in four basketball games after the start of the second term before it was determined that he became academically ineligible at the end of the first term.
California State Polytechnic Univ., Pomona	B 1-1-(b)	PSA received local round-trip transportation; PSA already committed to attend university; paid cost of transportation.	None	Eligibility restored.	Bucknell University C 3-1-(g)-(5) Representative of university's athletics interests provided round-trip air transportation and tuition for S-A to participate in diving school; former director of athletics approved the arrangements.
American International College	B 1-6-(a)	Transfer S-A practiced one day prior to the last day of final exams; would have been eligible for practice the day after exams; institution withheld S-A from practice for one month.	None	Eligibility restored.	Oregon State Univ. B 5-1-(j)-(6)-(ii), 5-5-(b) S-A participated in two junior varsity football games before it was determined he had not made satisfactory progress.
Univ. of Texas, Austin	B 1-1-(b)-(3)	Institution distributed press releases to PSAs.	None	Eligibility restored.	Oregon State Univ. B 5-1-(j)-(8)-(ii), 5-5-(b) S-A participated in one junior varsity football game while ineligible as a transfer S-A.
					Oregon State Univ. B 5-1-(j)-(7), 5-5-(b) S-A attended for one academic year; participated in two junior varsity football games before it was discovered he had not completed the appropriate number of credit hours during the year to satisfy transfer eligibility requirements.
Eligibility Appeals (Other Than Those Involving Recruiting Violations) [Includes all actions taken after December 23, 1987]					
Institution	NCAA Rule(s) Violated	Facts	Result		
California State University, Fresno	C 3-6-(a)-(1)	Transfer S-A for whom fraudulent credit was obtained at junior college in order to gain eligibility at another institution; assistant coach at other institution directed S-A and made arrangements; S-A cooperated fully in investigation.	Eligibility restored.	Oregon State Univ. B 5-1-(j), 5-6-(b) and Case No. 352	S-A did not meet SAT requirement for initial eligibility; partial qualifier practiced and competed in one cross-country meet.
Univ. of Missouri, Columbia	B 4-1-(a)-(3), Case No. 275	S-A received a head injury in practice in the spring of 1986 and was unable to attend a collegiate institution in the fall of 1986.	Extension request granted for a period equal to time S-A was unable to attend.	Univ. of California, Los Angeles B 5-1-(j)-(6)-(ii), 5-5-(b) and Case No. 328	Institution erroneously believed it had obtained permission from conference to prorrate the satisfactory-progress rule per Case No. 328 (petition later approved by conference); S-A competed in one tennis competition while ineligible.
Univ. of Lowell	B 5-1-(m)-(14)-(vi), 5-5-(b)	Transfer S-A from Division III institution initially determined to be eligible under B 5-1-(m)-(14); institution awarded athletically related aid contrary to B 5-1-(m)-(14)-(vi); S-A participated in two contests.	Eligibility restored for 1988-89 upon repayment of aid. [Season of competition used per B 5-1-(d)-(1)].	Memphis State Univ. B 6-1-(a)	S-A was overawarded financial aid.
Knox College	C 3-9-(b)	S-As participated in a one-day local four-on-four basketball tournament fund-raiser.	Eligibility restored after S-As withheld from the next two intercollegiate contests.	Univ. of Alabama, Tuscaloosa B 5-1-(j), 5-6-(b) and Case No. 352	Walk-on football S-A was a partial qualifier who practiced in spring of freshman year; did not meet core-curriculum requirement.
Monmouth College (Illinois)	C 3-9-(b)	S-A participated in a one-day local four-on-four basketball tournament fund-raiser.	Eligibility restored after S-A withheld from next two intercollegiate basketball contests.	Mercyhurst College B 5-1-(j)-(7), 5-5-(b)	Transfer S-A participated in four ice hockey games against club teams while ineligible.
University of Cincinnati	C 3-1-(a)-(3)	S-A participated in PGA-sponsored apprentice program designed to teach prospective members the business side of golf; S-A worked for father at a golf pro shop; participated in one local tournament with father and received no prize money or awards; S-A received basic wages for duties at pro shop.	Eligibility restored after S-A withheld from first intercollegiate contest of 1988 golf season.	University of Idaho B 4-1-(a)-(3), Case No. 275	S-A could not compete in athletics due to leg disorder; withdrew from institution.
Central Connecticut State University	B 4-1-(a)-(3); Case No. 275	S-A became ill causing him to withdraw from university; S-A unable to attend collegiate institution until the following year.	Extension granted for time S-A unable to attend institution (approximately 12 months).	Texas A&M Univ. C 3-1-(a)-(3), 3-1-(c) and Case No. 24	S-As signed contracts with sports agent and later signed S-A statement attesting to their eligibility; S-As received money from agent; S-As made no disclosure of their involvement before it was reported in media.
				Univ. of Southern California B 5-1-(c), 5-5-(b)	S-A participated in six basketball games while enrolled in less than the 12-unit requirement.
				Ithaca College B 5-1-(j)-(7), 5-5-(b)	S-A participated in two soccer scrimmages while ineligible as a transfer student.

The Market

Positions Available

## CALIFORNIA STATE UNIVERSITY, SAN BERNARDINO DIRECTOR OF ATHLETICS

California State University, San Bernardino invites nominations and applications for the position of Director of Athletics. The director reports directly to the President and is responsible for providing leadership and management of a combined intercollegiate program for men and women. The University is a Division III member of the NCAA; sports include baseball, basketball, cross country, golf, soccer, tennis, and volleyball. While the athletic program is in its fourth year of development, the University has already had two of its teams compete in national finals. The University is committed to the development of a vital and spirited athletic program. With a student body of 8,400, the University is one of the most rapidly growing institutions in California.

Candidates must have appropriate administrative experience in collegiate athletics and administration, commitment to the academic achievement of student-athletes, commitment to both men's and women's sports programs, and an ability to work in ethnically diverse Southern California. They should possess strong leadership and promotional skills and the capacity to build effective community athletic support groups. A bachelor's degree is required; a master's degree is preferred.

Salary commensurate with qualifications and experience. Position available summer 1988. Start date negotiable.

Send letters of nomination and application with resume, references and three letters of recommendation to:

Dr. Judith Rymer, Chair  
Athletic Director Search Committee  
c/o Office of Academic Personnel  
California State University, San Bernardino  
5500 University Parkway  
San Bernardino, California 92407  
714/887-7413

To ensure consideration, applications must be received no later than April 10, 1988.

An Equal Opportunity/Affirmative Action Employer

## ASSISTANT FOOTBALL COACH/ INSTRUCTOR IN H.P.E.

### HEIDELBERG COLLEGE

Heidelberg College is seeking two full-time assistant football coaches responsible for a spring sport as well. Football responsibilities include all phases of practice, recruiting and conditioning, as well as coaching a specific position, pending upon qualifications.

Master's degree required. Preference will be given to those with coaching experience at the college level in football, along with a background in another sport, such as baseball, softball or tennis.

Letter of application, resume and three letters of reference must be submitted by March 1, 1988, to: John D. Hill, Director of Athletics, Heidelberg College, 310 East Market Street, Tiffin, OH 44883.

Equal Opportunity/Affirmative Action Employer

Dartmouth College is an Equal Opportunity/  
Affirmative Action Employer

# Courage award goes to Texas A&M softball player

Texas A&M University student-athlete Liz Mizera was honored February 1 by the Philadelphia Sports Writers Association as winner of the group's most-courageous-athlete award.

Mizera, who earned all-America recognition as the short-stop on Texas A&M's 1987 NCAA Division I champion women's softball team, received an award given annually to an athlete "for overcoming injury or illness to excel in his or her chosen sport."

The Garden Grove, California, native developed clear cell sarcoma, a rare form of cancer, on her left thumb as a high school senior. Although her doctors' original prognosis called for radical surgery to amputate the thumb and a portion of her hand, Mizera ultimately underwent an experimental procedure that saved the thumb while eliminating the cancer.

"I don't really consider myself courageous," said Mizera, whose softball credentials include participation on the United States' gold-medal-winning softball team at the 1987 Pan American Games. "I just wanted to continue to play softball. If that makes me courageous, then I guess I am. I am very excited and honored to receive this award."

Raycom Inc. has signed an agreement with the National Academy of Television Arts and Sciences to provide live television coverage of the ninth annual sports Emmy awards. The April 19 telecast, from New York's Sheraton Centre Hotel, will mark the first TV coverage of the sports Emmys.

To qualify for nomination, a sports program must have been aired during the 1987 calendar year and have been available for viewing in more than 50 percent of the country.

Raycom's telecast is expected to reach more than 80 percent of American television homes.

**Trivia Time:** Television has been a part of intercollegiate athletics for almost half a century. When was the first intercollegiate contest televised, and which network provided that coverage? Answer later.

Louisiana Tech University's push toward Division I-A classification in football took a giant step with the announcement that private donations in excess of \$500,000 will permit expansion of the school's Aillet Stadium to more than 30,000

Liz Mizera

Donna Freeman

seats.

Formal approval for the addition has been received from the state board of trustees, and school officials expect the project to be completed in time for the 1988 season.

"Even though it is not mandatory to have 30,000 seats in order to become I-A, I do not believe the goal can be reached without a Division I facility," said Paul A. Miller, Louisiana

## Briefly in the News

Tech athletics director. "With a I-A stadium and schedule in place for the 1988 and 1989 seasons, we are quickly closing the gap to reach I-A status."

Other NCAA member institutions are adopting drug-education programs for the general public similar to that in place at Wichita State University (see this column in the December 23, 1987, issue of The NCAA News).

Three Atlantic Coast Conference "neighbors"—Duke University; North Carolina State University, and the University of North Carolina, Chapel Hill—have implemented a joint effort to distribute four-color "bubble gum cards" featuring basketball players from each school and antidrug messages.

Local police departments also are distributing the cards as

part of drug-awareness programs in local schools.

When injuries began mounting on the University of Texas, Arlington, women's basketball team, head coach Connie Kelch found help behind a video camcorder.

Kelch has activated 5-6 sophomore guard Donna Freeman, who began the season as the team's manager and videotaping specialist. Freeman attended Navarro Junior College, Corsicana, Texas, and served as equipment manager there before transferring when the women's basketball program was discontinued.

Freeman had played 10 minutes in two games through February 6.

**Trivia Answer:** The May, 17, 1939, baseball game between Columbia University and Princeton University was telecast by NBC on an experimental basis.

**More Report Cards:** Three Stephen F. Austin State University women's basketball players earned dean's list recognition during the fall 1987 semester by compiling grade-point averages above 3.000 (4.000 scale). Connie Cole earned a 3.300 in criminal justice, Ylondia Douglas a 3.260 in the same major and Tasha Gains a 3.250 in physical therapy.

At the University of Kentucky, 81 student-athletes earned a 3.000 or better last fall, including basketball players Rex Chapman and Cedric Jenkins. Jenkins and teammate Winston Bennett earned undergraduate degrees in December (in only 3½ years) and are enrolled in the Kentucky MBA program.

Concordia College (Illinois) student-athletes have a little harder time making the dean's list than many of their counterparts at NCAA member institutions, since this school requires a 3.625 (4.000 scale) for a place on the honor roll. Nonetheless, seven of Concordia's 12 women's volleyball players literally "made the grade" last fall.

Led by student-athletes Paul Berra and Mike Hutchison (each with perfect 4.000s), 29 Webster University student-athletes earned GPAs above 3.000. "This amounts to 63 percent of Webster's student-athletes," wrote sports information director John Arenberg. By team designation, the men's soccer (combined 3.150 GPA) and women's basketball (combined 3.130 GPA) squads were tops.

## Byers' portrait on view

NCAA Controller Louis J. Spry, right, chats with sports artist John Martin about his portrait of Executive Director Emeritus Walter Byers that hangs in the reception area of the Association's headquarters building in Mission,

Kansas. Martin painted the portrait of Byers, which was unveiled at the 1988 honors luncheon in Nashville, as part of a tribute to Byers on his retirement after 36 years as NCAA executive director.
