Council urges more study of financial aid plan

Adjustment in Pell Grant to be on Convention agenda

Despite expressing "considerable support" for several features of the financial aid legislation being developed by the NCAA Presidents Commission, the NCAA Council is suggesting to the Commission that it not place the proposal before the membership for a vote at the 1989 Convention.

However, the Council will sponsor a Convention proposal to change the limit on Pell Grant funds that a student-athlete may receive from the current maximum \$1,400 in Division I and \$900 in Division II to whatever amount the student-athlete could qualify for without exceeding the cost of attendance at his or her institution.

Meeting October 10-12 in Kansas City, Missouri, the Council considered proposed changes in the Association's financial aid legislation that were developed for the Presidents Commission by Lehigh University President Peter Likins.

Likins' proposal, which would permit each NCAA division and subdivision to act separately on financial aid issues, recently was endorsed in principle by the Presidents Commission (The NCAA

News, October 3).

The proposal would allow a division or subdivision to decide if it wants some or all of its sports to offer full grants-in-aid, or basic educational expenses based on athletics ability and all other aid on demonstrated need, or all aid based on need.

NCAA President Wilford S. Bailey said there is "considerable support" among Council members for certain features of Likins' recommendations, but he added that the Council believes many questions still need to be answered about what it considers to be a "complex proposal" that could bring about "a sweeping change."

"The Council is recommending to the Presidents Commission that this (proposal) not go forward in January, but that it continue to be studied in terms of these complex issues," Bailey said.

The Council will suggest that Likins continue to work on the proposal in conjunction with the NCAA Committee on Financial Aid and Amateurism, the Council, and the Commission.

In hopes of assuring additional

Timothy J. Lilley photo

Taking part in the discussion at the Council's October meeting were, from left, John E. Thomas, chancellor, Appalachian State University; Charlotte West, associate athletics director, Southern Illinois University, Carbondale, and B. J. Skelton, dean of admissions and registration, Clemson University.

aid for "truly needy" student-athletes at many institutions, the Council is proposing that the legislation be changed to permit awarding Pell Grant funds up to an amount sufficient to cover the cost of attendance at the institution involved. That amount would be determined by

the institution itself, based on the cost normally incurred by students enrolled in a comparable program at that institution.

The limit on the amount of Pell Grant funds that a student-athlete can receive in addition to the full athletics grant was raised from \$900

to \$1,400 in Division I at last year's Convention.

Legislative calendars

In other actions, the Council will propose alternatives in the legislative calendar for consideration at the

See Council, page 3

Three Olympians among Today's Top Six finalists

Three 1988 Olympians are among the seven winter-spring finalists for the NCAA Today's Top Six awards.

The finalists are Gail Cummings, Temple University; Karen LaFace, Ohio State University; Danny Manning, University of Kansas; Suzanne McConnell, Pennsylvania State University; Faith Elizabeth "Betsy" Mitchell, University of Texas, Austin; Michael O'Brien, University of Southern California, and Thomas Schlesinger, University of Nebraska, Lincoln.

This group will be joined by finalists in fall sports, who will be announced later.

Six winners will be selected and will compose the College Athletics Top XII along with six Silver Anniversary award winners. The group will be honored at the 1989 NCAA Convention in San Francisco. Both awards are part of the NCAA honors program, which also includes the Theodore Roosevelt Award and the Award of Valor.

Criteria used in selection for the Today's Top Six awards include academic excellence; athletics ability and achievement, and character, leadership and activities.

Following are the biographical sketches of the winter-spring finalists:

Gail Cummings

Cummings is a two-time lacrosse all-America and was the outstanding attack player in last year's women's National Collegiate Championship, which Temple won. She holds six school records and has been a member of Canada's World Cup team. She also lettered in field hockey.

A cum laude graduate, Cummings maintained a 3.340 grade-point average and earned a degree in health and physical education. She has worked with the Special Olympics and has coached both box lacrosse and field hockey.

Karen LaFace

The 1987 NCAA diver of the year, LaFace won the one-meter event at the Division I championships that year. She was the runner-up in three-meter diving in 1988 and placed second in both diving events at the 1988 Big Ten Conference championships. She was a member of the U.S. national team from 1982 to 1988.

A Rhodes Scholar candidate, LaFace had a 3.780 grade-point average and received a degree in

Continued from page 1

economics/premedicine. A three-time academic all-America, she plans to attend medical school. She is the recipient of the 1988 Schottenstein Postgraduate Scholarship and the 1988 Big Ten Conference Medal of Honor.

Danny Manning

A two-time first-team consensus all-America, Manning was the outstanding player in the 1988 Division I Men's Basketball Championship, which Kansas won. He also earned player-of-the-year honors. A three-time Big Eight Conference player of the year, he was a member of the U.S. team that won a bronze medal at the 1988 Olympics.

Manning maintained a 2.040 grade-point average and earned a degree in communications. He was a volunteer instructor with the Special Olympics. He also worked with an antidrug campaign in Lawrence, Kansas, and did an NCAA antidrug promotional spot.

Suzanne McConnell

A member of the gold-medal winning 1988 U.S. Olympic women's basketball team, McConnell is the NCAA's all-time assists leader. She is an all-America and won the 1988 Frances Pomeroy Naismith Hall of Fame award as the nation's top female player who is under 5 feet 6 inches tall. She holds 22 records at Penn State.

McConnell earned a degree in elementary education and maintained a 3.020 grade-point average. She was a popular speaker/presenter in the community and was the subject of a roast that raised \$1,000 for the Pennsylvania Special Olympics.

Faith Elizabeth Mitchell

A three-time NCAA champion in both the 100- and 200-yard backstroke events, Mitchell was a member of three NCAA championship teams. She has been captain of the U.S. national team since 1985

and won two medals at the 1984 Olympics. Mitchell finished fourth in the 100-meter backstroke in 1988. She set a world record in the 200-meter backstroke in 1986.

Mitchell maintained a 3.368 grade-point average and received a degree in health maintenance/corporate fitness. She is the recipient of an NCAA postgraduate scholarship and is the 1988 Southwest Conference Female Scholar-Athlete award winner. She has been involved with Special Olympics on the state, national and international levels.

Michael O'Brien

The 1985 NCAA champion in the 500-yard and 1,650-yard freestyles, O'Brien holds the Division I championships record in the former event. He set American records in the 500- and 1,000-yard freestyles and won a gold medal at the 1984 Olympics in the 1,500-yard freestyle.

A recipient of the Pacific-10 Conference medal, O'Brien maintained a 3.160 grade-point average while earning a political science degree. He is the athlete representative to the U.S. Swimming board of directors and is a member of the U.S. Swimming Athletics executive committee.

Thomas Schlesinger

Schlesinger was the recipient of the 1987-88 Nissen Award as America's outstanding collegiate gymnast. He was the 1987 NCAA all-around champion and was co-champion on the parallel bars that year, and he won five Big Eight Conference individual titles during his career. He was a member of the 1987 U.S. Pan American Games team that won a gold medal.

He maintained a 3.995 grade-point average and earned a degree in chemistry. An academic all-America, he was a member of the Gold Key Scholastic Society. He also earned Big Eight Conference all-academic honors.

Wesleyan breaks ground

Wesleyan University has broken ground for a \$22 million physical education center.

The 147,000-square-foot complex, due to be completed in 1989, will provide a multipurpose field house, a 50-meter swimming pool and a variety of other facilities.

Wesleyan is funding the project through private donations from in-

on \$22 million center

dividuals and foundations, providing \$20 million for construction and \$2 million as a special endowment for operating costs.

More than \$11 million already has been raised, including a \$5 million gift from Mansfield Freeman, class of 1916, and his son, Houghton Freeman, class of 1943.

Planning committee issues statement on 'broad-scale operational problem'

The NCAA Committee on Review and Planning has informed the Council of its concerns regarding the continuing erosion of the institutional position in legislative and policy issues in athletics, which the committee terms a "broad-scale operational problem."

In its September meeting, the planning committee approved such a statement in concept. The final statement was provided to the Council at its October meeting.

The committee also suggested that the Presidents Commission consider expounding on this topic during the new Presidential Seminar that it is planning for the 1989 Convention.

Emphasized in the statement is the committee's view that the special interests of "vertical constituencies" are eroding the traditional NCAA emphasis on achieving a single institutional position on a key issue.

"The committee believes the need to address this problem also is related to the executive director's message that the roles of the chief executive officer and the athletics director must be strengthened, because they have 'horizontal interests,' covering responsibility for all athletics matters, while most other constituent groups, especially coaches, operate on a basis of 'vertical interests'—i.e., their sport, their cause, their colleagues," the committee told the Council.

The full text of the committee's statement follows:

"The NCAA Committee on Review and Planning, in exercising its responsibility to review trends and problems in intercollegiate athletics, has become sensitive to the dangers of growing politicization of the membership. This was revealed recently in an articulate presentation to the committee that included not only the claim that 'the voice of the Division I-A athletics directors is not heard in the NCAA,' but also a description of efforts that are under way to coalesce and communicate their message through a subdivision of another organization.

"There is a truly striking parallel in this statement to those we have heard from coaches who seek a voice through their coaches associ-

ations, faculty representatives through their new organization, women through special groups and presidents through the Presidents Commission. Everyone wishes to establish a voice through an organization of people with similar job descriptions that cut across a large number of institutions.

"As a consequence, the agenda of the NCAA tends to be viewed from the perspective of special-interest groups rather than from the perspective of the particular institutions that make up the membership of the Association and for which the Association exists.

"It is important that the leadership of the Association seek to harmonize and integrate these special-interests viewpoints, but the crucial avenue for including such insights must be in the process of hammering out the particular positions of each member institution. The ultimate authority and responsibility for creating institutional athletics policies should focus on the office of the president. Presidents should seek the authority aggressively and use it to develop appropriate policies in light of the collective wisdom of all the people concerned.

"There is growing evidence that the pivotal factor in the success of this endeavor is the relationship of the president and the athletics director. When presidents intentionally solicit and use the detailed knowledge and experiences of the ADs in determining broad policies, and in turn delegate clear authority for implementation in an atmosphere of trust, things go well. When ADs are bypassed or ignored, bad policy results and control of the program is eroded.

"In seeking to deemphasize special-interest groups, the Presidents Commission should be viewed by the membership as an agent that facilitates the development of the best possible institutional positions, not as a group that represents a presidential perspective in opposition to that of athletics directors and faculty representatives. Unfortunately, the latter misperception seems to be in the ascendancy and is calling forth responses that could be counterproductive.

"In reaction to these threatening developments, the Committee on Review and Planning has resolved to communicate this concern to the Council, the Presidents Commission and the membership at large, and to urge that member institutions, the internal agencies of the NCAA and outside groups be alert for remedial actions that can be undertaken through educational and orientation activities and be sensitive to these matters in an enlightened pursuit of their regular deliberations and actions."

The Committee on Review and Planning is composed of former officers of the NCAA and a distinguished former student-athlete. The experiences of its members include those of athletes, coaches, athletics directors, faculty representatives and presidents. Members have served on the NCAA Council, the NCAA Executive Committee, the NCAA Presidents Commission, and many key committees of the NCAA and other related organizations.

Special fares available for Convention

The NCAA travel service, Worldtek (formerly Fugazy International Travel), has announced special discount fares available from several airlines for delegates traveling to the 1989 NCAA Convention in San Francisco.

Special discounts ranging from 40 to 65 percent off normal economy fares on selected carriers, with no restrictions, have been secured. Additional discounts of up to 75 percent are available with restrictions.

* Reservations for these special rates to San Francisco can be made by calling the NCAA travel service. The 24-hour, toll-free number is 800/243-1800. For those living in Alaska, Hawaii or Puerto Rico, the number to call collect is 203/562-6222. In Connecticut, call 800/385-5874.

Arrangements can be made with the travel service to have tickets billed directly to the individual or to the member institution.

Virginia gets \$1 million toward soccer stadium

The Klockner Group, an industrial conglomerate, has announced that it is donating \$1 million for the construction of a soccer stadium at the University of Virginia.

Klockner, with headquarters in West Germany, specializes in steel, machinery, equipment and packaging materials. It has a plant in Gordonsville, Virginia.

The gift from Klockner will go toward completion of the \$1.8 million first phase of Virginia's stadium project. The first phase includes seating for 4,000, a regulation-sized natural-grass field, a press box, scoreboard, concession stands and rest rooms. Stadium lighting also could be included in the first phase. The second phase of the project is the addition of 2,500 seats.

The soccer stadium, which will be located between Massie Road and Virginia's baseball field, will be named Klockner Stadium.

Accepting the gift on behalf of Virginia were President Robert M. O'Neil, athletics director James Copeland and men's head soccer coach Bruce Arena.

Legislative Assistance

1988 Column No. 36

NCAA Bylaw 1-7—senior prospective student-athletes

The NCAA Legislation and Interpretations Committee recently reviewed a situation in which an outside organization wishes to utilize a member institution's facilities to conduct a clinic that involves senior prospective student-athletes. The committee concluded that because the clinic is scheduled to occur on the institution's campus, the provisions of Bylaw 1-7 would relate specifically to this situation and would prohibit the involvement of senior prospective student-athletes. The committee determined that the general waiver provisions of Bylaw 1-6(d)-(5) would not set aside the application of Bylaw 1-7 under these circumstances.

NCAA Bylaw 1-4(d)—publicity

The Legislation and Interpretations Committee recently reviewed a previous committee interpretation (reference: Item No. 3 of the minutes of the committee's June 16, 1988, conference) and the provisions of Bylaw 1-4(d) and determined that:

1. Bylaw 1-4(d) would preclude a member institution's coach from participating in an interview of a high school basketball coach even if no athlete from the high school is being recruited by the institution (either in the same sport or in a different sport).

2. Bylaw 1-4(d) would preclude a member institution's coach from interviewing a high school coach even if the high school coach is not involved in any sport in which a prospect is being recruited by the member institution.

3. The provisions of Bylaw 1-4(d) would not preclude a member institution's coach from participating in a radio sports program in which the first half of the show is devoted to interviews with high school coaches and the second half of the show is devoted to interviews with college coaches; however, a member institution's coach would not be permitted to

discuss high school teams and games during the second half of the show.

NCAA Bylaw 5-1-(k)-(1)—'4-2-4' transfer

NCAA member institutions are reminded that according to Bylaw 5-1-(k)-(1)-(i) and Case No. 302, if a student-athlete wishes to be eligible for regular-season competition and NCAA championships at a member institution immediately upon transferring from a junior college, one calendar year must elapse between the transfer from the first four-year college and the student's first participation in NCAA regular-season competition while representing the second four-year institution.

Member institutions should note that Bylaw 5-1-(k)-(4) provides exceptions to the one-calendar-year requirement as specified in Bylaws 5-1-(j)-(7)-(i) and (ii). Therefore, when determining the date a "4-2-4" transfer student-athlete may be eligible, if the first day of classes of the regular academic term (semester or quarter) in which the transfer student would become eligible at the certifying institution is earlier than the completion of the one-calendar-year requirement, and if the student has fulfilled the one-academic-year requirement, the student shall be eligible on the first day of classes. Further, if the date of the first scheduled intercollegiate contest falls earlier (between semesters) than the first day of classes of the regular academic term (semester or quarter) in which the student would become eligible and if the student has fulfilled the one-academic-year requirement, the student shall be eligible on that playing date. Bylaw 5-1-(j)-(7) requires that a student attempting to fulfill the one-academic-year requirement be admitted by the 12th class day of a particular term in order to use that term toward satisfying the residence requirement per O.I. 501.

This material was provided by the NCAA legislative services department as an aid to member institutions. If an institution has a question it would like to have answered in this column, the question should be directed to William B. Hunt, assistant executive director for legislative services, at the NCAA national office.

Athlete forms players' group to help fight drugs

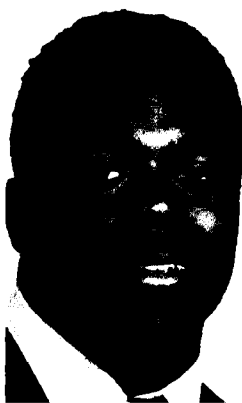

When Wake Forest University football player Rodney Mullins recently saw a youngster he cares about get in trouble with drugs, he was bothered by the thought that maybe a good friend-to-friend talk would have made a difference.

Later, when the reserve junior tailback from Winston-Salem, North Carolina, was invited to speak to a local group of youngsters about the dangers of drugs, he saw an opportunity to help others avoid his friend's plight.

Those events were the catalyst behind Mullins' decision in July to bring several of his teammates together and form a group known as Deacons Against Drugs (DAD).

"I went to my teammates just one time and said, 'Hey, I want to get your help with something,'" he recalled, "They said, 'No problem, glad to do it,' which says a lot about my teammates."

Seven Demon Deacon players joined forces to put together a program that was at once informal and informative, and they tried it out on a group of about 60 to 70 kids, Mul-

Rodney Mullins

lins said.

DAD has done three more programs since then. There are requests for the group to do another 10 to 15 programs for area high schools and church youth groups; DAD's members are trying to find time to squeeze them in among all the practices, games, studying and classes that keep Division I student-athletes busy.

"I didn't expect this thing to pick up like it did," Mullins admits.

Positive talk

"We talk about doing positive

things with their lives. That's the approach we try to take," he said about the group's sessions with kids.

The key word is "talk," according to Mullins. "We tell them we won't lecture," he explains. A typical program is centered on the players listening to the youngsters' comments and answering their questions.

"At first, they're kind of nervous about talking, but then we get them to loosen up," Mullins said.

DAD gets help in its sessions from a drug counselor, who usually opens the program by discussing such drugs as crack and alcohol.

Then, the players take the stage and do a skit. Typically, they act out a postgame discussion in the locker room in which the players decide how to celebrate the latest Demon Deacons' victory. Drugs and drinking are ruled out as the means of celebration, as the players discuss reasons not to use coke, crack or alcohol.

When the skit is over, the players are introduced individually to the youngsters. The time has come to

talk.

Leveling with kids

Youths attending the sessions usually want to know whether the players use or are offered drugs. DAD's members readily answer that they have faced the same pressures and temptations as the kids—one even admits to having experimented with drugs in high school, only to be scared away from them when he had to take an overdosed friend to a hospital.

Another player, 6-5, 285-pound defensive lineman Marvin Mitchell, made clear to a questioner that the Deacons do not use steroids to gain an edge over their competition. "Instead of steroids, I eat Momma's good home cooking," he said. "That is my drug."

Mullins and his teammates have had doubts about whether their message is getting through to the kids. "We've talked about how much they're listening to us," he said. "We know we can't run their lives."

There are signs, however, that the talks are doing plenty of good.

After one of the first sessions, for

example, a school counselor told the players about a student who was so impressed by the DAD members that he said he wanted to be just like them.

DAD is having an effect on the Wake Forest campus, too. Mullins said the program's existence is prompting football players at the school to be more responsible about drinking alcohol.

"We're really proud of the effect this has had on our teammates," he said.

Mullins thinks Deacons Against Drugs will continue to grow, even after he leaves the school. "Perpetuation is something I've looked at," he said, noting that several of this year's freshmen have expressed an interest in becoming involved in the program. "After the football season, we want to bring the freshmen in."

Besides Mullins and Mitchell, founding members of the group are fullback Brian Johnson, defensive back Ernie Purnsley, split end Steve Brown, running back Ricky Brown and linebacker Chris Smith.

Council

Continued from page 1
1989 Convention.

Two calendars—one for use if the membership chooses to hold a voting Convention every two years, the other if it chooses to continue to vote annually—will be offered by the Council. Both would have a 1990 effective date, rather than 1989.

Should a biennial schedule be adopted, the membership would continue to gather annually for division meetings, the honors luncheon and special events similar to the Presidents Commission National Forum, but the emphasis at those gatherings would be on discussion of issues being considered for submission to the following year's voting Convention.

Under that calendar, the deadline for submission of proposals to be considered at a voting Convention would be March 15 preceding the Convention, and an October 15 deadline would be established for amendments to amendments.

If the Association continues an-

nual voting Conventions, the deadline for submission of proposals would be April 15, and the amendments-to-amendment deadline would be October 15.

The deadline dates, which are significantly earlier than the current November 1 deadline for submission of amendments, are designed to give the membership more time to refine proposals before they are brought to a vote.

"In recent years, I think we've all become concerned that we're trying to develop and finalize legislation under too much time pressure," Bailey said.

Also at the 1989 Convention, the Council will propose an increase in the number of sponsors required for amendments and amendments to amendments.

Under the proposal, a minimum of 10 sponsors would be required for both amendments and amendments to amendments, effective for the 1991 Convention. No more than five of those 10 sponsors could be

members of the same conference, according to the proposal.

The Council also took the following actions:

- Authorized the regular publication and release of an "NCAA Enforcement Summary," which will provide a complete list of all publicly announced NCAA enforcement actions to date. Although the summary will contain no information that has not been available to member institutions and the public through other sources, it will allow readers to review and compare enforcement actions taken by the Association through the years.

- "In an effort to maintain a greater spirit of openness and remove some of the mystique of the enforcement process, we're making the summary available," Bailey said. "We think it will improve the membership's perception, and the public's perception, of the enforcement process."

- Agreed to sponsor legislation to establish a 16-member student-athlete advisory committee, consist-

ing of student-athletes nominated by the membership and appointed by the Council. The student-athletes would be selected from all geographical regions in all three membership divisions to serve two-year terms.

The committee, which would meet at least twice a year, would be asked to provide its views on athletics issues and its reactions to proposed legislation. "This type of committee will give us a better feel for the concerns of student-athletes," Bailey said.

- Authorized the establishment of a special committee that will study issues relating to international athletics competition. Among the issues the committee will consider are amateurism and academics issues arising from student-athletes' participation in international competition such as the Olympic Games.

Pan American Games and World University Games.

- Acted to decertify the Bluebonnet Bowl for 1988 because of its inability to meet the Association's minimum-payout requirement (see story below).

A complete listing of all Council actions, including the legislation that it will sponsor at the January Convention, will appear in the October 31 issue of the News.

Sponsorship continues

Phillips 66 will continue its major sponsorship of the Big Eight Conference men's basketball tournament for the next two years, Commissioner Carl C. James has announced.

Also, Phillips 66 will be a major sponsor of Big Eight basketball on television through the Raycom/Big Eight Network.

Association decertifies Bluebonnet Bowl for '88

The NCAA Council has acted to decertify the Bluebonnet Bowl for 1988 because of its inability to meet the Association's minimum-payout requirement, but the possibility remains that the game can be recertified for 1989.

The Council announced its decision October 12, one day after Bluebonnet Bowl directors voted not to stage the December 31 game this year. The bowl's board of directors also voted to continue seeking a corporate sponsor for the game.

"We took action—with some reluctance, but after a number of extensions of deadlines—to decertify the Bluebonnet Bowl, because it has not met its financial obligations to the institutions that have been there in the last two games," said NCAA President Wilford S. Bailey.

However, the bowl can be recertified for 1989 if it makes full payment to participants in the 1986 and 1987 games and posts a \$1 million letter of credit to guarantee financial stability.

If the bowl can meet those requirements by next April, the Postseason Football Subcommittee of the NCAA Special Events Committee could treat the case as a recertification request, rather than as a new application for certification.

"The Postseason Football Subcommittee could consider their proposal for an '89 bowl game as if they were continuing, rather than have to start back as a new bowl, which has more stringent requirements and is spread out over a longer period of time," Bailey said.

"The bowl has been in existence for quite a long time and we would hope that they would be able to do that," he said.

The 29-year-old bowl owes about \$400,000 to former participants, according to United Press International. That includes \$160,000 to the University of Texas, Austin, and the University of Pittsburgh for the 1987 game and \$40,000 each to 1986 participants Baylor University and the University of Colorado.

"We enthusiastically will push ahead to try to find a title sponsor, so long as the NCAA permits us to stay alive," Bluebonnet Bowl President Al Warrington told UPI. "There have been a lot of new possibilities for title sponsorship since the media focused on the issue. Several indicate something might be worked out."

He added that the bowl's board of directors would be willing to honor a sponsor's request to change the name of the game.

Carmichael, chair, Committee on Financial Aid and Amateurism, and director of financial aid at Clemson University. At right is Stephen R. Morgan, NCAA associate executive director.

Comment

Drug tests better than education

Drug testing is more effective than drug education in stopping athletes from taking steroids to help athletics performance, Vanderbilt University athletics director Roy Kramer believes.

"Drug education is fine. We need it. But drug education will not stop one person from using drugs" in sports, Kramer said at a conference on drug use by athletes, United Press International reported.

Testing "is the only way you're going to address it. It gives them a reason to say 'no' to drugs."

Kramer believes if there were no drug testing at the Olympics, "you would have had rampant use of all chemical enhancements known to man."

"You might as well forget about Olympic competition on a fair and equal basis."

Canadian athlete Ben Johnson was stripped of his gold medal in the 100-meter dash after tests showed traces of anabolic steroids in his urine.

Kramer, a former member of the NCAA drug-testing subcommittee, discounted Johnson's claim that someone slipped drugs into the athlete's drink.

"You don't slip anything in there. All the products brought in (to training or warm-up areas at the Olympics) are carefully inspected," Kramer said.

Roy Kramer

The athletics director said he was unaware of widespread use of steroids until January 1985, when a steroid problem hit the Vanderbilt weight room.

In April 1985, former Vanderbilt strength coach E.J. "Doc" Kreis and former pharmacist Melvin "Woody" Wilson were indicted by a Davidson County grand jury for illegally distributing steroids to 32 Vanderbilt football players.

The two eventually pleaded guilty to selling drugs to a Clemson University strength coach and were placed on probation.

Kramer said Vanderbilt's drug-testing program has not eliminated drug use by athletes.

"We've had a few positives, but we've also proved beyond any question the (drug-use) curve can be dropped enormously," he said.

Vanderbilt's random drug-testing policy states that athletes who test positive for steroids or other chemical enhancements are immediately ineligible for competition that day "and they remain ineligible until they test negative," Kramer said.

Teams rebuild with coaching, not grants

University of Nebraska, Lincoln, head football coach Tom Osborne says changing the yearly limit on football grants-in-aid would only lead to more coaching changes.

While he empathized with coaches of struggling teams, particularly Iowa State University's Jim Walden, who has called for change in grants limits for struggling team, Osborne said, "The best way for a school to build a program is to get a good man and leave him in there for seven or eight years."

Walden said he has 72 scholarship players now and because of the yearly limits probably will have only 79 in 1991. He said such a situation might force him to resign by then (The NCAA News, October 10).

Osborne said one reason Iowa State is down is because of NCAA rules violations that occurred before

Tom Osborne

Walden was hired. But when a school changes coaches, it usually loses a year of recruiting and a few players who quit, Osborne said.

"The number automatically goes down if you continue the cycle of changing coaching staffs," Osborne said. "Changing the yearly limit (on initial grants-in-aid) will encourage that kind of activity. Every time you're not going good, you change the coach."

Osborne's comments were made at a weekly breakfast of the Cornhusker Football Club of Omaha, the Associated Press reported.

Fry backs instant replay for college game

Iowa head football coach Hayden Fry would like to see the instant replay become part of the college game.

Fry said he always has supported the use of instant-replay film to review controversial calls made by officials, but he said the referees don't want it and many schools say they cannot afford it.

The Hawkeye coach's comments were reported by Rod Boshart of United Press International following Iowa's 10-10 tie at Michigan State.

The Hawkeyes' Jeff Skillett's field-goal attempt with seven seconds left was called wide by officials. Fry said after the game that he thought the kick was good, but he would not comment publicly on whether he thought the ball went through the uprights.

"If somebody wants to put it on slow-mo like we have and look at it, they can evaluate it. But I'm not going to comment on anything publicly," Fry said during a telephone conference.

Egos overshadowing the game

Blackie Sherrod, columnist
The Dallas Morning News

"We now are so caught up in the egotistical scramble for national acclaim, the actual game sometimes gets lost in the dust storm."

"Television has taken college games from the provincial mold and shaped them into Significant Events, and players claw shamelessly at the recognition."

"Most tiresome sight in all sports is some sideline celebrator after scoring, mugging for TV cameras, holding up index finger and mouthing silent boasts to the electronic audience. No. 1, that's it, baby. Nothing else counts."

San Francisco Examiner
Excerpted from an editorial

"Whether steroids enhance competitive performances is in dispute, but the possibility that they might give a chemical edge to the user is a basis for banning them at the Olympics and other top events. The more somber case against steroids is that they have dangerous side effects...."

"Yet, people in the sports world testify almost casually that steroids are in common use to make athletes stronger, if not faster...."

"The misuse of steroids to improve athletics prowess should be stopped before the practice damages the health of many more young competitors, while hurting the credibility of the very contests in which they seek to excel. Those running the nation's sports programs, including schools and colleges, had better concentrate on solving the problem."

Earle Bruce, head football coach
University of Northern Iowa
The Des Moines Register

"I would like to see (officiating) totally unbiased all the way. Someday, I hope that someone wakes up with the idea that they'll go to a national bank of officials and cut out this blarney of having officials from a certain area, or a certain league, that could have an effect on the football game."

Academics won't hinder recruiting

By Jonathan Feigen
Dallas Times Herald

Coaching candidates were scared off.

Fans worried. Opposing coaches wondered if they had lost a key competitor in the fight for the all-important "prospective student-athlete."

The words "no more special admissions" threatened more hard times to Southern Methodist University sport fans, already slapped hard by a pay-for-play investigation and NCAA penalty. It's one thing to lose football for a couple of seasons, but will higher academic standards take away victories forever?

One week after SMU basketball coach John Shumate and his staff began courting their first recruiting class, associate athletics director Cynthia Patterson said "Mustangland" has nothing to worry about. "Mustangland" is Patterson's term for fans who worry about winning

first. She reviewed Shumate's list of potential recruits and outlined what

"If you can't develop your recruiting policies and your recruiting pool properly, it's not the admissions standards that are the problem, it's the people you have doing the recruiting."

Cynthia Patterson, SMU
Associate athletics director

it will take to get them in SMU. Signing a list of blue-chip players will be no harder or easier for Shumate, Patterson said, than for a coach

Clarence Page, columnist
Chicago Tribune

"The Johnson scandal is the worst to hit the Olympics since Jim Thorpe, a native American Indian many regard as the greatest athlete of all time, breezed through the pentathlon and decathlon in 1912 only to be stripped of his titles and medals the following year when it was revealed that he once received money for playing baseball, thus forfeiting his amateur standing."

"The rules were later changed, and Thorpe's medals were returned, long after his death."

"That's probably more than Ben Johnson ever can hope for. Then again, considering the way our society is moving toward more—if not necessarily better—living through chemistry, maybe not."

Jeff Wiley, varsity football player
Holy Cross College
NCAA College Football Press Kit

"Success comes to those who have the courage to try and are not afraid of failing. This is true in football. When one takes risks on a play or in a game situation,

Opinions

he is challenging himself to come through for his team's sake and his own sake, but he also must be disciplined enough to know when it's not wise to take chances.

"Football has led me to challenge myself academically and as a person. And the taste of success is contagious to others around you and has led me to desire success in other aspects of life. I would not trade my experiences in football for anything."

Agnus Berenato, head women's basketball coach
Georgia Institute of Technology
The Sting

"I believe you can get a lot out of the human will. You need intensity. You may not have more talent than the other team; but if you have the desire, you can make up for a lot of what you're lacking."

who has to consider only vertical leap and shooting accuracy.

"We will not accept that as an excuse," Patterson said. "There are enough student-athletes out there. The pool is large enough. We know that. If you can't develop your recruiting policies and your recruiting pool properly, it's not the admissions standards that are the problem, it's the people you have doing the recruiting."

As a private school, SMU has few admissions rules. Students must be able to qualify under "Proposition 48" they must have 15 academic units, they must be approved by admissions before they can sign a letter of intent and they cannot be offered a paid visit until admissions has given its OK.

"In effect," Patterson said, "everyone at a private school is a special admission. Private schools will never give up their opportunity to judge everyone on a case-by-case basis."

And in effect, Shumate does not

I-A teams racking up points and yards at record pace

By James M. Van Valkenburg
NCAA Director of Statistics

The nation's Division I-A football teams are setting all-time records in per-play efficiency at midseason, and this is producing record highs in scoring, total-offense yardage and passing yardage.

It could be argued, however, that the comeback in rushing is the key, helped by greater use of option plays and by the liberalized blocking rules permitting greater use of hands on offense.

These rules came into effect in 1985. In our poll of coaches for the football press kit before that season, a minority predicted the rules would help rushing more than passing and eventually result in a swing back to more option running. A majority predicted passing would continue to go up. This season, both groups are right.

The rushing trend started to take hold a year ago, when rushing reached 348.4 yards per game (both teams combined), the highest since 1980 and almost 13 yards above 1986. Now, at midseason, the average is 349.6 vs. 345.9 at midseason 1987 (offensive figures usually climb the last half of the season).

Scoring at midseason reached 48.2 points per game after an all-time record Saturday figure of 52.5 October 15. That is 2.1 above the record of 46.1 set last year.

The increase came almost solely from rushing touchdowns, because a small increase in touchdown passes was partly cancelled by a small decrease in field goals made per game.

Passing reached 373 yards at midseason compared to the all-time season record of 372.2 in 1985. Total offense reached 722.6 rushing-passing yards per game, well above the record 715.5 set last season.

Efficiency stands out

Record efficiency is the reason. Did the rushing surge help passing reach record levels, or did passing help rushing? More likely, each helped the other, while defensive coaches pulled their hair.

Rushing yards per play reached 4.0 at midseason—second in history to the 4.05 in 1954. It was 3.97 in 1975, the year option games were at their zenith and total rushing reached its record high of 408.9 yards per game.

At the same time, yards per pass attempt hit 6.90 at midseason—above the record 6.82 set in 1985—and total-offense yards per play hit 5.10, well above the record 5.01 set a year ago. Pass emphasis is about the same—38.2 percent of total-offense plays were passes, just above the record 38.1 in 1986.

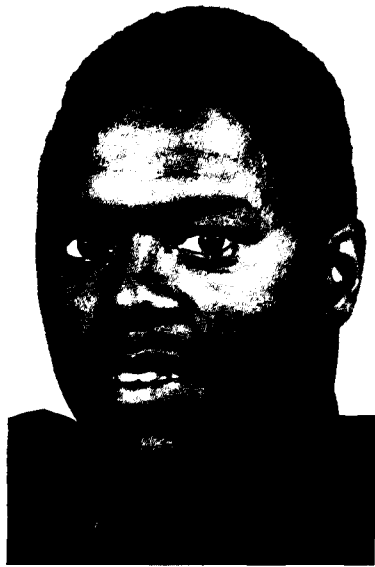

It just may be coincidence, but two-point conversion efficiency is at an all-time high in this first year of the defensive two-pointer. So far, 47.2 percent of all two-point tries have been successful, above the record 47.1 in 1970. At the same time this fall, fewer two-pointers per touchdown are being tried than at any time in history. It could be because coaches and players are conscious of the threat of a defensive two-pointer—an intercepted pass in the end zone returned all the way (nearly all two-point tries are pass plays).

Of course, we have not had a single defensive two-pointer scored in I-A in 350 games played through October 15, but the threat is there.

A record Saturday

The 52.5 points per game scored by I-A teams October 15 set a record for a full-schedule Saturday, shattering the 51.9 November 1, 1986.

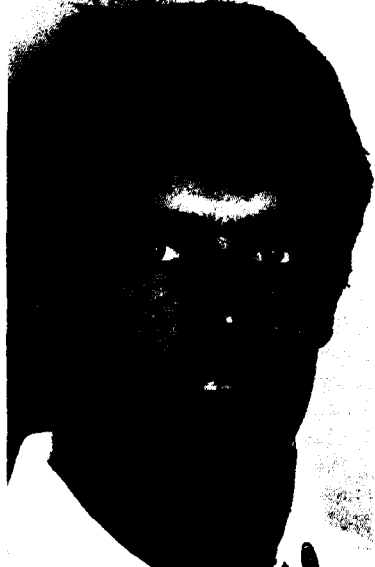

Oklahoma's 768 rushing yards

Oberlin's Fred Cummings is among Division III rushing leaders at 108.8

Northeast Missouri State tight end Gary Isala ranks high in II receiving

Scott Mitchell, Utah, leads Division I-A in total offense at 425.33

Lafayette quarterback Frank Baur is No. 1 in Division I-AA passing

(on 72 carries) vs. Kansas State the same day set a national I-A record, breaking the 758 by Oklahoma vs. Colorado in 1980.

Individually, there were many big games, but none bigger than that of Utah's 6-6 sophomore quarterback, Scott Mitchell, who had an all-time I-A high of 614 yards total offense as his team lost to Air Force, 56-49. That broke a 22-year-old record of 599 by Virgil Carter of Brigham Young vs. UTEP in 1966. Mitchell's 620 passing was one yard short of the record 621 by Dave Wilson of Illinois vs. Ohio State in 1980.

The biggest rushing game October 15 was enjoyed by Nebraska's Ken Clark—256 yards in that wild, 63-42 victory over Oklahoma State, whose Barry Sanders, the national rushing and scoring leader, had 189 and four TDs. Sanders' 304 yards vs. Tulsa October 1 still is the national I-A season high.

In Division I-AA, the rushing trend has taken hold for the first time, as yards per rush at midseason hit 3.74, a record pace. Rushing yards are up more than six yards per game to 323.3 and total offense is up slightly to 669.5. Passing yardage is down almost five yards per game to 346.3, even though yards per pass attempt are up to 6.55, second to the record 6.60 in 1986.

Passing emphasis is down a bit to 38 percent vs. the record 40 percent last year. Scoring is up a bit to 44.8, second to the record 45.4 in 1986. Field goals continue to climb in I-AA to 1.82 per game with 62 percent accuracy. The records of 1.81 and 61 percent were set last year.

Quotes of the week

Cal State Fullerton coach Gene Murphy: "Yes, we got tired in the fourth quarter (at Wyoming). Now our guys know what altitude is (7,220 feet in Laramie). We told them going in it was the opposite of smog." (*Mel Franks, Cal State Fullerton SID*)

A year ago with Oklahoma, Nebraska and Oklahoma State coming up, Kansas State coach Stan Parrish said, "We're on the Bataan Death March." This year with the same three teams coming up, he said: "This is the Burma Road."

Iowa State coach Jim Walden after his team escaped Northern Iowa, 20-17: "The bullet we dodged today wasn't of normal size, but like (what comes out of) a cannon." (*Tim Allen, Big Eight Conference SID*)

"I've always been the Mississippi gambler type," Iowa coach Hayden Fry told Brian Hanley of the Chicago Sun-Times after his team was tied by Michigan State, 10-10, October 8. "Unless I know it's going to give me the championship, I've never gone for the tie. I've always been in favor of a tie-breaker."

Michigan State coach George Perles said he preferred a "sudden death" extra period that lasts 15 minutes or until the first team scores, whichever comes first: "If they even wanted to take that 15 minutes down, I think it could bring a spark to college football. I think the audiences would welcome it, the networks would welcome it and possibly the conferences would." If those are not reasons enough, Perles added, it is just un-American to be satisfied with breaking even: "Most of us in this country are interested in putting it on the line—win or lose."

Most Big Ten Conference coaches polled by Hanley preferred the sudden-death period. "It's one of those things that doesn't get discussed nationally, and I don't know why," said Minnesota's coach John Gutekunst. "But it really would dictate

Football notes

the strategy in the final two minutes if you had the overtime option."

(Note: There is a reason why Big Ten Conference coaches are talking about tie games. There have been only four all season in 350 games involving Division I-A teams and every one involved a Big Ten team. Iowa played in another one October 15, 17-17 with Michigan. In addition to Iowa-Michigan State mentioned above, there were Northwestern-Minnesota and Indiana-Missouri. Four in 350 is 1.14 percent and that would be the second lowest in history to the 1.05 percent in 1970, if maintained over the full season. The two-point rule instituted in 1958 cut ties from 4.02 percent in the previous four seasons to 2.47 percent during 1958-74. Since the big field-goal explosion of 1975—a jump of 217 to 1,164 nationally—ties have averaged only 1.94 percent, on 189 ties in 9,718 games.)

Albany (New York) coach Bob Ford was asked by John Graney of WQBK in Albany about his "coaching factory," which has produced Union's (New York) Al Bagnoli (50-12 entering 1988), Wagner's Walt Hameline (Division III national champions in 1987) and others. Replied Ford: "It makes me think I should have listened to them more when they were here." (*Lori Zalbo-witz, Albany (New York) SID*)

Big-play receivers

National receiving rankings are based on catches per game because that is the receiver's primary job—to catch the ball. Tight ends and backs are the targets of shorter passes than wide receivers, thus always are behind them in yardage.

We do write about the leaders in yards, touchdowns and yards per catch; but sometimes, talented receivers go unlisted in the rankings.

A prime example is Plymouth State's Paul Belanger, points out the school's SID, Mike Moffett. Belanger's 24 yards per catch easily was highest in Division III last season, among those who equalled or bettered his 52 catches, and his totals of 1,250 receiving yards and 14 TD catches each ranked second nationally in the division. But he did not make the final rankings in catches.

This year, he is drawing heavy coverage and is used mostly as a decoy, yet in the first five games (all victories), four of his nine catches were TDs of 54, 45, 38 and 34 yards. His TDs last year included plays of 94, 68, 62, 54, 54 and several in the 30s and 40s.

Similarly, Kansas' Willie Vaughn averaged 26.9 yards per catch last year, best nationally among those with at least as many catches, and 25.0 this fall. His TD catches in that span included plays of 98, 89, 69, 62 and 58 yards. He also scored on a 50-yard reverse. Like Belanger, he draws heavy coverage. There is one big difference—Belanger's team is 15-1-0 in that season and a half, while Vaughn's is 1-15-1, proving that talented receivers are where you find them.

Another streak ends

Columbia and North Park were not the only teams that ended long losing streaks October 10. Colby snapped a 15-game losing streak (and its 22-game conference streak) by edging Tufts, 34-33, after a noted sports psychologist, Alan Goldberg of Northampton, Massachusetts, conducted a two-hour session with the team the day before the game. (*Charlie Britton, Colby SID*)

Academic-football stars

California's (Pennsylvania) senior receiver Bryan Greer, an accounting major with a 3.200 grade-point average (4.000 scale), also has some impressive football numbers. He is averaging more than 22 yards per catch with TD catches of 85 and 74 yards. (*Bruce Wald, California (Pennsylvania) SID*)

Baldwin-Wallace senior place-kicker Wade Massad, the Ohio Conference career kick-scoring leader with 62 straight extra points and the school's four longest field goals in history, is a 3.000 student in business administration, while literally earning his degree playing football. For three years, he and a teammate,

receiver Jeff Lindsay, have run a Cleveland "Dee" and "Dawg" towel business at Cleveland Browns home games and marketed them through local firms. In addition, Massad is doing fraternity and sorority towels and key chains while marketing personalized hand towels to Michigan State, Michigan, Ohio State, Syracuse and Kansas State. (*Kevin Ruple, Baldwin-Wallace SID*)

Life begins at...

Central Missouri State punter Dennis Farris, a jet-engine mechanic in the U.S. Marines and a punter on some squadron teams, is—get this—40 years old. He was warmly accepted by the players and says, "I don't feel awkward, although I'm old enough to be their dad." As for the coaching staff, he told Matt Summerour of the Muleskinner, the student newspaper: "It seems that if you stick with it, they'll stick with you." He is majoring in aviation and is third on the depth chart. (*Bill Turnage, Central Missouri State SID*)

Bob Letky, who quarterbacked St. John Fisher to a 6-2 record in 1982, is back as a 26-year-old Army veteran with a wife and two children. He was stationed in Europe. Letky is majoring in psychology. "I went into the army for insurance," he says. "I was working four or five jobs and killing myself. I want to help the team win any way I can." (*Luke Miller, St. John Fisher SID*)

John Carroll cornerback Kurt Gabram, 25 years old, is in his final year of eligibility after playing for Division I-AA Youngstown State in 1982-84. "Everyone is slower in Division III," he says. "Now that I'm old and slow, I fit in perfectly." (*Julie Daldiaz, John Carroll SID*)

Tommy Compton, now a 23-year-old father of two, is back playing football at North Alabama. He was Alabama's first "Mr. Football" in 1983 at Mobile's Vigor High School. Some of the players he beat out for that honor, like Cornelius Bennett and Curt Jarvis, are playing professional football. He quarterbacked Southern Mississippi before leaving school to get married and work. He now is fifth nationally in Division II total offense at 255.4 rushing-passing yards per game. (*Jeff Hodges, North Alabama SID*)

Binders available

Readers of The NCAA News are reminded that binders, which provide permanent, convenient storage of back issues of the paper, are available from the NCAA.

Each of the rugged, vinyl-covered binders holds 23 issues of the News. They may be purchased for \$7.50 each, or two for \$14. Orders should be directed to the circulation department at the national office (913/831-8300).

Governmental affairs report

A review of recent Federal governmental activities affecting the NCAA membership is published quarterly in The NCAA News. These reports are prepared by Squire, Sanders & Dempsey, the Association's legal counsel in Washington, D.C.

Drug abuse prevention

Omnibus Drug Initiative Act of 1988. September 22, the House passed H.R. 5210, an omnibus antidrug-abuse bill enjoying broad bipartisan support. The bill contains the following two provisions of interest to the NCAA, beyond the increased funding authorized for the National Youth Sports Program.

Drug testing: Section 10006 of the bill provides for the establishment of a Department of Health and Human Services program for certification of drug-testing laboratories. Certification standards are required to conform "to the maximum extent practicable" to mandatory guidelines published in April 1988 for Federal workplace drug-testing programs. The NCAA has questioned the appropriateness of application of these guidelines to drug testing in connection with athletics competition, but in general has expressed its support for reliable standards for drug-testing laboratories.

Anabolic steroids: September 22, the House adopted an amendment to H.R. 5210 designed to curb abuse of anabolic steroids, which amends the Federal Food, Drug and Cosmetic Act to impose criminal penalties for distribution, or possession with the intent to distribute, of any anabolic steroid for any purpose other than the treatment of disease pursuant to the order of a physician. This provision incorporates the substance of H.R. 2928, a bill introduced in July 1987 by Rep. Richard H. Baker, R-Louisiana, that would have amended the Federal Food, Drug and Cosmetic Act to increase to felony status the crime of dispensing anabolic steroids without a prescription. During discussion of the provision, use of anabolic steroids by amateur and professional athletes was cited in support of adoption of the amendment.

In the Senate, Democrats and Republicans have negotiated a bipartisan omnibus antidrug-abuse bill, which is expected to be introduced in the next few days. The bill is not expected to contain drug-testing provisions. Considerable uncertainty exists regarding whether the Senate bill will move forward, because controversial issues remain unresolved and because the cost of either the House or Senate bill would greatly exceed current spending limitations.

Although there is substantial political pressure to pass an antidrug-abuse bill before the election, time is beginning to run out for Congress to complete work on this major piece of legislation before it adjourns in mid-October. If Congress does not enact an antidrug measure this session, the House bill will die.

Other drug measures

Anabolic steroids: July 27, the Subcommittee on Crime of the House Judiciary Committee held hearings on H.R. 3216, a bill introduced in August 1987 by Rep. David Lungren, R-California, to reclassify the anabolic steroid methandrostenolone (commonly known as dianabol or d-bol) as a Schedule I controlled substance. The NCAA submitted a statement supporting the intent of the bill but noting some of its limitations.

Drug-free campuses: No action has been taken on H. Res. 272, introduced last September by Rep. Shaw, R-Florida, which expresses the sense of the House of Representatives that colleges and universities should demand drug-free campus environments and should enforce policies to eliminate drug use by students. According to his staff, Rep. Shaw plans to reintroduce the resolution in the next Congress.

Academic and enforcement issues

Student-Athlete Right-to-Know Act: August 9, NCAA Executive Director Richard D. Schultz met with Sen. Bradley, D-New Jersey, and Reps. McMillen, D-Maryland, and Towns, D-New York, to express the NCAA's preliminary views on the companion Student-Athlete Right-to-Know Act bills that are pending in both houses (S. 2498 and H.R. 4797). As discussed in the last report, the act would require that graduation-rate information as to student-athletes and the student

body as a whole be made publicly available by colleges and universities. The American Council on Education has opposed the bills.

At the August 9 meeting, Schultz provided the legislators with current NCAA data on graduation rates and noted that, as has been the case for some years, student-athletes currently graduate in five years at a better rate than the overall student body at NCAA Division I institutions. He explained some of the practical difficulties encountered by member institutions in compiling graduation-rate data and expressed the NCAA's view that the matter was being satisfactorily dealt with within the education community. He noted that the purpose of the bills was not inconsistent with NCAA policy objectives (i.e., improved graduation rates), but stated that in view of the ACE's posture on the bills, he did not expect the NCAA actively to support or oppose the bills.

Since the August 9 meeting, no efforts have been made by the bills' sponsors to move them forward on the Congressional calendar, and it appears likely that the bills will die upon adjournment of the Congress this fall. It is expected that the bills will be reintroduced in the next Congress.

Graduation rates: No action is expected to be taken before Congress adjourns on H.R. 355, which would deny income tax deductions for contributions to be used in the intercollegiate athletics programs of higher education institutions that do not graduate 75 percent of their student-athletes within a five-year period after enrollment.

Other pending legislation: Similarly, no action has been taken on H.R. 1637, the Intercollegiate Athletics Integrity Act of 1987, or on H.R. 2176, the Commission on Intercollegiate Athletics Act of 1987, both of which were introduced last year. H.R. 1637 would terminate Federal financial assistance to institutions that aid or abet in the corrupt offering or giving of financial inducements to college athletes and would impose criminal sanctions on individuals who make or offer such inducements. According to his staff, Rep. Bryant, D-Texas, the sponsor of H.R. 1637, does not plan to reintroduce the bill in the next Congress.

Title IX and related law

Litigation development: A Federal court has ruled that the Civil Rights Restoration Act applies retroactively to cases pending on the date of its enactment. In a July 13 ruling in *Leake v. Long Island Jewish Medical Center*, the U.S. District Court for the Eastern District of New York held that the Restoration Act should be applied retroactively to the plaintiff's Section 504 claim alleging discrimination on the basis of handicap. The plaintiff was employed by a hospital that received Federal grants for specific research and treatment programs, none of which went to the department for which he worked. In reaching its conclusion, the court noted that Congress intended to overrule the Supreme Court's interpretation of the scope of application of the original version of the Rehabilitation Act.

Counsel for the University of Alaska, Anchorage, and the Department of Justice still are engaged in discussions to resolve concerns expressed by the department regarding the university's compliance with the terms of a 1981 consent decree issued in *Pavey v. University of Alaska*. As previously reported, following submission of a final status report by the university, the department raised questions last year about the university's accommodation of female students' athletics interests and abilities and its expenditures for publicity, recruitment and game guarantees.

Oral argument in the appeal from the dismissal of *WEAL v. Bennett*, a long-standing suit against the Federal government, has been scheduled for January 24, 1989. In previous orders issued in *WEAL*, and related cases, the district court had established mandatory time limits for the investigation of Title IX and other civil rights complaints by the Department of Education.

Federal administrative developments: From March 22, when the Civil Rights Restoration Act became law, until August 31, approximately 15 Title IX intercollegiate athletics complaints were filed with the Department of Education. According to Department of Education staff, many cases have been refilled as a result of the department's efforts to contact complainants in all cases (not just Title IX cases)

closed by the department for lack of jurisdiction following the Grove City College decision. The department informed these complainants that they may file new complaints if there are continuing violations of the type alleged in the complaints.

Federal legislative developments: No action has been taken on H.R. 4132, which was introduced in March by Rep. Kleczka, D-Wisconsin. The bill would amend 42 U.S.C. 1981, a civil-rights statute used principally in employment discrimination cases that now applies to race and alienage discrimination, to cover sex discrimination as well. This change would enable plaintiffs in sex discrimination cases to sue for damages under section 1981.

Tax law proposals

Preferred seating: September 8, the Senate Finance Committee approved an amendment to the previously reported Senate Technical Corrections Act of 1988 (S. 2238). The amendment includes a provision permitting a deduction of 80 percent of the amount of a charitable contribution made in connection with a preferred-seating program. The measure parallels the preferred-seating provision contained in the House technical corrections bill, H.R. 4333, which passed the House August 4.

As of this writing, the fate of technical-corrections legislation in the Senate is unclear; several controversial "technical-corrections" proposals have been made by the administration and others; and it is uncertain whether the Senate, in the short time remaining before adjournment, can reach agreement on a bill, and whether the two chambers then can pass a bill acceptable to the President.

Student loans and scholarships: No action has been taken on a series of bills, including H.R. 2649, which would reinstate full nontaxable status for scholarships and restore the tax deduction for interest paid on student loans; H.R. 2670, which would exclude from gross income amounts received for travel, research and living expenses; H.R. 603, which would restore the deduction for interest paid on student loans; H.R. 3444, which would provide a tax credit, rather than a deduction, for such interest; H.R. 592 and S. 628, companion bills that would restore the deduction for interest paid on student loans, and H.R. 5084, which would restore the deduction for interest paid on education loans and provide an exclusion from gross income for the portion of a scholar-

ship that covers living expenses while away from home.

National Youth Sports Program

Fiscal year 1989 appropriation: September 20, President Reagan signed into law H.R. 4783, the labor, HHS, education and related agencies 1989 appropriations bill, which provides a 1989 appropriation of \$6.669 million for the NYSP. This amount represents an increase of \$350,000 over last year's level of \$6.319 million. The NYSP fared better than the overall Community Services Block Grant program, which was reduced by 1.23 percent, and most categories within the block grant.

Other legislative developments

The NYSP provision of the House Education and Labor Committee drug-abuse education and prevention bill, H.R. 4872, was incorporated without change into H.R. 5210, the omnibus antidrug-abuse bill, as Title II, Subtitle D. That subtitle authorizes appropriations of \$15 million, \$17 million and \$20 million for the next three fiscal years to continue the National Youth Sports Program, strengthen the drug-abuse education and prevention element of the program, and increase the number of NYSP projects conducted. It also provides for continued activities through the year; currently, the NYSP is conducted only in the summer. As discussed earlier in this report, the House passed H.R. 5210 September 22.

The Senate antidrug-abuse legislation, which has not yet been introduced, is expected to provide funding for the NYSP in a different manner. The Senate bill is expected to authorize a \$50 million block grant for community youth activity programs, with a five percent set-aside for programs of national significance, and to contain language identifying the NYSP as such a program (by citing its current statutory authorization). Time permitting, the differences between the two bills will be resolved in conference.

September 19, President Reagan signed into law S. 2560, the Hunger Prevention Act of 1988, which adds "public or private nonprofit higher education institutions participating in the National Youth Sports Program" to the statutory listing of organizations eligible to participate in the Summer Food Service Program. S. 2560 had contained this provision, but the House bill (H.R. 4060) had not. The amendment was necessary because the U.S. Department of Agriculture has in-

terpreted a 1981 statutory change to preclude private higher education institutions from participating in the summer food program. The consequent sharp increase in food costs at NYSP projects sponsored by private colleges and universities has been a serious problem in recent years.

Copyright

1988 Cable Royalty Fees: Cable royalties for the first half of 1988 amount to nearly \$90.4 million, more than ever deposited for one accounting period. Claims for the 1988 fees will be filed in July of next year.

1987 Cable Royalty Fees: July 29, the NCAA filed a claim on behalf of itself and more than 100 member institutions and allied conferences for a share of the \$153 million pool of 1987 copyright fees deposited by cable systems. A proceeding aimed at distribution of these fees has not yet been initiated.

1986 Cable Royalty Fees: Most claimants have agreed to settle the 1986 cable royalty fee distribution proceeding. If a settlement is not reached among all parties, direct cases will be filed October 4. Since the January 1988 Cablevision decision, cable systems have paid an additional \$58.1 million in 1986 royalties, bringing the total 1986 royalty fees to \$117.4 million. As previously reported, the Copyright Royalty Tribunal distributed \$62.9 million of the 1986 fund to copyright owners last April.

Other developments affecting the amount of royalty fees: The Copyright Office has not decided whether it will assess interest on overdue royalties that cable systems will be paying as a result of the Cablevision decision. More than \$93 million in overdue fees for 1986 and the first half of 1987 has been deposited since the Cablevision decision was issued January 5. As noted in our last report, the Joint Sports Claimants filed comments June 30 urging the Copyright Office to collect interest on these late payments, as well as on any future late-filed cable royalty fees.

Professional sports antitrust developments

No action has been taken on S. 782, the Professional Sports Community Protection Act of 1987, which would provide an antitrust exemption for the decisions of professional football, basketball and hockey leagues relating to franchise relocation and division of revenues.

Tulane to rejoin Metro in 1989

Tulane University's reinstatement to full membership in the Metropolitan Collegiate Athletic Conference lends credibility to its revived men's basketball program that was abolished in 1985 amid point-shaving allegations, school officials said.

The conference's joint committee of faculty representatives and athletics directors voted unanimously October 13 to reinstate Tulane to full member status, effective September 1, 1989.

It means Tulane will be eligible for the 14 Metro Conference championships in both men's and women's sports at the start of the 1989 school year.

Tulane's reinstatement also will return the conference to an eight-member affiliation.

Tulane was a charter member when the conference was formed in 1975 but was voted out in 1985 when its president, Eamon M. Kelly, abolished men's basketball—required for Metro membership—because of allegations that some players took money to rig the point-spread on some games.

Tulane now has reinstated basketball and will field a team for the 1989-90 season. Athletics director Chet Gladchuk said there were no stipulations or waiting period for Tulane to compete for NCAA post-season play in men's basketball.

"We will compete in the conference tournament," he said. "It's far-

fetched to think we could win, but if we did, we would qualify for an NCAA regional."

Gladchuk said he has worked on a conference affiliation since the day he became athletics director, the Associated Press reported.

"I contacted numerous conferences across the country and in the southern region," he said. "That includes the SEC and Southwest Athletic Conference. But what seemed perfect to us now is the Metro."

Though Tulane now has a conference but no men's basketball players, the man hired earlier this year as the school's basketball coach said reaffiliation with the Metro Conference unquestionably will help him recruit some.

"This is something we needed," said Perry Clark. "Getting back into the Metro is exciting and makes a statement that we are eager to

reenter the mainstream of college basketball.

"This will unquestionably enhance our stature in recruiting circles and should provide some great dividends to the program in the near future."

Conference Commissioner Ralph McFillen said Tulane brings a rich athletics heritage to the Metro.

"Along with that," he said, "Tulane is one of the fine academic institutions in the nation."

Gladchuk said McFillen asked about Tulane's plans for upgrading its men's basketball arena.

"Obviously," Gladchuk said, "the Superdome looms big for some games. I told the commissioner that we are committed to raising revenues for the renovation of the arena."

"We already have a four-color rendering of what it will look like when completed. We have an idea of where we want to go."

Calendar

October 14-17	National Youth Sports Program Committee, Kansas City, Missouri
October 29-30	Committee on Infractions, Kansas City, Missouri
November 11-13	Committee on Infractions, Tucson, Arizona
November 28	Presidents Commission Ad Hoc Committee on the National Forum, Washington, D.C.
December 1-2	Special Committee on Deregulation and Rules Simplification, Kansas City, Missouri
December 4	Divisions I, II and III Championships Committees, Kansas City, Missouri

NCAA Record

CHIEF EXECUTIVE OFFICERS

Claire Lynn Gaudiani inaugurated as president at Connecticut College. She previously was acting associate director of the Joseph H. Lauder Institute for Management and International Studies at Pennsylvania... **John Kane** named interim president at Winona State, where he is vice-president for student affairs.

FACULTY ATHLETICS REPRESENTATIVE

Richard Wilders selected at North Central, where he is a professor of mathematics.

DIRECTORS OF ATHLETICS

Paul Nolan appointed at Daniel Webster, where he also will be head men's basketball coach. Nolan previously was a coach at Broome Community College in New York... **John J. Clune** will continue to serve at Air Force through at least 1991, according to academy officials. He has been Air Force's AD since 1975 and currently is the College Football Association's chairman of the board... **Rudy Davalos** received a new three-year, annually renewable contract at Houston. The pact replaces the four-year contract he was worked under since taking the post early in 1987.

ASSISTANT DIRECTORS OF ATHLETICS

Tim Heimann named assistant AD for spring sports and promotional activities at Knox, where he will step down as baseball coach but continue to coach men's basketball and assist with football... **Kristen Butterfield** appointed at Daniel Webster, where she also will coach women's softball. She previously was an assistant softball coach at Ohio State... **Neal Bendesky** promoted from marketing and promotions director to assistant AD for marketing and promotions at Cincinnati, where he has served for the past two years.

COACHES

Baseball—**Tim Heimann** stepped down after 11 years at Knox to take on new duties as assistant athletics director at the school. His teams compiled a 127-103 record through 11 seasons and won a Midwest Collegiate Athletic Conference title in 1986... **Walter Holt** of Washington and Jefferson named head men's and women's swimming coach at Kutztown.

Baseball assistant—**Leon Wurth** selected at Georgia Tech after nine years as an assistant at Murray State, where he also was an all-Ohio Valley Conference infielder.

Men's basketball—**Paul Nolan** named at Daniel Webster, where he also was appointed athletics director. He previously was a coach at Broome Community College in New York... **Kevin Wilson** announced that he will resign at Chapman to pursue other opportunities, effective in August 1989. Entering his fifth season at the school, Wilson has coached the Runnin' Panthers to a 51-59 record, including a 16-11 mark last season. His career record, including a stint at San Francisco State, is 92-80... **Steve Newton** awarded a new four-year, annually renewable contract at Murray State, after coaching the Racers to a 52-36 record (22-9 last season) through his first three years at the school.

Men's basketball assistants—**Steve Rice** and **Brad Bross** appointed at Lock Haven. Rice served last season as an assistant at Mansfield and Bross previously was a graduate assistant coach for two seasons at Kent... **Bernie Prevuznak** named at Clarion, which also announced the selection of **Dic Doumanian** as graduate assistant coach. Prevuznak previously was an assistant at King's (Pennsylvania) and Doumanian was a volunteer assistant last season at San Diego, where he also has been assistant sports information director since 1985... **Pete Strickland** hired at Virginia Military. He served last season as head coach at Ravenscroft School in Raleigh, North Carolina. Strickland replaces **Ron Everhart**, who joined the staff at Tulane.

Also, **James Holland** joined the staff at Murray State after one year on the staff at North Carolina-Asheville. The former Harlem Globetrotter was a member of the South Carolina-Spartanburg team that won the 1982 National Association of Intercollegiate Athletics basketball title... **Brad Miley** named at Rose-Hulman after serving the past two years as a part-time coach at an Indianapolis junior high school. He was a member of the Indiana State team that reached the championship game of the 1979 Division I Men's Basketball Championship... **Chris Shea** joined the staff at Wisconsin-Superior. He

has been a junior college head coach and has played professionally in France... **Rich Grady** named at Adelphi, which also announced the appointment of **Jim Pitman** to a part-time position on the staff... **Steve Minton**, a graduate assistant at Miami (Ohio), named assistant coach at Tiffin.

Women's basketball—**Kathy Hewelt** selected at Massachusetts after six seasons as head coach at Indiana Institute of Technology. She also has been head coach at Oakland and an assistant at Dayton... **Dan Cherry** appointed at Colby-Sawyer.

Women's basketball assistants—**Linn Sroka** hired at New Mexico State. She is a former player at Arizona State... **Janet D. Dixon** named at Maine. The former North Carolina-Charlotte assistant was head basketball and softball coach last season at T. C. Robertson High School in Asheville, North Carolina... **Mike Bari** given additional duties at Penn State-Behrend, where he continues to serve as head baseball coach... **Anne Handy Jones** appointed at Weber State... **Mary Vail** named at Massachusetts. She previously was an assistant at Indiana Institute of Technology... **Leah Magistro** appointed at Clarion.

Men's and women's cross country—**Mike Shea** named at Fairleigh Dickinson-Teaneck, where he also will coach men's and women's track and field. Shea previously was head women's coach at Northwestern and is a former assistant at Michigan.

Women's cross country assistant—**Karen Farley** appointed at Cal Poly Pomona, where she also will assist with women's track and field. She is a former distance runner at the school.

Football assistant—**Keith Kidd** named graduate assistant coach at Eastern Kentucky under his father, head coach Roy Kidd. He is a former Florida State baseball player who served last year as a graduate assistant baseball coach at East-

ern Kentucky.

Men's golf—**Peter Ward** appointed at Rhode Island, replacing seven-year coach **Bruce Carson**. Ward is a former Furman standout who previously worked at a country club in Narragansett, Rhode Island.

Women's gymnastics assistant—**Erja Fischer** named at Rhode Island. The Switzerland native has an extensive background in ballet and modern dance.

Men's soccer—**David H. Greenblott** selected at Suffolk after serving as an assistant at Northeastern... **Will Myers** has retired from coaching at William Paterson but continues to serve on the school's movement science and leisure studies department. He coached at the school for 27 years and led his teams to 11 conference titles.

Men's and women's swimming and diving—**Alan Wach** appointed at Brooklyn... **Jamie Rudisill** selected at West Chester, where he also will be aquatics director. Rudisill guided the girls' team at Radnor (Pennsylvania) High School to a Pennsylvania state title in 1983. He succeeds **Bob Krayner**, who served in the post last year on a temporary basis... **John Gadbois** named at Clark (Massachusetts) after two years as an assistant at Arizona State. He also has been on the staff at

Southern Illinois... **Walter Holt** selected at Kutztown after three seasons at Washington and Jefferson, where he also coached baseball and women's softball. Holt is a former Glassboro State all-America who coached three Division III all-Americans at Washington and Jefferson. He replaces four-year coach **Ken Fernandez**.

Men's and women's tennis—**Larry Nyce** resigned at American, effective at the end of the fall season. He has coached the men's team for 25 years and the women's team for 12 years and led the men's team to a Capital Collegiate Conference title last fall. Nyce will remain at the school as a member of the health fitness faculty... **Georgia Deren** appointed women's coach at Adelphi... **Mark Schroeder** selected for the men's and women's programs at St. Olaf. He is a former player at Gustavus Adolphus and a former head coach at St. Mary's (Minnesota)... **Steve Clark** appointed men's coach at Chapman, which has won team titles at the last two Division II Men's Tennis Championships. Clark is a former UC Davis all-America who has served stints as an assistant at UC Irvine and UC Davis.

Men's and women's track and field—**Mike Shea** selected at Fairleigh Dickinson-Teaneck, where he also will coach men's and women's cross country. He previously was head women's coach at Northwestern and is a former assistant at Michigan.

Women's track and field assistants—**Karen Farley** and **Janet Nicolls** named at Cal Poly Pomona, where Farley also will assist with women's cross country. Both are former track standouts at the school; Farley was a distance runner and Nicolls won the Division II heptathlon title in 1984.

STAFF

Assistant to the athletics director—**James Ross** hired at Xavier (Ohio), where he also will serve as trainer for basketball.

public affairs for GTE Southwest.

Operations director—**Robert Sugar** appointed at Long Island-C. W. Post, his alma mater. He succeeds **Gene Venturino**, who is retiring after 27 years at the school. Sugar previously was girls' basketball coach at a local middle school, where he also served a stint as head football coach.

Sports information directors—**Hartwick's Betsy Barrett** hired at George Washington. She was an intern at Pennsylvania before accepting the SID's post at Hartwick last year... **Brett Banker** appointed at Penn State-Behrend, where he also will be intramurals director. He previously was a teaching fellow in athletics at Springfield... **Carmine Faccenda** named at Fairleigh Dickinson-Teaneck after three years as SID at St. Francis (New York).

Sports information assistants—**Deana Nail** selected at Wake Forest. She was public relations coordinator for the Smith Center at North Carolina the past two years. Nail replaces **Bert Woodard**, who left after five years to accept a position with Sports Marketing Enterprises... **San Diego's Dic Doumanian** appointed graduate assistant men's basketball coach at Clarion.

Strength and conditioning coach—**Mike Stojkovic** appointed at Cincinnati after two years as a student assistant on the school's football staff.

Trainer—**James Ross** named basketball trainer at Xavier (Ohio), where he also will be assistant to the athletics director. Ross previously was a teacher and trainer at St. Mary's Regional High School in South Amboy, New Jersey, and has been a trainer for U.S. Olympic and Pan American Games teams.

CONFERENCES

Al Langer appointed 1988-89 publicity director for the New Jersey Athletic Conference. He is sports information director at Montclair State. Langer succeeds **Sheila Stevenson**, SID at Glassboro State... **Shane Lyons** named assistant commissioner of the Big South Conference, which also announced the appointment of **Kim Hawkins** as public relations director. Lyons previously was an assistant in the ticket office at West Virginia and Hawkins was a public relations assistant at Wingate.

NOTABLES

Kathy Welter, head women's softball coach at Cal State Bakersfield, named Division II coach of the year by the National Softball Coaches Association. She led the 1988 Roadrunners to a 54-9-1 record and the Division II title... **Michael Gorman** named vice-president for finance and administration at ESPN. He previously was affiliated with a New York management consulting firm... Football coaches **Larry Smith** of Southern California and **Mike Gottfried** of Pittsburgh selected to coach the West and East teams, respectively, at this season's East-West Shrine Game.

DEATHS

David Croudip, captain of special teams with the Atlanta Falcons football team and a former player at San Diego State, died October 10 in Duluth, Georgia, after suffering seizures. He was 29. Authorities said preliminary tests revealed that cocaine use could have contributed to Croudip's death... **Michael Ramseur**, a football standout at Wake Forest from 1982 to 1985, was shot to death September 20 in Forestville, Maryland, by a District of Columbia policeman who said he was assaulted by Ramseur. The former running back was the leading scorer in Wake Forest history with 194 points... **Joseph C. O'Connor**, former assistant men's basketball coach at La Salle and Temple, died September 20 near Philadelphia. He was 48.

Mike Cohen, former sports information director at New York Tech and Manhattan and owner of a New York sports public relations firm for the past five years, died September 19 in Norwalk, Connecticut, of a heart attack suffered while he was playing softball. Cohen was 44... **Lawrence R. Ellis**, a running back at Syracuse in the 1940s, died of cancer August 24 in Auburn, New York. He was 66. Ellis also briefly officiated college football games after playing less than one season for the Detroit Lions... **Tom Varnascek**, captain of California's 1915 gymnastics team and a major financial supporter of athletics at the school, died during September. Also, **Jack Williamson**, former head trainer at California, died during September. Williamson was on the school's athletics staff from 1947 to 1970.

CORRECTION

The name of NCAA Council member

Sarah E. Yates, whose name was listed under Committee Notices in the October 10 issue of The NCAA News, should be changed to **Sarah E. J. Yates**. Yates also serves on the Division I Women's Basketball Committee and the Council Subcommittee to Review Minority Opportunities in Intercollegiate Athletics.

Official's report unfair, Stoner says

Former University of Illinois, Champaign, athletics director Neale Stoner said he was a successful fund-raiser for the school, and he took issue with allegations of financial irregularities in the athletics association.

He said a report by the auditor general criticizing the association for, among other things, paying to send associate director Vance Redfern to a weight-loss clinic in North Carolina was unfair.

"We sent Vance Redfern to Duke, not to send him on a vacation, but because he was a valued member of the team and we were concerned

about his health," said Stoner. "I considered that an important business decision."

The university accepted Stoner's resignation July 12 after school officials said an internal investigation revealed improprieties, including the use of association maintenance personnel to do work at the homes and on the cars of Stoner and his top aides.

Illinois Auditor General Robert Cronson released a 21-page report October 5 citing a number of "irregularities" and recommending that the association be abolished (The NCAA News, October 10).

"What's been said by the auditor general and written by the media has not been fair or accurate," Stoner told the Champaign-Urbana News-Gazette.

Cronson's report said the association paid for trips for golf tournaments by Stoner and Redfern with travel-agency officials, paid \$2,217 for Redfern to attend a weight-loss clinic, and paid \$3,933 in undocumented charges on its credit cards.

"There was nothing we did that was concealed," said Stoner.

"All of our expenses were processed the same. We were audited yearly. If they didn't like the direction we were going, they could have changed it."

Stoner said he was especially angry about the questions raised over the trips he took with the travel-agency officials, whom he called "major donor prospects." The travel officials paid their own way, but the report questions association payment for Stoner and Redfern.

"You can challenge any individual effort you want," he said. "You can spend a lot or you can spend a little; the point is what you end up with over the long haul. Would anybody have questioned this if there had been a major donation from them?"

"You put a number to all our expenses, public relations and fund-raising and you compare it with anybody, and the return is there," said Stoner. "We raised millions of dollars with very minimal expenses."

Stoner came to Illinois in 1979 from California. During his administration, the association went from raising about \$400,000 a year in the mid-1970s to raising between \$2 million and \$3 million a year in the 1980s.

He said his assignment when he was hired included increasing private donations to the association, improving public relations and expanding women's athletics programs.

"They knew what they were after, and they got that," said Stoner. "We were successful. The suggestions that there were all these irregularities now are simply wrong."

en's sports. Mount Holyoke, an NCAA Division III institution, is a women's college that sponsors 17 sports.

Salisbury State, which rejoins the conference after a one-year absence, is a Division III member. The Sea Gulls sponsor 19 sports for men and women.

Wheaton, which began admitting men this year, offers eight women's sports as a member of Division III. The college has four men's sports clubs that may be elevated to varsity status.

The ECAC now has 256 member colleges and universities.

Coaches selected for Shrine Game

University of Pittsburgh football coach Mike Gottfried and the University of Southern California's Larry Smith will be the head coaches for the 64th annual East-West Shrine Game at Stanford Stadium January 15.

Smith has coached Southern Cal to a No. 3 ranking this year. The Trojans were Pacific-10 Conference champions last year, going on to the Rose Bowl in Smith's first year as head coach.

Smith, who will coach the West squad, has an overall record as a head coach of 79-59-3.

Gottfried led Pittsburgh to an 8-4 record and a Bluebonnet Bowl appearance last year.

He is a former Big Eight Conference coach of the year at the University of Kansas and has an overall record as a head coach of 64-51-4.

School to remain in conference

Morningside College directors have voted to keep the school in the North Central Intercollegiate Athletic Conference and bring its women's teams into league competition.

The NCAA Division II conference ordered the school and the University of Northern Colorado to place their women's teams under league jurisdiction. Northern Colorado complied, but Morningside considered other options, including jumping to the NCAA Division III Iowa Intercollegiate Athletic Conference or forming a new league, according to United Press International.

Morningside officials said switching the women's teams would be too expensive; but October 11, the college board of directors voted to find the money and comply with the league order.

The college's women's teams have been members of the NAIA and competed in the Io-Kota Conference.

ECAC adds four to membership

Four colleges have joined the Eastern College Athletic Conference.

The ECAC executive council approved the addition of Davidson College, Salisbury State College, Wheaton College (Massachusetts) and Mount Holyoke College.

"We welcome into the conference membership the four new institutions, which all have rich traditions in both academics and athletics," said Commissioner Robert M. Whitelaw.

Davidson, an NCAA Division I college, sponsors 16 men's and wom-

Bryant museum curator Emily Moore says she expects sports fans and sports scholars to visit the new facility on the campus of the University of Alabama, Tuscaloosa

Bryant museum opens at Alabama

The Paul W. Bryant Museum has opened at the University of Alabama, Tuscaloosa, to commemorate the tradition of Crimson Tide football and other teams led by Bryant, who had the most victories of college coaches in history during his lifetime.

The museum is on Bryant Drive across from Coleman Coliseum. Dedication ceremonies were held October 8.

Designed for visitors and sports scholars, the \$3 million, 16,000-square-foot facility features football memorabilia, displays and archives, according to Douglas Jones, director of museums and acting vice-president of academic affairs.

During the dedication ceremony, a bronze bust of the coach by Blair Buswell, who sculpts busts of Pro

Football Hall of Fame honorees, was unveiled.

Jones says the concept of the Bryant museum "can be traced to coach Bryant's desire to honor the players and staffs that were part of his coaching career. What started out in his mind as a sort of 'hall of fame' in the coliseum has become a major component of the Bryant complex and what I consider to be a unique sports facility for a university campus."

Emily Moore, museum curator, says the facility is both an exhibit hall and a sports archival and research area.

The exhibits are in chronological order, beginning with 1892 and the early years of Alabama football, through the Wallace Wade-Frank Thomas era, Bryant's career and the

post-Bryant years.

An exhibit on the current football season will be updated with game highlights and other items of interest.

The public research area houses "archives and conservation facilities to maintain the memorabilia and documents that make up the holdings of the museum," Jones said. "The archives will be available to researchers. It is my hope that ultimately the museum can be an outstanding resource for sports history in general, with a strong emphasis on Alabama football."

The museum's regular hours will be Tuesday through Saturday from 10 a.m. to 4 p.m. and Sunday from 2 to 5 p.m., excluding official university holidays. There is no admission charge, but donations are accepted.

Complaint at Santa Clara dropped

Two current and two former Santa Clara University women's coaches have withdrawn a Title IX complaint they filed in June with the Office of Civil Rights, that office said in a September 23 letter to school officials.

The letter, addressed to the Rev. Paul L. Locatelli, president of Santa Clara, stated, in part: "This letter is to inform you that the Title IX complaint which the Office for Civil Rights (OCR) notified you about... has been withdrawn and the complaint... has been closed."

The OCR, according to its investigative procedures, is required to conduct a compliance review when a complaint is withdrawn. The OCR is conducting such a review of the athletics program at Santa Clara, according to a news release from the school.

University officials are confident that the review will find the university in compliance with Title IX requirements, said Thomas J. O'Connor, director of athletics.

"Since I came here two years ago, we've been working to improve the quality of our athletics program, and we've specifically focused on upgrading and improving women's athletics," O'Connor said.

O'Connor pointed out that until 1986 no coach in the department had an employment contract. Today, all coaches are under contract.

The new women's basketball

coach has received an extended contract, something that was unheard of in the past, O'Connor said.

The Rev. Robert Senkewicz, vice-president for student services, said O'Connor significantly increased the administrative staff servicing the women's sports programs when he combined the men's and women's athletics programs into one organization. When the women's program was separate, it had one part-time secretary serving it. Now, under the new combined program, the women's and men's programs have two full-time secretaries and two part-time secretary/receptionists, a business manager, a facilities director, and an assistant athletics director of promotions, the school's release said.

Senkewicz said it has been erroneously reported that the current Title IX complaint is a continuation of previous complaints filed in 1977 and 1985.

"In 1977, a student filed a complaint about unequal treatment for men and women athletes. She later withdrew her complaint. That same year, OCR conducted a desk audit of our Title IX self-evaluation in the area of athletics and a compliance review in the area of athletics scholarships," Senkewicz said.

"We doubled women's grants from five to 10 full scholarships and increased funding for the women's recruitment budget. After reporting the changes to the OCR, we were

told that further monitoring of the complaint by their office was unwarranted."

The 1985 complaint concerned scholarships and, after an investigation, the OCR stated in June 1986 that Santa Clara University was in compliance with Title IX regulations for athletics financial assistance.

Since the 1986 OCR findings, the proportional allotment of Santa Clara men's and women's athletics financial assistance has remained the same based on the ratio of men and women athletes in the program. However, operating budgets for women's athletics teams were singled out for an increase during this period, O'Connor said.

The university has established salary rates based on a university-wide classification system, O'Connor said. "Within this system, salary increases are awarded at the divisional level on a merit basis."

The newly renovated athletics department offices provide additional space for all staff members. The renovation, which adds a new team room to the women's locker facilities, is nearly completed, O'Connor said.

In February 1988, the athletics board of governance (an advisory board to the president) approved a plan to increase scholarships and operating expenses for women's sports.

Ex-catcher gives major-leaguers a hand with special glove

Carol Stanley, Drexel University's director of student information and records, tore up one hand from 27 years as a fast-pitch softball catcher. A two-time Amateur Softball Association all-star, Stanley suffered permanent nerve damage in her catching hand from stopping thousands of 80 mph pitches.

"My hands turn blue when it's below 50 degrees," she said. "I don't want any player to go through what I have."

Apparently, those who are using the Stan-Mitt won't.

A special batting/catching glove she designed, the mitt is being used by some two dozen Major League Baseball players, including members of all four 1988 play-off squads.

"I tell (the players), 'Hey... I designed this thing because I've experienced the pain from catching a ball thousands of times. That pain

Senior kicker **Pat Belson** booted all three extra points and the first-quarter field goal that proved to be the difference in the contest, as Carroll upped its record to 4-0.

Pan American University women's basketball player **Shelli Ingram** apparently has a good chance for stardom when her college playing days are over. But, she'll have to trade her basketball shoes for a microphone.

Ingram, 19, doubles as a country and western singer with the Texas Desert Band from Amarillo. In May 1987, she opened a show for C&W legend Merle Haggard.

"I'll never forget opening the show for Merle Haggard in Wellington, Texas," said the 5-10 transfer from Tyler (Texas) Junior College.

"A guy at a radio station heard me sing and gave me that break. I sang 'Crazy' by Patsy Cline, and two other songs."

When Kutztown University of Pennsylvania's women's field hockey team grabbed the top spot in the Division III field hockey poll, it marked the first time in history that a team from the school was ranked No. 1 in any sport.

The National Federation of State High School Associations will produce a new football rules film—"Football The Right Way"—December 5-7 at Ohio State University's Woody Hayes Athletic Center.

The 28-minute program is the first for the federation since 1985 and will focus on rules changes since that time. It will be released next summer for the 1989 season.

Cornell College senior student-athletes **David Hughes** and **Ann Davies** have been named winners of the second annual **Paul Maaske** Memorial Scholar-Athlete Awards. Honorees are chosen on the basis of a successful junior year in academics

Carol Stanley displays mitt she developed

and athletics—including earning varsity letters in two sports and the highest grade-point averages of those eligible for consideration.

Hughes earned a 3.900 GPA (4.000 scale) in chemistry and pre-medicine. He lettered in football and track and field.

Davies earned a 3.630 in physical education. She earned letters in women's basketball and women's softball.

On-Field Milestones: When the

University of North Carolina, Chapel Hill, women's soccer team defeated the College of William and Mary, 3-1, October 1, the team established what is believed to be a collegiate record with its 58th consecutive game without a loss.

From the start of the 1986 season through the William and Mary game, the Tar Heels were 55-0-3. The old record, according to a news release from the school, was the 57-game nonlosing streak set by the charges of coach **Anson Dorrance**

from 1983 through 1985.

Through October 2, when the news release was issued, the Tar Heel women had played 184 games in almost 10 years. The team's overall record was 172-7-5.

Welles Lobb, Muhlenberg College sports information director, reports that his school's men's soccer team recorded 13 consecutive shut-outs from September 3 through October 13. Ironically, it began the streak after being shutout by Penn State, 3-0, in the season opener.

"I am curious to learn of other NCAA men's soccer programs that may be close to this shutout mark," Lobb said. Send any appropriate information to this column at The NCAA News.

Southwest Missouri State University officials expect to add more than \$100,000 to an endowed fund for golf scholarships as a result of the September 19-20 **Bill Stewart** Memorial Pro-Am Golf Tournament at Hickory Mills Country Club in Springfield, Missouri.

Stewart was a three-sport letterman at Southwest Missouri State and is a member of the school's athletics hall of fame. His son, PGA tournament pro **Payne Stewart**, helped set the event up and lured fellow PGA players **Mark Wiebe**, **Peter Jacobsen**, **Roger Maltbie**, **Buddy Graham**, **David Graham**, **Gary McCord** and **Dan Pohl** to Springfield for the affair.

During the recently completed Spirit Week at the University of Notre Dame, one full day—October 10—was declared Academic Day. Included was an evening panel discussion, "Can A University Excel in Academics and Athletics?"

Participants were Notre Dame men's basketball coach **Richard "Digger" Phelps**, former Fighting Irish basketball team captain **Tracy Jackson** (currently an investment broker in the Washington, D.C., area and a member of Notre Dame's board of trustees), Notre Dame philosophy professor **Thomas Morris** and psychology professor **George Howard**. Moderator for the event was **Nathan Hatch**, acting dean of the school's college of arts and letters.

Rev. Gerald McCaffrey, faculty athletics representative and chaplain at St. Bonaventure University, offered some interesting thoughts recently in a feature story written by **Mike Vaccaro**, a student intern working for sports information director **Jim Engelhardt**.

"Not wanting to make excuses for them, student-athletes do not have easy lives," Father McCaffrey said. "They must take a regular supply of credit hours each semester, practice two or three hours every day and then be expected to do their academic lessons each night to keep up. And, they have to keep up."

"Plus, once or twice each week, they're expected to represent the university on the road... and some road trips are pretty long and exhausting. So, to maintain a B average (50 of the school's varsity athletes did so during 1987-88) is quite an accomplishment for a student-athlete, in my opinion."

A mathematics professor at St. Bonaventure (he has been faculty rep for 14 years), Father McCaffrey is not one to let the spotlight blind his view of star athletes' needs.

"Folks like to gravitate toward popular people," he noted, "and athletes are popular people by nature. But we can't let that popularity translate to a message that says they don't have to study to succeed."

Briefly in the News

doesn't have to be a part of the game."

Recently, the Baseball Hall of Fame agreed to place two of the Stan-Mitt Mitts used by New York Mets catcher Gary Carter in its equipment collection—possibly the first pieces of baseball equipment designed by a woman to be accepted by the hall.

Carroll College's (Wisconsin) 1988 football homecoming will be remembered for a long time. In the October 8 game, the Fighting Saints defeated Augustana College (Illinois), 24-21, ending the Vikings' 70-game regular-season winning streak, which dated back to 1980.

Leading the way for Carroll was senior quarterback **Dave Doran**, who connected on 17 of 33 passes for 173 yards and two touchdowns—both to junior wide receiver **Tim Schmidt**.

Eligibility appeals

Eligibility Appeals Concerning Recruiting Violations (Includes all actions taken after August 17, 1988)				B 4-1-(a)-(1)-(iii)	S-A participated on U.S. Olympic ski team during 1987-88 academic year and was unable to attend collegiate institution.	Extension request granted for one year.
DIVISION I						
NCAA Rule(s) Violated	Facts	Recruiting Advantage	Result	B 5-1-(j), 5-6-(b) and Case No. 347	S-A did not meet requirement for initial eligibility; practiced and competed as partial qualifier in fall of 1987 in football and winter of 1988 in indoor track.	Eligibility for football and indoor track practice restored beginning the 1988-89 academic year and for competition beginning in the 1989-90 academic year. [Season of competition used per B 5-1-(d)-(1) in each sport.]
R 1-1-(a) and 7-1-(c)	Part-time assistant coach copilot-ed charter flight to transport prospective student-athlete (PSA) (basketball) for official paid visit.	No.	Eligibility restored.			
Eligibility Appeals (Other Than Those Involving Recruiting Violations) (Includes all actions taken after August 17, 1988)						
DIVISION I						
NCAA Rule(s) Violated	Facts	Result		B 4-1-(a) Case No. 273	S-A initially enrolled in collegiate institution in fall of 1983; contracted mononucleosis but remained enrolled in institution; withdrew from institution during a subsequent term.	Extension request denied. Affirmed on appeal by NCAA Eligibility Committee for Division I.
C 3-1-(a)-(3)	Individual (not a representative of the university's athletics interests) provided student-athlete (S-A) with round-trip air transportation to institution's campus; S-A repaid value of air fare.	Eligibility restored.		B 5-1-(j), 5-6-(b) and Case No. 347.	S-A erroneously was believed to be a partial qualifier; received financial aid as a nonqualifier.	Eligibility restored after S-A's repayment of the financial aid received improperly during initial year of enrollment.
B 4-1-(a)-(3), Case No. 273	S-A suffered gunshot injuries but continued to attend collegiate institution.	Extension request denied.		B 5-1-(j), 5-6-(b) and Case No. 347.	Institution erroneously certified S-A (wrestling) as qualifier; S-A practiced and competed as partial qualifier.	Eligibility restored for practice for 1988-89 academic year and for competition for 1989-90 academic year.
B 4-1-(a)-(3), Case No. 273	S-A was unable to attend collegiate institution during fall of 1987 due to injuries received in motorcycle accident the previous summer.	Extension request granted for period equal to time S-A was unable to attend (approximately six months).		C 3-1-(a)-(3)	S-A (basketball) attended two professional basketball games in same weekend at which he won free-throw shooting contest for camera and for car, half-court shot; S-A did not retain camera and returned car when informed of violation.	Eligibility restored after S-A withheld from first intercollegiate contest of 1988-89 basketball season.
C 3-1-(g)-(5)	S-A was provided transportation to and spent night at coach's home due to family problems; S-A repaid cost of room, board and transportation.	Eligibility restored.		C 3-3-(a) and B 5-5-(b)	S-A (wrestling) participated in five dates of competition while ineligible under the provisions of C 3-3-(a).	Eligibility restored after S-A withheld from first five dates of competition in 1988-89 season.
B 4-1-(a)-(3); Case No. 273	S-A underwent two surgeries and during rehabilitation was unable to attend collegiate institution in fall 1986.	Extension request granted for period equal to time S-A was unable to attend (approximately six months).		B 4-1-(a)-(3) and Case No. 273	S-A received serious injuries in summer of 1987 but remained enrolled throughout the 1987-88 academic year.	Extension request denied.
B 4-1-(a)-(1)-(iii)	S-A participated on U.S. Olympic ice hockey team during 1987-88 academic year and was unable to attend collegiate institution.	Extension request granted for one year.

Submit APSU application; letter of application; resume; and the names, addresses, and current telephone numbers of three references to: Personnel Office, APSU, P.O. Box 4507, Clarksville, TN 37044. 615/648-7177. Application screening will begin November 4, 1988, and continue until position is filled. EOE/AA.

Track & Field

Assistant Men's Track & Field Coach — University of Wisconsin-Madison. Responsibilities: Coaching horizontal jumps, high jump. See The Market, page 15

COMPLIANCE REPRESENTATIVE

NCAA Compliance and Enforcement Department

Applications are being accepted for immediate openings as a compliance representative in the NCAA compliance and enforcement department. The department's compliance section provides support services to member institutions and conferences in their commitment to NCAA rules compliance.

A compliance representative's primary responsibilities include:

- Campus visitation on request of a member institution to assist it in analyzing the overall structure and administration of its athletics programs, and its compliance with NCAA legislation.
- Cooperation with member conference officials in assisting their institutions in rules compliance.
- Development of resources and guidelines to assist in the successful operation of athletics programs.
- Implementation of the forms and processes used by institutions in conducting the required periodic self studies and annual financial audits.

This position requires a working knowledge of NCAA regulations and the ability to communicate effectively, both orally and in writing. Recent administrative experience in intercollegiate athletics is preferred.

Interested candidates should send a letter of application and resume to:

John H. Leavens
Assistant Executive Director
for Compliance Services
NCAA
P.O. Box 1906
Mission, Kansas 66201

Deadline for Applications: October 31, 1988.

The NCAA is an Equal Opportunity/Affirmative Action Employer

KANSAS STATE UNIVERSITY

Head Football Coach

Kansas State University is accepting applications and nominations for Head Football Coach. The starting date is December 1, 1988.

ESPN to publish sports magazine

ESPN will unveil in December a monthly sports magazine, "TV Sports," to be distributed in home-delivered Sunday editions of major metropolitan newspapers.

The magazine, with a planned initial circulation of 2.1 million, will contain articles about sports. But its major purpose is to list all televised sports programming offered nationally by ESPN, the major networks, and the superstations such as WTBS of Atlanta and WWOR of New York, which are carried by many cable systems around the country.

"There's no easy way for the viewer to get that information, particularly for some of the more narrow-interest sports," said William P. Ketcham, the senior vice-president for network marketing at ESPN.

Ketcham said ESPN had been exploring the idea for several years and had decided to go ahead after research showed that television viewers want a better way of determining when specific sports, especially those other than football, baseball and basketball, will be on the air, the

Associated Press reported.

"We are trying to make the magazine as usable as possible to the viewer," said Roger Werner, president of ESPN.

The main listings will be organized by sport, rather than by day, although there also will be weekday evening and weekend grids showing hour-by-hour programming. The listings will not include programming carried only on local stations.

The first issue will be published December 4. The magazine, published by ESPN in conjunction with the custom magazine division of the

Crosby Vandeburgh Group of Boston, will be distributed as a paid insert in Sunday newspapers.

ESPN has so far reached agreements to have the magazine carried in 12 newspapers in major cities, including The New York Times, The Boston Globe, San Francisco Chronicle and The Dallas Morning News.

The magazine will be included only in home-delivered newspapers to areas where cable television is available and the average household income exceeds \$35,000.

NACDA plans three law seminars

Three regional sports-law seminars are planned, the first scheduled for November, by the National Association of Collegiate Directors of Athletics.

The seminars will be conducted by Glenn Wong, sports-law expert, and topics include legal challenges to drug testing, Title IX, tort liability and player-agent issues.

The first seminar is scheduled November 29-30 at the Providence

Marriott. Other seminars are planned for December 5-6 at the New Orleans Hyatt and December 15-16 at the San Diego Marriott.

The seminars are free to NACDA members.

For those attending the New Orleans seminar, free admission will be provided to the Athletic Business Conference December 7-8 at the New Orleans Hyatt.

The Market

CALIFORNIA STATE UNIVERSITY San Bernardino Director of Athletics

California State University, San Bernardino, invites nominations and applications for the position of Director of Athletics. The Director reports to the Executive Dean for University Relations and is responsible for providing leadership and management of a combined intercollegiate program for men and women. The University is a Division III member of the NCAA; sports include baseball, basketball, cross country, golf, soccer, tennis and volleyball. While the athletics program is in its fifth year of development, the University has already had two of its teams compete in national finals. The University is committed to the development of a vital and spirited athletics program. With a student body of approximately 10,000, the University is one of the most rapidly growing institutions in California.

Candidates must have appropriate administrative experience in collegiate athletics administration, commitment to the academic achievement of student-athletes, commitment to both men's and women's sports programs, and an ability to work in ethnically diverse southern California. They should possess strong leadership and promotional skills and the capacity to build effective community athletics support groups. A bachelor's degree is required; a master's degree is preferred.

Salary commensurate with qualifications and experience. Position available April 1, 1989, start date negotiable.

Send letters of nomination and application (with resume, references, and three letters of recommendation) to:

Dr. Judith Rymer, Chair
Athletic Director Search Committee
c/o Office of Academic Personnel
California State University, San Bernardino
5500 University Parkway
San Bernardino, California 92407
Tel: 714/887-7510

To ensure consideration, applications must be received no later than November 15, 1988.

An Equal Opportunity and Affirmative Action Employer

Open Dates

Women's Basketball. Division II or NIAA team needed to participate in a tournament January 6-7, 1989, at the University of Alabama in Huntsville. Contact: Leila Nabors or Hiawatha Brown at 205/895-6144.

DIRECTOR OF ATHLETICS (Search Re-Opened)

West Chester University invites applicants for the position of Director of Athletics. The Director is responsible for providing leadership and management of an intercollegiate athletic program consisting of (20) Division II and (2) Division I sports programs. Specifically, the Director will be responsible for: overseeing the administration and development of all intercollegiate athletic programs; managing departmental budgets; supervising athletic personnel; coordinating the use of athletic facilities; coordinating fund-raising efforts; representing the University to internal and external constituencies; enforcement of conference and NCAA regulations; promoting and marketing the athletic program; fostering academic excellence; working with booster, alumni and other support organizations; and fostering equity and ethnic diversification within the athletic program.

Candidates for the position must possess an earned Master's Degree and demonstrate:

- Experience in management and supervision including policy and budget development and implementation;
- Coaching experience;
- Commitment to athletic achievement;
- Effective oral and written communication skills;
- Commitment to academic achievement and progress;
- High ethical standards;
- Sensitivity to equity and ethnic diversity.

This is a tenure-track faculty position and the selected candidate must meet the criteria for faculty appointment. The position is available as early as January, 1989, but not later than the Summer, 1989.

Located in scenic Chester County, Pennsylvania, West Chester University was founded in 1871 and currently provides a quality, comprehensive educational program to 11,000 students of which 1,600 are at the graduate level. The University currently employs more than eleven hundred faculty and staff.

Qualified applicants should send a letter of interest, resume and names and phone numbers of three individuals familiar with your professional work, postmarked by **November 11, 1988** to: **Personnel Office, Director of Athletics, WEST CHESTER UNIVERSITY, West Chester, PA 19383.** AA/EOE. Women and minorities are encouraged to apply.

West Chester University

DIRECTOR OF ATHLETICS and CHAIRPERSON, PHYSICAL EDUCATION and RECREATION

Grand Valley State University invites nominations and applications for the combined position of Director of Athletics and Chairperson, Physical Education and Recreation. The Director/Chair is responsible for the following:

- Intercollegiate Athletics—oversight of 15 sports at the NCAA Division II level with membership in the Great Lakes Intercollegiate Athletics Conference.
- Physical Education and Recreation degree programs including physical education, therapeutic recreation and athletic training.
- Intramural athletics and campus recreation.

The Director/Chair reports to the Vice President for Finance and Administration and to the Dean of the Science and Mathematics Division. Candidates will possess at least a master's degree in an appropriate field, with a doctorate preferred, and significant college-level experience in the administration of physical education and athletic programs.

Grand Valley State is a growing public university with 9,200 students located in Western Michigan near Grand Rapids.

The applicant review process will begin on December 1, 1988. The position is available in the Spring 1989. Interested applicants should send a letter of application, resume, and a list of references to:

Athletic Director/Chair
Physical Education and Recreation Search Committee
Room 16 Zumberge Library
Grand Valley State University
Allendale, MI 49401

Affirmative Action/Equal Opportunity Employer

Mosher joins Big Ten office staff

Betsy J. Mosher has resigned from the NCAA staff to join the Big Ten Conference as an administrative assistant to John Dewey, associate commissioner.

In her new position, which is effective November 7, Mosher will handle legislative interpretations, rules education on the campuses of Big Ten members and inquiries on eligibility for the conference.

Mosher has served as an NCAA compliance representative since September 1986.

She earned an undergraduate degree from Illinois State University and received a master's degree in physical education from the University of Northern Colorado. She also earned a director's degree in physical education, with emphasis on sports administration, from Indiana University, Bloomington.

Betsy J. Mosher

Prior to joining the national office staff, Mosher taught physical education in elementary and secondary schools in Illinois. She also coached basketball at the University of Wisconsin, Whitewater, and basketball and softball at California University of Pennsylvania.

NBC lists basketball TV schedule

NBC Sports' 1988-89 college basketball schedule will feature appearances by all of last year's Final Four teams, the country's top independents, and teams from the Atlantic Coast Conference and Pacific-10 Conference.

Leading off the 19-game schedule is a contest between defending Division I men's champion Kansas and the Temple Owls at the Convention Center in Atlantic City December 10.

Oklahoma, a 1988 Final Four squad, will be in action January 7 as part of a split national telecast against North Carolina-Charlotte. Some sections of the country will see DePaul at Louisville.

Another early season highlight will be when UCLA, under new coach Jim Harrick, takes on Notre Dame at Pauley Pavilion January 14.

ACC play will get under way when North Carolina hosts North Carolina State January 21.

Beginning January 28 and continuing through March 5, NBC will carry six straight weeks of Saturday-Sunday double-headers. Included are a February 5 meeting between Duke, another of last year's Final Four, and Notre Dame; a February 18 date for St. John's (New York) to take on DePaul, and a February 19 game with North Carolina at Maryland.

The complete 1988-89 college basketball schedule follows (all local times):

December 10, 3:30 p.m., Temple vs. Kansas; January 7, 2 p.m., DePaul at Louisville and UNCC at Oklahoma; January 14, 11:30 a.m., Notre Dame at UCLA; January 15, 1 p.m., Louisville at Georgia Tech; January 21, 4 p.m., North Carolina State at North Carolina; January 28, 4 p.m., Oklahoma at Nevada-Las Vegas.

January 29, 4 p.m., Temple at Notre Dame; February 4, 3 p.m., North Carolina State at DePaul; February 5, 4 p.m., Duke at Notre Dame; February 11, 3 p.m., Florida at Kentucky; February 12, 1 p.m., UNLV at North Carolina State; February 18, 1:30 p.m., St. John's (New York) at DePaul; February 19, 1 p.m., North Carolina at Maryland.

February 25, 2:30 p.m., Notre Dame at Georgia Tech; February 26, 11 a.m., Duke vs. Arizona; March 4, 11:30 a.m., Arizona at UCLA; March 5, 1 p.m., Duke at North Carolina; March 11, 1:30 p.m., Notre Dame at DePaul; March 12, 1 p.m., ACC championship game.

Steroid-ring figure placed on probation

Former University of Miami (Florida) assistant coach Patrick Jacobs was placed on three years' probation for his part in a multimillion-dollar steroid smuggling ring directed by a former British Olympian.

In San Diego, U.S. District Judge J. Lawrence Irving also ordered Jacobs, 32, who had pleaded guilty to conspiring to introduce steroids into interstate commerce, to perform 200 hours of volunteer community work as a condition of probation, the Associated Press reported.

Though denying that he sold the body-building drug for profit, Jacobs admitted that he had provided it to other people for personal use.

Jacobs, who told Irving he did not give any steroids to athletes while he was an assistant strength coach at Miami, was among 34 men indicted last year.

Former British track star David Jenkins, who anchored Great Britain's silver medal 400-meter relay team in the 1972 Olympics, has admitted masterminding the international venture.

Jenkins, 36, pleaded guilty in November 1987 to conspiring to

defraud the U.S. government by circumventing custom laws, possessing mislabeled steroids for sale, introducing mislabeled steroids into interstate commerce and receiving anabolic steroids subject to seizure by authorities.

Jenkins is free on \$330,000 bond.

Questions/Answers

Readers are invited to submit questions to this column. Please direct any inquiries to *The NCAA News* at the NCAA national office.

Q What were the national attendance figures for college football and college basketball, including all four-year college teams?

A College football attendance in 1987 was 36,462,671, with Division I-A accounting for 25,471,744. College basketball attendance for the 1987-88 season was a record 32,504,024, of which Division I accounted for 22,463,476.
