Change in automatic-qualification procedure recommended

The NCAA Division I Men's Basketball Committee is recommending two policy changes to the NCAA Division I Championships Committee that will affect the administration of the Division I Men's Basketball Championship, Cedric W. Dempsey, committee chair and director of athletics at the University of Arizona, has announced.

Beginning with the 1991 tournament, the committee would select the 30 conferences that will receive automatic qualification for its 64-team bracket on the same weekend that it chooses the 34 at-large teams.

The committee also is seeking to eliminate the opportunity for an institution hosting tournament competition to play on its home court.

The Executive Committee previously adopted a similar recommendation that would have been implemented in 1991, but this action

able positions," said Dempsey. "The NCAA Executive Committee recently froze the tournament bracket to 64 teams, which includes 30 auto-

the best method to deal with this situation."

Several suggestions were advanced by the membership for committee consideration, and one that received considerable review was the establishment of a play-off that would require the lowest-rated conferences to compete for the last automatic-qualification spots in the bracket.

"We examined the play-off possibility from every angle," said Dempsey. "But we rejected it because we were committed to limiting the tournament bracket to 64 teams. A play-off would have implied that the committee had expanded the bracket."

Automatic-qualifying conferences

would undergo the same scrutiny that individual teams now receive by the committee when it meets each March to select the 34 at-large teams.

Traditionally, automatic qualification has been awarded a year in advance of the tournament; but beginning in 1991, the committee will make those awards based solely on current basketball criteria from that year prior to selecting the at-large teams.

The championships committee will consider the recommendations when it meets in Kansas City December 3. The full Executive Committee will receive recommendations from the subcommittee December 4.

"(In 1991), the basketball committee would select the 30 conferences whose teams qualify automatically for the 64-team field on the same weekend that it chooses the 34 at-large teams."

would advance the effective date to the 1989 championship.

"In 1991, we will have more conferences eligible to receive automatic qualification than we will have avail-

matic qualifiers and 34 at-large selections, until 1998. There will be 31 conferences eligible for the 30 automatic spots in 1991 and 32 in 1992. The committee had to determine

Council seeks more effective student-athlete representation

The NCAA Council's proposal to establish a 16-member student-athlete advisory committee is regarded as only the first step toward providing more effective representation of student-athletes' views on Association issues and legislation.

Eventually, the Association may consider joining with member conferences to sponsor regional meetings where members of the advisory committee can obtain opinions from their peers, said NCAA President Wilford S. Bailey.

Delegates to the 1989 Convention in San Francisco will consider legislation sponsored by the Council to establish the advisory committee. If adopted, student-athletes from all geographical regions and all three membership divisions would be nominated by the membership and appointed by the Council to serve two-year terms on the panel.

"The Council's proposal is based on a desire to have more effective input from student-athletes about NCAA activities and legislation," Bailey said. "The fundamental issue is the student-athletes' welfare—physical and educational."

The Convention proposal calls for five positions on the committee to be designated for male student-athletes and five for women student-athletes, with the remaining positions unallocated. At least one member from each of four geographical regions would represent each of the membership divisions.

The committee, which would meet at least twice a year, would be

Wilford S. Bailey

asked to provide its views on athletics issues and its reactions to proposed legislation.

Bailey traced the proposal's roots to NCAA Executive Director Richard D. Schultz' "State of the Association" address at the 1988 Convention, in which Schultz called for a "concerted effort" to include student-athletes on more committees.

Need to know concerns

Schultz told the delegates, "We need to know what (student-athletes are) thinking. We need to know what their concerns are. So many times, we make the mistake of trying to solve the problems for all the student-athletes, and we really don't

know what their concerns are.

"We need to involve them more in our planning and in our practices," he continued.

A growing concern in the Association for the welfare of student-athletes also is behind the proposal, Bailey said. Establishment of the advisory committee is appropriate in light of the new statement of principles for the conduct of intercollegiate athletics that was adopted at the 1988 Convention for inclusion in the revised Manual, he said.

Among those principles is one that states that "intercollegiate athletics programs shall be conducted in a manner designed to protect and enhance the physical and educational welfare of student-athletes."

Three NCAA committees—the Committee on Competitive Safeguards and Medical Aspects of Sports, the Recruiting Committee, and the Committee on Women's Athletics—each have a student-athlete as a member. Likewise, Bailey noted, the defunct Long Range Planning Committee had student-athlete members.

However, service on those committees has offered limited opportunities for the expression of student-athletes' views, Bailey believes.

"A number of NCAA committees have had student representation over the years... and it's my impression that in many instances and perhaps in most... the general feeling has been that's not an effective

WAC compliance seminars

Among those attending a Western Athletic Conference seminar on rules compliance in Denver were Jim Bowman, left, director of recruiting at the U.S. Air Force Academy, and Col. R. A. Cubero, the academy's faculty athletics representative. The WAC held five such seminars in various sections of the conference area so that more institutional representatives could be reached. See story on page 12.

I-A athletics directors back Commission financial aid plan

The Division I-A Directors Association has endorsed (75 percent approval) a Presidents Commission proposal to limit grants-in-aid to tuition, fees and books, with additional aid to be based upon need, in all sports other than football, men's and women's basketball, and two women's sports to be determined.

Each NCAA division could determine its own financial aid packages.

The NCAA Council at its October meeting asked for further study of the proposal.

The proposal received support at the directors' third annual fall meeting October 17-19 in Kansas City, Missouri. The proposal was presented by Peter Likins, president of Lehigh University and a member of the Commission.

Michael B. McGee, chair of the athletics directors' financial aid committee and athletics director at the University of Southern California, said, "We support the Presidents Commission notion that this action will forestall the trend toward dropping sponsorship of Olympic sports

from college athletics departments."

Likins said, "The overwhelming vote of the Division I-A athletics directors provides very gratifying evidence of solidarity on this issue with the NCAA Presidents Commission and the NCAA Committee on Financial Aid and Amateurism. The opportunity for a closer partnership among the diverse elements of the NCAA is greatly enhanced by these legislative proposals."

12th football game

The athletics directors took action on three other issues, including the

permissible addition of a 12th football game, sponsorship of legislation to allow schools to provide financial aid to former student-athletes and a study of ways to help school with losing football programs.

The majority of directors voted to add a permissible 12th football game within the current playing season. A proposal for this addition will be presented to the NCAA Convention next January in San Francisco.

"We already have 14 playing weeks during the football season,"

claimed J. Frank Broyles, chair of the Division I-A Directors Association and athletics director at the University of Arkansas, Fayetteville.

"So we don't need to extend the season. Every school has open dates that could accommodate one more game."

Support for nonrevenue sports

The rationale, according to Broyles, is that the increased revenue would support many of the nonrevenue and Olympic sports currently operating at a deficit within college

Evaluators of National Youth Sports Program projects were among those attending a recent NYSP Committee meeting in Kansas City, Missouri. Participating in the meeting were project evaluators, from left, Jerry W. Shelton of Floyd Junior College in

Rome, Georgia; Ernest H. Scott, a high school educator affiliated with the NYSP project at the University of Detroit, and Willie G. Shaw of North Carolina Central University.

Cheryl McElroy photo

Majority of NYSP programs termed 'flawless'

A review of project evaluations highlighted the National Youth Sports Program Committee meeting October 14-17 in Kansas City, Missouri.

Committee members and evaluators reviewed evaluations of all 138 projects sponsored during 1988, the 20th year of the program. Projects

must meet Federal guidelines that encompass 87 categories.

"We were very pleased that 61 percent of the projects were virtually flawless," Donald W. Morefield, chair of the committee, said. "We also had nine new projects that all did a real nice job."

Each year, projects are recognized

for their quality or improvements. This year's most improved projects are at Chicago State University; University of Nevada, Las Vegas, and University of New Mexico.

Those cited as special are Alabama State University, University of Arizona, Jackson State University, Marian College, New Mexico Highlands University, Pan American University, Community College of Rhode Island, St. Ambrose University, University of Scranton, Texas Southern University and Valencia Community College.

The outstanding programs are Grambling State University; Mississippi Valley State University; St. Louis Community College, Forest Park; Temple University, and University of Wisconsin, Eau Claire.

The committee also approved the addition of Whitworth College in Spokane, Washington, as a project for 1989. The committee will review more applications at its January

1989 meeting; schools interested in applying may contact the NCAA national office for information.

In other actions, the committee approved 27 regional workshops for the coming year. The workshops will bring together auxiliary staff members, project administrators and committee members to discuss elements of the program and staff concerns.

In the past, only project administrators attended a national workshop. Last year, five regional workshops were held as a pilot program and were judged to be successful.

"The more you put people together who have similar goals and have them share their concerns certainly is going to improve the program," Morefield said.

The committee also approved making NYSP's technical assistance program available to any project desiring help. This program involves on-site visits by committee members and national office staff representatives. It originally was designed as a service to new projects.

The committee began to discuss strategies for use of additional Federal funds that are pending. If the funds are approved, the group will have a special session to determine their use.

"I think NYSP has such broad-based financial support," Morefield said. "This type of cooperative venture is a role model. It is delightful to see various factors working together to serve the needs of disadvantaged youngsters."

Drug-testing changes listed in brochure

The 1988-89 NCAA Drug-Testing Program brochure has been mailed to member institutions.

Administrators and trainers should note several changes made in drug-testing policy by the NCAA Executive Committee.

Included in the new brochure are guidelines for voluntary off-season steroid testing in accordance with legislation approved at the 1988 Convention. Member institutions may participate in the program for the sport of football.

Also included is an updated catalog of banned-drug classes as listed in Executive Regulation 1-7(b), and changes in protocol and other details of the Association's drug-testing program.

Questions about the NCAA program should be directed to Frank D. Uryasz, director of sports sciences, at the national office.

Legislative Assistance

1988 Column No. 37

NCAA Bylaw 3-2-(f)—informal basketball scrimmages

NCAA member institutions are reminded that in the sport of basketball in Divisions I and II, informal practice scrimmages with outside competition may be permitted prior to the last Friday in November, provided they are conducted in privacy without publicity or official scoring, and provided further that such scrimmages shall be counted against the permissible number of contests. In Division III, a maximum of two such informal practice scrimmages may be conducted between October 15 and the conclusion of the basketball season, and the scrimmages shall not be counted against the permissible number of contests.

NCAA Bylaw 1-4—recruiting publicity

NCAA member institutions are reminded that November 9 through November 16, 1988, is the early signing period in the sport of basketball for those institutions that subscribe to the National Letter of Intent Program. Accordingly, the provisions of Bylaw 1-4(b) require that publicity released by an institution about the commitment of a prospective student-athlete to attend the institution shall be limited to announcing the prospective student-athlete's signed acceptance of the institution's written offer of admission.

The release of communications regarding the prospect's signing of the National Letter of Intent shall be limited to the media outlets normally used by the institution and the media outlets normally used by the educational institutions currently and formerly attended by the prospective student-athlete. The NCAA Council has agreed that the contents of a properly issued press release would be determined at the discretion of the involved member institution and could include comments by the institution's coaching staff members about the abilities of the prospect.

The Council also has concluded that prior to the actual signing of a prospect to the National Letter of Intent, a member institution may comment publicly only to the extent of confirming its recruitment of the prospect. An institution may not comment generally in regard to the prospect's ability or the contribution that individual might make to the institution's team. Further, the institution would be precluded from commenting in any manner as to the likelihood of the prospect's signing with that institution.

Finally, member institutions are reminded that the provisions of Bylaw 1-4(b)(2) would preclude press conferences, receptions, dinners or similar meetings for the purpose of making an announcement of the prospect's signing of the National Letter of Intent.

This material was provided by the NCAA legislative services department as an aid to member institutions. If an institution has a question it would like to have answered in this column, the question should be directed to William B. Hunt, assistant executive director for legislative services, at the NCAA national office.

I-A

Continued from page 1
athletics departments.

Broyles also indicated that an even number of contests would allow for easier and more flexible scheduling.

Another measure adopted by the group was proposed legislation that would allow institutions to provide financial aid to former student-athletes who enrolled before 1986 (prior to the impact of "Proposition 48"). NCAA rules allow financial aid to be given within a six-year period to any student-athletes.

"We have a moral obligation to those former student-athletes who did not graduate and wish to come back and do so," emphasized Broyles. "We're in the education business. Helping people graduate is what we're all about."

Help for 'down' programs

The directors association also approved a special study by its Football Coaches Association Committee to find a way to help schools that have experienced significant consecutive losing seasons.

"Young and talented coaches do not want to accept jobs in losing environments because they feel there's little hope for improvement," Broyles said.

"We've got to find a way for the have-nots to become competitive within the NCAA legislative framework; otherwise, the poor will keep getting poorer."

The association directed its television committee to continue efforts toward developing a program for the marketing and promotion of college football.

There were 94 athletics directors present at the meeting of the association, which is administered by the National Association of Collegiate Directors of Athletics.

Omaha wants 25,000 seats at Rosenblatt

The stadium where the NCAA's College World Series is staged annually may have its seating increased to 25,000 by the year 2000.

Rosenblatt Stadium in Omaha, Nebraska, currently seats 17,300, including 2,300-seat addition that was completed this year. The city's public events manager, Terry Forsberg, told the Omaha World-Herald that the master plan for the stadium calls for an increase in seating.

"There is a sketch, a master plan, to increase seating to about 25,000," he told the newspaper. "My honest opinion is that it will have to happen by the year 2000 if we're going to continue to host the College World Series."

Approximately \$3.5 million was spent on recent improvements, including the new seating, a ground-level stadium club, offices, concession stands, landscaping and paved parking. Forsberg said future improvements may include building a "stadium view club" on the first base side during the early 1990s.

Questions/Answers

Readers are invited to submit questions to this column. Please direct any inquiries to The NCAA News at the NCAA national office.

Q To what extent has the NCAA staff grown over the last 10 years?

A In 1978-79, there were 40 staff members in five departments. Ten years later, 164 staff members (including interns) make up eight departments.

Council

Continued from page 1

way to get the student-athlete input that we would like," he said.

In August, the Council discussed alternatives for increasing the involvement of student-athletes in NCAA deliberations. Among the ideas discussed were the sponsorship of regional hearings where student-athletes could voice their concerns and the establishment of a standing advisory committee.

"After careful consideration," Bailey said, the Council endorsed the establishment of an advisory committee.

Initial step

At its October meeting, the Council decided to propose a 16-member panel similar to other NCAA standing committees, rather than establishing a 44-member group that would be modeled after the Council or Presidents Commission and provide for representation of specific conferences.

"That was the majority view, although not unanimous; it was expressed that it's better to crawl forward than to walk or run," Bailey said.

He added, however, that the Council regards its proposal as an "initial, formal effort" to address the need for more participation in NCAA activities by student-athletes.

"We're not talking about getting the views of just these 16 students," he said.

Although they probably will not be included in the Council's proposal at San Francisco, regional meetings involving student-athletes could be organized "informally" after the advisory committee is formed, Bailey said.

"It's entirely feasible for several conferences in a given region to do this, and to have the student-athletes who represent that region (on the committee) attend those meetings."

The result would be creation of a network through which student-athletes can express their views on issues and legislation. "I feel quite strongly that it's desirable and highly possible to form an informal, and later a formal, network," Bailey said.

In the meantime, student-athletes on the advisory committee probably would be asked to provide their own views on such specific issues as drug education and testing, financial aid, and freshman eligibility.

Bailey said "feedback" on drug education and testing "will be of interest to the Association as it tries to make its program more effective in meeting its objectives." Likewise, "the student-athlete perspective on (freshman eligibility) will be helpful in defining" the extent to which freshmen should be eligible for ineligible for participation in intercollegiate athletics, he said.

Louis A. Onofrio

Onofrio earned a law degree from the University of Missouri, Columbia, where his father, Al, served as head football coach. After leaving the national office staff, Onofrio became assistant athletics director at Boise State University.

His responsibilities with the school included budget administration, eligibility certification, game management and administration of the university's drug-testing program.

He left Boise State to return to the NCAA.

Ruling foreseen to permit pros in Olympic basketball

The International Basketball Federation probably will vote to allow United States professional basketball players to compete in the 1992 Barcelona Olympics, FIBA Secretary General Borislav Stankovic of Yugoslavia said October 21.

"I am quite sure the (FIBA) congress will vote in (April in) favor of the change," Stankovic said at a joint press conference with NBA Commissioner David Stern before the start of an exhibition game between the Boston Celtics and the Yugoslav national team.

Stern said he would encourage NBA players to compete in the games if FIBA, which governs international basketball, votes to drop current restrictions against professionals.

Stern said he considered the Olympics "a once-in-a-lifetime opportunity" for a player to represent his country.

Association schedules panel forum on career counseling of athletes

University of Pittsburgh football coach Mike Gottfried and Michael Jordan of the NBA Chicago Bulls, a former student-athlete at the University of North Carolina, Chapel Hill, are among the speakers scheduled to address a career counseling panel forum being organized by the

Association's legislative services department.

The forum is scheduled for December 5 at the Hyatt Regency O'Hare in Chicago, where group room rates have been secured for those attending the forum.

"Our objective is to provide a

forum for individuals serving on career counseling panels that have been established at member institutions to discuss and share information on successes and failures they have experienced," said Richard C. Perko, NCAA legislative assistant. "We are encouraging attendance by representatives from member institutions that have not yet formed career counseling panels for student-athletes so they can gain insight into forming panels on their campuses."

Perko said institutional chief executive officers and conference officials also are being encouraged to attend. Other individuals interested in attending the forum should contact the legislative services department.

Perko said issues to be covered during the session will include the relationship between student-athletes and player agents, the effects of state legislation to regulate agent activities, the mechanics of initiating and maintaining on-campus career counseling panels, utilization of the panels by student-athletes, and the concept of requiring Division I members to set up such panels.

Joining Gottfried and Jordan as speakers at the forum will be Charles Grantham, executive director of the National Basketball Players Association; Peter J. Liacouras, president of Temple University; George Gangwere, long-time NCAA chief legal counsel; Charles Ehrhardt, faculty athletics representative at Florida State University, and Ed King, a San Francisco-based sports attorney who has represented athletes in litigation against agents.

Those interested in attending the forum may register by using the form that appears on this page of The NCAA News. Those making hotel reservations must contact Debbie Krivjansky at the NCAA (913/384-3220) by November 13. Travel and hotel accommodations are the responsibility of those attending.

An informal gathering for those attending the forum will be held Sunday evening, December 4, at the Hyatt. Perko noted that full agendas and other written materials will be distributed at the forum.

For additional information on the forum, contact Perko or Richard J. Evrard, director of legislative services, at the national office.

Proposed Marshall stadium draws fire from lawmakers

A proposed \$30 million football stadium for Marshall University has come under attack by West Virginia lawmakers, several saying that academics should take priority over athletics.

Lawmakers vented their frustrations during meetings with the board of regents on the state's fiscal problems.

Sen. Bill Sharpe, D-Lewis, said the proposal should be stopped, even if it meant taking the issue to the state Supreme Court.

Other lawmakers were not as direct but questioned the wisdom of refinancing the regents' \$125 million worth of bonds to obtain an additional \$50 million for the stadium and nine other projects, according to United Press International.

Gov. Arch Moore promoted the bond-refinancing proposal recently and asked the regents to adopt his suggestion. The regents have endorsed the plan but have not taken steps to refinance the bonds.

"What concerns me," said Sen.

Keith Burdette, D-Wood, "is that we are near the end of our rope building a football stadium and won't have money for academic buildings."

Jim Schneider, the regents' financial director, responded by saying the problem is not building new facilities but having the money to maintain them.

In attacking the proposal, Sharpe said he enjoyed athletics but could not understand why the state would want to increase its debt at a time higher education needs more support for salaries and programs.

"I'm as athletics-minded as anyone else in the country, but when you look at the bond indebtedness of the board of regents at this time...I don't think the board should take on this program at this time," Sharpe said.

Cabell County Delegate Rick Houvouras took exception to Sharpe's proposal. He said Marshall's football team "can bring 30,000 people in."

Championships position goes to DiEdwardo

Daniel B. "Tucker" DiEdwardo has been named director of championships at the national office. He fills an opening created by the promotion of Patricia E. Bork to assistant executive director for championships.

DiEdwardo joined the national office staff as assistant director of championships in May 1982. Last month, he was promoted to associate director of championships.

A 1970 graduate of Southern Connecticut State University, where he participated in swimming and tennis, DiEdwardo was a member of the NCAA Men's Swimming Committee from 1979 to 1981. At

Daniel B. DiEdwardo

that time, he was aquatics director, swimming coach and assistant professor at Youngstown State University.

When he was named to the NCAA staff, DiEdwardo was serving as assistant athletics director at Youngstown State.

Lou Onofrio rejoins staff

Louis A. Onofrio has rejoined the NCAA staff as a legislative assistant. He previously served as an enforcement representative from 1979 to 1982.

Onofrio earned his undergraduate degree from the University of Utah, where he played football for four years and earned two letters at quarterback. A magna cum laude graduate, he was selected Phi Beta Kappa and was named to the Western Athletic Conference all-academic team as a senior.

Earle gets new position in publishing

Michael V. Earle has been named director of publishing at the national office. He has been a member of the publishing department staff since August 1982.

A University of Kansas graduate, Earle was assistant publications editor for Cramer Products, Inc., a manufacturer of athletics training

Michael V. Earle

supplies and equipment, before joining the national office staff.

He was named publications editor at the NCAA in 1982 and was promoted to assistant director of publishing in October 1986. Earle fills the vacancy created when Wallace I. Renfro was named assistant executive director for publishing.

NCAA CAREER COUNSELING PANEL FORUM

Registration Form
(Please Print)

NOTE: One registration form should be completed for each individual who will attend. To preregister, this form must be received in the national office one week in advance of the forum.

Comment

Endowment income seen as solution to rising costs

By Jim Perry

There's a crisis in college athletics that doesn't make banner headlines. The problem is money. There's not enough of it.

Athletics department costs continue to outrace inflation, and it's becoming harder and harder to generate enough income to keep paying the bills. In addition, television appearance fees for football have fallen dramatically. What's the answer?

Athletics director Michael B. McGee of the University of Southern California thinks he and his staff have found the answer: Increase your endowment income.

"I think endowment income is

going to become increasingly significant as a way to cope with financial pressures," McGee says. "In the future, the size of an athletics department's endowment will be one indication of the strength of its program.

"It's certainly critical for us, because our costs have far outstripped inflation. Our major expenses—scholarships, travel, insurance, equipment—all have skyrocketed.

"Scholarship costs, for example, have increased 47 percent since 1983-84. Our total bill this year for men's and women's scholarships is \$4 million."

Being a private university, Southern California is particularly hard hit by the rise in tuition costs. But

McGee realizes that all schools are struggling.

"This is not just a private-school dilemma," he says. "We're all faced with costs that shoot up faster than inflation. It's just very difficult to

our major thrust the last 2½ years."

The endowment income is protected from inflation. The interest is taken out each year, and 5¼ percent of it is budgeted for scholarships. The rest is plowed back into the

"Endowment income will insure a steady flow of money, and it also will keep pace with inflation. It can be the long-term financial solution for all of us."

Michael B. McGee, athletics director
University of Southern California

balance your budget these days, and you have to look at new ways to generate revenue.

"Endowment income will ensure a steady flow of money, and it also will keep pace with inflation. It can be the long-term financial solution for all of us."

When McGee was hired in 1984, Southern California had \$4.1 million in its endowment pool. Now, that amount has jumped to \$16.8 million in cash and pledges, with \$11.7 million already in the bank.

"When I first became athletics director, we needed to take control of our annual budget," McGee says, "and so our first focus was on increasing annual giving. After we started to make progress (Southern California has balanced its last two budgets), we started working on the endowment program. That's been

principal, so the principal continues to grow along with inflation.

So far, Southern California has raised \$6.5 million of its endowment total in an innovative program of

Michael B. McGee

endowing the starting positions on the football team (The NCAA News, March 4, 1987). Of 25 posi-

tions (including 22 starters, a punter, a placekicker and a special-teams player), money has either been given or pledged for 23. Each position is endowed for \$250,000.

"Don Winston, our associate athletics director for development, has done a terrific job in pursuing the football team's endowment program," McGee says. "It was his idea."

In addition, another \$1.5 million was pledged last June to endow the head-coaching position for football. The gift was given to the university by Dr. and Mr. Charles Elerding. Elerding, a retired dermatologist, earned a bachelor's degree (1952) and an M.D. (1956) from Southern California. He and his wife also have endowed the punter position.

The head football coach's endowment is equivalent to an endowed academic chair at the university and is the first of its kind in the Pacific-10 Conference.

Including the money raised for endowment, Southern California has had the two most successful athletics fund-raising years in its history in 1986-87 and 1987-88, raising \$5.8 million and \$7.2 million in cash gifts.

"We have committed a lot of time and effort to the endowment program," McGee says, "but, believe me, it's worth it."

Perry is a former sports information director at Southern Cal.

Accreditation process should include athletics

By George W. Schubert

The Presidents Commission is a competent group of individuals who have organized to perform the task of changing and improving the conditions associated with varsity athletics on college and university campuses.

As we all know, it is easy to establish goals, such as: losing weight, stopping smoking, discontinuing procrastination, etc. The difficulty is doing what is necessary to accomplish the particular goal(s).

As much as I applaud the college and university presidents who make up the Presidents Commission, I do not find that their accomplishments, in quantity nor quality, account for the time and dollars which have been attributed to their effort.

In my opinion, it is time for the Presidents Commission to reorganize, to rethink and perhaps to re-focus.

The presidents need to maximize their effort on a few issues, then focus sharply on these issues and help lead the NCAA and academic institutions to a prominent and respectful position in amateur athletics.

One focus point and one suggestion I would like to make to the Presidents Commission is that the Commission bring pressure on aca-

demic accrediting associations to apply "academic-athletics" criteria when evaluating institutions for accreditation and reaccreditation.

The "academic-athletics" criteria that should be used are those related academic items that affect the conscience and integrity of the academic institution.

Some of these criteria include graduation rates of student-athletes, grade-point average of student-athletes, the application of institutional entrance requirements as applied to student-athletes, a separate academic evaluation (quality and quantity) of student-athletes who leave the institution before graduation, and quality of courses taken by student-athletes.

The "academic-athletics" criteria that are used to create an academic picture of the institution's student-athletes should be available by sport and as a total program.

This information, along with being part of an accreditation report, should be made available to anyone who seeks the information.

Ideally, over time, this information would become standardized and would be an important and expected segment of university and college published materials.

Schubert is faculty athletics representative at the University of North Dakota.

Coaches rebut idea to cut grants to partial qualifiers

The Southeastern Conference can expect no help from Tom Osborne or Barry Switzer at next January's NCAA Convention.

The SEC has said it will try to make it illegal to give grants-in-aid to high school graduates who do not meet fully the minimum freshman academic requirements under "Proposition 48."

Currently, partial qualifiers can get scholarships but have to sit out their freshman year without playing or practicing.

"I think it would probably help us from a selfish standpoint," Nebraska's Osborne told the Associated Press.

"We've only had a total of two 'Proposition 48' players in three years. There are certain areas of the country where there is a larger percentage of 'Proposition 48' people than at Nebraska and the central

United States.

"Some schools are benefiting more from the present rule. But I really believe the fundamental part of athletics is to give young people an opportunity. I would be very much opposed to doing away with the 'Proposition 48' loophole for somebody who just doesn't happen to test well. I think we're damaging these kids if we don't give them a chance."

"I think it's a terrible idea," Oklahoma's Switzer said. Why should a kid who makes 14 on a test not be allowed to come to Division I-A? It doesn't make sense. When I look back at the history of our squad, the kids we've graduated before 'Proposition 48' came about, and the kids who got their degrees and are now successful... No, I wouldn't support that at all."

In-season steroid testing needed

Drew Metcalf, varsity football player
Arizona State University

NCAA College Football Media Kit

"We have become so pressured with exceeding others that we have completely lost our perspective on life and on how lucky we are to have the bodies God blessed us with. Using steroids to improve performance is cheating.

"The NCAA should 'get real' and start in-season testing on a regular basis.

"I have an advantage over the 'needle freaks' I play against. Deep down, I think these guys feel inferior to those who can play with a clean system... Success is irrelevant to the heart, desire and pure toughness it takes to play the game. In short, I prefer to make muscle the old-fashioned way—I earn it."

Ralph Miller, head men's basketball coach
Oregon State University

The Sporting News 'College Basketball' publication

"If you want to take away roughness inside, raise the baskets. It would open the game up. It would make quickness and agility more important.

If somebody could dunk through a 12-foot hoop, I'd appreciate that. Just because the bottom rung of the running track (in Springfield, Massachusetts, where James Naismith set up his first basket) happened to be 10 feet off the ground doesn't mean this should still be the height of the basket 90 years later."

James Garrick, M.D., sports-medicine specialist
San Francisco

The New York Times

"I can't think of a better advertisement for anabolic steroids than the Ben Johnson thing.

"This opens a whole new facet of steroid use. In one week, you have taken steroids out of the realm of football linemen and made them potentially desirable to a wide receiver and quarterback. That is just so frightening."

James H. Wharton, chancellor
Louisiana State University

CFA Sidelines

"Football has a tremendous unifying effect on the students, faculty and alumni. It brings everybody together. What we are talking about is plain old school spirit.

"We have 200-plus students playing football; and one of the benefits has to be that when football ends,

the rest of their lives are enriched and more valuable because of football and their education."

Blackie Sherrod, columnist

The Dallas Morning News

"...steroids are a frightening part of the jock scene, not just something that popped out of the Seoul Olympics with the Ben Johnson ouster. Some of us codgers have been raging against steroids for years,

Opinions

mainly because we prefer to see sports played between humans and not some chemically produced automatons who walk about in arrogant, invincible swaggers and whose liver will turn to garbage at age 40.

"On the other hand, if your opponent is bulked up, what chance do you have against him?

"One NFL player—honestly, I've forgotten who—had this argument: 'My father worked in the coal mines to support his family. He knew about black lung. He knew he'd probably die of it some day, but he was trying to provide for his family. What's the difference in that and my taking steroids to keep my football job?'

"That's oversimplification, of course, but some would consider it a fair question."

Gottfried sees a need to relax NCAA redshirt rule

Pittsburgh head football coach Mike Gottfried thinks that if the NCAA would relax its redshirting rules and also allow schools to buy medical insurance for its top players, the defection of underclassmen to the National Football League would be curtailed.

These measures, said Gottfried, a frequent critic of player agents, would encourage players to remain in school and not turn professional prematurely.

Because of injuries, many players waste whole seasons of eligibility despite taking part in a relatively small number of plays, the Panthers' coach told the Associated Press.

"The agents are always using that on kids... you could get hurt if you stay in school; you could do this;

Mike Gottfried

you could do that," Gottfried said. "I just think that right now, we've got such rigid rules that maybe you ought to take a look at what's best for players instead of what's best for everything else."

Despite the NFL's policy of not drafting players with college eligibility, former Pitt tailback Craig "Ironhead" Heyward and former Ohio State wide receiver Cris Carter are among those who prematurely left school and turned pro the past two years.

Heyward left Pittsburgh last January, after his junior season, and threatened to sue the NFL if he was barred from its April player draft. The New Orleans Saints made him a first-round pick after the NFL included him in its draft pool.

The NCAA permits athletes to play four seasons over a five-year period, with one redshirt year permitted. Players who participate past the third game of a season cannot

be redshirted even if they are injured later in the year.

Adam Walker, a junior running back, has missed Pitt's last two games with an Achilles' tendon injury, but can't be redshirted because he was injured on the second play of the Panthers' fourth game.

"Two plays are keeping him from a redshirt," Gottfried said. Walker earlier forfeited his freshman season because he didn't meet NCAA "Proposition 48" academic guidelines.

"When they talk about financing college athletics, they're always talking about volleyball, swimming, track, baseball, basketball... But the injury factor in football is greater than all of those sports," Gottfried said. "Football is different and should be looked at differently."

Gottfried suggested a college be permitted to pay medical insurance premiums for a certain number of players a season, perhaps 10.

"We should start looking at how many guys are out of school, and out of pro football, who were injured playing for the university... maybe because of a freakish injury," he said. "Maybe we should look at them and say, 'How can we help these players?'"

"If you had a player who was considered a pro prospect and he had any injuries before he graduated from school, he could benefit from insurance because he had played for and represented the university," Gottfried said. "A lot of kids just don't have the money to pay for their own insurance."

Only eight I-A players in 100 say pro career is top goal

Only about eight in 100 college football players at Division I-A institutions are playing the sport with the primary goal of playing professionally, according to a poll by the College Football Association of about 3,000 players at 41 institutions.

Nearly the entire group polled (91 percent) said a desire to gain an education and earn a college degree were the main reasons for attending college.

Of the respondents, 71 percent said they played the game for enjoyment. The necessity of a grant-in-aid for assistance in gaining a degree was the response of 16 percent. Only one percent said they wanted to coach after graduation.

According to statistics compiled

by the NCAA, there is only room for 2.6 percent of 51,087 college football players in the National Football League should every position be vacated.

Thus, it is obvious that the yearly percentage of college players who go on to professional careers is considerably smaller.

Players were asked to estimate the amount of money needed each month for living expenses not covered by financial aid. Seventy-seven percent said they needed more than \$75. Eighty-three percent of the respondents were on full grants, while two percent received partial aid. Less than one-half percent were on a tuition waiver, and 14 percent received no aid.

Concerning drug testing and drug

education, 95 percent said they felt adequately informed about the hazards of substance abuse. Eighty-two percent had, at one time or another, been included in a drug-testing program.

In other findings, more than one third (33.9 percent) were majoring in business administration, while the next most popular field was social sciences (14 percent). Physical education was listed by nine percent, followed by communications (eight percent), natural sciences (six percent), arts and humanities (six percent), engineering (5.5 percent), criminal justice (3.5 percent) and education (three percent).

The majority of the players were from small towns. Communities

with populations less than 100,000 were responsible for 56 percent of players surveyed. Just 14 percent were from large cities (100,000 to 500,000) while 11 percent grew up in suburbs adjacent to a large city. Another 10 percent came from a suburb adjoining a megalopolis (over 500,000), and nine percent were raised in a megalopolis. Further analysis of the players from areas of 100,000 or less indicates that 24 percent were from small cities with populations up to 50,000, 17 percent were reared in a medium-size city of 50,000 to 100,000 and 15 percent called a rural area home or were raised on a farm.

Four percent or 116 made a trip to the altar before graduating from

college. One percent (30) were married with children, which means that one of every four (25 percent) married players is a father.

Socioeconomic categories were divided into five brackets—highest, upper middle, middle, lower middle and lowest. Twelve percent of the football players indicated that they grew up in families of the highest level income, while 16 percent were from upper-middle-class backgrounds. The greatest proportion (39 percent) were from middle-income families, with lower middle next at 26 percent. Seven percent were raised in lowest-income-bracket families. Fifty-nine percent were white and 41 percent were nonwhite.

Broader drug testing urged by USOC advisory council

The head of the U.S. Olympic Committee Athletes Advisory Council says the only way to halt drug abuse among athletes is to test on short notice, and the council has endorsed his policy.

"We determined that the U.S. should take the lead on this with U.S. athletes and that we should urge the international community to follow our lead," said Henry Marsh, chair of the council and a steeplechaser who retired after com-

peting in the Seoul Games.

Marsh said the council unanimously approved a resolution calling for testing at any time during the training season following advance notice of 24 to 48 hours.

The resolution, passed during a closed meeting in Portland, Oregon, will be forwarded to the USOC Administrative Committee during a November meeting of the executive board in Minneapolis, the Associated Press reported.

"The only solution to the abuse of drugs is to go to short-notice testing where users will not have sufficient time to get drugs out of their systems," Marsh said.

Marsh said Robert Helmick, pres-

ment with us on the principles," said Marsh, who is an attorney. "If the Soviet Union and the U.S. can take the lead on this, then we think maybe we can get it worldwide."

The call for drug testing by the

bolic steroids were detected in his system.

"We want to protect our athletes," Marsh said. "Drugs are bad. They are hurting people. People's lives are in jeopardy. We want to eliminate drug abuse in the U.S. and hopefully across the board so there is no competitive advantage for anyone."

Marsh said the testing would be done after "a couple of days' notice during the middle of the year, then testing for training-enhancement drugs, such as steroids and testosterone, not the cold medications.

"There is always going to be a problem with inadvertent drug use," Marsh said. "The banned list is extremely long. Our concern is really the long-term drug abusers who are intentionally using drugs to enhance performance, not those who took a cold medication not knowing it contained a banned substance."

CFA asks Walden to seek sponsors for grant proposal

The College Football Association's executive board has told Iowa State University head football coach Jim Walden to find sponsors for a legislative proposal to raise the limit on annual initial football grants-in-aid from 25 to 30 for the next three recruiting years, according to a published report.

Charles M. Neinas, CFA executive director, predicted there would be no trouble in finding six schools to cosponsor the legislation for the 1989 NCAA Convention in San Francisco.

Neinas told Tom Witosky of The Des Moines Register that the CFA executive board also had directed him to find sponsors for legislation that would permanently reduce the annual limit on initial grants to 25 after the 1991-92 season and eliminate the overall limit of 95.

"I'm not saying that the 25 annual limit proposal has unanimous support, but a majority supports the concept," Neinas told Witosky.

Earlier this football season, Walden publicly stated that the inability to build up the number of scholarship players so that Iowa

State could become competitive in Division I-A could force his resignation within the next two seasons.

Walden has 72 scholarship players on his team, but he has projected that the number would grow to only 79 during the next three years if the limit of 25 is enforced.

He said that attrition and the end of athletics eligibility of seniors often results in the loss of up to 21 athletes a year.

Neinas said there is strong support among CFA members to help schools like Iowa State, Kansas State, Kansas, New Mexico and others with a low number of athletes on scholarship to return to full strength.

Neinas also said the proposal to allow schools to grant 25 annually but keep as many athletes on scholarship as they want is seen as a way to improve academic performance and retention, Witosky reported.

"It rewards those institutions that make the effort to retain their players to educate them," Neinas said. "The (CFA) members feel that it also would force schools to work harder at keeping players from transferring or dropping out."

"Drugs are bad. They are hurting people. People's lives are in jeopardy. We want to eliminate drug abuse in the U.S. and hopefully across the board so there is no competitive advantage for anyone."

Henry Marsh, chair
USOC Athletes Advisory Council

ident of the U.S. Olympic Committee, will travel to Moscow in November to discuss drug testing with Soviet sports officials.

"We've had meetings with the Soviet Union, and they are in agree-

council, made up of current and former U.S. Olympic athletes, comes after Canada's Ben Johnson was stripped of his gold medal and world-record performance in the 100 meters in Seoul because ana-

Player agents a big problem in SWC

By Bill Nichols
Dallas Times Herald
Excerpted from a column

Sports agents dealing with athletes before their eligibility is completed is a major problem in the Southwest Athletic Conference.

Nine former conference football players implicated in a sports-agents scandal in August were required to pay back part of their scholarships.

Among the 43 college players named as unindicted coconspirators in a Chicago Federal grand jury were four players from Southern Methodist University; two from Texas Christian University; three from the University of Texas, Austin, and one from Texas Tech University.

Teaching talented athletes about

the dangers of agents has become routine among SWC officials.

A Texas Christian running back accepted a payment from an agent last season, and University of Arkansas, Fayetteville, players say it is a widespread problem in the SWC.

"It's a major problem and it's tough to deal with because you can't let your guard down," TCU athletics director Frank Windeger said. "It's a lucrative business. We've constantly talked to our athletes, trying to educate them."

A new Texas law requires agents to pay a fee with the attorney general's office to be registered. They have a three-week period in which to talk to athletes. But there is no law in Arkansas.

Ken Hatfield, head coach at Ar-

kansas, said, "The Texas law will have some success. A player has to know what's right and wrong. I've got some advice to agents. Anytime an agent calls, I tell them to send a letter; I'll be glad to get back to them after the bowl's over."

Hatfield is recommending that Arkansas players not speak to agents. Arkansas defensive lineman Wayne Martin and linebacker LaSalle Harper said it's a common occurrence.

"I make a statement right away that I'm not interested," said Martin, a top prospect who said he has had about 10 calls from agents. But Harper said, "They still try it anyway. Guys are still going to know they're interested if they call."

Elizabethtown hopes to be healthy to defend its top soccer ranking

With last year's champion North Carolina-Greensboro out of the picture after its move to Division II, one might think it is pretty much a toss-up who will win the Division III Men's Soccer Championship.

But if the Intercollegiate Soccer Association of America's weekly polls are any indication, the No. 1 spot belongs solidly to Skip Roderick's Elizabethtown squad. The Blue Jays (13-0-2) have held steady at the top since September 12, although they have yet to play with a completely healthy lineup.

"We haven't had a healthy season," Roderick said. "We haven't had our starting 11 any time this year. Right now, we have four starters out, but we're hoping to get them back before the tournament."

"We've had a lot of exciting games this year and it's taken a toll on our players physically," he added. The Blue Jays still have five games remaining in the regular season, including one against long-time rival Messiah. "Messiah probably is one of the top teams in the country," Roderick said. "And since we're about 30 miles away, there's a real rivalry. The winner of that game probably should be ranked No. 1 in our region."

Headlining the Elizabethtown

team is leading scorer Scott Ravert (13 goals, three assists), sophomore goalkeeper Jay Varrato and senior sweeper back Matt Saia. Twice named the team's most valuable player, Saia's defense has been instrumental in helping Varrato hold

Championship Preview

opponents to only eight goals and in tallying nine shutouts.

The strength of Ohio Wesleyan (14-1-1) can be attributed to Jay Martin's team having three of the top four scorers in the North Coast Athletic Conference in senior Bob Barnes (13 goals, seven assists), sophomore Scott Gillanders (13 goals, seven assists) and freshman Andy Kessinger (12 goals, one assist).

But the defense, led by two-time NCAC defensive player-of-the-year Drew Dimatos, cannot be forgotten. "Drew is one of the main reasons for our success this year. He truly is that good," Martin said. "We don't need a sweeper back with Dimatos on the back line, and that's pretty uncommon. I know of only two or

three teams that play without a sweeper back."

With the graduation of all-America keeper Jeff Kaplan, Martin revised his strategies. "We knew we'd have a new keeper this year so we have stressed defense more. We have what's similar to a full-court press in basketball."

Led by junior Scott Wilson and senior Angelo Panzetta, Rochester Institute of Technology (10-0-1) has outscored opponents 28-6. Wilson is the team's leading scorer with seven goals (including six game-winning goals) and one assist, and Panzetta is a two-time all-America defensive player. Junior goalkeeper Jeff Amsden has an .800 save percentage and a 0.54 goals-against average.

Bethany (West Virginia) (12-2) assistant coach Graham Ramsey describes the Bisons' scoring as a team effort. "We're very lucky to have a lot of scorers. We had a game recently where we scored four goals, all by different players."

Leading these scorers are junior Ebou Conatch (10 goals, one assist), sophomore Max Meinhardt (four goals, three assists), freshman Heiko Freithe (four goals, three assists) and freshman David Lewis (four

Championship profile

Event: Division III men's soccer.

Field: This 24-team, single-elimination tournament will feature no more than four teams from each of six geographical regions.

Automatic qualification: Dixie Intercollegiate Athletic Conference, Independent College Athletic Conference, Massachusetts State College Athletic Conference, North Coast Athletic Conference, Southern California Intercollegiate Athletic Conference and State University of New York Athletic Conference.

Defending champion: North Carolina-Greensboro's 6-1 victory over Washington (Missouri) gave the Spartans a fifth Division III title before they entered Division II play this season.

Schedule: All games will be played at on-campus sites. First- and second-round games will be played November 4-5 or 5-6. Third-round contests must be completed by November 13. Semifinal games and the championship final will be played November 18-19 or 19-20 on the campus of one of the finalists.

The NCAA News coverage: Scores and pairings will appear November 7 and 14. Results of the semifinals and championship final will be published November 21.

Contenders: Bethany (West Virginia), Elizabethtown, Ohio Wesleyan, Rochester Institute of Technology, UC San Diego.

Play-off notes: Of the top contenders, Bethany (West Virginia) holds the best tournament record with a .563 percentage in seven postseason appearances... Second-place finisher in 1987, Washington (Missouri) has one of the best percentages (.680) with a 17-8 record in seven years... Five schools have made appearances in at least 10 of the 14 tournaments: Elizabethtown (12 years, 8-12 record, .400 winning percentage), Ohio Wesleyan (12, 13-13, .500), Plymouth State (10, 8-10, .444), Scranton (11, 17-11, .607) and Wheaton (Illinois) (11, 12-10, .545).

goals, one assist).

"Our front-line players are a lot alike," Ramsey said. "Ebou, who was a bench player last year, has improved a great deal. And with more experience, David will develop into one of our top players."

Tending the net for the Bisons are

junior Omar Jobe—described by Ramsey as a "very calm player"—and sophomore Jack Shafer. In 11 games, Jobe has five shutouts and 46 saves and has allowed only eight goals. Shafer is responsible for three shutouts and nine saves and has allowed only one goal in four games.

William Smith, second in '87, seeks III women's soccer title

William Smith head coach Aliceann Wilbur already has had one pleasant surprise this season and is looking for another one in the form of a Division III Women's Soccer Championship title.

The surprise was the hidden talent of freshman Ann Haggerty, the Herons' leading scorer with 16 goals and two assists. "Ann has no idea of her potential," Wilbur said. "She's a very unassuming player who is deceptively fast. Just imagine what she can do in the future after she matures and develops."

"The rest of our scoring has pretty much been spread out among the other players. I think the reason Ann gets the most scoring opportunities is that she's fast, she's skilled and she has a good eye for the net."

Other top scorers are junior Karen Miller (three goals, three assists), freshman Lydia Dowling (three goals, two assists) and sophomore Daryl Arrighi (three goals, two assists).

Senior sweeper back Lisa Bray

and goalies Mindy Quigg and Vida Donohue have combined to form an outstanding Heron defense that has allowed opponents only 51 shots (a little less than four per game).

Plymouth State (12-1) returns several outstanding players from last year's third-place squad, including junior goalkeeper Mary St. Germain; this year's leading scorer, Traci Walker; junior Heather Boyce, and senior defender Nancy MacCallum. Junior Kristen Dougherty and MacCallum were all-America selections last season.

The Panthers have outscored the opposition by a 46-2 margin, due largely to the defensive play of MacCallum and St. Germain. Head coach Phil Rowe described St. Germain as "a solid keeper who has saved us several times throughout the season."

"Another plus for us this season has been freshman Beth Field. We moved Beth to sweeper in mid-season," Rowe said. "Now our counterattacks focus from her, giving us

an even stronger back line."

UC San Diego will be facing some tough teams in its three remaining regular-season games, including two Division I teams and a Division II opponent.

The Tritons' 15-0-1 record includes a 5-2 win over two-time Division III champ Rochester and a 3-0 victory over Division I Stony Brook, so the team certainly knows what it is in for. McManus will be relying on all-Americans Heather Mauro and Susan Kramer and a strong recruiting class to lead the team.

Headlining the offense are Mauro (12 goals, eight assists) and freshmen Katy Dulock (20 goals, four assists), Kalyn Shea (10 goals, four assists) and Karin Lindsay (seven goals, four assists).

Dulock's performance earned her single-season scoring and total-points records.

The Tritons' defense is led by junior keeper Julie Freiss, who has 13 shutouts in 16 games and has allowed only five goals.

Championship profile

Event: Division III women's soccer.

Field: This 16-team, single-elimination tournament will feature at least two teams from each of four geographical regions, with eight teams selected at large.

Automatic qualification: None.

Defending champion: Rochester claimed the top spot for the second time in as many years of Division III play with a 1-0 win over William Smith.

Schedule: All games will be played at on-campus sites. First- and second-round games are set for November 5-6. Semifinals and the championship final will be played November 12-13.

The NCAA News coverage: Scores and pairings will appear November 7, and championship results will be published November 14.

Contenders: Methodist, Plymouth State, St. Thomas (Minnesota), UC San Diego, William Smith.

Play-off notes: Eight of the 11 games played in last year's tournament were shutouts, including Rochester's victory in the final game... The biggest scoring margin last year came with Rochester's 6-0 victory over Scranton in second-round action... William Smith and St. Thomas (Minnesota) finished second and third, respectively, in their first tournament appearances... Semifinal losers in the Division III tournament are credited with third-place finishes.

Bloomsburg hopes to make it two in a row in field hockey

Championship profile

Event: Division III field hockey.

Field: Two teams from each of five regions and six at-large selections will make up the 16-team bracket.

Automatic qualification: None.

Defending champion: Bloomsburg. Susie Slocum scored the decisive goal at the 18:40 mark in the first half as Bloomsburg took a 1-0 decision from William Smith.

Schedule: All games will be played at on-campus sites. Regionals will be played November 4-5, and the semifinals, third-place game and championship will be played November 11-12.

The NCAA News coverage: Regional scores and semifinals pairings will appear November 7. Championship results will be published November 14.

Contenders: Bloomsburg, Trenton State, William Smith, Kutztown.

Play-off notes: Trenton State has won the most titles in Division III with three... Bloomsburg has two... Six of the seven title games have been decided by one goal, but only one of those games has gone beyond regulation... In 1982, Ithaca defeated Trenton State, 2-1, in a game decided by penalty strokes... Elizabethtown and Trenton State have played in all seven tournaments... Bloomsburg's April Kolar set the record for fewest goals per game allowed in a tournament with an 0.33 goals-against average last year... Cindy Hurst, also of Bloomsburg, set a single-game record with four goals in a 5-1 win over Ohio Wesleyan in the first round in 1987... Trenton State holds four of the five tournament team records.

Some of the most important goals of the 1988 Division III Field Hockey Championship will not be scored. Rather, they were set in September.

The team that does the best job of achieving its own goal—whether it's taking one game at a time, resisting the temptation to look back, playing with consistency or paying attention to fundamentals—is likely to wind up as the champion.

Bloomsburg has the opportunity to become the first team to win back-to-back Division III championships. (The Huskies won consecutive titles in 1983 and 1984, but one was the Division II championship and the second was in Division III.) Coach Jan Hutchinson has emphasized to her players that they must "think about wanting to win this year" rather than defending their accomplishment of last year.

"We have to go out with the same fire and enthusiasm as last year and not worry about getting knocked

off," Hutchinson said.

Junior Sharon Reilly, a member of last year's all-tournament team, was the Huskies' top scorer through 17 games with 10 goals and six assists. Cindy Hurst, one of only three seniors on the squad, had 10 goals and four assists. Sophomore Susie Slocum had eight goals and five assists. Goalie April Kolar, also a sophomore, had 12 shutouts through 17 games and had made 81 saves and allowed only six goals. Slocum and Kolar earned all-tournament honors as freshmen.

Sally Scatton Bond, in her first year as head coach at William Smith, also wanted her team to look ahead and not back. With the loss of eight members of last year's runner-up squad, she did not want her young team to feel the pressure of trying to duplicate the successes of 1987.

"Basically, this is a brand new team," she said.

One key returnee from last year is

senior goalie Kathy Odomiok. She had 144 saves and had allowed 10 goals through 12 games. She had a school record 28 saves against Bloomsburg this year and also holds the school's season and career records in that category. Freshman Courtney Hutchinson was the leading scorer through 14 games with nine goals and six assists. Sophomore Melissa Crowley had six goals and nine assists, and classmate Kate Olcott had eight goals and five assists.

"Any team that gets to the play-offs is prepared physically and is skilled," coach Bond said. "The team (that is) really mentally prepared has the edge."

Trenton State coach Sharon Goldbrenner has emphasized consistency and fundamentals this season. The Lions have been inspired by something that happened in last year's championship. For the first time in

See Bloomsburg, page 12

Wittenberg's winning-seasons string tops modern teams

By James M. Van Valkenburg
NCAA Director of Statistics

In terms of most consecutive winning seasons in the modern era of NCAA college football, the all-divisions leader is Division III Wittenberg University in Springfield, Ohio, at 34 and counting.

Wittenberg made No. 34 a mathematical certainty by improving to 6-1 and staying unbeaten in the Ohio Athletic Conference with a 27-17 homecoming victory over Capital on October 22. The only loss for Ron Murphy's team was the opener at Dayton.

The late Bill Edwards was the coach who started it all in 1955. He coached the Tigers 14 seasons and compiled an .820 winning percentage (98-20-4). Then came Dave Maurer with an .844 mark (129-23-2) over 15 seasons. Murphy, long a top defensive coach under Edwards and Maurer, now stands 31-15.

Wittenberg was voted college-division wire-service national champion in 1964 and claims national crowns for its undefeated 1962 and 1969 teams (the latter won the Amos Alonzo Stagg Bowl). The Tigers won Division III national titles in play-off competition in 1973 and 1975. Murphy, a 1960 Wittenberg graduate and a Springfield native, was an assistant the last three national-championship years.

Modern vs. all time

The modern era started with 1937, first season of official NCAA statistics; but, of course, won-lost record-keeping goes back to the beginning in 1869. In all-time most consecutive winning seasons, Wittenberg is sixth behind Princeton (52), Notre Dame (42), Harvard (42), Yale (39) and Alabama (38). Here are the top 20 of all time in all divisions, through October 22:

College	Seasons	First	Streak	Last
Princeton*	52	1870	1922	
Notre Dame**	42	1889	1932	
Harvard*	42	1881	1923	
Yale	39	1876	1914	
Alabama**	38	1911	1950	
Wittenberg#	34	1955	#	
Army	32	1907	1938	
West Chester**	31	1940	1972	
Central (Iowa)#	28	1961	#	
Virginia	28	1888	1915	
Nebraska#	27	1962	#	
Grambling	27	1960	1986	
Pittsburgh	27	1913	1939	
Michigan	27	1892	1918	
Alabama	26	1958	1983	
Penn State	26	1939	1964	
Florida A&M	26	1944	1969	
Pennsylvania	26	1888	1913	
Tennessee St.	24	1963	1986	
Texas	24	1893	1916	

* No varsity team two seasons.
** No varsity team one season.

Current streak.

Bowls and play-offs are included in every case on the above list.

The top four streaks started in the 19th century, before many current football programs began, and Alabama's fifth-place streak started in 1911. Six streaks on the list belong to teams currently in Division I-AA (Princeton, Harvard, Yale, Grambling, Florida A&M and Tennessee State), one in Division II (West Chester), two in III and the rest in I-A.

Current leaders

As the chart shows, the top two current streaks in NCAA football belong to Division III teams—Wittenberg and Central (Iowa). Nebraska now is assured of its 27th straight winning season, and that is a modern I-A record, as detailed in the *The NCAA News* September 19. The Cornhuskers had been tied with Alabama and Penn State, both at 26.

Next in I-A are Oklahoma, now 23, and Ohio State at 21, entering this season. Eastern Kentucky leads

I-AA at 10. UC Davis leads at 19 in Division II. Third in Division III is Baldwin-Wallace at 22.

Coaching the key

Without doubt, coaching performance and all that term includes—recruiting, organizing, motivating, choosing top assistants and game strategy—is the key to long winning-season streaks.

For instance, from 1932 until Edwards took over in 1955, Wittenberg had only two winning teams—5-4 in 1952 and 8-0 in 1940. Edwards' first team was a modest 4-3-2. Only two other Edwards teams lost as many as three games. Maurer had a pair of 5-4 teams in 1971 and 1972, but no others lost more than twice.

Nebraska enjoyed great football success through 1940 but fell on hard times, with only three winners from 1941 until Bob Devaney began in 1962 and started the current streak. His hand-picked successor, Tom Osborne, began in 1973.

Many great names

Many of the great names in college football coaching history are involved in the winning-season streaks. Knute Rockne, the all-time leader in percentage at .881, coached 13 years during Notre Dame's streak. The Grambling streak was all the work of Eddie Robinson, all-time, all-divisions leader in total victories at 341 entering this season. Alabama's Paul "Bear" Bryant, next at 323, coached almost all of Alabama's 1958-83 streak (he died early in 1983). Glenn "Pop" Warner, with 313, and Jock Sutherland (.812) were the names in Pittsburgh's run.

Florida A&M's streak was the work of Jake Gaither, a lifetime .844 winner and one of history's 200-game winners. The late John Merritt coached all but three years in Tennessee State's run, which came to an end last season. Percy Haughton and George Woodruff, both among the all-time top five in percentage, were involved in the early streaks at Harvard and Pennsylvania, respectively. Princeton had various captains and no official

Football notes

coaches during most of its streak. The legendary Walter Camp was prominent at Yale and Frank Thomas at Alabama.

Among current streaks, Central's started with Ron Schipper's first team in 1961. He is another of history's 200-game winners (there have been only 17). The UC Davis streak is all the work of Jim Sochor, a .791 winner entering this season. Bill Manlove has all 18 years of Widener's current run.

In I-A, Barry Switzer owns most of Oklahoma's streak, while Ohio State's was the work of Woody Hayes and Earle Bruce.

Longest nonlosing streak

When you include .500 seasons, Penn State has the longest current streak of nonlosing seasons at 49 entering 1988—the work of Rip Engle and Joe Paterno. The Nittany Lions were 3-4-1 in 1938. Of course, that is not the longest in college history; Princeton's 52 is.

Underwood tops 4,000

Wagner's Terry Underwood burst past the 4,000-yard mark in career rushing October 15 with a 363-yard game vs. a good Hofstra team—second highest total in Division III history and tied for seventh on the collegiate (or all-divisions) single-

Anthony Thompson of Indiana is second in scoring among Division I-A players

game list.

The collegiate (and Division II) record of 382 was set by Northern Iowa's Kelly Ellis vs. Western Illinois in 1979 and tied by Pete Baranek of Carthage against North Central in 1985. Baranek holds the Division III record and Underwood's 363 is second. Underwood also holds third place with a 354-yard game in 1986.

The 5-8, 193-pounder from Cliffwood Beach, New Jersey, reached 4,314 career rushing yards with his big game. With three games left in the regular season, he can move into second place in career yardage behind Joe Dudek of Plymouth State, who had 5,570 in 1982-1985.

On a per-game basis, however, Underwood's 143.8-yard career average with three games left gives him a chance to break Dudek's record of 135.9. And on the season chart, Underwood is the national leader at 185.5 per game, well over the Division III record of 168.6 by Clay Sampson of Denison in 1979.

All of Underwood's numbers involve his 30 regular-season games. He has played in five postseason games, which are not included in career and season figures. Wagner won the Division III national cham-

Wagner's Terry Underwood tops Division III rushers with 185.5 yards per game

seasons.

Coming close

There still has been no defensive two-pointer scored in Division I-A this season, but Houston came very close in a wild, 82-28 victory over Tulsa October 15. Defensive end Larry Ball snatched a fumble out of the air on an attempted two-point run by Tulsa quarterback Frank Cassano at the six-yard line and raced 93 yards to the Tulsa one-yard line, where he was tackled by Tulsa's Ron Beasley, a sophomore tailback who was in the end zone when Ball grabbed the ball. Said Beasley: "I was tiring at our 10, but Ball must have been tiring even more."

Quotes of the week

After two losses in two weeks by a combined total of three points, California (Pennsylvania) coach Jeff Petrucci simply said: "I suppose this is a phrase that's used a lot, but success is never final and defeat is never fatal." [Bruce Wald, California (Pennsylvania) SID]

Every year at the first of winter, Millikin athletics director Merle Chapman and his staff host a chili lunch for school faculty and staff to raise money to plant trees in honor of the event's originator, Ralph Allen, chairman of the physical education department for 34 years. Football coach Carl Poelker served chili from three pots, marked mild, medium and hot. University President J. Roger Miller was overheard: "Don't let them fool you. What they have is hot, hotter and 'Oh my God, it's hot.'" [John Arenberg, Millikin SID]

Can you top these?

Western Illinois and its record-breaking passer, Paul Singer, are having a storybook year. The Leathernecks have won four times in the last 90 seconds. Can any team

Todd Smith, Morningside, leads Division II receivers with eight catches per game

Butler junior Steve Roberts leads Division II in scoring

top that?

Florida A&M's Howard Huckaby, a Baton Rouge, Louisiana, native and sprint champion in the Mid-Eastern Athletic Conference, has three punt-return touchdowns this season (74, 54 and 52 yards) and five for his career. Both figures equal the Division I-AA national records (both by Willie Ware of Mississippi Valley State in 1982-1985), and get this—Huckaby is only a junior. (Alvin Hollins, Florida A&M SID)

The Northeast Louisiana vs. Northwestern State (Louisiana) game was decided on the game's final play two years in a row, in 1986 on a 27-yard field goal by Northwestern and in 1987 on a 48-yard pass play by Northeast. Has this ever happened before? (The streak was broken October 22—Northwestern won, 27-15.) (Bob Anderson, Northeast Louisiana SID)

With its 42-13 victory over Sonoma State October 15, UC Davis ran its winning streak in Northern California Athletic Conference play to 39 games. Can any school in any division (other than Oklahoma under Bud Wilkinson with 44 in 1952-1959 in the Big Seven-and-Eight) top that? (Bryan Dangerfield, UC Davis SID)

Double misery

"Fitchburg State has a 29-game losing streak. As an undergraduate, I was head student equipment manager for Eastern Michigan when we lost 27 straight." (David March, Fitchburg State staff associate)

Fast starts, cont.

St. Mary's (California) is off to an 8-0-0 start, best start in Gael history, surpassing the 1945 team that advanced to the Sugar Bowl, where it lost to Oklahoma State. The defense has four shutouts. [Rick Sutton, St. Mary's (California) SID]

PASSING OFFENSE

NCAA Record

CHIEF EXECUTIVE OFFICERS

William H. Breeze named acting president at Centre, where he is vice-president and general secretary... **Potsdam State** President **Humphrey Tonkin** appointed president at Hartford, effective in January 1989... **James A. Gardner** resigned as president at Lewis and Clark, effective January 1, 1989... **Robert Matheny** resigned as president at Eastern New Mexico, effective July 1, 1989... **Paul R. Givens** resigned as chancellor at Pembroke State, effective July 1, 1989.

FACULTY ATHLETICS REPRESENTATIVES

Jacksonville's **Jesse S. "Bill" Robertson** appointed vice-president for academic affairs at the school after serving on the science faculty since 1966. He has been Jacksonville's faculty athletics representative since 1976... **Jim Fisher** named at New Mexico State, where he is a professor of woody plant physiology in the agronomy and horticulture department. Fisher succeeds **Del Wells**, who served in the post for 10 years.

DIRECTOR OF ATHLETICS

Eugene Marshall Jr. selected at Pratt Institute, where he also will be head men's basketball coach and intramurals director. He worked most recently for IBM.

ASSISTANT DIRECTOR OF ATHLETICS

Charlie Elwood appointed at William and Mary after serving as director of business and financial affairs at DePaul.

COACHES

Baseball assistants—**Rich Folkers** named pitching coach and **Keith Gale** appointed assistant pitching coach at Eckerd. Folkers is a former player with the New York Mets, St. Louis Cardinals and San Diego Padres, and Gale pitched in the Philadelphia Phillies organization during the 1970s... **Dave Stabelfeldt** resigned at Loyola Marymount, where he joined the staff this past summer. The former Cal State Northridge assistant plans to pursue other opportunities in baseball and education.

Men's basketball—**Eugene Marshall Jr.** selected at Pratt Institute, where he also will be athletics director and intramurals director. He is a former assistant at Northeastern.

Men's basketball assistants—**Shawn Hood** appointed at Cleveland State, which also announced the selection of **Hal Estis** as part-time assistant. Hood, a standout point guard on the Cleveland State team that appeared in the 1986 Division I Men's Basketball Championship, replaces **Ron Schwartz**, who accepted a position with a sports promotions firm. Estis, a volunteer assistant last season, replaces **Dan Garven**, who was named an academic adviser at the school... **Dave Hammer** selected at Hardin-Simmons, which also named **Scott Tompkins** to serve as graduate assistant coach. Hammer and Tompkins previously coached at Michigan and Tompkins is a former coach at Capital... **Peter Cooney** named at Bridgeport after four years as associate coach at Western Connecticut State. He replaces **Vin Laczkoski**, who joined the staff at Fairfield... **Aubrey Volious** selected at Chicago State after four years as an assistant at Triton Junior College in Illinois. Volious is a former Iowa State football player... **Chris Ferenz** named at Swarthmore. He is a former graduate assistant coach at UC Davis who also has played professionally in Australia.

Women's basketball—**Leah Magestro** promoted from assistant at Clarion. She was an assistant at Milligan and Edinboro before joining the Clarion staff in 1987. Magestro replaces **Doris Black**, who was named athletics director at Agnes Scott... **Fred Procter** hired at Lake Superior State after nine seasons as head coach and athletics director at St. Martin De Porres High School in Detroit. He coached his teams at the high school to a 166-54 record and led the 1987 squad to a state title... **Kevin Nunley** appointed at John Carroll, where he also will coach women's softball. He recently formed a new women's basketball team at Lake Erie after serving last season as an assistant at Lakeland Community College in Ohio. Nunley succeeds **Joe Spicuzza**, who resigned to enter private business.

Women's basketball assistants—**Joanie Powers** named at Providence... **Rochelle McKenzie** appointed at Cleveland State after three years on the staff at Cuyahoga Community College—East. She replaces **James Spurrier**, who joined the staff at Illinois-Chicago... **Joseph Silva** and **Nancy Pajer**

New Mexico State named Jim Fisher faculty rep

Charlie Mahler picked for cross country at Gustavus Adolphus

John Planek appointed business affairs director at DePaul

appointed at New York University.

Men's cross country—**Charlie Mahler** selected at Gustavus Adolphus. He previously was an assistant cross country and track coach at Wisconsin-LaCrosse and also has assisted with track at St. John's (Minnesota).

Men's fencing assistant—**Dan Hawkins** appointed at Stevens Tech, where he was a fencer during the 1970s.

Football assistant—**Tony DeMeo** resigned as offensive coordinator at Temple, where the former Mercyhurst head coach joined the staff earlier this year. DeMeo plans to seek another coaching position.

Men's gymnastics—Navy's **Peter Kormann** selected at Ohio State, subject to trustees' approval. Kormann, a U.S. Olympic bronze medalist in gymnastics in 1976, has coached since 1983 at Navy, where his teams compiled a 57-15 dual-meet record.

Women's gymnastics—**Bernard Bohinc** named at Navy.

Men's soccer—**Michael Blake** appointed at Pratt Institute.

Women's softball—**Judy Sackfield** and **Butch Watkins** named cohead coaches at Georgia Tech, where Sackfield has been head women's volleyball coach for the past four seasons and Watkins was promoted from the softball assistant's post he has held for two seasons. Sackfield will be responsible for administrative duties and Watkins will handle most of the on-the-field coaching... **Jacqueline "Jacquie" Joseph** named at Bowling Green after one year as an assistant at Indiana. Joseph also has been on the staff at Central Michigan, where she played from 1982 to 1985... **Kevin Nunley** appointed at John Carroll, where he also will coach women's basketball. He replaces **Joe Spicuzza**, who resigned to enter private business.

Men's swimming and diving—**Nancy Parish** selected as interim coach at Wittenberg, replacing **Steve Dawson**, who is on sabbatical leave. Parish was an assistant coach at the Fairfield (Ohio) YMCA and was an honorable mention all-America as a Wittenberg senior in 1986.

Men's and women's tennis—**Bill Branch** appointed interim coach at Tennessee Tech, where he is assistant athletics director. He replaces **Clayton Taylor**, who was reassigned to other duties within the school's athletics department after stepping down as head coach. School officials said Taylor resigned after failing to comply with institutional eligibility-certification procedures.

Men's track and field assistant—**Wisconsin-LaCrosse's Charlie Mahler** named head men's cross country coach at Gustavus Adolphus.

Women's volleyball—**Wanda Bacon** selected at Pratt Institute... **Georgia Tech's Judy Sackfield** named cohead softball coach at the school. Her volleyball teams had compiled a 44-70 record through four seasons, including a 14-5 mark this season through mid-October.

STAFF

Academic adviser—**Dan Garven** appointed at Cleveland State, where he previously was a part-time assistant men's basketball coach.

Business and financial affairs director—**John Planek** promoted after serving for three years as assistant business manager at DePaul. He also has been assistant facilities director at the school. Planek succeeds **Charlie Elwood**, who was named assistant athletics director at William and Mary.

Development coordinator—**Tom Kelner** hired by New Mexico State's Aggie Sports Association and assigned to open an office in Albuquerque after serving for the past year as development director at Utica. He also has been sports information director at Utica.

Media relations director—**Pete Kowalski** named at Rutgers after serving as

an assistant sports information director at Penn State since 1984.

Sports information assistant—Penn State's **Pete Kowalski** appointed media relations director at Rutgers.

Trainer—**Fran Raggazino** selected at St. Joseph's (Pennsylvania) after five years as an assistant trainer at Villanova. He replaces **John Laird**, who was named head trainer at Cherry Hill West (New Jersey) High School.

ASSOCIATIONS

Thom Meredith resigned after two years as director of communications for the United States Soccer Federation, citing personal reasons.

NOTABLES

ESPN announced that freelance college basketball analyst **Larry Conley** will join the network as a regular analyst. Conley is a former Kentucky standout who has done freelance work for ESPN since 1979 and also worked for NBC and CBS... **Paul Lizzo**, athletics director and head men's basketball coach at Long Island-Brooklyn, appointed to the National Invitation Tournament Advisory Committee for District II. The district includes schools in the Colonial Athletic Association and the Atlantic 10, East Coast and Northeast Conferences.

DEATHS

Philip O. Krumm, president of the U.S. Olympic Committee from 1973 to 1977, died October 16 of a heart attack at his home in Divide, Colorado. He was 82. He continued to serve as a member of the USOC executive board until his death... **John Cornell Chulay**, a football player at Michigan State and basketball player at Indiana State during the 1940s who later was an assistant director or associate producer of numerous movies and television shows, died October 10 in Pasadena, California. He was 65.

19. Harvard (9-4) 10
20. Army (6-12) 7

State dismisses complaint against Oregon 'jock tax'

The Oregon secretary of state's office has dismissed most of an election law complaint filed against supporters of Measure 5, the so-called "jock tax" that would tax beer and cigarettes to raise money for college athletics.

The complaint filed by opponents charged that supporters solicited campaign contributions through the tax-exempt Beaver Club and passed the money on to the One Cent for Sports Committee, the organization created to help pass the measure.

The secretary of state's office ruled that the law was not broken as long as the committee properly identified the contributor and amount on campaign finance disclosure forms, United Press International reported.

WAC conducts compliance seminars

The Western Athletic Conference decided to spread the wealth, so to speak, with its NCAA conference grant money.

The conference recently concluded a series of rules compliance seminars at five locations in the western United States so that its nine member institutions would have an opportunity for better staff participation.

Bloomsburg

Continued from page 6

the championship's history, Trenton State did not reach the semifinals.

The team's only seniors are backs Stacey King and Marie Whalen. Through 15 games, the Lions had allowed only two goals and had strung together nine shutouts.

"Championship play brings out the best in everyone," Goldbrenner said. "The defense makes tremendous saves and the attack scores fantastic goals. No one is going to let up for a second."

Kutztown is looking for its first trip to the Division III championship, although the school made two appearances in the Division II championship.

Coach Betty Wesner likes the

The idea, said Joseph L. Kearney, conference commissioner, was to take these seminars to the membership rather than have one central location, thereby keeping costs down and allowing for greater participation.

Kearney said he thought it would be more advantageous to conference members to conduct regional compliance seminars than use the con-

"take one game at a time" approach and has her players focusing on the mental aspect of the game.

"One of the biggest things we have lacked in the past is mental toughness," she said.

Senior goalie Gwen Kerr has had that good concentration in the net, recording a school-record nine shutouts through 17 games. She also holds the school's career mark. Junior Lisa Marrella had scored a season-record 25 goals through 17 games and was only five goals shy of the Kutztown career mark.

In keeping with her philosophy, coach Wesner does not want her team to look farther ahead than the first game in championship competition.

ference grant funds to hire one conference compliance officer, who would likely be office-bound, as many conferences have done.

Organized by Assistant Commissioner Dee Menzies, the seminars were conducted in El Paso, San Diego, Honolulu, Salt Lake City and Denver. There were 96 in attendance at the Honolulu seminar.

Menzies said she was uncertain how nonathletics staff members would react to the seminars, but she said admissions and financial aid officers, in particular, greeted the seminars enthusiastically.

"We were a little uncertain about what kind of a reception we would get from the nonathletics staff, but we're very pleased with the interest shown by those who attended," Menzies said.

The WAC also had NCAA legislative and compliance services staff members John R. Gerdy and Betsy J. Mosher.

"The seminars helped the NCAA, too," Gerdy said. "It showed our members that we are interested in their problems and that we are available to get out to their campuses."

Also assisting with the seminars were Prentice Gautt, associate com-

WAC Commissioner Joseph L. Kearney and Assistant Commissioner Dee Menzies

missioner of the Big Eight Conference, and Dennis Farrell, associate commissioner of the Big West Conference, in which some of the WAC members' women's teams compete.

The two discussed financial aid

issues, and Gautt, a member of the NCAA Special Committee on De-regulation and Rules Simplification, summarized the work of that committee on the NCAA Manual revision project.

1988-89 NCAA championships dates and sites

FALL

Cross Country, Men's: *Division I, 50th*, Iowa State University, Ames, Iowa, November 21, 1988; *Division II, 31st*, Mississippi College, Clinton, Mississippi, November 19, 1988; *Division III, 15th*, Washington University, St. Louis, Missouri, November 19, 1988.

Cross Country, Women's: *Division I, 8th*, Iowa State University, Ames, Iowa, November 21, 1988; *Division II, 8th*, Mississippi College, Clinton, Mississippi, November 19, 1988; *Division III, 8th*, Washington University, St. Louis, Missouri, November 19, 1988.

Field Hockey: *Division I, 8th*, University of Pennsylvania, Philadelphia, Pennsylvania, November 19-20, 1988; *Division III, 8th*, on-campus site to be determined, November 11-12, 1988.

Football: *Division I-AA, 11th*, Minidome, Pocatello, Idaho (Idaho State University host), December 17, 1988; *Division II, 16th*, Braly Municipal Stadium, Florence, Alabama (University of North Alabama host), December 10, 1988; *Division III, 16th*, Amos Alonzo Stagg Bowl, Phenix City, Alabama, December 10, 1988.

Soccer, Men's: *Division I, 30th*, on-campus site to be determined, December 3-4, 1988; *Division II, 17th*, on-campus site to be determined, December 2-3 or December 3-4, 1988; *Division III, 15th*, on-campus site to be determined, November 18-19 or November 19-20, 1988.

Soccer, Women's: *National Collegiate, 7th*, on-campus site to be determined, November 12-13, 1988; *Division III, 3rd*, on-campus site to be determined, November 12-13, 1988.

Volleyball, Women's: *Division I, 8th*, University of Minnesota, Twin Cities, Minneapolis, Minnesota, December 15 and 17, 1988; *Division II, 8th*, on-campus site to be determined, December 9-11, 1988; *Division III, 8th*, on-campus site to be determined, November 18-19, 1988.

Water Polo, Men's: *20th championship*, Belmont Plaza Pool, Long Beach, California (University of California, Irvine, host), November 25-27, 1988.

WINTER

Basketball, Men's: *Division I, 51st*, The Kingdome, Seattle, Washington (University of Washington host), April 1 and 3, 1989; *Division II, 33rd*, Springfield Civic Center, Springfield, Massachusetts (American International College and Springfield College hosts), March 23-25, 1989; *Division III, 15th*, Wittenberg University, Springfield, Ohio, March 17-19, 1989.

Basketball, Women's: *Division I, 8th*, Tacomadome, Tacoma, Washington (University of Washington host), March 31 and April 2, 1989; *Division II, 8th*, site to be determined, March 24-25, 1989; *Division III, 8th*, on-campus site to be determined, March 17-18, 1989.

Fencing, Men's: *45th championships*, Northwestern University, Evanston, Illinois, March 30-April 1, 1989.

Fencing, Women's: *8th championships*, Northwestern University, Evanston, Illinois, April 2-4, 1989.

Gymnastics, Men's: *47th championships*, University of Nebraska, Lincoln, Nebraska, April 13-15, 1989.

Gymnastics, Women's: *8th championships*, University of Georgia, Athens, Georgia, April 14-15, 1989.

Ice Hockey, Men's: *Division I, 42nd*, St. Paul Civic Center, St. Paul, Minnesota (University of Minnesota, Twin Cities, and University of Minnesota, Duluth, hosts), March 30-April 1, 1989; *Division III, 6th*, on-campus site to be determined, March 24-25 or March 25-26, 1989.

Rifle, Men's and Women's: *10th championships*, Murray State University, Murray, Kentucky, March 10-11, 1989.

Skating, Men's and Women's: *36th championships*, University of Wyoming, Jackson, Wyoming, March 2-5, 1989.

Swimming and Diving, Men's: *Division I, 66th*, Indiana University Natatorium, Indianapolis, Indiana (Indiana University, Bloomington, host), March 30-April 1, 1989; *Division II, 26th*, State University of New York, Buffalo, New York, March 8-11, 1989; *Division III, 15th*, site to be determined, March 16-18, 1989.

Swimming and Diving, Women's: *Division I, 8th*, Indiana University Natatorium, Indianapolis, Indiana (Indiana University, Bloomington, host), March 16-18, 1989; *Division II, 8th*, State University of New York, Buffalo, New York, March 8-11, 1989; *Division III, 8th*, site to be determined, March 9-11, 1989.

Indoor Track, Men's: *Division I, 25th*, Hoosier Dome, Indianapolis, Indiana (The Athletics Congress and Midwestern Collegiate Conference hosts), March 10-11, 1989; *Division II, 4th*, University of South Dakota, Vermillion, South Dakota, March 10-11, 1989; *Division III, 5th*, Bowdoin College, Brunswick, Maine, March 10-11, 1989.

Indoor Track, Women's: *Division I, 7th*, Hoosier Dome, Indianapolis, Indiana (The Athletics Congress and Midwestern Collegiate Conference hosts), March 10-11, 1989; *Division II, 4th*, University of South Dakota, Vermillion, South Dakota, March 10-11, 1989; *Division III, 5th*, Bowdoin College, Brunswick, Maine, March 10-11, 1989.

Wrestling: *Division I, 59th*, Myriad Convention Center, Oklahoma City, Oklahoma (University of Oklahoma and Oklahoma State University hosts), March 16-18, 1989; *Division II, 27th*, site to be determined, March 3-4, 1989; *Division III, 16th*, John Carroll University, University Heights, Ohio, March 3-4, 1989.

SPRING

Baseball: *Division I, 43rd*, Rosenblatt Municipal Stadium, Omaha, Nebraska (Creighton University host), June 2-10, 1989; *Division II, 22nd*, Paterson Stadium, Montgomery, Alabama (Troy State University host), May 25-June 2, 1989; *Division III, 14th*, Muzzy Field, Bristol, Connecticut (Eastern Connecticut State University host), June 1-4, 1989.

Golf, Men's: *Division I, 92nd*, Oak Tree Country Club, Edmond, Oklahoma (University of Oklahoma and Oklahoma State University hosts), June 7-10, 1989; *Division II, 27th*, Gannon University, Erie, Pennsylvania, May 16-19, 1989; *Division III, 15th*, Central College, Pella, Iowa, May 23-26, 1989.

Golf, Women's: *8th championships*, Stanford University, Stanford, California, May 24-27, 1989.

Lacrosse, Men's: *Division I, 19th*, University of Maryland, College Park, Maryland, May 27 and 29, 1989; *Division III, 10th*, on-campus site to be determined, May 20, 1989.

Lacrosse, Women's: *National Collegiate, 8th*, site to be determined, May 21, 1989; *Division III, 5th*, site to be determined, May 21, 1989.

Softball, Women's: *Division I, 8th*, Twin Creeks Sports Complex, Sunnyvale, California (University of California, Berkeley, host), May 24-28, 1989; *Division II, 8th*, site to be determined, May 19-21, 1989; *Division III, 8th*, Trenton State College, Trenton, New Jersey, May 19-22, 1989.

Tennis, Men's: *Division I, 105th*, University of Georgia, Athens, Georgia, May 19-28, 1989; *Division II, 27th*, site to be determined, May 15-21, 1989; *Division III, 14th*, site to be determined, May 14-21, 1989.

Tennis, Women's: *Division I, 8th*, University of Florida, Gainesville, Florida, May 10-18, 1989; *Division II, 8th*, site to be determined, May 7-13, 1989; *Division III, 8th*, site to be determined, May 8-13, 1989.

Outdoor Track, Men's: *Division I, 68th*, Brigham Young University, Provo, Utah, May 31-June 3, 1989; *Division II, 27th*, Hampton University, Hampton, Virginia, May 25-27, 1989; *Division III, 16th*, North Central College, Naperville, Illinois, May 24-27, 1989.

Outdoor Track, Women's: *Division I, 8th*, Brigham Young University, Provo, Utah, May 31-June 3, 1989; *Division II, 8th*, Hampton University, Hampton, Virginia, May 25-27, 1989; *Division III, 8th*, North Central College, Naperville, Illinois, May 24-27, 1989.

Volleyball, Men's: *20th championship*, University of California, Los Angeles, California, May 5-6, 1989.

Toledo researchers analyzing effects of excessive training

A swimmer who has not missed a day of rigorous training in months complains that he has no appetite and is tired, depressed and sore just one day before his championship meet. He is not swimming according to his expectations.

The swimmer's symptoms of "staleness" could be attributed to excessive training, according to a University of Toledo researcher who has received a grant from the U.S. Olympic Committee's sports-medicine council to study such effects.

Michael Flynn, assistant professor of health promotion and human performance, is monitoring the Toledo men's swimming and cross country teams during training sessions and competitions to analyze the effects of excessive training.

Flynn and Fredrick Andres, professor of health promotion and human performance, received a \$10,000 grant from the USOC. Six laboratories nationwide were funded to study various aspects of the overtraining syndrome.

"Many coaches are aware of the benefits of adapting training programs to meet the individual physiological characteristics of their athletes," Flynn said. "We're seeking better information for various stages of an athlete's training and competitive season so that an individual's training program can be even more finely tuned."

The research could lead to the development of a valid and reliable index of physiological effects connected to excessive training.

While previous investigations have focused on short periods of intensified training, Toledo's project will involve measurements that are being taken five times throughout a team's season. Flynn recorded measurements for the university's swimmers before the beginning of practice in late September and three weeks after the start of practice. Swimmers will be tested at the midpoint of the dual-meet season in January, two weeks before the Mid-

American Athletic Conference championship meet in March and immediately following the championship meet.

Athletes will be tested for their heart rate, blood pressure, blood-hormone levels, body weight, body-fat composition and diet. Measurements will be taken at rest and during exercise so that a profile can be developed to predict when an athlete approaches the state of "staleness," Flynn said.

Some physiological factors may be more valuable than others in analyzing an athlete's training requirements, he explained. An elevated heart rate or blood pressure could be an inconsistent indicator, while a full-scale analysis of blood and its hormone levels may be much more important. Such tests could indicate the extent of damage in red blood cells that carry oxygen and are essential for effective aerobic activity. Other blood tests can show an index of muscle damage and the hormonal analysis can indicate if athletes are in a state of tissue building or tissue breakdown.

Other characteristics such as diet could be equally significant, Flynn said. "Alterations in diet can have undesirable effects. Some athletes don't match the requirements to replenish their muscle fuel. For example, they might not take in enough carbohydrates." Diet can be extremely important for endurance athletes such as swimmers who, during their peak training, log the equivalent of running 20 to 40 miles a day, he said. "If they are not consuming 2,000 to 4,000 more calories each day, these athletes may be missing their fine edge."

Vigorous training periods can be broken with a few days of reduced training or rest. "Many coaches are adept at recognizing how training patterns can be altered for individual athletes, but better information could certainly improve one's ability to get the most out of each athlete," Flynn said. Research findings could

University of Toledo researchers Tom Michaud, left, and Kazem Ghloum test swimmer Rod Gyrurke during a project to examine the physiological aspects of the overtraining syndrome

help athletes avoid peaking too early or falling short of expectations, he added.

Jim Smoragiewicz, Toledo swimming coach, sets individual workout requirements according to the team's wide range of abilities. "Ideally, I would like to see the swimmers train year-round with a series of short breaks included," he said. A typical season for college swimmers runs from September to March. "In reality, though, only 10 percent train year-round, another 40 percent train part-time during the summer and 50 percent do not swim a stroke during the off-season."

The differences mean that some students will find their ideal training pace within two or three weeks after the beginning of organized practice,

Smoragiewicz said, while others may not be in prime condition until early January, when nearly half the dual-meet season is completed.

In adapting individual training requirements, Smoragiewicz gradually decreases the number of yards a specific swimmer must complete about two to three weeks before major competitions or the league championship meet. Decisions are based on a swimmer's competitive performance and training history. This can decrease the likelihood that an athlete will peak too early, he said.

Flynn believes changes in training schedules can be beneficial, especially in sports with protracted seasons. "As the team passes the halfway point of its season, its

members can tire easily of the drudgery of practice."

Rod Gyrurke, a senior from Crawford High School in Galion who is majoring in marketing and is a member of the swimming team, said, "It's tempting to find easy ways to do strokes and lapse into lazy habits."

The swimmers seem to enjoy being part of a research study. "We're looking forward to this study because it will last the entire season," Jim Blanchard, a Toledo swimmer, said. "The testing alone will help us appreciate the small keys that can make or break successful training."

Researchers also are working with Eugene Jones, head track and cross country coach, and his team.

Administrative Committee minutes

1. Acting for the Council, the Administrative Committee:

a. Appointed Linda K. Estes, University of New Mexico, to serve as the NCAA representative on the administrative committee of the 1989 World University Games.

b. Dissolved the Special Council Subcommittee to Stimulate the membership's Compliance and Enforcement Efforts and expressed appreciation to the subcommittee for its work.

c. Considered concerns expressed by members of the Council of Collegiate Women Athletics Administrators regarding the use of primary woman administrator (PWA) for the highest-ranking woman athletics administrator at a member institution or conference; agreed to report to the Council that the Administrative Committee favored a change of that designation to senior woman administrator (SWA).

d. Reviewed the schedule and agendas for the October meetings of the Council and division steering committees.

2. Acting for the Executive Committee, the Administrative Committee:

a. Approved a recommendation by the Men's Volleyball Committee that Indiana University-Purdue University, Fort Wayne, receive an honorarium of \$3,852.59 for serving as host institution for the 1988 National Collegiate Men's Volleyball Championship, per Executive Regulation 1-9-(e)-(4).

b. Authorized the executive director to approve recommendations regarding championships honorariums per Executive Regulations 1-9-(e)-(3) and (4) in the future, so long as they are routine in nature.

c. Reviewed a recommended revision of Executive Regulation 1-20; directed that the regulation be rewritten in part and placed on the agenda for the December meeting of the Executive Committee.

d. Approved a recommendation by the Ad Hoc Committee to Administer the Conference Grant Program that enhancement

opportunities for women and ethnic minorities be added as a fourth required area of expenditures in the program's guidelines, and that conferences be permitted to award subgrants in that area, as they can in the drug-education area, with both changes to be effective in next year's grant program.

e. Appointed the following to serve as the Special Executive Committee Subcommittee on Allocation of Financial Resources, as directed in the August Executive Committee meeting: Edward E. Bozik, University of Pittsburgh; Howard Elwell, Gannon Uni-

Conference No. 16
October 9, 1988

versity, and Thomas J. Frericks, University of Dayton (chair); Leanne Grotke, California State University, Fullerton, and Alvin J. Van Wie, College of Wooster.

f. Approved a revised 1988-89 NCAA budget in the amount of \$82,011,000, adding one championship that was inadvertently omitted in the version considered at the August Executive Committee meeting and including the separation of the compliance services and enforcement departments. [Note: This action occurred in Kansas City, Missouri, September 28 in a conference held in conjunction with a meeting with the executive committee of the Presidents Commission.]

3. Report of actions taken by the executive director per Constitution 5-1-(g) and 5-2-(d).

a. Acting for the Council:

(1) Granted waivers per Constitution 3-1-(h)-(4)-(vii) as follows:

(a) Appalachian State University, to provide a student-athlete expenses to return home to attend his father's funeral.

(b) University of Texas, Austin, to provide

medical expenses to a student-athlete who was diagnosed as having a congenital spinal-column problem that likely will render him unable to compete again.

(2) Granted waivers per Constitution 3-9-(b)-(4)-(vi) to permit student-athletes from various member institutions to participate in an Amateur Sports Development tour to Hong Kong.

(3) Granted waivers of the tryout rule per Bylaw 1-6-(d)-(1) as follows:

(a) University of Alabama, Birmingham, developmental basketball clinic.

(b) Bucknell University, developmental track and field clinic.

(c) University of Northern Colorado, developmental wrestling clinic.

(d) U.S. Military Academy, developmental wrestling clinic.

(4) Granted waivers of the tryout rule per Bylaw 1-6-(d)-(2) as follows:

(a) University of Oregon, two open tennis tournaments.

(b) U.S. Naval Academy, open wrestling tournament.

(5) Granted waivers of the tryout rule per Bylaw 1-6-(d)-(5) as follows:

(a) Cleveland State University, high school swim team practice activities.

(b) College of Mount St. Vincent, two high school basketball contests.

(c) Pennsylvania State University, high school football play-off games.

(d) University of Pittsburgh, U.S. Gymnastics Federation clinic.

(e) Princeton University, various high school activities in the sports of baseball, swimming, tennis, track and wrestling.

(f) University of South Alabama, junior college basketball scrimmage activities.

(g) U.S. Military Academy, various high school indoor track meets and championships.

(h) University of California, Los Angeles, girls' volleyball championship activities.

(i) California State University, Fullerton, high school baseball tournament.

(j) Pennsylvania State University, state high school championship activities in the sports of swimming and golf.

(6) Granted waivers of the tryout rule per Bylaw 1-6-(d)-(6) as follows:

(a) Idaho State University, 1989 Idaho State Games, including use of facilities.

(b) University of Kentucky, U.S. Gymnastics Federation state gymnastics championship, including use of facilities.

(c) University of Iowa, recognized regional baseball competition, including use of facilities.

(d) Villanova University, U.S. Water Polo Federation tournament, including use of facilities.

(7) Approved a foreign tour per Bylaw 3-6-(b) by Furman University, men's basketball team to England, November 18-25, 1988.

(8) Granted a waiver per Bylaw 5-3-(g) of the one-year residence requirement of Bylaw 5-1 for a transfer student to the University of

Rhode Island from an institution whose basketball program was placed on probation with sanctions that would preclude the team from participation in postseason competition during all of the remaining seasons of the student-athlete's eligibility. The NCAA Committee on infractions recommended approval of the waiver.

b. Acting for the Executive Committee:

(1) Granted a waiver for championships eligibility per Executive Regulations 1-5-(b)-(5) and 1-5-(c) to North Dakota State University.

(2) Approved a change in dates for the 1989 Division II Men's Golf Championships from May 16-19 to May 23-26.

(3) Approved a recommendation by the Baseball Committee that Troy State University receive a \$750 honorarium for serving as host institution for the 1988 Division II Baseball Championship, per Executive Regulation 1-9-(c)-(4).

Calendar

October 23-25	Division I Women's Basketball Committee, Tacoma, Washington
October 29-30	Committee on Infractions, Kansas City, Missouri
November 11-13	Committee on Infractions, Tucson, Arizona
November 28	Presidents Commission Ad Hoc Committee on the National Forum, Washington, D.C.
December 1-2	Special Committee on Deregulation and Rules Simplification, Kansas City, Missouri
December 4	Divisions I, II and III Championships Committees, Kansas City, Missouri
December 5	Executive Committee, Kansas City, Missouri
December 12-15	Men's Water Polo Committee, San Diego, California
January 6-7	NCAA Professional Development Seminar, San Diego, California
January 6-13	NCAA Convention and related meetings, San Francisco, California

This is an artist's rendering of expanded Florida Field, which will have 9,100 new seats in 1990

Gators to expand Florida Field seating, add academic facility

If all goes according to plan, the University of Florida's football facilities will have a new look in 1990.

The plan calls for the enclosure of the north end zone of Florida Field, as well as major renovations of the student-athlete dorm, Yon Hall.

The enclosure of the north end zone, to be called "The Goal-Line Stands," will add 9,100 new seats and bring the capacity of Florida Field to more than 81,000. The major renovation of Yon Hall, the first since its construction over 20 years ago, will ease the cramped living quarters and add an academic-support facility.

According to athletics director Bill Arnsparger, "Football season tickets have been extremely hard to come by the last five years. We have been inundated with requests and have had to turn away thousands of fans. The new north end zone will add the much-needed seating."

"But just as important as expanding the stadium is the major renovation of our athletics dorm and the improvement of our academic-support facilities. The projects can become a reality only if we get enough advance commitments for seating in the new north end zone."

The key is "preselling the seats," according to Arnsparger. By ob-

taining financial commitments for a five-year period from fans, the athletics association will be in a position to borrow the necessary money without substantially increasing long-term debt.

The Goal-Line Stands will be divided into four sections. The Quarterback Armchairs (requiring a \$150 per seat booster contribution per year) will constitute the top 10 rows of the existing north end zone and will be under cover. The upper deck of the north end zone will have more chairback seats, labeled the Sunshine Seats (\$100 each).

The Touchdown Terrace (\$1,000 each seat) will feature chairbacks

and will be under cover and air-cooled. In addition, fans in this area will have access to the Touchdown Terrace, an air-conditioned lounge behind the terrace seats, consisting of closed-circuit television, concessions and restrooms.

The Gator Dens (\$20,000 each den) are luxury skyboxes that allow entertainment of up to 16 people per den, with sliding glass doors,

game-day catering and a television system.

As of early October, the Quarterback Armchairs already have been sold out. Demand for seats in the other areas, according to Gator boosters director John James, has been high. Contributions received for the north end zone will be counted toward the \$250 million capital campaign.

Coach gets 500th volleyball victory

When her Western Maryland College women's volleyball team defeated York College (Pennsylvania) during the October 7-8 Dickinson College Invitational, coach **Carol Fritz** earned her 500th career victory.

She has coached the Green Terrors since the school began fielding a team in 1968 and has suffered only one losing season (4-5), in 1971. "I never would have reached this point without the terrific players we have had," Fritz said. "The teams have not only brought a good deal of honor to me, but (also) to the entire school."

When he attended the Kansas Special Olympics Conference last month, NCAA Executive Director **Richard D. Schultz** was given a suggestion by Arizona Special Olympian **Christy Todd**.

During a speech to the conference on "Athletes for Outreach," Todd noted a number of colleges that have invited Special Olympics athletes to perform demonstrations and clinics at on-campus athletics events. "Wouldn't it be nice if all NCAA schools were involved in Special Olympics?" she asked. "Mr. Schultz, we have to talk later."

Noting that he has attended "some of the greatest sporting events in the world," Schultz later told the conference that "nothing has thrilled me more than (Todd's) speech."

Schultz will join several other speakers at an October 26 Alma College symposium on the future of intercollegiate athletics, which will have a special focus on Division III concerns.

Other featured speakers include **Kenneth J. Weller**, president of Central College (Iowa), and **William Vanderbilt**, professor of physical education (currently on leave) at Hope College. The event is one of several activities being held in conjunction with the inauguration of **Alan J. Stone** as Alma's 11th president.

Also on October 26, **Lonise Bias**, mother of the late Len Bias, will present a public lecture, "The Power of Caring," at Hope College.

Since suffering the loss of her son to apparent drug abuse, Mrs. Bias has toured the country lecturing on drug and alcohol abuse, along with related issues. Her appearance is being sponsored by the Hope health clinic.

For the second straight year, Delta Air Lines will serve as the major corporate sponsor for the Peach Bowl. Officials announced October 14 that Delta had signed an agreement worth more than \$100,000.

Currently ranked among the top 10 postseason events in terms of pay-out to participating teams, the 1988 Peach Bowl is set for December 31 in Atlanta Fulton County Stadium.

Trivia Time: Which two NCAA Division III members meet on the gridiron annually for the famous "Monon Bell"? Answer later.

Nebraska Wesleyan University has been named winner of the Nebraska Intercollegiate Athletic Conference all-sports award for the eighth consecutive year. Plainsmen teams claimed one league title (men's

Briefly in the News

tennis) and five second-place finishes (men's basketball, indoor track, outdoor track and golf and women's tennis) during 1987-88. Three teams—football, baseball and women's volleyball—tied for second in their respective league races.

Truth in Reporting: Headline on a University of Notre Dame football news release, which was dated October 17: "Unbeaten Irish face ground-oriented Air Force."

Cornell College men's basketball players got a lot of practice from the foul line October 22, thanks to a 24-hour free-throw marathon organized by coach **Gary Grace**. The event was developed to raise funds for team equipment and to purchase Christmas gifts for needy children in the Mount Vernon, Iowa, area.

Trivia Answer: DePauw University and Wabash College play annually for the right to claim the Monon Bell. The 1988 game will be played November 12 at Wabash. Thanks to Don Hansen's Weekly Football Gazette for this question.

Raycom plans to start Glasnost Bowl in '89

Two American college teams are scheduled to compete in the first-ever football game in the Soviet Union as a start to the 1989 season, an official of a national sports syndicator said October 19.

The game will be called "The Glasnost Bowl" and is scheduled September 2 in Moscow's Dynamo Stadium, according to Rick Ray, chief executive officer of Raycom, Inc.

"Football is such an exciting, explosive game. I think it will have a high appeal to the Russians," Ray said in a telephone interview from his Charlotte office. "With all the changes in the Soviet government, it has opened a lot of doors."

The teams have not been selected, Ray said, adding that volunteers have not been hard to find. Scheduling conflicts would have to be straightened out before the teams can be selected, he told the Associated Press.

"I would say we have heard or talked to 30 or more teams. We have not run into a team that has said it's not interested," Ray said.

The game will be shown to a global television audience and is to be packaged by Raycom, which televises 400 collegiate sporting events per year in the U.S.

Raycom International, which was formed out of the parent company, will organize, promote and manage the event through an agreement with the State Committee for Sport of the Russian Federation, according to Ray.

"We have been working on this project for five years," said Jim Aebli, president of Raycom International. "The Glasnost Bowl represents a milestone in developing international good-

will and understanding between the United States and the Soviet Union."

Boston University and the University of Richmond completed a soccer game in London in October. A college all-star game is played annually in Japan, and

"... the impetus for the game in Moscow might be Soviet concerns that American football will be included in future Olympic games."

other college teams have played regular-season games there.

In preparing for the game, Ray said his company will show several games on Soviet television. It also will distribute tapes in the country, demonstrating how the game is played, he said.

Ray said the impetus for the game in Moscow might be Soviet concerns that American football will be included in future Olympic Games. The Soviet Union is already trying to sharpen its skills in baseball, which was a medal sport at the Summer Games in Seoul.

"There actually are Soviet teams playing in Europe," Ray said. "The semipro teams have climbed (in number) from 60 to 800 in the last several years. We've seen similar types of things going on in broadcasting."

State to inquire into charges by South Carolina's Chaikin

By Rick Scoppe

South Carolina's top law-enforcement agency is hoping to interview ex-University of South Carolina football player Tommy Chaikin and others to determine the accuracy of allegations by Chaikin that players abused steroids and other drugs.

"All we have is reports in the news media," State Law Enforcement Division Chief Robert Stewart said. "I have no reason to believe they're not accurate, but we have to go ask the people."

"We have to deal in facts and

Holiday Bowl boosts payoff to \$850,000

Additional moneys from ticket sales and corporate sponsors will allow the Holiday Bowl to boost its guaranteed payoff to \$850,000 for each college competing in the December 30 football game, the bowl's executive director said October 18.

"We are increasingly becoming more competitive in our ability to hopefully attract a top-ranked team," said John Reid. He said the increased pay-out would vault the Holiday Bowl into seventh or eighth place among 17 postseason bowl games in terms of money for the participating schools.

Last year, the Holiday Bowl ranked 10th with payments of \$771,000 each to 1987 Western Athletic Conference champion Wyoming and Iowa of the Big Ten Conference. Iowa beat Wyoming, 20-19.

Reid said a \$2.50 increase in ticket prices to \$25, along with more money from the bowl's principal sponsor, Sea World, and its share of television advertising sales financed the raise in the guaranteed pay-out.

The bowl game, in its 11th year, will be played at San Diego's Jack Murphy Stadium and televised by ESPN. It serves as a showcase for the WAC champion, which will receive an automatic bid to play an at-large invitee.

Reid said ticket sales for the game have been strong. Fewer than 1,600 remain as of October 17, excluding 10,000-seat allotments reserved for each school.

Jack Murphy Stadium seats about 61,000.

TAAC title game to be on ESPN

The Trans America Athletic Conference and ESPN have reached an agreement to televise the 1989 TAAC tournament championship basketball game live from Little Rock. The game will be shown March 9 at 4 p.m. Central time.

The TAAC had its 1988 tournament televised by Home Sports Entertainment and Tempo TV live from Daytona Beach, Florida, marking the first time the TAAC tournament title game had been shown nationally.

Previously, KTHV-TV in Little Rock broadcast the TAAC title game statewide in Arkansas in 1986 and 1987.

"We are very excited about having ESPN show our tournament championship game live next March," said TAAC Commissioner Lou McCullough. "Without question, this will assist us in our attempt to gain national exposure for the conference and our 10 member schools."

The TAAC tournament will run in its entirety from March 7 through March 9.

what people tell us, usually in sworn statements. We just can't read something in the news media and go open a full investigation."

Stewart said at a news conference October 20 that the agency would conduct what he called a "preliminary inquiry" into Chaikin's allegations.

In an article in Sports Illustrated, Chaikin, who played at South Carolina from 1983 to 1987, said he took steroids for three years and that about 50 of the 100 players on the 1986 team also used them. He also said players took other drugs, including LSD and cocaine.

The decision to conduct a preliminary investigation followed discussions by Stewart with Solicitor James Anders, who requested the investigation, and Joe McCulloch,

a Columbia lawyer who represents the school in some matters.

"The University of South Carolina has agreed to the necessity of a preliminary inquiry and will cooperate fully," Stewart said. "This will start as soon as possible."

"The reason it's a preliminary

media... to see if those statements are accurate and correct, and then we will determine how to proceed."

If those contacted confirm that their statements were accurate, he said, that "would be a basis" for a full investigation.

Stewart would not say whether

"The University of South Carolina has agreed to the necessity of a preliminary inquiry and will cooperate fully."

Robert Stewart, chief
Law Enforcement Division

inquiry is that all we have at this point is what has been furnished to us by the news media," Stewart said. "No one has contacted us directly. Therefore, we will have to contact the persons mentioned in the news

any coaches would be interviewed, but he did say Chaikin would be among those contacted.

"I think that would be a good place to start," Stewart said.

Stewart said it was "premature"

to say whether any charges might result from the investigation.

Stewart said he hoped that the preliminary investigation would be over within two weeks. He said he didn't know how many agents would be assigned to the probe.

Athletics director Albert "King" Dixon said in a statement that the university "would participate and cooperate to the fullest" in the probe.

Anders said a Richland County grand jury also would investigate the allegations by Chaikin. Anders said the grand jury would meet early next month and he didn't know if he'd be ready to proceed by then. He said he would begin proceedings before the end of the year.

Scoppe writes for the Associated Press.
