Committee on costs maps plan

In its first meeting, the Special Committee on Cost Reduction developed an action plan that will include six months of research and exploration with a goal of legislation for consideration at the 1991 NCAA Convention.

The special committee, which was established by the adoption of Proposal No. 39-1 at the 1989 Convention, met May 30 to June 1 in Dallas.

The resolution contained in Proposal No. 39-1, which was offered as a substitute when Proposal No. 39 (that would have established need-based financial aid restrictions in Divisions I and II) was withdrawn, charged the special committee to prepare legislation that would reduce the costs of intercollegiate athletics without denying students access to higher education or significantly altering the competitive balance among member institutions.

In addition, the resolution specifically charged the special committee to explore the merits of restricting athletics scholarships to basic educational expenses plus demonstrated need as defined in Proposal No. 39.

Under the action plan developed by the special committee, four subcommittees were created to study the areas of financial aid, recruiting, staffing policies and competitive policies.

The subcommittees will use the next six months to gather information, research and public opinion, and reactions from individual groups to proposals.

Chaired by Eugene F. Corrigan, commissioner of the Atlantic Coast Conference, the special committee spent much of its time discussing the boundaries of its charge and defining areas for study.

Included in the latter were individual group discussions in the areas of trends (using typical indices to study economic trends for the next five to 10 years), perceptions and politics (determining commonly held notions about intercollegiate athletics that may need to be proven or

CFA will continue study of I-A play-off

The College Football Association has appointed a committee to continue studying a proposed 16-team play-off and to evaluate the post-season bowl structure.

In addition, the CFA voted to submit legislation at next January's NCAA Convention that would restore the 30 initial grants per year limit on football grants-in-aid (the current limit is 25). But the CFA members rejected a "recovery" plan that would have allowed Division I-A schools under the limit to get back to 95 total scholarships over a two-year period.

Those actions, among others, were taken during the CFA's annual meeting in Dallas June 2-4.

CFA Executive Director Charles M. Neinas said the bowl study was "not meant to be a knock on the bowls. The bowls themselves have a committee that is looking at some of the ways they might improve the bowl system." CFA members applauded the bowls for the benefits they have brought to college football.

"The athletics directors felt it would be helpful if the CFA had its own committee to evaluate some of the bowl practices and maybe we could offer some suggestions to them," Neinas told the Associated Press.

"There is an honest concern in two areas. One is the desire to promote college football in a positive manner, and we feel the inspiration to a large degree behind the development of a championship proposal was to help promote college football. The second is it is the colleges and the universities themselves that are dedicating a lot of dollars, a lot of effort, a lot of time into sponsoring college football."

Neinas said that one study would involve an effort to look at cost controls, with an eye to potential changes.

"The bowls claim they exist for college football," he said. "If that is the case, then the bowls should have no problem having a group that represents a majority of their participants evaluating the system to maybe make valid suggestions to them."

Neinas conceded there was "always a possibility" that changes in the bowl system could negate the play-off proposal.

That translates into money. The 24 CFA teams that played in bowl games last season received \$33.5 million. Revenue from the proposed play-off has been estimated at anywhere from \$42 million to \$87 million, with all CFA members sharing the money.

(See related story on page 4.)

Donnie Duncan, athletics director at the University of Oklahoma, said the purpose of the study committee would be "to enlighten, not criticize." He proposed a resolution, which was adopted, stating that "the mem-

See CFA, page 2

Craig Thompson

Thompson fills post on Council

Craig Thompson, commissioner of the American South Conference, has been appointed to a Division I-AAA position on the NCAA Council, effective immediately.

The NCAA Administrative Committee appointed Thompson to replace James W. Shaffer, who has resigned as commissioner of the Midwestern Collegiate Conference to become a vice-president at Butler University.

Under the provisions of the NCAA constitution, Thompson will serve until the next Convention, at which time he will be eligible for nomination by the Nominating Committee to serve the remainder of Shaffer's term, to January 1992.

Thompson was named the first executive of the American South Conference in March 1987. The six-member league conducts 12 sports, six each for men and for women. The members are Arkansas State University, Lamar University, Louisiana Tech University, the University of New Orleans, Pan American University and the University of Southwestern Louisiana.

Before taking the commissioner's position, Thompson was director of

See Thompson, page 3

SEC reaffirms support of Proposal No. 42

Southeastern Conference chief executive officers have reaffirmed their support for Proposal 42 as approved by the 1989 NCAA Convention in San Francisco.

The proposal requires prospective student-athletes in Division I to score at least 700 on the SAT or 15 on the ACT and to have a 2.000 grade-point average (4.000 scale) in an 11-course core curriculum to be eligible for an athletics grant-in-aid, beginning in 1990.

Partial qualifiers no longer would be eligible for an athletics grant as allowed under NCAA Bylaw 14.3, which originally was approved as Bylaw 5-1-(j) and widely referred to as Proposition 48.

"We believe that movement from Proposition 48 to Proposition 42 is a process, not an event," Auburn University President James E. Martin told David Davidson of The Atlanta Journal and Constitution. "We're pleased with the direction we see things going. The student-athlete should be prepared to go to college when he gets to college," Martin said June 1 at a Southeastern Conference meeting in Destin, Florida.

The approval of Proposal No. 42 resulted in a significant number of protests from coaches and some athletics administrators who said the elimination of grants to partial qualifiers would damage minority

education efforts.

The NCAA Council and the Presidents Commission agreed to review the legislation following the criticism of the measure.

In April, the Presidents Commission said it favored an amendment to the legislation to sustain the basic intent of Proposal 42 but to permit a certain category of nonqualifiers (those who would have been considered partial qualifiers) to receive need-based institutional financial aid that is available to all students.

Later in April, the Council voted to establish a subcommittee to present a consensus recommendation on Proposal 42 to the full Council

in August.

In other reactions to the criticism over Proposal 42, the NCAA Committee on Financial Aid and Amateurism suggested that financial aid be divorced from the initial-eligibility legislation, a step that would permit nonqualifiers and partial qualifiers to be treated the same for purposes of financial aid.

And the Academic Requirements Committee recommended that Proposal 42 remain on the books but that its effective date be delayed until 1992 when the research data regarding the first class of students affected by Bylaw 14.3 will be available and analyzed.

CFA

Continued from page 1

bership recognizes and appreciates the significant contributions to and the enhancement of college football by the bowls."

The recommendation to restore the limit of 30 football grants each year was a substitute proposal by Florida State University athletics director C. W. "Hootie" Ingram after debate on the "recovery" plan.

The membership turned a deaf ear to pleas from Iowa State University coach Jim Walden, Texas Christian University's Jim Wacker, Kansas State University's Bill Snyder and New Mexico University's Mike Sheppard, whose teams are under the 95 limit.

Roy Kramer, athletics director at Vanderbilt University and a member of the NCAA Committee on Infractions,

said the proposal would "negate the ability of the infractions committee to penalize an institution."

"I've got sympathy for Florida, I've got sympathy for Iowa State, I've got sympathy for SMU, but those institutions are where they are because they got penalized by the infractions committee."

"The intent of the infractions committee is directed at the institution. It takes time (to rebuild); that's the intent of the process."

Walden said a return to 30 grants a year would enable programs to rebuild, but at a slower rate. Such a proposal was rejected at last January's NCAA Convention.

The CFA also:

- Accepted a suggestion by Nebraska coach Tom Osborne to form a committee to study the plight of

the student-athlete. "We're asking more and more of players and giving them less and less in return," Osborne said.

(See story on page 5.)

- Granted active membership to Temple University as the CFA's 64th member but said it would not share in the current CFA television plan, which expires after the 1990 season.

- Recommended a sliding test score-grade-point average scale to the NCAA's controversial Bylaw 14.3 similar to what was used when the legislation was implemented three years ago.

- Recommended a delay in the implementation of Proposition 42, which would eliminate partial qualifiers from receiving any athletics scholarships, until completion of an NCAA study of the first five years

of Bylaw 14.3.

- Rejected a proposal to allow student-athletes to receive the full \$2,300 from the Federal Pell Grant as opposed to the current \$1,400.

- Recommended reinstatement of a rule that would allow an institution to visit a high school one day per calendar week.

- Recommended that a head

coach be allowed to visit a prospect once in the home and once in the high school.

- Recommended extending the football evaluation period to include Fridays in October for coaches to watch high school or junior college games, while eliminating the December 24 to January 1 period from the recruiting calendar.

FTC review of TV rights sales for college football is continuing

Lewis Engman, a Washington, D.C., lawyer who has been retained to represent the College Football Association, says the Federal Trade Commission's current investigation into the selling of television rights for college football could last into the mid-1990s.

"My understanding is that they (FTC) are investigating the selling of television rights for college football across the board."

The FTC essentially is taking another look at the 1984 U.S. Supreme Court ruling that the NCAA's now-defunct football television plan violated the antitrust laws because it limited competition.

"Nobody is a defendant at this point," said Engman, a former FTC chair.

Engman said the CFA's television plan has increased competition and provided more choice for the consumer, "which is exactly what the Supreme Court said would happen if the NCAA plan was invalidated

that bore some resemblance to the old NCAA plan.

Both the FTC and the Justice Department have the power to administer the antitrust laws.

"It is clear under the CFA's plan that, No. 1, many more college football games are being televised today than in the past, and the price has not been detrimental," Engman said. "We are cooperating with the commission's investigation because we believe that our plan meets the

guidelines set down by the Supreme Court in the NCAA case and, in fact, is procompetitive because it increases consumer choice.

"The consumer is the guy watching football games, and he has a better situation today than he did 10 or five years ago. Their (the FTC's) focus point is going to be on the consumer, and the whole purpose of our economy is that consumers ought to have as much choice as possible."

Legislative Assistance

1989 Column No. 23

NCAA Bylaws 13.11.3 and 14.8.6.1—exceptions and waivers for state games

As set forth in Bylaw 14.8.6.1-(d), a student-athlete who wishes to participate in officially recognized state and national multisport events must be sure prior to such participation that the events in question are sanctioned by the NCAA Council. The Council's sanction is necessary in order to waive the provisions of the outside competition regulations set forth in Bylaw 14.8.1 (sports other than basketball) and Bylaw 14.8.2 (basketball). Particularly, the "state games" competition that normally takes place during the summer months and is sponsored by the individual states must meet the requirements of this legislation. In accordance with the provisions of Bylaw 14.8.6.1-(d), the following states have received approval from the NCAA Administrative Committee (acting for the Council) to permit student-athletes with eligibility remaining to participate in all the event's sports.

Badger State Games (Wisconsin)	Nutmeg State Games (Connecticut)
Bay State Games (Massachusetts)	Ohio Sports Festival
Big Sky State Games (Montana)	Prairie Rose State Games (North Dakota)
California State Games	Prairie State Games (Illinois)
Centennial State Games (South Dakota)	Show Me State Games (Missouri)
Cowboy State Games (Wyoming)	Star of the North State Games (Minnesota)
Empire State Games (New York)	Upper Peninsula Sports Festival (Michigan)
Garden State Games (New Jersey)	Utah State Games
Idaho State Games	White River Park State Games (Indiana)
Keystone State Games (Pennsylvania)	Maryland State Games

Further, the use of a member institution's facilities for state games and participation of an institution's athletics department staff member in such recognized regional or national training programs or competition would be considered an exception to the tryout legislation in accordance with the provisions of Bylaws 13.11.3.3 and 13.11.3.4.

Student-athletes with collegiate eligibility remaining who wish to participate in state games competition not listed above should contact the institution with which they are affiliated or the state games organization to request that it submit the necessary waiver request to the NCAA legislative services department. Further, a member institution scheduled to host state games competition on its campus may not be involved in the conduct, promotion or administration of the activity (other than activities incidental to supervising the use of the facilities), and would be subject to all applicable NCAA recruiting legislation according to Bylaw 13.11.3.3.

NCAA Bylaw 15.3.5—institutional financial aid award renewals and nonrenewals

Member institutions are reminded that in accordance with the provisions of Bylaw 15.3.5.1, the renewal of institutional financial aid shall be made on or before July 1 prior to the academic year in which it is to be effective. The institution shall promptly notify in writing each student-athlete who

received an award the previous academic year and who has eligibility remaining (under Bylaw 14.2 or 14.1.7.2) for the ensuing academic year whether the grant has been renewed or not renewed. Such notification of financial aid renewals and nonrenewals must come from the institution's regular financial aid authority and not from the institution's athletics department.

In addition, if the institution decides not to renew or decides to reduce financial aid for the ensuing academic year, the institution shall inform the student-athlete that he or she, upon request, shall be provided a hearing before the institutional agency making the award. The institution shall have established regular procedures for promptly hearing such a request and shall not delegate the responsibility for conducting a nonrenewal hearing to the university's athletics department or its faculty athletics committee. The decision to renew or not renew the financial aid is left to the discretion of the institution, to be determined in accordance with its normal practices for students generally.

In accordance with Bylaw 15.3.2.3, in all cases, the institutional agency making the financial aid award shall give the recipient the written statement of the amount, duration, conditions and terms of the award. The chair of the regular committee or other agency for the awarding of financial aid to students generally, or the chair's official designee, shall sign the written statement. The signature of the athletics director, attesting to the committee's award, does not satisfy this requirement.

NCAA Bylaw 12.5.4—use of logos on equipment, uniforms and apparel

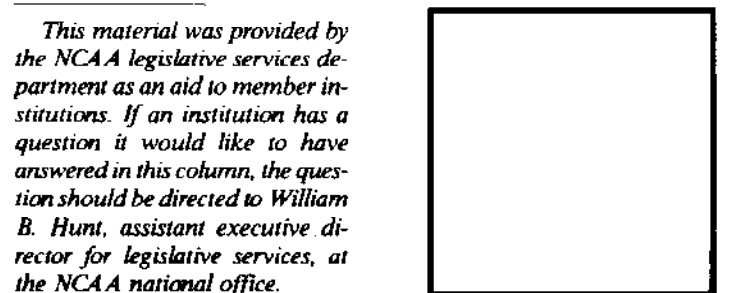

As set forth in Bylaw 12.5.4, a student-athlete may use athletics equipment or wear athletics apparel that bears the trademark or logo of an athletics equipment or apparel manufacturer or distributor in athletics competition, provided that in the case of: (1) athletics equipment (e.g., shoes, helmets, baseball bats and gloves, batting or golf gloves, hockey and lacrosse sticks, goggles, and skis), the item bears only the manufacturer's normal label or trademark as it is used on all such items for sale to the general public, and (2) the student-athlete's institution's official uniform (including numbered racing bibs and warmups) and all other items of apparel (e.g., socks, headbands, T-shirts, wristbands, visors or hats, swim caps and towels), the clothing (if purchased or acquired subsequent to November 7, 1983) bears only a single manufacturer's or distributor's normal label or trademark, not to exceed a 1½-inch square in size.

Accordingly, a logo that appears on an institution's official uniform and all other items of apparel must fit within the 1½-inch square size diagram provided below.

1½"

This material was provided by the NCAA legislative services department as an aid to member institutions. If an institution has a question it would like to have answered in this column, the question should be directed to William B. Hunt, assistant executive director for legislative services, at the NCAA national office.

1½"

Committee

Continued from page 1

disproven), and philosophy of intercollegiate athletics (defining what it is and whether it should be changed).

It was the sense of the subcommittee that while most levels of intercollegiate athletics are experiencing financial problems, it is difficult to achieve unilateral change and national action probably will be required.

The group also heard a report from Fred Jacoby, commissioner of the Southwest Athletic Conference and chair of the Special Committee to Review the NCAA Membership Structure, and discussed possible parallel areas of study.

Future meeting dates were set for September 13-14 and November 7-8.

Other members of the cost reduction special committee include William H. Baughn, University of Colorado; John R. Brazil, Southeastern Massachusetts University; Marvin G. Carmichael, Clemson University; Cedric W. Dempsey, University of Arizona; R. Elaine Dreidame, University of Dayton; Patricia Harris, California State University, Los Angeles; Willard Huyck, University of the South; Karol A. Kahrs, University of Illinois, Champaign; Harley Lewis, University of Montana; Donna A. Lopiano, University of Texas, Austin; Arthur J. McAfee Jr., Morehouse College; Gregory M. St. L. O'Brien, University of New Orleans; Margaret R. Preska, Mankato State University; Francis X. Rienzo, Georgetown University; Stanley G. Rives, Eastern Illinois University; Bernard F. Sliger, Florida State University, and Charles Whitcomb, San Jose State University.

Thompson

communications for the Metropolitan Collegiate Athletic Conference for four years.

A Minnesota native, he is a 1978 journalism graduate of the University of Minnesota, Twin Cities, where he worked in the sports information office. After graduation, he served as assistant sports information director at Kansas State University for two years.

He then spent 3½ years as director of public relations and promotions for the Kansas City Kings in the National Basketball Association before moving to the Metro Conference as director of communications.

School reinstates soccer program with outside help

Through outside contributions, the men's soccer program at Southeast Missouri State University, which had been scheduled for elimination, will be continued for two years, school officials have announced.

Cape Girardeau residents pledged \$20,000 toward the program to the Southeast Missouri State University Foundation, according to Bill W. Stacy, school president.

Stacy had announced May 16 that \$800,000 would be cut from the athletics department budget, but he indicated that he would consider keeping those programs scheduled for elimination if outside funding could be found.

The Division II school has announced its intention to move to Division I beginning with the 1991-92 academic year.

Hansen gives views on restructuring of tournament

The NCAA Division I Men's Basketball Championship should be opened to all Division II schools in exchange for tighter restrictions on Division I membership, Thomas C. Hansen, commissioner of the Pacific-10 Conference, said June 5.

Hansen, a member of the Special Committee to Review the NCAA Membership Structure, made the proposal at the annual convention of the National Association of Collegiate Directors of Athletics.

"There is currently great disparity in Division I, where there are programs with 25 to 30 sports and a \$25 million budget and those that don't average a minimum of six sports and have budgets of less than \$1 million," Hansen said at the meeting of nearly 800 athletics directors and

conference commissioners in Anaheim, California.

He said it is wrong for both types of schools to have equal voting power in NCAA rule-making decisions.

Hansen said the committee was formed because of membership unrest stemming from a growing number of teams in Division I that seemingly belong only to reach for the "pot of gold" that comes with participation in the NCAA Division I Men's Basketball Championship.

Hansen's proposal calls for all Divisions I and II schools to become eligible for the men's basketball tournament while establishing stricter guidelines for Division I membership, including the sponsorship

Thomas C. Hansen

of 10 sports each for men and women.

Suggested restrictions include requiring that schools give grants-in-aid in all sports sponsored, requiring a minimum percentage of Division

I games be played against Division I opponents, establishing minimum seating capacities for Division I basketball facilities and requiring Division I basketball schools to sponsor more than the present minimum of six sports.

He said NCAA statistics show that of the 292 Division I basketball members, only 105 also sponsor Division I-A football, more than one-third averaged less than 2,500 a game in attendance and nearly 10 percent failed to average more than 1,000 in per game attendance, the Associated Press reported.

The committee's report is due in April of 1990, and Hansen stressed that the proposal mentioned was his alone.

Comment

Another Manley not likely at Oklahoma State, counselor says

By Gil Broyles

An athlete would find it "pretty difficult" doing what Washington Redskins star Dexter Manley says he did at Oklahoma State University, the director of the school's athlete-counseling program says.

Manley told a U.S. Senate subcommittee last month that he survived high school and college without being able to read above grammar school level.

"With the policies and procedures we have in place now, in addition to the university standards, it would be pretty tough for somebody to slip through all the way," Ron Brown said.

A decade ago, Brown said, academic services were available to athletes who wanted to take advantage of them. Now, an athlete's academic career is kept under tighter rein.

"Our tutors are briefed on exactly what they can or cannot do with these students," Brown said. "If someone is caught doing something unethical, he is dismissed immediately."

Counselors start with high school transcripts and gather information from coaches and high school counselors about new student-athletes. If the student has a reading deficiency or a form of dyslexia, an individual remedial program is drawn up. The university requires mathematics and English composition placement exams.

"Any student that we feel is borderline, based on the ACT, or if English is borderline, he will be placed in a reading and study-skills-improvement class," Brown said.

Manley told the hearing that he had to attend literacy classes at age 27 to learn to read and write above a second-grade level.

Manley said he survived academically because he was a "good actor." His college girlfriend said she completed homework, essays and take-home tests for Manley.

"I guarantee that Dexter was not the only one who went through an institution like that," Brown, director of academic student services for athletes, said.

Brown, who has been with the

Ron Brown

Oklahoma State counseling program for four years, the last year as director, says the publicity arising from Manley's statements has not hurt the university.

"It doesn't really bother me, because I look at it as positive publicity for students and athletics in general," Brown said.

Brown said when Manley was at Oklahoma State from 1977 to 1981, it was before the NCAA had passed Proposition 48, setting higher academic requirements for student-athletes.

Manley got a six out of a possible 30 on the ACT, more than 12 points below the mean composite score for the test. School officials said he was allowed to enroll on probationary status.

Brown said students who want to learn college "survival skills" can squeeze out passing grades without ever coming to grips with the educational process. The use of term paper banks, test samples and illicit use of student tutors all can help a struggling student earn a passing grade, he said.

Brown said Manley's testimony serves as a high-profile example for

the majority of athletes, who won't ever play their sport professionally.

"The message he's sending to young people is that they need to get serious about academics," Brown said. "Yeah, you can slip through the system, but eventually it can catch up with you. To me, it does more to help send a message to the students who are enrolled in our program now."

"If you've got a problem, don't try to mask it. Don't try to cover it up. Get some help."

Brown said there are support services available for the 100 to 110 scholarship athletes he and his counselors deal with each year.

Manley left Oklahoma State about 50 credits short of graduation. Brown said his office is intent on reducing the number of athletes who complete their eligibility with-

out gaining a diploma.

Student athletes stay on scholarship for up to five years to allow them extra time to complete required coursework, Brown said.

"Our No. 1 objective is to help them get a degree at Oklahoma State University," Brown said. "I could care less about eligibility. I want them to get some paper out of here."

Brown said 62 percent of the scholarship athletes completing four years at Oklahoma State received degrees in 1988. He said some athletes will get their diplomas after a fifth year. And, Brown said, that percentage is improving, in part because Proposition 48 makes for better-prepared student-athletes.

Broyles writes for the Associated Press.

Play-off payoff: TV executive in dark about amount

The College Football Association expects to make a bundle for its members if its play-off proposal ever comes to pass. But the head of CBS Sports says he doesn't know where the CFA got its estimate of a payoff between \$42 million and \$87 million.

"There are a lot of pros and cons about a football play-off, and the only position that I've taken is that if they come to a collective decision to have a college play-off, not surprisingly, I think CBS would certainly be interested in talking to them about the broadcast rights," Neal Pilson told the Associated Press.

"But beyond that, we have not played a role; we have not furnished any numbers. In fact, we haven't done any of the mathematics ourselves, which I think would be premature. I don't have a comment on the numbers other than to say they didn't come from us."

Dave Ogrea, the CFA's assistant executive director for television, said he expected the TV dollars to be there if a play-off comes about.

"I believe the television networks, like many football coaches, are probably in a position where they're not willing to publicly express a strong

opinion because the status quo serves them reasonably well," Ogrea said. "If the play-off comes into effect, the television networks will participate, the college football coaches will coach and we will move

into the championship mode.

"Until that happens, however, both the networks and the coaches especially want to maintain their good relationships with the bowl establishment."

Pilson called a college football play off "an attractive television event," adding:

"The one measurement that's available for anyone who cares to

Staying with a job also a challenge

Jim Steen, swimming coach
Kenyon College

Athletic Administration

"I think there is something to be said for sticking with it. (Kenyon has won 16 NCAA men's and women's swimming titles in 10 seasons) I'm not into winning national championship after national championship. I'm really into team development.

"Sure, a new job is a challenge. But I think staying in one place (14 years at Kenyon) also is a challenge."

Myron L. Coulter, chancellor
Western Carolina University

The Associated Press

"He (former head football coach Bob Waters) has been a symbol of honesty and fair play for his players and a great credit to his sport and to Western Carolina.

"Coach Waters... has given us a legacy of integrity and sportsmanship in athletics and in contending with the illness from which he suffered, he also has given us a shining example of inner strength and courage that people need in times of adversity."

Sam McDowell, former major league pitcher
Drug counselor

The Dallas Morning News

"So many educators get all hot for drug education and they'll bring in some big-shot athlete or movie star, and he may talk a couple of hours on drug abuse and tell his own experience, and that's it.

"Students should have to attend class every day (in a full-time drug course), do assigned homework, take tests, just as in any other required courses.

"And if a student flunks the course, he would have to take it over again in summer school, just like biology or physics.

"Some people might say we're panicking. But if we began right now, working to get the program made mandatory in all states and added to every school curriculum, we're still talking 25 years before it's all functioning properly."

Dale McNamara, women's golf coach
University of Tulsa

San Francisco Sunday Examiner and Chronicle

"I try to recruit young ladies that I have rapport with, and vice-versa. I want some dignity out there.

"My main concern is to get them off the course and into the mainstream of college life. I want them to join sororities and have fun. I want them to be able to turn it off."

Rick Pitino, head men's basketball coach
University of Kentucky

The Associated Press

"The sanctions and probation just make it tougher, but we will overcome all obstacles to make Kentucky basketball rich again.

"Come to the games and cheer as loud as you (boosters) can, but stay away from our practices; stay away from my players.

"I gave up a lot. I gave up a potential (NBA) championship to come to Kentucky. The lure is the family atmosphere. I wanted to be a college coach."

Lonny Rose, vice-president
SportsMasters consultants

The Dallas Morning News

"The NCAA structure itself requires an athletics director to keep a very close eye and hand on what goes on in the athletics department.

"The whole concept of institutional responsibility requires that. There is a recognition that even though

Opinions

the president of the university signs off on all this stuff, in reality, the president doesn't really know what is going on; but it is the athletics director's responsibility to know what's going on."

Richard D. Schultz, executive director
NCAA

Des Moines Sunday Register

"The biggest myth of all is that there are a lot of schools making millions and millions of dollars from athletics.

"That isn't true, because those programs are supporting 15 to 20 sports.

"There are a lot of options that can be considered.... I think it is time some cuts should be considered."

Looking Back

Five years ago

The NCAA Presidents Commission, established at the 1984 NCAA Convention, held its first meeting June 30, 1984, in Chicago. Chaired by Indiana University President John W. Ryan, the Commission agreed to focus its work initially in four primary areas: academic affairs, financial issues, institutional control and integrity, and student life (The NCAA News, June 20 and July 4, 1984)

Thirty years ago

Based on a report of a survey taken by the Special Committee on Junior Colleges, the NCAA Council voted June 12, 1959, not to recommend establishment of an NCAA membership category for two-year colleges. ("NCAA: The Voice of College Sports")

Forty years ago

The NCAA Executive Committee voted June 18, 1949, to allocate \$5,000 for a study by Crossley, Inc., of New York City of the effects of television on football attendance. The study proved inconclusive. ("NCAA: The Voice of College Sports")

Fifty years ago

The annual Intercollegiate Golf Championships of the U.S. were held under NCAA auspices for the first time June 24-29, 1939, at the Wakonda Country Club, Des Moines. Stanford won the team championship by two strokes over Northwestern and Princeton, while Tulane's Vincent D'Antoni won the individual match-play title. CAA may decide to experiment with six-foul limit next season

By John O'Connor
Richmond Times-Dispatch

Five fouls may not mean you are out in the Colonial Athletic Association next basketball season. During their spring meeting, a majority of the league's coaches voiced approval for a six-foul limit in CAA games.

Conference coaches and athletics directors agreed to discuss the matter during the summer, when the final decision will be made.

Permission for leagues to experiment with this rule alteration has been granted by the NCAA, which also left open the option of conferences voting to shoot three free throws when fouled in the act of shooting a missed three-pointer.

"That would be a horrible rule," East Carolina University coach Mike Steele said of the three shot option. "Refs have a tough enough time now seeing where a guy's feet were when he shot. For them to have to make a (three-shot decision) on whether the guy got hit or not while still trying to see where he shot from... They'd need instant replay."

But the six-foul possibility interests the CAA coaches. James Madison University coach Lefty Driesell explains his reasoning, to which most of his peers subscribe: "Fans come to a game to see a guy like David Robinson or Johnny Newman play. Daggone, if those guys

get into foul trouble, you can't watch them play. In a way, it protects the star player."

"We're not a league that has a lot of depth," said U.S. Naval Academy coach Pete Herrmann. "People want to see good players play all of the time."

Chuck Swenson can buy that. But the College of William and Mary's coach opposes the extra-foul rule because it would not necessarily be in effect for nonleague games.

"I don't want to play by two different sets of rules—one for conference play and one for out-of-conference and postseason play," said Swenson.

More than one coach suggested that their tentative approval may be viewed as a commentary on the quality of officiating last season. Some of college basketball's best officials left for the NBA before the 1988-89 season, leaving many CAA games called by referees who had not worked previously on the Division I level.

"The way I look at it, smart players don't get in foul trouble very often," said Steele. "If you're going to pick up five stupid fouls, you're probably going to pick up six stupid fouls."

"The (sixth-foul allowance) doesn't interest me in the least. I experiment with my golf swing, not this kind of stuff."

Osborne critical of inaction on student-athlete proposals

Tom Osborne admonished his colleagues at the College Football Association annual meeting for voting down a series of proposals that would have benefited football players, and he insisted college administrators needed to do more for those who are helping bring money into the school.

Osborne is football coach at the University of Nebraska, Lincoln.

"Look at the signals we sent out at this meeting," Osborne said. "We refused to allow money to incoming freshmen during summer school; we refused to allow more money under the (government regulated) Pell Grants.

"This organization is supposed to provide help to athletes. We did not

provide any help here."

Income from college football has gone up significantly since 1960, Osborne said. "In that time, we have taken away the \$15 laundry money that they used to receive. We are giving them drug tests. We have stiffened their eligibility requirements. Our players face the pressures from agents and the NFL. We need to address their concerns."

Osborne's remarks drew a large round of applause from the 200 people in the room and prompted outgoing CFA president Col. John J. Clune, athletics director at the U.S. Air Force Academy, to set up a committee "to look at what we can do for the student-athlete who is economically deprived." United Press International reported.

Play-off

Continued from page 4

research it is the rating results where the bowl games have had national championships (the Penn State-Miami Fiesta Bowl in 1986, the Miami-Oklahoma Orange Bowl in 1987, the Notre Dame-West Virginia Fiesta Bowl last year).

"My recollection is the ratings were between a 20 and a 25, which is a very strong prime-time number for college football. So certainly, the history of television ratings where bowl games have had acknowledged national champions has been impressive."

Last season, 24 of the CFA's 63 member schools played in bowl games and reaped \$33.5 million before expenses. Under the play off plan, the CFA would cover all expenses.

CFA Executive Director Charles M. Neinas said he "would guarantee members the net from the play off initially would be at least as high as the gross amount our schools received from bowls last year. And I would expect it would be significantly higher."

Harvey W. Schiller, commissioner of the Southeastern Conference and chair of the CFA's play-off subcommittee, has predicted that a college football play-off "could surpass the Super Bowl as America's premier sporting event."

News Fact File

A total of 41 Division I member institutions did not participate in any NCAA championships in any sports, for men or women, from 1985-86 through 1987-88. Another 23 institutions participated in only one championship during that period.

Louisiana State men claim first track crown since 1933...

Louisiana State claimed only one individual title but scored points in nine of 21 events to capture its first team title at the Division I Men's Outdoor Track and Field Championships since 1933.

The school's women also won a team title during combined men's and women's championships May 31 through June 3 at Brigham Young, making Louisiana State the first institution to win both titles in the same year.

John Nichols won the only men's individual title for the Tigers, taking first in the discus with a throw of 208.1. But Slip Watkins gave LSU a big boost with finishes of fourth in the 100 meters and fifth in the 200 meters, in addition to running on the fourth-place 400-meter relay team.

The Tigers also claimed second place in the 10,000-meter run, third and sixth in the long jump, and fifth in the decathlon. LSU scored 53 points to Texas A&M's 51.

"I'm just so pleased for all the guys and gals on this team," said

Louisiana State coach Pat Henry.

"While nobody really expected the men to do as well as they did, I really felt we would end up in the top five," Henry said.

Florida, one of two premeet favorites, was third with 39 points.

Championships Results

The Gators were hurt early in the meet when Mark Everett was unable to qualify for the 800-meter final. Later Dennis Mitchell was disqualified for a false start in the finals of the 100-meter dash.

Mitchell, however, came back to win the 200-meter dash.

"A couple of mishaps cost us the meet," conceded Florida coach John Webb. "It's unfortunate, because the kids worked so hard. We had a chance to put away the national championship, but it didn't quite work out. But, when you leave

disappointed with third place, it means you have a pretty good program."

The meet's other favorite, injury-plagued defending champion UCLA, finished sixth with 28 points.

Three individual meet records were established during the competition, including a leap by Southwestern Louisiana's Hollis Conway of 7-9/4 in the high jump, which also is an American best. Conway missed three attempts to become the first high jumper to clear eight feet.

Joe Greene of Ohio State won the long jump with a wind-aided leap of 27-7/4 but saw runner-up Leroy Burrell of Houston get his name in the books with a record (and countable) jump of 27-5/2. It was the third time Greene had surpassed the school record of former Buckeye Jesse Owens only to lose the record to the wind.

"I don't know if Jesse Owens had a wind gauge back then. Everybody was zero or one-something (wind speed), but Joe Greene has 2.04 in

the wind," Greene said.

The championships' other record was set by pole vaulters Tim McMichael of Oklahoma and Kansas' Pat Manson and Cam Miller, who cleared 18-6/2. McMichael won the event on fewer attempts.

Four champions successfully defended titles at the meet. Paul Freng of Virginia in the 800 meters, John Scherer of Michigan in the 10,000 meters, Edrick Floreal of Arkansas in the triple jump and Mike Stulce of Texas A&M in the shot put. But Arkansas senior Joe Falcon came up short in his bid to repeat in the 1,500 meter run and claim his eighth NCAA track or cross country title when he fell in the second lap.

TEAM RESULTS

1. Louisiana St., 53; 2. Texas A&M, 51; 3. Florida, 39; 4. Oregon, 36; 5. Texas, 33; 6. UCLA, 28; 7. Nebraska, 26; 8. Texas Christian, 24; 9. Arkansas, 23; 10. Arizona, 22.

11. (tie) Houston and Southern Cal, 21; 13. (tie) Kansas, Southwest Tex. St. and Baylor, 19; 16. (tie) Mt. St. Mary's (Md.) and Alabama, 18; 18. Northeast La., 16; 19. Iowa St., 14; 20. Brigham Young, 13.

... while Sowell-led LSU women wrap up sweep of meets

Sprinter Dawn Sowell set championships records in the 100- and 200-meter dashes and contributed to another mark in the 400-meter relay to lead Louisiana State to its third consecutive team title in the Division I Women's Outdoor Track and Field Championships.

The Tigers outscored runner-up UCLA, 86-47, during the championships May 31 through June 3 at Brigham Young. The victory completed a sweep of this year's indoor and outdoor women's championships by LSU.

Sowell broke the 100-meter record twice during the meet, first with an 11.07 time in a preliminary heat and then with a 10.78 in the final that stands as the third-fastest time in the world. Her 22.04 time in the 200 broke a mark that had stood since the championships' second year, 1983.

Yet, Sowell was not entirely pleased.

"It was technically all right, but I didn't feel explosive," she said of her victory in the 100, where she finished one-third of a second ahead of runner-up Esther Jones, her teammate. "I was trying for 10.6, but I knew I wasn't going to get it.

"I'm just learning how to sprint. I'm trying to learn how to run properly without having to think about it.

"You can't get too egotistical in track and field," Sowell added. "If I'm the best lady sprinter this year, so was somebody else last year."

LSU won four events, including its victory in the 400-meter relay with a record time of 42:50. The Tigers' other winner was Tananjalya Stanley, who outdistanced teammate Cinnamon Sheffield in the 100-meter high hurdles.

The only meet record not set by Louisiana State came in the 400-meter dash, from Pauline Davis of Alabama with a time of 50.18.

Carla Garrett of Arizona joined Sowell as the championships' only double winners. Garrett became the second woman in the meet's eight-year history to win both the shot put and the discus in the same year.

Distance runners, Wisconsin's Suzanne Favor and Villanova's Vicki Huber, became the second and third women to win a third consecutive title in the championships. Favor repeated in the 1,500-meter run and Huber in 3,000 meters.

Favor and Huber, who each also won a title at the Division I indoor championships in March, have captured five and seven individual crowns, respectively, in NCAA competition.

Also winning a third crown, although not consecutively, was heptathlete Jolanda Jones of Houston, who also was champion in 1986 and 1987. She became the first woman to win three NCAA heptathlons,

although she suffered from illness and injuries prior to the meet.

TEAM RESULTS

1. Louisiana St., 86; 2. UCLA, 47; 3. Nebraska, 37; 4. Texas Southern, 34; 5. Arizona, 25; 6. Texas, 24; 7. Illinois, 23; 8. Southern Cal, 19; 9. (tie) Brigham Young, Harvard, Villanova and Kentucky, 18.

Vicki Huber of Villanova (left) won her third consecutive title in the 3,000-meter run. She has won seven individual crowns in NCAA indoor and outdoor competition. Above, members of Texas A&M's 1,600-meter relay team celebrate their victory in the meet's final event. Errington Lindo, anchor Howard Davis (holding baton), Stanley Kerr and Derrick Florence pulled the Aggies to within two points of first place in the team standings with their 3:00.91 performance in the race.

Texas' Patrik Boden became the third Longhorn in the 1980s to capture a javelin title. He won the event by only five inches.

Heptathlon—1. Jolanda Jones, Houston, 6,022; 2. Cheryl Wilson, Louisiana St., 5,855; 3. Tonya Sedwick, UCLA, 5,765; 4. Jamie McNeair, Purdue, 5,720; 5. Crystal Young, Boise St., 5,705; 6. Teri Le Blanc, Missouri, 5,666; 7. Tonya Lee, Tennessee, 5,269; 8. Patricia Nadler, Nebraska, 5,486.

Virginia's Paul Ereng outpaced Dieudonne Kwizera of Nebraska to win his second straight 800-meter championship

Janeene Vickers of UCLA won the 400-meter hurdles with a time of 55.27 seconds

Four-run eighth leads Mustangs to Division II baseball title

Cal Poly San Luis Obispo scored four runs in the eighth inning against New Haven ace Steve DiBartolomeo to win its first NCAA Division II Baseball Championship, 9-5.

The Mustangs' Bill Daly broke a 5-5 tie with a run-scoring single, and Matt Drake drove in another run with a single, his third run batted in of the game.

Robert Hale then tripled over the head of New Haven center fielder Paul Sabrowski, scoring two more runs and knocking DiBartolomeo out of the game. DiBartolomeo finished with a 17 2 record.

Cal Poly San Luis Obispo, which ended the season 37 24, won the championship in its first trip to the Division II finals, which were held for the fifth straight year at Montgomery, Alabama, May 27 through June 2. The Mustangs were 0-2 in their only other Division II tournament appearance, in 1977.

New Haven, 36-5, made its 14th straight appearance in the tournament and sixth consecutive trip to the championship round.

Cal Poly SLO's Bobby Ryan, who was named to the all-tournament team, notched his second win of the tournament against New Haven, allowing one run on two hits in the last three innings.

DiBartolomeo, making his fifth appearance and third start in seven days, fired in the eighth after throwing his 494th pitch of the tournament. He was named most outstanding player after posting a 2-2 record and one save.

"I felt like I had pretty good stuff going," said DiBartolomeo. "I lost a little sharpness; I lost a little action on my ball. You can't make mistakes at this level."

New Haven jumped to a 1-0 lead in the first inning when Adrian Clark led off with a walk, stole second base and scored Jim Holloran's single.

Cal Poly SLO came back in the second inning, scoring three runs against DiBartolomeo. Pat Kirby homered deep over the right field fence, and Billy Smith and Matt

Mustang Bob Ryan got the save in the championship game after working the last three innings in relief

Steve DiBartolomeo was named most outstanding player in the tournament after setting records for appearances, innings pitched and pitches thrown

Drake each singled in a run.

The Chargers fought back in their half of the inning. Three straight singles loaded the bases, then Sabrowski and Holloran tied the game with sacrifice flies.

New Haven went ahead in the third inning on Pat Miconi's solo home run, but the Mustangs tied the game with an unearned run in the fourth.

Each team picked up a run in the seventh. Todd Rice's sacrifice fly put Cal Poly SLO ahead 5-4, but

New Haven tied the game for the third time when Kevin Kirsch executed a perfect squeeze bunt.

"This is a fairy tale ending for us," said Mustangs coach Steve McFarland. "We pieced this club together. We didn't have any stars. You can look at the stats and look at the all-America teams and see that this was a total team effort."

In addition to DiBartolomeo and Ryan, the all-tournament team included catcher Doug Noce and shortstop Ron Crowe of Cal Poly SLO;

third baseman Mike Tonucci, right fielder Miconi and designated hitter Dan Montesi of New Haven; second baseman Eric Conley and left fielder Greg Williams of Slippery Rock; center fielder Merritt Bowden of Jacksonville State, and first baseman Carl Dunbar of Lewis.

Bishops battle 13 innings for III baseball championship

North Carolina Wesleyan pitcher Mark Silletti held opposing batters at bay through two games in the same day, then teammate Eric Jarman hit a solo home run in the top of the 13th inning in the title game and lifted the Battling Bishops to an 8-7 victory over Cal State Stanislaus at the Division III Baseball Championship.

Jarman, a junior center fielder, hit Robert Sapp's fastball over the 370-foot sign in right-center field to give the Battling Bishops their first Division III baseball title. Jarman went 5 for 7 in the championship contest and hit .515 (17-for-33) for the tournament with three home runs, including two in the final game.

In a game between the two teams earlier the same day, Silletti held Cal State Stanislaus to four hits in a 3-0 victory.

He then entered the championship game in the seventh inning with two outs, a 6-5 lead and runners on first and second base. He promptly foiled the Warriors' rally by getting Matt Basgall to fly out to center field. Silletti then pitched the remaining six innings to post his second win of the day.

In addition to Jarman and Silletti, members of the all-tournament team at the June 1-4 tournament in Bristol, Connecticut, were first baseman James Anderson, North Carolina Wesleyan, winner of the John

Farmer most-valuable player award; second baseman Andy Bernstein, Johns Hopkins; shortstop Erik Dube, North Carolina Wesleyan; third baseman Craig Hueter, Cal State Stanislaus; outfielder Mike Zehring, Johns Hopkins; outfielder Bob Prince, Southern Maine; designated hitter M. J. Weller, North Carolina Wesleyan; catcher Doug Flowers, North Carolina Wesleyan, and pitcher Robert Sapp of Cal State Stanislaus.

U.S., Soviet Union to begin cooperative drug-testing program

The U.S. Olympic Committee has received the go-ahead to begin a cooperative drug-testing program with the Soviet Union, an effort hailed as a significant step toward eliminating drugs from international competition.

"This will level the playing field," said two-time Olympic gold medalist Edwin Moses, chair of the USOC's drug-abuse committee.

If the governing bodies of the various U.S. sports federations agree to details, technicians from the United States and Soviet Union will work together in testing athletes of both nations for drug abuse.

The Soviets have approved the arrangement.

A key feature of the program, approved June 3 by the USOC's executive board, will allow one nation to demand "short-notice" testing within 48 hours—of an athlete from the other country.

The first tests are expected to be conducted late this summer, USOC Executive Director Baaron Pittenger said. And while the board attached several conditions to safeguard the rights of American athletes, Pittenger insisted they would not weaken the effort, the Associated Press reported.

"All of these issues that were included are things that we had discussed with the Soviets earlier," Pittenger said. "My sense is none of these conditions is going to have a significant impact on the final program."

Don Catlin, M.D., director of the Olympic testing laboratory at the University of California, Los Angeles, said the joint effort could go a long way toward promoting a "world of substance free athletics."

"This goes to the fundamental core of the problem," said Dr. Catlin who noted that East Germany also wants to be part of the arrangement.

"If a major Eastern nation and a major Western nation can sit down side-by-side and develop a program and execute that program and it has an impact on the problem, it would be applicable across all international boundaries."

Pittenger said West Germany and

Italy also have shown interest in joining a cooperative testing program.

"Hopefully, there will be other agreements and other players who eventually will supplant this," Pit-

Both countries will be required to provide a list of athletes who could be called in for short-notice testing by the other nation

tenger said, "Because it's a worldwide problem. It's not just a U.S.-Soviet problem."

Moses, who won gold medals in the 400-meter intermediate hurdles

at the 1976 and 1984 Olympics, said eradicating drugs would ease a major concern of many U.S. athletes who feel they are at a disadvantage when competing against athletes who use performance-enhancing chemicals.

Under the agreement, U.S. and Soviet Union technicians will work together in collecting and analyzing samples at labs in the two countries.

A Soviet expert probably would do the actual collection from a Soviet athlete, while a U.S. expert would handle those chores with an athlete from this country.

"We want to preserve the dignity of the athletes," Pittenger said. "We think the athletes would find it offensive to be tested by an expert for another country."

Initially, the labs used would be in Moscow and Los Angeles. While the program gets under way, Soviet

technicians would spend four months in the United States, and U.S. technicians would spend four months in the Soviet Union.

Both countries will be required to provide a list of athletes who could be called in for short-notice testing by the other nation. In the United States, the national governing boards of the individual sports will be responsible for submitting those names.

Not all athletes will have to be made available for short-notice testing, but Dr. Catlin said the list must include a representative sampling of the top athletes in each sport.

Dr. Catlin and Moses said U.S. officials will have to monitor the progress of Soviet athletes to ensure that the Soviet Union provides a representative list.

The agreement is contingent on each national governing body taking

part and developing a policy on providing the lists of those available for spot tests.

The USOC executive board attached some conditions to implementing the program, including a provision to ensure that an athlete's legal rights are protected before any sanctions are imposed.

In addition, it would be up to the national governing board involved to decide if the name of an athlete who tests positive for drug use should be made public.

Under the agreement, an athlete found to be using steroids, drugs that mask steroids or other prohibited drugs would be banned from competition for two years. A second offense would result in a lifetime ban.

The Athletes Advisory Council tried unsuccessfully to impose a lifetime ban for a first offense.

Ex-athlete gets 25-year sentence

Former Iowa State University football player Levin White was sentenced June 5 to 25 years in prison for robbing an Ames fast food restaurant at gunpoint in March.

White, 21, of Alta Loma, California, pleaded guilty earlier to armed robbery in exchange for a prosecution promise to drop kidnapping charges.

District Judge Carl Petersen sentenced White in Story County District Court. Story County Attorney Mary Richards said White must serve at least five years of the sentence and with good behavior could be free within 2½ years.

White and former Cyclone basketball player Sam Mack were charged with robbing the Burger King restaurant near downtown Ames March 30. White carried a .22-caliber rifle into the holdup, while Mack allegedly had a knife.

Both athletes were shot by police minutes later but have since recovered from their wounds. There were no other injuries.

Mack, 18, of Phoenix, Illinois, has pleaded not guilty in the case and claims he was forced by White to take part in the robbery. He is scheduled to go on trial in July.

Winning lottery still leaves coach with big dream unfulfilled

Now that he's rich, University of Akron assistant football coach **Mike Woodford** says he still has the same goal in life that he had prior to hitting Ohio's Super Lotto a few weeks ago.

"I said if I can't play for Ohio State (University), I want to coach Ohio State," said Woodford, recalling the trips to Ohio Stadium he made as a 5-year-old with his father, who graduated from Ohio State's law school. "Ever since then, my goal in life has been to be the head football coach at Ohio State University."

"Hopefully, I will be able to chase that dream still."

Woodford characterized himself as a lucky person when he faced the media May 24 after officials confirmed that he held a Super Lotto ticket worth \$15 million. "The happiest day (in my life) before this was the day I was awarded a scholarship at the University of Arizona," he added. "I had the same feeling then."

Monica Wesley is living proof of the biblical suggestion that the first shall be last. With all due respect, however, one can argue that Wesley's situation is not what the Good Book's central character had in mind with that passage.

Three days after celebrating her 20th birthday, the 5-6, 118 pound sophomore from Cameron, Texas,

Briefly in the News

became the first Pan American University woman student athlete to qualify for the Division I outdoor track championships when she triple-jumped 41-5 to win the May 21 Houston Invitational.

Her qualification also means that Wesley will be the last student-athlete to compete for Pan American University—the institution's name will change to the University of Texas-Pan American effective September 1.

At Pennsylvania State University, athletics director **James I. Tarman** recently paid tribute to the Lady Lion lacrosse team—the 1989 National Collegiate Champions.

"Coach (Susan) Scheetz and her team have provided us with a very fitting finish to the Silver Anniversary celebration of women's athletics at Penn State," Tarman offered.

"We work very hard to have an exemplary women's athletics program at Penn State, and achievements like the NCAA lacrosse championship are the rewards for the uncommon effort expended by our coaches, athletes and administrators. Maintaining a comprehensive 28-sport Division I-A intercollegiate program can be difficult," Tarman added, "but we feel—and achievements like this continually confirm it—that effort is certainly worthwhile."

Georgia Institute of Technology golf coach **Puggy Blackmon** has taken it upon himself to decide the question of whether the Atlantic Coast Conference or the Southeastern Conference is better from tee to green.

Blackmon has been instrumental in developing what will be called the Carpet Capital Collegiate, which will be held October 20 through 22 at The Farm—a Dalton, Georgia, course designed by noted architect **Tom Fazio**.

"Everybody immediately (decided) to come," said Blackmon. Team and individual champions

Mike Woodford

Monica Wesley

will be determined through a three-day, 54-hole competition, with team scores determined by the top four golfers each day. The winning conference will be determined from the total score of the teams in each league.

Joining the best from the ACC and SEC in the tournament, which Blackmon said he expected to be

come an annual event, will be three non-ACC/SEC members Furman University, Georgia Southern College and the University of South Carolina. "This is something I've wanted to do for a number of years," Blackmon added. "It should draw a lot of attention."

Speaking of Furman, the South-

ern Conference member has joined forces with the Greenville County (South Carolina) Librarians Association to encourage youngsters to spend some of their summer vacations with a few good books.

To become members of the Furman Bookend Club, students in kindergarten through 12th grade must agree to read a certain number of books during summer break (i.e., K through second grade, 50 books; third through fifth grade, 22 books, and sixth through 12th grade, 11 books).

Students accompanied by a paying adult who present a list (signed by a parent) of the books they read will receive free admission to Furman's October 7 home game against Southern Conference rival Marshall University, along with a color "Bookend Club" football poster.

More women's softball attend-

ance records have fallen at California State University, Fresno, according to **Barry Smith** of the school's sports information office.

Smith reported that in 18 home dates this season, 18,751 fans turned out for women's softball games at Bulldog Diamond—an average of 1,042. Included in that total is the crowd of 3,357 (believed to be a collegiate record) that turned out for the February 26 visit by the 1989 Division I champions from the University of California, Los Angeles.

Last year Fresno State drew 14,937 fans in 19 home dates, an average of 786. "This season," Smith added, "our women's softball team drew more fans than any baseball program in the Big West Conference (of which Fresno State is a member)—except our own."

State ranked in the final 1989 Division I women's softball poll? Answer later.

Iowa State University's \$13.5 million indoor recreation and athletics facility, currently under construction near Hilton Coliseum on the Ames, Iowa, campus, will be dedicated to the memory of three student-athletes, two coaches, a student trainer and a pilot who lost their lives in a 1985 plane crash.

"That tragedy had a huge impact on a lot of people at Iowa State," **Max Urick**, the school's athletics director, recently told **Buck Turnbull** of the Des Moines Sunday Register. "We've been waiting for what we consider a suitable memorial, and I think this is one of the best ways that we can honor them."

On its approach to Des Moines airport, one of three chartered planes returning Iowa State's women's cross country team from the 1985 Division I championships in Milwaukee (where the Cyclones finished second—their highest placement ever) crashed—killing the seven people aboard.

They were runners **Sue Baxter** and **Sheryl Maahs**, student trainer **Stephanie Streit**, head coach **Ron Renko**, assistant coach **Pat Moynihan**, and pilot **Burton Watkins**.

Rawlings Sporting Goods and the Missouri Valley Conference have reached agreement for the St. Louis-based company to sponsor the league's annual coach-of-the-year award.

A traveling trophy has been designed and will be displayed at the institution of the winning coach. Creighton University now has the award, due to the selection of coach **Tony Barone** as the first recipient.

J. C. Penney Co. and the U. S. Olympic Committee have signed an agreement making Penney the exclusive retailer of "USA Olympic" apparel. Concurrently, the USOC has named the company the official outfitter and a sponsor of the 1992 American Olympic team.

University of New Hampshire officials have announced a two-station television agreement involving men's basketball, women's basketball, football and men's ice hockey.

WMUR-TV, Manchester, will televise live all five Wildcat home football games this fall. The station also will carry three men's basketball contests and two women's basketball games.

WGOT-TV, Portsmouth/Merrimack, will produce live telecasts of all Wildcat hockey games not carried on the New England Sports Network as part of its Hockey East package.

More Report Cards: Massachusetts State College Athletic Conference officials have announced that **Karen Frustaci** of Westfield State College and **Peter Moschini** of Massachusetts Maritime Academy have been named 1988-89 winners of the league's Howard C. Smith Scholar-Athlete Awards. The awards are named in honor of **Howard C. Smith**, a former state college trustee. Frustaci had a cumulative grade-point average of 3.630 (4.000 scale) in criminal justice, and Moschini had a 3.750 in marine engineering.

Among the eight repeat selections on the 18-member men's at-large all-academic team recently announced by the North Central Intercollegiate Athletic Conference was three-time honoree **Doug Anderson**, a senior at Augustana College (South Dakota) and owner of a 4.000 in mathematics.

University of Tulsa tennis player **Lane Wilson** has been awarded the Missouri Valley Conference's 1989 postgraduate scholarship. In addition to being among Tulsa's best players throughout his career, Wilson has fashioned a 3.260 GPA in electrical engineering.

Every Mid-American Athletic Conference member can boast of at least three student-athletes among the 52 who have received the MAC Presidents' Award for academic excellence. All seniors, the honorees carried a cumulative GPA of at least 3.500 through the end of their institutions' fall semester or winter quarter.

Northeast Louisiana University officials have announced that 81 student-athletes—30 of them football players—earned GPAs of at least 3.000 during the spring semester. Twenty-two were named to the President's List by earning GPAs of at least 3.500.

Running the half-mile may be intellectually stimulating, according to information released by Idaho State University. Half-milers **Mark Byrne**, **Greg Carlesen** and **Todd Watson** all earned 4.000s during the spring semester. Joining them were women's volleyball player and javelin thrower **Michelle Gehrke** and women's basketball player **Nancy Imhoff**.

Members of the Virginia Sports Information Directors (VaSID) re-

cently announced a 30-member all-academic team representing 17 Virginia colleges and universities. The lone unanimous selection was **Kurtis Sauder** of Eastern Mennonite College, a baseball and soccer player

who boasts a 3.918 GPA in premedicine.

Trivia Answer: Fresno State was ranked No. 3 in the final Division I women's softball poll.

Committee Notices

Member institutions are invited to submit nominations to fill interim vacancies on NCAA committees. Nominations to fill the following vacancy must be received by Fannie B. Vaughan, executive assistant, in the NCAA office no later than June 28, 1989.

Women's Gymnastics Committee: Replacement for Nancy LeGant, University of Wisconsin, Whitewater, who declined appointment because of her resignation from the institution. Appointee must be a Division III representative of women's gymnastics. Appointment will be effective September 1, 1989.

Sharp leaves high-profile program to start all over again

University of Southern California women's basketball coach Linda Sharp, looking for a new challenge after leading the Women of Troy to two national titles in the 1980s, believes she has found it.

"I'm looking for a new challenge and change," Sharp told the Austin American Statesman late last month after taking the job as coach and assistant athletics director at Southwest Texas State University.

"The challenge of taking a pro-

New publications available in June

NCAA Convention Proceedings and four new editions of rules books are available from the NCAA Sports Library this month.

Convention Proceedings, which contains transcripts of all business sessions from the 1989 NCAA Convention, summaries of round tables, transcripts of the Presidents Commission National Forum and other Convention-related proceedings, is available for \$6 to members and for \$12 to nonmembers.

The 1989 NCAA Football Rules and Interpretations and 1990 NCAA Men's and Women's Basketball Rules and Interpretations also are available, as are 1989 NCAA Water Polo Rules and 1989 NCAA Men's and Women's Soccer Rules. This is the first edition of a combined men's and women's soccer rules book.

Cost of each rules book is \$3.

To receive an order form for any of the Association's more than 50 publications or The NCAA News, write: NCAA Publishing, P.O. Box 1906, Mission, Kansas 66201. Credit-card orders (Visa and MasterCard) can be placed by calling the NCAA circulation department at 913/831-8300.

Pitcher selected for scholarship

Brian Wiedower, a pitcher for Arkansas State University, has been named the recipient of the second annual American South Conference Postgraduate Scholarship Award.

Wiedower was selected by the league's faculty athletics representatives for a one-year grant of \$2,000.

Wiedower earned a 3.800 grade-point average in mathematics. He plans to pursue a master's degree in business management.

During the past year, Wiedower was vice-president of the Arkansas State Student Government Association and the Pi Kappa Alpha social fraternity. He also served as a volunteer for the Special Olympics, March of Dimes, St. Jude's Research, Arkansas Children's Hospital and the Red Cross blood drive.

Conference picks tournament site

Member institutions of the American South Conference have approved Jonesboro, Arkansas, as the site and Arkansas State University as the host of their third annual men's basketball tournament to be held March 2-4, 1990, Commissioner Craig Thompson has announced.

The tournament will be played in Arkansas State's 10,563-seat Convocation Center, which has served as home for the Indians the last two seasons. All six conference teams will participate in the three-day, five-game event.

The championship game of the tournament March 4 again will be televised nationally by ESPN.

gram like Southwest Texas and putting it on the map. It's something I needed to do. Something different," she said.

Although Sharp said a new challenge was what caused her to leave Southern California, where she had coached such stars as Olympians Cheryl Miller and Cynthia Cooper, Southwest Texas officials said she may have been influenced by problems in recruiting caused by high crime near the Southern California campus and by problems in scheduling games and practices.

"There was nothing anti-USC as an institution," said Southwest Texas president Jerome Supple. "She did indicate some concern about the location of the university, that it might make it difficult to recruit players."

Sharp said the campus location didn't affect her decision, but she did express dismay over problems in scheduling games. Last season, the Women of Troy played at four facilities because of scheduling conflicts.

"Any basketball coach wants the home-court advantage. It was very frustrating having to go off campus throughout Southern California," she said.

Although the Women of Troy finished 12-16 and tied for fourth in the Pacific-10 Conference this past season, Sharp said that didn't influence her decision.

"I know the big question is whether I left under pressure— I did not leave under pressure. Absolutely not. I'm leaving under good terms, and I have a tremendous amount of respect for USC," she

Linda Sharp

said. At Southwest Texas, Sharp will work with associate athletics director Dana Craft in promotion and development of women's athletics.

"Salary was not a major issue. The program and potential were important to her," Supple said. "I

think she also wanted to have some assignments beyond coaching."

Sharp said she was attracted to Southwest Texas by the "location and people," and the fact that she will be only hours from her grandmother, who raised her in Oklahoma.

When the coaching search began, Sharp wasn't a candidate to succeed Todd Cotton, who resigned last month.

Craft called Sharp, with whom she worked at the 1987 World University Games, last month to see if Sharp knew anyone who would be interested.

Sharp visited Southwest Texas and accepted the position soon after. "She's going to put us on the map," said athletics director Billy M. Miller. "She'll make us competitive."

Mississippi State's Masters named top academic all-America

Mississippi State second baseman Burke Masters, who had a perfect 4.000 grade-point average in mathematics, has been named the university-division GTE academic all-America of the year. Masters hit .333 this season with four home runs and 38 runs batted in.

All-America-of-the-year honors

Top academic honor goes to Holmes

Bill Holmes of Marietta has been named the college-division GTE baseball academic all-America of the year. The honor goes to the student-athlete who "best represents the qualities of an academic all-America."

The college-division academic all-America baseball team was announced by GTE and the College Sports Information Directors of America whose members select the honorees.

To be named academic all-America, a student-athlete must be a starter or key reserve on his varsity baseball squad and maintain at least a 3.200 cumulative grade-point average (on a 4.000 scale) throughout his collegiate career.

Following is the complete GTE college division academic all-America team:

First team: Pitcher—Martin Davis, Marietta, 3.510 in accounting. Catcher—Randy Seeley, Grinnell, 3.830 in psychology. First base—Bill Holmes, Marietta, 3.670 in accounting/finance. Second base—Tom Perkins, Oakland, 3.800 in biology. Third base—Mark Meyer, Buena Vista, 3.920 in biology/education. Shortstop—Scott Whitmore, Wisconsin-Whitewater, 3.770 in premedicine. Outfielders—Jack Klawitter, Millikin, 3.790 in biology; Steve Mauldin, Tampa, 3.630 in finance; Tony Pena, Lubbock Christian University, 3.890 in business administration/finance. Designated hitter—Jeff Nevitt, Trenton State, 3.570 in business administration.

Second team: Pitcher—Steve Green, UC Riverside, 3.990 in pre-engineering. Catcher—Jeff Terpstra, Grand Valley State, 3.810 in mathematics. First base—Anthony Pranno, Denver, 3.550 in English. Second base—Guy Fisher, Baldwin-Wallace, 3.900 in psychology. Third base—Todd Blue, Ursinus, 3.600 in biology/premedicine. Shortstop—Casey Crook, Briar Cliff College, 3.760 in mathematics/physical education. Outfielders—Rick Hassman, Central (Iowa), 3.430 in management; Mike Skowronek, Mankato State, 3.750 in prephysical therapy/physical education; Doug Welch, Lubbock Christian University, 3.340 in physical therapy. Designated hitter—Mike Nixon, Alma, 3.910 in mathematics/education.

Third team: Pitcher—George Lesmes, Elon College, 3.770 in economics. Catcher—C. Edward Klank, Washington and Lee, 3.470 in accounting. First base—Daniel O'Neill, Tufts, 3.310 in economics. Second base—Sittichoke Huckunrod, Central Missouri State, 3.570 in engineering. Third base—Chris Weber, John Carroll, 3.680 in political science. Shortstop—Darrin Spitzer, Marietta, 3.660 in accounting. Outfielders—Jeff Jeremiason, Augustana (South Dakota), 3.810 in chemistry/mathematics; Joe Newcomer, Augustana (Illinois), 3.660 in biology/premedicine; Robert Russo, Adelphi, 3.740 in business management. Designated hitter—Jim DiDonna, Bentley, 3.200 in management.

are given to the student-athlete who "best represents the qualities of an academic all-America."

The GTE Corporation and the College Sports Information Directors of America announced the university-division academic all-America baseball team June 1.

To be named an academic all-America, a student-athlete must be a starter or key reserve on his varsity baseball squad and maintain at least a 3.200 cumulative grade-point average (on a 4.000 scale) throughout his collegiate career.

Following is the complete university-division GTE academic all-America baseball team:

First team: Pitcher—Gar Finn-

vold, Florida State, 3.500 in pre-dentistry. Catcher—Mike Haberman, Rutgers, 3.810 in electrical engineering. First base—Tommy Raffo, Mississippi State, 3.550 in marketing. Second base—Burke Masters, Mississippi State, 4.000 in mathematics. Third base—Brady Bryan, Northeast Louisiana, 3.790 in accounting. Shortstop—Brad Beanblossom, Oklahoma State, 4.000 in premedicine. Outfielders—Rick Hirtensteiner, Pepperdine, 3.850 in business administration; Kevin Tahan, U.S. International, 3.800 in business administration; Matt Mieske, Western Michigan, 3.660 in accounting. Designated hitter—Mike Dermer, Bucknell, 3.900 in finance.

Second team: Pitcher—Donnie Rea, San Jose State, 3.680 in business management. Catcher—Kevin Tannahil, San Jose State, 3.370 in human performance. First base—Steve Stuart, Fairleigh Dickinson-Teanock, 3.410 in accounting. Second base—Joe Markulike, Bucknell, 3.800 in mechanical engineering. Third base—Richard Holt, Vanderbilt, 3.590 in chemistry. Shortstop—Scott Kenney, Cornell, 3.700 in economics/business administration. Outfielders—Paul Carey, Stanford, 3.300 in political science; Dan Peltier, Notre Dame, 3.400 in accounting; Mike Randazio, Seton Hall, 3.600 in finance. Designated hitter—Robert Schabes, Vanderbilt, 3.290 in economics.

Third team: Pitcher—Erik Madson, Notre Dame, 3.670 in science/business administration. Catcher—Craig Brown, Wisconsin, 3.430 in behavioral science. First base—Scott Gordon, Xavier (Ohio), 3.480 in business management. Second base—Bob Reimink, Western Michigan, 3.840 in industrial engineering. Third base—Mark Panzeri, St. Louis, 3.800 in political science. Outfielders—Clark Rose, Tennessee, 3.580 in literature; Mark Blythe, Kentucky, 3.570 in accounting; Jody Hurst, Mississippi State, 3.270 in computer science. Designated hitter—Brent Brown, Brigham Young, 3.210 in advertising/public relations.

Note: Only two shortstops were nominated.

WHY DO COLLEGIATE ATHLETIC DEPARTMENTS USE CHARTERSEARCH NETWORK?

Legislation and Interpretations Committee minutes

Acting for the NCAA Council, the Legislation and Interpretations Committee:

Tentative conference schedule

1. Confirmed the following dates for Legislation and Interpretations Committee conference calls to be conducted between May and August 1989: May 18, June 8, June 29 (1 p.m. Central time), July 20 and August 17. Conferences will begin at 9 a.m. Central time unless otherwise indicated.

Amateurism/Olympic Games

2. **Health Insurance for Olympic athletes.** Reviewed the application of NCAA Bylaws 12.1.2(c) and (g), Bylaw 16.4.1(a), and a related Council interpretation [reference: 88/10/10, Item No. 3 f (4)] to the new U.S. Olympic Committee Elite Athlete Health Insurance Program; confirmed that such a health insurance program may provide benefits only for injury or illness considered under current interpretations to be incidental to practice or competition; accordingly, a student-athlete with remaining eligibility could not receive maternity, dependent, and death and dismemberment coverage as proposed in the plan, although these items could be removed from the plan to make it permissible for a student-athlete; referred this matter to the NCAA Special Committee to Review Amateurism Issues with a recommendation that the committee support proposed legislation to permit full elite plan insurance benefits for student athletes participating in Olympic development programs and competition.

Financial aid/graduate students

3. **Graduate student-athlete renouncing**

eligibility and receiving exempted athletically related financial assistance. Agreed that in accordance with the provisions of Bylaw 15.5.1.7, a previous committee interpretation (LIC 87 10.9) and an NCAA Division I Steering Committee decision [August 12-13, 1987, Item No. 4 a (3)], a graduate student athlete with remaining eligibility under NCAA rules may not renounce his or her eligibility in a sport, and continue to receive athletically related financial aid and be exempt from counting in the maximum number of financial aid awards in the sport.

Certification of eligibility

4. **Change in eligibility status.** Reviewed the provisions of Bylaw 14.12 and requested that the NCAA Academic Requirements

during the appeal process based on institutional regulations applicable to all such students, it being understood that if the institution's appeal process extends into the following term, an eligibility declaration for purposes of NCAA legislation must be made prior to the beginning of that term.

Membership—multisport classification

5. **Institution's reclassification from Division I to Division III: effect on student-athlete's transfer.** Reviewed the provisions of Bylaws 14.6.5.3.6-(b), 20.3.5, 20.4.2.1, 20.4.2.2 and 20.11, and determined:

a. That the transfer waiver provisions of Bylaw 14.6.5.3.6-(b) are applicable when an institution modifies its playing schedule to meet the membership requirements of an other division and seeks multidivision classification status through the noncompliance/restricted membership provisions of Bylaw 20.3.5.1.1.

b. That the transfer waiver provisions of Bylaw 14.6.5.3.6-(b) are intended to be available to student-athletes primarily in order to afford them a continued opportunity to participate at the Division I level, as well as to assure that student athletes continue to have the opportunity to receive athletically related financial aid.

Exempted players

6. **Anorexia/bulimia as a disabling illness.** Reviewed the provisions of Bylaw 15.5.1.4 and a previous committee interpretation (reference: LIC 88-11.1), and agreed that any illness or injury (e.g., anorexia or bulimia) could qualify as a condition justifying placing the student athlete on medical ex-

empt status per Bylaw 15.5.1.4, provided it can be documented by the appropriate physician (not the team trainer) that the student-athlete apparently never again will be able to participate in intercollegiate athletics; asked the Council to review its related interpretation [LIC 88-11.1 (alcohol/drug dependency as a disabling illness)] for consideration of the possibility of modifying it consistently with this interpretation.

Professionalism/amateurism

7. **Participation on two-man beach volleyball team.** Reviewed the provisions of Bylaw 12.2.3.2, and confirmed that this regulation does not apply to sports other than golf and tennis; agreed that a student-athlete would jeopardize his eligibility through participation on a two-man beach volleyball team on which he or the other member of the team receives compensation for such participation.

Contact/evaluation periods

8. **Once a week restriction (Divisions I and II).** Reviewed the provisions of Bylaw 13.1.4 (a), LIC 88-1.15 and LIC 89-1.9, and determined that the once-a-week visit restriction for the contact rule should not be considered applicable to evaluation periods subsequent to the effective date of the amended legislation (August 1, 1989); agreed that in sports other than football and basketball, institutions are permitted to visit a prospective student athlete's educational institution one time per week only, since those sports have a year-round contact

period.

Transfer eligibility

9. **Discontinued sport exception (Division I).** Determined that the provisions of Bylaw 14.6.5.3.6-(a) would be available to a student-athlete whose institution indicated through an official public announcement that the sport in which the student-athlete participates would be dropped at the end of the academic year; further, agreed that if the institution reinstated the program prior to the student-athlete's actual transfer, the transfer waiver provisions of Bylaw 14.6.5.3.6-(a) would remain available, provided the student-athlete transfers no later than the certifying institution's first day of classes for the following academic year.

Satisfactory progress

10. **Certification at end of academic year.** Agreed that the provisions of Bylaw 14.5.3.2 would preclude an institution from certifying a student-athlete eligible under the satisfactory-progress provisions of Bylaw 14.5.2 at the end of an academic year (for participation during a season already in progress) when the student did not meet the satisfactory-progress provisions at either the beginning of the academic year or the beginning of the second term of the same academic year; agreed that a student athlete who was never eligible under the satisfactory-progress rule to participate in a season throughout the entire academic year should not be permitted to participate in the completion of that season following the end of that academic year.

Committee develop legislation that would specify a point in time when a student athlete's academic eligibility is affected after the student athlete either becomes eligible or ineligible to compete based on official notification by the appropriate institutional authorities; agreed that when a student-athlete is declared academically ineligible in accordance with the provisions of Bylaw 14.12 and the institution has a documented appeal process for all such students, a student athlete would be eligible or ineligible

Athlete sticks to the FAX and passes test

Rollins College registered a possible first in the world of higher education last month when sophomore tennis player Dan Sallick took a final examination in history with the aid of a FAX machine.

Sallick, who was competing with the Rollins men's tennis team in the NCAA Division II Men's Tennis Championships at Lake of the Ozarks, Missouri, was denied permission by Professor Barry Levis to take his final exam at any time other than the scheduled hour Friday, May 19.

Steve Neilson, dean of the college at Rollins, intervened and negotiated a compromise: Levis would allow Sallick to take the examination if it could be "FAXed" to Southern Missouri.

After lengthy negotiations over the telephone from the school, in Winter Park, Florida, with tournament director John Bryant, it was agreed that Associate Professor Herb Hamann from Southwest Baptist University, would proctor the exam. After Sallick finished the test, he

Dan Sallick used modern technology to pass a history exam

played a doubles match with partner Don Martin, and Hamann FAXed the test back to Rollins to be graded by Levis.

Sallick said the test was really tough; "one of the most difficult I've ever seen," he said. He passed, by the way.

Gymnastics regionals is topic

Recommendations and procedures regarding regional competition highlighted the Men's Gymnastics Committee meeting in South Lake Tahoe, California, May 30-June 2.

The Executive Committee approved the establishment of two regional qualifying meets at its December 1989 meeting. Regionals will be held April 7, 1990, and the finals will be held April 19-21.

The Men's Gymnastics Committee will recommend to the Executive Committee that Pennsylvania State University be the site for the East regional and the Houston Baptist University host the finals. A recommendation has not been made yet for the West regional site.

Qualification for regional competition will be based on the highest three scores, of which at least two are away meets. Scores must be posted in competition between November 1, 1989, and March 31, 1990. Teams may use 12-man squads until March 1, 1990. However, any score posted in competition in which more than nine men were used will not be considered for qualification to the NCAA championships (re-

gionals or finals).

For the East regional, the committee will select six judges each from the National Gymnastics Judges Association's Midwest and East regions; for the West regional, six judges each will be chosen from the Midwest and West regions. From those 24 judges, the committee will select 12 for the finals (three from each of the four NGJA regions).

American Athletic Inc. equipment will be used at the finals of the 1990 championships. The committee also added a \$10 student all-sessions pass.

The committee will recommend March 24 as the last date of qualification for the 1991 championships, with regionals April 6 and finals April 18-20.

The committee is soliciting bids for regionals and finals for 1991 and 1992, with a November 15 deadline for those interested in hosting in 1991 and a May 15, 1990, deadline those interested in hosting for 1992.

The committee developed suggested formats for dual, triangular and quadrangular meets.

The Market

The Market lists positions available at senior colleges and universities, junior colleges, and high schools.

All readers of The NCAA News are invited to use The Market to locate candidates for positions open at their institutions, to advertise open dates in their playing schedules or for other appropriate purposes.

Rates are 55 cents per word for general classified advertising (agate type) and \$27 per column inch for display classified advertising. Orders and copy are due by noon five days prior to the date of publication for general classified space and by noon seven days prior to the date of publication for display classified advertising. Orders and copy will be accepted by telephone.

For more information or to place an ad, call Susan Boyts at 913/384-3220 or write NCAA Publishing, P.O. Box 1906, Mission, Kansas 66201.

Positions Available

Athletics Director

Assistant Athletics Director for Facilities Management. The United States Military Academy is seeking an assistant director for athletic facilities. Send applications to: Dr. Harry L. Forsyth, Director HPER and Athletics Box 2820 South Dakota State University Brookings, SD 57007

Equal Opportunity/Affirmative Action Employer.

Despite handicap, Stevens is three-sport athlete

A look at the Augsburg College football guide reveals that nose guard David Stevens' height is 3-foot-2. It is not a misprint.

Stevens has no legs or hips. He is among the babies born with severe birth defects in the United States during the 1960s because their mothers used the drug Thalidomide during pregnancy.

Yet, he has been a three-sport athlete, excelling not only in football but in wrestling and baseball (he played right field).

He does not use artificial legs on the playing field because they hinder his mobility.

"I anchor myself on my hands and stumps," Stevens told Arizona Republic writer Bob McManaman, who recently wrote about the Wickenburg (Arizona) High School graduate who returned to his home town June 2 to address the WHS class of '89.

"I get around pretty quick, believe it or not. It sort of looks like a cross between a tarantula and a chimpanzee, but it works."

His handicap never has prevented Stevens from participating in sports. He advanced to the Arizona state wrestling championships twice in

News quiz answers: 1-False. 2-(a). 3-(c). 4-(b). 5-True. 6-(d). 7-(c). 8-(d). 9-True. 10-(c).

high school in addition to playing varsity football and baseball, then gave all three sports a try at Augsburg before deciding to concentrate on football.

Reads ankles

"I look under the center's legs and stare at the quarterback's ankles to read the offense," the nose guard told McManaman. "If a running play comes my way, I'm strong enough to take him down. A lot of teams like to run plays right at me when I'm in there, but I can hold my own."

Although he has been a reserve on the football team, he started two exhibition games for Augsburg against teams in Australia and New Zealand a few months ago.

In a 23-0 Auggies victory over the New Zealand team, Stevens made the play of the game in his other role as the holder on extra-point attempts. He took a bad snap from center late in the game, faded back and threw over a heavy rush into the end zone for a two-point conversion.

"I just kind of did a Kareem Abdul-Jabbar fade-away over these Crocodile Dundee guys plowing through the line at me," Stevens told the Republic. "I didn't see it. I got smashed as I let it fly. But I heard the crowd. They were going nuts. They just went crazy."

Dave Stevens

"I looked over and saw the opposing coach throw down his clipboard. I guess that was the last straw for him. Here it is, late in the game and his team is getting hammered, and the guy without legs throws a scoring pass."

Ample humor

That account of the scoring play is an example of what a former coach at Wickenburg describes as Stevens' hearty sense of humor.

"He was one of the funniest kids at school," wrestling coach Victor Smith told McManaman. "He always had us cracking up."

"I remember one night at a wrestling tournament in Williams, David got out of the bus without his legs on and was sitting in the snow when the team from Joseph City pulled up in their bus. David told them not to get out, because the snow was too

deep. Here it is, maybe only a couple inches deep, but David made it look like he was up to his waist in it."

The team walked far out of its way to avoid the apparently deep snow. "David really got the best of them that night," Smith said.

"I think he used humor as a kind of a self-defense mechanism," he continued. "He didn't like people feeling sorry for him. That really bothered him. He wanted to be just like anybody else."

"That's really what he became, too. He really became a respected athlete, especially in wrestling. By his second year, he was winning so much that he earned everyone's respect."

Stevens' story was featured in the February issue of Reader's Digest, in which author John Hubbell described the 23-year-old as "nothing less than a miracle of courageous determination."

Worldwide inspiration

Stevens' frequent invitations to speak to groups is ample proof that his story inspires others, but it was an incident in New Zealand that drove that point home. There, a 4-year-old child from an Indian tribe was moved to give one of his most valued possessions to Stevens.

"...All the people in his tribe wear this bone around their necks," Stevens told the Republic. "It's like a necklace. They get it when they're

born, and they're supposed to carry it around their necks for life.

"He came up to me after the game, took it off and gave it to me. I told his parents, 'Look, I can't accept this. This is his birth rite.' His father told me to keep it. He said, 'You have touched our son. This is something we have never seen before in him. Keep it. It would be a disgrace to us if you didn't.'"

"I just couldn't believe it. I didn't know I could inspire someone like that, but I guess I did."

After one more year of football at Augsburg, Stevens hopes for a career in television sports. He already has done on-camera interviews, written and produced segments, and run videotape and operated live studio cameras for KSTP-TV in Minneapolis. Stevens' boss at the station thinks his protege has as much of a chance as anyone to make it in the business.

"I'd like to come back home to Arizona," Stevens told the Republic. "I'd love to work in Phoenix. They've got pro football now, and pro baseball, I'm sure, is just around the corner. The Suns are back and winning again, and (Arizona State University) sports are always good."

"Most people in this business would want to work in New York or LA, but not me. I'd ditch those places in a second for the chance to work in Arizona. That's home."

Questions/Answers

Readers are invited to submit questions to this column. Please direct any inquiries to The NCAA News at the NCAA national office.

Q How does the NCAA define a faculty athletics representative?

A According to Constitution 4.02.1, "A faculty athletics representative is a member of an institution's faculty or administrative staff who is designated by the institution's chief executive officer or other appropriate entity to represent the institution and its faculty in the institution's relationship with the NCAA and its conference(s), if any."

SEC has no current plans to expand 10-member league

Expansion of the Southeastern Conference will not occur soon.

The conference's annual spring meeting ended June 1 with no definitive action taken on the issue, other than a recommendation to organize a panel to study the pros and cons of adding members.

"To my knowledge, there was not a great deal of discussion regarding any change of membership," SEC Commissioner Harvey W. Schiller told the Associated Press.

"I know specifically there were no schools mentioned. The only thing I know is that the presidents asked

for a committee to look at long-range planning that would include things like conference membership in the future.

"We probably would not have had it on the agenda if not for the media interest," the commissioner said. "There are no current plans for the Southeastern Conference to expand.... We were responding to outside interests."

Coaches and athletics directors generally agree that expansion would not be feasible any time soon.

Most of the speculation about a

so-called superconference has centered on its effect on football. One potential problem is that SEC members and prospective members are locked into schedules for most of the next decade.

Roy Kramer, athletics director at Vanderbilt University, said, "We will have to look at expansion as to how it affects all the other events we sponsor as a conference." He mentioned the SEC's round-robin scheduled in basketball and also wondered how expansion will affect "long-time traditional rivalries, non-revenue sports and women's sports."

SEC selects top scholar-athletes

Louisiana State University track athlete Mikael Olander and University of Georgia swimmer Deanne Burnett have been selected as the 1988-89 Southeastern Conference Scholar-Athletes of the Year in voting by a committee of faculty athletics representatives.

Each student athlete will receive a \$10,000 postgraduate scholarship.

"These two student-athletes exemplify the best college athletics has to offer," said Commissioner Harvey W. Schiller. "They are outstanding students, outstanding athletes and outstanding citizens. All of us in the conference are proud to have Mikael and Deanne represent our league."

Olander is a four-year track letter-winner, and he compiled a 3.910 grade-point average in finance. An academic all-America selection, Olander was on the SEC academic honor roll four years. He was a seven-time all America in track and won the 1988 NCAA decathlon title. He also competed in the Seoul Olympics.

He is a native of Jonkoping, Sweden. He will pursue a graduate degree in business.

Burnett is a two-time academic all-America and has a 3.870 grade-point average in accounting. She was on the SEC honor roll four years and was a three-time all-Amer-

ica as a member of the 800-meter freestyle relay team. She was swim team captain this season and also served as vice-president of Georgia's Fellowship of Christian Athletes.

Burnett plans to attend law school at the University of Texas, Austin. She is an Austin native.

The SEC also awarded eight postgraduate scholarships of \$5,000 each.

The recipients are Mark Blythe, baseball, University of Kentucky (3.570 grade-point average in accounting); Stephen Enochs, tennis, University of Georgia (3.420 GPA in finance); Wesley Walls, football, University of Mississippi (3.410 GPA in general engineering); Adam Epstein, football, University of Tennessee, Knoxville (3.730 GPA in classics); Kelly Good, gymnastics, University of Alabama, Tuscaloosa

(3.680 GPA in premedicine); Jennifer Campbell, swimming, Louisiana State University (3.880 GPA in accounting); Joan Hammeren, track, University of Florida (3.870 GPA in exercise physiology), and Terri Duckworth, volleyball, Auburn University (3.900 GPA in criminology).

Schiller said the postgraduate scholarship program is another attempt to reward student-athletes who excel scholastically. "Through funds provided by the USF&G Sugar Bowl, we are helping many young people continue their education. We see a lot of student-athletes who are able to continue their athletics careers in the professional ranks. Through this program, we can provide a means by which outstanding student-athletes can further their education."

represent the SEC in the USF&G Sugar Bowl.

For a bowl that pays more than \$2 million, the participating school will receive the first \$700,000 and share 20 percent of the balance with institutions that tied for the championship.

In a two-way tie, the participating school would get 15 percent and the other co-champion five percent. The distribution for a three-way tie would be 10 percent for the participating school and five percent each for the others.

The committee to study expansion will be appointed this summer by Donald W. Zacharias, president of Mississippi State University and incoming SEC president. No timetable has been set for a report.

Conference presidents decided to strip the University of Kentucky of the 1988 conference basketball championship because it used an ineligible player.

Among other actions was a change in the conference revenue-sharing formula to meet the concerns of schools that may tie for the football title and not be selected to
