## Autumn YES clinics to help 1,100 youths

More than 1,100 young people will receive instruction on what it takes to be successful in sports, academics and personal life at three Youth Education through Sports clinics this fall.

Offered free to 10- to 18-year-olds, YES clinics will be held in conjunction with NCAA championships in field hockey, water polo and volleyball.

Participants will meet face to face with top collegiate coaches and student-athletes and receive instruction about skills and strategies in their favorite sport. In addition, featured speakers and discussion sessions will provide information about personal development and academic achievement.

YES clinics also will be conducted at more than 15 winter and spring championships.

The YES field hockey clinic will be held November 19 at Springfield College. Vonnie Gros of Ursinus College will serve as master of ceremonies. Providing instruction at the clinic will be coaches Beth Anders, Old Dominion University; Donna Fong, University of California, Berkeley; Sherren Granese, Boston College; Carla Hesler, Yale University; Pam Hixon, University of Massachusetts, Amherst; Ma-

ryBeth Holder, University of Delaware; Kathy Kranebitter, West Chester University of Pennsylvania; Diane Lussier, Westfield State College; Michele Madison, Temple University; Missy Me-harg, University of Maryland, College Park; Charlene Morett Newman, Pennsylvania State University; Anne Parmenter, Connecticut College; Nancy Stevens, Northwestern University, and Dottie Zenaty, Springfield.

In addition, student-athletes from Springfield; the University of Massachusetts, Amherst, and the participating coaches' institutions will conduct demonstrations, provide instruction and lead small-group discussions on the responsibilities of student-athletes.

More than 400 participants already have registered for the field hockey clinic; another 600 youth hockey players remain on the waiting list.

Stanford University coach Dante Dettamanti will be the featured speaker at the YES water polo clinic, scheduled November 25 at Indiana University Natatorium in Indianapolis.

Joining Dettamanti will be coaches Jeff Heidmous, U.S. Air Force Academy; Ken

See *Autumn*, page 3

## Convention legislation reflects trend toward more federation

The trend toward greater federation in the Association's legislation is reflected again in the legislation submitted for action at the 1990 NCAA Convention in Dallas.

Of the 130 proposals submitted in accordance with the November 1 deadline, 57 — or 43.9 percent — will be dealt with by the separate division and subdivision business sessions January 8, rather than in the general business session scheduled to begin January 9. That is by far the highest percentage in the five years that the divisions have had the right to take final voting actions in their own business sessions.

The previous high percentage was last January, when 49 of 147 (33.3 percent) proposals went to the division and subdivision sessions. In terms of numbers of proposals in the five-year history of final voting in the division sessions, there were 27 assigned to the divisions in 1986, 45 in 1987 and 52 in 1988.

Eighty of the 130 proposals this year will be handled in the division sessions or in the consent package, leaving only 50 others to be voted upon in the general business session. Last year, there were 60 (after the consent package) in the general session; in the preceding three years, the comparable numbers were 73, 64 and 70.

In each of the previous four years, the general business session has

ended in one day, rather than the scheduled day and a half.

The number in the consent package this year is down — 23 compared to 38 last year.

As the legislation was being prepared last week for printing in the Official Notice of the Convention, an unofficial count showed six proposals to be voted upon by Division I-A in its separate session; four by Division I-AA; a record 32 for the full Division I session; nine in Division II, and six in Division III.

In the Official Notice, the 130 proposals will be presented in the following groupings and will be dealt with in the general business session in the following order:

Consent package, 23 proposals; Presidents Commission grouping, 14; academic proposals, three; fi-

nancial aid, 11; eligibility, 16; general (including governance, membership, personnel, championships and committees), 15; amateurism, seven; playing seasons, 14, and recruiting, 27.

The Commission grouping includes proposals that otherwise would be in other topical groupings, including academics, financial aid, playing seasons and recruiting.

The Official Notice of the Convention, which contains all of the proposed legislation and other Convention information, will be mailed from the national office November 29.

In the November 20 issue, The NCAA News will begin a series of six articles outlining the 130 proposals.

## 18 roll-call votes set

The officers of the NCAA Presidents Commission have identified 18 legislative amendments for roll-call votes at the 1990 NCAA Convention in Dallas, 10 more than a year ago.

Meeting by telephone shortly after the November 1 legislation-submission deadline, the four Commission officers reviewed all legislation submitted for the Convention and specified proposals for roll-call votes and for placement

early in the agenda in the special Presidents Commission grouping of legislation.

Mandating roll-call votes and agenda placement are two of the Commission's authorities as specified in the NCAA constitution.

Fourteen of the 18 proposals identified for roll calls will compose the Commission's grouping, while the other four roll-call votes occur elsewhere in the agenda.

See *18 roll-call*, page 3

## Council will consider changes in committee appointment procedure

The NCAA Council is considering changes in the Association's committee appointment procedures, as recommended by the NCAA Administrative Committee.

In its October meeting, the Council received a report from the Administrative Committee setting forth such possible changes. Rather than acting on the report at that time, the Council directed that it be printed

in The NCAA News to provide the membership an opportunity to comment on the proposed changes. The Council then will take action on the suggestions in its April 1990 meeting, with necessary legislation to effect the changes being proposed for the 1991 Convention.

Member institutions and conferences may submit their reactions to any member of the Council. Fol-

lowing is the report submitted by the Administrative Committee:

In three of its in-person meetings this year, the Administrative Committee has discussed the Association's committee appointment procedures. In our April 16 meeting, concerns were expressed regarding perceptions in the membership of a "closed shop" with regard to committee appointments, perceptions that sports committees are "self-perpetuating" and perceptions that committee service in the NCAA should be "opened up" to assure that more people have access to that service.

We directed the national office staff to prepare a series of alternatives regarding that process, and we reviewed those alternatives in our August 1 meeting in San Diego and again in our August 13 meeting in Hyannis. We then directed the staff to prepare this report to the Council.

The Administrative Committee recognizes that administration of the committee appointment process has become increasingly complex during the past several years, due primarily to ever-increasing constituency requirements and to additional required contacts for nominations and for recommendations in the approval process. The purpose of the recommendations is

See *Council*, page 3

## Bill would put steroids in category with cocaine

Sen. Joseph Biden, D-Delaware, has introduced legislation that would make anabolic steroids a schedule II controlled substance, placing them in the same category as cocaine.

The bill, "Steroid Trafficking Act of 1989," also would add penalties to the Federal Food, Drug and Cosmetic Act for the distribution or possession of anabolic steroids with intent to distribute the human growth hormone for any use in humans other than the treatment of disease.

In introducing the legislation, November 1, Sen. Biden said, "The steroid problem is not simply a public health problem, it's a problem of values.

"Millions of kids learn about the

values of hard work and fair play when they play on a Little League team or watch their favorite college and pro athletes on TV. But athletes who use steroids teach all the wrong values — that it's OK to cheat, that it's OK to take shortcuts to achieve success."

Sen. Biden said his bill, while sharply increasing penalties for steroid trafficking, also would charge the Drug Enforcement Administration with attacking the \$300 to \$400 million steroid black market and would require U.S. agencies to incorporate steroids in drug-abuse prevention, education and treatment programs.

"College and professional sports organizations have to make clear

## Left-footer's got it right

University of Georgia junior John Kasay has made a smooth transition in his kicking game without the use of a tee, which was banned this season, and is among the leaders in Division I-A field goals at two per game. See football notes and statistics on pages 6 through 9.

# Player's injury focuses attention on insurance coverage

University of Mississippi reserve defensive back Roy Lee "Chuckie" Mullins was paralyzed October 28 in a game against Vanderbilt when he took a blow to the top of his head, fracturing the third, fourth, fifth and sixth vertebrae of his neck.

Doctors say his prognosis for recovery is poor, and he most likely will require lifetime care.

Mullins' injury and the drive to raise funds for his long-term care have received extensive media coverage and focused attention on the importance of providing catastrophic-injury insurance for athletes.

"The tragic case at Mississippi illustrates how important it is that universities provide catastrophic coverage for student-athletes," said Richard D. Hunter, NCAA director of operations. "It shows that these severe injuries do happen and that it is important to have quality insurance coverage."

Hunter oversees the NCAA's insurance programs, which include a catastrophic-injury plan, basic athletics-injury coverage and an athlet-

ics-staff accident plan. During 1989-90, the fifth year of the program, 473 NCAA member institutions are participating in the catastrophic-injury program.

Another 186 colleges and universities, most NCAA members, receive catastrophic-injury coverage through the National Association of Collegiate Directors of Athletics' SuperCat program.

"The NCAA and NACDA catastrophic-injury programs are the only ones that provide lifetime medical and rehabilitation benefits," said Thomas F. Wilson, president of National Sports Underwriters, which administers the NCAA coverage. "This means that about one-quarter of NCAA member institutions do not carry insurance that offers this level of benefits to those who suffer catastrophic injuries."

The University of Mississippi has started a trust fund for Mullins to supplement its insurance coverage, which was not purchased through the NCAA or NACDA.

Wilson hopes the high visibility of the Mullins accident will prompt more institutions to consider providing comprehensive catastrophic coverage for their student-athletes. He also says the need for such coverage extends beyond schools that sponsor Division I football.

"Catastrophic injuries can happen in all divisions and in all sports," Wilson said. "This fall, two other injuries occurred at smaller schools that were covered under the NCAA plan. One was in fall baseball and the other was in rugby, which was covered because the institution is participating in a supplementary plan we provided for club and intramural sports."

"Since we began administering the plan in 1985, NCAA student-athletes have sustained catastrophic injuries in gymnastics, ice hockey, baseball, football and track; even cheerleaders have suffered these injuries. Unfortunately, not all of

the institutions involved were participating in the NCAA program."

Participation in the NCAA's catastrophic-injury plan has increased each year since the program began. This year's total represents an increase of 19 member institutions over the 454 participants of 1988-89. The year before, 364 members purchased the coverage.

The catastrophic-injury plan provides lifetime benefits, with no overall policy maximum, to students suffering catastrophic injuries while participating in intercollegiate sports or traveling to and from athletics events. The NCAA pays the entire premium for coverage for all Division I men's and women's basketball participants; in addition, the Association pays one-half the premium for all other Division I sports and the entire cost of coverage for all participants in championships. Funding for the NCAA subsidy is provided by revenue from the Division I Men's Basketball Championship.

All Division I athletics directors soon will be sent certificates of insurance indicating that their men's and women's basketball players automatically are covered by the plan.

The catastrophic-injury plan supplements the NCAA's basic athletics-injury program, which covers student-athletes, cheerleaders, student managers and student trainers injured while taking part in intercollegiate sports, both at home and while traveling. The basic coverage provides medical and dental expenses for two years up to a maximum of \$25,000 and includes an accidental death and dismemberment benefit of \$5,000.

This year, 218 NCAA member institutions are participating in the basic athletics-injury program, a 25 percent increase over 1988-89.

"These programs have been accepted widely by the NCAA membership, and participation continues

to grow," Wilson said. "As we've gained experience administering the programs, we've attempted to enhance the coverage to better provide the benefits that are needed after injuries. We are committed to providing this coverage over the long term, and we will continue to look for ways we can enhance this program for 1990 and beyond."

The underwriting carrier for the NCAA-sponsored plans is Lincoln National Health and Casualty Insurance Company. Institutions interested in receiving further details about any of the three NCAA plans should contact National Sports Underwriters at 9300 Metcalf Avenue, Suite 350, Overland Park, Kansas 66212 (telephone 800/621-2116).

## Committee Notices

**Executive Committee:** The NCAA Council, at its post-Convention meeting, January 10-11, 1990, will appoint replacements for Executive Committee members whose terms expire in January 1990. There are five term expirations.

**Eligible for reelection:** Don J. DiJulia, St. Joseph's University (I-AAA).

**Not eligible for reelection:** Francis W. Bonner, Furman University (I-AA); Edward E. Bozik, University of Pittsburgh (I-A), and Leanne Grotke, California State University, Fullerton (I-A).

The new Division III vice-president elected by the 1990 Convention will become an Executive Committee member automatically, replacing Alvin J. Van Wie, College of Wooster.

Two of those appointed must be from Division I-A, one from I-AA and one from Division I-AAA. One must be a woman.

Nominations must be received by Fannie B. Vaughan, executive assistant, in the NCAA office no later than December 12.

### COMMITTEE CHANGES

#### Council-appointed committees

**Basketball Officiating:** Shirley A. Walker, Alcorn State University, appointed to replace Joan C. Cronan, University of Tennessee, Knoxville, declined appointment.

**Infractions:** Beverly F. Ledbetter, Brown University, appointed to existing vacancy.

#### Sports committees

**Women's Basketball Rules:** Linda K. Sharp, Southwest Texas State University (instead of University of Southern California).

**Men's and Women's Track and Field:** Chick Hislop, Weber State College, appointed to replace Harley W. Lewis, resigned from the University of Montana.

## Football foundation honors Clary

Wilburn "W. C." Clary, who officiated more than 350 college games in the Old Southern, New Southern and Atlantic Coast Conferences, is the National Football Foundation and Hall of Fame's 1989 college football electee.

The former all-Southern player at the University of South Carolina

officiated for 36 years, and his assignments included the Orange Bowl, Gator Bowl, Peach Bowl and East-West All-Star Game. The 77-year-old Clary remains active as supervisor of officials for the South Atlantic Conference, in addition to operating a sporting-goods store in Winston-Salem, North Carolina.

## Nominations for committee posts due December 8

Vacancies on NCAA women's volleyball committees were omitted from an article in the November 6, 1989, issue of The NCAA News regarding sports committee vacancies that will be filled at the 1990 Convention in Dallas.

Nominations for the following vacancies must be forwarded to each member's Women's Committee on Committees district representative no later than December 8.

Copies also should be sent to the committee chair (Elizabeth Murphey, Assistant Director of Athletics, University of Georgia, Box 1472, Athens, Georgia 30613) and to Fannie B. Vaughan, Executive Assistant, NCAA, P.O. Box 1906, Mission, Kansas 66201.

**Division I Women's Volleyball**  
Two expirations. Eligible for reelection: Michael L. Haley, University of Texas, Austin (I-South-6); Christine W. Hoyles, Pacific-10 Conference (I-West-8), chair.

**Division II Women's Volleyball**  
One expiration. Eligible for reelection: Walter Ker, California State University, Northridge (II-Southwest-8).

**Division III Women's Volleyball**  
One expiration and one vacancy. Eligible for reelection: Marjorie Mara, Carleton College (III-Central-4). Vacancy: Pamela D. Walker, who has been on sabbatical, will not return to the University of Redlands (III-West-8). Walker must be replaced as chair, and new appointees will take office February 1, 1990.

## News Fact File

The greatest amount of time ever spent on a single legislative proposal at an NCAA Convention was two hours and 20 minutes in January 1984 on a proposal to create a Board of Presidents with veto power over actions of the membership. Next highest: one hour and 50 minutes in January 1987 when Division II adopted Bylaw 14.3 [then Bylaw 5-1-(j)]. Only 11 proposals have taken more than an hour of Convention time in the years covered by NCAA records.

Source: Annual analyses of NCAA legislative procedures prepared for the NCAA Council and the NCAA Committee on Review and Planning.

## Legislative Assistance

1989 Column No. 40

### NCAA Bylaws 14.1.5 and 14.12—participation between terms

NCAA member institutions are reminded that in accordance with Bylaw 14.12, if a student-athlete's academic eligibility changes at the end of the quarter or semester, the student-athlete shall become eligible or ineligible on the date his or her eligibility officially is certified by the appropriate institutional authority. In the case in which the student becomes eligible at the end of the term, the earliest date on which the student can become eligible to compete is the day after the date of the last scheduled examination listed in the institution's official calendar for the term that is ending. In the case in which the student becomes ineligible, the ineligibility shall become effective not later than the first day of classes of the following semester or quarter. In any case, if the student-athlete is academically eligible to compete at the time of the student's or the institution's first participation in an NCAA championship, he or she remains eligible for the remainder of the championship.

During its April 27, 1988, telephone conference, the NCAA Legislation and Interpretations Committee determined that when a student-athlete is declared academically ineligible in accordance with the provisions of Bylaw 14.12 and the institution has a documented appeal process for all such students, the student-athlete would be eligible or ineligible during the appeal process based on the institutional regulations applicable to all such students, it being understood that if the institution's appeal process extends into the following term, an eligibility declaration for purposes of NCAA legislation must be made prior to the beginning of that term.

In accordance with Bylaw 14.1.5.1.1, a student-athlete who will initially enroll in the certifying institution for the subsequent term may practice and compete during the official vacation period immediately preceding initial enrollment, provided the student has been accepted by the institution for regular enrollment in a regular full-time program of studies for the succeeding term at the time of the individual's initial participation (practice or competition); the student no longer is enrolled in the previous educational institution, and the student is eligible under all institution and NCAA requirements, including applicable transfer regulations.

### NCAA Bylaws 14.6.4.2 and 14.6.4.5—transfer to four-year college prior to completion of requirements

Member institutions are reminded that in accordance with Bylaw 14.6.4.5, a two-year college student who transfers to a Division I or II member institution prior to the completion of applicable transfer requirements (e.g., graduation from the two-year college) would be subject to the

one-year residence requirement at the certifying institution, even though the student transfers back to the two-year college and completes the necessary requirements (e.g., obtains a degree). Please note that in accordance with Bylaw 14.6.4.2, it would be permissible for a student-athlete who attends a two-year college and prior to regular enrollment in a member institution attains additional credit as a part-time student in any four-year institution to utilize hours accumulated at the four-year institution in determining the student-athlete's eligibility under the two-year college transfer provisions, provided: (1) These hours are accepted by the two-year college and are placed on the transcript or other official document by the two-year college from which the student-athlete transfers prior to the date of initial regular enrollment at the NCAA member institution, and (2) any official document (other than the student-athlete's transcript) utilized by the two-year college for this purpose includes the official seal of the two-year college, is signed by the appropriate academic official of the two-year college and is forwarded directly from the two-year college to the appropriate admissions official of the certifying institution.

### NCAA Bylaw 16.8.1.4—travel to NCAA championships and special events during vacation period

Bylaw 16.8.1.4.1 allows a member institution to provide transportation for a student-athlete to travel from campus to the site of an NCAA championship or special event and back to the campus; or if the student-athlete goes home during the vacation period, the institution may pay (in lieu of providing team transportation) the greater of the transportation costs for the student-athlete to travel from: (1) campus to the event site and back to campus, (2) campus to the student-athlete's home and back to campus, or (3) the student-athlete's home to the event site and back home. Please note that the above-mentioned guidelines would not be applicable to regular-season intercollegiate athletics events. Also, in accordance with Bylaw 16.8.1.5, an institution may provide \$10 per day to each member of the squad to cover unitemized incidental expenses during travel and practice for championship events during a period limited to the maximum number of days of per diem allowed for the involved championship, or for certified postseason bowl contests, for a period not to exceed 10 days.

*This material was provided by the NCAA legislative services department as an aid to member institutions. If an institution has a question it would like to have answered in this column, the question should be directed to William B. Hunt, assistant executive director for legislative services, at the NCAA national office.*

# 18 roll-call

*Continued from page 1*

The Commission's special grouping is intended to assure that legislative issues of particular interest to presidents and chancellors are dealt with early in the Convention.

The actual number of roll-call ballots at the Convention will be considerably higher than 18 because of amendments that have multiple voting requirements and because of amendments to those amendments that may be submitted at the Convention itself. Each of those also must be voted upon by roll call.

## Roll calls

The 18 amendments specified for roll calls include the following 14 in the special Commission grouping:

- The Commission's own proposal to require graduation-rate disclosure in Divisions I and II, as well as a proposal by the Division III Steering Committee to require similar disclosure in Division III, which the Commission chose not to propose. The Divisions I and II

vote will be in the general session, while Division III will handle its own proposal in its own business session.

- Three alternative approaches to 1989 Convention Proposal No. 42, all to be voted upon in the Division I business session. One is the Commission's proposal to rescind No. 42 and to specify that the partial qualifier can receive need-based, nonathletically related financial aid. The other two, submitted by member institutions, would simply rescind No. 42 or delay it and call for additional study.

- A Division II Steering Committee proposal, for vote by that division only, to permit both partial qualifiers and nonqualifiers to receive the same types of nonathletically related financial aid that are available to students in general.

- The Commission's proposal to reduce time demands on student-athletes by reducing the spring football practice period, reducing the

basketball season and requiring development of similar reductions on time demands in all other sports for action at the 1991 Convention. That will be acted upon by all divisions in the general session, as will a Division II-only proposal, sponsored by that division's steering committee, that has a slightly different approach to spring football practice.

- Two proposals dealing with financial aid for incoming students to attend an institution's summer term or summer orientation program. One is the Commission's, which would permit receipt of nonathletically related aid and specify that such individuals could not be involved in any type of athletics activities at the institution during that summer period, including use of the institution's weight-training facilities. The other, proposed by member institutions, also would permit such summer aid, but it could be athletically related and would make the recipient a counter against the max-

imum limits in the sport for the next academic year. Both will be voted on in the general session.

- Two proposals, both submitted by member institutions, to change the initial-grant limit in Division I-A football. Both will be handled in the separate Division I-A session.

- An amendment from member institutions to permit Division I-A and the rest of the Division I membership to vote separately on the limitation on the amount of financial aid that an individual student-athlete may receive. This requires a vote of all divisions and thus will be done in the general session.

- A proposal from member institutions to increase the current "Pell Grant exemption" in the financial aid limit in Division I from \$1,400 to \$1,700. This one will be voted on in the full Division I session.

The Commission officers emphasized that placement in the Commission grouping does not constitute Commission support (or opposi-

tion), except in the instance of the four being sponsored by the Commission. The Commission will determine in its January 7 meeting at the Convention if it wishes to announce support of or opposition to any of the Convention proposals.

The other roll calls, all for proposals appearing elsewhere in the agenda, are:

- Three drug-testing amendments sponsored by the NCAA Council and the NCAA Executive Committee. The Commission was asked by the Executive Committee to designate those for roll-call votes. These will occur in the general session.

- A resolution from several Division I conferences regarding the automatic-qualification privilege for the Division I Men's Basketball Championship. This is a Division I-only vote.

In the December 27 issue of *The NCAA News*, each of the 14 proposals in the Presidents Commission grouping will be reviewed in detail.

# Council

*Continued from page 1*

to attempt to improve the process without adding unnecessarily to its complexity, with the overall goal of assuring optimum opportunities for committee service to the membership.

- All nominees should be listed in alphabetical order when they are presented to the appointing body, and the nominator(s) should continue to be identified. The staff already has implemented this procedure.

- It should be permissible for the national office staff to recommend individuals for committee service; further, it is permissible for a staff member to report the name of an individual to be included in the committee files without such action constituting a staff recommendation or endorsement, per se.

- There should be a single term of service on all committees, except that the Presidents Commission should be allowed to continue with a four-year term, if it desires, and the Committee on Infractions should continue with a maximum of nine years of service. We ask the Council to consider whether the single term in all other cases including the Council and the Executive Committee should be six years or five years. In either event, there should be no immediate reelection. This change would require amendments to several portions of the constitution and bylaws.

- We also ask the Council to discuss the appropriate length of term for individuals appointed to interim vacancies. Currently, an interim appointee can be reelected to a full term if he or she has served less than half of a term. The Administrative Committee favors a maximum of five or six years of service, in any event, recognizing that such a provision can pose problems in the desired rotation of the membership of a committee. One option would be to permit such interim appointments to be only for the unexpired portion of the term involved. Any change in this regard also would require legislation.

- The Administrative Committee favors the earlier request of the Men's and Women's Committees on Committees that the chairs of those committees be permitted to serve in that capacity for two years, rather than one. This would require legislation.

- We recommend establishment of a computerized committee-nominee data bank in the national office,

wherein once each year those interested in serving on or nominating someone to serve on specific NCAA committees would submit a nomination to be entered in the bank. The nomination form would be carefully designed to ensure that all relevant information needed for consideration is included.

Nominations received at other times during the year, as well as in response to notices of vacancies in *The NCAA News*, would result in the mailing of a nomination form to the individual being nominated, if time permitted, or in the expectation that the nominator would submit the necessary information when making the nomination. Information would be kept current through an annual short form sent to all registrants in the bank for an information update, and we propose that the data bank would be culled every three years to eliminate individuals whose names had been in the bank for that period of time.

The data bank thus would become the source of listings of all nominees to be considered for a given committee vacancy. The computer would produce the listing of the candidates in the bank that meet all of the requirements for the given vacancy, and the listing would be provided to the appointing body.

Please note that the development of this data bank will require additional time and manpower, and it is not likely to be available for another year.

If the data bank is approved, and when it becomes operational, listings of candidates should reflect the specific nominator(s) in all cases except self-nominations and staff nominations, which would be identified simply as "data bank." We suggest that appointing bodies be reminded that the "data bank" designation should not lessen the value of the nomination.

- We suggest that the Council consider whether to eliminate the current "hiatus" rule that enables an additional term of service after "sitting out" three years, in addition to eliminating the immediate-reelection opportunity as recommended earlier. The "hiatus" possibility represents a major record-keeping problem for a situation that arises only rarely. This would require legislation.

- The Administrative Committee believes that the responsibility and authority of the Men's and Women's Committees on Committees should be reaffirmed. We suggest develop-

ment of guidelines for those committees to reemphasize those matters and to mitigate the perception on those committees that they are expected to "rubber-stamp" the sports committees' nominees. To assist in this, we suggest that the current policy that sports committees should submit at least two eligible nominees for each vacancy be made mandatory. Once these guidelines are developed, they should be distributed to the chairs of all sports committees.

- We also suggest that for all appointments made in October by the Council (general committees), a minimum of two eligible nominees for each vacancy should be mandated. This would not extend, however, to vacancies among the officers, Council, Executive Committee or Presidents Commission. Please note, too, in regard to the Council appointments in October, that Council members would be expected to submit their nominations in advance in the same manner as the membership, rather than presenting those nominations during the Council meeting.

- We have recommended that *The NCAA News* run a front-page feature on the current committee appointment process, and that article appeared in the September 25 issue. In subsequent issues, the News editors included a box on the front page referring the readers to the location of the committee vacancies listed in that issue. The News now is running those listings on either page 2 or page 3 of each issue to assist the membership in locating that information.

- We have agreed that both the Committee Handbook printed after the Convention and the NCAA Directory printed in the fall should include listings of the Association's special committees and subcommittees, as well as listing the staff liaison personnel for all committees (appearing with the committees to which they are assigned). To assist the membership in determining the current listings of committees, the cover of each of those publications will include an indication of the "effective date" of those listings. Finally, we agreed that it no longer is necessary for the national office to contact ongoing committee members to determine if they wish to continue their terms; instead, only new members should receive notification.

- We recommend legislation to

amend Constitution 4.02.2 and Bylaw 21.1.1.1 to eliminate the 50 percent provision for representatives of Division I institutions and conferences (i.e., anyone from a Division I institution or conference would have to be a full-time staff member at the institution or conference to be eligible for committee service). This is not recommended for Divisions II and III because of the common practice of using part-time staff members in athletics at those institutions.

- We believe that some type of exception procedure should be established by which the Administrative Committee could approve waivers of committee-service requirements. We ask the Council to discuss whether this should be a general exception procedure applicable to any requirement or a more

limited exception opportunity, perhaps only available in cases where the bylaw requirements for a given committee cannot be met in any other way. This would require legislation.

- We recommend that the Council approve the following as guidelines to be included in the Council Handbook:

- The Council should base its appointments in all cases on the qualifications of the nominees.

- Members of the Council and Executive Committee should not serve on committees other than special committees, Council and Executive Committee subcommittees, and those committees requiring a Council representative per Bylaw 21.3.1.

NCAA ADMINISTRATIVE COMMITTEE

# Autumn

*Continued from page 1*

Lindgren, California State University, Long Beach; Ted Newland, University of California, Irvine; Ed Reed, Brown University; Page Remillard, Washington and Lee University; Mike Schofield, U.S. Naval Academy; Terry Schroeder, Pepperdine University; Peter Snyder, University of California, Santa Barbara; Mike Sutton, Claremont McKenna-Harvey Mudd-Scripps Colleges, and John Tanner, University of the Pacific.

Student-athletes will lead the 300 participants in small-group discussion sessions on time management, study skills, self-discipline and peer pressure.

Punahou School in Honolulu, Hawaii, will be the site of the YES volleyball clinic December 16.

American Volleyball Coaches Association all-Americas and student-athletes from the University of Hawaii and the University of Hawaii, Hilo, will work with 360 participants in the five-hour clinic.

Participating in the clinic will be volleyball coaches Kathy DeBoer, University of Kentucky; Mick Haley, University of Texas, Austin; Janice Kruger, University of Maryland, College Park; Scott Luster, Louisiana State University; Julie Morgan, University of Illinois, Champaign; Ruth Nelson, University of Iowa; Sharon Peterson, University of Hawaii, Hilo; Nona Richardson, Eastern Michigan University; Russ Rose,

Pennsylvania State University; Alan Rosehill, University of Hawaii; David Shoji, University of Hawaii; Tom Shoji, Indiana University, Bloomington, and Patti Snyder, Arizona State University. Terry Liskevych, coach of the U.S. women's volleyball team, will be the featured speaker.

The YES program is funded by the NCAA corporate sponsors: American Airlines; American Express; Coca-Cola USA; Gatorade; The Gillette Company; Greyhound Lines, Inc.; Hyatt Hotels; Kodak; Mitsubishi Electric Sales America, Inc.; National Car Rental; Oldsmobile; Pizza Hut; Rawlings Sporting Goods Company, and Worldtek Travel.

that any athlete who uses steroids will be suspended or expelled from their leagues," Sen. Biden said.

He also noted that progress has been made on this front with the NCAA's announcement of a year-round program for steroid testing that "has great promise" and the NFL's efforts in implementing an antisteroid program.

"These steps, backed by tough law enforcement as proposed in this bill, are important steps toward making drug use in sports unacceptable," Sen. Biden said.

## Programs needing direction should try NCAA constitution

By Michael Buckley Bolan

In the first century, four of five people in the city of Rome were slaves, and the citizens of Rome, unburdened by labor, were at leisure to plot and open to intrigue. This fact was not lost on the emperors, who kept the citizenry tranquil and preoccupied by diversions known as "games."

The emperors built an enormous race course for chariots, the Circus Maximus, which seated 180,000. They also constructed a multipurpose arena for gladiator contests, the Colosseum. It was partly domed, seated 450,000 and could be flooded for sea battles. The fans would "tailgate" on free bread donated by the emperor. This practice spawned the expression "bread and circuses,"

in reference to this diversionary device to anesthetize the masses.

This period and practice is generally viewed, in historical perspective, as the glory days of Rome and its decadence.

By way of contrast, Sir Winston Churchill is quoted as saying that the "Battle of Britain was won on the playing fields of Eton." These are fields lying at the base of Windsor Castle, where since 1443 schoolboys have tried to push a ball through an impenetrable stone wall.

These two sharply contrasting examples of the function of athletics are cited to dramatize a point. Both types of athletics endeavor served the purpose of their respective empires: one to amuse and one to build character.

### Roman practice

The Roman practice eroded the fabric of its society, while the Etonians eventually saved their country from destruction and gave the English people true heroes.

I believe that educators had similar concepts in mind when they formed the NCAA.

It now is time for educational institutions to redirect their school programs toward the objectives set out in the NCAA constitution. Intercollegiate athletics competition is looking very Roman these days.

Let us look at those objectives and compare them to the realities of present-day intercollegiate sports.

The NCAA was established in order to maintain:

"... intercollegiate athletics as an integral part of the educational pro-

gram and the athlete as an integral part of the student body, and by so doing, retain a clear line of demarcation between college athletics and professional sports." (NCAA Constitution 1.3)

The NCAA membership consists of about 800 four-year institutions that have to meet specified academic standards. The NCAA defines a student-athlete as an amateur in intercollegiate sport whose "participation should be motivated primarily by education and by the physical, mental and social benefits to be derived. Student participation in intercollegiate athletics is an avocation, and student-athletes should be protected from exploitation by professional and commercial enterprises." (NCAA Constitution 2.6)

These are the goals and ideals

that NCAA members, public and private educational institutions, have established and continue to subscribe to by their membership in the NCAA. However, these are not the goals that are aspired to in word or in deed by all those participating in the members' programs.

### Goals differ

Athletics directors, coaches, athletes and alumni talk about different goals and measure themselves by different criteria, while still giving lip service to the espoused goals. With few exceptions, the conversations I have heard and the words I have read in the past year betray an allegiance to false gods, the gods of money and aggrandizement.

While there is a litany of serious problems confronting educational institutions, their employees who are associated with intercollegiate athletics and their student-athletes, the most pressing is the conflict of educational ideals vs. institutional and personal gain. One is at first inclined to identify money or the lack of it as the problem; but in truth, it is only a symptom of an ethically debased system.

All the member schools need money for programs. Athletics directors scramble for bowl and tournament revenues; underpaid coaches have open hands for shoe contracts, and nonsalaried athletes try to get on someone's payroll as their athletics skills rise and academic endeavors wane.

Nobody is keeping his eye on the ball—the ball being education and athletics avocation.

A very telling example of the status of intercollegiate athletics and its "student-athlete" was revealed in the United States District Court during spring 1989 in the criminal prosecution of two sports agents, Norby Walters and Lloyd Bloom. The aftermath of that trial is equally thought-provoking.

### Walters/Bloom trial

The Walters/Bloom trial involved racketeering charges brought against two theatrical agents with direct ties to organized crime who tried their hand at representing college athletes—football players who planned to turn professional.

Walters/Bloom got into trouble because they turned the college boys professional while they were still college boys. Signing the aspirants to contracts, 59 in all, Walters/Bloom passed them off as amateurs to their respective educational institutions, 32 in all. Simply put, this was a fraud.

The agents defended themselves by saying that they did not defraud the universities involved because the school should have declared the athletes ineligible on their own. They claimed that before the agents ever met the athletes, the schools should have declared the athletes ineligible because of "academic records and extracurricular actions."

It was a trial from which no person and no institution emerged unscathed. As the trial judge said in his sentencing remarks, "A startling aspect of this trial was the absence of any easily identifiable 'good guys'—the universities are not Simon pure, and I do not see the athletes in a favorable light."

The judge pointed out that the athletes remained eligible despite evidence that they were making no

See Programs, page 5

## Freshman ineligibility is his goal

Charles E. Young, chancellor of the University of California, Los Angeles, said he is ready to lead the debate for freshman ineligibility at the January NCAA Convention in Dallas.

"The issue of freshman eligibility has been one of the prime matters I've been wanting to get dealt with for a long time," Young told Eric Sondheimer of the Los Angeles Daily News.

"I've been one of the strong proponents of making freshmen ineligible," Young said.

Young said he senses growing support among college presidents to make freshman football and basketball players ineligible. The NCAA Presidents Commission will sponsor a debate at the Dallas Convention on freshman eligibility.

The only item related to freshman eligibility on the Convention legislative agenda is a resolution from the Committee on Basket-

Charles E. Young

ball Issues seeking Convention approval for a thorough study of freshman eligibility in Division I basketball.

"In football at UCLA, freshmen come here and start football practice five or six weeks before they go to class," Young said. "They play three football games. Then, somehow, they have to start squeezing in their academic programs. And they squeeze them in with far less time than other students. It doesn't take a lot of research to know that it puts them at a disadvantage."

Young said he hopes for a vote on freshman eligibility as early as 1991. He said he believes freshmen should be able to practice with their teams if ineligibility for competition is adopted.

## Criticism and praise both dangerous

**Bill Curry, head football coach  
University of Alabama, Tuscaloosa**  
*Scripps Howard News Service*

"It's just a fact that when you win, you gain a certain following.

"I teach that praise is more dangerous than criticism, and both are extremely dangerous. Both can destroy what you are trying to achieve. The instant you give in to criticism, you give yourself a reason to fail.

"But the instant you begin to believe you are Mr. Wonderful, you get your teeth knocked out. It happens every time. So the challenge is to keep working."

**George Raveling, head men's basketball coach  
University of Southern California**  
*Des Moines Sunday Register*

"One of the things you want to do (in recruiting) is put yourself in a position where you develop a relationship with prospects that is so strong that they don't know how they'll ever tell you no.

"I've already concluded that if I die tomorrow and only one thing can be put on my tombstone pertaining to basketball, it will say: 'Raveling: A great recruiter who couldn't coach.'

"Once you get a reputation, it's hard to lose it. No matter what happens to me, I don't think I'll ever be looked upon as a guy who knows anything about basketball. Three years from now, if I win the national championship, people will say I should have won with all that talent."

**Roger Stanton, publisher  
Football News**  
*Excerpted from an editorial*

"The benefits of college football today are greater than ever before. Hundreds of thousands of ex-players who received college scholarships enabling them to receive an education can be found in all walks of life—lawyers, doctors, businessmen, teachers, salesmen and just about every other occupation. To a man, they will attest to the values taught to them by their participation in college football.

"Yet, college football is constantly under fire by certain members of the media who search for something negative to overemphasize.... Of course there is room for improvement in the administration of college athletics. But I deplore the sensationalists... and others who overemphasize the negative aspects of college sports and elect to ignore the positive....

"When young men and women are fortunate enough to attend institutions of higher learning, shouldn't we teach them that making money is part of our system? All this talk about too much emphasis on winning also is irritating. Why not teach young people to be winners? In the business world, losers go bankrupt. Winners keep growing."

**Ricky Byrdsong, head men's basketball coach  
University of Detroit**  
*Titan Express*

The NCAA's limitations on recruiting periods: "It truly makes the summer critical, and that's why, as a staff, you have to get guys who are tremendously organized and have a real focus on what recruiting is all about so you don't waste the time that you have.

"It has become a tougher job, particularly for the schools like ours that are not in the national limelight all the time. It forces us to have to really try to get to know a kid to offset the fact that he may not have

Bill Curry

Ricky Byrdsong

heard as much about who we are.

"It used to be that we had enough time so kids

## Opinions

around the country got a chance to know us. But now, they don't, so you just have to make certain in other ways that it still happens."

**Lou Pavlovich Jr., editor  
Collegiate Baseball**  
*Excerpted from a column*

"The NCAA Executive Committee had a golden opportunity to take a leadership role in the battle with tobacco by banning the use of tobacco products, including smokeless tobacco, on the field of play at all NCAA championships.

"But the Executive Committee decided not to ban tobacco products and instead will only discourage the use of tobacco products.

"Talk about your questionable stances; this one ranks right up there in the annals of college history.

"The Association's Committee on Competitive Safeguards and Medical Aspects of Sports has volumes of evidence that back up its recommendations that tobacco should be banned on the field of play at all

Continued from page 4

progress toward degrees. In one instance, a convicted burglar kept his scholarship.

The defense of "you can't cheat an honest man" worked, in part. The jury found the defendants not guilty of two counts. It did not buy the idea that two of the schools were victims of fraud; in other words, "you can't cheat a cheater."

The judge noted that the perception of big-time college athletes is that of "hypocrisy," that the concept "student-athlete" is a myth and that "the megamillions of dollars involved in college sports have corrupted everything the money touches."

## Organized crime

He also stated that the most disturbing element in the case was the presence of organized crime. (From my own experience as a lawyer and judge, those people have an uncanny knack for identifying those who are morally weak and ripe for corruption.)

Finally, the judge gave this ominous warning — that in the future there will be on the field the previously unrecognized player — "the rule of law."

It is significant that these findings occurred in a court of law and not in some symposium or conference. A trial in a court of law is in essence a search for the truth that has dire consequences. Statements are cross-examined, corroborated by physical evidence and commented upon by advocates for each side.

It is only then that 12 persons decide what is true and what is not true beyond a reasonable doubt. If the allegations are true, then the wrongdoers are sent to jail, as occurred in this case. Walters received the maximum sentence.

This is a pretty disgusting state of affairs for NCAA members that aspire to attain the NCAA goals and conform to the ideals they have established in the NCAA constitution.

The actions of educators independent of the Walters/Bloom case and in reaction to the Walters/Bloom case show that pursuit of the altruistic goal is aspired to by only a few, is yet to be the goal of the majority and is a long way from being reality.

As the judge in the case posited, "Who is making the decisions in the collegiate athletics arena?" You should ask, who is going to act in the best interests of education and the student-athlete? The answer is that now, there are only a few. Yet, even these few meet with resistance.

The Southeastern Conference sponsored Proposition 42 as furtherance of Proposition 48, both of which are intended to enhance scholarship. However, this action was called regressive and racist. There is the new Big Ten Conference commissioner, James Delany, who said that his top priority will be to foster the seemingly incompatible marriage of athletics and academics. "I don't think the colleges should be acting in concert with the pro leagues. We should be about education."

## Reaction to trial

Along the same line, in reaction to the criminal trial, the president of the University of Iowa, Hunter Rawlings, proposed that he would unilaterally make freshman students at the school ineligible if the NCAA failed to do so nationally within three years.

The presidents of the Big Ten Conference schools supported Rawlings and indicated they would seek NCAA approval.

However, Rawlings received nothing but brickbats from Iowa coaches, fans and even Iowa's governor. Not everyone got the message.

At the 1989 Big Ten football luncheon, the Iowa coach said he wished he could redshirt the school's president. I personally was appalled at and embarrassed by that remark, because my own son played football on scholarship at that school and under that coach, who has a master's in psychology. Moreover, I had written him a letter praising his program to the heavens.

At the same luncheon, the coach at Michigan State said that it was his hope that success on the football field would soon become the athlete's third, fourth or fifth priority. He stated that there were higher priorities such as family, education and citizenship.

But, he went on to state that he was unable to say this aloud before his team had won the conference title and the Rose Bowl, and the pressure was off. That is more of a confession than a statement of dedication to the goals of education. It makes one wonder what would happen to the priorities had he not won the title.

By the way, can you guess which two schools were found not to have

been defrauded by Walters/Bloom?

You might think that the author of this essay is a football basher or a person jealous of college athletes, or one not in tune with the times. In fact, the opposite is true. I love college football. Intercollegiate athletics has been very good to my family, and ethics are for all times. My father (Purdue '26), myself (Colorado '63) and my son (Iowa '87) obtained our degrees as scholarship athletes playing football. I also have three stepchildren who got their education as scholarship athletes.

## Values threatened

I believe in the values learned through participation in intercollegiate sports and fear that all the good that can be done will be wiped out by the present bad state of affairs.

We do not send student-athletes to college to become more proficient athletes. We sent them to become educated, something that no knee injury can take from them. Education and athletics are completely compatible and even mutually beneficial when the priorities are in order.

The vast majority of student-athletes do graduate and become

productive members of society.

In college, I had teammates, minority athletes included, who excelled on athletics fields (consensus all-Americans, all-conference and Olympians). They earned their letters and also earned letters after their names: B.S., B.A., M.S., M.B.A., M.D., Ph.D. and Rhodes scholar.

To those who fear their high academic standards will put them at a competitive disadvantage, I say this: You fear not for your athletes but only for yourselves. Colleges and universities were not established to create employment or to provide entertainment, but rather to educate and enlighten. The schools must not only set the standards, they must live by them.

## Extreme example

It is not my intention to single out football programs as the only ones in which the student-athlete, amateurism and ethics have gone the way of the Edsel and dodo bird. It is cited as an example, an extreme example. In point of fact, in a conversation recently with a senior editor of a national sports publication, I was told that he personally refuses to cover college football because it is so corrupt.

Overall, I sense there is a momentum building, a momentum toward taking charge of those runaway programs, coaches and alums and herding them all toward rearranging their priorities.

Words like "education" and "student athlete" are creeping back into the coaching vocabulary. In the long run, the onus of leadership falls upon none other than the college presidents, the conference presidents and the member schools of the NCAA. If there is to be progress toward educational and amateur athletics goals, they are the ones who must reassert who is in charge.

They must set policies that implement the goals set forth in the NCAA constitution. Those goals and priorities will not be attained or adhered to without strong, persistent and courageous leadership. If the policy-makers of intercollegiate athletics fail to rearrange their priorities, their programs and athletes are just going to go the way of the Romans. The Empire of Rome lasted for a while; but in the Middle Ages, cows grazed in the Roman Forum.

*Bolan is an associate judge in the Circuit Court of Cook County, Illinois.*

## Some things for Knight commission to consider

By Bill Benner  
The Indianapolis Star  
Excerpted from a column

Plans are in the works to give it that old college try... again.

In Washington, D.C., it was announced recently that a commission is being appointed to take out soap and a scrub brush in an attempt to "clean up" college athletics.

The Rev. Theodore Hesburgh, former president of the University

of Notre Dame, and William C. Friday, former president of the University of North Carolina system, will head the commission, created by the Knight Foundation.

NCAA Executive Director Richard D. Schultz also will be on the panel.

"There's a place for a good intercollegiate athletics program at every college," said Friday. "The problem is that we are turning institutions of higher education into entertainment

centers."

"Greed has taken over," added Father Hesburgh.

I'm not sure what the commission has in mind.

But if anyone is truly interested in producing students who sometimes are athletes rather than athletes who sometimes are students, if we are truly interested in reining in the out-of-control excesses of big-time college athletics, then I would recommend the commission explore

the following:

- Eliminate freshman eligibility. The transition from high school to college is difficult enough without piling on the demands of big-time — or even small-time — athletics.

- Do away with redshirting for anything but verifiable, major medical reasons.

- Reduce schedules — from 11 games to 10 in football, 28 to 24 in basketball. Fewer games mean more time for academics.

- Limit practices to two hours a day and eliminate Sunday workouts. Prohibit the fairly common procedure of coaches using long, grueling practices or postmidnight practices — as punishment for disappointing performances.

- Limit in-season media access to athletes.

- Eliminate spring football. Begin basketball practice November 1, not October 15.

- After a specified length of time — five years, perhaps — give coaches tenure and reduce the win-or-lose-your-job pressures.

- Pay coaches on a scale relative to that of professors.

- Eliminate or restrict the amount of outside income coaches can earn. It is ridiculous that coaches can earn six-figure amounts by mandating that their athletes wear a certain brand of sneaker.

- Tell television networks when and where games will be played not vice-versa. Eliminate late-night, early morning and Sunday made-for-TV spectacles.

- Distribute all television and broadcast revenues among all institutions. Everybody gets an equal slice of the pie.

- Require colleges — as has been proposed — to publish graduation rates. But take it one step further. Also require institutions to disclose what programs athletes are receiving their degrees in.

- Tie scholarships to graduation rates. New scholarships become available only when athletes receive their degrees.

- Do away with contributions that go only to athletics. All moneys should go into the school's general fund.

## Opinions

Continued from page 4

NCAA championships; however, the Executive Committee took the coward's way out."

### Alan Schafer, varsity football player University of Chicago

Chicago Tribune

"When I'm a football player, when that's at the top of the list, winning is extremely important.

"You're just not going to spend all the time we do, you're not going to spend all the pain we do, you're not going to spend all the effort we do and not care about winning and losing.

"When you've got a poor record, you tend to look at other benefits. But winning and losing are important. I'd say to anyone that being at the University of Chicago and playing football is a positive experience. But winning is the difference between being marginally successful and extremely successful."

### Will Rey, head men's basketball coach Loyola University (Illinois)

Rambler press release

"We are here to do more than win basketball games. You have to start with quality young men who are talented, but they should also have high priorities academically. We want winners on the court, off the court and in the classroom.

"A lot of people think this cannot be done in today's high level of competition in college basketball. We believe that it can be done, and we look at schools like Duke, Indiana, Evansville and those in the Ivy League to make this belief a lot stronger.

"From beginning to end, we make sure that the players are on the right track with their academic responsibilities. We want the young men who come to us to be successful, not only when they attend Loyola, but after they graduate, as well."

### Harold R. Raymond, head football coach University of Delaware

School news release

"At Delaware, we never started with the objective of winning national championships. We simply wanted

to give our young men the opportunity to test themselves with the finest intercollegiate football opportunity possible and add a unique dimension to their education.

"In that sense, I feel we have met our objectives, and year after year, we have been successful. I feel that one of the finest contributions to football that (Delaware) President (E. A.) Trabant made was to see that his football coach was a tenured faculty member, making it possible for us to reach our objectives.

"I believe that if more presidents would take this stand, intercollegiate football would be in a lot better shape than it is."

### Richard Schindler, assistant director National Federation of State High School Associations

The Dallas Morning News

"Every year, we look at the game (football) and hope we can make changes to make it safer.

"But every year, techniques change. The size of the players, the condition of the players, the equipment and turf make for even bigger contact situations. It's more unsafe by the nature of the players and bigger players who play the game. With a bigger player on the field with better traction and better equipment and players in better condition, there's a better chance of blows causing injury than ever before."

### Fred Highsmith, head football coach Rice University

The 5th Down

"They're (SAT and ACT) somewhat culturally biased, I believe. But I think they have to play a part. I'm for the slide-indexing to help a kid if his grades are way up (and he doesn't meet the minimum test score).

"But you can't do away with the test, because we are finding now that the black athletes, with the challenge, are performing much, much higher than people gave them credit for being able to do a few years ago. I'm finding that a lot.

"Everybody's talking about the 700 (SAT minimum test score). I'm finding a lot of black athletes with 800 or more."

# Tennessee on track for I-A most-improved title

By James M. Van Valkenburg  
NCAA Director of Statistics

The race to become the nation's most improved Division I-A team for 1989 is much like the race for the Heisman Trophy — wide, wide open.

Ten teams have a chance to at least share the honor, and the bowls almost certainly will decide things. Through games of November 11, 7-1 Tennessee seems to have the inside track. It can record a 5½-game improvement by winning its last three vs. Mississippi, Kentucky and Vanderbilt and then winning a bowl game to finish 11-1 vs. 5-6 last year (six more wins and five fewer losses is 11, then divide by two).

Mississippi State, 5-4 in Rocky Felker's fourth year vs. 1-10 a year ago, has a mathematical chance to improve by six games in the regular season but would need a rather unlikely sweep of Louisiana State and Mississippi to do that.

San Diego State, under first-year coach Al Luginbill, could match Tennessee's 5½ by sweeping its remaining games and winning a bowl, but its last two games are against Miami (Florida) and Brigham Young—an even more unlikely sweep than what Felker's team needs. The Aztecs are 6-3-1 vs. 3-8 last year.

Only one team has locked up a 4½-game improvement. That is Colorado State, 5-5-1 and done for the season in coach Earle Bruce's first year vs. 1-10. And, who knows, that might turn out to be enough to win or tie for the most-improved title.

Both 7-2 Ohio State and 5-3-1 East Carolina could reach 4½ games by sweeping their last two games (and a bowl victory would make it five games).

Four more teams could reach four games by winning their remaining games—7-3 Air Force, 7-2 Texas Tech, 5-4 Minnesota and 4-4 Georgia Tech (each could reach 4½ with a bowl victory).

Six teams can reach 3½ games in the regular season by winning every game left. They are 10-0 Colorado, 6-2-1 Penn State, 5-4 San Jose State, 5-4-1 Virginia Tech, 5-5 Bowling Green and 1-7-1 Rice. Seven more can reach three games by winning the rest—7-2 Illinois, 6-3 Kentucky, 6-3 Mississippi, 4-4 Texas, 3-7 Kansas, 2-7-1 Miami (Ohio) and 2-7 Wisconsin.

## Outhouse to penthouse

The Tennessee turn-around really started last year after a stunning 0-6 start brought talk of firing the favorite-son coach, Johnny Majors. Majors took action, relieving his defensive coordinator of his duties, moving players around and demoting starters. He simplified the defense and held "almost a mini-spring practice" before the seventh game. The Volunteers lost by a touchdown to Alabama that week, but won their last five games.

Then, Majors overhauled the team's weight training last winter. The Vols won their first five this fall before losing to Alabama.

Majors dismissed star tailback Reggie Cobb from the squad before the seventh game this season, but the Vols appear to have the depth to overcome that and finish 10-1 for a major bowl berth. Talk of a national championship has died down; that is now a long shot. Majors experienced one at Pittsburgh in 1976 and would like to win another, but says, "That is an elusive goal—so many things can happen."

Bruce never won a national title at Ohio State but never won fewer than nine games his first eight seasons before he was fired in 1987

**Air Force's Dee Dowis is among Division I-A's leading scorers**

**Carl Smith of Maine is the leading rusher and scorer in Division I-AA**

**Anthony Allucci, Indiana (Pennsylvania), is among Division II passing-efficiency leaders**

**Eric Nyhus of Washington (Missouri) ranks second among punters in Division III**

after a 6-4-1 season.

With a \$471,000 settlement from Ohio State and plenty of money saved, Bruce, 58, does not have to coach. "My motivation is to deal with young people," he told Robyn Norwood of the Los Angeles Times. "I like to be around them. I like to coach them." There are fewer hands to shake and backs to slap in Fort Collins, but that doesn't bother Bruce, who never has much time for that. "In football, you're gonna get knocked down," he says. "You have to jump up and fight back."

Luginbill, coming off four productive years as associate athletics

icut.

Cozza often says, "If you're a football player, you can't hide. We'll find you." His quarterback, Darin Kehler, began last football season as a baseball shortstop but Cozza found him and switched to a wish-bone offense after his first two quarterbacks went down. Kehler is an elusive runner and a good passer.

Illinois State's Heacock wasted no time starting his team on the road back. Just minutes after the final game last year, he said: "It's simple. If you want to get stronger, you hit the weights. If you want to get faster, you practice running. If

total offense at 733.9, scoring at 47.7 points per game, touchdown passes at 2.39, yards per attempted pass at 7.05, yards per total-offensive play at 5.16, passing emphasis at 39.9 percent and field-goal accuracy at 68.8 percent all are above the records.

## Thompson's big day

Passers like Houston's Andre Ware and Brigham Young's Ty Detmer enjoyed big days, but Indiana tailback Anthony Thompson, the nation's leading rusher and the top career touchdown scorer (64) in I-A history, had the biggest day of all.

Thompson rushed for an all-time-high 377 yards on 52 carries vs. Wisconsin, smashing the former I-A one-game record by 20 yards.

Only a week earlier, Cal State Fullerton's Mike Pringle was credited with a 357-yard game after a review of the play-by-play added five yards. That tied the old mark by Washington's Rueben Mayes in 1984, now swept aside by Thompson.

With 388 career points, Thompson needs just six more in his last game to break the I-A-record 393 by Florida State kicker Derek Schmidt (1984-1987). Thompson also leads current I-A career rushers at 4,686—10th all time.

## Detmer vs. Ware

Detmer leads the nation in passing efficiency, 169.2 to 155.4 over Ware, and Detmer's 10.85 yards per attempt is above the all-time-high 10.27 by Jim McMahon of Brigham Young in 1980. But Ware is attempting a record-high 51.6 passes per game, and Detmer "only" 35.7, so Ware is averaging more yards per game.

Ware's 8.24 yards per attempt is good but last among the nation's top 11 passers, providing a good indication of how many hot passers are on the scene. But 8.62 percent of Ware's passes have gone for touchdowns—highest percentage among the nation's top 50 passers. McMahon's TD percentage was a record 10.6 when he set the record of 47 TD passes in 1980. Ware now has 40.

In both passing yards per game (424.9) and total offense (418.7), Ware is well above the records, but remember that he is throwing 51.6 passes a game to 37.1 by McMahon in his record season. Ware is a junior and Detmer only a sophomore, so none of the career records is safe.

Houston junior Emmanuel Hazard reached 19 TD catches November 11, breaking the I-A record of 18 by San Diego State's Tom Reynolds in 1969. His 13.1 catches per game are not far from the record

13.4 by Tulsa's Howard Twilley (1965).

## Mathis reaches 4,000

Duke's Clarkston Hines set a I-A career record of 35 TD catches November 11, only to have New Mexico's Terance Mathis tie that mark hours later. Mathis also moved his record in receiving yardage to 4,171 yards. Stacey Corley of Brigham Young tied the one-game record for kickoff returns (99 and 85 yards) against Air Force.

Moving to the quarterback rushers, Southwestern Louisiana's Brian Mitchell now has 3,103 yards, third all-time (Air Force's Dee Dowis now leads with 3,422), and Mitchell's 43 career rushing TDs is a record for quarterbacks.

In Division I-AA, Northeast Louisiana's Doug Pederson passed for 619 yards, a division record, while Stephen F. Austin State's Todd Hammel had 571 in the same game, won by Hammel's team, 66-45, as Hammel led in TD passes, eight to five.

## Quotes of the week

Georgia Southern coach Erk Russell recently reached the 100-game mark as a head coach, of which he won 77. Not bad for a man who did not become a head coach until he was 56. "They say that you know you're getting old in this profession when you go out on the road recruiting and all the mommas start to look good," Russell, now 63, told Tony Barnhart of the Atlanta Journal and Constitution. "Right now for me, a few of the grandmothers are starting to look pretty good." (Matt Rogers, Georgia Southern SID)

Mansfield offensive guard Charlie Johnson, who ran 29 yards to score on a trick play (a "fumbleroskie"), was mobbed by his fellow linemen and drew a 15-yard penalty when he spiked the ball. Explaining it to coach Tom Elsasser: "But coach, the offensive line never practiced how to act after running for a TD." (Steve McCloskey, Mansfield SID)

Led by 21 seniors who helped the university resume varsity football in 1986 after 34 years, Aurora posted an 8-1 record this fall, giving the group a 20-12 career record. Said coach Jim Scott: "This is a very special group of seniors. They had faith in our program and have created a new winning tradition." (Tom Nelson, Aurora SID)

Mount Union coach Larry Kehres, after watching Pittsburgh transfer Larry Wanke throw for 257 yards and two touchdowns in John Carroll's 31-7 win over his team: "He may have transferred to Division III, but he brought that Division I arm with him." (Tom Bochenek, Mount Union SID)

## Football notes

director at San Diego State, built his offense on the talents of Iowa transfer Dan McGwire, who at 6-8 may be the tallest starting quarterback in Division I-A history.

## Yale leads I-AA

Yale, under veteran coach Carm Cozza, leads the most-improved race in Division I-AA.

His team is 8-1 vs. 3-6-1 last year and would finish up 5½ games by beating Harvard November 18, which would clinch at least a tie for the most-improved title with Southwest Missouri State, which in turn would need a play-off sweep. Yale also would wrap up an undisputed Ivy Group championship by winning.

Should Yale stumble, Illinois State, under second-year coach Jim Heacock, has a chance to win it. The Redbirds, plagued by injuries and inexperience, were 0-6 in Gateway Conference play last season but finished 4-2 this fall for the best one-season improvement in conference history. For all games, Heacock's team is 5-5; by defeating Nicholls State November 18, it would finish with a five-game improvement over 1-10 in 1988.

In that event, only Southwest Missouri State's 8-2 Gateway champions would have a chance to finish ahead of Illinois State. It would take a four-game sweep of the Division I-AA championship play-offs to bring that about (plus a victory November 18 over Liberty). That would give Southwest Missouri a 5½-game improvement of 13-2 vs. 5-5 last year (and tie Yale for the title if Yale wins November 18).

Yale clinched at least a share of the Ivy crown by beating Princeton November 11. It was Cozza's 150th career victory, all at Yale, against 77 losses and five ties in 25 seasons. His only 1989 loss has been to Connect-

icut. you want to get smarter, you hit the books." His players did all three.

In coach Jesse Branch's first season at Southwest Missouri State four seasons ago, the Bears finished 3-7 and last in the Gateway. "We said we were going to build slowly and not try to get rich quick," Branch said. "This culminates a lot of hard work." Eleven of his starters are seniors. The Bears let a couple of close games get away in the fourth quarter last year and Branch started a rugged series of sprint drills to build stamina.

With overflow crowds this fall—as many as 9,000 for the 7,500 seats—there is talk of stadium expansion. Attention now rivals that given the Division I basketball program. Football moved into I-AA in 1978; Rich Johannmeier was the coach who took the program to a new level.

Three teams can achieve a 4½-game improvement by taking their remaining games. They are 4-5 Tennessee Tech, 3-6-1 Texas Southern and 3-6 Idaho State. Both 7-3 Youngtown State and 5-5 North Carolina A&T can reach four games; 4-6-1 Morgan State already has finished up 3½ games, and five teams can reach three games—7-3 Northern Iowa, 7-3 Eastern Illinois, 4-5 Harvard, 4-5 Eastern Washington and 4-6 Colgate.

## Record offensive day

Division I-A passers enjoyed an all-time-record Saturday, November 11, averaging 423.7 yards per game (both teams combined) to break the record 423.4 on October 7. And total offense yardage reached 760.6, also an all-time record, breaking the 758.2 of October 29, 1988.

It was the seventh consecutive 400-yard Saturday and brought the season average to 400.4—far above the record 372.2 in 1985. Season

# NCAA Record

## DIRECTORS OF ATHLETICS

**Harold Wilkes** announced he will step down in January 1990 as AD at Tennessee-Chattanooga, where he has been on the athletics staff since 1959. He also was the school's head football coach from 1968 to 1973, when he relinquished his coaching duties to serve full time as AD.

## COACHES

**Baseball** - **Ken Heaton** selected as Jersey City State's first full-time coach. He served the past two seasons as head coach at Delbarton High School in Morristown, New Jersey, where his teams compiled a 32-21 record.

**Baseball assistants** - **Jerry Greeley** named at King's (Pennsylvania). He is a former player at East Stroudsburg... **Martin Castro** and **David Parouse** joined the staff at Hofstra. Both previously were aides at Dominican (New York).

**Men's basketball assistants** - **Tom Keenan** joined the staff at Niagara after a stint as assistant at St. Francis (New York). He is a former head coach at Staten Island, where he was City University of New York Athletic Conference coach of the year during the 1985-86 season... **Dave Dibble** named at Stevens Tech. He is a former assistant at Boston U. and Providence.

**Women's basketball** - **Mickey McAulay** is the new head coach at Redlands. McAulay previously was an assistant at Cal Poly Pomona.

**Women's basketball assistants** - **Susan Morris** appointed at Stockton State, her alma mater, where she will assist her sister, head coach Kathy Morris. The new Oxyre aide has been a teacher and shop manager since serving as team captain at Stockton State during the 1987-88 season... **Jane Lee** named at Colby. She is a former Northwest Missouri State player who teaches in the Waterville, Maine, public schools... Former Cal Poly Pomona all-America **Paula Tezak** promoted from graduate assistant coach to assistant at her alma mater. She played from 1984 to 1988.

**Men's and women's cross country** - **Jack Warner** announced his retirement at Cornell, where he also will step down as head men's and women's track coach, effective June 30, 1990. He also coached cross country and track at Colgate for 11 years and is a former Kansas assistant.

**Men's and women's fencing assistant** - **Brad Cellier** named at Penn State, where he recently completed his collegiate career with a four-year record of 157-71 in foil.

**Field hockey** - **Deb Fiore** is the new head coach at Oneonta State, where she also will coach women's lacrosse. She previously coached both sports at Wells.

**Football** - **Cleve Bryant** dismissed at Ohio, effective at the end of the season. Through five seasons at the school, Bryant has coached his teams to a 9-42-2 record, including a 1-7-1 mark with two games left this season. He is a former assistant at Miami (Ohio) and North Carolina... **Tim Rose** dismissed after seven seasons at Miami (Ohio), effective at the end of the season. This year's team broke a 20-game winless streak but is 1-7-1 with two games left. Rose's overall record is 30-43-3... **Paul K. Harrison** resigned at Southeastern Massachusetts, where he headed the school's club team for three seasons before starting the varsity program in 1988... **Larry Kentera** stepped down after five years at Northern Arizona, effective at the end of the season. He directed the Lumberjacks to winning seasons in 1986 and 1988.

**Women's lacrosse** - **Deb Fiore** named at Oneonta State, where she also took over in August as head field hockey coach. She previously coached both sports at Wells.

**Women's softball** - **William Edwards Jr.** selected at Allentown... **Harry Elenbaas** selected at Metropolitan State after two years as head girls' coach at Northglenn High School in Denver, Colorado. The 46-year-old coach also is active as a player... **William Edwards Jr.** selected at Hofstra. He has coached the sport at Commack North High School in New York since 1981 and also has coached an Amateur Softball Association summer team since 1986.

**Women's softball assistant** - **Tom Benfield** named at Allentown.

**Women's swimming and diving** - **Sandra Hammack** selected at Gallaudet. She is a recent graduate of Southern Methodist, where she participated in swimming and track.

**Men's and women's track and field**

**Mark L. Elliston** named at Lock Haven, where he also has joined the admissions staff. The former Oklahoma Baptist stand-out athlete, who was NAIA decathlon champion in 1986, previously was an assistant at Citadel... **Jack Warner** announced his retirement at Cornell, where he also will step down as head men's and women's cross country coach, effective June 30, 1990. He has coached the school's men's teams since 1967 and the women's teams since 1982 and has tutored three Olympians and 17 all-Americans. He also coached the sports at Colgate for 11 years.

**Women's track and field assistant** - **Sandra Burke** joined the staff at Florida, where she will work with throwers. Burke, who previously was an aide at Syracuse, replaces **Scott Irving**, who moved to the men's staff at Illinois.

**Wrestling assistants** - **Michael Porcelli** appointed at Hofstra, which also announced that **Michael Mauriello** will serve as a volunteer assistant. Porcelli is a former Iowa State standout who has coached at East Islip High School in New York since 1986, and Mauriello is a former coach at the junior high school level.

## STAFF

**Assistant to athletics director** - **Keenan Delaney** named special assistant to the men's AD at Minnesota, where he has been interim promotions and marketing director since last summer. He is a former promotions director at Michigan.

**Business manager** - **Linda Martin** selected at Boston U., where she has been the university's assistant director of special programs since 1986.

**Promotions and marketing director** - **Shawn Hunter** named for men's athletics at Minnesota, succeeding interim director **Keenan Delaney**, who was named special assistant to the men's athletics director. Hunter, the son of Idaho athletics director Gary Hunter, previously worked in corporate sales and marketing with the Minnesota Timberwolves.

**Sports information directors** - **Cliff Koch** appointed at Allentown... **Bruce Parker** named at Eastern Washington. He served as SID at Montana State before working the past 1½ years with Eastman Kodak in Corpus Christi, Texas. Parker replaces **Jim Price**, who retired to write a history of Spokane, Washington, baseball... **Diane Goodwin** selected at Chicago State. The former Illinois State graduate assistant worked most recently as a correspondent for the Southside Economist, a community newspaper in Chicago.

**Stadium assistant** - **Bob Hallas** hired as assistant stadium superintendent at Purdue, where he has been on the crew that operates Ross-Ade Stadium since 1985 and served briefly last July as acting stadium superintendent.

**Trainer** - **Terry Bisbing** named at Allentown.

## NOTABLES

**Theresa Greutz**, head women's basketball coach at Rutgers, will coach the U.S. women's basketball team at the 1990 World Championships in Malaysia and the 1990 Goodwill Games in Seattle. Her assistants will be **Lin Dunn**, head coach at Purdue, and **Jim Foster**, head coach at St. Joseph's (Pennsylvania). Also, **Linda Hargrove**, head coach at Wichita State, will serve as administrative assistant... The American Volleyball Coaches Association and Tachikara named seven regional coaches of the year in Division III women's volleyball: **Larry Bock** of Juniata, East region; **Teri Clemens** of Washington (Missouri); **Central: Jim Paschal** of La Verne and **Malcolm Taylor** of Menlo, West (tie); **Kandis Schram** of Maryville (Tennessee), South; **Joan Sitterly** of Cortland State, Northeast, and **Elizabeth Zicha** of Muskingum, Midwest.

## DEATHS

**The Rev. Thomas Oddo**, president at

**Brad Cellier joined fencing staff at Penn State**

**Linda Martin named business manager at Boston U.**

Portland, died October 29 in Portland, Oregon, at age 45... **Christopher Scott**, former head tennis coach at Chicago, died October 16 in Chicago. He was 62.

## CORRECTION

Due to an editor's error, the Record section in the October 30 issue of The NCAA News incorrectly referred to B. Dell Felder, the new president at Eastern Washington, as a male. She previously was the school's senior vice-president for academic affairs and provost.

# ESPN schedules 236 college basketball games for season

ESPN again will televise more than 200 basketball games, including 17 regular-season and postseason women's games, during the 1989-90 season.

The cable network's 236-game schedule also features 190 live regular-season men's games, in addition to full coverage of the first round of

## Top baseball award goes to McDonald

Former Louisiana State all-American and U.S. Olympic pitcher Ben McDonald is this year's recipient of the Golden Spikes Award, given by the United States Baseball Federation to the nation's outstanding amateur baseball player.

McDonald, who began a professional career with the Baltimore Orioles September 6, is the 12th recipient of the award, which recognizes athletics ability, sportsmanship, character and overall contributions to baseball. His selection was announced November 9 at the Downtown Athletic Club in New York City.

"Winning the Golden Spikes Award is a tremendous thrill," McDonald said. "To look at the list of previous winners and see two guys that I played with on the Olympic team in Jim Abbott (1987) and Robin Ventura (1988) makes it even more special."

During the 1988 Summer Olympics in Seoul, Korea, McDonald

Ben McDonald

turned in two complete-game winning performances, including a 7-2 victory over Puerto Rico in the semifinals. The Americans won the gold medal.

He followed up that performance as collegiate baseball's dominant pitcher last season. With his 14-4 record, 3.49 earned-run average and 202 strikeouts in 152 1/3 innings, McDonald was widely recognized as the college player of the year. He was named a first-team all-America for the second straight year.

McDonald was one of two members of the 1988 Olympic team nominated for the Golden Spikes Award. Tom Goodwin of Fresno State University was a finalist.

Other finalists were Scott Bryant, University of Texas, Austin; John Byington, Texas A&M University; Alex Fernandez, University of Miami (Florida); Dan Peltier, University of Notre Dame; Eric Wedge, Wichita State University; Dan Wilson, University of Minnesota; Twin Cities, and Alan Zinter, University of Arizona.

The U.S. Baseball Federation's awards committee selects the Golden Spikes Award winner.

Each winner is automatically enshrined as a member of the USBF Amateur Baseball Hall of Fame. As this year's honoree, McDonald will be the federation's nominee for the U.S. Olympic Committee's Sportsman of the Year award, the Amateur Athletic Union's Sullivan Award and the Olympia Award.

the 1990 NCAA Division I Men's Basketball Championship and games from the postseason National Invitation Tournament.

"NCAA basketball and ESPN have enjoyed a mutually beneficial relationship in the '80s," said Steven M. Bornstein, ESPN executive vice-president for programming and production. "We're excited to open the '90s with another outstanding NCAA basketball schedule."

The network's coverage begins November 15 with three games from the preseason Dodge National Invitation Tournament. The evening's first game matches Richmond and North Carolina State.

Beginning January 2, ESPN will televise at least two games each Monday, Tuesday, Wednesday and Thursday nights, through March 8. The Tuesday night doubleheaders,

which generally will feature teams from the Big Eight and Southeastern Conferences, replace doubleheaders previously aired on Saturday nights.

In women's basketball, the network will televise at least 10 regular-season games—two more than last season. The first women's contest will be on the afternoon of January 5, when Iowa visits Michigan State. The ESPN schedule also features:

- Games from all 30 of the conferences whose champions automatically qualify for the Division I men's tournament.

- Games involving 30 of the final 32 teams in last year's Division I tournament.

- Games involving teams from 43 states and five United States time zones.

Teams that will appear at least

five times on ESPN this season are North Carolina, North Carolina State, St. John's (New York), Duke, Syracuse, Georgia Tech, Virginia, Missouri, Alabama, Georgetown, Pittsburgh, Seton Hall, Ohio State, Nevada-Las Vegas and Villanova.

ESPN also will renew its "Big Monday" tripleheaders involving games in the Big East, Big Ten and

Big West Conferences.

The network will provide extensive coverage of postseason tournaments, including 23 conference-championship games. First-round coverage of the Division I men's tournament will feature 19 games March 15 and 16. Also scheduled are six games from the Division I Women's Basketball Championship.

## George Washington joins ECAC

George Washington University has become a member of the Eastern College Athletic Conference, according to an announcement by Steve Bilsky, the school's executive director of athletics.

An NCAA Division I member, George Washington sponsors 15 men's and women's sports and competes in the Atlantic 10 Conference

in nine sports. Its ECAC membership will enable the school's Atlantic 10 and non-Atlantic 10 teams to participate in postseason ECAC-sponsored championship tournaments.

The ECAC is the nation's largest athletic conference with 264 members from NCAA Divisions I, II and III.

# Next Year, Tackle Europe.

WORLDTEK is the Official Travel Agency For NCAA® Championships

Football Abroad Is Hot And WORLDTEK Can Make It Happen For Your Team, Too.

On October 28, 1989, the University of Rhode Island and Villanova University will meet in their traditional Yankee Conference football matchup. What's the big deal? They're meeting in Italy.

It's WORLDTEK TRAVEL's *Milano Kickoff Classic*, bringing American football to northern Italy for the first time ever. And are they excited about it! Football is finding a whole new world of fans abroad, and that means a great opportunity for you and your team to join in this fantastic program.

WORLDTEK is the sponsor and organizer of this and other games abroad, and is looking for collegiate football teams to participate for the 1990 season. It means an all-expense paid trip for the team (your administration will like that), a fantastic visit to Europe for players and fans (on special fan package tours), and a chance for everyone involved to take part in a once-in-a-lifetime sporting event.

If you, as Coach or Athletic Director, have an interest in participating in WORLDTEK's "Football Abroad" program for next season, call Andy Mooradian at WORLDTEK today. Toll free 1-800-243-1723. It may be the most important call you ever make for your team and your school.

WORLDTEK.

# California is seeking another three-title streak

In 1975, California became the first team to win a third consecutive National Collegiate Water Polo Championship title. Fourteen years later, the Golden Bears could become the first team to win three straight again.

But California will be in unfamiliar waters when it defends its title in Indianapolis, Indiana. For only the second time in 17 years, the championship will be held outside the state of California.

For first-year coach Steve Heaston, this season has been filled with nail-biting games.

Said Heaston, "This has been a very competitive year; we have not had any easy victories. It seems like the top seven teams in the West have been fighting it out all season long."

California has played 18 of its 26 games against the eight top-ranked teams in the country, losing only to Stanford and UC Irvine.

Defensively, the Golden Bears are led by two-meter guard Rich Ambidge (43 goals) and goaltenders Jim Wagner and Ludovic Salles. Wagner underwent an appendectomy in late October but is practicing and might play in Indianapolis.

Left-hander Chris Humbert (64 goals) has led the offensive attack, along with Ambidge and drivers Julian Bailey (27) and Chris Oeding (26).

California has a strong, fast and deep team. And, said Heaston, "we play well in tournaments and hopefully that will continue."

For a coach whose team is ranked No. 2 in the country, Ted Newland

Rich Ambidge

has not been happy with the play of his UC Irvine Anteaters (21-5).

"Our defense is just atrocious - it is nonexistent," said Newland, who is in his 24th year with the Anteaters. "We have to score 10 goals a game to win, because we are allowing nearly nine goals per game against the top seven teams in the country. Our players lack discipline as a team, and it is showing."

However, senior goaltender Chris Duplanty is having an outstanding season, allowing an average of slightly more than seven goals per game. Duplanty was the reserve goaltender for the U.S. Olympic team in 1988 and is "one of the best passing goalies in the world," added Newland.

UC Irvine has plenty of scoring potential, led by all-America Tom Warde, with 81 goals. Julian Harvey (65 goals) is back after a redshirt year and Dan Smoot has 45 goals.

Pepperdine (22-4) has won 16 of its last 17 games and is one game away from clinching the Big West Conference title and an automatic berth in the championship. But

Chris Duplanty

coach Terry Schroeder believes the only way the Waves can win the national championship is with a top-notch defensive effort.

Said Schroeder, "I cannot emphasize enough the importance of a tough, team-oriented defense. There are probably five or six teams that have a legitimate chance of winning the NCAA championship, but I almost can guarantee that the team that is playing the best defense at the end of the season will win the national crown."

Pepperdine's defense has been outstanding this season, with opponents averaging only 7.65 goals a game compared to the Waves' 12.54 goals.

"We have some sound defensive players on our roster, and goalie Wells Guthrie has improved considerably this season," said Schroeder. "The team also is understanding the concept that a tough defense provides a boost to your own offense."

Sophomore Geoffrey Clark leads Pepperdine scoring with 76 goals. Sasa Poljak has 63 goals, while Rafael Gandarillas and Rob Sutter

## Championship Profile

**Event:** National Collegiate water polo.

**Field:** Eight teams will be selected for the championship, which will feature a consolation bracket to determine third through eighth places. Two teams will be selected from each of two geographical regions. The other four teams will be selected at large without geographical restriction.

**Automatic qualification:** Big West Conference.

**Defending champion:** California won its second consecutive championship with a 14-11 victory over UCLA. The title was California's fourth in the last six years and a record eighth in the history of the championship.

**Schedule:** The eight teams will travel to the Indiana University Natatorium, Indianapolis, Indiana, for the November 24-26 tournament.

**The NCAA News coverage:** Championship results will be published in the November 27 issue of The NCAA News.

**Tickets:** Call 317/274-6787.

**Contenders:** California, UC Irvine, Pepperdine, Stanford, UCLA, Long Beach State, Air Force, Arkansas-Little Rock.

**Championship notes:** While this is the 21st year for the championship, no team representing a school located east of Long Beach, California, ever has played in the final... At the same time, 15 of the 26 schools whose teams have participated in the play-off are located outside the state of California... In the 1971 tournament, UCLA defeated Washington, 37-2, in a contest that produced championship single-game records for goals by one team and both teams... No team has been able to post a perfect record in the tournament; six never have won a game... California has the best winning percentage (.800) and the most wins (36) in championship history.

have 43 and 33 goals.

Stanford (24-7), with six seniors, including three all-Americans, is loaded with speed and quickness and is, according to coach Dante Dettamanti, peaking at the right time.

Rick McNair (44 goals), Jeff Oeding (42) and Jon Swerdloff (38) lead the fourth-ranked Cardinal in scoring. Uric Blum (30) and Greg Morris (19) platoon with McNair at the two-meter position to form what Dettamanti thinks is "the best trio of two-meter men in the country."

Goaltender Todd Kemp has had another banner season and his play has prompted rave reviews from

Dettamanti: "I think Todd is the best goalie in collegiate water polo. He is definitely our best player."

"He is one of the keys to our winning the NAAs," said Dettamanti, in his 13th year at Stanford. "Based on the type of defense we play, he is the most important player."

Stanford plays a fast-break, front-court-motion offense and a helping defense, all of which requires frequent substitution.

"But we now have the depth to play that type of game," said Dettamanti. "I feel we have the talent and experience to challenge for the NCAA championship."

# Georgia Southern may have inside track in I-AA football

It looks like Georgia Southern may have the inside track on "The Drive To Dixie."

The way the Eagles have been playing this year, the promotional theme for this year's Division I-AA Football Championship might have to be revised to "A Stroll Across Campus."

The Eagles will host this year's championship game in Statesboro, Georgia, at Allen E. Paulson Stadium. And considering their record, they could end up playing in the game as well.

Georgia Southern has evolved from club football (1983) to one of the division's powerhouses. Since becoming a Division I-AA member in 1984, Georgia Southern has won more games (64) and compiled a higher winning percentage (.820) than any other division team.

Coach Erk Russell's Eagles have landed in three championship games, and they came away with the 1985 and 1986 titles. Ranked No. 1 in the latest Division I-AA poll, Georgia Southern was 9-0 entering its November 11 game

against Tennessee-Chattanooga and was ranked second in rushing offense, averaging 320 yards a game, and second in total defense.

Quarterback Raymond Gross directs the Eagles' flexbone offense. He set a tournament record with 110 carries en route to a second-place finish in last year's play-offs. Slotback Ernest Thompson specializes in short-yardage situations. The senior running back set a school record last year with 19 touchdowns

and 116 points and ranks among division leaders in scoring this year, averaging 10 points a game.

If the Eagles fail to come home to roost in their \$7 million, 18,000-seat stadium, second-ranked Furman could be in the driver's seat for a return trip to the championship game.

Behind the strong play of quarterback Frankie DeBusk and a stifling defense, Furman has the talent to qualify automatically as the

Southern Conference champion and to defend its I-AA title.

Third-ranked Stephen F. Austin State, in line to qualify for the play-offs as the Southland Conference titlist, and Eastern Kentucky, which was ranked No. 1 earlier this year before a loss to Ohio Valley Conference rival Middle Tennessee State dropped it to fourth in the rankings, also have the personnel capable of making a drive to the championship.

## Championship Profile

**Event:** Division I-AA football.

**Field:** Sixteen teams. The top independent team, as evaluated by the Division I-AA Football Committee, will receive a berth. Six conferences have been granted automatic qualification. The remaining nine teams will be selected at large.

**Automatic qualification:** Big Sky, Gateway Collegiate Athletic, Ohio Valley, Southern, Southland and Yankee Conferences.

**Defending champion:** Furman avenged a 44-42 loss to Georgia Southern in the 1985 championship by defeating the Eagles, 17-12, to win its first title. Furman's defense held Georgia Southern to a season-low output of 198 yards in total offense.

**Schedule:** First-round, quarterfinal and semifinal games will be played November 25, December 2 and 9, respectively. The championship game will be played December 16 in Statesboro, Georgia.

**The NCAA News coverage:** Scores and pairings from preliminary rounds will be published in the November 27, December 4 and December 11 issues. Championship results will appear in the December 20 issue.

**Television coverage:** The championship game will be televised by ESPN at noon Eastern time.

**Tickets:** Call 1-800/544-2798 for ticket information.

**Contenders:** Georgia Southern, Furman, Stephen F. Austin State, Eastern Kentucky, Southwest Missouri State, Idaho, Montana, Appalachian State, Maine, Murray State, William and Mary, Delaware State, Middle Tennessee State.

**Championship notes:** The championship game will be played in Statesboro for the first time... Eastern Kentucky leads the division in play-off appearances (nine) and victories (13) and is tied with Georgia Southern, which is second in victories with 12, for the most championship titles (two)... Four teams - Florida A&M, Montana State, Northeast Louisiana and Southern Illinois - won the championship in their first and only play-off appearances... Eastern Kentucky tied the single-game play-off record for rushing first downs last year with 20 versus Massachusetts... Four teams - Citadel, Northwestern Louisiana, Stephen F. Austin State and Western Illinois - made their first play-off appearances last year, bringing the total number of teams that have earned tournament berths to 53... There are 88 institutions sponsoring Division I-AA football this year.

## Host pulls poster after complaints

Georgia Southern College has stopped local distribution of an NCAA poster promoting the Division I-AA Football Championship, to be played December 16 at Statesboro, Georgia, because of complaints that it had racial undertones.

One of those objecting, Georgia Southern art professor Marie T. Cochran, said the poster, which depicts a Southern plantation house with silhouettes of two football players in the foreground, suggests a return to the Old South and slavery.

Others took exception to the poster slogan, "The Drive to Dixie."

Alfred B. White, director of promotion for the NCAA, said the poster will not be pulled nationally.

White said, "We're trying to create an interest all over the country, not just in Bulloch County. I don't know if the people writing those letters realize I'm black, but there is not an intent to have a racial undertone at all," he said.

Wagner said none of the posters already distributed in Statesboro will be recalled, but plans have been scrapped to ask businesses to display them.

"As far as the NCAA is concerned, it sent them out nationwide," Wagner said. "We decided not to distribute them locally. Because of the controversy, we just decided not to send any more out."

A Statesboro businessman, Jim Tillman of Bulloch Tractor Co., was upset by the school's decision.

He called the decision to stop poster distribution a "travesty."

White said the purpose of the

poster was to "involve the area of the country where the game is."

"When we thought of things to symbolize the South, we thought of old willow trees and a mansion," he said.

White said he was not offended by the use of "Dixie" and was surprised other Blacks were.

"All we're talking about is a football game; we're not talking about a rise in the Confederacy," he said.

# Barry captures Division II women's soccer championship

Barry, last year's runner-up to Cal State Hayward, claimed the second Division II Women's Soccer Championship title November 12 with a 4-0 victory over Keene State.

The Buccaneers dominated the tournament from the start by downing Adelphi, 4-0, in the semifinals. Scoring twice in that victory was

the tournament's most outstanding offensive player, Kylee Carter. An additional goal in the final game tied her for most goals in a tournament at three.

Barry goalkeeper Carilyn Hormilla earned defensive most-valuable-player honors in the November 11-12 tournament at Barry.

In the other semifinal game, Keene State shut out Cal State Dominguez Hills, 1-0.

In addition to the MVP awards, the following were named to the all-tournament team: forwards Dina Gentile, Adelphi; Kristi White, Cal State Dominguez Hills; Philo Ro-

binson, Keene State, and Carol Ashmore, Barry; midfielders Dawn Wagner, Barry; Jennifer Faccione, Barry; Alison Foley, Keene State, and Denise Lyons, Keene State; defenders Melinda Derden, Barry, and Kelly Roche, Adelphi, and goalkeeper Chris Pezzulo, Cal State Dominguez Hills.

**SEMIFINALS**

Shots: UC San Diego 13, Ithaca 5. Saves: UC San Diego (Julie Friess) 2, Ithaca (Beth Greco) 11. Corner kicks: UC San Diego 7, Ithaca 1. Fouls: UC San Diego 11, Ithaca 13. Attendance: 1,200 (estimate).

UC San Diego was runner-up last year to William Smith and finished third in the 1986 tournament.

**SEMIFINALS**

UC San Diego ..... 0 0 0 0 (4)-1  
Plymouth St. .... 0 0 0 0 (3)-0  
Overtime: UC San Diego wins, 1-0, on penalty kicks.

Shots on goal: UC San Diego 10, Plymouth

The championship game, hosted by UC San Diego, went into sudden-death overtime after each team scored once in each half. Triton Karin Lindsay scored the winning goal, 4:46 into the sudden-death period, off an assist by Teresa Schwaar.

Lock Haven's 2-1 victory over defending champion Trenton State in the Division III Field Hockey Championship was a dream come true.

The loss was the first of the season for Trenton State and it kept alive the defending champion's jinx in this championship. No team has won back-to-back titles.

# Lock Haven wins III field hockey championship

UC San Diego advanced to the final after defeating Plymouth State, 1-0, on penalty kicks. Ithaca downed Methodist, 2-0, to advance.

"At breakfast this morning, three girls told me that they dreamed they would win the national championship," Lock Haven coach Sharon Taylor said after the November 11 championship game played at Cortland State. "I don't know if that means anything, but we just seemed to have the right feeling all day."

Diane Rausenberger needed just a little more than seven minutes to get Trenton State on the scoreboard, but that turned out to be the Lions' only goal of the game.

Sharon Taylor

Trenton St. 19, Cortland St. 7.

Lock Haven ..... 1 3-4  
St. Lawrence ..... 0 0-0  
First half: LH Vicki Derr (Tara Egolf), 1:03.

Second half: LH Lisa Hewitt (unassisted), 25:11; LH Egolf (Missy Carman), 27:31; LH Teresa Cisney (Egolf).

Shots: Lock Haven 31, St. Lawrence 15. Saves: Lock Haven 8, St. Lawrence 17. Penalty corners: Lock Haven 8, St. Lawrence 15.

**THIRD-PLACE GAME**

## Championships Summaries

### Division I field hockey

**First round:** Massachusetts 1, Boston U. 0 (3 ot, penalty strokes); Pennsylvania 2, Penn St. 1; Providence 3, Pacific 1; Northeastern 2, New Hampshire 1.

**Second round:** Old Dominion 2, Massachusetts 1, Northwestern 3, Pennsylvania 2; Iowa 5, Providence 0; North Caro. 2, Northeastern 1.

**Semifinals (November 18 at Springfield College):** Old Dominion (23-1) vs. Northwestern (17-3-1); Iowa (19-0-2) vs. North Caro. (18-2). Final November 19 at Springfield.

**November 19:** New Hamp. Col. (19-1-2) vs. Mercy (12-1-3); Cal St. Northridge (10-4-4) vs. Cal St. Hayward (16-5); N.C.-Greensboro (18-3-1) vs. Tampa (12-5-2); East Stroudsburg (17-2-3) vs. Gannon (17-2-1).

Semifinals December 1 or 2 on campus of one of the participating institutions. Final December 2 or 3.

### Division I men's soccer

**First round:** Columbia 4, FDU-Jeaneck 1; Vermont 2, Connecticut 0; Yale 1, Hartwick 0; Phila. Textile 2, Princeton 1; Wake Forest 2, Old Dominion 1; South Caro. 2, Duke 1; Geo. Washington 3, George Mason 1; Howard 2, Penn St. 1 (2 ot, penalty kicks); Southern Methodist 1, Evansville 0; Fresno St. 2, St. Louis 1; Portland 1, Washington 0 (2 ot); UCLA 2, San Diego St. 1 (2 ot, penalty kicks).

**Second round (to be completed before November 19):** Rutgers (18-3) vs. Columbia (12-4); Vermont (18-2-1) vs. Yale (12-4); Virginia (18-2-1) vs. Phila. Textile (14-1-6); Wake Forest (15-3-2) vs. South Caro. (16-2-2); Indiana (16-1-2) vs. Geo. Washington (14-4-1); Howard (13-3-2) vs. Southern Methodist (15-4); Santa Clara (17-0-2) vs. Fresno St. (17-2-3); Portland (18-2-3) vs. UCLA (17-3-1).

Third round to be completed before November 26. Semifinals December 2 on campus of one of the participating institutions. Final December 3.

### Division III men's soccer

**Third round:** Rochester Inst. 2, Plymouth St. 0; Greensboro 2, Mary Washington 0; Elizabethtown 1, Ohio Wesleyan 0 (2 ot, penalty kicks); UC San Diego 2, St. John's (Minn.) 1 (2 ot).

**Semifinals (November 17 or 18 on campus of one of the participating institutions):** Rochester Inst. (18-1) vs. Greensboro (19-3); Elizabethtown (21-2) vs. UC San Diego (13-5-3). Final November 18 or 19.

### Division I women's soccer

**Second round:** North Caro. 9, Hartford 0; North Caro. St. 2, William & Mary 1; Santa Clara 2, UC Santa Barb. 0; Colorado Col. 5, Massachusetts 2.

**Semifinals (November 18 on campus of one of the participating institutions):** North Caro. (22-0-1) vs. North Caro. St. (15-7-2); Santa Clara (14-4) vs. Colorado Col. (15-3). Final November 19 on campus of one of the semifinalists.

### Division III women's volleyball

**Regional results:** (at La Verne) Menlo defeated Cal St. San B'dino, 15-6, 15-9, 15-10; Colorado Col. defeated Eastern Conn. St., 15-8, 15-5, 15-10; Menlo defeated UC San Diego, 15-6, 15-6, 10-15, 7-15, 15-11; La Verne defeated Colorado Col., 6-15, 15-13, 2-15, 15-13, 15-8; Menlo defeated La Verne, 15-10, 15-12, 15-6. (At Ohio Northern) Muskingum defeated Wheaton (Ill.), 15-5, 15-10, 15-4; Calvin defeated MIU, 15-6, 15-8, 15-7; Muskingum defeated III. Benedictine, 9-15, 17-15, 15-10, 3-15, 15-10; Ohio Northern defeated Calvin, 15-4, 8-15, 15-7, 15-12; Ohio Northern defeated Muskingum, 15-6, 15-4, 15-8. (At St. Benedict) Wis.-Whitewater defeated St. Thomas (Minn.), 15-6, 15-13, 4-15, 10-15, 15-10; Wis.-Eau Claire defeated Neb. Wesleyan, 15-9, 15-5, 15-10; St. Benedict defeated Wis.-Whitewater, 12-15, 16-14, 15-2, 7-15, 15-10; Washington (Mo.) defeated Wis.-Eau Claire, 7-15, 15-8, 15-13, 15-3; Washington (Mo.) defeated St. Benedict, 15-12, 15-10, 15-9. (At Juniata) Western Md. defeated Brockport St., 13-15, 13-15, 15-1, 15-4, 15-4; Bridgewater (Va.) defeated Rochester Inst., 15-3, 9-15, 15-11, 15-4; Cortland St. defeated Western Md., 16-14, 10-15, 15-11, 15-13; Juniata defeated Bridgewater (Va.), 15-7, 15-12, 11-15, 15-7; Juniata defeated Cortland St., 15-12, 15-6, 15-8. **Semifinal pairings (November 17 on campus of one of the participating institutions):** Menlo (26-7) vs. Ohio Northern (32-5); Washington (Mo.) (37-6) vs. Juniata (37-4). Third-place match and final November 18 on campus of one of the semifinalists.

## Southern CEOs seek bigger sports role

Chief executive officers of the Southern Conference say they plan to increase their involvement in conference activities and will begin meeting twice yearly to discuss conference issues.

Meeting last week in Asheville, North Carolina, the eight CEOs also took the following actions concerning various NCAA issues:

- Voted to support Proposition 48 (NCAA Bylaw 14.3) over Proposition 42 until the collection of all academic data by the NCAA is completed.
- Supported freshman eligibility, with protection for those academically at risk.
- Agreed to support efforts to publish graduation rates of student-athletes.

The CEOs also directed their athletics departments to insure that drug abuse is not occurring within their departments and that steroids are not being used.

Each conference member will be

encouraged by its CEO to conduct regular academic audits of student-athlete registration and full-time class attendance.

The conference commissioner was instructed to report any violations to the campus CEO if the athletics department fails to resolve a problem in those areas. The CEOs said they would involve faculty athletics representatives and their campus athletics committees more extensively in maintaining academic integrity.

## Northern Arizona's Wyatt records a first in I-AA

Montana State University's football team now knows that lightning can strike twice in the same spot.

Last fall, Northern Arizona University quarterback Greg Wyatt rallied his Lumberjacks from deficits of 14 and 10 points to beat the Bobcats, 28-17, at Bozeman. Now, he has done it again.

Down 28-0 in the first half against the Bobcats, Wyatt rallied Northern Arizona to a 35-31 victory. The comeback was the biggest in 75 years of Lumberjack football.

In the process, Wyatt passed some milestones. The senior topped the 2,000-yard mark in passing this season, making him the first quarterback in Division I-AA history to surpass 2,000 yards in all four years of his college career. Against Montana State, Wyatt was 27 of 40 for 334 yards and three touchdowns,

Greg Wyatt

giving him 2,263 yards for the season.

Wyatt also moved into fourth place on the all-time, all-divisions list in career completions with 901 completed passes and became the 11th quarterback in any division to surpass 10,000 yards in career passing yardage.

## Syracuse squad to visit overseas

Syracuse University's men's lacrosse players and the team's coaches are busy raising funds for a week-long holiday tour of Europe that will include three games against Great Britain's national team and a January 3 clinic in Lockerbie, Scotland—where 35 Syracuse students died in the crash of Pam Am flight 103.

"The trip helps fulfill the need to bridge the gap of sorrow between Lockerbie and Syracuse," said Roy Simmons Jr., Syracuse lacrosse coach.

Among fund-raising projects planned by the team is a December 7 banquet and auction where members of the 1988 Orangemen, the reigning Division I champions, will receive their championship rings.

# Football foundation names scholar-athletes in three divisions

Eleven additional 1989 National Football Foundation and Hall of Fame scholar-athletes have been selected from schools in Divisions I-AA, II and III, qualifying them for \$2,000 graduate fellowships.

The recipients—four from Division I-AA, three from Division II and four from Division III—join 11 Division I-A football players who also recently were named scholar-athletes (The NCAA News, November 6).

Division I-AA scholar-athletes are Daniel Hackman, Illinois State University; Derrick Isackson, Montana State University; Charles Plageman, Virginia Military Institute, and Christopher Roper, Furman University. Representing Division II are Todd Culp, University of Nebraska, Omaha; Jimmie Lee Davis, Morehouse College, and James Tomasin, University of California, Davis. Division III honorees are Kenneth Jones, Washington and Jefferson College; Anthony Lapes, Massachusetts Institute of Technology; Richard Schachner, U.S. Coast Guard Academy, and Ronald Stier, DePauw University.

The scholar-athletes were selected by the foundation's awards committee, which was headed by Douglas Kenna Jr., former U.S. Military Academy all-America quarterback and a hall of fame member. All will be honored in ceremonies at their home campuses and will receive the fellowships if they decide to seek advanced degrees.

Following is additional information about the scholar-athletes:

### Division I-AA

**Hackman**—An Indianapolis native, the 6-3, 262-pound center has won four varsity letters at Illinois State. The business major carries a 3.680 grade-point average.

**Isackson** The 6-5, 265-pound guard from Redmond, Washington, has a 3.770 GPA in social and criminal justice.

**Plageman** As regimental commander, he is the highest-ranking cadet in VMI's corps of cadets. The

Daniel Hackman

Derrick Isackson

Charles Plageman

Christopher Roper

Todd Culp

Jimmie Lee Davis

James Tomasin

Kenneth Jones

6-0, 205-pounder was a fullback until he was stopped by a knee injury, but he continues to play with a pin in his knee as the team's long snapper on punts, field goals and extra points. The Midlothian, Virginia, native has a 3.170 GPA in economics.

**Roper**—A key performer on Furman's 1988 national-championship team, Roper is a 6-2, 210-pound defensive end and outside linebacker. Majoring in physics with a 3.680 GPA, he is from Greenville, South Carolina.

### Division II

**Culp** The 6-2, 230-pound linebacker is from Des Moines, Iowa. He has earned a 3.610 GPA in civil engineering.

**Davis** A four-year quarterback at Morehouse, Davis is 6-0, 175 pounds. He carries a 3.700 GPA in mathematics, physics and electrical engineering.

**Tomasin**—The Redding, Cali-

Anthony Lapes

Richard Schachner

Ronald Stier

fornia, native is a 5-10, 215-pound fullback who serves as team captain and has been honored as UC Davis' outstanding junior back. He has a 3.540 GPA in physiology.

### Division III

**Jones** The 6-5, 280-pound tackle plans to attend medical school. He has a 3.530 GPA in chemistry.

**Lapes**—The Cohutta, Georgia, native holds every single-game, season and career receiving record at MIT, where he also has handled punting duties. The 6-0, 165-pound Lapes has earned a 4.600 GPA (5.000 scale) in pursuit of a double major in math/computer science and literature.

**Schachner** A tricaptain at

Coast Guard, he carries a 3.680 GPA in electrical engineering. The 6-0, 200-pound linebacker is a Pawcatuck, Connecticut, native.

**Stier**—A standout at cornerback and safety, the 5-10, 180-pound Stier is from Richmond, Indiana. He carries a 3.710 GPA in economics and mathematics.

## Association seeks flexibility when booking airline travel

At first glance, an NCAA traveler who compares fares with the person in the next seat may conclude that the NCAA did not obtain the best possible price. However, those situations are deceiving.

"Flexibility is the key," said Louis J. Spry, associate executive director and the Association's chief financial officer. "We continue to receive criticism, particularly from coaches, who say travel agencies in their areas always offer lower fares than those provided by Worldtek Travel,

Inc., which handles all Association-related travel arrangements.

"But many airline fares currently available—and there are an amazing number of them—do not provide flexibility," Spry noted. "At least, not without a penalty."

### Musical fares

In a story about how airlines use a concept called yield management to sell every available seat on every available flight, New York Times News Service writer Betsy Wade

used as an example one domestic flight on which 49 different fares were represented among the 141 tickets sold. Some of those fares (e.g., rates applying to military personnel and to adults flying with children) simply could not apply to NCAA travel.

Many others could. But at what price?

"A lot of people don't realize the real beauty of the fares we provide," said Karen LaRose, manager of Worldtek's NCAA travel department. "They represent a good, flexible discount."

When callers arrange NCAA travel through the Connecticut-based company, tickets are purchased at unpublished (and otherwise unavailable) discounts off full coach fare.

### Splitting up coach

"Say you're dealing with an airplane that has 100 seats in the coach section," LaRose explained. "When that flight goes into the airlines' computer system, those 100 seats are split up by fare class.

"Fifty may be set aside for full coach. Another 40 would be taken and subdivided further—10 at this special fare, another 10 at another fare and so on.

"All of the tickets we sell are for seats in that full-coach allotment," she added. "What that means is that 99 percent of those who want a certain flight get on it—with unrestricted, penalty-free flexibility."

And although the Association

may pay more than the restricted fares available on a given flight, prices are significantly below the full coach rate and generally not subject to penalty when travel plans change.

NCAA committee meetings end early. Teams lose play-off games when they don't expect to. Other teams win play-off games when they don't expect to.

NCAA travel, then—like it or not—must be subject to change practically up to the time a flight taxis for take-off.

### Trading places

"In most cases," LaRose offered, "we can change flight plans up to the last minute for those flying on NCAA business without penalty. In the long run, this saves the Association money."

"The Association utilizes the best fares available, given the flexibility that we have found is necessary to include in flight arrangements made for NCAA travel," Spry said.

"We might not get the lowest price," he added, "but we get the best deal."

## How to get the cheapest fare

How can a traveler get the lowest fare available for a given flight?

"That's a really simple question with quite a complex answer," said Worldtek's Karen LaRose. "Fares in effect at a given time are based on what the airlines can sell."

That's yield management.

As flights are scheduled, airline computers keep track of how seats are selling and automatically adjust prices in a definitive example of supply and demand. Slow sales lead to more low-priced seats. When sales are brisk, fewer bargain-basement bookings will be made.

"As soon as I find out I'm going somewhere on a given date, I make a reservation," LaRose said. "But I don't purchase a

ticket."

Airlines will hold reservations for more than 300 days. As this story was being written November 9, airlines were accepting reservations for flights departing October 6, 1990.

"You can make a reservation that far in advance," she explained, "but you probably shouldn't get serious about buying a ticket until about six weeks before your travel date."

When buying time arrives, ask yourself:

- Am I willing to pay a penalty to make last-minute changes?
- Am I willing to travel at odd hours or adjust the length of my trip to get a better price?
- Will the lowest price actually give me the kind of ticket I need?

## About 9,000 tickets sold for Women's Final Four

Approximately 9,000 tickets have been sold for the 1990 Women's Final Four in Knoxville, Tennessee.

Staff members from the University of Tennessee, Knoxville—the tournament's host—briefed the Division I Women's Basketball Committee about ticket sales during an October 29-31 meeting in Knoxville.

The committee also reviewed plans for the Women's Final Four with the Tennessee staff and received progress reports from the four 1990 regional tournament sites.

In addition, procedures for assigning officials to tournament sites were refined. The committee voted to obtain assistance from conference offices in assigning standby officials and establishing officials-evaluation

committees at first- and second-round sites.

In other business, the committee reviewed a preliminary list of potential sites for the 1992 and 1993 regionals. These sites will be selected in July 1990. Institutions interested in hosting one of these regional tournaments will receive information in January 1990.

Also, committee members discussed the promotion of women's basketball. The committee will inform the Special Television Negotiating Committee that it is willing to consider a Saturday/Sunday format for the Women's Final Four in order to attract over-the-air coverage of the semifinals, which are now carried on ESPN.

## 293-pound athlete is used to a little heat in the kitchen

Clyde Tinner was packing to join his Shippensburg University of Pennsylvania football teammates for a recent road trip to California University of Pennsylvania when his Friday afternoon heated up — literally.

Tinner is a volunteer fireman.

"That was hectic," the 6-7, 293-pound starting right offensive tackle recalled. "I drove to the fire station and rode the truck to the campus. There was a grease fire in the student union building kitchen a little after two o'clock.

"We got the fire out about three o'clock. Practice started at 3:15. I had to get back to the station (where he changed clothes), rush home to finish packing and then rush to the stadium."

Tinner has served with Shippensburg's Vigilant Hose Company since last February. He's been a fireman, however, a lot longer. "My grandfather was chief of the Sugar Notch (Pennsylvania, his home town) Volunteer Fire Company, so I was around it since I was 12 years old. When I was 16," he added, "I passed the Pennsylvania state certification test."

Over the summer, Tinner slept in the station house almost every night. The Shippensburg company averaged 38 fire calls a month, though Tinner didn't make all of them.

Ron Ware of the Springfield, Ohio, News-Sun appropriately

### Briefly in the News

tabbed the November 11 football game between Wittenberg University and Denison University "family feud."

Wittenberg center **Jeff Fortkamp** lined up across from twin brother **Jonathan**, Denison's starting nose tackle. And Denison senior **Chris Thomas**, a starting defensive tackle, peered across the line to see first cousin **Chip Thomas**, a junior offensive tackle at Wittenberg.

Before glaucoma took his eyesight, 15-year-old West Virginian **Billie Turley** had a dream come true recently when he met West Virginia University quarterback and Heisman Trophy hopeful **Major Harris**.

Volunteer fireman Clyde Tinner

"He's had glaucoma since birth and takes pills and eye drops twice a day," explained **June Turley**, Billie's mother. "He loves football, but he can't play on a team or anything like that because of his eyes.

"And he can't see from the stands," she told Associated Press writer **Ray Formanek Jr.** "He's a Mountaineer, head to toe, and he got the thrill of his life when he got to meet Major Harris (November 6), and he gave (Billie) that jacket."

"That jacket" is white and is emblazoned with the Heisman logo. "I just gave it to him," Harris offered. "I don't know what (else) to say. I just like to see people happy."

"I've waited 15 years for something like this," the youngster said. "My birthday is coming up, and this is like an early present."

**Brad Metheny**, a WVU football graduate assistant, arranged the visit, which occurred during one of Turley's regular visits to a Morgantown eye doctor. Turley lives in Smithers, West Virginia, almost 200 miles south of WVU.

Ohio Wesleyan University men's

soccer coach **Jay Martin** earned his 200th career victory recently when his charges defeated Earlham College, 3-1. Through October 23, when his team defeated Case Western Reserve University, 10-0, Martin's 13-year record at the school stood at 202-44-21 (.796).

**William Gunlock**, a three-year football letterman at and 1951 graduate of Miami University (Ohio), recently donated \$200,000 to his alma mater to permanently endow the Redskins' quarterback position. Gunlock's contribution is the first in the Endowment for Excellence program, the aim of which is to permanently endow 24 football positions (the 22 starters plus punter and placekicker), as well as positions in other sports.

"I came to Miami University to learn how to be a coach and was fortunate to play for and with some of the sharpest minds in football," Gunlock said. **Sid Gillman** recruited him.

His coaches? **George Blackburn** and **Woody Hayes**. Teammates included **Bill Arnsparger**, **Carm**

**Cozza**, **John McVay**, **John Pont** and **Bo Schembechler**.

Kutztown University of Pennsylvania student-athlete **Lisa Marrella** probably will earn field hockey all-America this fall, and in the process will obtain a replacement for the recognition award she received last year — the one she buried last March with her brother, **Michael**.

"I loved him very much," she recently told **Kathy Folk** of the *Reading Eagle Times*, "and there's not a day that goes by that I don't think about him.

"I buried my award with him, and I would like to get another one.

"We were both into hockey," Marrella said of Michael, who was 26 at the time of this death. "So when I first came out on the field (this season), I was thinking a lot about him. But just playing and being with everyone takes your mind off it."

Twelve games into her final season, Marrella already had become Kutztown's all-time leader in goals

(68) and scoring (74).

For the second straight year, Wichita, Kansas, police will reward motorists wearing seat belts and demonstrating good safety habits by pulling them over and providing a pair of tickets to a Wichita State University men's basketball game.

All Pittsburg State University athletics teams, including the school's five women's squads, now are nicknamed Gorillas, according to a recent announcement by **Dennis Franchione**, athletics director. Women's teams had gone by the nickname Gussies, which was derived from the school mascot, Gus Gorilla.

"Everyone knows what a gorilla is," Franchione offered, "and everyone associates gorillas with Pittsburg State."

Trivia Time: What are Pittsburg State's colors? Answer later.

By now, Clarion University of Pennsylvania swimming coach **Bill Miller** should be back from an extended visit to Honduras, where he conducted clinics and helped coach the Honduran national team. Miller's visit was arranged by Sports America, a branch of the U.S. Information Agency.

Grinnell College men's soccer players came up with the perfect 70th birthday gift for their coach, **John Pfitsch**. They shut out two opponents and won the Midwest Conference championship.

"It was a fantastic day," said Pfitsch. "What a birthday!"

Among items up for grabs November 11 during Western Kentucky University's eighth annual Hilltopper Athletic Foundation auction were microwave ovens; televisions; a used car; airline tickets to the Caribbean, Europe, Florida and Hawaii; tickets to the 1990 Kentucky Derby, and a basketball autographed by the 1971 Western Kentucky men's basketball team that played in the NCAA Final Four.

Trivia Answer: Crimson and gold are Pittsburg State's colors.

## 77 women gymnasts named all-America scholar-athletes

Seventy-seven student-athletes from Division I women's gymnastics programs have been honored as all-America scholar-athletes by the National Association of Collegiate Gymnastics Coaches for Women.

Northeastern University earned the team honor, with five individuals whose aggregate grade-point average was 3.736 (4.000 scale). The honors were based on the grade-point averages for the 1988-89 academic year.

The complete list of honorees follows:

Anne Staker, Boise State University, 4.000; Sigall Kassutto, University of California, Berkeley, 4.000; Shari Smith, University of Illinois, Champaign, 4.670 (5.000 scale); Lynn Devers, Illinois, 4.900 (5.000); Jamie Lynne Hedley, University of Iowa, 3.970; Amy Rechenmacher, Iowa State University, 3.940; Lisa Dolan, California State University, Fullerton, 3.920; Heidi Greer, Cal State Fullerton, 3.920; Debi Neumann, Northeastern University, 3.917; Kristen Micion, University of Arizona, 3.900; Marie Robbins, University of Alabama, Tuscaloosa,

3.900.

Claire Wilson, Ohio State University, 3.890; Deborah O'Brien, Pennsylvania State University, 3.890; Jodi Harrison, University of Missouri, Columbia, 3.888; Elizabeth Drinkard, North Carolina State University, 3.880; Sara Zimmerman, University of Minnesota, Twin Cities, 3.880; Rachel Perry, Northeastern, 3.875; Laurie Lattimore, Iowa State, 3.860; Julie Somers, Ohio State, 3.850; Pamela Keener, Texas Woman's University, 3.830; Brecke Houston, Iowa State, 3.820; Sheri Harner, Northeastern, 3.816.

Stephanie Young, University of Maryland, College Park, 3.800; Wnedey Weaver, Towson State University, 3.793; Kristin Nakano, Oregon State University, 3.790; Anne Sugden, Towson State, 3.785; Yvonne Raner, Maryland, 3.785; Lisa Cleary, Northeastern, 3.783; Julie Ponstein, University of Georgia, 3.780; Katherine Kelleher, Alabama, 3.778; Donna Linder, Oregon State, 3.770; Nancy Feldgus, University of Vermont, 3.760; Deborah Greco, Georgia, 3.750.

Julie Newman, Minnesota, 3.750; Tracey Tillman, Alabama, 3.721; Kristin Unverferth, Ohio State, 3.720; Desiree Scarlett, Boise State, 3.710; Kerri Tilghman, Radford University, 3.6774; Stephanie Farrar, Northeastern, 3.674; Marie Roethlisberger, Minnesota, 3.670; Dara Halpin, James Madison University, 3.653; Heather Kirk, University of Kentucky, 3.650; Michelle Schulte, Ohio State, 3.640; Tina Smith, Boise State, 3.630.

Cary Hertel, Fort Hays State University, 3.630; Kathleen Ness, Minnesota, 3.630; Dawna Wilson, Michigan State University, 3.6285; Maryanne Daly, Rutgers University, New Brunswick, 3.625; Monica Carol, University of Oklahoma, 3.625; Kelly Good, Alabama, 3.621; Michelle Rawlake, Northern Illinois University, 3.620; Lisa Churchill, University of Washington, 3.620; Yumi Mordre, Washington, 3.620; Caroline Wood, Arizona, 3.620; Janelle Emerson, Iowa State, 3.620.

Ashley Richard, Auburn University, 3.610; Cassandra Frey, Oklahoma, 3.600; Victoria Volentinc,

Maryland, 3.600; Lori Salindong, Towson State, 3.5925; Mimi Augustine, California State University, Sacramento, 3.580; Hope Starr, San Jose State University, 3.570; Cheryl Whitman, Texas Woman's University, 3.570; Erin Williams, James Madison, 3.566; Bonnie Berenstein, Maryland, 3.562; Amy Meyer, University of Michigan, 3.551; Shannon Roberts, California, 3.550.

Tracy Jung, University of Pitts-

### Villanova sets up counseling panel

Villanova University has formed a five-member career counseling panel to advise student-athletes who contemplate professional athletics careers.

Villanova's president, the Rev. Edmund J. Dobbins, said, "The panel will be available to counsel student-athletes on a spectrum of matters associated with embarking on a professional sports career, including avoiding any premature signing or bonus payments and otherwise complying with NCAA amateur eligibility rules, providing assistance in making the decision to remain in school or turn profes-

burgh, 3.550; Stacey Harris, Cal State Fullerton, 3.540; Lisa Fenton, Fort Hays State, 3.530; Kimberly Suarez, Auburn, 3.520; Casey Pewthers, Auburn, 3.510; Patricia Aser, University of Pittsburgh, 3.510; Melissa Depauli, Georgia, 3.510; Katherine Wallish, Pittsburgh, 3.510; Dana Walton, Maryland, 3.500; Carri Scott, Towson State, 3.500; Stephanie Casteel, Oklahoma, 3.500.

sional; guidance regarding contracts and agreements with agents and professional teams, and assistance in providing a realistic appraisal of professional potential.

"Use of the panel services by the student-athletes will be strongly encouraged but will be on a voluntary basis," Dobbins said.

"The panel will work closely with the coaches and it represents an important supplement to the activities of the coaches and the university's program for providing guidance in career counseling generally to student-athletes."

# Initial-eligibility waivers

Following is a report of actions taken by the NCAA Council Subcommittee on Initial-Eligibility Waivers. The report includes action taken since the last summary was published. It appeared in the May 17, 1989, issue of The NCAA News.

## a. The subcommittee considered the following test-score waiver requests:

- Denied the application of a recruited student-athlete who presented nine core-course credits with a grade-point average of 1.940 and an ACT score of nine achieved under national testing conditions. The student-athlete was diagnosed as dyslexic. In its denial of the waiver application, the subcommittee noted that if the student-athlete were to complete successfully the ACT or SAT under conditions designed to compensate for her learning disability, she would remain a nonqualifier due to her low core-curriculum grade-point average.

- Reconsidered and reversed its previous denial of the application of a recruited student-athlete who presented 13 core-course credits with a grade-point average of 3.180 and an SAT score of 670 achieved in October 1988. The student-athlete was unaware of the test-score component of Bylaw 14.3 and thus did not retake the test during the remaining national test dates prior to the July 1 deadline. The subcommittee approved the application based upon information submitted by the institution that indicated that the student-athlete was not recruited until June 12, 1989, subsequent to the final opportunity to retake the ACT or SAT on a national testing date prior to July 1. The subcommittee's approval of the student-athlete's application was contingent upon the successful completion of the ACT or SAT on a national testing date under national testing conditions.

- Denied the application of a recruited student-athlete who presented 11 core-course credits with a grade-point average of 2.360 and residual SAT scores of 580, 560, 600 and 660 with a composite score of 690. The student-athlete is learning disabled, his scores were achieved under conditions that compensated for his learning disability. In its denial of the application, the subcommittee noted the low nature of the student-athlete's four residual test scores.

- Approved the application of a nonrecruited student-athlete who presented acceptable Soviet secondary credentials and no test score. The subcommittee's approval of the student-athlete's application was contingent upon the successful completion of the ACT or SAT on a national testing date under national testing conditions.

- Approved the application of a student-athlete who presented acceptable Australian secondary credentials and no test score. The student-athlete was recruited subsequent to the SAT or ACT test registration deadline in Western Australia. The subcommittee's approval of the student-athlete's application was contingent upon the successful completion of the ACT or SAT on a national testing date under national testing conditions.

- Approved the application of a recruited student-athlete who presented strong Mexican secondary credentials and no test score. The student-athlete registered for a national administration of the SAT test in Mexico but was unable to take the test as a result of a car accident. The subcommittee's approval of the student-athlete's application was contingent upon the successful completion of the ACT or SAT on a national testing date under national testing conditions.

- Denied the application of a nonrecruited student-athlete who presented 11 core-course credits with a grade-point average of 3.770 and SAT scores of 600 and 640. In the denial of the waiver application, the subcommittee noted that the student-athlete presented two low test scores.

- Denied the application of a recruited student-athlete who presented acceptable Hungarian credentials and SAT scores of 600 and 670. In the denial of the waiver application, the subcommittee noted that the student-athlete presented two low test scores.

- Approved the application of a nonrecruited student-athlete who presented acceptable Swedish credentials and no test score. The subcommittee's approval of the student-athlete's application was contingent upon the successful completion of the ACT or SAT on a national testing date under national testing conditions and its receipt of the student-athlete's original Swedish leaving certificate.

- Approved the application of a recruited student-athlete who presented acceptable Israeli secondary credentials and an SAT score of 650. The subcommittee's approval of the student-athlete's application was contingent upon the successful completion of the ACT or SAT on a national testing date under national testing conditions. In its approval of the application, the subcommittee noted that the student-athlete took the

SAT test immediately following his discharge from three years of active service in the Israeli army and did not have an opportunity to prepare adequately for the exam.

- Denied the application of a recruited student-athlete who presented 11 core-course credits with a grade-point average of 2.270, SAT scores of 580 and 690, and a composite ACT score of 13.75. In its denial of the waiver application, the subcommittee noted the student-athlete presented three low test scores.

- Approved the application of a nonrecruited student-athlete who presented acceptable Swedish secondary credentials and no test score. The subcommittee's approval of the student-athlete's application was contingent upon the successful completion of the ACT or SAT on a national testing date under national testing conditions.

- Approved the application of a nonrecruited student-athlete who presented excellent Soviet secondary credentials and no test score. The subcommittee's approval of the student-athlete's application was contingent upon the successful completion of the ACT or SAT on a national testing date under national testing conditions.

- Approved the application of a nonrecruited student-athlete who presented strong Irish secondary credentials and no test score. The student-athlete was unaware of the test-score component of Bylaw 14.3 until July 1989. The subcommittee's approval of the student-athlete's application was contingent upon the completion of the ACT or SAT on a national testing date under national testing conditions.

- Approved the application of a nonrecruited student-athlete who presented acceptable Norwegian secondary credentials and no test score. The subcommittee's approval of the student-athlete's application was contingent upon the successful completion of the ACT or SAT on a national testing date under national testing conditions.

- Approved the application of a student-athlete who presented 11 core-course credits with a grade-point average of 3.130 and ACT scores of 14 (taken prior to initial enrollment) and 16 (taken subsequent to initial enrollment). The student-athlete was not recruited prior to enrollment in a junior college; however, she was recruited subsequent to that time. In its approval of the waiver application, the subcommittee noted the student-athlete's strong secondary school credentials.

- Denied the application of a recruited student-athlete who presented acceptable Norwegian secondary credentials and SAT scores of 640, 590 and 640, with a composite score of 670. In its denial of the waiver application, the subcommittee noted that the student-athlete presented three low test scores.

- Approved the application of a nonrecruited student-athlete who presented acceptable Brazilian secondary credentials and no test score. The subcommittee's approval of the application was contingent upon the student-athlete's successful completion of the ACT or SAT on a national testing date under national testing conditions and its receipt of her original Brazilian secondary records.

- Approved the application of a recruited student-athlete who presented 11 core-course credits with a grade-point average of 2.900 and ACT scores of nine, eight and nine, with a composite score of 11.50. The ACT tests were taken under national testing conditions; the student-athlete has been diagnosed as learning disabled. The subcommittee's approval of the application was contingent upon the student's qualification for and successful completion of the ACT or SAT under conditions that compensate for her learning disability.

- Approved the application of a recruited student-athlete who presented 11 core-course credits with a grade-point average of 2.450 and ACT scores of 27 and 23. The score of 27 was questioned by the testing agency and the student-athlete was given the opportunity to verify that test score by taking the test again under supervised (nonnational) testing conditions. The student-athlete scored a 23 on the retest, which was not sufficient to verify the score of 27 according to standards established by ACT testing officials. In its approval of the waiver application, the subcommittee noted that its acceptance of the residual test score was based upon the supervised conditions under which it was taken. The subcommittee also noted the otherwise acceptable nature of the student-athlete's other ACT score.

- Denied the application of a recruited student-athlete who presented 13.5 core-courses with a grade-point average of 3.090 and an ACT score of 14.25. In its denial of the waiver application, the subcommittee noted that the student-athlete presented a low test score.

- Approved the application of a recruited student-athlete who presented 11 core-course credits with a grade-point average of 2.400 and an ACT score of 13.50 achieved in

October 1988. The student-athlete attempted to retake the test in April 1989 but was denied the opportunity due to a typographical error; he attempted to retake the test again in June 1989 but was unable to do so due to an illness in his family. The subcommittee's approval of the student-athlete's application was contingent upon the successful completion of the ACT or SAT on a national testing date under national testing conditions and verification of the denial of his opportunity to retake the ACT test due to a typographical error.

- Approved the application of a nonrecruited student-athlete who presented acceptable Norwegian credentials and no test score. The subcommittee's approval of the application was contingent upon the successful completion of the ACT or SAT on a national testing date under national testing conditions.

- Approved the application of a recruited student-athlete who presented acceptable secondary credentials from the Netherlands and no test score. The subcommittee's approval of the application was contingent upon the student's successful completion of the ACT or SAT on a national testing date under national testing conditions. In its approval of the application, the subcommittee noted that the student-athlete was not recruited prior to the last date to register for the ACT or SAT in the Netherlands.

- Denied the application of a recruited student-athlete who presented 11 core-course credits with a grade-point average of 3.240 and SAT scores of 670 and 660, with a composite score of 680 and a residual ACT score of 16. The student-athlete was not informed of her May 1989 SAT test results (660) until after the registration deadline for the final national testing opportunity available prior to July 1. The institution requested that the residual ACT score of 16 be accepted toward fulfillment of Bylaw 14.3. In its denial of the waiver application, the subcommittee noted the low nature of the student-athlete's three test scores.

- Denied the application of a recruited student-athlete who presented 11 core-course credits with a 2.360 grade-point average and no test score. The student-athlete was not recruited until July 15, 1989, subsequent to the final opportunity to register for a national administration of the ACT or SAT prior to her initial collegiate enrollment. In its denial of the waiver application, the subcommittee noted the marginal nature of the student-athlete's overall secondary school record, as well as the fact that she did not approach the threshold guidelines outlined in the waiver application instructions.

- Denied the application of a recruited student-athlete who presented acceptable Swedish secondary credentials and ACT scores of 640 and 680. In its denial of the application, the subcommittee noted that the student-athlete presented two low test scores.

- Approved the application of a nonrecruited student-athlete who presented 11 core-course credits with a grade-point average of 3.040 and Washington Precollege Test scores of 36 (verbal) and 53 (quantitative), which predict an SAT score of 760.

## b. Considered the following core-course waiver requests:

- Denied the application of a nonrecruited student-athlete who presented 11 core-course credits with a grade-point average of 1.540 and ACT scores of 13, 13 and 12 (the latter achieved under conditions that compensated for his learning disability), with a composite score of 15. The student-athlete was diagnosed as learning disabled in the fifth grade. In its denial of the waiver application, the subcommittee noted the poor nature of the student-athlete's secondary school record.

- Approved the application of a recruited student-athlete who presented 11 core-course credits with a grade-point of 3.180 and an ACT score of 20 with a mathematics subscore of 16. The student-athlete lacked one mathematics core-course credit and had completed an additional high school math course that did not qualify as a core-course.

- Denied the application of a recruited student-athlete who presented 11.5 core-course credits with a grade-point average of 1.740 and an SAT score of 730. The institution requested permission to use plus and minus grades in the computation of the student-athlete's grade-point average, which would have resulted in a core average of 2.000. In its denial of the application, the subcommittee declined to waive the stipulation that plus and minus grades may not be utilized in the computation of core-curriculum grade-point averages.

- Denied the application of a recruited student-athlete who presented 10 core-course credits with a grade-point average of 2.000, an SAT score of 800 and an ACT score of 13, with mathematics subscores of 440 and 11, respectively. The student-athlete took an "informal geometry" class that he believed would help to satisfy the mathematics core-curriculum requirement. In its denial of the waiver application, the subcommittee noted

the student-athlete's low core-curriculum grade-point average and low ACT mathematics subscore.

- Approved the application of a nonrecruited student-athlete who presented 10.5 core-course credits with a grade-point average of 3.090; ACT scores of 15, 17 and 19, with social science subscores of 13, eight and 16, respectively, and an SAT score of 790. The student-athlete lacked .5 core-course credits in social science.

- Denied the application of a recruited student-athlete who presented 11 core-course credits with a grade-point average of 1.770 and an SAT score of 740. The student-athlete began two additional night courses in core subjects at another high school during his senior year, but did not complete the night courses until after high school graduation. If the night courses could have been substituted into the core-curriculum grade-point-average calculation, the student-athlete's core-course grade-point average would have been 2.040. In its denial of the waiver application, the subcommittee noted that the student-athlete presented a low grade-point average and low test score.

- Denied the application of a recruited student-athlete who presented 10.5 core-course credits, a grade-point average of 2.000 and SAT scores of 540, 560, 650 and 700, with a composite score of 700. She lacked .5 core-course credits in natural and physical science. She completed an additional science course through correspondence and was unaware that the course could not be used to meet the core-curriculum requirement. In its denial of the waiver application, the subcommittee noted that the student-athlete presented a low grade-point average and several low test scores.

- Approved the application of a nonrecruited student-athlete who presented 11 core-course credits with a grade-point average of 2.090 and an ACT score of 16, with a natural science subscore of 23. He lacked one core-course credit in natural science.

- Approved the application of a recruited student-athlete who presented 10 core-course credits with a grade-point average of 3.650 and an SAT score of 710, with a mathematics subscore of 330. The student-athlete lacked one mathematics core-course credit. In its approval of the application, the subcommittee noted that the student-athlete completed a proficiency math course that he believed would help to fulfill the core-curriculum mathematics requirement, as well as his high core-curriculum grade-point average.

- Approved the application of a recruited student-athlete who presented five core-course credits with a grade-point average of 3.800 and an ACT score of 18. In its approval of the application, the subcommittee noted the student-athlete's high core-curriculum grade-point average and the fact that she was educated at home from the second semester of seventh grade through the first semester of her junior year in high school.

- Approved the application of a recruited student-athlete who presented an SAT score of 1410. The student-athlete pursued secondary studies at home and did not fulfill core-course or graduation requirements. The subcommittee noted the high nature of the student-athlete's SAT score and the rigorous nature of his secondary studies.

- Approved the application of a recruited student-athlete who presented 10.5 core-course credits with a grade-point average of 2.710 and ACT scores of 15 and 24, with English subscores of 18 and 22, respectively. The student-athlete lacked one-half core-course credit in English. He completed an additional English course on a pass/fail basis for which his high school indicated he would have received a grade of "C."

- Approved the application of a nonrecruited student-athlete who presented 10.5 core-course credits with a grade-point average of 2.620 and ACT scores of 14 and 25, with mathematics subscores of 13 and 24, respectively. The student-athlete lacked .5 core-course credits in mathematics. The institution was advised to review the provisions of Bylaw 14.1.2 in regard to the validity of the student-athlete's academic credentials.

- Approved the application of a recruited student-athlete who presented 10.5 core-

course credits with a grade-point average of 3.190 and an ACT score of 21, with a natural science subscore of 22. He lacked one-half core-course credit in natural science.

- Approved the application of a nonrecruited student-athlete who presented 10.5 core-course credits with a grade-point average of 2.670 and ACT scores of 15 and 15, with a composite score of 15.5 and mathematics subscores of 15 and 16, respectively. He lacked one-half core-course credit in mathematics.

- Approved the application of a recruited student-athlete who presented 10.5 core-course credits with a grade-point average of 3.520, an ACT score of 27 and an SAT score of 1070. He lacked one-half core-course credit in social science.

- Approved the application of a recruited student-athlete who presented 12.33 core-course credits with a grade-point average of 2.510 and SAT scores of 750, 790, 790, 740 and 730, with a composite score of 800. In its approval of the application, the subcommittee noted that the student-athlete completed 20 core courses in mathematics, science, English and language; she lacked .67 core-course credits in social science.

- Approved the application of a recruited student-athlete who presented 12 core-course credits, a grade-point average of 3.625 and an ACT score of 27, with a natural science subscore of 31. She lacked one core-course credit in natural science.

- Approved the application of a recruited student-athlete who presented 13.5 core-course credits, a grade-point average of 3.330 and an ACT score of 20, with a social science subscore of 12. He lacked .5 core-course credit in social sciences.

- Approved the application of a recruited student-athlete who presented 11 core-course credits with a grade-point average of 1.955, an SAT score of 920 and an ACT score of 15. The student-athlete is dyslexic. In its approval of the application, the subcommittee noted that the student-athlete was not diagnosed as dyslexic until his junior year in high school and thus was unable to take advantage of core courses offered under conditions designed to compensate for his learning disability for his first two years of high school enrollment.

## c. Considered the following graduation waiver requests:

- Approved the application of a recruited student-athlete who presented 16 core-course credits with a grade-point average of 3.810 and an SAT score of 930. The student-athlete entered junior college on a full-time basis prior to the completion of the final semester of high school.

- Approved the application of a recruited student-athlete who presented 11 core-course credits with a grade-point average of 3.360 and an SAT score of 920. The student-athlete left high school after her junior year and did not fulfill the early-admissions program waiver specified in Bylaw 14.3.1.1.4 because she ranked in the top 25 percent (not the top 20 percent) of her high school class. In its approval of the waiver application, the subcommittee noted the student-athlete's strong secondary record.

- Approved the application of a recruited student-athlete who presented an SAT score of 910 with German secondary credentials that do not fulfill requirements specified in the NCAA Guide to International Academic Standards for Initial Eligibility. In its approval of the waiver application, the subcommittee noted that the student-athlete had successfully completed additional secondary studies, including the achievement of a high score on a state GED examination. It also noted that the student-athlete had been accepted into the applicant institution as a sophomore.

## d. Considered the following 2,000 grade-point average waiver requests:

- Denied the application of a nonrecruited student-athlete who is a 1985 high school graduate and presented an overall grade-point average of 1.730 and ACT scores of 13 and 12, with a composite score of 13.25. In its denial of the application, the subcommittee noted the low nature of the student-athlete's secondary record and two ACT scores.

## Questions/Answers

Readers are invited to submit questions to this column. Please direct any inquiries to The NCAA News at the NCAA national office.

**Q** Under what condition is a letter from a physician required for the NCAA drug-testing program?

**A** Physicians' letters are required for the use of local anesthetics during NCAA championships. (See the 1989-90 NCAA Drug-Education and Drug-Testing Programs brochure, page 11.) Physicians' letters no longer are required for the use of corticosteroids or asthma medications.

## New look

**Butler University's Hinkle Fieldhouse, site of the popular movie "Hoosiers" and one of the nation's oldest basketball arenas, received a new look this fall with a \$1.5 million renovation. Included in the project were 2,700 new chairback and benchback seats in the lower arena; new offices, locker rooms and training-room facilities; new public-address system, new doors and windows, newly paved parking lot, and outside landscaping.**

# The Market

The Market lists positions available at senior colleges and universities, junior colleges, and high schools.

All readers of The NCAA News are invited to use The Market to locate candidates for positions open at their institutions, to advertise open dates in their playing schedules or for other appropriate purposes.

Rates are 55 cents per word for general classified advertising (agate type) and \$27 per column inch for display classified advertising. Orders and copy are due by noon five days prior to the date of publication for general classified space and by noon seven days prior to the date of publication for display classified advertising. Orders and copy will be accepted by telephone.

For more information or to place an ad, call Susan Boyts at 913/384-3220 or write NCAA Publishing, P.O. Box 1906, Mission, Kansas 66201.

## Positions Available

### Academic Counselor

**Athletic Academic Counselor:** Primary responsibility will be to develop and implement, under the direction of the Director of Athletic Academic Counseling, an academic planning and degree tracking system for student-athletes. The academic planning component of the system will be developed with the cooperation and approval of all collegiate advising units within the institution. Prepare and present degree tracking reports and compile retention, graduate rates as well as other statistical reports. Provide team sports

counseling. Requires Bachelor's in Counseling, Educational Psychology, or related field plus two years' experience, preferably in athletic academic counseling; Master's preferred. Apply with letter of application, current resume and list of references postmarked by November 24 to: Dr. Roger Grooters, University of Nebraska, Lincoln, Nebraska 68588-0219, 402/472-5829. Applications especially sought from women and minorities. Affirmative Action/Equal Opportunity Employer.

### Athletics Trainer

**Southeast Missouri State University, Assistant Athletic Trainer, Athletic Department.** Southeast Missouri State University, presently Division II/reclassification to Division I, September 1991, invites applications for Assistant Athletic Trainer. Twelve-month position beginning January 1, 1990. The responsibilities, in brief,

include: assist Head Trainer in all aspects of the training program for the care, prevention, treatment, and rehabilitation of all athletic injuries in all sports for men and women. Qualifications: NATA Certification and Bachelor's degree required. Experience at college level in all sports (including football) for men and women preferred. Minimum Available Compensation: \$17,450/year (commensurate with experience) and distributed between salary and the University's family medical insurance/benefits. In addition, the University provides an excellent base benefits program, including leaves and other insurances. Application Deadline: December 4, 1989. To apply, send letter of application, resume, names and telephone numbers of three references to the Director of Personnel Services, Southeast Missouri State University, One University Plaza, Cape Girardeau, MO 63701. An Equal Opportunity, M/F, Affirmative Action Employer.

**Assistant Athletics Trainer.** The University of Texas at Austin, Intercollegiate Athletics for Women. Official Title: Assistant Athletics Trainer. Salary: \$20,000 annually. Appointment: 10 months annually/100% time. Starting Date: January 1990. Required Qualifications: Master's degree, National Athletic Trainers Association certification. Eligible for Texas licensure. Experience in all major sport areas at the collegiate level. Some travel required. Responsibilities: Assist in all phases of the health care management program that services seven highly competitive Division I intercollegiate teams. Assist in the supervision of team practices and home events. Travel to away contests during in-season competition. Design and administer rehabilitation programs in conjunction with head trainer. Supervise training room in absence of head trainer and supervise student trainers. Application Procedures: Send a resume and three (3) letters of reference to: Tina Bonci, Head Trainer, Intercollegiate Athletics for Women, Belmont Hall 606, University of Texas, Austin, Texas 78712. 512/471-7693. Minority applicants are en-

couraged to apply. Equal Opportunity/Affirmative Action Employer.

### Sports Medicine

**Coordinator of Sports Medicine.** The University of Connecticut Health Services Department is currently seeking a Physician to serve as Coordinator of Sports Medicine. This is a permanent, full-time, 12-month appointment. This position, which reports to the Director of Medical Services, involves overseeing and providing direct primary care services. Responsibilities include the coordination of all health care services rendered to varsity athletes. This is a unique opportunity to serve as a member of a multidisciplinary team with the Department of Athletics and Health Services. Qualified candidates require an M.D., Board Certification in a primary care specialty. Knowledge and experience in Sports Medicine essential. Salary is commensurate with experience and training. Starting date negotiable. Respond with salary history and requirements to: Mr. Michael Kurland, Director, Health Services, University of Connecticut, 11, 234 Glenbrook Road, Storrs, CT 06269-3011. AA/EOE. (Search #9S129).

### Aquatics

**Aquatic Coordinator.** Assistant/Associate Professor, tenure track position to develop aquatics program and manage new aquatics facilities. WSI, CPR Instructor and WSLT Certifications required. Ph.D. preferred. Experience with aquatics at University level and ability to teach variety of courses in Physical Education required. For full consideration send letter of application, resume, three references and appropriate credentials by January 31, 1990, to: Mr. Larry Fitzpatrick, Director of Personnel, Saginaw Valley State

University, University Center, MI 48710. AA/EOE.

### Baseball

**Assistant Men's Baseball Coach, University of Washington.** Full-time, 12-month position. Starting Date: Immediately. Bachelor's degree required. Competitive experience at the collegiate level preferred. Coaching experience at the collegiate level preferred. Coaching experience either at the professional, collegiate, or high school level is required. Knowledge of and adherence to NCAA rules and regulations. Organization and implementation of recruiting program. Assist head coach in recruiting, evaluation; budget preparation; field maintenance; game management; study table and academic progress monitoring; practice organization; scheduling; and organization and coach summer baseball team. Send letter of application, resume and three references to: Bob McDonald, Head Baseball Coach, Intercollegiate Athletics GC20, University of Washington, Seattle, WA 98105. Application Deadline: November 30, 1989.

### Basketball

**Assistant Men's Basketball Coach ("Coach" classification) full-time, academic-year appointment.** Intercollegiate Athletics Department. Salary Range: \$36,372-\$50,472 (commensurate with qualifications and experience). Duties include assisting head coach with the intercollegiate basketball program; recruiting, scouting, filming practice sessions and games, academic advising, coordinating travel, and other related duties. Teaching in the Physical Education/Recreation Administration Department (43 coaching, 57 teaching). Undergraduate degree required. Master's degree and successful teaching at the college level preferred. At least one degree in PE or related field required. Current CPR certification required. Commitment to academics and knowledge of NCAA rules necessary. Successful coaching in basketball at the collegiate level required. Preference will be given to applicants who can teach a wide variety of Physical Education classes chosen from among aquatic activities, racquet sports, and team sports. Apply to: Dr. Kendrick Walker, Athletic Director, California Polytechnic State University, San Luis Obispo, CA 93407. Starting Date: September 1990; deadline for receipt of application and resume, December 15, 1989. AA/EOE.

**Assistant Women's Basketball Coach: ("Coach" classification), full-time, academic-year appointment.** Intercollegiate Athletics Department. Salary Range: \$36,372-\$50,472 (commensurate with qualifications and experience). Duties include assisting head coach with the intercollegiate basketball program; recruiting, scouting, filming practice sessions and games, academic advising, coordinating travel, and other related duties. Teaching in the Physical Education/Recreation Administration Department (43 coaching, 57 teaching). Undergraduate degree required. Master's degree and successful teaching at the college level preferred. At least one degree in PE or related field required. Current CPR certification required. Commitment to academics and knowledge of NCAA rules necessary. Successful coaching in basketball at the collegiate level required. Preference will be given to applicants who can teach a wide variety of Physical Education classes chosen from among aquatic activities, racquet sports, and team sports. Apply to: Dr. Kendrick Walker, Athletic Director, California Polytechnic State University, San Luis Obispo, CA 93407. Starting Date: September 1990; deadline for receipt of application and resume, December 15, 1989. AA/EOE.

**Women's Basketball Head Coach: ("Head Coach" classification) full-time, academic-year appointment.** Intercollegiate Athletics Department. Salary Range: \$36,372-\$50,472 (commensurate with qualifications and experience). Duties include assisting head coach with the intercollegiate basketball program; recruiting, scouting, filming practice sessions and games, academic advising, coordinating travel, and other related duties. Teaching in the Physical Education/Recreation Administration Department (43 coaching, 57 teaching). Undergraduate degree required. Master's degree and successful teaching at the college level preferred. At least one degree in PE or related field required. Current CPR certification required. Commitment to academics and knowledge of NCAA rules necessary. Successful coaching in basketball at the collegiate level required. Preference will be given to applicants who can teach a wide variety of Physical Education classes chosen from among aquatic activities, racquet sports, and team sports. Apply to: Dr. Kendrick Walker, Athletic Director, California Polytechnic State University, San Luis Obispo, CA 93407. Starting Date: September 1990; deadline for receipt of application and resume, December 15, 1989. AA/EOE.

**See The Market, page 18**

## VILLANOVA UNIVERSITY

### Assistant Athletic Director for Facilities

Villanova seeks an experienced athletics and/or recreational facilities manager. Reporting to the AD, this position oversees the care and use of the University's athletics buildings and fields as to maintenance, custodial services, security and scheduling of activities. Assists in the development and costing of construction and remodeling plans. Various other responsibilities in the area of operations.

Requires at least a bachelor's degree and five years of experience in a similar position. Ability to utilize computers for records and analytical assignments a significant plus. Compensation most competitive and benefits include health and dental plans, strong disability income plan, and tuition remission for employee children attending Villanova.

Position is presently open, and priority consideration will be given to immediate applications. Send cover letter and resume to:

G. Thomas Bull  
Director of Personnel Services  
VILLANOVA UNIVERSITY  
Villanova, Pennsylvania 19085

Villanova is an Equal Opportunity, Affirmative Action Institution.

## Assistant Director of Youth Programs

### NCAA Administration Department

Applications are being accepted for a position in the administration department to work with NCAA youth programs.

Responsibilities will include assisting with the administration of the National Youth Sports Program and other duties as assigned. The position requires organizational and administrative abilities, strong writing skills, and an ability to communicate effectively.

Applicants must have a master's degree plus administrative experience in intercollegiate athletics and/or youth programs.

Interested candidates should send a letter of interest, with a resume and list of references, postmarked by December 1 to:

Edward A. Thiebe  
Director of Youth Programs  
NCAA  
P.O. Box 1906  
Mission, Kansas 66201

The NCAA is an Equal Opportunity Employer

## KENYON COLLEGE

### Director of Physical Education and Athletics

Kenyon College invites nominations and applications for the position of **Director of Physical Education and Athletics**. With an enrollment of 1,500 resident undergraduates, Kenyon is a member of the North Coast Athletic Conference and the NCAA-Division III. The Physical Education and Athletic Department has 11 full-time staff members who coach 21 intercollegiate varsity teams (11 men's and 10 women's teams), administer intramural and co-recreational programs and teach physical education courses for credit. Kenyon encourages women and minority candidates to apply.

We are seeking an experienced administrator who can provide strong leadership for departmental programs and set standards and goals comparable to Kenyon's distinguished academic programs. Candidates must have a demonstrated proficiency for: the development and operation of physical education, intercollegiate, intramural and recreational activity programs; staff supervision and assessment; creative managerial skills; preparing and administering annual budgets; and understanding and interpreting conference and NCAA regulations and policies.

The Director will be expected to work harmoniously with students, faculty and alumni groups, and, by being an effective spokesperson for the department, provide support for the College's public relations program. A coaching assignment is preferred.

Qualifications for the position include a master's degree, although a terminal degree is preferred. Salary commensurate with qualifications and experience. Twelve-month contract, one month vacation. Starting date: as soon after appointment as possible but the date may be negotiated. Review of applications will begin on December 8th and continue until the position is filled. Send inquiries or applications to: Professor Perry Lentz, Chair, Search Committee, Department of English, Kenyon College, Gambier, OH 43022-9623.

An Equal Opportunity Employer

# Three-sport athlete thrives on pressure

Leslie Free

For most students, calculus, physics and chemistry would be a full load. But Leslie Free is not "most students."

Free's science- and math-oriented course load at North Central College only takes up about a third of her time. The rest is spent working at a part-time job and playing three varsity sports.

"There are a few long nights," Free says, "but if I don't keep busy, I don't do as well."

During her first two years, Free earned five varsity letters in three sports. This year, the 5-10 junior is on track to earn three more. Even more impressive is her grade-point average: Before a thermodynamics course in physics, it was a lofty 3.930, but now she says it is a 3.830 (on a 4.000 scale).

Free is a member of the North Central tennis team, and she is paired with teammate Jennifer Davis at No. 1 doubles. When the tennis season ends, Free will devote time to the basketball team as a forward. After basketball, it's on to softball. She's the starting shortstop.

For many student-athletes, finding a balance between academics and athletics can be a problem; for Free, it is just another challenge — a challenge at which she excels.

"Actually, when it comes to school, I tend to procrastinate,"

Free says. "I work better when I'm under pressure."

Free is majoring in physics but plans to switch to mathematics. She says she would like to work in the space program for NASA. Academically, she has proven she has the "right stuff."

"Math has always come easy to me," Free said. "Physics — now that takes a little work."

Although she appears calm and relaxed, Free says she is extremely competitive in all her endeavors, especially in athletics. She enjoys having the opportunity to play three sports.

"The coaches are great," Free says. "They know how to bring out the best in me."

Kim Hansen, who coaches Free in tennis and basketball, said Free works hard at everything.

"She's a real pleasure to coach," Hansen said. "She always gives her best effort."

Free said she'll continue to compete in athletics as long as she is able. She said she could never limit her participation to just one sport.

"I'd go crazy if there weren't variety," she said.

Free's talents go beyond the classrooms and athletics fields. She likes to fish, and she has studied ballet; but when she really wants to relax, she plays classical piano, a hobby she picked up in her spare time.

# Calendar

# School to get new stadium

Saginaw Valley State University has announced that plans are under way for the construction of a new football stadium on the campus.

Private contributions totaling \$1.2 million will be used.

"This very generous gift to the university will enable us to enjoy a fine stadium facility without cost to taxpayers or our students," said Eric R. Gilbertson, school president. "We are deeply grateful for this opportunity."

The project is to include permanent seating for 2,500 fans—2,000 on the west side and 500 on the east side—restrooms and a press box.

Included in the initial project are design elements for future expansion. The stadium will be constructed around the current field, completed in 1975.

"The field in Cardinal Stadium is among the finest in our league, but the rest of the stadium facilities are inadequate," said athletics director Bob Becker, referring to temporary bleachers, restrooms and the press box in the stadium. "We're very excited about this project, and it will be a real shot in the arm for our football program."

Officials hope to complete the project in time for the 1990 season.

## The Market

Continued from page 17

year appointment. Intercollegiate Athletics Department. Salary Range: \$45,960-\$55,452 (commensurate with qualifications and experience). Duties include working with all facets of the women's basketball program (Division II), and teaching in the Physical Education/Recreation Administration Department (1.75 teaching, .25 teaching). # Doctors issue guidelines for treating head, neck injuries

The Illinois State Medical Society has a message for football trainers and paramedics working games—don't take off a player's helmet if he hurts his neck.

The society's Committee on Sports Medicine has released new guidelines for dealing with football head and neck injuries, based on studies that indicate such injuries can be worsened if a hurt player's helmet is removed, United Press International reported.

"The jostling and pulling required for removal has a high potential for causing further trauma and can be life-threatening," says the society's newly released "Guidelines for Helmet Fitting and Removal in Athletics."

"The helmet should never be removed on the field if there is any question of a cervical spine injury," according to the guidelines.

While the old theory held that taking off a tight-fitting helmet was

necessary to diagnose potential injuries and help a player breathe, the reverse is true, said Dr. Bates Noble, a former team physician for the Chicago Bulls basketball team.

"We think removing the helmet can make this worse," said Noble,

"It's heavy, and the head is relatively weak. The helmet makes the head even heavier."

If the neck is broken or the muscles are damaged, the delicate spinal cord can be left without support, and such injuries are often hard to

exploratory x-rays used to detect possible injuries, can be taken without removing the helmet, Noble said.

"A helmet is radioluscent—you can shoot films through it," he said. "In addition, the helmet actually provides a wonderful means to immobilize the neck. You can use the helmet to tape the head to a spine board and actually provide better immobilization than with the helmet off."

If an injury is detected, the guidelines say the helmet can be easily removed by unsnapping the cheek pads and taking it off without any undue pulling or twisting.

But even the best of care is sometimes not enough to prevent a serious paralyzing injury, Noble said. Doctors who treated Chicago Simion High School football star Kenneth Jennings when he was injured evacuated him by helicopter without removing his helmet, but

Jennings was still paralyzed from the neck down. He is now suing his coaches.

Noble said tougher rules outlawing "spearing" tackling with the head have helped cut down on the number of serious football-related spinal injuries. Good coaching and officiating combined with strong and physically fit players are the best ways to prevent accidents, he said.

Emotional maturity is also a factor.

"In one case, a kid upset by his performance ran into a wall with his head and paralyzed himself," Noble said. "He didn't hit the wall or do any of the usual things. He hit the wall with his head."

The medical society has sent copies of the guidelines to trainers associations as well as groups of paramedics and emergency-room doctors.

## Exploratory x-rays used to detect possible injuries can be taken without removing the helmet

who chairs the sports-medicine committee. "We have videotape of incidents where a player is moving, then the helmet is removed and the player doesn't move any more."

Serious spinal damage is one of the rarest but most catastrophic injuries a player can suffer, Noble said.

"The head's swinging around on top of a slender column," he said.

detect. Chicago Bears defensive back Dave Duerson and Ohio State University basketball player Jay Burson are two athletes who played games not knowing their necks had been broken, Noble said.

The new guidelines urge trainers and paramedics treating on-field injuries to leave helmets on until players can be taken to a hospital for a checkup. "Scout films," ex-

## More men's volleyball teams is goal

Incentive grants totaling \$54,000 are available to start nine men's varsity volleyball programs during the 1990-91 academic year, according to the Volleyball Council of the Sporting Goods Manufacturers Association and the Athletic Institute.

The project is designed to assist efforts of the United States Volleyball Association and the American Volleyball Coaches Association to increase the number of varsity programs.

Al Scates, head men's volleyball coach at the University of California, Los Angeles, and men's chair of the coaches' association, said the number of varsity men's programs is four below the minimum required by the NCAA to conduct a national championship.

"Although the U.S. men's team has clearly been the strongest in the world, it would plummet into oblivion with the demise of the men's varsity programs," Scates said. "To maintain men's volleyball at its present level, the number of NCAA men's teams must be increased through the grants program."

Grant recipients will be selected through an application procedure administered by the U.S. Volleyball Association. Each institution selected must play an NCAA-approved schedule for three consecutive years and implement a plan to promote high school volleyball in neighboring communities.

The Volleyball Council is an organization of sports-equipment suppliers, and the Athletic Institute is the educational and promotional arm of the manufacturers association.

## Sport is added

Boston University will field a varsity golf team and begin play in the 1990 fall season, athletics director Gary Strickler has announced.

Strickler said, "We are attempting to expand and diversify the spectrum of sports in which the institution competes, enabling us to serve more fully the interests of our student body. Also, because golf already exists at the varsity level in the other schools of the North Atlantic Conference, we will be able to take part fully in the broad level of competition that exists in that conference."

Gary S. Skrinar, a faculty member, will serve as the Terriers' head coach on a part-time basis.

From the Carrier Dome to the Astrodome, Fairtron is the world's number one supplier of scoring and information displays -- including Fair-Play® scoreboards and Telelite® message centers. Talk to Fairtron (515) 265-5305.
