

# Schultz seeks members' ideas on revenue sharing

The NCAA's \$1 billion television contract with CBS Sports represents an "enormous resource" for intercollegiate athletics, Executive Director Richard D. Schultz says, and he has challenged the Association's Executive Committee and the entire membership to devise ways of distributing the funds that will ease competitive pressure, enhance integrity among member institutions and ensure higher graduation rates among student-athletes.

"As your executive director, and along with the negotiating commit-

tee, we would challenge the membership to utilize these new funds to enhance the worthy goals of intercollegiate athletics within the framework of higher education, and not to increase the pressure placed on coaches and athletes," Schultz said.

The seven-year contract extension, to run from 1991 through 1997, was signed November 22 in Kansas City, Missouri. The current, three-year contract with CBS, worth \$166 million, expires with the 1990 Final Four in Denver.

The contract calls for CBS to

televise all 63 games of the Division I Men's Basketball Championship and to provide coverage of 17 other NCAA championship events.

"We are pleased with these negotiations, not only in terms of the financial worth, but especially the commitment to televise many more of our championships," Schultz said.

Schultz said the bidding was "a highly competitive process, and the CBS bid reflects the intense interest of the other networks in acquiring rights to the men's basketball championship."

The contract "puts one of the nation's top sports events entirely on free TV and brings the exposure of the tournament to its highest level ever," Schultz said. "It's a trend away from pay TV, and we are pleased about that."

#### Beer ads reduced

The NCAA reduced the amount of beer advertising during telecasts of the men's basketball championship by 33 percent.

"While the NCAA considered further restrictions, they were deemed unnecessary upon learning

of Anheuser Busch's intention to institute a voluntary plan of educational advertisements on these telecasts," Schultz said.

Anheuser Busch has indicated that it intends to initiate this plan with the 1990 championship, even before the effective date of the new contract, Schultz added.

#### More TV coverage

In addition to the men's basketball championship, CBS will provide coverage of the Division I Women's Basketball Championship, as well

### Tufts' Carzo nominated as III officer

Rocco J. Carzo, director of athletics at Tufts University, tops the slate of candidates selected by the NCAA Nominating Committee for 1990 vacancies in NCAA offices and on the NCAA Council.

Carzo is nominated to replace Alvin J. Van Wie, College of Wooster, as the NCAA's Division III vice-president for 1990 and 1991.

That is the only vacancy among the elected NCAA officers for 1990. The officers who will continue their terms are Albert M. Witte, professor of law, University of Arkansas, Fayetteville, president; Judith M. Sweet, director of athletics, University of California, San Diego, secretary-treasurer; B. J. Skelton, dean of admissions and registration, Clemson University, Division I vice-president, and Jerry M. Hughes, director of athletics, Central Missouri State University, Division II vice-president.

The Nominating Committee is announcing its slate of candidates this week in conjunction with the November 29 mailing of the Official Notice of the 1990 NCAA Convention.

Carzo, athletics director at Tufts since 1974, has been a member of the NCAA Council for the past two years. He would replace Van Wie at the conclusion of the January Convention in Dallas.

His election will take place in the Division III business session at the

Rocco J. Carzo

Dallas gathering. That election then must be ratified in the general business session.

#### Council nominations

The Nominating Committee's recommendations to fill Council vacancies also will be voted upon in the respective division business sessions. The committee's nominations are as follows, with all to serve four-year terms (to January 1994) except as noted.

#### Division I

**Division I-A conferences:** Elect Daniel G. Gibbens, professor of law, University of Oklahoma, to replace Robert R. Snell, Kansas State University (Big Eight Conference).

Elect Michael L. Kasavana, professor, school of restaurant, hotel and institutional management, Michigan State University, to replace C. J. Slanicka, Ohio State University

See Tufts', page 3

### 14 proposals earmarked for special Commission grouping

*(Editor's Note: This is the second in a series of six articles outlining the legislation to be considered at the 1990 annual Convention. This article reviews the 14 proposals in the special grouping identified by the NCAA Presidents Commission for action early in the agenda.)*

Fourteen proposals—all identified for roll-call votes—make up the special legislative grouping identified by the NCAA Presidents Commission as being of special interest to presidents and chancellors at the 1990 NCAA Convention.

The grouping includes the four proposals being sponsored by the Commission itself, including one mandating graduation-rate disclosure by Divisions I and II institutions, one designed to rescind Proposal No. 42 as adopted by Division I at last January's Convention, one to begin the process of reducing the time demands on student-athletes in all sports, and one to permit the awarding of financial aid to incoming students-athletes in the summer prior to their first regular term.

The other 10 proposals are sponsored by other sources, and the Commission emphasizes that it has taken no position on those. Inclusion of those 10 in the special grouping merely means that the Commission officers believe them to be of particular interest to chief executive officers.

Of the 14 proposals, only six will be voted upon in the general business session because the others all will be handled in the division business sessions January 8. The six in the general business session will occur early in the morning January 9, immediately after the consent package is dealt with and after the "window of reconsideration" for

institutions to compile and release publicly certain admissions and graduation-rate data on its student-athletes on a sport-by-sport basis. To protect the privacy of individual student-athletes, the graduation rates would be reported as a rolling four-year average of those graduating over a five-year period.

The data also would be reported to the NCAA—as Division I does now—and the Association would publicize the information, identifying the institutions. Currently, the NCAA's Division I report does not identify the institutions.

Graduation data would be collected and reported as both undefined and defined (formerly referred to generally as "raw" and "adjusted") rates. The defined rate takes into account transfers in and out of the institution and those who leave the institution in good academic standing, whereas the undefined rate simply calculates the number of entering students who graduated within the five-year period.

All of the data will compare student-athletes with the student body in general at that institution.

Other features of the proposal include information on:

- Graduation rates of student-athletes grouped by race, reported separately for football and men's and women's basketball, and collectively for all other sports.

- Undefined graduation rates for

See 14 proposals, page 15

#### Three proposals in the grouping offer Division I members alternatives to 1989 Convention Proposal No. 42

any action taken in a division business session the preceding day.

#### Graduation rates

Two of the 14 amendments propose requirements that institutions and the NCAA make public the graduation rates of student-athletes. The Commission's proposal does that for Divisions I and II, but the Commission did not choose to offer such a proposal for Division III. The Division III Steering Committee of the NCAA Council believed Division III should be included, so it has sponsored a proposal to do that.

The Commission's proposal would require Divisions I and II

### Executive Committee to discuss year-round drug testing

Varied business awaits members of the NCAA Executive Committee, which will meet December 4 in Kansas City. From drug-testing considerations to a review of the Association's new television contract for the Division I Men's Basketball Championship, Executive Committee members will cover a lot of ground:

- They will discuss a committee report on the proposed year-round drug testing of student-athletes.

- They will consider the new basketball television contract and begin preliminary discussion of the distribution of revenue generated by the contract.

- They will review the application

of Bylaw 21 regarding playing rules.

- They will review proposed legislation for the 1990 Convention in Dallas that directly affects the Executive Committee.

#### Division I football only

The Executive Committee will consider recommendations from the drug-testing subcommittee of the Committee on Competitive Safeguards and Medical Aspects of Sports that the proposed year-round NCAA drug-testing program be limited in sport and in scope for its first two years.

Specifically, the subcommittee has recommended that testing be limited to Division I football for the program's first two years and that

testing take place only for anabolic steroids, diuretics and urine manipulators.

The subcommittee also suggested that schools selected for testing be given no more than 48 hours' advance notice of the testing.

It was noted that, following the two-year football-only trial, year-round testing could be expanded to other sports.

#### More TV money

Now that the NCAA has a new television contract for the Division I Men's Basketball Championship (see story on this page), the Executive Committee will begin preliminary discussions of use of the income generated by that agreement.

In reviewing the alternatives, Executive Committee members will receive input from the NCAA Committee on Review and Planning and from the Special NCAA Committee to Review the Membership Structure.

#### Playing rules

Executive Committee members will review the intent of NCAA Bylaws 21.4.1.3 and 21.5.1.5.2 that playing rules must be common among all NCAA membership divisions, specifically reviewing the scoring system in swimming and the substitution rule in soccer.

#### Other business

As noted above, the Executive Committee will review 1990 Con-

vention legislation, confining its review to proposals that affect the Executive Committee. Among those will be alternatives for applying team-ineligibility sanctions as a result of positive drug tests.

Reports will be received on the Association's conference-grant program and on the fiscal year ended August 31, 1989.

A number of recommendations from governing sports committees also will be considered. Coverage of the Executive Committee meeting will appear in the December 11 issue of The NCAA News, and a complete summary of all actions taken in the meeting will appear in a future issue.

# CBS television pact seen as big boost for women's game

College women's basketball coaches and officials were elated with the news of expanded television coverage of their regular season and NCAA tournament as part of a \$1 billion, seven-year contract between NCAA and CBS.

Part of the agreement that gave total coverage of the men's tournament to CBS calls for the NCAA women's national semifinals to be televised Saturday afternoons, followed by the women's title game Sundays. Additionally, three regular-season games are to be televised.

In recent years, ESPN televised the semifinals Friday nights, while the women's title game has been broadcast on CBS. When the new contract begins in 1991, it will be the first time that a woman's regular-season game will be nationally televised on over-the-air TV.

"It's a tremendously exciting time," said Judith R. Holland, who chairs the NCAA Division I Women's Basketball Committee. She is senior associate athletics director at the University of California, Los Angeles. "As a committee, we're going to have to do a lot of homework to make sure we get good games.

"And we're not done yet. We have another round of negotiations to come and, obviously, we would think that ESPN might want to do a lot more of the early part of the tournament," Holland said.

ESPN has televised the four NCAA women's regional title games but Holland speculated that more air time would be available since the cable network will lose the early part of the men's tournament.

"I don't know how many of the coaches are going to be upset with the idea of playing Saturday and then coming back Sunday without the traditional off day between the semifinals and finals," Holland said. "But we had to give something up to get the exposure, and we thought the trade-off would be worth it.

"Obviously, we weren't going to get CBS to give up Friday night prime time. And we wanted to stay with the title game on Sunday afternoons because we've pretty much carved that time out for ourselves to the point that we win the ratings for the period," Holland said.

The reaction of several coaches who vote in The Associated Press women's poll appeared to make Holland's concern unfounded.

"Wow, this is exciting," said Penn-

Judith R. Holland

sylvania State University coach Rene Portland, who is also president of the Women's Basketball Coaches

Rene Portland

Association. "It's a very important step.

"I don't see the loss of the off day

as too much of a problem. We all play straight through in conference tournaments, and we certainly all play straight through in holiday tournaments. So we should be used to the situation," Portland said.

"This is an important step forward," said Leon Barmore, whose Louisiana Tech team tied for first with Tennessee in the preseason poll. "This is what we said we've needed to take women's basketball to the next level of play. I hope ESPN, which has been very good to us, continues to stay with us.

"As for losing the day off, I don't

see a problem with preparation time for the coaches between the two games. But I am concerned that the kids get enough rest so the performance is worthy on Sunday. If they start the title game a little later in the day, those hours of extra rest would be good."

"You can't attain a high level of acceptance without visibility," said Kay Yow, coach of North Carolina State University and the 1988 U.S. Olympic gold-medal winners. "The new contract is a milestone. We've all been making small progress, but this is major."

## Legislative Assistance

1989 Column No. 42

### NCAA Bylaw 16.2—complimentary admissions and ticket benefits

Member institutions are reminded that in accordance with Bylaw 16.2.1.1, it is permissible for an institution to provide four complimentary admissions to each home and away contest to a student-athlete in the sport in which the student-athlete is participating (either in practice or in competition), regardless of whether the student-athlete competes in the particular contest for which the admissions are received. In addition, complimentary admissions may be provided to members of the institution's team for all contests in a tournament in which the team is participating, rather than only for those tournament games in which the institution's team actually participates. However, admissions may be provided for any such additional tournament contests only if the contest is at the site at which the institution's team participates.

In Division I, complimentary admissions shall be provided only through a pass list for individuals designated by the student-athlete. No more than one of the four complimentary admissions in the student-athlete's sport may be considered a "wild-card" admission and be provided to a person other than family members, relatives or fellow students. A fellow student is any student with an appropriate student identification card from the student-athlete's own institution or from any other four-year collegiate institution. In addition to a student-athlete's own family members, relatives or fellow students, specific family members or relatives of a teammate are permitted to use the student-athlete's complimentary admissions if so designated. However, teammates may not utilize another student-athlete's *one wild-card admission for a person other than family members or relatives*. The individual utilizing the complimentary admission must present identification to the person supervising the pass list at the admission gate. The individual then should be provided a ticket stub or other identification of a specified reserved seat, directed to a specific reserved-seating section or seating area, or treated as a general-admission ticket holder.

The Division I institution shall be responsible for the administrative procedure involving complimentary admissions, and the student-athlete's eligibility shall be affected by involvement in action contrary to the applicable provisions (i.e., receipt of more than the permissible four complimentary admissions, or the sale or exchange of a complimentary admission for any item of value). In any event, "hard" tickets shall not be issued in Division I in conjunction with the complimentary-admission program.

In Division II, complimentary tickets shall be distributed only to persons designated by the student-athlete who have identified themselves and have signed a receipt therefor. The institution shall be responsible for this administrative procedure, and the student-athlete's eligibility shall be affected by involvement in action contrary to the provisions of Bylaws 16.2.1.1 and 16.2.2.1 (i.e., receipt of more than the permissible four complimentary admissions, or the sale or exchange of a complimentary admission for any item of value).

In Division III, complimentary tickets shall be distributed only to persons designated by the student-athlete. The institution shall be responsible for this administrative procedure, and the student-athlete's eligibility shall be affected by involvement in action contrary to the provisions of Bylaws 16.2.1.1 and 16.2.2.1 (i.e., receipt of more than the permissible four complimentary admissions, or the sale or exchange of a complimentary admission for any item of value).

In addition, it is permissible for any member institution to provide admission for each student-athlete to all of the institution's regular-season home intercollegiate athletics contests in sports other than that in which the student-athlete is a participant via a printed student-athlete pass or gate list. Proof of identity shall be required upon admission.

Please note that although partial qualifiers and nonqualifiers are not entitled to four complimentary admissions, it is permissible for those individuals to receive admission to all of the institution's regular-season home intercollegiate athletics contests during the first academic year in residence.

In reference to complimentary or reduced admissions for high school, college preparatory school or two-year college coaches, the NCAA Legislation and Interpretations Committee reviewed the provisions of Bylaw 13.8.1 during its September 28, 1989, conference. The committee confirmed that in Divisions I and II, member institutions are required to utilize a pass-list system to distribute complimentary or reduced admissions to high school, college preparatory school or two-year college coaches. In Division III, "hard" tickets may be issued to high school, college preparatory school or two-year college coaches. Member institutions are limited to providing such coaches a maximum of two complimentary admissions to home athletics contests that must be issued on an individual-game basis in Divisions I and II, but may be extended to include full-season

passes or tickets in Division III.

It also is permissible under certain conditions to provide complimentary admissions to campus athletics events to prospective student-athletes making official or unofficial visits to the institution's campus. Bylaws 13.6.5.2 and 13.7.2.1 require Division I member institutions to utilize a pass-list system to distribute such admissions. However, Divisions II and III member institutions may provide "hard" tickets to prospective student-athletes for campus athletics events.

Finally, as indicated in Figure 11-1 (page 52, 1989-90 NCAA Manual), the number of complimentary tickets that may be awarded to institutional coaching staff members is as follows: Head coach—unlimited number of tickets; full-time assistant coach—unlimited number of tickets; part-time assistant coach—four tickets; graduate assistant coach—four tickets; volunteer coach—four tickets, and undergraduate assistant coach—four admissions (not "hard" tickets).

### NCAA Bylaw 12.2.1—tryouts with professional teams

Member institutions should note that in accordance with Bylaw 12.2.1.1, a student-athlete remains eligible in a sport even though, prior to enrollment in a collegiate institution, the student-athlete may have tried out with a professional athletics team in a sport or received not more than one expense-paid visit from any one professional organization in a sport, provided such a visit did not exceed 48 hours, and any payment or compensation in connection with the visit was not in excess of actual and necessary expenses. It would be permissible for a student-athlete to continue his or her tryout with a professional organization for a period of time that exceeds 48 hours. However, in such circumstances, the individual could not receive expenses from the professional organization after the conclusion of the 48-hour period.

In addition, the Legislation and Interpretations Committee confirmed during its October 12, 1989, conference that an individual student-athlete would be permitted to receive an expense-paid tryout in a particular sport from more than one professional team in a league without jeopardizing his or her eligibility in that sport, provided the student-athlete does not receive more than one expense-paid visit from the same professional team.

Bylaw 12.2.1.2 prohibits a student-athlete subsequent to collegiate enrollment from trying out with a professional athletics team in a sport during any part of the academic year (i.e., from the beginning of the fall term until the completion of the spring term, including any intervening vacation period) while enrolled as a regular student in at least a minimum full-time academic load, unless the student-athlete has exhausted eligibility in that sport. It is permissible for a student-athlete to try out with a professional organization in a sport during the summer or during the academic year while not a full-time student, provided the student-athlete does not receive any form of expenses or other compensation from the professional sports organization. It should be noted that during any tryouts prior to or subsequent to an individual's enrollment in a collegiate institution, it would not be permissible for the individual to engage in any outside competition (games or scrimmages) as a representative of a professional team. Finally, it is permissible for an individual to participate in practice sessions conducted by a professional team, provided such participation meets the above-mentioned requirements governing tryouts with professional athletics teams and the individual does not: (1) receive any compensation for participation in the practice sessions, (2) enter into any contract or agreement with the professional team or sports organization, or (3) take part in any outside competition (games or scrimmages) as a representative of a professional team.

### Disbandment of voluntary player-agent registration program

During its August meeting, the NCAA Council (upon recommendation of the NCAA Professional Sports Liaison Committee) disbanded the NCAA Voluntary Player-Agent Registration Program. Therefore, the requirements that governed voluntary membership in the NCAA's player-agent program (such as the requirement that a registered agent contact the director of athletics of an institution prior to contacting a student-athlete with eligibility remaining) no longer would be applicable. However, Bylaw 12.3.1 remains in effect, and a student-athlete would be ineligible for participation in an intercollegiate sport if he or she ever has agreed (orally or in writing) to be represented by an agent for the purpose of marketing his or her athletics ability or reputation in that sport. Please note that any institutional policies governing contacts between student-athletes and player agents also would remain in effect.

*This material was provided by the NCAA legislative services department as an aid to member institutions. If an institution has a question it would like to have answered in this column, the question should be directed to William B. Hunt, assistant executive director for legislative services, at the NCAA national office.*

## News Fact File

Eighty-one Division I member institutions never have earned a berth in the Division I Men's Basketball Championship, and another 34 have participated only once in the 51 tournaments. Of those that never have participated, five are in Division I-A, 35 are in Division I-AA and 4 are in Division I-AAA.

Five institutions have participated 20 times or more, and all are in Division I-A: University of Kentucky, 33; University of California, Los Angeles, 24; University of North Carolina, Chapel Hill, and University of Notre Dame, 23 each, and University of Louisville, 20. Tops among Division I-AA members is Villanova University with 18; St. John's University (New York) has the most among Division I-AAA institutions at 19.

*Source: Staff analysis of Division I characteristics prepared for the Special Committee to Review the NCAA Membership Structure.*

# Schultz

Continued from page 1

as three in-season games; College World Series; Division I-AA Football Championship; Division II Men's Basketball Championship; Division I Men's and Women's Swimming and Diving Championships; National Collegiate Men's and Women's Gymnastics Championships; Division I Men's and Women's Indoor Track Championships; Division I Men's and Women's Outdoor Track Championships; Division I Wrestling Championships; Division I Men's Soccer Championship; Division I Men's Lacrosse Championship, and National Collegiate Men's and Division I Women's Volleyball Championships.

Schultz said the new contract represents a "tremendous commitment to and enhancement of our women's programs."

He said Association programs already in place also would benefit from the new contract, particularly the enhancement programs for ethnic minorities and women, the conference-grant program, and the scholarship program for undergraduate student-athletes.

## Reflects tournament's value

Neal Pilson, president of CBS Sports, said the \$1 billion contract "is consistent with the value of the tournament, and the contract represents a sound business opportunity for CBS. We anticipate making a profit on the NCAA basketball tournament."

Pilson said the basketball championship is "a beautifully organized and executed event. This deal reflects the love affair America has with sports and, more specifically, the level of interest the viewers, advertisers and (CBS) affiliates have expressed in the NCAA tournament."

**NCAA Executive Director Richard D. Schultz, right, and Neal Pilson, president of CBS Sports, announce a seven-year extension of CBS Sports' contract to televise the Division I Men's Basketball Championship**

Schultz said the new contract "challenges the membership in the use of the money for the betterment and the future of intercollegiate athletics, with the emphasis on higher education."

"Right now, the perception of the public is that there is a tremendous incentive to cheat. We want to eliminate that. Rather than placing the emphasis on winning and advancing (in the tournament), we want to place the emphasis on other educationally based values."

Schultz said the funds "can be used for anything the NCAA and its members want it for. It's the membership's money."

## Charge to membership

"Let's be creative in developing a new concept for the distribution of

dollars to the member institutions, based on a commitment to excellent, broad-based programs; the graduation of student-athletes and the administrative integrity of the institution," Schultz urged.

He said negotiations would be held with ESPN in December for additional coverage of NCAA championships.

Schultz chaired the negotiating committee. Serving on the committee were Tom Butters, Duke University; James E. Delany, Big Ten Conference, chair of the Division I Men's Basketball Committee; Thomas J. Frericks, University of Dayton; Roy F. Kramer, Vanderbilt University, and NCAA Secretary-Treasurer Judith M. Sweet, University of California, San Diego.

## Negotiating committee

**Serving on the NCAA negotiating committee during contract talks for the televising of the Division I Men's Basketball Championship were, front row, from left, Thomas J. Frericks, athletics director, University of Dayton; Judith M. Sweet, athletics director, University of California, San Diego, and NCAA secretary-treasurer, Richard D. Schultz, NCAA executive director, and James E. Delany, commissioner of the Big Ten Conference. On the back row, from left, are Thomas W. Jernstedt, NCAA associate executive director; Tom Butters, athletics director, Duke University; Roy F. Kramer, athletics director, Vanderbilt University, and David E. Cawood, NCAA assistant executive director for communications.**

# Some women's coaches favor cutback in games

Several Big Ten Conference women's basketball coaches appear to favor a cutback in the number of games in Division I, but University of Iowa coach C. Vivian Stringer said, "I'm not sure it's the number of games that really affects the student the most as much as the time involved in practice."

"There's no question that the season should be limited," Stringer said during the Big Ten's first Women's Basketball Tipoff Luncheon November 15 in Indianapolis.

"The basketball season crosses over into two semesters already," Stringer said. "I'm not sure what the magical number (of allowable games) is, but (the current season) has to be reduced."

## Commission proposal

The NCAA Presidents Commission has proposed cutting the permissible number of games for Division I men and women from 28 to 25.

Karen Langeland, head coach at Michigan State University, also favors a reduced season but doesn't believe that women's basketball should be compared to some of the higher-profile sports.

"There's a big difference in what's happening between men's basketball and football and women's basketball," Langeland said. "I think it is a perceived problem for women's basketball. I don't think we have the academic problems or concerns or time demands that some of the other sports and men's programs have. Personally, I like this proposal, and I can live with a 25-game schedule."

While some were advocating a shorter season, Purdue University's Lin Dunn says she would like to see a postseason conference tournament for women. "It will showcase Big Ten women's basketball and provide an opportunity for all our teams to be involved in some kind of postseason competition. It will be a great event, not only for the conference, but for the kids," she said.

"There is more parity than ever (in Big Ten women's basketball),"

Dunn said.

## Big Ten, SEC event

Commissioner James E. Delany announced that the Big Ten and Southeastern Conference would participate in a double-header challenge scheduled to begin in mid-December 1990. Two teams from each conference will participate. Patricia W. Wall, assistant commissioner, represented the SEC at the luncheon.

"In many ways, the SEC is the nation's leader in women's collegiate basketball," Delany said. "The Big Ten feels it has made great strides in its women's basketball program over the years to rank a close second to the SEC."

"We don't want the relative strengths of our conferences to be judged by how many Big Ten or SEC teams are invited to the NCAA (tournament). The Big Ten-SEC challenge series could clear the path for similar types of promotions that involve national and regional interests," Delany said.

## Women on TV

It also was announced that Big Ten women's teams would be seen on NCAA Productions, ESPN, Raycom Sports and ESPN during the 1989-90 season.

More than 500 attended the women's tipoff at the Hyatt Regency Indianapolis. Leandra Reilly of ESPN was emcee for the luncheon.

## Conference gains baseball member

The University of Northern Colorado baseball program will join the North Central Intercollegiate Athletic Conference beginning with the 1991 season, athletics director Robert A. Oliver said November 22.

However, the team will remain as an NCAA Division I independent for the 1990 season, he said.

"This is an exciting move for UNC baseball," he said. "Competing in the NCC will provide us with a greater opportunity for postseason play since the NCC champion is an automatic qualifier to the NCAA Division II national play-offs."

## Tufts'

Continued from page 1

(Big Ten Conference). Term expires January 1993.

Elect L. Oval Jaynes, director of athletics, Colorado State University, to replace Clayne R. Jensen, Brigham Young University (Western Athletic Conference).

**Division I-A independent South:** Reelect Charles Cavagnaro, director of athletics, Memphis State University.

**Division I-AA East region:** Elect Irwin Cohen, director of athletics, Northeastern University, to replace John P. Reardon Jr., Harvard University.

**Division I-AAA:** Elect R. Elaine Dreidame, senior associate director of athletics, University of Dayton, to replace Kathleen M. McNally, La Salle University.

Elect J. Dudley Pewitt, vice-president, administration, University of Alabama at Birmingham, to replace Victor A. Bubas, Sun Belt Conference.

Reelect Craig Thompson, commissioner, American South Conference. Term expires January 1992.

**Division I at large:** Reelect Doris R. Soladay, associate director of athletics, Syracuse University. Term expires January 1991.

Reelect Shirley A. Walker, coordinator of women's sports, Alcorn

State University. Term expires January 1991.

## Division II

**At large:** Elect Ollie Bowman, dean of admissions, Hampton University, to replace Elwood N. Shields, Bentley College.

Elect Cheryl Tucker, instructor of health and exercise, senior woman administrator, Northeast Missouri State University, to replace Sandra T. Shuler, North Carolina Central University.

## Division III

**At large:** Elect Marjorie Giles, dean of students, Central College (Iowa), to replace Van Wie as a Council member.

Elect William E. Lide, director of athletics, Salisbury State University, to replace Mary R. Barrett, University of Massachusetts, Boston.

Elect Sandra R. Weeden, associate professor of physical education and director of women's athletics, State University of New York, Stony Brook, to replace William A. Marshall, Franklin and Marshall College.

The terms of all other Council members continue.

This year's Nominating Committee is chaired by Karen L. Miller, director of athletics, California State Polytechnic University, Pomona.

# Comment

## Building bridges between academics and athletics

By Jim Mayer

John Wooden said "Balance, next to love, is the most important thing in the world."

San Francisco State University is an urban campus with a multiethnic student population of 30,000. The athletics program is a member of the Northern California Athletic Conference, an NCAA Division II conference without athletics grants.

Less than six percent of our athletes are physical education majors. For example, the declared majors of the track team are 30 percent business, 28 percent social sciences,

14 percent sciences, 14 percent broadcasting/creative arts, six percent physical education, five percent dietetics and three percent ethnic studies.

In September 1987, San Francisco State began its academic services program for athletes with three tutors, one small room and a vision that its athletes could return to the Greek ideal of "arete" striving for mastery in a balanced physical, mental and spiritual way. San Francisco State prefers not to use the term student-athlete, because the program's definition of athletes inherently includes being a good stu-

dent.

The program is based on the major factors that research has shown to have an impact on student retention: effective orientations, quality academic advising, an early warning system, academic support and increased informal communication with faculty. San Francisco State added one new and essential item: computer literacy.

### Building bridges

The program began building bridges between the worlds of academics and athletics and began challenging the negative stereotypes ("dumb jocks") in the minds of

athletes as well as in the perceptions of others on campus.

To the faculty, the program is known as PLUK — "Please Let Us Know." The essential early warning component consists of computer-generated progress reports set up as a communication feedback cycle between the faculty and the athletes. The progress reports are sent twice each semester to targeted athletes' professors. As the reports are returned, they are handed directly to the athletes.

The progress reports contain information regarding attendance, assignments, tests/quizzes, tutorial

recommendations and approximate performance level (grade).

Positive feedback helps raise athletes' self-esteem and stimulates positive regard for the professors. Feedback in the form of constructive criticism creates a reason for the athletes to open lines of communication with their professors. The constructive criticism almost always includes encouragement and offers of assistance. Thus, barriers between professors and athletes are being removed.

### Support needed

With support from the coaches, behavior changes are initiated: attending class, turning in assignments or improved classroom performance following tutorial intervention. Sometimes, all that is needed is a little coaching on how to communicate effectively with professors.

Today, academic support at San Francisco State consists of a faculty specialist from our educational opportunity program and a team of talented graduate students trained to assist the athletes in general study skills, computer literacy and specific subject tutoring.

Tutors are encouraged to develop a personal connection and show an interest in the athletes' careers. As the athletes arrive at the drop-in tutorial center, they are personally introduced to the appropriate tutors. Routinely, athletes are asked if the tutor has been effective or if another tutor is needed.

Since San Francisco State is a Division II school with no athletics grants, tutorial-program attendance is based on positive learning incentives rather than coach-initiated punishments. The program's philosophy is that quality academic services will attract athletes who realize the advantages the program offers.

### Open to all athletes

While the academic program targets athletes in their first two semesters, the services are open to all athletes. With the addition of a Macintosh computer in 1989, new athletes are taught word processing in their first semester on campus. These athletes use their skills to publish an athletics newsletter that contains academic and athletics news and updates.

Each semester, returning and new athletes have shown a desire to be part of the program. Since the program has emphasized becoming an efficient student, the athletes see that they can save valuable time by making use of the academic services.

Parallel to the mission of the progress reports is the act of informing the faculty that there is a single contact point for academics in the athletics program. One of the concerns of professors is the abrupt disappearance of any student from class with no expedient way to find or communicate with the "lost" student. PLUK provides a single point of contact and one phone number to call if such a problem occurs.

### Attitudes changed

Since 1987, attitudes have changed on both sides of the lectern. Athletes have been taught that being a good student is a natural part of being a good athlete, and faculty members have seen that athletes can be good students. As feedback and communication increased, ster-

## College officials skeptical of NFL survey results

A sociologist's finding that nearly one-third of 1,182 current and former National Football League players accepted under-the-table payments while in college continues to prompt skepticism.

The report, based on a survey sent by University of New Haven sociology professor Allen Sack to 3,500 current and former NFL players, was first criticized last week by Mark Womack, acting commissioner of the Southeastern Conference, who said it was skewed by a focus on "superstar" athletes and by an unrepresentative survey sample (see *The NCAA News*, November 20).

Since then, a coach has ques-

tioned the study's finding that 48 percent of the respondents knew someone who received illegal payments in college, while another conference commissioner said Sack's study does not reflect the positive effects of recent NCAA legislation.

Rudy Washington, executive director of the Black Coaches Association and assistant men's basketball coach at the University of Iowa, told USA Today's Carolyn White that he questions whether survey respondents who reported knowledge of payments to others have firsthand knowledge of those payments.

"I think students tell other students what they want to hear," he said. "A student will say he got

something when he got nothing at all. They manufacture stories that make them look good."

White also interviewed Southwest Athletic Conference Commissioner Fred Jacoby, who said the study does not reflect rules that have been adopted to clean up intercollegiate athletics programs.

"We've gone through an agonizing period, and we've gotten everything in order," he said. "We're in a new era — it's called 'live by the rules.'"

Based on survey results, Sack concluded that an "underground economy" based on under-the-table payments has existed for years in intercollegiate athletics, especially in major conferences.

Sack said "a vast majority" of players who said they received illegal payments reported that alumni were responsible, although some said coaches were involved.

He also said that 53 percent of the survey respondents said they saw nothing wrong with accepting extra cash, 17 percent said they had been approached by agents while undergraduates, and 78 percent said college athletes should be compensated beyond tuition, room, board and fees.

"What the findings of this study indicate is there is an urgent need for the NCAA to engage in a meaningful dialogue on how college athletes should be compensated," Sack told USA Today.

## When the game is over, spirit of event remains

**David M. Nelson, special assistant to the president for the Sports Convocation Center University of Delaware**

*Delaware centennial football dinner*

"College football is not only an American institution requiring perpetuation, it is a University of Delaware institution that requires a celebration.

"It requires celebration because it is a total human experience, with faith and hope as the cornerstones, and beauty, grace and excellence the driving forces.

"It is a ritual that transcends politics and entertainment and is an emotional experience that will live for many a moon. It will live for a long time because it is a spiritual event.

"When all things pass, the spirit remains, and Delaware football, like our national symbols — the flag and national anthem — represents the spirit and tradition of the university."

**Gene Ellenson, past director, Gator Boosters, Inc. University of Florida**

*Gator Booster News*

"In the course of weaving the fabric of our lives, we occasionally have to tear out and reweave. In cruising down the highway, we sometimes hit a pothole, even though we watch hard for them.

"What I'm saying is, the way isn't always smooth. Golf courses have hazards; so do we.

"The University of Florida athletics program has been, and is, going through what seems to be more than our fair share of adversity. Our cycle seems to keep continuing on a downward trend. But if there is one truism I know, it's that what goes down must eventually rise again.

"The wisest words ever spoken are 'This too will pass.'"

"In the meantime, some of the less staunch will scatter. Many will engage in one of life's favorite plays when things are trying — finger pointing. This

David M. Nelson

Lute Olson

is an insidious fact of human nature — to blame.

"People will do what they will do, but if any of you are confused — for what it's worth — back your university and its leaders harder than ever before."

**Robert E. Frederick, athletics director University of Kansas**

*The Associated Press*

"I would hope that in the next five years, there are going to be some drastic changes in intercollegiate athletics. If there aren't, I think we're going to self-destruct, and there won't be intercollegiate athletics as we know it today.

"One, I think we'll drastically cut back on our expenditures; and two, I think we'll find the NCAA to be much more protective of student-athletes.

"Hopefully, we'll get it back closer to the way that it used to be — that young men and women come to school to get an education, and if they are talented enough to participate in athletics, then they'll have the opportunity to do so."

**Lute Olson, head men's basketball coach University of Arizona**

*United Press International*

"I don't think there's any question that everyone favors the arena-type (facility) like Kemper or a McNichols. But the reality of the

### Opinions

situation is that the Final Four has become such a big thing that they have to make more seats available.

"I just think it's the spectacle of the thing, the excitement of going there. Seeing the game is not as important as just saying I was there."

# Building

*Continued from page 4*

etypes were erased and dialogue expanded. An ethic of "It's OK to care about your academics" has developed with each new group of athletes.

Each semester, a new relationship has evolved among the athletes and coaches. Coaches see reduced stress and academic problems among the athletes, improved academic responsibility among athletes, and an efficient computer-information system for the coaches (supplying updated GPA, units and academic-status information) and feedback from the faculty enable the entire athletics program to focus on the essentials required for individual academic success.

In effect, the academic services program, through the progress-report system, creates individualized education plans based on information from and efforts of the faculty and coaches.

The feedback cycle allows concerned faculty to praise athletes for work well done, raising academic self-esteem as well as offering specific help to athletes. Some athletes have received praise from a teacher for the first time in their academic careers.

## Academic awareness

The feedback system also focuses communications among professors, coaches, athletes and administrators. Course-enrollment errors and inappropriate course selections by athletes are being eliminated and an increasing awareness of academics in the entire athletics program has emerged. The active support of the athletics director and associate athletics director in charge of NCAA eligibility has been essential to the success of this program.

Coaches have dual roles as faculty and as coaches. Their support—since they have seen behavior changes, stress reduction and improved academic performance—is ensuring the program's success and growth.

An academic services program for athletics also has helped recruiting and stabilized teams by increasing retention. The athletes realize that the athletics program and the campus community appreciate their athletics endeavors.

The program also has reduced the number of students who need to attend summer school to satisfy NCAA academic requirements. Since the school has a high percentage of students who are working their way through college, having summers free to work instead of attending classes has decreased the chances of an athlete not returning to school for financial reasons.

## Orientation expanded

Each fall, PLUK's orientation has expanded to include all newly admitted athletes. The specific goal is to supply essential academic advising to all incoming athletes prior to registration. Orientation now features cross-campus advising support from the advising center, the educational opportunity program and supportive faculty. Almost 100 percent attendance has been achieved through cooperation from the coaches, combined with a "Welcome to SFSU Athletics and Welcome Back to Campus" barbecue for all new and returning athletes.

Data collected from spring semester 1988 began to show the program was heading in the right direction. For 14 athletics teams, the mean GPA was 2.750. The mean GPA for all undergraduates for spring semester 1988 was 2.690.

Among specific sports, the men's basketball team participated in the

academic services program as a team during the fall 1988 semester and had a mean GPA of 2.970 and 13.14 mean units earned; the women's basketball team had a mean GPA of 2.700 and 14 mean units earned. The declared majors for both teams are 31 percent business, 28 percent social sciences, 20 percent sciences, seven percent recreation, seven percent physical education and seven percent broadcasting.

## Grades improved

At the end of the program's first semester in January 1988, of approximately 330 athletes, 15 percent had GPAs of 3.000 or higher. By January 1989, San Francisco State doubled to 30 percent the number of athletes with GPAs of 3.000 or higher.

After three academic cycles, including fall 1989, virtually all the

athletes have utilized the academic services program through orientations, workshops, academic advising, tutoring or faculty communication initiated by the progress-report system. Since the program's primary goal has been to increase the academic dialogue, the increased level of communications ensures that resources will be mobilized and targeted to support any athletes.

Scholastic awards have been established to acknowledge all athletes who attain a 3.000 GPA, and special "arete" plaques are presented to athletes who have combined academic achievement with outstanding athletics performance (usually conference or NCAA play-off honors).

Each year, the name of a plaque recipient who best represents the "arete" idea is added to the athletics

program's perpetual arete trophy.

By the fall of 1989, the entire athletics program, combined with faculty throughout the campus, has supported the athletes with culturally sensitive, student-specific values for academic excellence. The faculty has learned that athletes are volunteers, receiving no athletics grants or support other than the academic services program. Individual athletes have had their self-esteem boosted for their academic achievement, instead of just athletics. Dramatic changes in academic performance have been demonstrated—a student who achieved only a 1.800 GPA with nine earned units one semester achieved a 2.600 GPA with 15 units earned the following semester after choosing to work with academic services.

There is much to learn about the

link between university retention efforts and individualizing academic support for athletes. But without the additional leverage that athletics scholarships provide coaches and administrators, San Francisco State is developing an academic services program based on current research and proven principles of humanistic education—a program that creates new avenues for raising self-esteem through academic as well as athletics success, that stimulates reciprocal faculty-athlete communication and empowers athletes to exert more control over their academic and athletics careers.

*Mayer is the academic coordinator for athletics at San Francisco State University and has directed the academic services program since its beginning.*

# Look who's made the cut this season.

Once again, American Airlines is proud to be chosen as the official airline for NCAA Championships. And we're returning the favor by cutting the cost of fares for NCAA team travel including game play, recruiting trips, athletic meetings and conventions. In addition to special discount fares, we also offer a variety of other travel services.

So get the ball rolling and call American at (800) 433-1790, STAR #S9043. It's a great way to get a winning season off the ground.

# Huber adds eighth title to storied running career

In record time, Vicki Huber led Villanova to the team title in the Division I Women's Cross Country Championships

In a fitting end to a stellar collegiate track career, Villanova's Vicki Huber posted the fastest time ever in the Division I Women's Cross Country Championships and led the Wildcats to their first team title November 20 at the U.S. Naval Academy.

Huber claimed her eighth individual NCAA title—her first in cross country—by finishing the 5,000-meter course in 15:59.86, almost 11 seconds faster than the 1987 record of Indiana's Kimberly Betz. Huber, who also has won seven NCAA individual track championships, crossed the finish line nearly 27 seconds ahead of second-place finisher Valerie McGovern of Kentucky.

Huber completed her athletics eligibility in these championships.

Two other Villanova runners placed among the top 20 team scorers. Senior Kathy Franey finished 12th overall (ninth in the team standings) and junior Sonia O'Sullivan came in 26th overall (18th in the team standings). Villanova finished with 99 points, the highest total by the winning team in the nine-year history of the women's championships.

Huber's title also was the first individual crown for Villanova.

Paced by McGovern's second-place performance and three other runners among the top 30 team

scorers, defending champion Kentucky was the runner-up in team competition with 168 points. Although Nebraska's top team scorer was 24th, all five of its runners were in the top 50 and the Huskers finished third with 186 points.

Huber's first-place finish broke Indiana's two-year hold on the individual title. After Betz won in 1987, Hoosier teammate Michelle Dekkers took individual honors last year as a junior. Dekkers finished third overall this year with a time of 16:36.52.

Missouri sophomore Susan Bliss was fourth overall in 16:43.83, the best time among individuals selected at large. Other top runners included junior Patty Wiegand of Tennessee (fifth overall, 16:47.62) and sophomore Seana Arnold of Wake Forest (sixth, 16:48.68).

## TEAM RESULTS

1. Villanova, 99; 2. Kentucky, 168; 3. Nebraska, 186; 4. Georgetown, 193; 5. Oklahoma St., 205; 6. Tennessee, 227; 7. Clemson, 238; 8. Iowa, 249; 9. Indiana, 267; 10. (tie) UC Irvine and Providence, 279.

# Iowa State wins its first men's cross country title

With its top runners finishing first and second individually, top-ranked Iowa State captured its first Division I men's cross country team title November 20 at the U.S. Naval Academy.

The Cyclones scored 54 team points, the best winning score since UTEP tallied 17 points in 1981.

Iowa State's John Nuttall, a senior from Preston, England, took the individual title with a time of 29:30.55 over the 10-kilometer course. Cyclone sophomore Jonah Koech finished second in 29:32.69 and senior teammate Darrell Smith finished 11th overall (seventh in team scoring) in 30:08.11. Roland Pauwels (21st in team scoring, 35th overall) and Andrew Hollens (23rd team, 37th overall) rounded out the scoring for coach Bill Bergan's squad.

The only serious challenger to

Iowa State was Oregon, which was led by senior Brad Hudson (eighth overall, fifth in team scoring). The Ducks placed four other runners among the first 28 team finishers. No other team had more than two men in the top 30.

Wake Forest finished third with 219 points, five points ahead of fourth-place Washington. Defending champion Wisconsin, which lost all five scorers from last year's team, slipped to 15th.

With Villanova's victory in the women's championships later in the afternoon, both team titles went to first-time champions.

Individually, Alabama's German Beltran of Venezuela finished third overall, less than a second behind Koech, a native of Kenya. The fourth-place finisher was Louisiana State's Terry Thornton, who is also from Preston, England. When de-

fending individual champion Robert Kennedy of Indiana crossed the finish line in fifth place (29:54.30), he became the top U.S. finisher.

## TEAM RESULTS

1. Iowa St., 54; 2. Oregon, 72; 3. Wake Forest, 219; 4. Washington, 224; 5. Arkansas, 235; 6. Georgetown, 255; 7. Alabama, 261; 8. Nebraska, 305; 9. Dartmouth, 309; 10. Kansas, 314.

11. Brigham Young, 327; 12. Western Mich., 337; 13. Penn St., 346; 14. Texas, 350; 14. Wisconsin, 350; 16. Boston U., 351; 17. Tennessee, 353; 18. Colorado, 365; 19. Ball St., 377; 20. Central Mich., 380.

21. Navy, 394; 22. South Fla., 454.

# UC Irvine finally beats California to capture a third water polo title

By Kurt Freudenthal

The proverbial monkey finally is off the back of veteran coach Ted Newland and his UC Irvine water polo team.

The Anteaters went into the 21st annual NCAA National Collegiate Men's Water Polo Championship with an 0-4 record against rival California in title games; however, during the Thanksgiving weekend in Indianapolis, they finally turned the tide.

In as hard-fought a grand finale as this championship has ever seen, the No. 2-ranked Anteaters prevailed over the top-seeded and two-time defending-champion Bears from California, 9-8, for their third title and first since 1982. All three championships have come under the tutelage of Newland, who finished his 24th season at UC Irvine.

Two players stood out for UC Irvine in the showdown match: Dan Smoot on offense and goaltender Chris Duplanty. Smoot, voted the tournament's most outstanding player, scored five goals, including the last three to seal the victory for the Anteaters. Smoot's game-winning goal—a soft, high-arching toss with 2:16 left to play—went in over the outstretched arms of California goalie Ludovic Salles.

Duplanty, a member of the 1988 U.S. Olympic water polo team, made four of his six saves in the

Dan Smoot

final period, including one on Ivan Ortiz with 25 seconds left in regulation.

"I thought Duplanty did an awesome job," said Newland, who will lose five of his first seven players through graduation.

Smoot's final goal gave UC Irvine a 9-7 cushion—the only time either

*For summaries of championships in Divisions I-AA, II and III football and Division I men's soccer, see page 12*

team led by two goals.

"I thought they (California) could come back, but we played a lot better defense the last two games than we had played all year," noted Newland.

"Smoot really had a great game and a good tourney all around. He made a lot of his own breaks against Cal, especially when their defense was keying so much on (Tom) Warde and Julian Harvey."

Warde, who had 10 goals in the

first two tournament games, was held to just one goal in the championship game, as was Harvey.

For California, which was aiming for a record ninth championship and its second three-year streak, Chris Humbert and Julian Bailey each scored two goals. Rich Ambidge's goal at 0:46 in the final period narrowed UC Irvine's margin of victory to one goal.

"It couldn't have been any closer," said Steve Heaston, who closed out his first year as California's head coach and successor to Pete Cutino, who led the Bears to eight titles in 16 years.

"They got a two-goal lead on a couple of turn-arounds and we didn't have quite enough time to catch them," said Heaston. "We had the last chance (to score) but they played the last quarter a little better than we did."

Newland will be 62 years old in December but he will be back for his 25th season, even though he has to rebuild.

"No way am I going to hang it up," he said.

**First-round games:** California 15, Brown 2; UC Irvine 13, Ark.-Lit. Rock 6; Stanford 7, UC San Diego 6; Pepperdine 13, Long Beach St. 8.

**Consolation semifinals:** Long Beach St. 8, Brown 4; UC San Diego 10, Ark.-Lit. Rock 9.

**Championship semifinals:** California 10, Pepperdine 9; UC Irvine 8, Stanford 7.

**Seventh place:** Brown 8, Ark.-Lit. Rock 6.

**Fifth place:** Long Beach St. 10, UC San Diego 5.

**Third place:** Stanford 7, Pepperdine 5.

**CHAMPIONSHIP**

UC Irvine ..... 2 3 1 3-9

California ..... 2 3 2 1-8

UC Irvine goals: Dan Smoot 5, Pablo Yrizar 2, Julian Harvey 1, Tom Warde 1.

California goals: Julian Bailey 2, Chris Humbert 2, Rich Ambidge 1, Bennet Indart 1, Chris Oeding 1, Ivan Ortiz 1.

# Quarterbacks erasing almost all of McMahon's marks

By James M. Van Valkenburg  
NCAA Director of Statistics

Nine years ago, we were wondering if any player would surpass Jim McMahon's incredible, record-breaking 1980 season at Brigham Young—176.9 efficiency points, 10.27 yards per attempt, 47 touchdown passes, 4,571 yards passing and 4,627 in total offense.

Well, in a record offensive year nationally, it has taken two players to do it, but it is happening. Only McMahon's efficiency record is sure to survive.

Brigham Young sophomore Ty Detmer, the national season efficiency champion, broke one McMahon record and barely missed two others November 25 in his last game. Houston junior Andre Ware likely will break three more December 2 against Rice. Indiana senior Anthony Thompson and West Virginia junior Major Harris also have ended the regular season with impressive numbers:

- Harris is the first I-A player to rush for more than 2,000 yards and pass for more than 5,000 in his career (2,030 and 5,054), and he has done it in just three years. Three players with 2,000 and 4,000 needed four years.

- Thompson, the national leader in scoring (14.0) and rushing (163.0), is the all-time I-A career record-holder in scoring (65 TDs and 394 points), and his 4,965 yards rushing ranks fifth.

- Detmer's 11.07 yards per attempt is an all-time record for all passers with at least 237 attempts, wiping out McMahon's mark and the records of two others with fewer attempts—10.31 by Iowa's Chuck Long in 1983 (minimum 170) and 10.93 by Harris last year (125 minimum). His 4,560 passing missed McMahon by 11 yards, and his winning 175.6 efficiency also is barely short.

- Ware is throwing more passes than any I-A passer ever, and completing more for more yards and TDs. Only a dismal game at Rice would change that. Even with no TD passes, his 44 would be 4.00 per game, breaking the 3.92 by Utah's Scott Mitchell last year. Ware is averaging 429.9 passing yards and 426.6 yards total offense. At his pace, he will have 4,728 passing, 4,692 total offense and 48 TD passes in 11 games surpassing McMahon, who played 12. Ware needs just 24 yards passing to break the 392.9 per-game mark set by Mitchell last year and only 121 total offense to break the 395.1 set by BYU's Steve Young in 1983.

More records are coming. Ware leads a flock of juniors, and eight sophomores rank among the national passing leaders, with Detmer and Duke's David Brown Nos. 1 and 2, respectively.

## Notable freshmen

In an unusually large group of standout I-A freshman quarterbacks, Todd Marinovich has received the most publicity for leading Southern California to the Rose Bowl. It is time to add Purdue's Eric Hunter to the list published October 23 in The NCAA News.

Hunter, a 6-4, 198-pounder from Hampton, Virginia, did not get his first college pass completion until the third quarter of the sixth game at Ohio State October 21. It gained 54 yards, all in the air.

Coming off the bench a week later in the fourth quarter vs. Michigan State, Hunter's scrambling style and powerful right arm awakened the slumbering Purdue offense, which had not scored a touchdown in 11 quarters. He threw three TD

Maine's Carl Smith is the I-AA rushing and scoring champion

Todd Hammel, Stephen F. Austin State, claimed the passing-efficiency title

Idaho's John Friesz is the Division I-AA total-offense champion

Northeast Louisiana's Henry "Cisco" Richard is the I-AA punt-return titlist

passes against the strong Spartan defense. His last two passes were incomplete in the end zone and Michigan State hung on to win, 28-21.

In his first start the following week, Hunter fired four more TD passes—most ever against a Michigan team—and had 344 yards in a 42-27 loss.

Hunter concluded his five-week run November 25 by leading Purdue's 15-14 upset over Indiana. That moved him up to fourth nationally among freshman quarterbacks in passing efficiency at 128.2 rating points.

Above Hunter are Washington State's Aaron Garcia, 14th in the country at 139.1; Marinovich, 19th at 133.1, and Pittsburgh's Alex Van Pelt, 128.3. Behind Hunter are Miami's (Florida) Gino Toretta 125.8, UCLA's Bret Johnson 122.6 and Texas' Peter Gardere 120.7. Mari-

## A standoff

Bowl games prove very little about the relative strength of conferences or regions. When the top teams in the Division I-A conferences meet in bowls, things even out near the break-even level over the long run. That is evident from a study of all-time major bowl history, starting with the 1902 Rose Bowl.

Using current conference and independent lineups, every conference is close to the .500 level.

Define major bowls as any post-season football game played by a current or former major-college or Division I-A team, provided it played an opponent classified as major at the time of the bowl or it was classified major itself at the time.

This excludes games in which a home team was determined in pre-season as the host, regardless of its record, and/or games scheduled

games over .500, but switch the winner in just five of its 124 games and it would be exactly at .500. In four other conferences, switching just one game would bring their all-time postseason records either above or to .500.

Remember, we are using current conference and independent lineups, and this partly is why Southern independents are 15 games under .500 and the Southwest Athletic Conference is 12 under. The SWC record includes Texas Tech's 3-13-1 record, most of it coming before the school joined the league. And the ACC record includes Georgia Tech's 15-8. Tech came to the ACC recently from the Southern independent ranks. Put it back there and the Southern independent figure would be much better, and the ACC would be under .500 (Georgia Tech also was in the SEC at one time).

The point is, all conferences are very close to .500. Even the 49 former majors, nonmajors and service teams that played in major bowls are exactly .500.

## 'Big Four' list

If the comparison is limited only to the "Big Four"—that is, the traditional four New Year's bowls that go back more than a half century—it is even more of a standoff. No single conference, independent group or region is more than six games above or below .500.

The Pacific-10 Conference leads with 40-34-3 for .539, but this means that if the winner were switched just three times in its 77 games, it would be exactly at .500.

In comparing all bowls vs. the Big Four, note that the SWC moves up to within one game of .500 and the SEC falls to a game under, while Eastern independents go from two over to six under. The Big Eight Conference and SWC have better records in the Big Four than in all bowls, the ACC and Midwest independents are unchanged, and the Big Ten Conference and Pac-10 are almost identical:

## BIG FOUR BOWLS

East/South	W	L	T	Pct.
Eastern Ind. ....	14	20	3	.419
Atlantic Coast ....	16	14	0	.533
Southern Ind. ....	6	7	0	.462
Southeastern ....	48	49	3	.495
<b>Midwest*</b>				
Big Ten .....	24	27	0	.471
Midwest Ind. ....	7	6	0	.538
Big Eight .....	29	26	0	.527
<b>Southwest/Rockies*</b>				
Southwest Athl. ....	34	35	4	.493
Western Athl. ....	0	2	1	.167
<b>Pacific*</b>				
Pacific-10 .....	40	34	3	.539
Not currently I-A ....	10	8	2	.550

\* Mid-American and Big West members have not played in the Big Four.

Certainly, one could argue that the last four Fiesta Bowl games should be included, since the eight teams involved had a combined 82-5-1 record going in and four were un-

defeated and untied, producing two mythical-national-championship games.

And this year's Fiesta matchup, Nebraska vs. Florida State, is on virtually the same level.

Using "Big Five," the Eastern independents become 15-21-3; Southern independents, 7-8; Big Ten, 25-27; Midwest independents, 8-6, and Big Eight, 29-28. All others remain the same.

## Big year for passers

In all of NCAA football history, only 12 quarterbacks in all four divisions have passed for more than 10,000 yards. And until this fall, no conference had produced more than one 10,000-yard passer.

Then, two from the Big Sky Conference did it this season—Idaho's John "Deep" Friesz and Northern Arizona's Greg Wyatt. Incredibly, each had exactly 10,697 passing yards, tied for fifth in all-divisions history.

But that only begins to explain why it was such a big year for passers in Division I-AA. Friesz and Wyatt are tied for third on the I-AA all-time career chart. Four more seniors rank 8-10-13-15, giving the 1989 senior class six of the top 15. They are Villanova's Kirk Schulz 9,305, Murray State's Michael Proctor 8,682, Maine's Mike Buck 8,491 and Lafayette's Frank Baur 8,399.

In career total offense, the 1989 seniors have six of the top 14 all-time performances. Proctor, with more than 1,200 rushing yards, jumps up to seventh. They rank 5-6-7-11-12-14, with Wyatt 10,227, Friesz 10,187, Proctor 9,886, Schulz 8,900, Baur 8,579 and Buck 8,457.

And we have not yet mentioned Todd Hammel, Stephen F. Austin State senior, who wins the season passing-efficiency championship, 162.8 to 161.4 over Friesz. The total-offense crown goes to Friesz at 350.3 yards per game to 347.5 for Hammel. In career passing efficiency, Friesz (138.8), Hammel (137.7) and Buck (133.9) rank 8-9-13, respectively.

Buck edges Furman junior Frankie DeBusk for third place, 159.5 to 156.8, in a tight, four-man race for the passing-efficiency crown. Lehigh senior Todd Brunner is third in total offense at 330.8.

Adding the two Todds, Hammel and Brunner, to the six career leaders makes eight outstanding senior quarterbacks. No wonder the division is breaking its national records for passing, total-offense yardage and scoring this year.

Buck's sophomore teammate, Carl Smith, is the season champion in both rushing at 152.7 yards and scoring at 10.9 points per game. New Hampshire senior Norman See *Quarterbacks*, page 9

## Football notes

novich, pressed into action on the eve of the season opener because of the starter's injury, leads the group in passing yards at 2,400 and in touchdown passes at 16.

## First 15-0-0?

By winning the Division I-AA championship, Georgia Southern can become the first team in NCAA play-off history (all divisions) to finish 15-0-0 and the first team in the 20th century in any division with a 15-0-0 season.

In the 1890s, before the NCAA existed, Yale finished 16-0-0 in 1894, and Pennsylvania was 15-0-0 in 1897 and 14-0-0 in 1895.

In addition, both Division II Jackson State and Division III Union (New York) can finish 14-0-0 by winning their respective championships. That is a rare feat.

Only four championship teams in NCAA play-off history have finished 14-0-0. In Division I-AA, Eastern Kentucky did it in 1982 and remains the only undefeated-untied champion in I-AA history. Two were Division II teams—North Dakota State in 1988 and Southwest Texas State in 1982. The other was Division III Dayton in 1980.

In Division I-A, two national-poll champions finished 13-0-0—Nebraska in 1971 and Brigham Young in 1984. Thirteen I-A teams finished 12-0-0, and most of them were voted national champions.

Through November 25, just five NCAA teams are undefeated and untied—Colorado in 11 games, Alabama in 10 and the play-off trio above.

before the season, thus eliminating the old Pineapple, Glass and Palm Festival games.

Using this definition, there have been 563 major bowl games in history, which involved 100 current I-A teams and 49 former majors, nonmajors or service teams. Hawaii and Ball State are bowling for the first time ever this season, leaving only four current I-A teams that have yet to appear in a major bowl (Akron, Central Michigan, Louisiana Tech and Southwestern Louisiana).

## All-bowls list

Looking at the all-bowls chart, the Southeastern Conference is 12 games above .500, but if just six of its 202 bowl games had gone the other way, it would be exactly at .500. Most of the conferences are within a very few games of .500, up or down. Regionally, it is much the same (we are combining the East and South because the Atlantic Coast Conference is in both regions):

## ALL MAJOR BOWLS

East/South	W	L	T	Pct.

# Quarterbacks

Continued from page 8

Ford tops current players in career rushing (3,538 yards) and scoring (270 points).

## Getting too confident

Even though he was the I-AA all-America quarterback last year, Friesz had to live with criticism that went like this: "Sure he has a great arm and likely will be a first-round NFL draft pick, but he tries to force the ball into coverage and has too many interceptions."

No one could say that this fall, as he had just eight interceptions in 425 attempts while throwing for 4,041 yards sixth highest in NCAA history (all divisions) and leading his team into the I-AA playoffs.

Wyatt's career nearly was ended November 3, 1988, by a crushing knee injury. "I had started taking it for granted," he said. "God works in mysterious ways. He said, 'Wait a minute, you're satisfied and getting too confident.'"

It was a torn anterior cruciate ligament in his right knee. Rehabilitation was long and painful. Wyatt was moody and resentful, and a long-term relationship with a girlfriend ended because of his attitude. Wyatt learned a lesson.

"I've learned to treat people better and take care of the people who take care of me," he said. He moved off campus last summer and visited lakes and mountains he never had taken the time to see.

Wyatt's receiving corps was decimated by injuries and graduation. He got off to a slow start this fall but still managed to top 2,000 yards passing a fourth year in a row—something no NCAA passer ever had done.

Many pro scouts were on hand for his match with Friesz this season, won by Idaho, 41-31. Each had an outstanding game.

Friesz hit 21 of 32 for 420 yards and four touchdowns. Wyatt was 28 of 40 for 310 yards and two TDs.

The consensus was that Friesz and his powerful, accurate arm still rated highest, though Wyatt's touch and finesse also were impressive. Both are intelligent players, but slow afoot. Friesz is bigger at 6-4 and 216 to Wyatt's 6-2 and 195. Wyatt keeps hearing that his arm isn't strong enough, but so many other things are involved, he says.

Friesz played in only three games as a freshman. Otherwise, his numbers might be at the top.

In any event, Friesz says he'd be happy living his life in his hometown, Coeur d'Alene, Idaho. Wyatt, a 3.250 student (4.000 scale) in finance, says he'd be satisfied to join the business world.

Hammel, 6-1 and 203, from Durant, Oklahoma, threw only four passes as a freshman and then missed the first four games of his sophomore year with a broken wrist. That's why he was not high on the career list. But his senior figures were near the top. His 162.8 in passing efficiency is seventh highest in I-AA history, he had 34 TD passes to 31 for Friesz and he was just 86 yards short of 4,000 passing yards.

Buck, 6-4 and 229, did not suffer an interception until his ninth game this season and finished with only three (Furman's DeBusk had just two). Buck owns a rifle arm. But in high school (Long Island, New York), he played in a veer offense that emphasized the run.

"I wasn't very good," he says. Syracuse was interested but wanted him as a walk-on linebacker. "Maine was my only offer. I knew it was a

**Cal State Fullerton senior Mike Pringle is No. 2 in I-A rushing**

**David Brown, Duke, ranks second in I-A passing efficiency**

**Georgia senior Ben Smith is tied for third in I-A interceptions**

**Illinois' Mike Bellamy is second in I-A kickoff returns**

state, but I didn't know they played football."

## Rushing, scoring and all-purpose

Teammate Smith, the rushing and scoring champion, is another Long Island product. He was New York State 100-meter track champion but had trouble with his SAT tests, finally reaching 770 on his third try. Only Maine held open an offer.

Buck calls the team "The Misfits" because several top players came out of high school with size and talent but with at least one thing that turned off the I-AA colleges.

Maine is located in Orono, about three hours from the Canadian border, but pro scouts know the way there.

First-year coach Tom Lichtenberg says all 12 seniors are on schedule to graduate. "There isn't much to do here in the winter," he explains. "Our kids just go to the weight room, to study hall, and just get bigger and smarter."

Smith, 5-10 and 185, ran behind a pair of 290-pound senior blockers. Another senior is 275. "Just some more of our bump-and-dent athletes," says athletics director Kevin White. They led Maine to the I-AA championship play-offs.

Eastern Kentucky also reached the play-offs again and a big factor was Markus Thomas, 185-pound freshman tailback, second at 147.3 yards per game. He averaged 7.0 per carry—highest among the top 20 rushers. East Tennessee State senior George Searcy is the No. 2 scorer at 10.8.

Eastern Washington senior Dominic Corr edges Smith for the all-purpose title, 183.9 to 179.0, getting almost half his yardage in kickoff returns, where he averaged 23.7. Corr, from Seattle, is a 166-pound former cornerback.

Behind Ford in career rushing are four seniors—McNeese State's Tony Citizen at 3,283, Marshall's Ron Darby 3,263, Pennsylvania's Bryan Keys 3,137 and Princeton's Judd Garrett 3,109—then a junior, Joe Ross of Georgia Southern, 3,008. Ross' 6.16 yards per carry leads this group. Ross' teammate Ernest Thompson, another junior, is second in scoring among non-kickers to Ford on 266 career points.

Darby's 4,997 leads current players in all-purpose, with Chris Poirer, Rhode Island, next at 4,669. Then come Southwest Missouri State's Tony Gilbert at 4,549 and Garrett at 4,510 (in three years; his 150.0-yard average tops that list).

## Receiving and runbacks

Weber State's Peter Macon, a 6-3, 220-pound senior tight end from San Bernardino, California, is the receiving champion at 8.36 catches

per game on 92 catches for 1,047 yards. His senior teammate and fellow Californian, Mike Babb of Fullerton, is the interceptions champion at 0.82 per game (nine in 11).

Northeast Louisiana junior tailback Henry Richard of Jennings, Louisiana, is the punt-return champion with a 17.2 average. Liberty's Scott Thomas, 5-6 and 160 from Novelty, Ohio, is the kickoff-return champion at 28.7.

Four other receivers besides Macon gained at least 1,000 yards. Two played for Idaho—Lee Allen, the leader at 1,168, and sophomore Kasey Dunn, 1,101. The others: Lehigh's Rob Varano (1,133) and Nevada-Reno's Treamelle Taylor (1,033). Boston's Darvell Huffman leads in touchdown catches at 11.

Idaho senior David Jackson did not join his team's 1,000-yard club but came very close to the I-AA record for yards per catch at 26.2 with 943 yards on 36 catches. The record (minimum 30 catches) is 26.3 by another Idaho player, Brian Allen, in 1983 (814 on 31).

Samford sophomore David Primus, third in kickoff-return average at 28.2, set an all-time NCAA collegiate, or all-divisions, season record in kickoff-return yards at 1,411. His three kickoff-return TDs (99 yards vs. Georgia Southern, 93 vs. Morehead State and 87 vs. Livingston) tied the collegiate record.

On the career charts, Villanova's Robert Brady leads all current players in catches (180—17th on the I-AA list), yards (2,725) and TD catches (28). Macon is next in catches at 177 (18th, for 2,151), while New Hampshire's Chris Braune is next in both yards and TD catches on 2,612 and 25. Then come Towson's State's Mike Smith 2,521 and Varano 2,383.

Holy Cross senior Dave Murphy set an all-time I-AA career interceptions record at 28. The former record of 24 had been shared by Holy Cross' Bill McGovern and Alcorn State's Issiac Holt, who had parallel careers in 1981-1984. Oddly, though, Murphy does not break the Holy Cross school record. That is 27 by John Provost in 1972-1974, tied for second on the all-time Division I-AA career list.

Florida A&M's Howard Huckaby, who set the I-AA season record of four punt-return touchdowns in 1988, finished with six career kick-return TDs (combining punts and kickoffs; he had 2,500 kick-return yards). That is just one short of the I-AA record. Delaware State senior Tim Egerton tied the I-AA record with five career punt-return TDs.

## Punting and field goals

The punting champion with a 43.3-yard average is Tennessee-Chattanooga's Pumpu Tudors, a 226-

pound sophomore from Jasper, Tennessee. The field-goal title goes to William and Mary senior Steve Christie, from Oakville, Ontario, Canada. He averaged 1.82 per game, kicking 20 in 29 attempts.

Christie leads current players in career field goals at 54—sixth on the all-time list. Northern Arizona's Micky Penafior is next at 48. Christie also leads current players in career kick-scoring at 269—fifth all time.

In career punting, it is a close three-man race with Montana's Jody Farmer at 41.3, Sam Houston State's Bart Bradley 41.2 and the versatile Christie 40.9.

## Team champions

Idaho is the only offensive double champion, No. 1 in passing at 374.3 yards per game and total offense at 495.9. Georgia Southern is the rushing champion on 329.2.

Grambling is the scoring champion at 37.1, edging Georgia Southern at 36.8, Stephen F. Austin State 36.4, Maine 36.0 and Holy Cross 36.0.

Howard won in scoring defense (10.5) and total defense (220.0 rushing-passing yards per game allowed). Montana is the rushing-defense champion at 70.2.

Tennessee-Chattanooga allowed the fewest passing yards per game at 104.4. In terms of lowest yards per attempt allowed, however, Middle Tennessee State (the 1988 leader at 3.98) again was first, 4.631 to 4.632 over Howard, with Maine's 4.9 next. Youngstown State led in turnover margin at 1.82 (34 take-aways vs. a combined 14 fumbles and interceptions lost), Jackson State in net punting at 41.2, Stephen F. Austin State in punt-return average at 13.4 and Samford in kickoff-return average with 26.8.

**Houston junior Andre Ware, the most prolific Division I-A passer ever, probably will break three NCAA records December 2 when his team plays at Rice**

# NCAA Record

## CHIEF EXECUTIVE OFFICERS

**John B. Turner** named president at Knoxville, effective in January. He is assistant provost at MIT.

## COACHES

**Men's basketball** Tony Petosa promoted from assistant at Staten Island, where he has been on the staff for three years. He also played at the school. **Bill Foster** announced he will resign at the end of the season at Miami (Florida), saying that he wants a career change. He is entering his fifth season at the school, where his teams have won 55 games. **Nick Murphy** is the new coach at Medgar Evers, replacing **Howard Harrison**.

**Men's basketball assistants** J. P. Andrejko joined the staff at Wilkes. He is a former all-America player at Scranton. **Tilden Lyons** named at Quinnipiac. **Glen Korobov** is leaving coaching to become Indiana state director of the Fellowship of Christian Athletes. Korobov also has been head coach at Charleston and an aide at Southern Methodist, Kentucky, East Tennessee State, Stetson, St. Louis, Morris Harvey and Oklahoma State. **David Bell** selected at Tufts after four years as an assistant at Rensselaer.

**Women's basketball** Tracey Ringger Klein is the new head coach at Herbert Lehman, replacing **Georgi Visegonov**. **Kevin Shannon** named at John Jay, where he also will coach women's softball.

**Women's basketball assistants** Tracy Claxton named at Quinnipiac. **Catherine McCabe** joined the staff at Tufts. She was a standout player at St. Anselm.

**Football** Mike Knoll dismissed after four seasons at New Mexico State, where his teams compiled a 4-40 record. **John Mumford** promoted from defensive coordinator at Southeast Missouri State, replacing **Bill Maskill**, who resigned after two seasons to pursue other coaching opportunities. Mumford, a former Pittsburg State player, was a graduate assistant coach at Kansas and defensive coordinator at South Dakota before joining the Southeast Missouri staff. Maskill's teams were 13-8 through two seasons and shared the 1988 Missouri Intercollegiate Athletic Association title. **Wayne Nunnely** resigned after four years at Nevada-Las Vegas, where his teams were 19-24 entering the last game of this season vs. San Jose State.

**Football assistants** Offensive coordinator **Darrell Dickey** and defensive coordinator **Pete Kuharchek** released at Memphis State, which also announced the dismissals of **Palmer Hossler**, running backs coach, **Tom Turchetta**, defensive line coach, **Jim Taubert**, defensive ends coach, and **Fred Manuel**, secondary coach.

**Women's softball** Gia Celularo promoted from assistant at Clark (Massachusetts). Celularo, a former three-time all-America player at Allegheny, replaces **Linda Wage**, who headed the Clark program for five years. **Gina Loudenburg** appointed at Wheaton (Massachusetts), where she also will coach women's volleyball. She previously was assistant softball coach at Colorado State for two seasons, in addition to assisting with volleyball at Longmont (Colorado) High School. **Brian Mariner** named at Medgar Evers. **Kevin Shannon** named at John Jay, where he also will coach women's basketball.

**Men's tennis** Bruce Lipka hired at Miami (Ohio). He previously served for 1½ years as an assistant at Florida State. **David Cheng** appointed at Bernard Baruch.

**Wrestling assistant** Al Zellner selected at Wilkes, where he was a wrestler from 1969 to 1972. Zellner has been a head coach at Kutztown.

## STAFF

**Events manager** Ken Buell given additional duties as men's events manager at Minnesota, where he retains the post of ticket manager in which he has served for 17 years.

**Fund-raiser** Dickie Hemric selected to serve as a volunteer fund-raiser at Wake Forest, where he was an all-America basketball player during the mid-1950s. He is retired from the Goodyear Tire and Rubber Company.

## CONFERENCES

**Peter Lewison** hired as media relations coordinator for the City University of New York Athletic Conference. The Bernard Baruch graduate was a member of

**Southeast Missouri State named John Mumford for football**

**Ken Buell appointed men's events manager at Minnesota**

the 1984 and 1988 U.S. Olympic fencing teams.

## NOTABLES

**Ron Fraser**, head baseball coach at Miami (Florida), named NCAA coach of the decade by Collegiate Baseball newspaper. Fraser, who has coached the Hurricanes to a 1,118-398-9 record through 27 seasons, led his 1982 and 1985 teams to Division I titles.

## DEATHS

**Ralph Norwood**, a former Louisiana State football player who was in his rookie season as a tackle with the Atlanta Falcons, was killed November 24 in an automobile accident in Suwanee, Georgia. He was 23. **Sherman Plunkett**, who played football at what is now Maryland-Eastern Shore before playing professionally for 10 years with the Baltimore Colts, San Diego Chargers and New York Jets, died of cancer November 20 in Baltimore. He was 56. **Emmett R. "Abe" Stuber**, who coached football, basketball and track teams at Southeast Missouri State from 1932 to 1946, died November 20 in Cape Girardeau, Missouri, at age 86. Stuber also held coaching positions at Iowa State and Washington and with teams in the National Football League before serving as director of player personnel for the St. Louis Cardinals football organization.

**Elmer B. Wynne**, a fullback and linebacker at Notre Dame during the 1920s who also coached football at Colorado School of Mines and St. Louis, died November 10 in Denver at age 88. He also played professionally before undertaking careers as an attorney and in industrial relations. **Don Bass**, a football tight end at Houston during the 1970s who also played for the Cincinnati Bengals, was shot to death by an unknown assailant October 26 at his mother's home in Waxahatchie, Texas. He was 33. **Walter "Duke" Nelson**, retired athletics director and six-sport coach at Middlebury, died in Middlebury, Vermont, October 22, three weeks after suffering a stroke. He was 82. Nelson also played football and baseball at Middlebury and coached those sports and golf, ice hockey, lacrosse and basketball. Nelson also served as president of the American Hockey Coaches Association.

**Frederick A. Fitch**, a lacrosse all-America at Syracuse during the 1920s who also coached the sport for 20 years at Rutgers, died September 25 in New Brunswick, New Jersey. He was 89. Fitch also coached the freshman men's team at Yale during the 1960s. **Charles E. Bond**, captain of the 1936 Washington football squad that played in the Rose Bowl, died September 24 in Puyallup, Washington, at age 75. Bond also played for the Washington Redskins before becoming a blueberry farmer and processor in Puyallup, where he also served as mayor. **Julian C. "Dutch" Reinhardt**, who held various positions in athletics at Southwestern Louisiana from 1931 to 1975, died of cancer September 11 in Boulder Junction, Colorado. He was 82. Reinhardt, who was a basketball standout at Iowa, coached Southwestern Louisiana's men's basketball team for 27 years and also served as freshman football coach, head trainer and associate athletics director.

## CORRECTION

Due to an editor's error, a story on the Division I Field Hockey Championship in the November 20 issue of The NCAA News incorrectly named the conference in which Northwestern and Iowa compete in the sport. The schools are members of the Midwest Collegiate Field Hockey Conference.

## POLLS

### Division I-AA Football

The top 20 NCAA Division I-AA football teams through November 19, with records in parentheses and points:

1. Ga. Southern (11-0).....80
2. Furman (10-1).....76

3. S. F. Austin St. (9-1-1).....72
4. Idaho (9-2).....66
4. Holy Cross (10-1).....66

## Four Iowa field hockey standouts earn first-team all-America honors

The University of Iowa, which finished fourth in this year's Division I Field Hockey Championship, placed four players on the first team of the College Field Hockey Coaches Association/Sauk Valley Division I all-America team.

Hawkeyes Cherie Freddie, Kristy Gleason, Erica Richards and Aileen Trendler earned honors. Freddie and Richards also were first-team all-Americans last year, and Richards was an honorable mention selection in 1987.

Named to the first team for a second consecutive year were Leslie Lyness, a member of the national-championship team from the University of North Carolina, Chapel Hill; Jane Catanzaro of Temple University, and Kathy DeAngelis of the University of Massachusetts, Amherst. Catanzaro and DeAngelis also received honorable mention in 1987.

Anne Mucera of Northeastern University made the first team after receiving honorable mention the past two seasons. Boston University's Sally Maxwell, who earned honorable mention a year ago, also moved up.

Receiving honorable mention for a second year were Laurel Hershey of North Carolina, Ellen Vagelos of the University of Pennsylvania and Lee Yniguez of the University of Connecticut.

The team is selected by a committee of CFHCA members and is based on in-season statistics and play. The complete team follows:

### First team

Lisa Buente, University of Maryland, College Park; Jane Catanzaro, Temple University; Kathy DeAngelis, University of Massachusetts, Amherst; Cherie Freddie, University of Iowa; Kristy Gleason, Iowa; Karen Krawchuk, Providence College; Antoinette Lucas, Northwestern University; Leslie Lyness, University of North Carolina, Chapel Hill; Sally Maxwell, Boston University; Kim Metcalf, Northwestern; Anne Mucera, Northeast-

**Leslie Lyness**

**Anne Mucera**

ern University; Erica Richards, Iowa; Carolyn Sarr, Old Dominion University; Kathy Staley, North Carolina; Aileen Trendler, Iowa; Kristin Winters, Pennsylvania State University.

### Honorable mention

Karen Brady, University of New Hampshire; Liz Brickley, New Hampshire; Wendy Crain, University of the Pacific; Lisa Doran, Old

Dominion; Kerri Fagan, Massachusetts; Edith Gallagher, Hofstra University; Lori Heywood, Boston University; Laurel Hershey, North Carolina; Donna Mulhern, University of Pennsylvania; Stephanie Nattichia, Princeton University; Missi Sanders, Iowa; Colleen Senich, Northwestern; Ellen Vagelos, Pennsylvania; Erin Walsh, Iowa; Cami White, Providence; Lee Yniguez, University of Connecticut.

## Championships Summaries

### Division I-AA football

**First round:** Ga. Southern 52, Villanova 36; Middle Tenn. St. 24, Appalachian St. 21; Eastern Ill. 38, Idaho 21; Montana 48, Jackson St. 7; Furman 24, William & Mary 10; Youngstown St. 28, Eastern Ky. 24; S. F. Austin St. 59, Grambling 56; Southwest Mo. St. 38, Maine 35.

**Quarterfinals (December 2 at on-campus sites):** Ga. Southern (12-0) vs. Middle Tenn. St. (9-3); Eastern Ill. (9-3) vs. Montana (10-2); Furman (11-1) vs. Youngstown St. (9-3); S. F. Austin St. (10-1-1) vs. Southwest Mo. St. (10-2).

Semifinals December 9 at on-campus sites. Final December 16 at Paulson Stadium, Statesboro, Georgia.

### Division II football

**Quarterfinals:** Mississippi Col. 55, St. Cloud St. 24; Indiana (Pa.) 17, Portland St. 0; Angelo St. 24, Pittsburg St. 21; Jacksonville St. 21, North Dak. St. 17.

Semifinals (December 2 at on-campus sites):

Mississippi Col. (9-3) vs. Indiana (Pa.) (11-1); Angelo St. (11-2) vs. Jacksonville St. (12-0). Final December 9 at Braly Municipal Stadium, Florence, Alabama.

### Division III football

**Quarterfinals:** Union (N.Y.) 45, Montclair St. 6; Ferrum 49, Lycoming 24; Dayton 28, Millikin 16; St. John's (Minn.) 27, Central (Iowa) 24.

**Semifinals (December 2 at on-campus sites):** Union (N.Y.) (12-0) vs. Ferrum (11-1); Dayton (11-0-1) vs. St. John's (Minn.) (10-0-1). Final December 9, Amos Alonzo Stagg Bowl, Phenix City, Alabama.

### Division I men's soccer

**Third round:** Rutgers 2, Vermont 1 (2 ot); Virginia 1, South Caro. 0 (2 ot); Indiana 1, Howard 0; Santa Clara 2, UCLA 0.

**Semifinals (December 2 on the campus of one of the participating institutions):** Rutgers (20-3) vs. Virginia (20-2-1); Indiana (18-1-2) vs. Santa Clara (19-0-2). Final December 3.

# Pitt plans to improve stadium; dome is one option

The University of Pittsburgh is considering a dome for Pitt Stadium as one of several options for improving its athletics facilities, according to **Edward E. Bozik**, athletics director.

School officials were expected to meet with athletics contributors to discuss ways to raise about half the \$55 million needed. State funding could pay for the rest of the expenses in refurbishing the 64-year-old stadium.

Bozik, in an athletics department statement, said, "Putting a dome on Pitt Stadium is just one of many plans we are considering. At this point, it would be far too speculative and much too premature on any level to identify a domed facility as our best or only option."

Putting a dome on the stadium also would allow the basketball team to play its games on campus in a much larger facility than the 6,798-seat Fitzgerald Fieldhouse. Pitt Stadium seats 56,500 for football.

Four other members of the Big East Conference have domed stadiums.

**Allison Jones**, women's basketball coach at Pace University, has been forced to learn some nicknames this season. In addition to Kutter, House, Mars and Mike, Jones this season will have to remember Gas and Giov.

Why not use real names? Confusing as the nicknames may appear, they probably are Jones' best solution since they apply to the half-dozen players on her roster with the same first name.

Oh, they're not all spelled the same. For the record, Jones will use those nicknames to keep track of **Kris Kutt, Kris Hall, Kris Marsilio, Chris Michalopoulos, Chris Steingasser and Chris Giovanelli**.

Does any other college coach have this kind of "identity problem?"

Fairfield University basketball fans will witness a unique sibling rivalry this season.

Sophomore guard **Terry Fitzsimons** will play against his twin brother, **Tom**, December 13 when the Stags travel to Marist College, where Tom plays forward.

Sophomore guard **Lynne Friel**,

## Briefly in the News

who starts at point for the Lady Stags, will play against her twin sister, **Lauren**, December 1 when Fairfield meets St. Francis College (Pennsylvania) in the Fairfield Warner's Classic. Lauren is co-captain of the Red Flash women's team.

Does any other member have a "twin twins" combination like this?

Early this season, **Ken Anderson**, men's basketball coach at the University of Wisconsin, Eau Claire, will become the 19th active coach in college basketball (and the 53rd ever) to win 500 games. Entering his 22nd season, Anderson has a college-coaching record of 499-113 (.815 winning percentage).

From **Tim Pringle**, a senior defensive lineman on Ohio University's football team, comes the following reflection on the Bobcats' 1989 season (the team was 1-8-1 after 10 games):

"It has not been all bad. We have had some positive as well as negative experiences, and I think it has helped us to learn how to handle negative situations."

Tim Pringle

"Football is life," he added. "Things in life don't always go the way we would like."

Which, one could argue, is why Pringle has provided himself with two career alternatives.

"Some pro teams have expressed interest," he offered. "I'm applying

to medical schools. If football doesn't work out, I'm looking at a general practice, or perhaps orthopedics or podiatry."

Pringle carries a 3.240 grade-point average (4.000 scale) and was named first team academic all-Mid American Athletic Conference this season.

Trivia Time: Which NCAA member institution recently had two women's teams win NCAA championships on the same day? Answer later.

No Laughing Matter: Comic Relief, the organization that has raised more than \$8 million to help America's homeless, will be the beneficiary of the January 20 men's basketball game at the Louisiana Superdome between Louisiana State University

and the University of Notre Dame. All net proceeds from the contest, which is being called "Hoops to Help," will go directly to Comic Relief.

Western Michigan University recently became the showcase for a new concept in stadium seating. Installed were aluminum-based seats being marketed by Interkal, Inc., of Kalamazoo, Michigan.

Known primarily for its gymnasium seating, Interkal has introduced telescoping and fixed-chair stadium seats. Modern Metals magazine recently presented its grand award to the company for aluminum die casting, based on the new stadium-seating line.

On TV:

• From California-based Prime

Ticket comes word of a 77-game college basketball television schedule that includes 21 women's contests. Pacific-10 Conference and Big West Conference teams will be featured.

• Philadelphia's Big 5 has announced a restructuring to include administration of the women's Big 5, which will be featured three times on the Prism cable outlet as part of Big 5 men's and women's basketball doubleheaders. Big 5 members include La Salle University, the University of Pennsylvania, St. Joseph's University (Pennsylvania), Temple University and Villanova University.

The women's Big 5 had been run independently of the men's program for 10 years.

• The Sunshine Network, based in Orlando, Florida, will offer its subscribers more than 170 college

## Next Year, Tackle Europe.

WORLDTEK is the Official Travel Agency For NCAA® Championships

Football Abroad Is Hot And WORLDTEK Can Make It Happen For Your Team, Too.

On October 28, 1989, the University of Rhode Island and Villanova University will meet in their traditional Yankee Conference football matchup. What's the big deal? They're meeting in Italy.

It's WORLDTEK TRAVEL's *Milano Kickoff Classic*, bringing American football to northern Italy for the first time ever. And are they excited about it! Football is finding a whole new world of fans abroad, and that means a great opportunity for you and your team to join in this fantastic program.

WORLDTEK is the sponsor and organizer of this and other games abroad, and is looking for collegiate football teams to participate for the 1990 season. It means an all-expense paid trip for the team (your administration will like that), a fantastic visit to Europe for players and fans (on special fan package tours), and a chance for everyone involved to take part in a once-in-a-lifetime sporting event.

If you, as Coach or Athletic Director, have an interest in participating in WORLDTEK's "Football Abroad" program for next season, call Andy Mooradian at WORLDTEK today. Toll free 1-800-243-1723. It may be the most important call you ever make for your team and your school.

WORLDTEK.

When it comes to sports travel, we're the one name to go by.

111 Water Street, New Haven CT 06511 • Tel. (203) 772-0470  
Call Toll Free 1-800-243-1723

## Briefly

Continued from page 13

basketball games this season, including 120 live telecasts.

In addition to picking up numerous games from outside Florida, the cable network will offer contests involving Florida State University, the University of Florida, University of Miami (Florida), Jacksonville Florida, University of Central Florida, Florida International University, Bethune-Cookman College, Stetson University, Rollins College, Florida Southern University, Florida Institute of Technology and Florida A&M University.

More Report Cards: Six East Coast Conference student-athletes have been chosen scholar-athletes for the fall. They include **Terry Puccio**, Hofstra University women's volleyball player; **Kathy Tucci**, University of Delaware field hockey player; **Mike Pellegrini**, Drexel University soccer player; **Pete O'Brien** and **Judy Perry**, Bucknell University cross country runners, and **Jennifer Jacobson**, Lehigh University women's tennis player.

Clark University (Massachusetts) seniors **Kevin Abdullah** (men's basketball) and **Derrek Shulman** (baseball) recently were elected Phi Beta Kappa scholars, and classmate **Susan Chace** (field hockey) was named to the Fiat Lux Honor Society.

**Wayne Patterson**, research specialist for the Naismith Memorial Basketball Hall of Fame, is interested in receiving press guides from all colleges and universities that sponsor either men's or women's basketball. Materials should be sent to Patterson at the Basketball Hall of Fame, P.O. Box 179, Springfield, Massachusetts 01101-0179.

Former USA Wrestling communications director **Mike Chapman** is the author of the "Encyclopedia of American Wrestling," recently published by Leisure Press.

Among the \$23.95 paperback book's features is a list of every American wrestler who has placed in a major national tournament, including NCAA championships in all divisions. The book's forewords were written by **Dan Gable**, head wrestling coach at the University of Iowa, and **Lee Kemp**, who won three consecutive Division I individual titles at 158 pounds during the late 1970s while a wrestler at the University of Wisconsin, Madison.

Easton Sports has teamed with the American Baseball Coaches Association to produce a hitting-instruction videotape featuring Stanford University's **Mark Marquess**, Los Angeles Dodgers hitting instructor **Ben Hines** and San Francisco Giants slugger **Will Clark**.

Telephone orders for the 15-minute video (\$12.95, including postage and handling) are being accepted at 402/733-0374. Tapes also will be available at the January 1990 ABCA convention in San Francisco.

**Dick Karpick**, athletics promotions and marketing coordinator at Purdue University, has written "Boilermaker Basketball: Great Purdue Teams and Players." The 255-page volume recently was copublished by Bonus Books of Chicago and the Purdue Alumni Association.

Trivia Answer: Women's teams from the University of North Carolina, Chapel Hill, won Division I championships November 19 in field hockey and soccer.

## Indoor track qualifying standards

The NCAA Men's and Women's Track and Field Committee has established qualifying standards for 1990 indoor track championships, including automatic and provisional standards in Divisions I and II.

All student-athletes who meet the tougher automatic standards will qualify for the championships. The remaining spots in the championships fields—up to the approved maximum for each event—will be filled from a list of student-athletes meeting the less stringent provisional standards. The list will be compiled in descending order so that the best performances fill the field first.

The procedure for Division III qualification will remain the same as in 1989.

The committee also approved both metric and imperial standards for Divisions II and III. Qualifying marks for field events in these championships will be accepted in either system of measurement. However, the committee has not approved a similar provision for Division I; all Division I qualifying marks must be submitted in metrics.

Altitude adjustments for sites at elevations of 3,000 feet or higher have been established and will appear in the 1990 Track and Field/Cross Country Rules and in the indoor track championships handbook.

Qualifying marks must be made in indoor competition after December 1 and no later than March 3, 1990, in Division I or no later than March 4, 1990, in Divisions II and III.

The men's and women's championships in Division I will return to the Hoosier Dome in Indianapolis, the Division II championships again will be held at the University of South Dakota, and the Division III championships will be conducted at Smith College. All three meets will be March 9-10.

# 14 proposals

*Continued from page 1*

all student-athletes in a rolling 10-year period who have completed their athletics eligibility. This is intended to respond to critics who claim that institutions "use" the student-athlete for four years and then do not assure that he or she graduates.

The Division III Steering Committee's proposal is slightly different in that it would track only those student-athletes who complete a year of participation in a varsity sport. Most of the other details in the steering committee's proposal parallel those in the Commission's offering for Divisions I and II.

The Commission did not choose to require such disclosure for Division III because the presidents from that division serving on the Commission believed it would be better for the division to monitor the requirement in Divisions I and II for two years and then consider whether to propose it for III.

## Proposal 42

Three proposals in the grouping offer Division I members alternatives in regard to 1989 Convention Proposal No. 42, which would eliminate the partial qualifier from the Association's initial-eligibility legislation effective August 1, 1990.

The Commission's own proposal, which will be voted upon first among the three, would rescind Proposal 42 but would redefine the type of financial aid a partial qualifier could receive. The Commission would retain the partial-qualifier category but would specify that such individuals could receive only need-based, nonathletically related

aid. Currently, the partial qualifier can receive athletically related aid. If Proposal 42 goes into effect without change, those who have been partial qualifiers simply will be treated as nonqualifiers and will be ineligible for any institutionally administered aid.

Meanwhile, the Big East Conference and the Southwestern Athletic Conference have teamed to sponsor a proposal to rescind Proposal 42. That would have the effect of leaving the partial-qualifier category as it stands now.

The Big East also has offered another alternative—a proposal to delay the implementation of Proposal 42 for another year (to August 1991), with a resolution directing the Academic Requirements Committee, the Council and the Presidents Commission to study further the concerns related to that proposal

and to report their findings prior to the 1991 Convention.

A fourth proposal relating to the initial-eligibility legislation is offered by the Division II Steering Committee for that division only. It would permit both partial qualifiers and nonqualifiers in Division II to receive institutionally administered, but nonathletically related, financial aid.

## Time demands

The Commission's proposal to begin addressing the issue of time demands on student-athletes will be voted upon in the general business session. It has these ingredients:

- A resolution directing "appropriate athletics interest groups" to develop recommendations to reduce the time demands on student-athletes in all sports other than football and basketball, noting that the American Institutes for Research

studies in this regard grouped all of those other sports, whereas those studies clearly pointed to the need for reduced time demands in football and basketball. The "athletics interest groups" would include athletics administrators, coaches and NCAA governing sports committees, and their recommendations for time reductions would be due to the Council and the Commission by next April 1.

- A reduction in spring football practice in Divisions I-A, I-AA and II from 20 sessions (15 involving contact) in 36 days to 10 sessions, with no contact, in 18 days.

- A reduction in the basketball season in Divisions I and III to reduce the permissible number of contests from 28 in I and 26 in III to 25, to remove all of the contest exemptions except the counting method for the postseason confer-

ence tournament, to eliminate a month from the preseason conditioning program, to eliminate 16 days from the preseason practice period and to begin the playing season approximately a week later. The starting dates for preseason conditioning, preseason practice and the first contest would be October 1, November 1 and December 1, respectively.

In Division II basketball, the proposal is the same except preseason conditioning could not begin until October 15 and the first contest could be played on the next-to-last Friday in November, as is currently the case in that division.

The Commission has noted that removal of the contest exemptions would reduce the playing season for most Division I men's teams by anywhere from five to 10 contests.

*See 14 proposals, page 16*

## Atlantic 10 teams on TV

More than 70 games involving Atlantic 10 Conference institutions will be televised during the 1989-90 college basketball season. The television schedule, announced by Commissioner Ron Bertovich, will feature Atlantic 10 teams on all of the major networks, both over the air and cable. The increased television exposure also reflects local and institutional packages that have been negotiated to date.

The 1989-90 schedule will feature appearances by Atlantic 10 teams on ABC, NBC, CBS, ESPN and SportsChannel America.

Atlantic 10 institutions will be seen six times during the regular season on ESPN, including two intraconference contests.

ESPN also will televise the Pepsi Atlantic 10 tournament championship game March 8 as part of its "Championship Week." The title contests will be part of ESPN's "Championship Week" for the fifth consecutive year.

Seven of nine games in the Atlantic 10 tournament will be televised. In addition to the championship contest on ESPN, the Atlantic 10 Network will carry all four games in the quarterfinal round March 4 and the semifinal contests March 5.

Fans will be able to see Atlantic 10 basketball Sunday afternoons as part of the "Sunday Game of the Week" series. That series, which will feature appearances by each member institution, will begin January 7 and will continue throughout the remainder of the regular season. SportsChannel America will carry the "Sunday Game of the Week" package, as will cable and over-the-air outlets throughout the Northeast.

Louisiana State University, Baton Rouge

## Should you build a new stadium for \$1,000 per seat, or make the one you have as good as new for \$50 per seat?

**T**he decision to restore the 77,000 seat stadium at Louisiana State University—rather than build a new one—was based in large part on how well one company, The Western Group\*, had already done restorations for over 25 large college and professional stadiums. And at costs far below what the costs would have been to build.

The University learned that The Western Group's nearly 30 years of experience in stadium restoration and extensive technical know-how, coupled with financial responsibility and proven guarantees, is what kept making them the contractor of choice in stadium work across the U.S.

The Western Group points with pride at these major stadium projects: Duke, Harvard, Illinois, Iowa, Kansas, Missouri, Nebraska,

Notre Dame, Pittsburgh, Tulsa, Virginia, William & Mary, Lambeau Field in Green Bay, Legion Field in Birmingham, Memorial Stadium in Baltimore, The Cotton Bowl, Tampa Stadium, and Yankee Stadium.

Workers install an overlay on every step to allow positive drainage.

### How The Western Group restored this stadium

The restoration plan for LSU was developed by architectural engineers, Clement, Blanchard & Holmes (Baton Rouge). The actual restoration work was performed by the New Orleans branch of Western Waterproofing Company, a member of The Western Group.

First, existing plank seats and brackets were removed. Then, damaged and/or spalled

Concrete is protected from weather and traffic with a special coating.

topside concrete treads and risers were repaired, as were structural cracks in the concrete seating area.

Latex concrete leveling courses were applied on all treads, and all topside expansion and control joints were repaired and sealed.

After the entire surface was cleaned by high-pressure water blasting, 3M's Scotch-Clad Brand Sports Stadium Waterproof Traffic Topping was applied prior to the installation of the new seats.

Beneath the stands, Western workmen repaired concrete spalls and installed a new drainage system. They cleaned, repaired and applied acrylic waterproofing coatings to entranceway walls.

### Receive a FREE Stadium Inspection Guide

The Western Group, experts in stadium restoration, would like to help you right now

by sending you a free Stadium Inspection Guide. It's designed to show you how to make regular inspections of your stadium. It's important to check on little things before they become big problems.

Send now for your Stadium Inspection Guide, plus a comprehensive Stadium Restoration brochure that explains how The Western Group can give you help when you need it. There's no obligation. Simply call or write.

\*The Western Group is composed of three member companies: Western Waterproofing Company, Inc., Western Waterproofing Company of America, Inc., and Brisk Waterproofing Company, Inc.

# 14 proposals

*Continued from page 15*

A team could continue to play such contests—touring foreign teams, USA Basketball club teams, games in Alaska and Hawaii, the preseason National Invitation Tournament, and the like—but they would have to count among the 25 permissible contests.

A second proposal in this category is a Division II Steering Committee variation on the spring-practice restriction. It would prohibit contact, as does the Commission proposal for that division, but would permit 12 sessions in a 24-day period.

## Financial aid

The other six proposals in the grouping all deal with financial aid legislation, in one way or another.

The Commission itself has a proposal to permit the awarding of nonathletically related financial aid to incoming student-athletes to attend the institution's summer term or summer orientation program.

Meanwhile, six members of the Southeastern Conference submitted a similar proposal, but it would permit receipt of athletically related aid by such individuals. The aid would have to be "in proportion to the amount of financial aid that the recipient will receive during the succeeding academic year."

In both cases, the individual receiving such summer aid would be considered a transfer if he or she then attended some other institution.

The next two proposals in the grouping offer Division I-A institutions options in regard to the permissible number of initial grants in football.

The first one, sponsored by six members of the Big Eight Conference, would increase the current initial-grant limitation from 25 to 30.

The other proposal, offered by six I-A members (including three sponsors of the Big Eight proposal), would establish 25 as the "standard" initial-grant limitation but would create an "alternate limitation" based on a formula for permitting additional initial grants for institutions with markedly diminished numbers of players in their football programs.

Completing the Commission's grouping are two proposals that have been controversial in Division I:

- One, sponsored by eight members of the College Football Association, would permit Division I-A members and all other Division I members to vote separately on legislation to determine the maximum amount of a student-athlete's financial assistance. While that impacts upon Division I, it is identified in the NCAA Manual as a dominant provision and therefore will require a two-thirds majority of the entire Convention for passage.

- The final proposal, sponsored by the NCAA Council, would increase from \$1,400 to \$1,700 the so-called "Pell Grant exemption" in Division I. A student-athlete then could receive Pell funds in combination with other institutional financial aid, provided the overall total received does not exceed the value of tuition, fees, room, board and books plus \$1,700, or the cost of attendance at the institution, whichever is less.

## Summary

Following is a summary of the 14 proposals in the grouping as they will appear in the Official Notice of the Convention:

**No. 24:** To require Divisions I and II member institutions to provide certain admissions and graduation-rate data to prospects, the parents of prospects, and

the prospects' high school and two-year college coaches; to require that the NCAA publish such information annually on an institution-specific basis, and to establish the reporting of such information to the NCAA as a prerequisite for Divisions I and II championships eligibility. Commission-sponsored. General business session, Divisions I and II, roll call.

**No. 25:** Same proposal as No. 24, but for Division III. Includes only those student-athletes completing a year of varsity participation. Sponsored by Division III Steering Committee. Division III business session, roll call.

**No. 26:** To rescind Proposal No. 42 and specify that the partial qualifier may receive need-based, nonathletically related financial aid. In football and basketball, receipt of such aid would make the student-athlete a counter against the awards limitation in the sport. Commission-sponsored. Division I business session, roll call.

**No. 27:** To rescind Proposal No. 42. Sponsored by two member conferences. Division I business session, roll call.

**No. 28:** To delay implementation of No. 42 for another year and direct a study of the issue by the Academic Requirements Committee, Council and Commission. Sponsored by a member conference.

Division I business session, roll call.

**No. 29:** To permit all nonqualifiers and partial qualifiers in Division II to receive nonathletically related institutional financial aid, with proper certification. Sponsored by Division II Steering Committee. Division II business session, roll call.

**No. 30:** To reduce the time demands required of student-athletes in all sports by (1) reducing spring football practice in Divisions I-A, I-AA and II to 10 sessions in 18 consecutive calendar days and prohibiting contact in spring practice; (2) specifying that men's and women's basketball preseason conditioning activities could not begin before October 1 in Divisions I and III and October 15 in Division II; (3) specifying that men's and women's basketball preseason practice could not begin until November 1 in all divisions; (4) specifying that the first basketball contest could not be played until December 1 in Divisions I and III (no change in Division II); (5) reducing the number of basketball contests to 25 in all divisions and eliminating the current exemptions to counting basketball contests, except the one relating to postseason conference tournaments, and (6) directing athletics interests to develop recommendations for reductions in time demands

on student-athletes in all other sports for action at the 1991 Convention. Commission-sponsored. General business session, roll call.

**No. 31:** To reduce spring football practice in Division II to 12 sessions in 24 calendar days, with no contact permitted. Sponsored by Division II Steering Committee. The vote will be in the general business session due to the direct relationship to a portion of Proposal No. 30. Roll call.

**No. 32:** To permit summer financial aid to be awarded to a prospective student-athlete to attend an institution's summer school or summer orientation program under specified conditions, including the fact that the aid must be nonathletically related. Commission-sponsored. General business session, roll call.

**No. 33:** Essentially the same as No. 32, except that the financial aid could be athletically related and would be in proportion to the amount the individual would receive in the following regular term. Sponsored by six members of a Division I-A conference. General business session, roll call.

**No. 34:** To increase from 25 to 30 the initial-grant limit in Division I-A football. Sponsored by six members of a Division I-A conference. Division I-A business

session, roll call.

**No. 35:** To establish an "alternate limitation" on Division I-A initial grants in football that would enable a member institution with depleted numbers of players to exceed the limit of 25 under certain conditions. Sponsored by six Division I-A member institutions. Division I-A business session, roll call.

**No. 36:** To allow Division I-A and all other Division I members to vote separately regarding the maximum limitations on financial aid for individual student-athletes. Sponsored by eight Division I-A member institutions. General business session, roll call.

**No. 37:** To permit student-athletes to receive a combination of Pell Grant assistance and other institutional financial aid provided the overall grant total does not exceed the value of a full grant plus \$1,700, or the student-athlete's cost of attendance, whichever is less. NCAA Council-sponsored. Division I business session, roll call.

*(Next in the series: A review of proposals dealing with academics and with financial aid, other than those in the Presidents Commission grouping.)*

# The Market

Readers of The NCAA News are invited to use The Market to locate candidates for positions open at their institutions, to advertise open dates in their playing schedules or for other appropriate purposes.

Rates are 55 cents per word for general classified advertising (agate type) and \$27 per column inch for display classified advertising. Orders and copy are due by noon five days prior to the date of publication for general classified and by noon seven days prior to the date of publication for display classified advertising. Orders and copy will be accepted by telephone.

For more information or to place an ad, call Susan Boyts at 913/384-3220 or write NCAA Publishing, P.O. Box 1906, Mission, Kansas 66201.

## Positions Available

### Commissioner

**Rocky Mountain Athletic Conference Commissioner:** Education and Experience: Bachelor's degree; minimum: previous experience with athletics as a player, coach or athletic administrator; experience in conducting meetings, understanding of sound business practices; experience in public relations; familiarity with NAIA and NCAA rules and regulations; understanding of intercollegiate athletics on a regional and national level. Job Description: Chief administrative officer of the Conference and as such shall report to the Council of Presidents and exercise executive responsibilities as follows: Provide leadership in educational and public sectors; maintain eligibility records; prepare budgets and financial reports; exercise such powers and authority as may be necessary to the duties and responsibilities of his office; make inspections and investigations at member institutions as is deemed necessary; supervise and direct officiating programs; administer all Conference meets and tournaments; conduct through the press, radio, television and periodicals a continuous educational program advancing the development of scholarship and sportsmanship in RMAC institutions; serve as a spokesperson for the Conference; serve as an Ex-Officio member of the Presidents' Council and all pertinent committees; fulfill other duties and/or responsibilities assigned by the Council of Presidents. Appointment: Full-time appointment by the Presidents' Council, effective July 1, 1990. Salary: Comparable to senior athletic administrators and commissioners of other similar conferences. Office Location: Denver, Colorado. Contact: Nominations and applications should be sent by January 12, 1990, to: Dr. Joel M. Jones, Chair, Presidents' Council of the RMAC, 2500 Administration Building, Fort Lewis College, Durango, CO 81301.

### Athletics Trainer

**Athletic Trainer/Sports Rehabilitation Clinic:** San Luis Obispo High School. Begin 1/2/90. Stipend/Hourly. Contact: Thom Dimmitt, Athletic Director, San Luis Obispo High School, P.O. Box 8125, San Luis Obispo, CA

93401, 805/544-5770.

**Assistant Athletics Trainer:** The University of Texas at Austin, Intercollegiate Athletics for Women. Official Title: Assistant Athletics Trainer. Salary: \$20,000 annually. Appointment: 10 months annually/100% time. Starting Date: January 1990. Required Qualifications: Master's degree, National Athletic Trainers Association certification. Eligible for Texas licensure. Experience in all major sport areas at the collegiate level. Some travel required. Responsibilities: Assist in all phases of the health care management program that services seven highly competitive Division I intercollegiate teams. Assist in the supervision of team practices and home events. Travel to away contests during in-season competition. Design and administer rehabilitation programs in conjunction with head trainer. Supervise training room in absence of head trainer and supervise student trainers. ## ASSISTANT TO THE EXECUTIVE DIRECTOR WOMEN'S DIVISION

NJCAA EXECUTIVE OFFICES  
Colorado Springs, CO

The National Junior College Athletic Association (NJCAA), located in Colorado Springs, Colorado, seeks to fill the position of Assistant to the Executive Director, Women's Division. The NJCAA serves approximately 550 member schools, both men and women, and sponsors twenty-nine National Championships for men and women.

**Duties:** Responsible for the NJCAA Women's Division, serving as staff liaison for the twenty-four regions of the country which are served by the NJCAA, the NJCAA Coaches Associations, affiliated NGBs of the NJCAA, and committees of the NJCAA. Major responsibility lies in the coordination of all NJCAA computer systems/networks, including both word-processing and data-base. The Assistant to the Executive Director also assumes responsibility for coordination of the National Championships of the NJCAA with assistance to Tournament Directors with regards to softgoods, trophies and awards. Willingness to travel a must.

**Qualifications:** Candidates for this position should possess at least a Bachelor's Degree, with a Master's Degree preferred. Candidate should also have experience in the administration of community college or collegiate athletics/physical education programs. Excellent computer and communication skills a must.

**Starting Salary:** Commensurate with experience.

**Applications:** Send resume and cover letter indicating qualifications for position by December 30, 1989, to:

George E. Killian, Executive Director  
National Junior College Athletic Association  
P.O. Box 7305  
Colorado Springs, CO 80933-7305

The NJCAA is an EOE.  
Women and minorities encouraged to apply.

## KENYON COLLEGE

### Director of Physical Education and Athletics

Kenyon College invites nominations and applications for the position of Director of Physical Education and Athletics. With an enrollment of 1,500 resident undergraduates, Kenyon is a member of the North Coast Athletic Conference and the NCAA-Division III. The Physical Education and Athletic Department has 11 full-time staff members who coach 21 intercollegiate varsity teams (11 men's and 10 women's teams), administer intramural and co-recreational programs and teach physical education courses for credit. Kenyon encourages women and minority candidates to apply.

We are seeking an experienced administrator who can provide strong leadership for departmental programs and set standards and goals comparable to Kenyon's distinguished academic programs. Candidates must have a demonstrated proficiency for the development and operation of physical education, intercollegiate, intramural and recreational activity programs; staff supervision and assessment; creative managerial skills; preparing and administering annual budgets; and understanding and interpreting conference and NCAA regulations and policies.

The Director will be expected to work harmoniously with students, faculty and alumni groups, and, by being an effective spokesperson for the department, provide support for the College's public relations program. A coaching assignment is preferred.

Qualifications for the position include a master's degree, although a terminal degree is preferred. Salary commensurate with qualifications and experience. Twelve-month contract, one month vacation. Starting date: as soon after appointment as possible but the date may be negotiated. Review of applications will begin on December 8th and continue until the position is filled. Send inquiries or applications to: Professor Perry Lentz, Chair, Search Committee, Department of English, Kenyon College, Gambier, OH 43022-9623.

An Equal Opportunity Employer

# Eligibility

Continued from page 17

B 14.6.4.1.2 and 14.13.4.3	Institution certified transfer SA (women's basketball) as a qualifier and awarded aid, but later discovered SA was not a qualifier. SA repaid aid.	Eligibility restored for 1990-91 season.
B 14.3.2.1 and 14.13.4.3	SA (men's cross country and track) was certified as a qualifier and competed in seven meets; institution later learned ACT score was achieved on residual test date. Institution later obtained initial-eligibility exception for SA.	Eligibility restored.
B 14.3.2.1 and 14.13.4.3	SA (women's basketball) was certified as a qualifier and competed during 1988-89 season; ACT score later was invalidated.	Eligibility restored for 1990-91 season with two season of competition remaining. (Season of competition used per B 14.2.4.1.)
B 14.2.1.4	SA (ice hockey) was unable to attend collegiate institution due to training and tryouts for Canadian Olympic team.	Extension granted for period of time equal to number of days SA was unable to attend collegiate institution to next opportunity to enroll (approximately five months).

## DIVISION II

B 14.8.5.2-(a)	SA (men's basketball) competed in summer tournament without written permission from institution; tournament was NCAA-sanctioned.	Eligibility restored.
B 14.5.3.2	SA (soccer) participated in four contests while ineligible under satisfactory-progress rule.	Eligibility restored. (Season of competition used per B 14.2.4.1.)

## DIVISION III

B 14.2.2	SA (football) remained enrolled at institution full time while receiving rehabilitative treatment for a learning disability.	Extension request denied. Affirmed by NCAA Eligibility Committee (Division III).
B 14.8.1	SA (soccer) participated in one outside competition during the 1988-89 season.	Eligibility restored after SA withheld from next intercollegiate contest.

## Blocked shot

**Maaïke Hilbrand, left, of Old Dominion, and North Carolina's Leslie Lyness are shown in action during the Division I Field Hockey Championship played November 19. North Carolina won its first title in field hockey with the victory.**

Northeast Missouri State University is the statewide public liberal arts and sciences university with a commitment to academic excellence and a strong record of performance in NCAA Division II athletics. Northeast is a member of the Missouri Intercollegiate Athletic Association.

Northeast Missouri State University is an Equal Opportunity Employer.

# Debate seen on basketball cutback, but OK predicted for date changes

A Presidents Commission proposal to delay the start of basketball practice and competition in Division I "has a very good chance of passing," according to Victor A. Bubas, commissioner of the Sun Belt Conference and chair of the Committee on Basketball Issues.

However, the Commission's proposal to cut the number of games from 28 to 25 "will be hotly debated on the Convention floor," Bubas said.

The Presidents Commission proposes delaying the start of practice until November 1 and not allowing competition before December 1.

The Commission originally proposed delayed practice until November 15 and competition until December 20.

In a poll of Division I athletics directors and commissioners conducted by Bubas for the Committee on Basketball Issues on the original Commission proposal, the results (70 percent response) showed 110-101 against delaying practice until November 15 and 132-74 against delaying competition until December 20.

The poll also showed a 115-90 vote against cutting the number of games to 25 and removing all exemptions.

In response to an additional question, ADs and commissioners voted 125-60 against starting the NCAA Division I Men's Basketball Championship in late March or early April versus the current early March

Victor A. Bubas

start.

Of the proposals to cut games to 25, Bubas said it "will be hotly debated on the Convention floor. My prediction is that some number

such as 27 will be advanced as a compromise amendment.

"The key question here," Bubas said, "seems to be whether there will be any exemptions in preseason games being allowed without their counting toward the total of 27, or whatever compromise number might pass."

The Presidents Commission proposal on delayed dates and number of games also applies to Division III.

In Division II, the Commission's proposal will specify no preseason conditioning until October 15, the start of practice November 1, the first game the Friday before Thanksgiving and the 25-game limit with no exemptions.

## Calendar

## McCartney named to West staff for Shrine Game

Bill McCartney, head football coach of No. 2-ranked Colorado, was named November 21 as an assistant coach in the 65th annual East-West Shrine Game at Stanford Stadium January 21.

McCartney, who has directed the Buffaloes to an 11-0 record, was named an assistant with the West team in place of Brigham Young University coach LaVell Edwards, forced to withdraw because of a schedule conflict.

Since switching to the wishbone offense in 1985, McCartney has coached his team to four postseason bowl appearances in five years.

## Creighton team serves homeless on Thanksgiving

Coach Tony Barone is establishing more than a winning basketball program at Creighton University. He is developing a tradition of Thanksgiving giving.

His defending Missouri Valley Conference champions served meals to the homeless again Thanksgiving Day.

Last year, the Bluejays served breakfast at the Francis House and got national attention. But Barone said the publicity was not what the team wanted from the project.

"I caught some flak from people last year who said we were just trying to publicize it," he said. "The only thing we wanted to do was help some people out."

The team's players and coaches helped out at two locations, serving Thanksgiving breakfast at Fuddrucker's restaurant and dinner at The Stephen Center in Omaha.

The team ended its Thanksgiving with dinner at Barone's home.

# The all-new 4-door Cutlass Supreme. Handles the groceries, the kids, and cooks.

## The 1990 4-Door Cutlass Supreme

The totally new Cutlass Supreme™ International Series sedan is just the recipe for any 1990 family. It's the new generation of family transportation.

Loaded with powerful ingredients like an available 3.1-liter V6 or the standard new 16-valve High-Output Quad 4® engine. Either way, this sedan really cooks.

The laundry list of standard equip-

ment includes: four-wheel, independent FE3® suspension; front-wheel drive; power disc brakes; power rack-and-pinion steering; 16-inch aluminum wheels and 60-series tires. Rear seats that fold all the way down. And front buckets that adjust eight ways. An anti-lock braking system is also available.

To guarantee you'll stay happy with this hot new menu, we've topped it off with one more feature. The Oldsmobile Edge. It's a comprehensive owner satisfaction plan designed to make

Oldsmobile® the industry leader in total customer satisfaction. And it's standard on any Oldsmobile you buy.

To find out more about it, or about the 1990 four-door Cutlass Supreme, just stop by your nearest Olds dealer. Or simply call toll-free 1-800-242-OLDS, Mon.-Fri., 9 a.m. to 7 p.m. EST.

 The New Generation of OLDSMOBILE.
