## New NCAA building to open February 26

(Editor's Note: This is the second in a series of articles in *The NCAA News* about the Association's new national office building.)

In 15 months' time, a seven-story glass-and-granite structure has risen from an empty lot in Overland Park, Kansas, to become the NCAA's national office building.

Months of work by NCAA committees, staff members, architects and builders will culminate in the opening of the building's doors, scheduled for February 26. Ground was broken for the project in November 1988.

For the first time in a decade, the entire NCAA staff will be housed under one roof. Once there, employees will be able to conduct Association business more comfortably and efficiently than ever before — thanks to a lot of planning.

"It's a more productive work space — better planned and better utilized," said Richard D. Hunter, NCAA director of operations and manager for the national office building project, comparing the building to the Association's current facilities in Mission, Kansas.

More than 180 Association employees will be deployed throughout the building, which offers 154,000 square feet of office space. Each floor has approximately 20,000 square feet of space — about the same space available in the entire NCAA West building, which the Association is leaving behind in Mission. The bottom floor — which includes the NCAA Visitors Center, scheduled to open Labor Day weekend — has 33,000 square feet (see sample floor plans on page 12 and 13).

## Time demands facing athletes to get Commission's scrutiny

Steps to reduce time demands on student-athletes in all sports other than football and basketball — while preserving the actions taken in regard to football and basketball at the 1990 NCAA Convention — will be the NCAA Presidents Commission's major topic in 1990, the officers of the Commission have agreed.

Meeting February 8 in Atlanta, the four elected Commission officers reviewed Commission policies, procedures and plans for the new year. The officers serve as the Commission's executive committee, and one of its functions is to identify at the start of each year the major issues to be dealt with by the Commission during that year.

The Commission officers are Martin A. Massengale, chancellor of the University of Nebraska, Lincoln, and interim president of the Nebraska system, Commission chair; Bernard F. Sliger, president, Florida

State University, Division I subcommittee chair; Asa N. Green, president, Livingston University, Division II subcommittee chair, and David L. Warren, president, Ohio Wesleyan University, Division III subcommittee chair.

They also pledged in the Atlanta meeting to invite representatives of athletics directors, faculty athletics representatives and conference commissioners to meet with the Commission officers before the Commission reaches any final decisions on the time-reduction proposals that it will sponsor at the 1991 NCAA Convention.

### Other topics

The executive committee also identified the recommendations from the Special Committee on Cost Reduction and the Special Committee to Review the NCAA Membership Structure as major agenda items for the Commission this year.

Both of those committees are to submit their recommendations this spring, in time for review by the Commission and the NCAA Council in their respective April meetings.

The Commission also will review the status of the reform proposals put forth by NCAA Executive Director Richard D. Schultz in his "State of the Association" address at the 1990 Convention as those suggestions are considered by the appropriate NCAA committees throughout the year.

Meanwhile, the Division III members of the Commission will be considering means by which that division might require disclosure of student-athlete graduation rates. Divisions I and II adopted legislation last month to require such disclosure, but a similar proposal for Division III was withdrawn.

Under the terms of 1990 Convention... See *Time demands*, page 2

## Men's sports participation grows; women playing in greater numbers

Participation in the 10 most sponsored NCAA men's sports increased 8.9 percent from 1981-82 to 1986-87, while women's sports participation in their 10 most-sponsored programs increased more than 20 percent during those five years, according to a report by the NCAA research staff.

The report, "The Sports and Recreational Programs of the Nation's Universities and Colleges," is the seventh in a continuing series conducted by the NCAA since 1956-57.

Among the 10 men's sports most widely sponsored by NCAA members, six showed increases in sponsorship, although none of those gains kept pace with the membership increase of 3.6 percent during

the period.

The increases were in basketball (1.3 percent), cross country (1.7), baseball (2.2), soccer (2.9), football (1.6) and swimming (0.5). Showing decreases were tennis, golf, track and field, and wrestling.

The only major decrease was in wrestling, in which 76 fewer members sponsored teams (20.9 percent decrease).

In terms of participants, only swimming and wrestling among the top 10 programs showed decreases. Overall, 171,361 athletes participated in men's athletics, an increase of 8.9 percent over 1981-82.

In 1986-87, the top 10 men's sports in terms of sponsorship were basketball (751 institutions, 12,914

participants), tennis (677 and 7,525), cross country (661 and 9,035), baseball (656 and 19,481), golf (579 and 6,501), track and field (559 and 20,603), soccer (536 and 14,573), football (505 and 47,946), swimming (379 and 7,737), and wrestling (287 and 6,813).

The number of institutions sponsoring the top 10 women's sports has grown dramatically, according to the report. Five sports on the list of the 10 most sponsored showed increases of about 20 percent or more from 1981-82. Soccer posted a gain of 215 percent, followed by cross country (53 percent), softball (29.1), track and field (25.3), and

See *Men's sports*, page 20

## 169 CEOs at Convention

A total of 169 presidents and chancellors of NCAA member institutions attended the 1990 NCAA Convention in Dallas, 32 more than were in attendance a year earlier.

Prior to the Convention, 185 CEOs had preregistered for the Dallas gathering.

Each year, however, some who preregister do not actually attend, while some others who do not preregister do decide to attend.

The record for CEO attendance at an NCAA Convention is 199 at the special Convention called by the Presidents Commission in June 1985.

Among the 169 in Dallas were 114 from Division I institutions, 39 representing Division II and

16 from Division III.

That was an increase of 32 in Division I, compared to the previous Convention, and a slight jump of five in Division II. In Division III, meanwhile, the number was actually down five from 1989.

The best attendance figure was posted by Division I-A, where 49 of 106 CEOs were in Dallas (46.2 percent). In Division I-AA, 39 of 89 attended (43.8 percent), and 20 of 98 were there from Division I-AAA (20.4 percent).

Division II's 39 CEOs represented 20.1 percent of that division's membership, while the 16 attendees from Division III represented 5.1 percent of that division.

## So long, Doc

James "Doc" Counsilman, head swimming coach at Indiana University, Bloomington, acknowledges the applause of spectators at his final home meet February 3. Counsilman plans to retire at the end of the season after 33 years as head coach. His final home meet was against his alma mater, Ohio State University. Counsilman's teams won consecutive NCAA men's championships from 1968 through 1973. Indiana also has been a team championship runner-up five times under Counsilman.

# Time demands

Continued from page 1

tion Proposal No. 30-A, the Commission has invited those involved in all sports other than football and basketball to submit suggestions for reducing the time demands on student-athletes in those sports.

That invitation appeared in the January 17 issue of The NCAA News. All such suggestions are to be sent to NCAA Presidents Commission, P.O. Box 1906, Mission, Kansas 66201, prior to April 1. (Note: After the move to the new NCAA national office later this month, the submissions should be addressed to NCAA Presidents Commission, 6201 College Boulevard, Overland Park, Kansas 66211-2422.)

The Commission officers anticipate that coaches associations, governing sports committees, athletics directors' groups and conferences will be the most likely sources of the proposals.

All proposals received that do call for reductions in time spent on their sports by student-athletes will be compiled for review by the Commission, and each will be attributed to the group, organization, conference or individual submitting it.

The Commission will review that compilation in its April meeting, with final action to be taken at its summer meeting. In the interim, the Commission's executive committee will meet with a small group of athletics directors, faculty representatives and conference commissioners. The committee also hopes to have a Commission representative present a report at the annual convention of the National Association of Collegiate Directors of Athletics

in June.

## Meetings

The Commission will meet April 4-5 in Washington, D.C., to begin its work for the year.

Scheduled in conjunction with that meeting is a special reception for members of Congress, key Congressional aides and the chief operating officers of Washington-based higher education associations.

The Commission officers agreed in Atlanta to schedule the summer Commission meeting June 26-27, tentatively in Chicago. A survey of all Commission members indicated that those dates would attract the largest possible attendance.

Also on the Commission's calendar is an October 2-3 meeting, but the Commission officers intend to have the group decide in the April meeting if it still wishes to hold the fall meeting in light of the fact that those dates are well past the deadline for submitting legislation in the Association's new legislative calendar. If it is held, it tentatively is scheduled for Kansas City, Missouri.

Meanwhile, the Commission officers are attempting to schedule their first meeting of the year with the NCAA Administrative Committee. In the Atlanta meeting, they agreed to attempt to enhance their liaison arrangements with the NCAA Council.

One of the steps to be suggested in that regard will be invitations for the elected NCAA officers or other Council representatives to attend Commission meetings and for the Commission officers to attend Council meetings, whenever possible. Division III has already taken steps to put such a procedure into effect immediately.

# Influx of student-athletes expected in light of changes in Soviet bloc

The NCAA Consultants on Foreign Student Records agree that recent political changes in the Soviet bloc will lead to an increase in the number of Eastern Europeans attending college and participating in intercollegiate athletics in the United States.

The six consultants are unsure about the numbers, but they expect most of the increase to come from countries that rarely if ever allowed student-athletes to attend U.S. colleges.

"Obviously, this will have an impact on the future of intercollegiate athletics," said Daniel T. Dutcher, NCAA legislative assistant and staff liaison to the consulting group, which met February 5-6 in Key West, Florida. "But we have to set initial-eligibility standards for the students who are coming from these countries."

"Standards have been established for Yugoslavia and the Soviet Union, and these guidelines will have to be reviewed and updated," Dutcher said. "There probably will be more students coming from those two countries, but we also may see students coming from a whole new group of countries: Bulgaria, Czechoslovakia, Hungary, Poland and Romania."

These and other countries have loosened restrictions on travel across their borders in the belief that citizens will have less desire to flee if they are not forced to stay. Government officials also believe that their countries can more quickly emerge from years of social, political and economic isolation by having their

young people educated in the West.

## Athletes will come

The consultants believe that these attitudes, combined with a reduction in "red tape" necessary to travel, will prompt more Eastern European students—many of them athletes—to come to the United States.

When they arrive, their educational records will have to be examined to determine their eligibility for athletics. Setting standards for converting foreign educational credentials to their American equivalent is the primary task of the Consultants on Foreign Student Records, who work on behalf of the NCAA Academic Requirements Committee.

The NCAA publishes the Guide to International Academic Standards for Athletics Eligibility, which contains the consultants' recommendations on the minimal academic achievement necessary in foreign countries to satisfy the graduation and core-curriculum requirements of NCAA Bylaw 14.3. Member institutions use the guide to determine whether a foreign student-athlete is eligible and, if so, whether the student is considered a freshman or a transfer.

## Standards may vary

Dutcher said little is known about how educational credentials in Eastern European countries compare with NCAA eligibility requirements.

"The consultants are starting to gather information from a network of sources and researchers on these countries," Dutcher said. "They will gather and examine the best information available and set guidelines,

by country, as soon as possible."

Standards for some countries could be established as soon as September, when the group is tentatively scheduled to meet in Kansas City, Missouri. However, Dutcher offered a cautionary note in that all timetables could become obsolete with further political change.

"The political climate in these countries is so volatile," he said, "we could see a total revamping of their educational systems by then."

## Eligibility problems

In other business, the consultants discussed problems NCAA member institutions have encountered in determining initial eligibility of foreign student-athletes. They emphasized that college officials need to be aware that the credentials listed in the Guide to International Academic Standards for Athletics Eligibility are not a substitute for ACT or SAT scores; a student needs to satisfy the requirements listed for his or her country and earn an SAT score of 700 or an ACT score of 18 (15 for tests taken before October 1989).

The consultants are Stan Berry, independent education consultant, Pullman, Washington; Roberta Buchanan, Education Evaluators International, Los Alamitos, California; G. James Haas, Indiana University, Bloomington; Gary Hopkins, Education Evaluators International, Los Alamitos, California; Clifford F. Sjogren (chair), University of Southern California, and Joel Slocum, Education International, Wellesley, Massachusetts.

# Endowment for Georgia at midpoint

The University of Georgia Athletics Board recently reached the halfway point of a \$1 million endowment pledge to the university to be used for nonathletics purposes as determined by the school's president.

The endowment is being made over 10 years in installments of \$100,000. The final installment is scheduled for 1994.

Income generated by the endowment is being controlled by the University of Georgia Foundation and is being used to recruit academically gifted students.

The university is sponsoring a series of 12 to 14 yearly recruitment receptions for high school juniors in Georgia and parts of Florida and South Carolina.

Of the high school juniors who have attended receptions, about 30 percent have enrolled at Georgia, according to the university.

"We're very proud that we were in a position to make such a pledge," said Vincent J. Dooley, director of athletics. "We are, of course, aware that recruitment can be the lifeblood of any successful program."

In 1988, Dooley donated \$100,000 to start an endowment to aid the school's libraries.

University President Charles B. Knapp said, "Next year, the UGA (University of Georgia at Athens) will require \$1.5 million in private funds to support our scholarship program. The funds from the athletics association are a welcome addition to that effort."

1990 Column No. 7

## Recruiting calendars—Divisions I and II basketball

Divisions I and II member institutions should note that the following time periods will be applicable during the next several months to the recruitment of prospective student-athletes.

### Division I men's basketball (NCAA Bylaw 13.1.3.1)

February 18-February 28: Evaluation period.

March 1-March 3: Quiet period (no in-person, off-campus recruiting contacts or evaluations).

March 4-March 22: Contact period.

March 23-March 28: Quiet period.

March 29-April 3 (noon): Dead period (no in-person, on- or off-campus recruiting contacts or evaluations).

April 3 (noon)-April 4 (8 a.m.): Quiet period.

April 4 (8 a.m.)-April 9 (8 a.m.): Contact period.

April 9 (8 a.m.)-April 11 (8 a.m.): Dead period (spring National Letter of Intent initial signing date).

April 11 (8 a.m.)-April 20: Contact period.

April 21-July 4: Quiet period.

### Division I women's basketball (NCAA Bylaw 13.1.3.2)

February 8-February 28: Evaluation period.

March 1-March 27: Contact period.

March 28-April 2 (noon): Dead period (no in-person, on- or off-campus recruiting contacts or evaluations).

April 2 (noon)-April 9 (8 a.m.): Contact period.

April 9 (8 a.m.)-April 13 (8 a.m.): Dead period (spring National Letter of Intent initial signing date).

April 13 (8 a.m.)-April 16: Contact period.

April 17-July 7 (except during the NJCAA and AAU national basketball championships competition and during official tryouts for the ABAUSA Olympic Festival): Quiet period (no in-person, off-campus recruiting contacts or evaluations).

### Division II men's basketball (NCAA Bylaw 13.1.3.3)

The period between the prospect's initial and final high school or two-year college contests: Evaluation period.

March 1-March 28: Contact period.

March 29-April 3 (noon): Dead period (no in-person, on- or off-campus recruiting contacts or evaluations).

April 3 (noon)-April 9 (8 a.m.): Contact period.

April 9 (8 a.m.)-April 11 (8 a.m.): Dead period (spring National Letter of Intent initial signing date).

April 11 (8 a.m.)-May 14: Contact period.

May 15-June 14: Quiet period (no in-person, off-campus recruiting contacts or evaluations).

### Division II women's basketball (NCAA Bylaw 13.1.3.4)

The period between the prospect's initial and final high school or two-

year college contests: Evaluation period.

March 1-April 9 (8 a.m.): Contact period.

April 9 (8 a.m.)-April 11 (8 a.m.): Dead period (no in-person, on- or off-campus recruiting contacts or evaluations) (spring National Letter of Intent initial signing date).

April 11 (8 a.m.)-May 14: Contact period.

May 15-June 14: Quiet period (no in-person, off-campus recruiting contacts or evaluations).

Inasmuch as many prospects are participating in competition during the month of March, member institutions (Divisions I, II and III) should note that the provisions of Bylaw 13.1.5.2 are applicable. Therefore, a recruiting contact may not be made with the prospect prior to any athletics competition in which the prospect is a participant during the day or days of competition. Such contacts shall be governed by the following:

1. Contact shall not be made with the prospect at any site prior to the contest on the day or days of competition;

2. Contact shall not be made with a prospect from the time he or she reports on call (at the direction of the prospect's coach or comparable authority) and becomes involved in team activity (e.g., traveling to an away-from-home game) to the end of the competition, even if such team activities are initiated prior to the day or days of competition;

3. Contact shall not be made after the competition until the prospect is released by the appropriate institutional authority, and departs the dressing and meeting facility, and

4. Contact shall not be made with a prospect involved in competition that requires more than one day of participation (e.g., a basketball tournament) until after the prospect's final contest is completed, and he or she is released by the appropriate institutional authority and leaves the dressing and meeting facility.

In addition, the NCAA Interpretations Committee determined during its March 16, 1989, conference that the contact restrictions outlined in Bylaw 13.1.5.2 would be applicable to the prospect's parents and/or legal guardians.

Finally, member institutions should note that it is not permissible for a prospective student-athlete to make an official or unofficial visit to a Division I or II member institution's campus during a dead period. However, it remains permissible to take such visits during a quiet period, provided such visits occur subsequent to the first day of classes for the prospect's senior year in high school.

*This material was provided by the NCAA legislative services department as an aid to member institutions. If an institution has a question it would like to have answered in this column, the question should be directed to William B. Hunt, assistant executive director for legislative services, at the NCAA national office.*

# Compromise is reached on soccer rules recommendations

In an effort at compromise, the NCAA Men's and Women's Soccer Rules Committee has voted to recommend that restrictions on squad sizes be removed but that substitution-reentry opportunities be limited for the sport, beginning with the 1990 season.

The committee, which met February 7-9 in Kansas City, also voted to recommend that shinguards be required player equipment, effective with the 1991 season; that tournament champions be decided by penalty kicks if a game still is tied after two overtime and two sudden-death periods, and that an accumulation of five cautions would result in a one-game suspension.

The recommended changes will be reviewed by the NCAA Executive Committee at its May 7-8 meeting. **Community divided**

The squad size and substitution issues have become a growing area

Anson Dorrance

of contention the last few years, with the collegiate soccer community divided along the lines of quality of performance vs. participation.

Those who believe that the quality of performance in soccer games should be improved favor limited substitution, and those who desire greater participation opportunities favor free substitution and larger

squad sizes.

Squad-size restrictions have been in place since the NCAA began writing rules in 1947, but there have been no restrictions on substitution or reentry since 1954. In addition, institutions have been permitted to use more players and restrict substitution by mutual consent.

A year ago, the soccer rules committee voted to recommend that players could not reenter a game in the same half or overtime period. After concern with the recommendation was expressed by some institutions, the Executive Committee denied the recommendation and instructed the rules committee to undertake a study of the issue.

The rules committee conducted a survey last fall and resubmitted the recommendation in December to limit reentry opportunities, although survey results failed to indicate sup-

port for the change. Both times, the recommendations included a mutual-consent option to allow for unlimited substitution and larger squad sizes.

The Executive Committee again denied the recommendation. It also ruled that playing rules could not include mutual-consent options in "conduct" rules—those having to do with how the game is played (e.g., number of players in a game at one time, scoring, substitution, duties of officials, fouls and penalties).

## Concern noted

"In sending this recommendation forward again," said Anson Dorrance, chair of the soccer rules committee, "we recognize that there still will be concern with the proposal."

"The survey indicated that a narrow majority—385 to 305—was not in favor of a change. However, that figure also clearly indicates that there is a large segment in college soccer that does want some limits on substitution."

Dorrance, head coach at the University of North Carolina, Chapel Hill, said the committee also recognized that participation opportunities are important to many institutions.

"But at the same time, there is growing sentiment in other segments that unlimited substitution is disruptive to the flow of the game," he said. "We believe that this compromise allows for greater participation by removing the restriction on the number of players who can get into the game and helps those 305 teams that want to improve the flow of the game."

Dorrance noted that the North Atlantic Conference experimented with a similar rule last fall and the average time required to complete the substitution process when limited reentry opportunities were in place was reduced by nearly 70 percent.

"Under our recommendation, there is no limit on how many players can dress for a game or how

often or how many substitutions can be made," he said. "There is a limit on when a player, once substituted for, can reenter the contest."

Also under the new rule, goalkeepers and cautioned players (if the cautioned player is removed immediately) are exempted from the reentry limitation.

## Other actions

In other recommendations, the committee voted to recommend that shinguards become required equipment for the 1991 season in an effort to reduce injuries. Shinguards became recommended equipment a year ago.

The committee's recommendation regarding the use of penalty kicks to determine a tournament champion was in response to the Division I Men's Soccer Championship in December that was terminated by the games committee after an hour of overtime play. Co-champions were named.

Under the new rule, which applies to tournament championship games only, two teams that are tied at the end of regulation time would play a 15-minute overtime period. If no winner is determined, another 15-minute overtime period would be played.

If the score still is tied, the teams would play no more than two 15-minute sudden-death periods. Finally, if neither team can win in sudden death, the champion would be decided by penalty kicks.

The committee noted that the use of cautions and ejections (commonly referred to as the "yellow card and red card system") has reduced significantly the amount of fighting and rough play. To enhance the system, the committee voted that a player who accumulates five cautions or ejections in a season will be suspended from the next game.

Also, each additional three cautions or ejections will result in an additional suspension. Any game in which a suspended player participates will be forfeited.

# Conference may get play-off berth in move that would set a precedent

For the first time in any NCAA division, a women's soccer conference will be granted automatic qualification for a postseason tournament berth if the NCAA Executive Committee approves a recommendation by the Women's Soccer Committee.

The recommendation to award automatic qualification for the 1990 season to the Independent College Athletic Conference was approved during meetings of the NCAA Men's and Women's Soccer Committees February 6-9 in Kansas City, Missouri. The Executive Committee will consider the request at its May meeting.

The women's Division III subcommittee also is recommending that the number of Division III women's soccer regions be increased this year from four to five. The action would result in a split of the South/Mideast region.

Under the new regional alignment, at least two teams still would be selected from each region for the 16-team championship.

The soccer committees also recommended the expansion of three division championships in 1990: the Divisions II and III men's tournaments and the Division II women's tournament.

Members of the Division II men's subcommittee are asking the Executive Committee to enlarge the 12-team Division II men's field to 16 teams, citing quality of competition, and the Division III men's subcommittee recommended that the Division III field be increased from 24 to 32 teams because of competitive

quality and last season's 1:10.8 ratio (one of every 10.8 Division III men's teams was selected for the championship). The Executive Committee denied similar requests last year.

If the Executive Committee approves the Division III request, that subcommittee also will ask for approval to increase the number of regions from six to eight.

Two years after the creation of the Division II women's play-off, the Division II women's subcommittee is resubmitting a recommendation to increase that field from four to six teams. A similar request was denied last year.

In their new recommendation, the Division II women note that the bracket expansion still would allow the tournament semifinals and final to be played during the second weekend of November. Two of the six teams would receive byes into the semifinals.

Although no tournament expansion is requested in Division I, the Division I men's subcommittee is recommending that a rest day be scheduled between that tournament's semifinals and final, which would be played on a Friday and Sunday. In another action, Division I men acted to boost ticket sales for their tournament by offering student and youth tickets for all tournament sessions, including the final.

Also, the Division I women's subcommittee is recommending that the West region states of Nebraska, New Mexico, North Dakota and South Dakota and the South region states of Arkansas and Louisiana

be moved to the Central region. Teams in those states schedule games in the Central region.

All three men's subcommittees recommended conferences for automatic qualification. They are:

- In Division I, the Atlantic Coast, Atlantic 10, Big West, Midwestern Collegiate and West Coast Conferences, the Ivy Group, and the Colonial Athletic Association.

- In Division II, the New England Collegiate, Northern California Athletic and Sunshine State Conferences.

- In Division III, the Dixie Intercollegiate Athletic, Independent College Athletic, Massachusetts State College Athletic, New Jersey Athletic, North Coast Athletic and State University of New York Athletic Conferences and the University Athletic Association.

# Facilities, fund-raising clinic offered by NACDA in April

For the 24th consecutive year, the National Association of Collegiate Directors of Athletics will offer its facilities and fund-raising clinic.

This year's session, the Mile-High Facilities and Fund-Raising Clinic, will be presented April 1-2 in Denver, Colorado, in conjunction with the NCAA Final Four.

Clinic sessions will focus on funding and construction of indoor and outdoor athletics facilities at Michigan State University, St. Cloud State University, Southern Utah State College, Georgia Institute of Technology, Clarkson University and Augustana College (South Dakota). University and athletics administrators from those institutions

and architects will be present.

Also, Bob Bronzan, president of APER Consulting Services in Danville, California, will speak on the topic, "A Guide to Master Planning."

The clinic will be at Denver's Registry Hotel, where lodging is available. Registration fees are \$150 for NACDA members and \$250 for others.

A limited number of single sets of tickets to the Final Four also are available for purchase by clinic participants on a first-come, first-served basis.

Further information about the clinic can be obtained from NACDA by calling 216/892-4000.

## No reform measure can usurp CEO responsibility

A. Kenneth Pye, president of Southern Methodist University, suggested a number of corrective measures aimed at improving college athletics in addressing a recent University of Hartford convocation, but he indicated that no reform measure or mechanism can substitute for presidential accountability and responsibility for the athletics program.

He also held CEOs accountable for conference and national athletics policy.

The key to reform of intercollegiate athletics is acceptance of responsibility by individual university presidents, according to Pye.

"In too many cases, presidents have not only delegated responsibility, they have abdicated it," Pye said.

The convocation marked the official opening of the university's new \$10 million sports center.

A.  
Kenneth  
Pye

Pye, who became Southern Methodist's president in August 1987, said, "Some presidents have delegated responsibility to an athletics director and a faculty representative, which sometimes is like entrusting a chicken coop to the supervision of a wolf and a fox."

The results are clear, he maintained: In the 1980s, 57 percent of

the 106 universities in Division I-A were hit with NCAA sanctions, were censured or were given probation for violations, with SMU receiving the severest sanctions.

### Lists problems

Payment to athletes for playing or for signing in the form of cash, interest-free loans to buy cars, entertainment expenses or jobs for relatives—were among the evils afflicting college sports listed by Pye.

In most cases, he said, the athletes receive funds from boosters or alumni, without the knowledge of the coaches. "And some coaches may not try too hard to find out how a young man who qualifies for a Pell Grant can afford a \$20,000 car."

Matriculation of athletes who have no reasonable expectation of graduating, placing athletes in carefully chosen "soft courses or majors,"

allowing athletes to play without catastrophic injury insurance and isolation of athletes in special dormitories are other problems confronting intercollegiate athletics, Pye said.

Some universities where the average SAT scores are extremely high "somehow conclude that applicants with SATs below 700 are good academic risks if they can dribble and shoot," he added.

### Corrective measures

Among corrective policies suggested by Pye: admission of no student-athletes unless they can do the academic work, regardless of their athletics ability; elimination of "loopholes" in the satisfactory-progress rules, and making athletes take the same kinds of courses as the other students.

He called for establishment of athletics councils, which would include students, alumni, faculty and

trustees, to monitor the policies and procedures of athletics departments.

These councils would be assigned specific duties and would report to their presidents annually with recommendations concerning policy, said Pye.

He said proposals by NCAA Executive Director Richard D. Schultz at the recent NCAA Convention in Dallas are promising. Among them: sharp cutbacks in recruiting, tenure for coaches and allowing college athletes to enter professional-league drafts without losing eligibility.

"Even with a good AD, a faculty rep, an athletics council and an external monitor, the president cannot dodge accountability and responsibility both for the internal administration of the program and for conference and national policy," he said.

## Nation benefits from leadership skills women learn in sports

### President George Bush

*The Associated Press*

"...we note with great pride and admiration the many accomplishments made by American women in sports.

"The leadership skills girls and women gain through sports and fitness activities serve them well throughout life. Our nation benefits from their leadership and example."

### Steve Weinberg, sports agent

*The Dallas Morning News*

"You have guys (agents) who are not going to abide by the rules, enticing (college football) juniors with cars, cash, drugs, women whatever is out there. And there are some players out there jumping on it.

"There will be a lot of guys thinking they are first- or second- or third-rounders going in the seventh and eighth rounds. They'll get a \$10,000 bonus and then \$70,000 or \$80,000 if they make the team.

"When they don't, their school will have revoked their scholarships and they're going to be in for a rude awakening. That's the horror show out there."

### Donna E. Shalala, chancellor University of Wisconsin, Madison

*The New York Times*

"Athletics is a separate world with its own culture, its own constituency, and is often tied into the political process. Over the years, athletics was always allowed to go its own way, and chancellors only gave attention to athletics programs when they got into trouble. They didn't know very much about them.

"We are now in the process of bringing them in from the cold and making them part of the university. But this is not an area to be messed around with by unskilled people."

### Dennis Green, head football coach Stanford University

*The San Francisco Chronicle*

"I think it's an excellent idea (some form of tenure for coaches).

"I think most people realize that stability is really how you have a solid program."

### Jon Margolis, columnist

*Chicago Tribune*

"Perhaps colleges should not recruit students whose major purpose is to play games for the general public's enjoyment (and the revenues of the school). But then, should they recruit actors and oboe players whose major purpose is to perform for the general public's enjoyment (and the revenues of the school)? ... The actor and the oboist are in school for the same reason the basketball player is—to prepare for a professional career. And like the basketball player, they may not make a living at that career.

"Besides, those who argue that universities are not institutions of mass entertainment should deal with a very important adversary—the general public.

"If the people of, say, Michigan want their schools to have top-flight sports teams, why then, they should have.

"In other words, this business about 'it's not the purpose of a university to provide entertainment' is questionable. Who decides the purpose of a university? Its owners. Which for most American colleges involved in big-time sports are the citizens of the 50 states.

"That's one of the realities many critics of college sports don't like to acknowledge.

Shalala

Green

Weistart

"So why not recruit good athletes and help them study the sports trade? Sure, most won't make the pros. But there are other employment opportunities in sports. There are jobs for administrators, recreation department bureaucrats, trainers, coaches, broadcasters, agents, managers, salespersons and

## Opinions

teachers of all of the above.

"This would not excuse enrolling students who can't read or getting the booster club to slip them cash. But it might reduce the exploitation of the student-athlete, who nowadays often is given a useless major...or put into a meaningless 'general arts' program."

### Jonathan Rand, columnist

*The Kansas City Times*

"If anything is going to be done to relieve the suffocating pressures under which major-college coaches work, it might help if they start taking a bit of pressure off themselves.

"...Coaches often unwittingly encourage fans to settle for nothing less than perfection. If even coaches claim that anything short of winning it all is unsatisfactory, how much sanity do they expect from the public and news media?

"Although no competitor worth his salt should jump with joy over finishing second, coaches would be wise not to toss any more logs on the fires that already heat the pressure cookers in which they work."

### John Weistart, professor of law Duke University

*The Dallas Morning News*

When recruiting, "coaches say a lot of things that aren't true. And my impression is that there is inherent lying and inherent bravado in recruiting that makes the process embarrassing to universities.

"I don't know how anybody can say the status quo is working. Where do we see more violations per capita? College or pro?

"The answer is clearly college. Why? Pro sports has an orderly system for matching up teams with talent. The frequency of violations in college is in recruiting."

### Leigh Steinberg, sports agent

*The Kansas City Times*

"Pretty soon, there will be some vivid examples of players (football players with college eligibility remaining) who come

out early, get cut, never finish school and end up financially destitute.

"That will be a powerful deterrent, powerful enough to scare kids into staying in school."

### Steve Pederson, football recruiting coordinator Ohio State University

*Scarlet and Gray Illustrated*

"We choose not to make that (possible coaching changes at other schools) an issue with kids. Generally, there are too many other people making it an issue, usually other schools and families and friends of the kids. They'll pay a lot of attention to rumors.

"And we're so proud of what we have at Ohio State that we just talk to kids about Ohio State, not worrying about what other people are doing.

"That kind of talk (coaching uncertainties) happens in such a short period of time, then it becomes a dead issue. I'm sure kids pay attention to that type of information, though.

"The worst thing you can have in recruiting is uncertainty, especially about a coaching change. When you have that, kids will shy away."

### Arthur Ashe, former tennis professional

*The Washington Post*

"In addition to modifying Proposition 42, the NCAA shortened the basketball season by three games and delayed the beginning of the season by a week, modestly cut spring football practice, and instituted year-round random steroid testing for football players.

"To me, most of the NCAA's actions show that it would rather tinker with the real problems than tackle them.

"The central problem remains: Too many of our institutions of higher learning have allowed their athletics departments to profane their very raison d'être in the interest of payoffs from television networks.

"...the most telling evidence of continuing hypocrisy of NCAA member schools is that the percentage of African Americans on Division I football and basketball teams is 38 percent and 58 percent, respectively. The percentage of African Americans enrolled in these schools is a mere 5.5 percent, which means these schools are saying they like us as athletes but not particularly as ordinary students."

# College presidents finally get off the sidelines

By Rodney C. Kelchner

Momentum has shifted away from those who favor the status quo in college sport to those who see a need for greater efforts to address its ills.

That new attitude is the legacy of the 1990 NCAA Convention in Dallas last month.

Already, the NCAA Presidents Commission, fresh from a hard-won victory in getting delegates to vote for a "reform" package of legislation at the Convention, has set an April meeting to direct new efforts. There are plenty of available targets.

To the general observer, the reforms approved at the recent NCAA Convention may not seem significant.

Largely at the urging of college presidents, the NCAA shaved a few days off spring football practice, cut a couple of games from the basketball season and required colleges to disclose the graduation rates of student-athletes.

## Important first steps

These are halting, but important, first steps in dealing with one of the well-publicized problems of college sport—the poor graduation rate of many students who participate in athletics.

We wanted to make schools accountable by publicizing graduation rates. And we wanted to reduce the time spent away from the classroom by student-athletes. Well-designed studies have documented excessive time demands placed on student-athletes in "big time" college football and basketball programs.

These modest measures were passed only after close votes. The media portrayed the fight as the athletics directors versus the college presidents. Unfortunately, in some cases that was true. Most athletics

Rodney C. Kelchner

directors, however, particularly those at schools where sport is not a big-money business, supported the presidents' proposals.

To be blunt, the presidents needed a win in Dallas. Our credibility within the NCAA was at stake. We

were better organized than ever before and we had to be. The margin of passage for the reforms was earned only after the most intensive lobbying efforts I have ever seen.

It's clear that athletics directors at schools where sport is a multi-million-dollar business are under great pressure to maximize revenues. You make money in big-time football and basketball by filling the seats (winning) and by playing more games.

This easily can create an unfriendly climate for study among student-athletes. Anyone who has read the sports pages in the last decade knows that. Scandals today make almost as many headlines as the sports events themselves.

College presidents have a critical role to play in governing athletics. A

president is responsible for the entire institution's well-being, not just the sports programs. He or she must ensure that the institution controls its sports programs. Athletics must not function as an independent entity responsible only to the bottom line.

## CEOs have momentum

The 1990 NCAA Convention really was the first one at which the presidents used some muscle. It will not be the last. Our small victory gave us momentum.

When the presidents meet in Washington, D.C., April 4-5, we will begin to decide our next steps.

Now that we've made a little progress in reducing time demands on football and basketball players, we would like to examine other sports.

Many schools, for example, play 70 or 80 baseball games. That's ridiculous. The students playing baseball at those schools really are asked to give up an entire semester.

Time demands, the rising cost of administering athletics programs and even the structure of the NCAA itself are among the items likely to be discussed by the Presidents Commission between now and next year's NCAA Convention in Nashville.

Increasingly, college presidents are learning they must take a more active role in athletics governance. We've been on the sidelines too long.

*Kelchner is president of Mansfield University of Pennsylvania and one of 44 college and university presidents on the Presidents Commission.*

## Letter to the Editor

### Abolish dorms

To the Editor:

As I read some of the comments, pro and con, concerning the use of athletics dormitories, I must concur with Richard D. Schultz that athletics dormitories need to be abolished.

Athletes need the opportunity to be participants and to be integrated into the mainstream of campus life. We must get away from the idea that we must control athletes and that athletes must develop individual responsibility to be productive individuals in society.

As an athletics academic counselor, I have no problems finding athletes when I need them. I go to practices, conditioning activities, games and, if the need arises, their off-campus housing. I have never had a problem contacting athletes when I have needed them.

As a former student-athlete, I enjoyed the opportunity to live with nonathletes; it allowed me to interact and participate in many nonathlete activities. It provided me with a well-balanced college experience.

If you poll your students, you'll find they'd rather have a housing option.

Charles Wilson  
Assistant Athletics Director  
and Athletics Academic Counselor  
Michigan State University

## Research confirms that business thrives on lots of sun and plenty of water.

The sound of water cascading from a fountain can help crystallize one's thinking.

A sunny room is infinitely more uplifting than a dim room.

Certain color schemes can warm you. Open, airy spaces can make you feel free.

Certainly, none of these thoughts is especially surprising. What is surprising, however, is that

only one group of hotels seems to employ them to the fullest advantage of today's business traveller: Hyatt® Hotels.

Which may help to explain why everything, from our atriums to our guest rooms, has such a distinctive appeal.

Why business

executives tend to feel more relaxed and more focused at Hyatt.

And why, given our competitive rates and the benefits of our Gold Passport® Frequent Traveller Program, enlightened

companies are happy to see their executives come back to a Hyatt Hotel. After all, what's good for business people invariably is good for business.

# All-time tournament attendance to top 10 million

By Richard M. Campbell  
NCAA Assistant Statistics Coordinator

Supersized arenas arrived in college basketball in the 1980s.

Seven Division I teams now are playing their home games in arenas seating at least 20,000 spectators. Five were built in the 1980s: those at Syracuse (33,000), Tennessee (24,535), North Carolina-Charlotte (23,338 in the new Charlotte Coliseum), North Carolina (21,444) and Seton Hall (20,149 at the Meadowlands). Only those at Kentucky (23,000) and Brigham Young (22,700) were built in the 1970s.

The proliferation of larger arenas has made a real impact on NCAA Division I tournament attendance. In fact, during the first round of the 1990 tournament, all-time tournament attendance will pass the 10-million mark [more than four million spectators (4,606,969) were counted during the 1980-89 period]. The actual 10-million milestone should be reached March 15 in the first game of the West first-round session in Salt Lake City—if all of the other first-round sessions are sellouts.

One more milestone is on the horizon: The one-million figure for the championship games alone is expected to be surpassed in the 1992 Final Four at the Hubert H. Humphrey Metrodome in Minneapolis. That, incidentally, will be the celebration year of the centennial of basketball (100 years since the invention of the sport by Dr. James Naismith in Springfield, Massachusetts).

Milestones pop up much more often in the current era of 64 team fields and 63-game tournaments. For instance, 10 years were required to play the first 100 games in the tournament; but now, only about 1½ tournaments are needed for 100 games.

The tournament expanded to include 48 teams in 1980, went to 52 in 1983, 53 the following year and to the present 64 teams in 1985. Obviously, more teams mean more sessions in which to count attendance, but that does not obscure the fact that bigger and more attractive facilities have provided an impetus to the college basketball fan.

The number of tournament games has gone from eight in the first championship in 1939 to 28 by 1954, 32 by 1976, 52 in 1984 and the present 63 in 1985. That first tournament drew 15,025 for all five sessions and 5,500 for the championship game between winner Oregon and Ohio State in Evanston, Illinois. Contrast those figures with last year's 630,851 overall tournament attendance, including 39,187 at the championship game in Seattle's Kingdome.

The all-time record for a tournament single game was 64,959 in 1987 for the championship between winner Indiana and Syracuse in the Louisiana Superdome. The only other collegiate games with more attendance were two regular-season games—Louisiana State vs. Notre Dame January 20, which drew 68,112, and Louisiana State vs. Georgetown, which drew 66,144 in 1989. Both games were in the Louisiana Superdome.

Syracuse, site of the nation's largest on-campus facility, set a new home-court single-game attendance record February 10 as 32,820 packed the Carrier Dome to see the Orangemen down Connecticut, 90-86.

The Final Four, now one of sport's most attractive events, will stay with the trend toward the large arena, at least for the next three

**Eastern Washington's Ronn McMahon leads Division I men in steals per game**

**Tine Freil, Pacific, is the Division I women's leader in assists per game**

**Michelle Butler, Livingston, is No. 2 in Division II three-pointers per game**

**Emory and Henry's Leon Hill is second in Division III three-point percentage**

years. This year's semifinals and final, scheduled for Denver's McNichols Arena (seating 17,022), will be the last for a while at a smaller facility. In 1991, the Final Four goes to the Hoosier Dome in Indianapolis (seating 43,000); in 1992 to the Humphrey Metrodome in Minneapolis (39,000), and in 1993, back to the Louisiana Superdome in New Orleans (64,959), site of the 1982 and 1987 events.

The Indiana Hoosier Dome and the Humphrey Metrodome both were built in the 1980s. Three other domed stadiums used for NCAA tournament games in the 1980s were

Southeast  
Louisiana Superdome, New Orleans, Louisiana (64,959)  
Midwest  
Reunion Arena, Dallas, Texas (17,000)\*  
West  
Oakland-Alameda Coliseum, Oakland, Calif. (14,200)  
Finals  
McNichols Sports Arena, Denver, Colorado (17,022)  
\*Arena built in 1980s

Television also has been responsible for the increased fan interest in college basketball, and larger arenas have allowed more fans to see many of the teams and players in person. Rather than harm attendance, the proliferation of televised games has improved fan knowledge of the

(Ohio) (30-0, NAIA titlist) and Evansville (29-0, Division II champion), both in 1965. The only Division III unbeaten team was Potsdam State (32-0), the 1986 champion.

In women's basketball, the three undefeated teams are Division I Louisiana Tech at 22-0, Division II St. Joseph's (Indiana) at 21-0 and Division III St. John Fisher at 22-0.

Texas' 34-0 national-championship team in 1986 posted the only perfect women's record in all divisions since 1982.

## Quotes of the week

Colorado coach Tom Miller on having to play Missouri, Kansas and Missouri again in succession in the Big Eight Conference: "It's the kind of stretch where if you win one and lose two, you'd be the talk of the nation because you've knocked off No. 1 or No. 2. And you'd still be 1-2 for the week." (*David Plati, Colorado SID*)

Kentucky coach Rick Pitino, whose Wildcats lead the nation in three-point goals made per game and have set several NCAA three-point shooting records this year: "I believe that the NBA was playing this way about 10 years ago. You saw scores in the 130s; they were all playing up there. Now the NBA has come down to where college basketball was. You see a lot of games in the 90s and lower 100s. It's come down, while the scores in college basketball are going up."

"What I think we need to do, to make it the best game there is, is to move the three-point line back. I think right now it's much too easy a shot. I'd like to see it brought back to the NBA distance or, more favorably, to the international distance. I think then the scores will come down a little bit, but it would be good for college basketball." (*Chris Cameron, Kentucky SID*)

Don Haskins, UTEP head coach sidelined for the remainder of the year by a severe case of laryngitis: "I am fearful of returning to the bench this season because I tend to yell. On the other hand, I watched the Miners play a road game on television, and I even screamed at the television." (*Eddie Mullens, UTEP SID*)

## Can you top this?

Is Campbell center Marvin Edmonds the oldest player in college basketball this year? The 6-9 junior center was born March 23, 1961. He did not play prep basketball and served six years in the U.S. Army as a cook. (*Charles Taylor, Campbell sports information office*)

Marietta senior guard Cathy Clark passed the 2,000-point career scoring mark, becoming the first woman player in Ohio Athletic Conference history to pass that mile-

stone. She has been a three-time all-OAC performer as well as an academic all-America last year. (*Brett Steele, Marietta SID*)

Centre men's head coach Tom Bryant got his 300th career win vs. Sewanee February 3. He has spent his entire 22-year career at Centre, where he has led his teams to 12 of the last 17 College Athletic Conference titles and two appearances in the Division III semifinals. (*Ed Rall, Centre SID*)

Johnson C. Smith junior Kim Brewington broke the NCAA women's Division II single-season scoring record when she scored 30 points against North Carolina Central last week. Brewington, who broke the single-game scoring record with 64 points vs. Livingstone earlier this year, broke Mary Naughton's (Stonewall) record of 799, set in 1988. This season's women's Division II scoring leader now has 803 points through February 10. (*James Cuthbertson, Johnson C. Smith SID*)

Central Missouri State's women reached the 20-victory plateau for the ninth straight season February 3. Over this stretch, the Jennies have a 225-45 record. This is the earliest that Central Missouri State has reached the 20-win mark. (*Todd Gurnow, Central Missouri State assistant SID*)

Wabash's men's team set a new Division III single-game field-goal-percentage record by hitting 31 of 37 from the floor for 83.8 percent to down Anderson, 85-67, February 10. Wabash hit the first seven shots of the game and missed only three from the floor each half. Only 32 turnovers by the Little Giants prevented a bigger margin. (*Jim Amidon, Wabash SID*)

Northwestern State's (Louisiana) Pam Hudson turned in a spectacular night February 10 in the Lady Demons' 102-85 victory over McNeese State. The nation's No. 2 scorer canned a school-record 48 points and grabbed 23 rebounds, shooting 20 of 23 from the floor. She hit 30 points in the second half on 12-of-13 shooting. (*Doug Ireland, Northwestern State (Louisiana) SID*)

## Other cage notes

On Wheaton's (Massachusetts) road trip to upstate New York February 3-4, the Lyons turned in their Good Samaritan act of the year: At their hotel in Albany, 20 people visiting relatives in the state were stranded when their bus broke down in inclement weather. The squad decided to give the group a ride into New York City on the team bus since it was on the way to its next game vs. Merchant Marine at Kings Point. (*A. J. Myers, Wheaton (Massachusetts) SID*)

## Basketball notes

built in the 1970s—the Louisiana Superdome, the Kingdome (39,187) at Seattle (Final Fours in 1984 and 1989) and the Pontiac Silverdome (36,000) near Detroit. (The Astrodome at Houston, site of the 1971 Final Four, was built in 1965 but is no longer used for basketball.)

The Division I Men's Basketball Committee has not ruled out returning to a "smaller" arena for the Final Four in future years. The real gain in attendance during the overall championship comes at the other 32 sessions as the larger arenas host first and second rounds or the regional sessions. In fact, a Final Four arena usually will host a tournament session prior to the year it hosts the semifinals and final.

Five of the 1990 tournament's host arenas were built in the 1980s, and three—the Meadowlands, Tennessee's Thompson-Boling Assembly Center and the Indiana Hoosier Dome—could be classified as large arenas.

Below is a chart of the 1990 NCAA tournament arena capacities:

### First and Second Rounds

East  
Hartford Civic Center, Hartford, Connecticut (16,016)\*  
The Omni, Atlanta, Georgia (16,271)  
Southeast  
Thompson-Boling Arena, Knoxville, Tennessee (24,535)\*  
Richmond Coliseum, Richmond, Virginia (10,716)  
Midwest  
Frank Erwin Center, Austin, Texas (16,231)  
Indiana Hoosier Dome, Indianapolis, Indiana (43,000)\*  
West  
Jon Huntsman Center, Salt Lake City, Utah (15,000)  
Long Beach Arena, Long Beach, California (12,000)

### Regionals

East  
Meadowlands Arena, East Rutherford, N. J. (20,149)\*

game and allowed more people to see teams from other areas of the country play.

A total of 105 Division I teams play their home games in arenas seating at least 10,000 spectators. Ten years ago, there were 82, and 12 more played some of their home games in 10,000-plus city arenas. Twenty years ago, only 51 were in five-digit arenas; 30 years ago, just 22.

As mentioned, the 1980s were responsible for the biggest chunk of tournament attendance, but the overall figures grew as basketball's popularity grew. In the 1940s, 593,032 attended tournament games, an average of 10,782 per session. That grew to 1,241,435 in the 1950s, but per session fell to 9,931. In the 1960s, attendance rebounded to 1,564,103 (11,093); the 1970s, attendance was 1,935,789 (11,125). Per-session attendance rose to 15,155 in the 1980s.

## Perfect seasons?

Many basketball experts say Division I may never see another undefeated men's team. That prediction has been validated for the 14th consecutive year.

There also are no perfect men's teams remaining in either Division II or III and only three are left in all divisions of women's basketball.

Indiana's outstanding 1976 national-championship team (32-0) was the last unbeaten squad (including NCAA tournament games). It was the last of 12 Division I teams since the elimination of the center jump (1938) to go a full season (tournament play included) with a perfect record. Twelve others since 1938 were perfect in regular season, then lost in postseason play.

The last undefeated men's teams in Division II were Central State

# Committee wants to allow researchers to use AIR data

The NCAA Research Committee has recommended that researchers from member institutions be given access to the data collected by the American Institutes for Research as part of the 1987-88 National Study of Intercollegiate Athletics.

Under the recommendation, qualified staff of NCAA member schools would submit proposals outlining the nature of their research and the intended use of the data. Proposals would be reviewed and approved by NCAA research department staff, which would consult with the committee on proposals dealing with controversial issues or special requests.

## Council OK needed

The committee made the recommendation at its February 8-9 meeting in Phoenix, Arizona. It is subject to NCAA Council approval.

The AIR study, conducted at the request of the NCAA Presidents Commission, investigated the effects of participation in intercollegiate athletics on student-athletes. AIR surveyed 4,083 student-athletes and students who participated in other extracurricular activities at 42 Division I institutions.

The surveys contained questions about demographics, academic preparation and performance, aspirations and expectations, recruitment experiences, personal experiences in college, and physical and emotional health. AIR prepared six reports analyzing the survey data, including analyses of differences by race and sex.

"The Research Committee is eager to see proposals for analyses of the survey results that are different from those done by AIR," said Todd A. Petr, NCAA assistant director of research. "Committee members would like to see ways in which issues in the AIR studies can be examined in more detail or topics that the reports did not address at all."

Researchers whose proposals are approved would be able to conduct these analyses using all the raw data gathered by AIR. Respondents' identities would remain confidential.

In a related matter, the committee decided to delay funding for updating the file of survey respondents' addresses. The committee is not opposed to keeping the list up to date so a longitudinal study can be conducted in the future; however, committee members believe that waiting a year to update the file will not reduce significantly the number of respondents who can be found.

"AIR did one follow-up last fall, and it got a 50 percent response to requests for address maintenance," said Petr. "Committee members feel that an update at this point would not make the size of the file any larger than if an update were attempted in the near future."

The committee plans to discuss this issue again at its July meeting.

## Academic study

In other business, the committee discussed the NCAA Study of the Academic Performance of Student-Athletes. In the study, each of the 291 Division I institutions has been assigned to one of five cohorts; each cohort collects data on the class entering college in the year assigned to it, beginning with 1984 and ending with 1988.

All student-athletes with grants-in-aid are tracked throughout their careers at the institutions, with school officials providing information on each athlete's high-school preparation, core-curriculum grade-point average, SAT or ACT scores, declared major, credits earned, college grade-point average, tutoring required, summer school hours, play-

ing time, varsity status and more.

The committee discussed the methodology for continuing the study and agreed to determine whether test scores, high-school grade-point average and other measurable variables can be used to predict whether a student will graduate.

The committee would like to determine false-negative and false-positive rates for a variety of hypothetical combinations of performance standards. The false-positive rate is the percentage of students that did not graduate but would have met a set of initial-eligibility standards; the false-negative rate, also called adverse impact, is the percentage of students that graduated but would have been denied initial eligibility under the standards.

Such an analysis would involve

setting a hypothetical initial-eligibility standard—for example, a 2.200 high-school GPA and an ACT score of 16 or SAT score of 725—and determining the percentage of

*Committee is discussing study that would attempt to learn more about the educational experience of student-athletes*

students who met the standard but did not graduate (false-positive) and the percentage of students who did not meet the standard but did graduate (false-negative).

Committee members believe minimizing false-negatives is more important than minimizing false-positives. They agreed that the goal of the research is to find the standard or combination of standards that has the lowest level of adverse impact.

The committee also began preliminary discussion of a more qualitative study of academic life. Such research, which probably would be conducted as a series of case studies, would examine the quality of academic life for students just above and just below the initial-eligibility requirements of Bylaw 14.3.

"This would be a different sort of attempt to learn more about the educational experience of the student-athlete," said Petr. "What is the student-athlete getting out of college? How and why do experiences

differ among students? Essentially, such a study would provide a broader definition of the college experience than looking at graduation rates."

Selected committee members will draft a request for proposals that will be reviewed by the full committee at its July meeting.

In other actions, the committee:

- Reviewed its annual report, research being conducted by NCAA staff and NCAA-funded research being conducted outside the Association.

- Changed the procedure for reviewing investigator-initiated proposals. Previously, each committee member reviewed all proposals submitted, usually numbering near 30. Under the new system, small groups of committee members each will review a share of the proposals.

## On October 28, 1989, WORLDTEK TRAVEL brought URI & Villanova together in Italy for the Milano Football Classic. Everybody came home a winner!

It was history in the making as WORLDTEK brought together the University of Rhode Island and Villanova for the first American college football game ever played in northern Italy.

It was a massive undertaking, moving two teams, tons of equipment, and hundreds of fans, but in the end everyone came out on top.

For the players and coaches, it was the opportunity of a lifetime to play abroad.

For the fans, going on special WORLDTEK package tours, it was a unique chance to travel to Europe for less, while supporting their teams.

The universities were winners, too, with a no-cost opportunity to play abroad, revitalize fan interest, and profit financially. Sound exciting? You bet it is.

If you'd like to take your team to play in Europe next year, call Andy Mooradian today at the number below for more details.

**WORLDTEK.**  
In sports travel,  
nobody does it  
better.

# New NCAA

Continued from page 1

## Features

The new facility's list of attractions is lengthy:

- For the first time, the national office will centralize its shipping and duplicating services, permitting secretaries to spend more time at their desks.

- The building will feature a library—open to visiting researchers as well as staff members—that is 10 times bigger than the library at the Mission headquarters.

- It also will offer four large conference rooms, compared to the one large room available in the Mission facility. Also, each department area will have a smaller conference room. Such groups as the NCAA Executive Committee and the NCAA Foundation Board of Directors will be able to hold meetings in the building.

- Areas have been specially designed for such users as the data processing staff and the publishing department's graphics staff. Also, for the first time, the publishing staff will be able to store its entire inventory of books within the national office building.

- A large, comfortable lunchroom will be available to staff members. Also, locker rooms and showers have been installed, in keeping with the Association's desire "to promote the physical fitness and wellness of employees," Hunter said.

- A in-house video production studio will enable the communications staff "at least to do preliminary editing—something we haven't had before," said James A. Marchiony, NCAA director of communications. There also will be more space for storage of the NCAA's videotape and film library.

- Several administrators will have access to an "in-house communications system" that will permit the viewing of sports-related television programs. "We'll be able to monitor shows like sporting events, press conferences and sports talk shows that are carried on either of two satellites," Marchiony said. "It will help us keep better informed about what's going on." Some conference rooms also will be linked to the system.

- Keys will become a thing of the past, thanks to a "card-access" system that permits staff members to enter areas of the building by showing a personalized card to an electronic "reader."

- Not only is the building attractive; so are the grounds. An outdoor terrace adjacent to the second-floor lunchroom can be used for special NCAA events. A fountain in front of the visitors center can be converted into an inviting plaza area. Northwest of the building, a required retention pond is designed to be aesthetically pleasing as well as practical.

When the building opens, the NCAA staff will occupy all of the first, fourth, fifth, sixth and seventh floors and part of the second floor. The remaining space in the building will be leased by such tenants as Lederle Laboratories, a sports-med-

Wayne O. Davis photo

**The NCAA's new national office building is located on an 11½-acre site in Overland Park, Kansas. The seven-story, 154,000-square-foot structure, which is scheduled to open February 26, will house**

icine firm that recently announced it will open a regional sales office.

### First floor

Besides housing the visitors center (see January 31 issue of *The NCAA News*), the first floor is home to the new office services center—the national office's centralized shipping and duplication facility.

The center, which will begin operations the day the building opens, is needed because of "the size of the new building and the realization that we need to be more productive and more coordinated," Hunter said. "Not too long after the West building was built (in 1982), we investigated the idea of centralized duplication and mailing," he explained. "We decided we weren't big enough."

Since then, staff members have done their own copying jobs and prepared their own mailings.

"Secretaries go to the workrooms, do the duplicating, use the machines, prepare and stuff the envelopes, and move them out the door," said Marla B. Gleason, who recently was hired as office services center manager. "That takes them from their desks, sometimes for a long period of time, but they still have to answer their phones."

"When it became obvious that we would build and occupy a new building, it was apparent that we'd have to change the way we do things," Hunter said.

Under Gleason's direction, the center will open with a staff of five full-time employees and a part-time shipper. The center also plans to hire several part-time assistants who will be "on call" to handle big jobs.

"We'll take over the task of operating the machines and getting the materials out the door," Gleason said.

The center will utilize three high-volume duplicators, including one

that can produce 100 copies a minute; mailing machines featuring accounting systems that can record charges to departmental or other accounts; a shipping-manifest system for rapid processing of parcel service shipments, including the capability to "shop" for the best rates, and other equipment, including a high-speed folder and label affixer.

The center's staff also will distribute and pick up mail throughout the building several times a day.

The visitors center will occupy about 13,000 square feet of the first floor, while the office services center and storage rooms for publications and office supplies will take up most of the remaining space.

### Second floor

The main lobby, featuring a granite floor, will be at the south entrance to this level (the visitors center will

**more than 180 Association staff members, in addition to several other tenants. Construction of the building began in November 1988.**

have a separate entrance at the north side of the first level). About half of the second floor will be used by the Association and the rest will be leased to tenants.

The NCAA Foundation will have its offices on the second level.

Also, the staff lunchroom will be here, as will men's and women's locker rooms and showers.

### Third floor

The entire third floor will be leased to tenants by the building's owner, Copaken, White and Blitt. In five years, the Association will have the option to lease additional space in the building and could move to the third floor at that time (see related story on this page).

### Fourth floor

The Association's business and enforcement departments will be located on this floor.

A room designed to house the

Association's computer is located within the business department.

### Fifth floor

The legislative services and compliance services departments will be located here.

Another fifth-floor feature is the expanded library, which Ursula R. Walsh, NCAA director of research, believes will be one of the best facilities of its kind in the nation.

"One of the most valuable things we have is Walter Byers' papers from throughout his time as NCAA executive director," Walsh said. "We haven't organized them the way we want to, and that's what we'll be doing in the new library."

Once the papers are recorded on microfilm, Walsh said, the collection will be comparable to the Walter Camp Library at Yale University and the Avery Brundage collection

See *New NCAA*, page 20

## Building can accommodate 10 years' growth

The new NCAA national office building is designed to accommodate potential staff growth for at least the next 10 years.

When the staff moves into the building, it will occupy 120,000 of the seven-story building's 154,000 square feet of space. One entire floor—about 20,000 square feet—and part of another floor will be leased to other tenants by the building's owner, Copaken, White and Blitt.

If the Association eventually fills the building (the NCAA has an option to lease more space in the building five years from now), the design would permit construction of another 40,000-square-foot wing on the 11½-acre site, provided that the city of Overland Park is willing to grant necessary zoning changes and exceptions.

The NCAA also owns a separate building—currently used by the enforcement department—and seven acres of land immediately west of the new building. That land is conditionally zoned for an additional 96,000 square feet of office space.

"We think that these sites can accommodate any foreseeable future expansion," said Richard D. Hunter, NCAA director of operations and manager for the national office building project. "That was the desire, we think, of the Executive Committee and the Special Committee to Re-

view Future Office Requirements."

The new building was designed to accommodate the same kind of growth experienced by the Association during recent years, Hunter said. There is no guarantee that the staff will continue to grow at that pace; the plan simply recognizes the potential for growth, he said.

When the building opens, the

Association will occupy all of the first, fourth, fifth, sixth and seventh floors and part of the second floor. The third floor will be used by other tenants.

Each floor occupied by the Association includes space that could be used during the next five years for staff expansion, Hunter said.

## CAMPUS RESOURCES

INCORPORATED

THE  
#1  
TEAM OF  
EXPERTS  
IN PRODUCT  
FUND RAISING  
ACTIVITIES  
ACROSS  
THE  
NATION!

Campus Resources has a proven, highly-successful plan for raising money .... lots of it .... fast! If your athletic teams need extra funds for non-budgeted items such as travel, etc., Campus Resources has a program just for you! Our track record proves our system works! We can help you raise \$2,000 - \$4,000 for teams of 20 or more and we can do it quickly with maximum profit and minimum effort. Our product sale fund raising programs are risk-free, short and easy to run. Most importantly, they're profitable for you! When you think about product sale fund raising, think Campus Resources .... the team with the means to make the most money for you. Call the #1 team of experts:

## New address, phone number

Plans call for the NCAA national office to be closed Friday, February 23, to permit the Association's staff to move into the new national office building in Overland Park, Kansas.

The move is scheduled Friday through Sunday, February 23-25.

Beginning February 26, the

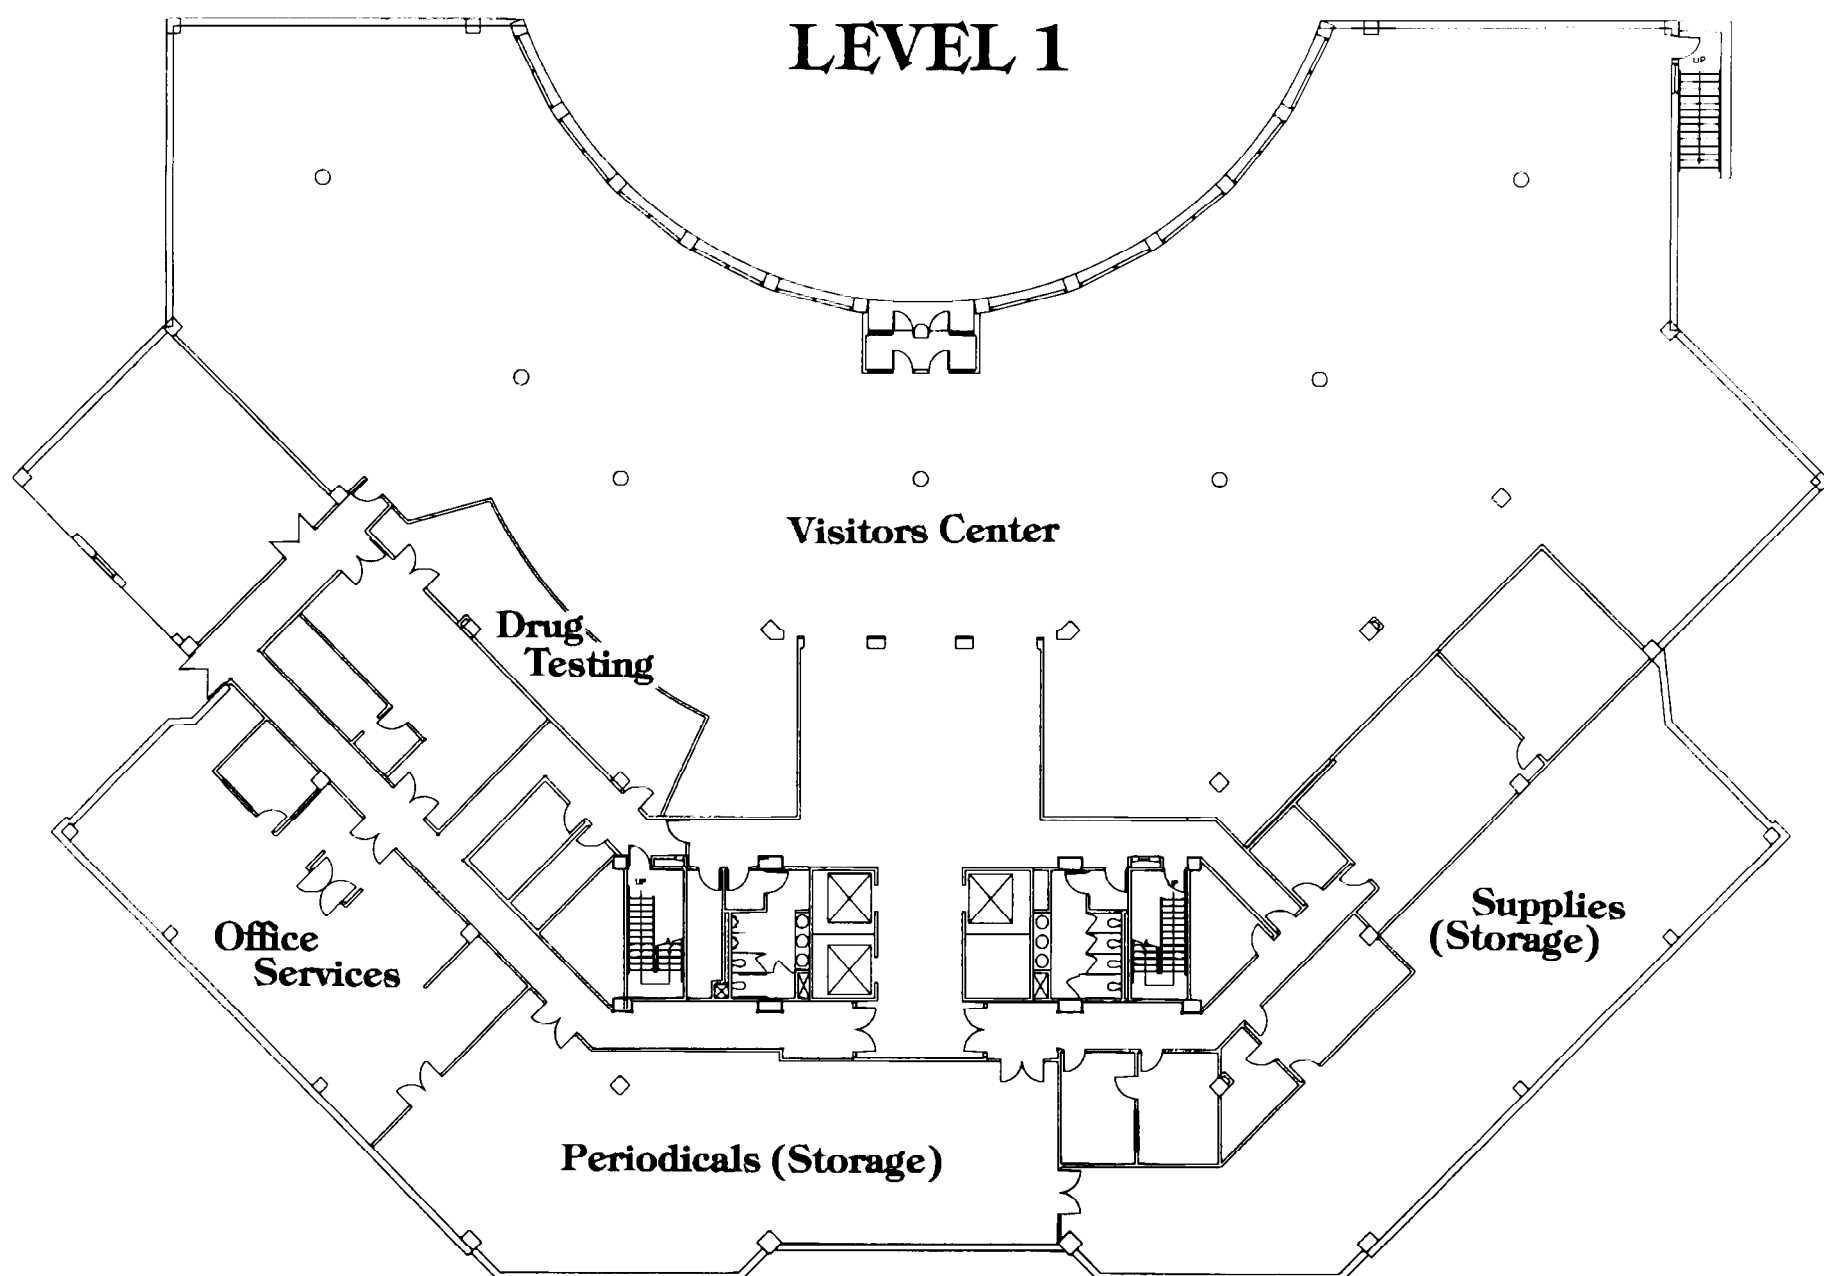

Association will have a new mailing address and telephone number. The address will be:

NCAA  
6201 College Boulevard  
Overland Park, Kansas  
66211-2422

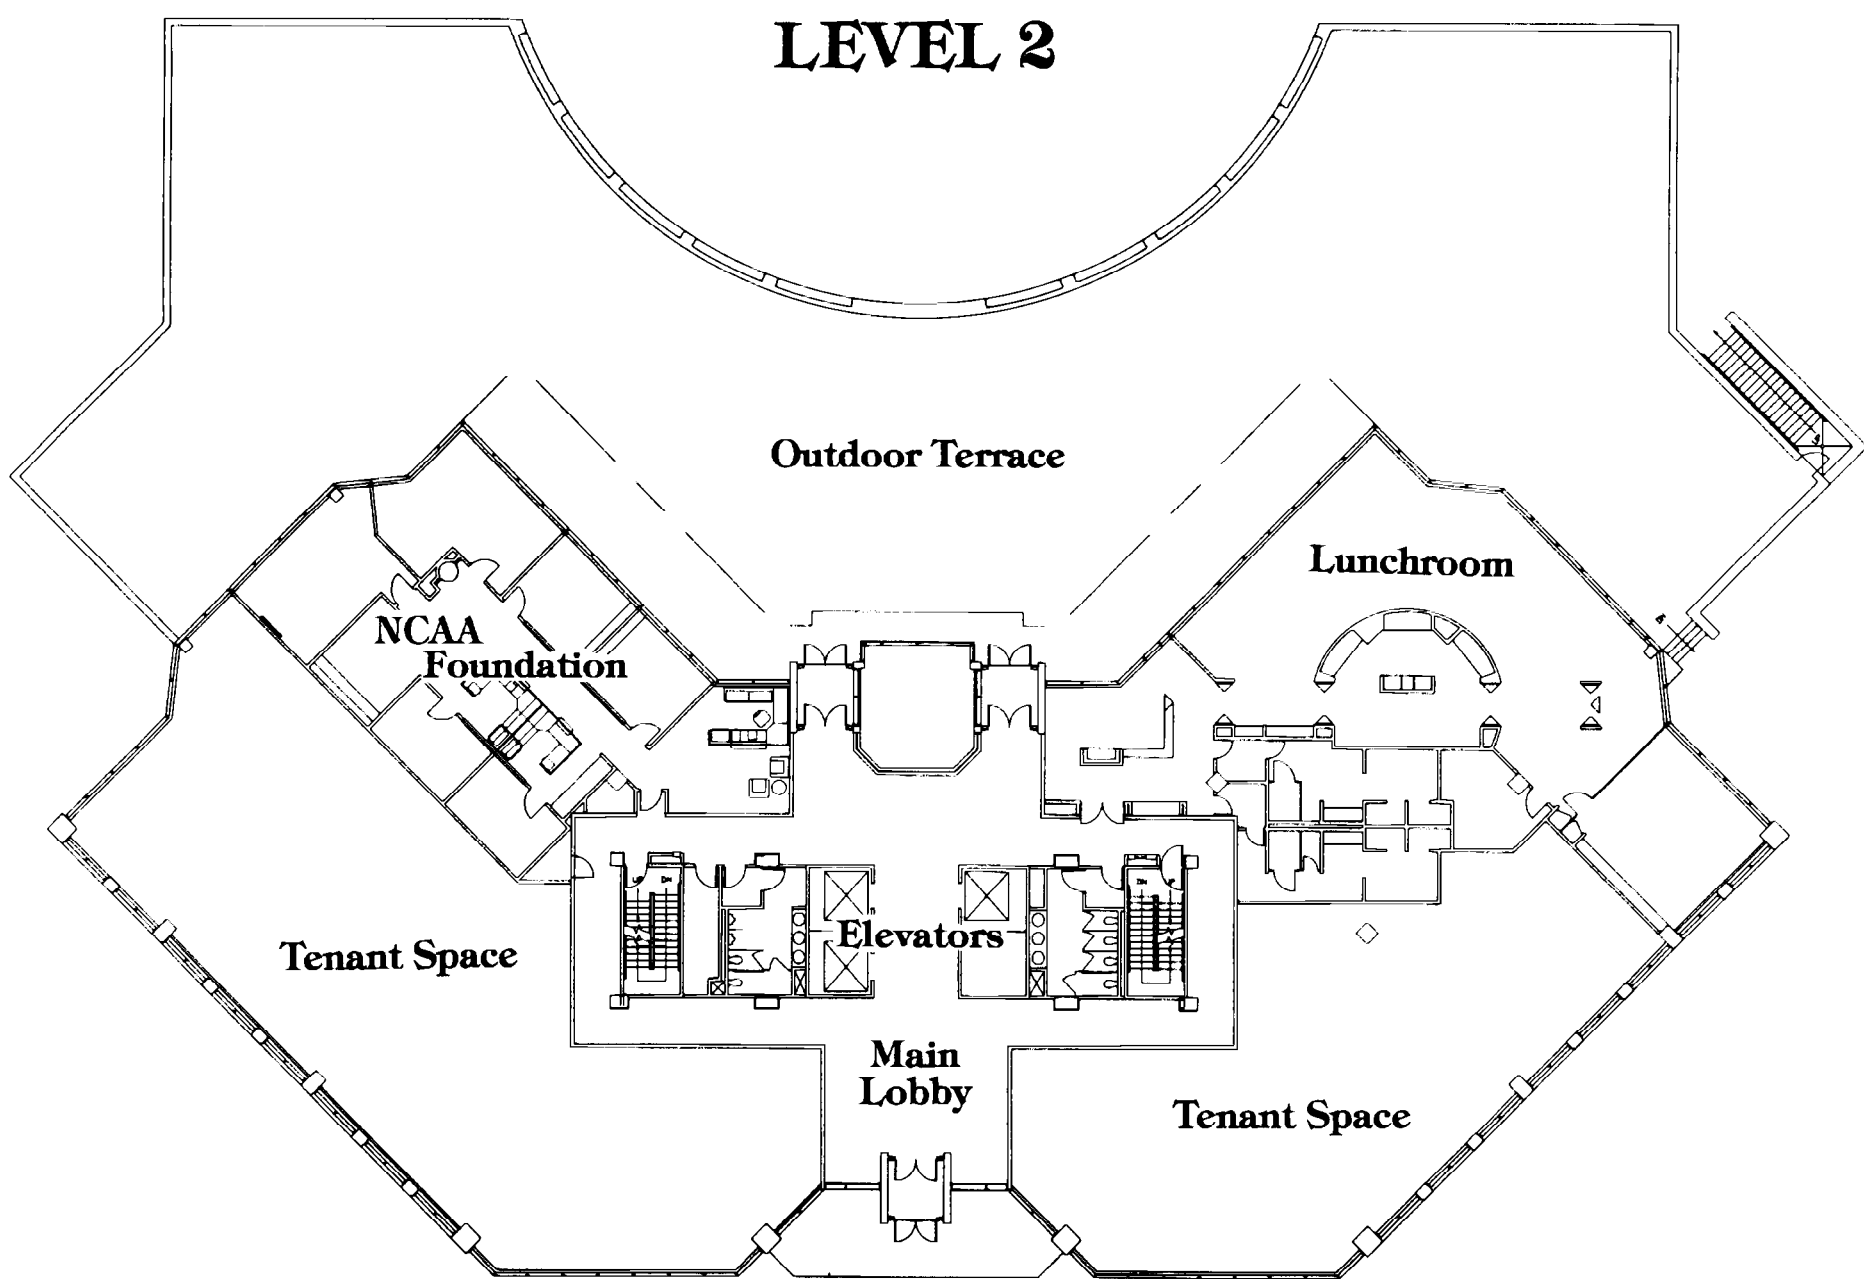

The Association's new telephone number will be 913/339-1906.

## LEVEL 1

## LEVEL 2

# A one-man office grows to seven-story building

In the beginning, the NCAA had a staff of one—Walter Byers.

When Byers became the Association's first executive director in 1951, he worked in the "back pocket" of the Big Ten Conference's office in Chicago, Illinois. A year later, he moved the NCAA to his hometown of Kansas City, Missouri, and established the organization's first separate offices.

When the NCAA moves into its new national office building in Overland Park, Kansas, the structure

will become the sixth building occupied by NCAA staff members since Byers moved out of the Big Ten offices—not counting temporary offices rented from time to time in the Kansas City area.

Byers set up shop in downtown Kansas City, Missouri, in what was then known as the Fairfax Building. Then, the staff of one grew to five—Byers was joined by an assistant, Wayne Duke, who later served as commissioner of the Big Eight and Big Ten Conferences; two secretar-

ies, and a bookkeeper.

In 1964, needing more space, the NCAA moved about two blocks to the Midland Building, where it occupied the entire second floor. The staff continued to grow.

In 1973, the NCAA completed construction of a new headquarters building in Mission, Kansas. At first, the staff used only the top floor and parts of the building's other two floors; some of the remaining space was leased to a tenant. But as the 1980s approached,

the staff also filled up that structure.

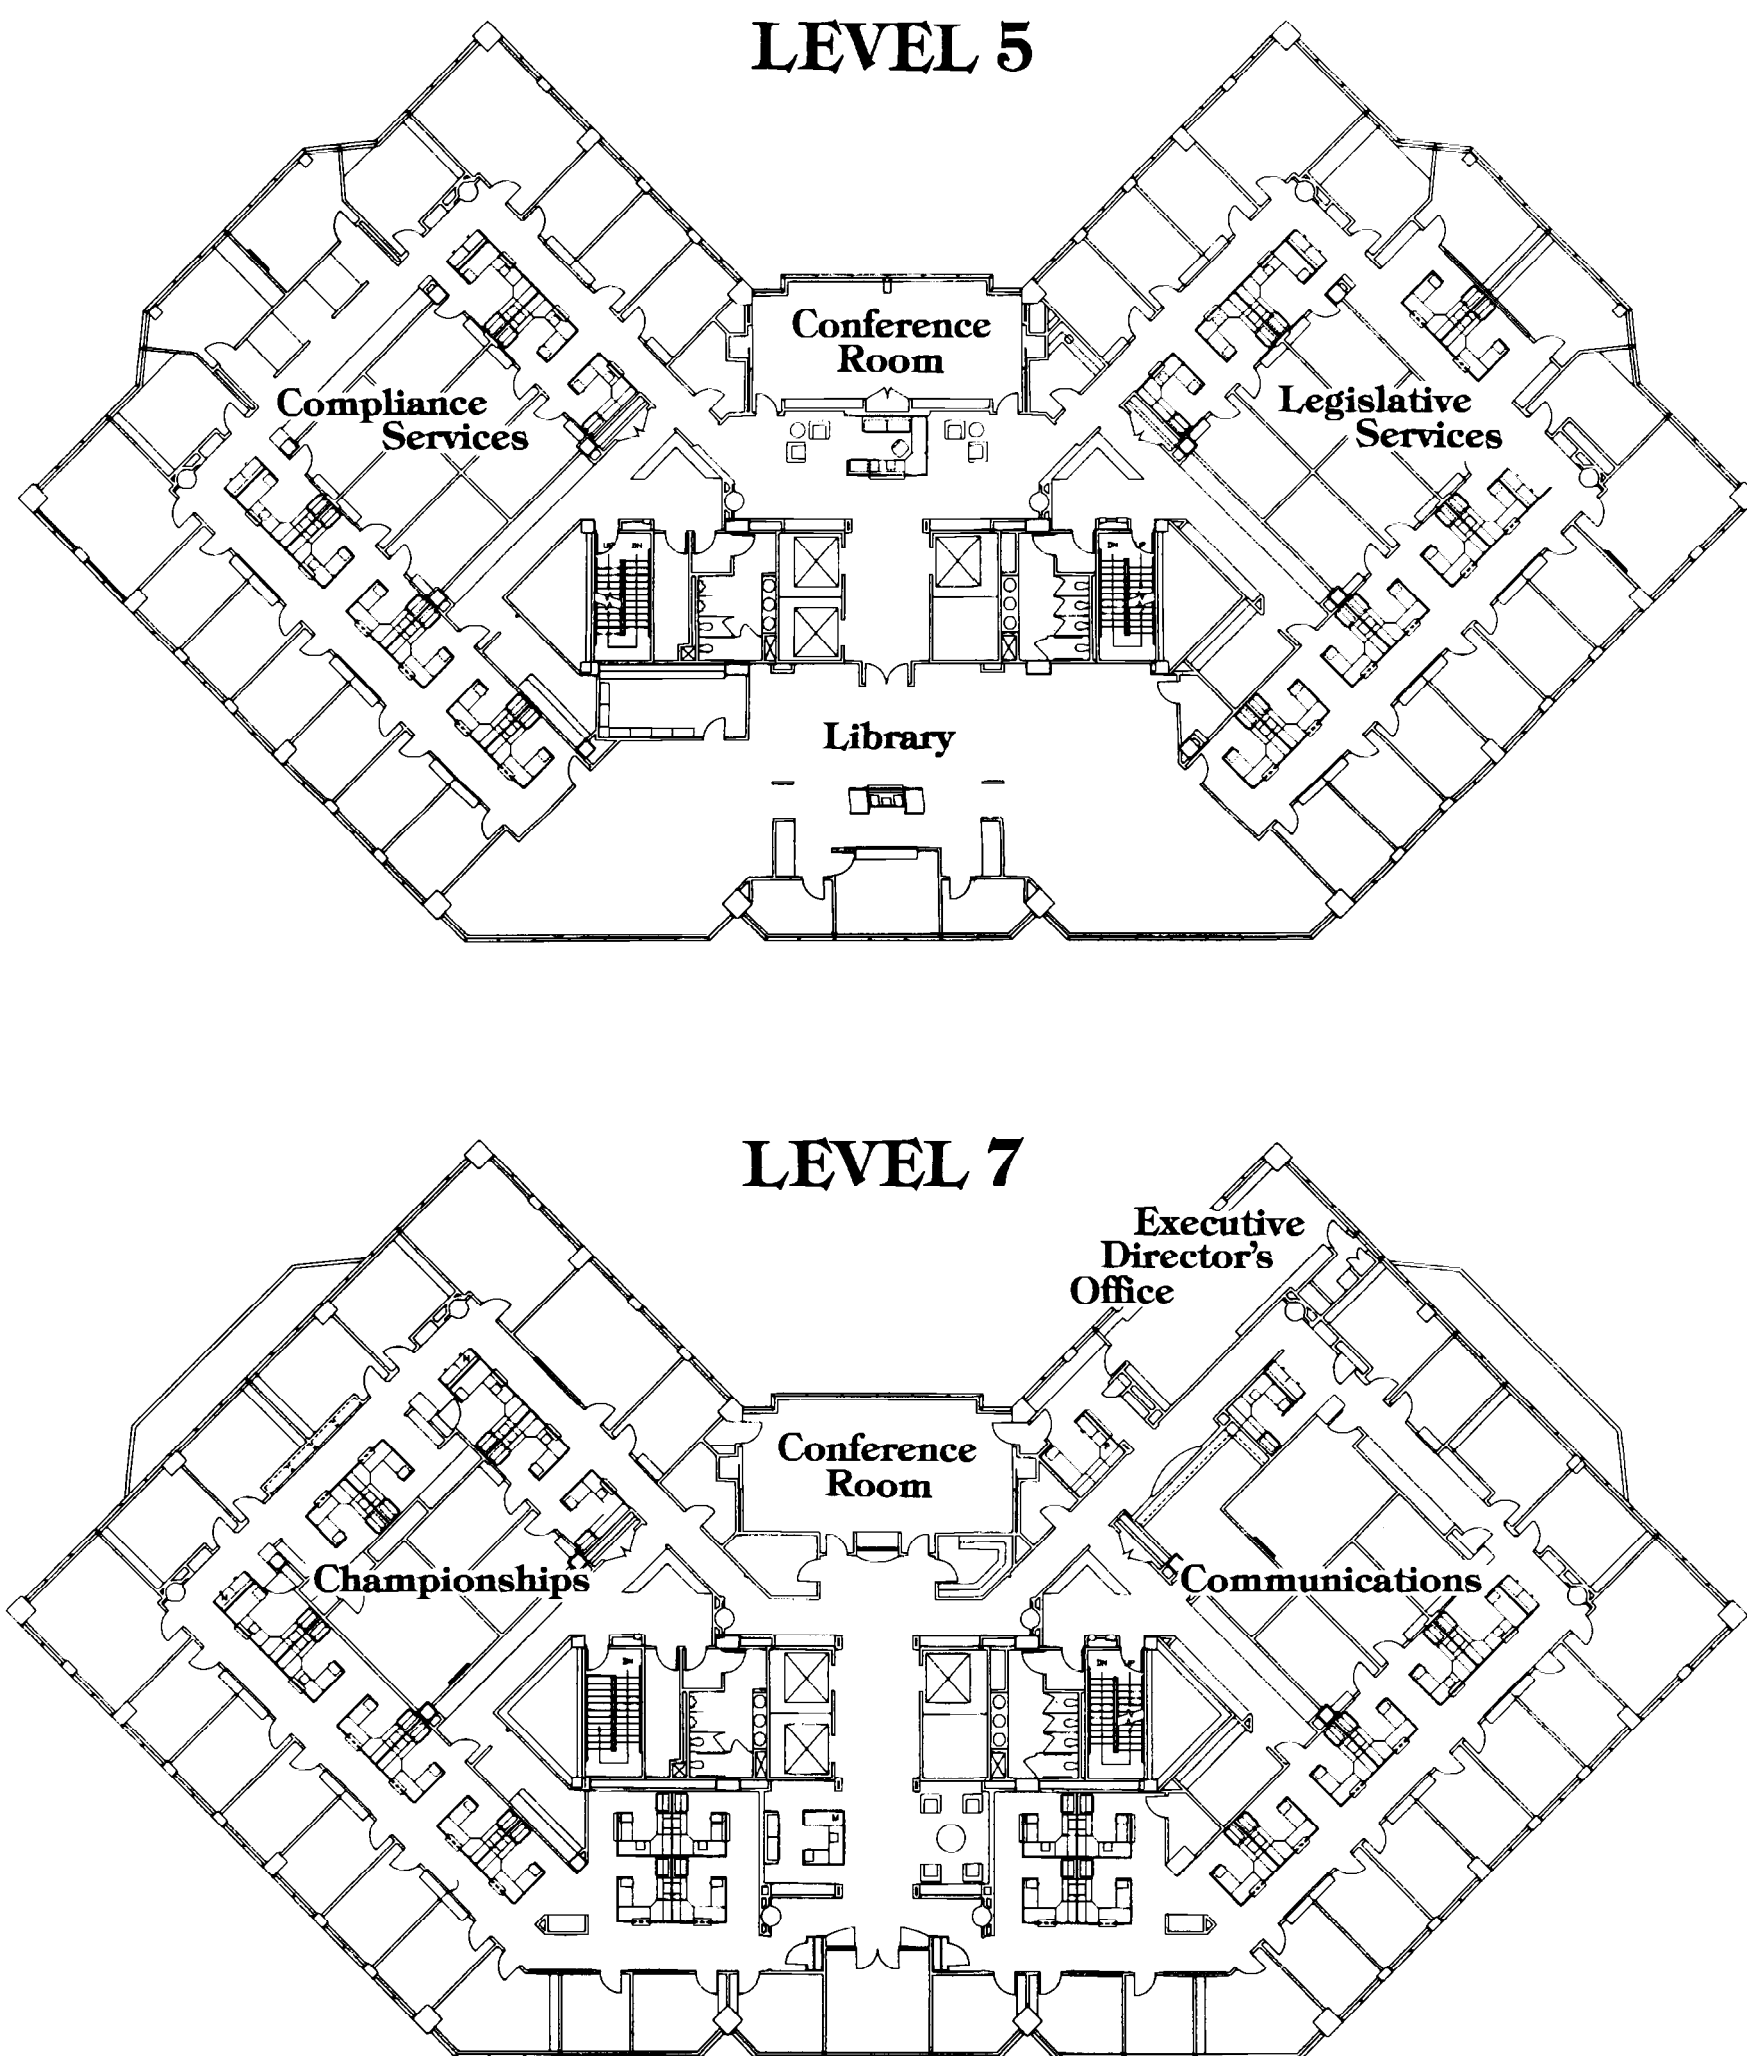

In 1982, the Association christened another building across the street from the Mission headquarters building. At first, the NCAA communications department had the West annex to itself; then, such tenants as a travel agency, real-estate agency and construction firm leased space on the top floor.

By 1988, the staff had filled both of its Mission buildings to capacity. That year, the decision was made to build another home for the Associ-

ation—the soon-to-be opened Overland Park facility.

What started out as a staff of one has grown to a contingent of more than 180 employees working in three separate buildings—the two Mission buildings and a former Hebrew academy next to the Overland Park site that was purchased to serve as temporary office space for the enforcement department.

For the first time in several years, the NCAA once again will bring all of its staff under one roof.

*Level 4 (business and enforcement departments) and Level 5 (administration and publishing departments) have similar floor plans*

# NCAA Record

## CHIEF EXECUTIVE OFFICERS

**Father Jonathan DeFelice** named president at St. Anselm, where he has been acting president.

## DIRECTORS OF ATHLETICS

**Charley Thornton** selected at Arkansas State, his alma mater, after two years as development director at Alabama.

**Richard Taber** will step down July 1 as athletics director at Colorado College, where he will remain as a member of the chemistry faculty. He has been AD at the school since 1982.

## ASSOCIATE DIRECTOR OF ATHLETICS

**Bill Davidson** retired after 11 years as associate AD at Arkansas State, where he also was head football coach from 1971 to 1978.

## ASSISTANT DIRECTOR OF ATHLETICS

Colorado College's **Susan Bethanis** named head women's volleyball coach at San Francisco.

## COACHES

**Baseball** — **Steve Bever** selected for the program at Pittsburg State, which will be reinstated for the 1991 season. Bever, who played baseball at the school during the 1960s, will step down as Pitt State's head men's golf coach.

**Baseball assistant** — **Tommy Pharr** appointed at Tennessee Tech, where he will work with pitchers. He coached at Red Bay (Alabama) High School from 1984 to 1987. **Gus Garcsar** retired after 42 years on the staff at Moravian. The 81-year-old Garcsar suffered a stroke last spring.

**Men's basketball** — **Ron Kestenbaum** selected at Brooklyn, effective after **Mark Reiner** steps down at the end of the season. Kestenbaum is a former head coach at Arkansas-Little Rock. Reiner, who is in his 10th season at Brooklyn, has coached his teams through a move to Division I and an overall 107-169 record; his 1982 team was a Division III semifinalist. **Tom Abatemarco** reassigned to other, unspecified duties in the Drake athletics department while the school conducts an internal review of the men's basketball program. Assistant coach **Eddie Fields** will take over Abatemarco's duties with the team but will not be given the title of acting or interim head coach.

**Don Wilson** selected at Southeastern Louisiana, which will reinstate its varsity program for the 1990-91 season. Wilson is a former Southeastern Louisiana player and assistant who also was an aide at Southwestern Louisiana before serving most recently as head coach at Albany High School in Louisiana.

**Football** — **Steve Briggs** promoted from secondary coach at Susquehanna, where he has been on the staff for two years.

**Rick Novak** promoted from offensive line and special teams coach at Catholic, where he joined the staff three years ago. He succeeds **Fred O'Connor**, who will remain at the school until June 30 as executive director of athletics. Last season, O'Connor led Catholic to an 8-2 record, its best mark in 50 years. **Dan Allen** selected at Boston U. after eight seasons as an aide at Holy Cross, where he was offensive coordinator and quarterbacks coach last season. He succeeds **Chris Palmer**, who resigned after two seasons to become a receivers coach with the Houston Oilers. Former Northern Arizona and Cal Poly San Luis Obispo head coach **Joe Harper** appointed at Cal Lutheran. Harper, who also served as athletics director at Cal Poly SLO and coached the Mustangs to a Division II title in 1980, coached at Northern Arizona from 1982 to 1984, then went into private business. His career coaching record is 117-64-6.

**Football assistants** — **Mike Ellrich** appointed defensive coordinator at Upper Iowa, where he also will be head men's tennis coach. He previously was on the football staff at Southwestern (Kansas) and also has been a high school and junior college assistant. In addition, **Paul Rudolph** appointed at Upper Iowa, where he also will assist with men's and women's track and field. He previously was a graduate assistant football coach at South Dakota. **Rex Norris** and **Andy Christoff** joined the staff at Tennessee. Norris, who will coach the defensive line, previously was on the staff at Florida and also has been an aide at Oklahoma. He replaces **Johnny Chavis**, who becomes Tennessee's defensive ends coach. Christoff becomes the Vols' defensive backfield coach after serving for the past three seasons at Alabama; he also has coached at New Mexico State, Idaho, Oregon, Stanford,

**Pittsburg State named Steve Bever baseball coach**

**Lawrence "L. C." Cole joined football staff at Toledo**

Notre Dame and Georgia Tech. **Zaven Yarialian** stepped down after two seasons as secondary coach at Colorado to become an assistant with the Chicago Bears.

Two months after taking an administrative position at Western Carolina, **Al DeGraffenreid** returned to the Cata-monts staff as assistant head coach and wide receivers coach. DeGraffenreid was a football aide at the school for 10 seasons before his appointment in December as director of minority student affairs and assistant to the vice-chancellor for student development. **Eddie Wilson** returned to the staff at Duke, where he was an aide from 1972 to 1975, to serve as the school's offensive coordinator and quarterbacks coach. He has been at Cornell for the past eight seasons, serving most of that period as offensive coordinator. **Ted Gill** hired as defensive ends coach at Iowa after two seasons as defensive line coach at Rice. Also joining the Iowa staff are **John O'Hara**, former Southwest Texas State head coach, as offensive line coach and **Bill Kollar**, a former Purdue and Illinois aide, as defensive line coach.

Also, **Mike Gundy** named receivers coach at Oklahoma State, where he recently completed his career as a record-setting quarterback. Gundy, who holds 10 Big Eight Conference and 14 school offensive records, replaces **Houston Nutt**, who was appointed receivers coach at Arkansas. **Ken O'Keefe** appointed assistant head coach and recruiting coordinator at Maine after serving as offensive coordinator at Allegheny, where he was on the staff for four years. **Ricky Matt** selected as secondary coach at Texas A&I after three years on the staff at McNeese State. **Daryl Jackson** joined the staff at Morgan State, his alma mater, where he will coach quarterbacks. Last season, Jackson finished his playing career by becoming the first Morgan State passer to gain 2,000 yards in a season and 5,000 yards in a career. **Lawrence "L. C." Cole** named running backs coach at Toledo after two seasons as outside linebackers coach at Wisconsin.

**Men's golf** — **Pittsburg State's Steve Bever** named head baseball coach at the school.

**Men's gymnastics** — **Carlos Silvestre** promoted from assistant to interim head coach at Northern Illinois, replacing **Chuck Ehrlich**, who resigned for personal and business reasons as he entered his 17th season at the school. During his tenure, Ehrlich coached five NCAA individual champions.

**Men's soccer** — **Timothy Schmiechen**, a former standout player at Ohio Wesleyan and former assistant at Massachusetts and Amherst, selected at Beloit. He also will assist with men's and women's track and direct the intramurals program at the school. **Carlos Petersen** promoted from assistant at Alabama-Huntsville, his alma mater, where he has been on the staff since August 1989.

**Women's softball** — **Alicia O'Brien-Osborne** appointed at Western Connecticut State, where she assists with women's basketball. She is a former basketball and softball player at the school. O'Brien-Osborne replaces **Bill Dahl**, who stepped down for personal reasons.

**Men's tennis** — **Mike Ellrich** named at Upper Iowa, where he also will assist with football.

**Men's and women's track and field** — **Darren Hamilton** selected at Juniata. He is a doctoral student at Penn State, where he is a former football player and was an athletics/academic adviser to football and women's track student-athletes from 1986 to 1988.

**Men's and women's track and field assistants** — **Frank Wolak Jr.** appointed at Wesleyan. Wolak, who will coach throwers, was an aide at Southern Connecticut State from 1984 to 1988. **Timothy Schmiechen** named at Beloit, where he also will be head men's soccer coach and

intramurals director. **Paul Rudolph** appointed at Upper Iowa, where he also will assist with football.

**Women's volleyball** — **Susan Bethanis** named at San Francisco after serving as head coach and assistant athletics director at Colorado College since 1985. The former Occidental standout's Colorado College volleyball teams compiled a 120-45 record and appeared in five Division III Women's Volleyball Championships during her tenure.

**Wrestling** — **Tom Justice** promoted from assistant to interim head coach at Lock Haven, where he has been on the staff for five seasons. He replaces **Neil Turner**, who resigned for personal reasons after 11 seasons in the post. Turner's teams compiled a 120-62-3 mark during his tenure, including a 10-7 mark prior to his resignation this season.

## STAFF

**Sports information director** — **Bob Vetrone** selected as interim SID at La Salle. He has worked for 45 years in Philadelphia as a sports writer and broadcaster and in public relations.

**Sports information assistant** — **Kansas' Jeff Bollig** named by the Big Eight Conference to serve as its service bureau director.

**Ticket manager** — **Diane Mahoney** appointed at Arizona State.

## CONFERENCES

**Jeff Bollig** named service bureau director at the Big Eight Conference after three years as assistant sports information director at Kansas. **Eugene S. Calhoun** announced his retirement as supervisor of football officials for the Big Ten Conference, effective June 30. Calhoun, who officiated games in the conference from 1963 to 1980, became supervisor in 1983. He was the only official to referee in the Rose Bowl, Sugar Bowl, Cotton Bowl and Orange Bowl. **Jim Blackwood** appointed supervisor of football officials for the Southland Conference, where he has been a referee since 1976. He replaces **Jim Hornbrook**, who has been supervisor since 1986.

## ASSOCIATIONS

**L. Robert Payne**, chairman of the board of Grossmont Bank and president and chief executive officer of Mission Valley Associates, Inc., in San Diego, elected president of the 1990 Sea World Holiday Bowl. He has been a member of the Holiday Bowl committee for 12 years.

## NOTABLES

**Donna A. Lopiano**, women's athletics director at Texas, reelected to a two-year term as treasurer of the Women's Sports Foundation. **Stanley O. Ikenberry**, president at Illinois and a member of the NCAA Presidents Commission, is the new chair of the American Council on Education.

## DEATHS

**James P. Rooney**, a star running back at Pittsburgh during the 1920s and the brother of late Pittsburgh Steelers owner Art Rooney, died February 12 in Pittsburgh following a lengthy illness. He was 85. James Rooney also served as a member of the Pennsylvania legislature. **James E. "Jimmie" Hughes**, an all-Southeastern Conference football and basketball player at Florida during the early 1930s, died February 10 in Gainesville, Florida, at age 79. Hughes went on to serve as a high school coach and owned a sporting goods store. **Thomas L. "Danny" Hill**, who served from 1957 to 1963 as associate director of the NCAA-owned National Collegiate Athletic Bureau while it had offices in New York City, died February 6 in Los Gatos, California. He was 73. Hill also served as sports information director at San Jose State from 1948 to 1957, except during 1954, when he served as a liaison between the NCAA Television Committee and ABC-TV for the network's game-of-the-week broadcasts. He later served as an administrator of the professional Continental Football League

and as commissioner of the California Football League. **Art Keller**, retired athletics director and head football coach at Carthage, died February 3 in Racine, Wisconsin, at age 68. Through 31 years as football coach at the school, Keller led his teams to a 178-86-7 record and eight College Conference of Illinois and Wisconsin championships. He retired in 1982. **John Michael McLean**, a cocaptain of the 1951 football team at Tulane, died January 31 in Houston, Texas, where he was general manager of the Shell Oil Company land department. He was 60.

## CORRECTION

Due to an editor's error, a Briefly in the News item in the January 31 issue of The NCAA News incorrectly identified the head men's tennis coach at Manhattan. His name is Jeff Nerenberg.

## DIRECTORY CHANGES

## Florida Atlantic has new stadium

Florida Atlantic University's baseball team opened its 1990 season in a new baseball complex February 10.

The lighted stadium's grandstand area will seat 1,200. Additional lawn seating along the first- and third-base lines will provide total seating capacity of about 3,000.

An enclosed press box is situated above the grandstand.

The dimensions of the stadium are 330 feet down the left and right field lines, 370 in the power alleys, and 400 to center field.

# The Revolutionary Gillette Sensor.

*It senses and adjusts to the individual needs of your face for the best shave a man can get.*

The remarkable Gillette Sensor shaving system creates an entirely new standard in shaving performance. It's a shave personalized to every man. The revolution starts with the platinum hardened Sensor twin blades. They're individually and independently mounted on highly responsive springs. So they continuously sense and automatically adjust to the individual curves and unique needs of your face.

But innovation doesn't stop there. The ultra narrow metal skin guard is also mounted on springs. It moves in total harmony with the blades to set up your beard for optimum shaving performance. Keeping this technology in constant contact with your face required another breakthrough. A dramatic redesign of the entire pivoting process creates a wider, more responsive, unprecedentedly smooth pivoting action. Innovation is everywhere.

You can feel it in the textured ridges and balance of the Sensor razor. You appreciate it in the easy loading system and the convenient shaving organizer.

Even rinsing is innovative. The new blades are 50% narrower than any others — water flows freely around and through them, helping to make rinsing and cleaning totally effortless.

But the true revolution of Sensor comes not with any one feature, but with the way the Sensor technologies work together. They combine to give your individual face a personalized shave — the closest, smoothest, safest shave you've ever had. Or, more precisely, the best shave a man can get.

## NBA asks Federal court for OK to sue Oregon lottery

A Federal court has been asked by the NBA to allow the league to proceed with its lawsuit against the Oregon Lottery's Sports Action professional football and basketball betting games.

The NBA has attacked the game, the only state-sponsored betting of its type in the nation, on the grounds that it infringes on and steals NBA property rights and that it violates Federal racketeering laws, the Associated Press reported.

Attorneys for the NBA and its subsidiary, NBA Properties Inc., asked February 8 in a 141-page brief that the lawsuit be allowed to proceed. The document was filed in U.S. District Court in Eugene.

The lawsuit was filed in December. The NBA's February 8 filing was in response to arguments for dismissal of the lawsuit made in January by the state.

Sports Action takes the basketball league's "massive efforts and expenditures over many years" for its own use, the NBA said in its filing.

"By encouraging gambling on NBA games, Sports Action threatens to shift the nature of fan interest from the game to the wager, and from a desire to see the game and 'root' for a team to an interest in 'beating point spreads' and potential monetary rewards," the NBA said.

Oregon's attorney general, acting as attorney for the state lottery commission, and Gtech Corp., the supplier of equipment and services for the betting game, have filed motions asking that the Federal court dismiss the lawsuit. Gtech also is named in the NBA's lawsuit.

The attorney general and Gtech maintain that the lottery and its supplier are immune to legal action, that the game is not gambling "in the pejorative sense," and that the use of NBA team locations and game results does not infringe on the league's trademark or property rights.

Some lottery revenues have been earmarked for athletics programs at Oregon's state universities and colleges.

## Championships Corner

**Women's Lacrosse:** Bids are being accepted by the NCAA Women's Lacrosse Committee from institutions interested in hosting the 1991 National Collegiate and Division III Championships. For more information on submitting a proposal, contact Marie Tuite, assistant director of championships, at the national office.

### Baseball back at Pittsburg State

Pittsburg State University, which dropped baseball in 1973, will bring it back with former star Steve Bever as coach for the 1991 spring season.

The appointment of Bever, the school's head golf coach the past three years, was announced February 7 by Bill Samuels, director of athletics.

Bever was a starter for the Gorillas from 1966 through 1969. The past 20 years, he has coached Little League, Babe Ruth and semipro teams in Kansas.

Pittsburg State started a baseball program in 1962 but later dropped it for budgetary reasons.

## KICKING OFF THE GROUND — PRO WIDTH GOAL POSTS

VIDEO TRAINING FILM

SAFETY ZONE FOR ANY LEFT FACTORS

PKS KICKERS GOAL POST TARGET WINDOW

SCALE 1/8" = 1'

### DECREASED TARGET AREA WILL NOT AFFECT YOUR KICKERS IF THEY KNOW HOW TO USE PKS'S TARGET LINES.

Why? PKS trained kickers use only a 10-ft. target window. Not 23'6", or 18'6". Basic window is 10', with true target line 4' inside the right goal post from either hash mark (without wind factors). Target line, AB above. Our kickers have an 8'6" margin of error factor built in.

1989 Results (examples) — College kickers trained in PKS's target line techniques and "American-Style Soccer PK'ing Techniques™" hit 20 consecutive FG's (Hawaii) AR. 20 FG's, Notre Dame, 7 consecutive, AR. (88) 23 FG's in a row, Tenn. Tech, 7 FG's IN ONE GAME RANGE! Three new state H.S. records, Co. 62 yds., S.C., 61 yds., AZ., 62 yds. Nat. H.S. record, JR., 68 yds.

### "HOW TO KICK OFF THE GROUND, S/S PLACEKICKERS WITH PRO WIDTH GOAL POSTS & TARGET LINE TECHS."

College only: PK'ers Camps — Wilmington, OH, May 25, 26 and 27; Claremont McKenna, CA, June 1, 2, and 3. "NEW ACCURACY STANDARDS FOR S/S PLACEKICKERS"

PRICE: \$49.50

## Questions/Answers

Readers are invited to submit questions to this column. Please direct any inquiries to The NCAA News at the NCAA national office.

**Q** Can student-athletes conduct their own camps or clinics?

**A** Not if they have eligibility remaining and want to keep it. NCAA Bylaw 13.12.2.1.1.1 prohibits underclassmen from conducting their own camps or clinics.

# CFA, networks rewrite football TV contracts

The College Football Association agreed February 9 on new contracts with ABC and ESPN for \$50 million less than the deals that included Notre Dame.

ABC, which in January agreed to a five-year contract for \$210 million, offered a new five-year contract for \$175 million. ESPN, which last fall agreed to a four-year contract for \$110 million and had been close to a one-year extension for \$30 million, settled on a five-year contract for \$125 million, the Associated Press reported.

## Allegheny to end wrestling program

Allegheny College will discontinue varsity wrestling at the end of the 1989-90 season, according to a February 8 announcement by athletics director Norman A. Sundstrom.

"Our evaluation has revealed a decline in student participation in the program," Sundstrom said. "This decline is by no means the fault of anyone associated with the program. Several institutions that are similar to Allegheny are having difficulty maintaining wrestling."

Since the 1986-87 season, the Gator roster has decreased by almost half—from 26 wrestlers to 14. Sundstrom said five of the 14 current team members are seniors.

"The timing of our decision is designed to minimize the effect on participating student-athletes," Sundstrom said.

## Tom Casanova gets Camp award

Tom Casanova, a former football player at Louisiana State University and once a defensive back with the Cincinnati Bengals, has been named the Walter Camp Foundation's 1989 alumnus of the year. He was selected for his work in the area of visual impairment among lepers in Louisiana.

Casanova, an ophthalmologist, will be honored with Bengals owner and general manager Paul Brown at the 100th all-America dinner February 17 at the Yale Commons.

## News Fact File

The seating capacities of the arenas used by Division I members for their men's basketball home games in 1988-89 ranged from 1,500 seats to 33,000. Syracuse University has the 33,000; Campbell University and Bethune-Cookman College played in 1,500-seat facilities. In all, 104 Division I institutions had home arenas with 10,000 or more seats. Meanwhile, 32 played in facilities with 3,000 or fewer seats.

*Source: Data prepared by the NCAA statistics service for the Special Committee to Review the NCAA Membership Structure.*

## Binders available for keeping News

Readers of The NCAA News are reminded that binders, which provide permanent, convenient storage of back issues of the paper, are available from the publishing department.

Each of the rugged, vinyl-covered binders holds 15 issues of the News. They may be purchased for \$10 each, or two for \$19. Orders should be directed to the circulation office at the NCAA (913/831-8300).

"There is lost revenue and there is disappointment," CFA Executive Director Charles M. Neinas said.

*The new CFA contract with ABC calls for the televising of 25 to 35 games a year. ESPN will show games Saturday nights and some on Thursday nights.*

But he added that "no punitive measures will be taken" against Notre Dame because "participation in the CFA television plan is voluntary."

The new contracts begin with the

1991 season and do not affect the current deal with CBS, which has one year left. ABC also has a long-term contract with the Big Ten and Pacific-10 Conferences, which do not belong to the CFA. Notre Dame and NBC have agreed to a five-year deal worth \$30 million to televise Notre Dame's home games.

Stephen J. Solomon, senior vice-president of ABC Sports, said, "Essentially, we've been working on attempting to retain the other 63 institutions."

Neinas estimated Notre Dame's defection cost the rest of the CFA \$30 million. The difference between the original contracts (including the never-completed extension) was \$50 million, and he estimated \$20 million of the original deal would have gone to the Fighting Irish.

"The issue is timing," Neinas said. "If Notre Dame had come to us

before the negotiations, we could have made other plans."

Neinas claimed Notre Dame never said it intended to make its own deal. In a letter to the CFA last October 24, Notre Dame said that though it expected to participate in the agreements, it would not agree definitely until it reviewed the final contracts.

"It was not until Saturday, February 3, that I had any knowledge of Notre Dame's reversal of its decision," Neinas said.

Neinas said Notre Dame representatives told him the school negotiated its own contract for two reasons—national exposure and appealing fans who could not obtain tickets to its home games.

The new CFA-ABC contract calls for the televising of 25 to 35 games a year. Neinas said ESPN will show games Saturday nights and also some on Thursday nights.

## Philadelphia to host Army-Navy

Philadelphia will serve as host for Army vs. Navy football through the year 2025 under a plan recently announced by W. Wilson Goode, the city's mayor.

The plan replaces a contract that called for the annual game to be played in Philadelphia's Veterans Stadium through 1992, according to the Associated Press.

The new deal would give the service academies the option to square off three times outside Philadelphia between 1993 and 1999. Doing so would extend the contract to 2025, according to the wire service.

Last season's game was played at the New Jersey Meadowlands.

# No coach has driven more teams to victory.

When it comes to moving college teams from place to place, Greyhound® provides a special kind of coaching. The kind of coaching that's reliable, timely and trusted.

It's that kind of coaching that has made Greyhound the official motorcoach carrier for the NCAA Championships.

Greyhound has 75 years' experience and a fleet of modern coaches that are unbeaten by any other bus company. And each of our coaches is fully equipped for charter travel with climate-controlled environments and wide, reclining seats to assure our passengers'

comfort. Plus, there's a nationwide network of Greyhound service facilities working 24 hours a day.

So if you've got a team that needs coaching, call Greyhound at 1-800-872-6222 or 1-800-USA-NCAA. The winning team of travel professionals.

**The Official Motorcoach Carrier  
For The NCAA Championships.**

# State legislation relating to athletics

This report summarizes legislation currently pending in state legislatures that could affect, or is otherwise of interest to, the intercollegiate athletics programs and student-athletes at NCAA member institutions. Set forth below is a list of 97 bills from 31 states. The report includes 73 bills that have been introduced and 24 pending bills on which action has been taken since the last report (see the October 9, 1989, issue of The NCAA News).

Newly introduced bills are marked with an asterisk. With the commencement of a new year and, in some states, a new legislative session, pending bills that have not been carried over from last year have been dropped.

This report is based on data provided by the Information for Public Affairs on-line state legislation system as of February 6, 1990. The listed bills were selected for inclusion in this report from a larger pool of bills concerning sports and they therefore do not necessarily represent all bills that would be of interest to individual member institutions. Bills pending in the District of Columbia Council and the legislatures in the U.S. territories are not available on-line and are not included.

The NCAA has not verified the accuracy or completeness of the information and is providing this summary as a service to members. For further information regarding a particular bill, members should contact the state legislature concerned.

As an overview, the table below summarizes the number of bills included in this report by subject:

Anabolic steroids	31
Liability	15
Gambling	9
Ticket scalping	8
Individual institutions	4
Athlete agents	3
Payments to student-athletes	3
Scholarships	2
Miscellaneous	22

## Alabama H. 214/S. 124 (Authors: Harper/Horn)

Make an appropriation to the All-American Bowl for the fiscal year ending 9/30/91. Status: 1/9/90 H. 214 and S. 124 introduced. To House Committee on Ways and Means and Senate Committee on Finance and Taxation.

## \*California A. 1610 (Author: Floyd)

Requires the director of the California Lottery to perform a survey of supplemental revenue that could be provided to public education through the introduction of sports-wagering lottery games.

Status: 1/17/90 in Assembly Committee on Ways and Means. Failed passage. 1/30/90 from Assembly Committee on Ways and Means without further action pursuant to Joint Rule 62(a).

## California A. 1832 (Author: Polanco)

Pertains to current law prohibiting coaches and trainers from furnishing diet pills or laxatives for encouragement of extreme weight loss; provides that any person who sells those to a minor is subject to criminal action and/or civil action; provides for punishments.

Status: 3/9/89 introduced. 3/27/89 to Assembly Committee on Public Safety. 1/30/90 from committee. Filed with the chief clerk pursuant to Joint Rule 56. Died pursuant to Article IV, Section 10(a) of the Constitution.

## California A. 2063 (Author: Clute)

Requires the Commission of Teacher Credentialing to review the subject-matter credentialing requirements regarding the negative effects of anabolic steroids and human growth hormones for physical education teachers, and to report its finding and recommendation to the legislature by a specified date.

Status: 3/10/89 introduced. 1/29/90 passed Assembly. To Senate.

## California A. 2064 (Author: Clute)

Makes it a misdemeanor to advertise the sale of anabolic steroids, unless the advertisement contains a statement indicating that the possession by or sale to an ultimate consumer of anabolic steroids generally is prohibited by law.

Status: 3/10/89 introduced. 1/29/90 passed Assembly. To Senate.

## California A. 2065 (Author: Clute)

Requires that the health-education requirement for a teaching credential include instruction in the dangers of the use of anabolic steroids; requires school districts and community colleges to include information on the effects of the use of anabolic steroids in science courses in health, drug abuse, physical education and athletics programs.

Status: 3/10/89 introduced. 6/30/89 passed Assembly. To Senate. 9/13/89 passed Senate as amended. To Assembly. 9/14/89 Assembly concurred in Senate amendments. To Enrollment. 9/20/89 to governor. 10/2/89 signed by governor.

## \*Colorado S. 136 (Author: Groff)

Provides that students who play football at Colorado universities that are in Division I of the NCAA shall be paid a stipend in an amount determined by the university; makes such provision inoperative until certain circumstances occur.

Status: 1/26/90 introduced. To Senate Committee on Education; then to Committee on Appropriations.

## \*Hawaii H. 2317/S. 3314 (Authors: Apo/Kobayashi, B.)

Relate to athletics contest officials.

Status: 1/22/90 H. 2317 introduced. 1/24/90 S. 3314 introduced. H. 2317 to House Committee on Judiciary.

## \*Hawaii H. 2378 (Author: Tom)

Makes an appropriation for coaches.

Status: 1/19/90 introduced.

## \*Hawaii S. 2141 (Author: George)

Relates to anabolic steroids; amends definition of anabolic steroid.

Status: 1/17/90 introduced. To Senate Committee on Health.

## \*Hawaii S. 2318 (Author: George)

Relates to anabolic steroids.

Status: 1/17/90 introduced.

## \*Hawaii S. 2532 (Author: Solomon)

Makes an appropriation for a study to develop a comprehensive master plan for University of Hawaii system intercollegiate, intramural and club athletics activities and programs.

Status: 1/19/90 introduced.

## \*Illinois H. 2840 (Author: Cullerton)

Provides that selling tickets for more than face value is a Class A misdemeanor instead of a business offense; limits service charge by a ticket seller to 50 percent of price of ticket.

Status: 10/17/89 introduced.

## \*Illinois H. 2874 (Author: Shaw)

Creates Athletics Scholarship Act; provides minimum period for which such scholarships must be awarded; bans stopping such scholarships because of injuries that prevent student from playing; amends Workers Compensation Act to allow such scholarship student injured while participating to qualify.

Status: 11/3/89 introduced.

## \*Indiana H. 1283 (Author: Bales)

Makes selling a ticket to a sporting event that involves an athletics team representing a state-supported college or university for an amount greater than the face value of the ticket a Class C infraction.

Status: 1/5/90 introduced. To House Committee on Public Policy and Veterans' Affairs. 1/29/90 failed to pass House.

## \*Iowa H. 2172 (Author: Connors)

Relates to the liability of a volunteer sports-program coach or manager, physician, or sports official.

Status: 1/25/90 introduced. To House Committee on Judiciary and Law Enforcement.

## \*Iowa S. 2066 (Author: Varn)

Relates to the liability of a volunteer sports-program physician.

Status: 1/16/90 introduced. To Senate Committee on Judiciary.

## Kansas S. 181 (Author: Committee on Public Health)

Concerns anabolic steroids; declares certain acts unlawful and provides penalties for violations.

Status: 2/7/89 introduced. 3/7/89 passed Senate. To House. 3/8/89 to House Committee on Public Health and Welfare. 1/18/90 from House Committee on Public Health and Welfare: Do not pass.

## \*Kentucky H. 112 (Author: Long)

Defines the term "anabolic steroid"; prohibits unauthorized practitioners from prescribing or selling anabolic steroids.

Status: 1/2/90 introduced. 1/25/90 amended on House floor.

## \*Kentucky H. 186/H. 196 (Author: Long)

Limit the liability of sports officials.

Status: 1/3/90 H. 186 and H. 196 introduced. 1/4/90 H. 186 to House Committee on Judiciary. 1/5/90 H. 196 to House Committee on State Government.

## \*Kentucky H. 190 (Author: Hancock)

Prohibits the Kentucky Lottery Corporation from using professional and amateur sports, except horse racing, to advertise, promote or conduct a lottery.

Status: 1/3/90 introduced. 1/4/90 to House Committee on State Government.

## \*Kentucky S. 33 (Author: Shaughnessy)

Prohibits the Kentucky Lottery Corporation from using amateur athletics for any purpose.

Status: 1/2/90 introduced. To Senate Committee on State Government. 1/18/90 passed Senate. To House.

## \*Maryland H. 396 (Author: Rosenberg)

Adds a list of specified anabolic steroids to the official schedule of controlled dangerous substances as determined by the Department of Health and Mental Hygiene.

Status: 1/18/90 introduced. To House Committee on Judiciary.

## \*Maryland H. 397 (Author: Rosenberg)

Prohibits persons from distributing, dispensing, administering or possessing anabolic steroids in, on or within 1,000 feet of any real property used for elementary or secondary educational purposes, school vehicles or fitness centers unless the person prescribes or possesses a prescription for a valid medical purpose; makes a violation of the act a misdemeanor, subject to imprisonment for not more than three years.

Status: 1/18/90 introduced. To House Committee on Judiciary.

## \*Maryland H. 674 (Author: Committee on Economic Matters)

Continues the state athletics commission by extending the termination date of the commission's statutory and regulatory authority over wrestling and other sports to July 1, 2001.

Status: 1/29/90 introduced. To Senate Committee on Judicial Proceedings.

## \*Maryland H. 681 (Author: Donaldson)

Requires educational institutions to develop and implement programs on the harmful effects of anabolic steroids; prohibits students in any secondary school or any institution of higher education who possess, distribute, deliver or use anabolic steroids without or in contradiction to prescriptions from participating in athletics under specified circumstances.

Status: 1/29/90 introduced. To Senate Committee on Judicial Proceedings.

## \*Maryland S. 294 (Author: Trotter)

Creates a state debt for a grant to Bowie State University to supplement the planned appropriation for a stadium that will seat 3,000 persons so that the stadium will seat 9,000 persons.

Status: 1/16/90 introduced. To Senate Committee on Budget and Taxation.

## \*Maryland S.J.R. 4 (Author: Trotter)

Urges the NCAA to consider the modification of its rules to permit student-athletes to be compensated over and above current payments for tuition, room and board, books, and other essential college supplies and expenses, in recognition of the significant financial revenues and other benefits these student-athletes generate for their institutions and the athletics officials employed by those institutions.

Status: 12/19/89 prefiled. 1/9/90 introduced.

## \*Massachusetts H. 515 (Author: Mackey)

Revises the law of sports bribery.

Status: 1/22/90 introduced. To Joint Committee on Criminal Justice.

## \*Massachusetts H. 994 (Author: Local Sponsor)

Relates to the liability of persons who volunteer services to certain sports programs.

Status: 1/25/90 introduced. To Joint Committee on Judiciary.

## \*Massachusetts H. 1375 (Author: Ruane)

Prohibits persons convicted of certain drug-related offenses from participating in professional athletics events.

Status: 1/29/90 introduced. To Joint Committee on Judiciary.

## \*Massachusetts H. 1376 (Author: Ruane)

Relates to banning the use of steroids by athletes.

Status: 1/29/90 introduced. To Joint Committee on Judiciary.

## Massachusetts H. 6240 (Author: Galvin)

Authorizes sports-pool wagering on professional football games.

Status: 8/21/89 introduced. 9/26/89 from Joint Committee on Government Regulations to House Committee on Ways and Means.

## \*Massachusetts S. 363 (Author: Doris)

Relates to the sale of tickets to public amusements.

Status: 12/21/89 introduced.

## \*Massachusetts S. 393 (Author: Norton)

Relates to the resale of tickets.

Status: 12/21/89 introduced. 1/4/90 to Joint Committee on Government Regulations.

## \*Massachusetts S. 399 (Author: Norton)

Creates an amateur athletics council video lottery.

Status: 12/21/89 introduced.

## \*Massachusetts S. 714 (Author: Albano)

Relates to limited civil liability for sports officials.

Status: 1/3/90 introduced. To Joint Committee on Judiciary.

## Michigan H. 4081 (Author: Profit)

Prohibits the use, distribution or possession of anabolic steroids under certain circumstances.

Status: 2/2/89 introduced. 11/14/89 amended on House floor. 11/28/89 passed House. To Senate.

## Michigan H. 5106 (Author: Law)

Establishes liability to a college or university for certain damages suffered by the institution as a result of a penalty imposed by the NCAA.

Status: 9/28/89 introduced. To House Committee on Colleges and Universities.

## Michigan S. 350 (Author: Faust)

Requires athletics-service providers to post certain notices relative to the use of anabolic steroids.

Status: 4/20/89 introduced. 5/18/89 passed Senate. To House. 10/16/89 from House Committee on Public Health. Recommended as substituted.

## \*Michigan S.C.R. 433 (Author: Pollack)

Commemorates February 8 as Girl's and Women's Sports Day in Michigan.

Status: 12/6/89 introduced. Passed Senate. 12/7/89 to House. Passed House.

## \*Mississippi H. 43 (Author: Endt)

Prohibits use of steroids for athletics enhancement.

## Committee OKs agent measures

Bills aimed at protecting young athletes who are naive regarding dealings in the world of professional sports by licensing and regulating agents were approved February 6 by the Michigan House Judiciary Committee.

Under the measures, agents representing professional athletes would have to be licensed and to report their dealings to the state, file a \$25,000 deposit and inform athletes about their backgrounds.

Professional athletes and college coaches have spoken out in favor of the bill, saying that young people moving into the pros are susceptible to unscrupulous agents.

Following allegations of improprieties in college athletics, the bills also would outlaw offering special inducements to college athletes and kickbacks to college employees.

The measures were sent to the full House for consideration by vote of 13-2, United Press International reported.

Under the measures, agents would have to pay a \$25 application fee and then a \$25 annual licensing fee, but the Department of Licensing and Regulation, which would enforce the legislation, requested that the fees be increased.

The department proposed a \$200 application fee and \$100 annually for licensing. Rep. Michael Bennane, D-Detroit, who sponsored one of the bills, said the higher fees were reasonable.

"Professional sports agents can easily afford it," said Bennane. "It's not going to be a hindrance."

It is expected that the bills will be amended on the House floor.

A firm would have to file any agent contract or contract with a team within 30 days of its being signed, and an athlete would have three days following a formal agreement to back out.

The state would be able to control licenses, including suspending or revoking them for violations, denying renewals or placing special conditions on licenses. Agents also could be fined up to \$10,000, ordered to pay restitution and jailed for up to a year for each offense.

Rep. Michael Nye, R-Litchfield, one of the dissenting voters, said that highly paid athletes do not need special protection, while Rep. Frank Fitzgerald, R-Grand Ledge, argued that college rules already protect athletes.

## Mortensen named

De Ann Mortensen has joined the NCAA business department as assistant personnel manager.

A Hastings, Nebraska, native, Mortensen is a 1986 graduate of the University of Nebraska, Lincoln, where she was a member of the marching band. After earning her undergraduate degree, Mortensen joined the Jones Store Company's

De Ann Mortensen

personnel-management training program.

For the past two years, she has served as personnel manager of the company's retail outlet in the Banister Mall in Kansas City, Missouri.

 Provides that sports officials shall not be liable for injuries incurred during athletics contests unless the official caused the injury by an intentional, willful, wanton, reckless, malicious or grossly negligent act; provides that any person assaulting an official shall be guilty of a crime punishable by a fine or imprisonment for a maximum of three years, or both.  
 Status: 1/25/90 introduced. To House Committee on Judiciary.  
**Washington S. 5319 (Author: West)**  
 Prohibits the use of drugs or autotransfusions by physicians to enhance an athlete's abilities; requires physicians to complete and maintain patient medical records whenever administering prohibited drugs; makes a violation of the prohibition grounds for disciplinary action, and provides that dispensation of the prohibited drugs without a prescription is a gross misdemeanor offense.  
 Status: 1/20/89 introduced. To Senate Committee on Health Care and Corrections. 3/14/89 passed Senate. 3/15/89 to House. To House Committee on Health Care. 12/20/89 returned to Senate. 1/8/90 to Senate Committee on Health and Long-term Care.  
**Washington S. 5931 (Author: von Reichbauer)**  
 Creates an amateur athletics commission; designates the membership of the commission; authorizes the commission to promote amateur athletics contests or events; declares an emergency and takes effect immediately.  
 Status: 2/16/89 introduced. 3/15/89 passed Senate. 3/17/89 to House. 3/28/89 to House Committee on Appropriations. 3/30/89 from House Committee on State Government: Do Pass. 12/20/89 returned to Senate.  
**\*West Virginia H. 4168/S. 12 (Authors: Ashcraft/Blatnik)**  
 Relate to providing limited immunity for accredited sports officials from civil liability for damages arising from acts of omissions while officiating, and to providing a criminal penalty for assaults on sports officials.  
 Status: 1/10/90 S. 12 introduced. To Senate Committee on Judiciary. 1/24/90 H. 4168 introduced. To House Committee on Judiciary.  
**\*Wisconsin A. 778 (Author: Black)**  
 Relates to immunity for physicians who assist athletics participants.  
 Status: 1/8/90 introduced. To Assembly Committee on Financial Institutions and Insurance.

## Hunter named insurance firm vice-president

NCAA Director of Operations Richard D. Hunter has been named executive vice-president of National Sports Underwriters, Ltd., a managing insurance underwriter and marketing administrator specializing in intercollegiate athletics insurance programs.

Hunter, who is coordinating plans for the Association's move to a new headquarters building, will remain on the staff through completion of the move. He will join National Sports Underwriters early next month.

A 1973 graduate of Kansas State University, Hunter has been on the NCAA staff since October 1978. Before joining the national office staff, he served four years as superintendent of recreation for the city of Overland Park, Kansas.

Hunter joined the Association in 1978 as an assistant director of championships. He was named director of finance in the business department in 1982.

In November 1987, Hunter was named director of operations in the business department. In that chief-aide-level position, he has been responsible for building, office, contracts and personnel administration; insurance and risk management, and numerous special projects — including extensive work on plans for the Association's move to a new headquarters building.

## Improvements set

Denes Field, the home of Western Kentucky University baseball, is set for major improvements in seating and facilities this spring.

Those improvements—to be financed with private funds—are scheduled to be part one of a two-phase program.

The first phase will include the replacement of bleacher seating behind home plate with 200 chair-back seats, in addition to rest rooms, a concession stand, a press box and storage areas.

Money for the first phase will be raised through the sale of the 200 seats for \$250 each. That figure will also include a season ticket for each of the next four years as well as a permanent nameplate attached to the back of the seat. After four years, the donor will have the option of retaining the seat on a yearly season-ticket basis.

## NCAA to produce six baseball games for television

NCAA Productions will produce a six-game, regular-season baseball package that will include an appearance by defending Division I champion Wichita State.

Four of the six games have been set for broadcast on ESPN. They include Oklahoma State at Wichita State (April 5 at 3 p.m. Eastern time), Mississippi State at Florida (April 13 at 3 p.m. Eastern time), North Carolina at Georgia Tech (April 20 at 3 p.m. Eastern time) and Long Beach State at Fresno State (May 5 at midnight Eastern time).

The other two games and the outlets on which they will be shown have not been determined.

Wilson Sporting Goods is providing funding for the package as part of its official-ball contract with the NCAA.

New NCAA

Continued from page 11  
at the University of Chicago. The library also will offer the archives of the Association, including publications, yearbooks, proceedings and reports.

"I'm hoping we'll attract scholars who would like to study the development, evolution and history of intercollegiate athletics," Walsh said. She added that the library also

Indoor track team gets new facility

The only men's sport at Saginaw Valley State University to win a national championship—the men's indoor track team—finally has a facility for practice and meets.

Fifth-year coach Jim Nesbitt is taking advantage of his first season in the school's new Ryder Center for Health and Physical Education and the facility's James F. O'Neill Arena, which includes a 200-meter track.

The Cardinals finished second in the Great Lakes Intercollegiate Athletic Conference indoor meet last year, and the women were third.

should be of "enormous value to the staff."

Sixth floor

The publishing and administration departments will be located here. Also, members of the Association's statistics staff will have offices on the sixth level.

In the publishing department, the graphics staff will make use of a photo studio and darkroom and conveniently arranged typesetting and paste-up areas.

The statistics staff will have an operations center on the floor.

Seventh floor

The building's top floor will house the championships and communications departments, as well as the executive director's office.

Among this level's features is an "informal conference room," which Hunter said is designed to provide a more casual, "living-room-type" setting than other conference rooms in the building.

Next week, this series will conclude with an article about the NCAA's new home town—Overland Park, Kansas.

Men's sports

Continued from page 1  
golf (19.2).

Declining were field hockey (15.3 percent) and gymnastics (32.4).

In terms of participants, 82,979 women were represented in 1986-87 athletics programs, an increase of 20.1 percent since 1981-82.

The largest participation increase in women's sports was in soccer (211 percent), followed by cross country (50.1), softball (22.4), and track and field (31.3).

Only in basketball did the participation gain not keep abreast of the increased membership during the five-year period. Participation increased 3.3 percent to the membership gain of 3.6.

From 1976-77 to 1981-82, it appeared the growth of women's sports had reached a peak and was slowing down, the report stated.

"However, the evidence presented indicates this may not be the case. In fact, women's athletics experienced great expansion between 1981-82 and 1986-87, and there is no reason to believe that this trend will not continue," the report said.

The top 10 sponsored sports for women in 1986-87 were basketball (748 institutions and 9,945 participants), volleyball (695 and 9,217), tennis (688 and 7,072), cross country (638 and 6,923), softball (537 and 9,134), track and field (535 and 12,104), swimming (404 and 7,443), soccer (252 and 5,772), field hockey (227 and 5,404), and golf (149 and 1,235).

Questionnaires for the study were sent to the Association's 780 active members. Of those, 375 (48.1 percent) were completed and returned.

The results were projected statistically to depict the programs of the Association's active members in 1986-87.

The report, which has been mailed to member institutions' directors of athletics, also provides data on numbers of intercollegiate contests, intramural sports participation, physical education activities, and valuation and use of facilities.

The report also provides statistical data on athletics personnel. It shows that during the period of study, the employment of coaching staff per-

sonnel increased 14.4 percent.

Copies of the report can be obtained for \$2 each by contacting the NCAA circulation office (telephone 913/831-8300). There is an additional \$2 charge for first-class mailing.

Coaching change made at Drake

Eddie Fields heads Drake University men's basketball program after a player revolt.

Players recently boycotted practice for two days, then said they no longer would play for coach Tom Abatemarco.

Abatemarco was reassigned to other duties in the athletics department February 7, and Fields, in his first season as an assistant at Drake, was named to run the team while the university conducts an internal review of the program, the Associated Press reported.

The players returned February 8 after the administration removed Abatemarco.

San Antonio, TX 78212

AN AFFIRMATIVE ACTION/EQUAL OPPORTUNITY EMPLOYER

## ALLEGHENY COLLEGE Football

Allegheny College invites applications for the position of offensive line coach for football with additional duties in teaching, administration or coaching. This individual is responsible to the head football coach for offensive line play, recruiting, assisting with game preparation, player evaluation, and public relations. Duties will include teaching in the physical education department and secondary assignment by the Director. This is a full-time position in the Department of Athletics, Physical Education and Recreation. Applications are accepted until the position is filled. Twelve-month, non-tenured position. Contract may be renewed. Bachelor's Degree and prior coaching experience required. Salary open. Send letter of application, resume and provide at least three references to Peter Vaas, Head Football Coach, Box 33, Allegheny College, Meadville, PA 16335.

Allegheny College is an Equal Opportunity Employer. Minority applications are encouraged.

## DIRECTOR OF ATHLETICS Vanderbilt University

Vanderbilt University seeks a replacement for Roy Kramer, who has become Commissioner of the SEC. The Athletics Director must have a reputation for complete integrity and be comfortable with Vanderbilt's concept of the student-athlete, within which graduation rates and core academic programs are central. We expect Vanderbilt's national leadership position to continue regarding integrity issues in intercollegiate athletics.

The Athletics Director has full responsibility for the intercollegiate program, which fields eight men's and six women's sports in the Southeastern Conference. Responsibilities include scheduling, budgets, fund-raising, personnel and facilities. The Athletics Director reports directly to the Chancellor and will have no coaching duties. The position could be filled immediately.

Nominations and inquiries should be addressed to: Dr. Charles Kiesler, Provost and Chair, Athletic Director Search Committee, 221 Kirkland Hall, Vanderbilt University, Nashville, TN 37240 (615/322-3822). Confidentiality is assured.

VANDERBILT IS AN EQUAL OPPORTUNITY/  
AFFIRMATIVE ACTION EMPLOYER

## The Market

ing, evaluating, and encouraging application and enrollment of qualified student-athletes. Individual will also be responsible for the management of department's academic counseling program for student-athletes. Duties include operation of support systems such as tutorial services and academic progress reports and providing NCAA compliance support in area of satisfactory progress. Individual credentials should reflect proven success in coaching, recruiting, and in working with student-athletes in a demanding academic environment. Teaching and/or counseling experience is preferred. Salary dependent upon background and experience. Application Deadline: March 7, 1990. Send letter of application, resume, and a list of three references to: Betsy East, Associate Director of Athletics, Cornell University, P.O. Box 729, Ithaca, New York 14853-0729. Cornell University is an Equal Opportunity/Affirmative Action Employer.

**Two Assistant Coaches—Men's Football (Coaching Classification).** Full-time academic year appointments. Intercollegiate Athletic Department. Salary range: \$38,112-\$52,896 (commensurate with qualifications and experience). One position includes the duties of coaching the offensive line; the other position will include duties of coaching the linebackers, as directed by the Head Football Coach. Both positions include teaching in the Physical Education and Recreation Administration Department (43 coaching and 57 teaching). Undergraduate degree required. Master's degree and successful teaching at the college level preferred. At least one degree in PE or related field plus current CPR certification required. Commitment to academics and knowledge of NCAA rules necessary. Successful coaching in football at the collegiate level plus recruiting experience with California high schools and junior colleges required. Preferred will be given to applicants who can teach racquet sports, golf and volleyball. Starting Date: August 1, 1990, deadline for receipt of application and resume: March 7, 1990. Apply to Dr. Kendrick Walker, Athletic Director, Department of Athletics, Cal Poly, San Luis Obispo, CA 93407. AA/EOE.

### Golf

**Men's Golf Coach.** Eastern Michigan University is seeking applicants for Head Coach, Men's Golf. This position is available immediately. The individual selected will recruit, coach, and counsel all student-athletes participating in the varsity sport of Men's Golf, and will take part in various community activities such as clinics and speaking engagements. Additional responsibilities include supervision of assistant coaches and support staff; assisting with scheduling and budgeting; and determining supply and equipment needs. Qualifications: Bachelor's De-

gree or equivalent combination of education and experience, and three years' experience in a golf program necessary. Experience in counseling and advising student-athletes with problems desirable. For consideration, reply by March 1, 1990, to: Position ACEX90002, 310 King Hall, Eastern Michigan University, Ypsilanti, MI 48197. We take pride in the pursuit of our affirmative action objectives and encourage qualified women and minorities to consider this opportunity. Multi-cultural experience desirable.

### Soccer

**Head Women's Soccer** and one or two additional women's sports with teaching and administrative responsibilities. Full-time, non-tenure track with Faculty Rank. Responsibilities: Coach and direct strong NCAA Division III women's soccer program and assist in women's basketball or other women's sports. Qualifications: Bachelor's required—Master's preferred. Salary: Negotiable, commensurate with qualifications. Starting Date: August 15, 1990. Send letter of application, vitae, transcripts, and three letters of reference to: Mr. Harlan Knosher, Director of Athletics, Knox College, Galesburg, IL 61401. Preference will be given to applications received before March 15, 1990. Knox College is an Equal Opportunity Employer and does not discriminate on the basis of sex, age, race, color, ethnic origin, or handicap.

**Head Soccer Coach.** DePaul University has a part-time position as head coach of a Division I NCAA Men's Soccer Program, including all pre-season, in-season and post-season activities necessary in developing a competitive program. Responsibilities include: Implement all NCAA rules, policies and procedures pertaining to men's soccer, coordinate the recruiting, scouting and development of player personnel, monitor and review the scholastic progress of the athletes in conjunction with the department's Academic Advisor, assist in the development of the schedule under the direction of the Associate Athletic Director in conjunction with NCAA regulations, coordinate all travel arrangements and recruiting procedures through the department's Business and Compliance offices and act as the department's liaison on all public relations and promotion matters concerning the men's soccer program. Qualifications: Bachelor's degree required (Master's Degree preferred), minimum of three years of soccer coaching, preferably at the collegiate level. Salary is commensurate with experience. Send letter of application, resume and supporting documents, along with three letters of recommendation, to: Jean Lenti Ponsetto, Associate Athletic Director, DePaul University, 1011 W. Belden Avenue, Chicago, IL 60614. Application Deadline: February 16, 1990. DePaul University is an Equal Opportunity Employer.

**Men's Soccer Coach:** St. Lawrence University is seeking applications for the (full-time) position of men's soccer coach with assistant coaching responsibilities in one other sport. The successful candidate will also be expected to teach in the University's required physical education major's program. A mas-

ter's or earned doctorate degree in physical education or a related discipline is preferred and preference will also be given to candidates with advanced degrees in exercise physiology and/or exercise science. In addition to the appropriate degrees, candidates should have proven coaching and teaching abilities preferably at the collegiate level and an educational philosophy that would complement a vigorous Division III athletic program housed in a small, academically competitive, liberal arts institution. Depending on qualifications the appointment will be either faculty track or ten-month administrative beginning August 1, 1990. Salary is commensurate with qualifications and experience. Send application materials to: Dr. Richard Metcalf, Search Committee Chair, Sport & Leisure Studies Department, St. Lawrence University, Canton, NY 13617. St. Lawrence University is committed to fostering multicultural diversity in its faculty, staff, student body and programs of instruction. As an Equal Opportunity/Affirmative Action Employer, we specifically encourage applications from women and minorities.

### Tennis

**Division I Women's Tennis Coach Needed.** Spring '90 Season. Responsibilities include: recruiting, knowledge of NCAA regulations and coaching. Applications due early February to: Gela Mikalauskas, Assoc. Athletic Director, Wagner College, 631 Howard Avenue, Staten Island, NY 10301.

### Volleyball

**Interim Assistant Women's Volleyball Coach (Coaching Classification).** 90 academic year appointment. Intercollegiate Athletics Department. Salary range: \$34,301-\$47,606 (commensurate with qualifications and experience). Duties include working with all facets of the Women's Volleyball program as directed by the Head Women's Volleyball Coach and teaching in the Physical Education/Recreation Administration Department (43 coaching, 47 teaching). Undergraduate degree required. Master's degree and successful teaching at the college level preferred. At least one degree in PE or related field plus current CPR certification required. Commitment to academics and knowledge of NCAA rules necessary. Preference will be given to applicants who can teach a wide variety of Physical Education classes chosen from among racquet sports, team sports, golf and fencing. Apply to Dr. Kendrick Walker, Athletic Director, California Polytechnic State University, San Luis Obispo, CA 93407. Interim appointment: April 2, 1990, to March 22, 1991; deadline for receipt of application and resume: March 7, 1990. AA/EOE.

**Women's Assistant Volleyball/Softball Coach, Teaching in Health, Physical Education & Recreation.** University of Wisconsin-Whitewater, a Division III school, announces a tenure/academic staff position available Au-

gust 19, 1990. Minimum of master's degree, with public school teaching and interscholastic or intercollegiate varsity coaching experience desirable. Apply in writing to Dr. Dianne Jones, Athletic Director—Women, UW/Whitewater, Whitewater, WI 53190. A completed credential packet consists of a letter of application, vitae, three current letters of recommendation and all undergraduate and graduate transcripts. Application Deadline: March 15, 1990. UW/W is an Equal Opportunity Employer.

**Assistant Volleyball Coach,** Kansas State University. B.S. Degree required with collegiate recruiting and on-court team training experience. Good communication skills preferred. Responsibilities to assist the head coach with all phases of the women's volleyball program. Submit letter of application, resume and three references by February 14, 1990, to: Steve Miller, Director of Athletics, Kansas State University, Bramlage Coliseum, Manhattan, KS 66506. KSU is an Affirmative Action and Equal Opportunity Employer.

### Physical Education

**Physical Education/Athletics.** Full-time, tenure track instructor/coach, beginning Fall 1990, to teach in the physical education major, which includes a management track, teach some activities courses, and coach two sports (soccer and outdoor track preferred). Teaching responsibilities include physiology of exercise, motor learning, tests and measurements, sports management, secondary PE, methods, and coaching team sports. Candidates should hold the doctorate, have a record of teaching excellence, and be primarily interested in teaching, coaching and working closely with students in a private, liberal arts, NCAA III environment. Strong candidates at the ABD level considered. Send resumes and three references by March 1 to Dean Arthur Darken, Blackburn College, Carlinville, Illinois 62626. EOE.

**Chair, Department of Physical Education, Albion College.** Tenure-track position. Rank open Available 1990-91 academic year. Qualifications: Ph.D., experience preferably in motor learning and/or health and/or pedagogy; teaching experience; ability to coach one women's intercollegiate sport; familiarity with recreation and wellness programs. Administrative experience desirable. Responsibilities include leading the Department of Physical Education, overseeing the directors of athletics and recreation/wellness programs, teaching, coaching, and coordinating a balanced program of instruction, recreation, wellness, and athletics. Creativity, vision, interpersonal and communication skills, and commitment to liberal arts education are essential. Albion possesses new and renovated facilities, belongs to the NCAA Division III and the Michigan Intercollegiate Athletic Association, and offers a major in physical education. Applications accepted until position is filled. Send statement of interest, resume, and names and addresses of three references to Daniel P. Poteet II, Provost,

Albion College, Albion, MI 49224. Equal Opportunity Employer. Women and minority candidates are encouraged to apply.

### Graduate Assistant

**Graduate Assistants in Football—University of California at Berkeley.** A member of the Pacific 10 Conference. An Equal Opportunity Employer. You must have at least a 3.0 grade point average and a score of 1000 on the Graduate Record Examination.

**Mankato State University** is seeking graduate assistants in Physical Education for 1990-91. Typical stipend of \$3,168, plus 1/2 tuition waiver (approximately \$4,000—final stipend). ## ASSOCIATION OF MID-CONTINENT UNIVERSITIES CONFERENCE

### Director of Communications/Marketing

The AMCU Conference invites applications and nominations for the Director of Communications/Marketing position.

**Position—**A full-time, 12-month position beginning July 1, 1990.

**Responsibilities—**The successful candidate will direct media relations and promotions for a progressive 10-member Div. I conference that includes nine sports. Produce conference publications, news releases, create promotional programs, and assist the Commissioner with marketing, corporate sponsorship, radio and TV programming. Related duties include management and supervision of an internship program—staff and assist in all conference championship events.

**Qualifications—**Bachelor's degree required, strong writing, communications and organizational skills with sports information and promotional experience desired.

**Salary—**Commensurate with experience.

**Application—**Forward letter of application, resume and three reference letters to:

Director of Communications/Marketing Search Committee  
AMCU Conference  
310 S. Peoria, Suite #210  
Chicago, IL 60607

**Deadline—**Must be received no later than March 19, 1990.

## Director of Operations NCAA Business Department

Applications are being accepted now for the position of director of operations in the business department of the NCAA national office.

The director of operations currently is responsible for building and office administration (including the Association's centralized mail and duplication center), contracts administration, personnel administration, insurance and risk management, and numerous special projects. At present, there are 16 staff members in the operations division of the business department.

Candidates for this position should possess a proven record of managerial experience, display strong written and oral communication skills, and be able to effectively handle a variety of activities. A legal background, experience in developing and administering group insurance programs, experience in negotiating contracts, and an undergraduate degree in a business-related area are desirable, but not required.

Interested candidates should send a letter and resume to:

Suzanne E. Mason  
Personnel Manager  
NCAA  
P.O. Box 1906  
Mission, Kansas 66201

Deadline for applications is February 28, 1990.

The NCAA is an Equal Opportunity Employer.

The Council of Ivy Group Presidents is accepting applications for a ten-month athletic administration internship during the 1990-91 academic year. The intern will spend approximately five months at each of two Ivy League institutions, as well as time in the Ivy office, and will work directly with campus administrators in all aspects of college athletic administration. The internship is available to women and members of minority groups through funds granted by the NCAA to Division I conferences.

We seek a highly motivated person who has some familiarity with college athletics and wants to explore a career in athletic administration. Applicants should have earned a bachelor's degree, have strong organizational, interpersonal and communicative skills, and be demonstrably ready to assume a variety of independent responsibilities.

Please send applications and three letters of reference by March 9, 1990, to Jane Antis, Council of Ivy Group Presidents, 70 Washington Road/Room 22, Princeton, NJ 08540.

## ATHLETIC ADMINISTRATION INTERNSHIP

## TRINITY UNIVERSITY BASEBALL COACH

Trinity University, a Division III member of the College Athletic Conference, is seeking applicants for the position of Baseball Coach. The position is a full-time, non-tenure track contract staff appointment. Duties of the position include: coaching and administering an NCAA Division III baseball program, recruiting academically oriented student athletes, coaching in a fall sport (football, first assistant) and teaching selected activity classes in the Department of Physical Education. A Master's Degree and prior Division III coaching experience are preferred. Salary will be commensurate with qualifications and experience.

Founded in 1869, Trinity University occupies a modern campus overlooking the San Antonio skyline. Purposely small and selective, with about 2,500 students, Trinity stresses a high-quality, undergraduate liberal arts and science program. San Antonio is a city of approximately 850,000 people situated in a metropolitan area of 1.2 million.

Closing date for applications is March 19, 1990. Send letter of application, credentials and three (3) recent letters of reference to:

Gene Norris, Athletic Director  
Chair, Baseball Selection Committee  
Trinity University  
715 Stadium Drive  
San Antonio, TX 78212

AN AFFIRMATIVE ACTION/EQUAL OPPORTUNITY EMPLOYER

## NORTHERN ARIZONA UNIVERSITY Head Women's Basketball Coach

**Responsibilities:** The coach will be responsible for all components of the Women's Basketball program including, but not limited to: coaching, scheduling, practice, recruitment, budget, promotions, supervision of assistants, scouting, fund-raising and summer sports camp.

**Qualifications:** Master's degree is preferred, Bachelor's degree is required. Must have knowledge of NCAA rules and regulations. Previous college coaching experience is desired.

**Salary:** Commensurate with experience and qualifications.

**Application:** Send letter of application, resume and listing of professional references to:

Search Committee, Women's Basketball  
Northern Arizona University  
P.O. Box 15400  
Flagstaff, AZ 86011-5400

## AMHERST COLLEGE ANNOUNCES THE FOLLOWING COACHING POSITION

**POSITION DESCRIPTION:** Head coach of men's and/or women's varsity tennis and women's squash. Applicant should have experience in coaching both tennis and squash, and the teaching of physical education. A master's degree is preferred.

**CLOSING DATE FOR APPLICATIONS:** March 16, 1990.

**EMPLOYMENT DATE:** July 1, 1990.

**SALARY:** Commensurate with experience.

**APPLICATION TO:**

Professor Peter J. Gooding  
Director of Athletics  
Amherst College  
Amherst, Mass. 01002

Amherst College has an opening for the above position. The applicant should have extensive playing and/or coaching experience at either the high school or collegiate level in tennis and squash.

The individual will be responsible for all aspects of the men's and/or women's tennis and the women's squash programs, which will include program planning, coaching, scouting and recruitment. This is a contract, non-tenure track position. The initial appointment will be for three years and may be renewable.

Applicants should submit a cover letter, current resume detailing relevant experience and the names of at least three references.

Amherst College is an Affirmative Action/Equal Opportunity Employer. Minorities and women are encouraged to apply.

## KALAMAZOO COLLEGE HEAD FOOTBALL COACH

**POSITION:** Kalamazoo College is seeking candidates for the position of Head Football Coach. The position is a full-time appointment which carries faculty rank in the Department of Physical Education with responsibilities for all aspects of coaching a Division III intercollegiate football team, identifying and recruiting academically and athletically qualified student-athletes, managing the football budget, interacting with all College constituencies regarding the football program, teaching physical education courses and coaching one other sport.

**QUALIFICATIONS:** A Bachelor's Degree with major or minor in Physical Education and five years' experience in coaching at the high school or college level is essential. Proven ability to motivate young people. Desire to coach and teach in a Division III college setting. Proven ability to communicate goals and objectives of an intercollegiate football program to the entire College community.

**SALARY:** Commensurate with experience and qualifications.

**APPLICATION DEADLINE:** February 23, 1990.

**APPLICATION PROCEDURES:** Send letter of application, current resume and a list of references to:

Robert Kent  
Director of Men's Athletics  
Kalamazoo College  
1200 Academy  
Kalamazoo, MI 49007

Kalamazoo College is an Equal Opportunity Employer.

## Publications Editor NCAA Publishing Department

Applications are being accepted for a publications editor position in the NCAA publishing department. Publications editors are responsible for editing and production of NCAA publications (including rules books, records books, membership publications) and general printed materials (e.g., forms, pamphlets, office supplies). Publications editors also are reporters for The NCAA News, the Association's tabloid newspaper published 46 times a year.

Qualifications include full-time professional experience in editing, sports writing and publications production, at least three years required. Must be capable typist, accurate writer, careful editor, knowledgeable in sports and adaptable to desk-oriented position with very limited travel. Salary is commensurate with experience and qualifications. Starting date approximately March 12, 1990.

Send cover letter, resume and salary history by February 23 to:

Michael V. Earle  
Director of Publishing  
NCAA  
P.O. Box 1906  
Mission, Kansas 66201

The NCAA is an Equal  
Opportunity/Affirmative Action Employer

## DIRECTOR OF ATHLETICS North Carolina State University

**North Carolina State University** invites applications and nominations for the position of Director of Athletics. The University, a member of the NCAA Division I and the Atlantic Coast Conference, serves approximately 550 student athletes in 13 men's and 11 women's intercollegiate sports. The Department of Athletics has an annual budget of about \$12 million.

**POSITION DESCRIPTION:** The Director of Athletics is the principal administrator of the Department of Athletics. The Director must provide leadership for an athletics program that is consistent with the goals and ideals of the University, including the academic and personal development of the student-athletes. The programs must comply with NCAA, ACC, and University rules and regulations, as well as Title IX and Affirmative Action guidelines. The Director is responsible for the overall operation of the Department of Athletics, including all intercollegiate athletics programs, personnel, budget, and facilities. The Director must communicate and work effectively with the NCSU Council on Athletics, University officials, coaches, alumni, booster groups, the media and the public. The Director reports to the Chancellor.

**QUALIFICATIONS:** Candidates must have a baccalaureate degree, but an advanced degree is preferred. Ideally the candidate would possess substantial experience in athletics administration at a major University with recognized men's and women's programs, but candidates with comparable experience in other executive or senior management positions will be considered. The candidate must have superior leadership ability, sound fiscal and personnel management skills, proven communication skills, public relations and fund raising abilities, and a demonstrated commitment to the educational objectives of a high quality public university.

**DATE OF APPOINTMENT:** Negotiable. Salary and fringe benefits are competitive.

Applications should include a current resume, a cover letter describing qualifications for the position, and names, addresses and telephone numbers of five references who may be contacted.

Review of applications will begin on March 15, 1990, and continue until a suitable applicant is found.

Nominations and applications of qualified individuals should be sent to:

Chair  
Director of Athletics Search Committee  
Campus Box 7501  
North Carolina State University  
Raleigh, NC 27695-7501

North Carolina State University is an Equal Opportunity, Affirmative Action Employer and encourages applications from women and members of minority groups.

# Coach is lucky autographed ball didn't have her name on it

Hunter College fencing coach **Julia Jones**, 82, recently proved that she still has the agility that helped her become the first national women's fencing champion (1929) and a member of the 1932 U.S. Olympic team.

Waiting for a bus at 57th and Fifth Avenue in New York, Jones jumped out of the way of an object falling from a window above—which turned out to be a football autographed by the 1988 Super Bowl champion Washington Redskins.

"I didn't know any of the names," Jones said later. "I would only know Montana and Elway."

**Rene Portland**, women's basketball coach at Pennsylvania State University, earned career victory No. 300 February 5 when her Nittany Lions defeated defending Atlantic 10 Conference champion West Virginia University, 96-94. Portland's 14-year coaching record [including two years at St. Joseph's University (Pennsylvania) and two at the University of Colorado] is 300-113 (.726).

January 31 marked the 20th anniversary of the Division I men's college basketball all-time career scoring mark (3,667 points) set by the late **Pete Maravich**, who played at Louisiana State University. Maravich led the nation in scoring three straight seasons during his career.

Trivia Time: Who has scored more points than any player, man

or woman, in NCAA college basketball history? Answer later.

**Don Hansen**, whose weekly Football Gazette has become an important source for current information on college football below Division I-A, has started a weekly Basketball Gazette. Hansen, from Brookfield, Illinois, includes scores and conference standings, and he picks weekly national and regional players of the week for Divisions II and III.

Subscriptions to the new publication are \$40, which includes first-class postage. They're available from Hansen at P.O. Box 514, Brookfield, Illinois 60513 (telephone 708/485-2268, FAX 708/485-2269).

U.S. soccer referee **Vincent Mauro** has been named to work games in the 1990 World Cup, which will be held in Italy. "I wasn't looking to become an international referee," said Mauro, who already has worked World Cup zone qualifying

Laura Reding

"Basketball is very time consuming, and it is difficult to get assigned projects completed," Reding recently told **Frank Morgan**, Ohio sports information director. "You can read on a bus, but you can't pull out an easel and start painting."

Marietta College senior **Cathy Clark** recently became the first women's basketball player in Ohio Athletic Conference history to reach

Cathy Clark

the University of Maryland, Baltimore County, earned grade-point averages of at least 3.000 (4.000 scale).

**Jill Bigelow** has been named recipient of the James K. Brooker Memorial Scholar-Athlete Award at Saginaw Valley State University. A member of the Lady Cardinal track team, Bigelow has a 3.680 GPA in elementary education. The award was established in 1985 to honor the memory of **James K. Booker**, an original partner in the law firm of Smith & Booker, P.C.

Central College (Iowa) women's tennis team captain **Shannan Mattiace** recently was named to USA Today's all-academic first team. She carries a 3.970 GPA in political science and has made three study trips abroad (once to England, twice to Mexico).

Three student-athletes with 4.000 GPAs topped the list of 46 at the University of South Carolina, Spartanburg, who were named to the athletics director's honor roll (minimum 3.000 GPA required) for the

fall term. The straight-A students included men's basketball player **Marc Slayton**, women's tennis player **Patricia Vener** and women's softball player **Laura Vinciguerra**.

Missouri Southern State College's sports information director's honor roll for the fall semester includes 64 student-athletes who earned at least a 3.000. Eleven earned 4.000s. One of them, baseball player **Steve Hahn**, is the only student-athlete to earn 4.000s every semester (three) since the SID honor roll was initiated.

Quarterback **Jody Shelby** and women's soccer player **Lauren Calia** have been named the first recipients of the Gettysburg College Athletic Academic Award established by athletics director **Chuck Winters**. Calia had a 3.800 GPA last semester in English, and Shelby posted a 3.830 in history.

Florida State University women's volleyball player **Gabriella Reece** has been named the nation's most inspiring college athlete by the Dodge National Athletics Awards Committee for her efforts as a student-athlete and as an international role model. She received the award February 3 in Detroit at a black-tie affair that was emceed by radio personality **Larry King**.

Eleven Pittsburg State University student-athletes earned "All-A" scholastic honors during the fall semester, and 20 more earned "Dean's Scholastic" honors by earning at least a 3.600, making no grade lower than a B and not receiving an incomplete grade.

Three of the nation's top 20 men's volleyball teams will join Springfield College April 6-7 for the Volleyball Hall of Fame Classic, which will be played in Holyoke, Massachusetts. Joining Springfield will be San Diego State University; Rutgers University, Newark, and the U.S. Naval Academy.

At Missouri Western State College, 45 student-athletes with GPAs of at least 3.000 were named to the athletics director's honor roll for the fall semester. Twenty-one of them earned the honor for the second straight semester.

One-third of the men student-athletes at the University of Minnesota, Twin Cities, earned GPAs of at least 3.000 for the fall quarter, and 16 of them posted 4.000s. Golden Gopher men passed an average of 13.4 credits during the quarter—an all-time record for the program.

Twenty-one Central Michigan University student-athletes posted fall-semester GPAs of at least 3.500. Among them were three with 4.000s—baseball player **Kevin Ritter**, men's soccer player **Mike Turko** and distance runner **Ann Wiedmayer**.

At Bucknell University, 67 student-athletes were named to the fall semester dean's list after earning GPAs of at least 3.500. Seven **Rob D'Alessandro**, **David Berardinelli**, **Jason Cahilly**, **Kelly Marsh**, **Matt Deardorff**, **Sarah Mesaros**, and **Margaret Wilkes**—had 4.000s.

Twenty-six men's soccer players from North Atlantic Conference member institutions were named to the league's fall-semester academic honor roll. Leading the way were Boston University senior **Robert Buckmire** (3.900 in premedicine) and University of Maine, Orono, senior **Ted Hawes** (3.860 in zoology).

Trivia Answer: From 1969 through 1972, **Travis Grant** of Kentucky State University scored 4,045 points.

## Briefly in the News

games. "But each time I reached a plateau, I set another goal for myself. I have always thought of myself as No. 2 because if there is someone ahead of you, you always strive to become better."

As an art major playing women's college basketball, one of the toughest things for Ohio University student-athlete **Laura Reding** is getting her homework done.

2,000 career points. The milestone came January 13 on a 16-foot jump shot, which helped her team defeat OAC opponent John Carroll University, 82-77.

Clark also became the first Marietta basketball player—male or female—to score 2,000 career points.

More Report Cards: During the fall semester, 100 student-athletes at

## Cincinnati project

The University of Cincinnati's \$13.5 million football stadium renovation and expansion project, which will begin this spring, is shown in an artist's conception. Funding for the project, which will increase seating from 26,592 to 35,000, will come from private donations. Seating will be increased by

adding an upper deck on the east side and additions to the end zones. A three-tiered press box also will be added on the west side of Nippert Stadium. The project is expected to be completed for the 1991 season. Cincinnati will play its three home games in 1990 at Riverfront Stadium.
