## Fourth academic-performance report released

The NCAA Research Committee has released the fourth in a series of reports analyzing data collected in the NCAA Study of the Academic Performance of Student-Athletes.

NCAA Research Report 91-03 is a detailed look at the effects that different types of initial-eligibility rules might have on potential student-athletes. The tables in the report contain data used by the NCAA Academic Requirements Committee and the Presidents Commission in deliberations concerning alterations to current initial-eligibility legislation.

The report details the effects that 11 proposed rules would have had on a sample of student-athletes who entered Division I institutions in 1984 or 1985. Specifically, the rules were analyzed for the number of people who would have been made ineligible, the percentage of false negatives (student-athletes who would have been declared ineligible but actually graduated), accuracy, and the graduation rate and number of graduates that would be projected from those declared eligible by each rule.

The table on page 16 provides the

basic data related to each of 11 rules that were discussed by the committees assigned to review the issue of initial eligibility. Some of these rules require minimums on both test score and core grade-point average (such as the current rule), and others provide for an average of the two rules (averaging rules often have been referred to as indexing). Other rules contained in the table provide for indexing above a set of absolute minimums.

An example of this latter type of rule is "New Rule 4," the rule that has been forwarded by the Presi-

dents Commission. This type of rule is more stringent than the full indexing when it is compared with New Rule 2, which is a rule that utilizes the same averaging formula but allows it to run the full course of possible outcomes without set minimums.

"As an example of the difference between these two types of rules," said NCAA Assistant Director of Research Todd A. Peti, "one can take the example of an individual who has a 3.000 grade-point average in a core curriculum and a 600 on the SAT. Under the full indexing

(New Rule 2) this person would be eligible to compete because he or she has achieved a combined score that is at the 15th percentile of all college-bound seniors, which is where the averaging minimum has been set. However, under New Rule 4, this student-athlete would not be eligible because of the 700 minimum SAT score that is included in that rule. The overall differences in the two can be seen in the table."

The table demonstrates how all of the proposed rules would have had an effect on the incoming classes.

## Ethics through and through

Former NCAA president taught it, pushed it in athletics

By David D. Smale  
The NCAA News Staff

Any conversation about J. Neils Thompson begins and ends with ethics.

Thompson, NCAA president in 1977-1978, was faculty athletics representative at the University of Texas at Austin from 1961 until 1979. Through that time, ethics was his bailiwick. He taught it in the classroom while promoting it in intercollegiate athletics. He also wrote numerous codes of ethics for engineering firms and businesses.

In the early 1980s as a member of the NCAA Long Range Planning Committee, Thompson authored a study on the issue of pressures in athletics administration and how they affect ethics. Titled "The Pressures on Institutions and Coaches to Win at All Costs: How Can These Be Reduced?," the study focused on the demands faced at Divi-

Formerly: Faculty athletics representative for the University of Texas at Austin; NCAA president in 1977-78

Family: Wife, Wanda; daughter, Patricia; two grandchildren

sion I institutions to "win or perish." Thompson wrote that those pressures were similar to those faced by faculty to "publish or perish." As a result, many coaches and some administrators pushed for tenure for coaches to relieve that pressure.

Although those pressures may be intensified because of the increased scrutiny afforded major athletics programs, the committee determined that coaches are well-compensated in exchange for having to handle those pressures. Thompson

still holds that opinion.

"It seems to me that to maintain a tenure for coaches would be quite difficult and may make it difficult to administer the athletics programs," he said. "Most coaches in Division I receive considerable supplementary compensation. Most of these compensations are substantially more than the average full-time or tenured faculty person. The tenured faculty

person has some benefits regarding longevity."

Thompson doesn't believe cheating is as widespread as some might think. "I feel that somewhere around 75, 80 or 85 percent of our coaches and athletics directors have high standards, high degrees of integrity and try to comply with the rules," he said. "I think failures to comply are, first, ignorance and, second, a lack of integrity and a lack of motivation to do the thing that is right."

See Ethics through, page 3

Former NCAA President J. Neils Thompson presiding over the 1978 NCAA Convention

## Malik appointed to Council

Jim G. Malik, faculty athletics representative at San Diego State University, has been appointed by the Western Athletic Conference as its representative to the NCAA Council.

Malik replaces L. Oval Jaynes, who recently stepped down as athletics director at Colorado State University to accept a similar position with the University of Pittsburgh.

Malik's continuing service is subject to approval by delegates at the Association's 1992 Convention. He then would serve the remainder of Jayne's term (through January 1994) and would be ineligible for reelection.

Malik, a professor of chemistry at San Diego State, has been faculty athletics representative since 1973. He is a 1950 graduate of Wabash College and earned a doctorate in 1954 from Michigan State University.

He began his teaching career at the University of Minnesota, Duluth, in 1954. Malik then spent a year at Knox College

Jim G. Malik

(1956-57) before joining the San Diego State faculty.

With the exception of one year (1964-65) spent at Sonoma State University as chair of the physical science division

See Malik appointed, page 12

## Council to review 148 proposals

The NCAA Council will take a close look at all legislation submitted for action at the 1992 NCAA Convention when the Association's policy board holds its fall meeting, October 7-9 in Kansas City, Missouri.

Included in the Council's review will be all 148 legislative proposals contained in the Second Publication of Proposed Legislation, which was mailed to the membership September 13. Those 148 include all amendments submitted by the membership in accordance with the July 1 deadline and those proposed by the Council itself and by the Presidents Commission in accordance with the August 15 deadline.

Of the 148 proposals, 58 are sponsored or cosponsored by the Council.

The only Convention-related legislative actions the Council can take at this meeting are decisions to sponsor amendments-to-amendments or resolutions. Those have to be submitted by October 15.

Also before the Council will be proposed noncontroversial amendments, amendments based on mak-

ing legislation concur with the original intent and revisions of administrative regulations (Bylaw 30). The Council has the authority to take those types of legislative actions between Conventions.

### Other major topics

The Council will take on its annual fall exercise of appointing individuals to fill September 1992 vacancies on all of the Association's general committees as listed in Bylaw 21.3. Included in that process is consideration of all candidates nominated by the membership for those vacancies.

Also on the October agenda is a report from the NCAA Presidents Commission on the actions taken in that group's October 1-2 meeting. Commission Chair R. Gerald Turner, University of Mississippi, will present an in-person report.

The Council also will hear from a number of standing and special committees and subcommittees, including the Academic Requirements, Executive, Legislative Review, Minority Opportunities and Interests, Special Events, Student-Athlete Advisory, and Two-

Year College Relations Committees, the Committees on Competitive Safeguards and Medical Aspects of Sports, Financial Aid and Amateurism, and Review and Planning, the Special Committees to Review the Enforcement and Infractions Process and to Review Implementation of 1990 Convention Proposal No. 14, and the Council Subcommittee.

# Cable royalty checks total more than \$3 million

Checks have been mailed to selected member institutions for their share of the 1987 cable television royalties as distributed by the Copyright Royalty Tribunal to various sports interests.

Money was sent to those institutions based on the number of events in which they reported they were involved in 1987. The rate per unit was \$3,308, and the total distributed

was \$3,258,722. If the CRT rules that additional money is to be paid, the NCAA will forward the funds as necessary, Executive Director Richard D. Schultz said.

The statutory royalty fees are based upon the number of broadcast stations that a cable television system retransmits outside the community or "local service area" that the broadcasting stations serve. The

exact amount of the royalty payment is determined by a formula set forth in the statute, which consists of a specific percentage of the cable system's gross receipts for each distant signal equivalent.

The royalty payments are for retransmissions of nonnetwork over-the-air broadcast programming beyond the local service area of the broadcast station. The rationale

underlying the royalty payment is that the copyright owner should be compensated when cable television systems carry a telecast beyond the geographical area for which the sale of broadcast rights was negotiated. Royalties are not payable on cable retransmissions of national network programming.

Schultz emphasized how important it is for each NCAA member to

maintain records regarding the cablecasting of its events. He also stressed the need for members to respond to questionnaires from the national office.

"Accurate information is essential for the NCAA to represent adequately the interests of member institutions and conferences before the Copyright Royalty Tribunal," Schultz said.

## Minority opportunities committee moves ahead with long-range plan

The NCAA Minority Opportunities and Interests Committee reviewed the first draft of its long-range plan at its meeting September 23-24 in Ocean City, Maryland.

The plan addresses issues that will relate to minority opportunities in intercollegiate athletics. The staff was directed to complete a second draft that the committee will review, probably in a telephone conference. The committee expects to submit the document to the NCAA Council by its January meeting at the latest.

The committee identified five key areas in its long-range plan. They are:

- Affirmative action and minority enhancement issues.
- Continued research opportunities.
- Identification of programs that may educate individuals regarding multicultural diversity.
- Promotion of minority student development and enhancement at all educational levels.
- Eliciting support of minority enhancement from the private and public sectors.

The committee seeks to attain these goals through a variety of means, including workshops and seminars, regional contacts, research, and public relations.

The committee also discussed the status of the National Football League's minority coaches fellowship program. Final recommendations regarding the program will be available to the Administrative Committee at its next meeting.

The NFL program, developed to enhance minority coaches' opportunities, has been determined to

## Other highlights

*Other actions taken by the NCAA Minority Opportunities and Interests Committee during its September 23-24 meeting in Ocean City, Maryland.*

- Reviewed its previous recommendation to the Executive Committee to increase the number of minority interns at the national office from three to five in the next fiscal year. The action, which the Executive Committee approved, will bring the number of national-office interns to eight (five minority, three women).

- Received a presentation from Dana Brooks, associate dean of physical education at West Virginia University, and Ronald Althouse, chair of sociology and anthropology at West Virginia University. Brooks and Althouse are editing a book entitled "Social Justice: Racism in Sports." The committee will have a follow-up discussion with Brooks and Althouse upon completion of their book.
- Reviewed a request from

Richard Crosby, director of athletics at Lincoln University (Missouri), to explore the possibility for dialogue between the NCAA and the National Association for Equal Opportunity in Higher Education, an association of 116 predominantly black colleges, 52 of which have NCAA membership. The committee directed the staff to explore what might be gained from dialogue between the organizations.

- Reviewed correspondence from the Eastern College Athletic Conference, in which it was noted that the ECAC cannot participate in conference grant programs because of the conference's multidivision makeup. The ECAC was seeking opportunities to receive funding for special intern programs for minorities. The committee recommended that a request be sent to the NCAA Executive Committee to review the ECAC's request and also to explore how to address similar needs that may exist in Divisions II and III.

conflict with Bylaw 11.3.3.1, which stipulates that no professional organization may compensate an NCAA coach. The committee re-

viewed the program, and discussions have been conducted with the NFL to examine how it can be maintained.

## Legislative Assistance

1991 Column No. 34

### Use of institutional athletics equipment during the academic year

Member institutions should note that in accordance with NCAA Bylaw 17.02.8-(c), a student-athlete who competes and receives any type of equipment or clothing from the institution for the competition would be considered to have represented the institution in intercollegiate competition. Thus, a student-athlete who retains and utilizes institutional athletics equipment (e.g., golf clubs, golf bag, tennis racquet, tennis-racquet case) for any competition throughout the regular academic year would utilize an individual date of competition, as well as a season of competition. Please note that events listed in Bylaws 16.8.1.3-(a), 16.8.1.3-(b), 16.8.1.3-(c) and 16.8.1.3-(e) would be exempt from the application of this regulation, provided the event does not meet the definition of collegiate competition as set forth in Bylaw 17.02.8-(b).

### NCAA Bylaw 17.1.5.3.2—competition day/prohibition against practice following competition

Divisions I and II member institutions should note that in accordance with Bylaw 17.1.5.3.2, all competition and any associated athletically related activities on the day of competition shall count as three hours (for purposes of calculating the 20-hour-per-week limit set forth in Bylaw 17.1.5.1), regardless of the actual duration of these activities. Thus, an institution whose competition lasts less than three hours, or any institution that participates in multievent competition on the same day (e.g., double-headers in softball/baseball), would count such competition as three hours when calculating the weekly limit of 20 hours of countable athletically related activities.

In addition, it is not permissible for member institutions to conduct practice activities following the competition. During its February 28, 1991, conference, the NCAA Interpretations Committee determined that a member institution's coach may provide monitored instruction or assistance to a student-athlete subsequent to the completion of a student-athlete's event during a multiday or multievent competition (e.g., double-headers in softball/baseball, any round of golf prior to the final round in a multiround tournament), inasmuch as such activity would not be considered practice following a competition. For example, if a member institution participates in a three-day golf tournament, it would be permissible for the member institution's coach to provide monitored instruction or assistance after the first day or the second day of the tournament. Subsequent to the completion of the institution's (or the student-athlete's) final day of the tournament, it would not be permissible for the institution's coach to conduct practice activities.

### Fall evaluation periods—Divisions I and II football

Division I member institutions should note that in accordance with Bylaws 30.9.5-(b) and 30.9.5-(c), it is permissible for authorized full-time coaching staff members in the sport of football to evaluate prospective student-athletes on Fridays during the month of October and the time period from November 1-30. Please note that authorized coaching staff members may participate in any evaluation activities during the above-mentioned periods. Thus, on a Friday during the month of October, it would be permissible for a member institution to review a prospect's transcript during the day and observe the prospect in competition during that evening. All evaluation activities during a 24-hour period (measured from 12:01 a.m. to midnight) would count as one of the four permissible evaluations as set forth in Bylaw 13.1.6. Finally, there is a limit of seven coaches (including the head coach) who may participate in off-campus evaluation activities at any one time. Such recruiters should be designated on a weekly basis with Monday through Sunday constituting a week.

In Division II, in accordance with Bylaws 30.9.6-(b) and 30.9.6-(c), it is permissible for a member institution to evaluate prospective student-athletes during the period between the prospect's initial and final high-school or two-year college contest, as well as the period from November 1-30. All evaluation activities during a 24-hour period (measured from 12:01 a.m. to midnight) would count as one of the four permissible evaluations as set forth in Bylaw 13.1.6.

During its September 5, 1991, conference, the Interpretations Committee determined that a member institution's coach who observes a contest between two high schools that is conducted on the grounds of a third high school would be charged with an evaluation of each prospect participating in the contest, but would not be charged with an evaluation of each prospect who attends the high school where the contest is being conducted, provided the coaching staff member does not evaluate any prospect who attends the high school where the contest is being conducted.

*This material was provided by the NCAA legislative services department as an aid to member institutions. If an institution has a question it would like to have answered in this column, the question should be directed to Nancy L. Mitchell, assistant executive director for legislative services, at the NCAA national office. This information is available on the Collegiate Sports Network.*

## Committee notice

Member institutions are invited to submit nominations to fill interim vacancies on NCAA committees. Nominations to fill the following vacancy must be received by Fannie B. Vaughan, executive assistant, in the NCAA national office no later than October 15.

**Eligibility Committee:** Replacement for Christopher T. Fisher, no longer at a member institution. Appointee must be from Division II.

## Binders available for keeping News

Readers of The NCAA News are reminded that binders, which provide permanent, convenient storage of back issues of the paper, are available from the publishing department.

Each of the rugged, vinyl-covered binders holds 23 issues of the News. They may be purchased for \$10 each, or two for \$19. Orders should be directed to the circulation office at the NCAA (913/339-1900).

# Committee modifies proposed rules for needy student-athlete fund use

The NCAA Committee on Financial Aid and Amateurism has modified recommendations it had developed earlier regarding the use of money from the needy student-athlete fund by student-athletes who do not qualify for Pell Grants.

At the request of the Association's Administrative Committee, the committee, which met September 19 in Kansas City, Missouri, reviewed its earlier recommendations and voted to submit the following to the NCAA Council and Executive Committee:

Student-athletes, both foreign and domestic, not qualifying for Pell Grants will be given access to the needy student-athlete fund on a two-year trial basis, subject to these conditions:

- The awarding institution certifies in writing through the signature of the director of financial aid that the student-athlete receiving a full grant-in-aid has unmet financial need as demonstrated by a needs analysis conducted according to Federal Congressional Methodology.

- Such written certification is submitted with the application form to the conference office. A copy also shall be on file in the athletics director's office.

- Distribution of funds under these conditions shall not exceed \$500 per student-athlete per year, and the funds may be used to meet expenses only in the following areas: Medical expenses (except those covered by another insurance program, either institutional or personal); hearing aids; vision and therapy (for example, contact lenses and eyeglasses); off-campus psychological counseling, and travel expenses related to family emergencies.

Note: These expenses relate to the first five items of a listing of permissible uses of the needy student-athlete fund as enumerated in a June 6 memorandum in which the revenue-distribution plan was presented to chief executive officers at NCAA member institutions.

- Only student-athletes receiving full grants-in-aid shall be permitted access to the fund.

**NCAA Committee on Financial Aid and Amateurism members Joseph A. Russo of the University of Notre Dame and Thomas M. Kinder of Bridgewater College (Virginia) discuss a point**

## Other highlights

*Other actions taken by the NCAA Committee on Financial Aid and Amateurism during its September 19 meeting in Kansas City, Missouri:*

- Reviewed proposed legislation for the 1992 NCAA Convention that relates to financial aid and amateurism issues. The committee will report its position regarding the proposals to the Council at that group's October 7-9 meeting in Kansas City, Missouri.

- Reviewed the final results of a survey it used to initiate the financial aid study of student-athletes' unmet financial need as directed by the adoption of 1991 Convention Proposal No. 88. The committee agreed to prepare a final report that sets forth its conclusions regarding the extent of unmet financial need among Division I student-athletes on full grants-in-aid for the Council's January 1992 meeting.

- Agreed to review at its February 1992 meeting the legislative amendments necessary to require on-campus employment earnings during term time to be counted toward maximum institutional grant-in-aid limitations only if athletics interests intercede, as is the case for off-campus employment earnings during term time.

- Voted to recommend to the Council that it request from the NCAA Interpretations Committee a clarification regarding whether the provisions of NCAA Bylaw 15.01.7 permit an institution to individualize the cost-of-attendance calculation for each student-athlete or whether an average for all students must be used. It also recommended that the interpretation be published in The NCAA News to assist institutions in consistent application of the appropriate calculation method.

## Ethics through

*Continued from page 1*

ever it gets dismissed. He believes Division I athletes should be paid a stipend.

"I think it was unfortunate when the NCAA discontinued what we called 'the laundry provision' and the funding of scholarships as the laundry provision allowed," he said. "There is a large number of relatively poor athletes—quite frankly, underprivileged athletes. After the laundry provision was done away with to save a few dollars, I can remember that some of the athletes simply did not have money to pay for their laundry or have any entertainment whatsoever."

"The result is that athletes in that condition were pretty hard-pressed to get adequate funds to live on because the scholarship funds are completely inadequate for that. So, unfortunately, some coaches came to their rescue in times of need—maybe with their hearts in the right place, but not in conformity with the rules."

Thompson agrees that there always will be abuses (for instance, a student-athlete who is entitled to \$100 each month still might try to obtain additional money), but he said a stipend would eliminate some problems. "It won't get rid of all the

abuses, but my feeling is that it gets rid of maybe half of them," he said.

"In the 20 or so years that I was involved in athletics, I saw a lot of athletes very carefully following all the rules and regulations. One of those was Earl Campbell. He used to say he had two pairs of blue jeans, and he had to wash one while wearing the other. He virtually lived in those same jeans all the time. He was of such strong character that he found a way to survive."

"Unfortunately, there are some who don't have that strong character and the result is they don't learn to persevere."

Thompson joined the Texas faculty in 1940 after graduating from the engineering school in 1935. "I had played football at the university in 1932, 1933 and 1934," he said. "I was taking engineering, and it was a pretty good struggle. We didn't have any scholarships in those days. If we got any funds, we had to work for them."

"I became interested in athletics

because of that experience. When I joined the faculty, I continued to keep my interest in the athletics arena, and I became well-acquainted with the president of the university. In 1950, he appointed me to the University Athletic Council. I served in that capacity for six years. We had a rotation system. We were on for six years and then we went off. At that time it was a very small council—three from the faculty, one ex-student and one student."

"In 1961, they came to me and said, 'We have rotated in and out members on the council, and we want someone to go on for a period of time.' So I went on the council in 1962 and served until 1979. Of course, through that process I became more involved in the NCAA, being president of the Southwest Athletic Conference and finally president of the NCAA."

While he was NCAA president, Thompson presided over the 1978 Convention in Atlanta—the Convention that approved a restructuring of Division I football.

Not all of Thompson's time has been spent in athletics. He also was, and continues to be, an accomplished engineer. He was involved in the design of nearly all of Texas' athletics facilities, in either construction or expansion. "That is one of the things in which I had a great deal of enjoyment," he said. "During my tenure on the University Athletic Council, we expanded the (football) stadium, a rather interesting design that I conceived. We built a big basketball arena, a nice baseball arena and one of the nation's best swimming facilities. Because engineering was in my blood, I had a hand in most of those designs."

## Questions/Answers

*Readers are invited to submit questions to this column. Please direct any inquiries to The NCAA News at the NCAA national office.*

**Q** Are NCAA investigations ever terminated before a case reaches the Committee on Infractions?

**A** Yes. The enforcement staff shall terminate the investigation related to any preliminary inquiry in which information is developed that does not appear to be of sufficient substance or reliability to warrant an official inquiry, it being understood that the Committee on Infractions shall review each such decision.

## Recruiting guide ready for athletics personnel

The NCAA Guide to Recruiting, a 140-page publication designed to assist Divisions I and II athletics officials and coaches in understanding and applying NCAA regulations and compliance strategies, is available from the national office.

The guide was developed by the compliance services and legislative services departments in conjunction with the American Institutes for Research. It reflects the results of a survey of conference officials, institutional administrators and coaches representing a cross section of NCAA Divisions I and II institutions. The guide includes key applications and interpretations, case studies, rules examinations, com-

pliance strategies, and sample compliance aids. It may be helpful for Division I coaches preparing for the certification process that begins in August 1992.

Conference administrators, directors of athletics and senior women administrators of Divisions I and II institutions will be receiving the guide in the mail shortly.

A limited number of additional plastic-coil-bound guides and additional plastic-wrapped, loose-leaf, three-hole-punched copies are available from the publishing department. Cost is \$5 for the coil-bound version and \$3.50 for the loose-leaf version. To order, call the circulation office at 913/339-1900.

**"I think it was unfortunate when the NCAA discontinued... the 'laundry provision.'"**

J. Neils Thompson

He has taught ethics courses in finance and in engineering for the past 23 years. In 1945, he founded the Balcones Research Center, which performs about \$100 million in research each year.

Just because he is semiretired and approaching his 80th birthday in a little more than a year doesn't mean this Texan is losing his spark. Besides teaching those courses on

ethics, Thompson still sits in on meetings of the University Athletic Council, works at the research center and writes those codes of ethics. You are not likely to attend an athletics contest in Longhorn country without seeing Thompson and his wife, Wanda. He gets up every morning at 6 and walks three miles, and he still plays golf two days a week if his schedule allows.

It's obvious when talking to Thompson that he is Texan, through and through. There's a hint of a drawl and a heart full of Longhorn pride. He'll quickly brag on the Texas athletics programs that, with very few exceptions, rank among the nation's best. He'll talk about the faithful alumni and Texas' clean reputation.

"I worked hard on a lot of this," he said. "Fortunately, I was privileged to work with who I consider to be two great coaches. One was D. X. Bible and the other was Darrell Royal. These two men were excellent examples, and they unhesitatingly followed the rules. In fact, I feel very good about most of the coaches we have had at the university because of their high character."

It all comes back to the idea of ethics. With Neils Thompson, it always does.

## NCAA facing short-term gain, long-term pain?

By Murray Sperber

*Author says recent legislative changes are symbolic at best*

In the last year, media and public interest in the problems in college sports has increased significantly, and individual critics, government officials and two high-profile commissions have proposed various solutions. If the reform movement can achieve a critical mass, then real changes could come to intercollegiate athletics.

Unfortunately, the critics are isolated, the government officials are often seeking headlines rather than meaningful change, and two official groups of reformers—the NCAA Presidents Commission and the Knight Foundation—have close ties to the college sports establishment (powerful athletics director and coaches) and seem as interested in damage control as in actually ending the financial and academic abuses that big-time athletics programs have visited upon American higher education.

The current proposals of the NCAA presidents and the Knight Foundation Commission on Intercollegiate Athletics appear, at best, symbolic. Those already enacted seem ineffective. The most hailed and controversial reform of the NCAA 1991 Convention was the

rule to limit an athlete's time per week on his or her sport to a maximum of four hours a day and a total of 20 hours per week and to restrict off-season practice time. The NCAA Presidents Commission pushed this regulation as a means of short-circuiting the 40-plus hours a week many athletes spend on their sports and to allow them to go to class and to study like regular students.

Unfortunately, the rule has a huge loophole: It permits athletes as much voluntary time on their sports as they want, including some activities under their coaches' supervision. James A. Marchiony, NCAA director of communications, told *The New York Times*: "Under the new rules, athletes can practice more than 20 hours a week. One hundred hours a week if they want, if it's voluntary."

Thus, when the rule came into effect in August 1991, the line between required and voluntary immediately blurred. A Big Ten Conference assistant football coach explained: "We get the guys into the weight room by 6 a.m., and they pump until 8:30. Later we have them view game tapes from 1 to 3

p.m. and in the evening. We only require them to be at afternoon practice. Under the new rules, all that weight training and tape viewing is strictly optional—except the athletes know that on Saturday the coach will play the guys who have bulked up and have watched all the films."

Eventually the presidents will have to institute a true 20-hour-a-week limit on an athlete's sports time or stop pretending to help them in this way. If they choose the former, they will transform intercollegiate athletics and return them to the student-based activities from which they long ago evolved and which still exist at many Division III and non-NCAA schools.

But have the presidents considered the implications of this transformation? Very quickly the product for which the television networks now pay so much money—college football and men's basketball played at the highest possible level—will deteriorate. When television ratings inevitably decline, will the presidents accept the renegotiated contracts and lowered payouts offered by the networks? And when the ratings

decline for the NCAA Division I Men's Basketball Championship, will the Association give back some of the billion dollars?

Not only are the presidents caught between the jocks and a hard place on these issues, elite college athletes are trapped between their dreams of earning fame and fortune from their sports and their desire for an education. Many college athletes have protested the 20-hour-a-week limit. They are very willing to devote 40-plus hours a week to athletics because of their desire to excel.

However, most student-athletes are inside a system that frequently exploits them, especially with its physical and time demands, and if they want to obtain a meaningful education, they must work exceptionally hard to gain it. That some do is a testament to the discipline and self-esteem that sports can teach as well as to the wall-to-wall tutoring that athletics departments provide.

Real reform in college sports would establish a system in which athletes could achieve academically to the best of their abilities. The NCAA Presidents Commission wants the 1992 Convention to focus

on this issue, and it will propose a minimum (and minimal) grade-point average for intercollegiate playing eligibility as one solution. In theory, this would be a useful step. In practice, many athletics programs will respond to the rule by expanding their "hideaway curriculum" for athletes and ensuring that the majority achieve the necessary GPA.

So far, the presidents and the athletes have preferred to accept the short-term gain and endure the long-term pain. The only winners have been the power coaches with their amazing six-figure annual income deals. The biggest losers are the universities that house these huge commercial entertainment enterprises. No wonder the public is increasingly skeptical about the academic programs of these schools and is unwilling to adequately fund them.

## Letters to the Editor

### NAIA should be proud of its academic record

In the September 16 issue of *The NCAA News*, Wake Forest University President Thomas K. Hearn was quoted as saying:

"Those athletes who have earned scholarships should get them. If (college) coaches have to settle for a better student and a slightly less-skilled athlete, so be it. It won't make any difference in the game."

"There are plenty of other options for those who don't qualify, (like) junior college or an NAIA school."

"It's simply intolerable to recruit kids into an institution who don't have a prayer of succeeding academically."

What distresses me about this quote is not the intent. I agree with President Hearn's views as presented in the first paragraph. What upsets me is the reference to the NAIA in the second paragraph. The NAIA is portrayed as an organization whose members are academically unsound institutions of higher learning. Nothing could be further from the truth. In fact, when it comes to academic standards for student-athletes, the NAIA was a groundbreaking organization.

Contrary to popular belief, the NCAA was not the first college athletics governing body to require stricter academic standards for students participating in intercollegiate athletics. Such standards as a 2.000 grade-point average by the junior year, 700 SAT scores and normal progress toward a degree were part of the NAIA's eligibility requirements long before the NCAA required such academic integrity. In fact, if the NAIA is guilty of any-

thing, it is failure to properly educate the public of its academic standards.

I have worked at two schools in the past two years that have been in the process of transition from the NAIA to the NCAA. At both California Lutheran University (Division III) and now Mars Hill College (Division II), coaches had to recruit under both NAIA and NCAA eligibility rules during the transition period. When a question of eligibility came up, the coaches were expected to abide by whichever governing body's standards were stricter. Inevitably, if a student was deemed inadmissible, it was the NAIA standards that ruled him or her out.

We are proud of the academic integrity of North Carolina schools such as Mars Hill, Catawba College, Elon College, Lenoir-Rhyne College and Gardner-Webb College. These schools, along with Carson-Newman College of Tennessee and Presbyterian College of South Carolina, are all members of the South Atlantic Conference, a total sports conference that has been an NAIA powerhouse for years and is making the move as a conference to NCAA Division II.

I am writing this letter simply to make people aware of the facts regarding NAIA athletics. At Mars Hill, we are very proud of the fact that the average GPA of our student-athlete population is exactly that of the average of the entire student body: 2.800.

**Greg Seiler**  
Sports Information Director  
Mars Hill College

## Athlete's motto: 'Whatever it takes'

**Tony Schmitz, football player**  
Temple University

*Philadelphia Daily News*

"My approach to football and school, it's the same: Whatever it takes... Once, I'd like to be a great athlete and not have to worry so much about school. I mean, the lowest (grade-point average) I've ever had was 3.650, and that even got me upset."

Schmitz

"... From what I see, you have to make allowances. It's a two-way street. Coaches and teachers will work with you. But your school is getting paid for because you play football. So it's a job. I know coach (Jerry) Berndt talks to me as much about academics as he does about football."

"... Football's my escape. Compared to school, it's so insignificant. I don't have to remember anything. I can just be calm. And when football's over, I'll have to find something to fill that void. I've always strived to be the best, in everything. My dad's one of those people who can leave it at the office. But you've got to get there first."

**Gene Wojciechowski**  
*Los Angeles Times*

"No one asked, but if we were NCAA grand poobah for a day, we would immediately insist on the following 10 measures:

"(1) Order all athletics directors whose programs still use artificial turf to spend some time with players whose careers were prematurely diminished or ended by the stuff. If that doesn't persuade them to switch to grass, have campus security drag them face-first for a 100-yard rug burn."

"(2) Limit the number of times the University of Southern California band can play that annoying fight song during a game, from the present 10,000 to, oh... two."

"(3) Do away with the NCAA rule that requires a player who transfers to sit out an entire season. Coaches who accept job offers at other schools don't

## Opinions

have to wait a year to work; why should the athletes?

"(4) Eliminate all Thursday night, Saturday night and Monday night games. In this case, television be damned."

"(5) Move the hash marks. The NCAA has taken away the kicking tee, like the NFL. The NCAA has shortened the distance between the uprights, like the NFL. Now it's time to move the hash marks in, like the NFL."

"(6) Have Pennsylvania State University's Joe Paterno check that University of Notre Dame's Lou Holtz give University of Houston coach John Jenkins a lecture on scoreboard management."

"(7) Lock Ohio State University coach John Cooper and former Ohio State running back Robert Smith in a room until they resolve their much celebrated differences. College football needs more players like Smith."

"(8) Restore the University of Florida vs. University of Miami (Florida) rivalry."

"(9) Allow players the right to test the NFL market without forfeiting their remaining eligibility."

"(10) Slip Bevo, the mascot of the University of Texas at Austin, a breath mint."

# 'Choice' programs earn alcohol-education grants

The first programs to receive CHOICES alcohol-education grants from the NCAA will use educational methods ranging from "high-tech" to the highly personal, but all are designed to encourage students to make legal, responsible and healthy choices about alcohol use.

More than \$160,000 in grants recently were awarded to 12 NCAA member institutions for

the development of campus alcohol-education programs, some of which are expected to provide models for nationwide use.

The CHOICES program, which was created to use the high visibility of athletics as a means for promoting alcohol awareness and education on campuses, is administered by the NCAA Foundation and underwritten by Anheuser-Busch Companies, Inc.

panies, Inc.

Schools received the initial grants for a variety of proposed programs, ranging from such technology-based approaches as the use of video displays and computer games to schemes intended to train student-athletes to become "peer alcohol educators" for fellow, nonathlete students.

All of the programs are cam-

puswide in focus and are built around athletics events, activities and/or personalities. And all emphasize, in one way or another, the choices students must make about alcohol use.

For students under 21, the programs unequivocally affirm the importance of complying with the law; for those over 21, they are oriented toward helping students make informed choices.

Sixty-four schools submitted applications to receive the first CHOICES grants. Another group of grants will be awarded in March 1992; applications for those grants will be due December 30, 1991.

Featured below are the 12 schools that received grants ranging from \$10,662.50 to \$19,591, and descriptions of the programs they are developing.

## Indiana University of Pennsylvania (\$10,662.50)

Capitalizing on the attractiveness of computer games, the Indiana (Pennsylvania) program will make students players in a computerized basketball game, where they will advance to victory by responding to questions about alcohol use.

The school's athletics department will be involved in implementation of the program, and all IUP student-athletes will be required to complete the computer-assisted program. The availability of the program also will be advertised to other groups on campus.

## University of Alabama, Tuscaloosa (\$15,000)

At Alabama, students will be encouraged to "Get on Big Al's Wagon of CHOICES." The figure of Big Al, the school's mascot, will grace a "high-tech" wagon designed to dispense alcohol-education information.

Among the wagon's features are touch-screen televisions, computers and videotapes that mostly are interactive in nature, permitting students to respond to programs.

The wagon will be pulled to various locations on campus and will be used heavily at sporting events.

## University of Southern Mississippi (\$15,719)

Southern Mississippi will undertake a comprehensive, year-round alcohol-education course for student-athletes that will prepare them to, in turn, present programs for student organizations, high schools and community organizations.

The intent is to take advantage of student-athletes' ability to serve as positive role models for teammates, fellow students and local youth.

The programs seeks to foster student development in the areas of alcohol education and abuse prevention; choosing a healthy lifestyle, and interpersonal skills.

## Columbia University (\$16,805)

The program is built around a competition among 21 athletics teams in the Columbia University-Barnard College consortium, in which each team earns points through participation in such alcohol-prevention activities as attendance at prevention workshops, development of a skit or video for presentation on campus, writing essays for publication in the campus newspaper, setting up displays during two annual alcohol-awareness weeks at the school, and development of a campuswide alcohol-awareness event.

Teams will compete during the off-season for their sports, and their efforts will be judged by a panel of students, coaches and administrators.

## Louisiana Tech University (\$15,065)

Spurred on by a school mascot, Awesome Dog, Louisiana Tech students will vie for prizes in a contest designed to reduce the consumption of alcohol at home football games.

Prior to each home game, students will answer questions on a game card, then take the card to a student-athlete, who will verify that all answers are correct and sign the card. Following the game, students then can voluntarily take a breathalyzer test; students under the age of 21 who produce a 0.00 blood-alcohol content and those 21 and over who show a level of less than 0.05 are entered in a drawing to win cash prizes for themselves and a VCR for a student organization.

## Manhattanville College (\$11,815)

Underclassmen, particularly freshmen, are targeted in the Manhattanville program. Freshmen who attend CHOICES-sponsored events throughout the year will be awarded "incentive points" that can be turned in for various rewards.

Among the events scheduled are a freshman orientation; a program following a women's volleyball match in October; a role-playing program following a men's and women's basketball double-header in February, and a contest seeking a student-produced video or skit that will be presented during a year-end campus music event.

## University of Northern Colorado (\$19,591)

Alcohol abuse will be "on the ropes" at Northern Colorado. Utilizing the school's physically challenging Adventure Ropes Course, the program will promote self-esteem, decision-making skills and group cohesiveness, particularly among freshmen. The course also will bring students in contact with cooperating campus groups that promote recreational activities as alternatives to alcohol consumption.

Another component of the program involves distributing materials at athletics events suggesting alcohol-use guidelines. The materials will promote abstinence for people under age 21 and "legal, healthy, appropriate and safe" behavior for those 21 and over.

## Fort Hays State University (\$15,000)

At Fort Hays State, the program is titled "F.R.E.S.H. (Fun, Responsible, Enlightened, Safe, Healthy) Choices." It asks students, faculty, staff, alumni and university friends to become "links in the chain" for striking a blow against alcohol abuse.

Through events at athletics events and other venues, the program will emphasize various risks associated with alcohol abuse and misuse.

In addition to actively encouraging students and others to make a commitment to participating in the program, the school also will provide materials on ways to "relax and feel good without alcohol."

## University of Nebraska, Omaha (\$16,266)

Nebraska-Omaha's program, titled "Mavericks' Choice," will call on up to 30 student-athletes from eight varsity sports to become peer alcohol educators. After completing training, the student-athletes will work under the supervision of coach/mentors to plan, deliver and evaluate alcohol-education programs for other athletes at the school, as well as nonathletes.

The school's athletics department also will sponsor a series of campuswide alcohol-education events, such as tailgate parties at athletics events and recognition ceremonies at games and banquets for the peer educators.

## San Jose State University (\$11,758)

The school plans a three-pronged program focusing on intervention, prevention and education, including:

- Formation and training of a "Choices Team" of students, including student-athletes, who will be trained in alcohol-prevention methods.
- The presentation of alcohol-education workshops by the Choices Team in residence halls, fraternities, sororities and classrooms and before student organizations.
- Seminars and workshops specifically targeted at the school's athletics teams throughout the academic year.

## University of Denver (\$15,000)

Entitled "Smart Choices," Denver's program is designed to involve team captains in each of the school's 14 varsity sports in an effort to promote responsible decision-making about alcohol use.

Every Denver student-athlete will receive a "DU Smart Choices" kit containing educational materials about alcohol use and abuse, posters, and a "Smart Choices" T-shirt.

Motivational speakers, educational seminars and a variety of campus events also are scheduled in conjunction with the year-long program.

## Ithaca College (\$14,000)

Ithaca student-athletes will be recruited to serve as peer educators at the school. Following training, student-athletes will visit classrooms and residence halls to present workshops.

The program specifically seeks to enable student-athletes to become more integrated with other students on campus, while taking advantage of the athletes' visibility on campus to present information to students, faculty and staff.

Responding to requests from the community, the student-athletes also will visit secondary schools in the area.

## Men's, women's basketball officiating tapes available

The 1991 men's and women's basketball officiating instructional videotapes, now available from the NCAA, focus on items such as traveling, verticality, post play and screening.

They are available in VHS (\$15) and Beta (\$17) formats.

After October 25, videotapes of one of the men's and one of the women's 1991 regional officiating clinics also will be available. The cost is \$20 in VHS and \$22 in Beta, per tape.

The men's clinics will be conducted by Henry O. Nichols, secretary-rules editor of the NCAA Men's Basketball Rules Committee and the Association's national coordinator of men's basketball officiating, and Don Shea, a longtime basketball official.

The women's clinics will be conducted by Marcy Weston,

secretary-rules editor of the NCAA Women's Basketball Rules Committee and national coordinator of women's basketball officiating, and June Courteau, supervisor of women's basketball officials for the Southern Conference.

The 1991 clinics will be attended by Division I supervisors of officials, officials and the head coach or a full-time member of the coaching staff at each Division I institution.

Complimentary copies of both tapes are distributed to Divisions I, II and III conferences.

The men's and women's basketball officiating and certification programs, under the direction of the NCAA Basketball Officiating Committee, are in their sixth year. Tapes from previous years are still available. (See order form below.)

## Kicker has all angles covered

By J. Gregory Summers  
The NCAA News Staff

Early in the fourth quarter of its 38-14 victory over Ohio University September 21, the University of Mississippi lined up on fourth down at the seven-yard line for a field goal. When Ohio called time out to set its defense, Ole Miss kicker Brian Lee ran to the sideline to talk with coach Billy Brewer.

"Do you want us to take a delay (of game) penalty and give you a better angle?," asked Brewer, surveying the severe angle of a 24 yard kick from the left hash mark.

"No, no," responded Lee emphatically. "The 24-yard kick from the hash is easier."

Lee wasn't just guessing. While others rely on visual evidence to determine which kicks are easier than others, the junior place kicker has used trigonometry to determine the margin of error he has on most any kick.

"I've programmed the calculator in my room to calculate—at any distance up to about 50 yards and from the hash marks or the center of the field—how many degrees to the right or left a kick can be off and still go through the uprights," Lee said.

He got the idea in late August while talking to a local sports writer about the narrower goal-post uprights, which were changed from 23 feet, four inches, to 18 feet, six inches, this season. Using the trigonometry he learned at Citronelle (Alabama) High School, where he was valedictorian of the class of 1989, Lee figured the difference between this year and last year and between kicking from the center of the field and a hash mark.

Lee's number-crunching revealed that kicking from the center of the field—or from farther back on the hash marks—isn't always the easiest.

"A lot of people think that a 30-yarder from the middle of the field is easier than a 20-yarder from the hash marks, but that's not true," he said. "As you look at it visually, it makes sense to say you should back up and take a straighter approach at the post. But what makes it harder is the extra distance the ball has to travel before it gets to the post."

A 20-yard kick from the hash marks can be 7.36 degrees to either side of center and still be good, while a 30-yarder from the middle of the field can be only 5.87 degrees off center. Lee hasn't memorized any of the figures, but he has developed a good sense of which kick positions are better than others.

Lee said the rule change's bottom line is that kickers have to be 20 percent more accurate, but field-goal figures through four weeks of the season don't totally support his estimate (see football notes on page

Ole Miss kicker Brian Lee

## Degrees of difficulty

The University of Mississippi's Brian Lee has calculated kickers' margin of error with this season's narrower goal-post uprights. The figure illustrates those margins for kicks from the middle of the field and the hash marks at the 25-, 35- and 45-yard lines. The numbers are the degrees that a kick can miss to the right or left of the midpoint between the uprights and still be good. The numbers in parentheses are the margins of error with last season's wider goal posts.

7). Division I-A kickers made 64.8 percent of attempts from 20 to 49 yards, a drop of 5.3 percent from their 70.1 conversion rate of 1990.

Strangely enough, Lee's own performance has taken a drastic turn in the other direction. After a nightmarish sophomore season, during which he made just three of 13 attempts, heard boos from Rebel fans and even received death threats, Lee put seven of his first 10 attempts through the narrower posts.

Lee said his family and his faith

helped him through the difficult times of 1990. But is his calculator getting him through the 1991 campaign?

"When I'm out on the field, I just go through my normal kicking routine. The last thing I need to do is start thinking trigonometry. My mind works strangely enough as it is."

Brian Lee's mind may work strangely, but it certainly works well. Any mathematician will tell you that.

# Another bad field-goal day marks worst slump since '81

By James M. Van Valkenburg  
NCAA Director of Statistics

The nation's Division I-A field-goal kickers had a bad day September 28, and that makes two weeks in a row of sub-60 percent accuracy—the first time that has happened since 1981.

How bad was it? They made just 52.3 percent, lowest since 51.2 on September 27, 1980. It is rather surprising, because they had out-kicked the 1990 group two of the first three weeks of the season despite narrower goal posts under the new rules.

Even with the two-week dip, kickers are at 60.3 percent for the season. That is only 6.7 percentage points, or 10 percent, worse than

## Angles on kicking

Jason Hanson, Washington St., Sept. 14 vs. Fresno St.	54

## 122-point game

Weber State (63) and Eastern Washington (59) combined for 122 points September 28—the highest two-team total in Division I-AA history (and the 59 is highest by a losing team). The former I-AA record was 118 by Furman (63) and Davidson (55) in 1979 (the I-A record is 124 and the Division II mark is 136).

## Seventh highest ever

The nation's 10 most-attended games September 28 totaled 816,618 fans—seventh highest ever (record: 833,285 on October 22, 1983). Michigan's 106,145 for Florida State ranks fourth on the all-time regular-season list (behind three other Michigan games).

## 26 in row

Northern Iowa junior Brian Mitchell has set a Division I-AA career record by making 26 straight field goals. He made his last 21 attempts last year for the I-AA season record, then his first five this fall before finally missing one September 21 vs. Southern Illinois. The I-A career record is 30 straight by Washington's Chuck Nelson (last five in 1981, first 25 in 1982 for the season record).

## More 100th seasons

Add Bowdoin and Oberlin to the list of NCAA colleges with at least 100 seasons of varsity football. Bow-

doin, reports sports information director Michael Townsend, is the ninth school to be playing its 100th season this fall. It celebrated the 100th anniversary of its first game two years ago (no team in 1943, 1944 and 1945). Oberlin now is in its 101st season, reports sports information director Scott Wargo. John Heisman, for whom the trophy was named, started his head-coaching career at Oberlin in 1892 (its second season) and his team produced a perfect 7-0-0 record.

## Quotes of the week

This is Bill Dooley's 25th season as a collegiate head coach and he retains his reputation for conservative offense. Recently, Dooley at the Winston-Salem Sportsman's Club: "I've been hearing so much about this new run-and-shoot offense lately, like it's something that just evolved in collegiate football. Heck, my teams have been running the 'run-and-shoot' for 25 years—every time we run the ball, the people up in the stands holler, 'shoot.'" (*John Justus, Wake Forest SID*)

Florida State head coach Bobby Bowden on the improvement of freshman place-kicker Dan Mowry: "I told him, 'Son, you can miss 'em to the right, or miss 'em from the left, but don't miss 'em under.'"

# Forms' automatic-qualification deadlines listed

Forms listing the deadlines for conference automatic-qualification applications for 1991-92 and 1992-93 NCAA championships have been prepared and distributed by the Association's championships department.

In addition to direct mailing to member conference offices, the men's and women's championships forms' deadlines also are being published in The NCAA News.

Also included in the charts are selection dates for 1991-92 team and individual championships and projected championships dates through the 1993-94 academic year. Because final approval by the Association's Executive Committee is required for determination of championships dates and sites, the projected information is subject to change.

## DIVISION I MEN

Championship	Conference Automatic Qualification Deadline For 1991-92 and 1992-93	1991-92 Selection Dates	Future Championship Dates		
			1991-92	1992-93	1993-94

# Settlement approved in Northeast case

The Ohio Court of Claims in Columbus has approved a monetary settlement on the damage portion of the Northeast Conference's dispute with the University of Akron, NEC Commissioner Chris Monasch said.

## Malik appointed

*Continued from page 1*

(Malik also helped initiate the school's chemistry department), he has been at San Diego State since.

Malik has received Michigan State's graduate/teaching award, and he also has received the distinguished teaching award from the California State University and Colleges. Also hon-

nored for his civic activities, Malik has received an Award of Merit from the Boy Scouts of America.

He has served on a number of WAC committees and was a founder of the Holiday Bowl board of directors. He also has served on the bowl's executive committee.

## Council to review

*Continued from page 1*

on Certification, Subcommittee on Initial-Eligibility Waivers and Subcommittee to Review Legislative Procedures.

### And the usual

As always, the Council will spend much of its time dealing with the routine business of the Association, including membership actions and

a review of interim actions taken by the Administrative Committee and the Interpretations Committee. It also will consider the quarterly report of the Association's governmental activities.

Highlights of the October meeting will appear in the October 16 issue of The NCAA News, and the minutes of that meeting will be printed in a November issue.

## Administrative Committee minutes

### 1. Acting for the Council, the Administrative Committee:

a. Appointed Jim G. Malik, San Diego State University, to the NCAA Council, replacing L. Oval Jaynes, who has left the Western Athletic Conference; also appointed Mr. Malik to chair the District 7 selection committee in the postgraduate scholarship program.

b. Appointed Horace I. Small, Johnson C. Smith University, to the National Youth Sports Program Committee, replacing Stephen Joyner of the same institution, resigned from the committee.

c. Appointed Earl Bagley, Columbus College, to the Men's and Women's Golf Committee, replacing Jack G. Mehl, no longer at a member institution.

d. Appointed Roland Sturk, Regis University (Colorado), to the Women's Soccer Committee, replacing Jim Kadlecck, no longer at a member institution.

e. Appointed Frances Nee, Indiana University of Pennsylvania, to the Men's and Women's Swimming Committee, replacing Clark Yeager, no longer at a member institution.

f. Appointed Branwen Smith-King, Tufts University, and John Curtin, Emory Univer-

sity, to the Men's and Women's Track and Field Committee, replacing Mary J. Gri-naker, no longer at a member institution, and Eugene F. Long, retired, respectively.

g. Appointed Jeanne Arbuckle, Marietta College, to the Division III Women's Volleyball Committee, replacing Allen F. Acker-

University, to the Division III Championships Committee, replacing John A. Reeves, no longer at a Division III institution.

b. Received a status report on problems encountered by institutions attempting to comply with the new football goal-post rule; directed the staff to treat all institutions in the same manner, regardless of the period of time during which they have not been or will not be in compliance; specified that all such violations should be reported by the institutions and should be viewed as technical violations if the circumstances involved are beyond the control of the institutions; placed on the agenda for the December meetings of the Executive Committee and the division championships committees a discussion of how these situations might be affected by proposed legislation that would permit division-specific exceptions to playing rules under certain circumstances.

c. Approved adjustments in room assignments for major sessions at the 1992 NCAA Convention, essentially moving several business sessions to the Anaheim Convention Center and moving all delegate luncheons to a single location in the Convention headquarters hotel.

man, no longer at an institution in the Midwest women's volleyball region.

h. Denied a request by the University of Tulsa for permission to appear at the October meeting of the Division I Steering Committee regarding a membership classification interpretation and action; agreed to review the institution's appeal of those matters on the basis of the written record.

### 2. Acting for the Executive Committee, the Administrative Committee:

a. Appointed Sam S. Bedrosian, Aurora

## News Fact File

For purposes of the NCAA revenue-distribution plan for 1990-91, all Division I institutions were given credit for the number of sports that they sponsored in excess of the minimum 12 required for Division I classification. To be so counted, the sport had to meet the Association's minimum requirements for participants and contests. On those bases, five of the top six Division I schools were Ivy Group members, led by Harvard University with 18 sports beyond the minimum 12 (30 total). Next were Brown University, Cornell University, Princeton University and the top non-Ivy entry, Pennsylvania State University, each with 16 beyond the 12 (or 28). Next came Boston College, Michigan State University, and Rutgers University, New Brunswick, at 15 each (or 27).

*Source: NCAA memorandums to the Division I membership, reporting the revenue-distribution disbursements for 1990-91.*

## DePaul schedules games on campus

DePaul University has announced it will move three of its home men's basketball games for the upcoming season from the Rosemont Horizon to the smaller Alumni Hall, located on its campus on Chicago's North Side.

The move was agreed upon as part of a new three-year contract the university signed with the suburban Horizon. The deal ended speculation the Blue Demons would move their home games to Chicago Stadium.

Alumni Hall seats 5,300, while the Horizon holds 17,500.

## NIT field ready

Four teams that were nationally ranked last season, led by the University of Kentucky and Oklahoma State University, are among 16 teams that will compete in the preseason National Invitation Tournament in November.

Kentucky will open the tournament at home against West Virginia University November 20. Oklahoma State also will open at home against the University of Evansville November 21.

Second-round games will be played November 22 and 23 at sites to be determined. The semifinals will be November 27 and the final November 29, all at Madison Square Garden.

# NCAA Record

## CHIEF EXECUTIVE OFFICERS

**J. Handel Evans** named acting president at San Jose State, where he has been executive vice-president. ... **John McCardell** appointed acting president at Middlebury, where he has been provost and vice-president for academic affairs. He replaces **Timothy Light**, who resigned. ... **Thomas H. Reynolds**, former president at Bates, selected as interim president at New England. ... **Graham Spanier** named chancellor at Nebraska, effective November 1. He is provost and vice-president for academic affairs at Oregon State.

## DIRECTORS OF ATHLETICS

**Bill Menefee** announced his retirement at Baylor, effective at the end of the school year. ... **David O'Brien** named acting AD at Long Beach State.

## ASSISTANT DIRECTOR OF ATHLETICS

**Jeff Swenson** given additional duties at Augsburg, where he also will begin his ninth season as head wrestling coach. In addition, Swenson, who led Augsburg to a Division III wrestling team title last year, assists with football and serves as strength coach.

## COACHES

**Baseball Robert "Bob" Folkins** named at Rochester Institute of Technology. Folkins, a former professional baseball scout who more recently has coached boys' basketball at the high-school level, replaces **Jim Nietopski**, who resigned after four seasons to become a graduate assistant coach at Wichita State.

**Baseball assistants Ted Aceto Jr.** hired at Villanova, where he also will serve as a compliance and enforcement intern. He is a former baseball and basketball player at Bucknell. ... **Tony Cialone** named graduate assistant coach at Fordham, where he recently completed his playing career. ... **Bill Saunders** and **Bill Beck** appointed at Denver, where both are former players.

**Men's basketball Terry Smith** promoted from assistant at Lake Superior State, where he has been on the staff for three seasons and was interim head coach during his first season at the school. Smith, who also has been an aide at Ferris State, replaces **Mark Paluszak**, who resigned with a 20-34 record after two years. Paluszak stepped down because his wife is ill. ... **Bryan Mariner** given new duties at Medgar Evers, where he will give up the post of head women's softball coach. Mariner, a former basketball player and assistant coach at the school, replaces **Nicholas Murphy**, whose two-year record of 41-15 includes City University of New York league and tournament titles.

**Men's basketball assistants Jamie Angeli** joined the staff at Lake Superior State after two seasons at Bowling Green. He also has been an aide at Michigan Tech and Northern Michigan. ... **Randy Roth** selected at Akron after assisting last season at Butler. He also coached for five seasons at Ohio. ... **Roy Henderson** named volunteer assistant at Maryland-Baltimore County. The former George Washington aide was an assistant last year at High

RIT selected Dugan Davies for women's softball

Stephen P. Argo is commissioner of renamed conference

Point High School in Beltsville, Maryland. ... **Dave Pilipovich** promoted from assistant to associate head coach at Florida Atlantic, where he will begin his third season on the staff. He retains his duties as academic counselor. ... **Scott Shepherd** hired at Ferrum. He is a recent Robert Morris graduate. ... **Jeff Ferreri** joined the staff at Clarkson, where he will serve as junior-varsity coach. He is a former lacrosse player at Providence who also played basketball in high school. ... **Dennis "Mo" Layton**, a six-year National Basketball Association standout, returned to the staff at New Jersey Tech, where he is a former volunteer aide. Layton, who played professionally in Phoenix, Portland, New York and San Antonio, also has been a volunteer aide at Rutgers and has coached at the high-school level.

**Women's basketball Rodney Minggia** hired at Paine. Minggia previously was an aide at Alabama-Birmingham and is a former head coach at Dekalb College.

**Women's basketball assistants Cheryl Moonen** named at Texas-San Antonio after three years as an aide at Marlin High School in Texas, where she also assisted with volleyball and track. Moonen played basketball at Texas A&M. ... **Shelly Caplinger** hired at Edinboro. She is a recent graduate of Penn State, where her last-second shot last season led the Nittany Lions to a regular-season victory over Virginia, propelling Penn State to the No. 1 ranking. ... **Joyce A. Maudie** joined the staff at Drexel, where she also will be head women's softball coach. She played both sports at Indiana (Pennsylvania). ... **Sue McKeown** named at Wisconsin-Milwaukee. She is a former aide at Wisconsin-Whitewater, where she played.

**Men's and women's cross country assistants Joe Compagni** named graduate assistant cross country and track coach at California (Pennsylvania). He is a former cross country team captain at Delaware. ... **Julian Spooner** joined the cross country and track and field staffs at Virginia Commonwealth. Spooner is a former all-America at Richmond.

**Field hockey Diane Toth** returned to Manhattanville after leaving the school three years ago. Toth also will work in the school's fitness center.

**Men's golf Johnny Wike** selected at Western Carolina, where he has been defensive line coach and recruiting coordinator for the football team. Wike, who also coached the golf team during 1969 and 1970, replaces **Jerry Rice**, who retired

after five years in the post. ... **Alex Grevier** promoted from assistant to interim head coach at Quinnipiac, where **Joe Koniuszsky** is taking a one-year leave of absence.

**Men's ice hockey Mike Cowan** named at Lawrence after serving as an assistant at Blaine High School in Minnesota. Cowan, who played at Wisconsin, replaces **Ted Balser**, who resigned.

**Women's soccer assistant—Vickie VanKleeck** joined the staff at Ferrum, where she also will be head women's softball coach.

**Women's softball Dugan Davies** promoted from assistant at Rochester Institute of Technology, where she has been on the staff for two years. She also is an education specialist in the school's National Technical Institute for the Deaf. ... **Medgar Evers' Bryan Mariner** named head men's basketball coach at the school. He has coached softball at the school since the program began three years ago. ... **Vickie VanKleeck** appointed at Ferrum, where she also will assist with women's soccer. She is the former director of intramural and recreational sports at Mercer. ... **Joyce A. Maudie** selected at Drexel, where she also will assist with women's basketball. She previously was head softball coach and assistant basketball coach for three years at Wisconsin-Whitewater, where last year's softball squad was nationally ranked. Maudie, also a former player and head coach at Indiana (Pennsylvania), replaces **Carol Kashow**, who left Drexel with a 170-173-2 record after 11 seasons to become head coach at Temple.

**Women's softball assistant Denise Leary** named at Rochester Institute of Technology, where she was a volunteer aide last season.

**Men's and women's swimming and diving Jim Cutrone** selected at Carnegie Mellon, where he also will hold the title of aquatics director. The former Johns Hopkins head water polo and assistant swimming coach, who also was a standout freestyler at the school during the mid-1980s, served last year as swimming coach at New Utrecht High School in Brooklyn, New York. Cutrone replaces **Bruce Bronsdon**, who was named head men's coach and aquatics director at Drexel. Bronsdon arrived at Carnegie Mellon two years ago after serving as an aide for 10 years at Penn State.

**Men's and women's tennis Mike Quitko** hired at Quinnipiac, taking over posts previously held by **Rosemary De-**

**Grand and Bill Mecca**. He previously was head girls' coach at Hamden Hall High School in Connecticut.

**Men's tennis assistant Mel Purcell** hired to assist his father, head coach **Bennie Purcell**, at Murray State. The younger Purcell, who played at Memphis State and Tennessee, was a volunteer aide at Murray State last season.

**Men's and women's track and field assistants Joe Compagni** joined the cross country and track staffs at California (Pennsylvania) as a graduate assistant coach. He competed in both sports at Delaware. ... Former Richmond all-America **Julian Spooner** joined the cross country and track staffs at Virginia Commonwealth.

**Wrestling assistants Princeton's Chet Dalgewicz** selected as coordinator of compliance and academic support at Rider. ... **Tom Bold** gave up his wrestling duties at Brown to become assistant to the athletics director at the school.

## STAFF

**Assistant to the athletics director Tom Bold** given new duties at Brown, where he continues to manage the athletics ticket office but relinquishes his duties as assistant wrestling coach. The former Lehigh wrestler has been at Brown for seven years.

**Compliance and academic support coordinator Chet Dalgewicz** appointed to the newly created position at Rider. He previously served in various posts for 23 years at Princeton, including the positions of assistant wrestling coach and director of promotions.

**Equipment manager Millikin's Sam Trusner** named assistant manager at Illinois. He was at Millikin for 10 years.

**Marketing director Long Beach State's Tim East** stepped down to become general manager of Paradise Golf, subsidiary of a sports-management firm based in Phoenix, Arizona.

**Promotions director Princeton's Chet Dalgewicz** appointed compliance and academic support coordinator at Rider.

**Promotions assistant Dan McCabe** selected as a special intern for promotions at Fordham. He is a recent Providence graduate.

**Radio and television manager Hank Dickenson** appointed at Radford after two years as a sports information assistant at Virginia Commonwealth. He succeeds **Wes Durham**, who became radio play-by-play announcer for Marshall football and basketball.

**Sports information director Mitch Cox** named at Sonoma State, replacing **Paul King**, who stepped down to devote more time to coaching duties at the school. Cox is a former radio program director.

**Sports information assistants Virginia Commonwealth's Hank Dickenson** selected as radio and television manager in the sports information office at Radford.

**Trainer Judith McCollough** selected at Manhattanville after serving as a graduate assistant trainer at Slippery Rock. ... **Assistant trainer Margaret "Peg"**

**Chilvers** joined the staff at Rider. She previously was a graduate assistant at Arizona, where she served as rehabilitation coordinator.

## CONFERENCES

**Stephen P. Argo** selected as the first full-time commissioner of the Southern Collegiate Athletic Conference, which is the new name of the eight-member College Athletic Conference. He is former director of sports information and compliance for the Trans America Athletic Conference, where he served from 1984 until earlier this year. The SCAC adds two new member schools, Oglethorpe and Hendrix, and will expand its sponsorship to include women's teams in several sports. ... **Barry Dlouhy** and **Jean Dlouhy** selected as publicists for men's basketball and women's volleyball at the New York Collegiate Athletic Conference.

## DEATHS

**James Glenn**, a walk-on freshman place-kicker at Texas A&M, collapsed prior to a team practice and died September 25. Glenn, who played in Texas A&M's recent game at Tulsa, was 19. The cause of death had not been determined at press time. ... **William F. Bernlohr**, athletics director and head football, basketball and baseball coach at Capital between 1929 and 1971, died September 3 in Columbus, Ohio. He was 86. Bernlohr also was a former president of the Ohio Athletic Conference.

## CLARIFICATION

The September 16 issue of The NCAA News carried a report from the NCAA Committee on Infractions concerning the possible hiring of Rick Huckabay, a basketball coach subject to NCAA show-cause provisions, at Longwood College. The headline on the report incorrectly may have implied wrongdoing on the part of Longwood. In fact, the school's officials initiated the meeting with the Committee on Infractions and were acting in accord with the spirit of NCAA legislation by discussing its prospective personnel move. After internal review of its employment needs, the college decided not to pursue the coach's candidacy.

## CORRECTIONS

Due to incorrect information submitted to The NCAA News, a new member of the women's volleyball staff at Millersville incorrectly was identified as a graduate assistant coach in the Record section of the September 23 issue. Rhonda Bygall was appointed assistant coach.

Due to an editor's error, the Record section of the September 16 issue of the News incorrectly reported the school where Christy Morgan was hired as head field hockey coach. She is coaching the team at James Madison.

## POLLS

### Division I Men's Cross Country

The top 25 NCAA Division I men's cross country teams as selected by the NCAA Division I Cross Country Coaches Association through September 24, with points:

1. Arkansas, 425; 2. Iowa State, 399; 3. Texas, 380; 4. Oregon, 361; 5. Notre Dame, 338; 6. Wisconsin, 304; 7. Wake Forest, 297; 8. Boston U., 273; 9. Arizona, 261; 10. Tennessee.

## Peach Belt grows

Pembroke State University has been accepted as the ninth member of the Peach Belt Athletic Conference beginning with the 1992-93 academic year.

Pembroke State, a charter member of the National Association of Intercollegiate Athletics and a member of the Carolinas Intercollegiate Athletic Conference, will drop memberships in those organizations.

The move will align Pembroke State with institutions that are similar in size and organization. All members of the Peach Belt are public institutions.

Pembroke State has been a NCAA Division II member since 1975.

### The Department of Intercollegiate Athletics

**THE UNIVERSITY OF MARYLAND COLLEGE PARK** seeks applications and/or nominations for the position of Director of Development, the Department of Intercollegiate Athletics.

**RESPONSIBILITIES:** Assist in the planning and development of a comprehensive fund-raising effort for Maryland athletics; direction and implementation of day-to-day development programs for Maryland athletics, including annual giving, major gifts and capital campaign; supervise and direct activities of Director of Terrapin Club, Director of M Club, and Director of Major Gifts/Campaign Director; establish annual goals and objectives for fund-raising (dollar amounts, memberships and activities) as well as monitor and report progress toward them; coordinate training of staff and volunteers in the necessary skills and procedures to secure private gifts for athletics; work closely with University's Institutional Advancement staff to coordinate all fund-raising activities; assume other duties as required.

**QUALIFICATIONS:** Bachelor's degree and a minimum of three years' experience in fund-raising is required. Demonstrated success in establishing and meeting fund-raising objectives in an educational institution is also required. Ideal candidate will have experience with sophisticated prospect tracking system, data processing and working with complex volunteer structures.

**SALARY:** Commensurate with experience and qualifications.

**POSITION AVAILABLE:** Immediately.

**SEND APPLICATION:** For full consideration, nominations and resumes accompanied by the names of three references should be received by October 25, 1991. Nominations and resumes should be addressed to: Dwight Williams, Assistant Athletic Director, University of Maryland, P.O. Box 295, College Park, MD 20741-0295.

The University of Maryland is an Affirmative Action/  
Equal Opportunity Employer.

## COMPLIANCE REPRESENTATIVE NCAA Compliance Services Department

Applications are being accepted for an immediate opening as a compliance representative in the NCAA compliance services department. The compliance services department provides support services to member institutions and conferences in their commitment to NCAA rules compliance.

A compliance representative's primary responsibilities include:

- Campus visitation on request of a member institution to assist it in analyzing the overall structure and administration of the institution's compliance program.
- Cooperation with member conference officials in assisting their institutions in rules compliance.
- Development of resources and guidelines to assist in the successful implementation and maintenance of compliance programs.
- Implementation of the forms and processes used by institutions in concluding the required periodic self-studies and annual financial audits.

This position requires a working knowledge of NCAA regulations and the ability to communicate effectively, both orally and in writing. Recent administrative experience in intercollegiate athletics is preferred.

Interested candidates should send a letter of application and resume to:

John H. Leavens  
Assistant Executive Director  
for Compliance Services  
NCAA  
6201 College Boulevard  
Overland Park, Kansas 66211-2422

Deadline for Applications: October 14, 1991

The NCAA is an Equal Opportunity/Affirmative Action Employer.

### Athletics

## Associate Director of Athletics for Administrative Affairs

**THE UNIVERSITY OF MARYLAND COLLEGE PARK** seeks applications and/or nominations for the position of Associate Director of Athletics for Administrative Affairs.

**RESPONSIBILITIES:** Supervise budget process, including planning, preparation and formatting; organize and direct request and hearing sessions with all coaches and department heads; develop long-range forecast financial models for all areas of Department of Intercollegiate Athletics; assist Director and staff in use of LRF models; manage personnel staff, ensuring compliance with State, University and Department policies; oversee all search procedures; administer all personnel contracts, payroll authorization, etc.; oversee all purchasing activities according to policies; oversee all accounting activities including income and expense transactions in such areas as Financial Aid, Ticket Office and Marketing Office; maintain liaison with relative University officers, ensuring compliance with policies and timely reconciliation with central accounting; manage all computer needs of the Department, including strong liaison with University computer services; keep abreast of available technology and software available for such activities as ticketing, development, eligibility, certification, etc.; supervise facilities management, including all buildings and grounds; take leadership role in planning and management of all home athletic events and NCAA/ACC Championship events; provide leadership in organizing various components of University community to present events effectively; coordinate scheduling of events with SENIOR ASSOCIATE ATHLETIC DIRECTOR.

**QUALIFICATIONS:** Bachelor's degree required. Demonstrated success in relative management position(s).

**SALARY:** Commensurate with experience and qualifications.

**SEND APPLICATION:** For full consideration, nominations and resumes accompanied by the names of three references should be received by Oct. 18, 1991. Please mail to: Andy Geiger, Director of Athletics, University of Maryland, P.O. Box 295, College Park, MD 20741-0295.

The University of Maryland is an Affirmative Action/  
Equal Opportunity Employer

## Compliance briefs

NCAA compliance information for October

### GENERAL INFORMATION

**NCAA Guide to Rules Compliance:** Each NCAA Divisions I and II member institution and conference should have received at least one copy of the 1991-92 NCAA Guide to Rules Compliance. Institutional compliance coordinators are encouraged to provide copies of select materials to key constituents on campus. Some compliance coordinators have found it helpful to visit with administrators in the financial aid, admissions and registration offices, as well as with each coaching staff member, to review resource materials made available through the NCAA Guide to Rules Compliance and the NCAA Resource File Checklist to better determine what materials are of interest. Consider submitting the Resource File Checklist to the compliance services department, noting the compliance-related resource materials you would like to review.

### UPCOMING MEETINGS

**Attention: Registration, Admissions and Financial Aid Administrators.** Representatives of the compliance services and legislative services departments will discuss rules-compliance information in several regional meetings of the American Association of Collegiate Registrars and Admissions Officers (AACRAO) and the National Association of Student Financial Aid Administrators (NASFAA). It is important to note that the national office is focusing on these opportunities to communicate directly with admissions officers, registrars and financial aid administrators. The regional dates in October are as follows:

NASFAA Rocky Mountain Region, Vail, Colorado, October 20-23

AACRAO Upper Midwest Region, St. Cloud, Minnesota, October 27-29

Interested participants should contact their regional coordinators to receive the complete agenda. A complete listing of all regional dates that will involve NCAA rules-compliance information will be provided in an upcoming edition of The NCAA News.

The national office also will have representatives at

the national meeting of both organizations.

**1992 NCAA Regional Seminars:** In an effort to assist member institutions and conferences in their planning efforts, the compliance services and legislative services departments polled each NCAA Divisions I and II member institution and conference office in September to determine preferred dates for the 1992 regional seminars. Of the nearly 400 responses received, half indicated a preference for summer meetings and half preferred spring. As a result, the seminars will be conducted during the months of May and June, specifically May 6-8, May 27-29, June 17-19 and either June 24-26 or June 25-27. Sites will be announced once arrangements have been finalized.

### COMPLIANCE STRATEGIES

**Update Squad Lists:** Now that playing seasons have begun, make sure all parties who need to know are notified of changes in team rosters and the squad lists are revised accordingly.

**Rules Education:** Consider scheduling rules-education sessions with coaches and student hosts. It may be helpful to schedule these sessions before the heavy recruiting periods begin, particularly official-visit weekends. The newly distributed NCAA Guide to Recruiting may help in your recruiting rules-education sessions.

**Monitoring Playing and Practice Seasons:** Earlier in the summer, institutions were notified of sample materials available from the national office to assist in monitoring the playing- and practice-season legislation. For copies of those sample materials, please contact Carrie Dias at the national office. She also would be interested in any comments you might offer in regard to those materials.

*This material was provided by the NCAA compliance services department as an aid to member institutions and conference offices. If an institution or conference office has a question or issue it would like to address in this column, please contact John H. Leavens, assistant executive director for compliance services, at the NCAA national office.*

## Knight panelists praise reform, show concern

Leaders of the Knight Foundation Commission on Intercollegiate Athletics said September 25 that progress is being made in overhauling collegiate sports, but they are concerned about an effort to derail some reforms.

Nonetheless, the Rev. Theodore Hesburgh and William Friday, co-chairs of the Knight Commission, called on Congress to stay out of efforts to clean up college sports programs.

"We feel very good about what we've seen happening," said Friday, president emeritus of the University of North Carolina System, at the conclusion of the commission's first meeting since it issued its report in March.

"We're heartened that we're on track," said Friday, noting that the NCAA Presidents Commission will sponsor proposals for academic reform at the Association's 1992 Convention.

In its March report, the Knight Commission called on college and university presidents to retake control of athletics programs.

Friday said the commission has since worked with the Presidents Commission to develop some proposed changes.

However, he and Hesburgh both told The Associated Press they are concerned about proposals to be considered at the NCAA Convention that they believe would weaken reform efforts.

The proposals deal with permissible contacts with high-school athletes, visits to the high schools of prospective athletes, and spring football practice at Divisions I-A and I-AA schools.

Hesburgh, president emeritus of the University of Notre Dame, said the proposals represent a "clear and blatant effort to roll back some of the good legislation that was passed last year."

Those rules, he said, "may need to be fine-tuned" after two or three years, but not after one.

Hesburgh and Friday also called on Congress to leave efforts to reform college athletics to the schools.

"I'm categorically opposed to an Congressional intervention into this arena. I don't think that's the way to solve the problem," said Friday.

"No one can prevent conversation in the Congress," Hesburgh added. "There's no reason the Congress can't address the subject of athletics if they think it's a problem that needs airing. It probably does, given the rather public abuses that have taken place over past years."

However, he added, "we're in a position to do something about it."

"Let them, having had their conversation, hang back and not get into any legislation unless we fail in our efforts and the reform doesn't go through. Then, of course, it's a free world and they're a free legislature, and they could get into this and see what they could do to clean it up."

## Fourth academic

Continued from page 1

of 1984 and 1985. The current rule (minimums of 700/18 on the tests and 2,000 in the core) would have made 27 percent of entering freshmen ineligible had it been applied. The rule that has been proposed by the Presidents Commission would have made 31.7 percent ineligible.

The table also shows that black student-athletes fare worse under these rules than do their white counterparts. As an example, under the current Bylaw 14.3 standards, 66.2 percent of the entering Blacks would have been ineligible, while the same rule would have made 13.6 percent of the whites ineligible. Under New

Rule 4, those numbers both rise, to 72.2 percent for the Blacks and 17.9 percent for the whites.

As the rules get more stringent, the number of false negatives increases, Petr said. This is considered important because false negatives are people who would have been declared ineligible by the rule but

who actually graduate from college. Again, the table shows that the Blacks are more affected in this manner than whites.

The graduation rates are given in the table, along with the number of graduates. "Both of those numbers are provided because the method for increasing graduation rate is to cut out more people from the lower end of the distribution," Petr said. "However, as you raise the cut-point, you also raise the number of false negatives. Thus, as graduation rate increases, in many instances the number of graduates actually decreases because potential graduates have been removed by the legislation. This paradox is important to remember when using graduation rate as a criterion for judging these rules."

The sample used in the study included 3,288 student-athletes who entered Division I in 1984 or 1985. This group was stratified by type of school, region of the country, subdivision and historically black institu-

tions. The study notes that these data were free from the constraints of Proposition 48 and are thus a better indicator of the effects of these rules on the entire population of potential student-athletes than data collected after 1986.

*As the rules get more stringent, the number of false negatives increases*

However, the study also notes that because these rules were not in effect when these student-athletes were in high school, it is impossible to know how the need to meet established minimums would have affected the high-school performance and test scores of the sample group. "This limitation must be recalled when studying the figure in the report," Petr said.

Characteristics of proposed changes to Bylaw 14.3 based on data collected in the NCAA study of academic performance of student-athletes

	No Current Rule	New Rule 1	New Rule 2	New Rule 3	New Rule 4	New Rule 5	New Rule 6	New Rule 7	New Rule 8	New Rule 9	New Rule 10	New Rule 11
<b>PERCENT INELIGIBLE UNDER RULE</b>

<b>PERCENT OF ACCURATE PREDICTIONS</b>												
Overall	45.7	62.1	58.9	62.4	65.5	64.8	66.2	62.9	63.4	64.3	63.7	60.6
Graduated	100.0	88.4	92.9	89.2	83.3	86.2	83.8	88.2	88.6	87.6	87.4	91.2
Nongraduated	0.0	39.9	30.3	39.7	50.4	46.8	51.3	41.6	42.1	44.6	43.8	34.9
<b>OVERALL GRADUATION RATE OF THOSE WHO QUALIFY UNDER RULE</b>												
	45.7	55.4	52.9	55.5	58.6	57.7	59.2	56.0	56.3	57.1	56.7	54.1
<b>NUMBER OF GRADUATES</b>												
	19,200	17,000	17,800	17,100	16,000	16,500	16,100	16,900	17,000	16,800	16,800	17,500

Note: Number of graduates based on an estimate of the total number of entering freshmen at Division I institutions in 1989-90.

Rules for Analysis in Table 1

Current Rule: Core = 2.0 and TEST = 700/17

New Rule 1 = Average Rule set at the 10th percentile (e.g., Core = 2.25 and TEST = 700/17)

New Rule 2 = Average Rule set at the 15th percentile (e.g., Core = 2.25 and TEST = 800/19)

New Rule 3 = Average Rule set at the 22.5 percentile (e.g., Core = 2.25 and TEST = 900/21)

New Rule 4 = Average Rule set at the 15th percentile with additional minimums of 2.0 and 700/17

New Rule 5 = New Rule 4 with multiple cut-points (2.0 and 900/21, 2.25 and 800/19, 2.5 and 700/17)

New Rule 6 = New Rule 4 that allows all students within 1.0 standard deviations of the school mean TEST score to enter

New Rule 7 = Average Rule set at the 15th percentile with additional minimums of 2.0 and 600

New Rule 8 = Average Rule set at the 15th percentile with additional minimums of 2.0 and 650

New Rule 9 = Average Rule set at z = -1.71 (e.g., 700 and 2.3) with minimums of 2.0 and 700

New Rule 10 = Average Rule set at the 10th percentile with additional minimums of 2.0 and 600

New Rule 11 = Average Rule set at the 10th percentile with additional minimums of 2.0 and 650

## WHO'S WHO IN ATHLETICS

Athletic Press of America is now accepting nominations for the 1991-92 edition of **Who's Who in Athletics in American Colleges and Universities**.

**CRITERIA:** (1) Nominees must be outstanding in their chosen field(s) of athletic participation and must be currently enrolled. Nominations are open to all athletic events and to all student athletes, underclassmen and women and to all conferences and divisions. May/June/Summer 1991 graduates also qualify. No more than four athletes may be nominated per athletic event. (2) Only nominations made and submitted directly by the institution (AD, SID or designated school official) will be accepted. Submissions must be sent on school letterhead and must be signed. Upon receipt of your list of nominees, blank biographical data forms, one for each nominee, will be rushed to you. **DEADLINE:** for submitting a name list of your nominees is October 31, 1991.

Who's Who in Athletics is the only biographical reference publication in the U.S. devoted exclusively to recognizing and promoting excellence in collegiate athletics. It documents the accomplishments and activities of America's outstanding student athletes and profiles not only international, national and state heroes but local and unsung heroes as well. **Don't be left out!** Don't deprive your athletes of the exposure they deserve to be recognized.

Send your list of nominees to Athletic Press of America, 8268 Streamwood Drive, P.O. Box 32674, Baltimore, MD 21208-8674. Phone: (301) 922-8115.
