## A souvenir

**Robert E. Rosencrans, director of athletics at Wittenberg University and a member of the NCAA Council, purchases a souvenir from Patty Lupia of the NCAA Visitors Center staff while attending an orientation session for new members of the Council, Presidents Commission and Executive Committee. The orientation meeting was January 28-29 at the national office.**

## Spotlight focuses on women's game

Coaches and players from some of the nation's outstanding women's collegiate basketball programs will participate in the 10th annual NCAA Spotlight on Women's Basketball press conference February 11 at the Grand Hyatt New York in New York City.

The participants will be Gary Blair and Stacy Brown-Hairgrove, Stephen F. Austin State University; Joe McKeown and Jennifer Shasky, George Washington University; Ferne Labati of the University of Miami (Florida); Chris Gobrecht, University of Washington, and Cheryl Burnett from Southwest Missouri State University. Chris Weller from the University of Maryland, College Park, will participate in the telephonic press conference.

Each of these teams has made a dramatic climb in the polls during the 1991-92 season. Top-ranked Maryland was ranked 15th in The Associated Press preseason poll, sixth-ranked Stephen F. Austin was 14th, ninth-ranked George Washington was 25th and 13th-ranked Washington was rated 22nd.

Twelfth-ranked Miami (Florida) and 18th-ranked Southwest Missouri State received votes, but no top-25 ranking.

Members of the media are invited to interview the coaches and players beginning at 10 a.m. EST. Debbie Byrne, Old Dominion University assistant athletics director for public relations and a member of the NCAA Communications Committee, will then moderate a telephonic press conference from 11 a.m. until noon. Media interested in listening to the press conference should contact Cynthia M. Van Matre, NCAA assistant director of promotions, at the NCAA national office to obtain the telephone number.

The Spotlight is held each year to promote the sport of women's basketball. The event, developed by the former NCAA Public Relations and Promotion Committee, was initiated in 1983. The Spotlight affords members of the media the opportunity to meet with and interview some of the nation's top women's basketball players and coaches.

## Faculty representatives seek understanding of role

By Ronald D. Mott  
The NCAA News Staff

It is difficult to assess the performance of an individual when that person's responsibilities are not fully understood. That is the message being sent out by faculty athletics representatives as intercollegiate athletics undergoes reform.

One of the faculty representative's primary functions is to assure that the institution's academic integrity is being maintained in the athletics

program. They are to help ensure that student-athletes are not exploited and that they are placed in a position to gain an education.

But the effectiveness of faculty representatives has been clouded, some say, because their roles were never clearly understood or even defined. Justified or not, the faculty at some institutions came to regard the faculty representative as an adjunct of the athletics department who was more concerned with accompanying teams on trips than on monitoring the academic well-being

of the athletes.

The Faculty Athletics Representatives Association (FARA) is seeking to change all of that. The organization is looking to better define the role of the faculty athletics representative, particularly as it relates to new academic-reform legislation.

The group met in Chicago in October to discuss ways in which it could more specifically define the role of faculty representatives and heighten their voices on campuses.

Out of that conference came a document, authored by David H. Bennett, faculty rep at Syracuse University, and Jerry L. Kingston, faculty rep at Arizona State University.

### Development of perceptions

Some faculty reps point to ignorance among their colleagues as one of the main reasons faculty reps are viewed as extensions of the athletics department, willing to sacrifice their roles as watchdogs of the institution's academic interests for such perks as close-in parking and choice

tickets to athletics events.

But Richard J. Dunn, chair of the English department at the University of Washington and chair of FARA, said it is not fair or accurate to assume that a faculty rep is guilty of selling out if that individual accepts some of the benefits of holding that position.

"I think the Bennett document has a good way of putting that," Dunn said. "It should be the president's decision about what sort of

*See Faculty representatives, page 14*

## Revenue-distribution panel to review membership comments February 11

The Special Advisory Committee to Review Recommendations Regarding Distribution of Revenues will meet February 11 at the Hotel Sofitel in Chicago, Illinois.

Members of the committee will review comments from the membership regarding the Association's revenue-distribution plan, which was implemented for the first time in 1991.

The plan distributes revenues derived from the Association's seven-year, \$1 billion television contract with CBS.

In 1990-91, the Division I membership received \$72,874,609 from the plan. The money was distributed in five funds, which were:

- Basketball fund, \$31,250,000. This money was distributed to Division I basketball conferences based upon their teams' performances in the 1985-90 NCAA basketball tournaments.
- Academic enhancement fund,

\$7,375,000. Each Division I member received \$25,000 to be used for academic programs for student-athletes.

- Needy student-athlete fund, \$2,999,896. This money was distributed so Division I student-athletes receiving a Federal Pell Grant could apply for a grant to be used in emergency situations. There is no obligation to repay the money.

- Sports-sponsorship fund, \$10,416,673. Division I members received money based upon the number of men's and women's sports they sponsored in 1989-90.

- Grants-in-aid fund, \$20,833,130. This money was distributed among Division I institutions based upon the number of athletics grants-in-aid they awarded to both men and women during 1989-90.

Besides those five categories, \$1 million was distributed among the Division II membership according to a formula devised by the Division II

Championships Committee.

In June 1991, NCAA President Judith M. Sweet (who chairs the committee) and Secretary-Treasurer B. J. Skelton identified the guiding principles from which the distribution formula was derived. Among them:

- That the distribution formula provide a mechanism for sharing the revenue equitably, though not equally, among all institutions.

- That consideration be given to distributing some portion of the revenue based on the breadth of an institution's athletics program.

- That care be taken to avoid funding special interests of various segments of the membership or items that may be more an institution's responsibility than that of the Association.

- That an institution's expenses for participating in an NCAA championship be more adequately covered and that a common distribution for

## Association leader dies

Thomas J. Frericks, longtime University of Dayton athletics administrator and former NCAA secretary-treasurer, died January 31 after a two-year battle with prostate cancer, according to university officials.

**Frericks**

Funeral services were February 4 in Dayton, Ohio.

The 59-year-old Frericks served from 1964 until last year as Dayton's

director of athletics and held the title of vice-president for athletics programs and facilities at the time of his death.

Frericks, who had a record of service on Association committees dating to 1970, served as secretary-treasurer from 1987 to 1989. At his death, he was chair of the Division I Men's Basketball Committee and a member of the Special Advisory Committee to Review Recommendations Regarding Distribution of Revenues and the Special Committee to Study Factors Affecting Automatic Qualification in Division I

## Intern program

**NCAA Executive Director Richard D. Schultz addresses interns participating in a series of seminars and workshops at the national office. A total of 33 conference interns and six interns from the national office participated in the annual event, which was conducted January 30-February 1.**

## Television to reveal field

Players, coaches and fans at member institutions can watch ESPN and CBS Sports Sunday, March 15, to learn if their respective teams are selected to the tournament field of the 1992 NCAA Division I Women's Basketball Championship.

ESPN will host a 30-minute bracket-announcement show beginning at 12:30 p.m. Eastern time. That will be the first notification for teams being considered for the tournament that they have been selected.

In addition to ESPN's coverage, CBS Sports will announce the women's bracket during half time of the Big East Conference men's tournament final. The game begins at approximately 12:30 p.m. CBS will then recap the bracket during half time of its Big Ten Conference men's game, scheduled to begin immediately after the Big East championship game.

At its October 27-29, 1991, meeting, the Division I Women's Basketball Committee changed its notification process for teams selected to the championship. On selection Sunday (March 15), a team's first notification of being selected for the tournament will come during the bracket-announcement shows on ESPN and CBS Sports. Later that afternoon, the NCAA national office will send, via facsimile machine, the bracket and other pertinent information to teams selected to participate in the tournament.

A memorandum outlining this procedure was sent January 24 to institutions under consideration for selection. Questions should be directed to Patricia E. Bork, NCAA assistant executive director for championships, at the national office.

## Race cited in reinstatement order

Saying its decision was racially motivated, a white Federal judge blasted the all-white composition of a University of Missouri, Columbia, disciplinary panel as he permanently set aside its suspension of a black basketball player, The Associated Press reported.

"The Blacks have been screwed over by the whites so many times that they don't trust them," U.S. District Judge Scott O. Wright said in a heated speech from the bench January 28.

Wright made permanent his temporary order barring the suspension of Jamal Coleman, 21, a senior forward for the university's basketball team.

Coleman had alleged in a lawsuit that the suspension recommended by the university's student conduct committee was unduly harsh. Wright agreed, calling the punishment and the procedure leading to it a "damned outrage."

The suspension was for Cole-

man's role last year in a scheme to bilk the university's bookstore of more than \$3,000 by turning in phony returned-merchandise receipts. The athlete received \$688 in illegal proceeds.

Coleman, who was arrested in April, was convicted of a misdemeanor theft charge. He served several weekends in jail and made restitution.

But while the school panel recommended his suspension for a semester including most of this year's basketball season—two women who pled guilty to felonies in the scam received only disciplinary probation from the university. That meant they could attend classes.

"They were placed on probation and he got the ax. It's not fair," Wright said at the end of a daylong hearing.

The judge said a combination of the panel's racial makeup and its sympathy for the apologetic women,

• Familiarity with the NCAA coaches and umpires in a region.

• Background as a clinician and an evaluator of umpiring talent.

• Four letters of recommendation from NCAA coaches, umpires or others involved with college baseball.

The three positions that are available will represent the following states:

**Position 1:** Arizona, California, Hawaii, Nevada and Utah.

**Position 2:** Virginia, North Carolina, South Carolina, Kentucky, Tennessee, West Virginia and Georgia.

**Position 3:** New York, Pennsylvania, New Jersey, Delaware and Maryland.

Applications and related materials should be sent to Dennis L. Poppe, NCAA, 6201 College Boulevard, Overland Park, Kansas 66211-2422, no later than April 1, 1992.

who are black, along with a lack of firm guidelines for cases like the bookstore scam, worked against Coleman.

"They didn't think he groveled enough," Wright said. "It really sticks in my craw that they'd do that to him."

The judge told head men's basketball coach Norm Stewart from the bench that he should be pleased about the way Coleman handled his testimony. Stewart suspended Coleman from the team last April but reinstated him after the court resolution of his case.

"If I were a coach, I'd be proud to have him on my team," the judge said, but then added, "What he did was wrong."

Coleman, who said he was "ashamed, humiliated to some extent" for his involvement in the crime, told reporters, "I think he was very fair, and he saw my side of the story. I just wanted to be back in school and play basketball."

## Legislative Assistance

1992 Column No. 6

### 1992 NCAA Convention Proposal No. 83

Division I member institutions should note that with the adoption of Proposal No. 83 (as amended by 83-1) (effective immediately) it is permissible for Division I institutions to conduct 15 postseason football practice sessions, provided they are conducted within a period of 29 consecutive calendar days, omitting vacation and examination days officially announced on the institution's calendar, with no practices permitted on Sunday. Any such practice sessions held during vacation days may not be of longer duration than those normally held when academic classes are in session. Only 10 of the 15 sessions may involve contact. The amount of time that a student-athlete may be involved in such postseason practice activities shall be limited to a maximum of 20 hours per week. It should be noted that practice activities that do not involve contact are limited to activities in which no football gear or protective equipment other than head gear, shoes, pants, and porous, lightweight jerseys are worn by the involved players. Finally, during its November 7, 1991, conference, the NCAA Interpretations Committee determined that participation in any physical-fitness class during the spring practice period per NCAA Bylaw 17.02.12.2-(b) must be included in the 20-hour-per-week limitation.

### 1992 Convention Proposal No. 88—summer workout sessions in individual sports—Divisions I and II

Divisions I and II member institutions should note that with the adoption of Proposal No. 88 (effective immediately),

it is permissible for a member institution's coach in an individual sport to participate in individual workout sessions with student-athletes from the coach's team during the summer only, provided the request for such assistance is initiated by the student-athlete. During its January 5, 1992, meeting, the NCAA Council determined that the provisions of Proposal No. 88 would permit a coach to be involved with more than one student-athlete at a time during summer workout sessions (e.g., group workout), provided the request for such assistance is initiated by each student-athlete. Further, it should be noted that the provisions of Proposal No. 88 do not affect the current regulation related to a coach's involvement with an outside team during the summer or the limitations related to the number of student-athletes from the coach's team that may be participants on the outside team.

### 1992 Convention Proposal No. 119—surgical expenses

Member institutions should note that with the adoption of Proposal No. 119 (effective immediately), it is permissible for member institutions to provide surgical expenses to student-athletes (including partial qualifiers and nonqualifiers) who are injured during the academic year while participating in voluntary physical activities (e.g., voluntary weight lifting outside the institution's playing season) that will prepare them for competition. Thus, it is not permissible for a member institution to finance surgical expenses to treat a student-athlete's illness or injury that is not a result of practice for or participation in intercollegiate athletics at the

institution or does not occur during voluntary physical activities that will prepare the student-athlete for competition. Please note that in accordance with Bylaw 16.4.1-(i), it remains permissible for a member institution to provide medication and physical therapy utilized by a student-athlete during the academic year to enable the individual to participate in intercollegiate athletics, regardless of whether the injury or illness is a result of intercollegiate competition or practice, or does not occur during voluntary physical activities designed to prepare the student-athlete for competition.

### 1992 Convention Proposal No. 139—institutional stationery—Division I

Division I member institutions should note that with the adoption of Proposal No. 139 (effective immediately), institutional stationery is limited to two colors of printing on the stationery (not including the color of the typing or writing on such stationery). Such stationery may include athletics department stationery with name, address, telephone numbers of athletics department staff members and a single university logo, but photographs of enrolled student-athletes or any other promotional material is prohibited.

*This material was provided by the NCAA legislative services department as an aid to member institutions. If an institution has a question it would like to have answered in this column, the question should be directed to Nancy L. Mitchell, assistant executive director for legislative services, at the NCAA national office.*

# Lehigh faculty panel boosts athletics involvement

By Ronald D. Mott  
The NCAA News Staff

After years of compliance efforts that university officials acknowledged were less than active, Lehigh University put into place 18 months ago a faculty athletics council to help promote a better understanding of intercollegiate athletics among the institution's faculty. The council also helps ensure academic integrity within the athletics department.

The council consists of five faculty members—one from each of the school's three undergraduate colleges; an at-large faculty member, and the institution's faculty athletics representative, Harvey Stenger, who chairs the group.

While Lehigh athletics director Joseph D. Sterrett stressed that the institution has not experienced compliance difficulties, he said the council was created because the athletics department desired a stronger faculty presence in its oversight efforts.

"We're pretty close to being accurate in saying there was little going on in terms of compliance efforts," Sterrett said. "As far as our ongoing look at our athletics programs, we weren't doing that on a day-in, day-out basis. We're doing it (now) because we believe this is what college

**"The more people looking at your program, the better your chances of doing everything properly."**

Joseph D. Sterrett  
Lehigh athletics director

should be all about. The primary purpose that we articulate to them (the council members) is to ensure that the mission of the athletics department is fully consistent with the objectives of the university. They do that in defined and undefined ways."

Some of the defined ways were listed in a document outlining the role of the council, which included the following purposes:

- To promote an understanding of intercollegiate athletics among faculty members and others in the Lehigh community.

- To encourage and maintain a clear commitment to academic integrity within the Lehigh athletics program.

- To ensure as a priority the commitment to the student-athlete in all athletics activities.

- To participate in and provide advisory support for the establishment, maintenance and interpretation of athletics policies.

- To provide counsel to the director of athletics concerning matters of athletics policy formulation, budgetary planning, educational programming, staff development and athletics scheduling.

- To provide counsel to the faculty athletics representative in matters of student-athlete eligibility, "standing of students" actions, general student-athlete academic advancement and NCAA legislative proposals.

- To participate in and review the results of periodic institutional/departmental self-study processes, including the NCAA-required institutional athletics self-study.

Sterrett said the council members' input has helped the athletics department.

"The approach they've taken is great," he said. "The area in which they've been most helpful deals with eligibility."

Because Lehigh has tougher entrance eligibility standards than the minimum NCAA requirements, Sterrett said the institution has not had problems with initial eligibility. That does not mean, Sterrett added, that the athletics department considers itself immune from future problems.

"Problems emerge when people take the attitude that they don't have or can't have problems," he said. "We've got a long way to go. What we're talking about doing is bringing the faculty inside of everything we do. The more people looking at your program, the better your chances of doing everything properly."

Stenger, who has been faculty representative for 2½ years, said the group is looking into ways of minimizing the number of days and class hours that Lehigh student-athletes miss because of traveling to events. In addition, he said it has been active with financial aid issues and ensuring that student-athletes are meeting the institution's

academic requirements.

Other areas will require attention in the future, Stenger said.

"We really haven't taken an active role in issues of amateurism or recruiting," Stenger said. "Those are two of the bigger ones. But I think one of the biggest problems we have to address is coaches' attitudes."

"What are their priorities? Some of the coaches are doing a good job and others simply aren't stressing academics as much as they should. These coaches have a big impact on (student-athletes') lives. They spend more time with them than any faculty member ever will."

To help guarantee that Lehigh student-athletes are keeping pace with the student body as a whole, Stenger said the council has been working closely with the registrar's office to identify which of the institution's athletics teams are performing below the overall student-body average. Once that has been accomplished, Stenger said the council will then alert the appropriate coach of his or her team's performance and advise about what steps could be taken to improve the situation.

"Can we find what's missing in the program? That's one of the questions we will have to ask ourselves," Stenger said.

The four-member Division III Women's Volleyball Committee—including (from left) Joan Sitterly of State University College at Cortland, Jeanne Arbuckle of Marietta College and Jim M. Paschal of the University of La Verne—met January 28-31 in Kansas City, Missouri. Also attending was committee chair Marjorie Mara of Carleton College.

## Regionalization, rally scoring draw attention of volleyball committee

Regionalization and rally scoring were the main topics of discussion at the NCAA Division III Women's Volleyball Committee meeting January 28-31 in Kansas City, Missouri.

Seeking a more accurate method of selecting teams for the national championship, the committee began development of a regionalization formula that will determine the number of teams per region that will participate in the championship. Under the current format, at least two teams from six regions (East, Northeast, Central, South, Midwest and West) are selected with the remaining teams selected at large.

In addition to discussing a regionalization formula, the committee voted to recommend to the NCAA Executive Committee that rally scoring not be used for the 1992 championship. Rally scoring

### Other actions

In other actions, the Division III Women's Volleyball Committee:

- Developed a score-reporting method among the regional advisory committees that the committee hopes will result in better comparative data and more efficient poll calls.

- Increased the number of polls during the regular season from four to five.

- Reviewed and determined automatic qualification for the 1992 season.

- Selected officials for the 1992 championship, while also developing a rotation plan for the selection of officials for future championships.

was implemented in 1991.

The committee also reviewed selection criteria for matches, deciding that only best-two-of-three matches (played with regular scoring) or best-three-of-five matches [played

with regular scoring or the experimental rally scoring rule as outlined in the 1992 National Association for Girls and Women in Sport (NAGWS) rule book] be considered in a team's 1992 won-lost record.

## Project to improve education focuses on setting standards

A Federally appointed panel of top educators and policy makers announced January 24 that it had completed the first phase of an aggressive program to revamp American schooling and that the coming years would bring profound changes in the way children are educated in the United States.

"Before this process is finished, it will affect the lives of children in every classroom in this country," said U.S. Secretary of Education Lamar Alexander. "In education circles, what has happened here is as dramatic as what has happened in Eastern Europe."

Members of the National Council

on Education Standards and Testing, created by Congress in 1991, said at a news conference that the panel now will work to establish new "world-class" standards for students and tests to ensure that they meet them, according to United Press International.

Alexander said the general impact on American families would be twofold: Students from kindergarten through 12th grade will be given homework assignments that are more difficult and more time-consuming, and teachers will be forced to upgrade their skills. Students will be tested on a voluntary basis to assess their progress, he said.

# Comment

## Revenue distribution: Stay the course or modify?

### Supporters contend membership benefits most from current plan

By James E. Delany

No plan or program is perfect, but the best of them represents a balancing of political, economic and equitable interests. Within a division as diverse as Division I, finding that balance is no easy task.

However, it has become very clear to me through the comments and letters of athletics directors and conference commissioners that the majority of the Division I membership supports the philosophy, as well as the bottom-line impact, of the present revenue-distribution plan.

James E. Delany

Candor requires recognition of the fact that a significant minority of Division I institutions continue to object to the formula as well as the emphasis placed on grant-in-aid calculations within the broad-based pool. The athletics departments at these institutions appear to share one of two characteristics: They do not sponsor Division I football, or they sponsor football but do not provide athletically related financial aid in the program.

NCAA Executive Director Richard D. Schultz's "new model" for intercollegiate athletics has been embraced by all segments of the Division I leadership. The new distribution plan is an integral element in supporting the "new model." As a result, the importance of winning was diluted, the importance of broad-based programs was enhanced, and tens of millions of dollars were redistributed to smaller and medium-sized Division I programs while the confer-

ences historically successful in NCAA play received a significant increase through the distribution plan.

Too often, the concept of equitable distribution is used only in association with those institutions or conferences that might be considered "have nots" or those that feel the Association might be improved by sharing revenue equally with each of its members. In my view, equity concerns should attach just as tightly to those institutions and conferences that have made the greatest NCAA tournament contributions.

This plan achieves equity for both groups.

For decades, Division I-A institutions and conferences have disproportionately built the foundation for regular-season and postseason success through efforts directed at establishing local, regional and national support. In many cases, these same institutions continue to be models for excellence in sponsoring intercollegiate athletics. While the NCAA no longer pays for winning in a direct way, it would be impractical, inequitable and unwise to ignore the significant contributions made by the larger athletics programs when developing plans associated with revenue distribution.

I would ask the Special Advisory Committee to Review Recommendations Regarding Distribution of Revenues to acknowledge explicitly the different institutional funding mechanisms for intercollegiate athletics, as well as the scope and size of the programs that have contributed to and competed in the NCAA Division I Men's Basketball Championship.

Many Divisions I-AA and I-AAA institutions receive a majority of their funding from institutional funds not generated by the athletics departments, while most of the

*See Supporters contend, page 5*

### Critics say too much emphasis placed on tournament participation

By Jeffrey H. Orleans  
and R. Daniel Beebe

When the NCAA Special Advisory Committee to Review Recommendations Regarding Distribution of Revenues meets February 11 to review the revenue-distribution formula, it holds in its hands a lot of the future of Division I athletics.

As NCAA Executive Director Richard D. Schultz said last month at the Convention in Anaheim, California:

"I have been involved in athletics for over 40 years and the financial pressure on higher education is the most challenging I have witnessed.... Financial studies indicate that almost 70 percent of the Division I schools\* will not generate enough revenue this year to pay the actual expenses of their athletics departments.... It appears that one of the major sources of revenue that athletics had enjoyed the past 10 years revenue from television—will be going down rather than up in the years ahead."

The revenue-distribution committee now has the chance to distribute funds in ways that help all Division I institutions in these difficult times—and to send a strong signal that it has responded to the needs of all segments of the division.

The committee's initial formula took the important step of allocating significant dollars separately from success in the basketball tournament. But half the funds involved still are tied to the tournament, and the formula still directs two-thirds of the total funds to a select group of schools.

Commentators from across Division I now are calling on the committee to allocate funds more broadly throughout the division. These writers do not want just balanced budgets, but the opportunities for students that financial stability will bring. They do

R. Daniel Beebe

Jeffrey H. Orleans

not want simply to meet current expenses, but to help all schools in the division to prepare for the difficult transition when television revenues begin to drop.

The suggestions we have seen have three major goals and offer many ways to achieve each of them.

First, we should reduce the funds tied to the men's basketball tournament itself, to really divorce dollars from winning and to provide more dollars to distribute in other ways.

There remains a significant reward for athletics success when each tournament win is worth nearly \$250,000 over a six-year period. There are numerous ways to change this, including less total dollars in the basketball pool, reducing the number of rounds rewarded and/or the amount per round, and capping the maximum amount any one team can win.

Similarly, the conference-grant program should provide the same awards to all conferences, regardless of whether they are eligible for or have received automatic bids to the men's or women's tournaments.

Second, we should reduce the advantages that the weighting and structure of the grant-in-aid formula give to particular

*See Critics say, page 5*

## Looking Back

### Five years ago

A. Bartlett Giamatti, former president of Yale University and newly named president of Major League Baseball's National League, told a baseball dinner at the University of Hartford in February 1987 that "The Federal government is about three years away from stepping into the mess that colleges and universities have created for themselves" in athletics. Chaired the festivities that evening was Stephen Joel Trachtenberg, then president of the University of Hartford and now president of George Washington University and a member of the NCAA Presidents Commission. (The NCAA News, February 25, 1987)

### Ten years ago

On February 26, 1982, the U.S. Court of Appeals for the District of Columbia Circuit denied an emergency motion by the Association for Intercollegiate Athletics for Women. The motion sought to overturn an earlier Federal district court denial of AIAW's attempt to prohibit the NCAA from offering women's championships. (The NCAA News, February 28, 1982)

### Twenty years ago

Ground was broken February 25, 1972, for construction of the Association's new headquarters building in Mission, Kansas. ("NCAA: The Voice of College Sports")

### Thirty years ago

The NCAA national office staff, headquartered in downtown Kansas City, Missouri, included four administrators in February 1962—Executive Director Walter Byers and three assistants, Arthur J. Bergstrom, Wayne Duke and Charles M. Neinas. In addition, the Association maintained the National Collegiate Athletic Bureau in New York City, with Homer F. Cooke Jr. as director and Danny Hill as associate director. (1961-62 NCAA Yearbook)

## College preparation no last-minute choice

Barbara Smith  
Letter to the editor  
Des Moines Register

"The percentage of college athletes who go on to earn large salaries as professionals is very small. These other student-athletes will have to depend on their education rather than athletics ability after college.

"If there is a problem, then possibly we need to look at why some of these athletes are not academically ready for college and why—as many say—it is unfair to properly prepare our young people for the future. Or is it possible that we have raised a generation of young people who have come to expect everything to be given to them?"

"This is something that needs to be addressed long before a student is of college age. This is something everyone needs to be aware of in the early development of our young people.

"As responsible adults, we need to look at our priorities. Which is more important: a winning program, or many productive, successful college graduates?"

Richard D. Schultz, NCAA executive director  
USA Today

"What (a strict set of initial-eligibility rules) means is that you've established a freshman-eligibility rule. If you don't meet these standards, you're going to have to sit out one year and prove that you can do college work. And then, you're going to have three years of eligibility left."

Don James, head football coach  
University of Washington

The Dallas Morning News

"Coaches are reasonable. I can see the number of sports and number of people that have grown in our athletics department, and there's a need for cost containment."

Gary Blackney, head football coach  
Bowling Green State University

The Dallas Morning News

"I didn't think the (NCAA) presidents would reverse themselves (on coaching-staff sizes). It shows if we're willing to do the research and willing to make the proper presentation on an issue that they're willing to listen."

## Opinions

Dan Bell, men's basketball coach  
Northwestern State University (Louisiana)

Alexandria (Louisiana) Daily Town Talk

"It's important that we get back to where people who come here are here basically to go to school.... I really like the idea that we're headed to a time when we're going to get real college students in college athletics, but I'm not real sure the (standardized) tests are the way to determine that.

"If a kid knows he's got to get 13 (core courses) and a 2.500 GPA, everyone finds a level, and most will find a way to get themselves to that level. I think you're getting something special when you get involved with a sports team. I mean, isn't it true with any organization or club, that there are certain criteria that need to be met for membership?"

# Supporters contend

Continued from page 4

funding necessary to support men's and women's opportunities in Division I-A is from athletics-department-generated revenue streams. Unless and until this divergence in funding mechanisms changes, it is unrealistic to disregard the significant market contributions made by Division I-A institutions to men's and women's intercollegiate athletics opportunities, as well as to the tournament.

It was not accidental that exponential rather than arithmetic increases in determining grant-in-aid values were included within the broad-based formula. The rationale behind this approach was to ensure (insofar as possible with a rudimentary formula) that some recognition be given to the cost of programs with high grant-in-aid numbers, at least in comparison to programs that focus on limited or broad-sport sponsorship without large amounts of athletically related financial aid.

For example, where large amounts of athletics department financial aid is involved, one usually finds a program with higher recruitment costs, high facilities costs, national as well as regional recruitment and scheduling, and a more aggressive market in terms of coaches' compensation. Perhaps it would have been better to adopt a total-expenditures approach, thereby simply rewarding financial commitment. For a number of reasons, however, this was found by a strong majority of the revenue-distribution committee not to be the way to proceed.

## 1990-91 distribution

Fund	Amount
Basketball	\$31,250,000
Academic enhancement	7,375,000
Needy student-athlete	2,999,896
Sports-sponsorship	10,416,673
Grants-in-aid	20,833,130
Total	72,874,699

The committee should take great comfort in the fact that its work has been accepted by the vast majority of moderate voices throughout the membership. Unlike the problem of football television in the early 1980s, the Division I membership found a way of handling its financial windfall without catering to extreme factions within the membership or without going to court.

For the record, it is necessary to point out that most Divisions I-A and I-AA conferences, including the Big Ten Conference, would experience significant reduction in distributable revenue if structural changes were made in the method of calculation of the grant-in-aid aspect of the broad-based pool.

In short, I respectfully urge the committee to stay on its course and avoid any structural changes in its approach to revenue distribution.

*James E. Delany is commissioner of the Big Ten Conference and is a member of the Special Advisory Committee to Review Recommendations Regarding Distribution of Revenues.*

# Critics say

Continued from page 4

groups of schools, as opposed to the "broad-based" pool.

For example, while the formula helps all football schools by counting their grants in the base, the exponential formula for calculating the payout of the "last" grant most benefits Division I-A institutions, which have the most football grants. The formula also helps public institutions compared to private ones because their grant costs are lower, and it helps large schools because it's easier for them to absorb grant costs in the first place.

The formula also gives another significant advantage to I-A schools. Without an NCAA championship, their substantial bowl and television revenues are outside the pool but even without that championship, their football grants count for the payout. Yet Division I-AA schools, which do have a championship, have fewer grants to count in the base, often have to use student fees to fund them and have demonstrable problems in doing so.

The committee has received a wide variety of suggestions in this area: flattening out the exponential-grant formula, making the "broad-based" pool equal to the "grant" pool rather than only half as large, adding a weighting formula to the "broad-based" pool and even adopting some sort of basic grant for all schools. The issue is not adopting any specific approach but finding a combination that works more fairly for the entire division.

Finally, the committee should acknowl-

edge the politics that influence the revenue formula and should look for an approach that unites us rather than divides us.

The current distribution has been designed so that a group of I-A conferences are assured of receiving a certain minimum of the total revenues from the basketball contract. Whatever may be the various concerns with this approach, no one in Division I expects it to be rejected totally.

At the same time, as Dick Schultz also said in Anaheim, all institutions in Division I have an obligation to face their own financial responsibilities, without depending on NCAA distributions. And too great a deference to these institutions' desires is likely to introduce Federal taxation and regulation, which will not serve any of us.

The revenue-distribution committee has the chance to tell every institution in Division I that a balance must be struck that can help all institutions. If it does that, it will help all of us spend less time on divisional politics and more time on athletics opportunities for our students. If it does not, the very real financial needs in our division may bring forth harder and more difficult demands on all sides. The committee should have the support of all Division I institutions, of every type, if it recommends a formula that is fairer throughout the division.

*Jeffrey H. Orleans is executive director of the Ivy Group. R. Daniel Beebe is commissioner of the Ohio Valley Conference.*

## News quiz

The following items appeared in January issues of The NCAA News. How many can you answer?

1. What NCAA president has presided over the most NCAA Conventions (four) during the past 40 years? (a) Albert M. Witte; (b) John A. Fuzak; (c) Harry M. Cross; (d) Alan J. Chapman.
2. What member institution will host the 1994 National Collegiate Men's Volleyball Championship? (a) University of California, Los Angeles; (b) Ball State University; (c) Indiana University-Purdue University, Fort Wayne; (d) San Diego State University.
3. What year was the record of 36,652,179 for national college football attendance in a season set? (a) 1984; (b) 1990; (c) 1991; (d) 1985.
4. Which of the following pressures facing intercollegiate athletics were not mentioned by NCAA Executive Director Richard D. Schultz in his State of the Association address at the 1992 Convention? (a) perceptions; (b) politics; (c) injury rates; (d) reform.
5. Which school has the most all-American basketball players (33)? (a) University of Kentucky; (b) University of North Carolina, Chapel Hill; (c) University of Kansas; (d) University of Notre Dame.
6. In what season will 25-second clocks be required on college football fields?
7. According to the American Council on Education, minority enrollment increased by how much at U.S. colleges and universities between 1988 and 1990? (a) 26 percent; (b) 10 percent; (c) 7.4 percent; (d) 8.7 percent.
8. With the admission of California State University, Fresno, the College Football Association now has how many members? (a) 50; (b) 63; (c) 66; (d) 67.
9. The trial date for the NCAA's suit against a Nevada law preventing the Association from proceeding with its rules-enforcement process in that state has been delayed until when? (a) February 28; (b) March 13; (c) March 20; (d) March 27.
10. How many men's basketball coaches currently active in Division I are at least 60 years old? (a) none; (b) two; (c) 15; (d) 18.

Answers on page 20.

# Report on student-athletes' unmet financial need prompts monitoring

The NCAA Council has directed the Committee on Financial Aid and Amateurism to monitor the Needy Student-Athlete Fund and to recommend, if appropriate, adjustments to that program or to NCAA financial aid limitations if it appears the needy student-athlete funds are not sufficiently addressing unmet financial need among Division I student-athletes receiving full grants-in-aid.

At its Convention meeting in January, the Council received a report from the financial aid committee regarding unmet financial need among Division I student-athletes receiving full grants. Based on the findings of that report, the Council agreed with the committee's recommendation that the Needy Student-Athlete Fund be permitted to operate for two years to address instances of student-athletes' unmet financial need rather than amending current NCAA legislation to provide additional financial aid to those with unmet financial need.

The report was written in response to 1991 Convention Proposal No. 88, a resolution that directed the financial aid committee to study the extent of unmet financial need among Division I student-athletes receiving full grants-in-aid. Those sponsoring the resolution had identified various categories of unmet financial need, such as travel expenses, personal-care items and educational materials beyond course-required books.

The committee surveyed 55 Division I institutions (including the sponsors of the resolution), with proportionate representation among the three subdivisions and eight membership districts. Forty of those institutions responded and reported a total of 120 usable cases of unmet need (those 120 cases coming from 16 institutions). Unmet need was verified by using Federal Congressional Needs Analysis Methodology.

Using the 40 responding institu-

tions as a base, the average number of student-athletes with unmet financial need per institution in the survey was three. However, two institutions reported 72 cases of unmet need (more than half of those reported), and if those 72 were not counted, the average number per institution surveyed was 1.26.

Among the 120 cases, the average unmet need was \$763.55. Football and women's basketball were the two sports reporting the highest average amount of unmet need, approximately \$830 and \$840, respectively. Division I-AA reported the highest average amount of unmet need at approximately \$1,060.

Ninety-five percent of the student-athletes with unmet financial aid were eligible to receive Pell Grants, and 67.1 percent of the 120 received Pell Grants of \$1,700 or more. Most (70 percent) did not receive loan assistance, while 55 percent contributed between \$500 and \$1,000 from personal resources. Parental contributions were nonexistent for 67.5 percent.

The committee's report noted that the results of the study were affected significantly by the extent to which financial aid offices were unable to submit Federally approved financial need-analysis information in response to the survey. The committee identified three con-

tributing factors:

- Many student-athletes studied did not complete financial aid applications, apparently because they were receiving full grants-in-aid or believed they would not be eligible for Pell Grants.

- Data originating from financial aid offices often could not be released or reconciled with information from the institutions' athletics departments.

- Some institutions appeared to have difficulty completing the survey forms in the allotted time frame.

Based on the results of the survey, the Committee on Financial Aid and Amateurism reached the following conclusions:

- The extent of unmet need among Division I student-athletes receiving full grants-in-aid appears to be significantly less than purported by athletics officials and the general public.

- Many purported instances of unmet need among Division I student-athletes appear to emanate from a lack of institutional distribution of and individual application for available need-based funds.

- Since an overwhelming majority of the student-athletes with unmet need were eligible for Pell Grants, the NCAA Needy Student-Athlete Fund may meet the majority of Division I student-athletes' unmet financial need.

# IRS invites comments on auditing guidelines

The Internal Revenue Service has solicited comments on proposed guidelines for use by its revenue agents in auditing arrangements for corporate sponsorship of athletics and other events sponsored by tax-exempt organizations.

The issue whether such arrangements create taxable unrelated business income has become a major source of discussion since the IRS claimed that sponsorship payments in connection with the Mobil Cotton Bowl constituted taxable income to the Cotton Bowl Association.

The IRS guidelines, through the use of various specific examples and instructions, provide some assistance to tax-exempt organizations in determining the taxability of certain types of sponsorship payments. Mere naming of a building after a donor, or listing contributors in the program of a performing-arts organization, is said not to give rise to taxable income, nor does associating the sponsor's name with the name of the event "in itself" do so.

On the other hand, contractual provisions tending to suggest operation of a trade or business are defined as suspect. These include requirements as to size and location of the sponsor's name, availability of participants in the event for appearances or endorsements, the amount of necessary media coverage and prerequisites for the sponsor's clients or executives.

The guidelines suggest the ultimate issue is whether the contract assures to the sponsor a substantial benefit in exchange for the payment.

Legislation currently is pending in both houses of Congress, the effect of which would be to insulate from Federal tax all forms of revenue from amateur athletics events, including sponsorship payments. Proponents of the legislation can be expected to attempt to attach its provisions to the general tax-revision legislation now under discussion in Washington, D.C.

Any comment to the IRS on this subject must be submitted by April 3.

## Political football

Illinois Gov. Jim Edgar visited the "cradle of coaches," Miami University (Ohio), for the school's final 1991 home football game. Not only did he see his daughter, who attends Miami (Ohio), but he met quite a group of Miami (Ohio) dignitaries. Shown are (from left) head football coach Randy Walker, President Paul G. Pearson, Edgar, athletics director R. C. Johnson, and legendary Miami (Ohio) alumnus and hall-of-fame coach Weeb Ewbank.

## News Fact File

Of all of the teams that qualified or were selected for Division I championships or National Collegiate Championships in 1990-91, excluding Division I-AA football because it is limited to one subdivision, and excluding strictly individual selections, 69 percent were from Division I-A institutions, 12 percent were Division I-AA and 12 percent were Division I-AAA. Seven percent were Division II or III institutions.

Source: Championships data developed in regard to legislative proposals for the 1992 NCAA Convention.

# Substandard aircraft prompt Federal warning

The United States Department of Transportation, in letters to leaders of major professional and collegiate sports leagues and associations, including NCAA Executive Director Richard D. Schultz, has warned that some teams are traveling on aircraft that are not held to the Federal Aviation Administration's highest safety standards.

The letter stated that "apparently some teams are chartering aircraft from entities that hold no Department of Transportation economic authority and are not subject to the

most stringent safety standards and oversight of the Federal Aviation Administration."

Before any U.S. aircraft operator can operate service to the general public, it must first obtain transportation department economic authority, the letter stated. Once these carriers are granted that authority, they then must comply with the safety-related certification and operating rules of the FAA.

The problem, the letter said, is that some operators of large, jet-

powered passenger aircraft are not required to meet the requirements because they are not soliciting business from the general public and are not "acquiring a reputation for common carriage." Hence, those aircraft are held to safety standards not as stringent as those held to public-certified carriers.

The U.S. Department of Transportation is suggesting that it be contacted if any operator of a large aircraft or its agent solicits air-transportation business and the operator does not have transportation-

department economic authority or an appropriate FAA air-carrier operating certificate.

Additional information may be obtained by calling Samuel Podbesky, assistant general counsel for aviation enforcement and proceedings, at 202/366-9342. Those seeking information about whether a particular aircraft operator has transportation-department air carrier authority may contact Patricia Szrom, chief, Department of Transportation air carrier fitness division, at 202/366-9721.

# State legislation relating to college athletics

This report summarizes legislation currently pending in state legislatures that could affect, or is otherwise of interest to, intercollegiate athletics programs and student-athletes at NCAA member institutions. Set forth below is a list of 22 bills from 15 states. The report includes 17 bills that have been introduced, and five pending bills on which action has been taken, since the last report (January 22, 1992). The newly introduced bills are marked with an asterisk. Pending bills discussed in the previous report on which no action has been taken do not appear in this report.

This report is based on data provided by the Information for Public Affairs on-line state-legislation system, as of January 30, 1992. The listed bills were selected for inclusion in this report from a larger pool of bills concerning sports, and they therefore do not necessarily represent all bills that would be of interest to individual member institutions. Bills pending in the District of Columbia and U.S. territories are not available on-line and are not included.

The NCAA has not verified the accuracy or completeness of the information and is providing this summary as a service to members. For further information regarding a particular bill, members should contact the state legislature concerned.

As an overview, the table below summarizes the number of bills included in the report by subject.

Assault on a sports official	4
Athlete agents	4
Trainers	3
Anabolic steroids	2
Due process	2
Scalping	2
Broadcasting	1
Games in home state	1
Liability	1
Scholarships	1
Women in sports	1

### \*Delaware S. 252 (Author: Sokola)

Relates to limitation of liability in nonprofit sports. Status: 1/16/92 introduced. To Senate Committee on Insurance and Elections.

### Florida H. 99 (Author: Tobin)

Provides that certain ticket sales constitute a deceptive and unfair trade practice; defines the "original seller" of a ticket.

Status: 9/20/91 prefiled. 1/14/92 introduced. To House Committee on Regulated Services and Technology. Withdrawn from further

consideration.

### \*Florida H. 1749 (Author: King)

Provides penalties for assault on a sports official.

Status: 1/21/92 introduced.

### \*Hawaii S. 2898 (Author: Wong)

Defines "anabolic steroids"; lists items included in definition.

Status: 1/23/92 introduced.

### \*Kentucky S. 83 (Author: Shaughnessy)

Prohibits any athletics association or state institution of higher education from making contracts permitting the telecasting of a state institution's athletics events on pay-per-view channels.

Status: 1/15/92 introduced. To Senate Committee on Education.

### \*Maryland H. 504 (Author: Heller)

Repeals a requirement that at least one warning notice regarding anabolic steroids must be posted at each entrance of an athletics facility.

Status: 1/23/92 introduced. To House Committee on Judiciary.

### \*Maryland S. 1 (Author: Committee on the President)

Makes changes to athlete agent regulations.

Status: 1/8/92 introduced. To Senate Committee on Finance.

### \*Massachusetts H. 1127 (Author: Herren)

Relates to athletics trainers.

Status: 1/1/92 introduced. To Joint Committee on Health Care.

### \*Mississippi S. 2301 (Author: Bean)

Creates the Collegiate Athletic Association Compliance Enforcement Procedures Act; provides that no penalty may be imposed by a collegiate athletics association on any institution of higher learning in Mississippi unless the penalty is based on findings made at a formal hearing; provides that individuals suspected of violating association rules shall have certain rights when they are interrogated by the association.

Status: 1/21/92 introduced.

### \*Mississippi S. 2354 (Author: Anderson)

Prohibits state universities from playing more than one home football game outside Mississippi.

Status: 1/24/92 introduced. To Senate Committee on Universities and Colleges.

### Nebraska L. 295 (Author: Hefner)

Adopts the Athlete Agents Registration Act.

Status: 1/15/91 introduced. 1/17/91 to Legislative Committee on Judiciary. 1/17/92 from Legislative Committee on Judiciary. Indefinitely postponed.

### \*Nebraska L. 1185 (Author: Dierks)

Establishes procedures and requirements for reducing, cancelling or refusing to renew athletics grants-in-aid.

Status: 1/21/92 introduced.

### New Hampshire S. 62 (Author: Currier)

Establishes a committee on athletics trainers to advise the Board of Registration in Medicine; establishes licensing regulations for athletics

trainers.

Status: 1/18/91 introduced. 3/28/91 passed Senate. To House. 1/8/92 passed House. To Senate for concurrence.

### \*New Hampshire S. 331 (Author: Hollingworth)

Extends the Sports Gender Equity Study Committee for one year; requires the committee to conduct a statewide survey of secondary, postsecondary and community sports programs to determine whether gender disparities exist in the opportunities, benefits and services that are available.

Status: 1/8/92 introduced. To Senate Committee on Public Affairs.

### New York S. 6020 (Author: Stafford)

Provides that in a proceeding that may result in the imposition of a sanction by a national collegiate athletics association, parties shall be given an opportunity for a notice and hearing; provides for judicial review of association decisions; prohibits an association from imposing sanctions unless it has met these standards.

Status: 5/21/91 introduced. To Senate Committee on Rules. 1/8/92 withdrawn from Senate Committee on Rules. To Senate Committee on Higher Education.

### New York S. 6333 (Author: Skelos)

Regulates ticket speculators at places of entertainment that seat more than 5,000 persons.

Status: 6/27/91 introduced. To Senate Committee on Rules. 1/8/92 withdrawn from Senate Committee on Rules. To Senate Committee on Investigations, Taxation and Government Operations.

### \*Rhode Island H. 7454 (Author: Batastini)

Provides penalties for assaulting a sports official.

Status: 1/14/92 introduced. To House Committee on Judiciary.

### \*Rhode Island H. 7455 (Author: Henseler)

Provides that assault on a sports official shall be punishable as a misdemeanor.

Status: 1/14/92 introduced. To House Committee on Judiciary.

### \*South Carolina H. 4249 (Author: Waldrop)

Revises the definition of "athletics trainer."

Status: 1/22/92 introduced. To House Committee on Medical, Military, Public and Municipal Affairs.

### \*Utah H. 156 (Author: James)

Provides that assault against a sports official is a class A misdemeanor.

Status: 1/16/92 introduced.

### \*Virginia S. 106 (Author: Holland)

Removes the licensure requirement for athlete agents.

Status: 1/15/92 introduced. To Senate Committee on General Laws. 1/22/92 from Senate Committee on General Laws. Reported with amendment.

### \*Washington H. 2270 (Author: Heavey)

Relates to the registration of athlete agents.

Status: 1/13/92 introduced. To House Committee on Commerce and Labor. 1/17/92 from House Committee on Commerce and Labor. Do pass.

# Duke, Maryland produce coaches, but Iba 'tree' casts biggest shadow

By James M. Van Valkenburg  
NCAA Director of Statistics

Duke and Maryland are on top with five graduates each in the men's Division I head-coaching ranks and Indiana has four, but the former coach with the biggest family tree is Oklahoma State's 89-year-old Henry Iba.

Three of the Duke graduates played under former Sun Belt Conference Commissioner Vic Bubas, who coached three Final Four teams and had a 213-67 mark from 1960 to 1969. They are North Carolina-Charlotte's Jeff Mullins ('64), Winthrop's Steve Vacendak ('66) and Texas A&M's Tony Barone ('68). James Madison's Lefty Driesell ('54) played for Harold Bradley, whose team won the inaugural regular-season race in the Atlantic Coast Conference in 1954. Illinois State's Bob Bender ('80) played on Bill Foster's NCAA runner-up team in 1978.

Four Maryland graduates played at least part of their career under Bud Millikan, Oklahoma State '42 and a member of Iba's huge family tree. Millikan's four are Wayne Szoke of Monmouth (New Jersey) and three 1968 graduates - Colorado's Joe Harrington, Maryland's Gary Williams and Towson State's Terry Truax. The fifth, Southwestern

## Basketball notes

Louisiana's Marty Fletcher ('73), played under Driesell.

More than 40 current Division I head coaches played for or assisted Iba or were players or assistants under coaches whose lineage can be traced to Iba. And that does not include many others at all levels who call or come to Stillwater, Oklahoma, for advice, including Duke's Mike Krzyzewski and Indiana's Bob Knight.

Three of Indiana's four played for Knight. They are Evansville's Jim Crews ('76) Miami's (Ohio) Joby Wright ('80) and William and Mary's Chuck Swenson ('76). Georgia State's Bob Reinhart ('61) played for Branch McCracken.

Ten colleges have three graduates each, including Oklahoma State. All played for Iba - UTEP's Don Haskins ('53), Oklahoma State's Eddie Sutton ('59) and Texas Christian's Moe Iba (son).

### Women's alma maters

Ohio State leads with seven graduates in the women's Division I head-coaching ranks. West Chester is next with four and 14 colleges have three each.

One Ohio State graduate, Brooklyn's Molly Perdue ('82), played under current Stanford coach Tara VanDerveer. Five were there in Debbie Wilson's coaching years from 1973 to 1980. They are Ohio's Marsha Reall ('75), Illinois' Kathy Lindsey ('78), Boise State's June Daugherty ('78), Cornell's Kim Jordan ('80) and Cincinnati's Laurie Pirtle ('80). Xavier's (Ohio) Mark Ehlen is a 1975 Ohio State graduate.

West Chester's four are Kansas' Marian Washington ('70), Minnesota's Linda MacDonald-Hill ('70), Rhode Island's Linda Ziemke ('73) and Connecticut's Geno Auriemma ('81).

All but Auriemma played under the late Carol Eckman, a pioneer who organized the first national women's invitational tournament, conducted in 1969, 1970 and 1971. Many other current and former coaches in all divisions are members of Eckman's family tree. Her career winning percentage was

.939.

Only three women's Division I head coaches have reached age 60. Youngstown State's Ed DeGregorio is 65, West Virginia's Kittie Blakemore 63 and Eastern Washington's Bill Smithpeters 61. The youngest Division I head coach at 25 is Long Island-Brooklyn's Marguerite Moran. Two more are 26. They are Austin Peay State's LaDonna Wilson and William and Mary's Trina Thomas.

### Berenson started it

The earliest and surely one of the youngest women's basketball coaches ever was Senda Berenson, who devised the women's three-court game in January 1892 at Smith College in Northampton, Massachusetts, where she was physical education director.

She was 23 and had just been hired when James Naismith published an illustrated article on his 13 original rules for the game he had invented at nearby Springfield College two or three weeks earlier. Immediately, she created new rules - a transformed game that was "womanly and vigorous" but would not offend the administration or parents. She used peach baskets and a soccer ball but divided the court in three equal sections. Players had to stay in their section, could not steal the ball or hold it more than three seconds and had to limit dribbles to three bounces. Her students loved it, and her game quickly spread across the country.

The first women's game using men's rules was not until March 1892. Research into Berenson's papers showed this was two months after her first game, reports Betty Spears, one of 24 authors of a new book, "A Century of Women's Basketball."

### Quotes of the week

Emory men's coach Lloyd Winston has heard many excuses for being late to practice. But when Kevin Viel said he had to stop by the chemistry lab to fill the electron microscope with liquid nitrogen, the coach reflected: "It was hard to argue with that. Back in my day, all we wanted to do in chemistry class was see who could mix chemicals to create the loudest explosion." (John Arenberg, Emory SID)

When Jacksonville ended a 15-game road losing streak by winning at Central Florida, 78-74, coach Matt Kikullen quipped: "The first thing I'm going to do is call Dick Vitale (who had written that the biggest upset in the Sun Belt Conference this season would be a Jacksonville road win)." (Gary Izzo, Jacksonville assistant SID)

Wagner men's coach Tim Capstraw on the cultural makeup of his squad: "We have black players, white players, four Yugoslavians (who had a combined 3,390 grade-point average on a 4,000 scale last semester) and a Mormon from Utah. Our toughest decision is what kind of warmup music to play." (Scott Morse, Wagner SID)

### Short takes

All three sons of Chadron State men's coach Bob Wood and wife, Terri, won their age groups at the area Hoop Shoot. Jesse, 13; Drew, 11, and Brian, 9, shot a combined 80 percent at the free-throw line. (Con Marshall, Chadron State SID)

Morningside won road games at both North Dakota State and North Dakota for the first time in 41 years, January 17-18, and in the process ended North Dakota's 41-game home-court winning streak. (Mark Gambaiana, Morningside SID)

Wisconsin-Platteville, the defending national champion in men's Division III basketball, is off to a 15-1 start, and the players compiled a combined 3,000 grade-point average last semester. T. J. Van Wie and Rick Redetske both earned a perfect 4.000. Van Wie, the starting point guard, has four straight 4,000 semesters. (Becky Bohn, Wisconsin-Platteville SID)

The 11-member La Salle women's team, big winners on the court, combined for a 3,240 grade-point average last semester, and four players made the dean's list. (Dawn Wright, La Salle assistant SID)

## Division I single-game highs

Men's Division I (Through February 3)

# Initial-eligibility appeals

Following is a report of actions taken by the NCAA Council Subcommittee on Initial-Eligibility Waivers. The report includes actions taken since the last summary was published. It appeared in the November 4, 1991, issue of The NCAA News.

The report covers actions taken by the subcommittee in telephone conferences on August 27, September 23 and October 25, 1991.

Acting for the Council, the subcommittee:

## Considered the following core-course waiver applications:

- Denied the application of a recruited student-athlete who presented six acceptable passes on his Irish leaving certificate (five required) and an SAT score of 710. He lacked one pass in social science and did not complete any secondary course work in that subject. In its denial of the application, the subcommittee noted the student-athlete's recruited status and his failure to meet the core-course distributional requirement specified in the NCAA Guide to the International Academic Standards for Athletics Eligibility. The subcommittee also noted the student-athlete's low SAT score.

- Denied the application of a recruited student-athlete who presented secondary credentials from England and an SAT score of 920 (English subscore of 440). He lacked one subject pass on his General Certificate of Education and/or General Certificate of Secondary Education (GCSE) in English. In its denial of the application, the subcommittee noted the student-athlete's recruited status and the fact that he failed to meet the minimum review criteria for a core-course waiver.

- Denied the application of a recruited student-athlete who presented Caribbean secondary credentials and an SAT score of 800 (mathematics subscore of 410). He lacked passes in two core areas (science and mathematics). In its denial of the application, the subcommittee noted that the student-athlete did not meet the minimum review criteria for a core-course waiver and repeatedly failed additional secondary course work in science and mathematics.

- Denied the application of a recruited student-athlete who presented 11 core-course credits with a grade-point average of 1.450, an overall grade-point average of 2.000, an ACT score of 18 and an SAT score of 740. In its denial of the application, the subcommittee noted the student-athlete's recruited status and the fact that he did not meet the minimum review criteria for a core-course waiver.

- Denied the application of a recruited student-athlete who presented 15 core-course credits with a grade-point average of 2.000 and an ACT score of 19. He completed two of his core courses on a pass/fail basis. In its denial of the application, the subcommittee noted the student-athlete's recruited status and the fact that he did not meet the minimum review criteria for a core-course waiver.

minimum review criteria for a core-course waiver.

- Denied the application of a recruited student-athlete who presented 10 core-course credits with a grade-point average of 2.050, an overall grade-point average of 2.430 and an SAT score of 730. In its denial of the application, the subcommittee noted the student-athlete's recruited status and the fact that he did not meet the minimum review criteria for a core-course waiver.

- Denied the application of a recruited student-athlete who presented secondary credentials from England and an SAT score of 860. He lacked two countable passes on his GCSE. In its denial of the application, the subcommittee noted the student-athlete's recruited status and the fact that he did not meet the minimum review criteria for a core-course waiver.

- Denied the application of a recruited student-athlete who presented combined secondary credentials from Trinidad and a domestic high school, and SAT scores of 680, 560 and 650 (mathematics subscores of 370, 320 and 390), with a composite score of 700. He lacked core-course credits in science and mathematics. In its denial of the application, the subcommittee noted the student-athlete's recruited status, low mathematics subscores and the fact that he did not meet the minimum review criteria for a core-course waiver.

- Approved the application of a recruited student-athlete who presented acceptable secondary credentials from Portugal and a domestic high school, and SAT scores of 1090 and 1060, with a composite score of 1140. He lacked one core-course credit in science. In its approval of the application, the subcommittee noted the student-athlete's high SAT scores and overall academic record.

- Approved the application of a recruited student-athlete who presented Caribbean secondary credentials and an SAT score of 900. He lacked a natural science pass on his Caribbean Examination Council Secondary Education Certificate (CXC). In its approval of the application, the subcommittee noted that the student-athlete had completed acceptable secondary course work in natural science. The subcommittee further noted the student-athlete's SAT score.

- Approved the application of a recruited student-athlete who presented 10 core-course credits with a grade-point average of 2.600, an overall grade-point average of 2.790 and an SAT score of 1010. He lacked one core-course credit in science. In its approval of the application, the subcommittee noted the student-athlete's high SAT score and overall academic record.

- Approved the application of a recruited student-athlete who presented 10.5 core-course credits with a grade-point average of 3.666 and an ACT score of 25. He lacked one-half core-course credit in social science. In its approval of the application, the subcommittee noted the student-athlete's high ACT score and good overall academic record.

- Approved the application of a nonrecruited student-athlete who presented five core-course credits with a grade-point average of 2.400 (completed during his freshman year of high school), additional secondary credentials from a high school that did not give grades, and SAT scores of 1090 and 1100, with a composite score of 1160. In its approval of the application, the subcommittee noted the student-athlete's high SAT scores.

- Denied the application of a recruited student-athlete who presented 10 core-course credits with a grade-point average of 2.200, an overall grade-point average of 2.000, and SAT scores of 620 (mathematics subscore of 300), 600 (with a mathematics subscore of 310), a composite SAT score of 630, and ACT scores of 17 and 17 (mathematics subscores of 14 and 16), with a composite score of 19. He lacked one core-course credit in mathematics. In its denial of the application, the subcommittee noted the student-athlete's recruited status, marginal academic record and low mathematics ACT and SAT subscores.

- Denied the application of a nonrecruited student-athlete who presented 12.5 core-course credits with a grade-point average of 1.960, an overall grade-point average of 1.934, and SAT scores of 660, 760, 630 and 820, with a composite score of 820. In its denial of the application, the subcommittee noted that the student-athlete did not meet the minimum review criteria for a core-course waiver.

- Denied the application of a recruited student-athlete who presented secondary credentials from the Netherlands and SAT scores of 750 and 720, with a composite score of 760. He lacked one core-course credit in science. In its denial of the application, the subcommittee noted the student-athlete's recruited status, marginal academic record, low SAT scores and his failure to complete any course work in science.

- Denied the application of a recruited student-athlete who presented secondary credentials from England and an ACT score of 21. He lacked two countable passes on his GCSE. In its denial of the application, the subcommittee noted the student-athlete's recruited status and his failure to meet the minimum review criteria for a core-course waiver.

- Denied the application of a nonrecruited student-athlete who presented 11 core-course credits with a grade-point average of 1.770, an overall grade-point average of 2.040, an ACT score of 18 and an SAT score of 860. Due to the late diagnosis of the student-athlete's learning disability, he was unable to take core courses designed for the learning disabled. In its denial of the application, the subcommittee noted that the student-athlete's case did not meet the minimum review criteria for a core-course waiver and the fact that his inability to obtain the required core-course grade-point average while enrolled in a college preparatory curriculum supports (rather than contradicts) the application of a one-year residence requirement in his case.

- Approved the application of a recruited student-athlete who presented acceptable Caribbean secondary credentials and SAT scores of 780, 900 and 870, with a composite score of 920. He lacked one subject pass in

social science. In its approval of the application, the subcommittee noted that the student-athlete had completed six acceptable passes on his GCSE and had completed additional secondary course work in social science.

- Approved the application of a nonrecruited student-athlete who presented Caribbean secondary credentials and an SAT score of 720. He lacked a natural science pass on his CXC. In its approval of the application, the subcommittee noted the student-athlete's nonrecruited status and the fact that he had completed seven acceptable passes on his CXC and had completed additional course work in natural science.

- Approved the application of a recruited student-athlete who presented acceptable French secondary credentials and an SAT score of 750 (mathematics subscore of 440). She lacked one-half core-course credit in mathematics. In its approval of the application, the subcommittee noted the student-athlete's SAT mathematics subscore and her good overall academic record.

- Approved the application of a recruited student-athlete who presented 10.5 core-course credits with a grade-point average of 3.140, an overall grade-point average of 2.830 and an ACT score of 18 (social-science subscore of 21). He lacked one-half core-course credit in social science. In its approval of the application, the subcommittee noted the student-athlete's core-course grade-point average and high ACT social-science subscore.

- Approved the application of a nonrecruited student-athlete who presented 19 core-course credits and SAT scores of 800 and 800, with a composite score of 820. She graduated from a high school that does not give grades. In its approval of the application, the subcommittee noted correspondence from the student-athlete's high-school principal indicating that, based on a 4.000 scale, her core-course grade-point average would be approximately 3.000.

- Denied the application of a nonrecruited student-athlete who presented 11 core-course credits with a grade-point average of 1.950, an overall grade-point average of 2.230 and an ACT score of 17. In its denial of the application, the subcommittee noted the student-athlete's core-curriculum grade-point average did not meet the minimum review criteria for a core-course waiver and that the deadline for the application had expired.

- Denied the application of a nonrecruited student-athlete who presented 11 core-course credits with a grade-point average of 2.180, an overall grade-point average of 2.385 and an SAT score of 950 (mathematics subscore of 470). He lacked two core-course credits in mathematics. In its denial of the application, the subcommittee noted the student-athlete did not meet the minimum review criteria for a core-course waiver.

- Approved the application of a recruited student-athlete who presented acceptable secondary credentials from Yugoslavia and an SAT score of 890. Officials at the member institution were not able to obtain official copies of the student-athlete's secondary

credentials from Yugoslavia due to civil unrest in that country. In its approval of the application, the subcommittee noted that official translations of the student-athlete's academic credentials were available and established his strong academic record.

- Approved the application of a nonrecruited student-athlete who presented 10.5 core-course credits with a grade-point average of 2.760, an overall grade-point average of 2.700, and ACT scores of 16, 14, 18 and 21 (mathematics subscores of 15, 14, 17 and 21). She lacked one-half core-course credit in mathematics. In its approval of the application, the subcommittee noted the student-athlete's nonrecruited status and her ACT mathematics subscore of 21.

- Approved the application of a nonrecruited student-athlete who presented 11 core-course credits with a grade-point average of 4.000, an overall grade-point average of 4.000 and an ACT score of 24 (English subscore of 28). He lacked one English core course and completed additional English course work through independent study. In its approval of the application, the subcommittee noted the student-athlete's high ACT English subscore and his strong academic record.

## Considered the following graduation waiver applications:

- Denied the application of a recruited student-athlete who presented combined secondary credentials from Switzerland and a domestic high school and an SAT score of 760. He lacked the Maturite Certificate specified in the NCAA Guide to International Academic Standards for Athletics Eligibility. The member institution requested that the subcommittee reconsider the denial of the student-athlete's 1987 request for a waiver of NCAA Bylaw 14.3 and consider the fact that the information presented in the original 1987 correspondence demonstrated circumstances in which his original academic record warranted a waiver of Bylaw 14.3. In its denial of the application, the subcommittee noted the marginal nature of the student-athlete's secondary credentials, his recruited status and his failure to present a high-school diploma.

- Approved the application of a recruited student-athlete who presented secondary credentials through a home-study program, and SAT scores of 1150 and 1100, with a composite score of 1150. In its approval of the application, the subcommittee noted the student-athlete's high SAT scores.

- Approved the application of a nonrecruited student-athlete who presented 14.5 core-course credits with a grade-point average of 2.689 and an SAT score of 1250. He lacked a high-school diploma. He is enrolled in a concurrent high-school/collegiate program of studies through which he will receive his high-school diploma in June 1992. In its approval of the application, the subcommittee noted the student-athlete's nonrecruited status, his high SAT score and the accelerated nature of his secondary program of studies.

## Considered the following test-score waiver applications:

- Denied the application of a recruited student-athlete who presented

See Initial-eligibility, page 12

## Facilities

Illinois State University's new flooring is ready for some heavy use

## New floor at Illinois State facility

Student-athletes competing in track and field at Illinois State University will have surer footing in the future.

The school's multipurpose facility, Horton Field House, recently was resurfaced with Super X Mondo flooring.

The new surface will take its share of pounding this month when the school hosts the 25th indoor Missouri Valley Conference track championships, and the Gateway Collegiate Athletic Conference indoor championships.

The Super X Mondo surface is made of polyurethane material, which is rolled on instead of poured, according to school officials. The flooring allows high jump, long jump, pole vaulting, shot put and running events to take place simultaneously.

## Massachusetts honors former lacrosse coach

The University of Massachusetts, Amherst, will dedicate its lacrosse field in honor of former coach Dick Garber April 11.

Garber, a two-time national coach of the year, was the head men's lacrosse coach at Massachusetts for 36 years, compiling a career record of 300-140-3. He retired after the 1990 season.

Under Garber's direction, the school's lacrosse teams appeared in nine NCAA tournaments and were ranked in the top 15 nationally in 17 of his last 18 years.

## Iowa looking to construct additions

The University of Iowa has asked the state board of regents for authorization to proceed with planning for an athletics building addition and remodeling project.

The project calls for a 35,000-square-foot addition to the basement and first level of recreation building facilities used by the varsity football team, the remodeling of an existing 7,000-square-foot space for football use, and renovation of present football locker and training room space. The latter will result in use of the facility by other men's and women's intercollegiate athletics teams, including tennis, track and field, cross country, softball, and baseball.

The school has estimated the cost of the project at \$5 million, which it said will be entirely funded through private gifts. To reach that end, Iowa tentatively has planned a private fund-raising campaign.

## Final piece added at Ball State complex

The first athletics events at Ball State University's new University Arena took place January 15 with men's and women's basketball games against Miami University (Ohio).

Completion of University Arena is the final phase of Ball State's new Health, Physical Activity and Arena Complex project. Cardinals' basketball and volleyball teams will compete in the facility.

## Florida Citrus signs SEC

The Florida Citrus Bowl and Southeastern Conference reached an agreement January 29 that will match an SEC team against a Big Ten Conference opponent in each of the next three years.

Four months of negotiations produced a contract that allows the New Year's Day game to pair the Big Ten co-champion or runner-up against the runner-up in the SEC championship game or another highly ranked SEC team, according to The Associated Press. The Big Ten had reached its agreement with the Citrus Bowl in October.

The agreement with the SEC gives the Citrus Bowl three options to select a conference representative, including picking the runner-up of the SEC championship game, which makes its debut next season.

Bowl officials also may opt for a conference team with an equal or better overall record than the runner-up. The final option is to select a team ranked in the USA Today-CNN coaches poll that is within five places of either school participating in the SEC title game.

# Initial-eligibility

Continued from page 11

student-athlete who presented 11 core-course credits with a grade-point average of 3.182, an overall grade-point average of 2.980, and ACT scores of 15, 16 (nonstandard, November 12, 1990), 17 (nonstandard, February 27, 1991), 17 (nonstandard, April 15, 1991) and 15 (June 21, 1991, residual), with a composite score of 17.5. Her February and April examinations violated an ACT policy that requires a minimum of 60 days to elapse between test administrations; accordingly, ACT officials canceled the student-athlete's April 1991 test score. On June 21, 1991, she took an ACT residual examination administered by the member institution's liaison for ACT residual testing. The member institution requested the subcommittee to permit the institution to utilize her June 21, 1991, residual test in the computation of her composite ACT score. In its denial of the application, the subcommittee noted the student-athlete's recruited status and her repeated failure to complete successfully the nonstandard ACT.

• Denied the application of a recruited student-athlete who presented 11 core-course credits with a grade-point average of 2.950, an overall grade-point average of 3.045, ACT scores of 16 and 17 (nonstandard), with a composite score of 17.25, and an SAT score of 570. In its denial of the application, the subcommittee noted the student-athlete's recruited status and the fact that he had an opportunity to complete the nonstandard ACT prior to the July 1 deadline.

• Approved the application of a recruited student-athlete who presented acceptable secondary credentials from Nigeria and no test score. He was not informed of the test-score requirement due to the fact that the institution was a member of the National Association of Intercollegiate Athletics (NAIA) at the time of his recruitment, and that association did not require a test score to establish his initial eligibility. The approval of the student-athlete's application was contingent upon his successful completion of the ACT or SAT on a national-testing date under national-testing conditions and the fulfillment of his initial academic year in residence.

• Approved the application of a recruited student-athlete who presented acceptable secondary credentials from Mexico and an SAT score of 700 achieved after the July 1 deadline. She attended a collegiate institution in Mexico for one semester and was not informed of the test-score requirement until after her initial collegiate enrollment. The approval of the student-athlete's application was contingent upon her fulfillment of one additional semester in residence, thereby completing a full academic year in residence.

• Approved the application of a nonrecruited student-athlete who presented strong

secondary credentials from Norway and no test score. The approval of the student-athlete's application was contingent upon his successful completion of the ACT or SAT on a national-testing date under national-testing conditions.

• Approved the application of a recruited student-athlete who presented acceptable Australian secondary credentials and no test score. She was informed of the test-score requirement after the last date for taking the examination in Australia. The approval of the student-athlete's application was contingent upon her successful completion of the ACT or SAT on a national-testing date under national-testing conditions and the fulfillment of her initial academic year in residence.

• Approved the application of a nonrecruited student-athlete who presented acceptable secondary credentials from Sweden and no test score. The approval of the student-athlete's application was contingent upon her successful completion of the ACT or SAT on a national-testing date under national-testing conditions.

• Denied the application of a recruited student-athlete who presented 11 core-course credits with a grade-point average of 3.090 and SAT scores of 640, 640 and 660, with a composite score of 660. In its denial of the application, the subcommittee noted the student-athlete's recruited status and her repeated failure to complete the SAT successfully.

• Denied the application of a recruited student-athlete who presented 14 core-course credits with a grade-point average of 3.000, an overall grade-point average of 3.210, and ACT scores of 16 and 16, with a composite score of 17. In its denial of the application, the subcommittee noted the student-athlete's recruited status and her repeated failure to complete the ACT successfully.

• Denied the application of a recruited student-athlete who presented acceptable secondary credentials from Mexico, and SAT scores of 590 and 520, with a composite score of 610. In its denial of the application, the subcommittee noted the student-athlete's recruited status and his repeated failure to complete the SAT successfully.

• Denied the application of a recruited student-athlete who presented combined secondary credentials from Russia and a domestic high school, which equated to 18.5 core-course credits with a grade-point average of 3.297, and SAT scores of 540, 620 and 590, with a composite score of 650. In its denial of the application, the subcommittee noted the student-athlete's recruited status and her repeated failure to complete the SAT successfully, despite three years of domestic secondary instruction.

• Denied the application of a recruited student-athlete who presented 11 core-course

credits with a grade-point average of 3.000, an overall grade-point average of 3.220, and ACT scores of 15, 16, 15 (composite score of 16.5) and 25. ACT officials canceled the student-athlete's test score of 25. The member institution requested that he be afforded an additional opportunity to take the SAT or ACT after the July 1 deadline because of the late notification that his ACT score of 25 was canceled. In its denial of the application, the subcommittee noted the student-athlete's recruited status and his repeated failure to complete the ACT successfully.

• Approved the application of a recruited student-athlete with a certified learning disability who presented 11 core-course credits with a grade-point average of 2.000, SAT scores of 630 and 630 (composite score of 650), ACT scores of 15, 14, 15, 16 (composite score of 16.75) and a nonstandard ACT score of 20 achieved subsequent to the July 1 deadline. He was not aware of the opportunity to complete a nonstandard version of the ACT until after the July 1 deadline. The approval of the student-athlete's application was contingent upon his fulfillment of the initial academic year in residence.

• Approved the application of a nonrecruited student-athlete who presented acceptable secondary credentials from Canada and no test score. The approval of the student-athlete's application was contingent upon his successful completion of the ACT or SAT on a national-testing date under national-testing conditions.

• Approved the application of a nonrecruited student-athlete who presented acceptable secondary credentials from Sweden and no test score. The approval of the student-athlete's application was contingent upon her successful completion of the ACT or SAT on a national-testing date under national-testing conditions.

• Approved the application of a nonrecruited student-athlete who presented 12 core-course credits with a grade-point average of 3.000, an overall grade-point average of 3.290 and an ACT score of 17. In its approval of the application, the subcommittee noted the student-athlete's nonrecruited status and her good secondary credentials. The approval was contingent upon her successful completion of the ACT or SAT on a national-testing date under national-testing conditions.

• Approved the application of a nonrecruited student-athlete who presented acceptable secondary credentials from Sweden and no test score. The approval of the student-athlete's application was contingent upon his successful completion of the ACT or SAT on a national-testing date under national-testing conditions.

• Approved the application of a recruited

student-athlete who presented 18.31 core-course credits with a grade-point average of 3.982, an overall grade-point average of 3.932 and an ACT score of 17. She was informed by high-school officials that the required ACT score for athletics collegiate participation was 16, and the institution's former assistant coach was under the impression that the student-athlete achieved a score of 20 on the ACT. She has a learning disability and did not have the opportunity to take the nonstandard ACT or SAT. The approval of the student-athlete's application was contingent upon her successful completion of the ACT or SAT under circumstances to compensate for her learning disability, as well as the fulfillment of her initial academic year in residence.

• Approved the application of a nonrecruited student-athlete who presented acceptable secondary credentials from Austria and an SAT score of 690. The approval of the student-athlete's application was contingent upon his successful completion of the ACT or SAT on a national-testing date under national-testing conditions.

• Approved the application of a recruited student-athlete who presented acceptable secondary credentials from Mexico and no test score. She was not informed of the test-score requirement until after the last testing date in Mexico. The approval of the student-athlete's application was contingent upon her successful completion of the ACT or SAT on a national-testing date under national-testing conditions and the fulfillment of her initial academic year in residence.

• Approved the application of a recruited student-athlete who presented 11 core-course credits with a grade-point average of 3.090, an overall grade-point average of 3.270 and an ACT score of 23 (residual, administered by the institution). The subcommittee approved the appeal with the provision that the student-athlete must successfully complete the ACT or SAT on a national-testing date under national-testing conditions at a national-testing site other than the member institution prior to becoming eligible for practice and competition. In its approval of the application, the subcommittee noted the limited extent to which the student-athlete had been recruited.

• Denied the application of a nonrecruited student-athlete who presented 11 core-course credits with a grade-point average of 3.500, and SAT scores of 680 and 600. In its denial of the application, the subcommittee noted the student-athlete's repeated failure to complete the SAT successfully.

• Denied the application of a recruited student-athlete who presented 11 core-course credits with a grade-point average of 2.636, an overall grade-point average of 2.583, and ACT scores of 15, 16, 14, 16 and 16, with a composite score of 17.25. In its denial of the

application, the subcommittee noted the student-athlete's repeated failure to complete the ACT successfully. It also noted that during its October meeting, the Council thoroughly discussed issues related to the effective date of the ACT test-score adjustment from 18 to 17 and determined that the adjustment will be effective only for those student-athletes whose initial, full-time collegiate enrollment occurs on or after August 1, 1992. Accordingly, the subcommittee concluded that it would be inappropriate to contradict the Council's decision not to make the test-score adjustment retroactive.

• Denied the application of a nonrecruited student-athlete who presented acceptable secondary credentials from Norway and an SAT score of 530. In its denial of the application, the subcommittee noted the deadline for the application had expired. The subcommittee further noted that the student-athlete had an opportunity to complete the SAT in a timely manner and that it would not be fair to afford her an opportunity to retake the ACT or SAT after three years of collegiate enrollment in the United States.

• Denied the application of a recruited student-athlete who presented 11.5 core-course credits with a grade-point average of 3.087, an overall grade-point average of 3.426 and an ACT score of 17. In its denial of the application, the subcommittee noted the student-athlete's recruited status and her failure to complete the ACT successfully.

• Denied the application of a recruited student-athlete who presented 11 core-course credits with a grade-point average of 2.875, an overall grade-point average of 2.545, and SAT scores of 690, 570, 840 (May 1991) and 650. SAT officials canceled the student-athletes May 1991 mathematics subscore of 500. In its denial of the application, the subcommittee noted that a standardized test score canceled by testing-service officials cannot be accepted for purposes of establishing a student-athlete's initial eligibility. The subcommittee further noted the student-athlete's recruited status and his repeated failure to complete the SAT successfully.

• Approved the application of a recruited student-athlete who presented strong secondary credentials from England and no test score. He fulfilled his initial academic year in residence during the 1990-91 academic year and was eligible immediately upon transfer pursuant to one of the exceptions to the Association's transfer residence requirement. He was unaware of the test-score requirement until after his initial collegiate enrollment. In its approval of the application, the subcommittee noted that the student-athlete must successfully complete the ACT or SAT on a national-testing date under national-testing conditions prior to recapturing a fourth season of competition at an NCAA Division I member institution.

## NYSP Committee seeking applications for programs

The National Youth Sports Program Committee is accepting applications for two grants to be awarded to colleges or universities to sponsor NYSP this summer.

NYSP provides sports and enrichment programming to low-income youth ages 10-16. Grant funds are used to cover direct costs, including staff salaries and wages,

staff benefits, medical services, insurance, operating costs and transportation.

Applications, available from the NCAA national office, must be submitted by February 20, 1992. More information can be obtained from Edward A. Thiebe, NCAA director of youth programs, at 913/339-1906.

## Home state to honor Sweet for contributions to women

NCAA President Judith M. Sweet will be honored at a banquet February 8 by the Women's Sports Advocates of Wisconsin, Inc., for her "major contributions to women's sports over the past several years."

Sweet, who is a native Milwaukeean and a graduate of Milwaukee's Marshall High School, will receive the group's Outstanding Achievement Award. Along with

Sweet, Wisconsin's top high-school female athletes will be honored.

"This awards banquet honors our state's finest female athletes at the same time our nation celebrates National Girls and Women in Sports Day in February," said WSAW President Wendy Young.

Information on the event is available by calling WSAW at 414/744-8345.

## School targets recruiting

The University of South Alabama hosted an NCAA recruiting workshop that its organizers believe could be a model for other institutions.

The program, believed to be one of few of its kind in the country, targeted Mobile-area high-school coaches, counselors and principals. "South Alabama has always been

a leader in providing and working with high schools as they counsel prospective athletes," said J. David Stearns, dean of enrollment services at South Alabama.

Those interested in the program can contact Stearns at 205/460-6494.

"I cannot see someone not being bettered upon reading this book."

-Lou Carnesecca, Head Basketball Coach, St. John's University

"... an excellent concept. ... This is a needed and valuable contribution to our sports literature."

-Rick McGuire, Ph.D., Head Track and Field Coach, University of Missouri-Columbia

"A totally comprehensive view on the development of the young athlete, and an enlightening approach for those who believe in the blue collar work ethic."

-Fran Clemente, Head Women's Basketball Coach, Iona College

"... I really enjoyed his convictions, his passion, and, of course, the fact that he is 100% correct."

-Craig R. Cirbus, Assistant to the Head Football Coach, Penn State University

To Order: Send \$12.75 (S&H included, NY residents please add sales tax or tax exempt number) to: FROM THE HEART PRESS, P.O. Box 256, WYKAGYL STATION, NEW ROCHELLE NY 10804. Allow 3 weeks for delivery. Satisfaction guaranteed.

"Let's touch bases before meeting."

"There are a lot of hurdles on your career path. I'm one of them."

"Give them the one-two punch: gross revenues then earnings."

"How many at-bats do we get on the new business pitch?"

"Your promotion was a slam dunk."

"I need a quarterback for this project."

COLLEGE

# NCAA Record

## CHIEF EXECUTIVE OFFICERS

**James N. Loughran** named acting president at Brooklyn. He was president from 1984 to 1991 at Loyola Marymount, where he also was a professor of philosophy. He is currently vice-president of the Association of Jesuit Colleges and Universities. **Carl Carpenter**, professor of education at South Carolina State, appointed interim president at the school, taking over for **Albert E. Smith**, who resigned.

## FACULTY ATHLETICS REPRESENTATIVE

**Joe Geraud**, professor of law, retired at Wyoming after 36 years at the institution and 23 as faculty representative. He has been replaced by **Robert Cochran**, a professor of statistics and head of the department.

## DIRECTORS OF ATHLETICS

**Leon Lunder** appointed at Carleton, effective mid-1992. Lunder was also named chair of the physical education, athletics and recreation department. He has been the school's athletics coordinator since 1990. Lunder joined Carleton in 1982 as an instructor and assistant football and track and field coach. From 1984 to 1989, he served as head wrestling coach. **Gale Daugherty** named at Ohio Northern, effective March 9. He will relinquish his head men's basketball and men's cross country coaching duties.

## ASSOCIATE DIRECTOR OF ATHLETICS

**Jamie McCloskey** appointed associate AD for compliance at Florida after serving since 1986 as associate commissioner of the Mid-American Athletic Conference. McCloskey also was an NCAA legislative assistant from 1982 to 1986.

## ASSISTANT DIRECTOR OF ATHLETICS

**Michael Storey** appointed at Bridgewater State (Massachusetts), where he has been acting assistant AD for the past year. He came to the school in 1982 as sports information director and retains those duties.

## COACHES

**Men's basketball** **Gale Daugherty** will step down at Ohio Northern to become athletics director at the school, effective March 9. Replacing him as head coach is **Joe Campoli**, who currently is associate men's coach. Campoli also coaches women's soccer at Ohio Northern. In his 20th year as basketball coach at the school, Daugherty had compiled a 304-214 record through January 27.

**Women's basketball** **Kim Chandler** named at Cal State Northridge, where she has been interim head coach since December. Chandler was a graduate assistant coach at Bowling Green and spent two years as an assistant at Florida Southern prior to joining the Cal State Northridge staff last year. She was a four-year letterwinner as a player at Ohio Northern.

**Men's and women's cross country**—**Larry Cole** will take over the men's program at Ohio Northern, replacing **Gale Daugherty**, who will become athletics director, effective March 9. Cole, who also coaches track and field at the school, is in his second year at Ohio Northern after spending eight years handling the track program at Muskingum. **Marquette** men's cross country and track coach **Dave Uhrich** has been given additional responsibility for the school's women's teams in those sports, effective at the end of the school year. He will replace women's coach **Bill Wegehaupt**, who is leaving Marquette to devote more time to his family and to a teaching position in the Milwaukee public schools.

**Field hockey** **Anne Fowler** named at Brockport State. As a student-athlete there, she helped lead Brockport State to a top-four position at the AIAW national championships in 1981. Fowler was an assistant at the school the past two seasons. **Julie Dayton** named at Virginia, replacing **Jane Miller**. Dayton will continue as assistant women's lacrosse coach under Miller, who takes on the new title of director of field hockey and lacrosse programs.

**Football** **Sylvester Collins** named at Bethune-Cookman after serving last year as coordinator of the passing game at Jackson State. Prior to that, Collins was an assistant at Tennessee State for eight years. From 1972 to 1980, he was at Jackson State as quarterbacks and wide receivers coach. **Howard Stearns** named at Eastern New Mexico, replacing **Don Carthel**, who resigned January 21. Stearns has been the defensive line coach at the school since 1986 and also has been assist-

**Gale Daugherty**  
appointed AD at  
Ohio Northern

**Welles Lobb**  
named track coach  
at Muhlenberg

ant head coach since last year. He played offensive tackle at Eastern New Mexico from 1973 to 1976, earning honorable-mention all-America honors in 1975.

**Football assistants** **Chris Roulhac** and **Tom Gilmore** named at Dartmouth. Roulhac was running backs coach at Colgate for three seasons and also has coached at West Chester. He will hold similar duties at Dartmouth. Gilmore, who coached the offensive line at Pennsylvania the past two seasons, will coach that position at Dartmouth. **Palmer Hossler**, **Mike Hand**, **Ricky Herzog** and **Jeff Richards** retained on the staff at Arkansas State. Three other assistants at the school have accepted positions elsewhere: **Phil Davis** was named quarterbacks coach at Montana, **Roger Carr** was selected as receivers coach for the Miami franchise of the Professional Spring Football League and **Keith Daniels** was named offensive coordinator at Mississippi.

**Kent Baer** named defensive coordinator and inside linebackers coach at Arizona. **Pat Watson** and **Gary Darnell** selected at Texas. **Russ Jacques** resigned as offensive coordinator at Wisconsin. **Chris Thurmond**, **Lovie Smith**, **Todd Berry**, **Doug Martin** and **Chuck Pagano** named at East Carolina. Thurmond was most recently on the staff at Tulsa and will coach defensive backs. Smith, who will handle outside linebackers, previously was at Arizona State; Berry, formerly at Southeast Missouri State, will direct running backs; Martin, who spent four seasons at East Tennessee

UC Santa Cruz. **Rob Nelson** named at UC Irvine, replacing **Steve Clark**, who was appointed at Texas Tech.

**Women's tennis** **Darryl Cummings** named at Old Dominion, where he was a standout tennis player. He helped capture a No. 3 doubles title in the Sun Belt Conference for Old Dominion.

**Men's and women's track and field** **Marquette** men's cross country and track coach **Dave Uhrich** given additional responsibility for the school's women's teams in those sports, effective at the end of the school year. He will replace women's coach **Bill Wegehaupt**, who is leaving Marquette to devote more time to his family and to a teaching position in the Milwaukee public schools. **Welles Lobb** named men's and women's coach at Muhlenberg, replacing **Wade Watkins**, who accepted a position as an assistant football coach at Fairleigh Dickinson-Madison. Lobb had served as an assistant cross country and track coach at Muhlenberg since 1990.

**Men's and women's track and field assistant** **Pat Brogan** named at Muhlenberg, where he continues to serve as assistant men's basketball coach.

**Women's volleyball assistant** **Erin Tomblin** appointed at Cal State Northridge. She has been an assistant at San Diego the last two seasons. While a player at San Diego, Tomblin was named the team's most valuable player in 1989 as team captain.

**STAFF**  
**Athletics coordinator** Carleton's

**Texas-Pan American**  
named **Mary Jane**  
**Hetrick** women's SID

**Catherine Neyland**  
joined training  
staff at RIT

State, will coach tight ends, and Pagano, who was at East Carolina in 1989, returns to coach the defensive line after two seasons at Nevada-Las Vegas. Three coaches—**Jeff Jagodzinski**, **Bob Slowik** and **Dale Steele**—were retained from last year's staff.

Former San Francisco 49ers players **Keena Turner**, **Mike Wilson** and **Tom Holmoe** joined the staff at Stanford. Turner will coach linebackers; Wilson, receivers and tight ends, and Holmoe, the defensive secondary. **Wade Watkins** appointed at Fairleigh Dickinson-Madison. He previously was head men's and women's track coach at Muhlenberg. **Bob Fraser** appointed defensive line coach at Holy Cross. He comes to the school after three years as defensive ends coach at Allegheny.

**Men's golf** **Harry Sailer** named at Pomona-Pitzer. He is the golf pro at Sierra La Verne and replaces longtime coach **Ed Malan**, who retired last season.

**Women's lacrosse** **Virginia's Jane Miller** given additional duties as director of the field hockey and women's lacrosse programs at the school.

**Men's soccer**—**Amy Machin-Ward** named at Regis (Colorado), replacing **David Dir**, who was named head coach of the Colorado Foxes of the American Professional Soccer League. Machin-Ward was most recently an assistant women's coach at Oregon State.

**Women's soccer**—**Doug Williamson** stepped down at Wellesley after three years to accept additional faculty responsibilities. He had combined his coaching duties with a full-time faculty position at Boston U., but recently accepted additional administrative duties at BU's school of theology.

**Men's tennis**—**John Browning** appointed at Pomona-Pitzer. He is a former standout player and assistant coach at

he is 291-102-30 in 24 years as a collegiate coach. He was selected NCAA Division III National Coach of the Year in 1986, and NCAA Division III Regional Coach of the Year in 1983, 1986 and 1988. Six student-athletes recently were honored with the Woody Hayes National Scholar Athlete Award, which recognizes excellence in academics, athletics, leadership and community service. They are **Steve Boyenger** of Idaho State, **Janet Kruse** of Nebraska, **Ann Hancock** of Wingate, **Mike Sheppard** of UC Davis, **Denise Fogle** of Millikin and **Mark Murdoch** of Cedarville College. Kruse is an NCAA Today's Top VI honoree. The National Soccer Coaches Association of America Metropolitan Life coaches of the year are **Mitch Murray** of Santa Clara in men's Division I, **Rich Stottler** of Florida Tech in men's Division II, **Jay Martin** of Ohio Wesleyan in men's Division III, **Greg Ryan** of Wisconsin in women's Division I, **Mike Covone** of Barry in women's Division II and **Alicann Wilbur** of William Smith in women's Division III.

## DEATHS

**Jason Crawford**, a football tight end at Purdue, died February 1 following a fight outside a tavern near the West Lafayette, Indiana, campus, police said. A Lafayette, Indiana, man was arrested and preliminarily charged with involuntary manslaughter in connection with the death, police said. Crawford, 21, died from a brain hemorrhage, an autopsy revealed. He was a senior at Purdue. NFL Hall of Fame center **Mel Hein**, an eight-time All-Pro selection for the New York Giants, who also was an all-American at Washington State, died January 31 in San Clemente, California. He was 82. After retiring from the Giants, Hein coached four years at Union (New York), and later spent 15 years as a coach at Southern California.

**Alexander "Alex" Joseph Yunevich**, former head football coach at Alfred, died January 28 in Venice, Florida, following a lengthy illness. He was 82. Yunevich served as coach from 1937 to 1941 and again from 1946 until his retirement following the 1976 season. During those 36 years, he compiled a record of 177-85-12, posting six undefeated seasons. In addition, he coached golf and wrestling at the school. **Wilbur Hess**, former Rice tennis standout, died January 27 at age 79. He was the 1935 Southwest Athletic Conference and NCAA singles champion while a senior at what was then Rice Institute.

**Silverio Araujo**, former soccer player at Bryant, died January 11 in Portugal. He was 24. Araujo, a two-time NCAA Division II all-American, was Northeast-10 Conference player of the year as a senior in 1988. An autopsy did not reveal the cause of death, according to officials. **Freddy A. Godart**, commissioner of officials for the Virginia chapter of the National Intercollegiate Soccer Officials Association, died of cancer October 18. Godart, who also was a clinician and rules interpreter for the Virginia High School League, recently was inducted into the NISOA hall of fame.

## CORRECTION

A story in the December 18 issue of The NCAA News incorrectly reported the number of Olympic gold medals won by Mildred "Babe" Didrikson Zaharias. Zaharias won two gold medals.

## POLLS

### Division III Men's Basketball

The top 20 NCAA Division III men's basketball teams through January 27, with records in parentheses and points:

1. Washburn (15-1)	160
2. Calif. (Pa.) (17-1)	152
3. Jacksonville St. (17-1)	144
4. Virginia Union (13-2)	127
5. Phila. Textile (13-2)	126
6. South Dak. St. (15-2)	120
7. New Hamp. Col. (13-3)	119
8. UC Riverside (16-2)	102
9. North Dak. (14-3)	96
10. North Ala. (17-3)	85
11. Ky. Wesleyan (12-4)	80
12. Alas. Anchorage (18-4)	74
13. Pittsburg St. (15-2)	66
14. Bridgeport (13-4)	48
15. IU/PU-Ft. Wayne (12-3)	43
16. Mo. Western St. (13-3)	40
17. Johnson Smith (12-4)	28
18. Cal St. Bakersfield (16-3)	21
19. Rollins (16-3)	20
20. East Stroudsburg (13-4)	10

### Division II Women's Basketball

The top 20 NCAA Division II women's basketball teams through January 27, with records in parentheses and points:

1. North Dak. St. (15-2)	157
2. Bentley (13-0)	155
3. Delta St. (13-2)	142
4. Portland St. (17-2)	138

5. West Tex. St. (15-3)	126
6. St. Joseph's (Ind.) (16-0)	121
7. Clarion (14-0)	112
8. North Dak. (14-3)	105

### Men's Gymnastics

The top 20 NCAA men's gymnastics teams, ranked by top scores this season through January 27, as listed by the National Association of Collegiate Gymnastics Coaches (Men):

1. Nebraska	284.00
2. Ohio St.	282.60
3. Oklahoma	279.80
4. Brigham Young	279.30
5. Minnesota	279.20
6. New Mexico	278.45
7. Iowa	276.80
8. Temple	275.80
9. Penn St.	275.75
10. Syracuse	275.45
11. Arizona St.	274.70
12. Illinois	272.40
13. Michigan St.	271.95
14. UI-Chicago	271.75
15. Ill.-Chicago	268.45
16. Massachusetts	266.65
17. Iowa St.	265.55
18. Air Force	263.45
19. Kent	263.15
20. Michigan	261.65

### Women's Gymnastics

The top 20 NCAA women's gymnastics teams as listed by the National Association of Collegiate Gymnastics Coaches (Women), based on the teams' high scores through January 28:

1. Utah	195.05
2. Georgia	194.00
3. Alabama	193.30
4. Oregon St.	192.55
5. UCLA	191.95
6. Florida	191.65
7. Auburn	191.60
8. Penn St.	191.05
9. Towson St.	189.35
10. Arizona	189.30
11. Utah St.	189.30
12. Missouri	188.80
13. Arizona St.	188.30
14. California	188.25
15. New Hampshire	187.90

# Faculty representatives

*Continued from page 1*

travel like that is necessary for a faculty rep. People who jump on that as an ethical problem are assuming that faculty can be bought. I don't know of cases where faculty are bought. At all.

"I don't know of infractions cases where faculty reps have not attended to (their responsibilities) because they've been treated so well by the athletics department. Until we have evidence like that, I think that's too easy a connection, a leap, to make in somebody's mind because a faculty rep goes to a ballgame or goes to an away game."

Kingston, a professor of economics, said faculty reps are unjustly put on the defensive when criticized for accepting tickets and the like because those perks represent most, if not all, of the benefits they get for devoting many hours as faculty rep.

"There's a perception problem," Kingston said. "They've been asked to carry a major responsibility with no support.... Most faculty reps will have no release from their other duties."

Dunn said much of the criticism of faculty representatives has no basis in fact.

"I believe it was the retired presidents group, I'm not sure, which first stated this view of the faculty rep as pawn," Dunn said. "This first happened five or six years ago, and I think the Knight Commission picked up on that initially as a concern. It was distinctively a minority view from the first."

Some of the negative perceptions were born out of the fact that on many campuses, individuals held the position for many years. Now, there is a movement to limit the terms of faculty reps at institutions.

"That was probably one of the sources of suspicion about the position on some campuses where people did seem to hold them forever," Dunn said. "(With) the long-term faculty reps, 20 years or more, the question of a term is a big item."

Bennett added: "It's useful to make sure that there is new blood running into the athletics community."

## A clearer picture

Bennett, a history professor, said a common problem is a lack of understanding of the faculty representative's function, even among some faculty reps themselves. That was one of the driving forces behind the paper he helped produce, and he hopes it serves as a guide to help faculty reps develop as much continuity as possible.

"One of the problems is they come to their jobs with a difficult understanding in what they should be doing," Bennett said. "They have been only dimly understood by faculty members. I think there is widespread ignorance of what's going on with faculty representatives. There's little understanding and consequently, little support. We had common problems, common values and common objectives, but there was not a sense of common enterprise among the members of the Faculty Athletics Representatives Association."

Faculty reps now point to chief executive officers to take a major step in helping to clear the webs surrounding the position. If faculty reps are to be fully understood and therefore supported, they say, CEOs must assume responsibility for helping to define the role.

"I think it's going to depend an awful lot on the support of the presidents," Dunn said. "(They) need to realize that faculty are their best allies in institutional control. I think

## The role of the faculty athletics representative

**Editor's note:** The following paper recently was reviewed and adopted by the Faculty Athletics Representatives Association's executive committee.

The role of the faculty athletics representative is both important and multifaceted at each university or college. While the chief executive officer must be the central figure in ensuring institutional control of the intercollegiate athletics program, the faculty athletics representative and the faculty members on the appropriate committees with which he/she is involved are essential partners of the CEO in protecting the centrality of the academic enterprise at the institution.

In addition to this critical work, the faculty athletics representative and the faculty members on the committees are concerned with important issues involving the student-athlete experience, compliance with NCAA rules and regulations, as well as a wide variety of communication/administration leadership roles.

### Academic integrity

- The faculty athletics representative, working with other faculty members in the appropriate committee at each college or university, should periodically review the records of student-athletes. The examination of these transcripts would include courses selected; progress toward fulfilling university, college and major requirements; summer-school course choice and other matters. Members of the academic communities can be assured that student-athletes are truly student-athletes if faculty members engage in this oversight role.

- The faculty athletics representative and the appropriate faculty committee should provide oversight for the academic athletics counselors, particularly in those institutions in which the counseling program reports to the athletics director.

- The faculty athletics representative should play a role in assuring that student-athletes participate in advising and orientation and other mainstream academic experiences expected of all undergraduates at the institution.

- The faculty athletics representative should play a role in evaluating records and making admissions decisions for those student-athletes whose academic credentials place them outside the institution's regular admissions profile.

### Student-athlete experience

- The faculty athletics representative (or the appropriate faculty committee) should play a role in ensuring that student-athletes are afforded the opportunities to successfully complete their degree programs. This could involve approval of travel and competition schedules to reduce missed class time and/or reviews of scholarship cancellations or reductions which might inappropriately limit opportunities for student-athletes to complete their degrees.

- The faculty athletics representative (and other faculty members) should play a role in the exit interviews of student-athletes now mandated by the NCAA.

The faculty athletics representative and his or her faculty colleagues on the appropriate committees concerning intercollegiate athletics should make sure that student-athletes are members of such committees or have access to them.

Some faculty athletics representatives might want to address student-athletes at the beginning of the year, describing once again the academic climate and mission of the institution and reminding student-athletes of the role of the faculty in the oversight of the intercollegiate program.

- The faculty athletics representative should ensure that instances of student-athlete misconduct are handled in a manner consistent with institutional standards.

### Compliance

- The faculty athletics representative (and an appropriate institutional committee involving other faculty members) should play a role in overseeing NCAA and conference-compliance efforts, including rules education at each college or university. The faculty athletics representative and the committee should meet with the compliance coordinator (if one has been designated) and randomly sample and evaluate the data accumulated as part of the institution's compliance efforts. (The NCAA Compliance Assistant software program might facilitate such efforts.)

- The faculty athletics representative (and the appropriate faculty committee) should play a central role in overseeing any major institutional inquiry into alleged or suspected NCAA rules violations.

- The faculty athletics representative (or the appropriate faculty committee) should play a role in conducting or reviewing the results

of any periodic audits of the department of athletics conducted at the institution.

- The faculty athletics representative (along with the appropriate faculty committee) should play a role in any institutional involvement in the proposed new NCAA certification program.

### Communication/administration

- The faculty athletics representative should play a central role in discussing matters involving intercollegiate athletics at the faculty or institutional senate in each university or college. The faculty athletics representative should provide periodic reports to these faculty or institutional bodies, including information concerning the academic performance of student-athletes. Faculty members and others in the academic community should have an opportunity to learn about the work of the faculty athletics representative and to raise relevant questions with the faculty athletics representative.

- The faculty athletics representative should serve as the chair or as a member—even in an ex officio capacity—of the faculty (or institutional) committees concerned with the intercollegiate athletics program at the college or university. While some institutions have regulations or traditions which preclude the faculty athletics representative from serving as chair of such committees, it is important for the faculty athletics representative at least to be in a position to inform these important groups of his or her activities and to respond to concerns and questions emerging from such committees.

- The faculty athletics representative should play an important role in the shaping of institutional voting decisions at the NCAA Convention.

- The faculty athletics representative, as an appointee of the CEO, must have access to the CEO of the college or university and must be seen as a key adviser by the CEO in matters involving intercollegiate athletics.

Of course, the faculty athletics representative also must have access to the athletics director at his or her institution. A congenial and open relationship between the faculty athletics representative and the athletics director is an essential element in the success of the intercollegiate enterprise at any institution.

Finally, at those institutions in which another major figure in the central administration (provost, vice-president or vice-chancellor for administrative operations or for business and finance, et al) serves as the administrator to whom the athletics director formally reports, the faculty athletics representative should have access to this important figure in the athletics enterprise. In some cases, this individual is the chief budgetary officer overseeing athletics.

- The faculty athletics representative (and the appropriate faculty committees for the hiring of athletics directors, other senior athletics administrators and for the head coaches in the major revenue-producing sports.

- The faculty athletics representative should serve on the search committees for the hiring of athletics directors, other senior athletics administrators and for the head coaches in the major revenue-producing sports.

- Those institutional perquisites (team travel, et al) that are received by the faculty athletics representative (and by faculty members serving on appropriate committees or councils involving intercollegiate athletics) should be dispensed by the CEO or his or her office, not by the athletics director. A statement by the CEO concerning what is being done, why it is done and what is involved in this decision will serve to check the unwarranted and destructive speculation that faculty athletics representatives (and other faculty members) could become "wholly owned subsidiaries of the athletics department."

The CEO at each institution must see to it that the faculty athletics representative and the faculty members on the appropriate committees have the time and the resources to discharge the responsibilities of their positions. If the faculty athletics representative and his or her faculty colleagues are to meet the demands of the important roles that they have agreed to play in the intercollegiate athletics enterprise, they must have the support of the CEO at their university or college.

Faculty athletics representatives should note that the support of the CEO, while necessary, is not sufficient. Deans, department chairs and colleagues must also acknowledge that the multifaceted role of faculty athletics representatives (described above) requires a significant commitment of time and energy. No faculty member will agree to assume the position of faculty athletics representative if it is going to damage his or her academic career.

it will also depend a lot on what kind of role the faculty rep will have in the certification program. Those things are going to affect the image. I think the presence of faculty reps in committees (and) on the NCAA Council also affects that image."

### Faculty recommendations

Some institutions have adopted a policy in which a faculty board recommends a faculty member for the president to appoint to the position. This way, some contend, faculty members will feel more represented than if the president or CEO made the appointment without consulting with faculty.

"I think there are some changes like that occurring on some campuses," said Dunn, who is in the third year of his second five-year term at Washington. "On my campus, the faculty senate makes a recommendation to the president for the appointment of the person. That will happen with my successor."

While some faculty reps endorse that manner, others maintain that CEOs should continue to appoint persons to represent the faculty, as traditionally has been the case.

"My own judgment," Bennett said, "is the faculty reps (being) appointed to that position by the

CEO makes some sense because the CEO and the faculty rep should have a good working relationship."

### The future

Ultimately, faculty reps seem to be encouraged about their positions on college campuses and what their roles may be with the certification program now getting underway. They say faculty reps are more involved on key committees and some believe they again will be counted on heavily by CEOs to assure that student-athletes fulfill their academic responsibilities.

"I think we already have been playing a fairly significant role in

the sense that in the last round of legislation, for example, faculty reps were called upon by the collegiate commissioners group to participate in the discussions that led up to the academic-reform legislation," Dunn said. "We were brought forth to meet with the Presidents Commission. We were represented there, as were a number of groups, in the early spring. These are the kinds of things that didn't used to happen."

Kingston added: "I'm basically an optimist. I believe the framework within which this will be done will be institutional control of athletics."

## Spotlight focuses

Continued from page 1

in a setting outside of the competitive arena.

Following is biographical information about this year's Spotlight participants:

### Stephen F. Austin

The Ladyjacks, ranked No. 6 in the country, are enjoying their highest ranking ever. Gary Blair is in his seventh year as a head coach, all at Stephen F. Austin. Blair has led his teams to four straight Southland Conference championships and four trips to the NCAA tournament. He has been named conference coach of the year three of the last four seasons and the Texas Association of Basketball Coaches Coach of the Year the last two. This season, his team has wins over No. 4 Western Kentucky University, No. 11 University of Arkansas, Fayetteville, and No. 11 University of Houston.

Stacy Brown-Hairgrove, a 5-6 senior point guard from Corpus Christi, Texas, directs the Ladyjack offense. "Stacy is the best point guard in the conference, if not one of the best to ever wear the Ladyjack uniform. She is the key for us playing at that national level," Blair says.

Brown-Hairgrove ranks fourth nationally in career assists. She is majoring in math with a minor in business and would like to coach high-school basketball after graduation.

### George Washington

The Colonials were ranked 25th

in The Associated Press preseason poll and were ranked as high as No. 6 for three weeks in January before losing to St. Joseph's University (Pennsylvania). Third-year coach Joe McKeown, who ranks 23rd on the NCAA's list of winningest active coaches by percentage, was the 1991 Atlantic 10 Conference Coach of the Year. He led the Colonials to their first NCAA post-season appearance. Before taking the helm at George Washington, McKeown accumulated a 68-20 record and two NCAA appearances at New Mexico State University. A 1979 graduate of Kent State University, McKeown was a standout guard for the Golden Flashes and holds the school record for assists in a game (15 vs. Bowling Green State University).

Junior Jennifer Shasky, a 5-10 guard from Birmingham, Michigan, scored her 1,000th career point January 16 against St. Bonaventure University when she scored a career-high 29 points. She leads George Washington in scoring and leads the conference in three-point field-goal percentage. The preseason all-American candidate has a perfect grade-point average.

### Miami (Florida)

Since assuming the helm at Miami (Florida) three years ago, Ferne Labati has had three consecutive 20-win seasons. The Hurricanes return all five starters from last year's 20-10 team and are in their first year of competition in the Big East Conference. Miami (Florida) has the

longest current winning streak in the nation at 17 games. The Hurricanes' last defeat was a 71-69 overtime loss at Florida State University in the season opener. Of all the teams in the top 25 poll, Miami has made the biggest jump this year unranked at the start of the season and currently No. 12. Before coaching at Miami (Florida), Labati was the head coach at Fairleigh Dickinson University, Teaneck, (1984-88) and Trenton State College (1979-84).

### Washington

In her seventh season at Washington, Chris Gobrecht has produced 23 or more wins and NCAA postseason appearances in each of her previous seasons with the Huskies. Her teams have won three conference championships. Under her leadership, Washington has become one of the most popular teams in Seattle; the 1991 team moved from fourth to third in the nation in average attendance. The Huskies hold the Hec Edmundson Pavilion attendance record of 8,170, set in 1990 against DePaul University during NCAA championship action, and have attracted more than 5,000 fans on nine occasions since 1988. Washington will play host to the 1992 NCAA Division I Women's Basketball Championship West Regional March 26 and 28.

### Southwest Missouri State

The Lady Bears are enjoying their highest national ranking ever at

Stacy Brown-Hairgrove

Jennifer Shasky

18th in The Associated Press poll and have been ranked in the top 25 since December 23. Cheryl Burnett is in her fifth season at Southwest Missouri State. She was the 1991 Gateway Conference Coach of the Year and led the Lady Bears to their first NCAA championship appearance. Southwest Missouri State advanced to the second round before losing to the University of Tennessee, Knoxville, the eventual NCAA champion, 55-47. The Lady Bears are averaging 4,326 fans per game. Already this year, Southwest Missouri State drew 9,108 fans against Southern Illinois University and 9,043 against Wichita State University.

sity.  
**Maryland**

Chris Weller will participate in the telephonic press conference from Maryland's Cole Field House, where the Terrapins will play second-ranked University of Virginia February 11. Maryland earned its first No. 1 ranking when it defeated Virginia January 15, 67-65. The Terrapins began the season ranked 15th. Weller is in her 17th season at Maryland and has led the Terrapins to eight NCAA postseason appearances and the Women's Final Four in 1982 and 1989. She has produced five Olympians and three all-Americans.

## Association leader

Continued from page 1

### Men's Basketball.

He was elected to a term on the NCAA Council in 1983.

Frericks also served as chair of the Association's Voting Committee, Staff Evaluation Subcommittee, Marketing Subcommittee, Special Committee to Review Future Office Requirements, Council Subcommittee on Division I-AAA Football Classification, Budget Subcommittee and Subcommittee on Allocation of Financial Resources.

In addition, he served terms as a member of the National Youth Sports Program Committee, Nominating Committee, Special Committee on Division I Criteria, Special Self-Study Advisory Committee, Long-Range Planning Committee, Council Subcommittee to Review Minority Opportunities in Intercollegiate Athletics and Special Basketball Television Negotiating Committee.

The Minster, Ohio, native played basketball and baseball as a student at Dayton, where he was an education major and earned minors in history, English and science. He graduated in 1953.

After returning to the school as athletics director, he oversaw the construction of the university's \$4.5 million arena, which has been the site of 43 Division I Men's Basketball Championship games; the move of Dayton's football program from Division I to Division III in 1977, and the university's entrance into the Midwestern Collegiate Conference in 1987.

Dayton recently renovated its 40-year-old field house and named it the Thomas J. Frericks Athletic and Convocation Center. Dedication ceremonies honoring Frericks were held January 16.

Frericks is survived by his wife, Rosie, and eight children.

## Report on

Continued from page 5

• Institutions may need to strengthen their efforts to encourage all student-athletes, particularly those with unmet financial need, to apply for traditional forms of available financial aid, including Pell Grants and loans.

## Orientation

NCAA President Judith M. Sweet and Executive Director Richard D. Schultz (at head table) welcomed new members of the Council, Presidents Commission and Executive Committee to an orientation meeting January 28-29 at the national office. Among those attending portions of the meeting were Gregory M. O'Brien, chancellor of the University of New Orleans and Presidents Commission chair; R. Elaine Dreidame, senior associate director of athletics at the University of Dayton and new Division I vice-president, and John H. Harvey, Carnegie Mellon University athletics director and new Division III vice-president.

Sweilham & Associates photo

## Questions/Answers

Readers are invited to submit questions to this column. Please direct any inquiries to *The NCAA News* at the NCAA national office.

**Q** Can a member appeal the finding of a major violation by the Committee on Infractions?

**A** Yes. A member has the right to give written notice of appeal of the committee's findings of major violations (subject to the provisions of Bylaw 32.8.2), the penalty, or both to the division steering committee of the NCAA Council representing the same division as the institution making the appeal.

## All-Americans listed in I cross country

Last season's individual champion and two student-athletes with perfect grade-point averages head the 22-man all-academic cross country team selected recently by the NCAA Division I Men's Cross Country Coaches Association.

NCAA titlist Sean Dollman of Western Kentucky, who carries a 3.360 grade-point average (4.000 scale) as a junior majoring in history and government, was named to the squad for the second straight year. In winning the Division I title last November, the Johannesburg, South Africa, native earned all-America honors for the second consecutive season.

David Honea of North Carolina State and Kevin Irwin of Rice, each with a 4.000 GPA, also were named to the squad. Honea placed 22nd in the Division I meet and Irwin placed 100th.

The all-academic team was selected by a vote of the coaches association's executive committee after receiving nominations from coaches in each of the eight NCAA Division I districts. Nominees had at least a 3.250 GPA and placed among the top 15 finishers at their respective NCAA district cross country meets.

The complete team, listed with schools, GPAs and academic major, follows:

Donnie Anderson, Kansas, 3.640 in languages; Jamie Barnes, Tennessee, 3.900 in industrial engineering; Donovan Bergstrom, Wisconsin, 3.500 in psychology; Stuart Burnham, Wake Forest, 3.510 in English; Matt Deardorff, Bucknell, 3.950 in biology; Sean Dollman, Western Kentucky, 3.360 in history and government; Cormac Finnerty, Clemson, 3.370 in graphics; Doug Hobbs, Brigham Young, 3.460 in zoology; Kyle Hobbs, Indiana State, 3.270 in physical education; Steve Holman, Georgetown, 3.270 in English; David Honea, North Carolina State, 4.000 in electrical engineering; Kevin Irwin, Rice, 4.000 in computer science; Glen LeGros, Texas Christian, 3.520 in marketing; Jim Loveless, Kent, 3.710 in marketing; Terrance Mahon, Villanova, 3.390 in English; Ronald Moore, Penn State, 3.850 in physics and mathematics; Mike Morin, Arkansas, 3.250 (major undeclared); Chris Nelson, Air Force, 3.940 in mathematics; Jason Pyrah, Brigham Young, 3.620 in athletics training; Ian Smith, Michigan State, 3.340 in education; Richard Wemple, Yale, 3.250 in biology; Kim White, Northern Arizona, 3.350 in marketing.

## Minority coaches retain eligibility for expenses as coaching fellows

Coaches participating in the National Football League's Minority Coaches Fellowship Program will be permitted to receive expenses, but no stipends or compensation, for their involvement in that program in 1992.

The NCAA Council, in its January meetings, approved a continuation of that circumstance for this year, as requested by the Minority Opportunities and Interests Committee. The same permission was granted a year ago.

Last year, the committee's recommendations regarding the NFL minority coaches program were received by the NCAA Administrative Committee after the deadline for submitting legislation to be acted upon at the 1992 Convention. Therefore, some action was needed if coaches from member institutions were to be permitted to participate in the program and receive any form of expenses, as they have for a decade.

The Council's action in granting permission for coaches to continue receiving basic expenses to participate in the program is intended to give the Minority Interests and Opportunities Committee time to recommend legislation for the 1993 Convention to let the membership decide if coaches at member institutions should be permitted to continue to participate in that program

**"The bottom line is that we want to see the program be successful."**

Charles Whitcomb

and, if so, what expenses or other compensation they should be permitted to receive.

Charles Whitcomb, chair of the committee and faculty athletics representative at San Jose State University, said the committee is working on such legislation.

Receipt of expenses for participation in the program also has been recommended by the Professional Sports Liaison Committee, chaired by Charles Theokas of Temple University.

The minority-interests committee believes certain conditions should be established to permit receipt of expenses, including an annual application for a waiver of Bylaw 11.3.3.1, a limit of two consecutive years on participation by a given coach and involvement of coaches from all NCAA divisions.

The NFL program, in existence since 1981, is designed to give young minority coaches an opportunity to gain experience working with NFL

clubs during summer training camps. The coaches are given responsibilities normally assigned to full-time assistant coaches over the course of the four-week camp.

Therein lies the problem: NCAA Bylaw 11.3.3.1 does not permit receipt by a college coach of any compensation or gratuities for representing a professional sports team as a coach or a scout.

According to Whitcomb, the minority-interests committee believes the coaches should be allowed to accept compensation because many of them are not on year-round contracts at their institutions.

"Coaches who go to these camps are actively involved in the day-to-day operations and are not there as observers," Whitcomb said. "They're getting the practical side of the experience. They come there and they work. Compensation sets the expectation for coaches' performances."

"The committee's position is to let the NFL continue to operate its program. We would like to have input as far as seeing the program meet its goals - to increase opportunities for minority coaches, in all NCAA divisions. The bottom line is that we want to see the program be successful."

The Council is expected to consider legislation from the committee in its April meeting.

## Revenue-distribution

*Continued from page 1*  
mula be applied to all championships that traditionally had received a distribution of receipts after expenses.

- That the committee's recommendations address the image of the NCAA and intercollegiate athletics in general and that the welfare of individual student-athletes (not solely that of the institution) be considered.

- That the committee be cognizant of the fact that it may not be possible

to develop a distribution plan that would fully satisfy the concerns of all institutions or programs.

It was decided to leave the special advisory committee in place through the 1991-92 academic year to review and evaluate the plan to ensure that the guiding principles continue to be appropriate and to ensure that the plan meets those principles.

Sweet solicited comment from the membership in a December 9, 1991, memorandum to top athletics administrators at member institutions.

A story to the same effect appeared in the December 18 issue of *The NCAA News*.

As of February 4, the committee had received approximately 150 comments from the membership.

### AAU GIRLS BASKETBALL OBSERVATION TOURNAMENT

High school seniors only.  
April 11 & 12, 1992  
in  
Valparaiso, Indiana  
For more information, call Dan Willett at 219/926-1989

# The Market

Readers of The NCAA News are invited to use The Market to locate candidates for positions open at their institutions, to advertise open dates in their playing schedules or for other appropriate purposes.

Rates are \$5 cents per word for general classified advertising (agate type) and \$27 per column inch for display classified advertising. Orders and copy are due by noon five days prior to the date of publication for general classified space and by noon seven days prior to the date of publication for display classified advertising. Orders and copy will be accepted by mail, fax or telephone.

For more information or to place an ad, call Susan Boyts at 913/339-1906 or write NCAA Publishing, 6201 College Boulevard, Overland Park, Kansas 66211-2422, Attention: The Market.

## Positions Available

### Athletics Director

**Athletic Director.** Wilkes University seeks an Athletic Director to assume the position June 1, 1992. The Athletic Director reports to the Vice-President for Academic Affairs and is responsible for the overall management of the intercollegiate athletic program of Wilkes University. Wilkes participates in the Middle Atlantic Conference, a highly competitive Division III conference, and also has a Division I wrestling program. The Director's specific responsibilities include planning program development, budget control, overall scheduling, evaluation and supervision of coaches and athletic support staff; coordinating use of athletic facilities; maintaining compliance with NCAA guidelines; fund raising; and developing and implementing recruitment strategies. Qualifications include: Minimum of B.S./B.A. degree in a related field. Master's preferred. Appreciation of the proper role of a Division III athletic program in the academic life of a university, administrative and coaching experience, and an understanding of how to recruit student athletes according to NCAA rules. Depending on the candidate's credentials, coaching responsibilities may be involved. Review of applications will begin March 1, 1992. Applications and three names of reference (including addresses and telephone numbers) should be sent to: Dr. James P. Roderick, c/o Human Resource Management Office, Wilkes University, Wilkes Barre, PA 18766. FFO/JAA.

### Assistant A.D.

**Assistant Athletic Director for Fund-Raising.** Northwestern State University of Louisiana seeks a highly motivated individual whose primary responsibility will be fund-raising for the school's athletic programs. The position will report to the Director of Athletics and will serve as the Executive Director of the Northwestern Athletic Association. Duties will include coordinating an annual fund drive, special event fund-raising, and planned giving. Other responsibilities will include involvement with marketing and promotions, coaches television shows, and a sports radio network. The individual must have strong written, oral and interpersonal skills and must have knowledge of computers. Requirements for the position include a bachelor's degree (master's degree preferred) and at least three years of experience in college athletics and/or development work. Salary will be commensurate with experience. Submit letter of application, resume and the names of three references to: Mr. Tynes Hildebrand, Athletic Director, Northwestern State University, Athletic Fieldhouse, Natchitoches, LA 71497. Phone: 318/357-5459. Northwestern State University is an Affirmative Action/Equal Opportunity Employer.

### Academic Adviser

**Director of Academic Services for Intercollegiate Athletics.** Qualifications: Advanced degree in guidance/counseling, education or related area. Demonstrated success in administering academic support services at a major university. Genuine concern for an understanding of student-athletes. Responsibilities: Responsible for all aspects of the academic support program for student athletes, including supervising the staff, developing programs; coordinating with other university units; advising and counseling students; maintaining accurate, comprehensive, and current academic records to monitor student progress and comply with University, Pac 10 and NCAA regulations. Salary commensurate with qualifications and experience. Application deadline is April 3, 1992. Send letter of application, resume and three recent letters of recommendation to: Marcia L. Saneholtz, Senior Associate Athletic Director, Bohler 107, Pullman, WA 99164-1610. Washington State University is an Equal Opportunity/Affirmative Action Employer. Protected groups are encouraged to apply.

### Academic Coordinator

**Academic Coordinator.** Coordinator of Athletic Academic Services. The University of Montana. Responsibilities include the development and delivery of a comprehensive program of academic services, academic advising and counseling for student athletes; coordination of NCAA eligibility review and compliance program in association with faculty athletic representatives, the Intercollegiate Athletics Department and related administrative offices. The Coordinator is an admissions information resource to prospective athletes and interprets technical rules, regulations and guidelines and serves as a program liaison between the College of Arts and Sciences and the Intercollegiate Athletics Department. B.A. or B.S. degree is acceptable if combined with experience related to the position, master's degree preferred. Two or more years of successful experience in academic advising, student services, counseling, or student assistance programs is highly desirable. Demonstrated ability to develop and implement computer programs for student tracking and data collection. Effective interpersonal relations and verbal and written communication skills required. Applications: send letter of application, resume and a list of three professional references to: Angela Priest, Human Resource Service, University of Montana, Missoula, MT 59812. Deadline for application: February 21, 1992. Start date by April 1, 1992. The University of Montana is an Equal Opportunity/Affirmative Action Employer.

### Athletics Trainer

**Assistant Athletic Trainer.** Bloomsburg University invites applications for a 12-month tenure-track, non-teaching faculty position/Instructor rank to assist the Head Trainer in all aspects of the training room including evaluation, treatment and rehabilitation of injuries, administrative duties, supervision of student trainers, sports as assigned and coverage of Summer Sports Camps. Qualifications: Master's degree, NATA certification and Pennsylvania Class A license, or equivalent, required. Minimum of two years' experience as a full-time certified trainer. Salary: commensurate with qualifications and experience. Send letter of application, postmarked by March 20, 1992, to: Chairperson, Athletic Trainer Search Committee, Nelson Fieldhouse, Bloomsburg University, Bloomsburg, PA 17815. Bloomsburg University is committed to Affirmative Action/Equal Opportunity Employment. Persons of color, women and all other protected class persons are encouraged to apply.

**Athletic Training Graduate Assistantships:** Illinois State University, a Division I institution, offers two 10-month positions — no teaching. Primary responsibility: One assistantship working with soccer and wrestling, and one with volleyball and gymnastics. Room and board, tuition waiver, fees and book stipend. Deadline: March 30 or until positions are filled. Send letter of application and three letters of recommendation and transcripts to: Kathy Schniedwind, Head Athletic Trainer, Horton Fieldhouse, Illinois State University, Normal, Illinois, 61761. Equal Opportunity/Affirmative Action University.

**Athletic Trainer:** Methodist College is accepting applications for the position of Athletic Trainer at this Division III institution. Bachelor's degree required; master's degree preferred. Must be NATA certified. Responsibilities include assistance with the daily operation of the training room and the coordination and coverage of 17 coed, intercollegiate sports. Also included is the supervision of student trainers. Teaching responsibilities are an option. Send letter of application, resume, names, addresses and telephone numbers of three references to: Rita Wiggs, Director of Athletics, Methodist College, 5400 Ramsey Street, Fayetteville, NC 28311. Application deadline: February 28, 1992. Methodist College is an Equal Opportunity Employer.

**Athletic Trainer/P.E. Faculty.** Judson College, a Christian liberal arts college, is seeking a person to fill the position of athletic trainer and teacher of physical education. Qualified applicants must possess the master's degree or doctorate in physical education or athletic training and have a minimum of two years of high school teaching experience. Applicants must agree to support the college's mission and objectives and campus standards. Responsibilities include athletic training and teaching. For applications, contact Dr. E. Harold Harper, Vice President and Academic Dean, Judson College, 1151 North State Street, Elgin, IL 60123.

**Athletic Trainer.** Physical Therapy Clinic on the Mississippi Gulf Coast is seeking a NATA certified/eligible athletic trainer. The primary responsibility is to coordinate athletic training services for area high schools. The ATC will be involved in continuing education for coaches and athletes, sports specific athletic screenings, and treatment programs. The trainer will also oversee a student athletic trainer program. This is a single ATC position with an opportunity to be independent and creative. We are located 1½ hours from New Orleans and ½ hour from Mobile, AL, and one hour from Pensacola, FL. Cost of living is very low in the area — enjoy outdoor activities all year. Competitive salary and benefits package. Interested persons should send resume to Stickle Memorial Physical Therapy Center, Medical Arts Plaza, Hospital Road, Pascagoula, MS 39567. Please send all inquiries to the attention of David Wilkins, R.P.T., telephone 601/762-2333.

### Compliance

**Compliance Coordinator:** (Search reopened) Old Dominion University is accepting applications for the position of Compliance Coordinator within the Department of Athletics. The Compliance Coordinator will be responsible for ensuring compliance with University, conference and NCAA rules and regulations to include coordinating and overseeing matters concerning eligibility, admissions, registration, financial aid, education, interpretations and monitoring procedures. Qualifications: Master's degree preferred. General knowledge of NCAA rules and regulations. Ability to organize material and information and establish strong working relationships with University offices involving admissions, financial aid, etc. Candidates should possess strong communication skills, both written and oral, and a high level of personal integrity. Basic computer experience extremely helpful. Salary commensurate with experience and qualifications. Application deadline: February 21, 1992. Please send letter of application, resume, college transcripts and three letters of recommendation to: Ms. Mikki Flowers, Associate Athletic Director, Old Dominion University, Athletic Administration Building, Norfolk, VA 23529. Old Dominion University is an Equal Opportunity institution and actively seeks minority candidates.

### Marketing

**Unbeatable Opportunity!** (Health/Fitness/Nutrition) International marketing firm seeks 5 aggressive leaders. Unlimited income potential. Pt/Ft. Winners only. 914/381-3321.

### Public Relations

**Public Relations Director** for sports management firm in Phoenix, Arizona. Experience required. Salary \$35,000 to \$40,000. Send

resume and samples to: Jim Banahan, 5050 North 40th Street, Suite 200, Phoenix, AZ 85018.

### Sports Information

**Sports Information Feature Writer Internship:** Worcester Polytechnic Institute, a Division III engineering university, seeks candidate for nine month, \$10,000 internship beginning in August. Chief responsibility would be to write feature stories about WPI athletes who compete successfully in sports and in the classroom. WPI's program features 10 varsity men's and eight varsity women's teams plus a successful club sports program. Other duties include sports "wrap ups," varsity statistics, preparation of varsity team recruitment brochures, supervision of student assistants and coordination with local and regional media. Ideal opportunity for ambitious and creative person to write personality features. Skill with camera and computer a plus. Send resume, three writing samples and references by March 21 to: Neil Norum, WPI News Service Director, 100 Institute Road, Worcester, MA 01609.

**Sports Information Director:** University of Washington is seeking an individual responsible for the development, planning, supervision and implementation of overall media and public relations. Direct and manage the Division of Sports Information for men's and women's athletics within a department consisting of approximately 1,000 student athletes competing in 21 sports. Supervise the production of all promotional material and public relations activities. Attend all events in football and men's basketball. Supervise pressbox management for all sports. Responsible for other duties as assigned by the Director of Athletics. Baccalaureate degree is minimum requirement with suggested concentration in communication, journalism or public relations. Minimum of at least 10 years' experience in collegiate sports information or related field. Ability and history of communicating effectively in oral and written form. Extensive experience in writing sports material. Proficiency in all areas of computer hardware and software utilization and application within the sports information overall operation. Have a knowledge of and high interest in radio and television as it is involved with major NCAA Division I/A football and men's basketball programs. Submit letter of application, resume and three references to: Mrs. Barbara A. Hedges, Director of Athletics, Graves Building, 620, University of Washington, Seattle, Washington 98195. Application deadline is February 14, 1992, with the starting date on March 1, 1992. The University of Washington is an Equal Opportunity/Affirmative Action Employer.

### Sports Medicine

**Director, Sports Medicine Program, University of North Carolina at Chapel Hill.** UNC-CH is searching for a Director of the Sports Medicine Section of the Student Health Service. Starting date may be as early as July 1, 1992. The Director must be licensed to practice medicine in North Carolina, competent in primary care and have administrative and teaching skills. Special knowledge of the care of young adults, board certification in a relevant specialty, i.e., internal medicine, family practice, or pediatrics, and proven ability to work with college athletes and coaches are highly desirable. Please send a letter of interest and a curriculum vitae by March 15, 1992, to: Judith R. Cowan, M.D., Director, Student Health Service, CB# 7470, UNC-CH, Chapel Hill, NC 27599. The University of North Carolina is an Equal Opportunity/Affirmative Action Employer. Women and minorities are encouraged to voluntarily identify themselves.

**Sports Medicine/Athletic Training Faculty Position.** The Department of Health, Physical Education, Recreation and Dance is seeking applications for a tenure track Assistant Professor in the area of Sports Medicine/Athletic Training. The person selected will direct the graduate curriculum and students in Athletic Training as well as instruct in the undergraduate and graduate programs within the department. The applicant must have a doctorate in sports medicine, sports science, physical education or a related field. Additionally, the applicant must be an experienced NATA certified athletic trainer. The appointment will be effective September 1992 at a salary commensurate with experience and qualifications. Candidates should submit a letter of application, curriculum vitae, graduate transcript, evidence of NATA certification, and three letters of reference from individuals within their field to: Dr. Ben Johnson, Chair, Sports Medicine/Athletic Training Search Committee, Dept. of HPRD, Georgia State University, University Plaza, Atlanta, GA 30303. Materials must be received no later than March 8, 1992. Ethnic minority, women and disabled applicants are especially encouraged to apply. Georgia State University is an Equal Opportunity institution and is an Equal Opportunity/Affirmative Action Employer.

## DIRECTOR SPORTS MANAGEMENT

**Creative Sports Management**, a Division of Clifton Gunderson & Co., which is the 12th largest CPA and business consulting firm in the country, seeks an aggressive and dynamic team builder to lead the development of CSM. We will provide the team members and back up for you.

Planned services include:

- NCAA compliance management for colleges and universities in the areas of financial aid, eligibility, recruitment, voluntary reporting of violations, rules education for student-athletes, coaches, athletics director and oversight committees, and NCAA and conference form submission.
- Sports psychology applications to improve the performance of teams and individual athletes.
- Providing financial, tax and investment consulting services to professional athletes and coaches.

Your qualifications should include a degree in Sports Management, Physical Education, Law or Business (CPA) or related field with exceptional organizational, administrative, marketing, communication and interpersonal skills. Also required are creative and motivational skills, absolute integrity and a high regard for ethical standards.

Your experience as a coach or athletics director, in sports management or sports marketing, on the staff of the NCAA or an athletic conference, with a professional team or as a consultant to any of these groups and the network of contacts you have developed is what this operation requires.

Compensation is up to \$100,000 commensurate with experience, existing network of contacts and academic qualifications. Must be willing to relocate.

If you are excited about the opportunity to build this organization, please send your resume and salary history to:

Recruiting Director  
Creative Sports Management  
310 SW Adams, Suite 800  
Peoria, IL 61602

An Equal Opportunity Employer.

Overland Park, Kansas 66211-2422

Deadline for applications: February 28, 1992.

Equal Opportunity/Affirmative Action Employer.

## CARLETON COLLEGE

### Full-time Faculty and Coaching Position Football Assistant Coach Defensive Coordinator and Coaching Assignment in Additional Sport

Carleton College seeks a full-time faculty/coach position, at Instructor or Assistant Professor rank, in NCAA Division III institution beginning August 1992.

Carleton College is a highly selective, coeducational, residential, nonsectarian liberal arts college with 1,850 students and approximately 200 faculty, located 45 miles south of the twin cities of Minneapolis and St. Paul.

**POSITION DESCRIPTION:** Position combines teaching in physical education activity program, coaching football and coaching one other sport. Football coach will have responsibility for defense and will assist in recruiting student-athletes with emphasis on minority recruiting. The successful candidate will also have coaching responsibility in one of the following sports: track and field, softball, swimming, baseball or basketball.

**RESPONSIBILITIES:** As defensive coordinator, assist the football head coach in organizing and administering all phases of the program, especially the defensive strategy and minority recruiting. Assist the head coach of a second sport in various phases of that program as determined by the head coach. Teach a variety of activity courses throughout the year and/or content courses such as First Aid/CPR, Athletic Training, Principles and Methods of Coaching, Fitness/Wellness, etc. Other responsibilities as assigned by the Department Chair/Athletic Director.

**QUALIFICATIONS:** Bachelor's degree required, master's degree in Physical Education or related field preferred. At least three to five years' teaching and coaching experience preferred. Demonstrated ability to successfully teach and coach at the college or high-school level and an understanding and commitment to academic and athletic excellence in a liberal arts institution and NCAA Division III philosophy.

**APPLICATION:** Send statement of interest, resume and three letters of reference to: Leon Lunder, Search Committee Chair, Physical Education, Athletics and Recreation Department, 1 North College Street, Northfield, MN 55057. Applications will be reviewed beginning February 20, 1992.

Carleton College is an Affirmative Action/Equal Opportunity Employer and minority candidates are encouraged to apply.

## The Market

Continued from page 18

have an earned bachelor's degree from an accredited college, demonstrated ability to coach defensive football at the collegiate level. Recruiting and other duties may be assigned as needed, dependent on background and prior coaching or playing experience. To apply, send cover letter and resume to: Don D. Turner, Director of Athletics, Hummel Fieldhouse, Bethany College, Bethany, West Virginia 26032. Bethany College is a Division III NCAA institution and is a member of the Presidents Athletic Conference, and is an Equal Opportunity Employer. Closing date for this opening is May 1, 1992.

**Graduate Assistant Coach for Men's Women's Tennis.** Required: Bachelor's degree; collegiate or high school coaching and/or playing experience in the sport of tennis. Experience in counselling student athletes. Preferred experience in interacting with Public Administration; knowledge of NCAA compliance with regards to rules and regulations. Send letter of application, resume, (list names, current addresses and phone numbers of three references) to: Men's Athletics, Millersville University, Millersville, PA 17551.

### Miscellaneous

**Prestigious Northeastern Pennsylvania Resident Summer Camp.** seeking qualified coaches in all sports. Clinics, classes, intercamp games, over 50 tournaments. Call Island Lake at 914/354-5517, or write PO Box 800, Pomona, NY 10970.

**Sport Management — PE/Assistant Professor.** Georgia Southern University. Tenure track Assistant professor. Teach graduate and undergraduate courses in sport management and physical education, pursue research and publication, and advise students. Beginning September 1992. Earned doctorate with major or emphasis in sport management required at time of appointment, plus a minimum of one year successful teaching experience. Person must be able to teach a

variety of sport management courses, mechanical analysis and tumbling. Salary commensurate with qualifications and experience. Deadline for application is March 15, 1992. Affirmative Action/Equal Opportunity institution. Georgia is an open records state. Send application, resume and three references to: Doyice J. Cotten, Search Coordinator, LB 8076, Georgia Southern University, Statesboro, GA 30460-8076.

**Camp Canadensis.** Boy's and girl's camp in the Pocono Mts. of Pennsylvania is hiring for summer season 6/22 thru 8/9. All sports, tennis, climbing walls, pools, lake, etc. Call 1-800/832-8228.

**Earn A Master's Degree in Sport Science** in two five-week summer sessions plus a mentorship. Scholarships and other financial aid available. Contact: The United States Sports Academy, Department of Student Services, One Academy Drive, Daphne, Alabama 36526; 1/800-223-2668. An Affirmative Action Institution. SACS Accredited.

### Open Dates

**Men's Basketball.** Seneca College, Toronto, Canada, is seeking Division III teams for its CANAM Classic November 6-8, 1992. Guarantee: Call Ernie Armstrong, 416/491-5050.

**Men's Basketball Tournament:** The Hilton Head Island Recreation Association is seeking Division II teams for a Christmas Tournament the weekend of December 19 & 20, 1992. For more information call Frank Soule 803/681-7273.

**Division III Football:** Millsaps College seeks a home game in 1993. Several dates available. Will discuss future home and away contests. Contact: Bob King or Tommy Raniger at 601/974-1190.

**University of Dayton seeks football games** on the following dates in 1992: October 24 and November 14 — home games with guarantees. Prefer Div. III or NAIA II. Contact: Mike Kelly (Head Coach) at 513/229-4423.

**Need A Football Game For The 1992 Season.** Open Dates: October 31 and November 7, 1992. Contact: Benny Hollis, Athletic Director, Northeast Louisiana University, 308 Stadium Drive, Monroe, Louisiana 71209-4100. Telephone: 318/342-5360 — Office, 343-5646 — Home.

**Women's Basketball.** Division III Defiance

College (Ohio) women's basketball needs games for the following dates in 1992-93: December 18-19 four-team holiday tournament at DC (two teams needed); January 19, 20, or 21; February 5 or 6; February 9, 10, or 11; February 19 or 20. Contact: Cindy Elliott, 419/783-2346.

**Teams Needed For Auburn Lady Tiger Women's Basketball Dial Classic Tournament.** December 5-6, 1992, afternoon games. Guarantee: Call June at 205/844-9771. Also, looking for a tournament to enter December 28-29, 1992.

**Wesley College** seeks football games for the coming season, 1992, on the following dates: Sept. 19, Oct. 3, Oct. 31, Nov. 14, and in 1993 on the corresponding dates. Contact: Tim Keating Head Football Coach 302/736-2416.

**Team Needed for Lady Kat Invitational Tournament.** The dates for the tournament are December 4th and 5th, 1992. Guarantees, awards, all tournament teams, gifts are available along with a banquet and pregame meal. Also, a team is needed for a home contest. If you are interested in participating or scheduling a single game, please contact Myra Fishback at 606/257-6046.

**Men's Soccer:** Newport, Rhode Island, Seeking teams (Div. III) for tournament, Columbus Day weekend, Oct. 1992. Contact: Keith Cory, Head Coach, Salve Regina University, 401/847-6650 ext. 2273.

**Women's Volleyball:** Florida State University is seeking a team for the Florida State Classic, September 11 & 12, 1992. Contact: Cecile Reynaud 904/644-1091.

**Eastern Kentucky University** seeks to fill the following football open dates: 9/12/92, 9/19/92, 10/10/92, 9/11/93, 9/18/93. Interested in home & home. Contact: Roy Kidd at 606/622-2146.

**Men's Basketball:** Mercyhurst College, Erie, PA, is seeking Division II or NAIA opponents for tournament on January 8 & 9, 1993. Guarantees available. Mercyhurst is also seeking opponents for home and away games. Contact: Brian Ostermann, 814/824-9543.

**Women's Basketball Tipoff Tournament:** Kalamazoo College (Div. III) is seeking one more team to fill the Nov. 20-21, 1992, field. Call Jeanne Hess at 616/383-8518.

**Football:** Portland State University/Div. II, Portland, Oregon, needs home football game — October 17, 1992. Will return game or guarantee expenses for a party of 60. Contact: Roy Love 503/725-4000.

**Women's Basketball.** Team needed for Ohio State Buckeye Classic, December 18-19, 1992. Banquet and gifts. Guarantee or return negotiable. Contact: Melissa McFerrin, 614/292-9270.

**Mississippi College Football, NCAA Div. II, 1992 Dates:** Sept. 19 and Oct. 10, 1993. Dates: Sept. 18, Oct. 9 and Nov. 6. Contact: Terry McMillan, Athletic Director, 601/925-3342.

**San Diego Surf-N-Slam Basketball Classic** still has openings for Division II and III men's and women's basketball teams, December 26-31, 1992. Call Basketball Travelers 206/781-1774.

**Wanted:** Good NCAA Division I Men's Basketball Team for series of games vs. the Mexican National Team, 1st week of June. Inexpensive tour. Call Basketball Travelers, 206/781-1774.

## Head Women's Volleyball Coach Boston College Athletic Association

Responsible for the development and management of a competitive women's volleyball program in accordance with the rules and regulations of the University, the Big East Conference and the NCAA. The coach is responsible for all program components, including: Coaching, scheduling, practice, recruitment, and promotion. A Bachelor's degree is required, plus proven success in coaching a highly competitive women's volleyball program. Demonstrated ability to develop and manage a collegiate program, as well as the ability to recruit under highly selective academic and athletic standards necessary. Candidates must have thorough knowledge of NCAA rules and regulations. Strong communication skills to enhance effective interaction with students, administrators, alumni and community required. Position is part-time, starting May 31, 1992. To apply, send two copies of your resume and cover letter to: **Richard Jefferson, Director of Employee Relations, Human Resources Department, Boston College, More Hall 315, Chestnut Hill, MA 02167.**

**BOSTON COLLEGE**  
A Jesuit University

## COMMISSIONER MIDWESTERN COLLEGIATE CONFERENCE

The Midwestern Collegiate Conference is seeking a full-time Commissioner to commence employment on or near April 6, 1992.

**MEMBERSHIP:** The MCC is an NCAA Division I athletics conference composed of private institutions located in major metropolitan markets. Current members include Butler University, University of Dayton, University of Detroit Mercy, University of Evansville, Loyola University of Chicago, University of Notre Dame and Xavier University (Ohio). Duquesne University and La Salle University recently announced their affiliation with the Conference and will officially become members effective July 1, 1992. The Conference sponsors championships in 16 sports (eight men's and eight women's) and enjoys NCAA automatic qualification in baseball, men's basketball, women's basketball and men's soccer.

**STAFF/HEADQUARTERS:** The Commissioner employs and supervises a full-time staff of six individuals, in addition to two full-time interns and four part-time supervisors of officials. The Conference office is located in Indianapolis, Indiana.

**RESPONSIBILITIES:** The Commissioner shall serve as the chief executive officer of the Conference, with administrative responsibility to the MCC Council of Presidents and MCC Executive Committee of Athletics, as well as the chief financial officer and principal enforcement authority. The Commissioner will interact with presidents, directors of athletics, senior woman athletics administrators, faculty athletics representatives, coaches and staff at member institutions in advancing the interests of the Conference. The Commissioner supervises and directs the Conference staff in activities including, but not limited to promotion, marketing, television, public/media relations, championships, certification and compliance, service bureau/communications and officiating. The Commissioner serves as Conference liaison for NCAA activities, including hosting of NCAA championships.

**QUALIFICATIONS:** Successful candidates should demonstrate excellent communications, management and leadership skills. An overall knowledge of NCAA rules and procedures, along with an appreciation for the academic standards and priorities of private institutions is a necessity. Experience in collegiate athletics administration is preferred and conference/athletics association experience is desirable. A bachelor's degree is required.

**SALARY AND BENEFIT PACKAGE:** Commensurate with qualifications and experience.

**APPLICATION PROCEDURE:** Nominations and letters of application should be forwarded to the following address. A current resume and minimum of three references must accompany each application.

Mr. John C. Parry  
Chair, Executive Committee on Athletics  
Midwestern Collegiate Conference  
201 South Capitol Avenue, Suite 500  
Indianapolis, Indiana 46225

Screening of candidates will begin on February 21, 1992, and continue until the position is filled.

The Midwestern Collegiate Conference is an Equal Opportunity/Affirmative Action Employer and encourages applications from women and members of minority groups.

## DICKINSON COLLEGE DEPARTMENT OF PHYSICAL EDUCATION

**POSITION:** Fulltime Physical Educator in the Department of Physical Education, Head Coach of Women's Volleyball and Head Coach of Women's Softball, teach activity classes and Truly Living (Dickinson's Wellness course).

**QUALIFICATIONS:** Master's degree. Graduate or undergraduate emphasis in physical education. Candidates must show evidence of successful coaching at high school and/or college level and demonstrated competencies in teaching physical education and/or health education.

**RESPONSIBILITIES:** Ability to teach, coach and recruit within the philosophy of Division III athletics and a highly selective liberal arts institution.

**SALARY:** Commensurate with education and experience.

**DATE OF APPOINTMENT:** July 1, 1992.

Send a letter of application, resume and three current letters of recommendation by March 1, 1992, to:

Les J. Poolman  
Chairman, Department of Physical Education  
and Director of Athletics  
Dickinson College  
Carlisle, PA 17013

Dickinson College is an Affirmative Action/Equal Opportunity Employer

## The University of ILLINOIS at Urbana-Champaign

## Director Intercollegiate Athletics

Nominations and applications are invited for the position of Director of Intercollegiate Athletics at the University of Illinois at Urbana-Champaign.

The Director is responsible for leading the program of intercollegiate athletics at the University of Illinois at Urbana-Champaign and serves as a member of the Chancellor's Cabinet. The University's intercollegiate program currently includes 11 men's teams and eight women's teams.

A baccalaureate degree, evidence of personal and professional integrity, and commitment to the rules and regulations governing intercollegiate athletics are required. Preference will be given to candidates with the best combination of the following qualifications; an advanced degree, administrative experience in an intercollegiate athletic program, coaching experience, demonstrated support for faculty governance of intercollegiate athletics and for affirmative action, and demonstrated ability to assume responsibility for financial management, management and evaluation of human resources, fund-raising and public relations activities.

The salary for this position is open; the position is available immediately. In order to ensure full consideration, applications (including a resume and list of references) and nominations should be submitted by March 1, 1992, to:

Professor James A. Gentry, Chairperson  
Search Committee for the  
Selection of the Athletic Director  
University of Illinois at Urbana-Champaign  
Swanlund Administration Building — Fifth Floor  
601 East John Street  
Champaign, Illinois 61820

ATTN: Associate Chancellor Richard F. Wilson  
217/333-4238

The University of Illinois at Urbana-Champaign is an Affirmative Action/Equal Opportunity Employer.

## SACRED HEART UNIVERSITY

FAIRFIELD, CONNECTICUT

### Head Coach

### Women's Field Hockey and Lacrosse

As university athletic programs nationwide are confronted with budgetary reductions, Sacred Heart University has instead embarked on an aggressive athletic expansion plan. In 1989, Sacred Heart University sponsored eight intercollegiate sports in men's and women's basketball and volleyball, men's baseball and soccer and women's cross country, softball and volleyball. In the fall of 1990, new sports were introduced including football, men's lacrosse and women's soccer. In September of 1993, we will add men's and women's bowling and golf, men's cross country, as well as women's field hockey and lacrosse. To complement this extensive growth, the University has recently contracted a respected architectural firm to design a \$13 million athletic-recreational complex in addition to other facilities on campus.

As we continue our aggressive expansion plan to build a premier program in NCAA Division II intercollegiate athletics, we are looking for an enthusiastic individual with athletic and administration experience to coach our new women's field hockey and lacrosse programs.

The Head Coach will recruit, coach, budget, schedule and advise student-athletes. Candidates must hold a bachelor's degree, possess knowledge of NCAA rules and regulations and have demonstrated effectiveness in the recruitment and retention of student-athletes. A keen interest and/or experience in women's field hockey and lacrosse, as well as strong interpersonal and communication skills are required for this exciting position. Qualified applicants may send a letter of application, resume and references by February 28, 1992, to:

Office of Human Resources  
Sacred Heart University  
5151 Park Avenue  
Fairfield, Connecticut 06432-1000

Sacred Heart University is an Affirmative Action/  
Equal Opportunity Employer.

Women and minorities are encouraged to apply.

## DIRECTOR OF ATHLETICS California Polytechnic State University

### GENERAL DESCRIPTION OF THE POSITION

Applications and nominations are invited for the position of Director of Athletics (Full-time, 12-Month, Administrator III), with an intended appointment date of August 1, 1992. The Director of Athletics is responsible to the President of the University on policy matters and reports directly to the Vice-President for Academic Affairs. The Director: (a) is responsible for the overall supervision of the University's Intercollegiate Athletics Program, including the management of personnel, finances, program promotion, facilities, equipment, and compliance to campus, State and NCAA rules; (b) is required to demonstrate strong management and communication skills; (c) must have an understanding of the role of athletics within the University structure and its relation to the educational mission of the University; (d) must be an advocate of positive academic progress of those students participating in intercollegiate athletics; (e) must possess the ability to work effectively with students, faculty, and administration, as well as off-campus constituencies; and (f) must have the ability to actively promote the support of athletics with both on- and off-campus groups including students, faculty, alumni, local businesses and boosters.

### QUALIFICATIONS

Successful candidates will possess a minimum of a master's degree in an appropriate field, with a doctorate preferred. Some university or college-level administrative experience is required, experience as a Director of Athletics or an Associate Director of Athletics at NCAA Division I level is preferred. The candidate's experience must provide evidence of an understanding and working knowledge of all facets of a broad athletics program including budget management, long-range planning, marketing, and a demonstrated commitment to abide by NCAA rules, Title IX and Affirmative Action policies.

### COMPENSATION

Salary is commensurate with the background and experience of the individual selected. Cal Poly offers excellent fringe benefits. All rights associated with this appointment are governed by the Management Personnel Plan adopted by the Board of Trustees of The California State University.

### APPLICATIONS/NOMINATIONS

Applications and/or nominations will be considered until the position is filled. However, for full consideration, applications should be submitted by March 15, 1992. Cal Poly is strongly committed to achieving excellence through cultural diversity. The University actively encourages applications and nominations of women, persons of color, and members of other under-represented groups. Applicants should include a current resume and the names, addresses, and telephone numbers of at least three professional references. Applications, nominations and inquiries should be addressed to:

A. Charles Crabb  
Interim Associate Vice-President for Academic Resources  
California Polytechnic State University  
San Luis Obispo, CA 93407  
805/756-2186  
Fax 805/756-5292

Affirmative Action/Equal Employment Opportunity

# Delaware buzzer-beater saves the day, weekend

University of Delaware women's basketball student-athlete **Linda Cyborski**, who last year set an NCAA Division I women's single-season free-throw percentage record (93.7), recently helped put a bright spot in what became a rough weekend for her and her teammates.

It was her 35-foot, three-point heave at the horn that lifted the Fightin' Blue Hens to their first-ever North Atlantic Conference victory, a 61-60 double-overtime triumph at Northeastern University January 25.

The team had dropped its fourth straight, 69-61, to Boston University the night before, and the trip from nearby Philadelphia, Pennsylvania, to Boston, Massachusetts, on January 23 was a near disaster. The team was more than four hours late leaving Philadelphia because of one canceled flight and a multihour delay because of fog in Boston.

Delaware players were beginning to wonder if they would make their 5:30 p.m. flight after the 2 p.m. game against Northeastern, not only because of the double-overtime, which Cyborski helped force with her 12-foot jumper in the first OT, but because one of the officials became ill during half time and wasn't able to continue, delaying the start of the second half about 10 minutes.

The players managed to celebrate and rush into vans and speed to Boston's Logan Airport after the game, making their flight with some time to spare.

## Student trainer gets Presidential award

Nicholls State University student trainer **Justin Fleetwood** recently received the President's Environmental Youth Award from **President Bush**. Fleetwood, a

## Briefly in the News

Linda Cyborski

freshman, was recognized for his work on a project while still a student at Holy Cross High School.

## Player getting second chance at making it

Westfield State College freshman forward **Atwood Perry**, a 6-foot-3, 175-pound guard, is becoming reacquainted with the rigors of playing basketball and attending classes after skipping the former during the last two years of his high-school career.

As a sophomore in high school, Perry played on the same team with Georgia Institute of Technology freshman **Travis Best**. The pair helped guide Springfield (Massachusetts) Central High School to the state-championship game, which

turned out to be Perry's last high-school contest.

As a junior, Perry was declared academically ineligible, and when his senior year rolled around, he had turned 19, too old to play under state interscholastic rules.

But Perry is back to doing both again and is performing up to par. He was averaging 8.9 points per game by the semester break and appears to be in good shape academically as well.

"The classes have been all right," Perry told the Springfield Union/News. "I actually thought they'd be a little harder."

Westfield State coach **Bob Lawless** said Perry is adjusting to the more demanding college curriculum without it affecting his work habits on the hard wood.

"He has as good a work ethic as anyone we have," Lawless said. "He has to work on some of his fundamentals, of course, because he's basically been out of basketball for two years. Academically, he's also learning that it's not negative to do things like ask for tutoring help."

## Student wins scholarship

For the second consecutive year, a student at Hope College has claimed the British Marshall Scholarship. This year's recipient is senior **Mike Theune**, who is a three-year letterman for the school's track team. Theune has garnered Michigan Intercollegiate Athletic Association conference honors as a high jumper.

The British Marshall Scholarship, won last year by Hope graduate **Heidi Hudson-Mairet**, was established by the British government in 1953 as a way of recognizing the United States' role in Europe's recovery following World War II. The

award, which is for two years, may be used at any British university.

## Georgia dedicates state historic marker

Centennial celebrations for the University of Georgia's football program officially kicked off January 25 when the school dedicated a state historic marker in a ceremony on the north campus.

The marker was provided by the Georgia Department of Natural Resources and was placed near the university chapel overlooking the site of the school's first football game, which was played January 30, 1892.

"We are indeed proud to place this marker on such a historic site," Georgia athletics director **Vincent J. Dooley** said.

## Busy, busy, busy

**Sona Bedenian**, a junior at Aurora University, is a three-sport athlete at the Division III school. Not only does the 5-foot-7 guard compete for the women's basketball team, for which she had connected on 27 three-point field goals (45.8 percent) through January 21, but she starts on the volleyball and softball teams. In addition to that, Bedenian, who is from Wheeling, Illinois, is a sports editor for the campus newspaper.

## Milestones

• The University of Scranton men's basketball team captured its 1,000th victory in an 80-41 win over Misericordia College on January 16. The Royals became the first NCAA Division III school in the Northeast and the eighth team in small-college basketball to reach that mark, according to the school's sports infor-

mation office.

• West Virginia University head men's basketball coach **Gale Catlett** registered his 400th career victory when the Mountaineers defeated Duquesne University, 83-75, January 11.

## Coach blacks out, referee breaks bone

Illinois State University men's basketball coach **Bob Bender** received a scare in a January 13 game against Drake University when he fell to the floor with 2:48 remaining in the first half. It was originally believed that Bender slipped on a slick spot on the court, but the coach later said he had blacked out. Bender said he lost consciousness momentarily and was awake when medical personnel arrived at his side.

Bender, 34, was examined at half time and returned to the court for the second half. After 12 minutes had been played, Bender complained of feeling weak and went back to the locker room with physicians and team trainer **Ruben Arjona**.

He later went to a hospital to undergo a series of tests. The next day, Bender said "everything checked out OK and I feel fine. The blood test showed I might have a little touch of the flu coming on."

Bender was not the only person not feeling well during that game. Official **Ron Berkholtz** suffered a broken left elbow when he collided with a Drake player early in the second half.

**News quiz answers:** 1-(b). 2-(c). 3-(a). 4-(c). 5-(a). 6-1993. 7-(b). 8-(d). 9-(b). 10-(d).

# Question of the year at Manhattan: Is this team for real?

By Jim O'Connell

The three most asked questions around the Manhattan College campus are:

- Why is it called Manhattan when it's in the Bronx?
- What's a Jasper?
- Is this basketball team for real?

The school was founded in 1853 as the Academy of Holy Infancy and it was located on the island of Manhattan before moving to its present location.

The teams are named after Brother Jasper, a prefect at the school who brought baseball to the campus, served as its first coach and is credited with inventing the seventh-inning stretch.

And the basketball team? Things haven't been this good around Manhattan since Mickey Mantle was in his prime for another Bronx institution.

After beating La Salle University for the first time in 18 years January 28, the Jaspers were sporting a 13-4 record and a seven-game winning streak and held first place in the Metro Atlantic Athletic Conference with a 5-0 record.

The 67-65 victory over La Salle had Draddy Gymnasium in a frenzied state. The building hasn't had that much noise in quite a while.

Manhattan hasn't had a winning record since 1982-83, and the last one before that was 1974-75. They weren't just losing seasons either, as nine of the nonwinning years had victory totals of only a single digit. A once proud New York City program had fallen to the bottom of Division I.

In Draddy now, the two banners in honor of the 1956 and 1958 NCAA basketball tournament teams are dwarfed by 20-some honoring the school's track and field teams, including one for the 1973 indoor national championship.

That's why when Luteke Kalombo's jumper

*"Sometimes I wonder if people take (what it takes to rebuild a program) for granted. It takes a lot more than pumping a lot of money in. There are a lot of intangibles involved, getting the right kids, being successful recruiting."*

Steve Lappas

at the buzzer was off and the Jaspers had the victory they had waited so long for, hundreds of students rushed the court and enveloped the players and coaches in a celebration scene usually only seen around the heavily Irish neighborhood on St. Patrick's Day.

"The first game I coached here, we played Hofstra and there must have been 200 people in the stands," coach Steve Lappas said in the middle of a handshakefest that would have made politicians proud.

"Coming from Villanova, I was a little sick. I took the job because my wife and I felt we had a vision of what maybe we could do somewhere and we thought this was a great place with the academics and the tradition, and we'd give it a shot. Things are falling in place right now."

Lappas started putting things in place at Manhattan in 1988-89. Three seasons after hugging Rollie Massimino after Villanova University's improbable NCAA championship over Georgetown University, Lappas took over a program that had won 23 games the previous four seasons. Gone were the days of home games at Madison Square Garden. The Jaspers had just about hit rock bottom.

"Sometimes I wonder if people take it for granted," Lappas said of what goes into rebuilding a program. "It takes a lot more than pumping a lot of money in. There are a lot of intangibles involved, getting the right kids, being successful recruiting. We're proud of the whole package, athletically and academically. You're working at this 365 days a year. It's like a family business."

Things started turning around with the first recruiting class, the current juniors, two of whom were the key players in the win over La Salle.

Keith Bullock, the best player at Manhattan since the days of Ricky Marsh and Bill Campion, had 20 points and the game-winning three-point play with five seconds left against the Explorers.

Carey Wilson, the man the country knows from highlight films as the left-hander who launched a line-drive buzzer-beater against Fordham University in December, had 11 points, a huge three-pointer, a rebound dunk off a missed free throw that should be in a highlight film and some great defense on La Salle's Randy Woods, the nation's third-leading scorer.

"Coming in as a freshman, I thought pretty

much by my junior year we would be playing well and something like this would happen," said Bullock, who followed his conference rookie-of-the-year award with first-team all-conference honors last season. "We had a really good year last year except for the last six games. We realized then what we could do and that this year was really going to be a big deal for us."

The Jaspers seemed to have that under-500 streak snapped last season until they stumbled at the end of the season.

"I think the Fordham game was a big hump for us to get over because we had always played Fordham tough but they found a way to win, and this time we found a way," said Wilson. "Once we won that game, we showed we had the ability to beat anyone on our schedule. The coaches always tell you things will work, but once you see it happen, you start to believe for yourself."

The believers were everywhere during the La Salle game. From recent alumni enjoying wins they rarely had seen to current students who got their first chance to wave and scream behind the basket during opponents' free throws, there were a lot of happy people around Manhattan College.

Lappas said he would enjoy the win until reading the newspapers the next day, then it's back to work. He'll tell you there is still a lot to do.

"People in the business have been very complimentary to what we have been able to do here. They know how tough it is," Lappas said. "When we came here, there were 285 teams that played Division I basketball in the 1980s and this school was 281, a 28-percent winning percentage. Here was an uphill battle, to go sell what's here, but we got some real good kids now, and (we hope) we'll just build on that."

O'Connell is a basketball writer for *The Associated Press*.
