Wefald joins Commission

Jon Wefald, president of Kansas State University, has been appointed to the NCAA Presidents Commission, replacing Gene A. Budig of the University of Kansas, who resigned from the Commission.

Wefald

Wefald will assume Budig's position as the Big Eight Conference representative.

Wefald became president at Kansas State in July 1986. Before that, he was chancellor of the Minnesota State University System from 1982 to 1986. From 1977 to 1982, he was president of Southwest State University in Minnesota.

He also was that state's commissioner of agriculture, serving in that capacity from 1971 to 1977.

Wefald taught at Gustavus Adolphus College, the University of Michigan and Washington State University.

He served as chair of the Association of Big Eight Universities from 1989 until July 1992, was one of three American university presidents invited to participate in a Global Tomorrow Coalition Roundtable in 1991 and was elected chairman of the Council of Presidents of the Kansas Regents Universities for 1988-89.

Wefald is a graduate of Pacific Lutheran University. He received his master's from Washington State and his Ph.D. from Michigan.

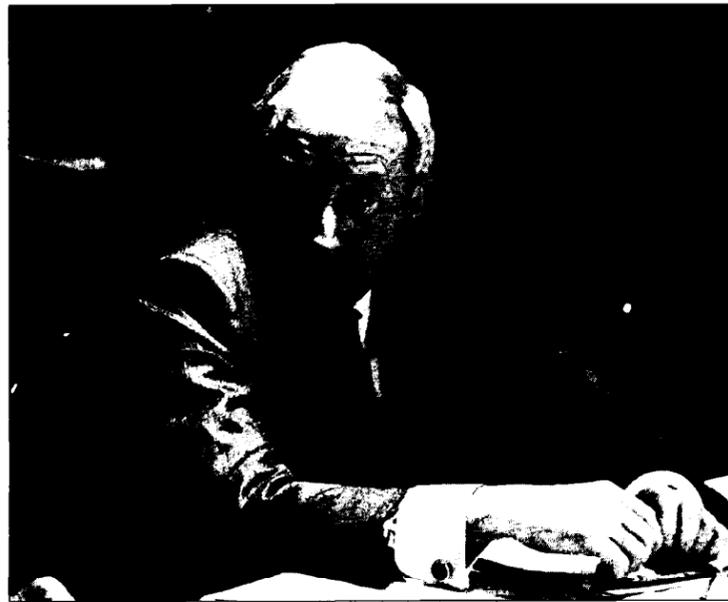

Panel tackles issues of gender equity

The NCAA Gender-Equity Task Force began to examine a variety of issues that pertain to gender equity in college athletics at its October 6 meeting in Washington, D.C.

The full group reviewed reactions to the gender-equity principle statement that was drafted at the task force's original meeting, heard a report on the first meeting of the Special Committee to Review Financial Conditions in Intercollegiate Athletics, heard a report on the review of the Association's championships program and reviewed legislation for the 1993 Convention that could affect the work of the task force.

Task force cochair James J. Whalen, president of Ithaca College, discussed the gender-equity principle and stressed that the statement released after the group's July 9 meeting was not meant to be final and that it would continue to be refined as the task force accomplished its goals.

NCAA President Judith M. Sweet noted that the NCAA Executive

James J. Whalen, NCAA Gender-Equity Task Force cochair and president of Ithaca College, reviews the gender-equity principle statement at the group's meeting October 6.

Committee has committed itself to a balanced championships program, although not necessarily on a sport-by-sport basis.

Regarding legislation, the task force asked that the NCAA Council sponsor amendments-to-amendments to Proposal Nos. 77 and 80

that would further delay implementation of financial aid legislation in women's equivalency sports and basketball.

Subcommittees

Later in the day, the group divided into a pair of subcommittees, one of which looked at issues that pertain to gender equity at the NCAA level. The other examined issues that apply to institutional concerns.

In the group that examined NCAA standards, several topics were discussed, with the following recommendations:

Certification. The Division I athletics certification proposal that will be considered by the Convention has as a component equity standards that will evolve as a result of the work of several NCAA committees, including the task force. The task force put off a discussion of the certification program until the multitude of issues involving gender equity

Bunnage finds roots in NCAA family tree

By David D. Smale
SPECIAL TO THE NCAA NEWS

Recently, JoAnne Bunnage was in a sports and entertainment class at the University of Notre Dame law school. After reviewing the structure of the NCAA and its origins, the professor said: "Maybe we can blame JoAnne for the troubles in college athletics."

Blame Bunnage? She never has recruited a student-athlete—legally or illegally. She never has done anything that could be called scandalous, not even remotely.

So why?

It has to do with her ancestry. As an academic adviser at Notre Dame, she does not hold the most prestigious position in college athletics in

her family history. Her grandfather, D. Curtis Mumford, went to Oregon State University in 1938 as the chair of the agricultural economics department. He was involved with the athletics program and was given the university's "rabid rooster award" in the early 1960s for his support of Beaver athletics.

But the distinction does not belong to him, either.

His wife's grandfather, Henry Mitchell McCracken, was chancellor of New York University from 1884 through 1910. On December 9, 1905, disgusted by the violence in college football and the lack of reform by the football rules committee, he called a meeting of 13 Eastern football-playing colleges.

Determined to reform the game themselves, they voted to reconvene on December 28 and to invite all football-playing institutions. At that meeting, called the General Convention of Colleges and Universities, 62 schools sent delegates, laying the groundwork for the NCAA.

Bunnage

"My family has always been extremely important to me," Bunnage said, recalling how she discovered her famous forefather. "I've always been aware that my grandmother (Martha Stockwell Mumford) was raised in the East and that her father and grandfather were both Presbyterian ministers. Through that, they became involved in New York University. My grandmother recalls being in boarding school at the time of her grandfather's death and she recalls very vividly going to New York on vacation and staying in his home."

"I remembered those stories growing up."

"As part of my job at the University of Washington several years ago, I was reading the Guide for the College-Bound Student-Athlete, and it mentioned Henry McCracken's affiliation with the meeting with President Theodore Roosevelt in 1905."

As interested in athletics as Martha Stockwell

Briefly in the News

Coach for day treasures win

Jim Stanton of Cincinnati saw a true armchair quarterback's dream fulfilled recently when he won a "Coach for a Day" promotion at the University of Dayton.

Stanton won the opportunity to call an offensive play October 3 during the second quarter in Dayton's 47-0 drubbing of the College of Mount St. Joseph. Stanton chose his play from a selection of four given to him by the Flyers coaching staff.

Stanton

So what did Stanton, a 25-year veteran at Procter and Gamble, call? Razzle-dazzle, of course. He opted for an end-around that resulted in a 42-yard pickup for the Flyers.

"Someone asked me after the game if I wanted to be a coach now that I've had a taste of it," Stanton said. "But it's a little late for me to make a career move. I think I had better retire undefeated and unscored on."

"This has been a lot of fun. I was excited just thinking about what it would be like, but coach (Mike) Kelly and his staff were more helpful than I could imagine."

"I think the people who are happiest this day is over are the members of my family. I've been really obnoxious."

Rainbow Wahine it is

Get out your pencil and pad and take some notes. The University of Hawaii athletics department would like to provide a short lesson on the correct usage of its women's sports nickname.

The new nickname is Rainbow Wahine, not the plural form of Rainbow Wahines. The "s" on the end has been eliminated because there is no such letter in the Hawaiian alphabet. Wahine, which means "woman," also is used in the plural.

There's another issue the institution would like to clarify. The use of the word "Na," which means "the," is not part of the nickname. So, the correct usage is simply Rainbow Wahine or Rainbows.

Sportsmanship shown

Earlham College senior cross country athlete Karim Hammad recently won his first race at the Wittenberg University Invitational.

NYSP sets five all-time records

Successful year

The National Youth Sports Program (NYSP) Committee, meeting October 2-4 in Kansas City, Missouri, reviewed a successful year in which cumulative all-time records were established in programs across the nation.

Records set included number of participants (67,264), number of participating states (44), number of cities (153) and number of jobs created (4,955). In addition, the rate of returning youths was 41 percent, a seven-point jump from the average for the last three years.

The committee also selected institutions that will receive special awards at the NYSP national workshop January 28-31.

The criteria on which the committee bases its awards include (1) a high percentage of returnees

Other highlights

In other actions at its October 2-4 meeting in Kansas City, Missouri, the National Youth Sports Program (NYSP) Committee:

- Discussed a plan to assist programs with Federal compliance by identifying common guideline infractions and presenting solutions at future national and regional workshops. It was decided to feature in the workshop training sessions NYSP personnel who conduct outstanding projects.

- Presented awards recognizing the outstanding service of NYSP evaluators who have completed their six year terms: Joseph DuBose of University City, Missouri; James Rogers of Stillwater, Oklahoma, and Gale Wiedow of Vermillion, South Dakota.

- Reviewed applications from institutions requesting 1993 grant funds. Final budget decisions yet to be made by the Federal government will determine how many institutions can be accepted.

(both participants and staff) to the program; (2) success in soliciting outside resources from surrounding communities; (3) institutional resources, including support of

academic divisions; (4) daily attendance exceeding projected attendance figures; (5) extensive medical examinations, and (6) quality and innovative instruction.

University of Florida photo

Well-read players

University of Florida quarterback Shane Matthews (left) and defensive end Kevin Carter read to a group of kindergartners at Norton Elementary School in Gainesville, Florida, as part of teacher Liana Glanville's "Glanville's Gators" reading program. The program is part of The Gainesville Sun's "Million Minutes of Reading Program," which promotes literacy in Alachua County.

But he wasn't selfish about it.

When a competitor tripped and fell during the last half-mile of the five-mile race, Hammad stopped to aid the runner. By doing so, he fell about 20 yards behind another runner, but made up the distance and claimed his first victory.

"I wanted it to be a fair race," Hammad told the Palladium-Item. "I didn't want his fall to be the reason I won. It just happened; I didn't have time to think about it. I felt good enough that I...could make (up the lost distance). I had to sprint at the end."

Three's a charm

It is quite a feat for a defensive team to block the opposition's point-after-touchdown attempt and run back the football for two points. It is almost mystical that State University College at Brockport has managed the feat three times since 1988.

In a recent 42-6 victory over Jersey City State College, John Lockhart chalked up

two points for the Golden Eagles by returning a blocked PAT attempt 90 yards.

"I guess it's just dumb luck," Brockport State head coach Ed Matejkovic said. "We teach the guys to lateral once they've picked up the ball because it's usually a mad scramble."

In 1990, Dan Fichter ran back two blocked PAT attempts for Brockport State.

Volleyball history

Two California State University, Northridge, women's volleyball players recently reached major career milestones during the same match.

Senior outside hitter Nancy Nicholls surpassed the 1,000-kill mark September 25 in a match against Brigham Young University to become just the second player in Matador history to reach the plateau, and senior outside hitter Dawn Krenik established a school record for service aces. The previous career best was 105.

News quiz

Answers to the following questions appeared in September issues of The NCAA News. How many can you answer?

- The NCAA's membership total as of September 1 was: (a) 1,047; (b) 1,048; (c) 1,064; (d) 1,100.
- How many conference champions will receive automatic qualification into the 1993 NCAA Division I Men's Basketball Championship? (a) 28; (b) 30; (c) 31; (d) 32.
- How many proposals for the 1993 NCAA Convention were printed in this year's Second Publication of Proposed Legislation? (a) 155; (b) 105; (c) 49; (d) 21.
- True or false: The NCAA Visitors Center currently displays more than 400 photos from 1991-92 NCAA championships.
- How many sports polls were conducted by NCAA sports committees during 1991-92? (a) five; (b) 12; (c) 15; (d) 18.
- True or false: Education spending in the United States is projected to reach a record \$445 billion in 1992-93.
- Who is the new president of the National Association of Collegiate Women Athletic Administrators? (a) Charlotte West; (b) R. Elaine Dreidame; (c) Marcia Saneholtz; (d) Chris Voelz.

Answers on page 16

Fact file

Thirty-five Division I institutions sponsored 22 or more sports, or 10 or more over the minimum 12, in the tabulations used for determining distribution of the sports sponsorship fund for 1991-92. Of the 35, Division I-A had 18, while there were 16 from Division I-AA and one from Division I-AAA. Highest: Harvard University, with 30 (18 over the minimum). Next: Boston College, Brown University, Cornell University, Pennsylvania State University, Princeton University and Yale University, each with 16 over the minimum, followed by Dartmouth College, Michigan State University, Ohio State University and Rutgers University, New Brunswick, at 15 over. Harvard, Brown, Cornell, Princeton, Yale and Dartmouth all are I-AA (all in the Ivy Group); the others are I-A. Highest I-AAA: University of Vermont, 14 over the minimum.

Source: Report of payments to Division I member institutions in the 1991-92 sports sponsorship fund of the revenue distribution plan.

Committee notices

Member institutions are invited to submit nominations to fill vacancies on NCAA committees. Nominations to fill the following vacancy must be received by Fannie B. Vaughan, executive assistant, in the NCAA national office no later than October 26, 1992.

Student-Athlete Advisory Committee: Replacement for May Tan, Northern Michigan University, resigned from the committee. Appointee must be a student-athlete from Division II, Region 3.

Denver studying switch to I

The University of Denver wants to move to NCAA Division I, and the school is counting on its alumni to help.

"The buzzword here is returning to Division I," Jack McDonald, Denver's athletics director, told The Associated Press. "We have clearly shown, through our success in gymnastics and hockey, that the university can compete at the Division I level and that the community of Denver will support it."

Denver has won 19 championships in men's Division I sports,

tied with Indiana University, Bloomington, for eighth in the country.

Fourteen of DU's titles came in skiing—a sport in which Denver will return to NCAA competition this year following a demotion to club status in 1983. The remaining five came from men's ice hockey, the most recent in 1969.

A feasibility assessment was launched in May by MPC Associates of Washington, D.C. The firm's report is expected to be presented to Denver's Board of Trustees this month.

Committee studies foreign eligibility solutions

Growing problems with determining the eligibility of foreign student-athletes under NCAA amateurism legislation have prompted the NCAA Olympic Sports Liaison Committee to suggest possible solutions.

Responding to a request from the NCAA Council and the Eligibility Committee, the Olympic Sports Liaison Committee was asked to consider possible new policies or legislation that would address such problems as participation by foreign student-athletes on teams in their home countries that are deemed to be professional or in tournaments that award expenses based on place finish.

During its October 5-6 meeting in Miami Beach, Florida, the committee proposed three approaches to solving such problems:

- *Changes in the Association's amateurism legislation.* Specifically, the committee suggested that attention be given to the definition of a professional athletics team, restrictions on a student-athlete's receipt of expenses from various sources, and the awarding of educational expenses by sports teams or organizations.

- *Publication of an informational booklet or guide.* The committee proposed a publication similar to the Guide to International Academic Standards for Athletics Eligibility for use in providing information regarding athletics programs and organizations in various countries.

- *Consider development of a "clearinghouse" for information on countries' athletics programs.* Implemen-

Other highlights

In other actions at its October 5-6 meeting in Miami Beach, Florida, the Olympic Sports Liaison Committee:

- Received information on the dialogue that is taking place concerning the provision of United States Olympic Committee grants to the NCAA for use in maintaining and/or establishing programs in Olympic sports at member institutions and expressed support for these discussions to continue at the highest levels of the Association and USOC. The committee advised that such discussions should result in a determination of the conditions under which such funds would be awarded (for example, whether the funds would be awarded in return for such considerations as use of member institutions' athletics facilities).

- Reviewed actions resulting from the NCAA Executive Committee's recent championships study and noted a recommendation by the Division I Championships Committee that consideration be given to establishing 40 as the minimum number of sponsoring institutions required to continue a championship and 80 (or a higher number) as the minimum number required to establish a new championship. The Olympic Sports Liaison Committee reiterated that the minimum-sponsorship requirements should be tied to specific criteria and asked the Council to inform the Executive Committee of that opinion.

- Reviewed proposed legislation for the 1993 Convention. After reviewing Proposal Nos. 23, 24 and 25 in the Second Publication of Proposed Legislation, the committee recommended to the Council that it ask that the recently formed Special Committee to Review Financial Conditions in Intercollegiate Athletics review the concept of the restricted-earnings coach. The committee expressed the view that establishment of the position has in some situations resulted in staff growth rather than cost reduction and that the anticipated turnover of personnel in what was intended to be an "entry-level" position has not occurred.

The committee recommended that the Council support Proposal No. 91, which would eliminate limitations in individual sports on the number of student-athletes from the same institution who may practice or compete during the summer on an outside, amateur team. It also recommended that if the proposal is defeated, the Council should sponsor the proposal with appropriate modification in 1994.

The committee also recommended that the Council support Proposal No. 126, which would permit Division I institutions to exempt annually from the maximum number of ice hockey contests one game against the U.S. Olympic hockey team, and asked the Council and Executive Committee to support Proposal No. 131, which would specify that National Collegiate Championships that do not meet the minimum percentage sponsorship criteria for maintaining the championships may continue to be sponsored during the 1994-95 academic year.

- Recommended to the Council that it sponsor legislation at the 1994 Convention to permit individuals to receive payment for the display of athletics skill in commercial advertisements, subject to restrictions concerning the use of the payments and approval of appearances.

- Recommended that the NCAA executive director grant the committee a waiver of the Association's meeting-site requirements, in order that the committee may meet once annually and schedule that meeting in conjunction with the U.S. Olympic Congress.

- Agreed to consider draft legislation at its next meeting that would permit parents of student-athletes to receive expenses for travel to the Olympic Games.

- Met with representatives of the national governing bodies for the sports of track and field, water polo, and soccer and discussed concerns relating to NCAA policies and legislation.

tation of such an approach could range from creating a standardized form for use by institutions in certifying the amateur status of foreign student-athletes to identifying one or more individuals to serve as an authority on the topic to the actual creation of a clearinghouse with authority to review and determine the amateurism

eligibility of foreign student-athletes under Association rules.

The committee forwarded its ideas for consideration at the Council's October 12-14 meeting and specifically asked whether it should proceed with development of the guide or the clearinghouse concept. The committee also will

submit a cost estimate for the guide to the Council and NCAA Executive Committee.

In related actions, the committee asked the Council to seek reactions from other appropriate committees regarding the areas of amateurism legislation identified for possible change. In addition, it recom-

mended that the Council authorize a survey of all member institutions to determine how many foreign student-athletes participated in athletics during 1991-92, for the purpose of determining the scope of potential eligibility problems. The survey would ask schools to identify the student-athletes by sport and by native country.

Sports-gambling, tax-relief bills adopted by Congress

Acting in the last week before adjournment, Congress adopted both the antisports-gambling legislation strongly supported by the NCAA and a Federal tax bill containing relief from taxation of corporate sponsorship fees received by college bowl associations and other tax-exempt groups.

President Bush, however, is expected to veto the tax bill (H.R. 11) because he believes that it violates his pledge of no new taxes.

Passage of the antisports-gambling bill (S. 474) capped a four-year effort by the NCAA and the major professional leagues to win an enforceable Federal ban on the further expansion of state-sponsored or state-authorized gambling schemes based on the outcome of sports events.

A bill accomplishing this result died in the last hours of the 101st Congress, and it was not until late last week that the current bill was taken to the floor in its final form, first in the House and then in the Senate. Even in the last day before passage, intense lobbying efforts were required in the Senate to clear the bill for final action.

As adopted, S. 474 would forbid the creation of any new state sports gambling schemes that were not in effect on the date of enactment. As a practical matter, the terms of

the bill "grandfather" the existing Oregon sports lottery and casino-based sports books in Nevada, as well as the Delaware sports lottery, which is authorized by state law but is not operating. Also grandfathered are certain low-stakes bar games or calcuttas authorized or operating in a handful of Western states.

The bill also grants New Jersey the opportunity to authorize, before the end of next year, casino-based sports books in Atlantic City. Although the NCAA and professional leagues opposed this "window," the exception had been approved in the House Judiciary Committee several months ago, and it became clear that House passage was impossible without it.

Authorization of New Jersey sports books requires affirmative votes by 60 percent of each house of the state legislature, followed by a statewide referendum on amending the constitution. An effort by casino interests to gain approval by the legislature last summer, in anticipation of passage of S. 474, was unsuccessful; a more intense effort in 1993 can be expected.

UBIT safe harbor

Inclusion of the corporate-sponsorship provision in the tax bill represented Congressional re-

sponse to recent efforts by the Internal Revenue Service to apply the unrelated business income tax (UBIT) to corporate-sponsorship fees paid in connection with the operation of college football bowl games, such as the Mobil Cotton Bowl. The IRS contended that the fees represented payments for corporate advertising and that the bowls were engaged in the business of advertising.

The tax bill approved by the Senate-House conference committee creates a "safe harbor" for certain qualified corporate-sponsorship payments made in connection with public sporting events, specifically including bowl games, operated by tax-exempt organizations. The conference bill specifies those benefits that may be accorded to the corporate sponsor and is drawn broadly enough to cover a variety of corporate-sponsorship activities in connection with intercollegiate athletics.

Even assuming a veto of the tax bill, the agreement by Senate and House conferees on a corporate-sponsorship provision suggests the strong possibility that the same or a similar "safe harbor" can be included, without significant controversy, in tax legislation considered by the next Congress.

Youth investment money well-spent

By Charles M. Neinas
COLLEGE FOOTBALL ASSOCIATION

October 1992 will mark the 13th observation of the National High School Activities Week sponsored by the National Federation of State High School Associations. The program is designed to increase the public's awareness of the values and needs of high-school activity programs. Those of us interested in young people, as well as in athletics, need to lend support to the high schools during a period when school financing has become a political issue throughout the country.

Neinas

It is unfortunate that when school budgets are reduced, high-school activities usually suffer from a disproportionate reduction in available funding. The net cost of funding high-school activities, including band and drama in addition to sports, is between one percent and three percent of the high-school budget. That is not much considering that 60 to 70 percent of students participate in some activities in many high schools.

Participation numbers compiled by the National Federation are impressive. Approximately 5,300,000 young people participate in high-school athletics, including 3,406,000 boys and 1,892,000 girls. To paraphrase an old saying, "There must be something to high-school sports because five million young people can't be wrong."

More than 16,000 high schools sponsor the sport of basketball for both boys and girls. There are almost 14,000 high-school football teams involving close to one million participants. Track and baseball are among the other most popular sports for boys; and track, softball and volleyball are the other most popular sports for girls.

A strong case can be made for the value of sports and other activities at the high-school level. Generally, students who participate in activities programs tend to have higher grade-point averages, have better attendance records, have fewer discipline problems and experience a lower dropout rate.

Course choice no private matter

By Jon Ericson
DRAKE UNIVERSITY

The corruption in intercollegiate athletics exists not because coaches cheat nor because athletics directors are scoundrels—although there must be cheaters and scoundrels among them. The corruption is caused by faculty, academic administrators and presidents—the people who have been entrusted with the integrity of the university.

The shame of higher education is how intelligent but compliant men and women rationalize their irresponsibility. As author Page Smith writes: "Faculty members go on about their business as if this corruption at the heart of their universities were none of their business.... When a particularly lurid scandal hits the institution that employs them, some of them rise at faculty meetings to excoriate the culpable individuals and demand reform. But reform never comes."

And never will. Not until faculties, academic administrators and presidents face the truth. The solution to primary abuse in intercollegiate athletics is real accountability: to look at the record.

We will not begin to solve the problem until we face it, which means making available publicly the following information for student-athletes in the revenue-producing sports: the courses completed and being taken (by semester), including course title, instructor, credit hours, and the names

of the student's faculty adviser and dean of the college in which the student is enrolled.

Some will say: "But we already know that there was—and is—abuse." Not really. Not really know. And reform in intercollegiate athletics won't come until we really know.

Some will respond that as much as they would like to help, publishing the courses taken by student-athletes would violate the athletes' right to privacy.

About privacy: It should be protected; it must be balanced with the public's right to know; it should not be allowed to be the last refuge of a hypocrite.

Two opinions:

■ Modify the Family Educational Rights and Privacy Act of 1974 (Buckley amendment) to allow the courses taken by student-athletes on aid to be published.

Efforts to provide for publication of graduation rates of student-athletes acknowledge that the scandal in intercollegiate athletics is national in scope. Making graduation rates public, however, will do little to solve the problem. The question is not how many student-athletes graduate but how many are kept eligible by an institutionalized, systematic program that uses the student and betrays the purpose of the institution. Only the academic record of the student-athlete contains the answer.

Given the endless allegations and the huge sums of money involved, the

public's right to know the conduct of public officials concerning athletics in higher education is certainly equal to the rationale for the public's right to know the salary of the English, music or chemistry professor.

By passing the Buckley amendment without making careful distinctions between public and private information, Congress has impeded the opportunity for the accountability in intercollegiate athletics that some of its members seek.

The irony is that those who are against Federal intervention in intercollegiate athletics turned to Federal intervention in 1974 to protect themselves from disclosing the conduct of faculty and administrators in the courses taken by student-athletes. Thus, modifying the Buckley amendment is not increasing Federal intervention; it is reducing earlier Federal intervention so that universities can demonstrate that their student-athletes are indeed students.

The Family Educational Rights and Privacy Act was well-intentioned but poorly written and deserves review. Who decided where to draw the line between public and private information? Why was the distinction made that the public has the right to know a student's major, height and weight, but that what courses he or she takes is private?

Wouldn't a reasonable distinction be to draw the line between courses

See **Courses**, page 5 ▶

□ Opinions

Schools asked to fill too many roles

Steven B. Sample, president
University of Southern California

San Diego Tribune

"We use our (elementary and secondary) schools as political mechanisms to achieve all kinds of social and political goals.

"We use them as police. We have dismantled the family in America in a way that no other industrial society has, so now we want our schools to be surrogate families, physicians, priests, parents. We want them to be agents of social change, to solve our racial problems. So the schools cannot do their job of teaching English and mathematics, the main job of elementary and secondary schools."

Marketing

David Simmons, director of athletics
Howard University

The Washington Post

On getting more national attention for historically black institutions:

"Part of it is our fault. We need to be more sophisticated with our sports information and marketing. But resources are a problem. When budgets are very tight, you're not going to put money into marketing athletics. But we will get better."

Olympic preparation

Ted Leland, director of athletics
Stanford University

The Chronicle of Higher Education

"(Producing Olympic athletes) is a byproduct of our program. We have a lot of things we're trying to accomplish. Far down the list is the preparation of Olympic athletes."

James L. Jones, director of athletics
Ohio State University

The Chronicle of Higher Education

"I don't think there is a good deal of cooperation,

unfortunately (coordinating NCAA rules and the Olympic effort). I think that's a shame. I think one ought to be able to get a college education and prepare for the Olympics. Both of them are admirable goals."

Student interest

Tom Osborne, head football coach
University of Nebraska, Lincoln

Omaha World-Herald

About a decrease in the number of football tickets sold to students:

"When you look at the student body increasing, I think we've gone from 75 percent of students buying their tickets to maybe 30 percent. And I'm really puzzled over this.

"Hopefully, students aren't mad at us over financial reasons because we don't have any student fees for athletics. I don't think our athletes, over the long haul, have been out of control. I think sometimes the image of college athletics today is probably not what we enjoyed 10, 15, 20 years ago. Maybe students are responding to that image, that athletes get all the breaks and athletes are not students like everybody else. Maybe there's a lot of other things, too."

Athletes after college

Gale Sayers, former athletics director
Southern Illinois University at Carbondale

USA Today

"Such a small percentage of college football players go on to play professional ball. (Teaching) is a way to go on and be a productive citizen....

"The majority of pro players will have to go out one day and find a job, even with all of the big money of today. The Joe Montanas and Randall Cunninghams who don't have to work again are the minority."

Mulcrone passes legacy of success to Slippery Rock

By Steven R. Hagwell
THE NCAA NEWS STAFF

Frank Mulcrone is no stranger to tradition. It was part of his upbringing.

From the first time he visited his father's prominent summer water polo camp to his playing days at perennial power Brother Rice High School, Mulcrone has been a vital link in a continuing legacy of tradition and success.

With such a background, it's not surprising that tradition remains a huge part of Mulcrone's life. Only now, instead of continuing a legacy of tradition, Mulcrone is helping to build one: as a player at Slippery Rock University of Pennsylvania.

Since joining the Slippery Rock program two years ago, Mulcrone has quickly helped mold the Rockets into a powerful team.

Only in its second season as a full varsity program, Slippery Rock, which was funded as a club team before 1991, posted a 26-7 record and school-best seventh-place finish at the 1991 National Collegiate Men's Water Polo Championship. The championship appearance was only the second in school history. Slippery Rock competed at the 1983 championship, finishing eighth.

'Dominant player'

"Frank has brought our program up a complete level," said Rockets' coach Richard Hunkler. "He's very quick in the water, he's very strong, and he has a great ability to adapt to different situations. He's a domi-

The presence of Frank Mulcrone has helped Slippery Rock University of Pennsylvania quickly rise to a new level.

nant player."

Offensively, Mulcrone is certainly in a class reserved for only a few. In only 41 games of varsity competition, including eight games in 1992, Mulcrone has registered 133 goals and 160 points. In 1991, Mulcrone compiled a staggering 99 goals and 116 points.

His efforts not only helped Slippery Rock

to its best year nationally, but garnered him third-team all-America, all-region and all-Eastern most valuable player honors.

"Frank is a scoring machine," Hunkler said. "Most of the time when you find a player who is a natural scorer like Frank is, you find a weakness. Maybe their defense is not as good as it should be, but with Frank his defense also is very strong."

A defensive player

Surprisingly, Mulcrone considers himself a defensive player.

"There is no offense if you don't play defense," he said. "If I go for a steal, I just take it and go with it. If you don't play defense, there's no chance for you to do anything offensively.

"For me to score, I have to play defense and the other guys on the team have to help. I can't do it myself, it's a team effort. I'm just fortunate to have the opportunities I've had...and to be playing on the college level."

It was not that long ago that Mulcrone was unsure he would ever play collegiate water polo.

Growing up in Chicago, Mulcrone always thought he would play at Loyola University (Illinois), like his friends and their friends before them. It was tradition.

"I was thinking about Loyola most of high school," recalled Mulcrone. "It was the place everyone went to."

But Mulcrone never got the chance. Loyola dropped its varsity program shortly

after Mulcrone graduated from Brother Rice.

A friend's call

"I didn't know what to do," recalled Mulcrone, who attended the University of Illinois, Chicago, for one year. "I thought I was done with water polo. Then Joe (Billish) called."

Billish, a former teammate at Brother Rice, was playing water polo at Slippery Rock. After speaking with Billish and visiting the campus, Mulcrone decided Slippery Rock was the place for him.

"I liked the campus, and coach (Hunkler) and I got along pretty well," Mulcrone said. "Things have gone pretty smooth. It's been a pretty easy transition.

"Three guys from my high school were here (Slippery Rock currently has six graduates from Brother Rice High School on its roster) and a couple of guys I played against in the summer. So that helped."

Mulcrone's presence certainly has helped Slippery Rock.

"The biggest benefit Frank has brought to the program is his intensity," Hunkler said. "He practices the way he plays: hard. In most cases, skill people hold back in practice. Frank practices just like he's playing in the NCAAs. His intensity level is very high and that raises everyone else's intensity level."

Courses

To elevate integrity in athletics, make public the course records of student-athletes

► Continued from page 4

taken and grade received? Going to a class is a public act. The result of this public act—what grade the student receives—is a private matter. Same with voting—whether you vote is a public act and is a matter of public record. How you vote—the result of the public act—is private.

Universities need not wait for the Federal government to clean up the poorly worded Buckley amendment. The law, which provides for no penalty except withholding of Federal funds from the institution, provides for voluntary disclosure, and athletes may be asked by the institution for permission to release the titles of the courses they take. The NCAA was not reluctant to invade the student-athlete's privacy when the question of drugs was raised. At my university, each athlete must sign a waiver

stating that he or she agrees to submit to random drug testing.

What justifies such a personal invasion of privacy? One of the reasons listed is "to protect the integrity of the student-athlete and Drake University." Which is the bigger threat to the integrity of our universities: drug use by student-athletes or exploitation (academic fraud) of student-athletes? (As to which is the greater invasion of privacy, have your president stroll across campus asking students two questions: "What courses are you taking?" and "Will you provide me with a urine specimen?")

Modifying the Family Educational Rights and Privacy Act by adding the words "and courses" to "major field of study" or implementing voluntary disclosure provides faculty, alumni and friends of the university the opportunity to obtain the information necessary to assure that the integrity of

the institution is not compromised, while omitting grades protects the privacy of the student-athlete. Simple accountability: "Here are the courses they have me take, who they have me take, and who is responsible."

Make no mistake about it, concern over releasing courses and instructors taken by student-athletes is not primarily a concern for a student-athlete's privacy; it is that faculty and administrators could be exposed for their complicity in the scandal in intercollegiate athletics.

But what about the athletes? Will printing the courses they have completed make them victims? For students who are qualified to do university work and who are interested in obtaining an education, accountability will expose efforts simply to keep them eligible. Accountability will expose any university that robs the student of

power; it will protect well-intentioned student-athletes from becoming victims.

For students who are not qualified to do university work, the present practice of enrolling them and placing them in an activity that will require 30 hours a week, that will be physically exhausting, that will require dealing with public distractions, that will require considerable travel and that will result in missing a large number of classes is a practice that deserves at best our skepticism.

To have any realistic expectations of success, a preparatory program requires that those 30 additional hours per week be devoted to academic work. Those universities that maintain that they provide a real education for student-athletes who are not prepared to do university-level work do indeed accomplish a remarkable feat—so remarkable that they

should want to show it to their colleagues at other institutions and to prospective students and their parents.

Reducing the number of games, coaches and grants-in-aid while increasing admission requirements, graduation rates and the number of academic counselors for student-athletes all sounds nice to those who cry for reform. They are changes that make presidents look good and faculty feel good.

But at base, collectively, it is lip service.

But there is a way. All it takes is a university that is so dedicated, so committed to the search for truth that its faculty pursues it wherever it might lead. It is time, past time for us to face what we do.

Jon Ericson is Ellis and Nelle Levitt Professor of Speech at Drake University.

Investment

Funding for athletics at the high-school level deserves support

► Continued from page 4

Research by the University of Colorado involving 6,799 high-school students found that those who participated in extracurricular activities had an average GPA of 2.960 (4.000 scale), compared to 2.350 for nonparticipants.

A national survey of high-school principals revealed that more than 95 percent believe activities teach valuable lessons that could not be learned in regular classroom routine. High-school activities promote citizenship and help develop school spirit among the student body.

Last year, USA Today reported a

survey of former students, and 33 percent claimed that their most memorable high-school experiences involved sports and extracurricular activities. Eighteen percent listed friendship, and 15 percent identified teachers, classes and subjects.

Perhaps the most impressive statistic is a study by the National Federation that revealed that 96 percent of the dropouts in high schools had not participated in school activities.

Those of us involved in intercollegiate athletics regularly find ourselves defending the value of sports at the college level. It has

been and undoubtedly will continue to be the subject of debate because college athletics has always had its critics.

But even a cursory analysis of the value of high-school sports would lead one to conclude that money spent to support high-school athletics is a wise investment.

Thomas Boswell, the highly respected writer for The Washington Post, stated it better than I in a column entitled "Save Now, Pay Later." Boswell, who covered school sports in the Washington area in the 1970s, observed that order was best maintained when the sports program flourished in a

school. "Twenty years ago, the bad characters (in school) almost always lost to the jocks. Now, the bad guys have guns and money."

Boswell continued, "Shakespeare is great. But if you want to run a public school that works, there's no better place to spend your money than on a strong athletics program that involves as many students as possible in as many sports as possible."

Boswell may not be Shakespeare, but the Bard of Avon could not have said it better.

Charles M. Neinas is executive director of the College Football Association.

Qualifying standards used again

Two of the Association's three membership divisions again will use a qualifying method for the 1993 swimming and diving championships that was first used a year ago.

Last year, the NCAA Executive Committee required Divisions I and III to place a cap on the total number of competitors. Those limits were reached by using automatic and provisional qualifying standards.

Division II, meanwhile, retained its method of using one qualifying standard along with an optional-entry standard that allowed competitors already in the meet to

"Instead of automatic times, we now have a range of times."

■ Timothy Welsh

qualify for another event. That method also will be used again this year.

"We learned last year that the cap system changes the nature of qualifying," said Timothy Welsh, swimming coach at the University of Notre Dame and chair of the Men's and Women's Swimming Committee. "Instead of automatic times, we now have a range of times."

"The key change in Division I this year is to allow relay-only swimmers to swim individual events in the championships for which they have met the optional entry standard."

Division I again will operate with caps of 270 men competitors and 230 women competitors. Division III field size limits will be 239 men and 247 women.

Interpretations Committee minutes

Conference No. 16 September 24, 1992

Acting for the NCAA Council, the Interpretations Committee issued the following interpretations:

Financial aid/graduation or cancellation
1. **Determination of period of award and graduation of aid during period of the award.** The committee reviewed issues related to the period of a student-athlete's financial aid award and determined the following:

- It is not permissible for an institution to decrease a student-athlete's financial aid from the time the student-athlete signs the financial aid award letter until the conclusion of the period set forth in the financial aid agreement, except under the conditions set forth in NCAA Bylaw 15.3.4.1.
- An institution may increase a student-athlete's financial aid between the period when the student-athlete signs the financial aid award letter and the beginning of the period of the award.
- Subsequent to the date on which a student-athlete receives any benefits as part of the student's financial aid grant (which is determined on the first day of classes for a particular academic term or the first day of practice, whichever is earlier), an institution may increase the student-athlete's financial aid if the institution can demonstrate that

such an increase is unrelated in any manner to an athletics reason.

[References: 15.3.4.1 (graduation or cancellation permitted) and 15.3.4.2 (graduation or cancellation not permitted)]

Coaches/agents

2. **Marketing of individuals by coaches.** An athletics department staff member may not engage in any activities that involve the marketing of the athletics ability or reputation of any individual (e.g., receiving compensation for arranging commercial endorsements or personal appearances for former student-athletes). [Reference: 11.1.5 (marketing student-athletes to professional teams/organizations)]

Admissions and graduation-rate disclosure

3. **Provision of graduation-rate information to prospects, prospects' parents, guidance offices and coaches.** The committee reviewed the provisions of 13.3.1.2 and determined the following:

- An institution must provide the graduation-rate data specified in 30.1.2 to a prospect, as well as the prospect's parents, guidance office and coach, at the earliest opportunity after the institution's first arranged in-person encounter with the prospect (or the prospect's parents) or the day before the prospect's signed acceptance of the National Letter of Intent or signed acceptance of the institution's written offer of admission and/or financial aid, whichever is earlier.
- It is permissible for an institution to

use one envelope to provide the graduation-rate report to the prospect and his or her parents and one envelope to provide the report to the prospect's guidance office and coach.

c. If an institution is recruiting more than one prospect in the same sport at a particular high school or two-year college in a given year, it is not necessary to provide the high school or two-year college coach and the guidance office more than one graduation-rate report.

[References: 13.3.1.2 (report distribution) and Council 4/13/92, Item No. 4-k(2)]

Telephone calls

4. **Telephone calls during the conduct of athletics contests.** Institutional staff members may not

As usual, SEC is best in nonconference play

By Gary K. Johnson
NCAA ASSISTANT
STATISTICS COORDINATOR

As has been true in seven of the past nine years, the Southeastern Conference is the best in the nation when playing Division I-AA opponents outside its conference.

This season, the SEC has won 13 games outside its conference while losing only five, which comes out to a .722 winning percentage. But close behind at .714 are last year's runner-up, the Atlantic Coast Conference, and the Pacific-10 Conference, which moves up from sixth place last season. The ACC has won 10 and lost four, while the Pac-10 has a 19-7-1 mark.

The Big Eight, Big East and Western Athletic Conferences are the only others with winning records.

The SEC had a five-year title streak end in 1988 when the Pac-10 compiled a remarkable .794 (27-7) winning percentage — highest in the 1980s. The SEC was on top again in 1989 and 1991, but not in 1990, when the ACC broke through to take the honors.

Last season, the SEC ran away with the title with a .778 (28-8) winning percentage, far outdistancing the second-place ACC at .615 (15-9-1). Third place last year went to the Big East Conference, a newly formed football conference that was 28-21 for a .571 winning percentage.

Other conferences besides those three that had winning records a year ago were the Big Ten (.567), Southwest (.556), Pacific-10 (.552) and Big Eight (.517). All I-AA independents were 39-61-1 for a .392 winning percentage, while this season they are 16-31-1.

Some conferences have plenty of nonconference games left, while others are almost finished with outside games. Here are the standings through October 10.

I-AA Conference	W	L	T	Pct.
Southeastern	13	5	0	.722
Atlantic Coast	10	4	0	.714
Pacific-10	19	7	1	.714
Big Eight	16	10	0	.615
Big East	14	9	1	.600
Western Athletic	12	12	1	.500
Southwest	11	13	1	.462
Big Ten	13	17	1	.438
Mid-American	5	11	2	.350

All independents 18 35 1 .345
Big West 6 14 0 .300

*Games against Division I-AA and nonmajor opponents are deleted.

Although some upsets of I-AA teams by I-AA teams have been publicized widely, such as Citadel's victory over Arkansas and Northern Iowa over Iowa State, the I-AA teams still win a high percentage of these encounters. The I-AA teams have won more than 80 percent (30-7) of the games this season against I-AA opponents. This high winning percentage and the wide variation in the number of such games among conferences are the reasons these games are deleted when comparing the I-AA conferences.

Yankee makes a move

A week ago, the best I-AA conference for victories outside its conference was not a conference at all; it was the independents. But this week, Maine's 42-20 victory over Liberty allowed the Yankee Conference to take the lead from the independents, which were 4-4 for the week.

The Yankee has a .727 winning

percentage with an 8-3 record, and the Southern Conference also moved ahead of the independents with a 7-3 mark. The independents, a group of nine teams, have played 32 games against teams that belong to I-AA conferences and have won 21 of those games for a winning percentage of .656.

Other I-AA conferences with a winning percentage above .500 are the Big Sky and Gateway Football Conferences and the Ivy Group. The Mid-Eastern Athletic Conference is right at .500 after playing 12 games.

Last season, the Gateway won by a landslide with an .810 winning percentage (15-2-2) over the Patriot League, which was .607 (17-11).

Games against Division I-AA foes are deleted because some I-AA conferences play several such games, some play few and still others none. Games against teams in Divisions II or III or the NAIA also are deleted for the same reason.

Here are the standings through October 10:

I-AA Conference	W	L	T	Pct.
Yankee	8	3	0	.727
Southern	7	3	0	.700
All independents	21	11	0	.656
Big Sky	3	2	0	.600
Gateway	9	7	0	.563
Ivy	11	9	0	.550
Mid-Eastern	6	6	0	.500
Southland	5	6	0	.455
Southwestern	4	5	0	.444
Patriot	4	16	0	.200
Ohio Valley	2	12	0	.143

Besides the Gateway and the Patriot, the other conferences a year ago with winning records were the Southern (.563), Big Sky (.556) and Yankee (.522). All I-AA independents last year were 25-28 for a .472 winning percentage.

Michigan sets attendance mark

Michigan set a single-game attendance record Saturday as 106,788 fans watched the Wolverines defeat rival Michigan State, 35-10. This record is nothing new for Michigan Stadium, which holds all 10 spots of the top 10 list for single-game attendance. The previous record was 106,255 on November 17, 1979, when the Wolverines lost at home to Ohio State, 18-15.

Committee endorses draft proposal again

Citing the benefit to student-athletes, the Professional Sports Liaison Committee again has endorsed a proposal that would allow student-athletes who declare themselves available for the professional draft the opportunity to retain their collegiate eligibility.

At its meeting September 30-October 1 in Kansas City, Missouri, the committee reiterated its support for a proposal that would permit student-athletes (specifically underclassmen) to enter a professional draft in a particular sport and be allowed 30 days after selec-

tion in the draft to make a decision to turn professional or return to school.

The committee recommended the proposal at its March meeting, but the NCAA Council declined to sponsor proposed legislation.

The revised proposal would contain the same language as the committee's initial proposal, with the following exception: The new proposal would limit to one the number of times a student-athlete could declare for a professional draft and still retain collegiate eligibility.

Currently, under NCAA Bylaw 12.2.4.2, a student-athlete loses collegiate eligibility in a particular sport when that individual asks to be placed on the draft list or supplemental draft list of a professional league in that sport. That is true regardless of whether the student-athlete withdraws his or her name from the draft list before the actual draft; remains on the list but is not drafted, or is drafted but does not sign an agreement with any professional athletics team.

It is the committee's position

that the proposal would benefit greatly student-athletes who declare themselves eligible for a professional draft and are not drafted as high as they expected or not at all. In contrast, student-athletes in the sports of baseball and ice hockey are drafted without their consent and have an opportunity to gauge their market value without jeopardizing their eligibility.

The committee requested the staff to conduct a survey of head coaches in Division I basketball and football regarding this proposal.

Walker gets USOC post

LeRoy Walker was elected as the 23rd president of the U.S. Olympic Committee October 11.

Walker, 74, of Atlanta, is the first black president in the group's 92-year history.

After his selection, Walker told The Associated Press that he welcomes the constant reminder of his race.

"I don't mind people saying that I was the first black president because I know that I went through all this and achieved it on merit," he said. "I hope this sends a message to all those people who have been disenfranchised to not lose faith and to stay the course."

Walker said his immediate goal is to take his staff on a retreat to discuss continuing programs.

"The public needs to know the difference between the Olympic movement and the Olympic Games and what goes on during those four years.

"Also, I'd like more ownership to fall on the citizens of the United States for their contributions."

Walker succeeds William Hybl, who held the post for 13 months after his predecessor, Robert Helmick, resigned.

After balloting by 95 voting members of the USOC Board of Directors, George Steinbrenner, Michael B. Lenard, and Ralph Hale were elected vice-presidents.

Other highlights

In other actions at its September 30-October 1 meeting in Kansas City, Missouri, the Professional Sports Liaison Committee:

- Directed the NCAA staff to develop a proposal to permit head coaches to "contact" — without compensation — an agent, professional sports team or professional sports organization on behalf of a student-athlete. The proposal would require any contact to be documented with the institution's career counseling panel or director of athletics. Such action currently is prohibited. The staff was directed to include this proposal in its Division I coaches survey.

- Met with the chair of the National Football League's College Relations Committee to discuss communication issues involving the NFL and NCAA and matters relating to NFL draft regulations.

- Endorsed the Ad Hoc Committee on Football Issues formed by Richard D. Schultz, NCAA executive director.

- Met with Major League Baseball officials and discussed amateur draft rules, agent representation of high-school prospects and the concept of permitting student-athletes to play in summer professional baseball leagues — including participation by college coaches — in consideration of Major League Baseball making financial commitments to the NCAA.

Also discussed was the possibility of making August 15 the new cutoff date for Major League Baseball to sign drafted student-athletes. In addition, the officials and committee reviewed the feasibility of conducting regional tryout camps financed by Major League Baseball and sanctioned by the NCAA. It is believed such camps would benefit college baseball by reducing recruiting and evaluation costs.

- Requested that the NCAA executive director form an Ad Hoc Committee on Baseball Issues to represent college coaches, athletics directors and commissioners in studying the regional tryout camp concept and to communicate with Major League Baseball.

- Met with agents representing athletes in the sports of baseball, basketball and football and discussed the proper role of the player agent, the regulation of agents, agent-registration laws, representation of student-athletes with remaining eligibility, and early educational and career counseling programs for student-athletes.

- Met with a representative of a nonprofit firm that specializes in educating attorneys on advising student-athletes without eligibility on an hourly fee basis. Funding of the nonprofit firm's training and educational videos for distribution to member institutions was discussed. The committee voted to form a subcommittee to study alternatives for implementing a model format for educating student-athletes on agents and negotiations.

- Reviewed the selection process and loan requirements for participants in the exceptional student-athlete disability insurance program, and voted to recommend that the executive director include ice hockey student-athletes in the program.

- Declined to recommend that NCAA legislation be amended to permit a member institution to conduct an academic athletics enrichment program for young men and women in conjunction with Major League Baseball.

- Recommended to the Council that a university staff member who represents former student-athletes as an agent not be permitted to serve on the university's career counseling panel.

- Requested the NCAA staff to: (1) continue exploring outside funding for an education seminar for enrolled student-athletes with professional athletics potential, (2) study equipment-disposal policies of professional sports organizations, and (3) ascertain why the NCAA Committee on Competitive Safeguards and Medical Aspects of Sports does not support a ban on tobacco products from practice and competition in all sports for players, coaches and officials.

Division I-AA leaders

Through October 10

RUSHING table with columns: CL, G, CAR, YDS, AVG, TD, YDSPG. Lists top players like Keith Elias, Kelvin Anderson, etc.

PASSING EFFICIENCY table with columns: CL, G, ATT, CMP, INT, PCT, YDS, TD, PCT, RATING, POINTS. Lists top passers like Greg Lilly, Ricky Jordan, etc.

TOTAL OFFENSE table with columns: CAR, GAIN, LOSS, NET, YDS, PLS, YDS, YDPL, YDS, YDSPG. Lists top offensive teams like Alcorn St., Doug Nussmeier, etc.

SCORING table with columns: CL, G, TD, XP, FG, PTS, PTPG. Lists top scorers like Harry Brown, Eric Gant, etc.

I-AA single game highs

PLAYER and TEAM sections listing single game highs for rushing, passing, receiving, and scoring.

Rushing yards: 570, Citadel vs. East Tenn. St., Sept. 19. Passing yards: 547, Weber St. vs. Montana St., Sept. 26.

Sparacio

Sardo

RECEPTIONS PER GAME table with columns: CL, G, CT, YDS, TD, CTPG. Lists top receivers like Glenn Krupa, Mike Wilson, etc.

Last week's bests

PLAYER and TEAM sections listing best performances from the previous week.

FIELD GOALS table with columns: CL, G, FGA, FG, PCT, FPG. Lists top kickers like Mike Dodd, Dennis Durkin, etc.

INTERCEPTIONS table with columns: CL, G, NO, YDS, TD, IPG. Lists top interception artists like Torrence Forney, etc.

ALL-PURPOSE RUNNERS table with columns: CL, G, RUSH, REC, PR, KOR, YDS, YDSPG. Lists top all-around players like Keith Elias, etc.

PUNT RETURNS table with columns: CL, NO, YDS, TD, AVG. Lists top punt returners like O. Miller, etc.

KICKOFF RETURNS table with columns: CL, NO, YDS, TD, AVG. Lists top kickoff returners like Kevin Robinson, etc.

PUNTING table with columns: CL, NO, AVG. Lists top punters like Steve Krieger, etc.

Division I-AA team

Through October 10

PASSING OFFENSE table with columns: G, ATT, CMP, INT, PCT, YDS, YDS/ATT, TD, YDSPG. Lists top passing offenses.

RUSHING OFFENSE table with columns: G, CAR, YDS, AVG, TD, YDSPG. Lists top rushing offenses.

RUSHING DEFENSE table with columns: G, CAR, YDS, AVG, TD, YDSPG. Lists top rushing defenses.

NET PUNTING table with columns: PUNTS, AVG, RET, YDS, NET. Lists top net punting teams.

PASS EFFICIENCY DEFENSE table with columns: G, ATT, CMP, INT, PCT, YDS, YDS/ATT, TD, YDSPG. Lists top pass defenses.

TOTAL DEFENSE table with columns: G, PLAYS, YDS, AVG, TD, YDSPG. Lists top total defenses.

SCORING OFFENSE table with columns: G, PTS, AVG. Lists top scoring offenses.

TEAM PUNT RETURNS table with columns: G, NO, YDS, TD, AVG. Lists top team punt returners.

TURNOVER MARGIN table with columns: FUM, INT, TOTAL, MARGIN/GAME. Lists top turnover margin teams.

SCORING DEFENSE table with columns: G, PTS, AVG. Lists top scoring defenses.

TEAM KICKOFF RETURNS table with columns: G, NO, YDS, TD, AVG. Lists top team kickoff returners.

TEAM PUNT RETURNS table with columns: G, NO, YDS, TD, AVG. Lists top team punt returners.

Division III team Through October 3

PASSING OFFENSE and PASS EFFICIENCY DEFENSE tables. Lists team statistics for passing offense and defense.

SCORING OFFENSE and SCORING DEFENSE tables. Lists team statistics for scoring offense and defense.

RUSHING OFFENSE, RUSHING DEFENSE, and TOTAL DEFENSE tables. Lists team statistics for rushing offense, defense, and total defense.

■ Institutional secondary infractions

DIVISION I					
How reported	Sport	Citation	Facts	Institutional action	NCAA action
Conference	Women's softball	B 13.4.1	Prospect received a questionnaire with cover letter as a sophomore in high school. In separating prospects by year, young woman was placed in wrong category.	Coaching staff will monitor letters more closely, and this violation will be distributed to all personnel for their education/information.	No eligibility consequences; no further action.
Conference	Women's basketball	B 16.12.2.1	Representative of institution's athletics interests provided transportation for a student-athlete and expenses to fill a prescription drug. Actions occurred related to the young woman having her wisdom teeth pulled. Student-athlete has no eligibility remaining.	Institution will revise "booster pamphlet" and required coach to write article for local paper on "dos and don'ts" of representatives.	Required institution to request young woman to repay cost of transportation and prescription drugs.
Self-reported	Men's basketball	B 13.13.1.5.1	Institution employed prospect who was an award winner. Young man was assistant coach's son whom he asked to fill in for an employee who did not show up for work.	Prospect returned earnings from camp and institution will not recruit young man, and is developing means to screen future employees of camp.	No eligibility consequences; no further action.
Self-reported	Men's soccer	B 17.14.12.1-(a)	Team began practice one day before permissible date.	Began preseason practice one day later in the fall of 1992, and compliance officer reviewed legislation with coaching staff and coordinated declaration of playing practice seasons.	No further action.
Self-reported	Baseball	B 17.2.8.1.4.1	Volunteer coach agreed to coach summer league that included student-athletes from institution's team. Coach did not intend to return to institution at the time he decided to coach summer league.	Coach required to attend 10-hour series of rules-education workshops, and institution withheld coach from involvement with college's team for two-month period.	No further action.
Conference	Men's track, outdoor	B 13.2	Prospect used coach's credit-card number to charge \$1,717.75 in telephone calls. Young man secured number by overhearing it being given by coach to telephone operator.	Required repayment and ceased recruitment of young man.	Prospect is ineligible unless restored through NCAA appeals process.
Conference	Men's swimming	B 13.1.6.2-(d)	Head coach had contact with prospect's parents during U.S. Olympic Trials. Conversation lasted 10 minutes and did not relate to the university.	Reviewed legislation with coach. If young man desires to attend institution, university will declare him ineligible and petition for restoration.	Prospect is ineligible unless restored through NCAA appeals process.
Conference	Men's basketball	B 11.7.4.2	Head coach transported representative of institution's athletics interests to watch prospect compete. Prospect had signed letter of intent three months earlier.	Restricted coach from evaluating prospects off campus during first three days of July 5-31 evaluation period.	No further action.
Conference	Men's basketball	B 13.9.1, 13.9.2	Head basketball coach from local high school was invited to participate in annual golf tournament hosted by institution and won an award. High-school coach previously had been assistant coach at university. Institution has no plans to recruit from that high school.		Admonished institution to avoid recurrence.
Conference	Women's volleyball	B 13.4.1	Prospect received recruiting materials as high-school sophomore. Coach believed prospect was older.	Reviewed legislation with coach.	No eligibility consequences; no further action.
Conference	Women's swimming	B 14.1.6.2	Student-athlete participated in four contests while not enrolled in full-time program of studies. Coach knew young woman was ineligible, but allowed her to compete anyway. Student-athlete has graduated.	Forfeited four meets and reprimanded coach.	No further action.
Conference	Men's basketball	B 13.11.2.1	Head coach was interviewed during broadcast of high-school all-star game. Coach was convinced by network that he could appear if he did not comment about prospects.	Conference reviewed legislation.	Required institution to admonish coach to avoid recurrence of similar violation.
Conference	Women's volleyball	B 16.12	Head coach provided meal at local restaurant for four seniors (in addition to annual awards banquet, which included a meal).	Required student-athletes to repay cost of meal, reviewed legislation with coaching staff members and reprimanded coach.	No further action.
Self-reported	Women's volleyball	B 13.7.5.2	Head coach allowed prospect to sit on team bench during a game.		Required institution to preclude head coach from all recruiting activities on January 31, 1993.
Conference	Women's tennis	B 13.1.1.3	Head coach contacted student-athlete who was enrolled at another institution. Coach was unaware that young woman had enrolled at another institution.	Reprimanded coach, terminated recruitment of young woman, informed other institution of actions and reviewed legislation with coaching staff.	Student-athlete is ineligible unless restored through NCAA appeals process.
DIVISION I-A					
Self-reported	Football	B 14.2	Student-athlete participated in five seasons of competition in six years.	Reduced financial aid awards by two for 1993-94; implemented use of a form to be completed by student-athletes requiring more information regarding any practice and participation in athletics and forfeited contests to two non-conference opponents. (Conference will not require forfeiture of two conference games because of young man's limited contribution.)	No further action.
DIVISION I-AA					
Self-reported	Football	B 15.4.5	Five senior student-athletes received excessive financial aid inasmuch as while being on full scholarship, they received compensation through employment. Student-athletes had no remaining eligibility at time they were employed.	Reprimanded strength coach (who recommended young men for the jobs) and advised him that employment was not allowed.	Required institution to submit report outlining procedures for monitoring student-athletes' employment.
DIVISION II					
Self-reported	Men's cross country, men's track, outdoor	B 13.4.2-(b)	Assistant coach sent videotapes of institution's campus to four foreign prospects. Tapes were not compatible with prospects' machines, so they did not view videotapes. In addition, coach is no longer at institution or in coaching profession.	Reviewed legislation with coaching staff.	No further action.
Self-reported	Men's basketball	B 13.1.6.2	Assistant coach had contact with prospect at site of competition. Contact was initiated by high-school coach, and assistant coach is no longer employed at institution.		Prospect is ineligible unless restored through NCAA appeals process.
DIVISION III					
Conference	Baseball	B 14.01.1., 14.01.2	Student-athlete participated while not enrolled (after registration was cancelled).	Developed procedures to ensure that personnel are informed when enrollment changes occur. Conference required institution to forfeit contests in which ineligible student-athlete participated.	Student-athlete is ineligible unless restored through NCAA appeals process.
Self-reported	Baseball	B 16.12.2.1	Student-athletes were allowed to use frequent-flyer mileage credits for personal use.	Precluded student-athletes from continued use of frequent-flyer mileage.	No eligibility consequences and required institution to submit documentation regarding its education program for student-athletes, institutional staff members and institution's travel agency regarding involved legislation.

NCAA Record

CHIEF EXECUTIVE OFFICERS

John R. Berthold, former lecturer in management in the graduate school of business at Stanford, named president at Menlo...**J. Fred Corriher Jr.**, former chair of the board of trustees at Catawba, appointed acting president...**Carlos Hernandez**, provost and vice-president for academic affairs at Jersey City State, appointed acting president.

Dwayne C. Nuzum announced his retirement as chancellor of Colorado Colorado Springs, effective January 1993...**Nathanael Pollard Jr.**, vice-president for academic affairs at Virginia State, named acting president there...**Paul G. Risser** appointed president at Miami (Ohio), effective January 1. He currently is provost and vice-president for academic affairs at New Mexico.

DIRECTORS OF ATHLETICS

Gail H. Davis, associate AD and women's gymnastics coach at Rhode Island College, named interim AD at the school. She replaces **William M. Baird**, who retired after a 27-year career at the institution...**Timothy J. Dillon**, AD at North Carolina-Asheville, selected as director at Alaska Anchorage. He will remain at North Carolina-Asheville through January 1.

ASSOCIATE DIRECTORS OF ATHLETICS

Scott A. Woodburn appointed associate AD for external affairs at Rhode Island after serving since 1989 as director of advancement for athletics and recreation in the institution's division of university relations. Also at Rhode Island, **Lauren Anderson** replaces **Eleanor Lemaire**, who recently retired. Anderson has served as women's cross country and indoor and outdoor track coach...**Jim Harkema** named associate AD for game operations at Eastern Michigan after resigning as the school's head football coach.

ASSISTANT DIRECTOR OF ATHLETICS

Joseph A. Quinlan Jr., NCAA assistant

Bob Valvano named at St. Mary's (Maryland)

Bob Valvano, men's basketball coach at Catholic from 1989 until earlier this year, was appointed as head coach at St. Mary's (Maryland), succeeding **Jay Gardiner**, who gave up the post to concentrate on his duties as athletics director.

Valvano, who also has served as head coach at St. Francis College (New York) and Kutztown, has 15 years of coaching experience in all three NCAA divisions.

"Bob Valvano is a spirited coach with a commanding presence and understanding of the game of basketball," St. Mary's (Maryland) President **Edward T. Lewis** said. "He has respect for the game, understands well the concept student-athlete and shares the values of this college community. We are very pleased to welcome him to St. Mary's and to give him the reins of the men's basketball program. He is a leader."

Valvano

director of the Division I Men's Basketball Championship since 1989, chosen as assistant AD for external affairs at St. Bonaventure.

COACHES

Baseball—**Carl Tebon**, an assistant at Virginia Wesleyan the past three years, named head coach at Wisconsin-River Falls.

Men's basketball assistants—**Joseph McCarthy**, an aide the past five years at Carthage, named to a similar post at Rockford...**James Daye**, a former player at North Carolina, joined the staff at Niagara as a part-time assistant, replacing **Rob Lanier**...**Blaine Russell** elevated from graduate assistant to assistant at Nicholls State...**John Gullatt** selected at Northeast Louisiana...**Dave Miller**, former assistant at Army, Arizona State and Texas, and **Tommy Tubbs**, pre-

viously an aide at Oklahoma, selected at Lamar.

John Pigatti, a graduate assistant last year at Texas A&M, chosen at Western Michigan...**Damon Goodwin** selected at Wittenberg, where he also was named men's and women's cross country coach.

Women's basketball—**Erin Shaughnessy** selected at William Paterson...**Janet Conner**, who has served the past 15 years as girls' basketball coach at Benton Central High School in Oxford, Indiana, named interim coach at Northeast Missouri State.

Women's basketball assistants—**Lois Heeren** hired at Southwest Texas State...**Lori Blade**, a former player at Southern Illinois-Edwardsville, named there as an aide after serving the past four years as an assistant girls' basketball, softball and volleyball coach at Carrollton

Wright formerly was assistant sports information director at La Salle.

Strength coach—**Mike Turk** selected at Marquette, where he was promoted from part-time to full-time assistant men's and women's track and field coach.

Assistant trainers—**Tim Koberna** selected at Western Michigan after serving there the past two years as a graduate assistant trainer... **Cathy Stoner** hired at Millersville after serving the past two years in a similar post at Allegheny.

ASSOCIATIONS

Joan Broderick named director of the United States Field Hockey Association, replacing **Carolyn Moody**, who resigned. Broderick previously was director of academic support services at La Salle.

The Division I-A Athletics Directors Association announced the following appointments: **Cedric Dempsey**, director of athletics at Arizona, president; **Jim**

Jones, Ohio State AD, first vice-president; **Warner Alford**, Mississippi AD, second vice-president, and **DeLoss Dodds**, Texas AD, third vice-president.

Etc.

SPORTS SPONSORSHIPS

Barry announced it has added men's and women's crew, beginning with the 1992-93 academic year.

CORRECTIONS

Due to an editor's error, the years in which Stanford head football coach **Bill Walsh** coached the San Francisco 49ers to Super Bowl championships were reported incorrectly in the October 5 issue of The NCAA News. Walsh's Super Bowl victories were in 1982, 1985 and 1989.

Due to erroneous information received

Deaths

Vandy Christie, former men's tennis coach and director of athletics development at Northwestern, died September 30 after a lengthy illness. He was 55. Christie coached the Wildcats' men's tennis team from 1976 to 1983, compiling a record of 125-94 and finishing second in the Big Ten Conference championships three times. He was development director from 1984 to 1990.

Ted Dailey, a longtime assistant football coach at Syracuse, died October 3 at Crouse-Ingersoll Memorial Hospital in Syracuse, New York, after a brief illness. He was 84. Dailey, who was a receiver at Pittsburgh and later spent one year as a player with the Pittsburgh Steelers, coached at Syracuse from 1949 to 1974. He also coached at Boston College and Lafayette... **John Dromo**, head men's basketball coach at Louisville from 1967 through early in the 1970-71 season, died September 29 at his home in Louisville at

by The NCAA News, one of the positions to which **Jodi Pezck Burns** was named at Clarion was reported incorrectly in the Record section of the September 14 issue of the News. Burns was chosen as head women's softball and assistant women's volleyball coach at the institution.

Notables

Sharm Schuerman, a former player and head basketball coach at Iowa, named head coach for Athletes in Action, the athletics branch of the Campus Crusade for Christ ministry... **Jay Hoffman**, former head men's soccer coach at Fredonia State, and **Glenn Myernick**, an aide at Hartwick since 1986, chosen as national coaching coordinators for U.S. Soccer.

age 76. Dromo's coaching tenure at Louisville was cut short when he suffered a heart attack after a game in Tulsa. He finished with a 68-23 career record.

John Hollinden, former Southern Indiana basketball player, died October 5 of a heart attack in Evansville, Indiana. He was 34. Hollinden was paralyzed in an automobile accident in 1981 and sustained further injuries in a 1984 crash. Infections led to the amputation of both legs below the knee in January 1991... **John R. Miltner**, president at Millikin, died September 6 in Champaign, Illinois, at age 46.

James A. Van Fleet, a retired U.S. Army General and former head football coach at Florida, died September 23. He was 100. Van Fleet, a classmate of former President **Dwight D. Eisenhower** and Gen. **Omar Bradley** while at West Point, was an assistant coach at Florida from 1921 to 1922 and became head coach for two seasons in 1923.

Protocol changes

The NCAA Executive Committee has approved the following changes to the 1992-93 Drug-Testing Program Protocol. Additions to the protocol are in bold type; deletions are in italics.

- 5.3.1 At NCAA team championship events, when *scheduled* competition begins at 9 p.m. or later local time, student-athletes on the losing team will be notified according to Section No. 5.3. Student-athletes on the winning team will be notified according to Section No. 5.3 but may defer testing until the next morning.
- 8.2.2.7 A positive finding may be appealed by the institution to the competitive safeguards committee or a subcommittee thereof. The institution shall notify the student-athlete of the positive test and of the right of appeal.
- 8.2.2.7.1 The institution shall appeal if so requested by the student-athlete.
- 8.2.2.7.2 Such an appeal will be conducted by telephone conference on the date that the laboratory's test results of specimen B are known, with the student-athlete being given the opportunity to participate therein. *A technical expert may serve as a consultant to the committee in connection with such appeals. Notification by the institution of intent to appeal must be given to the NCAA within 12 hours of the initial notification. The student-athlete may have others available to participate on the call on his/her behalf.*
- 8.2.2.7.3 **Copies of reports from the laboratory that contain results from the A specimen and B specimen will be forwarded to the director of athletics prior to the appeal call.**
- 8.2.2.7.4 **A technical expert may serve as a consultant to the committee in connection with such appeals. Notification by the institution of intent to appeal must be given to the NCAA within 12 hours of the initial notification.**
- 8.2.2.7.35 The crew chief may serve as a consultant to the committee in appeal phone calls involving matters of collection protocol.
- 8.2.3 Time constraints regarding notification of results, B specimen testing and appeals may be modified by the institution and by the NCAA upon mutual agreement of both.

I-A ADs support certification

Division I-A athletics directors have voted overwhelmingly to support the certification proposal that will be considered at the NCAA Convention in January.

The proposal was presented to the Division I-A Athletics Directors Association at a recent meeting in Tucson, Arizona, by **Joseph N. Crowley**, president of the University of Nevada and chair of the NCAA Special Committee on Certification.

Besides endorsing the legislation, the I-A athletics directors voted to make several significant recommendations to the certification committee.

■ They voted unanimously to recommend that at least 50 percent of the membership of the NCAA Committee on Certification (the committee that would be formed if the plan is approved) be representative of I-A schools.

■ They voted unanimously to recommend that the I-A presidents be strongly encouraged to be involved in the visitation process as members of the peer-review teams.

■ They voted unanimously to request that the certification committee of the Division I-A athletics directors association poll its membership and develop a pool of

experts in the areas of rules compliance, academic integrity and financial integrity. This pool, when formed by the I-A committee, will be sent to the NCAA certification committee with the recommendation that individuals from this pool be included on the peer-review teams that visit I-A schools. The pool will include compliance officers, chief financial officers of athletics programs, academic counselors and athletics directors of I-A schools.

■ It was recommended unanimously that only I-A representatives be members of the peer-review teams that visit I-A schools.

NCAA to address admissions group

Representatives from the NCAA compliance services and legislative services divisions will make presentations at the regional meetings of the Associations of Collegiate Registrars and Admissions Officers over the next four months.

The NCAA representatives will provide audiences with updates on current topics such as proposed legislation for athletics certification, graduation-rates reporting, and application and implementation of eligibility legislation. They also will review the resources that are available for registrars and admissions officers and will provide an overview for using the NCAA Guide to Eligibility.

Sessions involving NCAA representatives also will involve a question-and-answer period with personnel representing Divisions I and II institutions.

Also, NCAA Compliance Representative **N. Bea Pray** said she has organized a second presentation covering the requirements for reporting enrollment and persistence rates in preparation for meeting the July 1, 1993, reporting deadline established by the Federal Student Right-to-Know Act. Pray said the session would be exclusively for personnel representing NCAA Divisions II and III members.

The regional meeting schedule: ■ Upper Midwest Association of Collegiate Registrars and Admissions Officers, October 25-27, St. Paul, Minnesota. NCAA representative: **N. Bea Pray**.

■ Carolinas Association of Collegiate Registrars and Admissions Officers, November 1-4, Myrtle Beach, South Carolina. NCAA rep-

resentative: **Pray**.

■ New England Association of Collegiate Registrars and Admissions Officers, November 4-6, Danvers, Massachusetts. NCAA representatives: **Pray** and **Stan Wilcox**.

■ Middle States Association of Collegiate Registrars and Admissions Officers, December 1-3, Atlantic City, New Jersey. NCAA representatives: **Pray** and **Wilcox**.

■ Southern Association of Collegiate Registrars and Admissions Officers, February 14-17, 1993, Fort Worth, Texas. NCAA representatives: **Pray** and **Shane Lyons**.

NCAA representatives also will attend the national meeting of the American Association of Collegiate Registrars and Admissions Officers April 18-23, 1993, in Orlando, Florida.

Impact of conference liaisons among topics for FARA

Among the topics of discussion at the Faculty Athletics Representatives Association annual fall meeting October 22-23 in Atlanta will be the impact of a recently created network of conference liaisons to the association.

A portion of the meeting, to be held at the Hyatt Atlanta Airport

hotel, will be devoted to a group discussion involving the faculty athletics representatives appointed by their member conferences as liaisons to the association, marking the first such formation.

In addition to ratifying the document "Role of the Faculty Athletics Representative" (see February

5, 1992, issue of The NCAA News), members will hear a review of the NCAA Academic Performance Study by Thurston E. Banks, faculty athletics representative at Tennessee Technological University.

Nicolas L. White, faculty representative at Memphis State University, will address the association

concerning FARA's Academic Review Committee Report. In a discussion titled "FAR—Working with Compliance Coordinators and Academic Advisors," members will hear from Britton Banowsky, representing the National Association of Athletics Compliance Coordinators, and Ferna Phillips of the National Association of Academic Advisors for Athletics.

Robert M. Sweazy, faculty representative at Texas Tech University, will address the group with a report on the NCAA Special Committee to Review the NCAA Penalty Structure, and Carla Hay, faculty representative at Marquette University, will report on the NCAA Gender-Equity Task Force.

The Market

Readers of The NCAA News are invited to use The Market to locate candidates for positions open at their institutions, to advertise open dates in their playing schedules or for other purposes relating to the administration of intercollegiate athletics.

Rates: 55 cents per word for general classified advertising (agot type) and \$27 per column inch for display classified advertising. (Commercial display advertising also can be purchased elsewhere in the newspaper at \$12 per column inch. Commercial display advertising is available only to NCAA corporate sponsors, official licensees and member institutions, or agencies acting on behalf of intercollegiate athletics.)

Deadlines: Orders and copy for The Market are due by noon Central time six days prior to the date of publication for general classified space and by noon seven days prior to the date of publication for display classified advertisements. Orders and copy will be accepted by mail, fax or telephone.

For more information or to place an ad, call classified advertising at 913/339-1906, ext. 3000, or write NCAA Publishing, 6201 College Boulevard, Overland Park, Kansas 66211-2422, Attention: The Market.

NCAA

Assistant Director of the Division I Men's Basketball Championship

The NCAA is accepting applications for the position of assistant director of the Division I men's basketball championship.

The assistant director of the Division I men's basketball championship is a staff liaison with the institutions/conferences and local organizing committees that serve as hosts for all sessions of the championship. The assistant director works closely with each host in all aspects of tournament administration. Included in the assistant director's responsibilities are: staffing tournament sessions, public relations, transportation, meeting planning, game management and related equipment; and handling selected projects as assigned by the director of the Division I men's basketball championship.

This position requires a clear understanding of the NCAA, strong verbal and written communication skills; excellent organizational and administrative ability; flexibility to travel extensively. At least two years athletics administration experience including work in the NCAA national office, a Division I conference or an NCAA member institution is preferred. Previous event-management or media-relations experience is also desired.

The starting salary for this position is \$36,000.

Interested candidates should send a letter of application, resume and a list of references to:

William R. Hancock
Director of the Division I Men's Basketball Championship
NCAA
6201 College Boulevard
Overland Park, Kansas 66211-2422

CLOSING DATE FOR APPLICATIONS: October 26, 1992
The NCAA is an Equal Opportunity Employer.

GUILFORD COLLEGE

SPORT MANAGEMENT: Two-year appointment, beginning August 1, 1993. Seeking a dynamic teacher to direct the undergraduate program. Terminal degree in Sport Management or related field is preferred. Work experience is highly desirable. Teaching responsibilities include courses as recommended in NAFSE Guidelines for Undergraduate Programs in Sport Management—e.g., Legal Aspects of Sport, Sport Marketing, Sport Administration, etc. Other duties include advising, supervision of internships and committee service. Guilford College, Greensboro, North Carolina, has approximately 1,600 students and is affiliated with Society of Friends. Send a resume and three letters of recommendation to Kathryn Adams, Academic Dean, Guilford College, 5800 W. Friendly Avenue, Greensboro, NC 27410. Call Dr. Michael Welch to answer questions or discuss the position (919/316-2290). Review of applications will begin on December 1. AA/EOE.

■ Legislative assistance

1992 Column No. 35

Bylaw 13.1.2.4-(b)

Telephone calls by institutional staff members

Divisions I and II institutions should note that staff members may not telephone a prospect (or the prospect's parents or legal guardians) before July 1 after the prospect's completion of the junior year in high school; thereafter, staff members may not telephone a prospect (or the prospect's parents or legal guardians) more than once per week but may accept collect calls from the prospect. During its June 6, 1991, conference, the Interpretations Committee determined that it is not permissible for a member institution's staff member to telephone a prospect more than once a week, even if additional telephone calls are not made for purposes of recruitment (e.g., responding to a telephone message left by the prospect).

Bylaw 13.9.2.1

Gifts at coaches clinic

NCAA institutions should note that in accordance with Bylaw 13.9.2.1, an institution may not provide gifts to high-school, preparatory school or two-year college coaches in conjunction with its coaches clinic or other events. During its February 25, 1992, conference, the Interpretations Committee determined that an institution may not provide a door prize to a high-school coach in conjunction with its

institution's coaches clinic, even if the cost of the prize is included in the cumulative admissions fee (i.e., the admissions fee charged to each person, when combined, would cover the cost of the prize).

The committee noted that a high-school coach may receive a door prize selected in a random drawing at an institution's coaches clinic, provided the prize is donated by a sponsor outside the institution (e.g., athletics manufacturer or distributor). Further, materials (e.g., clipboards, file folders) may be provided to each person attending the clinic, provided such items are included in the registration or admissions fee for each person.

Bylaw 11.7.5.1.1

Limitations on the number of coaches who may recruit prospects at any one time

Division I institutions should note that in accordance with Bylaw 11.7.5.1.1, if the limit of coaches who are permitted to contact or evaluate prospects off campus at any one time is reached, another coach in that same sport may not leave campus to engage in off-campus contacts or evaluations until one of the other coaches who is off campus actually returns to campus. During its October 1, 1991, conference, the Interpretations Committee determined that if the maximum number of authorized coaches are recruiting off campus and another coach is scheduled to depart for recruiting purposes when one of those coaches returns, that coach may depart at the scheduled

time if the incoming coach encounters a transportation delay (e.g., flight difficulties), provided the departing coach does not leave before the time that the incoming coach is scheduled to return to the home transportation site (e.g., airport terminal, bus terminal). However, the coach who is encountering the transportation delay may not engage in any additional recruiting activities on that trip. Further, a coach who combines nonrecruiting travel (e.g., vacation, speaking engagement) with a recruiting trip may be replaced for purposes of recruitment by another authorized coach, provided the coach being replaced does not engage in additional recruiting activities until after he or she has returned to the institution's campus. The coach leaving campus may depart not earlier than the time the replaced coach normally would return to the home transportation site (if the coach had been returning to campus).

This material was provided by the NCAA legislative services staff as an aid to member institutions. If an institution has a question it would like to have answered in this column, the question should be directed to Nancy L. Mitchell, assistant executive director for legislative services, at the NCAA national office. This information is available on the Collegiate Sports Network.

News quiz answers: 1-(c). 2-(b). 3-(a). 4-True. 5-(d). 6-True. 7-(c).

Gender equity

Task force faces several important issues, stresses flexibility of gender-equity principle

► Continued from page 1

have been examined in more depth.

Championships. Opportunities for women should be broadened in existing and emerging sports.

Committee structure. Women fall well short of equal representation on NCAA committees, but it was noted that the composition requirements of some committees preclude women (for example, many more men than women are

athletics directors and faculty athletics representatives). The subcommittee recommended a review of committee composition.

Conference grants. The affirmative-action component of the program should continue to be emphasized.

Financial aid. Creative funding methods should be identified. These could involve support from the government, corporate entities or related organizations.

Personnel hiring practices. A means

of rewarding institutions that aggressively hire women for administrative positions should be identified.

Revenue distribution. Institutions that offer a broad selection of existing and emerging women's sports should be rewarded through the Association's revenue-distribution program.

The NCAA standards subcommittee probably will divide into two subgroups at the next meeting, one to examine financial aid con-

siderations and the other to look at certification.

Institutions

In the institutional standards subcommittee, recommendations were made regarding the following topics:

Title IX. A concise list of what Title IX stands for should be created.

Financial resources. Ways to increase resources should be explored, along with ways of sharing

existing resources.

Source book. A collection of effective ideas that further gender equity should be assembled.

Other subjects that were identified as topics for discussion were determination of interest, facility usage, participation opportunities, personnel hiring practices, senior women administrators, scheduling competition, support services, recruiting and budgets.

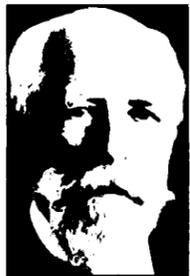

The task force's next meeting will be November 9 in Chicago.

Famous forefather

Legacy lives on in great-great-granddaughter of NCAA founding father McCracken

► Continued from page 1

Mumford was, she didn't realize that her grandfather was one of the founding fathers of the NCAA. "She knew that he was instrumental in founding the hall of fame at NYU, and she knew that he was quite involved in athletics, but she didn't know the whole story," Bunnage said.

McCracken

nage said.

"Part of the reason is that he was so involved in education and the Presbyterian church. Certainly, as far as the history of the NCAA is concerned, his role was very important, but for him, it was not the main focus for which he was remembered.

"To me, being involved in academic counseling for athletes, that is neat because it reminds me of the foundation upon which the NCAA was begun."

Bunnage has been to the NCAA Visitors Center at the NCAA headquarters in Overland Park, Kansas, where the mural in the entry hall

includes a picture of the delegates at the General Convention of Colleges and Universities. She easily picked out McCracken for three reasons. "There is a family resemblance," she said, "and he's one of the oldest in the picture and he isn't Roosevelt."

Bunnage worked for the Portland (Oregon) Public Schools as a teacher and as an academic counselor at Washington and Oregon State before coming to Notre Dame. She views her job as being at the core of college athletics.

"There is the blend of education and athletics," she said. "I work with baseball, men's and women's

basketball, and a portion of the football team. Our whole clientele is student athletes."

Bunnage says that not many people at Notre Dame—outside her law class—know about her ancestry. "People are aware of it, but I certainly don't wear it on my sleeve," she said. "I am very proud of my family background, but I am known for my work, not for the family background."

She suspects that none of her student-athletes knows. Her name is not McCracken, and she has not told any of them. Would any of them be impressed if she did?

"The structure of the NCAA is

not fully understandable to the students," Bunnage said. "They know the rules they have to follow, but I don't think they understand the history and the magnitude of the NCAA. I don't think they realize how many student-athletes, administrators and coaches are involved.

"But if I thought it would be helpful in establishing a relationship with any of them, I probably would mention it."

Then again, remembering the law professor's tongue-in-cheek comment, maybe telling the student-athletes wouldn't be such a great idea.

Participation in interscholastic athletics still rising

Although some high-school athletics programs are being threatened with cutbacks, participation in interscholastic athletics nationwide is the highest since 1978-79, according to the annual sports-participation survey conducted by the National Federation of State High School Associations.

The National Federation has compiled the survey since 1971 based on figures from the 51 state high-school athletics activity associations that are members of the National Federation.

The 1991-92 sports participation

total of 5,370,654 is up 71,983 from last year and is the highest mark since 5,563,912 in 1978-79. The total is composed of 3,429,853 boys, up 23,498 from last year and highest since 1980-81, and 1,940,801 girls, up 48,485 from a year ago and second-highest total ever, topped only by 2,083,040 in 1977-78.

The figures follow a recent announcement by high-school principals in Chicago that they intend to drop winter and spring sports unless sufficient money is raised by November 1.

"We realize that many school districts are having hard times financially, and we certainly hope that something can be done to keep high-school sports alive in Chicago," said Brice Durbin, executive director of the National Federation.

Participation in high-school athletics programs hit an all-time high of 6,450,482 in 1977-78, which was the height of large enrollments in high schools nationwide resulting from the "baby boom" generation of the late 1950s and early 1960s.

With the exception of a slight decrease from 1987-88 to 1988-89, participation has risen each year since the 1984-85 year. The 1984-85 totals stopped a six-year downward spiral in which participation dropped for five years.

Interest in soccer for both boys and girls, continues to grow. An increase of 7,702 participants in boys' soccer moved the sport past wrestling to become the fifth most popular sport at the high-school level. Boys' soccer is fifth with 236,082 participants, surpassing

wrestling, which lost 765 participants, at 229,908.

In 1979, boys' soccer had 132,073 participants and ranked eighth nationally. In 12 years, participation has increased 100,000, and soccer has moved past tennis, cross country and wrestling in popularity.

The increase in girls' soccer has been even more dramatic. Girls' soccer has increased from 23,475 in 1979 to 135,302 last year and has moved from No. 12 to No. 6 in popularity.
