## Deadline for restructuring proposals pushed back

The NCAA Joint Policy Board has extended the deadline for submitting NCAA membership-restructuring proposals from March 1 to August 31.

The Board, which met February 2 in Kansas City, Missouri, noted that while legislation for the 1995 NCAA Convention remains possible, it hopes that the 1995 event will be used as a forum for discussion of the matter, with legislation to be considered at the 1996 event.

Divisions II and III expressed concern about the March 1 deadline, and the Board concluded that Division I interests would not object to the extension.

Also, some organizations, including the National Association of Collegiate Women Athletic Administrators, suggested that issues involved in restructuring should be identified clearly before models are proposed.

The Board took the following

actions regarding membership restructuring:

■ The deadline will be extended to August 31.

■ In the interim, a packet of information to help shape the discussion of this topic will be sent to the membership. This packet will include a set of questions regarding the possible issues involved, a summary of the issues and suggestions proposed to date, copies of the current division philosophy state-

ments, a history of restructuring efforts, and perhaps other data to assist the membership in addressing this topic.

■ Noting that Divisions II and III have expressed interest in considering their own approaches to structure issues relating to those divisions, it was agreed that NCAA President Joseph N. Crowley and NCAA Presidents Commission Chair Judith E. N. Albino would be authorized to appoint a subcom-

mittee to assist with restructuring approaches among the divisions.

■ Databases of currently available information (for example, numbers of athletics grants-in-aid awarded, enrollments, athletics budgets) should be developed.

■ Issues submitted in relation to the structure topic that actually deal with matters other than the membership structure should be con-

See Extension, page 8 ►

## Football Forum to tackle major issues

Some of the major topics of discussion at the 1994 NCAA Convention—cost containment, academic standards, violence in sports and a Division I-A football playoff—will be revisited at the 18th annual College Football Forum February 20-22 at the Ritz-Carlton Hotel in Kansas City, Missouri.

Gautt

Eight prominent coaches and at least one athletics administrator will hold panel discussions with approximately 40 sports journalists during the issue-oriented forum. This is the fifth consecutive year the event has featured administrators as well as coaches; previously, it was called the College Football Preview and was devoted to discussion of the coaches' teams and conferences.

Prentice Gautt, NCAA secretary-treasurer and associate commissioner of the Big Eight Conference, was the only administrator confirmed as a panelist at this issue of The NCAA News

went to press. Two others may be added before the event.

Coaches attending will be Gary Barnett, Northwestern University; Spike Dykes, Texas Tech University; Ray Goff, University of Georgia; Mike O'Cain, North Carolina State University; Tom Osborne, University of Nebraska, Lincoln; Howard Schnellenberger, University of Louisville; Bruce Snyder, Arizona State University, and Joe Tiller, University of Wyoming.

Grant Tcaff, the new executive director of the American Football Coaches Association, also will attend.

The first day of the forum will include registration and an informal dinner for panelists and media. The second day, February 21, will feature panel discussions at 9 a.m., 10:30 a.m. and 1:30 p.m. NCAA Communications Committee chair David E. Housel, assistant director of athletics and sports information director at Auburn University, will moderate the sessions. Panelists also will be available for individual interviews from 2:45 to 4 p.m.

NCAA Executive Director Cedric W. Dempsey will conclude the forum with an address at 9

## Olscamp selected to Council

Paul J. Olscamp, president of Bowling Green State University, has been chosen as the Mid-American Athletic Conference's representative to the NCAA Council.

Olscamp

He replaces former Kent State University athletics director

Paul V. Amodio, who resigned from that position to return to teaching at the school.

Olscamp, whose term expires in January 1987, has been Bowling Green's chief executive officer since 1982. He also served for seven years as president of Western Washington University.

In 1989 and 1990, Olscamp represented the Mid-American Conference as a member of the NCAA Presidents Commission.

He was a member of the philosophy faculty at Ohio State University from 1962 to 1969, when

See Olscamp, page 18 ►

## Tow to retire after 22 years of service with NCAA

Tow

Ted C. Tow, an NCAA staff member for 22 years and associate executive director since 1988, is retiring, effective February 25.

Tow, 57, joined the NCAA staff as director of publishing in February 1972. He was named assistant executive director in 1973. He was responsible for publishing and several functions in general administration until he was named associate executive director in 1988.

Tow has been the primary staff liaison

to the NCAA Council, the Association's governing board, for the past 20 years. He has served as the primary staff liaison to the NCAA Presidents Commission since its inception in 1984, and is primary liaison to the Administrative Committee and the Joint Policy Board, both consisting of the top officers in the Association. He also was publisher of The NCAA News, the Association's weekly newspaper, for more than 10 years.

Tow also was a high-school and col-

lege journalism teacher, a college sports information director and college information-services director, and owner of a weekly newspaper and a public relations firm before joining the NCAA staff.

"The NCAA owes Ted its sincere thanks for all of his efforts, contributions and commitment to the work of the Association over the past years," Cedric W. Dempsey, the Association's new executive director, said. "We wish him all the best in his future endeavors."

# DIGEST

A weekly summary of major activities within the Association

## BCA concerns

### CRS continues efforts to set meeting dates

The Community Relations Service of the U.S. Justice Department continues to work with the NCAA and the Black Coaches Association to set meeting dates at which the CRS can mediate differences between the organizations.

A first meeting was set for February 6 and then postponed because NCAA Presidents Commission Chair Judith E. N. Albino was unable to attend.

Finding suitable meeting times has proved to be difficult because of the busy schedules of university presidents, high-level administrators and prominent basketball coaches.

The controversy was brought about by the defeat of 1994 Convention Proposal No. 42. That proposal would have increased the number of permissible scholarships for Division I men's basketball programs from 13 to 14.

For more detail, see the January 19 and January 26 issues of The NCAA News.

Staff contact: Francis M. Canavan.

## Research

### Plan established to review initial-eligibility rules

The NCAA Joint Policy Board has developed a plan to review NCAA eligibility legislation as required by 1994 Proposal No. 174.

Three NCAA committees — Academic Requirements, Minority Opportunities and Interests, and Research — will review the legislation. Those reviews will be brought together by a special committee, which will forward recommendations to the NCAA Presidents Commission and Council.

The stricter Division I initial-eligibility standards are scheduled to go into effect in 1995. Among other things, the committees studying the legislation are to examine the quality of the research that preceded its adoption and how well the new standards were communicated to high-school prospects, counselors and coaches.

For more detail, see page 1 of this issue and the January 12 issue of The NCAA News.

Staff contact: Ursula R. Walsh.

## Restructuring

### New deadline established for submitting proposals

The deadline for submitting proposals for restructuring the NCAA membership has been extended from March 1 to August 31.

The NCAA Joint Policy Board took the action at its February 2 meeting.

The Board noted that although restructuring legislation still can be proposed for the 1995 NCAA Convention, it recommends that the 1995 event be used instead as a forum for discussing the matter. If so, restructuring legislation likely would be considered at the 1996 Convention.

For more detail, see page 1 of this issue and the January 12 issue of The NCAA News.

Staff contact: Ted C. Tow.

### MAILING

**4** — Requests for information mailed for special-assistance, sports-sponsorship and grants-in-aid funds of the NCAA revenue-distribution plan.

### DEADLINES

**1** — Deadline for information for basketball and Division II funds of the NCAA revenue-distribution plan.

**8** — Graduation-rate disclosure form due from Division I members.

\*See pages 111 and 113 of the 1993-94 NCAA Manual for exceptions. Also, see pages 114-115 for dead periods in other Divisions I and II sports.

viewers — about 600 individuals — appeared in the January 26 issue of The NCAA News.

Peer reviewers are those individuals responsible for evaluating the institutional self-studies that are required by the athletics-certification program.

For more information, see the January 26 issue of The NCAA News.

Staff contact: John H. Leavens.

Next meeting: February 18 in Phoenix.

## Division I-A football

### Playoff group meets with television executives

Members of the group charged with collecting information about the viability of a Division I-A football playoff met February 3-4 with representatives from the major television networks, plus Fox, Turner Broadcasting and ESPN.

Those on the research group are University of California, Los Angeles, Chancellor Charles E. Young; University of Oklahoma athletics director Donnie Duncan; NCAA Executive Director Cedric W. Dempsey, and Thomas W. Jernstedt, NCAA chief operating officer.

The research group will pass its findings on to a special committee. At its February 2 meeting, the NCAA Joint Policy Board authorized NCAA President Joseph N. Crowley and NCAA Presidents Commission Chair Judith E. N. Albino to appoint such a committee, probably in late March or early April.

For more detail, see the January 19 issue of The NCAA News.

Staff contact: Thomas W. Jernstedt.

## Revenues

### Mailing dates announced for 1994 distribution plan

The dates on which checks from the 1994 NCAA revenue-distribution plan will be mailed have been announced.

The dates for each of the funds are:

Basketball ..... April 22.  
Division II ..... May 20.  
Academic enhancement ..... June 24.  
Special assistance ..... July 29.  
Sports sponsorship ..... August 12.  
Grants-in-aid ..... August 26.

Staff contact: Keith E. Martin.

## Litigation

### Court rules for NCAA in drug-testing appeal

The California Supreme Court January 28 upheld the legality of the NCAA's drug-testing program when it overturned lower-court decisions that had found the program to be an unproven and unjustified intrusion into the privacy of student-athletes at Stanford University.

In a 6-1 decision, the court said the NCAA's legitimate interest in "ensuring fair and vigorous competition" and protecting student-athletes justified the drug-testing program. Six justices upheld the NCAA drug-testing program, which initially was challenged by a member of Stanford's women's swimming team in 1987.

The NCAA drug-testing program was adopted at the 1986 NCAA Convention.

Staff contact: Frank D. Uryasz.

For more detail, see the February 2 issue of The NCAA News.

ers have been contacted by the NCAA Committee on Athletics Certification to see if they can commit to participating in a fall evaluation visit and to attending a training session in the spring.

Also, chief executive officers for those institutions whose self-studies will be reviewed this fall in the NCAA athletics-certification program have been mailed a list of about 20 possible peer reviewers.

The CEOs have been asked to review the list and to note any reviewer whom they would prefer not be assigned to their institution. A CEO may suggest removal of no more than one-third of the reviewers on the list. CEOs are asked to keep in mind that the Committee on Athletics Certification is obligated to select peer-review teams that reflect gender and racial/ethnic diversity.

The complete pool of potential peer re-

<b>Total</b>	<b>38,413</b>		<b>39,838</b>		<b>39,195</b>	

## ■ Briefly in the News

### She carries welcome load

Almost everyone agrees that student-athletes face dual pressures: to perform at a high level in both athletics and in academics. But when parental responsibilities are added to that mix, one might begin to wonder whether it is possible to juggle all three.

There is solid proof that this trifecta can be pulled off successfully. Just take a look at University of Southern California basketball player **Karleen Shields**. Not only is she a part-time starter for the nationally ranked Trojans, but she is a strong student. On top of that, she is a mother of two daughters—7-year-old Ayesha and 6-year-old Keisha.

The 25-year-old Shields says one glance into the faces of her two youngsters keeps her strong when her mind and body begin to feel weary.

"Every time I look at them I keep going," Shields told the Orange County (California) Register. "When I see a smile on their faces and know they have food in their mouths, I know they're doing OK."

"I love what I'm doing. I have been breathing for three people for a long time, so it's natural. I don't mind because it's going to pay off. The payment is seeing my kids happy. I'm happy. What else can I ask for?"

Shields, after being fired from a fast-food restaurant in Albuquerque, New Mexico, finally accepted the advice of her older sister, Beverly, who encouraged her to enroll in college. She decided to attend Contra Costa College, a junior college in San Pablo, California, where Shields became a star.

She averaged 29.5 points and 14.6 rebounds per game in her first season at Contra Costa. As a sophomore, she was the top scorer in the nation, scoring more than 50 points in a game seven times while averaging 19.5 rebounds. She also graduated from junior college with a 3.400 grade-point average (4.000 scale).

Those numbers attracted more than 50 Division I women's basketball coaches. She decided on Southern California because of its history and because former coach **Marianne Stanley** showed care and concern for Shields and her children.

"There were no ifs, ands or buts," said Shields, a sociology major. "We are a package deal and USC welcomed us with open arms."

Shields said she feels she has been granted another life, and she is determined to

*Good things come in threes for University of Southern California basketball player Karleen Shields. She's a strong player for the nationally ranked Trojans, a strong student in the classroom and a strong role model for her two daughters, Keisha (left), 6, and Ayesha, 7.*

achieve the goals she has set for herself.

"I'm going down this one path and I'm not letting anything stop me. If anybody or anything gets in my way, they had better watch out because I'm going to knock them over."

### Meet by phone

As the saying goes, "The show must go on."

When bad weather made road travel too treacherous for Adrian College to make the 120-mile trek to Hope College for a men's and women's swimming meet, the two schools found a creative solution. The meet was held via telephone.

As the "visiting" team, Adrian's swimmers swam events early one Friday afternoon, and two hours later, Hope's swimmers took to their pool. After the two teams finished, times were compared.

Hope was the winner, with the men edging Adrian, 75-72, and the women registering an 84-49 victory.

"They made the most of it," Hope men's and women's swimming coach **John Patnott** told the Grand Rapids (Michigan) Press. "We had some real good times."

Hope swimmer **Dawn Hoving** said the

meet was fun and strange at the same time.

"This is really weird," Hoving said. "We don't normally act like this during the meet. We were acting crazy. It was more fun than I thought it would be. Everybody was into it, and it was a nice change."

### Minority hiring

The minority-hiring record of University of Colorado, Boulder, head football coach **Bill McCartney** has earned him the praise of the Black Coaches Association and the National Association for the Advancement of Colored People.

**Oree Banks**, an associate professor and sports consultant at West Virginia State College and an advisor to the NAACP college chapter at Colorado, commended McCartney in a January 24 letter on behalf of the BCA and the NAACP for his "commitment, compassion and leadership in athletics." Banks also wrote, "...let us take this opportunity to congratulate you on your fine effort in the area of promoting black coaches."

McCartney's staff at Colorado includes five full-time assistant coaches who are black. One of these coaches serves as assistant head coach.

## ■ News quiz

Answers to the following questions appeared in January issues of *The NCAA News*. How many can you answer?

1. Which NCAA division posted an increase during 1993 in per-game attendance for football? (a) Division I-A; (b) Division I-AA; (c) Division II; (d) Division III.
2. What was the highest possible vote total at the 1994 NCAA Convention for a proposal involving the entire membership? (a) 704; (b) 740; (c) 956; (d) 974.
3. True or false: Under a restructuring proposal by a group of Division I-A conference commissioners, Division I would be governed by a board of trustees made up of faculty athletics representatives.
4. How many former University of California, Los Angeles, student-athletes were honored at the 1994 NCAA honors dinner in San Antonio? (a) zero; (b) one; (c) two; (d) three.
5. True or false: Of the 24 institutions that have played in the last 10 Final Fours, only one voted at the 1994 Convention against Proposal No. 42, which would have restored a grant-in-aid for Division I men's basketball programs.
6. Which of the following has the membership designated as "emerging" team sports for women? (a) crew, water polo and synchronized swimming; (b) ice hockey; (c) team handball; (d) all of the above.
7. True or false: Eamon M. Kelly of Tulane University is the NCAA Presidents Commission's new Division I chair.

Answers on page 24.

## ■ Fact file

Fifty percent of the U.S. population are too young to remember the assassination of John F. Kennedy. Sixty-six percent are not old enough to remember the Korean War. Seventy percent do not remember when there was no television. Eighty-five percent were not alive when the stock market crashed in 1929. Thirty-three percent can't remember the time before man set foot on the moon.

Source: Texas A&M University Center for Retailing Studies, cited in a trends supplement prepared for the NCAA Committee on Review and Planning.

## Bill pertaining to injury liability for artificial turf dies

By Ronald D. Mott  
THE NCAA NEWS STAFF

A proposed bill that would have made owners and operators of athletics facilities with artificial-turf fields strictly liable for injuries that occur on those surfaces has died in the Washington Legislature.

The bill was heavily opposed at a January 28 hearing of the Senate Committee on Health and Human Services.

Sen. Jim Hargrove's bill would have applied only to owners and operators of athletics facilities with artificial-turf fields larger than 15,000 square feet.

It would have applied to both the University of Washington and Washington State University, which use artificial-turf football fields. In addition, many of the state's high-school football teams compete on

*"...We have the classic case of the sort of bad conclusions that can be drawn from incorrect premises based on erroneous data. Rather than being a major cause of injury to either amateur or professional athletes, well-maintained playing surfaces, whether natural or synthetic, are essentially a neutral factor."*

■ Ed Milner  
Former president, AstroTurf Industries, Inc.

artificial-turf fields, as do the National Football League's Seattle Seahawks, who play home games in the Kingdom.

Given the obvious impact the legislation would have had on owners

and operators of those facilities, Hargrove said he was pessimistic about the bill's potential from the beginning.

"I doubt if this bill will pass," Hargrove said several days before

the hearing. "Football is a lot more enjoyable to watch when the (weather) elements are a part of the game. I'm a fan like a lot of people. You see a player get injured and hear the commentators say, 'Well, that's an artificial-turf injury.'"

"We want people to get rid of the turf. I am happy to start the debate here."

Ed Milner, former president of Monsanto Company's AstroTurf Industries, Inc., subsidiary and now a consultant in sports surfaces and safety, criticized the bill in a letter to the chair of the Senate committee.

"In the proposed bill, we have a classic case of the sort of bad conclusions that can be drawn from incorrect premises based on erroneous data," Milner wrote. "Rather than being a major cause of injury

to either amateur or professional athletes, well-maintained playing surfaces, whether natural or synthetic, are essentially a neutral factor."

Randall W. Dick, NCAA assistant director of sports sciences, said NCAA Injury Surveillance System data and data from numerous other reports in the past decade have provided no conclusive evidence that suggests artificial turf is responsible for more severe injuries—most notably, those involving the knee or ankle—than natural grass.

An aide in Hargrove's office said February 4 that the senator remains interested in the topic and that there is a "strong possibility" Hargrove will introduce similar legislation next year. In the meantime, the aide said Hargrove will collect further data on artificial-turf injuries.

### High-school activities shouldn't go national

By Robert F. Kanaby  
NATIONAL FEDERATION OF  
STATE HIGH SCHOOL ASSOCIATIONS

The Super Bowl has just been completed to determine the professional football champion, and soon announcers will use the term "on the bubble" describing college basketball teams that are hoping for a spot in the NCAA basketball tournament and a chance for a national basketball title. Should high-school sports go beyond the always popular state championships?

It is obvious to the leadership in high-school athletics that many people believe the answer to that question should be "yes." Various groups over the past years have contacted the National Federation of State High School Associations about conducting national championships. And we are aware of other groups that are currently trying to make this happen.

The National Federation and its 51 member state associations historically have opposed national athletics competition for high-school teams. In fact, Article 1, Section 3 of the Athletic Bylaws states: "Sanction shall not be granted for any tournament, meet or other contest to qualify and/or determine a national high-school championship."

Certainly, attempts by outside groups to stage national high-school championships is a cause of concern for the National Federation membership because of the potential risks involved that could threaten to upset the balance between academics and athletics that is so vital at the high-school level.

National-championship competition is only one area where that delicate balance can be threatened. We have seen an expansion of media coverage of high-school sports, both at the local and national levels. USA Today and ESPN, to name only two, have expanded their coverage of high-school sports.

When done in a positive, constructive manner, such coverage can provide beneficial exposure for our young student-athletes that they so richly deserve. However, if not developed properly, that same media coverage can have a negative effect and add to the potential of upsetting the balanced perspective so vitally needed at this time in a young person's athletics life.

## Playoff can minimize achievement

The Super Bowl should be an annual reminder of why we should not have a major-college football playoff.

Super Bowl winners are glorified way out of proportion to the rest of the season's highlights. The accomplishments of other teams (professional division and conference champions) are worth little or nothing in the eyes of the media and public.

Super Bowl losers are humiliated way out of proportion. This applies negatively to teams but is even worse for individuals. An NBC commentator this year had the poor taste to say: "No one in Buffalo will ever forgive Scott Norwood" for missing a long kick that would have won the 1991 Super Bowl.

This is the way people begin to think when the game becomes too big. The Olympics have suffered the same fate since television started celebrating "Going for the Gold." Silver medalists are now portrayed as disappointed losers.

Having four major bowl games on the final day of the season disperses much of the media's ability to corrupt the honor of college football the way it corrupts the Super Bowl. The Super Bowl is a free-market, commercial and professional championship. College football should be proud of its educational traditions and a bowl system that allows 10 or 15 teams to finish the season feeling like winners.

Track and Field Coach  
Bowdoin College

### Parity has value

The January 26 Opinions feature of The NCAA News featured Big East Conference Commissioner Michael A. Tranchese's comments excerpted from the Houston Chronicle.

He argues that athletics expenditures are the province of individual institutions and should not be legislated. Since "life is not a level playing field," Mr. Tranchese questions why we should create an artificial one in intercollegiate athletics. He believes that schools that can afford to spend more money than others should have the opportunity to profit competitively from that advantage.

One hopes that in forming his atti-

### □ Letters

tudes about cost containment and restructuring, Mr. Tranchese is not unaware of what many find a compelling axiom — "No (person) (or university) is an island" — or, if aware, does not dismiss the notion as a weak-kneed collectivism.

One also hopes that Mr. Tranchese, and those in similar positions of influence, are mindful of the value of parity. Professional sport team owners, whom we might expect to concur with Mr. Tranchese's Darwinian statements, have been perceptive enough to set aside such personal philosophies for the sake of economic survival. Recognizing their stake in each other's competitive and economic success, they have instituted a variety of league policies that codify parity: the player draft, revenue sharing and selective scheduling.

Over time, these policies do not nullify advantages gained by perseverance and intelligent, creative management. Instead, they encourage initiative by dampening inequities from extrinsic factors such as location and financial base.

Could it be that the recent travails of corporate giants like General Motors and IBM have escaped Mr. Tranchese's notice? Can the University of Notre Dame (his example) and other collegiate monoliths afford the same sort of elitist privatism that rendered those companies insensible and vulnerable to changing economic realities?

Special Projects Coordinator  
Women's Intercollegiate Athletics  
University of Iowa

### Women coaching men

In regard to Patrick Knapp's quote in the Opinions section of the January 5 issue, I agree with him. Gender should not be the basis for determining someone's coaching ability and position. However, I think that Mr. Knapp misinterprets the issue. The issue is not lack of men coaching women, but the lack of women coaching men.

I'll use Mr. Knapp's own sport, Divi-

sion I basketball, as the example. In this sport, it is obvious that the female presence is severely lacking. To the best of my knowledge, the University of Kentucky is the only Division I men's basketball team that has a female assistant coach. There are no female Division I head men's basketball coaches. On the other hand, there are numerous male assistant and head coaches of Division I women's basketball teams.

I agree with Mr. Knapp that the best coach should get the job, no matter what the gender. However, when it comes to women coaching men, people seem to forget this principle. Both men and women should be given the same opportunities to coach a team regardless of their — or the team's — gender.

If this policy were employed, the disputes on this issue, as well as the gender gap among coaches, would surely diminish.

Sellersville, Pennsylvania

### BCA should join reality

It would be nice if the Black Coaches Association were to join reality where the rest of us live.

It's hard to work up much sympathy for their demands for another scholarship to help "minority" students at a time when I'm concerned about the future of my sport. Throughout the country, wrestling and other "minor" sports are being dropped as a cost-cutting measure and to bring programs in line with Title IX. Now they want to add a scholarship to the men's side of the ledger when the courts have consistently stated there's too much there already?

Join the real world, gentlemen. Basketball, regardless of the amount of money it brings in, is not the only sport offered for student-athletes by the NCAA.

If you really want to help student-athletes, regardless of race, creed or national origin, you should add scholarships to the minor sports where they can be spread out. With one additional scholarship, we can help two, three or sometimes four student-athletes attend

## □ Opinions

### Pros take the finesse out of basketball

**Jeff Franko, high-school official**  
Referee

"Why are there so many fights in the NBA? In my opinion, that's caused by frustration, as superstars get away with murder while rookies or lesser players are called for touch fouls.

"The NBA game hurts the high-school and college games because traveling, over the back, and other fouls and violations are not being called by NBA referees, who are inconsistent.

"Basketball is a finesse game and should be called as such at both ends of the court, regardless of the players involved. My word to the NBA is to clean up the game or you might become a preliminary to the World Wrestling Federation."

### Academic standards

**Burton F. Brody, professor of law**  
University of Denver

The Sporting News

"The NCAA should enact a rule that athletics grants-in-aid can be given only to students who are competitively ad-

missible to the institution. This shockingly simple rule is the single biggest step that could be taken to assure that college athletics serves the educational mission of an institution and of higher education. It would mean that students compete rather than athletes 'study.' The educational value of athletics would be preserved, and the pursuit of athletics prominence — and the revenue it brings — would be relegated to its appropriate role in college life....

"Of course, the college athletics establishment would object to such reform. It would argue that such reform would end big-time college athletics as we know it, and it probably would be correct. No doubt the quality of athletics performance and competition would suffer. Public interest would drop and with it gate receipts and television revenues.

"However, those sacrifices pale when one realizes that the real entertainment for local and national audiences is not a true part of the mission of American higher education. Of course it is not, especially as we begin to compete in a global economy and expect our education system to help us do so. Higher education perpetuates the myth that athletics excellence and real academic competence are somehow mutually exclusive."

# Haunted by the faces

Georgia forward Jones is doing all he can to save an endangered species—African-American youth

By Scott M. Reid  
THE ATLANTA JOURNAL

The faces follow Steve Jones around like a 24-hour shadow. All day long he bumps into them; around his old neighborhood back in Philadelphia, in the Athens Rock Springs community center. At night, the faces haunt him in the darkness. Hopeless, innocent, little black faces, surrounded by violence, terrified by words.

During a recent spelling test at Rock Springs, Jones asked a 10-year-old boy, "Tyler, can you spell excuses for me?"

"I can't," Tyler said, head bowed.

"Come on, you haven't even tried," Jones insisted. "Let's sound it out. Come on ..."

"No, I can't. I can't spell," Tyler said, beginning to quiver nervously. "Go on to somebody else."

"That's what hurts, really hurts," Jones said later, shaking his head, his own face a mix of anguish and anger. The hurt, like the faces, follow the University of Georgia sophomore forward everywhere.

In a Southeastern Conference season full of upsets, coaches say Jones, 6-6, has emerged as perhaps the SEC's biggest surprise.

Yet for all of his success on the court, it is his concern for the faces, young African-American boys, that is the driving force of Jones' life. Several nights a week during the season and most weekends in the offseason, Jones can be found at Rock Springs or Philadelphia or on the Georgia campus facing up to the problems of the faces. "Go on to somebody else?" The faces soon find out that Steven Bradley Jones isn't going anywhere.

"It's not a matter of choice," Jones said. "You look at those kids, those faces and you just know you have to try and do something. It hurts to think a kid like that (Tyler) can't spell a simple word. It hurts more when you see kids like that have already given up, that the defeatism has already been so reinforced that they don't even try, that hurts, I mean really hurts. The kid is only 10 and he's already given up. How can you get over that?"

"You can't forget that look in their faces. That terrified look. It makes you angry, but mainly it just hurts you, it kills you. You go home at night and you see the faces. I close my eyes and I see the faces. It keeps you up at night. It can't help but keep you up."

## 'Somebody's got to step in'

The faces are an "endangered species," according to educator and publisher Useni Eugene Perkins. Perkins and others are backed up by a wealth of statistics. From 1987 to 1989, the number of gun murders of black males between ages 15 and 17 increased 71 percent, according to the Centers for Disease Control. Homicide is the leading cause of death among black men, according to FBI statistics.

In each year since 1989, more Blacks were killed in black-

Jones

on-black violence than in the entire Vietnam War. In their book "Think and Grow Rich: A Black Choice," authors Dennis Kimbro and Napoleon Hill project that by the year 2000, 70 percent of all black males will be unemployed.

"We're in danger of losing a whole generation of young black men," Jones said. "The educational system has failed them; society has turned its back on them. Somebody's got to step in or we're going to have a disaster."

Jones steps in as much as he can. As president of the Georgia chapter of the NAACP, Jones has initiated a number of programs that not only address the concerns of black youth but have also improved relations with the Athens black community, a group frequently ignored by the university. Jones' habit of starting in-depth conversations with the homeless is a running joke with his friends.

"I know people think I'm crazy," Jones said, laughing. "Hey, a lot of those guys are pretty interesting. Everybody's got something to say. There are housing projects right across the street from the university and too many people ignore that and ignore those people. Just because somebody's in a housing project doesn't make them any less than a person."

"A couple breaks, you know, here and there I could be there and they could be here. A lot of people at the university turn their back on those people, stick their nose up. I don't understand that. I thought education was supposed to open doors, not slam them in people's faces."

## One of the SEC's big surprises

The NAACP now sponsors ACTION, a program started by Jones and friends two years ago that counsels and tutors local kids. During the summer, he works in a family education program in Philadelphia. Jones also recruits volunteers for Project RAP, in which young black men work as mentors to black boys.

"Steve Jones is the kind of kid college athletics should be all about," Georgia men's basketball coach Hugh Durham said. "He's concerned about the community, about society. He does well in the classroom. And he's busted his tail on the court. He wasn't one of those McDonald's all-American types out of high school, but, hey, I gotta tell you, Steve's playing really well for us right now."

The highlight of Jones'—and Georgia's—season remains the University of Kentucky game. As he threw down the game-clinching dunk at the buzzer, Jones was swallowed up by a frenzied sea of red and black. "That's crazy," Jones said, laughing. "Those people were crazy." It wasn't the first time Jones marched into chaos.

On the spring night in 1992 that Los Angeles burned in the wake of the verdict in the first Rodney King trial, Jones, then an 18-year-old freshman, led a peaceful march through the Georgia campus, downtown Athens and local housing projects. Nothing was broken and no one was hurt.

"We wanted to show unity with what was going on around the country and within the community here," Jones said. "We also wanted to bring awareness to the concerns people have here. We just wanted to show people, say, in the housing projects, somebody is willing to listen to them. To bridge the gap

between the community and the school. What we did was different from Los Angeles, but that doesn't mean I don't understand what happened in L.A. or why it happened or that it was wrong. I think different places call for different things. Sometimes you have to do something big to get people's attention."

## 'All we have to do is push'

The faces follow Steve Jones everywhere. Sometimes they stare back at him in the mirror.

"That was me. I was one of those kids, definitely," Jones said. "What's happened to some of those kids could have happened to me, easy. I've got friends from Philly, kids I grew up with who are dead now. In prison. Guys getting shot just for being at the wrong place at the wrong time."

By the time Jones entered grade school he already had, by his own admission, the smartest mouth in the neighborhood. He somehow managed to pass third and fourth grades without learning his multiplication tables. When he was 10, his father, David Jones, died after battling Wegner's disease.

"My mother (Anna) was really concerned, especially about me not having a male role model," Jones said. "But my mother was strong. I come from a strong family and my uncles were a big help. I was lucky because I had a strong family. Most of these kids aren't that lucky."

"I mean, how do you pass a kid when he doesn't know his times tables? That's what's happening to these kids. These kids have been so stereotyped, society has already given up on them, the educational system has given up on them. When I was in school, if I didn't know something the teacher just said, 'That's OK' and moved on. That's what the problem is now."

"By the time they're 10, 11, they've already given up on themselves. They see drug dealers driving big cars around the neighborhood and they tell themselves that's the best they can do. That's success to them."

"If we push them they can make it. They can do anything. All we have to do is push."

## You always have to have hope

So Jones is out there bumping into the shadow, pushing the faces every step of the way. "Since Steve and the others have started helping us," said David Nowell, an Athens businessman who runs Project RAP, "you can already see a difference in these kids in their attitude and their behavior."

And in their faces.

"Hey, Steve, let's have a spelling test," Tyler said smiling, a few weeks after their first meeting and a Jones "pushing" session. "Give me a word. Come on, Steve, give me a word."

How about hope?

"Yeah, hope, that's a good word," Jones said later. "Kids like that just show you we can make a difference. It's not too late for these kids, but we're running out of time. Hope? I look at those faces and I have to have hope."

## Administrative Committee minutes

### Conference No. 1 February 1, 1994

#### I. Acting for the NCAA Council, the Administrative Committee:

a. Took the following actions regarding committees and committee appointments:

(1) Standing committees:

(a) Committee on Competitive Safeguards and Medical Aspects of Sports:

(i) Noted that the Council, in its pre-convention meeting, inadvertently had appointed a Division III representative to a position on the committee instead of reappointing the eligible individual currently serving in that position; rescinded the Division III appointment and confirmed the reappointment of Sue Williams, University of California, Davis.

(ii) Noted that the pre-convention appointments to the committee would leave it without a male athletics director, as required by the bylaws, until September 1; agreed that both Gene A. Carpenter, Millersville University of Pennsylvania, appointed to join the committee September 1, and William B. Manlove Jr., the member whom he will replace, should attend the committee's meetings between now and September 1.

(b) Special Events Committee: Appointed

John R. "Bobby" May, Rice University, as the Southwest Conference representative, replacing Fred Jacoby, retired; appointed Dave R. Hart Jr., East Carolina University, as the Council representative on this committee, replacing Robert M. Sweazy, Texas Tech University, who declined the Council's earlier appointment.

(c) Women's Gymnastics Committee: Noted that the Women's Committee on Committees inadvertently had selected two women from the same conference to serve on this committee, effective September 1; referred the matter to the Women's Gymnastics Committee for review and recommendations, with the understanding that the latter committee will consider the views of the Women's Committee on Committees in its deliberations.

(d) Men's and Women's Swimming Committee: Agreed to approve a noncontroversial amendment per Constitution 5.3.1.1.1 to eliminate the specific NCAA district requirement in Bylaw 21.5.5, with the understanding that the Council will approve the language of the amendment in its April meeting and that language will include some geographical-representation requirement comparable to that used on other sports committees; approved the recommendation of the Women's Committee on Committees that Nancy L. Hinrichs, University of Northern Colorado, be appointed to replace

Keith Converse, U.S. Air Force Academy, on the committee, effective September 1, 1994.

(e) Division I Women's Volleyball Committee: Appointed Marilyn Moniz-Kahoonahano, University of Hawaii, Honolulu, replacing John V. Kasser, no longer at an institution in the Northwest Division I women's volleyball region.

(f) Division II Men's Basketball Committee: Affirmed that Bob Vanatta, Sunshine State Conference, continues to meet the requirements of Bylaw 21.1.1.1; therefore, reappointed Vanatta.

(g) Academic Requirements Committee: Appointed Pamela L. Gill-Fisher, University of California, Davis, replacing Susan M. Jacobson, no longer at a Division II institution.

(2) Special committees:

(a) Dissolved the Special Committee to Review Financial Conditions in Intercollegiate Athletics and the Gender-Equity Task Force, noting that the remaining recommendations from the reports of both of those groups had been referred to other entities within the NCAA structure.

(b) Appointed R. Elaine Dreidame, University of Dayton, to chair the Special Committee to Study Rules Federation by Sport, replacing David B. Keilitz, Central Michigan University, who resigned as chair but continues as a member of the committee until he leaves his institution next summer.

mer.

(3) Council subcommittees:

(a) Appointed Chris Monash, Northeast Conference; Lynn Dorn, North Dakota State University; Rita M. Castagna, Assumption College, and Bridget Belgovine, University of Wisconsin, La Crosse, to the Council Subcommittee on Eligibility Appeals, replacing Charles Cavagnaro, Ollie M. Bowman, Dorothy E. Dreyer and Marjorie B. Giles, respectively; affirmed that Robert E. Williams, Swarthmore College, was appointed earlier to replace William E. Lide on that subcommittee when William replaced Lide on the Council.

(b) Appointed Jerry L. Kingston, Arizona State University, and G. James Francis, Colorado State University, to the Council Subcommittee on Initial Eligibility Waivers, replacing Dorothy E. Dreyer and Daniel G. Gibbens, respectively; appointed Richard A. Johanningmeier, Washburn University of Topeka, to replace Dreyer as chair.

(c) Approved a recommendation by the Professional Sports Liaison Committee that the provisions of 1994 Convention Proposal No. 120 be amended per Constitution 5.4.1.1.1 to conform to the intent of the action on that proposal by specifying that the student-athlete's declaration of his or her intent to resume intercollegiate competition must be in writing to the institution's

## Football

### Many of the main topics discussed at the 1994 Convention will highlight this year's forum

► Continued from page 1

a.m. February 22. Dempsey, who just completed his first month as executive director, is a member of the research group formed by the Joint Policy Board to study the feasibility of a Division I-A football championship.

The panel discussions and Dempsey's speech will be broadcast via satellite on Telstar 302, Transponder 4v, Channel 7, Downlink 3840 MHz. The audio will be on 6.2 and 6.8.

Following is information on the panelists scheduled to attend the 1994 College Football Forum.

#### Barnett

Barnett was named Northwestern's head coach just after the 1991 season. He came from the University of Colorado, Boulder, a program that rose from a 1-10 record during his first year as an assistant to a wire-service national championship six years later.

Facing a similar rebuilding task in Evanston, Barnett got off to a fast start in 1992 by guiding the Wildcats to a 3-5 Big Ten Conference record, the team's best league mark since 1973. Despite finishing 2-9, his 1993 squad showed promise for the future by defeating Boston College and losing three conference games by four points or fewer.

Before joining the Colorado staff in 1984, Barnett served as head coach at Fort Lewis College for two years. The team's 1982 mark of 4-5-1 was its best since 1977.

Barnett began his coaching career in 1971 as a graduate assistant at his alma mater, the University of Missouri, Columbia. He coached in the high-school ranks from 1971 until taking the Fort Lewis post in 1982.

#### Dykes

Dykes may just have completed the most unusual season in his 25 years of coaching. After seeing his Red Raiders open with a 1-5 record, he rallied his team to a five-game winning streak and an appearance in the John Hancock Bowl. This turnaround garnered Dykes honors as Southwest Conference coach of the year from two media services.

His teams have finished in the upper half of the conference standings in each of his seven seasons at Texas Tech. During that time, he has posted a 41-38-1 record despite playing nearly one-third of the games against nationally ranked teams.

Barnett

Dykes

Goff

O'Cain

Osborne

Schnellenberger

Snyder

Tiller

After 13 seasons as a high-school coach, Dykes became an assistant coach at the University of Texas at Austin in 1972. After five seasons there, he moved on to the University of New Mexico for two years and Mississippi State University for one year. He returned to the high-school ranks for four years, running his overall mark as a prep head coach to 90-39-4, then was named defensive coordinator at Texas Tech in 1984. He took over as head coach just two weeks before the 1986 Independence Bowl.

#### Gautt

Gautt was named secretary-treasurer in December to fill the remainder of the term vacated by Dempsey when he was named executive director.

Gautt was named Big Eight assistant commissioner in 1979 and was promoted to associate commissioner in 1983. Currently, he chairs the NCAA Men's Committee on Committees and is a member of the Academic Requirements Committee.

He was the University of Oklahoma's first black student-athlete and was a standout running back at the school in the late 1950s. He was a two-time all-Big Eight first-team selection and also won academic all-America honors.

Gautt played professionally for eight years, seven with the St. Louis Cardinals. He later coached at Missouri and became the athletics department's academic counselor and counseling psychologist. He

earned his doctorate in counseling psychology from Missouri.

#### Goff

Goff has led Georgia to three bowl-game appearances and 34 victories in the five seasons since he replaced the legendary Vince Dooley at age 33.

He led the Bulldogs to a 19-5 mark in 1991 and 1992, including consecutive bowl victories, and his 1992 squad was co-champion of the Southeastern Conference's Eastern Division. The 1993 Bulldogs struggled to a 1-4 start, but Goff turned the team around and led it to victory in four of its last six games.

Before taking the head post at his alma mater in 1989, Goff served as an assistant at the school for eight years. Before that, he spent three years as an assistant at the University of South Carolina, Columbia.

During his playing career, Goff led the Bulldogs to a 19-3 mark in two seasons (1975 and 1976) as the starting quarterback. He has been to 17 bowl games as a player, assistant coach and head coach.

#### O'Cain

O'Cain was named head coach of the Wolfpack just two months before the start of the 1993 season, and he responded by leading his team to a 7-4 regular-season record and a berth in the Hall of Fame Bowl.

He began his coaching career in 1977 as a graduate assistant at Clemson University, where he had just finished three seasons as a let-

ter-winning quarterback. He spent the next three seasons as offensive backfield coach at The Citadel before moving to Murray State University, where he moved up to offensive coordinator and assistant head coach before leaving in 1985.

After one season at East Carolina University, O'Cain joined the North Carolina State staff in 1986. During his seven years as the Wolfpack's quarterback coach, his pupils rewrote nearly every school passing record.

#### Osborne

In 21 seasons as the Cornhuskers' head coach, Osborne has posted a 206-47-3 record. At nearly 10 victories a season, it is no surprise that he is at or near the top in almost every coaching category.

Osborne has the best winning percentage (.811) among all active coaches and is one of only 13 Division I-A coaches with 200 or more career wins. He reached the 200-victory plateau in only his 249th game, faster than any coach in history.

Osborne's Cornhuskers, who have never failed to win fewer than nine games in any season, have been ranked in every weekly Associated Press poll since 1981.

He came to Nebraska in 1962 as a graduate assistant on Bob Devaney's staff. He became full-time receivers coach in 1967 and was named assistant head coach in 1972. Devaney selected Osborne as his successor for the 1973 season.

#### Schnellenberger

Schnellenberger brought a wealth of championship experience with him to Louisville when he was named head coach in 1985. He was part of three wire-service national titles at the University of Alabama, Tuscaloosa, as an assistant to the legendary Paul "Bear" Bryant, and he played roles in several success stories in the National Football League.

Schnellenberger resurrected the University of Miami (Florida) football program, and his 1983 Hurricanes posted an 11-1 record and defeated Nebraska, 31-30, in the Orange Bowl to win the mythical national championship. He has been part of nine college bowl teams and is 4-0 in bowls as a head coach.

The Cardinals' 9-3 record in 1993, including a victory over Michigan State University in the St. Jude Liberty Bowl, brought

Schnellenberger's 14-year collegiate coaching record to 89-67-2 (.570).

#### Snyder

In his 31 years in the coaching ranks, Snyder has been involved in every level of football from high school to the NFL. The majority of his experience—26 years—has come at the collegiate level.

Snyder came to Arizona State in 1992 after leading the University of California, Berkeley, to a surprising 10-2 mark in 1991, his fifth season as head coach of the Golden Bears. During his tenure, California registered a 29-24-4 record, including a regular-season record of 15-6-1 and two bowl victories in his last two years. After back-to-back 6-5 marks as coach of the Sun Devils, his career coaching record stands at 80-71-5.

Snyder was an assistant coach for 13 seasons at the University of Oregon, New Mexico State University, Utah State University and the University of Southern California. He returned to Utah State as head coach in 1976 and posted a 37-38-1 mark in seven seasons before becoming backfield coach for the NFL's Los Angeles Rams in 1983. In 1986, he took over the top spot at California.

#### Tiller

As Wyoming's offensive coordinator, Tiller helped guide the Cowboys to 8-0 Western Athletic Conference records in 1987 and 1988. Wyoming established 47 individual and 18 team records during that time, including a record 511 total points in 1988.

He left Wyoming in 1989 to become assistant head coach at Washington State University, but returned two years later to take the Cowboys' helm. Since then, Tiller has led the team to a 17-17-1 record, including an 8-4 record and Copper Bowl berth in 1993.

Tiller began coaching at his alma mater, Montana State University, in 1965 under head coach Jim Sweeney. He joined Sweeney at Washington State in 1971 as defensive line coach. He spent the next two seasons as offensive coordinator and offensive line coach. After coaching for nine seasons in the Canadian Football League, Tiller returned to college coaching in 1983 as assistant head coach at Purdue University. He remained at Purdue until he joined the Wyoming staff in 1987.

## Surgeon general applauds NCAA's ban on tobacco use

An NCAA ban on tobacco use during all practices and games has won praise from the U.S. Surgeon General, Dr. M. Joycelyn Elders.

"By taking this step, the NCAA has shown significant national leadership in breaking the connection between sports and tobacco," Dr. Elders said. "The ban will send a needed and unmistakable message to young people about the risks of both smoking and spit tobacco. I can only hope that professional sports will follow this courageous action."

The ban, which was adopted by

the NCAA membership at the 1994 Convention, takes effect in August 1994. It covers the use of all tobacco products, including cigarettes as well as smokeless tobacco, by student-athletes, coaches and officials during practice and competition.

Any student-athlete who uses tobacco products during a practice or game is barred from the rest of the practice or game.

Other sports organizations that ban tobacco use include the Little League, which bans tobacco use by all participants, and the National Junior College Athletic Association,

which bans tobacco use during regular-season and postseason games. The National Association for Intercollegiate Athletics bans tobacco products during postseason competition only.

#### Proposed by committee

The legislation was proposed by the NCAA Committee on Competitive Safeguards and Medical Aspects of Sports, which was especially concerned with the use of smokeless tobacco. Smokeless tobacco use has been shown to cause oral cancer and other mouth

disorders and to result in nicotine addiction.

Kathy D. Clark, associate director of athletics at the University of Idaho and chair of the committee, noted that the NCAA has not been successful in deterring use of smokeless tobacco, despite strong educational programs. "In 1993, 26.9 percent of the athletes involved in the NCAA substance-abuse studies reported the use of smokeless tobacco—up seven percentage points from 1985," she said. Use was highest among baseball, with nearly 55 percent of college players

reporting that they used smokeless tobacco.

The ban had widespread support. The committee on competitive safeguards cited a survey of conference commissioners that showed support from 75 percent for a ban on tobacco products.

In 1991, the NCAA Executive Committee banned the use of tobacco products at NCAA championships, during both actual competition and events surrounding the championships, such as banquets and press conferences.

# Geared up: Hockey examines equipment's safety value

By Theodore A. Breidenthal  
THE NCAA NEWS STAFF

Since the full-shield face mask was mandated by the NCAA in 1981, the game of college ice hockey has changed immensely.

What once was a game played below the waist has become a game played above the waist. Observers talk of players having a feeling of invincibility and a false sense of security with the full-shield mask. Bigger, tougher and faster players are playing the game, resulting in a faster, more physical game.

The question is this: Has safety equipment, specifically the protective head gear, kept up with this change? And if not, are the injuries

serious enough to warrant additional safety measures? This is one of the issues on the agenda of the NCAA Committee on Competitive Safeguards and Medical Aspects of Sports February 14-16 in Kansas City, Missouri.

Most ice hockey players wear a helmet that is approved by the Hockey Equipment Certification Council (HECC); however, players are not required to wear such a helmet. The NCAA Men's Ice Hockey Rules Committee recommends that each player wear a HECC-approved helmet.

In football, the NCAA requires players to wear a protective helmet and face mask that is secured by a

four-point chin strap. The helmet must carry a warning label regarding the risk of injury and a manufacturer's or reconditioner's certification indicating satisfaction of National Operating Committee on Standards for Athletic Equipment (NOCSAE) test standards.

Likewise, men's lacrosse requires a protective helmet that carries the NOCSAE mark and is equipped with a face mask and chin pad, with a four-point chin strap (high-point hookup).

## The 'overheating' issue

Ray Barile, ice hockey trainer at Cornell University and cochair of the College Hockey Athletic

Trainers Society, said that hockey is considered a "collision" sport, not a "contact" sport, like football.

Said Barile, "The helmet is used to protect the head from the boards and ice, not other players. With some of the pads and other equipment, college hockey has taken on the look of football on ice with sticks. Hockey pads have evolved into a smaller version of football pads. In some cases, the pads are used for football-like blocking on the ice."

The problem with the helmet is that players do not like the protective ear guards that are mandatory on HECC-approved helmets. Players feel the ear guards diminish hearing and choke a helmet's ventilation system, causing the head to overheat.

Because they are not required to wear the HECC-approved helmet, many players take off the ear guards and adjust the helmet for a

more comfortable, looser fit, like many players in the National Hockey League. By doing so, the player eliminates any protective value and capability the helmet once had.

"The players don't like the ear guards because they don't like the way they look," added Barile. "To be honest, none of the helmets we ordered this year came with ear flaps."

Bob Broxterman, assistant athletics trainer at the University of Minnesota, Twin Cities, and a proponent of stiffer safety standards for ice hockey equipment, said he doesn't think the overheating-sensation argument is a legitimate reason to alter the helmet. He said there are no hard data that suggest a player overheats because of ear guards.

Said Broxterman, "Hockey is the

See Ice Hockey, page 19 ►

Some hockey officials think the full-shield face mask gives players a false sense of security when it comes to protection against injury in what they believe is an increasingly physical game. The issue of safety measures in hockey will be discussed at the NCAA Committee on Competitive Safeguards and Medical Aspects of Sports meeting, which begins February 14 in Kansas City, Missouri.

## Idea of three-point goal interests water polo

Less than a year after adopting a two-point line for goals scored from outside of 7 meters, the NCAA Men's Water Polo Committee is considering increasing from two to three points the value of goals scored from outside that line.

At its annual meeting January 30 through February 2 in Coronado, California, the committee discussed replacing the current scoring system with one that awards from one to three points for goals scored.

Under the proposal, teams would be awarded three points for goals scored on or outside the 7-meter line; two points for goals scored inside the 7-meter line, and two points for penalty throws. Current rules award two points for goals on or outside 7 meters and one point each for goals inside 7 meters and penalty throws scored.

"A lot of coaches feel awarding two points makes the outside shot too valuable; it's taken away the val-

ue of scoring inside" said Edward H. Newland, men's water polo coach at the University of California, Irvine, and secretary-rules editor of the NCAA Men's Water Polo Committee.

As part of the proposal, the committee also is considering adding a delayed-penalty-throw provision for any foul committed within the 4-meter area with the object of preventing a goal. The proposed change would allow the referee to let play continue after signaling a penalty throw until a goal is scored or a shot is missed. If missed, a penalty throw would be awarded.

The committee, which withheld action on each of the proposed changes, will send a list of the proposed changes to all head men's water polo coaches at NCAA member institutions and recommend that they experiment with those changes this spring.

## Other highlights

In other actions during its January 30-February 2 meeting in Coronado, California, the Men's Water Polo Committee:

- Voted to recommend to the NCAA Executive Committee that California State University, Long Beach, serve as host institution and that U.S. Water Polo, Inc., serve as sponsoring institution for the 1994 championship at Belmont Plaza Olympic Pool, Long Beach, California.

- Voted to recommend to the Executive Committee that three conferences (Mountain Pacific Federation, Western Water Polo Association and Eastern Water Polo Association) receive automatic qualification to the 1994 championship.

- Discussed at length numerous options for a selection process for a four-team championship. Currently using an eight-team format, the championship will be reduced to four teams effective with the 1995 championship. The committee also agreed to survey coaches to receive input on the selection process for a four-team championship.

- Met with Bruce Wigo, Tom Hermsted and Barbara Kalbus, representatives of U.S. Water Polo, Inc.

In actions pertaining to rules, the committee:

- Recommended that all pool markings be in meters.

- Revised the definition of Rule 5-5, requiring the 35-second clock to be reset after a ball-under call.

- Revised the definition of Rule 8-6, requiring that a center throw is to be taken by the offensive team between the 2- and 4-meter lines midway between the goal posts. In addition, the referee shall not put the ball in play on a center throw until there is no advantage, as is done after a timeout.

- Adopted language involving a two-point goal attempt touched by an offensive player inside the 7-meter line. The change provides that if a two-point goal attempt is touched by an offensive player inside the 7-meter line, then the attempt, if scored, shall count for only one point. Two points shall be awarded for any two-point goal attempt touched by a defensive player and then scored.

- Increased from one to two the number of penalty throws awarded the offensive team when, on a two-point goal attempt, a defensive player commits any foul within the 4-meter area with the object of preventing a goal (for instance, the goaltender intentionally pulls over the goal). The two penalty throws can be taken by different players.

- Revised the definition of Rule 2-7-f, requiring a referee to raise both arms above the head to signal a two-point goal.

## Injury data

The NCAA Injury Surveillance System (ISS) was used to review head injuries in 12 intercollegiate sports—including men's ice hockey—from 1984 to 1990. Head injuries are expressed below as a percentage of all reported injuries and as an injury rate (IR: head injuries per 1,000 athlete-exposures). An athlete-exposure is defined as one athlete participating in one practice or game where he or she is exposed to the possibility of athletics injury.

Sport	Head %	Injury (IR)	Primary Head Injury Mechanism
Men's ice hockey	5.4	.30	Contact with player
Football	4.5	.29	Contact with player
Men's lacrosse	3.2	.22	Contact with player

It can be seen that head injuries in collegiate men's ice hockey are as high or higher than either football or men's lacrosse, expressed either as a percentage of all injuries or as an injury rate. The primary head-injury mechanism in all three sports is player contact. The vast majority of these head injuries were concussions, which could be prevented by wearing an effective helmet—including a mechanism to keep the helmet in place—and wearing a mouthguard.

# Consultants discuss Proposal No. 174's effect on guide

The NCAA Foreign Student Records Consultants discussed issues related to the Guide to International Academic Standards for Athletics Eligibility—including how the adoption of 1994 Convention Proposal No. 174 will affect publication of this year's guide—at their January 28-29 meeting in Coeur d'Alene, Idaho.

The proposal, adopted at the 1994 NCAA Convention, directs appropriate NCAA committees to review 1992 Convention Proposal No. 16 (NCAA Bylaw 14.3) regarding initial-eligibility standards to determine its impact on minority student-athletes. Those committees will report to the NCAA Council and the Presidents Commission in June on whether to maintain or to

amend, delay or otherwise change the 1992 proposal, which is scheduled to go into effect August 1, 1995.

Delays in the effective date of legislation or changes to the proposal would affect publication of the 1995 guide. The consultants are planning the guide as if the effective date of legislation will not change but must wait until June before determining a publication date. Changes to the proposal would cause a revision of the guide.

The consultants also reviewed Bylaw 13.7.1.2.4 regarding official visits before the early signing period to determine how or if the bylaw should be applied to foreign students. Because of the small number of foreign students who actually

make official visits, however, the consultants decided the issue was not significant enough to omit foreign students from the application of the bylaw.

The consultants also heard from a representative of the NCAA Initial-Eligibility Clearinghouse who will be involved in certifying foreign students. The representative updated the consultants on the number of foreign students currently registered with the clearinghouse and reviewed the certification process.

The clearinghouse will be able to provide the consultants with precise counts of foreign students from individual countries, which will help the consultants determine important information for future guides.

## Other highlights

*In other actions at its January 28-29 meeting in Coeur d'Alene, Idaho, the Foreign Student Records Consultants:*

■ Revised the Guide to International Academic Standards for Athletics Eligibility to reflect changes in educational systems within individual countries.

■ Completed revisions to the guide to reflect the August 1, 1995, implementation of the Division I initial-eligibility index and the increase in core-

curriculum requirements for Divisions I and II.

■ Reviewed the NCAA Olympic Sports Liaison Committee's foreign student-athlete survey to determine the approximate number of foreign students in intercollegiate athletics during the 1991-92 academic year. This information gives the consultants an understanding of the number of foreign students affected by the guide.

## Mistake found in sending of SWA survey

Some chief executive officers, athletics directors and faculty athletics representatives at NCAA member institutions with senior woman administrators erroneously received a memorandum and survey intended for institutions without identified SWAs.

The original memorandum was dated February 4.

Those who did receive the survey in error are asked to disregard it, since the senior woman administrators at their institutions have received the appropriate survey.

## Extension

Proposal deadline is pushed back

► Continued from page 1

sidered by appropriate entities, but such consideration should be apart from this topic.

■ While legislation for possible action at the 1995 Convention would not be prohibited, the Board hopes to use that Convention as a forum for discussion of the issues and possible approaches to those issues, with any resulting legislation submitted for the 1996 Convention.

■ These matters should be a major issue on the agendas for the Divisions I, II and III Steering Committees at the April meeting of the NCAA Council.

### The NCAA News on microfilm

Back issues of The NCAA News are now available on microfilm. The four-reel set contains every issue of the News from March 1964 to May 6, 1992, and can be purchased for \$100. For more information, contact P. David Pickle, Editor-in-Chief, The NCAA News, 6201 College Boulevard, Overland Park, KS 66211-2422, or telephone 913/339-1906.

3-POINT FIELD-GOAL PERCENTAGE table with columns: G, FG, FGA, PCT. Lists teams like Wm. Paterson and Illinois Col.

SCORING DEFENSE table with columns: G, W-L, PTS, AVG. Lists teams like York and New York U.

WON-LOST PERCENTAGE table with columns: W-L, PCT. Lists teams like St. John Fisher and Immaculata.

FIELD-GOAL PERCENTAGE DEFENSE table with columns: G, FGA, PCT. Lists teams like Upsala and Immaculata.

REBOUND MARGIN table with columns: OFF, DEF, MAR. Lists teams like Wm. Paterson and Wm. Paterson.

3-POINT FIELD GOAL MADE PER GAME table with columns: G, NO, AVG. Lists teams like Nazareth and Hope.

# ■ Institutional secondary infractions

DIVISION I					
How reported	Sport	Citation	Facts	Institutional action	NCAA action
Self-reported	Men's ice hockey	B 11.02.6	A volunteer coach sat in the press box during the game and met with the coaches between periods at an away contest. The coach had provided his own transportation to the game, and the head coach was unaware of where the coach sat during the game.		Required institution to review correct application of NCAA By-law 11.02.6 with all coaching staff members.
Conference	Men's basketball	B 11.3.4.5	Restricted-earnings coach utilized an automobile supplied by a dealership at a reduced cost. Both the dealer and the coach were aware of the restrictions, but thought it was permissible since the arrangement was not through the university.	Conference required additional rules-review session with the basketball coaching staff and required the coach to return the car.	No further action.
Self-reported	Men's basketball	B 11.5.1.1.1	Assistant basketball coach brought copies of coaches-certification exams to the testing site on the night the exam was administered.	Conference required coach to retake the coaches exam at the conference office; precluded him from off-campus recruiting for six months, and precluded institution from replacing coach because he is unable to perform his coaching duties.	No further action.
Conference	Men's basketball	B 11.7.5.1	Three coaches recruited off campus at the same time.	Changed the process and monitoring of coaches' travel forms, and conducted a special rules-review session with the men's basketball coaching staff.	No further action.
Self-reported	Men's basketball	B 13.02.4.4	Prospect's official visit extended into the dead period by five hours. Young man's visit originally was scheduled for one day earlier, but was rescheduled so he could take the SAT. Prospect signed with another institution.	Precluded recruiting by the coaching staff for one day, reviewed procedures with staff, provided recruiting calendar to the business manager and will remind coaching staffs of dead periods one day before those periods.	Young man is ineligible unless restored through NCAA appeals process.
Self-reported	Women's track, outdoor	B 13.02.4.4	Head and assistant coaches had contact with a prospect during a dead period. Institution was not recruiting her; she and her father called and asked if they could stop by.	Ceased all contact with the young woman and reprimanded coaches.	Young woman is ineligible unless restored through NCAA appeals process.
Self-reported	Women's track, indoor	B 13.02.4.4	Head coach had recruiting contact with a prospect during a dead period. Prospect and her father arrived on campus for an unscheduled visit.	Precluded any recruitment of the young woman, placed a letter of reprimand in the coach's file, reviewed legislation with coaching staff and will send notices to coaches of quiet and dead periods.	Young woman is ineligible unless restored through NCAA appeals process.
Self-reported	Women's volleyball	B 13.1.6.1	Assistant coach had contact with a prospect without obtaining permission from his school. The coach knew the prospect from attendance at his camp. The institution had not and will not recruit the young woman.	Precluded coach from recruiting for six months. (The coach left the university after a two-month period.)	The young woman is ineligible unless restored through NCAA appeals process.
Conference	Baseball	B 13.11.2.1	Sports information director spoke during a broadcast of a high-school game. The sports information director thought the legislation applied only to coaches.	Admonished the sports information director and reviewed the legislation with the athletics staff.	No further action.
Conference	Administrative	B 13.16.1.5.1	Strength and conditioning coach sold old weight equipment to area high schools.	Reviewed legislation with involved coach and all other coaching staff members.	No eligibility consequences. No further action.
Conference	Women's volleyball	B 13.4.1	Coaches sent recruiting materials to several prospects who had not begun their junior years in high school. Violation was discovered as a result of institutionally initiated audit of recruiting correspondence and discovery of other similar violations.	Ceased recruitment of prospects, reprimanded involved coaches, precluded involved coaches from off-campus recruiting indefinitely and instituted more thorough rules education for new coaching staff members.	Young women are ineligible unless restored through NCAA appeals process.
Self-reported	Women's volleyball	B 14.01.1, 14.01.2, 15.01.5 and 15.3.1	Student-athlete participated while enrolled in less than a full-time program of studies. Also, three student-athletes received aid outside of the maximum five-year time period. The three student-athletes were not participating nor were they certified as eligible while they received impermissible aid.	Hired a full-time coach and athletics academic advisor; implemented a computer program that notes enrollment status of each student-athlete, and is securing NCAA financial aid software. Also will double-check student-athletes' eligibility for financial aid after expiration of athletics ability.	Required institution to forfeit those contests won in which young woman participated while enrolled in less than a full-time program of studies.
Self-reported	Men's tennis	B 14.2.1	International transfer student-athlete participated in contests after five calendar years had elapsed since his initial full-time enrollment at an institution. Young man's form for international student-athletes was issued as a freshman inasmuch as none of his classes was transferable.	Developed a separate form that will focus on seasons of competition and the five-year rule with regard to all transfer student-athletes.	Required institution to forfeit any individual points earned by the young man during the 1993 spring season and the 1993 fall season and adjust team standings accordingly.

Institutional secondary infractions

► Continued from page 13

Conference	Women's basketball	B 14.6.4.1.2	Junior college transfer student-athlete who was not a qualifier was provided financial aid even though she did not have a 2.000 cumulative grade-point average (4.000 scale). Student-athlete withdrew from the university.	Reviewed procedures with financial aid office, and reviewed and amended procedures to avoid a similar violation in the future.	Young woman is ineligible unless restored though NCAA appeals process.
Self-reported	Men's tennis	B 14.6.4.1.2	Student-athlete who was a partial qualifier received financial aid even though he did not graduate from a two-year college. Institution had received preliminary information that the young man was a qualifier. Student-athlete did not practice or compete, and the institution did not seek restoration of eligibility.	Advised staff members that awarding of financial aid may not occur unless all eligibility information is obtained; requested repayment by the student-athlete and precluded him from further activity with the team.	Required institution to submit a written report outlining procedures utilized to certify international student-athletes. Young man is ineligible unless restored though NCAA appeals process.
Self-reported	Wrestling	B 16.12.2.1	During a tournament, the parents of two student-athletes ate pizza with the team, and the dinner was paid for by the institution. Involved student-athletes do not have any remaining eligibility.	Conducted an audit to determine if other similar violations had occurred, reprimanded the head coach, requested and received repayment from the parents, and required the coach to review the extra-benefit legislation with the team and review it at the next staff meeting.	No further action.
Self-reported	Men's soccer	B 17.14.5.1.3	Student-athlete participated in 21 contests (19 varsity and two junior varsity), rather than the permissible 20.	Forfeited last regular-season contest and vacated its placement in the conference championship; developed a compliance program to detect all appearances in junior varsity competition, withheld the young man from first three nontraditional season spring games and reviewed legislation with the head coach.	No further action.
Self-reported	Men's basketball	B 17.3.2.1.2-(f)	On several occasions before the first permissible practice date, members of the men's basketball coaching staff observed student-athletes in pick-up basketball games.	Canceled an exhibition game, precluded practice for five days and the date of the canceled game, reduced practice hours from 20 to 16 per week during preseason practice, and required accurate additional records be compiled for practice sessions.	No further action.
Self-reported	Men's basketball	B 17.3.3	Institution played a contest one day before first permissible date.	Reviewed legislation with appropriate individuals. Compliance officer will review all schedules for compliance.	Required institution to delay first game of 1994-95 season by one day.
Conference	Men's basketball	B 17.3.5 and 17.3.5.1	Team participated in an impromptu scrimmage game with alumni, thereby exceeding permissible number of contests. Also, contest occurred before the first permissible starting date. The game was supposed to be alumni only but not enough showed up and team members joined the group. No official score was kept and no publicity was generated in connection with the event.	Prohibited team from competing in one of its exempted contests for 1994-95, and reviewed legislation with athletics department personnel.	Required institution to delay its first game in 1994-95 by one day.

DIVISION I-A

Self-reported	Football	B 14.5.5.8	Institution certified a student-athlete as eligible using a repeated course to satisfy eligibility requirements. The institution's record was 2-9, but young man was a starter and leader in punt and kick-off returns.		Required institution to forfeit the two games won in which young man participated while ineligible, and provided written report that outlines actions taken to avoid a recurrence of a similar violation.
---------------	----------	------------	---	--	---

DIVISION II

Self-reported	Administrative	B 11.2.1 and 11.2.2	Coaches' contracts did not include the stipulations regarding involvement in violations or the need for approval by the chief executive officer with regard to outside income.	Vice-president for financial affairs has been advised that such clauses should be included in future contracts, and institution reissued letters to coaches to ensure compliance.	No further action.
Self-reported	Women's track, outdoor	B 13.1.1.3	Head coach had a recruiting contact with a student-athlete from another NCAA member institution before receiving written approval from that institution. Contact release was eventually provided by the second institution.	Discontinued recruitment of the prospect; precluded any provision of financial aid; required head coach to perform 12 hours of intense NCAA rules study with the compliance officer and issue statement of apology to the other institution, and recertified its current athletics policies and practices.	Young woman is ineligible unless restored through NCAA appeals process.

Institutional secondary infractions

► Continued from page 14

Self-reported	Football	B 14.01.1 and 14.01.2	Student-athlete competed in four contests while enrolled in less than 12 hours of classes. Young man had been advised not to drop below 12 hours. Institution had computer system in place that should have flagged that a course had been dropped, but new telephone enrollment system had not been incorporated in the program. Young man failed hours he was enrolled in and is not expected to return. University lost all four contests.	Working on ensuring that the system will note any enrollment change regardless of the enrollment process used.	Young man is ineligible unless restored through NCAA appeals process.
Self-reported	Administrative	B 14.1.6.1, 14.1.6.2.2, 14.3 and 14.11.2	Institution had not kept NCAA squad lists, lists of athletes on financial aid or letters from financial aid director indicating that all aid was administered based on need, or 48-H forms for California high schools. Students were allowed to practice before establishing full-time enrollment. Institution did keep a conference squad list form and 48-H forms for out-of-state high schools. Student-athletes were not allowed to compete before ensuring full-time enrollment status.	Implemented a system to compile and update squad lists and obtain 48-H forms for all high schools. Changed enrollment procedures to ensure timely enrollment before practice.	Required institution to submit a written report regarding the completion of implementation of all corrective actions and information regarding rules education for all staff members, as well as oversight responsibilities.
Self-reported	Football	B 14.1.6.2.2	Student-athlete competed while enrolled in less than a minimum full-time program of studies. Institution is not seeking restoration.		Required institution to forfeit those contests won in which the young man participated while enrolled in less than a minimum full-time program of studies, submit documentation regarding such forfeitures and to submit a written report that outlines those actions taken to ensure that a similar violation does not occur in the future.
Self-reported	Women's basketball	B 17.1.5.4	Team was not provided a day off during one week. Violation was discovered during regular monitoring activities. Hours practiced that week were 17½ (less than the 20-hour limit).	Required coach to submit practice activities one month in advance.	No further action.
Self-reported	Women's basketball	B 17.3.3	Institution played its first contest one day before first permissible date.	Director of athletics will now double-check all schedules and will combine a day with the date in order to avoid a recurrence.	Required institution to delay first game of 1994-95 season by one day.
DIVISION III					
Self-reported	Women's basketball	B 13.12.1	Part-time assistant coach played in a pick-up game in which a prospective student-athlete also participated.	Advised coach of correct application of the legislation.	Required institution to admonish coach for his involvement in the violation. Young woman is ineligible unless restored through NCAA appeals process.
Self-reported	Men's basketball	B 14.1.6.1	Student-athlete participated in practice even though he was not enrolled in a full-time program of studies. Young man was enrolled previous year, but because of poor academic standing was allowed to enroll in only six hours.	Admonished coach, required him to attend rules-compliance sessions and submit lists for approval of anyone other than team members who wish to practice with the squad; director of athletics will monitor practice sessions.	No further action.
Self-reported	Men's tennis	B 14.6.5.1 and 14.6.5.3.11	Transfer student-athlete participated in one contest even though he had not fulfilled a year of residency and would not have been academically eligible at his previous institution had he not transferred. Second institution requested confirmation that the young man had not competed while at the previous institution and received such confirmation, and the eligibility records did not include his name for participation. Subsequent contact by the initial institution noted his participation in one open contest. Young man has left the institution.	Will now require written confirmation of nonparticipation from director of athletics from initial institution.	Young man is ineligible unless restored through NCAA appeals process.
NCAA inquiry	Administrative	B 6.3.1	Institution failed to complete a self-study within the prescribed five-year period. Institution completed two self-studies within seven years.		Admonished to ensure that future self-studies are completed on time.
NCAA inquiry	Administrative	B 6.3.1	Institution failed to complete a self-study within the prescribed five-year period. Institution did complete two self-studies within six years.		No further action.

Minutes

athletics director.	(2) Reappointed Noel W. Olson, North Central Intercollegiate Athletic Conference, as the at-large member of the Division II Championships Committee.	expenses for two members of that committee to attend the March meeting of the National Football League's Competition Committee to discuss possible revisions of the professional draft rule.	major Council topics for 1994, discussing some of them in detail in preparation for the next day's discussion in the Joint Policy Board meeting:	playoff.
c. Considered a request by the Executive Committee that the Council resolve logo issues relating to Bylaw 12.5.4 by interpretation or noncontroversial legislation (per Constitution 5.3.1.1.1) before the spring championships; affirmed the Council's earlier position that such action cannot be achieved by interpretation; concluded that the issues involved are controversial and therefore cannot be treated by a noncontroversial amendment; noted that the issue also has been referred to the special committee that is reviewing the relationship of apparel manufacturers to the intercollegiate athletics community; directed the staff to prepare possible legislation or other recommendations regarding the specific logo issue for review by the Council in April.	(3) Noted that Edward G. Coll Jr., Alfred University, automatically replaces John H. Harvey on the Division III Championships Committee; reappointed Sam S. Bedrosian, Aurora University, as the at-large member of that committee.	3. Acting for the Council and the Executive Committee, the Administrative Committee:	(a) Report and recommendations of the Special Committee to Review Student-Athlete Welfare, Access and Equity, noting that it may be desirable to have a committee or subcommittee review the relationships of several of the other major issues to this one.	(i) Recommendations by the Legislative Review Committee regarding deregulation of the eligibility legislation.
2. Acting for the Executive Committee, the Administrative Committee:	(4) Noted that Prentice Gautt and Sangster and Coll automatically replace Cedric W. Dempsey, Dreidame and Harvey on the Budget Subcommittee and that Gautt automatically serves as chair.	a. Scheduled Administrative Committee meetings and telephone conferences for the period through June 1994 (telephone conferences at 2 p.m. Central time) as follows: February 16, March 2, March 16, March 31 or April 1 (in person, in conjunction with Presidents Commission meeting), April 17 (in person, in conjunction with Council meeting), May 2 (in person, in conjunction with Executive Committee meeting), May 18, June 1, June 15, June 28 (in person, in conjunction with Presidents Commission meeting).	(b) Report and recommendations of the Special Committee to Study Rules Federation by Sport, noting that this may not develop into a major issue as the year progresses.	(j) Implementation of gender-equity strategies.
a. Took the following actions regarding committees and committee appointments:	(5) Dissolved the Subcommittee to Review Championships Awards Programs.	b. Participated in orientation sessions conducted for the Administrative Committee; the Joint Policy Board, and new members of the Council, the Executive Committee and the Presidents Commission. In conjunction with those sessions, the Administrative Committee:	(c) Study of the NCAA membership structure, noting that the Joint Policy Board will discuss delaying the submission deadline and perhaps implementing other refinements of this study.	(2) Identified the following as the likely major Executive Committee topics for 1994:
(1) Noted that William M. Sangster, Georgia Institute of Technology, automatically replaces R. Elaine Dreidame on the Division I Championships Committee.	b. Denied a request by an AIDS awareness organization for an exception to the NCAA football rules that would permit use of the AIDS awareness symbol on football helmets and uniforms, noting that while the Administrative Committee is sympathetic to the cause, all requests from other worthy organizations for similar exceptions have been denied and it is not possible to differentiate among such causes.	(1) Identified the following as the likely	(d) Report by the Committee on Financial Aid and Amateurism regarding its study of need-based financial aid.	(a) Finalization and implementation of the revised championships program and related policies.
	c. Approved a request by the Professional Sports Liaison Committee for payment of	(2) Identified the following as the likely	(e) Study of the concept of a biennial NCAA Convention.	(b) Continuing work of the Special Advisory Committee to Review Recommendations Regarding Distribution of Revenues.
		(3) Identified the following as the likely	(f) Study by appropriate committees of the proposed changes in Bylaw 14.3.	(c) Concept of a Division I-A football playoff and related issues, including revenue distribution.
		(4) Identified the following as the likely	(g) Study of the effects of the 10 percent reduction in grants-in-aid in all sports.	(d) Preparation for negotiation of a television contract for years subsequent to 1996-97.
		(5) Identified the following as the likely	(h) Concept of a Division I-A football	(e) Development of the 1994-95 Association budget.
		(6) Identified the following as the likely		(f) Marketing activities related to NCAA championships.
		(7) Identified the following as the likely		(3) Agreed to continue to include an executive session on the agenda for each

## ■ Administrative Review Panel actions

The following is the continuation of a report of actions by the NCAA Administrative Review Panel that began in the February 2 issue of *The NCAA News*.

The panel was created to consider appeals—based on special circumstances—of actions of NCAA committees (other than the Eligibility Committee or Committee on Infractions)

or the NCAA staff regarding the application of NCAA legislation.

This report contains actions taken by the panel from October through December 1993. The actions were reviewed by the NCAA Council at its January post-Convention meeting.

Of these cases, three requests by institutions were granted by the panel; four were denied. Since the panel's formation in January 1993, the panel has granted a total of 116 requests and denied 125.

The following cases are listed in NCAA bylaw numerical order. The case number assigned to each case also is listed.

Case No.	Sport and division	Citation	Special circumstances	Application of legislation	Request of institution	Action taken
122.	Men's golf (III)	B 17.1.10.3	A Division III institution was invited to take part in a golf tournament in Dallas, with two Division I institutions. The tournament was October 29-31, 1993.	In Division III, a member institution that divides its playing-and practice season into two distinct segments and conducts its nontraditional segment in the fall must complete all practice and competition by October 30 of the academic year involved.	Waive the normal application of the Division III playing-and-practice rule and grant a one-day extension to the institution's nontraditional season.	Granted.
257.	Men's tennis (III)	B 17.1.10.3	The 1993 Rolex National Small College championships began Thursday, October 28, 1993, with the finals in singles and doubles to take place Sunday, October 31. In scheduling the 1992 Rolex championships, the Intercollegiate Tennis Association (ITA) moved the event a week earlier in order to accommodate this change in the playing-and-practice legislation. In scheduling the 1993 Rolex championships, ITA was advised by the NCAA that play must be completed by the end of October. With Sunday falling on October 31 this year, ITA was under the impression that the tournament was within the prescribed NCAA limitations.	In Division III, a member institution that divides its practice-and-playing season into two distinct segments and conducts its nontraditional segment in the fall must complete all practice and competition by October 30 of the academic year involved.	Waive the normal application of the playing-and-practice season regulation and permit the applicant institution and the various NCAA Division III institutions participating in the 1993 Rolex National Small College Championships that conduct their nontraditional segment in the fall to participate in the Rolex championships contest October 31.	Granted.
268.	Football (II)	B 17.7.5.1	The applicant institutions are new members of a conference that plans to conduct a season-end tournament contest. The Eastern College Athletic Conference office assisted the institutions in scheduling a 10-game season, which was intended to leave one game (11th) for the tournament. In addition, each school participated in a preseason scrimmage, which is countable as a contest under NCAA rules. Each institution failed to recognize that the conference tournament game would not qualify as an annual exemption as it does in Divisions I-AA and III.	The legislation applicable to the number of contests (maximum limitations—institutional) permits 11 games, including scrimmages with outside teams. However, there are exceptions to the 11-game season. Although legislation was presented in January 1993 to exempt a conference tournament in Division II, the legislation failed. It was reintroduced for January 1994.	Waive the normal application of the maximum-contests limitation and permit the institution to exempt the preseason scrimmage from counting as a contest.	Denied.
273.	Football (I-AA)	B 17.7.5.1	The applicant institution will not have completed its regular-season football schedule until five days after the Eastern College Athletic Conference (ECAC) tournament is played. In previous years, the institution has limited its regular-season schedule to a total of 10 contests. Thus, participation in a postseason conference tournament could be counted within the NCAA limit of 11 contests. However, the institution's original 10-contest schedule was modified on several occasions during the preseason scheduling process, at the request of the conference office, in order to accommodate the scheduling criteria stipulated by the newly formed ECAC intercollegiate football conference. These changes alter the dates of the institution's original schedule and result in the scheduling of another home contest, which would be the 11th for the season. The only suitable dates for the contest were subsequent to the date eventually established for the conference playoff.	A member institution shall limit its total regular-season playing schedule with outside competition in the sport of football during the permissible football playing season in any one year to 11 contests (games and scrimmages), except as provided for member institutions located in Alaska and Hawaii, and except as provided for all members under the annual exemptions.	Waive the normal application of the playing-season regulation because all regular-season contests that will have a bearing on the selection of the football team for the conference postseason play this season will have been completed before the date of the conference tournament. The regular-season contest (November 25) was an add-on contest, scheduled against a local Division III team, necessitated only to accommodate a previously contracted agreement to televise five contests.	Denied.
277.	Football (III)	B 17.7.5.1, 17.7.5.2	The applicant institution does not qualify for a waiver to the maximum-number-of-contests legislation in order to be selected for a conference tournament game scheduled for November 20, 1993. This circumstance is due to scheduling the conference tournament November 20, while the institution has a regularly scheduled game November 25. The November 25 contest actually is the institution's 10th contest, excluding the conference tournament. If it were to cancel one, the institution could participate in the other.	A Division III institution is limited to 10 football games; however, there are several exceptions, including a conference tournament that is between teams that are not identified until the end of the preceding season. The institution's November 25 contest disqualifies it from consideration for the conference event.	Waive the normal application of the playing-season regulation because all regular-season contests that will have a bearing on the selection of the football team for the conference postseason play this season will have been completed before the date of the conference tournament.	Denied.
246.	Football (I-AA)	B 30.6.1	The SA has participated in limited competition at the applicant institution due to injuries and the death of the SA's father. In the last year of the SA's five-year clock, the SA was injured in the second contest of the season. The SA needs 13 credit hours to complete a minor in business management. Therefore, the SA would take the remaining hours in the spring and fall semesters of 1994 to complete the graduation requirements, and would like to participate in an additional season of football in the fall of 1994.	A waiver of the five-year rule may be granted only when circumstances clearly supported by objective evidence establish that an SA is unable to attend a collegiate institution for reasons unrelated to athletics or to personal or family finances and that are beyond the control of either the SA or the institution.	Waive the normal application of the five-year rule and permit the SA to be eligible for an additional season of football.	Denied.
291.	Softball	B 30.10.7.4	In early June, the National Softball Coaches Association (NSCA) recommended to the NCAA Recruiting Committee that a dead period be established during the convention. A July 30 letter from the NCAA to the executive director of the NSCA included the minutes of the Recruiting Committee, which indicated that the committee agreed to support the recommendation from the NSCA and request that the Council sponsor legislation to add a dead period during the NSCA's convention, beginning the Thursday before the convention and concluding the day after the completion of the convention. No additional correspondence transpired from the Recruiting Committee to the NSCA. According to NSCA officials, a member of the NCAA legislative services staff was asked if any legislation was passed regarding the dead period surrounding the NSCA's convention. NSCA officials were informed that the staff was unaware of any action. Since the recommendation of the NSCA to the Recruiting Committee, the NSCA has extended invitations to selected high-school all-Americans to attend its convention to be recognized for their accomplishments.	There shall be a dead period for the sport of softball commencing Tuesday prior to the National Collegiate Division I Women's Softball Championship game to noon on the day after the game, and the period from 12:01 a.m. on the day of registration of the national convention of the National Softball Coaches Association to 12:01 a.m. on the day after adjournment of the convention.	Waive the normal application of the dead period in this situation because the NSCA believes it has acted in good faith and also believes that there was no communication between the NCAA's Recruiting Committee, Administrative Committee and the NSCA. The NSCA was not directly informed of the decision to declare a dead period effective immediately until the revisions were reported in an edition of <i>The NCAA News</i> . Further, thousands of dollars have been expended by the high-school all-Americans and their families to attend the awards ceremony at the convention, and these airline tickets are nonrefundable.	Granted.

## ■ Noncontroversial legislative proposals

Pursuant to NCAA Constitution 4.1.3 (f) and 5.3.1.1.1, the NCAA Council has determined that the following proposals are noncontroversial and necessary to promote the normal and orderly administration of the Association's legislation. Proposals that receive the support of a three-fourths majority of the Council present and voting shall be effective immediately, published in The NCAA News and submitted by the Council as legislation at the 1995 NCAA Convention. Bold type indicates new wording; italicized type indicates wording removed. Page numbers refer to the 1993-94 NCAA Manual.

### NO. 1 PELL GRANTS

**Intent:** To clarify that Pell Grant limits do not apply in Division III.

**Bylaws:** Amend 15.2.4.1, page 170, as follows:  
[Division III only]

"15.2.4.1 Pell Grants. A student-athlete may receive a Pell Grant in combination with other institutional financial aid, provided the overall grant total does not exceed the value of a full grant-in-aid plus \$2,400 in Division I institutions or \$900 in Division II or *Division III* institutions, or the student-athlete's cost of attendance per 15.01.7 (in Division I institutions, as determined by the institution's regular financial aid authority), whichever is less."

**Source:** NCAA Council (Committee on Financial Aid and Amateurism).

**Effective Date:** Immediately.

### NO. 2 EXEMPTED GOVERNMENT GRANTS

**Intent:** To specify that benefits received by student-athletes under the Vocational Rehabilitation for Service-Disabled Veterans Program and the Veterans Educational Assistance Program (VEAP) shall not be included when determining the permissible amount of a full grant-in-aid or cost of attendance.

**Bylaw:** Amend 15.2.4.2, page 170, as follows:  
[Dominant provision, all divisions, common vote]

"15.2.4.2 Exempted Government Grants. The following government grants for educational purposes shall not be included when determining the permissible amount of a full grant-in-aid or cost of attendance of a student-athlete:

[15.2.4.2 (a) through 15.2.4.2 (c) unchanged.]

"(d) Vocational Rehabilitation for Service-Disabled Veterans Program. Benefits received by student-athletes under the Vocational Rehabilitation for Service-Disabled Veterans Program;

"(e) Veterans Educational Assistance Program (VEAP). Benefits received by student-athletes under the VEAP, or" [15.2.4.2 (d), relettered as 15.2.4.2 (f), unchanged.]

**Source:** NCAA Council (Committee on Financial Aid and Amateurism).

**Effective Date:** Immediately.

### NO. 3 CHAMPIONSHIPS PLAY-IN CONTESTS

**Intent:** To exempt play-in contests conducted pursuant to NCAA championships from the maximum number of contests in all sports. [Note: The following proposal is present-

ed in a nontraditional format.]

**Bylaws:** Amend 17.2.2, pages 221-304, as follows:  
[Federated provision, all divisions, divided vote]

"17.2.2 Annual Exemptions. The maximum number of contests/dates of competition shall exclude the following:  
[17.2.2 (a) through 17.2.2 (c) unchanged.]

"(d) NCAA Championship Play-In Competition. Competition in play-in contests conducted pursuant to NCAA Championships."

[17.2.2 (d) through 17.2.2 (m), relettered as 17.2.2 (c) through 17.2.2 (n), unchanged.]

**Source:** NCAA Council (Executive Committee).

**Effective Date:** Immediately.

### NO. 4 ON-COURT BASKETBALL PRACTICE

**Intent:** In Divisions I and II, to permit on-court preseason basketball practice sessions to begin on the preceding Saturday when November 1 falls on a Sunday or a Monday.

**Bylaws:** Amend 17.3.2.1, page 225, as follows:  
[Federated provision, Divisions I and II, divided vote]

"17.3.2.1 On-Court Practice. A member institution shall not commence on-court preseason basketball practice sessions prior to November 1. **When November 1 falls on a Sunday or Monday, a Division I or II institution may begin practice on the preceding Saturday.**"

**Source:** NCAA Council (Divisions I and II Steering Committees).

**Effective Date:** Immediately.

## ■ Constitution 5.4.1.1.1 modifications

Pursuant to NCAA Constitution 5.4.1.1.1, the NCAA Council has determined that the following proposals are consistent with the intent of the membership in adopting the original legislation and that sufficient documentation and testimony exist to establish clearly that the original wording of the legislation was inconsistent with that intent. Proposals that receive the support of a two-thirds majority of the Council present and voting shall be effective immediately, published in The NCAA News and submitted by the Council as legislation at the 1995 NCAA Convention. Bold type indicates new wording; italicized type indicates wording removed. Page numbers refer to the 1993-94 NCAA Manual.

### NO. 1 GRADUATION-RATES DISCLOSURE REPORTS

**Intent:** To specify that a Division III institution that is classified in Division I or II in a sport and offers athletics aid in that sport shall provide to prospective student-athletes and to prospects' parents the admissions and graduation-rates data in that sport.

**Bylaws:** Amend 13.3.1.2 by adding new 13.3.1.2.1, page 89, as follows:

[Division III only]

"13.3.1.2.1 **Division III—Multidivision Classification. A Division III institution that is classified in Division I or II in a sport and offers athletics aid in that sport shall provide to prospective student-athletes and to prospects' parents the admissions and graduation-rates data in that sport.**"

**Source:** NCAA Council (Division III Steering Committee).

**Effective Date:** Immediately.

### NO. 2 EXEMPTED GOVERNMENT GRANTS

**Intent:** To update the financial aid legislation related to exempted government grants as specified.

**Bylaws:** Amend 15.2.4.2, page 170, as follows:  
[Dominant provisions, all divisions, common vote]

"15.2.4.2 Exempted Government Grants. The following government grants for educational purposes shall not be included when determining the permissible amount of a full grant-in-aid or cost of attendance of a student-athlete:

"(a) **Montgomery G.I. Bill of Rights.** Benefits received by student-athletes under the **Montgomery G.I. Bill of Rights—Active Duty and the Montgomery G.I. Bill—Selected Reserve;** [15.2.4.2 (b) unchanged.]

"(c) Special U.S. Government Entitlement Programs. Payments by the U.S. government under the terms of the **War Orphans Educational Dependents Education Assistance Program (DEAP), Social Security Insurance Program [including the Reinstated Entitlement Program for Survivors (REPS)] or Non-Service-Connected Veteran's Death Pension Program, or**

[Remainder of 15.2.4.2 unchanged.]

**Source:** NCAA Council (Committee on Financial Aid and Amateurism).

**Effective Date:** Immediately.

### NO. 3 FINANCIAL NEED

**Intent:** To specify that need-based financial assistance provided to a Division III student-athlete must be based on financial need as determined by the need analysis system that conforms to written institutional guidelines, and that the methodology used to determine the need of a student-ath-

lete shall be consistent with the methodology used by the institution for all students.

**Bylaws:** Amend 15.4.5 and 15.4.6, page 176, as follows:  
[Division III only]

"15.4.5 Financial Aid Limit. A student-athlete may not receive financial assistance based upon need in excess of the value of a full grant-in-aid (i.e., tuition and fees, room and board, required course-related books, transportation, and other expenses incidental to attendance, provided the total value of all financial aid does not exceed the cost of attendance that normally is incurred by students enrolled in a comparable program at that institution).

"15.4.5.1 **Need Analysis Method. Any assistance provided within the limit defined in 15.4.5 must be based on financial need as determined by the need analysis system that conforms to written institutional guidelines. The methodology used to determine the need of a student-athlete shall be consistent with the methodology used by the institution for all students.**

"15.4.6 Aid Without Consideration of Need. *Any assistance provided within the limit defined in 15.4.5 must be based on financial need, as determined by any need analysis system that conforms to a uniform methodology approved by the U.S. Department of Education. However, Loans and awards specified in the following subsections may be offered to student-athletes without consideration of the recipient's need.*"

[Remainder of 15.4.6 unchanged.]

**Source:** NCAA Council (Committee on Financial Aid and Amateurism).

**Effective Date:** Immediately.

## ■ Initial-eligibility waivers

*Following is a report of actions taken by the NCAA Council Subcommittee on Initial-Eligibility Waivers. The report includes actions taken since the last published summary. That summary appeared in the November 8, 1993, issue of The NCAA News.*

*This report covers actions taken by the subcommittee in telephone conferences September 24 and October 12, 1993, as well as those taken during deliberations conducted by facsimile November 17 and 22, 1993.*

*Acting for the NCAA Council, the subcommittee:*

### Considered the following core-course waiver applications:

■ Approved the application of a recruited student-athlete who presented 11.8 core-course credits, and SAT scores of 690 and 680 with a composite score of 750. The student-athlete completed her first two years of secondary education in Croatia. The student-athlete completed grades 11 and 12 at a domestic high school and graduated in May 1993. Due to political unrest, the student-

athlete was not able to obtain grades for grade 10. She was able to obtain information regarding the courses taken and number of units earned. Based on the credits earned at the domestic high school, the student-athlete obtained a grade-point average of 2.159 (4.000 scale) in 9.4 core-course credits. The institution requested that the subcommittee waive the core-curriculum requirement of NCAA Bylaw 14.3. In its approval of the application, the subcommittee noted the acceptable nature of the student-athlete's available secondary school records and the institution's inability to obtain the student-athlete's 10th-grade grades due to the political unrest.

■ Approved the application of a recruited student-athlete who presented secondary credentials from a high school that did not give grades, and SAT scores of 610, 690 and 860. In its approval of the application, the subcommittee noted that the high school principal indicated that the student-athlete's grade-point average in the 11 core courses would be considered a 3.000 or better.

■ Approved the application of a recruited student-athlete who presented 11 core-course credits with a grade-point average of 2.590, an overall grade-point average of 2.580, an ACT score of 21 (science subscore of 26) and an SAT score of 810. The student-athlete lacked a science laboratory course. In its approval of the appli-

cation, the subcommittee noted the student-athlete's high ACT science subscore.

■ Approved the application of a nonrecruited student-athlete who presented 16 core-course credits with a grade-point average of 2.450, an overall grade-point average of 3.420 and an SAT score of 1130. The student-athlete completed his secondary education through a home-schooling program. In its approval of the application, the subcommittee noted the acceptable nature of the student-athlete's home-schooling program and high SAT score.

■ Approved the application of a recruited student-athlete who presented 13 core-course credits with a grade-point average of 2.450, an overall grade-point average of 2.927, an ACT score of 16 (science subscore of 17) and an SAT score of 820 (mathematics subscore of 460). The student-athlete lacked one core-course credit in science. The institution requested that the subcommittee approve the application based on the fact that the student-athlete was misadvised by his high-school counselor that an electronics course he took as a freshman would fulfill the science core-course requirement. In its approval of the application, the subcommittee noted that the recruitment of the student-athlete was minimal and occurred after his high-school graduation. The sub-

committee further noted the student-athlete's acceptable overall academic record.

■ Approved the application of a nonrecruited student-athlete who presented 10 core-course credits with a grade-point average of 3.750, an overall grade-point average of 3.480 and an ACT score of 18 with a mathematics subscore of 16. The student-athlete lacked one core-course credit in mathematics. In its approval of the application, the subcommittee noted the student-athlete's nonrecruited status and good overall academic record.

■ Approved the application of a recruited student-athlete who presented secondary credentials from the United Kingdom and an SAT score of 1050. The student-athlete lacked a countable pass on the General Certificate of Secondary Education (GCSE) in social science. In its approval of the application, the subcommittee noted that the student-athlete successfully completed additional secondary course work in social science.

■ Approved the application of a recruited student-athlete who presented 10 core-course credits with a grade-point average of 2.890, an overall grade-point average of 2.720 and an ACT score of 18 with a mathe-

## Olscamp Council adds member

► Continued from page 1

he became associate dean at the school. A year later, he became vice-president for academic affairs, dean of faculties and professor of philosophy at Roosevelt University.

In 1987, President Reagan appointed Olscamp to the National Council on the Humanities, the advisory board of the National Endowment for the Humanities.

Born in Montreal, Olscamp received his bachelor's and master's degrees from the University of Western Ontario. In 1962, he earned the first doctoral degree in philosophy awarded by the University of Rochester.

## Future of Liberty Bowl in jeopardy, officials say

Directors of the Liberty Bowl say they will decide within three months if the postseason college football game should continue.

The bowl drew 21,097 spectators to Memphis' 62,000-seat stadium in December and was a money loser, according to The Associated Press. Attendance at the 1992 game was 32,107.

"The first thing we have to do is make sure we're financially strong and we're in the position to have a football game in 1994," Bob Martin, vice-president of the Liberty Bowl Festival Association, said February 3.

Martin said the bowl's executive committee will meet with local sports fans and community and

*"You name the company, and I think we've made proposals to them."*

■ A.F. "Bud" Dudley  
Liberty Bowl director

business leaders over the next three months to decide the game's future.

The bowl also will be looking for a new executive director. A.F. "Bud" Dudley, the Liberty Bowl's founder and director, announced his retirement, saying his family was press-

ing him to retire.

Dudley said the future of the bowl depends largely on its success in attracting a title sponsor, something he has been trying to do for five years.

"You name the company, and I think we've made proposals to them," he said.

Dudley founded the bowl in Philadelphia in 1959 and moved it to Memphis in 1965.

The bowl's four-year television contract with ESPN, which brought in \$450,000 annually, expired in December.

Dudley said negotiations on a new contract with ESPN are underway and talks could begin, too, with CBS.

Martin said the Liberty Bowl needs to attract more sports fans from Memphis. In recent years, most of the crowds have come in with the competing teams.

"We've got to get some community support, and the only way we're going to get community support is to find out what you want and can we produce it," he said.

The bowl, now played at night and in late December, may need to change its time and date, Martin said.

At last year's Liberty Bowl, the University of Louisville beat Michigan State University, 18-7. In the 1992 bowl, the University of Mississippi defeated the U.S. Air Force Academy, 13-0.

## Waivers

► Continued from page 17

matics subscore of 19. The student-athlete lacked one core-course credit in mathematics. In its approval of the application, the subcommittee noted the student-athlete's good overall academic record and ACT mathematics subscore.

■ Approved the application of a nonrecruited student-athlete who presented secondary credentials from Australia and an SAT score of 1020. The student-athlete failed to achieve a pass in the core area of social science on his Year 12 Record of Achievement. In its approval of the application, the subcommittee noted that the student-athlete successfully completed additional secondary course work in social science.

■ Approved the application of a recruited student-athlete who presented secondary credentials from South Africa and an SAT score of 790. The student-athlete failed to achieve a pass in the core-course area of science on his Senior Certificate. In its approval of the application, the subcommittee noted that the student-athlete successfully completed additional secondary course work in science.

■ Approved the application of a recruited student-athlete who presented secondary credentials from Singapore and an SAT score of 1060. The student-athlete lacked an Advanced Level pass on his Singapore-Cambridge General Certificate of Education. In its approval of the application, the subcommittee noted the student-athlete's good overall academic record and high SAT score.

■ Approved the application of a recruited student-athlete who presented 11 core-course credits with a grade-point average of 3.310, an overall grade-point average of 3.200 and an SAT score of 850. The student-athlete lacked one year of lab science. In its approval of the application, the subcommittee noted the student-athlete's good overall academic record and SAT score.

■ Approved the application of a recruited student-athlete who presented secondary credentials from Norway and a domestic high school, which equates to approximately 15.9 core-course credits with a grade-point average of 3.500, and an ACT score of 21 with a science subscore of 21. The student-athlete lacked 4 core-course credits in science. In its approval of the application, the subcommittee noted the student-athlete's good overall academic record and ACT science subscore.

■ Denied the application of a recruited student-athlete who presented 10 core-course credits with a grade-point average of 2.100, an overall grade-point average of 1.632 and an ACT score of 17 with a mathematics subscore of 16. The student-athlete lacked one core-course credit in mathematics. In its denial of the application, the subcommittee noted the student-athlete's recruited status, marginal SAT mathematics subscore and overall academic record.

■ Denied the application of a recruited student-athlete who presented secondary credentials from Germany, which equate to approximately 10.5 core-course credits with a grade-point average of 2.071 and an SAT score of 730 with a mathematics subscore of 390. The student-athlete lacked .5 core-course credits in mathematics. In its denial of the application, the subcommittee noted the student-athlete's recruited status, low SAT mathematics subscore and overall marginal academic record.

■ Denied the application of a recruited student-athlete who presented 11 core-course credits with a grade-point average of 1.810; an overall grade-point average of 2.135, and SAT scores of 720, 760 and 830. The student-athlete lacked the 2,000 grade-point average requirement in 11 core courses. In its denial of the application, the subcommittee noted the student-athlete's recruited status, low grade-point average and the fact that the student-athlete failed to meet the minimum review criteria for a core-course waiver.

■ Denied the application of a recruited student-athlete who presented 12 core-course credits with a grade-point average of 1.833, an overall grade-point average of 2.000, and SAT scores of 570, 700 and 710. The student-athlete lacked the 2,000 grade-point average requirement in 11 core courses. In its denial of the application, the subcommittee noted the student-athlete's recruited status and the fact that the student-athlete failed to meet the minimum review criteria for a core-course waiver.

Further, the subcommittee noted that it could not consider the putative quality of instruction among the nation's various high schools.

■ Denied the application of a recruited student-athlete who presented 11 core-course credits with a grade-point average of 1.810, an overall grade-point average of 2.135 and an SAT score of 830. The student-athlete was erroneously certified as a qualifier by another institution where he participated for one year before transferring to the applicant institution. The institution requested that the subcommittee permit the student-athlete a fourth season of competition, inasmuch as he would have only two seasons of competition remaining if he was not considered a qualifier. In its denial of the application, the subcommittee noted the student-athlete's recruited status, low grade-point average and the fact that the student-athlete failed to meet the minimum review criteria for a core-course waiver. The subcommittee further noted that the student-athlete's original institution's erroneous certification of the student-athlete was not a basis for waiving his partial-qualifier status.

■ Denied the application of a nonrecruited student-athlete who presented 9.5 core-course credits with a grade-point average of 2.420, an overall grade-point average of 3.020, and ACT scores of 19 and 18 with mathematics subscores of 18 and eight. The student-athlete lacked one core-course credit in mathematics and .5 core-course credit in the additional academic core-course area. In its denial of the application, the subcommittee noted the fact that the student-athlete failed to meet the minimum review criteria for a core-course waiver.

■ Denied the application of a recruited student-athlete who presented secondary credentials from Croatia and an SAT score of 910. The student-athlete lacked two academic subject passes on his GCSE. In its denial of the application, the subcommittee noted that the student-athlete failed to meet the minimum review criteria for a core-course waiver.

■ Denied the application of a recruited student-athlete who presented 10 core-course credits with a grade-point average of 1.800, an overall grade-point average of 2.100 and an ACT score of 18 with an English subscore of 14 and science-reasoning subscore of 19. The student-athlete lacked .5 core-course credit in English and .5 core-course credit in science. In its denial of the application, the subcommittee noted the student-athlete's recruited status and that the student-athlete failed to meet the minimum review criteria for a core-course waiver.

### Considered the following core-course and test-score waiver request:

■ Denied the request of a nonrecruited student-athlete who presented 10 core-course credits with a grade-point average of 1.650, an overall grade-point average of 2.060 and no test score. The student-athlete lacked one core-course credit in mathematics. In its denial of the application, the subcommittee noted the fact that the student-athlete failed to meet the minimum review criteria for a test-score or core-course waiver.

### Considered the following graduation-waiver applications:

■ Approved the application of a recruited student-athlete who presented 11 core-course credits with a grade-point average of 3.630, an overall grade-point average of 3.630 and an SAT score of 1100. The student-athlete will be participating in an accelerated program that will allow him to finish his high-school degree requirements while completing his first year of college. In its approval of the application, the subcommittee noted the student-athlete's high SAT score and the accelerated nature of his secondary program of studies.

■ Approved the application of a nonrecruited student-athlete who presented 11 core-course credits with a grade-point average of 2.630, an overall grade-point average of 2.682 and an SAT score of 1250. The student-athlete achieved his general equivalency diploma prior to one year after the graduation of his high-school class. The approval of the student-athlete's application was contingent upon his fulfillment of his initial academic year in residence as a nonqualifier pursuant to NCAA Bylaw 14.3.2.2.1. Beginning with the subsequent academic year, he shall possess four seasons of competition pursuant to Bylaw 14.2.

### Considered the following test-score waiver applications:

■ Approved the application of a recruited student-

athlete who presented acceptable secondary credentials from Belgium and no test score. The student-athlete was unaware of the test-score requirement. The approval of the student-athlete's application was contingent upon her successful completion of the ACT or SAT on a national testing date under national testing conditions.

■ Approved the application of a nonrecruited student-athlete who presented acceptable secondary credentials from Germany and no test score. The student-athlete was unaware of the test-score requirement. The approval of the student-athlete's application was contingent upon her successful completion of the ACT or SAT on a national testing date under national testing conditions.

■ Approved the application of a recruited student-athlete who presented acceptable secondary credentials from Croatia and no test score. The student-athlete attempted to take the SAT on three occasions; however, each examination was canceled due to the ongoing war in Croatia. The institution requested that the subcommittee waive the recruited foreign student-athlete policy and permit the student-athlete to be immediately eligible for practice and competition. In its approval of the application, the subcommittee noted the student-athlete's inability to take the ACT or SAT in Croatia and approved the application contingent upon her successful completion of the ACT or SAT on a national testing date under national testing conditions.

■ Approved the application of a nonrecruited student-athlete who presented acceptable secondary credentials from Kuwait and an SAT score of 720 achieved after the test-score deadline. The student-athlete was unaware of the test-score requirement. In its approval of the application, the subcommittee noted the student-athlete's nonrecruited status.

■ Approved the application of a nonrecruited student-athlete who presented acceptable secondary credentials from The Netherlands and no test score. The student-athlete was unaware of the test-score requirement. The approval of the student-athlete's application was contingent upon her successful completion of the ACT or SAT on a national testing date under national testing conditions.

■ Approved the application of a nonrecruited student-athlete who presented acceptable secondary credentials from Mexico and no test score. The student-athlete was unaware of the test-score requirement. The approval of the student-athlete's application was contingent upon his successful completion of the ACT or SAT on a national testing date under national testing conditions.

■ Approved the application of a nonrecruited student-athlete who presented acceptable secondary credentials from Australia and an SAT score of 1180 achieved after the test-score deadline. The student-athlete was unaware of the test-score requirement. In its approval of the application, the subcommittee noted the student-athlete's nonrecruited status.

■ Approved the application of a nonrecruited student-athlete who presented acceptable secondary credentials from Norway and no test score. The student-athlete was unaware of the test-score requirement. The approval of the student-athlete's application was contingent upon her successful completion of the ACT or SAT on a national testing date under national testing conditions.

■ Approved the application of a nonrecruited student-athlete who presented acceptable secondary credentials from Japan and an SAT score of 820 achieved after the test-score deadline. The student-athlete was unaware of the test-score requirement. In its approval of the application, the subcommittee noted the student-athlete's nonrecruited status.

■ Approved the application of a nonrecruited student-athlete who presented 14 core-course credits with a grade-point average of 3.035, an overall grade-point average of 3.020 and a residual ACT score of 25 administered by the institution. The student-athlete was unaware of the test-score requirement. The approval of the student-athlete's application was contingent upon his successful completion of the ACT or SAT on a national testing date under national testing conditions.

■ Approved the application of a recruited student-athlete who presented acceptable secondary credentials from Finland and no test score. The student-athlete trans-

ferred to the applicant institution after completing one full academic year in residence at a foreign collegiate institution. The approval of the student-athlete's application was contingent upon her successful completion of the ACT or SAT on a national testing date under national testing conditions before being eligible for a fourth season of competition.

■ Approved the application of a recruited student-athlete who presented acceptable secondary credentials from The Netherlands and an SAT score of 850 achieved after the test-score deadline. The student-athlete transferred to the applicant institution after completing one full academic year in residence at a foreign collegiate institution. The approval of the student-athlete's application was based on the policy for recruited foreign student-athletes who achieve a qualifying test score after the test-score deadline. Thus, inasmuch as the student-athlete achieved a qualifying test score and satisfied his initial academic year in residence, he is eligible for four seasons of competition.

■ Denied the application of a nonrecruited student-athlete who presented acceptable secondary credentials from Brazil, SAT scores of 560 and 640, and an ACT score of 16. In its denial of the application, the subcommittee noted that the student-athlete repeatedly failed to successfully complete the ACT or SAT examination.

■ Denied the application of a recruited student-athlete who presented 11 core-course credits with a grade-point average of 3.545, an overall grade-point average of 3.565, and ACT scores of 16 and 17 (residual; administered by a two-year college). The institution requested that the subcommittee permit the student-athlete to retake the ACT on a national testing date under national testing conditions in order to be immediately eligible for institutional financial aid, practice and competition. In the alternative, that he be permitted to receive financial aid but be withheld from practice and competition for the 1993-94 academic year. Thereafter, that he be permitted to receive four seasons of competition. In its denial of the application, the subcommittee noted that the recruitment of the student-athlete began early enough during his senior year for the institution to identify in a timely manner his test-score problems and to inform him that the required test score must be achieved on a national testing date under national testing conditions. The subcommittee further noted that the student-athlete had additional opportunities to take a nationally administered ACT or SAT before the test-score deadline. Finally, the subcommittee noted that inasmuch as the student-athlete is a recruited student-athlete, he is subject to the subcommittee's more restrictive review standards.

■ Denied the application of a nonrecruited student-athlete who presented 11 core-course credits with a grade-point average of 3.363, an overall grade-point average of 3.270 and no test score. The student-athlete completed two years of collegiate enrollment at a two-year college and did not meet the two-year college transfer requirements before transferring to the applicant institution. In its denial of the application, the subcommittee noted that an approval of this application would afford the student-athlete the opportunity to take an ACT or SAT after completing two years of collegiate enrollment, which generally is a benefit unavailable to prospective student-athletes.

■ Denied the application of a recruited student-athlete who presented secondary credentials from Peru and an SAT score of 800 achieved after the test-score deadline. The student-athlete attended a domestic two-year college before transferring to the applicant institution. In its denial of the application, the subcommittee noted that the policy applicable to recruited foreign student-athletes who achieve the qualifying test score after the test-score deadline is not applicable to a recruited foreign student-athlete who attended a domestic two-year college.

■ Denied the application of a recruited student-athlete who presented 16 core-course credits with a grade-point average of 3.030, an overall grade-point average of 3.080, ACT scores of 16 and 15, and an SAT score of 580. In its denial of the application, the subcommittee noted the student-athlete's recruited status and that the student-athlete repeatedly failed to successfully complete the ACT or SAT.

## Ice hockey

### As game becomes more physical, concern mounts regarding protective head gear

► Continued from page 7

only sport I know of where the player can take the helmet and literally do anything he wants to it without penalty. In football, I don't see players customizing their helmet. They wear what they are issued."

#### Shortcomings listed

Dr. Alan B. Ashare, chair of the HECC Certification Committee and chair of the USA Hockey Safety and Protective Equipment Committee, does not support fully the current HECC helmet standard.

"First, we closed the ear hole in 1990 and now USA Hockey is the only body that mandates this helmet," Ashare said. "The players don't like it because they feel they become overheated. So they take off the ear guards. Do we have a lot of injuries to the ear? The answer is no. I think we should develop an 'A' standard (with ear guards) and a 'B' standard (without ear guards)."

"The second problem is the fixation system. The helmets that are used today are not fixed (on the head) at all. The helmet moves around on the head quite easily."

"Thirdly, we are not protecting the player enough against concus-

sions, which make up approximately five percent of all hockey injuries, no matter what level you study. Is this acceptable? I don't think so. I think we need to develop a standard for a better helmet."

Ashare said he thinks the standard should focus more on preventing concussion injuries than ear injuries, which are far less prevalent (see table on page 7).

The helmet is equipped with a chin strap that attaches on either side of the ear and is worn at Adam's-apple level. The face mask, which is required by the NCAA to meet HECC safety standards, is equipped with a chin cup.

#### 'Perfect scenario'

If Broxterman could design the perfect scenario, he would require that:

■ Players wear a helmet and full-shield face mask with a four-point fixation system.

■ Players wear a mouthguard at all times on the ice, with the officials enforcing the rule.

■ Eliminate the head check from the game through stricter rules (like football eliminated the head slap and spearing).

■ Eliminate all stick work above

the shoulder through stricter rules enforcement.

"I think those of us who are involved in the game, including the rules committee, have a responsibility to make the game as safe and competitive as possible," said Broxterman. "There is a lot of room in college hockey to be 'proactive' in the prevention of injuries."

Broxterman noted that the hockey helmet could be produced similarly to the football helmet, with the four-point fixation system attached to the helmet. The face mask, without a chin cup, would be purchased separately.

Recently, he proposed this concept to a representative from an equipment company in Canada. Even though the representative thought it was a great idea, he said his company would not alter its design for such a small market because the chin strap has become a hockey tradition.

Said Broxterman, "I got the impression that the manufacturer does not understand the four-point fixation concept."

Any contact with the helmet and facemask from the front causes the helmet to tip forward toward the face, which allows the front edge of

the helmet to contact the bridge of the nose and causes the facemask to come in contact with the chin.

Broxterman has not seen an increase or decrease in the number of facial lacerations. "It is a problem, though. With a four-point fixation system, we can drastically reduce the number of facial lacerations."

#### 'Not so sure'

Barile, though, is not so sure. "If the game is going to remain a 'collision' sport, I don't see any reason why we should go to a four-point strap," he stated. "If the sport is going to evolve into a 'contact' sport, we must have a four-point strap."

"I would like to see players required to wear a half-shield face mask (and) be required to wear a protective mouthguard that is enforced by the officials and a four-point strap, which would tighten the helmet on the head."

In addition to altering their helmets, most players do not wear the protective mouthguard that is mandated by the rules. Barile estimated that only five to 10 percent of all players wear a mouthguard while on the ice.

Said Barile, "A lot of players stick the mouthguard in their glove and put it in their mouth only if a referee notices. The players just don't like to wear it because they feel that it chokes off their air."

"Nonsense," answered Broxterman. "The whole idea that a player can't breathe with a mouthguard is ridiculous. Nothing I have seen, based on science or physiology, supports the theory that the mouthguard decreases a player's ability to breathe. It's the same with the 'I-overheat-with-ear-guards' theory. There is absolutely no proof that this happens."

Broxterman's main interest is in providing a greater level of protection across the board for all participants in the sport. He said it's a matter of educating players, like the proper way a face mask is fitted to the helmet so access to the face is possible in the event CPR is required.

Said Broxterman, "Players say they can wear half-shields in the NHL—this is not the NHL. Players say they don't have to wear mouthguards in the NHL—this is not the NHL. This is college hockey."

## High schools

### National championship competition would threaten balance between academics, athletics

► Continued from page 4

Other examples of improper emphasis that overload the scales in the high-school sports arena include:

■ Coaches who recruit prospects at an early age, or by transfer of older young people, "student-athletes" whose first responsibility is to play rather than to study.

■ Young people whose minds have become so enamored with success in sports that they forget or fail to see the odds that are against them as they seek a professional career.

■ Parents who seek athletics goals instead of academic ones and upset that sensitive balance that needs to be reinforced again and again.

■ Members of the media who feed that frenzy and create a false

sense of hope and perspective to young people.

In addition to this renewed emphasis on national-championship competition and increased media exposure and the ongoing battle for ethical behavior and fair play, there has been an increase in so-called "all-star" contests, in which the nation's top student-athletes are invited to participate against their peers from other parts of the country.

Too often, promoters of such "all-star" contests or those groups trying to establish national championships are more concerned with conducting a successful, profitable event. In the process, we once again place a greater degree of support to the few who are already indulged by our society, and the academic theme of high-school athletics becomes secondary.

High-school athletics is an integral part of a student's educational process because many lifelong lessons — sportsmanship, teamwork, hard work, how to win and lose — are learned on the athletics field or court. When the focus moves away from these important values, however, the emphasis becomes misdirected.

Oh, without doubt, many will take the position that this type of exposure is necessary and rewarding for the young people who participate at a high level—all several hundred of them. I myself would recognize some rewards if handled properly by the educational community.

My concern with that "sense of balance" asks the question, "What about the rest of these young people in sports?" Here again we seem to have people lined up to offer an-

other grand event for several hundred high-profile individuals, and the millions upon millions of young people who never go on to play in college and surely never make the pro scene except to buy tickets or garments or shoes and cable subscriptions are experiencing the virtual destruction of their "sports world."

High-school sports in America are not only threatened, they are on a collision course with a runaway locomotive. The best analogy to illustrate our plight is a school that offers only advanced-placement educational programs. That philosophy does not work in the classroom, and it does not work in the educational athletics programs of schools. We cannot have our programs serve only one group.

The infrastructure of high-school sports is in a weakened state

because it has failed to maintain in the eyes of too many educators — and society in general — its appropriate place in the educational experiences of young people.

Isn't it time we begin to turn our attention to change that set of circumstances and begin to help the "other participants"? This nation cannot afford to continue to overlook them and the potential contributions they can make to society. We need a wakeup call to help the entire system — not a precious few.

Anyone interested should call us. We have a lot of ideas!

*Robert F. Kanaby is executive director of the National Federation of State High School Associations, the national service and administrative organization for high-school athletics and fine-arts programs. The National Federation is located in Kansas City, Missouri.*

## Letters

► Continued from page 4

college and receive the benefits of a college education, not just one person as the BCA wants.

The BCA — and the statements made by some of its leaders — smacks of racism. Are these additional scholarships to be limited to African-American basketball players only, or are they going to be used for any and all potential student-athletes? Isn't their stand also a continuation of the myth that the best way for a person to get out of the cycle of poverty is to be a basketball star? Whatever happened to the idea of education first, athletics second? Have the NCAA Division I basketball programs now truly become a training camp for the NBA?

If the BCA is truly concerned

about expanding the opportunities for minority students to attend college, then perhaps they should pay attention to what is going on around them. How many opportunities have been lost due to the dropping or discontinuation of other athletics programs? How many "minority" student-athletes have lost opportunity to receive help in attending college because their sport is disappearing on the collegiate level?

If the BCA is truly concerned about opportunities for everyone, perhaps they should turn their attention to this rather than being so self-centered as to want more for themselves.

of Pennsylvania

## Judge rules that UNLV must pay Tarkanian \$250,000 in legal fees

A judge has ruled that the University of Nevada, Las Vegas, must pay \$250,000 in legal fees for former men's basketball coach Jerry Tarkanian in his long battle against the university.

The ruling by District Judge Myron Leavitt was made even though Tarkanian made his request five days late, according to The Associated Press.

"There can be only one conclusion," Leavitt wrote in his decision. "The refusal to pay coach Tarkanian's legal expenses was willful and unreasonable and that the defenses asserted by defendants to avoid payment...were done to harass him."

Tarkanian, who resigned in June

*"The refusal to pay coach Tarkanian's legal expenses was willful and unreasonable..."*

■ District Judge  
Myron Leavitt

1991, filed a separate lawsuit in September claiming that Nevada-Las Vegas administrators and university regents conspired with NCAA enforcement representatives to ruin his college basketball career.

Leavitt listened to testimony during a three-day trial that ended February 4, then ruled three days later on the former coach's request for payment of legal costs.

State law requires university employees to submit a written request for legal assistance within 15 days from the time they are served with a lawsuit related to their work, but Tarkanian made his request after 20 days.

Leavitt noted that Nevada-Las Vegas paid the legal fees and costs of three other defendants in the NCAA suit, although one submitted a late request, and there was an oral agreement to pay legal fees in the NCAA inquiry.

# NCAA Record

## DIRECTORS OF ATHLETICS

**John C. "Jack" Gregory**, athletics director at Bowling Green for the past 12 years, announced he will step down from the post July 1. Gregory's career in athletics administration spans 42 years. He became Bowling Green's athletics director in 1982 after serving as associate athletics director at Yale. **Gil Peterson**, director of athletics for development at Western Illinois, announced plans to retire from the position at the conclusion of a leave of absence that will begin September 1 and end February 28, 1995. Peterson joined the institution in 1970 as men's athletics director. His title was changed in 1990 when administrative leadership of men's and women's athletics programs was combined.

## ASSOCIATE DIRECTOR OF ATHLETICS

**Rick Thompson** appointed associate athletics director for external affairs at Tennessee-Chattanooga after serving as assistant to the athletics director for external affairs at West Texas A&M.

## COACHES

**Baseball—Juan Ranero** named head coach at Rowan. **Roger Sander**, assistant baseball coach and equipment manager at Monmouth (Illinois) for the past 10 years, elevated to head coach, replacing **Ted Glasgow**, who stepped down to devote more time to his duties at the school as chair of the physical education department, athletics director and men's basketball coach.

**Baseball assistant—Greg Beals**, who spent the past three years as a minor-league baseball player, named assistant coach at Kent, where he was a catcher from 1989 to 1991. **Roger Sander**, assistant baseball coach at Monmouth (Illinois) for the past 10 years, elevated to head coach.

**Men's basketball—Dave Darnall**, coach at Eureka, announced he will retire at the end of the season. His teams have

## Griffin appointed faculty representative

**Ernst Griffin**, a professor of geography and coordinator of the geography department's doctoral program at San Diego State, has been selected as faculty athletics representative there. He replaces **Jim G. Malik**, who retired at the end of January after serving in the position for 21 years.

Griffin has served as chair of the intercollegiate athletics authority at San Diego State and was involved in university searches for coaches and an athletics director. He also directed San Diego State's first institutional self-study.

A member of Phi Beta Kappa and Phi Kappa Phi, Griffin has compiled a lengthy publication record, with many of his works centering primarily on the processes of urbanization and modernization of Latin American countries. He joined the faculty at San Diego State in 1972 after earning his doctorate at Michigan State.

Griffin

won more than 350 games during his tenure.

**Women's basketball—Charles Cooper** announced his retirement at Valdosta State, effective at the end of the season. Cooper has been coach at the university since 1981.

**Football—Dan Baranik** named at Waynesburg. **Pete Hurt**, defensive coordinator last season at Samford, promoted to head coach at the school, replacing **Chan Gailey**, who became an assistant with the Pittsburgh Steelers. **Ed Stults** selected as head coach at Defiance.

**Football assistants—Jerry Berndt** named offensive coordinator at Missouri. **Jeff Bowden** appointed offensive assistant coach at Florida State. **Curtis Bray** named linebackers coach and **Tom Flynn** named defensive backs coach at

Duquesne. **Manny Matsakis** resigned as offensive coordinator at Hofstra. **Buddy Geis** joined the staff at Tulane as offensive coordinator and quarterbacks coach. **Sam Pittman** named offensive line coach at Northern Illinois. **Todd Whitten** chosen as running backs coach at UTEP.

**Women's softball—Joyce Kanaskie** picked as women's softball coach at Indiana (Pennsylvania), succeeding **Erika Renwick**, who accepted an administrative position in the school's athletics department. Kanaskie also serves as an assistant field hockey coach.

**Women's softball assistants—Laura Fillipp** selected at Penn State after offering instruction and coordinating activities for the past 10 years at clinics sponsored by the United States Slo-Pitch Softball Association. **Maggie Smith**, a former play-

gram.

**Sports information assistant**—Tom Manning, assistant sports information director at Cal State Northridge, resigned his position.

**Strength and conditioning coach**—Mike Gerber named strength and conditioning coach at Maryland after serving in the same capacity at Yale.

## ASSOCIATION

Colleen Walker Mar resigned as media relations director at U.S. Fencing, effective February 25.

## Etc.

### CORRECTION

The institution from which **Charles "Bobo" Brayton** announced his retirement as head baseball coach was reported incorrectly in the Record section of the January 26 issue of The NCAA News. Brayton will step down at Washington State after the 1994 season.

## Notables

**Dan Gable**, wrestling coach at Iowa, selected as head coach and **John Peterson** named assistant coach of the 1994 U.S. Freestyle World Team. Gable also coached the team in 1983, when the United States placed third in the world championships...**Earl Vestingsmeier**, in his 32nd season as men's golf coach at Ball State, elected president of the Golf Coaches Association of America. He will serve a two-year term. He spent the past two years as vice-president and the previous two as secretary.

USA Basketball announced the coaching staff of the 1994 USA Basketball Women's Select Team. The staff is **Chris Weller**, women's basketball coach at Maryland, head coach, and **Barbara Stevens**, coach at Bentley, and **Susan Summons**, coach at Miami-Dade (Florida) Community College, assistant coaches.

## Deaths

**Bob Bjorklund**, cocaptain of Minnesota's undefeated wire-service national-championship football team in 1940, died January 29 of pulmonary fibrosis in Hopkins, Minnesota. He was 75. Bjorklund graduated from Minnesota in 1941 after a three-year football career. He played for the Philadelphia Eagles in 1941 and then served in the U.S. Navy during World War II. From 1947 to 1975, he worked for Bankers Life Co., now called Principal Financial Group. He also was an Olympics fund-raising chair in Iowa, Minnesota, North Dakota and South Dakota.

**John E. Faver**, former professor of bacteriology and former lacrosse coach at Maryland, died January 14 in Silver Spring, Maryland. He was 91.

**Jeff Seymour**, a walk-on football player at Tennessee, died February 1 from what the institution reported was an apparent ruptured cerebral aneurysm. He was 20.

**James Zachary**, who played football at Texas A&M and later for Montreal and Edmonton of the Canadian Football League, died January 25 in Midland, Texas, after apparently being attacked by several men. Zachary, 36, spent eight years in the CFL and also was signed by the Washington Redskins in 1985 as a free agent, but was released after the exhibition season.

# Championships corner

**Division III baseball:** The NCAA Division III Baseball Committee is soliciting bids from potential hosts for the NCAA Division III Baseball Championship in 1995 and beyond. Further information can be obtained from Thomas A. Jacobs, NCAA assistant director of championships, at the national office. The deadline for submission of bids is June 15. Potential hosts wishing to make in-person presentations can do so at the committee's annual meeting June

5-8 in Kansas City, Missouri.

**Division I men's tennis:** The Division I men's tennis subcommittee of the NCAA Men's and Women's Tennis Committee is soliciting bids from potential hosts of regional qualifying tournaments for the 1995 Division I Men's Tennis Championships. Further information can be obtained from Jacobs at the national office. The deadline for submission of bids is June 15.

## AT&T donates \$60,000 to NCAA Foundation

AT&T has committed \$60,000 to the NCAA Foundation to go toward the NCAA degree-completion program.

To date, AT&T has committed more than \$110,000 to the program. By the end of the 1993-94 basket-

ball season, AT&T will have provided more than \$170,000 to deserving student-athletes who have exhausted their financial aid.

"We are pleased with AT&T's continuing interest in the NCAA degree-completion program," said

Betty B. Norrie, program coordinator of the NCAA Foundation. "The education of our athletes has always been our No. 1 goal.

"It is good to see that AT&T shares our dedication to education."

## Minutes

► Continued from page 15

Administrative Committee telephone conference or meeting.

(4) Asked that the Administrative Committee be consulted regarding pending decisions of staff to be assigned to the

Council.

4. Report of actions taken by the executive director per Constitution 4.3.2. Acting for the Executive Committee: Approved a recommendation by the Division I Women's

Volleyball Committee that the University of Massachusetts, Amherst, serve as the site of the 1995 Division I Women's Volleyball Championship, December 14 and 16.

## BINDERS AVAILABLE

Readers of The NCAA News are reminded the binders, which provide permanent storage of back issues, are available from the publishing department. They may be purchased for \$10 each, or two for \$19. Orders should be directed to NCAA circulation at 913/339-1900.

# The Market

Readers of The NCAA News are invited to use The Market to locate candidates for positions open at their institutions, to advertise open dates in their playing schedules or for other purposes relating to the administration of intercollegiate athletics.

**Rates:** 55 cents per word for general classified advertising (agate type) and \$27 per column inch for display classified advertising. (Commercial display advertising also can be purchased elsewhere in the newspaper at \$12 per column inch. Commercial display advertising is available only to NCAA corporate sponsors, official licensees and members, or agencies acting on their behalf.)

**Deadlines:** Orders and copy for The Market are due by noon Central time six days prior to the date of publication for general classified space and by noon seven days prior to the date of publication for display classified advertisements. Orders and copy will be accepted by mail, fax or telephone.

For more information or to place an ad, call classified advertising at 913/339-1906, ext. 3000, or write NCAA Publishing, 6201 College Boulevard, Overland Park, Kansas 66211-2422, Attention: The Market. To fax an ad, call 913/339-0031.

## Positions Available

### Academic Counselor

**Intercollegiate Athletics Academic Counselor.** Appointment Date: Immediately. Salary: Commensurate with experience and background. Application deadline is February 25, 1994. GSW is an Affirmative Action/Equal Opportunity Employer.

### Development

**Director of Athlete Development.** United States Swimming, U.S. Swimming National Headquarters, Colorado Springs, Colorado. This senior staff position reports to the Director of Performance Development and serves as a member of the USS technical staff at the Olympic Training Center (OTC). The position is assisted by a secretary, logistics and business staff. Responsibilities include: (1) Supervision/coordination of training of national team members visiting the OTC; (2) direction of USS athlete tracking and development program; (3) liaison with Olympic Training Center aquatic staff for USS programs; (4) liaison with appropriate USS national committees. This position will make a major contribution to the continued international success of United States Swimming. Along with experience and ability to coach elite athletes, this person must create, implement and evaluate programs that will allow United States Swimming to identify and develop future world-class swimmers. The position requires a working knowledge of swimming science and of the NGB. Education/Experience: A master's degree is preferred. This requirement may be waived with appropriate experience. 3-5 years of USS club coaching experience with elite athletes; USS local, national committee or program service is desirable. Salary: Minimum \$35,000; excellent benefit package. Starting Date: No later than June 1, 1994. Closing Date: April 1, 1994. Submit resume, including three references, to: Director of Athlete Development Search Committee, United States Swimming, One Olympic Plaza, Colorado Springs, CO 80909.

### Marketing

**Athletic Marketing Assistant** (full-time, 12-month position). Salary Range: \$1,643-\$1,713-\$1,788-\$1,867-\$1,949. Position Assignment: Under the direction of the assistant athletic director for marketing, the person selected to fill this position will perform the duties of athletic marketing assistant. Duties will include being responsible for development, coordination and implementation of marketing and promotional activities for athletic events; solicitation of sponsors and advertisers; copywriting; coordination of entertainment and special promotions. Other duties as assigned by the assistant athletic director for marketing. Qualifications: Required—

Experience: Two years' related professional experience in marketing or promotions or one year full-time experience in collegiate athletic marketing. Knowledge and Abilities: Ability to work under constant deadlines, make effective sales presentations, work a flexible schedule. Possess excellent oral and written communications skills. Proficiency in computer hardware and software use is advantageous. Education: Degree in marketing/advertising or related field. Master's degree desirable but not required. Filing Deadline: Thursday, March 31, 1994. Start Date: Monday, June 20, 1994. Apply: California State University, Fresno Athletic Corporation, Athletic Personnel Office, North Gym, Room 145, 5305 North Campus Drive, Fresno, CA 93740-0027; telephone 209/278-4551. An Affirmative Action/Equal Opportunity Employer.

### Recreation

**Assistant Professor of Recreation/Assistant Football Coach.** Winona State University, student enrollment of 7,600, a member of NCAA Division II, NAIA and also a member of the Northern Sun Intercollegiate Conference, is accepting applications for this position. Teaching responsibility in recreation, advising, research and course development. Football coaching responsibility including recruiting and coordinating defensive facets of an intercollegiate football program. Must have three years of college coaching experience. Applications accepted until filled. Screening will begin March 24, 1994. Apply to: Recreation/FB Coach Search, Affirmative Action Office, Winona State University, P.O. Box 5838, Winona, MN 55987. An Affirmative Action/Equal Opportunity Employer.

### Sports Information

**Sports Information Director.** North Carolina Central University invites applications for sports information director. Responsibilities include, but are not limited to, preparing press releases, compiling statistics, coordinating news conferences, making media arrangements, program marketing and promotions. Credentials should reflect proven success in marketing, promotions and effective sports information communications. The bachelor's degree required. Preference will be given to individuals with experience in sports marketing, promotions and sports information at the college level. Salary is negotiable. Anticipated starting date: June 1, 1994. Send letter of application, resume and three letters of recommendation to: Carey Hughley, Athletic Director, NCCU, P.O. Box 19542, Durham, NC 27707. North Carolina Central University is an Equal Opportunity/Affirmative Action Employer.

**Information Director—The Gulf South Conference,** a 12-member NCAA Division II conference conducting championships in 11 sports including football, seeks a full-time conference information director. Duties include: weekly reports, production of football, volleyball, men's and women's basketball, softball and baseball media guides, NCAA reporting; increasing coverage in the print and electronic media; maintaining conference records; some advertising sales; etc. This is not an entry-level position. Significant travel is required. Member institutions are located throughout the Southeast. A bachelor's degree, at least two years of significant sports

information experience and superior writing skills are required. Computer fluency in Word for Windows and football SID experience are desirable. Starting date: March 15, 1994, or as soon as possible. ## ATHLETIC ADMINISTRATION INTERNSHIP

THE COUNCIL OF IVY GROUP PRESIDENTS is accepting applications for a 10-month athletic administration internship during the 1994-95 academic year. The intern will be placed on an Ivy League campus and will work directly with campus administrators in all aspects of college athletic administration. The internship is available to women and members of minority groups through funds granted by the NCAA to Division I conferences.

We seek a highly motivated person who has some familiarity with college athletics and wants to explore a career in athletic administration. Applicants should have earned a bachelor's degree, have strong organizational, interpersonal and communicative skills, and be demonstrably ready to assume a variety of independent responsibilities. The internship carries an \$11,000 stipend; housing is not included.

Please send resume and three letters of reference by March 10, 1994, to: Jane Antis, Council of Ivy Group Presidents, 120 Alexander Street, Princeton, NJ 08544.

## ATHLETIC DIRECTOR

Keene State College is pursuing "Vision 2000," its goal of becoming the public undergraduate college of choice in New England by the year 2000. This aspiration will be reached by sustaining academic excellence and by a parallel commitment to building community and valuing the quality of life on campus.

Applications and nominations are being sought for the position of Director of Athletics to be appointed July 1, 1994. Keene State College is NCAA Division II with eight women's and six men's sports, but intends to move to Division III as of September 1, 1997.

**RESPONSIBILITIES:** Include implementation of the move from Division II to III and establishment of an appropriate timetable for transition from the New England Collegiate Conference and affiliation within Division III conference; provided leadership for a long-range plan in athletics, including additional opportunities for student participation, facilities expansion and management; development of competitive athletic programs; development of a plan for close working relationship with department of physical education and recreational sports; budget management; supervision and training staff; related duties as assigned.

**REQUIREMENTS:** Master's degree and five years' progressively responsible and successful athletic administration experience; sensitivity to equity and diversity issues; excellent communication and interpersonal skills; thorough knowledge of NCAA rules and regulations; evidence of sound fiscal, operational and personnel management; ability to work effectively with constituencies on and off campus. Desirable: Doctorate and experience beyond the minimum.

**SALARY:** \$38,500 minimum; starting salary normally not to exceed \$43,760.

Send letter of application, resume and three letters of recommendation by March 4, 1994, to: Gaynelle Pratt, Office of Human Resource Management, Box 1604, Keene State College, 229 Main Street, Keene, NH 03435-1604. AA/EEO.

## DIRECTOR OF DEVELOPMENT for Intercollegiate Athletics

### Iowa State University

Iowa State University Foundation wishes to employ an experienced professional fund-raiser to direct the development efforts of a nationally prominent intercollegiate athletics program of 21 men's and women's varsity sports. Recent successes include private funding of an \$8 million coaching complex and a \$900,000 coliseum addition.

Development program of annual, major and planned gifts is being reorganized to include leadership of a new and dynamic director of athletics. The successful candidate will have a bachelor's degree, and at least five years of professional fund-raising experience and three years of association with athletics. Experience in college or university fund-raising preferred.

This search is for a candidate who can succeed immediately, leading to a possible administrative position in the future. Salary negotiable, depending on experience. Application deadline is March 1, 1994, or until the position is filled. To apply, send cover letter, resume and names of five references to: Development Search—Athletics, ISU Foundation, 2229 W. Lincoln Way, Ames, IA 50014-7164.

IOWA STATE IS AN EQUAL OPPORTUNITY/  
AFFIRMATIVE ACTION EMPLOYER

## ASSISTANT/ASSOCIATE ATHLETICS DIRECTOR FOR COMPLIANCE, ELIGIBILITY AND ACADEMIC SUPPORT SERVICES

West Chester University is seeking a dynamic individual to serve as Assistant/Associate Athletics Director for Compliance, Eligibility and Academic Support Services. The successful candidate will be expected to serve as compliance and eligibility coordinator for the 23 varsity sports (21 in Division II and 2 in Division I); coordinate and enhance the academic support program for student athletes in coordination with the university's Academic Services Division; serve as liaison for officiating; administer the insurance and injury management area and assist with game operations. A vibrant and innovative rules compliance education program will be expected. Other related administrative assignments will be based on experience, expertise and departmental needs.

A Master's Degree in Sports Administration or a related area is required (Doctorate desired), as well as a minimum of 3 years experience in athletics administration at the collegiate level or in an organization with substantially similar responsibilities. Faculty rank and salary are commensurate with experience based on nine months with additional summer employment.

West Chester University, one of fourteen institutions in the Pennsylvania State System of Higher Education, enrolls over 12,000 students in undergraduate and graduate programs. Located twenty-five minutes from Philadelphia in a rapidly expanding technology corridor, the University enjoys both the proximity of rich cultural events and sports facilities of a major city, and the serenity of a small county seat.

Please submit a letter of interest, resume and the names, addresses and telephone numbers of at least three references to: Personnel Office, c/o AA-AD Search, West Chester University, West Chester, PA 19383.

Screening will begin immediately and continue until the position is filled. Starting date will be July 1, 1994. AA/EEO. Women and minorities are encouraged to apply.

Application Deadline: March 4, 1994. Mills College is a private liberal arts college for women located in the San Francisco Bay Area. EOE M/FH.

**Marshall University Head Women's Volleyball Coach.** Responsibilities: The head coach is responsible for the conduct of all aspects of the women's volleyball program within the philosophy of the athletics department. The head coach must conduct the program with

a high degree of integrity and within the rules of the Southern Conference and the NCAA. Qualifications: Bachelor's degree required. Preference will be given to candidates with coaching experience at the NCAA Division I level. Appointment and Salary: Eleven-month appointment with salary of \$24,276 per year. Application Deadline: March 15, 1994. Position Available: March 15, 1994. Application Procedure: Send resume and three letters of reference to: Wm. Lee Moon Sr., Director of Athletics, Marshall University, P.O. Box 1360, Huntington, WV 25715. An Affirmative Action/Equal Opportunity Institution.

## Physical Education

**Department of Human Performance seeks Athletic Training Specialist (probationary/tenure-track position).** Doctorate and NATA certification required. Teach athletic training undergraduate/graduate courses and coordinate students' field experiences. May be required to teach activity, general education and major core courses. Deadline: April 1, 1994, or until filled. Contact: Dr. James Bryant, San Jose State University, Human Performance, San Jose, CA 95192-0054. San Jose State University is an Affirmative Action/Equal Opportunity Employer.

**Physical Education:** Tenure track position as department chair starting fall 1994 at the assistant or associate professor level depending upon qualifications. Requires Ph.D. in physical education with the ability to teach a variety of courses in a P.E. program having a high priority goal of developing a sports medicine major. Position will require some teaching in the general education program and may involve some coaching. Please send letter of application, CV and three letters of recommendation by March 1, 1994, to: Nancy Swain, P.E. Center, St. Andrews Presbyterian College, Laurinburg, NC 28352. Equal Opportunity Employer/Affirmative Action. Women, minorities and the physically challenged are encouraged to apply.

## Graduate Assistant

**Robert Morris College,** located in Pittsburgh, Pennsylvania, and a NCAA Division I institution, anticipates the need for three qualified graduate assistants to coach in the intercollegiate football program. Responsibilities include coaching and other related duties as assigned by the head football coach. Qualifications: Bachelor's degree, admission to the graduate school at Robert Morris required, and experience as a coach or player at the collegiate level preferred. Tuition, room and board per 12 months. Available June 1, 1994. Deadline: April 1, 1994. Graduate school application and brochure will be forwarded after your resume has been received. Send letter with current transcript, grade-point average and GMAT scores, resume with references, and three letters of recommendation to: Joe Walton, Head Football Coach, Robert Morris College, Narrows Run Road, Coraopolis, PA 15108. Equal Employment Opportunity M/F.

**Graduate Assistantships:** Master's degree candidates (M.S. Ed.: Health and Physical Education) with emphasis areas in athletic administration, physical education or health. Admission requirements include an undergraduate degree and teaching certification in health and/or physical education with a cumulative undergraduate grade-point average of 2.750 or higher, and a combined (verbal and quantitative) GRE General Test Score of 700 or better. Responsibilities include teaching physical education, fitness center supervision, assisting with intramurals, athletic training, and coaching. Coaching opportunities are in: football, men's basketball, baseball, tennis, cross country/track, volleyball, women's basketball, and softball. Stipends are \$5,000 for the academic year with a 100 percent tuition waiver. Send letter of application, resume and transcript to: Dr. Terrence E. Barmann, Coordinator of HPERD Graduate Studies, 800 University Drive, Northwest Missouri State University, Maryville, MO 64468. **Graduate Assistantship:** Canisius College, graduate assistantship in athletic training for the 1994-95 academic year. Responsibilities include clinical supervision of student athletic trainers, athletic coverage, and teaching

responsibilities in the athletic training and physical education programs. Assistantship includes full tuition waiver and a \$5,000 stipend for the academic year. Candidates must be certified by NATA or eligible for certification. Application deadline: March 31, 1994. For information contact: Michael G. Dolan, Canisius College, Buffalo, New York 14208, 716/888-2964. Canisius College is an Equal Opportunity/Affirmative Action Employer.

**Graduate Assistantships:** North Dakota State University is seeking qualified candidates to coach in the men's and women's intercollegiate sports of baseball, softball, track, volleyball and wrestling for the 1994-95 academic year. Positions also available in recreation. Responsibilities also include teaching physical education activity courses. Qualifications: Bachelor's degree in physical education or recreation required and admission to the Graduate School. Tuition waiver and monthly stipend provided. Send letter and undergraduate transcript to: Dr. Roger Kems, Chair, Physical Education, PEB, NDSU, Fargo, North Dakota, 58105. North Dakota State University is an Equal Opportunity Employer.

**Graduate Assistantship,** Graduate student athletic trainer for 1994-1996, Vanderbilt University. Qualifications: Undergraduate degree with career goal of athletic training, NATA certification or eligible to take exam. Admission to graduate school, acceptable GRE or MAT. Duties: Work directly with Division I athletic department under the supervision of the head athletic trainer with specific sport and high school outreach assignment. Assist department of teaching and learning with undergraduate students. Assistantship. Tuition waiver, nine credits per year. Stipend totaling approximately \$8,000. Reappointment depends on quality of students work. Summer employment available if desired. Graduate program in health promotion and exercise science. Applications: Acceptance to graduate school, send resume, two letters of recommendation, unofficial copy of transcripts, and GRE or MAT score to: Fred Tedeschi, Head Athletic Trainer, Vanderbilt Athletic Department, P.O. Box 120158, Nashville, TN 37212.

**Graduate Assistantships** in teaching physical education, coaching, athletic training, health, recreation, intramurals, and athletic academic advisor. Call 606/622-1682 for an application. Dean Robert Baugh, College of HPER&A, Eastern Kentucky University, Richmond, KY 40475. Equal Opportunity/Affirmative Action.

**Graduate Assistant—Track/Cross Country.** The University of Akron, a member of the Mid-American Conference, is seeking a graduate assistant for the men's and women's track/cross country program. This assistantship requires no classroom teaching. Please send a resume and list of references to: Al Campbell, Head Track Coach, The University of Akron, Akron, OH 44325-5201. Applications will be accepted until the position is filled.

Women and minorities are especially encouraged to apply. Skidmore College is an affirmative action/equal opportunity employer.

**SKIDMORE**  
C O L L E G E

## ■ Legislative assistance

1994 Column No. 6

### 1994 NCAA Convention Proposal No. 70

#### Satisfactory progress—part-time enrollment

Division I institutions should note that with the adoption of Proposal No. 70 (effective August 1, 1994; for credit hours earned during the 1994-95 academic year and thereafter), semester or quarter hours earned by a student-athlete while enrolled in less than a full-time program of studies (per NCAA Bylaw 14.1.6.2.2) may not be used to meet satisfactory-progress requirements when using either the "24-hour" or the "averaging" method. Please note that during its January 20, 1994, telephone conference, the NCAA Interpretations Committee determined that for purposes of meeting satisfactory-progress requirements, a student-athlete who enrolls any time during a term as a full-time student may use credit hours earned during that term when using either the "24-hour" or "averaging" method.

### 1994 Convention Proposal No. 76

#### Outside competition—Division I

Division I institutions should note that with the adoption of Proposal No. 76 (effective August 1, 1994), a Division I student-athlete in sports other than basketball may participate as a member of an outside team in any noncollegiate, amateur competition during official vacation periods published in the institution's catalog, provided such participation occurs outside the institution's declared playing and practice season in that sport. Further, during its January 20, 1994, telephone conference, the Interpretations Committee reviewed the provisions of Proposal No. 76 and determined the following:

1. A student-athlete (in sports other than basketball) may compete as a member of an outside amateur team during an institution's official vacation period published in the institution's catalog that occurs prior to the completion of the institution's playing season but during an official vacation period that is not considered part of the institution's playing season.

2. When an institution's final examination period immediately precedes the institution's official vacation period as published in its catalog, a student-athlete may not compete outside the playing season as a member of an outside amateur team until the completion of the institution's final examination period (as opposed to the completion of the student-athlete's final examinations).

### 1994 Convention Proposal Nos. 105 and 106

#### Contest exemptions—Division I basketball

Division I institutions should note that with the adoption of Proposal No. 105 (effective August 1, 1994), once every four years a Division I institution located outside of Hawaii

#### Box A: Once-in-four-years exemptions (effective August 1, 1994)<sup>1</sup>

Alaska contests (other than the Great Alaska Shootout)  
Puerto Rico contests  
Preseason National Invitation Tournament

#### Box B: Once-in-four-years exemption (effective August 1, 1993)<sup>2</sup>

Hawaii contests—against or sponsored by Division I member (e.g., Rainbow Classic)

#### Box C: Annual exemption (effective August 1, 1993)<sup>1</sup>

Hall of Fame Tip-Off Classic (effective August 1, 1993)

#### Box D: Once-in-four-years exemption (effective August 1, 1994)<sup>3</sup>

Hawaii contests—against or sponsored by Division II member (e.g., Maui Classic)

#### Box E: Once-in-12-years exemption (effective August 1, 1994)<sup>4</sup>

Great Alaska Shootout

<sup>1</sup>An institution that participated against or under the sponsorship of a Division I or II institution located in Hawaii, in the Great Alaska Shootout or in the Hall of Fame Tip-Off Classic during the 1992-93 or 1993-94 academic year is eligible to exempt contests in Box A or Box C during the 1994-95 academic year.

<sup>2</sup>An institution that participated in the Rainbow Classic during the 1992-93 academic year has used its once-in-four-years exemption and, thus, may not exempt basketball contests in Box B (Rainbow Classic) until the 1996-97 academic year.

<sup>3</sup>An institution that participated against or under the sponsorship of a Division II institution located in Hawaii during the 1992-93 or 1993-94 academic year has used its once-in-four-years exemption and, thus, may not exempt basketball contests in Box D until either the 1996-97 academic year (if participated in 1992-93) or 1997-98 academic year (if participated in 1993-94).

<sup>4</sup>An institution that participated in the Great Alaska Shootout during the 1992-93 or 1993-94 academic year has used its once-in-12-years exemption and may not exempt contests in Box E until either the 2004-2005 academic year (if participated in 1992-93) or the 2005-2006 academic year (if participated in 1993-94).

may exempt not more than one basketball contest (or four contests if scheduled on a single, regular-season trip to Hawaii) or one basketball tournament (not to exceed three contests) against or under the sponsorship of an active Division II institution located in the state of Hawaii. In addition, with the adoption of Proposal No. 106 (effective August 1, 1994), Division I institutions should note that once every 12 years a Division I institution is permitted to exempt par-

ticipation in the Great Alaska Shootout from the maximum number of basketball contests.

During its January 20, 1994, telephone conference, the Interpretations Committee reviewed the application of Proposal Nos. 105 and 106 and determined the following:

1. A Division I institution located outside of Hawaii that has used its once-in-four-years exemption against or under the sponsorship of an active Division II institution located in Hawaii during the 1992-93 or 1993-94 academic year is not permitted to exempt basketball contests against or under the sponsorship of an active Division II member located in Hawaii until four years have elapsed since the institution's previous participation against or under the sponsorship of an active Division II member located in Hawaii.

2. A Division I institution located outside of Hawaii that participated during the 1992-93 or 1993-94 academic year against or under the sponsorship of an active Division II member located in Hawaii may use any of the remaining exceptions set forth in Bylaw 17.3.5.3.2.1 (i.e., San Juan Shootout, Preseason National Invitation Tournament, Alaska contests other than the Great Alaska Shootout) during the 1994-95 academic year, inasmuch as participation against or under the sponsorship of an active Division II member located in Hawaii no longer is included in that once-in-four-years cycle.

3. A Division I institution that has exempted contests in the Great Alaska Shootout during the 1992-93 or 1993-94 academic year has used its once-in-12-years exemption and, thus, is not permitted to exempt basketball contests in the Great Alaska Shootout until 12 years have elapsed since the institution's previous participation in that event.

4. A Division I institution that participated during the 1992-93 or 1993-94 academic year in the Great Alaska Shootout may use any of the remaining exceptions set forth in Bylaw 17.3.5.3.2.1 (i.e., San Juan Shootout, Preseason National Invitation Tournament, Alaska contests other than the Great Alaska Shootout), inasmuch as the Great Alaska Shootout no longer is included in that once-in-four-years cycle.

[References: Bylaw 17.3.5.3.2.1 (basic options), new Bylaw 17.3.5.3.2.3 (Division II institution in Hawaii option) and new Bylaw 17.3.5.5 (once-in-12-years exemption—Great Alaska Shootout)]

## Fighting proposal gets backing from AFCA's I-A members

### Coaches also back comprehensive review of eligibility standards

Division I-A members of the American Football Coaches Association endorsed the new fighting rule proposed by the NCAA Football Rules Committee and went a step further in an effort to address other matters involving player behavior.

Teaff

During a February 5-7 meeting in Orlando, Florida, the 78 Division I-A coaches attending unanimously supported the rule, which would require the ejection or suspension of a player or coach who leaves the bench area to fight. The coaches asked the NCAA Executive Committee to approve the rule.

Also, the coaches asked confer-

ences to use videotapes of any bench-clearing fights so accurate and appropriate penalties can be assessed by conference review panels.

In a related matter, AFCA Executive Director Grant G. Teaff said the coaches expressed concern about player intimidation and abusive language. He said the organization will ask that conference officiating coordinators place renewed emphasis on rules in those areas. Also, the AFCA will seek to clarify what is allowed under the current rules since they tend to be enforced differently from conference to conference.

In any case, Teaff said coaches—through their own staffs—"will take a strong hand" in controlling intimidating and abusive behavior.

Teaff specifically mentioned the recent trend of players' removing helmets after good plays. In addition to the sportsmanship question involved in such an act, he said that safety is a consideration since a player without a helmet would be endangered if his head collided with that of a helmeted player during a celebration of a big play.

*"We are especially concerned with whether the new (academic) standards that will become effective in 1995 have been adequately communicated. We know that this is a matter for the academic people to decide, but we encourage them to conduct a thorough review."*

■ Grant G. Teaff  
AFCA executive director

#### Legislative matters

With regard to NCAA legislative matters, the coaches supported 1994 Convention Proposal No. 174, which requires a review of NCAA academic initial-eligibility standards. "From the data we have available," Teaff said, "this is something that needs to be reviewed. We are especially concerned with whether the new standards that will become effective in 1995 have been adequately communicated. We know that this is a matter for the academic people to decide, but we encourage them to conduct a thorough review."

The coaches also took the unusual approach of voluntarily restricting themselves on summer camps and recruiting telephone calls despite more permissive recruiting-deregulation legislation that was adopted at the 1994 NCAA Convention.

Regarding camps, Teaff said that although Proposal No. 172 permits a member institution to employ its student-athletes in institutional camps under specified circumstances, the Division I-A coaches agreed not to do so.

On another matter relating to camps, Teaff said the coaches will not allow recent signees to attend

institutional camps. That decision is somewhat related to Proposal No. 171, which will permit senior prospects to attend institutional camps.

Proposal No. 41 established July 1 after a prospect's junior year as the earliest telephone contact date in Divisions I and II football. However, Teaff said the coaches were comfortable with the old August 15 rule and that they also believe advancing the date by six weeks adds unnecessary expense. For those reasons, he said, the I-A coaches agreed to continue voluntarily with August 15 as the first date for telephone contact.

"All of these decisions are voluntary on the coaches' part," Teaff said. "The success depends on the coaches' signing on with us. Everyone who was at our meeting signed on, and we expect those who did not attend to abide by these decisions."

The coaches also discussed the proposed Division I-A playoff. "They know that the ultimate decision does not rest with the coaches," Teaff said, "but are very adamant about being consulted along the way."
