OCR Title IX clarification receives mixed reviews

BY RONALD D. MOTT STAFF WRITER

Reaction to the Title IX clarification document released September 20 by the U.S. Department of Education's Office for Civil Rights (OCR) is as varied as the debate circling the 1972 Federal law.

Some claim that the draft document — on which concerned parties have until October 20 to comment — does not offer enough guidance about how the OCR interprets and enforces Title IX legislation. Others say the clarification is helpful but unnecessary, contending that the legislation as currently written and interpreted is sufficiently clear.

The clarification was offered by the

OCR as a response, in part, to members of Congress who concluded after a May hearing that confusion exists about OCR's interpretation and enforcement of the law.

In a May 24 letter to Norma V. Cantu, assistant secretary for civil rights, Reps. Howard P. "Buck" Mc-Keon, R-California, and Steve Gunderson, R-Wisconsin, said, "Given the lack of understanding on the part of the regulated community as to the means to demonstrate a history and practice of program expansion for the underrepresented sex or full and effective accommodation of the interests and abilities of the underrepresented sex, we would like you to provide us with an update of any plans that the department has to clarify the

three-prong test either through regulations or policy guidance."

So does the clarification draft document clear up the confusion? It depends upon whom you ask.

"There still are several things that need to be clarified," said Grant Teaff, executive director of the American Football Coaches Association. "What we have had in the past...is we've had a promotion of one of the prongs by certain groups and it became the law of the land by some people. Very frankly, (substantial) proportionality needs to be defined. It is not defined."

Charles M. Neinas, executive director of the College Football Association, says the clarification possibly serves to strengthen prong one

Membership asked to take bigger role in solving agent problem

BY STEPHEN R. HAGWELL AND RONALD D. MOTT STAFF WRITERS

It was only a matter of time.

That is what the chair of the NCAA Professional Sports Liaison Committee and several NCAA staff members who have followed the sports-agent industry closely over the past several years say as the "agent problem" grabs attention in intercollegiate athletics.

The time has come for the NCAA membership to devote its undivided attention to that problem, they say.

"Most of us felt some time ago that this was going to be a monumental problem that all of our institutions were going to be facing," said Ron Maestri, director of athletics at the University of New Orleans and chair of the Professional Sports Liaison

During the past 18 months, the occurrence of improprieties — some alleged, others confirmed — arising from relationships between studentathletes and sports agents have reached near-epidemic proportions. Generally, today's cases do not appear to be as scandalous as the infamous Norby Walters-Lloyd Bloom case of the 1980s, but they are as disturbing.

From Sports Illustrated's story on

and the NCAA student-athlete

This week: The NCAA staff's perspective.

Next week: The schools' view.

alleged abuses at Florida State University to recent statements by former runner Jesse Martinez to this week's breaking news that several University of Southern California football players may have accepted cash gifts from sports agents, the NCAA membership again is confronted with an issue that many predict will continue to worsen until addressed appropriately.

Several NCAA staff members have followed these incidents and others in recent years, leaving them searching for solutions.

Professional athletes' salaries are soaring and the agent industry — currently involving an estimated 3,000

agents — is booming. With NCAA legislation providing little deterrence, NCAA staff members are looking to the membership for direction.

"The question to me is: What does the membership want to do about the problem?" asked Bill Saum, an NCAA enforcement representative who serves as the enforcement staff's key contact on the sports-agent issue. "It seems like they need to decide because it is such a high-risk problem"

Regardless of the course of action

Commission stresses commitment to diversity in restructuring

The NCAA Presidents Commission emphasized at its recent meeting that weight should be given to gender and ethnic diversity in the appointment process for the proposed Division I Board of Directors and Management Council.

The Commission, which met September 26-27, instructed representa-

tives of its executive committee to meet with representatives of the NCAA Committee on Women's Athletics and the NCAA Minority Opportunities and Interests Committee to convey the Commission's concern for assuring diverse representation.

The women's athletics committee recently identified diversity of repre-

sentation as a concern, expressing a desire for those organizing the restructuring efforts to specify what sort of representation women can expect in the new structure (see the October 2 issue of The NCAA News; also, see related story on page 3).

In a related action, the Commission proposed amendments-to-amend-

ments for the 1996 NCAA Convention that would make it possible to use Divisions I-AA and I-AAA at-large positions to aid with diversity of representation on the Division I Board of Directors and Management Council

Originally, the plan of the Division I Task Force to Review the NCAA

Membership Structure was to tie all membership on the Division I Board of Directors (15 members) and the Management Council (34 members) to conference membership. However, in the intervening time during which the legislation was developed, the net

Briefly in the News

Celebration a Southern gem

The Southern Conference is in the midst of its diamond anniversary celebration — an appropriate time for reflecting on the conference's many contributions to intercollegiate athletics.

The conference announced last spring a host of events to commemorate its 75th birthday, which officially is next February 25. An anniversary logo was designed by Stephanie Durrence, a student at Southern Conference member Georgia Southern University. The conference also will hold a number of championships banquets featuring as speakers members of 75th anniversary teams in all men's sports. In addition, the women's all-decade teams that were named in 1992-93 will be rereleased.

Next spring, a comprehensive conference records book will be produced. Also, monthly written profiles of former Southern Conference standout student-athletes — from Charlie "Choo Choo" Justice of the University of North Carolina, Chapel Hill, to Jerry West of West Virginia University to Betsy King of Furman University — will be released to the media.

"The Southern Conference has one of the grandest traditions in intercollegiate athletics," said Southern Conference Commissioner Wright Waters. "The fact that the league now has been around for 75 years says so much about the caliber of the conference's student-athletes, administrators, alumni and fans. The 75th anniversary will help us celebrate our remarkable past while looking ahead to the challenges of the future."

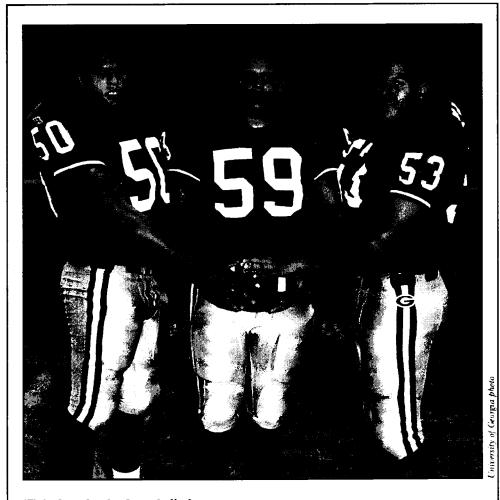

Assembled in 1921, the Southern Conference is the fifth oldest in the country. Thirty-eight institutions have been on the rolls of the Southern Conference in its first 75 years.

In 1932, the Southern Conference saw more than half of its 23 members depart to form the Southeastern Conference, in a move to reduce travel expenses and demands. In 1953, the Southern Conference lost seven more members to another new conference — the Atlantic Coast Conference.

Today, the Southern Conference has 10 members: Appalachian State University; The Citadel; Davidson College; East Tennessee State University; Furman; Georgia Southern; Marshall University; University of Tennessee at Chattanooga; Virginia Military Institute; and Western Carolina University.

Mighty long trek

Kevin Hadsell is going to take a little bicy-

Triple their Luck(ie) — Team uniform numbers can help only so much when the Luckie triplets take the football field for the University of Georgia. Two of the brothers, Dustin (No. 50) and Mike (No. 53), compete at linebacker, while Miles helps shore up the defensive line. The three freshmen joined the Georgia squad after completing stellar careers at Clarkston High School in Stone Mountain, Georgia.

cle trip next summer. Well, make that a looooooong bicycle trip.

The assistant cross country and track coach at Coastal Carolina University will embark on a 10,700-mile solo bicycle trip over 90 days. Hadsell is making the trip to benefit the Leukemia Society and other charities. He will visit each of the 28 Major League Baseball stadiums to help raise awareness and funds for charities.

This summer, Hadsell completed a 1,200mile solo bicycle trek from Myrtle Beach, South Carolina, to Burlington, Vermont. That trip took 11 days from start to finish. Hadsell was not satisfied with the results of that trip, which is why he is tackling next year's cross

"I was disappointed in the amount of money that was raised from this summer's trip," he said. "I did not have the exposure nor the time to raise the amount of money I

had hoped. The trip was more expensive than I had planned and I used a lot of my personal money for it.

"I hope that this, since it is something of a more national interest and the fact nobody ever has attempted this before, will help raise a lot of money for the Cure 2000 efforts of the Leukemia Society.'

The trip, which will start in May, will begin in Myrtle Beach and wind around the country in a counter-clockwise direction before ending in Miami.

How does someone train for a trip like this? Very hard.

"I will have to increase my training to about 70 to 80 miles a week of running and 350 to 500 miles per week of riding to get ready for this longer journey," he said. "This is going to be an incredible journey. I can't wait to

I News quiz

Answers to the following questions appeared in September issues of The NCAA News. How many can you answer?

- 1. Under which of the following circumstances may an Olympic athlete who is not enrolled full time engage in practice with a team at an NCAA institution? (a) The institution designates the individual as a coach; (b) the individual performs legitimate coaching duties; (c) the institution counts the individual toward coaching limitations for the team's sport; (d) all of the above.
- 2. True or false: The NCAA's current membership of 1,200 active, conference, affiliated and provisional members is a
- 3. How many of the Association's 96 provisional members have just begun their first year in that classification? (a) 15; (b) 30; (c) 45; (d) 60.
- 4. What percentage of the 108 football programs in NCAA Division I-A plays home games on grass fields? (a) 54.3 percent; (b) 57.9 percent; (c) 61.1 percent; (d) 71.1 per-
- 5. How many boys and girls participate nationally in high-school athletics programs, based on statistics gathered from the 51 high-school athletics/activity associations that are members of the National Federation of State High School Associations? (a) 3,666,917; (b) 4,367,442; (c) 5,794,429; (d) 6,450,482.
- 6. Which girls' sport gained the most participants nationally in high schools from 1993-94 to 1994-95? (a) soccer; (b) swimming and diving; (c) basketball; (d) volley-
- 7. Which state is home to two of this year's 10 finalists for the NCAA Woman of the Year award? (a) Iowa; (b) New Hampshire; (c) South Carolina; (c) West Virginia.

Answers on page 20.

■ Fact file

Of 112 NCAA member conferences that sponsored competition during 1994-95, 20 sponsored competition in only one sport. Six of the conferences sponsored competition in football; men's ice hockey and wrestling each were sponsored by four conferences. Thirteen of the 20 single-sport conferences were in Division I; only one of the 20 sponsored a women's sport (softball).

Source: Staff report to the NCAA Committee on Review

NACWAA focuses on women's role in restructuring

ed the attention of the National Association of Collegiate Women Athletic ommended that the Board of Directors for that division be responsible for Administrators.

NACWAA, which met September 22-26 in Cedar Rapids, Iowa, has formed a legislative review committee to examine 1996 NCAA Convention proposals that might affect women. Topping the list is the membership restructuring proposal (Proposal No. 2-2 in the Second Publication of Proposed Legislation) and specifically the composition of the Division I Management Council.

In developing the proposed structure of the Division I Management Council,

The question of representation for women in a restructured NCAA has attract—the Division I Task Force to Review the NCAA Membership Structure has recassuring that diversity of representation is achieved. The task force noted that its decision to allow conferences to select their representatives on the Board of Directors and Management Council and the staggering of the expiration of terms "make it inappropriate to establish quotas for specific genders, ethnicities or staff positions."

See NACWAA, page 10 ➤

Committee notices

Member institutions are invited to submit nominations to fill interim vacancies on NCAA committees. Nominations for the following vacancy must be received by Fannie B. Vaughan, executive assistant, in the NCAA national office no later than October 23, 1995 (fax number 913/339-0035).

Women's Committee on Committees: Replacement for Saundra Taylor, University of Arizona, resigned because she is unable to attend committee's meetings. Appointee must be from Division I, District 8.

New committee positions

The following committee positions will be available if the membership

adopts relevant legislation sponsored by the NCAA Council and/or

Association membership at the 1996 Convention. Nominations must be

received by Vaughan in the NCAA office no later than October 23. Women's Crew Committee: New committee. Seven members: four from Division I, one from Division II, one from Division III and one elected at large. In Division I, one member shall be from District 1, one from District 2, one from District 8, and one from Districts 3, 4, 5, 6 or 7.

Women's Softball Rules Committee: New committee. Nine members: four

Broad indictment unfair to gymnastics

BY STEVE SHEPHARD
PENNSYLVANIA STATE UNIVERSITY

The current media feeding frenzy on the sport of women's gymnastics continues. The book "Little Girls in Pretty Boxes" is the latest edition of the attack on our sport.

It is very easy for those of us who have devoted our career to this sport to become defensive over some of this attention. The "silent majority" of us who quietly strive in relative anonymity are shocked and repulsed by the outrageous allegations of abuse by coaches and parents of those young women in the spotlight.

Shephard

As a college coach, I feel the necessity at this time to express my outrage and sympathy to those whose dreams have collapsed into tragedy. I also feel a serious responsibility to defend the sport I love.

There is no doubt that mistakes have been made by some of those in positions of leadership and by some of the families involved in those tragedies. However, those mistakes need not be an indictment of the entire sport.

Those of us in the collegiate ranks have been extremely diligent in our attempt to understand the pressures and contributing factors that lead to the dangerous "female triad." Here at Penn State, a full task force, including our team physician, a full-time sports nutritionist and our department of counseling and psychological services, has been instituted to prevent the tragedies associated with eating disorders.

Our hope is to ensure that our athletes will be enabled to train, and strive for personal excellence, in an environment that enhances the self-esteem and coping mechanisms of our athletes. There are hundreds of programs that are providing healthy, positive learning environments for athletes to continue their gymnastics careers in college.

I hope, as we approach the Olympic year, that all those involved in the sport I love can strive for personal excellence without the fear and personal anguish associated with eating disorders. Also, I hope that those of us who run healthy, positive programs will not be forgotten or overlooked by the negative

A long journey with strange turns

Following are remarks excerpted from a speech by Jane Betts, executive director of the National Association of Collegiate Women Athletic Administrators. Betts recently was honored as NACWAA's administrator of the year at that group's annual meeting.

Fate has a way of taking strange turns, which so often affects our lives in some very unusual ways. In my case, I feel safe in suggesting to you that it was probably a very unfortunate professional circumstance that created a professional opportunity that led to my standing here speaking to you this evening.

My career as an athletics administrator spans the last 19 years, all of which have been spent at the Massachusetts Institute of Technology. I followed an unusual career path, moving from an assistant director to associate director, with goals and aspirations for eventually becoming the director.

In 1992, the MIT director of athletics announced his plans to retire. A nation-wide search was conducted, and I was, of course, in the hunt. The search committee eventually presented the names of two finalists to the vice-president, mine and a man's. Ultimately, the man was selected....

The new director arrived on our campus and in less than one year of working together, he decided that he did not want me to be a part of his administration. With the help of senior officers of the university, a leave was agreed upon which, at the time, appeared to be a win-win situation for all. I could pursue other professional opportunities and the new director of athletics could move forward without me.

Since that time, I have been on a roller coaster of depressing lows and exhilarating highs. The lows have been related to learning more than I ever wanted to know about women's struggles as administrators in intercollegiate athletics. Consequently, I am truly concerned about career opportunities for women in athletics administration today.

Most of you probably know that the leave from MIT presented an opportunity for me to be "on loan" to NACWAA....I set out on a mission. My mission was to explore what NACWAA might do to move forward as a progressive association of women athletics administrators....It was an exciting adventure. My goal was to determine what needed to be done to take NACWAA to what I began to think of as the "next level" of support for the membership. I spent most of the first six months just talking to lots and lots of people.

Among other things I learned was how many other women had experienced serious disappointments in their pursuits to be upwardly mobile as intercollegiate athletics administrators. I reviewed the astonishing facts revealed in the (Vivian) Acosta and (Linda) Carpenter longitudinal study between 1977 and 1994. Among other things Linda and Vivian found was that of 174 senior women administrators surveyed at NCAA member institutions, 43 percent never sought a vertical or lateral job

change although 95 percent felt they were qualified to do so.

When I thought about the number of women that I actually know personally whose career objectives have been stifled by unsuccessful job searches, I shuttered to think about how many others there might be out there and what that total number really might be.

There are many women seated in this room this evening who have experienced job searches that left them stranded on the "short list" when the job was awarded to a male. We have colleagues who have found themselves reassigned or even dismissed from their positions when they apparently pushed too hard for what they perceived to be right for athletics and/or right for women. We have colleagues who have suffered serious illness due to stress emanating from their jobs in athletics administration.

How many good women leaders have given up the fight and gone back to teaching? How many of us have watched our friends and colleagues pursue AD positions unsuccessfully and then conclude that the exercise is much too painful and never attempt to move from our current positions to directors? How many have spent over a decade at one institution, as I did, only to learn that the failure rate for internal female candidates being selected as directors of athletics is astonishingly high?

As a women in my 50s, I have been

More than athletics department hurt by death penalty

W. James Copeland Jr., athletics director Southern Methodist University

Madison (Wisconsin) Capital Times

Discussing the effects of the "death penalty" that was levied against the Southern Methodist University football team in 1986:

"If anybody were to come down here and look at the longitudinal history of what's happened since the death penalty, it would be very hard to give that penalty to somebody else because I think it had a very severe effect on the entire school. We're just starting to come back from that....

"There just was not a good feeling between athletics and some on the academic side. There was a lot of work that needed to be done — still needs to be done — on communications.

"What I have found is that there is a lot of support for us on the academic side as well as from the city of Dallas and alumni. They want us to be good, but be good without sacrificing the graduation rate and certainly not compliance."

Initial-eligibility standards

Ralph Willard, men's basketball coach University of Pittsburgh Pittsburgh Post-Gazette

"My thing is, any time you stress academics, it's a positive. But my question is what is motivation for this? Is it just to eliminate perception? If that's their (the NCAA's) reasoning, then that's wrong...

"I'd love to take you on a recruiting trip with me sometime and go into some of the schools we go in. They're unbelievable. It's a lot different for a kid who goes to school and the only thing he's worried about is his safety, not whether he's going to get a B or C-plus that day. He's worried about whether he's going to get through the metal detector that day or if he's going to be all right on his way home from school. Some schools are in such bad shape it's mind-boggling.

"If you're in a great environment in a suburban school and everything is positive, yeah it's casy. But if you're in a single-parent home and you're going to school worrying about your safety and the school discipline is lacking, then it's not easy. There are a lot of good kids out there, who given the opportunity to blossom and excel, do it. But (the new standards) are going to deny some kids access to that opportunity."

Agents

Editorial

The Boston Globe

"[C]ollege football and basketball these days have almost nothing to do with amateur idealism and everything to do with cold, hard cash — particularly the money schools get if their teams do well and the fortunes a few players will earn in the pros.

"The result? A shoc box full of greenbacks in a player's closet, a gift from a would-be agent. Acts of assault, thievery or rape left unpunished or covered up. Athletes who destroy their own bodies when forced to play hurt by coaches with an eye on the prize. And through it all, the tragedy of young men whose tuition is paid but who are often cheated out of an education by a system that puts more emphasis on touchdowns than test scores.

"In an ideal world, the training grounds for professional leagues in football and basketball would be divorced from academic institutions, as they are in baseball. But that is not going to happen.

"Colleges could start paying athletes, who are currently forbidden by NCAA regulations from holding any job. The sums agents and financial planners give players rarely escapes the fourfigure range. It won't completely solve the problem, but granting athletes a moderate stipend should go some way toward ameliorating it. Also, the NBA and NFL players associations could get serious about decertifying rogue agents. To help ensure that athletes play by the same rules as other students off the field, the NCAA should encourage schools to keep coaches and athletics directors out of internal disciplinary processes.

"Nothing can totally climinate the fundamental tension between amateur athletes and the millions of dollars they generate, but administrators owe students a serious effort to do something about it"

Economic effect of sports

Roger G. Noll, professor Stanford University

The New York Times

"Our psychic investment in sports is disproportionate to its economic importance to a city. Few people know the name of the manager and sales people at their Macy's department store, but everybody knows the name of the manager of the sports team and the players. Why make the phony economic development arguments when the value of sports teams is clear from the pleasure they provide?"

Scoring or skill?

Although the current 25-yard scoring rule in field hockey is praised by many coaches, some favor a return to the tougher 16-yard standard

BY MARTIN T. BENSON

o matter what the game, scoring seems to generate excitement. So, when an NCAA sport wants to strengthen its appeal, its governing committee often changes the rules to help the offense.

The NCAA Field Hockey Committee did just that in 1984, adopting a modification to the international rules that govern the NCAA game. The change allowed scoring from anywhere on the field; previously, only shots from inside the 16-yard half-circle surrounding the goal counted.

Now, more than a decade later, some question the move.

University of Connecticut coach Nancy Stevens, who was on the committee that made the change while coaching at Northwestern University, said that old rule confused fans. The reason: When a shot was taken from outside the circle, goalkeepers were coached to let the ball go in the goal — because it did not count — rather than playing the shot and risking a score.

Current committee chair Cristy Freese, who coaches at Central Michigan University, expands on that rationale. She explains that because the goalkeeper now has to play virtually every shot, the *opportunity* for scoring is increased because the ball is moving around more from rebounds.

Whether *scoring* has increased is debatable, however, because no one has done a study.

The rule changed to a lesser extent again in 1990, to state that goals can be scored only after the shooter crosses the 25-yard line. Ball State University coach Karen Fitzpatrick, a member of the committee at the time, said that change represented a compromise with those who favored the 16-yard restriction.

She said that when scoring was allowed from anywhere, some players were just hitting the ball down field rather than passing it to their teammates.

"It's a little more realistic than the original rule, and it's opened up the game and provid ed more scoring opportunities," Fitzpatrick said. "When you're dealing with scoring inside the circle, many teams are just trying to work for a penalty corner (which interrupts the game) rather than trying to score from a spot on the field."

Though the 25-yard rule is popular with

many, there is a vocal group of "traditionalists" — primarily Division I coaches — who want to go back to the old rule.

More like international game

Many of those coaches cite a desire to make NCAA games more similar to international play. They acknowledge, however, that rationale does not speak to the majority of coaches or players, so they base their argument on other factors.

"There is a feeling that it takes more skill to work the ball in the circle and the more skilled teams should be rewarded," Freese said. "You could probably poll the top 20 Division I teams and 99 percent would want to go back to (the old rule)."

Even though Stevens was part of the committee that passed the rule, she would like it changed.

"I don't think there has been an increase in scoring, so we haven't gained anything," she said. "(Instead,) I think we have a generation of players who have lost the ability to create scoring opportunities (inside the circle). All players are doing is shooting from outside the circle (as soon as they get open)."

That is a problem, Stevens said, because studies have shown that 60 percent of all goals scored internationally are from within six yards of the cage.

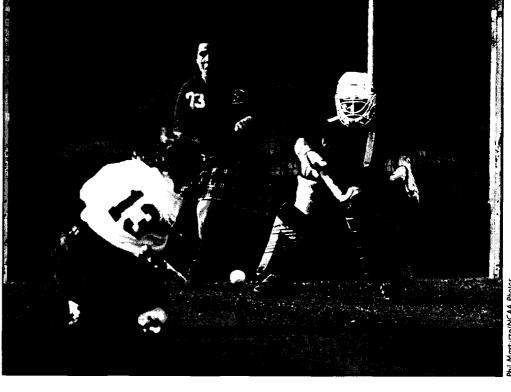

"That's our 'red zone,' and players need to learn how to get into it," she said.

Though the desire for change is primarily a Division I view, it is not limited to that level. Kathy Krannebitter, coach at Division II West Chester University of Pennsylvania and the committee's NCAA rules modifications interpreter, also likes the old rule.

"(The 25-yard rule) may increase scoring opportunities, but I'd prefer to see teams create their own opportunities and that is not what is happening — they're just trying to create mistakes (by the opponent)," she said. "I struggle with my own team on this."

Pat Rudy, coach of defending Division III champion State University College at Cortland, also supports the old rule. She thinks quality scoring opportunities have decreased under the 25-yard rule.

"Some teams actually lose good scoring opportunities because they shoot from outside and they are not accurate from out there, so they lose possession," she said.

Some field-hockey coaches contend that going back to a rule that counts only shots from inside the 16-yard half-circle surrounding the goal would reward the more-skilled teams that can create quality scoring opportunities.

Some arguments same

Surprisingly, the staunch supporters of the current rule use some of the same arguments to support their view that the "circle" camp uses. Those who like the current rule think that even if it does not create more scoring, it creates more opportunities, and therefore, more excitement.

Some also disagree with the idea that the rule does not reward skill. One coach holding that view is Jan Trapp at Division III Messiah College.

"The team that is going to whack and hack is going to do that regardless of what the rule is," she said. "I consider our team to be highly skilled; I don't think (the rule) hurts us. Our skill level has improved (since the rule change). I love it. It has opened up a whole new strategy."

Another Division I supporter of the rule — along with Ball State's Fitzpatrick — is Kent State University coach Jennifer Jones-Goodsich

"It keeps the defense from packing things inside the circle," she said. "We don't score from (outside the 16-yard line) but (the rule) opens things up and allows us to create more action and scoring opportunities (from within the circle)."

Lynn LaBar, who coaches at Division III Wells College and played for Division I Syracuse University from 1980 to 1984, saw both rules as a player and prefers the current one, pointing out that it allows for more freedom.

"Some coaches teach scoring from inside the circle (exclusively) and they can continue to do that," she said. "I'd hate to lose (the current rule)."

A related issue in the debate is inconsisten cy of playing fields. Playing conditions are usually better in Division I, while many Division III teams must play on fields of varying quality.

Some say the 25-yard rule coupled with a bad field makes scoring off a lucky bounce more likely, which is not desirable. Others say that a bad field makes it difficult to control the ball when confined to within the 16-yard circle, so they favor the current NCAA rule.

University of Iowa coach Beth Beglin said she once was a strong proponent of the old rule and still supports it, but now her main concern is consistency at all levels. That may be in the offing, since the sport's international governing body is experimenting with the 25yard rule.

Messiah's Trapp may have summed up the feeling of most on both sides best: "If I were the national coach, I'd want to change back to the international rule, but as a Division III coach, it is my duty to fight for what's best for my team."

Division III outnumbers Division I in sponsorship by nearly 2 to 1. Rules modifications, however, are decided by committee vote, not by straw vote. The committee includes six Division I members, five Division III representatives and one Division II member. Each member has one vote, and the majority rules.

Strange turns

➤ Continued from page 4

forced to wonder why men in their 50s move from job to job like Mexican jumping beans while women are lucky if they make the short list and get an interview.

I recently attended a meeting where I heard Gene Hooks, the executive director of the Division I athletics directors, say that the annual turnover rate for ADs in Division I-A is 18 percent. That means that with 108 institutions in I-A, there are on average 19 AD positions open every year — in I-A alone! Why do we have only four women directing Division I-A programs today?

I learned very quickly how much we as professionals really need our association. We desperately need each other for support and for strength. We need to establish, promote and maintain networking opportunities and a united voice that will speak out loudly across the nation on our own behalf. We need to have a forum through which we can have discussions and debates and together shape plans for our own successful futures. We need to be politically active on behalf of ourselves, as well as our female student-athletes in matters related to the NCAA and other organizations concerned with intercollegiate athletics....

I think my NACWAA journey has been similar to that of many other explorers whom I have heard about. Some of the times are lonely and the direction of travel at times is unclear, but when at last the trip is over, the rewards make it all worthwhile.

Swimming committee focuses on rules, policy revisions

Rules issues and clarification of policies in NCAA championships meets were among items discussed during the NCAA Men's and Women's Swimming Committee's annual meeting September 24-27 in Cambridge, Massachusetts.

The committee ratified several rules proposals intended for the 1996-97 season, including a mandate that all championships meets include at least a full complement of events from one of the formats listed in Rule 8-4. The new rule, designed to give student-athletes the opportunity to compete in all events within the sport, would be a conduct rule and thus could not be changed by mutual consent. The committee will submit the recommendation to the NCAA Executive Committee for approval.

The committee also approved a change in the method of integrating times and place finishes when there is an equipment failure during non-championships as well as championships competition. The method, similar to the system used by United States Swimming (USS), preserves the integrity of all available primary times and the place finishes associated with those times.

In another matter, the committee agreed that whenever actual contestants in a relay in an NCAA championships meet are different from those contestants listed on the official relay entry form, the competing relay will be disqualified and all contestants (competing and listed) shall be charged with participation in an event. No further penalty will be assessed

The committee also adopted several diving proposals, including a revised method of conducting finals at championships meets. Finals for men now shall consist of six optional dives in both the one- and three-meter events, and finals for women shall consist of five optionals in the one-meter event and six optionals in the three-meter event. Scores on all dives performed by each of the divers in the finals plus the voluntary dives with the limit from the trials shall be used to determine first through eighth place.

The committee also adopted the FINA degree-of-difficulty table and the formula for calculating the degree of difficulty for a new dive, thus eliminating the need for demonstration and approval of new dives at NCAA championships.

The committee also heard presentations from USS and the College Swimming Coaches Association of America (CSCAA).

USS approved an NCAA application for allied membership that includes a spot on the USS board of directors. This post will be filled by the chair of the swimming committee or **O**THER HIGHLIGHTS

Men's and Women's Swimming Committee September 24-27/Cambridge, Massachusetts

Division 1

The Division I subcommittee of the Men's and Women's Swimming Committee considered policies and procedures for staging "last-chance" meets, in order to develop conformity among those meets.

In other actions, the subcommittee:

- Encouraged stricter policing at national championships of temporarily applied adhesives to assist swimmers in the backstroke start. Rule 3-1-2 currently prohibits such artificial aids.
- Recommended that the NCAA legislative services staff provide a summary of regulations regarding the Olympic trials during this academic year.
- Voted down proposals calling for alternating schedules for the men's and women's championships and a change in current starting times for the respective championships.

Division I

In a change of policy regarding relay entries in the Division II championships, the Division II subcommittee determined that any institution with four swimmers who have qualified for the meet (as either individual or relay-only swimmers) may enter any of the five relays. Swimmers who compete in an optional-entry relay must compete in at least one event for which he or she qualified for the championships.

In other actions, the subcommittee:

- Discussed the need for developing future championships sites. The 1996 championships will be at the University of North Dakota.
- Reviewed sponsorship numbers and noted an increase in institutions sponsoring men's as well as women's swimming, which has served to stabilize the status of the championships.

Division III

The Division III subcommittee agreed that an alternating schedule for

men's and women's championships would be discussed and feedback solicited at the annual coaches meeting and at both Division III championships.

In other actions, the subcommittee:

- Revised Step No. 6 of the qualification procedures in the championships handbook to read: "At some point the addition of one relay team per event to the entire order of relay events will cause the relay subcap to be exceeded. At this point, the remaining spaces will be filled by comparing the relay team's times to the Division III championships record by percentage. The relay team whose percentage is closest to the record will be taken first until the subcap is reached. If a relay entry next in order to be added will cause the subcap to be exceeded due to the number of relayonly competitors on that relay, the remaining relay-only spaces will be added to the individual qualifier cap."
- Reconfirmed its support for using the same starting times for both men's and women's championships.
- Determined the following future championships dates: 1996 women

 March 14-16; 1997 women March 13-15; 1998 women March 1214; 1999 women March 11-13; 1996 men March 21-23; 1997 men

 March 20-22; 1998 men March 19-21; and 1999 men March 1820.
- Determined the following future qualifying periods: 1996 women September 1 through February 25; 1997 women September 1 through February 23; 1998 women September 1 through February 21; 1996 men September 1 through March 3; 1997 men September 1 through March 2; 1998 men September 1 through March 1; and 1999 men September 1 through February 28.
- Determined that, in addition to surveying coaches on alternating dates for the men's and women's national championships, the committee will survey coaches on cutting the number of entries allowed on the entry form from four to three.

OTHER RULES ACTIONS

In addition to making minor editorial changes to the men's and women's swimming and diving rules, the NCAA Men's and Women's Swimming Committee adopted several rules changes during its September 24-27 meeting in Cambridge, Massachusetts.

The changes will become effective for the 1996-97 season. The committee:

- Deleted the words "and in the same horizontal plane" from the turn and finish requirements for breaststroke and butterfly events in order to simplify officiating and align with United States Swimming (USS) rules.
- Clarified deck space recommendations to include a minimum area of three feet for officials. The committee also recommended that deck space intended for moveable spectator bleachers or other seating be wide enough to accommodate such seating plus sufficient area for free movement of competitors and spectators.
- Further revised the term "chronological order" in Rule 3-3-3-b to be defined as the order in which a competitor actually would participate in an event
- Specified that unobstructed sight lines, parallel to and 15 meters from each end of the racing course, must be clearly designated and visible to both officials and competitors.
- Stipulated that a marker be placed at the 15-meter mark on lane lines.
 Provinced Pulse 4.94 regarding recognitions to classife recognitions.
- Revised Rule 4-24 regarding manual recorders to clarify procedures used when automatic judging and timing equipment is not available or does not provide printed results.
- Created place values for championships meets where more than 16 swimmers qualify for finals.

- Stated that USS-sanctioned meets hosted by an NCAA institution may not be used to achieve NCAA time standards, consideration standards or optional entry standards unless another NCAA institution also participates in the meet (exemption from this rule is provided to member institutions in Alaska, Hawaii and Puerto Rico).
- Established that when automatic relay-takeoff judging equipment is used in either nonchampionships or championships competition, a disqualification will result only if there is dual confirmation of an infraction of the takeoff rule by the automatic takeoff equipment and by either a lane takeoff judge or a side takeoff judge.
- Revised procedures regarding voluntary dives in Rule 6-1-1.
- Clarified procedures regarding penaltics assessed when a diver makes an error in number, position or platform level on the diving sheet.
- Clarified procedures for divers to change a dive on the diving sheet up to one hour before a session.
- Defined sufficient time for divers to prepare and perform a dive and clarified procedures and penalties to be assessed if, in the opinion of the referee, a diver is unduly delaying a contest.
- Instructed the diving subcommittee to explore the possibility of making diving rules gender-equitable.
- Declared that in meets offering a preliminary round, a consolation final, a final and a nonscoring bonus exhibition, a swimmer who swims the preliminaries and qualifies for the bonus exhibition that night may still swim a time trial. In meets that offer only preliminaries, a consolation final and final, participants designated as exhibition swimmers may swim only the preliminaries and a time trial after the finals session is complete.

the chair's designce. Actions of a United States Olympic Committee/NCAA task force exploring cooperation

between the two organizations also were discussed.

The CSCAA report included topics

such as the annual awards program and an update on officials' certification. The CSCAA, through the College Swimming Officials Association, has helped certify more than 170 officials nationwide.

Men's volleyball seeks day of rest between championship semifinals, final

Time between Friday's matches, Saturday's final prompts recommendation

The NCAA Men's Volleyball Committee will submit a proposal to the NCAA Executive Committee that would create a day of rest between the semifinals and final of the 1996 National Collegiate Men's Volleyball

Championship.

The proposal was formulated during the committee's annual meeting September 24-27 in Scottsdale, Arizona

The committee believes the day is needed because of ESPN's commitment to televise the final live at 2 p.m. Saturday, May 4. Because the semifinals are scheduled to be conducted

Friday evening, the committee determined that the short turnaround time could affect adversely the quality of play in the championship match.

The proposal requests that the semifinals be conducted Thursday, May 2.

The committee also will propose that the third-place match in the championship be eliminated. The

committee recognized that the thirdplace match originally was implemented to give more teams an additional opportunity to compete at the championship level.

But it was the sense of the committee that due to an increase in the level of national competition and regular-season tournament competition throughout the past several years, the third-place match in the championship no longer is needed.

The committee also determined that the matches played using the experimental scoring method in this year's Ricoh Hall of Fame Classic at Springfield College will count toward championship-selection criteria, as long as the coaches involved provide written mutual consent.

Basketball officiating videotapes available

Basketball officiating video cassettes are available from the NCAA in preparation for the 1995-96 season.

Instructional videotapes for both the men's and the women's game can be ordered by using the form that accompanies this story. The instructional tapes are available in VHS format for \$15.

The 1995-96 women's instructional video demonstrates traveling, screening, post play, and bench and player decorum.

The 1995-96 men's instructional video highlights screening, hand checking, block/charge, post play and various other points of emphasis.

Videotapes of one of the men's and one of the women's regional officiating clinics can be purchased for \$20 after November 16.

In their 11th year, the regional clinics are administered by the NCAA Basketball Officiating Committee. All supervisors of officials and officials are required to attend one of the 1995 clinics. Head coaches may view a live video conference October 18 in licu of attending one of the regional clin-

If a school's head coach does not view the live video conference, a member of the school's full-time basketball coaching staff must attend one of the regional clinics.

The women's clinics will be conducted by Marcy Weston, secretaryrules editor of the NCAA Women's Basketball Rules Committee and coordinator of women's basketball officiating. Weston will be assisted by Bill Stokes, supervisor of officials for the Atlantic Coast Conference, the Big South Conference and Conference

The men's clinics will be conducted by Henry O. Nichols, secretary-rules editor of the NCAA Men's Basketball Rules Committee and coordinator of men's basketball officiating. Nichols will be assisted by Don Shea, a former Division I basketball official.

Copies of instructional video cassettes from previous years and from past clinics also can be purchased by using the accompanying form.

NCAA's Renfro to direct constituent communications

Wallace I. Renfro, NCAA assistant cexecutive director for publishing since 1988, has been named to the position of NCAA director of constituent comimunications.

In his new position, Renfro will be responsible for developing and implementing plans for ongoing direct communications with the various constituent groups of the NCAA (includ-

Renfro

ing governing bodies and committees of the Association, chief executive officers of member institutions, athletics directors, conference commissioners, faculty athletics representatives, coaches, student-athletes and other defined groups that have an interest in or a role to play in intercollegiate athletics).

He also will be responsible, along

with the NCAA director of data processing, for overseeing the on-line information service provided by the Association through Internet and other media and will continue to serve as staff liaison to the NCAA Committee on Review and Planning.

Renfro will continue to report to Francis M. Canavan, NCAA group executive director for public affairs.

"Communication with the various constituencies of the Association has never been more important," Canavan said. "Wally brings a wealth of experience and expertise to this critical effort."

Renfro joined the NCAA staff in 1972 as publications editor and served as assistant director of publishing and director of publishing before assuming the assistant executive director position in 1988.

Before joining the NCAA staff, Renfro was sports information director at Southwest Missouri State University, where he earned a bachclor's

- a. Took the following actions on committees and committee appointments:
- (1) Appointed Col. Ken Schweitzer, director of athletics, U.S. Air Force Academy, as chair of the Special Events Committee, replacing Richard A. Rosenthal, retiring from the University of Notre Dame
- (2) Appointed Roy Williams, men's basketball coach, University of Kansas, to the Men's Basketball Rules Committee, replacing George Raveling, formerly at the University of Southern California but no longer at a member institution or conference; and appointed Larry Keating, director of athletics, Scton Hall University, to replace Raveling as chair. [Note: Keating automatically will serve as the committee's representative to the Basketball Officiating Committee.)
- (3) Appointed Todd Henne, football student-athlete, Edinboro University of Pennsylvania, to the Student-Athlete Advisory Committee, replacing Pam Wustrow, Springfield College, whose institution was reclassified as Division III effective September 1; and agreed to replace Brett Krause, Assumption College, on the committee inasmuch as he has been unable to attend meetings.
- (4) Appointed Thomas Henderson, assistant men's and women's track/cross country coach, South Dakota State University, to the Men's and Women's Track Committee, replacing Elizabeth Alford-Sullivan, formerly at Mankato State University but no longer at a Division II institution
- (5) Appointed Keith Schrage, men's golf coach, Rose-Hulman Institute of Technology, to the Men's and Women's Golf Committee, replacing Steven Conley, Methodist College, resigned.
- (6) Appointed Marvin Vanover, commissioner, Peach Belt Athletic Conference, to the Division II Men's Basketball Committee, replacing Bob Vanatta, formerly commissioner of the Sunshine State Conference but no longer at a member institution or conference.
- (7) Appointed Dave Johnson, tennis coach, Williams College, to the Men's and Women's Tennis Committee, replacing Don Schroer, Emory University, resigned,
- (8) Agreed to dissolve the Special Committee to Review the Relationship of Apparel Manufacturers to the Intercollegiate Athletics

Community.

- (9) Agreed that the chair of the Special Committee to Oversee Implementation of the NCAA Initial-Eligibility Clearinghouse would be replaced, inasmuch as he is no longer employed by a member institution.
- b. Denied a request from the National Youth Sports Program Committee that the Administrative Committee amend NCAA Bylaw 21.3,20.1 to permit representation on the committee by individuals whose institutions do not sponsor an NYSP program but who have recent NYSP experience.
- c. Approved a request by the University of Idaho for permission to appeal to the Division I Steering Committee the denial by the Council Subcommittee on Initial-Eligibility Waivers of its request for a waiver of Bylaw 14.3; and noted that the appeal would be in written form, as opposed to in person, at the Council's October 9-11 meeting.
- d. Approved the request of Texas A&M University, College Station, for incidental-expense waivers to permit the institution to provide expenses for a student-athlete to seek professional help for a speech impediment, and to reimburse three student-athletes to take the Texas Academic Skills Program test; but denied the institution's request to provide expenses for two student-athletes to participate in a field trip for which the fee was not listed in the course catalog.
- e. Denied a request by New York University for a waiver of Bylaw 14.1.7.2 to permit a student-athlete to participate in the NCAA Division I Men's Swimming Championships after his last term of eligibility, inasmuch as this would have allowed the athlete to compete for half of an academic year without meeting the requirements of full-time enrollment or final semester/quarter requirements set forth in Bylaw 14.1.6.2.1.3.
- f. Noted that some institutions had expressed concerns about the progress of the NCAA Initial-Eligibility Clearinghouse in certifying student-athletes' eligibility; and asked the Special Committee to Oversee Implementation of the Initial-Eligibility Clearinghouse, the Academic Requirements Committee and the Recruiting Committee to address these concerns, including the desirability of the requirement that early official visits must be certified before their occurrence.
- director per Constitution 4.3.2.

2. Report of actions taken by the executive

Acting for the Executive Committee:

Granted an honorarium per Bylaw 31.4.4.1 to a conference for hosting a championship at an off-campus facility.

Agents

Violations tend to involve individuals more than institutions; answer may lie with more athlete responsibility

➤ Continued from page I

the membership takes, those involved in the industry articulate one common theme: The NCAA must assign a greater priority to this issue.

NCAA needs to change

"You guys (the NCAA) are going to have to change," said Bobby Korsten, who operates the Krider Basketball Camp in Cincinnati. "You can't operate the way you have in the past. For you guys, (the agent issue) is in an underground area. You may know it's going on, but you're not going to know the specifics. How can you? You can't watch your players 24 hours a day. So for you, this isn't a problem that's going to go away."

The NCAA's current approach, Korsten and others say, provides too many obstacles and loopholes and too few deterrents. The Association has not addressed, perhaps because it currently cannot, how to control the actions and activities of sports agents, they claim.

NCAA staff members believe Association legislation poses more hindrance than help as they work daily on the problem.

"The issue of agents runs more to individuals than it does to institutions," said Robert J. Minnix, an NCAA director of enforcement who recently accepted a position as associate athletics director at Florida State. "Institutions will tell you, 'We didn't know he was dealing with an agent.' Whether that's true or not, it's difficult for us to prove that the school, coaches or administration did know.

"If the interaction is not directly tied to the institution...then we have a tendency not to give it full attention. That's just how it works. Enforcement procedures look at institutions first and individuals second."

A change in focus

Minnix says that since little or no information usually exists that an institution was aware of a student-athlete's involvement with an agent, the enforcement of sports-agent violations continues to focus primarily on the student-athlete.

Minnix cautioned, however, that once an institution becomes aware that a problem may exist with the eligibility of a student-athlete, it must decide whether to confront the student-athlete. The enforcement staff, he says, looks to the institution to make a good-faith effort, which may include a thorough investigation and a reasonable conclusion, in determining the student-athlete's level of involvement.

"The agents know of the enforcement staff's reluctance to pursue student-athletes (especially those with no remaining eligibility)," Minnix said, "and they understand that as long as they keep the school out of the mix or make it appear that the school doesn't know anything, then they can pretty much have a free hand in dealing with the student-athletes."

Indifference to the issue may be the Association's most dangerous enemy, Maestri said. He said too many institutions that do not turn out professional talent every year incorrectly assume that they have no problem.

"One of our concerns is that a lot of people

on their respective campuses think that if their football program is not I-A top 50, 60 or 70, or that their basketball program is not top-rated and they don't have a (blue-chip student-athlete) every year, that it doesn't affect them," Maestri said. "They're absolutely wrong.

"I know a lot of us don't want to hear that. But by the same token, it needs to be brought out. I would rather know about it and deal with it as best I can as opposed to just sticking my head in the sand and hoping it goes away. People have to acknowledge that this is a major problem that affects us all. Once we do that, we can try to change it. Until then...."

Problems likely to continue

Maestri's unfinished thought leads to results on the scale of the Walters-Bloom case.

One solution the Professional Sports Liaison Committee and staff members have attempted is recruiting the assistance of professional sports players associations. The committee and the staff have met several times with players-association representatives of the National Football League and the National Basketball Association. They also have suggested similar meetings with representatives of Major League Baseball and the National Hockey League.

In addition, state governments have been contacted.

"The key to this problem is the players associations," Maestri said. "They hold the key in that they can certify and decertify an agent."

While assistance from the players associations is welcome and desired, it, too, has limitations. Those organizations have staffs that are even smaller than the NCAA enforcement staff and lacking in resources.

An article in the Chicago Tribune earlier this year noted that the NFL Players Association never has decertified a sports agent for improper dealings with a college football player since it began certifying agents in 1983. Likewise, the NBA Players Association has not decertified an agent this decade.

"The focus has been that those groups would step up to the plate a little more than they have," said Richard C. Perko, an NCAA legislative assistant who serves as a staff liaison to the Professional Sports Liaison Committee. "It would be a wonderful surprise (if they would). They tell us the same thing that we have to work with: 'If we have an allegation against an agent, we have to provide due process. We have to provide proof. We have to go through our administrative hearings.'

"I've had players-association representatives say, 'Hey, I can name a dozen agents right now who cheat. Can I prove it? Probably not. But I know it.' Well, you can't do anything with that."

What the NCAA can do, and has done, is focus on the individuals they can impact most directly: student-athletes.

Saum says the key to the process is education, not only for student-athletes but athletics administrators and coaches as well.

"Our institutions need to get everyone involved," he said. "The people on campus who know what's going on are the athletics trainers,

graduate assistants, equipment managers and assistant coaches. If those people hear about involvement of athletes with agents, that's something that needs to be brought to the attention of the athletics department. This is a problem everyone must be involved in if we are going to get a handle on it."

Institutional options

Saum adds that institutions can further restrict access to locker rooms, sidelines and press boxes; conduct interviews of former student-athletes; and monitor student-athletes' complimentary ticket lists in addressing the sports-agent issue.

Former runner Martinez says no institution ever blocked his way as he recruited student-athletes for sports agents.

"Accessibility generally is equal from school to school," Martinez said. "It is easier in some places. But I would never say I have had trouble at a certain school because they were more strict. Not at all. I never had problems. There is no one around policing us."

While it will take a greater commitment from institutions and additional allocation of their resources to create something akin to a barrier for sports agents, Saum encourages institutions to assume the extra responsibility. He says doing so is manageable.

"Institutions cannot be overwhelmed," Saum said. "If you have 100 football players, you don't have 100 problems. You can whittle it down to who you think are going to be draftable student-athletes. The most important thing is to get everyone involved. This isn't a problem that's going to be solved by NCAA enforcement or an outside group."

If education fails to eradicate the spread of infractions, more stringent sanctions against student-athletes should be considered, Maestri said. Those penalties might include tougher actions by the NCAA Eligibility Committee, he said.

"I'm kind of disturbed at the lack of responsibility regarding student-athletes," Maestri said. "I know there is a lot of pressure on the Eligibility Committee and on the universities, but it seems like once it is discovered that a student-athlete has been involved with an agent and they are declared ineligible, they appeal, agree to pay back whatever amount they received and then continue on.

"Maybe we need to be more strict. Maybe we need to have more severe punishment. Right now, I'm not too sure some of them don't have the attitude that 'we're going to try this and if we get caught, history tells us we can get restoration of our eligibility. So let's at least try.' I think there has to be more responsibility taken by the student-athlete and that goes along with punishment."

Carrie A. Doyle, NCAA director of eligibility, said student-athletes have indicated that they consider a loss of eligibility a serious penalty. She said the Eligibility Committee decided this summer that it will handle this issue and others with more severity.

"We have been told by student-athletes that

the loss of playing time is a significant penalty," Doyle said. "As far as doing enough or making an impact, the Eligibility Committee put the membership on notice that it had decided to treat a couple of different kinds of cases more harshly — agent cases, gambling, selling complimentary tickets, etc.

"I'm not sure if (committee members) necessarily came to a conclusion that the conditions for restoration that currently arc imposed are not making an impact, but I think they believe that involvement with agents is a serious violation of NCAA rules, and they wanted to treat those cases more harshly."

Proposed safeguards

The Professional Sports Liaison Committee has made several recommendations aimed at providing more deterrence. At its February 1995 meeting, the committee submitted several agent-related recommendations to the NCAA Council that it believed would stem the tide of agent abuses. The recommendations included the following:

- Sponsor legislation prohibiting student-athletes from making agreements with financial advisors, thus treating such advisors as agents with a different name.
- Sponsor legislation defining as sports agents any apparel manufacturers that own, operate or have a financial interest in an entity that is in the business of representing professional athletes. Under such legislation, benefits provided by such manufacturers to student-athletes would be regarded as benefits from an agent.
- Sponsor legislation amending NCAA Bylaw 10.1 to define as unethical conduct the receipt of benefits by an institutional staff member for facilitating or arranging a meeting between a student-athlete and sports agents, runners or financial advisors.

The Council decided only to sponsor the proposal to amend Bylaw 10.1.

The committee also recommended to the Council that it authorize the development of a set of recommended guidelines for addressing agent problems as a matter of institutional control, and exploration of an information clearinghouse on "agent-type" misconduct that would be accessible to officials at the high-school, collegiate, professional and state-government levels.

"There's no panacea for this (problem)," Perko said. "There's no pill you can take. To have an effect, you've got to have a combination of things that are going at the same time, and even then you're lucky if you make a dent. The primary focus, however, should be on education.

"This is a problem that we can't deal with without student-athletes' help. I just don't see any way we can deal with it effectively without the student-athletes getting involved in the solution."

Next week: The series concludes with a look at what NCAA institutions are doing to address agent issues.

OCR

Reaction to Title IX clarification document is mixed; deadline for providing response is October 20

➤ Continued from page I

— whether an institution can demonstrate substantial proportionality — of the three-part compliance test.

"They have not deviated," Neinas said. "They may have made a more stringent proportionality test. I do think there has to be further clarification."

The clarification draft — which addressed in detail each of the components of the three-part compliance test — states that the OCR will, in effect, define what substantial pro-

portionality is "on a case-by-case basis."

Anne Goodman James, assistant athletics director and women's swimming coach at Northern Michigan University and president of the College Swimming Coaches Association of America, said she found the document to be particularly helpful in the area of how athletics participants are counted. But she agrees with Teaff and Neinas that some questions about proportionality remain unanswered.

"I think the clarification is a major

improvement on counting participants," she said. "But there's still a question on what substantial proportionality is."

For T. J. Kerr, wrestling coach at California State University, Bakersfield, and president of the National Wrestling Coaches Association, the issue is not so much defining what constitutes substantial proportionality or how the OCR counts athletics participants. Instead, it is protecting current opportunities afforded to males while at the same time increasing females' athletics opportunities.

Beginning late last year, Kerr's association led a group of coaches associations in nonrevenue sports in a campaign to involve Congress in the Title 1X debate. The coaches expressed concern over the growing number of nonrevenue men's sports that were being discontinued as opportunities were increased for women. Their efforts resulted in a May 9 congressional hearing in Washington, D.C.

"We're going to get our attorney and executive committee together and hammer something out," Kerr said. "What troubles me is our basic concern of increasing opportunities for women without decreasing opportunities for men, and I don't see how this helps us."

Roy Johnson took that stance one step further. The men's gymnastics coach at the University of Massachusetts, Amherst, and president of the National Association of Collegiate Gymnastics Coaches (Men) advocates a "protected-status" clause that would, among other things, preclude insti-

Commission

Presidents emphasize need for diverse representation on proposed Division I Board of Directors, Management Council

Continued from page 1

number of Division I conferences decreased by two in Divisions I-AA and I-AAA. Rather than decreasing the number of I-AA and I-AAA representatives, the task force recommended that the positions be designated as at large.

The main proposal to establish the structure of the governance panels provides that six Divisions I-AA and **I-AAA** Board of Directors positions are to be selected from among 20 conferences and the two at-large positions. For the Management Council, 16 Divisions I-AA and I-AAA positions on the Management Council are to be selected from the same pool.

The Commission's amendments to-amendments would add the following language relating to the structure of the Division I Board of Directors and Management Council: "Such (Division I-AA and I-AAA atlarge) positions shall be utilized to enhance and ensure both ethnic and gender diversity of representation, if these objectives are not achieved through other appointments."

Two-year transfers

In other action, the Commission agreed to join the NCAA Council in sponsoring a series of proposals pertaining to two-year college transfers (Proposal Nos. 2-63, 2-64, 2-66 and 2-67 in the Second Publication of Proposed Legislation).

After extensive discussion, the Commission also agreed to support

Council Proposal No. 2-62, which would mandate a redshirt year for two-year college transfers in football and men's basketball who were partial or nonqualifiers coming out of high school.

The Commission noted objections expressed by the American Association of Community Colleges and other higher education associations; however, it concluded that concerns about low graduation rates for such students, the related possible exploitation of the students and the competition restrictions placed on such students who enroll directly in Division I institutions merited support of the legislation.

The Division I members of the Commission did recommend to the Council that it consider offering an amendment-to-amendment that would exempt from the legislation any such transfer student-athlete who at the time of transfer has completed 40 percent of his baccalaureate degree program at the four-year institu-

Student-athlete benefits

Also, the Commission's Divisions I and II subcommittees received a report on possible approaches to enhancing student-athlete benefits. Neither group took any formal action, but both identified principles upon which there was at least some agreement:

■ Division I — (1) Any proposals to increase benefits to student-athletes should not result in increased costs to

OTHER HIGHLIGHTS

Presidents Commission September 26-27/Denver

- Voted to support the following proposed legislation for the 1996 Convention (as listed in the Second Publication of Proposed Legislation): Nos. 2-1, 2-2, 2-4, 2-76, 2-90, 2-96 and 2-101.
- Voted to oppose Nos. 2-9, 2-10, 2-11, 2-46, 2-47, 2-48, 2-55, 2-57, 2-79, 2-103, 2-104 and 2-105. Also, the Division I subcommittee agreed not to support (as distinguished from voting to oppose) Proposal Nos. 2-72 and 2-73; the Division II subcommittee did not take a position on Proposal No. 2-70 and also declined to support an alternative resolution being proposed by the sponsors to form a committee to continue to study the issue of need-based financial aid.
- Expressed support for a revised schedule for 1996 Convention business sessions that would permit a general business session to address Association-wide restructuring issues before division-specific proposals are considered in separate business sessions.
- Altered the format of the Commission's Chief Executive Officer Forum for January 7 to begin with an hour-long session open only to chief executive officers, followed by 90-minute division breakout sessions open to CEOs and/or institutional primary voting delegates.
- The Division II subcommittee reviewed new data about the impact that Division I initial-eligibility standards might have on Division II student-athletes if they were implemented in that division. The subcommittee concluded that applying Division I standards in Division II would deny access to many student-athletes without resulting in a significant increase in graduation rates and therefore declined to suggest modifications in standards at this time. The subcommittee agreed that the academic profiles of Division II student-athletes should be monitored as new standards take effect in Division I.
- The Division III subcommittee accepted without action a report from the Division III Task Force to Review the NCAA Membership Structure regarding the possible expansion and/or reduction of championships brackets after implementation of increased budget allocations in Division III. The subcommittee agreed that the task force should develop various models of Division III membership and championships criteria for discussion and straw votes at the Convention and that the task force should forward to the subcommittee by its June 1996 meeting final recommendations regarding new membership and championships criteria, probably for consideration at the 1997 Convention.

campus budgets; (2) the Division I subcommittee would not be inclined to support across-the-board increases in grants-in-aid up to the cost of attendance; (3) further exploration of the means by which to meet the financial needs of student-athletes, not to exceed the cost of attendance, may be justified; (4) additional benefits could be provided through existing programs, such as the special-assistance

tutions from invoking caps on men's team sizes or eliminating those teams

He said this clause also could temporarily exclude countable athletics participation slots in protected sports, so schools would be forced to increase opportunities for women.

Johnson said he was most pleased with the section in the clarification document addressing schools that have capped, reduced or eliminated participation opportunities for men to readjust their male-to-female ratio without assuming additional expense.

In her cover letter to the more than 4,300 people who received the draft, Cantu pointed out that capping or eliminating participation opportunities for men is not a requirement for institutions. The clarification doc-

ument states that OCR will regard institutions taking that course to be in violation of the "good faith" effort that is an element of prong two demonstration of a history and continuing practice of program expansion for the underrepresented sex.

"OCR will not find a history and continuing practice of program expansion where an institution increases the proportional participation opportunities for the underrepresented sex by reducing opportunities for the overrepresented sex alone or by reducing participation opportunities for the overrepresented sex to a proportionately greater degree than for the underrepresent-

"That would be a win-win situation for everybody," Johnson said of the OCR stance. "Our concern is that universities are trying to achieve gender equity by dumping men's programs and we feel there needs to be a protected status for those sports."

Johnson included as sports deserving of protected status the men's sports of gymnastics, swimming, volleyball, water polo and wrestling.

Are further measures necessary? Cary Groth and Christine H. B. Grant answer no.

Groth, athletics director at Northern Illinois University and immediate past president of the National Association of Collegiate Women Athletic Administrators (NACWAA), and Grant, women's athletics director at the University of Iowa, say the OCR has devoted more than enough time to explaining what Groth and Grant believe is clear legislation.

"To be honest, it is my opinion that the guidelines were not that difficult to understand," Grant said. "I think

"My interpretation is very simple: It's the law, let's obey it and move on," Groth said. "I think it's time we start putting these energies into complying with the law."

Groth and Grant discussed a 17point response to the clarification document that key members of NACWAA compiled and the association discussed at its recent annual

They are concerned about an example provided by OCR pertaining to prong two of the three-part test. The example is of an institution that established seven teams for women in the mid-1970s, added another sport in 1984 and elevated another to varsity status in 1990.

The example states that the institution plans to add a women's sport in 1996. The draft concludes that OCR would find that institution in compliance under prong two of the

Acceptance of six-year intervals between addition of sports for women is alarming, Groth and Grant argue. The OCR maintains that it has established no fixed interval within which an institution must add participation opportunities for the underrepresented sex.

"I think a six-year gap is too long," Groth said. "There are almost six generations (of women) that have been cheated out of opportunities. I didn't think that example was very

"I was very disappointed," Grant said. "That is not fair to young women. Every four years we turn over a new generation. I'm not one for a specific number, but I would have a problem with six years."

Five new Division I football coaches unbeaten so far

BY RICHARD M. CAMPBELL NCAA STATISTICS COORDINATOR

Several Division I football coaches have adjusted quickly to their new

Colorado's Rick Neuheisel, Michigan's Lloyd Carr, Eastern Michigan's Rick Rasnick, Stanford's Tyrone Willingham, Ball State's Bill Lynch, Oklahoma's Howard Schnellenberger, Oregon's Mike Bellotti, James Madison's Alex Wood, Jacksonville State's Bill Burgess and Richmond's Jim Reid are the most successful so far this season of the 37 Division I-A or I-AA coaches who are new to their jobs

Eleven Division I-A coaches are head coaches for the first time, while I-AA has 11 coaches with no previous head-coaching experience. Ten firsttime I-A coaches and five I-AA firsttime coaches have previous headcoaching experience.

Colorado's Neuheisel, Michigan's Carr, Stanford's Willingham, Jacksonville State's Burgess and Richmond's Reid have the only undefeated records among the 37 new-job

Among the 10 Division I-A new coaches who have no previous headcoaching experience, Michigan's Carr — who took over for Gary Moeller in late summer — and Colorado's Neuheisel each have posted 5-0 records. Two other I-A newcomers have winning records — Eastern Michigan's Rasnick (3-1) and Stanford's Willingham (3-0-1).

In Division I-AA, only James Madison's Alex Wood (4-1) has a winning mark among the 11 coaches with no previous head-coaching experience.

Jacksonville State's Burgess leads a group of three new I-AA coaches with teams that have just moved to that level from Division II. Burgess has a 5-0 record, while Hampton's Joe Taylor has a 3-2 record and Wofford's Mike Ayers is 2-3.

Among Division I-A coaches with previous head-coaching experience, Oklahoma's Schnellenberger (3-1), Ball State's Bill Lynch (3-2), Michigan State's Nick Saban (2-1-1) and Oregon's Mike Bellotti (3-1) are the newjob coaches with winning marks.

In Division I-AA, Jacksonville State's Burgess, Hampton's Taylor and Richmond's Reid (4-0) are the new coaches with previous headcoaching experience who have win-

Colorado's Rick Neuheisel has a firm grasp on success in his first season as a head coach, going 5-0 in the first half of the season.

ning records.

I-A first-year history

In the 47 years since the NCAA began tracking Division I-A first-year coaches' success, the 479 new coaches with no previous head-coaching experience have forged a 1,976-2,871 record for a .408 winning percentage.

Since 1948, only 13 coaches with no previous head-coaching experience have won 10 or more games in their first year as a Division I-A head coach. Ten of those coaches also won bowl games in their initial seasons and several led teams to undefeated

Oklahoma's Barry Switzer in 1973 and Miami's (Ohio) Dick Crum in 1974 each had 10-0-1 records in their first outings as I-A head coaches. The only first-year coach to win a national championship was Michigan's Bennie Oosterbaan in 1948, with a 9-

Bowling Green's Gary Blackney in 1991, Southern California's John Robinson in 1976 and Tennessee's Bill Battle in 1970 each led their teams to the most victories by a firstyear coach, all with 11-1 records.

The other first-year coaches with at least 10 victories were Houston's John Jenkins (1990), Ball State's Dwight Wallace (1978), Oklahoma's Chuck Fairbanks (1967), LSU's Mike Archer (1987), Southern Mississippi's Curley Hallman (1988), Oklahoma State's Pat Jones (1984), Tampa's Earle Bruce (1972) and Mississippi's Billy Kinard (1971). Only Switzer, Jenkins and Wallace did not pick up a bowl win (Switzer and Jenkins inherited teams that were on probation).

The 1984 season was the most successful for first-year coaches as the group of seven posted a 47-28-1 (.625 winning percentage) record. Oklahoma State's Jones (10-2) was the leader that year, followed by Florida's Galen Hall (8-0), who took over from Charley Pell after three games; LSU's Bill Arnsbarger (8-3-1); Air Force's Fisher DeBerry (8-4); Rutgers' Dick Anderson (7-3); Long Beach State's Mike Sheppard (4-7); and Wichita State's Ron Chismar (2-9).

First-time head coaches

In 1994, seven first-time coaches with no previous head-coaching experience posted a 30-40-2 record for a .431 winning percentage.

This season, 11 new Division I-A coaches are in their first head-coaching positions at the four-year level. This group has started 25-21-2 for a .542 winning percentage.

Eleven I-AA coaches are in their first head-coaching season and have posted a 13-33-1 (.287) record so far.

The coaches, listed by college in alphabetical order:

First-year coaches with no previous head-coaching experience

Division I-A (11)	W-L-T
Lee Owens, Akron	1-3-0
Rick Minter, Cincinnati	1-4-0
Rick Neuheisel, Colorado	5-0-0
Rick Rasnick, Eastern Mich	3-1-()
Dan McCarney, Iowa St	2-2-0
Butch Davis, Miami (Fla.)	1-2-0
Lloyd Carr, Michigan	5-0-0
Tom Turberville, Mississippi	2-2-0
Jim Grobe, Ohio	1-3-1
Bob Simmons, Oklahoma St	1-4-()
Tyrone Willingham, Stanford	3-0-1

Division I-AA (11)	W-L-T
Tom Gadd, Bucknell	2-2-()
Craig Cirbus, Buffalo	2-3-0
David Baldwin, Cal St. Northridge	1-2-()
John Volck, Cal St. Sacramento	0-3-1
Chuck Williams, Canisius	2-2-0
Chris Tormey, Idaho	1-2-0
Alex Wood, James Madison	4-1-()
Darren Barbier, Nicholls St.	0-5-0
Hensley Sapenter, Prairie View	0-5-0
Pete Mayock, St. Francis (Pa.)	0-4-0
Del Miller, Southwest Mo. St	1-4-0

The first-year I-A coaches with previous experience stand 17-24-1 for a .417 winning percentage. I-AA coaches are 14-10 (.583):

Took over in 1994 season after eigh	it gaines.
i First year in Division I-A.	

Black I-A head coaches

With three black coaches hired in Division I-A in 1995, there are now six black head coaches in the divi-

New this year are North Texas' Matt Simon (previously in Division I-AA), Oklahoma State's Bob Simmons and Stanford's Willingham. The other three in I-A are Louisville's Ron Cooper (moved from Eastern Michigan), Temple's Ron Dickerson and Wake Forest's Jim Caldwell.

Coaching facts

Prairie View A&M's Hensley Sapenter took the most thankless new job - trying to turn around a program that had lost 46 consecutive games. With the Panthers' 64-0 loss to Grambling September 30, Hensley still was looking for his first victory, and Prairie View had established an NCAA all-divisions record for consecutive losses at 51. The previous record-holder was Division III Maca-

Interestingly, the Grambling victory gave legendary Tiger coach Eddie Robinson his 399th career win, leaving him only one victory away from becoming the first collegiate football coach to reach the 400-win plateau.

Just to gauge Robinson's 53-year career, Paul "Bear" Bryant is in second place among NCAA coaches with 323 victories. However, John Gagliardi of St. John's (Minnesota) is fast catching Bryant, with 321 wins through September 30.

NACWAA

Organization concerned with representation for women in restructuring

➤ Continued from page 3

At its September 26-27 meeting, the NCAA Presidents Commission emphasized its commitment to achieving diversity of representation on the Division I Board of Directors and the Management Council. It also suggested the possible use of Divisions I-AA and I-AAA at-large representatives as an aid in assuring greater diversity (see story, page 1).

The NACWAA committee examining the matter will be headed by Christine H. B. Grant, women's athletics director at the University of Iowa.

Among options discussed at the NACWAA meeting were the following:

■ A resolution that would require

nen in the proposed management

- A resolution that would require that women constitute 40 percent of the membership of the Division I Management Council.
- An amendment-to-amendment to require that the Management Council be composed of 40 percent

In other business at the meeting, DeLores S. Todd, assistant commissioner of the Atlantic Coast Conference, was elected NACWAA president and Betsy Alden of San Francisco State University was chosen as president-

Members of the NACWAA board of

the NCAA to study how to place more directors for 1995-96 are Todd; Alden; Cary Groth (immediate past president) Northern Illinois University; Sandy Barbour, Tulane University; Peggy Bradley-Doppes, University of Michigan; Jill DeMichele, Arizona State University; Debbie Chin, University of New Haven; Pam Gill-Fisher, University of California, Davis; Linda Hackett, Bryant College; Jo Ann Harper, Dartmouth College; Marilyn McNeil, Monmouth College (New Jersey); Laurie Priest, Mount Holyoke College; Vivian Fuller, Northeastern Illinois University; Angela Taylor, University of Nevada; and Peg Wynkoop, Wright State Uni-

> **Executive Director Jane Betts was** presented NACWAA's administrator of the year award (excerpts from her remarks appear on page 4).

Foreign-Student Records Consultants discuss issues related to clearinghouse

The NCAA Foreign-Student Records Consultants reviewed a number of documents related to the NCAA Initial-Eligibility Clearinghouse and the certification of foreign student-athletes during its September 16-17 meeting in Kansas City, Missouri.

The consultants met with Ellen Wetzel, assistant manager of the clearinghouse, who provided the consultants with an update regarding the number of students already registered with the cleaninghouse for the 1996-97 academic year. Wetzel informed the consultants that the clearinghouse is better prepared to process an increased number of student-athletes this

The consultants also discussed

whether preliminary or provisional results from various countries may be used in the initial-eligibility certification process. The consultants determined that in such cases, the clearinghouse should contact the appropriate ministries of education in those countries to obtain a statement verifying that preliminary or provisional results do not vary from the final results.

The consultants also reviewed the completed 1996 NCAA Guide to International Academic Standards for Athletics Eligibility. Wetzel and clearinghouse consultant Barbara Maryak also assisted the consultants in reviewing documents related to problem areas within certain countries that will appear in future guides.

I-AA single-game highs

PLAYER

Rushing and passing yards: 614, Bryan Martin, Weber St. vs. Cal Poly SLO, Sept. 23.

Rushing and passing plays: 66, Dave Dickenson, Montana vs. Washington St., Sept. 9; Tom Marchese, Villanova vs. Delaware, Sept. 16.

Rushing yards: 292, Larry Washington, Towson St. vs. Monmouth (N.J.), Sept. 30.
Rushing plays: 53, Kwame Vidal, Florida A&M vs.

Tennessee St., Sept. 23.

Passes completed: 37, Tom Proudian, Iona vs. Pace.

Sept. 23.

Passes attempted: 60, Tom Marchese, Villanova vs.

Delaware, Sept. 16.

Passing yards: 522, Bryan Martin, Weber St. vs. Cal
Poly SLO, Sept. 23.

Passes caught: 13, Jeff Hubbard, Va. Military vs. Furman, Sept. 23.

Furman, Sept. 23.

Receiving yards: 276, Joey Stockton, Western Ky.
vs. Austin Peay, Sept. 16.

Punt return yards: 148, Tim Hilton, Cal St.
Northridge vs. Menlo, Sept. 9.

Kickoff return yards: 200, Gerald Bentley, Tennessee Tech vs. Marshall, Sept. 9.

TEAM

Rushing yards: 471, Harvard vs. Colgate, Sept. 23.

Passing yards: 522, Weber St. vs. Cal Poly SLO, Sept. 23.

Rushing and passing yards: 703, Weber St. vs. Cal Poly SLO, Sept. 23.

Points scored: 97, Tenn.-Martin vs. Bethel (Tenn.),

Fewest rushing yards allowed: -33, New Hampshire vs. Lehigh, Sept. 30. Fewest rushing and passing yards allowed: 61, Drake vs. Ambrose, Sept. 9.

Last week's bests

PLAYER

Rushing and passing yards: 516, Bryan Martin, Weber St. vs. Eastern Wash., Sept. 30.

Rushing yards: 292, Larry Washington, Towson St. vs. Monmouth (N.J.), Sept. 30.

Passing yards: 502, Bryan Martin, Weber St. vs.

Fastern Wash. Sept. 30.

Eastern Wash., Sept. 30.

Passes caught: 12, Pokey Eckford, Weber St. vs. Eastern Wash., Sept. 30; Kobie Jenkins, Alcorn St. vs. Ark.-Pine Bluff, Sept. 30; Lawrence Segree, Tennessee

St. vs. South Caro. St., Sept. 30.

Receiving yards: 213, Pokey Eckford, Weber St. vs.
Eastern Wash., Sept. 30.

TEAM

Points scored: 65, Southwest Tex. St. vs. Southern Utah, Sept. 30. Rushing and passing yards: 618, Connecticut vs. Yale, Sept. 30.

Rushing yards: 451, Jacksonville St. vs. Knoxville, Sept. 30.

Passing yards: 521, Montana vs. UC Davis, Sept. 30.

CHIEF EXECUTIVE OFFICERS

Bill L. Atchley, retired president of Pacific (California), chosen as interim president at Southeast Missouri State. Atchley also is president emeritus at Clemson, where he served as chief executive officer from 1979 to 1985...David J. Roslien, executive vicepresident at Luther, selected as interim pres-

DIRECTORS OF ATHLETICS

Charles Elliott, former executive vicepresident for administration and chief financial officer of Kellogg Company, named interim athletics director at Western Michigan...Richard Pelletier, an assistant AD at Gallaudet since 1989, promoted to athletics director at his alma mater. He replaced Joe Fritsch, who remains with the university and oversees several departments...T. J. Kostecky, head men's soccer coach at Pfeiffer, given additional duties as AD.

ASSOCIATE DIRECTORS OF ATHLETICS

Ron Ticho, associate athletics director at Lehigh, named assistant vice-president for university relations there...Kevin O'Connell selected as associate athletics director for external relations at Miami (Ohio). O'Connell previously was president of a travel agency and tour company...Dan Lewis, wrestling coach at Colorado School of Mines since 1992, named associate AD at the school. Lewis continues to serve as compliance coordinator.

COACHES

Baseball-Marty Reed hired as head baseball coach at Pfeiffer.

Men's basketball-Mark Adams, men's basketball coach at Texas-Pan American since 1992, reassigned to other duties within the athletics department. Tim Thomas, a three-year assistant to Adams, was named head coach...Stephen Pikiell, assistant at Yale for the last three seasons, selected for a one-year appointment at Wesleyan (Connecticut). He replaced Herb Kenny, who directed the team for the last 27 years...Frank Harrell, head men's basketball coach at Tennessee Tech for the past eight years, signed a new three-year contract at the school

Men's basketball assistants—Kelly Mc-Ewen, a 20-year high-school boys' basketball

Women's track coach adds men's team

Countess Comadore, head women's cross country and track and field coach at Southeastern Louisiana, has taken on additional duties as head coach of the men's teams in those sports.

Comadore, who is in her third year at Southeastern Louisiana, becomes the first woman to coach a Division I men's track team in Louisiana. Last year, she led the Lady Lions cross country teams to a second-place finish their highest ever — in the Trans America Athletic Conference championships.

Comadore, a two-time collegiate all-American at Southern-Baton Rouge and 1992 Olympic tri-

Comadore

als finalist in the 400-meter hurdles, was assistant track and field coach at her alma mater for three seasons before taking over at Southeastern Louisiana. The 1990 graduate won Southwestern Athletic Conference championships in the 400-meter hurdles three times and the 800-meter dash once.

coach, selected as assistant men's coach at Calvin...Kelvin Wvmbs named assistant men's coach at Francis Marion.

Women's basketball—Carmen Nelon, head coach at Brevard College in North Carolina, chosen as head women's basketball coach at South Carolina-Spartanburg, where she also will be senior woman administrator.

Women's basketball assistants—Kathy Karlsson selected as women's assistant coach at Brandeis... Chuck Speidel named at Western Michigan, A. Brady Sallee, assistant at Idaho State for the past two seasons, hired as assistant coach at Kent...John Hughes, assistant coach and recruiting coordinator at Akron, hired at South Alabama. Also. Dale Waters hired as restrictedearnings coach...William Maher, a former St. Norbert coach, rejoined the staff there. Also hired was Jodi Christopheresen, who graduated last year from St. Norbert... Cynthia Cooper named at Houston...De Batchelor, a high-school head coach, hired as assistant coach at Catawba

Men's and women's cross country—Pam Allie-Morrill, a high-school head coach, hired as head men's and women's cross country coach at Roger Williams.

Men's and women's cross country assistunt-Leniecia Ward, a 1995 Connecticut graduate, received a fellowship to serve as assistant cross country and track coach at Wesleyan (Connecticut).

Football-Jim Ragland, head football coach at Tennessee Tech, signed a new three-year contract. He is in his ninth season as head coach.

Football assistants—Sean Spencer, a 1994 graduate of Clarion, received a fellowship to serve as a football assistant at Wesleyan (Connecticut). Spencer will coach the tight ends and supervise the strength-training facility...St. Norbert selected the following assistant football coaches: Paul Rudzinski, former NFL player with the Green Bay Packers, as tight ends coach; George O'Brien, linebackers coach; and Tollef Wienke, a recent graduate at St. Norbert, graduate assistant to the defensive coordinator

The Market

Readers of The NCAA News are invited to use The Market to locate candidates for positions open at their institutions, to advertise open dates in their playing schedules or for other purposes relating to the administration of intercollegiate athletics. In addition, individuals seeking employment in intercollegiate athletics also are welcome to place positions-wanted advertisements.

Rates: 65 cents per word for general classified advertising (agate type) and \$32 per column inch for display advertising for member institutions. (Commercial display advertising is available only to NCAA corporate sponsors, official licensees and members, or agencies acting on their behalf.) Positions-wanted advertisements are placed on a prepayment basis only.

Word-counting example: "Position wanted. Retired athletics administrator seeks part-time work. Contact: John P. Doe, 1234 Main Street. Anytown, KS 99999-1234, or call 999/555-5555," (22 words x 65 cents

Copy restrictions: Advertisements that indicate a closing date for applications and nominations must list a date that does not precede the publication date. The NCAA News reserves the right to refuse advertisements that do not comply with this or other restrictions.

For more information, call The NCAA News at 913/339-1906, ext. 3000, or write: The NCAA News, 6201 College Boulevard, Overland Park, Kansas 66211-2422, Attention: The Market. To fax an ad, call 913/339-0031

Legislative assistance

1995 Column No. 35

NCAA Bylaws 13.15.5 Alumni organizations

NCAA Division I institutions should note that representatives of an institution's athletics interests are prohibited from making in-person, on-campus or off-campus recruiting contacts or written or telephonic communications with a prospect or the prospect's relatives or legal guardians. However, in accordance with Bylaw 13.15.5, a bona fide alumni organization of an institution may sponsor luncheons, teas or dinners at which prospective students (athletes and nonathletes) of that immediate locale are guests. During its March 16, 1995, telephone conference, the NCAA Interpretations Committee determined that a bona fide alumni organization hosting such a luncheon, tea or dinner at which prospective students of that immediate locale are guests must meet the following conditions:

- a. The primary purpose of the function does not relate to the institution's athletics program;
- b. There is no athletics recruiting presentation made in conjunction with the function; and
- c. Alumni do not have any direct contact with any prospect regarding his or her interest in attending the institution to participate in intercollegiate athletics.

NCAA Bylaw 14.4.3.1.4 Designation of degree program

NCAA Divisions I and II institutions should note that in accordance with Bylaw 14.4.3.1.4, a student-athlete must designate his or her degree program by the beginning of the student-athlete's third year of collegiate enrollment (fifth semester or seventh quarter), and thereafter shall make satisfactory progress toward that specific degree program. During its August 3, 1995, telephone conference, the Interpretations Committee determined that a student-athlete who has designated a specific degree program with an identified major may use a course to fulfill the credit-hour requirement for meeting satisfactory progress if the course fulfills an elective component of the student-athlete's degree program, even if the student ultimately must repeat the course to fulfill the requirements of the student's major. The committee noted that the student-athlete may use the course only once in fulfilling the necessary credit-hour requirements to meet satisfactory-progress regulations.

Clarification — NCAA Bylaw 13.7.1.2.4 Academic requirements for official visit prior to early signing period

NCAA Division I institutions should note that a recent Legislative Assistance column (reference Column No. 33; September 25, 1995, edition of The NCAA News) indicates that a total sum score of 68 on the ACT or PLAN (previously PACT Plus) is the score that must be used to certify a prospect to visit a Division I institution prior to the early signing period for the National Letter of Intent. Such a score is required for visits prior to the early signing period taken during the 1996-97 academic year, and thereafter, inasmuch as the initial-cligibility standards requiring a minimum ACT sum score are applicable, effective August 1, 1996. Please note, for the 1995-96 academic year, a minimum score of 17 (or 16.5, which can be rounded up to 17) on the ACT or PLAN may continue to be used to certify a prospect to visit a Division I institution prior to the early signing period.

This material was provided by the legislative services staff as an aid to member institutions. If an institution has a question or comment regarding this column, such correspondence should be directed to Narcy L. Mitchell, assistant executive director for legislative services, at the NCAA national office. This information is available on the Collegiate Sports Network.

News quiz answers: 1-(d). 2-True. 3-(d). 4-(c). 5-(c). 6-(a). 7-(a).

Proposed legislation to top Council's meeting agenda

The NCAA Council will devote most of its time at its October 8-11 meeting to a review of legislation proposed for the 1996 NCAA Convention

Although the review will involve all of the proposals included in the Second Publication of Proposed Legislation, which was mailed to the membership September 23, the primary emphasis will be on Proposal No. 2-2, the 29-page membership restructuring plan proposed by the

Council and the NCAA Presidents Commission.

The proposal is designed to achieve greater autonomy among the three membership divisions and to develop greater control of the Association by chief executive officers.

The only other item listed for discussion under "major issues" is a report on the September 26-27 meeting of the Presidents Commission (see story, page 1).

The three division steering committees will meet, and each will discuss restructuring from its division's perspective. Otherwise, the steering committee agendas are routine, except for a possible review of the proposed Division II athletics-certification program (Proposal No. 2-4) by the Division II Steering Committee.

Committee reports

The agenda also includes reports from the following committees: In-

fractions Appeals, Legislative Review, Olympic Sports Liaison, Recruiting, Two-Year College Relations and Student-Athlete Advisory Committees; the Committees on Financial Aid and Amateurism, Infractions, Review and Planning, and Women's Athletics; the Administrative Review Panel; and the Council Subcommittee on Initial-Eligibility Waivers.

In addition, the Council will review the governmental affairs report; conduct a review of issues related to apparel manufacturers; consider membership applications, requests and appeals; consider routine or noncontroversial legislation; and review plans for the 1996 Convention.

Vacancies on Council-appointed committees will be filled at the Council's January meeting.

Highlights of the Council meeting will be reported in the October 23 issue of The NCAA News. Minutes will appear in a future issue of The NCAA Register.

Daly occurrence — Professional golfer John Daly (below, left) signed autographs for youngsters participating in the NCAA National Youth Sports Program/Professional Golfers Association of America's Kids on Course junior-golf program in Los Angeles. Los Angeles Southwest College was one of several colleges and universities nationally to participate in the program, which was developed to reach youths who otherwise would not have many opportunities to be exposed to the game of golf. The program, which is funded through the PGA Foundation and the NCAA, is expected to reach nearly 6,500 juniors this year.
