Knight Commission endorses restructuring

The Knight Foundation Commission on Intercollegiate Athletics has endorsed the proposed restructuring of the NCAA and says it will urge college presidents to work for its adoption at the 1996 NCAA Convention.

The commission, which met November 10 in Washington, D.C., said adoption of the proposal is "necessary to complete college sports reform."

The proposal would establish the framework for a reorganization of the Association that would place decision-making authority in the hands of institutional chief executive officers. It would dismantle the Association's current governance structure and grant greater autonomy to each of the Association's three membership divisions.

In a statement, the coauthors of the commission said the proposal is built around "the intention to place college presidents firmly in control of all aspects of college sports programs."

"For more than four years now, presidential control has been at the heart of the Knight Commission's 'one-plus-three' plan for reform," said the Rev. Theodore M. Hesburgh, president emeritus of the University of Notre Dame, and William C. Friday, president emeritus of the University of North Carolina System.

In 1991, the commission put forth a "one-plus-three" plan calling for presidential control of college athletics through three elements: academic integrity, financial integrity and outside certification. The commission noted that rules embodying those

three elements have been implemented by the NCAA and that restructuring would complete the reform package.

The commission announced its endorsement of restructuring after hearing details of the proposal from Cedric W. Dempsey, NCAA executive director; Judith E. N. Albino, chair of the NCAA Presidents Commission; and Joseph N. Crowley, chair of the Oversight Committee on the NCAA Membership Structure.

"This is a big step," Albino said of the Knight Commission's endorsement. "The proposed plan for restructuring the NCAA firmly establishes presidential control as an inviolable principle."

See Endorsement, page 20 ➤

Smallest-ever consent package contains only six proposals

This is the first of six articles on legislation that has been submitted for the 90th annual NCAA Convention January 6-10 in Dallas. In addition to announcing the mailing of the Official Notice of the Convention, the article reviews the six proposals in the consent package. In the next five issues of The NCAA News, the other groupings of amendments will be reviewed in the order in which they appear in the Convention agenda.

The smallest consent package ever heads a total of 133 proposals appearing in the Official Notice of the 1996 Convention, which was mailed to the membership November 15.

The consent package, which this year includes only six proposals, typically has been small since the NCAA Council received the authority to enact noncontroversial but necessary legislation between Conventions. The package, however, never has included fewer than 10 proposals before this year.

Proposals in the consent package are considered noncontroversial or "housekeeping" in nature.

Order of business

Although the consent package is

the first grouping of proposals appearing in the Official Notice, it will not be the first legislation considered by the Convention.

The Convention first will consider proposals identified by the NCAA Presidents Commission as being of significant interest to chief executive officers. Sessions Monday January 8 — designated as Presidential Agenda Day — will be devoted to those proposals, first in an early morning general business session devoted to restructuring and then in midmorning subdivision and division business sessions. The day will continue in afternoon division business sessions and then conclude with a second general business session.

The executive committee of the Presidents Commission has finalized the number of proposals that will be included in the Commission grouping of proposed legislation on Presidential Agenda Day. That grouping features 35 proposals — including two resolutions relating to restructuring that have been added to the grouping since late October.

Those resolutions and all other proposals in the Presidents Commission grouping will be summarized

in the November 27 issue of The NCAA News.

The 133 proposals in the Official Notice are accompanied by 30 proposed amendments-to-amendments. In comparison, the Official Notice for the 1995 Convention included 150 proposals and nine amendments-to-amendments. Two years ago, the Official Notice featured 173 proposals and 20 amendments-to-amendments.

Thirteen of the 30 amendments-to-amendments proposed for the 1996 Convention pertain to Proposal No. 7 — the Council's and Presidents Commission's proposal to restructure the Association.

Consent package

Four of the six consent-package proposals would establish new conditions under which waivers may be granted and specifically assign responsibility for review of waiver requests.

Two proposals would assign the Council authority to consider requests for waivers in the following situations:

■ When an institution fails to

NCAA membership speeding along on information highway

BY RONALD D. MOTT
STAFF WRITER

The computer age has the world of intercollegiate athletics caught in its web — the World Wide Web, that is.

From East Coast to West Coast, from big school to small school, it seems just about everyone is driving on the information superhighway.

In increasing numbers, athletics departments, conference offices and others have built what are called "home pages." These custom-made "sites" offer visitors an opportunity to be

somewhere they really are not — even halfway around the world.

From a computer in Troy, New York — home of Rensselaer Polytechnic Institute — a computer user can, with a few keystrokes, be on a tour of the University of Hawaii, Manoa — some 5,000 miles away. All in a matter of minutes.

Sure, there are a few fender-benders every now and again. But considering the complexity and efficiency of this Jetsons-like technology, the smoothness with which it operates is nothing short of amazing. General estimates are that 25 million people occasionally have

access to the Internet either at home or work.

Athletics departments, in an attempt to communicate with the media and their alumni and fans, are using the Internet as a means to that end. Whether it be rosters, statistics, schedules, media guides or just about anything else, the Internet has become an effective tool for colleges and universities.

Boost to Division III

It is important to note that an institution or conference does not have to be big to benefit

NCAA News DIGEST

A weekly summary of major activities within the Association

Let the records show ...

NCAA single-game basketball records in each division:

MEN

Individual

Points

Division I: 100, Frank Selvy, Furman, 1954.
Division II: 113, Clarence "Bevo" Francis, Rio Grande, 1954.
Division III: 63, Joe DeRoche, Thomas, 1988.

Rebounds

Division I: 51, Bill Chambers, William & Mary, 1953.
Division II: 46, Tom Hart, Middlebury, 1955 (twice).
Division III: 36, Clinton Montford, Methodist, 1989, and Mark Veenstra, Calvin, 1976.

Assists

Division I: 22, Tony Fairley, Charleston So., 1987.
Division II: 25, Ali Baaqar, Morris Brown, 1991, and Adrian Hutt, Metropolitan St., 1991.
Division III: 26, Robert James, Kean, 1989.

Blocked shots

Division I: 14, David Robinson, Navy, 1986, and Shawn Bradley, Brigham Young, 1990.
Division II: 15, Mark Hensel, Pitt-Johnstown, 1994.
Division III: 15, Eric Lidecis, Maritime (N.Y.), 1993.

Team

Points

Division I: 186, Loyola Marymount, 1991.
Division II: 258, Troy State, 1992.
Division III: 168, Bishop, 1983.

Rebounds

Division I: 108, Kentucky, 1964.
Division II: 111, Central Mich., 1963.
Division III: 98, Alma, 1973.

Clarence "Bevo" Francis of Rio Grande holds the all-time NCAA single-game scoring record with 113 points against Hillsdale on February 2, 1954.

Assists

Division I: 41, North Caro., 1985, and Weber St., 1991.
Division II: 65, Troy St., 1992.

Division III: 48, Me.-Farmington, 1991.

WOMEN

Individual

Points

Division I: 60, Cindy Brown, Long Beach St., 1987.
Division II: 67, Jackie Givens, Fort Valley St., 1991.
Division III: 61, Ann Gilbert, Oberlin, 1991.

Rebounds

Division I: 40, Deborah Temple, Delta St., 1983.
Division II: 35, Kim Ambrose, Shaw, 1984, and Chanel Hamilton, Dist. Columbia, 1982.
Division III: 35, Malane Perry, Fitchburg St., 1992, and Terry Cole, Rutgers-Camden, 1983.

Assists

Division I: 23, Michelle Burden, Kent, 1991.
Division II: 23, Selina Bynum, Albany St. (Ga.), 1993.
Division III: 21, Tricia Andres, Mills, 1991.

Blocked shots

Division I: 15, Amy Lundquist, Loyola Marymount, 1992.
Division II: 12, Tonya Roper, Wingate, 1992 and 1994, and Sherrie Willis, N.M. Highlands, 1992.
Division III: 12, four people.

Team

Points

Division I: 149, Long Beach St., 1987.
Division II: 148, Clarion, 1992.
Division III: 140, Bishop, 1986, and Plymouth St., 1983.

Rebounds

Division I: 92, Pittsburgh, 1982.
Division II: 96, Alabama A&M, 1993.
Division III: 96, Lehman vs. St. Joseph's (N.Y.), 1985, Grove City vs. Villa Maria, 1984.

Restructuring

Knight Commission endorses proposed plan

The Knight Foundation Commission on Intercollegiate Athletics has endorsed the proposed restructuring of the NCAA and says it will urge college presidents to work for its adoption at the 1996 NCAA Convention.

The commission, which met November 10 in Washington, D.C., announced its endorsement of restructuring after hearing details of the proposal from Cedric W. Dempsey, NCAA executive director; Judith E. N. Albino, chair of the NCAA Presidents Commission; and Joseph N. Crowley, chair of the Oversight Committee on the NCAA Membership Structure.

Albino said that many chief executive officers have an interest in intercollegiate athletics and are willing to devote time to oversight of athletics budgets, policies and management.

Dempsey said the Knight Commission has played a valuable role in reform of intercollegiate athletics and continues to do so by supporting restructuring.

For more information, see page 1.

Staff contacts: Stephen R. Morgan or Tricia Bork (Division I), Stephen A. Mallonee (Division II), Daniel T. Dutcher (Division III), or Mike L. Racy (overall).

A series of guest editorials making the case for restructuring on a division-by-division basis will appear beginning in the November 27 issue of The NCAA News.

The articles will be written by the chairs of the division task forces and Joseph N. Crowley,

chair of the Oversight Committee on the NCAA Membership Structure.

The schedule:

Division III — November 27, written by James R. Appleton, University of Redlands, and Daniel L. Bridges, California Institute of Technology.

Division II — December 4, written by Lynn L. Dorn, North Dakota State University, and Adam W. Herbert, University of North Florida.

Division I — December 11, written by Kenneth A. Shaw, Syracuse University.

Overall — December 18, written by Joseph N. Crowley, University of Nevada.

Legislation

Official Notice mailed to membership

A total of 133 proposals are contained in the Official Notice of the 1996 Convention, which was mailed to the membership November 15.

At the Convention, which will be conducted January 6-10 in Dallas, delegates first will consider proposals identified by the NCAA Presidents Commission as being of significant interest to chief executive officers. Sessions Monday January 8 — designated as Presidential Agenda Day — will be devoted to those proposals, first in an early morning general business session devoted to restructuring and then in mid-morning subdivision and division business sessions. The day will continue in afternoon division business sessions and then conclude with a second general business session.

The Commission's executive committee has determined that 35 proposals — including two

resolutions relating to restructuring that have been added to the grouping since late October — will be considered on Presidential Agenda Day. Those resolutions and all other proposals in the Presidents Commission grouping will be summarized in the November 27 issue of The NCAA News.

The 133 proposals in the Official Notice are accompanied by 30 proposed amendments-to-amendments.

For more information, see page 1.

Staff contacts: Nancy L. Mitchell or Daniel T. Dutcher.

Certification

10 more institutions gain 'certified' status

The NCAA Committee on Athletics Certification announced November 16 that 10 Division I institutions have been certified and another two have been certified with conditions.

The involved colleges and universities completed the year-long certification process that all 302 Division I members will undergo within the next five years. Fifty institutions now have completed the process. The program's purpose is to ensure integrity in the institution's athletics operations and to assist athletics departments in improving their operations.

Legislation mandating athletics certification was adopted by a vote of the Division I members at the 1993 NCAA Convention as a key part of the NCAA's reform agenda.

For more information, see page 3.

Staff contacts: David A. Knopp, Kevin C. Lennon or John H. Leavens.

Briefly in the News

AFCA plans agent summit

The American Football Coaches Association is planning to hold a summit on sports agents at its annual convention in January. The closed summit meeting will be January 9 in New Orleans.

Representatives of the NCAA, National Association of Collegiate Directors of Athletics, College Football Association, National Football League, NFL Players Association, Canadian Football League, World League and Arena Football League, as well as selected sports agents, state prosecutors and university counsel, have been invited to attend.

"This is something that coaches and administrators have been wrestling with for a long time," said **Grant Teaff**, AFCA executive director. "Answers are hard to find. It is a complex issue. We're going to try to shed some light on the subject and determine what stance we as an association should take and how we can help our members overcome the problem."

Teaff added that a meeting of this sort should provide an appropriate and effective starting point in addressing the growing problem of collegiate student-athletes' relationships with sports agents.

"I'm sure this group can come up with some solid ideas that will be useful," Teaff said. "That's why we are creating this dialogue during the next few months."

Teaff says that, as a follow-up, a forum on sports agents will be held at the annual AFCA Division I-A Football Issues Group meeting in Dallas in early February.

Play it again, Martin

Bryant Martin is music to a lot of people's ears — not just by melodically and harmoniously tickling the ivories, but by providing a sweet sound of concern and inspiration for younger minorities.

A sociology major at Alma College, Martin is an active participant in music and the performing arts. He also is a double varsity letter-winner, in football and track and field.

Martin says priority No. 1 for him after earning his degree is returning to the community in which he was raised and encouraging others to strive for excellence.

He gives of his time on campus by serving as a resident advisor or by giving pep talks to his football teammates. In addition, he helps the Alma admissions office with minority-stu-

Bryant Martin of Alma College is a multitasking student-athlete. Not only is the football and track and field letter-winner active in music and the performing arts, but he also helps the Alma admissions office with minority-student recruitment.

dent recruitment, especially in his hometown of Detroit.

His message is simple: Learning from other people and other cultures makes a more complete person.

"If submerged in people just like yourself, you will not learn anything about others," he said. "Being at Alma for me is like (being) an American in Europe. People are people. You can only learn from difference."

Sister Act IV

No, **Whoopi Goldberg** is not involved in this rendition of Sister Act. This fall, four sets of sisters are calling Clark University (Massachusetts) home, and the pairs are playing together, too.

Sophomore **Heidi Becker** and sister **Hella**,

a freshman, compete on the volleyball team. **Erica** and **Annaliese Brasile**, a senior and freshman, respectively, are among the top offensive players on the field hockey squad. Sophomore **Angela Yang** and freshman **Tricia** play tennis and serve as the program's Nos. 2 and 3 singles players, respectively. In soccer, **Daisy Lewis** and sister **Emily**, both seniors, are potent offensive and defensive weapons.

"There is something distinctive about the closeness between sisters, and the fact that we have four sets of sisters competing for Clark this fall is unique," said **Linda Moulton**, Clark athletics director. "It's fun to watch them interact with each other as athletes on the field and on the court. They are all so supportive of each other and they have a genuine camaraderie that really is special."

— Compiled by **Ronald D. Mott**

Facilities

The **University of Houston** has dedicated its new \$29.1 million Athletics/Alumni Center, which was built and furnished completely using part of a \$70 million gift from alumni John and Rebecca Moores. The center has a 120-yard indoor practice football field that can be rolled back to reveal a six-lane track, four tennis courts, a hardwood court for basketball and volleyball practice and two multipurpose-surface courts. In addition, the facility boasts a 16,500-square-foot weight room with new equipment, the Academic Center for Excellence with classrooms and group and private study rooms, locker rooms for 12 Cougar athletics teams, a state-of-the-art sports-medicine facility, team meeting rooms, administrative offices for the athletics department, and the Cougar hall of fame.

Vassar College has dedicated international squash courts that were built inside Kenyon Gymnasium. The institution marked the occasion with an exhibition match between two of the top female squash players in the nation — **Denise Holleran** and **Ellie Pierce**. The dedication and exhibition match coincided with a campuswide celebration of athletics at Vassar — the **Evelyn A. Clark Symposium on Excellence in Teaching**. The symposium, entitled "Physical Education and Athletics: Past and Present," commemorated the 100th anniversary of the first field day for women.

Allegheny College is set to begin construction in April of a \$12.6 million, 90,000-square-foot sports and fitness center to replace the 41-year-old **David Mead Field House**. More than \$11 million in gifts and deferred commitments have been received for the project. The center is expected to be completed in time for the fall 1997 semester or the following spring. The facility will include a field house on the upper level, a 210-meter jogging track and a competition gymnasium that will seat up to 1,360 spectators. Modern facilities will be available for basketball, volleyball and tennis, as well as personal fitness activities such as aerobics, jogging, stationary bicycling and weight lifting.

The **University of Missouri, Kansas City**, has completed renovation of its **Swinney Track facility**. At the heart of the \$350,000 renovation is a 400-meter all-weather track. The acrylic latex surface replaces a 55-year-old cinder track. A new storm sewer and underdrain system was installed. Track and field action will resume at Swinney next fall.

Committee certifies 10 institutions, two with conditions

Fifty schools now have completed process

The NCAA Committee on Athletics Certification announced decisions November 16 concerning the certification of 12 NCAA Division I member institutions.

A total of 10 schools were certified and two were certified with conditions. No schools received a designation of not certified.

Those institutions receiving a designation of certified were Boston University; the University of Central Florida; DePaul University; Eastern Illinois University; Georgetown University; Marshall University; Miami University (Ohio); Middle Tennessee State University; University of North Carolina, Chapel Hill; and Wake Forest University.

Two institutions received a designation of certified with conditions. These institutions are South Carolina State University and the University of Southern Mississippi.

The conditions placed on South Carolina State's certification include devel-

oping a comprehensive plan for improving the graduation rate of female student-athletes and addressing gender equity in its intercollegiate athletics program.

Southern Mississippi must complete comprehensive plans for addressing gender equity and minority opportunities in its intercollegiate athletics program.

These colleges and universities completed a year-long certification process, which all 302 Division I members will undergo within the next five years. Fifty institutions now have completed the process. The program's purpose is to ensure integrity in the institution's athletics operations and to assist athletics departments in improving their operations.

Legislation mandating athletics certification was adopted by a vote of the Division I members at the 1993 NCAA Convention as a key part of the NCAA's reform agenda.

See **Certified**, page 10 ►

Committee notices

Member institutions are invited to submit nominations to fill interim vacancies on NCAA committees. Nominations for the following vacancies must be received by **Fannie B. Vaughan**, executive assistant, in the NCAA national office no later than December 4, 1995 (fax number 913/339-0035).

Men's and Women's Tennis Committee: Replacement for **Paul Lockwood**, University of Oklahoma, resigned because of a conference conflict (there already was a representative from the Big Eight Conference on the committee before Lockwood was appointed). Appointee must be from Region V or VI of Division I men's tennis.

Students must come prepared to succeed

BY JAMES W. VICK
UNIVERSITY OF TEXAS AT AUSTIN

The basic philosophy that led to the implementation of Proposition 48 in 1986 has been a consistent, guiding academic principle in determining initial eligibility in Division I.

During the ensuing nine years there have been substantive modifications in the details: the elimination of athletically related financial aid for partial qualifiers in the first year; increases in the core curriculum; increased standards for qualifiers and partial qualifiers; and, for partial qualifiers, the reinstatement of athletically related financial aid and the allowance of practice (but not travel or competition) in the first year. This combination of increased standards and expanded allowances is due to go into effect in August 1996, and it consequently is the motivation for several important pieces of legislation that will be before the Convention in January.

In conversations with other faculty athletics representatives, it is clear that the most consequential change is the alteration in the definitions of qualifiers and partial qualifiers. To think of this graphically, I place the SAT score (before recentering) on the horizontal axis and the core GPA on the vertical axis. Then Prop 48 classifies as qualifiers all students to the right of 700 and above 2.000. In the remaining, L-shaped region, a student became a partial qualifier by graduating from high school with a cumulative 2.000 GPA.

Two significant changes are scheduled for implementation next year, representing what is arguably the most consequential modification in requirements since the advent of Prop 48.

By drawing a line from the point (SAT = 900, core GPA = 2.000) to the point (SAT = 700, core GPA = 2.500), we produce a triangle within the region of students who were previously qualifiers. I will call this the "Prop 16 line" and the "Prop 16 triangle."

The first observation is that all students who fall below the Prop 16 line but inside the triangle will become nonqualifiers in fall 1996, even though they would have been qualifiers in fall 1995. A recent survey of institutions in the Southwest Conference found

Vick

Football generalizations are inappropriate

I am tired of reading comments, such as those you printed in the October 23 issue, from Kathleen Holgerson and Donna Lopiano.

Yes, football is a violent sport. Players are applauded for being aggressive, not violent. But to state that players are part of a macho culture that does not respect women is absolutely irresponsible, ridiculous and preposterous.

That statement, made by Ms. Holgerson, is an irrational extrapolation. Ms. Holgerson has condemned thousands upon thousands of men who have played this game, who are playing this game and those who will play this game; who are respectful

□ Letter

toward all people, including women; who are great family men; and who have worked hard to earn the respect of their community. Perhaps Ms. Holgerson has no respect for men.

As for Lopiano, again a whole group is condemned for an illness that plagues all of society, men and women alike. The people of which she speaks would break rules regardless of whether they played or did not play football. What of the countless boys and men who have always lived within the rules? Are women and their coaches exempt from rule-breaking and then getting bailed out?

Lopiano states that you need to be certified to be a librarian but not to supervise men on a football field. Is not the same thing true of women on a soccer field or a basketball court or any other sport?

By the way, certification is necessary for junior high and high-school coaches. Lopiano should check her information before she makes statements that insult an entire group of people who work within all the parameters that are created for them by people like her. If it does not meet with her agenda, it must not be good.

Dick Mannini
Assistant Director of Athletics,
Operations
San Francisco State University

□ Opinions

Responsibility of building character is a real concern

Ferdinand A. Geiger, director of athletics
Ohio State University
Chronicle of Higher Education

"I know there's controversy over teaching character, but we've gotten so far away from it that we've abdicated responsibility.... We ought not to become Victorian. But we select people who come from a great variety of backgrounds and throw them all together. It ought not to be surprising if some know how to pick up the right fork and others don't, and some know how to deal with other people and members of the opposite sex and others don't."

Olympics

James Christie, writer
Toronto Globe and Mail

"Lately there has been very public concern about elitism in U.S. sport. Recently, the Atlanta Journal and Constitution attacked the United States Olympic Committee's distribution of finances that concentrates spending of its \$414 million budget at the top of the ladder, while grassroots athletes, the next generation of Olympians, continue to struggle.

"The report said only about half of one percent of USOC dollars get to the grassroots, while potential medalists get the benefit of high-tech training centers and \$15,000 awards for gold medals....

"What's in question is philosophy. Must a star system that has worked well when built from the top down be reconfigured to feed from the bottom up?

"USOC executive director Dick Schultz, while acknowledging a steady flow of talent is important, has said that winning Olympic medals is the USOC's bottom line. There's a valid argument that gold-bedecked heroes are role models whose victories encourage youngsters to become involved in sport.

"But then where can the kids indulge and develop that interest? The headwaters of the Olympic stream should be at the talent's source.

"The USOC relies heavily on the university and college system, still arguably an elitist operation, to develop its stars. To that end, Schultz suggested recently that the USOC would make \$10 million available to the NCAA to preserve and establish programs for Olympic sports. Why else would the Big Ten Conference be considering a program for a sport as arcane, in North American minds, as team handball?

"Canada's system of developing athletes does not have this inherent conflict, though in practice a financial crush has created a similar dilemma. In Canada, it is federally supported Sport Canada that develops athletes. The independent Canadian Olympic Association selects, outfits and transports qualified athletes to Olympic and Pan American Games.

"Who is better off? It depends on your goals.

"The message constantly given to Canadian athletes...is that a focus on the top is a pathway to cheating. One loses the sense of what sport is all about: to achieve personal bests through a careful program of development. Building from the bottom, with good facilities, certified coaches and a responsible antidoping policy, is a longer but probably better route to excellence. If we don't create the world's best athletes, at least we're creating good people, or so the sentiment goes.

"What the two systems have in common is being fueled by money. The Canadians spend tax dollars; Americans depend on private funds, and nothing attracts corporate dollars like success.

"Tight economic times mean cuts in Canada's federal and

provincial spending, where sport is considered a frill. In the United States, it normally means a dip in sponsorships, though being host of the Summer Games in 1996 and the Winter Games at Salt Lake City in 2002 will offset that.

"Thus, the well-entrenched star system likely will remain in place in the United States. To change to a concentration in development and grassroots support would alienate big sponsors.

"It would also contradict what a national Olympic committee is founded to do.

"By definition and by international convention, an Olympic committee is a high-end operation. Its appropriate playing field is the big show, not the sandlot.

"If Congress wants to see both territories covered, it would be wiser to establish a Sport Canada model rather than depending on retooling a privately funded USOC whose specialty is elitism.

"In Canada, our system may not always be effective, but one has the sense that it's right."

Baseball

Hill Denson, baseball coach
University of Southern Mississippi

"The battle for student-athletes between college baseball coaches and professional baseball is becoming an old-fashioned gunfight. (The) problem is pro baseball is armed with .357 Magnums and college baseball coaches are armed with cap-guns.

"NCAA...some of your family members (baseball coaches) are in trouble. Please help."

NCAA rules

Maryann Hudson and Elliott Almond, sportswriters
Los Angeles Times

"The NCAA is supported by millions of dollars it receives from television revenue and membership fees from the schools. Last year, the NCAA received \$166 million from television contracts, so there doesn't seem to be a lack of money to properly fund the operation or an unwillingness by NCAA staffers to change. The problem, apparently, is a lack of common sense by the schools.

"There is a proposal this year that would allow Division I student-athletes to earn up to \$1,500 any time during the academic year or let them work in the off-season for any amount of money. Currently, they can work only during the summer and holidays.

"The proposal would give athletes a chance to make money legitimately so they would not go to bed hungry as some say they do. But this proposal is not supported by the NCAA Presidents Commission, which is a group of school presidents, or the NCAA Council, which is made up mostly of athletics directors. So its chances of passing are minimal.

"These are the people football players should be cursing."

Television overexposure

Bill Mallory, head football coach
Indiana University, Bloomington
The Indianapolis Star

Discussing watching television at home on a midseason Saturday off:

"All that football. I went to the restroom and ate, and that was about the only time I left the couch. You can just sit there and push the ol' buttons. You can see why people stay home and watch games, and why that's hurt the attendance.... It's hurting the gate and it could be a problem down the road."

BY LAURIE BOLLIG
STAFF WRITER

The postgame press conference long has been a place for coaches and athletes to rehash winning plays, game strategies or late-game mistakes for the general public.

Thanks to a policy five years in the making, Division I men's basketball officials now will be given the opportunity to explain to the media certain calls made in game situations.

Members of the United States Basketball Writers Association (USBWA) have suggested for most of the 1990s that the NCAA Division I Men's Basketball Committee provide the chance to interview game officials.

"Officials access has always been important to us," said Mike DeCourcy, a reporter for the Memphis (Tennessee) Commercial-Appeal and USBWA president. "There are situations that arise that don't always involve just a traveling call. Those situations become newsworthy but also confusing, and we haven't had the chance to speak with the officials regarding those situations."

Recent examples

DeCourcy can think of three or four game situations in the last few years that could have been better explained if a reporter had been allowed access to the official making the call.

"(One was) in the Kentucky/North Carolina regional final last year in which the technical foul appeared to have been committed by Andre Riddick and was assessed to Walter McCarty," he said. "Earlier in the tournament when Syracuse played Arkansas — did Lawrence Moten call the timeout or did a teammate? Dean Smith's ejection in the 1991 Final Four semifinal game. There are usually two or three a year."

DeCourcy met with members of the Division I Men's Basketball Committee and NCAA staff last summer to better define an existing policy that allowed a pool reporter access to officials but did not specify in what instances that access could occur.

A new policy, which was adopted by the committee at its summer meeting, provides three specific situations that could merit comment from the officiating crew: a potential fighting situation that results in a technical foul and/or ejection of a player;

Official explanation

Under new policy, Division I men's basketball officials can comment to media on calls

Rich Clarkson/NCAA Photos

Beginning with the 1996 event, reporters at the NCAA Division I Men's Basketball Championship will have more opportunities to clarify controversial calls with game officials.

unsportsmanlike conduct that results in a technical foul; and a technical foul as a result of a coach leaving the coaching box.

In addition, the new policy states that if the basketball committee rep-

resentative at the site deems it in the best interest of the tournament, a pool reporter is allowed to receive an interpretation regarding other situations.

"Usually, when technical fouls are

assessed, the public has the right to know," DeCourcy said. "Was it profanity? Was it constant abuse? Or was it stepping out of the coaching box?"

Committee retains leeway

DeCourcy said that, in the past, basketball committee representatives at game sites have denied requests by the media for access to officials. The committee will retain that leeway.

"We're interested only in clarifying those rule situations that are confusing," he said. "Only the official knows why he made a technical foul call. He may explain it to the scorers' table, but that explanation isn't necessarily passed on to the media."

Barring revisions by the basketball committee at its fall meeting, the new policy — effective with the 1996 championship — will stipulate that the involved official does not have to speak with the pool reporter. If the official declines to be interviewed, the standby official is required to provide the interpretation on behalf of the officiating crew.

"We've always believed that officials want the opportunity to address those situations to explain why they made a call," DeCourcy said.

Count at least two officials with previous Final Four experience among those who prefer to do their own explaining.

"I don't have a problem with that at all," veteran official John Clougherty said. "I think there have been situations where coaches have expressed that they want officials to be more accountable — even to the point where they would bring them (officials) to the press conference and have the media ask questions. I, for one, feel like that would be OK, provided the referee had time to get his thoughts together and visit with his crew to discuss what might have transpired."

Clougherty will not answer questions about how the game was refereed.

"I don't think it serves any purpose to open it up as to how the entire game was officiated," he said.

Fellow official Ed Hightower agrees.

"Seeing as how we are looking for greater accountability, I think this enhances the game and enhances the relationship between the coaches and officials," Hightower said.

"I think there have to be guidelines

and restrictions on the types of questions. This would not lend itself to why an official made a particular call, but if it's something that would lend greater clarification and correct any misinformation that may be out there, I would not have any problem with that at all. I would not want to be drilled as to why this call was made or why that call was made."

No judgment calls

Judgment calls are off-limits, according to Bob Frederick, chair of the Division I Men's Basketball Committee and athletics director at the University of Kansas.

"There is always going to be criticism of officials on judgment calls. That's just the nature of the game. Whether something is a charge or a block will never be questioned in this forum," Frederick said.

Reporters are pleased about the opportunity to interview officials. At least two widely respected officials say they won't shy away from discussing a rule interpretation with a reporter. The chair of the men's basketball committee sees nothing but good coming from the new policy.

Why, then, did it take so many years to put the current policy in writing?

"Some of the committee members felt like we were exposing the official to unwarranted criticism, but the majority felt that providing additional factual information would be helpful and only enhance the tournament," Frederick said. "My own opinion is that there will be only positives come out of this because I think it will better explain some misunderstood situations, and even if a mistake is made, an acknowledgment of that mistake will be well received. Not everybody shares my opinion on that."

DeCourcy is a believer.

"We're not looking to use officials as targets. Some past committee members felt that was what we were out to do," DeCourcy said. "When we don't know why an official has made a call, the writer is that much more likely to assume the call was made incorrectly or maliciously. Therefore, the official is much more likely to be criticized in the media. If the reporter knows, he is more likely to explain what happened. When we don't know, that's when unfair criticisms are likely to creep into our copy."

Students

Goal of initial-eligibility standards should be clear: Students must arrive at college ready to succeed academically

► Continued from page 4

that of the 592 incoming freshman student-athletes who were qualifiers in 1995-96, 32 or 5.4 percent would have become nonqualifiers under the 1996-97 requirements. An argument being used in support of some of the current legislation is that the change is unnecessarily harsh, that some or all of these students should be classified as partial qualifiers.

If the Prop 16 line is extended from the point (SAT = 700, core GPA = 2.5) to the point (SAT = 600, core GPA = 2.75), then another major change for fall 1996 is that the only partial qualifiers will be those students who fall on or above this line; all remaining students, whose performance would have made them partial qualifiers in the past, will become nonqualifiers. While I have not seen any data on the populations in these categories, it is very likely that a substantial majority of those students who previously were partial qualifiers would become nonqualifiers as a result of this change.

The simplest piece of legislation to describe is Proposal No. 2-48 (as listed in the Second Publication of Proposed Legislation), sponsored by the Big West Conference and eight institutions from the Atlantic Coast Conference. It would change the status of all students in the Prop 16 triangle from nonqualifiers to partial qualifiers. A part of the rationale is that the change to nonqualifier status would unfairly characterize students who have attained acceptable SAT scores but who attend-

ed high schools with strict grading guidelines.

Similar changes are proposed by Proposal No. 2-47, sponsored by nine members of the Southeastern Conference. Their proposal would change to partial-qualifier status students in the Prop 16 triangle with core GPAs of at least 2.250 and students with a 690 SAT and at least a 2.500 core GPA.

Their rationale expresses the concern that the new requirements will classify as nonqualifiers students with the necessary academic background to succeed at the collegiate level.

A more substantive change in initial-eligibility requirements is presented in Proposal No. 2-46, sponsored by all members of the Mid-Eastern Athletic Conference. It would classify as qualifiers all students with a 2.250 core GPA, regardless of their SAT score, and all students with a core GPA of 2.000 if they have at least a score of 800 on the SAT.

This is a significant departure from the tenets of Proposition 48 in that students with SAT scores below 700 (as low as 400) would become qualifiers if their core GPAs were at least 2.250. The rationale for this change cites evidence of the disparate impact of current initial-eligibility legislation on minority student-athletes, hence the emphasis on high-school coursework rather than test scores.

While these proposals would each increase the population of partial qualifiers from that expected as a result of the Prop 16 conditions, it must also be kept in mind that additional changes in the activities allowed for partial qualifiers will make

their status more like freshmen during a redshirt year; that is, they will be allowed to receive athletically related financial aid and to practice but not travel or compete during their freshman year.

Proposal No. 2-55 would reverse some of this by eliminating for partial qualifiers the opportunity to practice during the first year. Two arguments posed in support of this are that it restores the penalty for failure to meet initial-eligibility requirements and it offers a period of adjustment for academically at-risk students.

The proposal also would provide a fourth year of eligibility for a partial qualifier who meets satisfactory progress requirements at the beginning of the fifth year. Proposal No. 2-57 also would allow partial qualifiers to earn a fourth year of eligibility if they have received a baccalaureate degree prior to the beginning of the fifth academic year.

The debate on this important legislation will cause us once again to examine the philosophy on which our initial-eligibility requirements have been based. Our message to high-school students should be unequivocal: They must come to college academically prepared to succeed.

The progress we have made in improved graduation rates must be sustained.

James W. Vick is vice-president for student affairs and faculty athletics representative at the University of Texas at Austin.

Alabama State receives three years of probation

The NCAA Committee on Infractions has placed Alabama State University on probation for three years for NCAA rules violations in its women's volleyball, women's track and field, and men's basketball programs.

The university, as part of its own corrective actions and penalties, will bar the women's volleyball and track and field teams from post-season competition and will reduce men's basketball scholarships and official visits.

The committee found violations including allowing ineligible student-athletes to practice, compete and/or travel in all three sports. The committee also found a lack of institutional control over the three programs. The committee noted these violations occurred between 1990 and 1994. The institution's current president took office in June 1994. The committee praised the president's active participation and cooperation in the processing of this case.

The Committee on Infractions heard this case September 30, 1995. Representatives of the university, as well as the former head men's basketball coach and two former assistant men's basketball coaches, appeared before the committee. The former women's track and field coach and the former women's volleyball coach declined to attend.

The Committee on Infractions found NCAA rules violations, including:

- During the fall of 1991, the head women's volleyball coach permitted one student-athlete to travel and compete even though she had not met NCAA initial-eligibility requirements. He allowed two student-athletes to travel and compete although they had not met NCAA requirements concerning satisfactory academic progress. He also allowed one student-athlete who had exhausted her athletics eligibility to travel and compete.

- On numerous occasions during the 1991-92 and 1992-93 academic years, the head women's volleyball coach provided local and long-distance automobile transportation to four prospective student-athletes between their high schools or homes and the institution's campus. This travel was not in conjunction with the prospects' official paid visits. During some of these visits and on other occasions, the head coach arranged for four women's volleyball student-athletes to accompany him during off-campus recruiting visits, in violation of recruiting rules.

- On numerous occasions during the springs and summers of 1991 through 1994, the head

women's volleyball coach arranged for nine women's volleyball prospects to participate in workouts or scrimmages with members of the women's volleyball team for the purpose of evaluating their abilities during unofficial visits. The head coach frequently observed, participated and provided instruction during these sessions. The sessions constituted both impermissible tryouts for the prospects and out-of-season practices not permitted under NCAA legislation for the volleyball team.

- The head women's volleyball coach failed to document or monitor the recruiting visits of prospective student-athletes to the institution's campus during the springs and summers of 1991 and 1992 as well as the spring of 1993. This failure made it impossible to determine which visits were official and which were unofficial. This lack of documentation therefore made it impossible to determine if there were any violations of rules concerning maximum numbers of visits. It also led to the impermissible provision of food and lodging to six prospective student-athletes during unofficial visits.

- The head women's volleyball coach violated NCAA standards of ethical conduct by knowingly violating NCAA rules and by encouraging student-athletes to provide false and misleading information to NCAA enforcement staff representatives.

- In the spring of 1994, the head women's indoor and outdoor track and field coach allowed four student-athletes to travel and compete in several meets even though she knew they did not meet initial-eligibility requirements. The coach permitted the student-athletes to represent the institution under assumed names. The head coach's involvement in this situation violated the NCAA's principles of ethical conduct.

- During the 1990-91 academic year, the head men's basketball coach allowed an ineligible men's basketball student-athlete to practice with the team and travel to at least one away game even though he did not meet NCAA initial-eligibility standards.

- The institution provided a total of seven nights of complimentary lodging to relatives of a men's basketball student-athlete.

- The scope and nature of the violations demonstrate a lack of appropriate institutional control.

The committee considered the following corrective actions self-imposed by Alabama State:

- Terminated the employment of the head women's volleyball coach, the head women's track and field coach, and the head men's basketball coach.

- Removed two assistant men's basketball coaches from the basketball program.

- Required that travel itineraries for the three involved teams be reviewed, approved and signed by the director of athletics.

- Began a policy of unannounced, random travel by the director of athletics with the women's volleyball, women's track and field, and other university teams.

- Instituted a policy that all track and field squad and participation lists must be reviewed and approved by the director of athletics and compliance officer before the season begins.

- Required that all men's basketball requests for recruiting trips and campus visits be reviewed by the director of athletics before the trips or visits occur.

The Committee on Infractions adopted as its own the following penalties self-imposed by the institution:

- The women's volleyball and women's track and field teams will end their 1995-96 and 1996-97 seasons with their last regular-season contests and will not be allowed to participate in any postseason competition.

- Alabama State will forfeit all games in which ineligible women's volleyball student-athletes competed during the 1991-94 seasons and all medals, awards or team placements in women's track where ineligible student-athletes participated in the 1993-94 academic years.

- Reduced the number of men's basketball expense-paid visits by two to a maximum of 10 each year during at least the 1995-96 and 1996-97 academic years.

- Reduced the number of men's basketball scholarships by one to 12 for the 1996-97 academic year.

- Alabama State will delay the start of men's basketball practice by two days during the 1995-96 academic year and by one day during the 1996-97 academic year.

The Committee on Infractions imposed additional penalties, including:

- Three years of probation, beginning September 30, 1995.

- Recertification of the university's athletics policies and practices.

- Development and implementation of a comprehensive educational program on NCAA legislation.

- If the former head women's volleyball coach seeks employment in an athletically related position at an NCAA member institution during a three-year period (August 24, 1995-August 24, 1998), he and the involved institution will be asked to appear before the Committee on Infractions to determine whether the coach's athletically related duties should be limited at the new institution.

- If the former head women's track and field coach seeks employment in an athletically related position at an NCAA member institution during a one-year period (August 18, 1995-August 18, 1996), she and the involved institution will be asked to appear before the Committee on Infractions to determine whether the coach's athletically related duties should be limited at the new institution.

Had the former volleyball and track and field coaches involved in the case still been employed at Alabama State, the university could have been subject to additional penalties.

As required by NCAA legislation for any institution in a major infractions case, Alabama State is subject to the NCAA's repeat violator provisions for a five-year period beginning September 30, 1995.

Should Alabama State or the former coaches named in the infractions report wish to appeal this decision, they must submit a written notice of appeal to the NCAA executive director no later than 15 days from the date of the release. The NCAA Infractions Appeals Committee, a separate group, hears such appeals.

The members of the Committee on Infractions who heard this case are Richard J. Dunn, divisional dean of humanities at the University of Washington; Jack H. Friedenthal, dean of the school of law, George Washington University; Roy F. Kramer, commissioner, Southeastern Conference; Frederick B. Lacey, attorney, LeBoeuf, Lamb, Greene and MacRae, and a retired judge; Beverly F. Ledbetter, vice-president and general counsel, Brown University; James L. Richmond, retired judge and attorney; Yvonne (Bonnie) L. Slatton, chair of the department of physical education and sports studies, University of Iowa; and committee chair David Swank, professor of law, University of Oklahoma.

The complete report of the Committee on Infractions will be published in the December 4 issue of The NCAA Register.

■ Interpretations Committee minutes

Conference No. 14 October 23, 1995

Acting for the NCAA Council, the Interpretations Committee issued the following interpretations:

Supplemental Pay/Athletically Related Benefit/Legal Fees

1. **Institution's Athletics Representative Providing Fees to Cover the Cost of Coach's Legal Representation.** It is not permissible for a representative of an institution's athletics interests to provide funds to cover the cost of a coach's legal representation either directly to the coaching staff member or the staff member's legal representative, inasmuch as such funds are considered supplemental pay, the receipt of which is contrary to NCAA Bylaw 11.2.2. [References: 11.2.2 (athletically related income) and 11.3.2.2 (supplemental pay)]

Extra Benefits/Preferential Benefits

2. **Receipt of Improper Benefits.** A student-athlete is determined to have received an improper benefit at the time the student-athlete accepts a benefit associated with an item that is not otherwise permissible under NCAA legislation. The committee noted that in situations in which a student-athlete accepts but does not actually use the impermissible item, such information may be considered as a mitigating factor in any appeal for restoration of the student-athlete's eligibility. [References: 12.1.2(m) (forms of pay), 12.3.1.2 (benefits from agents), 16.02.3 (extra benefits)]

Conference No. 13 October 5, 1995

Acting for the NCAA Council, the Interpretations Committee issued the following interpretations:

Snacks/Meals/Practice

1. **Additional Snack or Meal After Evening Practices.** If a student-athlete has

received the permissible number of daily meals provided in accordance with the institution's policy for all students, it is not permissible for an institution to provide the student-athlete an additional snack or meal after an evening practice (other than the evening preceding the day of the institution's competition in that sport). [References: NCAA Bylaws 16.02.3 (extra benefit), 16.5.1-(d) (meals incidental to participation) and 16.12.2.1 (nonpermissible — general rule), and IC 11/17/93, Item No. 4]

Meal Allowance/Intercollegiate Trip

2. **Meal Allowances on Intercollegiate Trips (Divisions I and II).** If an institution provides its student-athletes a meal allowance (in lieu of actual meals) on an intercollegiate trip (including postseason trips), it is not permissible for the institution to provide a meal allowance for a particular meal if the student-athlete will be receiving that meal (or the equivalent of that meal) from another source (e.g., sponsor of the event). [References: 16.02.3 (extra benefit), 16.8.1.2.3 (meal allowance limitation) and 16.12.2.1 (nonpermissible — general rule)]

Nonqualifier/Partial Qualifier/Conditioning/Weight and Strength Coach

3. **Sport-Specific Strength and Conditioning Coach Involved in On- or Off-Field or Court Conditioning Activities With Partial Qualifiers or Nonqualifiers (Divisions I and II).** An institution's sport-specific strength and conditioning coach (who is not included in the institution's coaching limitations in the applicable sport) may be involved in on- or off-field or on- or off-court weight training and conditioning activities with partial qualifiers or nonqualifiers, provided the partial qualifiers or nonqualifiers are participating in such activities on a voluntary basis and the sport-specific strength and conditioning coach is present only to supervise such activities for safety purposes (i.e., the individual does not conduct the workout). Under such circumstances, the weight training and conditioning activities do not have to be confined solely to the institution's weight facilities. The committee recommended that the NCAA Legislative Review Committee editorially revise the provisions of 17.02.1.2-(q) to eliminate the requirement that the strength and conditioning staff member must perform duties on a department-wide basis. [References: 11.7.2.1.1 (Division I-A football — weight or strength coach), 11.7.3.1.1 (Division I-AA football — weight or strength coach), 11.7.4.2.1 (Division I sports other than football — weight or strength coach), 14.3.2.4 (practice session attendance) [Figure 14-6 (initial eligibility — Divisions I and II) (page 176)], 17.02.1.2-(m) and 17.02.1.2-(q) (non-

countable athletically related activities)]

Satisfactory Progress/Repeated Courses/Grade-Point Average

4. **Use of Repeated Courses in Calculation of Grade-Point Average (Division II).** In calculating a student-athlete's grade-point average for purposes of satisfying the minimum cumulative grade-point average necessary to meet Division II satisfactory-progress regulations, an institution is not required to include the initial grade from a course that has been repeated unless the institution's policy is to include the grade in calculating the grade-point average for all students at that institution. [Reference: 14.4.3.3.2.2 (calculation of grade-point average for student-athletes entering a collegiate institution on or after August 1, 1991)]

Countable Coach/Outside Consultants

5. **Student-Athletes Seeking Instructional Assistance from Individuals Outside the Institution (Division I).** The committee reviewed a previous interpretation (reference: August 31, 1995, telephone conference, Item No. 3) applicable to the use of an outside choreographer by gymnastics student-athletes and agreed that the principles set forth in the interpretation should apply in all sports. Thus, a student-athlete in any sport may receive assistance from an individual outside the institution (e.g., consultant, professional instructor) without the individual being counted in the institution's coaching limitations, provided the institution is not involved in any way in arranging for such activity, institutional coaching staff members do not observe such activity and such activity does not occur at the institution's facility (either during voluntary workouts or during regular institutional practice sessions). Further, the student-athlete(s) must pay all the fees (at the going rate) associated with the activity and may not receive preferential compensation arrangements (e.g., discount rate, deferred payments) not available to the general public. [References: 11.7.1.1.1 (countable coach), 11.7.1.1.1.1 (noncoaching activities) and 11.7.1.1.1.3 (use of outside consultants), and IC 8/31/95, Item No. 3]

Official Visit/Early Signing Period/Academic Credentials

6. **Issues Related to the Application of 13.7.1.2.4 (Division I).** The commit-

McNeese State's offensive attack is led by senior quarterback Kerry Joseph.

Division I-AA Football

Defending champ's tough season opens door for other teams

Event: 1995 Division I-AA Football Championship.

Overview: The biggest news about the Division I-AA playoffs is who will not qualify. Youngstown State has fallen on hard times this season (3-6 through November 4) after winning titles in 1991, 1993 and 1994 and finishing second in 1992. But there are plenty of highly regarded, undefeated teams looking to fill the void....The favorite has to be McNeese State, which has been atop the Division I-AA poll since Youngstown State and Marshall suffered season-opening losses. The Cowboys return 16 starters from a team that advanced to the quarterfinals last year, and they have the most balanced team in the field. The offense is engineered by senior quarterback Kerry Joseph, who had passed for more than 1,750 yards and rushed for 355 through nine games. The ground attack is paced by senior tailback Henry Fields (792 yards, five touchdowns), and the Cowboys' primary aerial threat is senior wide receiver Terence Davis (791 yards, 11 TDs). But as solid as they are on offense, the Cowboys are even better on defense, leading the division in rushing defense (43.4 yards per game) and allowing fewer than 10 points per game....The Cowboys' rush defense will be severely tested by Appalachian State, Delaware and Troy State, all of which average more than 255 yards per game on the ground....Fourth-ranked Delaware leads the division in rushing (311.3 yards per game) and has multiple threats — no player averages more than 73 yards per game. The Blue Hens' leading ground gainer is junior quarterback Leo Hamlett, but it is his ability to get the job done through the air when needed (1,481 yards, 159.9 passing efficiency rating) that could make Delaware a dangerous team in the playoffs....Despite its No. 2 ranking, Appalachian State hardly has been dominant, defeating its first seven Division I-AA foes by an average score of 29-21. But Coach Jerry Moore's young players (the Mountaineers' two-deep roster includes only eight seniors) have learned how to survive when every oppo-

nent is gunning for them....Statistically, third-ranked Troy State has been more impressive on both sides of the ball. But an easier schedule likely has something to do with that; its opponents' cumulative record is 22-44-1. The Trojans — who could become the first team to advance to the Division I-AA playoffs each of the first three years after moving from Division II — have averaged more than 400 yards of total offense and 38 points per game while forcing 15 more turnovers than they have given up....Montana and Marshall also cannot be overlooked at playoff time. Marshall features the division's top ranked defense and has experience on its side: The Thundering Herd has advanced to the title game three of the last four years. Led by senior quarterback Dave Dickenson, Montana is the only team in the division to average more than 500 yards per game.

Field: Six conferences have been granted automatic qualification for the 16-team tournament: the Big Sky, Gateway Football, Ohio Valley, Southern, Southland and Yankee Conferences. The remaining 10 teams will be selected at large.

Dates and sites: First-round (November 25), quarterfinal (December 2) and semifinal (December 9) games will be played on the campuses of competing institutions. The championship game will be December 16 at Marshall.

Television coverage: The championship game will be televised live by ESPN at noon (Eastern time) December 16.

Results: Scores and pairings from preliminary rounds will be published in the December 4, December 11 and December 18 issues of The NCAA News. Results from the championship game will appear in the December 25 issue.

Championship notes: This year's title game will be the fourth straight at Marshall. The previous three games were seen by the three largest crowds in title-game history; the average attendance was 29,399.

Cortese provides another game-winner in III field hockey

Jennifer Cortese's unassisted goal broke a 1-1 tie with 8:24 left in the game and gave host Trenton State a 2-1 victory over Messiah November 11 in the title game of the Division III Field Hockey Championship.

"If you keep saying to yourself, 'I refuse to lose,' you are going to come off the field a winner," Cortese said after the game.

The win capped an undefeated season for the Lions, who finished the year with 20 victories. The goal was Cortese's fifth game-winner this year and her 12th in four seasons of NCAA championship play.

Trenton State got on the board first as Laura Stryjewski scored on a pass from Donna Pecoraro with 26:13 left in the first half.

Messiah tied the game with 16:57 left in the second half, setting the

stage for Cortese's goal.

Jeanne Bizzoco made three saves for Trenton State; Beth Baggett made four for Messiah.

The championship was the seventh overall for Trenton State and fifth under coach Sharon Goldbrenner-Pfluger, who also led the Lions to titles in 1985, 1988, 1990 and 1991. In 1994, the Lions lost to Cortland State, 2-1, in the title game.

"We were very disappointed with last year's runner-up finish and we learned from our mistakes," Goldbrenner-Pfluger said.

The win improved Trenton State's overall record in championship play to 44-8. The Lions have been runners-up on four occasions and have finished third three times. This was Goldbrenner-Pfluger's fourth undefeated team in her 11 years as the

Lions' coach.

Messiah, which was runner-up in 1984, finished the season with an 18-4 record. The Falcons also have finished third three times.

Five Trenton State players made the all-tournament team — Cortese, Stryjewski, Melanie Vasofski, Lauren Mistretta and goalkeeper Bizzoco. Other honorees included Messiah's Cindy Toms and Christy Davis; Eastern Mennonite's Krista Ebersole and Candi Sauder; and Wellesley's Sherry Sebesta and Laura Permut.

I baseball championship enjoys record growth

During the NCAA Division I Baseball Committee's recent review of the overall management and administration of its 1995 championship, it quickly became apparent that growth, popularity and profitability were key elements in the success of the tournament.

The committee, at its November 6-9 meeting in Kansas City, Missouri, noted that the championship earned a profit for the first time (this excludes all television revenues). While total revenue for the 1995 championship increased to \$2.7 million, net receipts totaled almost \$17,000. In contrast, the 1994 championship incurred a deficit of \$81,000.

Overall, revenue from 1995 ticket

sales increased \$255,000 from 1994 and paid attendance was up by 22,121, an increase of five percent.

The committee met with representatives from College World Series, Inc., and discussed plans, activities and events for celebration of the 50th anniversary of the championship at the 1996 College World Series in Omaha, Nebraska.

The College World Series, Inc., representatives reported that a \$4.3 million press box will be operational for the 1996 College World Series, as will covered batting cages and an auxiliary scoreboard. They noted that these improvements will complete the \$17 million renovation of Omaha's Rosenblatt Stadium.

Division I Baseball Committee November 6-9/Kansas City Missouri

■ Analyzed the current formats for regional competition and the College World Series and discussed other formats that could enhance the championship in the future.

■ Reviewed the Ratings Percentage Index and approved a change in the index for the 1997 championship. A team will be awarded bonus points for a road win against a team ranked in the RPI's top 75; however, a team will be penalized for losing a home game to a team ranked in the RPI's bottom 75.

■ Received recommendations and approved umpires to work the 1996 Division I regionals and the College World Series.

■ Discussed and pledged support for the satellite uplink clinic for college baseball umpires that will

be broadcast at noon (Central time) Sunday, January 14. The clinic will feature a 60-minute videotape that will highlight rules changes for the 1996 season; a demonstration of pitching pick-off moves that are legal and illegal; a section on troublesome rules and situations that are difficult to interpret; and umpire mechanics.

■ Discussed the use of bats by member institutions with William E. Thurston, secretary-rules editor of the NCAA Baseball Rules Committee. The Division I committee expressed concern regarding contracts that coaches from NCAA member institutions have entered into with bat manufacturers and regarding new bats that are furnished to such institutions that participate in the championship. The committee agreed to monitor the situation closely during the 1996 championship.

OTHER HIGHLIGHTS

Franklin Pierce, UC San Diego women roll in II, III soccer

Ravens put finishing touches on perfect season

Franklin Pierce staked its claim as the most dominant team in Division II with a 5-0 victory over Barry in the Division II Women's Soccer Championship November 12 at Franklin Pierce.

The Ravens successfully defended their 1994 title on the strength of two goals and an assist from Paulina Miettinen and two assists from Nathalie Geeris. Miettinen's two second-half goals stretched a two-goal lead to four and slammed the door on Barry's attempt to regain the crown it last won in 1993.

Franklin Pierce, which completed a 20-0 campaign and won its 39th consecutive game, opened the scoring in the championship game when Parnilla Larsson, who was named the tournament's most outstanding offensive player, converted a cross from Miettinen just over 11 minutes into the game. Geeris fed Ewa Bergsten for a goal nearly four minutes later to expand the Raven lead headlong into half time.

The victory was the second for Franklin Pierce over Barry this year. The Ravens downed the Buccaneers, 4-0, earlier. That had been Barry's lone defeat upon entering tournament play.

"The kids came to play today and we got the results we needed," said Raven coach Mark Krikorian. "We have quality players here and it showed throughout the tournament."

Franklin Pierce's defense had allowed just three goals all season before Sonoma State nicked the Ravens for a score in the semifinals. That cut a 2-0 Raven lead in half, but Bergsten found the net for the Ravens late in the game to put the match away. Sonoma State finished the season 16-2.

Barry (16-2-1) advanced to the championship game with a 2-1 triumph over Quincy (15-5-1) in sudden-death overtime. Barry, a three-time champion, was attempting to regain the title after not making last year's tournament field, but was unable to derail the Franklin Pierce attack. The Ravens scored a record 16 goals in the three tournament games, including eight in a first-round win over Mercyhurst.

"They were too quick, too prepared and too good to be stopped by our defense," Barry coach Brian Dooley said. "There isn't a weak spot on that team."

In addition to Larsson, fellow

Ravens Miettinen, Bergsten and Geeris made the all-tournament team. Janna Schimmels, the tournament's most outstanding defensive player, joined Barry teammates Kerry Johnson and Erin Jaeger on the all-tournament team. Jaime Adkins, Camie Bechtold and Carrie Bechtold represented Quincy, while Alisa Murchison and Christina Bell were selected from Sonoma State.

SEMIFINALS

Quincy.....0 1 0 0 0-1

Franklin Pierce's Parnilla Larsson was selected the Division II tournament's most outstanding offensive player.

Tritons shut out Methodist, 3-0

Two early goals propelled UC San Diego to a 3-0 win over Methodist November 12 in the Division III Women's Soccer Championship at Richard Stockton.

Senior sweeper Diana Muchowski, named the tournament's most outstanding defensive player, went on the offensive early when she planted a direct free kick over the Methodist defensive wall and into the net for a 1-0 Triton lead just over 15 minutes into the game.

Beth Freeburg added a goal just over three minutes later to give the Tritons a commanding lead. Amanda Johnson capped the scoring late in the second half.

UC San Diego (19-2) relied on a stifling defense throughout the tournament to win its second championship overall. The Tritons also won in 1989 and twice have been runners-up, including last year, when they lost a 4-3 sudden-death overtime game to Trenton State.

This year's Tritons, behind goalkeeper Kelly Pearson and defenders Muchowski and Freeburg, limited their five opponents in the tournament to just one goal. That score came in a 2-1 overtime win over Gustavus Adolphus in the regional final, where UC San Diego rallied from a 1-0 deficit late in the second overtime period.

The Tritons advanced to the title match with a 1-0 win over William Smith (18-2-1). Ele Johnson's second-half goal was the lone tally.

Methodist (17-4), which had made three previous semifinal appearances in the tournament, advanced to the championship game with a 2-0 triumph over host Richard Stockton, which finished 19-2-1. Richard Stockton had knocked off two-time defending national champion Trenton State in the regional semifinal, but was blanked by Methodist goalkeeper Jen Maurer, who posted her third of four shutouts in the tournament.

UC San Diego's Ele Johnson was named the tournament's most outstanding offensive player. Teammates Amanda Johnson, Carrie Peer and Freeburg joined Ele Johnson and Muchowski on the all-tournament team. Methodist honorees were Maurer, Michele Brown, Ruth Keegan and Alvy Styles. Richard Stockton was represented by Marcie Williams and Heather Barbalinardo, and William Smith placed Marcie

UC San Diego's Lauren Johnson (No. 15) headed a shot against Methodist.

Meagher and Allison McCarthy on the team.

SEMIFINALS

Championships summaries

Division I field hockey

First round: Princeton 3, Syracuse 0; Penn St. 5, Stanford 0; Old Dominion 2, Virginia 1 (ot); Northeastern 2, Ball St. 0.

Second round: North Caro. 6, Princeton 0; James Madison 3, Penn St. 0; Maryland 1, Old Dominion 0; Northeastern 1, Iowa 0.

Semifinals (November 18 at Wake Forest): North Caro. (22-0) vs. James Madison (19-4); Maryland (18-4) vs. Northeastern (21-2). Final November 19 at Wake Forest.

Division I women's soccer

First round: Vanderbilt 2, Kentucky 0; Santa Clara 3, Stanford 2 (2 ot); Massachusetts 2, Hartford 1 (2 ot); Wisconsin 1, Minnesota 0; Texas A&M 4, Clemson 1; North Caro. St. 1, William & Mary 0 (2 ot); James Madison 2, Penn St. 1; Washington 2, UCLA 1.

Second round (to be completed by November 19 on the campuses of participating institutions): Vanderbilt (14-6) vs. North Carolina (23-0); Santa Clara (15-3-2) vs. Virginia

(14-4-2); Massachusetts (14-3-2) vs. Connecticut (18-2-2); Wisconsin (14-5-4) vs. Notre Dame (17-2-2); Texas A&M (18-5) vs. Southern Methodist (21-0-1); North Caro. St. (18-4) vs. Duke (14-6-1); James Madison (16-7-1) vs. Maryland (17-5); Washington (12-7) vs. Portland (17-0-2).

Division II men's soccer

First round: S.C. Spartanburg 2, Presbyterian 0; Mercyhurst 2, East Stroudsburg 0; Southern Conn. St. 1, New Hamp. Col. 0; Grand Canyon 1, Seattle Pacific 0.

Second round (to be completed by November 19 on the campuses of participating institutions): S.C. Spartanburg (15-4-2) vs. Tampa (18-0-2); Mercyhurst (11-6-3) vs. Northeast Missouri St. (13-2-3); Southern Conn. St. (18-1-1) vs. Franklin Pierce (16-0-1); Grand Canyon (14-3) vs. Cal St. Bakersfield (17-2-1).

Division III men's soccer

Third round: Williams 3, Trenton St. 0; Muhlenberg 4, Ithaca 0; Methodist 2, Washington (Mo.) 1 (3 ot); Chapman

1, Ohio Wesleyan 1 (4 ot); Chapman advances on penalty kicks, 4-2).

Semifinals (November 17 or 18 on campus of one of the participating institutions): Williams (16-0-1) vs. Muhlenberg (16-1-3); Methodist (20-0) vs. Chapman (17-3-1). Final November 18 or 19.

Division III women's volleyball

Regionals: (at Juniata) — Juniata def. Allentown, 15-6, 15-2, 16-14; Gettysburg def. Kean, 15-8, 15-13, 8-15, 15-6; Juniata def. Gettysburg, 15-11, 15-8, 15-8.

[at Washington (Mo.)] — Trinity (Tex.) def. Thomas More, 15-12, 11-15, 15-10, 15-8; Washington (Mo.) def. Southwestern (Tex.), 15-2, 15-6, 15-5; Washington (Mo.) def. Trinity (Tex.), 15-11, 15-10, 15-9.

(at Springfield) — Springfield def. Williams, 15-7, 15-4, 15-10; Coast Guard def. Eastern Conn. St., 15-12, 11-15, 15-2, 15-13; Springfield def. Coast Guard, 15-6, 11-15, 15-10, 15-8.

(at Rochester) — Rochester def. Cortland St., 17-15, 6-15, 15-7, 15-7; Ithaca def. Binghamton, 15-5, 16-14, 15-9;

Ithaca def. Rochester, 15-5, 15-9, 15-6.

(at UC San Diego) — Cal Lutheran def. Chapman, 15-8, 15-7, 13-15, 15-7; UC San Diego def. Occidental, 15-9, 15-11, 15-6; Cal Lutheran def. UC San Diego, 16-14, 18-16, 10-15, 15-6.

(at Kalamazoo) — Ohio Northern def. Calvin, 15-10, 12-15, 6-15, 15-9, 15-9; John Carroll def. Kalamazoo, 15-7, 8-15, 13-15, 15-7, 15-7; John Carroll def. Ohio Northern, 17-15, 13-15, 4-15, 17-15, 15-13.

(at Dubuque) — Dubuque def. Concordia-M'head, 15-9, 15-9, 10-15, 15-8; St. Olaf def. Central (Iowa), 15-7, 13-15, 15-12, 15-8; St. Olaf def. Dubuque, 15-7, 15-6, 13-15, 12-15, 18-16.

(at Wis. Whitewater) — Wis. Oshkosh def. Wis. River Falls, 15-8, 15-9, 5-15, 13-15, 15-11; Wis. Whitewater def. Millikin, 15-7, 10-15, 15-3, 15-4; Wis. Whitewater def. Wis. Oshkosh, 15-11, 11-15, 15-12, 15-11.

Quarterfinals (November 18 on the campuses of participating institutions): Juniata (36-4) vs. Washington (Mo.) (39-3); Springfield (30-6) vs. Ithaca (40-2); Cal Lutheran (21-2) vs. John Carroll (27-11); St. Olaf (32-7) vs. Wis. Whitewater (34-3).

Coming soon: Association to have presence on Internet

BY RONALD D. MOTT
STAFF WRITER

The NCAA does not yet have an official site on the World Wide Web. That soon will change. The Association will have not one but two "home pages" on the Internet.

With the creation of the University Gateway — an interactive on-line service that will focus on students, alumni and sports fans — the NCAA will join the Internet community. The Association also will construct a site that will be geared primarily to its members.

The University Gateway is part entertainment, part informational and part marketing. More than 100 member institutions already have signed on to join the Association in cyberspace. By fall 1996, an estimated 200 to 250 colleges and universities will be part of the Gateway.

Central to the Gateway will be the NCAA Sports Bureau, which will include information on a number of NCAA programs and services, including statistics, championships schedules, press releases, the NCAA Hall of Champions, NCAA corporate partner program, scholarship information, a merchandising catalog, championship programs, NCAA official licensees, Youth Education through Sports (YES) program, National Youth Sports Program (NYSP), and much more.

Upon entering the Gateway, the user will have the option of choosing the NCAA site or a school or conference site. Or, the user might select the Bullpen — a subscription service where individuals can access newspaper articles about their favorite schools. There is no limit to the types of information Internet users will be able to obtain through the Gateway.

"In addition to the Sports Bureau, you can have information on the arts, academics and enrollment, and you will be able to actually put ticket sales on it," said Dick Rademaker, chief executive officer of Licensing Resource Group (LRG), a Michigan firm that is working with the NCAA on developing a cross-licensing program. "There are all kinds of facts that you

can put out there about the school."

When the NCAA officially launches its site on the Gateway and its own Web site — and it likely will do both within the next several months — a number of national office services will be available to Internet users, says Wally Renfro, NCAA director of constituent communications and chair of an NCAA staff project team on the Internet.

"When it opens, there will be some offerings on that home page," he said. "But it won't be a complete set of offerings. You frequently find sites on the Internet marked 'under construction.' That will happen with these sites as well."

In addition to those already mentioned, Renfro says the NCAA legislative services database, championships dates and sites, The NCAA News, enforcement information, and a version of the NCAA Guide for the College-Bound Student-Athlete are good candidates for inclusion on the World Wide Web.

Another aspect of the University Gateway will be the NCAA Cross-Licensing Program. In December, marketing and licensing administrators at all NCAA institutions will be contacted by LRG about signing on to the program, said Jack Waters, NCAA director of licensing. The institutions could agree to jointly market their marks with those of the NCAA.

"As part of the Internet and the University Gateway, there will be an opportunity to buy merchandise from these university catalogs or the NCAA catalog," Waters said. "One can sit at home with a PC (personal computer) and pull up on the screen a catalog from any institution and review the merchandise that's for sale and actually order it right there. This is total home shopping and it's easy shopping."

One concern routinely expressed about commerce over the Internet is security. Computer hackers take pleasure not only in breaking into places where they are not authorized to be, but sometimes in cracking security measures designed to protect consumers' credit-card numbers.

Consumers need not worry, says Ken Raymond, marketing director of SRO Clients and Associates, the San Francisco-based

designer of the University Gateway. Computer-based security advances made by the credit-card institutions themselves offer greater protection against theft than giving a vendor a credit-card number over the telephone, Raymond says.

"You have two King Kongs in the world that have fixed it," Raymond said. "You have VISA, which developed Secured Transaction Technology (STT), and MasterCard, which developed Secured Electronic Payment Protocol (SEPP). Computer security is an absolute nonissue these days. Everyone will be using this by February or March next year. It will be standard."

Another unique aspect of the University Gateway will be a network of kiosks tied into the system. Kiosks are interactive computer machines much like automated teller machines (ATMs). Placed in highly visible areas, these kiosks will allow users to tap into the University Gateway, scroll around for information on the NCAA or its participating members, and perhaps buy cross-licensed merchandise.

Iowa State University is one of a few places where kiosks currently are being used, says Waters.

"Other colleges are buying into it," Waters said. "You know the problems you have on campus — you're trying to get your grades, you're trying to get a transcript, you're trying to get your schedule. What happens? You get on the phone and are put on hold. You show up somewhere and wait in long lines. The kiosk does it all. You walk up, sign in, get a copy of your transcript, get your grades, check statistics, scores, schedules. It will be a complete package of almost anything that is going on on a campus."

"While there, you can go in and buy merchandise. If you're a graduate of Boston College and you're at an airport waiting to go back home to Reno, you can look through the Boston College catalog. You might say, 'Oh, there's a nice sweatshirt,' and buy it. That's the wave of the future and this future is only a few months away."

Internet

► Continued from page 1

from the Internet. For instance, Whitman College, a new NCAA Division III member, opened the doors to its home page in September. Initial plans called for possibly making questionnaires available to prospective student-athletes, who then could contact Whitman coaches.

The Division III Centennial Conference, which was featured in a February issue of The NCAA News, this summer added to its Web site a "reading room," which offers users "links" to each campus newspaper posted on the Web, in addition to the Chronicle of Higher Education.

In fact, Division III institutions may value the Internet more than any others, because of the scarcity of national reporting on Division III athletics.

"This information resource should provide (our) fans across the country with an opportunity to stay in touch with our athletics program," said Tom Nelson, sports information director at St. John's University (Minnesota), which joined the Internet crowd recently. "At the Division III level, schedules, results and other information are not always available through the media, so the Internet is an ideal way for institutions like St. John's to get the word out to those interested individuals."

But all levels of competition are represented in "cyberspace."

The Southeastern Conference launched its cyber-home September 1. Information ranging from how to purchase tickets to stadium diagrams of its member institutions to television schedules to video highlights are included. Since its inception, the site has received well in excess of 300,000 "hits," or visits.

"We didn't have any way of knowing what kind of response we would get," said Mark Whitworth, assistant commissioner of the Southeastern

Understanding Internet terms

Traveling through the Internet will expose users to unfamiliar terminology. To better understand this high-tech computerese, the following glossary of important Internet terms is offered (compiled by CompuServe magazine):

FAQ — A frequently-asked-questions list is a document that covers basic information from a particular Usenet newsgroup or mailing list.

FTP — File Transfer Protocol is used to download files.

HTTP — Hypertext Transport Protocol makes hypertextual browsing through the World Wide Web possible. The user clicks on links that are established in a Web document and moves to that document, even though it may be located on a different computer.

Internet — The worldwide matrix of connecting computers using the TCP/IP protocols.

Mailing list — A group discussion carried on through electronic mail.

Newsgroup — A Usenet discussion group about a particular topic.

Packet — The basic unit of Internet data. A message is assembled into packets, each marked with the address and other pertinent information.

PPP — Point-to-Point Protocol is a method of exchanging data packets with the Internet over a telephone line.

Protocol — A protocol defines how computers communicate. It is an agreement between different systems on how they will work together.

Server — A computer that provides a resource on the network.

TCP/IP — The set of protocols that determine how data is transmitted on the Internet. Transmission Control Protocol (TCP) controls the transport of data, ensuring that it is delivered. Internet Protocol (IP) determines the packet structure of data and the addressing used to deliver data to its destination.

Terminal Emulation — Communication with a remote computer by which a personal computer acts as a terminal connected to it.

URL — Uniform Resource Locator (URL) is a standard way to refer to World Wide Web resources. It specifies the type of service as well as the exact location of the directory or file in question.

Usenet — A worldwide network of newsgroups on thousands of subjects.

World Wide Web — A system that organizes Internet data through hypertext links, allowing you to explore resources from multiple entry points using a browser.

Conference. "We're very pleased. For years when someone would call for general information, our response might have been, 'We can't because we aren't staffed.' Now, we're able to give the general public access to that information. It's a great public relations tool."

It also is turning out to be much more than that. When the University of Oregon played a football game in September against the University of Illinois, Champaign, more than 6,000 people enjoyed the game sitting in front of their computers — including a few with sophisticated equipment that allowed them to see live video of the game.

Other universities — among them

Baylor University, the University of Kansas and the University of Colorado, Boulder — have used the Internet to carry radio broadcasts of football games.

Countless other institutions have a presence — in one form or another — on the Internet.

What, where, when, why?

What exactly is the Internet? In the simplest of terms, it is nothing more than a massive network of computer networks, through which computers can exchange data in a language they all recognize.

Where is the Internet? It is everywhere and nowhere, simultaneously. The network is an intriguing mix of

central processing units (CPUs), computer modems, telephone lines and... well, after that it gets complicated.

When and why was the Internet created? It was born in 1969 when the U.S. Department of Defense established links between computer networks involved in military operations. A byproduct was that it allowed university researchers to communicate with one another as they conducted studies. It was probably the latter use that sparked what exists today.

Since those early days, a lot has changed. Perhaps the most notable recent achievement was the creation of the World Wide Web in 1989. According to CompuServe magazine,

the Web was founded at the Swiss laboratory CERN to help link physicists worldwide. Its user-friendliness — Web surfers merely click on a word or picture to find further information — quickly was adapted for mainstream use.

Today, the Web is a seemingly endless collection of information. It could be considered the world's largest resource library.

But will it last?

Unlike some stretches of interstate highway in America, there always is something interesting to see while cruising the information superhighway. More and more people are enjoying this techno-landscape. But will all of the activity surrounding the Internet last or will it simply fall into a long line of fads?

"All of the projections show there will be more people doing this," said Dick Rademaker, chief executive officer of the Licensing Resource Group, which is working with the NCAA to develop a cross-licensing program with NCAA members that will make use of the World Wide Web (see accompanying story). "The few facts we have really point to everything being true. There aren't a lot of hard facts at this point, so it's all speculative. But you have more than a million a month coming on to the Internet. It appears to be more than a passing fad."

"We didn't tire of the computer doing word processing when we moved from the typewriter," said Wally Renfro, NCAA director of constituent communications, whose duties include establishing the NCAA's presence on the Web. "I think the Internet is here to stay."

Note: Users can reach most college and university World Wide Web sites through the following Web address: http://www.clas.usf.edu/CLAS/american_universities.html.

Despite increased accuracy, field-goal attempts down

BY RICHARD M. CAMPBELL
NCAA STATISTICS COORDINATOR

Is collegiate field-goal kicking becoming a lost art?

Today's Division I-A field-goal kickers are stronger and more accurate than ever before, yet field-goal attempts are down and kicking steadily has become a smaller part of a record scoring trend.

Two major rules changes since 1989 have combined to make life rougher on college field-goal kickers. Ironically, the same rules changes make college kickers better prepared for the rigors of professional kicking, but their collegiate careers and kicking statistics are affected.

Because kicking had become a larger part of scoring and field-goal accuracy was at an all-time high in the 1980s, college rules-makers decided to make kicking more difficult. First, they took away the two-inch kicking tee in 1989, and then, in 1991, narrowed the goal posts from 23 feet, 4 inches, to 18 feet, 6 inches.

The field-goal explosion in the 1970s and early 1980s was fueled by the two-platoon system, which evolved from unlimited substitution. In 1978, to curb long-distance field goals, the NCAA Football Rules Committee decided that on all missed field-goal attempts from outside the 20-yard line, the ball would be returned to the original line of scrimmage.

One other recent rule change may have helped the offenses as well as kickers. The movement of the hash marks closer to the center of the field in 1993 has opened up offenses and improved kicking angles on field-goal attempts.

Since those changes, kicking accuracy in Division I-A has not been affected as much as field-goal attempts and kicking as a part of scoring. An accompanying chart displays kicking accuracy each of the past six years compared to so far in 1995.

Kicking and scoring

Field-goal points increased from just 1.02 percent of all points scored in 1959 — the first year of the 23-4 goal-post width — to a record 15.65 percent in 1984.

During the past five years, field-goal kicking has accounted for nearly 13 percent of total scoring (both teams, per game).

Both teams combined in 1995 so far are averaging less than two (1.87) field goals made per game, the fourth time in the past six years that has happened. Although scoring is running at record levels, field goals are becoming less a part of scoring in spite of consistent accuracy.

Field-goal scoring is 11.2 percent of total scoring so far in 1995, compared to 14.1 percent in 1989 and an average of 12.7 percent over the past six years.

Division I-A field-goal accuracy has been steady at 65 percent since 1989 and is 65.9 percent in 1995. The only exception was 1991, the first year after the narrowing of the goal posts, when the overall percentage dropped to 59.6, the lowest since 1980. The percentage rebounded to exactly 65 percent last season.

Another accompanying chart shows how field goals compare to total scoring since 1989.

Field-goal attempts

Are college kickers attempting fewer field goals since the goal posts were narrowed and the kicking tee eliminated? That may be a more

realistic result of the rules changes than accuracy or even scoring.

In the six years since the rules changes began, even though field-goal accuracy has remained level, attempts have gone down. In fact, total attempts per game went from 3.27 per game (both teams) in 1989 to 2.99 in 1993 and 2.83 so far this year. As a comparison, in 1985 the rate of field-goal attempts per game was 3.38.

Longer field-goal attempts — that is, those 40 yards or farther — went from 1.43 per game in 1985 to 0.96 in 1993 and 0.97 so far in 1995. In 1985, both teams tried 1.43 longer field goals per game.

That could indicate that coaches are less inclined to attempt as many longer field goals, especially with the yardage given up if missed.

Other trends

Trends compiled at midseason indicated that both passing and scoring per-game statistics were at record levels. Through games of November 11, the trend continues.

Pass attempts and pass completions were at a record pace, while passing yardage and total offensive yardage were just short of record levels. Pass attempts per game, both teams, averaged 59.0 (record 57.4, set in 1993), while completions averaged 32.2 (record 31.7, set in 1993) and yardage per game averaged 407.2 (record 409.7, set in 1993). Total offensive yardage at 741 per game, both teams, also was just shy of the record of 742.3 (set in 1993).

Scoring per game presently is at 50.1 points per game, both teams — ahead of the record 49.1 last season.

This is the second season since hash marks were moved closer to the center of the field (college hash marks now are 40 feet apart).

The Football Rules Committee made the change partly in response to statistics revealing a gradual, but steady, decline in total offense and touchdowns per game over the previous three seasons. The committee also was concerned that the increasing size and mobility of players over the past decade had made it difficult to use the "short side" of the field when the ball is snapped from the hash mark.

The committee hoped to give the offense more opportunity to use both sides of the field since the spotting of the ball created less of a "wide side" of the field for the offenses, much like the NFL.

Undefeated teams

Only three undefeated, untied teams remain in Division I-A: Nebraska (10-0), Ohio State (10-0) and Florida (9-0). Toledo (9-0-1) has only a tie to mar its season.

Nebraska's Tom Osborne has a chance to post a second consecutive perfect season (12-0 in 1994 plus a consensus national championship).

Since 1937, only nine teams have accomplished that feat. They were Minnesota in 1940 and 1941, Army in 1944 and 1945, Michigan in 1947 and 1948, Michigan State in 1951 and 1952, Oklahoma in 1954 and 1955 (also 1955 and 1956), Penn State in 1968 and 1969, and Toledo in 1969 and 1970 (also 1970 and 1971). No team has done it since 1971.

Nebraska now has the longest I-A winning streak at 23 games. Texas A&M has the longest home-field winning streak at 30 games.

In Division I-AA, five teams are undefeated and untied. They are Appalachian State (10-

First year after hash marks narrowed to 60 feet from each sideline.

0), Hofstra (10-0), McNeese State (10-0), Murray State (10-0) and Troy State (10-0). All five teams are tied for the I-AA longest winning streak — 10 victories in a row.

Unbeatens and schedules

Because going undefeated and untied in college football is so difficult, the factors that go into it generate interest. The combination of talented players, good coaching, schedule strength and, of course, luck, all go into the mix.

Only two national champions (or co-champions) have faced a regular-season schedule rated as the toughest in the nation — Penn State in 1982 and co-champion Colorado in 1990 — and neither finished undefeated. In fact, since the NCAA schedule-strength ratings began in 1977, none of the 31 undefeated, untied (before the bowls) Division I teams had the toughest schedule, and only three faced schedules ranking in the final regular-season top 20.

This year, through the November 11 games, Nebraska's 10 I-A opponents have a .563 winning percentage vs. other I-A teams when not playing the Cornhuskers (ranked 24th nationally). Other undefeated, untied teams' past opponents are Ohio State's .536 (ranked 40th) and Florida's .532 (ranked 43rd). It is interesting to note that for future opposition, Nebraska drops to 48th (.550) by facing Oklahoma (5-4-1 vs I-A teams this year); Florida to 50th (.529) by facing Vanderbilt and Florida State; and Ohio State to 52nd (.526) by facing Indiana and Michigan.

Other football facts

Butler's Arnold Mickens finished his career

November 4 with 3,813 career yards in just 20 games for the Bulldogs after transferring from Indiana. The 6-0, 220-pound Mickens did not match his spectacular 1994 season (409 carries for 2,255 yards), but his statistics in 1995 arguably are even more impressive. With defenses stacked against him and playing for a 2-8 team, Mickens still managed 354 carries for 1,558 yards.

He averaged 38 carries per game (a Division III career mark) and his 191 yards per game would have led all divisions if he had not played 11 games at Indiana before transferring.

In Division II, Emporia State's sensational receiver Jarett Vito established an NCAA all-divisions record for receptions (83) by a freshman through games of November 4. Adams State senior Chris Perry had 20 touchdown catches through games of November 4, tying the Division II record.

On November 4, Division III Ithaca attracted a school-record crowd of 12,511 for its 35-19 victory over arch-rival Cortland State. Interestingly, Ithaca's Jim Butterfield Stadium seats only 5,000. This was the 54th meeting of the two central New York state rivals, located just 25 miles apart.

Division II Bentley had the longest active NCAA winning streak broken at 30 games (Stonehill defeated Bentley 39-36, November 11). Nebraska, a 41-3 winner at Kansas, is now the NCAA leader at 23 straight victories.

Division I-AA's Prairie View ended its season November 11 with a 68-0 loss to Jackson State, extending its losing streak to 57 games — the longest in NCAA history for any division.

Certified

Ten schools are certified and two are certified with conditions; 50 institutions now have completed the process

► Continued from page 3

A designation of certified means that an institution has shown that it operates its athletics program in substantial conformity with operating principles adopted by the Division I membership.

A designation of certified with con-

ditions means that a college or university operates its athletics program in substantial conformity with the Division I operating principles but problems were identified that were serious enough that full certification is withheld until those problems have been resolved.

A designation of not certified

means that the institution is not operating in substantial conformity with the Division I operating principles. Problems were identified that were considered very serious or pervasive. Action must be taken by the institution before it can be conditionally certified.

The institution may be placed in

a restricted membership category for up to a year if it fails to make an effective effort to correct problems within the time frame set by the committee.

If problems remain unresolved at the end of that year, the committee may reclassify an institution as a cor-

responding member (no longer an active member of the NCAA).

An institution can request, within 15 calendar days, a hearing before the Committee on Athletics Certification. If it is still not satisfied, the institution may appeal to the Division I Steering Committee of the NCAA Council.

CHIEF EXECUTIVE OFFICERS

Merrill J. Bateman, former dean of the schools of business and management at Brigham Young, named president at the university, effective January 1...**John E. Brown**, president at Coe, has begun an indefinite leave of absence. **James R. Phifer**, vice-president for academic affairs and dean of the faculty at Coe, has been named acting president...**John C. Buechner**, chancellor at Colorado-Denver, selected as interim president of the University of Colorado System. He replaced **Judith E. N. Albino**, who resigned to return to teaching...**Alice Chandler**, a former member of the Presidents Commission (1990 to 1993), announced her retirement as president at New Paltz State, effective June 1996...The Rev. **Msgr. Milam Joseph**, executive assistant to the president at Dallas, chosen as interim president. Joseph will replace **Robert F. Sasseeen**, who announced he will retire in January...**William L. Pickett**, president at St. John Fisher, announced he will retire in June 1996...**Karl S. Pister**, chancellor at UC Santa Cruz, announced his retirement, effective June 1996...**Paul Risser**, Miami (Ohio) president and professor, chosen as president at Oregon State. Risser succeeds retiring Oregon State president **John Byrne**.

ASSISTANT DIRECTORS OF ATHLETICS

David Pettie, assistant athletics director for development in the men's athletics program at Texas, resigned to enter private business...**Thomas H. MacClarence**, assistant to the athletics director at Siena, named director of alumni relations.

COACHES

Baseball assistants—**Jeff Robin**, assistant baseball coach at West Virginia since 1989, named assistant coach at New York Tech. He replaced **Larry Minor**, who had served as assistant since 1995...**Tony Hubbard** and **Dan Kusinski** selected as assistants at Illinois-Chicago. Hubbard will serve as catching/hitting coach and Kusinski will work with the pitching staff.

Men's basketball—**Bill Evans**, men's basketball coach at Southern Utah, signed

Egeland appointed to head fund-raising

Jana Egeland, who received a bachelor's degree in recreational therapy and a certificate in the Aging Studies Program at Iowa, has been selected to head fund-raising efforts for the women's intercollegiate athletics program at her alma mater.

Egeland, who has worked for the American Cancer Society for nearly six years, served most recently in the position of district vice-president for that organization. **Egeland** coordinated special events and worked with business leaders, health professionals and volunteers to promote patient education and services programs. During her employment, the regional office exceeded fund-raising goals.

Egeland also is involved in numerous civic organizations, including the Iowa City Parks and Recreation Commission, Iowa City Area Chamber of Commerce and Iowa City Jaycees.

Egeland

a contract extension through the 1999-2000 season. Evans was named interim head coach with seven games remaining in the 1991-92 season, then was chosen as head coach in March 1992. His career record through three-plus seasons is 53-27...**Joey Meyer**, men's coach at DePaul, signed a new four-year contract. Meyer, who is entering his 12th season as head coach, has compiled a 217-117 record...**Neil Rosa**, assistant coach at Rider, selected as basketball coach at Ramapo...**Walter Townes**, first assistant coach at Holy Cross last year and a former assistant at Dartmouth, appointed head coach at Clarkson...**Dan Fitzgerald**, athletics director and men's basketball coach at Gonzaga, will relinquish his coaching duties in two years. He will be succeeded by associate coach **Dan Monson**. Fitzgerald will continue as the school's athletics director.

Men's basketball assistants—**Von McDade** appointed assistant basketball coach at Dallas. McDade will work primarily with

the women's team, but also will assist the men's program throughout the season...**Ben Drake** named at Brockport State...Kean selected **Sean Devaney**, **Scott Smith**, **Joe Weipz** and **Bill Zotti** as assistants...**Dan Hanon** and **Rob Barret** joined the Manhattanville coaching staff...**Mike Wilhelm** joined the Haverford men's basketball staff...**Bob McGoff** appointed at Misericordia.

Women's basketball—**Carrie Gladden**, assistant at Worcester State from 1991 to 1994, hired as head coach at Fitchburg State.

Women's basketball assistant—**Richard Copeland** selected as assistant women's basketball coach at Rochester Institute of Technology...**Maura Keenan**, assistant women's volleyball coach at Western Connecticut State, appointed assistant basketball coach there...**Cindy Davies** hired at Misericordia...**Von McDade** appointed assistant basketball coach at Dallas. McDade will work primarily with the women's team, but

NCAA Record

► Continued from page 16

Lombardi Trophy are **Tedy Bruschi**, senior defensive end at Arizona; **Jonathan Ogden**, senior offensive tackle at UCLA; **Orlando Pace**, sophomore offensive tackle at Ohio State; and **Simeon Rice**, senior linebacker at Illinois.

The Kentucky Chapter of the National Football Foundation and Hall of Fame, Inc., selected five quarterbacks as candidates for the Johnny Unitas Golden Arm Award. The senior finalists are: **Tommie**

Minutes

► Continued from page 6

tee reviewed the provisions of 13.7.1.2.4 (academic credentials for official visit prior to the early signing period) and determined the following:

a. If an institution is recruiting a prospect in more than one sport and one of the sports has an early signing period for the National Letter of Intent, the prospect may make an official visit to the institution's campus in the sport that does not have an early signing period prior to receiving certification by the NCAA Initial-Eligibility Clearinghouse per 13.7.1.2.4. Under such circumstances, it is not permissible for any recruitment to occur in the sport that has an early signing period for the National Letter of Intent. The committee noted that if NCAA legislation requires the institution to count a multisport prospect's visit in the sport of basketball, the prospect may not make an official visit to the institution's campus prior to receiving certification by the clearinghouse per 13.7.1.2.4.

b. The provisions of 13.7.1.2.4 apply only to a prospect during his or her senior year in high school. If a prospect graduates from high school but does not enroll in a collegiate institution during the fall term immediately after graduation, an institution may provide the prospect an official visit (subject to all applicable NCAA regulations) in a sport, provided the prospect has satisfied the provisions of 13.7.1.2.3.1 and 13.7.1.2.3.2.

[References: 13.7.1.2.3.1 (PSAT, SAT, PLAN (or PACT Plus) or ACT score), 13.7.1.2.3.2 (academic transcript — Division I) and 13.7.1.2.4 (academic credentials for official visit prior to early signing period)]

Frazier of Nebraska, **Mike Groh** of Virginia, **Bobby Hoying** of Ohio State, **Danny Kanell** of Florida State and **Steve Tannehill** of South Carolina.

The College Football Association selected **Eric DeGroh**, offensive center at West Virginia, as a member of the 1995 Good Works Team. The team consists of 11 players who have performed exemplary community service. DeGroh is a frequent visitor to West Virginia University Children's Hospital and has completed a number of volunteer training classes and workshops.

Proposals

► Continued from page 1

meet requirements to sponsor sports in three seasons because a sport falls below the required number of contests or participants due to circumstances beyond the institution's control.

■ When an institution is unable to meet the September 15 deadline for requesting a waiver related to division membership criteria due to circumstances beyond the institution's control.

Another two proposals would assign the Division I Steering Committee authority to consider requests for waivers in the following situations:

■ An institution's failure to meet the Division I minimum-financial-aid-awards requirement. Adoption of the proposal would provide a waiver opportunity like the one currently available when an institution fails to meet the minimum-sports-sponsorship requirement.

■ An institution's failure to meet Division I scheduling requirements due to circumstances (specifically, bad weather or natural disasters) beyond the institution's control.

Etc.

CORRECTION

A story in the November 13 issue of The NCAA News incorrectly stated that John Smith, Oklahoma State University wrestling coach, was a four-time NCAA Division I individual champion as a wrestler at Oklahoma State. Smith's brother, Pat Smith, who also competed at Oklahoma State, is the only wrestler who has won four Division I wrestling titles. John Smith won two titles as a wrestler; he also coached Oklahoma State

to a team title in 1994. The error occurred in a section of the article where John Smith, who has had more success in international competition than any other American wrestler, commented on why he opposes using the same pretournament weigh-in system at the collegiate level that is used in international competition.

Deaths

Rocco Canale, a former all-American football lineman at Boston College who

later played for the Philadelphia Eagles, died at age 75. Canale entered Boston College in 1939 and played right guard. He was inducted into the Boston College hall of fame in 1993.

Frederick W. Crow, former football end at Ohio State, died November 4 at age 80. Crow is remembered for blocking an extra-point kick in the 1935 "game of the century" against Notre Dame to preserve Ohio State's victory.

— *Compiled by Lisa Stalcup*

Adoption of the proposal would provide a waiver opportunity like the one currently available when an institution fails to meet the minimum-contest requirement for weather reasons.

The other two consent-package proposals pertain to legislation governing awards and benefits for student-athletes. One would increase from \$250 to \$300 weekly the amount of "broken-time" payments an individual may receive from the U.S. Olympic Committee or a national governing body; the other would permit payment of expenses for a women's crew team to practice at a site more than 100 miles from its institution if necessitated by weather conditions.

Mailing of Notice

The Official Notice was mailed to the chief executive officer, faculty athletics representative, director of athletics and senior woman administrator at each NCAA institution; additional individuals identified by some institutions as a fifth recipient of NCAA materials; and every affiliated and corresponding member.

Chief executive officers also were mailed a form on which the CEO

must appoint an institution's delegates to the Convention.

The Official Notice is the final publication of proposed legislation for the 1996 Convention. Proposals will not be reprinted in the Convention program, although that publication will list any necessary editorial changes made between now and the Convention.

Summary

Following is a summary of the six proposals in the consent package, including the sponsor of each proposal.

No. 1: Permit the Council to waive the three-season membership requirement due to circumstances beyond an institution's control. Sponsored by the Council.

No. 2: Increase from \$250 to \$300 per week the amount of broken-time payments an individual is permitted to receive from the U.S. Olympic Committee or the national governing body. Sponsored by the Council, as recommended by the NCAA Olympic Sports Liaison Committee.

No. 3: Permit a member institution

to provide expenses for its women's crew team to practice at a site beyond a 100-mile radius of the institution's campus if necessitated by weather conditions. Sponsored by the Council, the Ivy Group and 16 other member institutions.

No. 4: Permit the Council to waive the September 15 submission deadline for waiver requests regarding division membership criteria due to circumstances beyond an institution's control. Sponsored by the Council.

No. 5: Permit the NCAA Division I Steering Committee to waive requests related to the minimum financial aid awards required for Division I membership. Sponsored by the Council.

No. 6: Permit a waiver of the Division I scheduling requirement in situations beyond the control of the institution (e.g., weather conditions or natural disasters) that prevent the completion of scheduled competition. Sponsored by the Council, the Southwest Conference and seven other Division I members.

Next week: The 35 proposals in the Presidents Commission grouping.

The Market

Readers of The NCAA News are invited to use The Market to locate candidates for positions open at their institutions, to advertise open dates in their playing schedules or for other purposes relating to the administration of intercollegiate athletics. In addition, individuals seeking employment in intercollegiate athletics also are welcome to place positions-wanted advertisements.

Rates: 65 cents per word for general classified advertising (agate type) and \$32 per column inch for display advertising for member institutions. (Commercial display advertising is available only to NCAA corporate sponsors, official licensees and members, or agencies acting on their behalf.) Positions-wanted advertisements are placed on a prepayment basis only.

Word-counting example: "Position wanted. Retired athletics administrator seeks part-time work. Contact: John P. Doe, 1234 Main Street, Anytown, KS 99999-1234, or call 999/555-5555." (22 words x 65 cents = \$14.30)

Copy restrictions: Advertisements that indicate a closing date for applications and nominations must list a date that does not precede the publication date. The NCAA News reserves the right to refuse advertisements that do not comply with this or other restrictions.

For more information, call The NCAA News at 913/339-1906, ext. 3000, or write: The NCAA News, 6201 College Boulevard, Overland Park, Kansas 66211-2422, Attention: The Market. To fax an ad, call 913/339-0031.

Applicants should send a letter of appli-

Positions Available

Athletics Director

Athletic Director. Morgan State University invites applications and nominations for the position of director of intercollegiate athletics. Responsibilities: The director of intercollegiate athletics is responsible for supervision of 14 men's and women's sports, and the administration of a Division I program within the Mid-Eastern Athletic Conference (M.E.A.C.) and the Eastern College Athletic Conference (E.C.A.C.). Qualifications: The successful candidate will exhibit a high standard of integrity and commitment to academic excellence as well as a proven record in senior-level management. He/She will have a thorough knowledge and demonstrated success in matters of importance to intercollegiate athletics, such as

personnel management skills, financial expertise, fund-raising expertise, media relations, gender-equity sensitivity and NCAA compliance regulations. Dedication to the success of student athletes in their academic endeavors, the integrity of the athletic program and support of the university's mission are essential. A master's degree is required, in addition to progressive responsible experience in athletic administration at the assistant director or director level at a college or university. Salary commensurate with experience and qualifications. Send letters of interest, resume and three (3) letters of reference by December 8, 1995, to: Mrs. Armada W. Grant, Director of Personnel, Morgan State University, Truth Hall 318, Baltimore, MD 21239. Morgan State University is an Equal Opportunity/Affirmative Action Employer.

Director of Athletics and Chair of Physical Education. Wilmington College is accepting resumes and nominations for director of athletics and chair of physical education department. The director will plan, administer, develop and evaluate the offerings and activities of

the physical education instructional program, intercollegiate athletics for men and women, and a broad-based program of intramural and club sports. The director is responsible for ensuring a balanced comprehensive program serving student needs in a manner consistent with the guidelines and regulations of the Association of Midstate Colleges and Division III of the NCAA. Additional duties will include staff selection, supervision and evaluation of full-time and part-time faculty, staff and administrators, budget development and management. This is a 12-month, full-time position. A master's degree in physical education or a closely related field is required with a Ph.D. or Ed.D. strongly preferred. The successful candidate will demonstrate a strong commitment to gender equity, and a clear understanding of the Division III philosophy and the role of physical education and athletics in a private liberal arts academic setting. Coaching and teaching experience and a minimum of three years' experience in athletic administration at the assistant or associate level are preferred. Wilmington, a college related to the Religious

Society of Friends (Quakers), enrolls approximately 950 regular students. The college is located in an economically expanding community of 12,000 about an hour's drive from Cincinnati, Dayton and Columbus. Expected starting date is January 2 or as soon thereafter as possible. To apply, submit a detailed letter of application, resume and names of five professional references to: Search Committee, Wilmington College, Pyle Center Box 1187, 251 Ludovic Street, Wilmington, OH 45177-2499. Resumes will be accepted until the position is filled. Wilmington College is an Equal Opportunity Employer and encourages women and minorities to apply.

Position to begin January 17, 1996. Letter, resume, credentials and five references by December 8, 1995, to: Mark Fohl, P.E. Center, University of Minnesota, Morris, MN 56267. The University of Minnesota is an Equal Opportunity Educator and Employer.

Head Varsity Football Coach. Defiance College currently is seeking nominations and applications for the position of head football coach. This position, which reports directly to the director of athletics, is available immediately. The successful candidate will possess demonstrated knowledge, abilities and skills to lead and supervise a highly competitive NCAA Division III football program and to effectively recruit quality student-athletes. All candidates are expected to have earned at least a master's degree in an appropriate academic field of study. Other preferred qualifications will include (1) significant football coaching experience on the collegiate level, (2) thorough understanding of and commitment to a liberal arts-based education, (3) experience and capability in the recruitment of academically sound student athletes, and (4) appreciation of the unique opportunities and challenges associated with employment in a private, church-related, primarily undergraduate institution. Genuine concern for the well-being of the indi-

vidual student-athletes will be a primary expectancy. The selected individual will exhibit such personal qualities and professional attributes as to make a significant contribution to the welfare of the college community. Salary will be competitive and will be commensurate with the skills and experiences of the chosen applicant. While football coaching duties will constitute the major component of this position assignment, the successful candidate will be responsible for other functions depending on institutional needs and the respective capabilities of the selected individual. Candidates should submit a letter of application; a resume describing educational background, employment experiences and coaching duties/accomplishments; the names, addresses and telephone numbers of three professional references; and an academic course transcript of the highest degree awarded. The above application information should be directed to: Dr. Edward F. Hyland, Defiance College, 701 North Clinton Street, Defiance, OH 43512. Review of the applicants will begin immediately and continue until the position is filled. Effective date of employment will be as soon as is reasonably possible. Equal Opportunity Employer/Affirmative Action.

Buena Vista University, an NCAA Division III institution, seeks applicants for the position of head football coach. Applicants should be committed to the philosophy of Division III athletics, and to maintaining a successful program of the highest integrity. The successful candidate must have a deep concern for the overall development and well-being of the student-athlete, and be an active participant in the Buena Vista educational community. Primary duties include coordination of the football program, and recruitment of student-athletes for the program. Limited teaching and/or assistant coaching duties will be included. Applicants should have at least two years of successful football coaching experience at the college level, and a minimum of a master's degree in an appropriate field. Buena Vista University is a dynamic institution of more than 1,000 full-time, main campus students which seeks to attract quality students who desire professional career preparation with a strong liberal arts foundation. Salaries and benefits are competitive. Applicants should send vita, three current letters of recommendation, and transcripts to: Benjamin B. Donath, Associate Dean of Faculty, Buena Vista University, Storm Lake, IA 50588. Review of applications will begin December 4, E.O.E./A.D.A.

CARLETON COLLEGE

HEAD COACH OF WOMEN'S VOLLEYBALL
INSTRUCTOR IN PHYSICAL EDUCATION

A full-time faculty/coaching position at faculty rank commensurate with experience in an NCAA Division III institution beginning August 1996.

POSITION DESCRIPTION—Position combines head coaching responsibility in women's volleyball with coordination of intramural and club sports or teaching in an activity-based physical education program and/or assisting in another sport.

RESPONSIBILITIES—Head coach of women's volleyball; responsible for organizing and administering all phases of this program, as well as recruitment of student-athletes to a highly selective liberal arts institution. Other responsibilities include coordinating clubs and intramurals, and/or teaching in a variety of activity courses throughout the year, and/or teaching content courses such as CPR/First Aid, athletic training, Principles and Methods of Coaching. Other appropriate responsibilities will be assigned by the department chair/athletic director.

QUALIFICATIONS—Bachelor's degree required, master's degree in physical education or a related field preferred. At least three to five years of teaching and coaching experience. Demonstrated ability to coach and teach successfully at the college or high-school level, an understanding of and commitment to academic and athletic excellence in a liberal arts institution and a commitment to the NCAA Division III philosophy.

APPLICATIONS—Send statement of interest, resume and three current letters of reference to: Leon Lunder, Chair/Director, Physical Education Athletics and Recreation Department, Carleton College, One North College, Northfield, MN 55057. Applications accepted until position is filled. Review of applications will begin November 6, 1995.

Carleton College is an Equal Opportunity Employer. Women and minority candidates are particularly encouraged to apply.

Director of Athletics
ST. CLOUD STATE
UNIVERSITY

SCSU invites applications and nominations for the position of Director of Athletics to begin July 1, 1996. SCSU is seeking a highly motivated individual who has an entrepreneurial spirit, a record of success in the development and promotion of fund-raising and marketing programs, the power to motivate, proven experience and skills in developing and sustaining relationships with business and community leaders and high ethical standards.

The Director of Athletics is a member of the management of the university and has responsibility for overall management of an 18-sport intercollegiate athletic program. SCSU is a member of the North Central Conference and WCHA and has 17 Division II and one Division I (men's hockey) teams. Responsibilities include leading a recently reorganized men's and women's athletics program into a single cohesive unit, leading SCSU to full compliance with gender-equity/Title IX objectives by 1999, strategic planning, fiscal and human resource management, NCAA rules compliance and external relations. Qualifications include a master's degree and at least five years of demonstrated and increasingly responsible experience in higher education athletic administration.

Founded in 1869, SCSU is a comprehensive university offering more than 70 undergraduate degree majors and 37 graduate degree programs. The student body is served by more than 700 faculty and numbers more than 14,000 undergraduates and 1,600 graduate students. Academic programs are offered through the Colleges of Business, Education, Fine Arts & Humanities, Science & Technology and Social Studies. Student centers located at eight international sites enhance students and faculty. Central to the future of the university is the ongoing development of a campus and community environment that welcomes cultural diversity. The university is actively seeking people who are committed to this goal.

Applicants must submit a letter of application addressing personal qualifications, vita, transcripts (copies acceptable for initial screening) and three recent letters of professional recommendation to: Dr. Lee E. Bird, Search Committee Chair, Atwood 106, St. Cloud State University, 720 Fourth Avenue South, St. Cloud, MN 56301-4498. Applications and nominations will be considered until January 15, 1996.

SCSU is committed to a policy of nondiscrimination in employment and education opportunities. We recognize that the future of our nation and its higher education system depends on our abilities to educate a diverse student body and welcomes applications from people of protected classes.

Head Women's Volleyball Coach
THE UNIVERSITY OF MINNESOTA-TWIN CITIES

The University of Minnesota-Twin Cities has an opening for a head women's volleyball coach responsible for all phases of a nationally competitive Division I women's volleyball team within the Big Ten Conference and NCAA. Duties include, but are not limited to, recruiting, budget management, effective practice, training, and competition for student-athletes. Overseeing of student-athlete academic performance; compliance with NCAA and Big Ten rules and service to the department and community in a positive manner. A bachelor's degree and five years' collegiate level women's volleyball coaching experience is required of any applicant for consideration. Preference will be given to candidates with Division I women's volleyball coaching experience and five years' Division I head women's volleyball coaching experience. 100 percent time, fixed term greater than one year appointment, starting as close to January 15, 1996, as possible. Salary very competitive. Send letter of application, resume and list of three references to Chair, Search Committee for Women's Head Volleyball Coach, Women's Intercollegiate Athletics, 516 15th Avenue SE, Minneapolis, MN 55455, or fax to 612/626-7926. Applications must be received by 4 p.m., December 11, 1995.

The University of Minnesota is committed to the policy that all persons should have equal access to its programs, facilities and employment without regard to race, religion, color, sex, national origin, handicap, age, veteran status or sexual orientation.

STRENGTH AND CONDITIONING/
ASSISTANT FOOTBALL COACH
Millsaps College

Millsaps College, NCAA Division III college, seeks applications for a strength and conditioning coach for all sports who also will serve as an assistant football coach (preferably offensive line). Interested candidates should send a letter of application, resume and three letters of recommendations by December 8 to:

Ron Jurney, Director of Athletics
Millsaps College
1701 North State St.
Jackson, MS 39210

An Equal Opportunity Employer.
Women and minorities are encouraged to apply.

Valdosta State University
Director of
Athletic Advancement

Valdosta State University, Georgia's newest university, is undergoing a period of rapid growth with an enrollment of 9,594 students representing 48 states and 50 countries.

A senior regional university of the University System of Georgia, Valdosta State has a service area stretching from the Alabama state line to the Atlantic Ocean. Valdosta State's athletic program competes in 11 intercollegiate sports at the NCAA Division II level. The Blazers and Lady Blazers are members of the Gulf South Conference.

Reporting directly to the Director of Athletics, the Director of Athletic Advancement will have primary responsibility for the Athletic Annual Fund, the athletic department's capital campaign, and Blazer Booster organization. The ideal candidate will be an energetic self-starter with a minimum of two years' experience in fund-raising, computer competent and demonstrate the ability to work with volunteers.

A baccalaureate degree is required; advanced degrees are desirable. Compensation will be commensurate with experience.

Please send resume and history of fund-raising accomplishments to: Mr. Herb Reinhard, Director of Athletics, Valdosta State University, Valdosta, Georgia 31698-0500. Deadline is December 15, 1995.

EOE M/F

■ Legislative assistance

1995 Column No. 41

NCAA Bylaws 11.7.1.1.1, 11.7.1.1.1.1 and 11.7.1.1.1.3

Countable coach/outside consultants — Division I

NCAA Division I institutions should note that in accordance with Bylaw 11.7.1.1.1, an athletics department staff member must count against coaching limits as soon as the individual participates (in any manner) in the coaching of the intercollegiate team in practice, games or organized activities directly related to that sport, including any organized staff activity directly related to the sport. Further, pursuant to Bylaw 11.7.1.1.1.1, institutional staff members involved in noncoaching activities (e.g., administrative assistants, recruiting coordinators in sports other than football, academic counselors) do not count in the institution's coaching limitations, provided such individuals are not identified as coaches, do not engage in any on- or off-field coaching activities (e.g., attending meetings involving coaching activities, analyzing videotape or film involving the institution's or an opponent's team) and are not involved in any off-campus recruitment of prospects or scouting of opponents.

Pursuant to Bylaw 11.7.1.1.1.3, an institution may hire a temporary consultant to provide in-service training for its coaching staff; however, no interaction with student-athletes is permitted unless the individual is counted against applicable coaching limits.

During its August 31 and October 5, 1995, telephone conferences, the NCAA Interpretations Committee determined that it is permissible for a student-athlete(s) to receive assistance from an individual outside of the institution (e.g., consultant, professional instructor) without the individual being counted in the institution's coaching limitations, provided the institution is not involved in any way in arranging for such activity, institutional coaching staff members do not observe such activity and such activity does not occur at the institution's facility (either during voluntary workouts or during regular institutional practice sessions). Further, the student-athlete(s) must pay all the fees (at the going rate) associated with the activity and may not receive preferential compensation arrangements (e.g., discount rate,

deferred payments) not available to the general public.

NCAA Bylaws 15.2.2 and 16.5.1-(d) Meals incidental to participation

NCAA institutions should note that in accordance with Bylaw 16.5.1-(d), all student-athletes are permitted to receive a pre- or postgame meal or snack as a benefit incidental to participation. During its November 17, 1993, telephone conference, the Interpretations Committee determined that it is permissible for student-athletes to receive a snack the night before an institution's contest as a benefit incidental to athletics participation. Further, during its October 5, 1995, telephone conference, the Interpretations Committee determined that if a student-athlete has received the permissible number of daily meals provided in accordance with the institution's policy for all students, it is not permissible for an institution to provide the student-athlete an additional snack or meal after an evening practice (other than a snack on the evening preceding the day of the institution's competition in that sport).

NCAA Bylaw 16.8.1.2.3

Meal allowance limitation

NCAA institutions should note that in accordance with Bylaw 16.8.1.2.3, all student-athletes on the same team must receive identical meal allowances on intercollegiate trips. Such allowances may not exceed the amount provided by the institution to institutional staff members on similar trips. During its October 5, 1995, telephone conference, the Interpretations Committee determined that if an institution provides a student-athlete a meal allowance (in lieu of actual meals) on an intercollegiate trip (including postseason trips), it is not permissible for the institution to provide a meal allowance for a particular meal if the student-athlete will be receiving that meal (or the equivalent of that meal) from another source (e.g., sponsor of the event).

Expenses for regular-season competition during vacation period

NCAA institutions should note that in accordance with Bylaw 16.8.1.4.1, an institution may provide transportation during a

vacation period for a student-athlete to travel from campus to the site of an NCAA championship or a postseason bowl game and back to campus. However, pursuant to Bylaw 16.8.1.4.1.1, if the student goes home during the vacation period, the institution may pay (in lieu of providing team transportation) the greater of the transportation costs for the student-athlete to travel from: (1) campus to the event site and back to campus; (2) campus to the student-athlete's home and back to campus; or (3) the student-athlete's home to the event site and back home. Please note that the provisions of Bylaw 16.8.1.4.1.1 are not applicable to regular-season competition (including holiday tournaments) that occurs during the institution's vacation period. During its September 15, 1994, telephone conference, the Interpretations Committee determined that an institution may provide transportation expenses during the vacation period to a student-athlete to travel from the student-athlete's home to a regular-season competition site (or foreign-tour site) and back home after the competition, only if the student-athlete pays the equivalent of one round trip from campus to the student-athlete's home and back to campus during the vacation period. It is not permissible to provide expenses from the student-athlete's home to the competition site if such activity results in the student-athlete receiving a free "leg" of transportation during the vacation period. Further, during its November 29, 1994, telephone conference, the Interpretations Committee determined that it is permissible for an institution to purchase a ticket to cover any of a student-athlete's transportation expenses (e.g., expenses from home to the event site and back to campus) in conjunction with regular-season competition during a vacation period, provided the student-athlete reimburses the institution for the value of any portion of the trip from campus to the student-athlete's home and back to campus for which the student-athlete has not paid. Under such circumstances, the student-athlete must reimburse the institution prior to his or her departure for the competition.

This material was provided by the legislative services staff as an aid to member institutions. If an institution has a question or comment regarding this column, such correspondence should be directed to Nancy L. Mitchell, assistant executive director for legislative services, at the NCAA national office. This information is available on the Collegiate Sports Network.

Endorsement

Knight Commission supports restructuring plan; officials regard proposal as final piece of reform package

► Continued from page 1

ple for the future of intercollegiate athletics. This means that accountability will be matched by authority within the Association as well as within our institutions. At the same time, the plan provides for the full participation of professional athletics administrators and academic personnel within a federated structure that streamlines decision-making.

"The Knight Commission has called the reform movement a journey without an end," Albino continued. "Their endorsement of the restructuring plan represents a major step in that journey."

Albino said that many chief executive officers

have an interest in intercollegiate athletics and are willing to devote time to oversight of athletics budgets, policies and management.

Dempsey said the Knight Commission has played a valuable role in reform of intercollegiate athletics and continues to do so by supporting restructuring.

"The key to the passage of this is the commitment of college and university presidents," Dempsey said. "The Knight Commission will be invaluable in signaling to the higher education community the importance of restructuring."

The Oversight Committee on the NCAA Membership Structure has said that the restructuring plan will establish chief executive officers

"as the primary decision-makers in the NCAA" by:

■ Making CEOs "the sole members of the primary governing bodies within each division."

■ Creating an Association-wide Executive Committee made up of 16 CEOs chosen from the membership divisions' executive committees. The Association-wide Executive Committee's powers "would include the oversight of the Association's budget, evaluation of the executive director, and attention to Association-wide matters."

Officials of both the Knight Commission and NCAA conceded that restructuring will not end problems in intercollegiate athletics.

"You're always going to have people in sports

who are going to try to break the rules, no matter who's making them or no matter what the rules are," said Creed Black, president of the Knight Foundation, which formed the commission.

Education organizations also have endorsed restructuring, including the National Association of Independent Colleges and Universities (NAICU).

"I think this is the moment now for presidents to stand up, vote their own accountability and be willing to assume the responsibilities that follow," David Warren, NAICU president and a former Division III chair of the Presidents Commission, told The Associated Press.

On goal — Franklin Pierce College's Pauliina Miettinen launches a shot during the NCAA Division II Women's Soccer Championship November 12. Miettinen scored two goals and assisted on another in Franklin Pierce's 5-0 victory over Barry University. The Ravens finished 20-0. See championship story, page 8.
